# Table Of Contents

<b>MDOT MICROSTATION TOOLS AND PROCEDURES .....</b>	<b>1</b>
<b>Table Of Contents.....</b>	<b>i</b>
<b>CHAPTER 1 GENERAL PROCEDURES .....</b>	<b>1-1</b>
<b>Interface Overview.....</b>	<b>1-2</b>
GUI: The Graphical User Interface .....	1-3
<i>How do I get back Tool Bars that are missing?.....</i>	<i>1-3</i>
<i>How do I retrieve missing tools on a Tool Bar?.....</i>	<i>1-4</i>
Mouseing .....	1-5
<i>Standard Buttons.....</i>	<i>1-5</i>
<i>Troubleshoot the Middle Button .....</i>	<i>1-5</i>
<i>Using a Wheel Mouse .....</i>	<i>1-6</i>
Menu Overview .....	1-7
<i>Introduction .....</i>	<i>1-7</i>
<i>The Principal .....</i>	<i>1-7</i>
<i>Organization: The Top Level.....</i>	<i>1-7</i>
<i>Organization: The Next Level.....</i>	<i>1-7</i>
<i>Organization: Submenus.....</i>	<i>1-8</i>
<i>Conclusion: The Pros and Cons .....</i>	<i>1-8</i>
<b>File Management.....</b>	<b>1-9</b>
Network Overview.....	1-10
<i>MicroStation Customization files and Drawing Files: .....</i>	<i>1-10</i>
Opening Files.....	1-11
Making New Files.....	1-12
<i>Setup .....</i>	<i>1-12</i>
<i>Launch the Makesheetz macro.....</i>	<i>1-12</i>
<i>Choose Preliminary Information .....</i>	<i>1-12</i>
<i>Choose a File Type .....</i>	<i>1-12</i>
<i>Final Filename Editing.....</i>	<i>1-13</i>
<i>End Game .....</i>	<i>1-14</i>
<i>Safety Features .....</i>	<i>1-14</i>
File Names .....	1-15
Sheet Renumbering Utility .....	1-16
<i>Introduction .....</i>	<i>1-16</i>
<i>Operating the Utility.....</i>	<i>1-16</i>
<i>Prioritizing Plan Set .....</i>	<i>1-17</i>
<i>Precautions.....</i>	<i>1-18</i>
PCF Editing.....	1-19
<i>Discussion.....</i>	<i>1-19</i>
<i>Edit PCF File.....</i>	<i>1-19</i>
Border Information Macro.....	1-21
<i>Discussion.....</i>	<i>1-21</i>
<i>Sheet Numbering.....</i>	<i>1-21</i>

<i>Process Options</i> .....	1-21
<i>Error Messages</i> .....	1-22
<i>Side Effects</i> .....	1-22
<i>Changing Data After the Fact</i> .....	1-22
<i>Troubleshooting</i> .....	1-23
<b>Disabling the BorderInfo Substitution</b> .....	1-24
<i>Overview of Droplink.bas</i> .....	1-24
<i>Setup</i> .....	1-24
<i>Run the DropLink Macro</i> .....	1-24
<i>What Does it Do?</i> .....	1-24
<i>Quitting</i> .....	1-24
<b>Plotting Overview</b> .....	<b>1-25</b>
<b>MDOT Plot Drivers</b> .....	1-26
<i>US_OCE9800FULL – Final Full Size Plotting</i> .....	1-26
<i>US_OCE9800HALF – Final Half Size Plotting</i> .....	1-26
<i>US_OCE9800LONG – Long Plots (5’ – 20’)</i> .....	1-26
<i>US_OCE98002FILE</i> .....	1-26
<i>US_OCE9400FULL - Full Size Check Plots</i> .....	1-26
<i>US_OCE9400HALF – Half Size Check Plots</i> .....	1-26
<i>US_OCE9400LONG – Long Plots (5’ – 20’)</i> .....	1-26
<i>US_HPCOLOR2</i> .....	1-27
<i>US_HPCOLOR4</i> .....	1-27
<i>US_HPCOLORRoom303</i> .....	1-27
<i>PLOTCHP4</i> .....	1-27
<i>PRINTER_BW</i> .....	1-27
<i>PRINTER_COLOR</i> .....	1-27
<i>PRINTER_STANDARD_DETAIL</i> .....	1-27
<i>Hearing_PRINTER</i> .....	1-28
<i>Regional Office Plotters HP750C</i> .....	1-28
<i>Regional Office Plotters OCETDS400</i> .....	1-28
<b>Pen Tables</b> .....	1-30
<i>!pentable.tbl</i> .....	1-30
<i>BORINGLOG.tbl</i> .....	1-30
<i>ENV_PRINTER_COLOR</i> .....	1-30
<i>Graysurvey_wetlands.tbl</i> .....	1-30
<i>Heavytopo.tbl</i> .....	1-30
<i>MHPC.tbl</i> .....	1-30
<i>Prelim_plan_color.tbl</i> .....	1-30
<i>Title.tbl</i> .....	1-30
<i>Hearing_Thicker.tbl</i> .....	1-31
<i>Hearing_Thinner.tbl</i> .....	1-31
<i>Laserjetblack.tbl</i> .....	1-31
<i>Rowblack.tbl</i> .....	1-31
<b>Single Sheet Plotting (Fence Plotting)</b> .....	1-32
<i>Step One: Place a fence</i> .....	1-32
<i>Step Two: Select Print/Plot</i> .....	1-32
<b>Plotting Sheet Files (Batch Printing)</b> .....	1-36
<i>Making a Batch Print Job</i> .....	1-36
<i>Printing with Batch Print</i> .....	1-40
<i>Printing from an Existing Batch Print Job</i> .....	1-40
<i>Batch Print Troubleshooting</i> .....	1-41
<b>Creating Long Plots</b> .....	1-43
<i>Step One</i> .....	1-43
<i>Step Two: Placing the Cell</i> .....	1-43
<i>Step Three: Rotate View</i> .....	1-43

