

Implementation of Supported Education

Background

Despite the growing interest in SEd services for people with psychiatric disabilities, it is not so easy to really initiate and implement a Supported Education program.

We have developed an implementation manual to assist organizations who want to initiate, develop and implement a Supported Education program. The manual provides relevant practical

- Introduction
- Involvement of stakeholders
- Needs assessment
- Resource assessment
- Listing available resources
- Good Practices
- Communication plan
- Information brochures
- Practitioner's competencies
- Staff training
- Support for Educational Staff
- Sustainability
- Quality
- Evaluation
- Finances

Implementation process
