Memo to the Town Government:

The first year of the new decade has had a profound affect on us all.

We suffered with our people who were held against their will in a foreign land. We listened to those interested in leading us on a State and National level and made our choices accordingly. We watched as the economy continued its downward slide.

Closer to home, we commemorated the Frederick Conway compactor station. This installation plus our association with the Lamprey Regional Solid Waste Cooperative put us in compliance with appropriate State and Federal regulations regarding the dumping and burning of certain waste materials.

With the early retirement of Al Shiely, we lost a valued member of the Board of Selectmen. Al worked hard in the town's interest and did a particularly outstanding job overseeing installation of the compactor.

In addition to Al's leaving us, we lost the support of Ralph Swain as Police Chief. Ralph dedicated 35 years of his time and energy to protecting our persons and property and he will be missed.

The Town Road Program appears to be on target in terms of objectives outlined in the 1978 and 1979 Town Report. At last town meeting and during a discussion of the road budget, petroleum prices and their affect on cost of paving, were of prime concern. The Selectmen assembled a committee of concerned citizens to review the matter and make recommendations for the future. The result of this group's efforts are covered in a report included in this years Town Report.

Cost of operation for the town's Community Center is impacted by rising fuel costs. The Selectmen have attempted to help cushion this affect by charging an hourly fee for usage. The hourly fee of \$5 for those from town and \$15 per hour for out-of-towners. If petroleum prices keep going up, we will be forced to push the rental fees up to compensate.

Before leaving our discussion of the ommunity Center, we are pleased to remind everyone that final payment of the building mortgage will be made in December giving the town clear title starting in 1982.

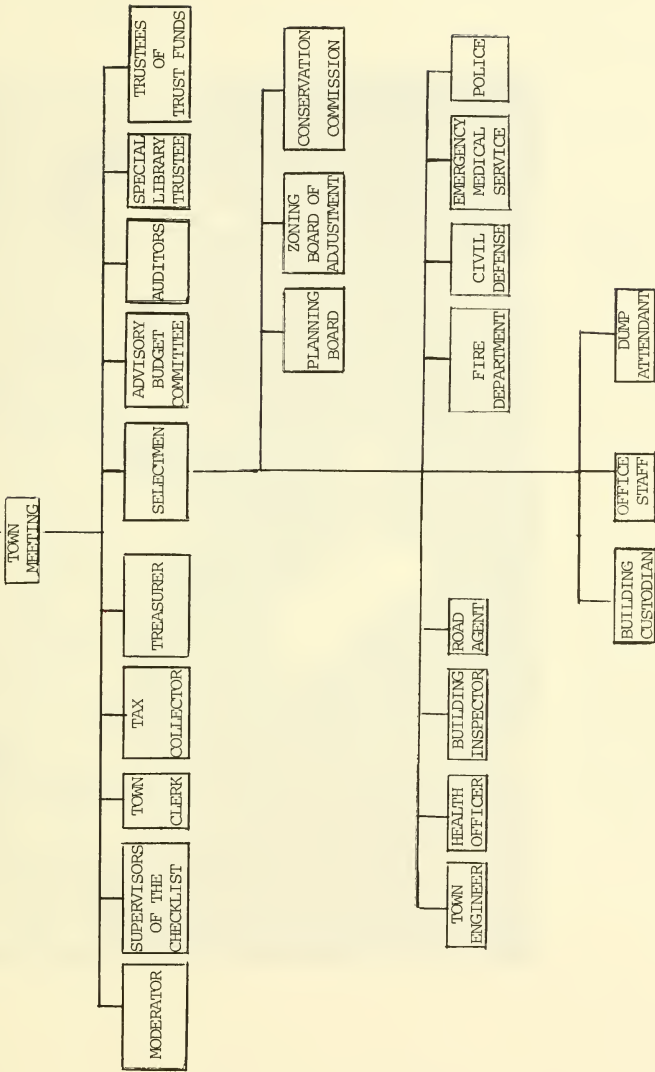

As the following reports show, most of the towns accounts were

fairly well on track. The most dramatic difference is reflected in aid to the needy. About 60% of the aid extended involved persons affected by the down turn in the economy with the balance spent in support of children from Barrington placed with Foster homes.

This year the Selectmen have chosen to highlight three of the towns key services. The Fire and Police Departments along with the Barrington Emergency Medical Group have worked hard for us all and we salute them for a job well done.

George T. Musler
Chairman
Board of Selectmen

NEW HAMPSHIRE STATE CONSTITUTION AND LAWS

Retiring Police Chief Ralph Swain, who held that position for more than 30 years (third from left) is presented a certificate of appreciation from Retiring Commander of Hanson-Keliher Post No. 6804 V.F.W., Fred Jackson. On the far left is Muriel McCarthy, V.F.W. Auxiliary president and on far right Larry Dubois, New V.F.W. Post Commander. Dorothy Arlhn, Photo

RALPH W. SWAIN

BARRINGTON CHIEF OF POLICE

1946 - 1980

For close to 35 years Ralph dedicated himself to serve the Town.

He has done a fine job and we who were acquainted with him and his work will be eternally grateful.

We wish him and his wife Polly good health and the very best for the years to come.

Speaking for the community we offer Ralph our thanks.

One of Barrington's
more serious accidents

TOWN MEETING March 11-12, 1980

At a legal meeting of the inhabitants of the Town of Barrington in the County of Strafford in said State, the following action was taken on the Town Warrant. On Tuesday, the 11th day of March the polls were opened at 10:00 am and closed at 6:00 pm. The Articles of business were acted upon on Wednesday, the 12th day of March at 7:30 pm.

The meeting was called order-by Moderator Frederick N. Timm at 7:30 pm.

Number of eligible voters on check list:	2,121
Number of votes cast by regular ballot:	442
Number of votes cast by absentee ballot:	3

ART. 1: The following officers were elected:

Moderator for two years:	Frederick N. Timm	414 votes
Selectman for three years:	Charles F. Soule	387 votes
Auditor for three years:	Avis J. Taylor	385 votes
Trustee of Trust Funds for three years:	Barbara R. Hayes	397 votes
Supervisor of the Check List for six years:	Janet M. Varney	221 votes

The following candidate was not elected:

Supervisor of the Check List for six years:	Betty C. Goodrich	195 votes
--	-------------------	-----------

ART. 2: It was voted by the Town that the Selectmen appoint all other Town officers. Motion: G. Musler.

ART. 3: Mr. Musler: I move that the Town accept the reports of the officers and agents contained in the annual report with the following corrections to Town Report covering the year ending December 31, 1979:

1.0 Employee Social Security Contribution-
Figure on Page 31 (\$5,943.17) incorrect-
should match figure (\$5,981.79) shown on
insert Page 7.

2.0 Discounts, Abatements, and Refunds
Total(\$2,170.26) Page 32 incorrect-
should read as shown on insert Page 7
as a total of \$2,174.06.

3.0 Comparative Statement (pages 36 and 37)

3.1 CETA - Speedy Program
We have asked the Dept. of Revenue
in Concord to rule on our method of entry.

3.2 School District

Liabilities forward previous years reads \$745,502 should read \$600,179 - see page 26 previous report - Total avail. reads \$1,870,135 - should read \$1,724,712.
Liabilities forward 1980, change to \$664,533 and change bottom line.

- 4.0 Surplus - The Chairman announced it as shown at the top of insert 4, however, the Selectmen have a concern for its validity. The Chairman has asked the Dept. of Revenue to audit all data developed to date. In a March 12th phone conversation Mr. LaPlante, Head of the Dept. of Revenue indicated that the figure appeared inflated and arrangements have been made for Mrs. Calef to go to Concord with Town records and work directly with Mr. LaPlante to verify the correct level of surplus.

ART. 4: "To see what the Town wishes to do about the salaries of certain Town Officers." It was voted by the Town that the annual salary of each Town Auditor be increased from \$200.00 to \$300.00 per year. Motion: Mr. Barr.

ART. 5: "To see if the Town will vote by ballot, to adopt the amendment to existing Zoning Ordinance, as proposed by the Planning Board." There were 445 votes cast however, some voters did not mark their ballot. There were 280 "YES" votes and 133 "NO" votes. The amendment to the Zoning Ordinance was adopted by the Town.

ART. 6: It was voted by the Town to give the Planning Board "Nonresidential Site Review" authority, in accordance with RSA Chapter 36, Section 19-a. Motion: R. Seaver.

ART. 7: To see if the Town will vote, by ballot, to adopt the provisions of the Municipal Budget Law. YES: 34 votes
NO: 152 votes. The article was defeated.

Moderator: Before we proceed with Article 8, I omitted something at the beginning of the meeting. John Barr, if you would, please.

Mr. Barr: I think you will all agree that Barrington is an extremely handsome Town. Within our boundaries, are a dozen pleasant lakes, swift clean, clear rivers and thousands of acres of rolling woodland. As we travel around through Town, we are constantly refreshed by the sight of pleasant groomed fields or homes that grace our neighborhoods. Sometimes we tend to take for granted the pleasing sights that millions of people that live in city areas can only wish for.

As a reminder to all of us of beauty which surrounds us, the Conservation Commission initiates tonight, a project of recognizing certain individuals who have made special efforts to enhance our enjoyment. We have prepared four certificates signed by the Selectmen to be presented to those fellow Towns- men who in the opinion of the Conservation Commission have done an outstanding job of beautifying their homes, grounds, fields and/or woodlands. The purpose of these awards is to express the appreciation to at least a few of the citizens who have given us enjoyment through landscaping or forest improvement, field improvement, or by restoring historical homes. The certificates themselves are on parchment and are patterned after a similar type of award presented in Barrington in the year 1819. A sample copy of the award has been posted, or will be posted by Stephen Bergstrom on the wall over here for those of you who care to look at it during a break. The recipients of the awards tonight are at the moment unaware they have been singled out for recognition. As evidence of this, I want you to note the surprised expression as I call the first couple forward. Please join me in expressing appreciation to these folks who have added to the beauty of our Town. The recipients are:

Louis and Diane Monti
Vladimir and Christine Borodavchuk
Ronald and Patricia Dyer
Gunter and Elizabeth Stadler

ART. 8: Moderator: In as much as Article 7 was defeated, Article 8 is not expedient to legislate; inexpedient to move. It was voted by the Town inexpedient to legislate. Motion: G. Musler

ART. 9: It was voted by the Town to continue with the services of an Advisory Budget Committee and elect two members for a three year term. Motion: G. Musler. Julian Olivier and William Dean were nominated. A motion was made by Mr. Musler that the clerk cast one ballot for the two nominees. Motion carried.

ART. 10: It was voted that the Town authorize the Selectmen to apply for, accept and expend, without further action by the Town Meeting, money from the State, Federal or other governmental unit or a private source which becomes available during the fiscal year. (Ref. RSA Chapter 31). Motion: G. Musler.

ART. 11: It was voted that the Town will enact the following article regarding the Town Dump: "The duly appointed Dump Attendant of the Barrington Town Dump shall control all dumping and all operation of motor vehicles at the Town Dump. No person shall dump materials in a section of the Dump where the Dump Attendant has prohibited dumping. No person shall operate a motor vehicle in a section of the Dump where the Dump Attendant has prohibited motor vehicle operation.

The penalty for a violation of this ordinance shall be no more than One Hundred Dollars (\$100.00) per violation. Motion: G. Musler.

ART. 12: It was voted that the Town will raise and appropriate the sum of \$5,987.50 for support of the Town Library. Motion: C. Soule.

ART. 13: A motion was made and seconded that the article be amended to "To see if the Town will raise and appropriate the sum of \$12,294.40 for the support of the Rural Health Council. Motion. G. Musler. Motion passed.

ART. 14: A motion was made that this article be voted as "inexpedient to legislate". Motion: G. Musler. Motion was defeated. It was voted that the Town raise and appropriate the sum of \$100.00 from the 1980 general town revenue for the Newmarket Regional Health Center activities including both medical program and the Senior Citizen Transportation Program. Motion: G. Musler.

ART. 15: It was voted that the Town raise and appropriate the sum of \$800.00 for the purpose of supporting a "Safe Place" Shelter for Battered Spouses, which operates under the Seacoast Task Force on Family Violence. Motion: G. Musler.

ART. 16: "That the Town vote to install a flashing light or a street light at the new intersection of Rte 125, Green Hill and Tolend Roads." A motion was made and seconded that the article be dropped. Motion: Mr. Geer. Motion carried.

ART. 17: It was voted that the Town authorize the Selectmen to purchase a radar unit for use by the Police Department and approve funding the purchase in the following manner:

1.0 Withdraw principal plus all interest accrued from the Police Department Radio Trust Fund.

2.0 Raise the balance by taxes.

Motion: C. Soule.

ART. 18: It was voted that the Town will authorize the Selectmen to withdraw from the Revenue Sharing account the sum of \$6,000.00 to be used for the purchase of a new motor vehicle for use by the Police Department. Motion: G. Musler.

ART. 19: It was voted that the Town authorize the Selectmen to sell at public auction Lot 18, Tax Map 13, located on Route 4, in accordance with RSA 80-42. Motion: G. Musler.

ART. 20: It was voted that the Town will authorize the Selectmen to dispose of those items designated as surplus. Motion: A. Shiely.

ART. 21: "To see what sum the Town will vote to raise and appropriate in support of the Lakes Region Association for the purpose of publicizing and promoting the natural advantages, as well as the preservation of the natural resources of the town, in cooperation with other towns in the Lakes Region. Motion was made by Mr. Stevenson that the article be voted as "inexpedient to legislate". Motion carried.

ART. 22: It was voted that the Town will discontinue the old sections of N.H. Route 125 that lie outside the new right-of-way for Project Barrington-Rochester, F-019-1(10), S-2095-A and are described in Plan Sheets 1-29, copies of which are available for public inspection at the Town Office during regular office hours as follows:

Station 307 + 15 Left -Station 312 + 50 Left
Station 314 + 00 Right -Station 322 + 60 Right
Station 323 + 20 Right -Station 339 + 33 Right

Motion: A Shiely

ART. 23: "To see if the Town will vote to raise and appropriate the sum of \$37,000.00 to purchase and equip a highway truck. Motion: J. Anderson. Motion was defeated.

ART. 24: "To see if the Town will authorize the Selectmen to provide snow plow service only when more than two inches of snow has accumulated in any one snow storm on the Berry River Road, and Long Shores Drive during the period November 1, 1980 to April 1, 1981 and direct the Selectmen to charge up to the sum of \$50.00 per storm per road for the service rendered through the period involved. Motion: Mr. Ferdinand. Motion was defeated.