<i>Step Four: Printing</i> .....	1-45
Fence Plotting to Scale .....	1-47
<i>Step One: Place Fence</i> .....	1-47
<i>Step Two: Setting Scale</i> .....	1-47
Color Plotting.....	1-49
<i>File Setup</i> .....	1-49
PlotFile Plotting (.plt) .....	1-50
<b>CHAPTER 2 GENERAL TOOLS .....</b>	<b>2-1</b>
<b>Fundamentals .....</b>	<b>2-2</b>
Element Attributes .....	2-3
<i>Setting Attributes</i> .....	2-3
<i>Settings Manager</i> .....	2-3
<i>Level Display</i> .....	2-4
<i>Level Manager</i> .....	2-5
Snaps.....	2-7
<i>AccuSnap</i> .....	2-8
<i>Keypoint</i> .....	2-9
<i>Intersection</i> .....	2-9
<i>Center</i> .....	2-9
<i>Nearest</i> .....	2-10
View Control.....	2-11
<i>Overview</i> .....	2-11
<i>Rotate View</i> .....	2-11
<i>3D Troubleshooting</i> .....	2-11
Complex Chains and Shapes.....	2-12
<i>Overview</i> .....	2-12
<i>Creating Complex Chains</i> .....	2-12
<i>Creating Complex Shapes</i> .....	2-13
<i>Troubleshooting</i> .....	2-14
Complex Regions.....	2-15
<i>Overview</i> .....	2-15
<i>Launching the Tool</i> .....	2-15
<i>Complex Region Methods</i> .....	2-15
<i>Fill</i> .....	2-18
<i>Keep Original</i> .....	2-18
<i>Tips and Tricks for Flood</i> .....	2-19
<b>Introduction to the Settings Manager.....</b>	<b>2-20</b>
Structure of the Settings Manager .....	2-21
<i>The Many Faces of the Settings Manager</i> .....	2-21
<i>Opening the Settings Manager</i> .....	2-22
Settings Manager Scale.....	2-23
<i>Real World Size Vs. Paper Size</i> .....	2-23
<i>Selecting a Scale</i> .....	2-23
<i>What does this change?</i> .....	2-24
Settings Manager Working Units .....	2-25
<i>Choosing a Working Units Setup</i> .....	2-25
<i>The Defaults</i> .....	2-25
<i>Switching to U S Custom</i> .....	2-25
<b>Fences &amp; Groups .....</b>	<b>2-26</b>
Selection Sets.....	2-27

<i>Select All</i> .....	2-27
<i>Select None</i> .....	2-27
<i>Element Selection</i> .....	2-27
<i>PowerSelector</i> .....	2-28
<i>Methods</i> .....	2-28
<i>Modes</i> .....	2-28
<i>“Permanent” Grouping</i> .....	2-28
<b>Advanced PowerSelector</b> .....	<b>2-30</b>
<i>Setup</i> .....	2-30
<i>Tabs</i> .....	2-30
<i>Adding Elements</i> .....	2-30
<i>Subtracting Elements</i> .....	2-32
<i>Color, Style, Weight, Type and Class</i> .....	2-32
<b>Select By Attributes</b> .....	<b>2-33</b>
<i>Overview</i> .....	2-33
<i>Standard Methods</i> .....	2-33
<i>Element Type Hints</i> .....	2-34
<b>Advanced Select By Attributes</b> .....	<b>2-35</b>
<i>Overview</i> .....	2-35
<i>Modes</i> .....	2-35
<i>Properties</i> .....	2-36
<i>More Properties</i> .....	2-37
<i>Set Select By From Element</i> .....	2-37
<b>Fences</b> .....	<b>2-39</b>
<i>Discussion</i> .....	2-39
<i>Fence Types</i> .....	2-39
<i>Fence Modes</i> .....	2-39
<i>Points to Ponder</i> .....	2-40
<b>Graphic Groups</b> .....	<b>2-41</b>
<i>Overview</i> .....	2-41
<i>Graphic Group Lock</i> .....	2-41
<i>Adding Elements to a Graphic Group</i> .....	2-41
<i>Removing Elements from a Graphic Group</i> .....	2-42
<i>Adding Elements to an Existing Graphic Group</i> .....	2-42
<b>Accudraw</b> .....	<b>2-43</b>
<b>Fundamentals of Accudraw</b> .....	<b>2-44</b>
<i>Introduction</i> .....	2-44
<i>Shortcut Keys for Construction</i> .....	2-45
<b>Accudraw Settings</b> .....	<b>2-46</b>
<i>Operation Tab</i> .....	2-46
<i>Display Tab</i> .....	2-47
<i>Coordinates Tab</i> .....	2-47
<b>Accudraw Shortcut Commands</b> .....	<b>2-49</b>
<i>Some Important Shortcut Keys</i> .....	2-50
<b>AccuDraw Example: Roadway Templates</b> .....	<b>2-51</b>
<i>Calculating Slope</i> .....	2-51
<i>Placing Accudraw’s Origin</i> .....	2-51
<b>Drawing in Sub-Units</b> .....	<b>2-53</b>
<b>Measuring</b> .....	<b>2-54</b>
<b>Coordinate Readout</b> .....	<b>2-55</b>
<i>Linear Units, Accuracy</i> .....	2-55
<i>Angle Accuracy and Mode</i> .....	2-56
<b>Measuring Part 1</b> .....	<b>2-57</b>

Measuring Part 2.....	2-58
<i>Measuring Areas</i> .....	2-58
Tips and Tricks .....	2-59
<i>Using Flood with PowerSelector</i> .....	2-59
<i>Converting Metric Measurements to English</i> .....	2-59
<b>Reference Files .....</b>	<b>2-61</b>
References Dialog.....	2-62
<i>List box</i> .....	2-62
<i>Icons</i> .....	2-63
<i>Hilite Mode</i> .....	2-63
<i>Main Menu (Tools)</i> .....	2-64
<i>Main Menu (Settings)</i> .....	2-65
References Attach.....	2-66
<i>Nested Attachments</i> .....	2-67
<i>Depth</i> .....	2-68
<i>Display Raster References</i> .....	2-68
Reference File Moving.....	2-69
Reference File Rotation .....	2-70
<b>Raster Files .....</b>	<b>2-71</b>
Raster Attach.....	2-72
<i>Determine Image Size</i> .....	2-72
<i>Place Block</i> .....	2-72
<i>Attach Raster Image</i> .....	2-73
<b>Macros .....</b>	<b>2-75</b>
Batch Process Reference Settings.....	2-76
<i>Step 1</i> .....	2-76
<i>Step 2 &amp; 3</i> .....	2-77
<i>Step 4 &amp; 5</i> .....	2-77
Batch Attach Reference Files .....	2-79
<i>Files to Process</i> .....	2-79
HotSwap.....	2-81
<i>Overview</i> .....	2-81
<i>Launch the Macro</i> .....	2-81
<i>Identify the Element</i> .....	2-81
<i>Set Zoom Level</i> .....	2-81
<i>Tips</i> .....	2-81
Label Slope By Points.....	2-82
<i>Overview</i> .....	2-82
<i>Setup</i> .....	2-82
<i>Run the Macro</i> .....	2-82
Flattening your Active File.....	2-83
<i>When to Flatten</i> .....	2-83
<i>How to Flatten</i> .....	2-83
<i>How to Undo The Flatten</i> .....	2-83
<i>Other Options When Flattening</i> .....	2-83
<i>Just What Exactly Does the Flatten Macro Do?</i> .....	2-84
Steel Macro.....	2-85
<i>Overview</i> .....	2-85
<i>Step Zero: Preparation for the Macro</i> .....	2-85
<i>Step One: Launch the Macro</i> .....	2-85
<i>Step Two: Pick Your Shape</i> .....	2-85

