Mr. Gardiner's statement is in line with the supposition risdale is fully investigated. McKay voiced in these columns last week, when the gift shipments received a match penalty for tosswere announced. At that time The Courier stated that it was archs over the boards. obvious such a drastic step had been taken only after the fullest consultation with federal authorities and that, under the to use Ken Cook until his status is circumstances, it was reasonable to assume that Ottawa had clarified. Cook, who already has told both the B.C. and Nova Scotia fruit industries to clean up ries, is a former professional, but their crops as best they could and not until this had been done not yet reinstated fully as an amateur. would financial assistance be discussed. This, in effect, is precisely what Mr. Gardiner said on Friday.

His statements will bring some encouragement to the Okanagan grower. While it was unbelievable that the Canadian people, through their government, would permit one small section to bear the entire cost of a two to three million dollar gift to Britain, nevertheless a definite intimation to this effect by the responsible minister is most welcome. As his requirements (to prove the apples could not be sold) will be very easy to meet, Mr. Gardiner's comment would indicate that the apple grower will receive assistance from the federal government, probably sufficient to defray packing charges, production costs, transportation to seaboard and, who knows? perhaps a little bit more for the grower.

Could We Have Had a Barter Deal in Apples?

At the B.C.F.G.A. convention in Penticton last week it was quite evident that delegates were at a loss to understand why the million-odd boxes of apples now being given to Britain REV. ELDEN C. WHIPPLE who the million-odd boxes of apples now being given to Britain will be chief speaker at the Okancould not have been sold for sterling, and, also why Britain agan Missionary Conference tonight Elaine and Jo Jantz, Margaret Mil- ned for 7:30 p.m. would not pay the freight charges from the Interior to the at the Scout Hall commencing at lar; Belva Graves, Diane Wilcox, Game time for the senior B meetcoast, when the apples are a gift.

In regard to the latter question, it certainly does seem ather small on Britain's part that she would not shell out a TITA MIT ATTO quarter of a million dollars to obtain two to three million dol- DEATH CALLS lars worth of apples. However, the point to be remembered here is that, had Britain agreed to pay those freight charges, payment would have had to been made to the Canadian railways in dollars—and it is dollars which Britain has not. Even a mere Street, passed away this morning in quarter of a million dollars is a large sum to Britain these days the local hospital. Eighty-seven reckoned in the terms of Canadian or American currency. One health for some time. may have thousands of dollars in brightly lithographed mining Mr. Vowles had lived in Kelowna stocks, but still one can't spend ten cents for a cup of coffee, for the past 36 years. A graveside if one hasn't the ten cents in hard cash.

The barter question is a little more complicated. One dele- tor at Okanagan Mission, at Kelow gate asked why it was not possible to sell apples for sterling has Cemetery at 10.30 a.m. Wednesand use the sterling to buy fertilizer or farm equipment from. He leaves to mourn his passing Britain. The point this delegate overlooked is that the British Charles, Vancouver; Bert, Powell here about 15 years ago. would not desire to do that for obvious reasons. Their primary River, B.C.; Mrs. O. France, with need is dollars, not apples. Any of their production exchanged dence; Mrs. M. Sanderson, Toronto, tery. Rev. E. E. Baskier, First Unitin this manner would bring them no dollars. In other words, and Mrs. Betty Cobb, Gloucester, ed Church, will conduct the funeral financially the fertilizer and the farm machinery would not have been "exported" and it is only through her export goods that Kelowna Funeral Directors. Britain can increase her dollar holdings. Moreover, a barter of this nature, would not bring her those dollars, which any fertilizer and farm machinery which may be sold in this country in the normal course of events, would bring to her treasury.

On the surface it would appear to be a simple matter to By Two Local Children arrange a barter deal mutually satisfactory to both countries, but below the surface it is not so easy. During the past few weeks Mr. Coldwell has been saying that if Canada wants to bolster her falling foreign trade she should accept payments for Branch Canadian Legion in conmore of her exports in sterling currency. Under his system, the junction with the "Laft It Off" Canadian government would accept sterling in payment for formance on Saturday. the goods we ship to Britain; the farmer would be paid in the ordinary way with Canadian dollars "from our budgetary sur- Harvey Avenue, was crowned pluses or from the Bank of Canada."