ART. 25: It was voted that the Town will authorize the Selectmen to withdraw up to the sum of \$15,000.00 from the Revenue Sharing Fund to be set aside for a complete revaluation of property in the Town in the future. Motion: G. Musler.

ART. 26: It was voted that the Town will authorize the Selectmen to withdraw from the Revenue Sharing funds the amount of \$1,746.00 to complete the Town's payment for pre-operational phase of the Lamprey Regional District incinerator in Durham. Motion: A. Shiely.

ART. 27: It was voted unanimously that the Town authorize the Selectmen to burrow up to \$40,000.00 to complete the solid waste transfer station. Motion: A. Shiely.

ART. 28: "To see if the Town will authorize the Selectmen to discontinue printing the property assessment listing in the Town Report. A motion was made by Mr. Musler that the article be voted as "inexpedient to legislate". Motion carried.

ART. 29: It was voted that the Town will authorize the Selectmen to borrow up to the sum of \$500,000.00 in anticipation of taxes. Motion: G. Musler.

ART. 30: It was voted that the Town will adopt the provisions of RSA 654:34-a permitting application for changes in party affiliation to be made with the Town Clerk. Motion: G. Musler

ART. 31: A motion was made by Mr. Cappiello that the article be amended read "To see if the Town will accept all other items in the budget not covered by the warrant, less the sum of \$35,341." Motion was defeated. It was voted by the town to accept all other items in the budget not covered by articles in the warrant. Motion: G. Musler

ART. 32: A motion was made by Mrs. Hatch that in next year's town warrant the budget would be discussed first and then all the warrant items with decisions on money follow. Motion passed.

Mr. Musler: I would like to offer a vote of thanks to W. Richard Burrows and Dean Kirk on the budget advisory committee. Second, I would like to thank the budget advisory committee for the job they did. They made good adversaries.

Mr. Musler: Finally, I'd like to, Mr. Moderator, direct our state representatives to draw up an appropriate proposal to be converted to law calling for a penalty of 15% for non-payment of real estate taxes. Motion carried.

A motion was made by G. Musler that the meeting be adjourned. Motion carried. (Meeting adjourned at 11:45 pm.)

A true copy, attest:
Muriel T. Leocha, Town Clerk

THE STATE OF NEW HAMPSHIRE
TOWN WARRANT

To the Inhabitants of the Town of Barrington in the County of Strafford in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the auditorium, Barrington Community Building in said Barrington on Tuesday, the 10th day of March next at ten of the clock in the forenoon.

Polls open at 10:00 AM
Polls close at 7:00 PM.

Articles of business to be acted on Wednesday, March 11, 1981, starting at 7:00 PM.

Article 1 To choose the following town officers by ballot and majority vote: one Selectman for three years, one Auditor for three years, one Trustee of Trust Funds for three years, one Supervisor of the Checklist for six years, and one Special Library Trustee for three years.

Article 2 To see if the Town will authorize the Selectmen to appoint all other necessary town officers.

Article 3 To see if the Town will accept the reports of its officers and agents as contained in the Town Report.

Article 4 To see if the Town will accept all items in the budget not covered by articles in the Warrant.

Article 5 To see if the Town will authorize the Selectmen to purchase a computer plus accessories and approve funding for the purchase in the following manner:

1.0 To authorize the Selectmen to withdraw from Revenue Sharing Funds up to the sum of \$9,000.00 to cover down payment on computer hardware, plus a one time charge for various accessories.

2.0 Finance the balance of the sum due, covering computer hardware (\$11,000.00) over a period not to exceed five years.

Article 6 To see if the Town will authorize the Selectmen to purchase a new town truck for the highway department and approve funding for the purchase in the following manner:

1.0 To authorize the Selectmen to withdraw from Revenue Sharing Funds up to the sum of \$11,000.00 to cover down payment.

2.0 Finance the balance of the sum due (up to \$19,000.00) over a period not exceed five years.

Article 7 To see if the Town will authorize the Selectmen to purchase an ambulance and approve funding for the purchase in the following manner:

- 1.0 To authorize the Selectmen to withdraw from Revenue Sharing Funds up to the sum of \$11,000.00, which when added to the B.E.M.S. portion of \$6,000.00 will be used for down payment.
- 2.0 Finance the balance of the sum due, (\$10,000.00) over a period not to exceed five years.

Article 8 To see if the Town will authorize the expenditure of a sum of money which added to the \$3,000.00 to be given by the B.E.M.S. will be used for the building of an addition to the Barrington Community building for the housing of B.E.M.S. and Barrington Police.

Article 9 To see if the Town will raise and appropriate the sum of \$600.00 to pay the Durham Ambulance Corp for expenses they incurred in 1979 but did not bill us for until after May 1980.

Article 10 To see if the Town will authorize the Selectmen to withdraw from the Revenue Sharing Funds the sum of \$1,000.00 to be used to establish a contingency fund, to be used, with interest, only for repairs to the Town's rubbish compactor unit.

Article 11 To see if the Town will authorize the Selectmen to apply for, accept and expend, without further action by the Town Meeting, money from the State, Federal or other governmental unit or a private source which becomes available during the fiscal year. (Ref. RSA Chapter 31)

Article 12 To see if the Town will vote to elect by majority vote, one member for two years, and two members for three years to the Advisory Budget Committee

Article 13 To see what sum the Town will vote to raise and appropriate in support of the Lakes Region Association for the purpose of publicizing and promoting the natural advantages, as well as the preservation of the natural resources of the town, in cooperation with other towns in the Lakes Region.

Article 14 To see if the Town will authorize the Selectmen to dispose of those items designated as surplus.

Article 15 The Planning Board recommends the following amendments to the Zoning Ordinance Article Six:

That Article Six section (b) of the Zoning Ordinance which presently provides as follows: "(b) The office of a professional person" shall be deleted and replaced by the following section: (b) The office of a professional person, said professional person being defined as a

doctor, lawyer, dentist, engineer, veterinarian, optometrist, psychologist, certified public accountant, public accountant, architect, real estate broker or other similar professional person who requires a professed knowledge in some area of science or learning in order to practice his profession. The profession must be practiced in the home of the professional person and shall be limited to 600 square feet of said home.

That Article Six section (d) of the Zoning Ordinance which presently provides as follows: "(d) Customary home occupation carried on in the house by a resident person." shall be deleted and replaced by the following section: (d) Customary home occupations carried on in the home by no more than two resident persons, which use is clearly incidental and secondary to the use of the home for dwelling purposes and does not change the residential character thereof.

Article 16 To vote, by ballot, on the following question: "Shall we adopt the provisions of RSA 72:66 for a property tax exemption on real property equipped with a wind powered energy system, which exemption shall be in the amount of \$50.00".

Article 17 To vote, by ballot, on the following question: "Shall we adopt the provisions of RSA 72:70 for a property tax exemption on real property equipped with a wood heating energy system which exemption shall be in the amount of \$50.00" (By petition)

Article 18 To see if the Town will vote by ballot, to take the following actions:

1. That the Town of Barrington shall purchase, or in the alternative, acquire by eminent domain the Swain's Lake Dam and other real estate in the immediate vicinity of said dam which is necessary for the operation and maintenance of said dam.

2. To authorize the Selectmen to accept from the Swain's Lake Association, Inc., a gift of \$37,000, said funds to be used for the express purpose of acquiring Swain's Lake Dam, and to repair, operate and maintain said dam.

3. To authorize the Town to borrow up to the amount of \$37,000 to repair, operate and maintain said Swain's Lake Dam. (petition article)

Article 19 To see if the Town will authorize the Selectmen to borrow up to the sum of \$500,000.00 in anticipation of taxes.

Article 20 To vote, by ballot, on the following question: "Shall we continue three-year terms of office for the Town Clerk, TaxCollector and Treasurer?"

Article 21 "To see if the Town will vote to petition the Repre-

sentatives and Senators who represent the Town in the General Court to support in the current session of the General Court, the concurrent resolution to amend the State Constitution to limit the annual increase in property taxes to five percent and to limit the annual increase in spending by the state or any city, town, or other governmental unit of the state to five percent."

Article 22 To transact any other business that may legally come before said meeting of the honorable Town government.

Given under our hands and seal, the 10th day of February, in the year of our Lord Nineteen Hundred and Eighty One.

Helen and George Musler made this Ambulance Fund sign which was set up on the lawn of the Stratford Banks, Thursday, July 10. Present for the BEMS fund drive kickoff were Selectman Charles Soule, Joel Sherburne, BEMS President, Vice President John Earle of Stratford Banks, Selectmen Al Shiely and George Musler.

IV. REPORTS OF TOWN OFFICERS, AGENTS AND ORGANIZATIONS

REPORT OF THE ANIMAL CONTROL OFFICER

With the help of Strafford Dispatch we have been able to return more dogs to the owners because of them wearing Barrington Tags. We are doing better but, there are still many unlicensed dogs.

Again we are concerned with the number of dogs that have been reported running deer. With the snow on the ground it makes it difficult for the deer to travel. A dog caught running deer can be shot by Fish and Game or the Animal Control Officer, and the owner can be fined up to \$1,000.00.

For your consideration, my activities in 1980 were as follow:

COMPLAINTS--153 MILEAGE--3,816 HOURS--271 LICENSED--586

Dog Bites	5	Cat Calls	11
Dogs Killed by Cars	6	Dogs Shot	3
Dogs Hit by Cars	2	Horse Calls	11
Dogs Lost	68	Cow Calls	3
Dogs Found	56	Skunk Calls	1
Stray Dogs to S.P.C.A.	33	Dogs to Vet	7
Claimed by Owners	10	Phone Calls	330
Lost Dogs Back to Owner (Tags)	21	Lost Pigs	2
Dogs From Other Towns	15	Geese in Swimming Pool	1
Restraining Orders	18	Pigs Killed by Dogs	1
Dogs Chasing Geese & Ducks	2	Stray Peacocks	1
Dogs Chasing Cows	2	Dogs Chasing Pigs	1
Collecting Dog Licenses	100	Rabies Investigation	1
Bats in Eaves	1	Lost Parrot	1
Goose With Broken Wing	1		

To be reached call either the Town Hall and leave a message or

Strafford County Dispatch 742-4968.

Respectfully Submitted,
Sarah W. Bigelow
Animal Control Officer

REPORT OF THE BARRINGTON FIRE DEPARTMENT

The Barrington Fire Department responses for 1980 consisted of 15 brush grass and woods fires, 27 chimney fires, 17 motor vehicle accidents, 11 structural fires, 9 motor vehicle fires, 6 service calls, 6 smoke investigations, 1 medical aid, 1 lost persons and 3 disaster drills. We responded to 12 out of town requests and received assistance from neighboring towns, Rochester, Dover, Madbury, Lee, Strafford, Northwood, Nottingham and Durham including the use of Durham's ladder truck.

The chimney fires and several structure fires were the direct result of excessive creosote buildup in chimneys and flue pipes caused mostly by the improper operation of air tight stoves and lax maintenance.

A operating smoke detector is a must particularly with the use of wood as a source of heat.

The telephone number 664-7700 is the fire alarm number and is for Emergency use only.

The Barrington Firemen's Association which is volunteer group maintaining and operating the Fire Department equipment built an addition to house the rescue boat and stand by generator. The parking lot was paved and a deep well drilled for a water supply. We are now completely self contained. All donations to the Firemen's Association are used for building maintenance and new fire fighting equipment.

Respectfully Submitted,
Sumner A. Hayes, Chief

REPORT OF FOREST FIRE WARDEN AND STATE FOREST FIRE SERVICE

Forest Fire Prevention: Your Business, Our Business, Good Business. Forest fire prevention slogans have been seen in association with Smokey Bear since the late nineteen forties when a national effort to check the spread of forest fires was implemented.

New Hampshire residents recognized that forest fire prevention and suppression was the responsibility of every citizen, a half century before this national campaign, when our legislature established our first forest fire laws in 1903. Since that date, the State has appointed a town/city forest fire warden who is responsible for forest fire law enforcement in his municipality.

All fires kindled out of doors when there is no snow on the ground must be approved in writing by the forest fire warden before being kindled. All forest fires must be suppressed by

the warden and his deputies as soon as they are reported. The cost of fire suppression is shared jointly by the town/city and State of New Hampshire, as are forest fire prevention and forest fire training costs.

This state and local municipality cooperative forest fire program has given New Hampshire one of the best forest fire records in the United States.

BARRINGTON POLICE DEPARTMENT REPORT

1980 saw a great many changes in the Barrington Police Department. New equipment has increased the Departments activity. The Radar unit has been an asset to the Department in that the reports of speeding on Town roads has shown to be on a decline. Training has been a priority item for the Department. The requirement for training as set by the Governor's Council and the Standard and Training Council has been met. That is to say, that each Police Officer that is actively engaged in Police work, has had a minimum for forty (40) hours training by a qualified instructor who in Barrington's case was fortunate enough to have had the expertise of a dedicated and professional Police Officer, Lt. Donald Vittum of the Durham Police Department. Along with this, each Barrington Police Officer attended a two and one half (2½) hour class on the Towns liability in the discharge of fire-arms by a Police Officer after which, each officer is qualified with his service revolver on the Dover Police Department range. The classes were conducted by Officer Clinton Sheppard, Training Officer for the Dover Police Department.

The following is a breakdown of routine Police work that the Police Department has been engaged in for the year 1980 - Criminal Cases:

- 65 - Burglaries
- 9 - Attempted Burglaries
- 40 - Thefts
- 30 - Criminal Mischief
- 49 - Cases of Vandalism
- 10 - Restraining Orders (Spouse Abuse)
- 5 - Stolen Vehicles

Motor Vehicle Activity

- 60 - Motor Vehicle Accidents Investigated
- 240 - Motor Vehicle Stops
- 4 - D.W.I. Arrest
- 90 - Court Summons

Miscellaneous Activity

- 5 - Missing Person Reports
(Barrington Residents)
- 152 - Assist or working with other
Departments
- 28 - Fire Assists
- 16 - Medical Assists
- 14 - Missing Persons (Other Towns)
- 54 - Try to Locate Calls
- 50 - Responses to alarms (Business or
Residential)
- 43 - Bank deposits
- 81 - Trips to other Police Departments

- 3,846 - House checks and business checks
- 40 - Criminal record checks for
pistol permits

From Strafford Dispatch Center

- 2,319 Control Cards (Control cards are
official dispatch cards that re-
cord request for Police)
- 7,648 Telephone calls - made to or re-
quiring Police activity.

