College Adopts 3-Semester Year

Haines Political Society Elects Pancoast To Be Faculty Advisor

G. Sieber Pancoast was elected faculty advisor of the Haines Political Society when the group met last Tuesday evening, January 6, in Bomberger.

Plans were discussed for holding joint meetings with the West Chester political society and for the two groups acting cooperatively for the government convention at Harrisburg in April.

The president urges that all members attend the next meeting which will be held on the first Tuesday in February.

Women To Debate Penn State; To Support Regulation of Labor

On Thursday, January 8, Mary Anna Wiley '43, and Joyce Lownes '42, participated in a debate at Moravian Seminary for Women. The question debated in Oregon style was "Resolved, that the federal government should regulate all labor unions in the United States—constitutionality conceded". Mary Anna gave the constructive speech whereas Joyce cross-examined and gave the rebuttal.

Tonight at 8:00 p. m. a debate with Pennsylvania State College will be part of the program for the debating club. Debating on the same question, but this time on the affirmative side, Ursinus will be represented in the debate by Marion Byron '42, and Marjorie Downes '44. Marjorie will have the constructive speech and Marion will cross-examine and give the rebuttal.

Beardwood Society To Hear Speaker From Allan Wood Steel Company

Mr. Fielding Ellis of the Allan Wood Steel Company, Conshohocken, Pa., will be the guest speaker at the Beardwood Chemical Society meeting on Tuesday evening, January 13, at 8:00 p. m. in the Science Building. The topic of his address is "Microphotographic Analysis of Steels".

College Defense Council Plans for Air Raid Work and Emergency Aid

Faculty and Students Combine On Council for Civilian Defense

Putting to practice the age-old adage, "an ounce of prevention is worth a pound of cure", the Ursinus Civilian Defense Council is formulating plans for insuring orderly and efficient defense work in the event of an air raid, improbable though such an exigency may seem now.

Hastily formed during the recent Christmas vacation, the College unit will integrate its work with that of similar units of the Collegeville and Trappe area. The campus organization is composed of six students and five faculty members under the chairmanship of Mr. Maurice O. Bone. The student membership consists of Betty Dakay '42, Jean Patterson '42, Fred Binder '42, Denton Herber '42, William Selfridge '42, and Garnet Adams '42. In addition to Chairman Bone, the faculty is represented by Dr. Charles Mattern, Mr. William Pettit, Dr. Frank Manning, and Mr. Everett Bailey.

Committees Appointed

Various committees have been appointed and charged with organizing a unified and whole defense effort. Plans for setting up organization for blackouts are being formulated, and committees have been appointed in the men's and women's dormitories with the responsibility of making certain that all lights are extinguished in the event of a real or practice air raid.

Other students will shortly be pressed into service as air raid wardens, members of a fire patrol to cooperate with the local fire company in battling blazes and as a first aid unit to handle emergency cases on the spot under the supervision of the Red Cross.

Refugee Problem

In addition to the groups mentioned above, a special committee will be formed to cooperate with a similar one from the town in order to handle the refugee problem that

(Continued on page 6)

Charlie Hoffman's Orchestra To Play At Friday's Dance

INTER-FRAT DANCE TO BRING NEW BAND TO CAMPUS

Chairman Joe Glass '42, of the Inter-Fraternity-Sorority Dance Committee, announced today that Charlie Hoffman and his orchestra will provide the music for the Council's annual dance Friday night in the gym.

The eleven-piece band, a newcomer to the Ursinus campus, makes its headquarters in Pottstown.

Traveling with the eleven men is Jane Stevens—"Lovely" Jane Stevens—who does the vocals. (Lack of space and the advancing cost of paper and printer's ink prevent further description of this songster, but from advance reports, she's bound to please.)

This dance, the first of the new year, will be informal. Music will begin at nine and end at one, and will feature tunes that are hot, solid, smooth, and slow.

Aiding Glass on the dance committee are the following seniors: Jean Webb, Bruce MacKenzie, Dorothy Brosz, Al Brick, Polly Nissley, Dick Arnold, Dorothy Ducat, Al Tkacz, and Glad Levegood.

The chaperons will be Mr. and Mrs. Eugene B. Michael and Mr. and Mrs. G. Sieber Pancoast. Tickets are on sale this week in Bomberger and can be had in exchange for \$1.50, which includes tax.

Students Will Become Members of Defense Council First Aid Unit

Because a knowledge of and practice in first aid is of inestimable value in the total national defense effort in wartime, the campus civilian defense council is working out a program designed to enlist the support and cooperation of the whole student body.

For those who have already had training in first aid, either as scouts or in physical education courses, a special first aid unit is going to be organized on campus under the direction of Miss Moll, the resident nurse.

Those whose experience in first aid work is limited or those who have had none at all are urged to register with Mrs. Clawson in the Dean's Office. A special first aid course is being contemplated by the administration, provided sufficient students express their desire to enroll for it. Miss Margaret E. Clafin of the Physical Education Department will offer the instruction.

Men Debaters Meet Tonight To Discuss New Questions

In its meeting tonight at 8:00 p. m. in the Freeland Reception Room, the Men's Debating Club will make final preparations for its coming season.

The important topic for consideration will be the choice of questions which the club will debate. The question on labor regulation has been affected by Congressional action, while Japan's attack on Pearl Harbor and the subsequent declaration of war against the Axis has made the topic of the A.E.F. a dead issue.

Dr. Carter will tell the club members of a progressive discussion contest in which they may compete. This contest will be similar to the one sponsored by Tau Kappa Alpha at its national convention in Washington, D. C., last year.

IN BRIEF!

Don't forget that the second semester begins on Wednesday, January 28.

All students interested in registering for a first aid course to be given next semester should indicate so at the Dean's Office this week.

