## AUDITOR'S REPORT

I hereby certify that I have audited the accounts of the Selectmen, Treasurer, Tax Collector, Town Clerk, Treasurer of Trust Funds and Library Trustees from Feb. 1, 1934 to Jan. 31, 1935 and find them correctly balanced and expenditures properly vouched except for several road agents payrolls which were either lost or mislaid.

RALPH W. HAZEN,

March 4, 1935.

Auditor.

## Headmaster's Report

---

To the Superintendent of Schools:

I herewith submit my annual report and summary of work.

Bethlehem High School began the fiscal year of 1934-1935 with the most varied program in the history of the school. Physical Geography was added to the curriculum and Economics was changed from a half year course to one containing a year's work. As a result of alternating courses and combining classes, we are now in a position to offer the pupils of Bethlehem twenty one different subjects. Some of these such as English, French and Latin are offered every year in several courses.

The enrollment this year in the four grades of high school is fifty-nine. This is an increase of two pupils over last year.

The percent attendance through the sixteenth week of this school year is 98 with the number of instances of tardiness very low.

Turning toward extra-curricula and leisure time activities, we have basketball, baseball, dramatics, orchestra and the recently organized Stamp Club. A number of pupils also compete in the winter sports meets in nearby winter carnivals. Of the fifty-nine pupils registered in school, thirty-eight are members of either the boys' or girls' basketball squads.

Reports from the various post-secondary schools show that the majority of Bethlehem High School graduates are doing creditable work in their respective colleges. At the present time there are six graduates registered in the University of New Hampshire, one at Northeastern University and one at Colby Junior College. Three of the above are reported as doing honor work in their various classes.

The teachers in our school are giving much individual attention to pupils. Their work shows evidence of much thought and preparation

and the results attained are gratifying. The pupils for the most part are eager to attain success and show a proper attitude in classes as well as in other activities.

In closing, I wish to thank you for your constant help and to the school board, the teachers, pupils and citizens of Bethlehem, I wish to express my appreciation for their hearty cooperation throughout the past year.

Respectfully submitted,

LESLIE S. CUMMINGS.

## Superintendent's Report

---

To the School Board:

I am glad to submit the following report relative to your schools.

The school registers show a total enrollment this year of 226, distributed as follows:

Grade	I	II	III	IV	V	VI	VII	VIII	IX	X	XI	XII
	15	27	25	22	17	23	23	15	16	13	17	13

The present membership is 200. The difference between enrollment and present membership is smaller this year than usual, due in part to the late opening of school in September. One significant fact relative to the high school is that no one pupil has left school since the beginning of the year. The attendance this year to date has been good. The enrollment has been practically the same during the past four years as shown by the following figures.

1931-1932	1932-1933	1933-1934	1934-1935
228	231	233	226

The average membership during these years was:

1931-1932	1932-1933	1933-1934	1934-1935
188	186	189	200 now

The average membership this year will doubtless be the largest for several years and the high school membership will be the largest. The present indications are that the membership will be fairly uniform in the elementary grades and in the high school during the next few years.

The excellent work done by Dr. Page and Miss Bryant in former years to maintain proper health conditions among the school pupils has been continued. The health statistics of last year follow:

Examination October 1933	Number affected	Receiving treatment	Defects corrected
Underweight	23	23	12
Defective vision	9	3	3
Defective hearing	1	1	
Cardiac disease	1	1	
Pulmonary disease	3	3	
Defective teeth	61	32	25
Defective tonsils	9	5	5

The school pupils have received the benefit of about \$60.00 from a sum appropriated by the Federal Government and distributed by the State Board of Education to the school nurses for corrective work. Bethlehem pupils also profited from the receipts of the Child Health Tag Day.

The courses of study have had few changes during the past five years. In the first six grades and in the junior high school the courses follow closely the recommended program of the State Board of Education. In the high school the science courses have been increased to include Biology and Physiography. The program is planned to offer preparation for college, normal school and business school in English, Latin, French, Social Science, Physics, Chemistry, Biology and Mathematics, and to provide as good general training as possible for those who do not propose to enter college. The courses given this year and the number of pupils enrolled in each follow: English 59, History 23, Economics 27, Mathematics 27, Chemistry 16, Physiography 16, French 27, Commerce 36, Latin 7.