<i>Step Three: Choose an Origin</i> .....	2-87
<i>Step Four: Place the Shape</i> .....	2-88
<i>Option One: More of the Same</i> .....	2-89
<i>Option Two: Undo</i> .....	2-89
<i>Option Three: Using Previous Shapes</i> .....	2-89
<i>Option Four: Angle Legs</i> .....	2-90
<b>Weld Macro</b> .....	<b>2-91</b>
<i>Overview</i> .....	2-91
<i>Step One: Launch the Macro</i> .....	2-91
<i>Step Two: Enter Points</i> .....	2-91
<i>Step Three: Fill out the Dialog</i> .....	2-91
<i>Step Four: Apply Settings</i> .....	2-95
<i>Undo It</i> .....	2-95
<b>Move Filled Shapes Back</b> .....	<b>2-96</b>
<i>Launch the Macro</i> .....	2-96
<i>What Does it Do?</i> .....	2-96

## **CHAPTER 3 SURVEY CLEAN-UP PROCEDURES.....3-1**

### **MX Editing Procedures ..... 3-2**

<b>General Information</b> .....	<b>3-3</b>
<i>Standard Naming</i> .....	3-3
<i>Preserving Original Files</i> .....	3-3
<b>Initial Topography</b> .....	<b>3-4</b>
<i>Step One: MX Editing</i> .....	3-4
<i>Step Two: Create MicroStation Drawings</i> .....	3-4
<i>Step Three: Update Status Report</i> .....	3-5
<i>Step Four: Communication</i> .....	3-5
<b>Topography Updates</b> .....	<b>3-6</b>
<i>Step One: MX Editing</i> .....	3-6
<i>Step Two: Create New MicroStation Drawings (Adds)</i> .....	3-6
<i>Step Three: Regenerate Points, Contours &amp; Triangles</i> .....	3-6
<i>Step Four: Regenerate Topo Model</i> .....	3-7
<i>Step Five: Recreate Mapping Model</i> .....	3-7
<i>Step Six: Update Status Report</i> .....	3-7
<i>Step Seven: Communication</i> .....	3-7
<i>Step Eight: Create Zip Files For A Design Consultant (If Necessary)</i> .....	3-7
<i>Step Nine: Communication to Consultant Coordinator (if necessary)</i> .....	3-8

### **MicroStation Cleanup Procedures ..... 3-9**

<b>General Information</b> .....	<b>3-10</b>
<i>Standard Naming</i> .....	3-10
<i>Preserving Original Files</i> .....	3-10
<i>The End Result</i> .....	3-10
<b>Initial Topography Cleanup</b> .....	<b>3-11</b>
<i>Quick Punch List</i> .....	3-11
<i>Determine Direction of Proposed Alignment</i> .....	3-11
<i>Step One: Open Windows Explorer</i> .....	3-11
<i>Step Two: Open the Topo Folder</i> .....	3-12
<i>Step Three: Copy Files from Survey\Msta to Topo Folder</i> .....	3-12
<i>Step Four: Open MicroStation</i> .....	3-14
<i>Step Five: Attach Reference Files</i> .....	3-15

Step Six: Turn Off Line Weights (Optional).....	3-16
Step Seven: Adjust Level Display (Optional).....	3-16
Step Eight: Load Clean-up Tools (Optional).....	3-16
Step Nine: Adjust Ditch Arrows (May be Necessary) .....	3-18
Step Nine: Flatten Your Drawing .....	3-20
Step Ten: Determine Direction of Proposed Alignment.....	3-20
Step Eleven: Adjust View and Save Settings (Optional) .....	3-21
Step Twelve: Reverse Element Direction .....	3-22
Step Thirteen: Rotating Topography Cells .....	3-23
Step Fourteen: Rotating and Stretching Cells .....	3-26
Step Fifteen: Moving Vertices.....	3-26
Step Sixteen: Adjust and Save Changes (Courtesy To Others) .....	3-27
Step Seventeen: Add Note to Cleanlog.txt File! .....	3-27
Step Eighteen: Open and Flatten Contours and Points .....	3-27
Step Nineteen: Repeat for Mapping.dgn (Projects that Utilizes Aerial Mapping) .....	3-27
<b>Initial Text Cleanup .....</b>	<b>3-29</b>
Determine Direction of Proposed Alignment.....	3-29
Step One: Open the Text.dgn (From the Topo Folder).....	3-29
Step Two: Reference Topo.dgn and Mapping.dgn (If exists) .....	3-30
Step Three: Flatten the Drawing .....	3-30
Step Four: Adjusting Text Height, Width and Line Spacing .....	3-30
Step Five: Rotating Text.....	3-31
Step Six: Moving Text .....	3-33
Step Seven: Editing Text (Optional).....	3-33
Step Eight: Labeling With Arrows (Optional) .....	3-33
Step Nine: Find and Replace Text (Metric Projects Only) .....	3-34
Step Ten: Adjust and Save Changes (Courtesy To Others).....	3-34
Step Eleven: Add Note to Cleanlog.txt File! (Courtesy To Others).....	3-34
<b>Additional Topography Cleanup .....</b>	<b>3-36</b>
Quick Punch List.....	3-36
Step One: Copy/Rename Origtopoadd#, Origtextadd#, Contours and Points.....	3-36
Step Two: Add Note to Cleanlog.txt File! .....	3-36
Step Three: Open Topoadd# .....	3-37
Step Four: Attach Reference Files .....	3-37
Step Five: Refer to Step 6 through Step 18 in the “Initial Topo Cleanup” portion of this manual .....	3-37
<b>Additional Text Cleanup.....</b>	<b>3-38</b>
Determine Direction of Proposed Alignment.....	3-38
Step One: Open the Textadd#.dgn (From the Topo Folder).....	3-38
Step Two: Reference Topoadd#.dgn .....	3-38
Step Three: Refer to Step 3 through Step 11 in the “Initial Text Cleanup” portion of this manual .....	3-38
<b>Blending New Topo and Text With Old.....</b>	<b>3-39</b>
General Information – Blending Tips .....	3-39
Aerial Mapping Projects.....	3-39
Adjust Colors for Easy Editing - Level Symbolology (Optional) .....	3-39
File Swapping (Handy Tip - Optional) .....	3-45
Highlite Display of Reference Files (Optional) .....	3-45
Update the Reference File Sequence (Optional).....	3-46
<b>Merging New Topo and Text With Old.....</b>	<b>3-47</b>
Step One: Open Topo.dgn and Attach Topoadd#.dgn .....	3-47
Step Two: Merging Topoadd# File .....	3-47
Step Three: Open Text.dgn and Attach Textadd#.dgn .....	3-47
Step Four: Merging Textadd# Files.....	3-48
Step Five: Moving Topoadd# and Textadd# .....	3-48
Step Six: Add Note to Cleanlog.txt File! .....	3-48
Step Seven: Copy Contents of Topo folder to Y:drive (Regional Employees).....	3-49