The Courier cannot help but feel that all this talk about Gordon, was named king. Runnerpayment in sterling is really designed to confuse the real issue up in second and third place were Judy Felst, daughter of Mr. and so that ordinary people will not know what Mr. Coldwell is Mrs. Tom Felst, Roanoke Avenue, gentleman's prize. proposing. If this is not its purpose, then the only explanation and Mrs. A. M. Arnold, Winfield. is that Mr. Coldwell doesn't know what he is talking about Contesting the king's crown and audience packed the Legion Hall

For what he is really advocating is that instead of being Mrs. R. Kitsch, Leon Avenue, and performance for all those turned paid in real money (either paper that we can spend, or gold Ronnie Gagnon, son of Mr. and away will be held tonight at the Mrs. A. Gagnon, Buckland Avenue. Legion Hall. or actual goods) we should accept paper money which we cannot spend without any guarantee when we shall be able to with it at all. In other words, he suggests that we should go on extending unlimited credit to the British, or, alternatively, Growers Position, Declares Loyd give them our exports outright. give them our exports outright.

Now The Courier has no objection to Mr. Coldwell arguing openly that we should do business with Britain on an un- IN view of the statement made on Friday by Hon. James Gar- finite impressions have been gainlimited-credit or free-gift basis. That is an arguable proposition, there will come a time when the Canadian taxpayer will rebel against the burden thus placed upon him.

about "sterling payments" and the implication that this, in In his comments Mr. Loyd reviewed the efforts the indussome way, is different from giving our exports away. Nothing try had made to obtain assistance, prior to the momentous program followed has qualified for will be achieved by muddying up the waters of our international trade in this fashion.

If Canada agreed to accept sterling, she should get piles of paper pound-notes which could be used in three ways; they could be stored in the vaults of the Bank of Canada against the time (which is very uncertain) when the restrictions on sterling shipment by British Columbia apple concerned, the cost of the shipment be incurred, but as has been well ship, entailing more work for the were removed; or they could be hawked on the New York for survey of one million boxes of is the freight from seaboard to emphasized in the press, the alter- executive, was given as the main a bill will be submitted to the next eign exchange market for whatever they would bring in the that if the growers could show at open market, which would be very much less than their face the end of the year that this fruit "Insofar as the growers of Bri- denly appear for an opvious suit of the very much less than their face would have spoiled because of lack tish Columbia were concerned, ne- plys, and the consequent waste if Dan Hill; Jim Treadgold; Arthur Company,

open market, which would be very much less than their face value; or they could be used to buy British goods.

Now, if there were ample supplies of British goods of the kind and at the price that Canadians desire, there would be no difficulty. But there are not; and in that fact lies the whole problem of Anglo-Canadian trade. So we could not spend our pounds; we should have to keep most of Pounds; we should have to keep most of them or take a 20 or 30 pounds; we should have to keep most of them or take a 20 or 30 to the value; or they could be used to buy British goods.

It is the consequent waste it this did not appear, would have to keep most of the industry, and that four months, directed towards four nonths, directed towards four nonths desired, while the funds would be derived from the four nonths desired, while the fund was constituent four nonths desired to be settled, but in the mean-different with criticals and li

Last Message

Weather elements were indirectly responsible for the death of a veteran C.N.R. despatcher at Kamloops this morning. Arthur L. Young, chief despatcher at the northern city, had been working round-the-clock since snowslides and storms caused disruption in railway service. Sleep was a secondary consideration as he kept railway officials posted on latest developments.

Early this morning, he sent his last message. Reaching for the telephone to answer another query, Mr. Young fell from his chair, victim of a heart attack.

Trains Still Tied Up

MAVES of colder air washed over the lower mainland of W British Columbia today, checking the two-day thaw that threatened floods and brought death to at least one person,

Antonette Pascal, eight-year-old school girl at Cranbrook, died instantly Saturday when hundreds of pounds of ice slid from the roof of her two-storey school and struck her on the head. The warm chinook wind was believed to have loosened

In Kelowna, Mr. and Mrs. Average Citizen welcomed the respite from King Winter's icy grip. For the first time in 21 days, the thermometer rose above freezing point last Saturday, while yesterday's maximum was 44 above. The cold snap started on January 1, and the two-week long spell of sub-zero temperatures caused Lake Okanagan to freeze solid last Wednesday. It was the first time in history that the lake has frozen so early in the year.

