WARRANT FOR ANNUAL MEETING

State of New Hampshire

To the Inhabitants of the Town of Amherst in the County of Hillsborough, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Amherst, on Tuesday the eighth day of March next, at eight o'clock in the forenoon to act upon the following subjects.

1 To choose all the necessary Town Officers for the ensuing year.

2 To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriations for the same.

3 To see if the town will vote to allow the usual discount on taxes; 3 per cent. to July 1st, and 2 per cent. to August 1st.

4 To see if the town will vote to raise and appropriate the sum of \$956.49, State to give \$3825.99 for classified road improvement.

5 To see if the town will vote to receive State Aid: the State to pay \$182.00, the town to pay \$1822.00. Must be spent on Mont Vernon Road. The State will not cooperate on both Articles 4 and 5.

6 To see if the town will vote to give the Town Treasurer authority to borrow money in anticipation of taxes.

7 To see if the town will vote to gravel Clark's Avenue at Baboosic Lake, by Petition.

8 To see if the town will vote to raise and appropriate the sum of \$75.00 for the purchase of a chassis to take the place of the old one on the Baboosic Fire Truck by Petition. 9 To see if the town will vote to raise and appropriate the sum of \$75.00 to paint the town clock.

10 To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-first day of February, in the year of our Lord, nineteen hundred and thirty-eight.

> CLINTON H. HOLT, RALPH C. BILLS, Selectmen of Amherst

\$1535 87

We hereby certify that we have this day examined the foregoing accounts and find them correctly cast and properly vouched.

> MALCOLM D. CLARK, ASHTON L. MARTIN,

Auditors.

Amherst, N. H., Feb. 10, 1938.

A total of \$3883.04 was spent for the maintenance of town highways for the year February 1, 1937 to January 31, 1938. This amount may be divided into the following divisions and amounts:

Road agent's account, \$400, includes salary, car hire and expenses; W. P. A. project, \$600, includes foreman's salary, sharpening tools, materials purchased, and blasting on Baboosic Lake Road; posting and closing roads, \$80.00, includes lumber, making and painting signboards (several years ago it was voted to close several roads but this was never done. These signs were made with the idea of closing these roads but lack of funds did not permit this); gravel patch, \$300, includes filling of mudholes and washouts; gravelling, \$175, includes several short stretches of road gravelled; tools and equipment, \$800, includes purchase of power grader, rubber tires and other equipment for the grader, shovels, picks and other small tools; machining roads, \$900, includes about six weeks' work in Milford (received \$313.25 from Milford); patching, \$225, includes purchase of cold patch, mixing and applying to roads; culverts, \$100, includes purchase of pipe and re-laying of several stone culverts; grader expense, \$225, includes gas, oil and repairs; miscellaneous expenses, \$75.

A total of \$2025.55 was spent for oiling roads. Approximately \$200 of this amount was spent for patching roads before oiling. The roads oiled under this account were: Baboosic road, 2 miles, Cemetery road, Upper Flanders, Mont Vernon Street, Depot Street, and Foundry Street.

A total of \$1534.87 was spent for snow removal. This included \$276 for the purchase of snow fence. Approximately \$200 was spent for the erecting and taking down of snow fence. The remainder was spent for plowing snow.

Under the T. R. A. appropriation this year the folowing work was accomplished: the Baboosic road constructed in 1936 was oiled, the Parker road was oiled, Church Street was constructed and oiled, a short piece connecting the Mont Vernon road was constructed and oiled, Border Street was gravelled, Souhegan Street gravelled, and 8650 feet of the South Merrimack road was gravelled commencing at Cricket Corner.

In regard to appropriations for 1938-39 I should advise the following amounts: Maintenance, \$4500; Snow, \$3000; Oiling, \$1500.

Under maintenance I have made the following

divisions: Grader, \$400, for gas, oil, repairs, etc.; Patching \$500, Fencing \$250, Culverts \$500, Road Agent \$500, Blasting and Drainage \$500, Gravelling \$500, Grader Operator \$400, Brush \$500, Tools and Equipment \$200, Miscellaneous \$300.

Snow removal is purely guess work as regard to cost. I would advise the above amount rather than any less. It is better not to spend quite all of the appropriation rather than overrun.