The meeting of the I. R. C., scheduled for Tuesday evening, has been postponed until the first Tuesday of the second semester.

British Author and Critic To Address Forum Wednesday

OLIVER LODGE TO DISCUSS POETRY OF MEREDITH

Oliver W. F. Lodge, noted British scholar, critic, and author, will speak at the second Ursinus Forum of the year on Wednesday, January 14, at 8:00 p. m. in Bomberger. The subject of his talk is "The Poetry of George Meredith". The customary question period after the talk will be omitted; however, Mr. Lodge will answer individual questions informally after adjournment of the meeting.

The forum speaker has been accredited to Ursinus for the month of January by the Carnegie Endowment for International Peace as Visiting Professor of English Literature. Mr. Lodge has taken up his duties and is delivering a series of lectures to various of the classes in English Literature upon Shakespeare and Wordsworth.

Mr. Lodge was born in Staffordshire, England, the son of Sir Oliver Lodge, the eminent physicist, and attended Eastbourne College and Liverpool University. He also studied privately under outstanding authorities, both in Britain and on the continent, in the fields of literature, philosophy, physics, bibliography, architecture, painting, and sculpture. He is the author of the standard work, *What Art Is*, and of a number of plays, poems, and critical works. During the past several years he has lectured extensively on both sides of the Atlantic.

Mr. Lodge has been accredited to Ursinus by President Nicholas Murray Butler, of Columbia University, acting for the Carnegie Endowment for International Peace, which has undertaken an extensive program of assigning noted foreign scholars as visiting professors at the leading American colleges and universities.

Y's Committees Lead World Student Service Drive To Secure Funds

The social service committees of the Y.W.C.A. and Y.M.C.A. are making final arrangements for a campus drive for the World Student Service Fund which will be held the first week in February. Garfield Clark '43, and Emily Wagner '43, are in charge of the campaign.

A number of interesting activities which have not yet been disclosed are being planned for the week in order to attain the goal of \$200 which has been set for the students of Ursinus. This year the national goal is \$100,000.

The W.S.S.F. does not appeal to the general public, but to American students for its support, and provides for aid to students and professors who are victims of war. It is international, non-sectarian and non-political and provides for education, reconciliation, and reconstruction.

President Announces War Program; Seniors To Be Graduated May 18

Single Week of Examinations, Classes in Summer, No Spring Vacation — All Part of New System

Last Friday morning at the regular Chapel service, amid an atmosphere electric with tenseness and expectancy, President Norman E. McClure announced to the assembled student body that drastic and revolutionary alterations were to be made in the academic program of the College. Commencement Day moved up to May 18, first semester exam period shortened to one week, elimination of a spring vacation, a three-semester-a-year system to be inaugurated in June—all these are the highlights of the greatly accelerated program devised to facilitate the attainment of a college degree in a three rather than the traditional four year period. Thus Ursinus is responding to the requirements of the national emergency in conformity with the suggestions of the government.

After summarizing the plans of the government to meet the requirements of war, especially as these affect college men, Dr. McClure then went on to tell of the College's plans. Assuring his listeners that the academic standing of Ursinus would not be impaired, "The present four year program will be continued. Requirements for admission will remain the same. The requirements for degrees will remain unchanged," he divulged the plans for the newly adopted system.

Accelerated Program

Miller Article on Singapore Is Part of January "Amerasia"

Dr. Eugene Miller, of the Political Science Department, is the author of an article appearing in the January issue of *Amerasia*. His work is on the subject of the Singapore naval base, the topic of a forthcoming book by Dr. Miller. *Amerasia*, a professional monthly, is "A Review of America in the Far East."

Guest Professor, F. and M. Students Lead at Vespers

PROF. SPOTTS CHALLENGES COLLEGE YOUTH TO THINK

"It is the major purpose of the liberal arts college to learn the use of the mind." In these words, Prof. Charles Spotts, of the Franklin and Marshall College Department of Religion, addressed the Ursinus Vespers last evening.

Prof. Spotts, a frequent visitor to the Ursinus campus, presented a challenge to the student: "Thou hast given me this mind, Muscles, are they not for use? Speech, is it for use? Mind, is it not, too, for use?"

Appraisal of College Studies

Professor Spotts then proceeded with an appraisal of the various subjects learned in college. "I must be a scientist to understand God's great creation, for science is the quest of the mind after God." This, according to Professor Spotts, is the purpose of the study of science. "By philosophy the physical universe may be better understood. Life-Mind; there must be a purpose—there must be reality." Philosophy performs no secular tasks, but it gives us freedom, and with freedom it gives us God.

Just as we study various other subjects, so we must also acquaint ourselves with the science of Biblical criticism. In the study of Galatians, Luther found new meaning, "The righteous shall live by faith".

Concluding Thought

"Not to lose Thee, O God; that is not the purpose of mind! No; but ever to find Thee more and more. This is my hope." With these inspirational words, Prof. Spotts concluded his talk.

The service was in charge of a group of students from Franklin and Marshall College. David Noss '42, was the leader for the service, and Robert Moss '43, presided at the organ. After the service, an informal reception was held at Lynewood Hall. Plans are being made for the presentation of a program later in the year by the Franklin and Marshall Glee Club.

"An accelerated program has been planned for those students who wish to complete their work in three or three and one-half years. Although this accelerated program is designed especially for students of more than average ability who are planning to enter those professions in which there is at present a shortage, some other students whose grades are good will be admitted by vote of the faculty."

After warning that the new program will include schedules heavier than the present maximum, Dr. McClure illustrated the practical effects the introduction of a summer semester will have. "Some members of the Junior Class will be able to complete their work in January, 1943. Some members of the Sophomore Class will be able to complete their work in June, 1943. Some members of the Freshman Class will be able to complete their work in June, 1944".