Additional new equipment for the Department was purchased by the Police Association from funds raised from the dances held at the Town Hall. A cage for transporting subjects under arrest was added to the new Ford cruiser. A base radio was added to the Police Department Office in the Town Hall so that the Duty Officer is making out the necessary reports he is able to monitor the Police Networks and respond to any emergencies without the delay of having to be called. This also provides the necessary communications with Strafford Dispatch.

Two (2) new portable radios were purchased with the cost being defrayed by the New Hampshire Crime Commission for matching funds, and the Police Association along with the generous help of Joel's BEMS group came up with the necessary monies to make the purchase possible. The Police Association also owes a debt of gratitude to the ladies of the Barrington Mobile Home Estate Womens Club who have continued to help us with their generous donations.

It is the intent of the Department to continue to upgrade itself by striving to professionalize through continuous training and staying abreast of the constant changes in the law. Only through training can the demands of the Training Council be met and hopefully through this, attain the respect due to any professional Police Department.

As a closing statement the Department would like to say THANKS to the Board of Selectmen for their support over the past year and a special THANKS to Charles Soule who along with his many other activities acted as advisor to the Police and always found the time to be available when called upon.

REPORT OF EMERGENCY MEDICAL SERVICE COORDINATOR

In 1980 ambulance coverage for Barrington was provided by Durham Ambulance, Benoit Medical Service and Northwood Ambulance. In August, service by Durham was terminated, and Benoit took over Durham's area. One hundred and one runs were made to Barrington.

The B.E.M.S. celebrated their 2nd birthday, February 1980, with 11 members and 11 guests present. Gail DeLong, E.M.S. Coordinator for New Hampshire, and Irving Benoit were guest speakers. There are at present 20 members, 15 are responders, 10 of these are EMTs, with 2 more graduating soon.

We received our tax-exempt status last March and held our First Annual Meeting in June to elect officers. Responders were on duty in several events, such as the Walk-A-Thon, and Bike-A-Thon. There have been several simulated accidents for training, vehicle extrication of a trapped person, Stonehouse Pond climbing disaster, 2-car collision on a back road, lectures and slides by Cal & Penny Schroeder with their bloodhounds, the Fish & Game Dept., and Mr. Benoit on the use of the oxygen unit. Six responders have been designated to work with the Schroeders on any search dog calls.

"The Barrington Snow-Goers" snowmobile club is working on a rescue sled to be used by responders for any deep woods accident. Every responder has a map of the trails in Barrington with 20 pick up points for the ambulance. B.E.M.S. has a list of people with snowmobiles available for calls.

An Ambulance Fund was started this past summer and a Trust Fund was established in August, there is now \$10,020.00 in that fund. We cannot express adequately our thanks and appreciation for the way you townspeople have contributed to this fund. As you can see in the warrant, we hope to have the ambulance operational by June 1. The Ambulance and Building Committees have been working to gather information. If the town votes to purchase the ambulance, your E.M.S. group will NEED much more physical support: drivers will be needed (daytime and nighttime), and the responders will be expected to accompany patients in the ambulance. Remember, a member does not need to be a responder to be very useful.

The members voted to hold two meetings each month - the first Monday for training, the third Monday for business. They also voted in a rule that no member will travel more than 10 miles over the posted limit when responding to a call. We have taken in five new members - four of whom are responders.

All of the activities listed in last years Town Report were carried out this year, also. We still have a good supply of key chains and snow scrapers available. We also have a bulletin board at the Fire Station to help us improve communications

among members thanks to Chief Hayes. This will be used as a notice board, and a pick up point for information. Our meetings are held upstairs at the Fire Station at 7:00 P.M. the 1st and 3rd Mondays. Everyone is welcome to attend.

The members of the Barrington Emergency Medical Services wish to thank everyone who has contributed to the Association in any way. Without your help, this group could not exist.

REMEMBER, IN CASE OF AN EMERGENCY USE THIS PROCEDURE

1. Remain calm
2. Call 742-4968 EMERGENCY Ambulance
3. Speak clearly
4. State your NAME
5. Explain (medical) problem
6. Give your LOCATION

Respectfully submitted,

Joel W. Sherburne, President
Barrington Emergency Medical
Service

BARRINGTON EMERGENCY MEDICAL SERVICES

Barrington Emergency Medical Services celebrates its 3rd year in 1981, and with that in mind, we are trying, with the town's help and support, to offer our own ambulance service.

In 1980, ambulance calls for Barrington totaled 97 and coverage was provided by Benoit Medical Service and Northwood Ambulance. Hopefully this year, we may purchase an ambulance to offer faster emergency services.

Throughout 1980, we worked closely with the Barrington Fire and Police Departments in coordinating emergency services for motor vehicle accidents, structural fires, house calls and training drills. Our in service training consisted of a mock car accident and a car accident/water rescue drill. As we train, we become more efficient at emergency services. Our members also attended training courses sponsored by the South-eastern Regional E.M.S. compact, and the New Hampshire Association of E.M.T.'s.

Barrington E.M.S. has started holding a second meeting a month for the purpose of training. The first Monday of the month is for training and the third Monday is for business. Our meetings are open to everyone and are held at the Barrington Fire House at 7:00 pm.

With our inception in 1978, we looked ahead to the time when Barrington would have the need for their own ambulance. We feel that the time has finally arrived. We need the help of all townspeople to make our ambulance a reality. B.E.M.S. has started an ambulance fund drive. Our goal is \$20,000.00. As of the printing of the town report we are only half-way to our goal with \$10,096.00. Any donations would be greatly appreciated.

B.E.M.S. has been doing its part to help with this goal by holding fund raisers such as Barrington Variety '79 and '80, raffles and selling ads in the Barrington Town Directory published yearly by B.E.M.S.

Presently we have 8 National Registered EMT's and 6 Red Cross Advanced First Aiders. We also have 4 non-medical personnel that assist in other functions.

The members of Barrington Emergency Medical Services would like to thank every one who has contributed to us in any way. Without your help and support, this group of volunteers could not exist.

Respectfully submitted,

Richard W. Smith
Vice-President BEMS

The Selectmen are pleased that in 1980 Francis Lanciano volunteered to take on the task of organizing the Civil Defense program.

In years to come, with concerns about the Seabrook installation and what happened at Three Mile Island, Civil Defense along with the Police, Fire and B.E.M.S. groups will become a key function in any evacuation action that could take place.

We welcome Francis to our group.

George T. Musler
Chairman
Board of Selectmen

CIVIL DEFENSE REPORT FOR LAST QUARTER OF 1980

Program papers for the year were submitted to Concord for the Town of Barrington and were approved.

A mobile group is currently in the planning stages to be available for any emergency. Further information or anyone interested in joining can contact me.

Yours truly as Civil Defense Director, along with my son were called out to assist Dover Civil Defense in their search for an elderly gentleman who had wandered away from a family picnic in Maine. All who participated were very happy when the efforts paid off in finding him in good condition.

Exploratory meetings have been set up with the Director of Disaster Services of the American Red Cross to enable us to pool our members to better serve Barrington and other areas in the event of an emergency.

Formulation of a town plan known as the "Basic Plan" is currently being prepared to be presented to all heads of town departments and then to Concord for final approval after it is approved by the Town of Barrington. It will define the responsibilities and actions required from various departments in the event of a disaster of any type.

A communication program is being looked into at no cost to the Town to be able to respond quickly in the event of an emergency. This will include working closely with all Town emergency groups such as the Barrington E.M.S., Animal Control Officer, etc.

As head of Civil Defense, I look forward to 1981 to serve the Selectmen and the Town of Barrington faithfully and to the best of my capabilities.

Respectfully submitted,
I remain,

Francis "Lucky" Lanciano
Civil Defense Director

REPORT OF THE ROAD COMMITTEE

The Road Committee was formed at the direction of the Selectmen, charges to review the Town of Barrington Road Program and, in particular, make recommendations on the question of gravel versus tar roads raised at the 1980 Town Meeting. The committee members were Wayne Beasley, Lawrence Ketchen, Ronald Landry, Carl Tubbs and Richard Bottom. For purposes of our review, the committee considered the terms asphalt, surface treated gravel, hard surface bituminous and tar to be synonymous.

The committee met on eight occasions. After extensive review we agreed that the Road Program provides a logical approach to the problem of improving and maintaining town roads and a sound basis for planning a consistent program for future years as required by the Master Plan. The strides taken in recent years to catch up with road maintenance after a period of benign neglect were noted and judged to be further justification for the well planned Road Program now underway.

The committee traveled all Town Class V roads with the Road Agent. The condition of roads was noted and plans for improvement were discussed. Under current Road Program criteria approximately 13½ miles of existing gravel roads would remain gravel. A little over 5 miles of gravel roads meet the criteria for upgrade to tar for a total of tar roads slightly in excess of 36 miles. Improvements accomplished in 1980 bring that portion of the Road Program to 86% completion. The committee indorses the priorities for future improvements established in the Road Program.

During our travels the conditions of bridges maintained by the town were noted. The committee concluded that action is required to prevent further deterioration of bridges and recommends that bridge maintenance be included in the town Road Program to afford the same consistent approach to bridge maintenance now evident in road maintenance.

GRAVEL VERSUS SURFACE TREATED ROADS

The committee discussed this issue at nearly every meeting. It was agreed that the criteria used for evaluation of the relative merits of each type of road were safety, convenience to the residents, ecology, maintenance, and resource economy.

Three independent inquiries were made to solicit data for use in evaluating this subject. Information was obtained from the New Hampshire Public and Highway Department, and the United States Forest Service White Mountain National Forest. The responses were unanimous in the opinion that tarred roads were better and less expensive than gravel roads in both the short and long term. After much discussion of the variables involved in road construction and maintenance, the committee agreed that our study should be based on conditions in the Town of Barrington. Separate budget items for maintenance of gravel and tar

roads were not established until 1979. Separate accounting procedures to record expenditures for gravel and tar road maintenance were not instituted before 1980. However, comparison of the budget items shows gravel roads are more expensive to maintain.

All evidence was clearly in favor of tar roads. The committee concluded the following:

Safety - the surface of a tar road offers safer and easier travel and lower vehicle maintenance costs than gravel. Dust on gravel roads can hamper vision and is a safety hazard.

Convenience to residents - ease of travel is maintained during the spring run-off and during very wet periods on tar roads, while utility decreases on gravel roads. Dust is an irritant to residents on heavily traveled gravel roads during dry periods.

Ecology - the problem of dust on gravel roads presents a dilemma. Dust is an undesirable pollutant to residents living on the road. Dust impairs vision and is a safety hazard. Dust should be avoided from a health viewpoint by the elderly and persons with respiratory and heart ailments. Although dust control is desirable, either accepted solution (oil spray or calcium chloride) is potentially damaging to the environment. The committee learned that several New Hampshire towns experienced a significant problem with surface water contamination caused by oil sprayed on gravel roads for dust control.

Maintenance - it is less expensive to maintain a properly constructed tar road than one of gravel. Annual gravel road maintenance will normally require scraping in spring and fall and addition of gravel during the summer. A tar road will go for years before maintenance is needed. Snow removal is easier on a tar road and results in less wear and tear on snow removal equipment.

Resource economy - the main objection raised to tar roads at the 1980 Town Meeting was the fact that a petroleum product is consumed, both for original construction and periodic sealing. Such use in a period of decreasing supply and rising cost was deemed contrary to prudent conservation practices.

Our investigation revealed that the substance used for roads is the last distillate product left when all other usable forms have been extracted. We were advised that there are only two known uses for this substance; roads and roofing material. If the product is not used in either of these applications then it must be disposed of in an environmentally sound manner. It can be argued that use on road surfaced is a form of conservation since it completely uses the petroleum resource and is preferable to disposal.

In summary, the committee concluded that cost alone should not be the overriding consideration, and, in view of the other compelling evidence, continued capital expenditures to increase the tar road mileage in Barrington is a prudent investment. The committee recommends that these improvements be undertaken in accordance with the priorities established by the Road Program

within the resources allocated at the Town Meeting.

Respectfully submitted,

Richard D. Bottom
Chairman, Road Committee

BARRINGTON ROAD PROGRAM
1981

In 1979 a road program was developed and as a result of the continuation and funding of that program Barringtons fifty miles of class V roads now consist of approximately 30.5 miles of tarred surface and 19.5 miles of gravel surface roads.

The long range objective is to have all class V roads, as listed in the long range program, meet the requirements of the town road ordinance which includes a tarred surface. Until the status of those gravel roads not considered for surfacing changes (higher use rate) they will not be considered for surfacing at least until we reach the second five year range.

The approach to the road program is to work toward the long range objective through an annual program planned and executed in accordance with the following priorities:

1. Maintenance of all roads and bridges in a safe and passable condition.
2. Preservation of existing roads and bridges through a program of regular maintenance.
3. Surfacing of those gravel roads whose road beds are constructed to the town standards. (Fogarty, Meadowbrook, Hilltop, Second Crown Pt to bridge and Lakeshore completed, Woodhaven, Smoke Street remaining.
4. Upgrading through reconstruction and surfacing of certain existing gravel and older tarred roads each year.

