The authors regret a mistake in the Discussion section of this article, where we stated: “As lateralised analysis only demonstrated volumetric reductions of the *right* caudate nucleus and the *left* putamen, our results only partially support our hypotheses.” The correct statement is “As

lateralised analysis only demonstrated volumetric reductions of the *left* caudate nucleus and the *right* putamen, our results only partially support our hypotheses.”

The authors would like to apologise for any inconvenience caused.