Status of College Men

In opening his address, the president spoke of the status of college men in the Selective Service and ventured the observation, "Some of you will receive deferment; others will be inducted. Some local boards will be more ready than others to permit college students to continue their studies. But I believe that when the nation's needs have been more carefully studied, the role to be played by each college student

(Continued on page 6)

Free Weeklies To Ursinus Men In Armed Forces

Copies of the **URSINUS WEEKLY** will be sent free of charge to Ursinus men in the service. This is the result of a project suggested to the Y by the Ursinus Civilian Defense Council.

The projected plan is a very simple one. Anyone who knows of a friend from Ursinus in the service, no matter where he may be stationed, is requested to forward his address to the Registrar's Office or John Cornely '42. After the addresses have been secured, the conference committee of the Y, under the joint chairmanship of John Cornely '42, and Charlotte Witter '42, will assume the responsibility of addressing the copies each week and keeping a file of the addresses of the service men.

This same plan has been put into effect in a number of other colleges and universities, and it is hoped that by this means the Ursinus men under arms may keep in touch with their alma mater and their friends here.

CIVILIAN DEFENSE AT URSINUS

Every succeeding day brings the evidences of war ever nearer to us. True, no alien armies have set foot upon our shores and no high-flying vultures have wrecked havoc and destruction upon our metropolises. But that much-maligned yet omnipresent Mars requires us to readjust our economy, sacrifice many of those accoutrements that have made American life so distinctive and full, and even scrap or alter our personal plans for the future. No one can tell what greater bribes he will require before he raises the Allies' arm in victory.

Here at College in a kind of sheltered haven we are not out of his reach. Among our ranks there are many whom he shall demand as hostages, and no doubt some of these ultimately may be consumed by his insatiable appetite. War is becoming very real to us now.

But there may come a time when war will affect us directly right here on this campus. Against that day, the Ursinus Civilian Defense Council has been organized. True, at first thought it may seem fantastic to imagine that enemy raiders would ever blacken the sky above Collegeville. But who could have foretold the Pearl Harbor attack? An ounce of prevention is worth a pound of cure.

Probably an air attack upon the American continent will never materialize, and if it should, Collegeville with no military objectives would not be an early target. It's wise to be prepared for any eventuality, and that is the reason for the defense council. Just the training alone in the sort of work to be undertaken will prove valuable to those students participating wholeheartedly in it. So when practice raids are held in the near future, it is hoped that students realize they are not farcical or staged merely for their amusement and frivolity.

D. A. H. '42

SUPPOSE A LIFE DEPENDED ON YOU

First aid training is important at any time, but never has it been so necessary as now. Ability to dress wounds on the spot can save innumerable lives in wartime, and any of us may be called upon to administer treatment without the assistance of a regular medical officer.

In some colleges, a course in first aid has been made compulsory since the outbreak of the war. Here a special course is being offered the second semester, and registration for the training is voluntary.

Can you afford to miss it? Take first aid training and help the total defense effort!

D. A. H. '42

Things'n Stuff

By IHRIE

ALL WORKING TOGETHER

In times like these when necessity demands united action, it is certainly heartening to feel and be a part of that spirit of supreme co-operation which is so forcefully pervading the Ursinus campus.

When President McClure announced the official plans of the College for the war-time emergency on Friday morning, it is safe to say that each and every student without exception was deeply grateful for the new adjustments and resolutely determined to do everything in his power to assure their complete success.

It gave all of us a fuller appreciation of our responsibility to know that executives throughout the nation, and at Ursinus in particular, were doing their utmost to grant us the enviable opportunity of completing a college education. We are sincerely thankful.

Professors who will have to exactly double their work, many of whom will have almost maddening schedules under the accelerated program, are satisfied with the understanding that there is a job to be done and they're going to do it. To them even the most trifling thought of dissatisfaction would seem an act of treason.

When all this is being done just for us, no wonder we're all eager to do whatever we can, as soon, and as well as we can.

Although a considerable proportion of students will not be able to continue through the summer months, by far the greater majority will attend the added semester regardless of debts and sacrifices.

We're tickled with the chance to complete a bloc in our education without an interruption; we're content to worry later about where the money will come from, and we don't even give a thought to the loss of vacation.

In regards to the jam-packed week of semester examinations, it is certainly not delightful for such unfortunates as your columnist to think of three corking exams and utter exhaustion all in one day, but again there is a job to be done.

Without reservation it can be said that the new arrangements have the complete endorsement of the student body in every respect but one—comprehensives.

When accelerated schedules call for at least 18 hours per semester (if students desire to follow the hastened program) and the probability of as high as 21 hours during the semester before comprehensives—a semester which is traditionally light under ordinary circumstances—and when all-out efforts are being made in every direction to make suitable adjustments, it hardly seems fair to demand students to take comprehensive examinations.

The suspension of comprehensives would indeed be a welcome reward for the strain of packing two years work in a year and a half, of working during the torrid summer months, and of enduring the many sacrifices necessary in order to attend school 20 months in a row.

First Semester Exams begin

GAFF from the GRIZZLY

Mac and Indiana

It seems as though "Mac" has finally succeeded in getting Indiana off his mind, at least for a night. He threw off his duties to Dr. Hileman temporarily and was seen blissfully passing his time with Geraldine.

Who's Gullible?

Is it that Dottie T. can be so gullible or is it that Mary Anna is so convincing in her arguments? We know darn well Mike isn't engaged, but it so happens that the latter lass convinced the former frill of this fact.

Belle Nabs Ditter!