The work proposed for 1981 together with the estimated costs is presented below:

SUMMER MAINTENANCE

Gravel Roads

Each gravel road is graded at least once during the summer season. Because of traffic, weather and road condition, many require grading two or more times. Road maintenance includes additional work such as replacing gravel, removing berme cleaning ditches and culverts and cutting brush. Dust control is provided by one application of oil in front of each house fronting on a gravel road where traffic loads warrant. The summer gravel road program is as follows:

1. Grading, equipment rental	\$ 9,000
2. Dust control	4,000
3. Road maintenance, including specific roads such as Atwood - ditch, Brooks - ditch and ledge, Cooper, Scruton Pond (W) ditch and berme, Weeks Lane - brush	12,000
4. General expenses, Hgwy Dept.	14,835
Total gravel roads	<u>\$39,835</u>

Existing Tar Roads

Preservation of tar roads requires the application of a sealing coat at regular intervals in a range of 4 - 7 years depending on road conditions and traffic load. Our target is four to five miles per year depending on costs of road preparation to be done. Berme removal, ditch and culvert cleaning and some road leveling is included. The tar road maintenance program is as follows:

1. Road sealing		\$ 26,500
Young (Beautyhill to France)	1.1 m	
Greenhill (Hansonville to 202)	1.0 m	
Tolend (Remaining)	1.0 m	
Province (Ham & Mallego sect)	1.0 m	
	<u>4.1 m</u>	
2. Patch (leveling and maintenance)		10,500
3. General Expenses Hgwy Dept.		11,335
4. Road Maintenance		2,500
Total Tar Roads		<u>\$ 50,835</u>

Bridge and Rail

Recent inspections of Barringtons five bridges by the State of New Hampshire indicate that the rails on most bridges are in need of repair or replacement. Scheduled for replacement is the Wood Road bridge. (See section on Road Improvements). Funds for the Tolend gulf rail were expended last year. This years consideration is:

1. Greenhill Road (Seavey bridge)	\$ 5,000
2. General Expenses Hgwy Dept.	1,000
Total Bridge and Rail	<u>\$ 6,000</u>

TOTAL Summer Maintenance Accounts \$96,670

ROAD IMPROVEMENT

This section of the program involves upgrading gravel roads to meet town road standards through reconstruction and in some cases surfacing. Some reconstruction of deteriorated older tar roads must also be done. Priority is given to those few remaining gravel roads whose roadbeds are already constructed to town road standards in order to preserve funds invested and also to obtain maximum surfaced road for available funds. Additional roads are selected based primarily on road condition and traffic load. Funds provided by the state specifically for road construction are not keeping pace with rapidly increasing costs and needs. This requires additional local tax dollars each year to maintain a constant program. A study was made by the Roads Committee into the matter of tar vs. gravel surface and the results are presented preceding this program. Because of increased costs this section of the program has been curtailed and the range lengthened. The program as presented, represents a total dollar cost equal to last years program however a \$5,000 increase is realized because of a lack of a TRA carryover which we had last year. The road improvement program is as follows:

1.	Replacement Wood Road Bridge	\$	6,800.00
2.	Reconstruction and Surfacing gravel roads.		
	Oakhill (S)	.50 mi	17,000.00
	Scruton Pond	.72 mi	24,059.26
	Smoke St.	.50 mi (unexpended funds)	
	Total Improvement Program		\$ 47,859.26
	Less TRA 1980		25.63
	Less TRA Town Share		1,180.04
	Less TRA 1981 State		7,866.96
	Total Balance		\$ 38,787.00

WINTER MAINTENANCE

The winter maintenance program consists of the materials and effort required to plow, sand and salt 50 miles of town road. This work is done by the town crew and a number of contractors each assigned responsibility for specific sections of road. The winter maintenance program for 1981 is as follows:

1.	Contractors	\$20,000.00
2.	General Expenses, Hgwy Dept. (town crew)	17,335.00
	Total	\$37,335.00

PROGRAM SUMMARY

Summer maintenance (Less general expenses Hgwy Dept.)	\$69,500.00
Road Improvement (Less Town TRA Contribution)	38,787.00
Winter Maintenance (Less General Expenses Hgwy Dept.)	20,000.00
General Expenses Hgwy. Dept. (Town Crew)	44,505.00
Town TRA Contribution	1,180.04
Total cost 1981 road program	\$173,972.04
Funds provided from state and vehicle reg	138,902.04
Total to be raised by taxes	35,069.00

TOWN OF BARRINGTON
ROAD AGENT'S REPORT
1980

As a result of the Barrington Road Program, being in effect for only two years, a planned improvement to the roads and bridges has been realized. The program as presented here reflects many hours of thought and consideration by a number of people willing to give freely of their time to construct it.

I thank past Selectmen for projecting their idea of a need for this program and in particular Al Shiely for his immense help in detailing and instituting the program originally. Larry Ketchen, the Town Engineer, provides technical assistance and advice to me for the town free of charge. Most recently the Roads Committee has met and reviewed the road program to analyze and make suggestions to strengthen the program and test its philosophy. Jack Lucier, Division Six secondary roads engineer, has been very helpful with logical and technical assistance for the Town Road Aid program (TRA). Larry Ketchen and I both take advantage of the services and assistance offered by the office of Paul LaFlam in Concord.

I owe particular thanks to the excavating contractors in this town who are many and varied. Although their outspoken wisdom is probably their most frequently expounded trait, it is by no means their greatest or most tested asset. On the whole, they are dependable and sincere and never have they trifled with the towns interest. Of these people, I can draw from over one hundred years of practical experience in maintenance and construction; an asset which is not overlooked and should be appreciated by every taxpayer in this town.

Unique to Barrington is that we have over 40 pieces of heavy construction equipment locally available to us for widely varied construction jobs. Scheduled correctly these pieces of equipment are an extension of the Highway Department otherwise unavailable at the same cost. The primary reason that we don't have our own equipment to purchase and maintain is because this equipment is available to us.

During 1980 we accomplished all we proposed and then some. With the help of local contractors the Highway Department graveled over two miles of road; brushed, ditched and sealed over four miles of road; constructed, penetrated and sealed over one and a half miles of road all within the budget. Following this report is a statement of those accomplishments.

Some account divisions were over expended but overall the Highway Department wound up with over \$7,000 in balance. With the excess funds it was suggested to and approved by the Selectmen to buy two much needed chain saws and continue on with excavation on the Scruton Pond Road. Unexpended RSA 241:15 funds were used to purchase in part a bridge culvert to replace

the Wood Road bridge.

Three alternatives were considered by the Roads Committee in regard to the Wood Road bridge repair/replacement.

1. Repair existing bridge and abutments in accordance with inspection report of May, 1980.
2. Replace bridge using State funds and contracts.
3. Replace bridge with steel bridge culvert such as those used on the Mallego and Critchett Brooks.

The first alternative would cost upwards of \$8,000 to replace the seats, stringers, deck and rails plus perform excavations to install cement to sure up the dry stone abutments. When finished we would still have a bridge only 13' wide which is not in accordance with the class V road standards that require a minimum of 20' of traveled surface.

The second alternative proved to be a costly venture. An estimate from the State of New Hampshire DPW & H was in the amount of \$75,000, one half to be paid by the State with Town Bridge Aid Funds. Our cost would be \$37,500. This estimate was to replace the bridge with a 10 gauge steel culvert.

The third alternative was to buy the culvert from one of three bidders and have it delivered to the site about June of 1981, remove the bridge and abutments (use the stones for headers) and install the new culvert with our own and contracted forces for a total estimated cost of between \$12,000 and \$13,000.

Considering the long range and rule one of the Road Program (1. Maintenance of all roads and bridges in a safe and passable condition) and the costs, alternative three was acted on.

The culvert has been purchased in part out of 1980 RSA 241:15 funds and the remaining costs of purchase and installation will be offset by 1981 RSA 241:14 & 15 funds. In effect the whole project will not cost the taxpayer any local property tax funds. By buying the culvert in 1980 the town saved a minimum of \$2,000 on the total purchase price of \$5,740.84.

The budget that I'm presenting this year to support the Road Program is about \$12,800 more in actual dollars than last year. The increase is due in part to the lack of a \$5,000 TRA carryover which means real costs have increased \$7,800 over last years budget due to gas - materials and labor cost increases. This represents a true increase of less than 5%. Inflation has been set at 7%.

The Road Program has already been curtailed in the Road Improvement and road sealing areas. In order to maintain the program at its current level I must have your continuing support in approving the budget. We can't eliminate these obligations; we can only put them off to a time when they will cost more.

TOWN SUPPLEMENT

STATEMENT OF ADVISORY BUDGET COMMITTEE

ON PROPOSED TOWN BUDGET

MARCH, 1981

This year our Board of Selectmen has submitted a proposed budget of \$542,951.00. This figure represents a 8.7% increase over 1980's budget of \$499,281.00. The Budget Committee is generally agreeable to this proposed budget and recommends its passage.

The Committee throughout the year worked with the Selectmen in an advisory capacity, so that most of the differences and/or adverse reactions between us have already been ironed out. We, as a Committee, have attended Selectmen's meetings regularly and are quite satisfied that our input and criticisms have been given proper attention by the Selectmen. As usual, we have gone through the proposed budget, line by line, and we are unable to dispute the general overall proposal.

We feel that the increase of 8.7% is reasonable in view of the demands that our town government must meet in the face of inflation and high energy costs.

Respectfully submitted:
Barrington Advisory Budget Comm.

Louis Monti, Chairman
Wayne Beasley
Daniel Cappiello
Julien Olivier

SCHOOL DISTRICT SUPPLEMENT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Barrington qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 10th day of March 1981, at 10:00 o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To choose one Auditor for two years.

Given under our hands at said Barrington this 17th day of February 1981.

Gail Kinney
Waldron B. Haley
Rachel M. Millette

Barrington
School
Board

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Barrington qualified to vote in district affairs:

You are hereby notified to meet at the Middle School Multi-Purpose Room in said district on the 16th day of March 1981, at 7:30 o'clock in the after noon, to act upon the following subjects:

1. To see if the voters will accept the postponement of the Annual School District meeting until May 18, 1981, to allow the School Board sufficient time to reach a reasonable, tentative settlement to the current ongoing negotiations with its employees. (By Petition)
2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
3. To choose agents and committees in relation to any subject embraced in this warrant.
4. To see if the District will vote to raise and appropriate the sum of seventy thousand dollars (\$70,000) for the purpose of replacing the window units and the heating system at the Barrington Elementary School and to finance said sum by the issuance of notes as provided for in the provisions of the Municipal Finance Act (RSA 33). Said loan and interest will be repaid over a period not to exceed five (5) years with the interest rate to be set at the discretion of the School Board.
5. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the District.
6. To see if the District will authorize the School Board to make application for and to receive and expend, in the name of the District, such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government and/or state agencies; private agencies and/or other sources.
7. "We, the undersigned, hereby request the Barrington School Committee to discuss the possibility of initiating a public kindergarten at it's next meeting." (By Petition)
8. To transact any other business which may legally come before this meeting.

Given under our hands at said Barrington this 17th day of
February 1981

TOWN LIBRARY TRUSTEE REPORT

The year 1980 has been a year of changes of librarians for us, but thanks to Louise Williams, Barbara Hayes, and Peggy Smart who have most competently come to the rescue whenever we lacked a librarian, we have been able to serve our patrons with no interruption.

It was with great regret that we accepted resignations of our long time, efficient, and dedicated librarians, Mrs. Brooks and Mrs. Emhardt. Mrs. Brooks felt that she must resign at that time, and Mrs. Emhardt was forced to resign because of extreme illness.

We felt fortunate in hiring Nancy Callahan of Dover who came with excellent credentials and background; however, she had an opportunity to secure a more lucrative position, and left us after two months. Again fortune smiled on us, and we now have Jennifer Wilson of Smoke Street as our librarian. She has had library experience, and seems to be doing excellently, not only in current work, but in cleaning up some backlog which has accumulated.

Mrs. Irene Saunders is now school librarian, and we continue our cooperative work with the school.

A most promising Friends of the Library group was organized during the year under the leadership of Frances Cram. During the summer, Friends' members Pat Jones and Frances Cram conducted story hours at the library, and Pat Jones had a special Halloween program. Also under the Friends' sponsorship, Barrington shared the expense of the Little Red Wagon with the Lee library at a performance given on the Lee school grounds.

Library hours have been extended to give better service, and Sunday service is still available. We have books and the Readers Digest in large print, and would appreciate knowing of people who would be interested in these. The invaluable Bookmobile still serves us, and we can secure books from the State Library if we do not have them.

At this time, we have new books of great and varied interest, and we urge you all to come in and browse.

Respectfully submitted,

Dorothy B. Berry,
Town Library Trustee

HEALTH OFFICER'S REPORT FOR 1980

This past year was a very quiet year as far as Health Officer activities were concerned.

Probably due to the lower water table that we are experiencing things have stayed under control. I suppose if we get our normal rain this spring things will change considerable.

Eight years ago the town adopted a Health Ordinance pertaining to Water Supply and Toilet Facilities which was taken from the National Building Code #607. I know that I have been sort of lax in enforcing this code and have been lenient on this matter. The Building Inspector and I shall look into these codes more closely before making any exceptions.

Sincerely,

Salvatore Farina
Health Officer

RURAL DISTRICT HEALTH COUNCIL, INC.

ANNUAL REPORT

1980

The Rural District Health Council continues as a Certified Home Health Agency covering nine towns - six in Strafford County and three in Rockingham County.

Many long hours of research and organization was done by selectmen and concerned citizens of the towns from 1966 until the first visit was made on May 5, 1969.

The priority service is the care of the sick program which includes visiting nurses, physical therapist, occupational therapist, speech therapist and home health aides, providing visits in the patient's home. The agency also has contracts for home health aide with the Strafford County Home Health Aide program and Portsmouth Area Home Health Aide program.

A Maternal & Child Health program is offered to all children from any of the member towns, and includes physicals, immunizations, teaching and counseling for ages 0-6 years. It also provides home visits to the newborns on request and any follow-up care as requested by physicians.

A Dental program is also provided by the MCH Program and the Pre-School Dental Services and is held for children 3-6 years, which includes cleaning, and flouride treatments twice a year with referrals to local dentists for follow-up care when needed. The program also works closely with the Women & Infant Children Nutrition Program and the Strafford County Prenatal & Family Planning Program.

The agency also holds monthly adult health maintenance program which provides blood pressure checks, diabetic and anemia screenings, nutrition counseling and special diets and weight control.

The first and third Wednesdays screenings are held at the Town Hall in Farmington for the towns of Farmington, Middleton, and New Durham. The second Wednesday they are held at the Town Hall in Northwood, Nottingham, Deerfield, Barrington and Strafford; the fourth Wednesday they are held in Milton at the Milton Health Center. They all start at 1:00 pm and continue until all patients are seen - the program is open to any one in the area. Within the next grant year, the agency looks to providing an ongoing program in the Barrington area.

The Rural District Health Council cooperates with other agencies in the area to provide a continuation of good health and social services to its member towns.

The agency with the cooperation of Frisbie Hospital provides a discharge referral coordinator who assists the social services department at the hospital and the patient's physicians to continue care as needed from the hospital to the patient's home. The hospital funds this program in part with the council.

