Title: Percutaneous vertebroplasty for painful long-standing osteoporotic vertebral compression fractures : benefits, risks and optimization

Date: 2012-09-20

A vertical watercolor illustration of a human spine, showing the vertebrae and intervertebral discs. The colors are vibrant and varied, including shades of yellow, orange, green, pink, and blue. The spine is centered vertically on the page.

**Percutaneous vertebroplasty for painful long-standing
osteoporotic vertebral compression fractures**
Benefits, risks and optimization