"Well, well! The belle of Collegeville has bagged her college man for 1942. In the past years she has averaged one a semester and in addition one of the "Summer Colony". We sincerely wish you success Bill, and from then on hold tight!

Maybe It's the Braid

Oh, by the way, Ruth, we forgot to ask you. How was your trip to Chicago? It sure is wonderful when a girl will chase half way across the continent after you. He'll be around next Saturday, though, on a reciprocal trip, so let's welcome the Admiral.

Here's A New Recruit!

Hey Pete, why don't you get "Bobby" Zulich to become your assistant wrestling coach. At the match with Haverford she certainly took a horse beating than any of our boys. She groaned when our man was down, went wild when (he) was on top, screamed advice and encouragement, and just about twisted an ear off the spectator in front of her.

Quite a Heller!

Elwood might seem quiet and reserved in regard to the co-eds here on campus, but just let him get away from home. Elwood says, "I walked more girls home in one week during the Y Conference at Miami U. than in an entire year at Ursinus". That's living up to your last name, boy.

Keeping Something From Us?

Just what's this all about Bill K. Why don't you tell more of your friends about Yvonne? After all, her mother has a perfect right to interrupt you to get the morning's milk, hasn't she?

SOCIETY NOTES

Lenore Berky '42, announced her engagement to the Reverend Edwin J. Mitchell at a party at her home on Thursday evening, December 26.

Mr. Mitchell, who was graduated from Muhlenberg in 1941 and who is now attending the Moravian Seminary in Bethlehem, is pastor of Trinity E. C. Church in Slatington.

Miss Berky is the second of the women students in the Senior Class to announce her engagement. Carol Anfinen became engaged last year to Park Hays Miller, Jr.

Dan McGowen ex '43, of Cheltenham, was married to Ann Meyer of Elkins Park on Saturday, January 3, at St. Luke's Church in Glenside. The couple went to Washington, D. C., on their honeymoon.

Omega Chi Sorority held a sport dance at the Springford Country Club last Friday evening to which many guest couples on campus were invited. Marjorie Colsher '43, was chairman of the affair.

The girls of Glenwood Hall entertained at an Open House Sunday afternoon, January 11. Jean Deckard '42, who will be graduated this month, poured at the tea.

J. R. C. Commentator

DEFENSE BUDGET

A great deal has been spoken and written in the past few weeks about the necessity of turning a high percentage of industrial production toward the prosecution of the war. It is a war being fought on a scale more tremendous and far-reaching than could have been imagined a comparatively few years ago, and the cost, correspondingly great, is staggering to the imagination. We are in conflict with a way of life, with a so-called civilization whose whole philosophy is diametrically opposed to our own. Right now the job before us is a huge one requiring everyone to do every bit he can.

All this sounds well enough, but what does it mean to us, to that oft-cited but still unseen Average Citizen? In short, it means guns, ships, airplanes—all these cost money, huge sums which must come from somewhere.

The President's Budget Message to Congress presented estimated figures which are startling even in this age. The budget for the fiscal year 1943 estimates the spending of \$52,786,000,000, for defense purposes alone and of \$58,027,000,000 for the total budget. The non-defense expenditures thus amount to \$6,441,000,000. These figures in themselves do not possess a great significance but when they are compared to others we begin to have some conception of them. The total expenditures for the fiscal year 1942 will be \$32,657,000,000 (estimated), while in 1941 the total was a mere \$12,774,000,000. Total national expenditures have climbed from \$6,370,000,000 in 1934 to the estimated 59 billion for next year.

Defense expenditures have risen in even greater proportions. In 1934 we spent \$540,000,000 for defense, or about 8 1/2% of the total national expenditure; in 1938, we spent \$1,027,000,000, or about 14% of the total; in 1941, \$6,047,000,000, or 47%, and now we propose to spend next year almost 53 billion dollars, or slightly less than 90% of all government expenditures.

Incomes have risen in the past year, but so have prices; the cost of living is up nearly 20%. If we are to escape inflation, the proposed tax program and the price control bill now before Congress will both play their parts. If we are to turn our industrial resources toward the production of war materials, we must of necessity decrease that of consumer goods. Workers have more money to spend, but there is less for them to buy.

The prospect could hardly be called bright. However, if this increased tax policy does serve to pay a large part of the war costs and at the same time to restrain inflation, we shall be better off at the end.

Little as we like paying for the war, pay we must. We've gone a great way in not attempting a "business as usual" policy, and unpleasant though taxes are, higher ones are inevitable. We must see that our armament program is an organized, well-planned one, and that non-defense expenditures are cut as much as possible. All possible production must be turned to the war. The President stated the situation clearly in his budget message: "We cannot out-fight unless we out-produce—overwhelmingly, so there can be no question of our ability to provide a crushing superiority of equipment in any theater of the war."

JANE VINK '42

SUGAR & PICE by **CUE BALL**

Information, Please!

Was it President Roosevelt who said that in the waging of a successful war, Americans must be both resourceful and tire-less?

Defense Note:

We have been requested to ask the local air raid wardens to station guards on the Eighth Avenue bridge. At present that location is not sufficiently "armed" to afford adequate protection.

A New Train of Thought:

Studio Cottage's own Southern belle chugged home for the holidays on the famed Chatanooga Choo-Choo. Say, Mabel, was that certain person waiting at the station—you know, "funny face"?

Winchell Whimsy:

Local lassies have been holding their own in collecting the loot of Cupid's war game: Jeannie Ewen has turned football hero, totting around a diminutive football with all the spirit of a two hundred pound guard.

Irory-tickler Appleget has finally relinquished his fraternal emblem; apparently he let in the Wolfe at his door.