To offer as many courses with the number of teachers employed requires the alternation of subject matter where such device can be wisely practiced. For instance, Physics and Chemistry are offered in alternate years to the pupils of grade eleven and twelve. These classes are also combined in English. The program includes four years of commerce. It does not include any courses in Home Economics or in Mechanic Arts. You have excellent rooms for these courses and partial equipment for the Home Economics work but none for the Mechanic Arts.

A sum of \$200.00 would provide the necessary additional equipment for the Home Economics courses. Probably \$400.00 or \$500.00 would be necessary to equip the Mechanic Arts room for courses in Woodworking, Shop Mechanics and Auto Mechanics. Instruction in cooking and sewing could be offered to the pupils in grades seven and eight with the present number of teachers. If extended beyond those grades, the elimination of some of the courses now offered or the addition of a part time teacher would probably be necessary. To introduce woodworking instruction, in addition to cooking and sewing, some help would have to be provided outside of the present staff. This might be done as has been done in some schools, by employing the services of a good carpenter for two afternoons a week, at least for the first two or three years.

The number of pupils to profit from instruction in Home Economics and in Mechanic Arts would be much larger than the number who take Latin or Advanced French. Latin is required for entrance in very few colleges at present, probably in none which our graduates are likely to enter. The logic for adding these courses in practical arts to the program of studies is sound, provided their introduction does not add materially to the expense of operating your school system. From the view of the most practical offerings to your pupils, instruction in these courses is a wise policy. Over a period of five or ten years I think the total instructional expense would be somewhat increased by the addition of these courses to your program. Although the books would cost no more than other books and no additional classrooms would be necessary, equipment maintenance, supplies, and probably an additional teacher or part time teacher would increase the cost.

Only one change has occurred in the teaching personnel during the past year. Miss Kirkpatrick was married last year and completed her teaching at the close of the year. Miss Dorothy Britton was selected for grades three and four. Miss Britton is a graduate of Keene Normal School with one year's credit at Boston University and with two years of elementary grade experience.

All of the teachers are doing well in their respective positions. Headmaster Cummings has written in his report of the excellent record made by the high school graduates in colleges and other post-secondary schools which they have entered. The classrooms throughout the build-

ing show a splendid spirit of cooperative endeavor. The auditorium is used by all grades for music and for rehearsals for special programs. The gymnasium provides an excellent opportunity for recreation and games for all pupils when weather conditions compel the desire to stay inside. The dramatic productions, musical programs, and special holiday observances have been good. The high school athletic teams are an honor to the school in good sportsmanship and in the quality of their play. The noon lunch period during which more than half of the total number of pupils eat in the building is well conducted. The teachers cooperate especially well in the conduct of all of the so-called extra curricular phases of the school work.

The high school begins at 8:45 and closes at 3:30 with one hour lunch period at noon. A recommendation for a shorter lunch period, not more than one half hour in length, has been presented to the school board. If this were adopted, the afternoon session would close at three o'clock. More than half of the pupils eat their lunch in the school building at present. A half hour period would mean that all pupils must do that. While such a plan might prove a slight inconvenience to the parents of children now going home at noon, it might be a benefit to those pupils who have to leave home early in the morning.

At the close of the last school year on June 30, the treasurer's report showed a cash balance of \$395.47 and an amount of \$500.00 due the district from the town treasurer. With all bills paid the district had a real balance of \$895.47. The appropriation for this year was \$28,000.00, or \$2,000.00 less than that for last year. The indications are that the present year will close with a very small deficit, one hundred dollars or less.

Our budget for next year totals \$29,314.00. The receipts from sources other than taxation vary from year to year but may be estimated at \$600.00. An appropriation of \$28,000.00 plus the other receipts

will be nearly enough in any case to meet your next year's expenditures. This is the same amount that was raised last year.

I appreciate the sincere effort of school officials, teachers, and all citizens for good schools. Your cooperation has been a great help in my endeavors for school improvement.

Respectfully submitted,

DANA S. JORDAN.
