Community Club's **Program Questions** Way Toward Peace

Town Meeting Discusses Post-War World

"How can we best achieve a durable peace?" was the topic last Tuesday evening when Mrs. Edwin H. Coggeshall, Mr. Raymond Pearlstine, and Dr. Elizabeth B. White presented their views at a "Town Meeting" program in Bomberger hall. The Collegeville Community club and the Ursinus College Forum committee were co-sponsors.

Mrs. Coggeshall, former president of the Community club, discussed the desirability of planning the peace now. "Victory in the war," of the World Student Service Committee as it launches a drive today in behalf of the World Student Service Fund. The Ursinus share of the \$300,000 national goal has been set at \$250. The WSSF provides direct relief for students and professors who are the evils in the international social and economic set-up."

sideration of a lasting peace. THE WSSF — A CHALLENGE

Today the World Student Service Fund drive is once again launched at Ursinus. This year, a year of the greatest need throughout the world, Ursinus should reach a new high in raising funds to aid the thousands of unfortunate students who have been driven from house and home, as well as from school and university

We sometimes fail to realize how really fortunate and secure we are at Ursinus. True, many of us will soon have to enter the armed services, but as yet we have been hardly touched by the war. We can still live and study and indulge in social activity very much as we did before the war. We have air-raid alerts, but thus far they have only been practice efforts. As yet we have not come face to face with the harsh realities of war.

But there are many students throughout the world who have - yet they still carry on. Hundreds of Chinese students, driven from schools in Hankow and Nanking, trudged miles across the devastated land of China to new locations, only to be driven from them in turn. Czechoslovakian, Polish, Belgian students — where are

Aid must be given those students who are still trying to carry on in the face of unsurmountable difficulties. These are the people who will be instrumental in the construction of a new world of the future. They have been persecuted, oppressed, routed out of their homes; they need funds to rebuild their schools, supply sustenance for their emaciated bodies, provide the materials needed for the continuation of educational activity.

It's not asking too much for us to give up three desserts in the course of a week for this cause. In fact, we should be willing to do something more-to give an additional contribution to the drive.

So get behind it.

Raise the Ursinus quota.

Put the Ursinus 1942 WSSF drive over the

E. E. H. '43A

TRIPPED — ON THE FIRST STEP

Once again a small group of men - this time Southern Democrats - have stopped the passage of a needed reform, making one wonder what the post-war world will be.

The defeat of the anti-poll tax bill is one of the greatest Axis' victories of the war. Hitler and his henchmen will proclaim to the world that America doesn't have enough faith in democracy and the rights of minority groups to prevent discrimination against the Negro in Southern voting.

Hitler will ask the world how it can expect a fair deal from a nation which won't give a fair deal to its own citizens. The trouble is that such a question is entirely logical—how can a nation which won't set aside racial prejudices among its own minority groups ever hope to resurrect the world?

America had a chance to take a step toward post-war reconstruction. America failed.

****************** As a Woman Sees It - - -

Perhaps it seemed ironical that on Thursday we observed Thanks-The war has scattered giving day.

our friends and relatives over strange lands and seas—when will come they marching home again we don't know. Yet we bowed before our altars in the spirit of

Thanksgiving to say that, come what may, life—our way of life—is still worth living.

Actually it was the same back in 1620 before there was any debate as to whether the celebration should be on the third or last Thursday in November. The Pil-grim fathers found cheer in the shadow of want and fear.

Times were tough then, but they had enough, were duly grateful, and so should we be. Of course, the OPA is rather persnickity about coffee and sugar rationing. Four gallons of gasoline and six tires may soon become beautiful pipe dreams. Uncle Sam will probably have all the boys sporting brass buttons and playing havoc the Hitlerites. Sudden blackouts unfortunately interrupt the labor of diligent students. But the tur-key was fat, and there was lots to keep us from grim starvation. You would have to go far in this war torn world to find another such substantial meal.