Rumors and Bored

1. Here's a hot tip—there's a new romance a "Zimmer"ing at Maples these cool days.
2. That Baird-Hyatt combination is having its usual An(ne)d Frank-ly we don't think it's its usual trouble. An(ne)d Frank-ly we don't think it's serious.
3. Little Laura's Wells of romance at home are going dry, so Al(l) she does is dig another on campus.

Solidarity Is the Theme of National YM-YW Assembly

TWELVE FROM URSINUS AMONG THOUSANDS WHO ATTEND

Solidarity was the keynote of the National Assembly of the Student Christian Movement, held this year at Oxford, Ohio, from December 27 to January 3. Over one thousand students from practically every state in the nation and from many foreign countries attended the conclave, which is held once every four years.

Dr. Gregory Vlastos, of Queens University, Canada, was the key speaker at the platform sessions. Other speakers included the Hon. Margaret Bonfield, M. P., and Dr. James Mullenberg, of the Pacific School of Religion. In addition, several panel discussions outlined the pacifist's viewpoint and various aspects of reconstruction.

The entire group was divided into small discussion groups, or seminars, dealing with Christian faith and social reconstruction. Later in the week, "B" seminars met to formulate resolutions to be presented for the approval of the entire assembly. At the plenary sessions, which consumed the last day and a half of the week, legislative procedure was followed, the entire group discussing and approving resolutions on many pertinent questions.

Stand of the Pacifist

Probably the point of greatest moment was the discussion of the stand to be taken by the Christian student in regard to the present war. The final decision was that the movement should support the government in its actions, but that the extent to which the student should go in his support should be left up to the individual student. Thus allowance was made for the

Dr. John Perkins Tells Pre-Meds of General Practice

FUTURE M. D.'S RECEIVE MANY VALUABLE TIPS

Continuing their father-and-son policy of recent meetings, the James M. Anders Pre-Medical Society presented Dr. John D. Perkins as their speaker last Tuesday evening. Dr. Perkins is a well known practicing physician as well as a member of the staff of the Bryn Mawr Hospital.

The speaker particularly emphasized the fact that doctors cannot practice medicine merely on the knowledge and techniques acquired in medical school and during internship, but must strive to keep up with the cumulative medical literature and methods. He also said that medical students, both now and in the future, would have to strive more to equal the work of their predecessors.

Tips for Internes

In discussing the problem of internship, Dr. Perkins stressed the fact that internes should not dispense with daily exercise and fresh air to provide extra time for study, but that they should keep their bodies in as good health as possible, for a fatigued body retards the assimilation of knowledge by the mind. He further stated that a common failing of internes today is that of not following cases through the autopsy room where the actual cause for death may be discovered.

In speaking of general practitioners, Dr. Perkins illustrated conclusively that they must truly be jacks-of-all-trades. These men must often represent their patients when engaging the services of specialists, to ensure fair treatment. The general practitioner is also confronted with perplexing problems in industrial medicine, often needing to engage in disputes with the manufacturer and insurance company on one side and the patient on the other.

College Receives Large Grant from Estate of Wealthy Philanthropist

Mr. Stanley Omwake, assistant to the vice-president, recently has announced the award of a \$33,000 trust fund to Ursinus. Robert J. Byron, Esq., of Philadelphia, father of Roberta Byron Bodley '39, and Marion L. Byron '42, as trustee for the estate of John H. Immel, has designated Ursinus as beneficiary.

The fund was set aside for use "for such religious, charitable, or benevolent purposes and objects or institutions as . . . shall seem best and proper." Mr. Byron based his choice upon intimacy with Ursinus acquired as the father of two students and through his personal acquaintanceship with President McClure. This action has been approved by the Orphans Court of Philadelphia, and the fund has passed into the possession of the College.

Decision as to the use to which this gift will be put will be made at the next meeting of the Board of Directors.

By Mr. Charles H. Miller, Assistant Librarian

You have probably noticed the books on the Far East which we have placed on display, but have you dipped into any of them? Since December 7 they have taken on new significance, and one of them, **The Dutch East Indies**, by Dr. Amry Vandenbosch (1941) is considered the definitive work on the subject. Dr. Vandenbosch is Professor of Political Science in the University of Kentucky, has spent years of research on this subject, and has traveled in the islands themselves. He describes the problems which have confronted the Dutch since they first went to the Indies in the 17th century, and the policies by which they have developed and governed the islands. The Indies today constitute one of the most crucial problems in Far Eastern strategy. If you would understand them, read this book.

Life Inside Russia

In his book **Assignment in Utopia**, Eugene Lyons tells in dramatic style of his years of growing disillusionment in Russia, where he served as United States press correspondent for six years. For those who wish insight into the baffling complexities of contemporary Russia, this book will be worth reading. It abounds in revealing often comical incidents of daily life among the Soviets. Not so much the story itself, as the sincerity and personality of the author, make it one of the most important books on Russia.

In Robert Pfeiffer's **Introduction to the Old Testament** we have the only completely comprehensive and

up-to-date introduction now available. Here in one book is a study of the Old Testament as a whole, from the point of view of its religious, literary and historical interest through the centuries; a critical analysis of each book of the Hebrew Bible, with special attention being given to historical background, authorship, style, thought and religious ideas. This book stands alone in the Old Testament field. Dr. Pfeiffer is Lecturer on Semitic Languages at Harvard University.

Harry Emerson Wildes, who lives at Valley Forge, has written, in his biography of **Anthony Wayne**, about one of the most engaging figures in American History. He calls Wayne "The trouble shooter of the American revolution". Far from the Mad Anthony of legend, he was one of the most dynamic generals of the army, a man whose careful planning, military imagination, and courage on the field often saved the fortunes of the colonies. Mr. Wildes has used source materials hitherto unavailable, made extensive historical research, and avoided the sentimental and sensational. In this full length portrait we see not only Wayne the soldier, but also the ladies' man, the society dandy, the financial speculator, the politician.