An acute shortage of furnace oil faces local residents unless Cracking of several outstanding the railways can rush some tank cars to the Orchard City.

> While there is sufficient stove oil on hand, local fuel dealers admitted furnace oil is running short. Supplies may be brought in from Calgary if trains from Vancouver are delayed another 24 hours. It is understood several dealers trucked some furnace oil from Vernon yesterday. Supplies in Vernon are said to be better. In Penticton, however, it is understood there is an acute shortage in the southern Okanagan city. It is impossible to truck oil in from Vancouver, as the main highway between Hope and Chilliwack is blocked.

> One local coal dealer stated he is entirely out of coal, but another company said his firm has sufficient supplies on hand to keep "customers happy". Many carloads of coal are held up between here and the prairies, due to snow-blocked lines.

> Both railways resorted to an airlift shuttle service over the week-end between Penticton and Vancouver. Company officials said approximately 1,200 stranded passengers have been ferried out of this area, leaving about 180 more to be picked up today.

Horse and Buggy Days Would Be Easier

On This Plug If one certain water hydrant in the city could talk, it would complain the new year has brought nothing but grief.

the water plug at Pendozi and Strathcona has been hit by cars. Twice it was broken in two, resulting in more ice at the intersection.

The hydrant's back was broken again last Monday when a car driven by A. E. Bystrom, Okanagan Mission, went out of control temporarily on the icy. rutted surface. Prompt action by city workmen averted flooding as serious as the week be-

car, damaged to the extent of \$55, was impounded by police. No "pink slip." Eight days before, four base ments in the vicinity were flooded and the city's water supply sorely depleted as 250,-000 gallons gushed out of the water main after the hydrant was bowled over by Dave

Chapman, Jr. Touching off what appears to be a bad year for the abused water plug was a minor affair on January 3, Ald. R. D. Knox's

car sustained \$100 damage in his smash-up, as the hydrant escaped with only a shaking up. Steps have now been taken to reduce the hazard. Ruts have been levelled, the ice either removed or sanded.

BCFGA BUDGET

DENTICTON—British Columbia's fruit growers will set up a voluntary hail insurance scheme similar to that operated

This was decided on the final day of the 61st annual B.C. F.G.A. convention concluded here Thursday afternoon, The hail insurance resolution, one of 75 presented during the three days, was debated at great length before being passed by an overwhelming majority. Only six delegates opposed the scheme. Under the proposal, the hail insurance scheme would be on a voluntary contributing basis. An amendment calling for contributions on a package deduction basis or through a pool system, was defeated.

According to George Lundy, a blanket insurance scheme. chairman of the hell insurance committee which made an exhaustive survey of the proposed scheme,

C. R. Haker, of Peachland, voiced opposition to the proposal as outlined by the committee, stating that who have sufferered heavily from ing for the setting up of the B.C. hall damage in the past, would come into the scheme. He thought if it was compulsory, and that if

MEMBERSHIP

(By Courier Staff Reporter) Number of registered growers in the British Columbia Fruit Growers' Association, has increased to 3,789, C. A. Hayden, secretary, revealed in submitting his annual re-port to the first annual convention in Penticton.

Mr. Hayden pointed out that the past year has been one of great activity with a record volume of work handled by the executive, standing and special committees

and by head office.

He paid tribute to the late J. R. J.

Stirling and Percy E. French, both
of whom died last year, "Jock

Stirling is gone, but he left a lasting imprint on the tree fruit indusing imprint on the tree fruit indus-try of British Columbia and upon the agricultural industry of Canada, an imprint that remains to testify to the sincere interest that he had in his fellow agriculturists and his deep-scated desire and determination to help them establish that economic stability which he believed was their just due," Mr.

Hayden declared. He said Mr. French had plans made to attend a meeting of the directors of the International Fedcration of Agriculture, but was taken ill suddenly and passed away

The B.C.F.G.A. and the B.C.F.A. DEMERARA RUM the deaths of Mr. Stirling and Mr.

