THE STATE OF NEW HAMPSHIRE

(L.S.) To the Inhabitants of the Town of Dorchester in the County of Grafton in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Dorchester on Tuesday, the 9th day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To raise such sums of money as may be necessary for repairing highways and bridges for the ensuing year and make appropriations of the same.

4. To see if the Town will vote to raise and appropriate money for Town Road Aid, or State Aid Construction.

5. To see what sums of money the Town will vote to raise and appropriate for Old Age Assistance and Town Poor.

6. To see if the Town will vote to raise and appropriate \$ 50.00 for the Forest Fire Department.

7. To see if the Town will vote to raise and appropriate money for the purpose of publicising and promoting the natural advantages and resources of the town, together with other towns in the Dartmouth-Lake Sunapee Region.

8. To see if the Town will vote to raise and appropriate money to provide for White Pine Blister Rust Control in cooperation with the Forestry and Recreation Department.

9. To see if the Town will vote to raise and appropriate or borrow a sum of money for the purchase of snow removal equipment, or act in any way relating thereto.

10. To see if the Town will vote to raise and appropriate or borrow a sum of money for the construction of a garage for snow removal equipment.

11. To see if the Town will vote to raise and appropriate money for repairing the tractor.

12. To see if the Town will vote to raise and appropriate money to add to the Capital Reserve Fund.

13. To see if the Town will vote to sell the North Dorchester Schoolhouse.

14. To see if the Town will vote to sell land acquired by deed or authorize the Selectmen to sell when a good offer is received.

15. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.

16. To hear the reports of Agents, Auditors, or Committees heretofore chosen and pass any vote relating thereto.

17. To act upon any other business that may legally come before said meeting.

Given under our hands and seal, this 4th day of February in the year of our Lord nineteen hundred and forty-eight.

GEORGE W. ROWEN,
GEORGE A. THAYER,
PAUL D. SMITH,

Selectmen of Dorchester

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District in the Town of Dorchester, New Hampshire qualified to vote in district affairs:

You are notified to meet at the Town Hall in said district on the 9th day of March 1948, at 2:00 o'clock in the after-noon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and to fix the compensation of any other officers or agents of the District.
6. To hear the reports of Agents, Auditors, Committees or officers heretofore chosen, and pass any vote relating thereto
7. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
8. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the School Board in its annual report.
9. To see if the District will vote to raise \$150.00 to paint the Cheever School House.
10. To see if the District will vote to raise \$200.00 for Music Instruction.

Given under our hands at said Dorchester this 17th day of Janaury 1948.

HAROLD WALKER,

FRANCES E. MERRILL
School Board of Dorchester

ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS

To the Dorchester School Board:

When the school calendar for the ensuing year is published among other statistics many people fail to find it and are uncertain about dates of opening and closing of school and days when no school sessions are expected. To remove that difficulty the 1948-1949 calendar is presented with explanations at the beginning of this report.

A recent ruling from the office of the Commissioner of Education makes a school year of at least 180 days mandatory. That requirement necessitates a year of 38 weeks without much flexibility if schools are to close near the middle of June. The calendar follows:

Term Begins	Term Ends	No. of Weeks	No. of Days	
			School	No School
Sept. 7, 1948	Dec. 23, 1948	16	72	8
Jan. 3, 1949	Feb. 18, 1949	7	35	0
Feb. 28, 1949	April 22, 1949	8	40	0
May 2, 1949	June 17, 1949	7	34	1
		38	181	9

The nine expected days of no school are: Labor Day, Fair Day, State Convention (2), Armistice Day, Thanksgiving with the following Friday, December 24, May 30.

Time lost on account of illness or bad weather should be made up in Saturday sessions immediately following the lost sessions.

In my fifth annual report as Superintendent of Schools now submitted for your consideration I shall discuss certain school situations which apply to Dorchester alone as well

as others which concern us as a part of Supervisory Union Number 48. The usual statistical tables will be included for present information by the people of Dorchester and for reference at some future time should that be necessary.

It was indicated a year ago that the revision of our geography program would allow for the completion of geography in Grade seven thus making time available in Grade eight for work in science. This year, for the first time, eighth grade pupils are now receiving instruction in science. This change should be of value in high school and thru a broadening of their own individual interests.

From time to time, questions are asked about our testing program and the uses we make of the information obtained from those tests. An annual test of mental ability is given in grades one and four. A different test is used for each grade. Achievement tests are given at approximately the middle of each year. The results of the mental tests are not used definitely to label a child as slow, bright or superior. They are used as a general guide for teachers who try to meet individual needs of children and they enable us also to determine whether a given child is working up to the limit of his indicated capacity. The results of achievement tests enable us to determine what parts of a pupil's work need more attention and at what points we can give the most help. The tests used are sufficiently well standardized to give a very accurate picture of accomplishment at any period during the school year. A second achievement test is given later in the year to those pupils who showed marked deficiencies on the first one for the purpose of determining how much improvement has been made and how effective have been the measures we adopted for help. The results of achievement tests and the actual daily work done by pupils are the two determining factors in decision about promotions. My experience has shown me that promotion for those about whose future success there may be a reasonable doubt is not a kindness or a help to them. In every case the Sup-

erintendent and the teacher make every effort to reach a decision which will be for the ultimate good of the pupil.