<b>Wetland Survey Cleanup.....</b>	<b>3-50</b>
General Information .....	3-51
<i>Standard Naming</i> .....	3-51
<i>Preserving Original Files</i> .....	3-51
<i>The End Result</i> .....	3-51
Initial Wetlands Cleanup .....	3-52
<i>Quick Punch List</i> .....	3-52
<i>Step One: Open Windows Explorer</i> .....	3-52
<i>Step Two: Open the Topo Folder</i> .....	3-52
<i>Step Three: Open the Survey\MSTA Folder - Copy Files to Topo Folder</i> .....	3-53
<i>Step Four: Open MicroStation</i> .....	3-54
<i>Step Five: Attach Reference Files</i> .....	3-55
<i>Step Six: Flatten Your Drawing</i> .....	3-56
<i>Step Seven: Adjust View and Save Settings (Optional)</i> .....	3-56
<i>Step Eight: Reverse Wetland Linestyle Direction</i> .....	3-57
<i>Step Nine: Moving Vertices</i> .....	3-58
<i>Step Ten: Adjusting Text Height and Width</i> .....	3-59
<i>Step Eleven: Rotating Text</i> .....	3-59
<i>Step Twelve: Moving Text</i> .....	3-61
<i>Step Thirteen: Add Note to Cleanlog.txt File!</i> .....	3-62
Additional Wetlands Cleanup.....	3-63
<i>Quick Punch List</i> .....	3-63
<i>Step One: Copy Wetlandsadd#</i> .....	3-63
<i>Step Two: Add Note to Cleanlog.txt File!</i> .....	3-63
<i>Step Three: Open Wetlandsadd#</i> .....	3-63
<i>Step Four: Attach Reference Files</i> .....	3-63
<i>Step Five: Refer to Step 6 through Step 13 in the “Initial Wetlands Cleanup” portion of this manual</i> .....	3-64
Merging New Wetlands With Old.....	3-65
<i>Step One: Open Wetlands.dgn and Attach Wetlandsadd#.dgn</i> .....	3-65
<i>Step Two: Merging Wetlandsadd# Files</i> .....	3-65
<i>Step Three: Moving Wetlandsadd#</i> .....	3-65
<i>Step Four: Add Note to Cleanlog.txt File!</i> .....	3-65
<i>Step Five: Copy Contents of Topo folder to Y:drive (Regional Employees)</i> .....	3-66
 <b>CHAPTER 4 PLAN DEVELOPMENT .....</b>	<b>4-1</b>
<b>Title Sheet Development.....</b>	<b>4-2</b>
<i>Quick Punch List</i> .....	4-2
Create A Title Sheet .....	4-3
<i>Step One: Open MicroStation</i> .....	4-3
<i>Step Two: Create Title Sheet</i> .....	4-3
<i>Step Three: Editing Text Headings</i> .....	4-3
Creating Location Maps .....	4-4
<i>Step One: Open Location Map</i> .....	4-4
<i>Step Two: Locate the Project Area</i> .....	4-4
<i>Step Three: Place the Square</i> .....	4-4
<i>Step Four: Save the Locmap.dgn</i> .....	4-4
<i>Step Five: Copy Map to Clipboard</i> .....	4-4
<i>Step Six: Paste Map</i> .....	4-5
Creating A Layout (Highway Projects With A Survey & Design) .....	4-6
Introduction .....	4-6
<i>Step One: Create a Layout Drawing</i> .....	4-6
<i>Step Two: Place a North Arrow</i> .....	4-6
<i>Step Three: Rotate Your View</i> .....	4-6

<i>Step Four: Create a Saved View</i> .....	4-7
<i>Step Five: Reference the view into the Title Sheet</i> .....	4-7
<i>Step Six: Tweaking the Layout Placement</i> .....	4-8
<i>Step Seven: Stationing the Layout</i> .....	4-8
<i>Step Eight: Shading the Layout Drawing</i> .....	4-10
<i>Step Nine: Adjusting the Layout Scale</i> .....	4-11
<i>Step Ten: Place Text on the Title Sheet</i> .....	4-12
<b>Creating A Layout (No Survey)</b> .....	<b>4-13</b>
<i>Introduction</i> .....	4-13
<i>Step One: Place Temporary North Arrow</i> .....	4-13
<i>Step Two: Place a Fence</i> .....	4-13
<i>Step Three: Copy Fence</i> .....	4-13
<i>Step Four: Scale and Rotate</i> .....	4-14
<i>Step Five: Adjust Scale</i> .....	4-14
<i>Step Six: Place North Arrow</i> .....	4-14
<i>Step Seven: Place Text on the Title Sheet</i> .....	4-14
<b>Typical Section Sheet Development</b> .....	<b>4-15</b>
<i>Quick Punch List</i> .....	4-15
<i>Things to Remember</i> .....	4-15
<i>Freehand Template Techniques</i> .....	4-15
<b>Creating a Typical Section Drawing File</b> .....	<b>4-16</b>
<i>Step One: Open MicroStation</i> .....	4-16
<i>Step Two: Create a New Drawing(s)</i> .....	4-16
<b>Creating Typicalss Using the “Typsectn” Macro</b> .....	<b>4-17</b>
<i>Introduction</i> .....	4-17
<i>Step One: Start Typical Section Program</i> .....	4-17
<i>Step Two: Enter lane Information</i> .....	4-17
<i>Step Three: Enter Pavement and Subgrade Depths</i> .....	4-18
<b>Creating Typicalss Using the Template Macro</b> .....	<b>4-20</b>
<b>Dimensions, Text, and Notes</b> .....	<b>4-21</b>
<b>Estimate Sheet Development</b> .....	<b>4-22</b>
<i>Quick Punch List</i> .....	4-22
<b>Exporting Quantity Items from the Estimator</b> .....	<b>4-23</b>
<i>Introduction</i> .....	4-23
<i>Step One: Getting into Estimator</i> .....	4-23
<i>Step Two: Exporting (*.he) File</i> .....	4-23
<b>Importing Lotus.CSV file into Estimated Quantities Sheet</b> .....	<b>4-25</b>
<i>Step One: Open MicroStation</i> .....	4-25
<i>Step Two: Make an Estimate Sheet</i> .....	4-25
<i>Step Three: Run Estimate Macro</i> .....	4-25
<i>Step Four: Adjust Quantities</i> .....	4-25
<i>Additional Sheet Needed?</i> .....	4-26
<b>Drainage Sheet Development</b> .....	<b>4-27</b>
<i>Quick Punch List</i> .....	4-27
<b>Using the Drainage Spreadsheet</b> .....	<b>4-28</b>
<i>Introduction</i> .....	4-28
<i>Step One: Copy the Spreadsheet</i> .....	4-28
<i>Step Two: Enter Drainage Data</i> .....	4-28
<i>Step Three: Save as TXT file</i> .....	4-28
<b>Importing Drainage Information</b> .....	<b>4-31</b>
<i>Step One: Open MicroStation</i> .....	4-31
<i>Step Two: Make an Drainage Sheet</i> .....	4-31