PROVINCE AND MUNICIPALITIES

The Province of British Columbia has established by statute over one hundred municipal divisions, and directly and indirectly it is concerned vitally with their welfare.

Since the early 1930's when the days of economic depression seriously reduced the ability of the senior government to aid its municipal divisions, substantial advances have been made in the subsidization of municipal activities.

Not only through direct grants-in-aid, such as from Motor-Vehicle revenue and the Social Security and Municipal Aid Tax, but through assistance to education by way of grants toward both current and capital costs and the indirect aid by way of assumption of a large part of municipal responsibility for health and welfare changes, has the Province financially supported the local governments and relieved them of a heavy tax burden.

Following almost in its entirety the advice of the Royal Commission on Provincial-Municipal Relations, aid to municipalities has increased over seven-fold in the past eight years and is still developing. The table below illustrates how these principal sources of assistance have expanded in the post-war years.

1041-42 1948-49 1949-50 DIRECT GRANTS (anticipated) (estimated) "Municipalities Aid Act," 1948-\$570,000.00 \$ 1,657,000.00 \$ 1,625,000.00 4,707,000.00 5,900,000.00 Ald Tax.. maximum in silence during use in the wards. The baker's table, featuring flour and sugar bins and a pie rack, is topped by a heavy slab of bleached wood. Other work done by the Hospital W.A. last year included the covering of a chair in their ward, the continuance of a library service twice weekly and the setting up of a patients' shopping service.

Hospital Women's Auxiliary Egg, Corn and Potato Casserole Has Assisted Institution For More Than Forty years

For over 40 years the Kelowna General Hospital Women's Auxiliary has supplied the hospital with all necessary linen and other equipment. Since the installation of the hospital insurance scheme at the end of 1948, however, the Women's Auxiliary has assisted hospital officials in purchasing equipment for the kitchen and in furnishing a ward.

Despite the introduction of government assistance, there are a number of necessary items that are not supplied and members of the browned, about 15 minutes. Yield: en to fill these needs, by raising money to modernize and replace obsolete equipment. Without public support this work could not be

carried out.

During the past year the auxiliary bought kitchen equipment amounting to \$838.78, conducted a library service for patients twice weekly, organized a shopping service and took complete charge of furnishing one ward. To raise funds for these services, the Women's Auxiliary held a drive for men's Auxiliary, who with her ex-funds which realized \$82.42, spon- ecutive will guide the auxiliary in

See B. U.

The Vancouver Map and Blueprint Company is at present engaged in producing an up to the minute Tourist Guide of the route from Vancouver to The Okanagan. This guide will be centred around up to date maps of the districts involved and the aim of the guide is to be the most useful guide of its kind and will be produced in such a way as to be an attractive souvenir as well as a book full of information that a Tourist needs. The book is designed not only for Tourists but for Travellers and others who may be interested in the District for the purposes of settling or starting up businesses.

Much time and thought has gone into the production of this guide and the maps are in the process of being made—on completion they will be checked and rechecked for accuracy and usefulness.

Mr. John Genner, Managing Director of The Vancouver Map and Blueprint Company Ltd., is at present in Kelowna gathering information for this project and may be contacted at Rm. 1, 286 Bernard Avenue, Phone 1078 or Room 211 at The Royal Anne' Hotel,

The opening of the Hope-Princeton Highway is an important, in fact THE MOST important milestone in the growth and development of the Tourist industry of the Okanagan Valley. This fact cannot be stressed too highly. Many thousands of people in Vancouver and the Lower Fraser Valley, as well as Tourists from the States who use Vancouver as a jumping off point for their travels will travel over the new road and continue on to the land of the Ogopogo.

This means many thousands more Tourist dollars will be spent in this area. 1950 and the years following will be times of prosperity to all Okanagan Tradesmen and Businessmen catering to the Tourist. The success of a venture like ours can only be assured with the cooperation of the people who are going to benefit most from the Tourist dollar.