Let us offer a prayer then for those who are fighting to keep our American tradition - the turkey and cranberry sauce and pumpkin pie type dinner. But don't think that prayer alone can win the war; God can't be expected to win our battles without support from us. Action is necessary on our part too, so let's begin right now—how about giving up that strawberry ice cream cone you buy from the Supply store every time dessert has been particularly uninteresting, or how about forfeiting your nightly lemon coke at Brad's and hamburger with relish?

No, we are not kidding, we mean do without them and turn that money into defense stamps: Stamp out the Axis.

THE MAIL BOX

To the Editor: Dear Sir:

- BEAR FACTS -

I trust that you will find opportunity to rectify the impression of Dr. Brun's speech of November 18th that is given in your article on page four of the Weekly of Nov. 23rd. In addition to its reflection on our hospitality and good taste, this article violates one of the cardinal tenets of news reporting in a college paper: it is so written as to express editorial opinion without being signed. Furthermore, it shows the danger of citing passages taken from their context.

One can understand M. Brun's reluctance to be categorical about (Continued on page 4)

2 R C Commentator

SECOND FRONT — WHERE?

Clement Attlee, deputy prime minister of England, said in a recent speech that the Northern African action has made the Mediterranean safe and has opened up bright prospects for the future. This is taken to mean that the recent events in North Africa have been a preface to the opening of a second front in

Of course, there cannot be a second front for several months. There is still Axis opposition to be taken care of. The total area in North Africa to be covered is large. Even after resistance has been overcome some time will have to be spent in consolidating positions, building fortifications, and gathering supplies. All this may not be completed before spring. It is perhaps significant that spring is considered a very favorable time for a western European offensive.

The route that the European offensive from the South will take when it does come is a source of much speculation. There are three possible routes: one by way of Greece, Albania and the Balkans; one by way of Southern France; and one through Italy. The Axis has realized these dangers and is making every possible effort to strengthen these three areas. Here is the reason for the desperate German stand in Tunisia, since the distance across the Mediterranean is very narrow there. Geographically speaking, the route by way of Sicily, Italy and Sardinia is considered best by many.

There are other reasons why many believe the offensive should go through Italy. Italy has long been considered the weakest link in the Axis chain. The Italian people did not want the war and it has never been popular with them. Recent events have intensified this feeling. The bombings of Italian towns have been severe and the Italians have evinced no great ability to stand up under the strain. With the United Nations controlling North Africa, Italy can be bombed more easily and extensively. The Italians realize this danger and are disturbed by it. Progaganda Minister Alessandro Bavolina recently advised voluntary evacuation of those cities which are likely to be bombed. Morale everywhere seems low. Too, the economic pressure is severe. In the last war Italy imported food. In this war she is being forced to export it to Germany. This situation further increases the growing dissatisfaction. That Italy is a logical point in which to begin the European second front is realized by the Axis.

On the other hand, there are forces opposing those which tend toward Italian disintegration. If left to herself it is very likely that Italy would crack within a few days. However, she is completely dominated by Germany. The Nazi government is putting more and more troops and Gestapo agents into the country. Although no accurate information about the number of these can be obtained, they are well equipped and are placed at strategic points. It is by this pressure that Italy is held together.

Naturally, any increased weakness or disintegration on the part of Italy will benefit the United Nations. It is to their interest to make every attempt to further these processes. This can best be done by making every effort to impress the Italian people with our friendly feeling toward them and with our desire to help them re-establish independence after the war. E. J. CASSATT '45

SAY IT WITH POETRY

Nice Way To Say It

When he asked her to wed "Go to father," she said,

And she knew that he knew that her father was dead.

And she knew that he knew the kind of life father'd led,

And she knew that he knew what she meant when she said. "Go to father."