Under oiling I would state that the following roads need oil: Baboosic road from Wilbert Parker's to Andrew Spalding's; Parker road and the new piece at Baboosic; new pieces in the village. Roads that have been constructed under T. R. A. will require only sanding as the state will purchase the oil used if T. R. A. funds are voted at town meeting.

> GEORGE H. HOWARD, Road Agent.

REPORT OF TOWN CLERK

For the Year Ending January 31, 1938

This is to certify that I have issued Permits for the Registration of Motor Vehicles from February 1, 1937 to January 31, 1938 inclusive to the amounts as follows: For the year 1937 \$1,275 09

> Z. B. KEMP, Town Clerk.

Amherst, N. H., Feb. 10, 1938. We hereby certify that we have examined the foregoing accounts and find them correct. MALCOLM D. CLARK, ASHTON L. MARTIN, Town Auditors.

SEXTON'S REPORT

Reporting on the Cemeteries I find the greatest problem for the future is a Cemetery. For those that have lots no anxiety is felt, but for new lots it is sifted down to six double lots.

We hate to think of it, but an epidemic like 1918 would be very disasterous and grave.

For the benefit of those not familiar with the conditions, there are three restrictions forbidding any burials within a certain distance of said houses as in restrictions.

It sifts down to the town buying a piece of ground suitable, free from restrictions, and start a new Cemetery.

Please think this over seriously and discuss it at the Town Meeting as something has got to be done.

CLARENCE H. HAGAR, Sexton

WARRANT FOR ANNUAL MEETING

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Amherst, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 8th day of March 1938, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a Member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year, July 1, 1938 to June 30, 1939.

5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.

6. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.

8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the District, as determined by the School Board in its annual report. 9. To see how much money the District will raise and appropriate for special repairs and alterations of school property, for new equipment, or for new construction.

10. To see how much money the District will raise and appropriate for insurance of school property.

11. To transact any other business that may legally come before said meeting.

Given under our hands at said Amherst this 14th day of February, 1938.

RALPH P. CURRIER, WOLCOTT STUART TELFER, A. L. UNDERWOOD, School Board.

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Amherst of which the above is a true summary for the fiscal year ending June 30, 1937, and find them correct in all respects.

MALCOLM D. CLARK, ASHTON L. MARTIN, Auditors.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Amherst:

I herewith submit my nineteenth report which is the twenty-ninth in the series of such reports.

Supervisory School Union No. 40

The School Districts in the Union are Amherst, Brookline, Hollis, Milford, and Mont Vernon. Hollis came into the Union July 1, 1933.

The several School Boards of a Supervisory Union together constitute a joint committee which meets annually between April 1st and June 1st at a time and place fixed by the Chairman of this joint committee. This committee organizes and chooses a Chairman, Secretary, and Treasurer. At the present time Mr. Francis C. Reagan of Mont Vernon is Chairman, Mrs. Jennie S. Fessenden of Brookline is Secretary, and Mr. Raymond A. Dver of Milford the Treasurer. This joint Board nominates a Superintendent of Schools, fixes his salary and apportions the salary among the several districts. A Union may add such amount as they determine to the minimum amount paid by the state which at present is \$2000. The additional amount voted by the Union for the current year ending June 30, 1938 is \$1600. This is divided among the several districts as follows: Amherst 17%, Brookline 8%, Hollis 14%, Milford 56%, and Mont Vernon 5%.

This joint committee also has authorized the employment of a clerk in the Superintendent's office. For salary of clerk and other office expenses the Union has appropriated \$890 distributed as follows: Amherst \$151.30, Brookline \$71.20, Hollis \$124.60, Milford \$498.40, and Mont Vernon \$44.50.

In nominating a Superintendent of Schools each district is entitled to three representatives having one vote each on the joint Board. Each district employing more than eight full-time teachers is entitled to one additional vote for each five teachers or major part in excess of eight, hence, each district has three votes and Milford four additional.

Teachers and Instruction

One change only has occurred in the teaching staff. Mr. Howard F. Mason, after two years of successful service as Headmaster, accepted a similar position at a substantial increase in salary at Lincoln High School and in his place Mr. Gordon R. Ayer of Keene was appointed. Mr. Ayer is a graduate of the University of New Hampshire and Keene Normal and has taught four years—one year in Penacook and three years in Walpole.

