MTR, which carries 130 million of patronage monthly, is Hong Kong's essential public transport system. Group 18 (HKPSC) will organise a visit to MTR Tsing Yi Operations Control Centre (OCC) & Siu Ho Wan Depot on 11 June 2016, in order to learn about the two most core daily operations of MTR, train service management and train maintenance.

To cope with the huge passenger demand, MTR centralises all rail line operations control centres to Tsing Yi Super OCC in order to manage all train operations under one roof. Tsing Yi Super OCC will also house the controls for four of the five new rail lines being constructed, monitoring the daily operations through an efficient controlling system. Besides, Group 18 will also visit Siu Ho Wan Depot to understand the maintenance of the Airport Express, Tung Chung Line and Disneyland Resort Line. The details are as follows:
