MINOT-SLEEPER LIBRARY.

The Minot-Sleeper library has had another year of prosperity. The Reading-room privileges are being more and more appreciated and patronized and cannot fail to have a most wholesome influence on the young. We bespeak for the library the same liberal support it has received in the past.

For the trustees,

· CHANNING BISHOP, Sect'y.

Catalogues	1 30
Use of books	2 16
Total	— \$13 98

As in years past we can say our library has had another prosperous year. Owing to gifts from friends more books have been added than during any previous year. The reference library has been used more than ever before. The teachers and pupils of our public schools have found both library and reading room valuable as sources of information on subjects connected with their school work.

The librarian is always ready to aid anyone seeking information on any topic. The reading room has been well patronized. During the year 1,547 persons have enjoyed its privileges.

For the year just opening the magazines and papers on the tables include McClure's, Scribner's, New England, Munsey, St. Nicholas, Youth's Companion, Outlook, Harper's, Harper's Weekly, London Illustrated News, Ladies' Home Journal, Century, Art interchange, Popular Science Monthly, North American Review, Review of Reviews, Leslie's Weekly, Puck and Judge.

Respectfully submitted,

EMMA PRATT BERRY, Librarian.

I have this day examined the accounts of the Bristol Fire Precinct and find them correctly kept, with proper vouchers for all expenditures.

FRANCIS W. CALLEY, Auditor.

Bristol, N. H., February 19, 1901.

SCHOOL REPORT

UNION DISTRICT NO. 2.

The attendance in our schools the past year has been quite remarkable. The past few weeks the severity of the weather has caused much sickness and thus reduced the number of pupils in the lower grades. During the entire year no epidemic has occurred. A mere rumor at the beginning of the fall term made the enforcement of the state law regarding vaccination compulsory, which caused a slight irregularity of attendance. With a single exception the same teachers have been retained through the year. This fact, added to the good attendance has assured most excellent progress in all of the grades. Much attention has been given to reading and a decided improvement has resulted. The work done in drawing is very commendable; it is surprising that such good work could be attained in so short a time. Music is still taught by the teachers with satisfactory results.

At the beginning of the spring term Miss Mary Taylor, teacher in the fourth and fifth grades, was obliged to resign. Miss Taylor had been in this school nearly three years, she had labored faithfully and earnestly, her efforts were very satisfactory, and her resignation much regretted. Miss Bertha Holbrook of Concord Training school was engaged to fill the vacancy. Her intelligence and superior judgment made her work a credit to herself and pupils. A better position made her resignation necessary at the beginning of the fall term.

Miss Clara Ingalls was engaged for the remainder of the year. Too much praise cannot be given Miss Ingall's work; her love for her pupils and quick perception of their capacities make her school a marked success.

In the primary room there is now a truly primary school; small in numbers and ages, it is a very bright, interesting grade. The new single seats and other improvements made at the beginning of the fall term have wonderfully changed this school. The text-books introduced last year have proven very satisfactory. In all ways the schools are well supplied with books and other necessities.

The lack of acquaintance between parents and schools still exists. Very little knowledge of the true condition and real work being done can be gained by a visit on a gala day. The sanitary condition and means of ventilation, are still the same; they need no comment of censure or explanation, they have been suffered and so can.

Respectfully submitted,

IDA A. WEYMOUTH, Supt. of Schools.

CHANNING BISHOP, Auditor.

Bristol, N. H. Feb. 15, 1901.

REPORT OF SCHOOL BOARD.

Taking all things into consideration we can favorably compare the work done and progress made in our schools with those of past years. Although there is great chance for improvement, still the interest manifested by both parents and teachers and by the studiousness and attendance of the pupils has done much to place this year among the most prosperous we have thus far experienced.

We note with regret that our schoolhouses are not in shape as regards repairs that they should be, but we hope that with the cooperation of the people and board that they may be placed in a much better condition before another year.

Respectfully submitted,

S. S. BROWN,
H. T. HEATH,
CHAS. F. HUCKINS, } School Board.

STATISTICAL TABLE.