Mr. Paul Levinsen of our Publicity and Advertising Department is at present engaged in contacting local Tradesmen and Businessmen in regard to advertising in this publication. The response so far has been excellent

proving the high regard in which local Businessmen hold this form of displaying their products and services before

"See B.C.—Vancouver to the Okanagan" as this publication will be called will reach into approximately 75,000 hands—in the States, on the Prairies and in Vancouver. We are hoping that this guide will be the one guide that Tourists will ask for year after year—being the most useful and most attractive for a souvenir. It will be the first of a series covering the whole of B.C. and will be brought up to date and reissued every year. The first issue will be in the hands of distributors at the beginning of April this year, ripe for the bumper Tourist Season.

Advertising is a touchy subject to many Business-men, but a dollar spent on advertising in the right place will bring back hundreds of dollars over a short period of time and will eliminate the need of spending many dollars advertising in smaller and less useful publica-

· Three problems confront those catering to the Tourist Industry: Firstly—How to bring the Tourist into the City or District; secondly—how to make the Tourist spend his dollars while staying in the City or District, and thirdly-how to make the Tourist stay as long as possible. "See B.C." is designed to meet these problems Local advertising will help in the last two problems, while local hospitality and impressions will help in the last problem.

"See B.C." will be the Tourists' guide of where to stay, eat, shop and enjoy himself and also how to get there. Advertising space is limited and filling up fast. May we advise you to call Mr. Genner or Mr. Levinsen if you are interested in seeing the guide and having your business "On The Map". A meeting will be arranged at your convenience.

Mr. Genner and Mr. Levinsen wish to extend to the people of Kelowna their heartiest thanks and appreciation for the wonderful hospitality, friendliness and cooperation given to them while staying in the City.

Mayor Hughes-Games To Preside at Opening Ceremonies Wednesday

NEW CENTRE of recreation in this city will mark its for-

A mal opening on Wednesday, January 25.
Sharp at 8 p.m., Mayor W. B. Hughes-Games will officially open the Orchard City Social Club located at 227 Leon Avenue. During the afternoon, from 2 to 5 p.m., the club will be open for public inspection. Free coffee will be served. Following the official opening in the evening, a free dance will take place.

zen some place to relax during his recreational hours.

As far back as September, 1947, two local citizens, Albert Mandel and D. J. Lang have felt the need of a club where the

tary, and W. Tosczak, treasurer.

United Nations Theme During alteration of the building, a number of interested people conceived the idea of giving the club some theme or purpose, and so the United Nations theme was decided upon. Richard Hilker, Ph.D., who last fall produced the United Nations folk festival sponsored by the Kelowna Rotary Club, was asked to look after details.

Based on a non-racial, non-political and non-denominational basis, this club is designed to give everyone, no matter what his nationality or station in life, a place in which to relax and spend his spare time, and thus give him a feeling assured demand, caused by the war and post war shortages, is of belonging to the community. The great task confronting the United Nations in gathering the various nationalities into one har-Canada faces on a small scale. This withheld from the market.

"RELENTLESS"

"WHAT A LIFE!" starring members of the Summerland High School Drama Club under the direction of Lacey Fisher, will be presented at the Kelowna Junior High School auditorium this Wednesday evening. The hilarious three-act play written by Clifford Goldsmith was adapted from the Boardway hit "Henry Aldrich" which in turn formed the basis of the radio serial of the same name.

Already played before sell-out houses in Summerland and Penticton, the riotous comedy will star Jim Towgood, John Palmer, Merle Heavy-sides, Olive Mason, Shirley Gardiner, Don Cruickshank, Don Blacktock, Shirley Allen, Graham Munn and Leighton Nesbitt in the leading roles. Presented in Kelowna under the auspices of the Kelowna High School Dear Sir,-Thank you for telling Student Council, the play will start at 8 o'clock. us about the ruined cathedral and

"My principal aspiration is to make the fullest possible use of induced polyploidy in the breeding of fruits, vegetables and ornamental crops. Polyploidy, or the doubling of the number of chromosomes, occurs in nature but with only a very low frequency. Since the discovery in 1937 of the use of colchicine on plants, it has been possible to speed up this natural process, and polyploids may now be produced almost at will in many plant groups.

