Public Library Report

Once again I am pleased to announce that an increase of four thousand and one hundred twenty-three (4,123) books were taken out of the juvenile department this year. The adults did not measure up as well but there was an increase of seven hundred and thirty four.

The New Hampshire Library Association Annual Meeting held here May 8th and 9th at the Congregational Church with your library and the Davis Library as hosts proved to be a most successful affair and the attendance was excellent.

In July your librarian went to New York to the American Library Association Annual Meeting. It was a most stimulating and worth while conference.

We are rendering a new service with the assistance of the churches of the town. Women from the various organizations drive one of the staff twice a month to the Eventide Home. We take a sizable quantity of books for the ladies there to choose from and also take any requests for books they would especially care for. It is a service we all are glad to do and we are enjoying it too.

Mr. William Dudley arranged several attractive exhibits in the Exeter Historical Society Show Case. During January antique and Victorian fans, loaned by the Society for the preservation of New England Antiquities were shown. This was followed by tea cups and saucers, showing the different sizes and shapes that have been used over a long period of years. Ribbons and accessories of other days was another pleasing exhibit.

During Art Week Mrs. Hight, town art supervisor, provided us with an admirable exhibit of work done by the students of the town schools. It was a credit to both instructor and students.

Seven story hours were held during 1952 in the Juvenile department. I regret to report that the attendance has dropped off so much that we feel it is advis-

able to discontinue them for a while. We wish to express our thanks and sincere appreciation to all those people who have assisted us in various ways with the work. However, we do plan from time to time to play records on the victrola Saturday afternoons.

The library committee has purchased two bays of steel shelving for our magazines which we keep over a period of years. We are extremely grateful for these as in times past it has been quite a chore to keep them in good condition on several tables.

A new oak shelf unit for the juvenile room has been ordered. This will make the fourth and should be sufficient for several years.

The continued loyal support of the staff and the splendid cooperation of the Library Committee are much appreciated by the librarian.

Respectfully submitted,

HARRIETTE M. PIRNIE,

Librarian.

Report of Water Commissioners

To the Board of Water Commissioners

I herewith submit my report as Superintendent for the year ending Dec. 31, 1952.

All water pumped during the year came from the new well in Gilman Park. The water was tested and found to be of excellent quality, notwithstanding the complaints of taste and odor. These were caused by the incrustation on the inside of the old pipes of the distribution system, which was dislodged by the new water and the increase in pressure moving in a new direction.

Many hours were spent flushing the lines which did much to improve conditions. During the past three months we have chlorinated the water which we were advised would help to improve conditions. We hope that this trouble is now over.

The year was one of progress in the department. Much maintenance was done including the cleaning of 4,375 feet of six-inch cast iron main on High Street. Most of this pipe had been in service since 1886 and several tons of incrustation was removed. This made a definite improvement in the flow of water through this line.

The new three-quarter ton service truck purchased by the department fills a long felt need.

We are adding new services in increasing numbers. This increases our expenses at this time but will in time pay off in increased earnings.

The consumption of water increased by 4,060,500 gallons over the previous year. We are fortunate to have an ample supply at this time.

I recommend that a sinking fund be created to take care of the cost of a new standpipe to replace the old one near the Exeter Hospital when it comes to the time that it has to be done. This is the original standpipe erected when the plant was built in 1886. Fifty years is considered normal life for such a structure. We should expect not over 10 more years of service and it might be much less.
