Two of the biggest social media platforms today are Facebook and Instagram, and both are powerful marketing tools for organizations. And, yes, Facebook owns Instagram and it is easy to post on both platforms virtually at the same time. But, from a marketing standpoint, there's a lot more to it. The platforms have different audiences who expect different kinds of content at different times. And the ways to build your following and get engagement from your audiences vary across the platforms. In this interactive workshop, we will discuss some of the latest features each platform has to offer organizations, as well as how to develop and curate content, when to post, and how to get engagement on both Facebook and Instagram.