WAR AND TELEPHONE SERVICE

THE Army, the Navy, the Federal Government, Civilian Defense and War Industry have first call on the nation's telephone facilities. Our first and foremost obligation is to furnish them with fast, dependable telephone service, wherever and whenever needed.

In spite of staggering demands for telephone service, further expansion of telephone facilities is sharply curtailed by shortages of metals and equipment. Therefore, we must get the absolute maximum use out of the existing telephone plant.

Every telephone user can help to keep lines open and speed the service by following a few simple rules:

1. Be sure you have the right number before you make a call.
2. Don't ask "Information" for numbers that are listed in the directory.
3. Answer all calls as quickly as possible.
4. Be sure to "hang up" after each call. Don't let a book or anything else hold the telephone "off the hook."

Make Every Call Count.

Looking 'Em Over
With
Buddy Adams

In case you haven't noticed, last week produced a real Ursinus "Strange As It Seems". On Wednesday the Bears broke the conference record for high scoring when they scored 77 points against Lebanon Valley. Three nights later they had their own record broken at their expense when Albright racked up 80 points to set a new record. Ripley has nothing better than that.

Basketball, however, is just like that—in fact it is more likely that something of that kind will happen in basketball than in any other sport. "On" and "off" nights occur regularly and it was our misfortune to hit an "off" night against the truly great Albright team with an "on" night.

P. S. If you're looking for a dead sure bet, we advise you to pick Albright to take the league championship. But they won't do it without a defeat or two.

Quirks on the Game

Forward Kuhn (himself no snail on the court) was going to appeal to the S. P. C. A. He didn't think they allowed rabbits to play the game.

Capt. Hutchinson didn't think there'd be much scoring in Saturday's game. He expected the greater part of the game to be spent in running the miles up and down the floor to reach the baskets. Albright thought otherwise.

He's in the News—

Sonja Henie's only rival, Jinga Johnsonie, was in his element at Saturday's skating party.

Jing showed he was as spry as those youngsters—he also showed he could fall with the best (and heaviest) of them.

Odds 'n Ends

Captain Bill Shahadi of Haverford's wrestling squad pinned Bear wrestler Ed Maykut after 8 minutes and 59 seconds of the bout had elapsed—just one second to go for the end of the bout.

Bunny, Peggy, and Squeaky showed they still have the stuff as they outscored the varsity 25-24 in Saturday's encounter.

The annual battle of the gymnasium has started again. The keeper of the gym, Gus Johnson, promises to take on all who walk on his new gym floor. Mercy will not be shown to anyone and we do mean anyone.

In Closing!!

Please Uncle Sammy, don't take our dear Editor away from us. We are sure he couldn't be of any use to you. He can't count—he makes us count the words in the articles. He can't walk—he makes Ditter drive him up in the car. He can't write—he makes us write all the articles. He can't sing—we've heard him try.

But if you do need a gruff, stern officer to rule with a strong, dictatorial hand—he's just your man. We know.

WEEKLY SPORTS

Dependable Guard . . . Al Hutchinson

Three years a standout performer for Coach Hashagen is the record of that senior veteran of the court, Al Hutchinson. Ever since his freshman year, Al has been one of the steadiest and most reliable players on the basketball squad and has guided the team on the floor for the last two years.

As a sophomore, Al saw a good deal of action on the strong quintet of that year which had such capable performers as John Wise, Bob Keehn, Hal Moyer, Abe Chern, and Sparky Meade. Al is always given the very uncomfortable task of playing against the best scorer of the opposing team, and besides making a very good defensive record for himself, he has also been among the top scorers for the team.

Al came to Ursinus from Atlantic City High School where he was a member of their championship team. He is a senior in the Bus-Ad group and has always kept a very good scholastic and extra-curricular record. In addition to playing basketball, Al is president of the Varsity Club and circulation manager of the Weekly.

Freshmen Capture 'Sudden Death' Tilt From Lions, 33-31

Walz Scores Winning Goal

A "Frank Merriwell" shot in the "sudden death" extra period by center Roy Walz enabled the strong Cub team of Coach Sieb Pancoast to eke out a 33-31 victory over the Albright Frosh team Saturday night.

Two Extra Periods

After the score was tied 29 all at the end of the game, and 33 all at the end of the first three minute extra period, the game resorted into a "sudden death" extra period. In this extra period the Bears took the tap-off and held the ball until Walz threw a straight overhead shot from the sidelines to win the game.

In the first 3-minute extra period guard Johnny Fletcher put the Cubs ahead by two points but Albright's Jim Bunn matched it as the period ended.

Fletcher Leads Cubs' Scoring

All of the Frosh performers turned in brilliant performances with Fletcher, Carranza, and Moore sparking the offense and Walz and Neustadter upholding the defense. Fletcher was high for the Bears with ten points and the Lions were led by Burn's nine points.

Bears Swamp Lebanon Valley 77-31; Bears Swamped by Albright 80-33

Fast Break of Lions Defeats Bears Easily

Unable to cope with the fast fast-breaking attack of their Albright opponents the Bears of Coach Ken Hashagen were smothered by a strong Lion team by the score of 80 to 30 Saturday night. The game was played in the spacious Reading Northwest Junior High School gym and witnessed by a capacity crowd.

Lions Start Fast

The Lions started off with a bang and in the first four minutes of the game racked up 16 points. Employing a fast break and a very close man to man defense the Lions kept up their mad pace to lead at the end of the first quarter 23-5, and hold the Bears without a single field goal.