During last summer, 1937, Mr. Ayer, Mr. Mason and Mr. Hanson all attended New Hampshire University and Miss Gott studied at Keene Normal School.

All other teachers have had several years of experience and in most cases have attended summer school one or more years since coming to Amherst. Such a situation is a fortunate one because instruction is very likely to suffer with frequent changes in teachers or when teachers fail to keep abreast of the times. The staff in Amherst are interested in teaching and in children, which means that they would quite agree with Angelo Patri who puts it thus:

"I would like to teach every child in the schools, every student in the colleges, every worker in apprenticeship, to study to perfect themselves physically, mentally, morally, through their chosen work. That is their business. It is also the business of their elders. The first step forward in any cause begins with the perfection of the individual, within his own soul."

Adult Education

The Milford correspondence center, so-called, as started last year is being continued by the State Board of Education under the Works Progress Administration. Mr. Albert N. French of Durham continues in charge. His schedule brings him to this territory each Tuesday and Wednesday. Three fields of study are available—as follows: courses in social studies; courses in engineering; courses in academic subjects.

At present about one hundred eighty persons are registered. Study courses and textbooks are furnished without cost to the enrollee. Although most of the study is done at home, a weekly conference with Mr. French is expected. For further information consult Mr. French or the Superintendent of Schools.

New Elementary Building

Acting under article nine in the 1937 school warrant the District authorized funds for the building of a new two-room elementary school. A building committee was at once appointed and the building was completed for occupancy at the opening of school in September 1937. This building fills a much needed want for relieving congestion at the High School building, eliminates the rental of the upper room in the Congregational Church property and makes it possible to close all rural schools. A full report of the building committee will be found elsewhere.

Rural Schools

No rural schools are maintained at the present time. It may be of interest to have recorded what has happened to the various buildings. The table below gives the story:

(Numbers indicate original district numbers.)

1. Village building-described above.

2. Border Street: Sold to Mr. Whitfield Wiles June 18, 1937 for \$600. This included the building and land. School was last held in this building during 1930-1931.

3. Cricket Corner: This building was closed in June 1935. The District has already authorized the School Board to sell this property.

4. Christian Hill: School was last held in 1913.

The property is now owned by Mr. H. L. Patterson who purchased it for \$137.50.

5. Ponemah: This school was closed in June 1928 and the building sold for \$65* in April 1933 to Mr. Edward Bartlett, who moved it across the road where it has been made into a dwelling house.

6. Pond Parish: School has not been held in this building for many years. It was finally sold in June 1934 to Jean Eustis for \$25.

7. Greeley: This school was closed in 1930 and was sold at auction on April 29, 1933 for \$210.* It is now owned by Miss Bertha L. Piper.

8: North: This school was closed in June 1930 and the building sold in 1935-1936 to Mr. R. G. Sherman who remodelled it into a house. The District presumably had no clear title to the land.

9. Chestnut Hill: This school was closed in 1919 and finally sold at auction on May 15, 1933 to Mr. J. E. Hughes for \$103.50. It has since been used as a summer home.

10. This building was located on the Manchester Road near property owned by Mr. Lincoln and was purchased on January 9, 1930 for \$155 by Mr. Charles Pherson who moved it about half a mile nearer Amherst village where it was made into a dwelling, but later it burned to the ground.

* Expenses for sale of Greeley and Ponemah schools amounting to \$45.55 should be deducted to secure net proceeds.

Brick Building

This structure, which was built in the 1850's, still serves as a High School and for grades V, VI, VII, VIII. The vote of May 1853 was to erect a twostory brick building on land which was purchased from Mr. William Reed for \$200. In June 1855 the bell was given by Mr. Aaron Lawrence to whom a vote of thanks was extended by the district in 1856.

Grades V-VI are now using the former primary

room—the north room on the ground floor. These grades have been housed in rented quarters since September 1935. The room vacated by grades III-IV is used as a class room for grades VII-XII.

The building has been painted inside fairly recently, floors have been de-oiled and waxed, a ventilating system has been installed, electric clocks were purchased in 1937 in place of the old common clocks which were worn out, and doors and windows of the entire building have been weather-stripped.

Needs for the future include a new floor in the High School room, completion of ventilation, laboratory stools, refinishing of blackboards, extension of water line to the second floor, better heat for laboratory use such as Pyrofax gas, and painting of exterior.