The strength of the Council lies with the dedicated staff who many times devote themselves above and beyond the call of duty reflecting the nurse who cares for people. Staff nurses providing service within the care of the sick program are Barbara Drew, RN, Myrtle Walsh, RN, Elizabeth Coons, RN, Dorothy Demmons, RN, and Mary Timmons, RN, also acting as part time supervisor. Arlene Thorne, RN, is coordinator of the Maternal Child Health program and Paula Davis, RN, as clinic nurse and Elderly Screening Coordinator. Jean Germer, RN, is the Discharge Coordinator. Joan Menez, LPN is part time where needed and Alice Ziegra, RN, part time. Home Health Aide services are provided by Gail LaRosa and Renee' Wormell. Junellen Chase handles the office duties as Administrative Assistant.

The Board of Directors has voted to decrease the per capita cost by .20¢ with the result of \$3.00 per capita for the fiscal year 1981. Many factors contributed to the decision. This year the agency has experienced in depth evaluation of our financial status, having reviewed both expenditures and income sources. The Ad Hoc Committee was appointed and met frequently throughout the year; "after careful study the Committee recommends that no charge be made to participants of the Child Health Program". However, the Board voted to attempt a pilot study of asking for a \$2.00 donation at clinic sites, a \$1.00 donation will be asked for office visits and a donation for the Elderly Screening Clinics, all effective January 1, 1981.

The Board voted to become a United Way Agency; the grant was increased for the Maternal & Child Health Program through the efforts of the Community Health Care Association. The Agency also has an increase in the State Council on Aging grant and the Referral Coordinator. The total population has increased 751 residents. With this added income the Finance Committee feel the Council can continue to provide the many needed services to its member towns.

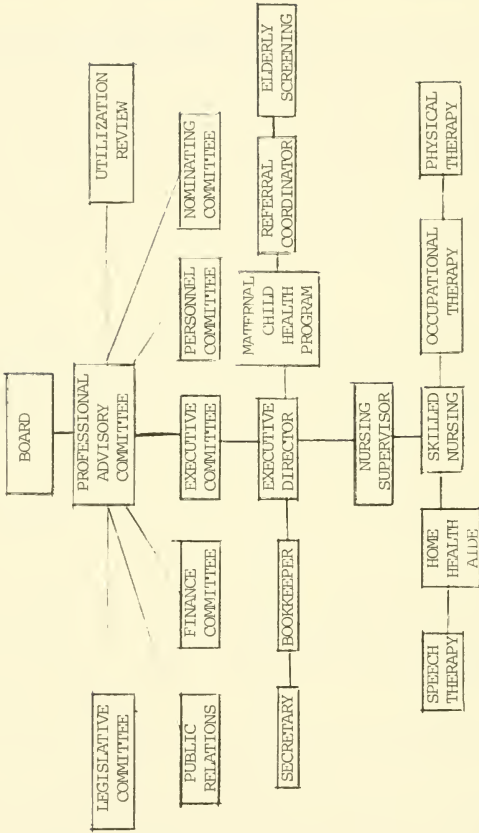

Home Health Agencies are delivering relatively inexpensive care to rural residents who might otherwise have no access to such care.

During the past year the Council has made for your town 353 skilled nursing visits, 26 home health aide visits, and 38 therapy visits; there have been 119 child health home visits and 197 children have attended the Child Health Program. The school sent 204 children to the clinic for immunization.

Anyone interested in additional information or needing services may contact the Rural District Health Council, P. O. Box 563 6 So. Main St., Farmington, NH 03835, or telephone 755-2202 between the hours of 8 - 4 pm, Monday - Friday.

Ardala Houle, R. N.
Executive Director

RURAL DISTRICT HEALTH COUNCIL, INC.
 ORGANIZATION CHART

NEWMARKET REGIONAL HEALTH CENTER, INC.

The Newmarket Regional Health Center is a community health center offering general family care for all ages. It provides preventive, routine and emergency care as well as home visits. Use of health center services increased by 19% over the past year.

Sarah Oxnard, M. D., Michael Lewis, R.P.A., and Ann Fawcett, A.R.N.P., M.S.N. continue to provide care as members of the medical team. In addition, Barbara Janeway, M.S.N., joined the health center staff in November of 1980. Barbara is a recent graduate of Yale University Family Nurse Practitioner Program. The medical team also includes registered nurses, a health aid and community health workers.

The community health workers coordinate preventive screening clinics to detect potential health hazards, hold informative workshops for the public and act as liaison between the medical providers and the patient. To make a medical appointment, call the center at 603-659-3106 or toll-free at 1-800-582-7279.

The Newmarket Regional Health Center also operates a senior citizen transportation service. Service utilization increased 19% area-wide to over 23,000 rides per year in 1980. The Transportation Program provides regularly scheduled bus service to the elderly of Barrington and other area towns. The service enables seniors to remain independent, self-sufficient, and active by providing rides to needed services, including medical, shopping and recreational trips. The addition of a new van equipped with a hydraulic lift had increased our capability to transport the handicapped. This lift allows individuals confined to a wheelchair to use our service. For more information about the Senior Citizens Transportation Program or to arrange a ride for a senior citizen, call 659-2424, toll-free at 1-800-582-7279.

The Newmarket Regional Health Center wishes to express its deepest appreciation for the continuing support given by the Town of Barrington.

Sincerely,

Ann H. Peters
Executive Director

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

Your Directors of the Lamprey Regional Solid Waste Cooperative are pleased to report that the incinerator recovery plant is in operation and producing steam for the University of New Hampshire on a regular 24-hour, 7 day a week schedule. Since reporting to you at the time of your 1980 town meetings, your Directors are able to record substantial accomplishments in the completion of the plant's construction and in placing it in operation in accordance with our long range plans.

In preparation for completion of the major elements of the plant in late summer of 1980, your Directors and staff have developed a program for waste delivery by each town, the establishment of an organization for managing and operating the plant, the sale of steam, and the disposal of the residue ash. In the waste delivery system developed, a supplemental program was implemented through the acquisition of a 50,000 pound roll-on, roll-off truck capable of handling our ash removal containers for transfer to the two planned initial disposal areas at the Newmarket and Northwood dumps, and, in addition, would efficiently and economically pick up the roll-on, roll-off compactors from Lee, Northwood, Barrington and Greenland, those towns having installed a formal compactor station unit. It was found that the acquisition of the hauling unit would effectively reduce the cost of hauling refuse to the plant and result in major reduction in cost to the Cooperative as a whole at the same time in ash removal and disposal.

To administer and manage the plant, your Directors have made arrangements with the Town of Durham to have its Public Works Director administer the plant's operation to include supervision of the operating personnel, the preparation of budgets, and detailed overall management under the general supervision of the Operations Committee of the joint Board of Directors. The plant personnel includes a plant superintendent, a mechanic-truck driver, two daily shifts of twelve hours each involving eight persons, plus a daily clean-up crew. This organization operates the incinerator system, maintains records, and coordinates with the University's power plant staff who monitor the boiler and steam production elements of the plant. This organization also handles the collection of refuse from the transfer stations and the ash removal and disposal.

The waste delivery program for all other towns in the Cooperative including both community owned packers and commercial haulers, has been organized for efficient and continuous delivery of waste with all units being weighed on the Cooperative's scales, with tonnage recorded for billing of the tipping fee to each community. To assist all the communities in the collection and the delivery program, a series of instructional memorandums were prepared including a complete set of guidelines

detailing processable and non-processable waste, i.e., that which can be handled at the plant and that which must be disposed of at the regular dump sites. This latter item, of course, includes brush, construction materials, and other non-organic material. Further, a punch card system was prepared for each community to enable them to assign deliveries to either their own vehicles or contract haulers. Guidelines were also developed and issued to all hauling units with instructions for delivery, dumping, and emergency procedures. We have made arrangements with a commercial landfill operator to handle our waste in the event of a major shut-down of all units at the plant.

We have planned, at the time of our last report to you, to begin operation of the plant in August or September, however, due to economic conditions and delay in deliveries of critical items, we were not able to begin the production of steam until November, although the furnaces' refractory linings were cured by charging and burning refuse in September. With the shake-down period still going on, we averaged over 200,000 pounds of steam per day for the month of December, this despite the unanticipated underrun in waste being generated and delivered by the twelve towns. This has been occasioned in part, as far as tonnage is concerned, by the removal of glass and cans under recycling efforts by many of the towns, as well as overall individual conservation measures in effect locally and nationally. To increase our current daily tonnage to the optimum of 55 to 60 tons per day, your Directors and the plant Administrator are working out arrangements to bring in those towns which indicated an interest in joining the Cooperative at the time of its formation, specifically, North Hampton, Eliot, and South Berwick, with firm agreement having been reached with the latter with deliveries beginning in late winter. In addition, other sources of processable waste are being explored with private haulers.

As required by federal and state regulations, we are preparing with the assistance of the State Office of Air Control and the Division of Solid Waste to make the required stack test for emissions control and ash content standards. Following this phase of the projects testing and acceptance, we expect to begin full operation and initiate the year's guarantee period. We are maintaining close liason with the University through the joint Policy Committee which has been established under our agreement, and are exploring, with the University, additional uses for energy during the summer periods of low steam requirements.

The Directors, on December 30th, held a public hearing on a proposed budget, which has now been adopted and is being submitted to each member town showing its share of the total net operating budget. Because of the late start in producing steam, the tipping fee or net cost per ton is higher than anticipated. However, we are presently exploring two additional sources of revenue in addition to the increased quantities of

waste. One of these avenues is a federal entitlement program which pays eligible operations such as ours a varying value of from three to six dollars per ton of waste burned, where it replaces oil as a source of energy. Further, our Administrator is working on a program to handle oil spill waste for the state on a fee basis. Both of these programs, if they come to fruition, will assist us in reducing the estimated cost per ton for operating the plant.

We are still working with all of the communities and the University in eliminating glass from the waste stream because of the net savings that will result by eliminating hauling it to the plant and processing it through the system.

The Directors of the Cooperative wish to express their deep appreciation for the assistance given their efforts by the University's staff as well as the officers and personnel of the cooperating towns. Every effort will be continued to keep the residents of the region informed of the progress in the collection, processing, and disposal of the waste which is being handled at the plant.

REPORT OF THE PLANNING BOARD

The Planning Board held twenty-six scheduled meetings during 1980. Twelve meetings were with subdividers and fourteen were work sessions, Public Hearings, and joint meetings with the Board of Adjustment and Selectmen.

Of the twenty subdivisions reviewed, eighteen were approved, creating 65 new lots. Several received restrictions on the amount of lots that can be transferred per year to help control development within subdivisions.

After receiving approval from the Town during Town Meeting, Non-Residential and Multi-Family dwelling unit site plan review regulations were adopted on May 8, 1980.

I extend my appreciation to my fellow members of the Planning Board for their attendance and assistance during the past year.

Respectfully Submitted,
Ronald P. Seaver
Chairman
Barrington Planning Board

REPORT OF THE ZONING BOARD OF ADJUSTMENT

The Zoning Board of Adjustment considered ten cases in 1980. There were seven exceptions and three variances to the Zoning Ordinance requested. Two of those denied appealed for rehearings.

At the beginning of the year the Board consisted of Gerard Cossette, Chairman, Lawrence Robie, Edward Young, Robert Shepard, and Faith Wallace, with Ron Waldron as alternate.

During the year we had two resignations, Lawrence Robie and Gerard Cossette and Mr. Young decided not to take another term when his term was up in April. Ronald Waldron, Richard Brooks, and Richard Bottom were appointed to new terms.

We acquired a new Secretary, Patricia Hayes, essential to the smooth running of our Board.

Respectfully Submitted

Faith Wallace
Board Member.

REPORT OF THE BUILDING INSPECTOR for 1980

Houses	30
Mobile Homes	17
Additions	27
Garages/Barns	21
Renovations	11
Swimming Pools	<u>5</u>
Total	111

As suspected, last year, the soaring interest rates have cut considerably into the new home building and selling business. Due to this fact, implementation of the growth control ordinance has been unnecessary when issuing home permits. The interest rates have been instrumental in affecting renovations and additions to existing buildings as well. The ever increasing requests for inspections and investigations that take much of my time, seems to be predicated on the requirements of lending institutions and insurance companies.

It has been apparent that a lot of the previous resistance to the codes from some of the contractors as well as an occasional owner/builder, was due at least in part to the fact that people felt it an infringement on their personal rights, rather than a matter of safety and protection. Also, many people felt that the codes were not being enforced equitably. I am in the process of trying to correct these fears and misconceptions. During the past year, I have spent considerable time and effort on an individual basis, explaining the codes in order to insure the builder that quality construction will result as well as good, sound protection from fire hazards.

During the past year, I have also been involved in compiling questions to be incorporated into a more comprehensive building permit application. The main purpose of this new application is to enable the applicant to provide the Building Inspector with a set of specifications necessary, to check against the requirements of the existing codes and ordinances. Items that do not meet these requirements can be corrected on paper beforehand, rather than in the field.

At the present time, thanks to the Selectmen, there are code books and reference material available to those of you who wish to familiarize yourselves with this information.

Respectfully submitted,

Stephen C. Pergstrom
Building Inspector

REPORT OF BARRINGTON NEW HAMPSHIRE HISTORICAL SOCIETY

Since the Society does not meet during the months of January and February, we began our new year of 1980 with the March meeting and thoroughly enjoyed Mr. Paul Hughes who spoke on the "History of Greenland". At the next meeting on April 2nd, William Wallace of Barrington gave an informative talk and showed slides of a "Compact Rural Settlement in Colonial New Hampshire". At our annual meeting in May, new officers were elected and our yearly program of "Show and Tell" delighted us all. In June, Thomas Hindle of Dover kept our attention by showing many old types of cameras and explaining the evolution of photography. On July 12th, we went to the Saugus Iron Works and after lunch spent considerable time at the Peabody Museum in Salem. Our September meeting took us via film shown by Dan Leary to Mystery Hill as well as other places in Vermont, New Hampshire, and Maine where the reason for the pre-colonial stone architecture remains unexplained. Mr. Joseph DelPorto brought us a lot of information on the "Gundalows on the Piscataqua" at our October Meeting and we are pleased to know that a 70' long Gundalow is now being built at Strawberry Banke. Our November meeting gave us a slightly different look at the Isles of Shoals. Harold Fernald, whose subject, "Shipwrecks and Ghosts of the Seacoast Area" was very entertaining. The December meeting was the 'home grown' variety with Harlan Calef reminiscing of the early days of Calef's Store. We are all happy to have had this store in our community for over one hundred years and hope it will continue for at least another hundred.