The Dorchester teacher in conjunction with elementary teachers in all other towns in this Union, with the exception of Plymouth, is at work on the development of a program of Conservation teaching. The particular phase of conservation we are considering is that of Conservation of Water Resources. In this particular undertaking we have an opportunity to do some valuable pioneer work which ought to benefit the State as a whole and particularly our children in this town.

Dorchester is one of two towns in which pupils at the present time do not have the benefit of instruction in music. Because in my own experience as a child who did not have that opportunity in the school, lack of it is so keenly felt I should like very much to have Dorchester children receive benefits which were denied to me. It is recommended that the 1948 budget include provision for music instruction if it can be procured under a plan that is now in process of development. All town who are now served by Mr. Stephen E. Childs of Rumney are being asked to provide for his employment in this Union on a full time basis instead of for two and a half days as at present. If that full time schedule can be arranged, it is estimated that Dorchester will have to pay approximately \$200.00.

Repairs and improvements at the Cheever School have greatly improved the comfort and usefulness of that building. Comfort has been assured by the purchase of an oil burner which gives even and steady heat and by rebuilding the foundation which gives us a level building and cuts off the cold draft underneath. The single chemical toilet installed about a year ago should be supplemented by a second one as soon as possible. It would also be highly desirable to have our

own school water supply which ought not to be hard to get by digging a well nearby. The school yard could be greatly improved for play purposes by a small amount of grading to fill up holes which now hold surface water and cause a great deal of mud.

We ought to begin a gradual policy of school furniture replacement as soon as possible. Our school desks and chairs are old and nearly worn out. While the cost of modern school furniture is now excessively high I believe we ought to provide for the purchase of not less than five Universal type desks each year until the entire desk equipment has been renewed.

At the time this report is being written no information has been received to indicate the amount of State Aid which will be received in 1948. It is probably safe to assume that it will be approximately the same as the December 1947 allotment. Dorchester is one of a small number of school districts in New Hampshire in which the State Aid under the new system of distribution may be less than formerly received. In fact the amount received in December 1947 was a few dollars more than would have been allotted under the new plan of computation but the amount was made up to equal that received in 1946. The same procedure will probably be followed in making up our 1948 allotment.

In my work in Dorchester I have been impressed by the interest people have in their school and their sincere desire to give Dorchester children the advantages which are rightfully theirs. The friendly spirit and harmonious working of members of the School Board has been a very pleasant experience. For every kindness and courtesy extended to me my sincere appreciation is here expressed.

Respectfully submitted,

Arthur S. Rollins

Superintendent of Schools

REPORT OF SCHOOL NURSE

To Dorchester School Board:

I here-with submit the report of school nursing from September 1946 to July 1947:

Number of Children inspected	19
Dental defects	16
Tonsils, enlarged or diseased	2
Glands	1
Underweight	2
Hearing	1
Vision	3

These corrections were reported made:

Dental	7
Vision	2

Two children had dental work done at the Plymouth clinic. One child had glasses through the Sight Conservation Program.

One child was examined at Hanover but glasses not recommended.

The audiometer test was given March 17, 1947. Thirteen were tested and one found to have hearing loss.

Only two cases of measles occurred and the attendance was very good.

I enjoyed attending several nurses' meetings during the year and also the New England Public Health Institute held at Durham June 16-17-18, 1947.

In the fall of 1947 the inspection was again made with the following results:

Number of children inspected	23
Underweight	4
Vision	3
Dental :	11
Tonsils	2
Glands	2

The usual clinics for correction of defects will be held and it is hoped that more dental corrections will be made this year.

The Health Education Program with daily class-room inspection, lesson on hygiene, nutrition and health talks is being carried on by the teacher.

I take this opportunity to thank parents, children, teacher, School Board and Superintendent for their interest and help.

Cordially yours,

ANNA M. LOVETT, R. N.

School Nurse

(Note: This report received after remainder of report was printed.)

STATISTICS FOR SCHOOL YEAR 1946-1947

Cheever School, Nellie M. Ashley, Teacher, Grades 1-8

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurance in United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from seroius fires might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and to all who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available manpower in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one half their cost. Good equipment is important and can greatly help to keep both damage and fire cost at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the traveling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

George F. Richardson, Jr., District Chief.
HARRY QUANCE, Forest Fire Warden Dorchester