Transportation

Now that all rural schools are closed, transportation is a major item to be arranged each year. Fortunately roads are constantly being improved and so routes become much easier to lay out. The law regarding transportation remains the same—all elementary pupils (Grades I-VIII) who live two miles or more from the school to which assigned must be provided with transportation. They may be required to walk not to exceed one mile to meet the conveyance. Transporters are allowed to carry high school pupils if they so desire provided there is room in the conveyance. The School District, however, assumes no responsibility for other than regularly enrolled elementary pupils.

Mr. Malcolm D. Clark has a contract at \$3100 for practically all of the transportation; this was awarded on the basis of bids submitted. The service rendered is excellent—clean school buses of adequate size, skilled drivers, and service practically always on scheduled time.

The Classroom Teacher

Mr. Daniel W. MacLean of Berlin, President of the New Hampshire State Teachers' Association has recently written:

"... The world, since early dawn, has produced great teachers whose influence has brought about great changes in our political, social, and economic life. In this great rush of the machine age in which we now live, the importance of the classroom teacher, in a great many cases, is lost sight of . . . The classroom teacher, with all the added duties as a result of the constant change in the home life of the children under her direction, new courses of study, extra-curricula activities, and advanced professional study, has met the challenge this age presents to her and is still the paramount factor in whatever situation the school finds itself. Through her wisdom and good judgment, she has chosen wisely the means best adapted to give the young people placed under her direction the culture and subject matter required to fit them for the problems of life that they must inevitably face."

Respectfully submitted,

HAROLD C. BALES,

Superintendent of Schools.

January 29, 1938.

HEADMASTER'S REPORT

To the School Board, Supernitendent of Schools, and Citizens of Amherst:

I herewith submit my first annual report.

School opened for the year on September 8, 1937, with 45 pupils enrolled in the High School, thirteen of whom were Seniors. Since that time one additional Junior and one Freshman have entered and one Freshman has withdrawn, so that the present enrollment is as follows: 13 Seniors, 9 Juniors, 10 Sophomores, and 14 Freshmen. There are 19 enrolled in grade VII and 12 in grade VIII.

Attendance was excellent until the first of January at which time Amherst was visited by an epidemic of measles, the principal victims of which were in grades VII-XII, so that the yearly attendance record will be somewhat lower than it would have been otherwise. Tardiness is negligible and dismissals have been few.

The building of a new elementary school building on Foundry street has helped to relieve a very serious congestion. Classes in the various science subjects were too large for the laboratory so a serious situation would have resulted had not the first four grades been moved to the new building. The change has also made possible the moving of grades V-VI from the Annex to the main building, a very wise step.

Large classes in English and History still tax the capacity of the two smaller rooms on the second floor and one class each day is held in the Headmaster's office. Efforts have been made to improve the ventilation in the laboratory where experiments dealing with various sulphur compounds create rather objectionable odors at times. The hood has been connected with the main ventilating system and an electric blower installed. Efforts have also been made in the improvement of ventilation of the toilet rooms. No satisfactory solution has yet been reached.

Three electric clocks were purchased by the School Board and these were placed in the fifth and sixth grade room, the science recitation room (formerly occupied by grades III-IV) where it serves the laboratory as well, and in the main room. These enable the various teachers to know when the periods will end and to conduct classes more efficiently.

As in recent years, the Triple Entente Association very successfully arranges part of and carries on most of the activities of grades VII-XII. Dues of 50 cents per pupil per year, together with funds acquired by means of public entertainments, finance most of the school's extra-curricular functions.

On November 19, the school presented Mark Twain's famous "Adventures of Tom Sawyer." This play was selected for its high literary as well as entertainment value, and the use of younger, inexperienced pupils in some of the roles proved very satisfactory. The play was well received by a capacity audience and was a success financially. Much credit is due the coaches, Miss Piper, Miss Baker, and Mr. Hanson, and to the various committees for their splendid efforts.

During the fall, a very valuable collection of properties and costumes was presented to the school by Mrs. N. S. Bean. This is deeply appreciated and will serve as a nucleus for an even larger collection over a period of years. A wardrobe cabinet was secured at very reasonable cost and will serve as a safe and convenient place for storing the collection.