It has been a great year of meeting with friends and learning the history that surrounds us from interesting people who have done considerable research in their chosen fields.

Our next meeting will be on March 4th and we are all looking forward to hearing about the "Newington Parsonage" which will be presented by Billie Hoonbeck.

We now have one hundred ninety members and the public is cordially invited to attend any of these meetings, which are held the first Wednesday evening of each month in the Community Room at the Town Hall.

Respectfully Submitted,

Elisabeth M. Waldron,
Secretary.

V. SCHOOL DISTRICT MEETING

BARRINGTON SCHOOL DISTRICT ELECTIONS

MARCH 11, 1980

At the legal meeting of the inhabitants of the Town of Barrington qualified to vote in district affairs, the following action was taken on the school elections on Tuesday, March 11, 1980.

The meeting at the Town Hall in Barrington was called to order by Moderator Frederick Timm, at 10:00 am. The polls for voting were opened at 10:00 am and closed at 6:00 pm.

Number of eligible voters on the checklist	2121
Number of regular ballots cast	442
Number of absentee ballots cast	2

The following were chosen as officers of the school district:

SCHOOL BOARD	Gail Kinney (one Year)	354 votes
	Rachel Millette (three years)	296 votes
MODERATOR	Frederick Timm	416 votes
TREASURER	Katherine Swain	202 votes
CLERK	Pam Lenzi	57 votes
AUDITOR	Linda Sanders	17 votes

Respectfully submitted

Pam Lenzi
School District Clerk

BARRINGTON SCHOOL DISTRICT MEETING

MARCH 17, 1980

At a legal meeting of the inhabitants of the Barrington School District the following action was taken on the School Warrant on Monday, the seventeenth day of March 1980.

The meeting at the Barrington Middle School was called to order by the Moderator Frederick Timm, at 7:30 pm.

Article 1 On motion made by Gail Kinney and seconded by Rachel Millette, it was voted to accept the reports of agents, auditors, committees, or officers chosen as written in the town report.

Article 2 On motion made by Gail Kinney and seconded by Waldron Haley, it was voted 1) to use the same Advisory Budget Committee as that elected at the town meeting and 2) to empower the School Board to appoint any other agents or committees which

may become necessary during the next year.

Article 3 On motion made by Gail Kinney and seconded by Waldron Haley, it was voted to raise and appropriate the sum of \$1,350,392.77 for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.

Article 4 On motion made by Gail Kinney and seconded by Pat Newhall, it was voted to authorize the School Board to make application for and to receive and expend, in the name of the district, such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government and/or other sources.

Article 5 Since there was no other business or motions, this article was not voted upon.

There being no other business to come before this meeting, on motion made by Julien Olivier and seconded by Gail Kinney, it was voted to adjourn the meeting at 8:23 pm.

Respectfully submitted

Pam Lenzi
School District Clerk

* The lunch program does not reflect total income or expenses for the year, as the bookkeeping aspect was divided by two entities for the 1979/80 school year.

** Tables, chairs, typing desk, files, cabinets, folding door, cossette recorders, projection screen, stretcher, book easel, record player, filmstrip projector, and a calculator.

Respectfully submitted,
Shirley Roberts, Bookkeeper

BARRINGTON SCHOOL LUNCH PROGRAM 1979 - 1980

During the summer of 1980 the Barrington Middle School Cafeteria Staff attended numerous workshops on quantity production of food, the use of government commodities, and preparation of salads. Barrington Lunch Program personnel will also be represented at a baking workshop to be offered in February.

In December, I attended two workshops offered by the Department of Home Economics at the University of New Hampshire on Nutrients and Their Function, and a Nutrition Forum. Mr. James Parks, Middle School physical education teacher, also attended and collected various materials and information on these subjects. He will be preparing a section on nutrition for the students to incorporate into his curriculum in the near future. Three workshops offered by the State which I have attended were on their bookkeeping procedures, and new meal requirements and patterns. These workshops were provided by State and Government grants.

This year we have been preparing foods and baking from "scratch". This helps to keep the cost per plate to a minimum and makes nutritious meals possible without food additives. When baking we try to incorporate added nutrition in preparing recipes, and, whenever possible, reduce added salts and fats. An effort is being made to slowly remove salt shakers from serving tables, and this has already been accomplished in the Elementary School.

This year vegetables, pasta, rice, and meats are being steam pressure cooked. This method preserves vitamins, makes vegetables taste better and saves time in preparation.

At the Elementary School students may purchase a morning snack which consists of various choices: peanuts, crackers with cheese or peanut butter, orange slices, apple or orange juice, or milk. During the winter months we also have hot chocolate.

Elementary students are preparing class menus with the help of their teachers. Students may then submit to the Lunch Manager a balanced menu that they would like to have served. On that day they may help prepare and serve this meal. We also have students in both schools that assist with serving on a daily basis. We hope to have parents come in and have lunch with their children.

After the Christmas holidays, a menu suggestion box will be placed in the Middle School cafeteria for students who would like to plan their own menu. I will list the nutritional requirements to help them plan a well balanced meal.

During the first week of December an "offer" or "serve" program was started for the students at the Middle School. This program allows the students to choose one of the following:

(1) the "offer" which consists of a chef salad, a bread product, and one-half pint of milk which provides them with a well balanced meal, or (2) the "serve" which is the regular menu for the day. This supplement to the previous program gives the student greater variety in choosing the noontime meal.

I have enjoyed working with the Lunch Program as Manager in the Barrington Schools this year, and hope to continue to improve and supplement the program through workshops and various types of information and literature as provided by the State and Federal governments.

Carmelle Morrison, Manager
Lunch Program
Barrington Schools

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Barrington School District:

As of September 19, 1980, the enrollment in the Barrington Schools was distributed as follows:

Grade	1	2	3	4	5	6	7	8	Total
Elementary School	68	64	69	61					262
Middle School					93	65	57	66	281
Totals	68	64	69	61	93	65	57	66	543

In addition the Barrington School District transports the following numbers of pupils in Spaulding High School under the provisions of a ten-year tuition contract:

Grade	9	10	11	12	Total
	35	52	30	28	145

This does not include the 127 pupils tuitioned to Area Vocational and other schools.

When school opened in September, 1980 the Elementary and Middle Schools were organized as follows:

<u>ELEMENTARY SCHOOL EMPLOYEES</u>	<u>ASSIGNMENT</u>
Robert Smolen	Principal
Jenneke Clough	Grade 1
Gretchen Edington	Grade 1
Lili Walker	Grade 1
Althea Sheaff	Grade 1
Shirley Felker	Grade 2
Abigail Moreau	Grade 2
Pamela Perkins	Grades 2-3
Stephen Kershaw	Grade 3
Margaret Kelley	Grade 3
Dorothy Donahue	Grades 3-4
Deborah Delatore	Grade 4
Constance Rice	Grade 4
Catherine Bournival	Music - part-time
Sharon MacDonald	Phys. Education - part-time
Adrienne Baum	Special Education Resource
Cathy Mayne	Special Education Resource
Karen Schuster	Reading - Title 1*
Linda Silver	Speech/Language
Virginia Adams	Nurse
Kathy Atwood	Secretary
Sheila Blidberg	Special Education Aide
Virginia Wheeler	Special Education Aide
Madeline Greenleaf	Teacher Aide
Adelheid Santiago	Title I Aide

MIDDLE SCHOOL EMPLOYEES

John Davison
 Doris Poirier
 Brenda Brown
 James Sullivan
 Roberta Slavin
 Kristin McGahan
 James Parks
 Ernest Burkardt III

Librarian
 Purchase Agent/Clerk Typist
 Head Custodian
 Custodian
 Custodian
 Lunch Manager
 Lunch Workers

*Members of a joint Title I and Special Education Project

In August, 1980, I requested the State Department of Education to conduct an evaluation of all Elementary Schools in School Administrative Unit #44 in order to determine our present state of compliance with the State Department of Education's document entitled, Approved New Hampshire Elementary Schools, k-8. The purpose of this request was to utilize State Department services to obtain information which we could use as a point of reference at the local level in determining educational goals for the system. Among other recommendations the State Department suggested a thorough examination of present library services with particular attention being given to space, staff and materials consideration. Other recommendations included the creation of a part time art position grades 1-4 and a full time guidance counselor position grades 1-8. The report was very specific in commending the teaching staff of the Elementary School for their high morale, competence and working relationship with the principal. Mr. Smolen was also cited for ". . . his outstanding professional leadership and the high regard he has for children, teachers, parents and the community." The information received in this report will provide the School Board with additional data as they analyze the systems needs and revise

their long range planning for this district.

Curriculum development and refinement has been an ongoing process over the past year as the teachers and principals strive to meet the ever changing individual needs of the students. In this regard, one of the goals for the District cited in this report last year called for the development of a program for gifted children. We are extremely fortunate to have received a Federal Grant in the amount of \$3300 from the State Department of Education specifically designed to address the needs of gifted children. The Grant has allowed the District to employ a part time teacher in this capacity. Mr. Smolen and Mrs. Karen Schuster, our Elementary School reading specialist, are to be commended for spearheading the grant application process. The major curriculum focus for the year at the Middle School has been the ongoing process of refining the curriculum into one that is consistent and appropriate for the children at the respective age level. Mr. Mason and the staff are to be commended for the progress they have made in refining the curriculum in recent years.

Special Education continues to emerge as a particularly significant challenge to local school districts across the Nation as a result of Federal Law PL94-142 and Barrington is no exception to this trend. During the course of the past several years, the School District has attempted to meet its' obligation in this particular area. The high degree of support that these programs have received from the School District, the School Board, Administration and teaching staff is extremely evident and has resulted in the development of appropriate programming for the children. Specifically, as taxpayers and citizens you should be aware of the high degree of professional competence and dedication possessed by your special education teachers. The development of such support programs as those for children with special needs can only occur in a system where there is a high degree of professional sensitivity, awareness and cooperation among the administration, specialists and classroom faculty. Mr. Mason, Mr. Smolen and the entire staff are to be commended for their cooperation and mutual support. The refinement of the entire curriculum which is presently occurring in Barrington can be directly attributed to the smoothly functioning relationship which exists between the administration and professional staff.

Long range planning has always been a hallmark of the Barrington School District. I would bring your attention in this regard to the report of the School District's Study Committee published in this report. Chairman Walter Lovell and Wayne Beasley, William Condon Valerie Gillen, Audrey Guptill and Elaine Johnson have spent many hours as a committee to provide the School Board and the District with the benefit of their findings. I urge the reader to review this report and to consider its' recommendations when making decisions not only at the March 16th School District Meeting,

but subsequent meetings when final action is debated.

In closing, on behalf of the School Administrative Unit #44 Central Office staff, I wish to express our continued appreciation to the members of the School Board, the Principals, teachers and citizens for the cooperation exhibited and progress achieved this past year. We look forward to a long and productive relationship in which our mutual goals will continue to be the best possible education for our young people.

Respectfully submitted,

Barry L. Clough
Superintendent

PRINCIPAL'S REPORT TO THE TOWN OF BARRINGTON

The Barrington Schools opened in September with an enrollment of 550 students in Grades 1 through 8 (Elementary-271 students, Middle-279 students).

The Middle and Elementary Schools have entered the decade of the 80's with a very bright outlook. All but one teacher returned to the Middle School teaching staff, and one teacher was away on a year's leave of absence. The Elementary School had 100% of its full time staff return to their positions. This kind of consistency in teachers returning to their positions greatly enhances continuity of educational programs, and has a positive influence on the implementation of educational goals.

Three main goals of the Barrington Schools for the year were: (1) an emphasis on developing a positive attitude toward the development of language arts, (2) encouraging writing and its process, and (3) teaching children how to listen. Along with those goals, both schools have implemented a "Gifted and Talented Program" funded through a competitive grant from the federal government. The Middle School faculty has also been introduced to "Project Adolescence". These areas have been the basis for a series of half day teacher training workshops in order for teachers to gain the skills needed to better implement these programs.

The Elementary and Middle Schools are fortunate to have an excellent support staff to provide for the needs of youngsters with handicaps and learning disabilities. In the Elementary School there are two resource rooms staffed with a teacher and an aide in each room, as well as having the services of a Title I reading teacher in each with a shared aide, as well as a remedial reading teacher who serves Grades 5 through 8. Both schools share the services of a speech and language therapist.

In order to provide the special services required by students with special educational needs, it has been necessary to use regular classrooms for special education classes, thus creating a shortage of regular classrooms in both schools.

We are proud of the many extra-curricular activities that our staff plans and supervises for our students. Middle School students have the opportunity to participate in interscholastic and intra-mural athletics and to take part in musical and dramatic productions.

Elementary and Middle School students are involved in the Right-to-Read and Reading Is Fundamental programs supervised by Mrs. Frances Cram and Mrs. Karen Schuster.

Again this year a very successful summer school was conducted under the supervision of Mrs. Sally Crateau. Mrs. Brenda Brown and Mrs. Janice Lygren are continuing to represent Barrington on the SAU #44 Accountability Committee.

Community support for Barrington's students continues to be in evidence with tremendous turnouts of parents at Open House, ice cream sundae nights, Christmas concerts, and the annual Middle School musical production.

We are greatly encouraged, motivated, and appreciative of the support given to the schools by the people of Barrington. We give special thanks to Mrs. Claire Ivery, our Volunteer Coordinator, and to all the people who volunteer to help in and out of the classroom, as well as those who help at special events.

We also wish to thank the B.E.S.T. (Barrington Educators, Students, and Townspeople), Chairpersons Mrs. Jean Feegel and Mrs. Pam Olofsson, and their members for their outstanding efforts. Their efforts and contributions in cooperation with the School Board have created and equipped a beautiful school playground at the Elementary School. Special thanks also to Mrs. Sandra Lewis, Chairperson of Middle School P.T.C. (Parent Teacher Council) and Mrs. Linda Condon, Past Chairperson, for the many fund raising drives that they provide the leadership for, as well as the many hours of service that they give to the students and teachers in the Barrington Middle School.

We wish to recognize and thank our highly skilled and dedicated secretarial, custodial, and cafeteria staffs whose efforts contribute greatly to the overall educational process in our schools. We also wish to thank our School Board members, Ms. Gail Kinney, Dr. Waldron Haley, and Mrs. Rachel Millette for their leadership and the many hours of dedicated service and sincere interest in the education of the students of Barrington.