In the second quarter the Lions' Kenny Hopkins started on a scoring spree that put the Bears farther behind. Making good on almost anything he shot, Hopkins scored eighteen points, and aided by goals by Boltz, Shollenberger, and Rhoads went ahead by a 49-13 score. Field goals by Hutchinson, Kuhn, and Ziegler and several fouls accounted for all the Bears scoring.

Bears Halt Albright's Scoring

In the second half the Bears employed a new type of defense and a better offense to hold their opponents to 31 points while they racked up 20 for themselves. The damage of the first half, however, was too much to overcome and the Lions still controlled the game.

The spacious floor, Albright's fast breaking offense, and an "off" night in shooting were the factors responsible for Saturday's defeat. At no time did the Bears threaten or even look like the team that racked up 77 points against Lebanon Valley Wednesday.

Cub Squad Opens Season

With 37-19 Win Wednesday

Sparked by the brilliant ball handling of George Moore and John Fletcher and the hard fighting of Roy Walz, the Bear Cubs opened their season on the home court Wednesday night with an easily won victory over the Lebanon Valley Frosh, 37-19.

This first game gave prospects of a top season for the freshman basketball team. The entire squad played together smoothly, displaying considerable ability, experience, and plenty of spirit. All this was made apparent by the scoring throughout every period.

Capitalizing on their strong offensive game, Walz and Moore shared honors as high scorers by registering ten points each. Fletcher followed closely with his four field goals and one foul for a total of nine points.

MacMahon Leads Bear Scorers Against Dutchmen

Smashing all known conference and gymnasium scoring records, Coach Ken Hashagen's red hot basketball squad sank 29 field goals and 19 out of 28 fouls to drub once-beaten Lebanon Valley, 77-31, in the initial league game of the season and the inaugural tilt on the new floor of the Thompson-Gay gymnasium Wednesday night.

Bears Score Freely

Paced by sharp-shooting Schmoke MacMahon and the dead-eye trio of Dave Ziegler, Ruggles Wadsworth and acting captain Al Hutchinson, the Ursinus lads bombarded the basket from every corner of the court to average nearly 20 points a period in a lop-sided gunning spree.

Kubisen of Lebanon Valley opened the encounter with a quick field goal, followed by teammate Matala's foul; but Wadsworth and MacMahon soon put Ursinus in front 4 to 3. Matala and Kubisen each contributed a two-pointer and Dorazio made good on a free throw, then Ursinus went into action.

37-8 at Half

Without allowing the boys from Annville a single point throughout the remainder of the half, Hash's record-smashers put the count at 19-8 at the end of the first period and 37-8 at halftime.

The passing was perfect, timing was flawless, MacMahon split the hoop from every conceivable angle, Ruggles and tiny Tommy Rorer dropped them through from under the bucket, and Dave Ziegler showed underestimated accuracy and precision as the 'Sinus five romped to a staggering lead.

Wadsworth and Ziegler together accounted for 15 of the 23 counters scored by the local cagers in the third stanza as the totals mounted to 60-14.

Trying every possible combination of men, Coach Hashagen shuffled and juggled, but the scoring continued to skyrocket and could be stopped only by the final gun at the stupefying count of 77 to 31.

Tropp and Arnold Win But Fords Sink Wrestlers by 22-6

Scoring two falls and four decisions, Haverford's crack wrestling squad took the measure of the Ursinus grapplers, 22-6, in the first home match of the season on Friday afternoon.

Fords Get Two Pins

Joslin pinned Don Stamm with a half-nelson and body press in one minute and forty-one seconds of the 121-pound event, and Shihadah pinned Ed Maykut with a scissors and arm lock in eight minutes and fifty-nine seconds of the 155-pound match.

Joe Tropp and Dick Arnold garnered the Ursinus points with 6-1 and 8-4 decisions, respectively, in the 175 and 136-pound divisions.

Decision Bouts Close

In the other bouts, Davis decided Hainley by a score of 7 to 3; Marone outpointed Wells 6 to 1; Post eked out a 6-5 victory over Graver, and Wigfield squeezed through with a 6 to 4 decision over heavyweight Dick Clark.

The summaries:
121-pound—Joslin pinned Stamm with a half-nelson and body press. Time: 1 minute, 41 seconds.

128-pound—Davis won a decision over Hainley, 6 to 4.

136-pound—Arnold won a decision over Bartholomew, 8 to 4.

145-pound—Maron won a decision over Wells, 6 to 1.

155-pound—Shihadah pinned Maykut with a scissors and arm lock. Time: 8 minutes, 59 seconds.

165-pound—Post won a decision over Graver, 6 to 5.

175-pound—Tropp won a decision over Alford, 6 to 1.

Heavyweight—Wigfield won a decision over Clark, 6 to 4.

Alumni Sextet Ekes Out 25-24 Win Over Coach Snell's Co-Ed Varsity

Although the girls' basketball team lost by a 25-24 score to the alumni six Saturday morning, they turned in a moral victory when they sank balls almost at will in the final period, and were stopped only by the final whistle.

Getting off to a good start, the varsity ruled in the first quarter, only to fade out of the picture in the next two quarters. Led by Bunny Harshaw Vosters, the alumni made nine out of eleven foul shots good while the varsity tallied only two of their ten. However, a close man-for-man defense held the former stars to eight field goals against the first team's eleven two-pointers.

Until their last minute comeback, the college team played entirely defensive ball, unable to even keep the sphere in scoring territory. Bringing together an old trio, Peg Clafin and Ruth von Kleek tallied field goals for the alumni and foul shots made up the greater part of Bunny Voster's total. At the other end of the floor, Edna Meyers, Marion Earle, and Blanche Schultz worked a zone defense for the old timers almost to perfection.

