FINAL REPORT

STATE: Virginia PROJECT NO.: E-4
PROJECT TYPE: Research and/or Survey STUDY NO.: VI
PROJECT TITLE: Endangered Species Investigations JOB NO.: VI-D
PERIOD COVERED: July 1, 1979 to June 30, 1980

JOB VI-D OBJECTIVE: To compile all previous records of the occurrence of the Brown Pelican in the State.

To maintain a file of new records of this species in the state.

To attempt to correlate the occurrence of the species with environmental factors.

SUMMARY:

A review of the literature for records of the occurrence of the species in Virginia was completed. One brown pelican was observed during 1979 on Lake Anna.

TECHNIQUES USED:

Sightings of Brown Pelicans were reported.

FINDINGS:

Only one sighting of the species in the state was made during the fiscal year. One Brown Pelican was observed over a period of several days on Lake Anna during the summer.

TARGET DATE FOR COMPLETION: June 30, 1980

STATUS OF PROGRESS: On Schedule

SIGNIFICANT DEVIATIONS IN PROGRESS: None

RECOMMENDATIONS: Discontinue study.

COST THIS SEGMENT: Federal \$192.00: State \$108.00: Total \$300.00