In November, Mrs. Huntington presented to the school three excellent framed pictures. These have been hung in the main room and make this room much more attractive. The pictures were badly needed and the school appreciates them. What was formerly the old Methodist Church, or more recently the "Scout Hall" on Middle Street, has been hired by the T. E. A. and is being used as a gymnasium or recreation hall. The present schedule enables each boy and girl in grades V-XII to have at least one period of supervised recreation each week. Boys' and girls' basketball teams have been organized and this sport is being thoroughly enjoyed by many of the pupils.

On February 11, the annual prize-speaking contest for grades VII-VIII, sponsored by the Parent-Teacher Association, was held and six pupils took part. In preparation for this contest, and for the high school contest sponsored by the Grange, each pupil in grades VII-XII is required to give before the school one memorized selection and one extemporaneous talk. I feel that this is an excellent arrangement and should be continued in the future.

During February a Variety Program was successfully presented. An attempt was made by the committee to include in this program many pupils who had never previously taken part in a public performance. Miss Shirley MacArthur helped coach the one-act play which was a part of the program and her efforts were extremely helpful to the cast and to the teachers.

A•word or two about parent-school relations might be presented at this time. The visits of parents at school this year have not been as many as might be expected. The teachers and Headmaster welcome you, fathers, mothers, and friends, to our classrooms at any time. Although special report slips are sent home from time to time concerning pupil maladjustments, and although teachers visit many homes during the year, still it is impossible for us to talk things over with all of you unless you come to see us. For your convenience in planning your future visits, I am presenting a list of the subjects, and an explanation of where and when the various classes meet.

Period 1, 8:30-9:15, History of Civilization, English XI-XII, Geography VII; period 2, 9:15 to 10:00, General Mathematics, History VIII, French II, Chemistry; period 3, 10:15-11:00, Junior Business Training, English VII, Chemistry; period 4, 11:00-11:45, Arithmetic VII, Latin I, English VIII, Chemistry; period 5, 12:45-1:25, Activity period; period 6, 1:25-2:10, Sociology, History VII, English IX-X, Arithmetic VIII; period 7, 2:15-3:00, Geometry, Modern European History, Science VII.

Of the class of 1937 four entered college and seven are at home or at work, of whom two expect to enter college later. This is a very good record for a school of this size.

It has been a happy experience that I have had in Amherst this year. The pupils have given excellent cooperation and willingly responded to suggestions and have made many valuable and worthwhile suggestions.

In closing may I thank the teachers for their wonderful cooperation and tireless hours of work and planning to make this year at Amherst a constructive and valuable one. The School Board and Superintendent Bales have been ready at all times to do those things that seemed for the best interests of this community, and you citizens have been very helpful in promoting educational opportunities for the boys and girls of Amherst, in buildings very carefully cared for by our very valuable janitor, Mr. Phelps.

Respectfully submitted,

GORDON R. AYER.

February 14, 1938.

REPORT OF SCHOOL PHYSICIAN

To the School Board of Amherst, New Hampshire: The following is the annual report of the medical inspection made October 1937.

Number of pupils examined 186; Teachers 7; Janitor 1: Number not present 6

	•	Cases reported
Defects	Cases found	to parents
Anaemia	3	3
Nervous condition	3	3
Cardiac disease	5	5
Pulmonary disease	1	1 '
Orthopedic	5	5
Defective teeth	60	60
Diseased tonsils	16	16
Defective breathing	1	1
Adenoids	1	1
Enlarged glands	5	5
Number vaccinated	9	

Respectfully submitted,

OSCAR BURNS, M. D., School Physician.

January 25, 1938.

REPORT OF SCHOOL NURSE

To Mr. Harold C. Bales, Superintendent of Schools, Amherst, N. H.:

I herewith submit my annual report of the health work in Amherst schools.

The annual medical inspection was made in October by Dr. Burns, the nurse assisting. The account of this examination will be found in the school physician's report.

The fourth dental clinic was sponsored by the Parent-Teacher Association during the spring term. The dental work was done by Dr. Richard Lawrence of Milford with Mrs. Pearl Perry as clerk. Other members of the P. T. A. assisted. The following work was accomplished:

Number (of pupils treated	78
Number	of cleanings	77
Number	of temporary extractions	17
Number of	of permanent extractions	11
Number (of cement fillings	143
Number	of porcelain fillings	5
Number	of treatments	10

Hearing tests of all children have been made with an audiometer and eleven children were found to have defective hearing.