<i>Step Three: Run the Macro</i> .....	4-31
<i>Multiple Drainage Sheets</i> .....	4-31
<b>Notes Sheet Development .....</b>	<b>4-33</b>
<i>Quick Punch List</i> .....	4-33
Location and Explanation of Template Files .....	4-34
<i>Introduction</i> .....	4-34
<i>General Notes</i> .....	4-34
<i>Summary of Excavation and Borrow</i> .....	4-34
<i>Estimating US Customary Projects</i> .....	4-34
<i>Estimating Metric Projects</i> .....	4-35
General Notes Sheets .....	4-36
<i>Step One: Copy the Template File</i> .....	4-36
<i>Step Two: Open and Edit Using WORD</i> .....	4-36
<i>Step Three: Save As .txt File</i> .....	4-36
<i>Step Four: Open and Copy the Text from the New File</i> .....	4-37
<i>Step Five: Open MicroStation</i> .....	4-37
<i>Step Six: Set Your Text Size and Font</i> .....	4-37
<i>Step Seven: Paste the Selected Text</i> .....	4-38
<i>Step Eight: Placing Text in the File</i> .....	4-38
<i>Step Nine: Editing Text</i> .....	4-38
Construction Note Sheets .....	4-39
<i>Introduction</i> .....	4-39
<i>Importing Reports into Excel (Informational/Optional)</i> .....	4-39
<i>Step One: Open Spreadsheet</i> .....	4-40
<i>Step Two: Save as Text (tab delimited)</i> .....	4-41
<i>Step Three: Warnings</i> .....	4-41
<i>Step Four: Open MicroStation</i> .....	4-42
<i>Step Five: Set Your Text Size and Font</i> .....	4-42
<i>Step Six: File Import&gt;Text</i> .....	4-42
<i>Step Eight: Editing the Text</i> .....	4-42
<b>Geometric Sheet Development.....</b>	<b>4-43</b>
Clean-up the Geometry .....	4-44
<i>Introduction</i> .....	4-44
<i>Step One: Opening and Editing the Geometry</i> .....	4-44
<i>Step 2: Placing Notes from MX Reports</i> .....	4-46
<i>Step 3: Annotating Point Numbers</i> .....	4-46
Creating Geometric Plans .....	4-47
<i>Step One: Open the geometry.dgn</i> .....	4-47
<i>Step Two: Reference hdplan.dgn and Alignments.dgn</i> .....	4-47
<i>Step Three: Merging the Clip Boundaries into the Geometry File</i> .....	4-47
<i>Step Four: Make Geometric Plan Files</i> .....	4-48
<i>Troubleshooting</i> .....	4-49
<i>Adjusting Saved Views</i> .....	4-50
<i>Re-sheeting</i> .....	4-50
<b>CHAPTER 5 ROADWAY SHEETS .....</b>	<b>5-1</b>
<b>Roadway Plan Sheet Development .....</b>	<b>5-2</b>
Creating Roadway Plan Sheet Drawings .....	5-3
<i>Step One: Open your group's ??plan.dgn</i> .....	5-3
<i>Step Two: Reference in Survey Data</i> .....	5-3
<i>Step Three: Attach Proposed Design and Alignment</i> .....	5-4
<i>Step Four: Sheetting up the Plans</i> .....	5-5

<i>Step Five: Placing North Arrows</i> .....	5-5
<i>Step Six: Make new Plan Files</i> .....	5-6
<i>Live Nesting</i> .....	5-8
<i>Troubleshooting</i> .....	5-8
<i>Adjusting Saved Views</i> .....	5-8
<i>Re-sheeting</i> .....	5-8
Clean-up the Proposed Design Files .....	5-10
<i>Editing the Alignments.dgn</i> .....	5-10
<i>Editing the Proposed Design (i.e. Highway.dgn or Bridge.dgn)</i> .....	5-12
<b>Profile Sheet Development .....</b>	<b>5-15</b>
Profile Drawing Generation.....	5-16
<i>Discussion</i> .....	5-16
<i>Rename file to look alike (Optional)</i> .....	5-16
<i>Step One: Symbology Correction</i> .....	5-16
<i>Step Two: Rename the Drawings</i> .....	5-16
<i>Step Three: Edit the PCF File</i> .....	5-16
<i>Step Four: Border Information</i> .....	5-17
<i>More Cleanup</i> .....	5-17

## **CHAPTER 8 TRAFFIC SHEETS.....8-1**

### **Accident Records Workflow ..... 8-2**

<b>PIN CREATION</b> .....	<b>8-3</b>
<i>Step One: Opening the Command Prompt Screen</i> .....	8-3
<i>Step Two: Changing Directory</i> .....	8-3
<i>Step Three: Creating the Project Identifier</i> .....	8-3
<i>Step Four: Editing Your Project Configuration File</i> .....	8-5
<i>Step Five: Closing Command Prompt Window</i> .....	8-6

## **CHAPTER 9 ROW SHEETS .....9-1**

### **Overview ..... 9-2**

<b>Construct Station and Offset</b> .....	<b>9-3</b>
<i>Starting Point</i> .....	9-3
<i>Entering the Distance and Direction</i> .....	9-3
<i>Choosing the Direction</i> .....	9-3
<i>Choosing the Offset Distance</i> .....	9-4
<i>Troubleshooting</i> .....	9-5

### **Procedures..... 9-7**

<b>Creating ROW Plan Sheets</b> .....	<b>9-8</b>
<i>Step One: Open RWPLAN-clips.dgn</i> .....	9-8
<i>Step Two: Cut Sheets</i> .....	9-9
<i>Step Three: Make new Plan Files</i> .....	9-10
<b>Creating ROW Information Plan</b> .....	<b>9-11</b>
<i>Overview</i> .....	9-11
<i>Step One: Creating 001_RWCoordinates.dgn</i> .....	9-11
<i>Step Two: Placing Coordinate Information</i> .....	9-12
<b>Construct a Metes and Bounds Description</b> .....	<b>9-13</b>
<i>Tools</i> .....	9-13
<i>Setup</i> .....	9-13
<i>Placing Lines</i> .....	9-14
<i>For More Information</i> .....	9-14
<i>Offset Using Copy Parallel</i> .....	9-14
<i>Fitting the Layout</i> .....	9-15
<i>Fine Tuning</i> .....	9-16