"Doubling the number of chromosomes has the effect of increasing tion followed by chromosome doubl- Any such time loss has to be borne the size of flowers, fruits and seeds. ing within such groups as tomato- by the volunteer himself. No one point out that the volunteers of the of these characters are important able to contribute something in this in many horticultural plants, In- field." creased flower size is often desirable in ornamentals. Larger seeds and fruits might be advantageous in vegetables and fruits. We hope to be able to study the effect of in-

duced polyploidy on a wide range of horticultural crops. "The task of doubling the number of chromosomes is relatively simple in herbaceous plants, but the woody plants, such as the tree fruits, are much more difficult to affect. In this connection I would like to enlist your help in a search for naturally occurring giant sports of apples and pears. Many of these "giants" have been found to have

twice the normal number of chrom-"Giants" are usually noticeable beflattening in the shape of the fruit. Sometimes the whole tree is made but. Thus we see varieties that or with fruit growers may sometime attending fires but this amount for are good for mid and late winter find or hear about what seems to be the period of a year will run some-

From Page 1, Column 8 will get you nowhere," declared E. A. Titchmarsh, of Penticton. He said growers are now hail-minder and that they would have control of the company through annual election of officers. "As a member of this committee, I feel we can go no further, and if you do need any further investigation, you will

INSURANCE

7 HAIL

have to get another member for your committee," he said. E. M. Tait of Summerland, an-other member of the committee, pointed out the months of hard work that has been spent on the investigation. "Give it deep thought before voting against the resolution of time," he said.

L. Littlejohn, of Erickson, was opposed to the voluntary method. "If you do not make it compulsory. how is the company going to collect sufficient money in order to pay a reasonable amount of money in claims?" he asked.

Mr. Titchmarsh replied that it had been difficult for the committee to obtain statistics on hail damage in bygone years. "The total premiums, less operating expenses, will be paid as claims, and if there is not sufficient in the "kitty" payments will be made on a proportion basis," he said. In order to encourage customers, thought insurance rates could be

AN IRONIC THANKS-TO VOL-UNTEER FIREMEN PERFORMING

A PUBLIC SERVICE Editor, The Courier:

. Dear Sir,-Last week you read in this paper that a fire hydrant at the corner of Strathcona and Pendamage was rendered to said hydrant by the writer while proceeding to a fire in the line of duty.

I would first like to point out that the large, icy, ruts and general for every 300 delegates or over, condition of Pendozi St. was ap- with the maximum number of delepalling and that it was through no gates from any one local being four. fault of my own that I was unable to control the car.

I am now in receipt of a bill from are characterized by more or less Thus I am faced with a total expense of approximately \$328.00, all caused due to my being a volunup of tissues of the giant sport, but teer fireman on the Kelowna Voloften only a single limb is affected. unteer Fir Brigade. It is true we Those of you who work in orchards receive a small remuneration for where between \$50 and \$70 and

and carrot-parsley-celery. No one point out that the volunteers of the fumes sometimes accompany the can foresee the results from this K.V.F.B. do give up a lot of time doubled chromosome number. It type of work, and these results will and often at a lot of expense to also frequently leads to lowered not come easily nor suddenly. Care-themselves to provide this city with fertility but this may usually be ful, patient work will be required, fire protection and I feel that it is overcome by selection. Some or all and it is our hope that we may be wrong and unfair on behalf of the city in billing me for the damage to the hydrant.

I would also point out that of the bill I received from the city for \$228.00, \$51.50 was for the repairs to the hydrant and \$176.50 was for man hours spent in pumping out basements, etc. Within two minutes of the hydrant being sheared off, the city water works department was contacted to stem the flow of the hydrant. Approximately four hours time was spent in finding the "turn-off" valve and actually turning off the water. It would therefore seem the location or whereabouts of this valve was not known to any member of the water works department and consequently approximated 200,000 gallons of water were lost in the process of searching for same. This is borne out of the fact that the second time the hydrant was sheared off, a few days later, the city water works department managed to shut off the hydrant in approximately 20 minutes. Thus insult is added to injury in that besides being billed for the hydrant replacement I am billed for the ignorance of the city water works department.

There are 37 members of the K.V.F.B. of which only five are full-time members, paid by the city. The 32 volunteers, unless at the half when a call comes in, are expected to, and do use their own cars to proceed to a fire just as quickly as possible. All such transportation is at the volunteers' ex-