Our thanks also to the SAU Administrative team of Supt. Barry Clough, Assistant Superintendents Bernard Davis and Leon Worthley, and Special Education Coordinator Leonard Newman for their support and guidance.

Above all we wish to recognize and thank the highly professional and dedicated teachers who work so hard and cooperatively with us to benefit our students. It is our pleasure to serve the community of Barrington. We thank you for your support and cooperation, and hope you will continue to call on us at any time that we can be of service to you.

Respectfully submitted,
Bernard Mason and Robert Smolen,
Principals, Barrington Schools

SCHOOL NURSE REPORT 1979-1980 YEAR

This has been a busy year providing health services for Grades 1 through 8, and travelling frequently between the two school buildings. Beginning in September all students were screened for pediculosis (head lice), height and weight, vision, hearing and dental caries. The Middle School students were also screened for scoliösis (curvature of the spine). All defects found during the screenings were reported to the students' parents for correction.

In October there was an outbreak of strep throats in the Elementary School. Forty-six (46) positive throat cultures were taken at the Elementary School during that month. Fortunately only one child developed a case of scarlet fever. Throat cultures taken on children complaining of sore throats throughout the school year resulted in diagnosis of eighty-one (81) strep throats at the Elementary School and fifteen (15) at the Middle School.

The months of January and February saw high absenteeism as many children and teachers were sick with the flu or pneumonia. However, we were not hit as hard as some of the surrounding towns that had to close schools due to illness. In the Fall a small number of children at both schools had scabies, and in the Spring we had some cases of conjunctivitis. Both of these communicable diseases were stopped quickly from spreading to many other children because of the parents' cooperation in reporting the diseases to the school nurse, and keeping their children at home until the period of contagion had passed. The biggest health problem for elementary school children seems to be ear infections and fluid in the middle ear. This condition results in temporary (or permanent) hearing loss for children at a time when they are learning to read and need optimal hearing.

An average of eight (8) students are seen for first aid at each school daily. Most of the first aid is for minor injuries or illness. However, seven (7) Elementary and four (4) Middle School students were injured seriously enough to require sending them to a hospital or doctor for treatment.

Health teaching was done in both schools through the cooperative effort of teachers and school nurse. Some of the areas being covered are: nutrition, hygiene and grooming, first aid and safety, disease prevention, physical growth and development, family living, and alcohol-drug abuse prevention. In March the fifth grade students completed the American Red Cross "Basic Aid Training" course, and were awarded Red Cross certificates.

From September to December students from the Nursing Curriculum at the University of New Hampshire visited the Barrington Schools. Each student nurse spent three days learning about

school nursing, assisting the school nurse, and doing a health project with a group of our school children.

Twenty (20) Elementary School children and two (2) Middle School children received dental care through the Matching Funds Dental Clinic Program. We were fortunate this year in procuring the services of a local dentist, Dr. Brian Dahlgren. Special thanks goes to the Grange for acting as local sponsor of this program, the local organizations and businesses that contribute to the clinic, and to the volunteer drivers that transport the children to the dentist. In January and February we were also able to offer a dental hygiene program to all students. Mrs. Florrie Bergeron, dental hygienist from Rochester, conducted this clinic for us. Eighty-four (84) Elementary and sixty (60) Middle School students participated. For a small fee children had their teeth cleaned, received a fluoride treatment, and were given individual instruction on the proper brushing and care of their teeth. It is unfortunate that more children did not take advantage of this excellent program.

This past year I have attended workshops on nutrition education, school screening in spinal deformities, integrating handicapped children into the regular classroom, auditory testing, education to prevent mental retardation, and allergies in school age children. In addition, I have taken American Red Cross instructor training in CPR and first aid.

In May forty-eight (48) children attended the pre-school screening and were tested for hearing and vision defects. Other health problems that these pre-school children had were discussed with their parents. We were fortunate in having the services of Mrs. June Colby, retired school nurse, at this screening.

Virginia Adams, RN
School Nurse

VIII ORDINANCES AND CODES

BUILDING CODE
for the
TOWN OF BARRINGTON, NEW HAMPSHIRE

PREAMBLE

In order to promote the health, safety and general welfare of the Town of Barrington through structural strength and stability, to protect life and property from fire and hazards incident to design or construction, the following code is hereby enacted by the voters of the Town in annual meeting convened, in accordance with authority conferred by Chapter 51, Sections 50 to 71 and by Chapter 53, Sections 14 and 15 of the Revised Laws of New Hampshire 1942.

ARTICLE I

All construction within the Town of Barrington shall be carried out according to the provisions of this code. Nothing herein shall apply to existing buildings except where a permit is sought for additions or alterations.

ARTICLE II

All buildings shall be constructed in accordance with good building practices. Outside walls shall be covered with shingles, clapboards, brick, stucco or other generally accepted materials.

ARTICLE III

1. All dwellings will be placed upon a slab, wall or pier type of foundation. Foundations shall be constructed of solid concrete, brick, concrete blocks, cinder blocks, stone or other durable materials and shall be carried below the frost line or to bedrock.

2. Industrial structures and buildings accessory to a residence may be set on brick, stone, concrete, or other suitable piers.

3. The construction of a new building upon an old foundation may be permitted with the approval of the building inspector.

4. Chimneys shall be constructed of stone, brick, concrete, concrete blocks or cinder blocks to the ground, shall be lined with tile and shall extend at least three (3) feet above the highest point where they pass the roof of a building and at least two (2) feet higher than any portion of the building within ten (10) feet. No smoke pipe shall be allowed to pass through floors or partitions separating rooms, and all entrances to chimneys shall be fireproof construction. Factory built chimneys must be approved by a nationally-recognized testing laboratory.

ARTICLE IV

1. It shall be unlawful for any person to commence work for the relocation, erection or alteration of any dwelling, building or structure, or any part thereof, until a permit

for such relocation, erection or alteration has been issued by the building inspector.

2. No permit shall be needed for construction or alteration to a building or structure, other than a dwelling, if the value is less than Five Hundred Dollars (\$500). No permit shall be needed for alteration to a dwelling if the value is less than Five Hundred Dollars (\$500).

3. No existing structure or building shall be converted to a dwelling until a permit for such alteration has been issued by the building inspector.

4. Each application for a permit shall be accompanied by a plan or sketch showing the location of the dwelling or structure on the lot, dimensions and area of the dwelling or structure, and State approval of water and sewer services. (Ref. RSA 149-E)

5. Each application for a permit shall be accompanied by a fee of two dollars (\$2) for each One Thousand Dollars (\$1,000) of valuation, or fraction thereof. All fees paid hereunder shall be paid to the Town of Barrington.

6. No permit shall be issued until all other ordinances of the Town of Barrington and Statutes of the State of New Hampshire have been complied with.

7. Erection of any dwelling or structure, or alteration of any dwelling or structure, once commenced following issuance of a permit thereunder, shall be completed within a period of two (2) years; otherwise, said permit shall lapse.

ARTICLE V

1. A building inspector, who shall be appointed by the Selectmen, shall be responsible for enforcement of this code. (RSA chapter 156).

2. Dwellings and structures under construction or alteration shall be inspected for foundation, framing, plumbing, and wiring prior to covering, and a general inspection shall be made on the completion of the work. No dwelling may be occupied except upon receipt of a certificate from the building inspector signifying full compliance with the code.

3. On the request that an inspection by made, the building inspector shall complete said inspection within forty-eight (48) hours.

ARTICLE VI

Any person who violates any provision of this code shall be punished, upon conviction, by a fine not exceeding fifty dollars (\$50) for each violation. Each day of non-compliance shall constitute a new violation.

ARTICLE VII

1. The Selectmen shall appoint a three-member board which shall be known as the Board of Appeal. (RSA chapter 156:4A)

2. Any appeal taken from the decision of the building inspector hereunder shall be made to the Board of Appeal for the Town of Barrington.

ARTICLE VIII

Definitions

"Person" shall mean any individual, partnership, corporation, or real estate trust.

"Dwelling" shall mean any building or structure used as or intended for use as a human habitation.

"Good building practices" shall be those building practices endorsed by the National Building Code and the National Electrical Code.

Article IX

The invalidity of any provision of this ordinance shall not affect the validity of any other provision.

Article X

This ordinance shall take effect upon its passage.

Accepted at the March 1972
Town Meeting.

MISUSE OF POWER

No person shall operate any motor vehicle within the Town of Barrington so as to make excessive noise by any of the following means:

- a) Misuse of power, acceleration or traction so as to spin the wheels, in the manner commonly known as "laying rubber".
- b) Misuse of brake and stopping power in the deceleration of a motor vehicle where no emergency exists.
- c) Misuse of power, acceleration or traction by means of rapid upshift of transmission gears.
- d) Misuse of stopping or deceleration by means of rapid downshift of transmission gears.
- e) Racing of engine by means of the accelerator, carburetor, gear selector, either when motor vehicle is in motion or stationary.

Penalty: Any person found in violation of this ordinance shall be guilty of a violation as provided by the Revised Statutes Annotated of the State of New Hampshire and shall be fined no less than twenty-five (\$25.00) dollars for each offense.

Enacted November 3, 1980

NOISE ORDINANCE

Be it hereby enacted by the Barrington Board of Selectmen that it shall be unlawful for any person to make, continue, or cause to be made or continued any excessive, unnecessarily loud noise, or any noise which either annoys, disturbs, injures, or endangers the comfort, repose, health, peace or safety of others within the limits of the Town, and in accordance with the concepts, measurement definitions, and procedures set forth below.

- a) Radios, Television Sets, Musical Instruments and Similar Devices. It shall be unlawful to operate, play, or permit the operation or playing of any radio, television, phonograph, drum musical instrument, sound amplifier, or similar device which produces, reproduces, or amplifies sound between the hours of 10:00 pm and 7:00 am in such a manner as to create a noise disturbance across a real property boundary.

Penalty: Upon an apparent violation of this ordinance the enforcing officer shall give a verbal order to cease or abate the noise immediately or within a specified period of time. If the order is not complied with, the person or persons responsible for the noise shall be charged with a violation of the ordinance. Anyone who violates the ordinance shall be subject to a fine of twenty-five (\$25.00) dollars. Written record of all violations shall be kept by the Police Department.

Enacted November 3, 1980

SIGN ORDINANCE

A. Applicability. The purpose and intent of this ordinance is to provide controls of the erection, installation and maintenance of signs for the purpose of uniformity with esthetic values and for the convenience, comfort, propriety and the general welfare.

A-1 Any existing sign not conforming to the terms of this ordinance shall be allowed to continue nonconforming until such sign or structure must be replaced.

A-2 Removal of Certain Signs. Any sign not or hereafter existing which no longer advertises a bona fide business conducted, or product sold, shall be removed by the owner, agent or persons having the beneficial use of the building or property upon which the sign may be located within 14 days after written notification from the Building Inspector; otherwise the same shall thereby constitute a public nuisance.

B. General Provision.

B-1 Application for erection permit shall be made in writing to the Building Inspector for all signs in excess of 6 square feet of total exposed surface area and such application shall contain the following information:

- a. name, address and telephone number of applicant.
- b. location and position of sign or structure.
- c. plans or drawing with specifications.
- d. written consent of owner of building or land.
- e. no sign may be larger than 32 square feet without the special permission of the Board of Adjustment.
- f. fee of \$10.00.

Billboards shall not be permitted in the Town of Barrington. A billboard is a highway sign used for advertising purposes, usually owned by a concern with the same or changing ads.

B-2 Inspection. The owner of any sign shall inspect annually each sign belonging to them and it shall be the duty of said owner to keep their sign(s) in good repair and in good appearance at all times.

B-3 Placement.

- a. All signs shall be prohibited within public rights-of-way areas except as provided and except traffic control devices and directional signs deemed essential for the public welfare and safety authorized by municipal and state agencies.

- b. No sign shall be so designed or so placed as to endanger, obscure, confuse or otherwise create a hazardous condition to motor vehicles.
- c. No sign, on or attached to building, shall project above the roof or parapet line of the building.
- d. No free standing sign shall exceed a maximum height of 15 feet above the ground.

B-4 Illumination.

- a. Signs may be illuminated only by continuous indirect white light sources so placed that they will not constitute a hazard to street or highway driving by glare.
- b. No neon or tubular gas filled signs shall be allowed in any district.

B-5 Message. Signs shall refer only to a use or activity conducted on the lot upon which they are situated, except that a limited number of signs, each sign not exceeding two square feet in area on each of two sides and intended solely to provide directional information may be permitted by the Selectmen for a limited period of time.

B-6 Condition. Signs other than permitted temporary or snipe signs shall be constructed of durable materials and shall be maintained in good condition and repair. Where by reason of neglect a sign becomes hazardous, unsightly or otherwise tends to depreciate its surroundings, the same shall constitute a public nuisance.

B-7 Any state regulations more stringent shall apply in their areas on control. (State Highways).

C The following signs shall be permitted in an agricultural-residential district.

C-1 Non-Commercial Temporary Signs. The use of non-commercial temporary signs is permitted on private property only for non-commercial events and elections. Such signs are limited to a period of 14 days preceding and 3 days after the relevant event provided further:

- a. the size of any temporary sign (ie yard sale, church supper) shall not exceed 16 square feet.
- b. Such signs are not permitted on public property or in public ways.
- c. are unlighted.

C-2 Temporary Signs. One temporary sign such as used by real estate agents, contractors, architects, painters or other artisans may be permitted on a lot in any district, provided:

- a. it is unlighted.
- b. it is set back at least one-half the required depth of the front yard.

- c. it does not exceed (16) square feet in size.
- d. its proper appearance is maintained.
- e. it is removed upon completion of the work or transaction.

C-3 Home Occupation Signs. Signs stating the name and nature of a permitted home occupation may be displayed on a lot in any district provided such signs.

- a. are unlighted.
- b. are set back at least one-half (20 feet) the required depth of the front yard or are attached to the building.
- c. do not exceed two in number, each of no more than four (4) square feet in size in the agricultural-residential district.

D. Special exceptions

D-1 In the event a Special Exception is granted pursuant by the Zoning Board of Adjustment for commercial use not permitted in an agricultural-residential district, signs may be erected within the following provisions:

- a. Projection of Sign. No part of a sign for use granted special exception shall project more than 3 feet from the main wall of a building, not shall any sign project into a public way.
- b. Height of Sign. Refer to B-3 - C & D

D-2 There shall be no more than two signs per use allowed by special exception.