Baseline Overview .....	9-17
Baseline Tools.....	9-18
<i>Smartline</i> .....	9-18
<i>A Word About Accudraw</i> .....	9-18
<i>Accudraw Shortcuts</i> .....	9-19
<i>Conclusions</i> .....	9-19
Baseline Geometry.....	9-20
<i>Step One: Bearing and Distance</i> .....	9-20
<i>Step Two: Troubleshoot and Prepare to Draw a Curve</i> .....	9-21
<i>Step Three: Draw a Curve</i> .....	9-22
<i>Step Four: Troubleshoot and Prepare for Another Curve or Tangent</i> .....	9-23
<i>Step Five: Troubleshoot and Prepare for Another Curve or Tangent</i> .....	9-24
Baseline Checking/Changing.....	9-25
<i>Drop Complex</i> .....	9-25
<i>Measure Lengths</i> .....	9-25
<i>Measure Radius of Curves</i> .....	9-26
<i>Fix the Problems</i> .....	9-27
<i>Modify</i> .....	9-27
<i>Rotate</i> .....	9-27
<i>Punt</i> .....	9-28
<i>Put It Back Together Again</i> .....	9-28
Baseline Stationing .....	9-30
<i>Construct the PCs and PTs</i> .....	9-30
<i>Double Check Your Baseline Chain</i> .....	9-30
<i>Generate a Station Marker</i> .....	9-30
<i>Place Generic Stations</i> .....	9-31
<i>Fill in the Station Information</i> .....	9-31
PTs and Curve Data .....	9-34
<i>Text Placement Options</i> .....	9-34
<i>Label the PCs and PTs</i> .....	9-34
<i>Place PC/PT Circles</i> .....	9-35
<i>Place and Edit Curve Data</i> .....	9-35
<b>Resources .....</b>	<b>9-38</b>
ROW Function Keys.....	9-39
<b>CHAPTER 10 HEARING SHEETS .....</b>	<b>10-1</b>
<b>CHAPTER 11 ENVIRONMENTAL SHEETS .....</b>	<b>11-1</b>
<b>MHPC Documentation .....</b>	<b>11-2</b>
<i>Quick Punch List</i> .....	11-2
Viewing A Project Using MHPC Color Scheme.....	11-3
<i>Step One: Start MicroStation</i> .....	11-3
<i>Step Two: Creating a MHPC File</i> .....	11-3
<i>Step Three: Adjust Background to White</i> .....	11-3
Creating MHPC Plan Sheets.....	11-5
<i>Step One: Temporarily Attach HDPLAN or BDPLAN.dgn (Optional)</i> .....	11-5
<i>Step Two: Copy Clip Boundaries</i> .....	11-5
<i>Step Three: Create the Cut Sheets</i> .....	11-5
<i>Step Four: Troubleshooting</i> .....	11-7
Editing MHPC Plan Sheets.....	11-8
<i>Step One: Run the Border Information macro</i> .....	11-8

<i>Step Two: Place MHPC Legend</i> .....	11-8
<i>Step Three: Edit the Plan Type in the Title Box</i> .....	11-8
<i>Step Four: Repeat as Necessary</i> .....	11-8
Adjusting Colors Manually In Reference Files .....	11-9
Batch Printing MHPC Plans Sheets.....	11-11
<i>Step One: Open Batch Print Dialog</i> .....	11-11
<i>Step Two: Select a Printer</i> .....	11-11
<i>Step Three: Select Print Area</i> .....	11-11
<i>Step Four: Select a Display (Pentable)</i> .....	11-11
<i>Step Five: Add Design Files</i> .....	11-11
<i>Step Six: Send the Plots</i> .....	11-11
<b>Wetland Plans .....</b>	<b>11-12</b>
<i>Quick Punch List</i> .....	11-12
<i>Need to Find Wetland Drawings?</i> .....	11-12
Plotting Wetland Plans for Biologist's (Using others Plan Sheets).....	11-13
<i>Introduction</i> .....	11-13
<i>Step One: Start MicroStation</i> .....	11-13
<i>Step Two: Open Any Drawing</i> .....	11-13
<i>Step Three: Batch Printing - Create a New Batch Job</i> .....	11-13
Creating Wetland Plan Sheets for Biologist's .....	11-15
<i>Introduction</i> .....	11-15
<i>Step One: Temporarily Attach HDPLAN or BDPLAN.dgn (Optional)</i> .....	11-15
<i>Step Two: Copy Clip Boundaries</i> .....	11-15
<i>Step Three: Create the Cut Sheets</i> .....	11-15
<i>Step Four: Troubleshooting</i> .....	11-17
<i>Step Five: Batch Printing - Create a New Batch Job</i> .....	11-18
<b>Army Corp. Documentation .....</b>	<b>11-19</b>
<i>Quick Punch List</i> .....	11-19
Cross Hatching Wetlands .....	11-20
<i>Introduction</i> .....	11-20
<i>Step One: Start MicroStation</i> .....	11-20
<i>Step Two: Locate the Wetlands</i> .....	11-20
<i>Step Three: Lock "Z" to Zero</i> .....	11-20
<i>Step Four: Set the Category Scale</i> .....	11-20
<i>Step Five: Cross Hatching Wetlands</i> .....	11-21
Adding Filled Shapes.....	11-22
<i>Step One: Set the Shade Type</i> .....	11-22
<i>Step Two: Create the Shape</i> .....	11-22
<i>Step Three: Send Fill Back</i> .....	11-22
<i>Step Four: Reset the Fill Type</i> .....	11-22
Measuring Areas and Placing Text.....	11-23
<i>Step One: Lock "Z" to Zero</i> .....	11-23
<i>Step Two: Set the Category Scale</i> .....	11-23
<i>Step Three: Set the Text Attributes</i> .....	11-23
<i>Step Four: Open Measure Area Tools</i> .....	11-23
<i>Step Five: Select by Attributes</i> .....	11-24
<i>Step Six: Select Measure Area Tool</i> .....	11-25
<i>Step Seven: Select None</i> .....	11-25
<i>Step Eight: Edit the Text (Optional)</i> .....	11-25
<i>Step Nine: Masking References (Optional)</i> .....	11-26
Creating 8 ½ x 11 Cut Sheets .....	11-27
<i>Step One: Set Category Scale</i> .....	11-27
<i>Step Two: Place 8 ½ x 11 Clip Boundaries</i> .....	11-27