Twenty-two children were found to have defective vision when the visual tests were made. Many of these corrections have already been made, but others need remedial work which I hope to arrange for in the future.

Tonsil cases have been taken care of at the County Hospital.

Nine children were vaccinated by the school physician which makes our vaccination record 100 per cent this year.

One child was taken to the Mental Hygiene clinic in Manchester.

Eighty-seven school room visits have been made during the year and home visits as necessary for follow-up work. I hope more remedial work may be accomplished during the spring and summer. Many children were absent with measles during the winter term.

In closing I wish to express my appreciation to the school officials, teachers, parents, and friends for their cooperation during the year.

Respectfully submitted,

MISS VENITA H. CARTER, R. N.,

School Nurse.

February 17, 1938.

REPORT OF THE AMHERST SCHOOL BUILD-ING COMMITTEE

At the annual School Meeting of March 1937 Amherst voted to raise and appropriate \$7,500 to build a two-room elementary school, the committee to consist of Mr. Malcolm Clark, Mr. Harold Wilkins, Mrs. Donald Davis, and the school board members, Mrs. Robert Telfer, Mr. Ralph Currier, and Mr. Arthur Underwood. This action set in motion a series of meetings from March until September (more than sixteen regular sessions and countless impromptu gatherings) which resulted in a new elementary building for the first four grades on Busy Field.

At the first meeting the chairman and secretary were chosen, Mr. Clark and Mrs. Davis, respectively. The immediate and unanimous aim of the committee was stated then; and that aim—to keep within the appropriation and to give the people of Amherst a building of which they might feel justly proud waved like a banner before us through head-shaking conferences with builders, above skeptical smiles from all business men, and over the unfavorable comments of local critics.

From a list of two- to four-room buildings erected since 1920 the majority of the committee visited schools in Concord, Dunbarton, Beebe River, Campton, Plymouth, and Andover. The more we inspected, the more convinced we were that the task ahead of us—that of erecting a modern two-room building for \$7500—called for retrenchment, economy, and good old Yankee bargaining.

Many and varied were the problems which confronted us as we investigated, figured, and compared: cement or stone for the basement; the cost of second-hand brick as compared with lumber; W. P. A. versus local financing; an efficient, yet within the budget heating plant; the inside finish, plaster or a kind of wall board; the right location on Busy Field to give the best light and to still preserve the playground; and so many more questions to settle that we began to doubt the ability of any committee to bring forth such a building for occupancy within five months.

Mr. Paul Farnum, Administrative Field Agent of the State Department of Education, gave inestimable help in his blueprint drawings which became the basis for our building and with his thoughtful hints and suggestions. It was really he who got us started by answering our thousand and one whats, whys, and hows.

Ground was finally broken the last of May, and the frame commenced late in June with Mr. George Goodale in charge. This report will not contain a list of the men who worked on the building since their names will appear on the itemized account of expenses in next year's Town Report (the fiscal school year ends in June). Nor will there appear a description of the school, for many of you have already visited it. If you have not taken the opportunity to inspect the building, you should since it belongs to you, and sooner or later provision will have to be made for a cement sidewalk, grading, and beautifying the grounds.

The committee would like to recommend at this time that as a tribute to the donor of the land and her life-long interest in the Amherst schools that the building be known as the Clark Building, and further that at this approaching school meeting plans be made for a proper dedication.

The committee was very glad to serve the town and is secretly as proud as Punch of the new building, for not only did we "crack a hard nut," but we had an opportunity to prove our interest as citizens of Amherst. This report must not close without mention of Chairman Clark's untiring work and keen interest as well as his generosity in furnishing us transportation for our trips inasmuch as the committee had no traveling expense account. It was through his constant supervision that costs were kept down and the job brought to a successful conclusion.

Respectfully submitted,

MR. MALCOLM D. CLARK, Chairman, MRS. DONALD DAVIS, Secretary, MR. HAROLD H. WILKINS, MR. RALPH P. CURRIER, MRS. ROBERT S. TELFER, MR. ARTHUR L. UNDERWOOD, Building Committee.