The lineup.		Alumni	
Harrington	F	von Kleek

SLANTS ON INTRAMURALS

By COOKY

The opening of the winter sports program sounded Saturday as four teams saw action in the Volley Ball league.

Volley Ball Results

Derr grabbed an early lead in the race as it defeated Brodbeck handily in its single game. Score: 15-6, 15-5. "Just a fluke", sneered the Brods, who had previously worn themselves out, or so they claimed, beating Highland 9-15, 15-13. In the only other game Curtis took undisputed possession of the cellar by forfeiting to the same Highland.

There can scarcely be excuse for any dorm not putting a team on the floor. Volley Ball is not a complicated game. It gives ample opportunity for participation since as many as nine men may constitute

a team. These winter weeks when we tend to remain indoors most of the time it is an event to take up many an inactive hour. Each team, to qualify, must put at least six men on the floor. Nine may be used but not seven or eight.

Due to the necessity for sandwiching games between varsity and freshman basketball practices it is impossible to announce a definite schedule. We herewith present a tentative schedule for the coming week so that the fellows in the dorms involved may keep a watch for special announcements.

Brodbeck versus Curtis.
Stine versus Freeland.
Derr versus Highland.
Brodbeck versus Faculty.
Faculty versus Freeland.

DEFENSE

(Continued from page 1)

most certainly would arise should the densely populated sections of Philadelphia be subjected to a heavy bombing rendering the inhabitants homeless. In such an emergency, the Thompson-Gay Gymnasium, in addition to several other suitable buildings in the community, would be utilized as a temporary place of shelter and station for food.

If dire need for temporary hospitalization should ever arise, Curtis Dormitory will be evacuated by its present occupants and turned over to medical authorities within the hour. Already quarters for evacuated students from that dorm have been procured among the townspeople, and addresses are being assigned to the men now in order that there may be no costly delay if the plan need ever be put into operation.

Ursinus Men To Get Paper

Yet another committee of the Ursinus Civilian Defense Council will have as its project the contacting of all Ursinus men in the service in order to keep the ties between them and the College as strong as possible. In addition to administering to some of their needs, the committee is undertaking to see to it that each of them is put on the **Weekly** mailing list so that copies may be sent to them each week.

Information concerning the first aid program which the defense council is inaugurating may be found in a special article in this week's **Weekly**.

Dr. Miller, Mr. Pancoast Attend American Pol.-Sci. Conference

Dr. Eugene Miller and Mr. G. Sieber Pancoast attended the conference of the American Political Science Association at the Hotel Pennsylvania in New York City, December 29, 30, 31.

At a separate meeting of the Pennsylvania Political Science Association on December 30, Dr. Miller read a memorial to the late Dr. J. Lynn Barnard.

YM-YW Plan Winter Retreat To Formulate New Program

In order to make plans for the second semester, the combined cabinets of the YMCA-YWCA will have a winter retreat on February 1.

The site for the retreat has not as yet been announced. Plans for the affair include periods for worship, discussion and recreation.

Presidents Patt Patterson and Garnet Adams will be in charge of the meetings and Vice Presidents Robert Bauer and Grace Brandt will have charge of the physical arrangements.

INSTRUCTIONS

What To Do In Case of An Air Raid

- As soon as bombs start dropping, run like old Nick himself was chasing you. Wear track shoes to goad those in front of you to greater efforts.
- Take advantage of opportunity afforded you when the sirens blow, for example—
 - If in the Bakery, grab pie, cake, etc.
 - If at John's, grab a bottle.
 - If in class—grab a blonde.
- If you find an unexploded bomb, shake it as the firing pin may be stuck. If this doesn't work, heave it in the furnace and call the Fire Department.
- Always get excited and holler bloody murder. It will add to the confusion and scare the kids.
- If you are the victim of a direct hit, don't fly to pieces. Lie still and you won't be noticed.
- Knock the Air Raid Wardens down if they start to tell you what to do. They always save the best seats for themselves and their friends anyway.
- Drink heavily, eat onions, limburger cheese, etc., before entering a crowded air raid shelter. This will help others from giving you the discomfiture of crowding too close.
- If bombs begin to fall while you're riding in your car, stop, turn out your lights, and let your conscience be your guide.
- Don't forget to take dogs, cats, canaries, gold fish, and turtles to the air raid shelter with you. They have feelings, too.

COLLEGE ADOPTS

(Continued from page 1)

will be more clearly defined, and then—perhaps within a month, perhaps within a year—each student will know whether he will be permitted to complete his college course".

Emphasizing his belief that the procuring of a college education before enlistment in military service is an invaluable asset to the nation's war effort, Dr. McClure continued, "I now repeat what you have heard me say before, and it is what ranking officers of the Army and Navy told the heads of colleges and universities at the conference a week ago: in general the best equipment you can have for military service is a college degree or as much work toward a degree as you can finish—and a sound physique."

"When the government calls you for military service, I repeat, a college education and good physical condition are the chief assets that will gain recognition for you and enable you to contribute best to the nation's cause. You will best serve your own interest now and in the future and you will best serve the nation now and in the future if you remain in college as long as you can and do your work here as well as you can."

"Then Across the Perkiomen The Skaters Glide in Flight"

Over 100 Ursinus students paused long enough in their weekend studying to attend the Y skating party Saturday afternoon on the Perk at Shady Nook.

Mr. and Mrs. Everett Baily, Dr. Eugene Miller, and Mr. "Jing" Johnson were the skating chaperons of the affair. Besides taking care of his official chaperoning duties, Jing furnished several exhibitions of fancy (and otherwise) skating and also gave instructions to some "non-professional" skaters.

After a corps of volunteers led by Chairman Bobby Guinness '42, cleared the snow off a large section of the creek, the skating commenced. Music was provided for the party by all the big name bands via the amplifying system.