<i>Step Three: Create the Cut Sheets</i> .....	11-27
<i>Step Four: Troubleshooting</i> .....	11-29
<i>Step Five: Run the Border Information macro</i> .....	11-29
Batch Printing 8 ½ x 11 Cut Sheets .....	11-31
<i>Step One: Open Batch Print Dialog</i> .....	11-31
<i>Step Two: Select a Printer</i> .....	11-31
<i>Step Three: Select Print Area</i> .....	11-31
<i>Step Four: Select a Display (Pentable)</i> .....	11-31
<i>Step Five: Add Design Files</i> .....	11-31
<i>Step Six: Save your Batch Print job</i> .....	11-32
<i>Step Seven: Send the Plots</i> .....	11-32
<b>CHAPTER 12 REGIONAL WORKFLOW .....</b>	<b>12-1</b>
<b>Regional .UCF (User Configuration File).....</b>	<b>12-2</b>
Adjusting Existing Users To Regional Preferences.....	12-3
<i>Step One: Copy New .UCF Files</i> .....	12-3
<i>Step Two: Adjust the .UCF Files (If necessary)</i> .....	12-3
<i>Step Three: Working Locally or On the Network</i> .....	12-3
<b>Using a Briefcase.....</b>	<b>12-5</b>
Create a “PIN” Briefcase .....	12-6
<i>Step One: Create a Briefcase</i> .....	12-6
<i>Step Two: Rename the Briefcase</i> .....	12-6
<i>Step Three: Open the Briefcase</i> .....	12-7
Adding Projects to your “PIN” Briefcase .....	12-8
<i>Step One: Adding Network Files To Your “PIN” Briefcase</i> .....	12-8
<i>Step Two: Select the File Types</i> .....	12-8
<i>Step Three: Repeat as Necessary</i> .....	12-9
<i>Step Four: Moving Files from another folder to your PIN Briefcase (Optional)</i> .....	12-9
Synchronize Your Briefcase .....	12-11
<i>Update Briefcase and Network</i> .....	12-11
Adding Additional File Types To Be Synchronized .....	12-14
<i>Step One: Right Click Your Project at the root of the PIN Briefcase</i> .....	12-14
<i>Step Two: Select the Update Info Tab</i> .....	12-14
<i>Step Three: Synchronize Your Briefcase</i> .....	12-15
Removing a Project from the Briefcase .....	12-16
<i>Step One: Open Briefcase and browse to the MSTA folder</i> .....	12-16
<i>Step Two: Sort by File Status and copy to Clipboard</i> .....	12-16
<i>Step Three: Paste files into the appropriate folder on the Y: drive</i> .....	12-16
<i>Step Four: Delete the Project</i> .....	12-16
<b>CHAPTER 13 CONSULTANT CADD</b>	
<b>COORDINATION.....</b>	<b>13-1</b>
<b>Consultant CADD Coordination.....</b>	<b>13-2</b>
Determine the Consultants Duties (Project by Project Basis) .....	13-3
<i>What is their responsibility?</i> .....	13-3
<i>What do they need from us?</i> .....	13-3
Sending Survey Files to a Consultant .....	13-5
<i>MDOT Survey Data</i> .....	13-5
<i>Step One: Posting files to Outgoing FTP site</i> .....	13-6

<i>Step Two: Browse and Push Files to FTP</i> .....	13-7
<i>Step Three: Send Email with Link to File</i> .....	13-8
<b>Sending Other Files to a Consultant</b> .....	<b>13-9</b>
<i>Step One: Create Consultant "Out" Folder</i> .....	13-9
<i>Step Two: Create a Zip file</i> .....	13-9
<i>Step Three: Post to Outgoing FTP site</i> .....	13-10
<b>Receiving Project Files from a Consultant</b> .....	<b>13-11</b>
<i>File Format</i> .....	13-11
<i>Drawings to Receive</i> .....	13-11
<i>What don't we want back?</i> .....	13-11
<i>Step One: Create a Consultant Directory</i> .....	13-11
<i>Step Two: Download Files From Incoming FTP Site</i> .....	13-12
<i>Step Three: Extract Files from the Zip folder</i> .....	13-14
<i>Step Four: Move Files to Bridge\MSTA, Highway\MSTA or ROW\MSTA</i> .....	13-15
<i>Step Five: Rename Consultant files in MSTa Folder</i> .....	13-15
<i>Step Six: Compare with our Files (Optional)</i> .....	13-16
<i>Step Seven: Send Message to Team Members</i> .....	13-16
<b>Receiving Updates from a Consultant</b> .....	<b>13-17</b>
<i>Communication</i> .....	13-17
<i>Is this a Complete Replacement?</i> .....	13-17
<i>Readme file</i> .....	13-17
<i>Step One: Create an OLD folder</i> .....	13-17
<i>Step Two: Move Older file(s) into the OLD folder</i> .....	13-17
<i>Step Three: Copy File From FTP to Consultant folder</i> .....	13-17
<i>Step Four: Extract files and move to MSTa Folder and Rename Accordingly</i> .....	13-18
<i>Step Five: Compare with our Files (Optional)</i> .....	13-18
<i>Step Six: Send Message to Team Members</i> .....	13-18
<b>Creating a .Dwg</b> .....	<b>13-19</b>
<b>Process Of Saving a Single File As a DWG</b> .....	<b>13-20</b>
<i>Introduction</i> .....	13-20
<i>Step One: Open file to be Converted</i> .....	13-20
<i>Step Two: Select File Save As...</i> .....	13-20
<i>Step Three: Adjust Options</i> .....	13-20
<i>Step Four: Zip and FTP the File</i> .....	13-23
<b>Batch Processing Multiple Files to DWG</b> .....	<b>13-24</b>
<i>Introduction</i> .....	13-24
<i>Step One: Open a File</i> .....	13-24
<i>Step Two: Start Batch Utility</i> .....	13-24
<i>Step Two: Adjust Options</i> .....	13-24
<i>Step Three: Adjust Destination</i> .....	13-24
<i>Step Four: Add Files to Convert</i> .....	13-24
<i>Step Five: Process Files</i> .....	13-25
<i>Step Six: Zip and FTP the File</i> .....	13-27
<b>CHAPTER 14 USING PACKAGER (ARCHIVE)</b> .....	<b>14-1</b>
<b>Packaging a MicroStation File(s) – (Version 8 and higher)</b> .....	<b>14-2</b>
<b>Packaging Single or Multiple Files</b> .....	<b>14-3</b>
<i>Step One: Open File to Package (Archive)</i> .....	14-3
<i>Step Two: Open Packaging Utility</i> .....	14-3
<i>Step Three: Enter Package Name</i> .....	14-3
<i>Step Four: Select Design Options</i> .....	14-3

