Kansas author and FHSU alum Lynda Beck Fenwick has a forthcoming book from the University Press of Kansas in December, just in time for holiday giving. *Prairie Bachelor: The Story of a Kansas Homesteader and the Populist Movement* describes the late 1800s, sharing daily journal entries of Stafford County homesteader Isaac Beckley Werner and Fenwick's research in cemeteries, courthouses, museums, interviews with descendants, as well as more traditional research sources. Werner, a farmer, contributed to populist newspapers and journals and was an active participant in the Populist Movement which made such an imprint on Kansas and the nation.

Fenwick will talk about her extensive research that reached into not only the personal impact of the Populist Movement on Isaac Werner and his pioneer neighbors but also changed the role of government today, including things we now take for granted that originated in this nearly forgotten Movement. The expected release for the book is early December, and you can learn more about the author at <https://lynfenwick.com> and her blog at <https://lynfenwick.blogspot.com/>.