E. Enforcement.

E-1 Notification and removal. It shall be the duty of the Selectmen upon notification by the Building Inspector of any violation of the provisions condition in writing, and if such condition is not corrected in 5 days from the date of notification the Selectmen shall take legal action to have sign removed immediately. The owner shall be liable for any costs incurred for such removal. Any such use in violation hereof, after such notice duly given, is hereby declared to be a public nuisance (as such a public nuisance), and the Selectmen are authorized to abate the violation by application for injunction or other lawful means. Nothing herein shall prevent the Selectmen from causing prosecutions to be had for violations to obtain or impose fines for such violations, either as supplemental or alternative corrective action.

E-2 Penalties. Any person violating any of the provisions of this article shall be subject to the penalties as provided by Section F.

E-3 Appeal. Any person aggrieved by a decision taken under this article shall have the right to appeal the making of said decision to the Zoning Board of Adjustment.

F. Penalties.

a. For any and every violation of the provisions of this ordinance, the owner, general agent or contractor of a building, mobile home, or premises where such violation has been committed or shall exist, or the lessee or tenant of an entire building, mobile home or entire premises where such violation has been committed or shall exist, or the architect, builder, or any other person who knowingly commits, takes, part or assists in any violation, shall be liable on conviction thereof to a fine or penalty not exceeding \$50.00 or such other penalty which may, from time to time, be authorized by state law unless otherwise specified elsewhere in this ordinance, for each and every offense and wherever such person shall have been notified by the Board of Selectmen, or by service of summons in a prosecution, or in any other way that they are committing such violation after such notification, shall constitute a separate offense punishable by a like fine or penalty. Such fines or penalties are by law collected. Each day of violation shall constitute a separate offense.

Enacted, January 26, 1981
at 7:30 p.m.

TOWN OF BARRINGTON ZONING ORDINANCE OF 1972

Adopted September 12, 1972

Amended March 8, 1977

Amended March 11, 1980

TITLE: This ordinance shall be known and may be cited as the Town of Barrington Zoning Ordinance of 1972, herinafter referred to as "this ordinance".

DEFINITIONS: For the purpose of this ordinance, certain terms are defined as provided in this section.

A. Home produce and products includes everything of an agricultural nature grown, produced, conditioned or otherwise carried on the property of the resident, and such articles as are manufactured or altered by members of the household and their employees.

B. Trailer Park or Mobile Home Park means a parcel of land occupied by two or more trailers or mobile homes designed to be used for living purposes.

C. Side Yard. An unoccupied space extending for the full width of the lot between the building and the side lot line.

D. Back Yard. A space, unoccupied, extending for the full width of the lot between the extreme rear line of the building and the rear lot line.

E. Accessory Building. A building subordinate to the main building and customarily incidental to the main purpose of such building.

F. Building. A structure, including all integral parts thereof, intended for use and occupation as a habitation or for some purpose of assembly, business, manufacture, institutional storage, ornamentation, or shelter to persons, animals or chattels.

G. Residence. A building used as a habitation or parts thereof used for access to such building, or any dwelling as defined in the Building Code, Town of Barrington, NH.

(a) Single Family Residence means a building and accessories thereto used or adapted for use as a residence by one family.

(b) Multi-Family Residence means a building and accessories thereto used or adapted for use as a residence by more than one family.

H. Lot. A parcel of land occupied by one building or mobile home and the accessory buildings or uses customarily incident to it.

I. Frontage means that side of a lot abutting on a street or public way.

J. House Trailer/Mobile Home or Trailer. Any vehicle used or so constructed as to permit its being used as a conveyance or transported upon its own wheels, used or intended for use for residential purposes, including structural additions, except parked and unoccupied camping-type trailers.

K. Community Water Supply and Community Sewage System. A community water supply and a community sewage system shall mean a water supply and/or a sewage system that meets with the approval of the New Hampshire Water Supply and Pollution Control Commission and one that services three or more lots, each of said lots being adjacent to and forming in part a boundary line with at least any one of said three or more lots. Each community water supply and each community sewage system need, to fit within this definition, comply with all statutes, regulations and ordinances applicable thereto.

L. Family. Any number of individuals, including domestic employees, living together in a dwelling unit provided that a group of five or more persons who are not within the second degree of kinship to each other as defined by the civil law shall not be deemed to constitute a family.

ARTICLE ONE

PREAMBLE:

In order to preserve the beauty and rural appearance of our town, to protect the health, safety and general welfare of the community, to provide adequate areas between buildings and various rights of ways, to protect property values, to provide adequate public utilities and other public requirements, the following ordinance is hereby adopted by the voters of the Town of Barrington, New Hampshire in accordance with Chapter 31, Sections 60-89 of the New Hampshire Revised Statutes Annotated, as amended.

ARTICLE TWO

ENFORCEMENT OF ORDINANCE PROVISIONS:

2.1 If any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained, or any building, structure, or land is used in violation hereof or of any ordinance or other regulation made under authority conferred hereby, the proper local authorities of the municipality, in addition to other remedies, may institute any appropriate action or proceedings to prevent the occupancy of the building, structure or land, or any illegal act or use in or about such premises. (RSA 31:88)

2.2 It shall be the duty of the Building Inspector to enforce the provisions of this ordinance.

ARTICLE THREE

BOARD OF ADJUSTMENT:

Within thirty days after adoption, the Board of Selectmen shall appoint a Board of Adjustment of five members, one member to serve for one year, one for two years, one for three years, one for four years, one for five years, and thereafter, the Selectmen shall appoint one member each year for a term of five years. Vacancies shall be filled by the Selectmen for the unexpired term. The Planning Board will make recommendations to the Selectmen for the appointments of qualified candidates. The duties of said Board shall conform to the provisions of Chapter 31 of the New Hampshire Revised Statutes Annotated,

1955. Provisions for meetings of the Board of Adjustment, hearings and rehearings, specifications, actions, appeals, notice, burden of proof, powers of the Board, its qualifications of members, parties to proceedings, procedure, evidence, injunctive relief and superior court proceedings, as specified in Revised Statutes Annotated, Chapter 31, are by reference, incorporated herein and made a part hereof.

ARTICLE FOUR

FINE FOR VIOLATION OF ORDINANCE PROVISIONS:

Every person, persons, firm or corporation convicted by any court having jurisdiction, for violating any of the provisions of this ordinance, shall be fined not more than Fifty Dollars (\$50) for each violation. Each day of noncompliance shall constitute a new violation.

ARTICLE FIVE

DISTRICTS:

5.1 For the purpose of this ordinance, the Town of Barrington shall be divided into two districts: (1) An Agricultural-Residential District (Zone A) and (2) Agricultural-Residential-Commercial District (Zone B) which establishes a zone wherein commercial uses may be located. Said Districts are shown on the Official Town Zoning Map.

5.2 The Districts as established in Section 5.1 are shown on a map on file at the Barrington Town Hall, which map is made a part of this ordinance. The map is entitled, "Barrington, New Hampshire Zoning Map - Townwide". If the district classification of any land is in question, it shall be deemed to be in the more restricted adjoining district.

5.3 Certain uses of land and buildings not permitted in the Agricultural-Residential-Commercial (Zone B) Districts may be allowed as a special exception only by approval of the Zoning Board of Adjustment, upon compliance with the standards contained in this ordinance. The Zoning Board of Adjustment, before granting a special exception, shall find that such use shall not be injurious to adjacent property, shall not cause a substantial diminution of area property values, shall not constitute a nuisance or a danger to the health, safety and general welfare of the community and not be inconsistent with the Master Plan. Reasonable off-street parking facilities must be supplied and safe access and exit from the premises must also be supplied. All applications for special exceptions shall be made by the owners of record.

ARTICLE SIX

LAND USES ALLOWED: Agricultural-Residential District (Zone A)

- (a) The buying, selling and exposing for sale of home produce and products.
- (b) The office of a professional person.
- (c) Taking of boarders or the leasing or renting of rooms or buildings.

- (d) Customary home occupations carried on in the house by a resident person.
- (e) Single-family and/or multi-family residences, including accessory buildings and buildings for agricultural purposes are permitted in this district.
- (f) Convalescent and nursing homes, churches, schools, playgrounds, parks, golf courses, tennis courts are permitted.
- (g) Farming, including dairying, livestock and poultry raisings, horticulture, truck farming, forestry, and other related agricultural enterprises, and the sale of products realized from farming are permitted.

LAND USES ALLOWED: Agricultural-Residential-Commercial District (Zone B)

- (a) All uses allowed in the Agricultural-Residential District (Zone A).
- (b) Retail Sale
- (c) Personal Service Business.
- (d) Bank.
- (e) Office Building.
- (f) Restaurant
- (g) Membership Club
- (h) Indoor Theatre.
- (i) Newspaper and Printing.
- (j) Motel.
- (k) Indoor Recreation.
- (l) Research Laboratory.
- (m) Light Industry which does not product environmentally dangerous odors, fumes, discharges and noise.
- (n) Hospital
- (o) Auto Service Station.
- (p) Vehicular Sales and Repair Facility.
- (q) Hotel.
- (r) Private School.
- (s) Warehouse.
- (t) Funeral Parlor.

ARTICLE SEVEN

AGRICULTURAL-RESIDENTIAL DISTRICT (Zone A)

7.(a)1. The minimum lot area in an agricultural-residential district shall be 80,000 square feet with an additional 40,000 square foot requirement for each additional dwelling unit under a common roof.

7.(a)2. Every lot shall have a minimum frontage of 200 feet, except that lots located on a cul-de-sac shall have a minimum frontage of 100 feet provided that all the frontage is located on the cul-de-sac.

7.(a)3. The minimum street yard requirement for any lot in an agricultural-residential district shall be forty (40) feet.

7.(a)4. The minimum rear yard requirement for an agricultural-residential district shall be thirty (30) feet.

7.(a)5. The minimum side yard requirement for an agricultural-residential district shall be thirty (30) feet.

7.(a)6. The minimum set back requirement for a structure, other than a permitted sign, in an agricultural-residential district shall be forty (40) feet.

7.(a)7. The maximum coverage in any lot shall be 25% of the total lot area.

7.(a)8. The maximum building height of any building in an agricultural-residential district shall be forty(40) feet, and the maximum number of stories of any building within an agricultural-residential district shall be 2½ stories.

7.(a)9. All building lots shall comply with all applicable regulations of the New Hampshire Water Supply and Pollution Control Commission prior to the sale of, or construction upon, any such lot.

7.(a)10. Building lot land requirement on a public lake or pond. Building lots, having a Community Water Supply and a Community Sewage System, meeting with the approval of the NH Water Supply and Pollution Control Commission and offered for sale within the town shall contain not less than 15,000 square feet, and the said lots shall have not less than 100 feet frontage, not less than 100 feet from lot line, provided they are located not less than 350 feet from a Public Lake or Public Pond, as defined in RSA 271, and the entire area of the lot must be within the 350 foot limitation.

7.(a)11. Driveways. Driveways and other access to the public way shall conform to the provisions of RSA 249.

AGRICULTURAL-RESIDENTIAL-COMMERCIAL DISTRICT (Zone B)

7.(c)1. The minimum lot depth in Zone B shall be 200 feet.

7.(c)2. Maximum depth of lot in Zone B shall be 550 feet.

7.(c)3. The minimum street frontage requirement in Zone B for a commercial use shall be 400 feet.

7.(c)4. The Minimum rear yard requirement for a commercial use in Zone B shall be 100 feet.

7.(c)5. The minimum side yard requirement for a commercial use in Zone B shall be 100 feet.

7.(c)6. The minimum set back requirement for a structure other than a permitted sign in Zone B shall be 40 feet.

7.(c)7. The maximum area covered by all buildings used for commercial purposes, including accessory buildings, shall not exceed 10% of the lot area.

7.(c)8. The maximum height of any building in Zone B shall be 40 feet.

7.(c)9. All lots shall comply with all applicable regulations of the New Hampshire Water Supply and Pollution Control Commission prior to the sale of or construction upon any such lot.

7.(c)10. Driveways and other access to the public way shall conform to the provisions of RSA 249.

7.(c)11. No more than 20% of the frontage of each linear mile of State highway within Zone B may be developed for commercial use. The starting point for measuring said distances shall be the center line of each State highway at the Town line for the Town of Barrington. The 20% limitation will apply to and include both sides of the highway. Existing commercial uses shall be included in and calculation of the 20% limitation. For the purposes of this Section, all of the frontage of any lot wherein there is an existing commercial use shall be used to calculate the 20% limitation regardless of whatever any other additional use is made of the premises.

ARTICLE EIGHT

MOBILE HOMES, HOUSE TRAILERS AND CAMPING-TYPE TRAILERS:

8.1 No mobile home or house trailer may be located anywhere in the districts except in mobile home or trailer parks.

8.2 No trailer park or mobile home park for the use of mobile homes or house trailers shall be permitted in the districts unless authorized by the Board of Adjustment. After such authorization, no permit shall be granted unless the park site meets all the requirements of Article 7, 1 thru 11 - Agricultural-Residential District (Zone A).

8.3 The use of non-commercial camping-type trailers is permitted anywhere in the district for a period of up to 120 days in any one calendar year. The intent of this provision is to allow temporary recreational use by possessors of land and their guests.

ARTICLE NINE

NON-CONFORMING USE AND SOILS:

9.1 Any non-conforming use of land, building lot or buildings may continue in their present use except that such non-conforming use shall not be changed, extended or enlarged except by authorization of the Board of Adjustment. A discontinuance of one year shall void the authorization.

9.2 A non-conforming use which has ceased for a period of twelve consecutive months may not again be initiated or replaced by another non-conforming use.

9.3 In any district in which buildings are permitted, a building other than a mobile home may be erected on each lot which was a lot-of-record at the date of adoption or amendment of this ordinance, even though such lot fails to meet the requirements for area or width, or both, that are applicable in the district, provided such lot is not of continuous frontage with other lots in the same ownership.

ARTICLE TEN

AMENDMENT OF ORDINANCE:

This ordinance may be amended by procedures outlined in RSA 31:63 and 31:64.

ARTICLE ELEVEN

SEPARABILITY CLAUSE:

The invalidity of any provision of this ordinance shall not affect the validity of any other provision.

ARTICLE TWELVE

EFFECTIVE DATE OF ORDINANCE

This ordinance shall take effect upon its passage.