<i>Step Five: Gather Design Data</i> .....	14-4
<i>Step Six: Select Workspace Options</i> .....	14-4
<i>Step Seven: Review Selections</i> .....	14-5
<i>Step Eight: Packaging Options</i> .....	14-5
<i>Step Nine: Finish</i> .....	14-6
<b>Opening a MicroStation V8 Package (.pzip) File .....</b>	<b>14-7</b>
Extracting a Package File .....	14-8
<i>Step One: Locate Package File</i> .....	14-8
<i>Step Two: Open the Package File</i> .....	14-8
<i>Step Three: Set the Location for Extraction of Files</i> .....	14-8
<i>Step Four: Extracting the Package File</i> .....	14-8
<i>Step Six: Finding the Extracted Files</i> .....	14-9
<i>Step Seven: Opening, Moving or Copying the Extracted Files</i> .....	14-9
<b>MicroStation Archiving Procedures (prior to V8) .....</b>	<b>14-10</b>
Extracting An Archive .....	14-11
<i>Step One: Start Utility</i> .....	14-11
<i>Step Two: Open the Archive</i> .....	14-11
<i>Step Three: Select Files to Extract</i> .....	14-11
<i>Step Four: Extract</i> .....	14-11
<i>Step Five: Adjust Settings</i> .....	14-12
<i>Step Six: Preserve Date and Time</i> .....	14-12
<i>Step Seven: Set the Destination</i> .....	14-12
<i>Step Eight: Close the Archive Window</i> .....	14-14
<b>CHAPTER 15 USING ADDITIONAL SOFTWARE</b>	
<b>..... 15-1</b>	
<b>PDF FILE CREATION .....</b>	<b>15-2</b>
Creating PDF Files.....	15-3
<i>Overview</i> .....	15-3
<i>Step One: Open File and Select your Printer Driver</i> .....	15-3
<i>Step Two: Setting up your Plot options</i> .....	15-3
<i>Step Three: Plotting and Saving your PDF</i> .....	15-6
Making One PDF File out of Multiples .....	15-10
<i>Overview</i> .....	15-10
<i>Step One: Opening and Saving a Master File</i> .....	15-10
<i>Step Two: Inserting PDF Files</i> .....	15-11
<i>Step Three: Verify Page Order</i> .....	15-12
<b>Scanning To Microsoft Word .....</b>	<b>15-14</b>
Scanning To Microsoft Word .....	15-15
<i>Overview</i> .....	15-15
<i>Step One: Logging In</i> .....	15-15
<i>Step Two: Open Template Document</i> .....	15-15
<i>Step Three: Accessing the Scanner</i> .....	15-15
<i>Step Four: Setting the Image to return to Microsoft Word</i> .....	15-16
<i>Step Five: Saving the Document</i> .....	15-17
<b>Using Estimator .....</b>	<b>15-19</b>
Using Estimator .....	15-20
<i>Introduction</i> .....	15-20
<i>Step One: Getting into Estimator</i> .....	15-20

<i>Step Two: Starting a new Estimator Project</i> .....	15-20
<i>Step Three: Adding items to the List</i> .....	15-22
<i>Step Four: Editing Existing Data</i> .....	15-24
<i>Step Five: Printing and Saving</i> .....	15-24
<i>Project Work Type Codes</i> .....	15-25
<i>Additional Information</i> .....	15-26
<b>File Transfer Using the FTP Site</b> .....	<b>15-27</b>
General Information .....	15-28
<i>General Rules of Thumb!</i> .....	15-28
Using FTP.....	15-29
<i>Step One: Open FTP Software</i> .....	15-29
<i>Step Two: Browse and Push Files to FTP</i> .....	15-29
Sending Links in Email Messages (Optional) .....	15-31
<i>Step One: Type address to FTP in email</i> .....	15-31
<i>Step Two: Add Subject Line and Send</i> .....	15-31
<b>Using OCE Job Director</b> .....	<b>15-32</b>
Brief Description .....	15-33
Job Director Installation .....	15-34
<i>Step One</i> .....	15-34
<i>Step Two</i> .....	15-34
Mapping A Network Drive.....	15-35
<i>Step One</i> .....	15-35
<i>Step Two</i> .....	15-35
<i>Step Three</i> .....	15-35
<i>Step Four</i> .....	15-35
Configure Job Director .....	15-36
<i>Step One: Open Job Director</i> .....	15-36
<i>Step Two: Adjusting Configuration</i> .....	15-36
<i>Step Three: Default Settings</i> .....	15-36
Creating MicroStation Plot Files .....	15-38
<i>Step One: Start MicroStation</i> .....	15-38
<i>Step Two: Find you PIN number</i> .....	15-38
<i>Step Three: Open ###_Plan#.dgn</i> .....	15-38
<i>Step Four: Batch Printing - Open Or Create a New Batch Job</i> .....	15-38
Using Job Director.....	15-41
<b>Using AutoTrack – Turning Radius Software</b> .....	<b>15-44</b>
AutoTrack Installation.....	15-45
Introduction .....	15-45
<i>Step One: Browse to Folder</i> .....	15-45
<i>Step Two: Launch Setup</i> .....	15-45
<i>Step Three: Adjust IP Address</i> .....	15-45
<i>Step Four: CADD Configuration</i> .....	15-45
<i>Step Five: Finishing up</i> .....	15-45
Using AutoTrack (Basics) .....	15-47
Introduction .....	15-47
Open MicroStation.....	15-47
Create a New Drawing .....	15-47
Load AutoTrack .....	15-47
Set Default Vehicle (Optional).....	15-48
Set Drawing Settings.....	15-48
Start AutoTrack Tutor.....	15-48
For More Assistance, Read the Manual.....	15-48

View an AutoTrack Demo (Optional) .....	15-49
<i>Step One: Browse to Folder</i> .....	15-49
<i>Step Two: Install AutoTrack Demo</i> .....	15-49
<i>Step Three: View at Your Leisure</i> .....	15-49
Using AutoTrack's Manual and Help.....	15-50
<i>AutoTrack On-Line Manual</i> .....	15-50
<i>AutoTrack On-Line Help and HTML Help</i> .....	15-50
<b>CHAPTER 16 STANDARDS.....</b>	<b>16-1</b>
<b>U.S. Customary Scales.....</b>	<b>16-2</b>
Settings Manager Scales .....	16-3
<i>Overview</i> .....	16-3
<b>Level Structure.....</b>	<b>16-5</b>
Roadway Level Structure.....	16-6
ROW Level Structure .....	16-8
Structural Detailing Levels .....	16-9
Public Hearing Levels.....	16-10
<b>Line Styles.....</b>	<b>16-15</b>