. No Gas Worries, Though

When Noah sailed the ocean blue, He had his troubles just like you. For forty days he steered the Ark, Before he found a place to park. * * * * *

Coy Coed Type

There once was a maiden from Siam Who said to her sweetheart, "Oh Priam, You can kiss me, of course, But you'll have to use force, And goodness knows you're stronger than I am."

. Ode to the Day of Upsets

On the day that Georgia beats Georgia Tech And Boston falls to Cross, Is a day for Ursinus always to play-We'd toss the best for a loss.

Give War Calls the Right of Way!

TELEPHONE lines are crowded with ■ calls—and many of them are vitally important to the armed forces, the government and war industries.

To give war calls a clear track and full speed ahead, adopt these telephone tactics for the duration:

- 1. Don't make any unnecessary calls.
- 2. Keep all calls as brief as you can.
- 3. If you must use Long Distance, make your calls on Sunday, if possible -or after 9 P. M. at night.

WAR CALLS COME FIRST!

defeated season.

Showing undisputed power the George Miller, speeding right end whole season, the Giants took pos- of the Giants, found a nice soft session of the mythical crown of place to sit on the slippery turf of the end zone, sat down, and took the first Ursinus 150-lb. intramural in one of John Rorer's passes. Thus, sitting down, Miller gave Utilizing a terrific running at- Giants a 6-0 win over the Packers and also the 150 lb. intramural tack, a flashy passing combination, football championship. and an airtight pass defense, not

Aside from that one play, each team was virtually ineffective as the Giants completely overpowered both lines rose as tremendous barriers during the entire fracas. The Rorer boys' famous attack fell before a powerful, though underrated Packer line. However, at first undefeated hockey season in Giants, yet lacking the final push times one of the midgets would get needed to catch up with the lead- loose. In fact, it was only after a series of end-runs that the Giants found themselves in position to deliver the fatal blow

> The first quarter was a purely which rivalled the fast-moving defensive affair as each team tried for to maneuver into scoring position by punting. It was a Moore vs. Rorer booting duel with neither realizing the advantage.

> The Rorers began their sparkle in the second frame as they alterable to cope with the power and nated in the ball-carrying slot to advance the leather to the enemy The final game between the two 15. Here, John Rorer tossed to teams was cancelled to save the Dan Chance, who was smothered football field, and the contest was on the 5. On the next play J Rorer threw to Miller who staged his sit-down scoring act. Tom Rorer attempted to circle end for the extra tally but was felled by a furious Packer line.

During the second half the rain was beginning to fall more regularly, making footing very uncertain and at times strictly precarious. However, the Giants managed a pair of short-lived attacks which washed up around the Packer 20.

The last period brought futile attempt at comebacks by the Packers with Moore and Verdelli tossing the slippery oval with amazing accuracy. Rangy George Moore at one time completed six straight tosses which went for naught when the receivers lost their equilibrium. The final gun found the two teams in mid-field neither having any particular advantage.

The game clearly showed the superiority of the Keefe-coached Giants with Dan Chance, Archie Miller, and Harry Kehm all per-forming beautifully in the line, while the Rorers turned in their usual fine performance in the back field. Moore, Verdelli, Young, and Hamer looked good on the Packers' second-place club.

ENGLISH CLUB TO MEET AT McCLURE'S HOME TONIGHT

"The Plenty of Pennsylvania," a delightful book filled with gusto and enthusiasm, by Cornelius Weygandt, will be reviewed by Betty Reese '43A, at the regular meeting of the English club tonight at 8:00 p. m. at the home of Dr. McClure.

This narrative is written by an author who fully understands and appreciates the state he calls "a land of plenty, a land flowing with milk and honey." It is a story written about the heritage of the seven civilizations - Hollanders, Swedes, British Quakers, Pennsylvania Dutch, Scotch Irish, New Englanders and Virginians which all settled in the State before the Revolution.

In this book, Mr. Weygandt, a native of Phidadelphia, has im-mortalized the old customs, folkways and cultures peculiar to his home state and has created a true picture of Pennsylvania.
