CHALLENGES AND LEARNINGS

**DET KGL.
BIBLIOTEK**
Royal Danish Library

LEGAL CHALLENGES

“Research”/“Scientific”/“Statistical” purpose

Balancing responsibility

Data and derived data

ORGANISATIONAL CHALLENGES

Ensuring sufficient level of competencies (ie. research, legal, technical)

Balancing a generic service with researcher's individual needs, and service level

Creating a culture of systematic documentation of user needs and applying these insights into service developments

KEY LEARNINGS

Users' needs change over time ... and when they challenge the organisational facilitation of interaction between archives and users, insights can be applied into service interventions with considerable potential

Legal barriers can and should be explored on a continuous basis – exploration and persistence while users' needs and we as an organization evolve have the potential to inform and advance future conceptual developments
