Simulation in Third Cycle English Language Teaching

Trabalho Científico apresentado ao Instituto Superior de Educação, aprovado pelos membros do júri e homologado pelo Conselho Científico, como requisito para a obtenção do grau de licenciatura em Estudos Ingleses.

O Júri

Praia, 15 de Junho de 2006

Acknowledgements

This thesis could not have been materialized without the assistance and support of many friends.

I wish first to acknowledge God, for giving me the courage to face this challenge.

I also wish to thank my dear Teacher and Supervisor Dianne H. Nisita, M.A., for providing me the sustained guidance to start and finish it.

I wish to thank all my teachers, colleagues and students (mainly Cónego Jacinto High School - CT2 English language students) who, both consciously or unconsciously, have motivated me to work on this topic and also have helped this thesis to materialize.

To my husband, my daughter, all my family and unknown contributors my great thanks.

Dedication

To my dear daughter Carla Elsonita

Abstract

Many researchers have suggested simulation as a powerful tool to transpose the normal classroom into an authentic setting where language skills can be performed under more realistic conditions. This paper will outline the benefits of simulation in the classroom, provide additional topics to Third Cycle English Language National Syllabus to be discussed / simulated in the classroom and also provide two simulation lesson plans with samples for Capeverdean Third Cycle English Language Students.

Abstract

	Page
Introduction -----	1
CHAPTER I: Background -----	3
1.1 Introduction-----	3
1.2 What is simulation? -----	4
1.3 Why use simulation in the classroom? -----	5
1.3.1 Promotes interaction in the classroom-----	5
1.3.2 Promotes communication in the classroom-----	6
1.3.3 Motivates the students-----	6
1.3.4 As an icebreaker-----	7
1.3.5 Brings the real world to the classroom -----	7
1.4 Criteria for choosing topics for simulation-----	8
1.4.1 Level of the students-----	8
1.4.2 Time available-----	8
1.4.3 Number of the students -----	9
1.4.4 Space-----	9

1.5 The main stages in developing, presenting and doing a simulation	10
1.5.1 Construct the scenario	10
1.5.2 Write or adopt appropriate support materials	11
1.5.3 Present the scenario to the whole class	11
1.5.4 Assign roles	11
1.5.5 Ask the students to study the background information in detail and to develop their roles	12
1.6 The role of the teacher in a simulation	13
1.7 What to do with mistakes in a simulation?	14
1.8 Debriefing: Analytical discussion after the simulation	15
CHAPTER II: Third Cycle English Language Syllabus and Topic Choice	17
2.1 Introduction	17
2.2 The Role of the National Syllabus	18
2.3 The Third Cycle English Language Syllabus' topics and objectives	19
2.4 Additional topics choice for Third Cycle Syllabus	22
CHAPTER III: Two Simulation Lesson Plans with Samples for Third Cycle Students	26
3.1 Introduction	26
3.2 Simulation Lesson Plan # 1 and Sample	28
3.3 Simulations Lesson Plan # 2 and Sample	35
CHAPTER IV: Conclusion: Recommendations and Suggestions for English Language National Syllabus	43
Bibliography	46

Appendix

1- Questionnaire

2- Questionnaire Results

3- The Third Cycle English Language National Syllabus

4- Materials (Texts about two of the topics suggested in the Chapter II: Cape Verde: Colonization and Independence / Teacher's role in student's life).
