Town Officers

Moderator, George W. Goodhue.
Town clerk, Charles A. Brown.
Town treasurer, Ernest L. Adams.
Selectmen, Clarence H. Ware, Edward O. Hubbard, Richard Coughlan.
Collector of taxes, Charles H. Dutton.
Road agent, Richard B. Harrington.
Overseer of the poor, Charles H. Dutton.
Health officer, Charles H. Dutton.
Common Commissioners, Will O. Stearns, Charles A. Sheldon, William D. Fogg.
Water Commissioners, William E. Putnam, William D. Fogg, Harry M. Sheldon.
Library Trustees, Minnie S. Ware, Charles W. Cheney, Annie L. Putnam.
Supervisors of Check List, Charles A. Sheldon, Will O. Stearns, Charles W. Cheney.
Trustees of Trust Funds, Ernest L. Adams, William D. Fogg, Edson K. Upton.
Electric Light Committee, Edson K. Upton, Ernest L. Adams, William E. Putnam.
Auditors, Homer C. Wheeler, William D. Fogg.
Surveyors Wood and Lumber, Harry M. Sheldon, John E. Hadley.
Police, William J. Hayden, chief; Charles A. Brown, Thomas M. Lavoie.
Special Police, Ernest L. Adams, Charles H. Dutton.
Agent for Town Clock, Charles E. Hanson.
Agent for Town Hall, William J. Hayden.
Cemetery Committee, John E. Hadley, Charles P. Hayward, William J. Hayden.
Sexton, John E. Hadley.

SCHOOL DISTRICT OFFICERS

Moderator, William E. Putnam.
Clerk, Nellie M. Welsh.
Treasurer, Ernest L. Adams.
School Board, Charles H. Dutton, Ella C. Ware, Cora F. Otis.
Auditors, Homer C. Wheeler, William D. Fogg.

SELECTMEN'S REPORT

Valuation of the town by invoice taken April 1, 1923:		
Land and buildings	\$484,500 00	
200 horses	21,765 00	
3 mules	165 00	
10 oxen	705 00	
398 cows	20,915 00	
74 neat stock	2,282 00	
109 sheep	800 00	
4 hogs	85 00	
3265 fowls	3,952 00

Water Commissioner's Report

Collection of rents for year July 1st, 1923 to July 1st, 1924 amounted to \$722.45 and list reported unpaid last year has been settled by payment of \$47.88 and an allowance of \$4.00 in the balance due from Miss A. G. Low on account of house being unoccupied from January 1923.

Total collections therefore amount to \$770.33.

Unpaid rentals follow:

Mrs. Allan Edwards	\$4 00
Mrs. F. F. Fowie	3 00
Mrs. Helen Fowle	8 00
Hiram Marshall	2 00
Miss L. D. Osgood	3 63
Rudolph Stahl	32 25
Mrs. Sadie Woodward	9 00
	<u>\$61 88</u>

Sundry materials on hand for repairs amount to \$74.98.

The system has been further extended by present customers and two new services have been installed for E. C. Whitaker and Alvah M. Wood at a cost for labor and material of \$25.25.

During the summer a leak was discovered in the supply pipe which had resulted in materially lowering the water in the reservoir.

Repairs on same amounted to \$18.50. At this time a new shut off was put in at the Hanson watering tub.

Cost of material and labor for same was \$1.25.

The extremely favorable weather last fall made it possible to do some work that had been planned a year ago.

A new hydrant, the 15th in town, was put in on Norway Hill opposite the residence of A. M. Wood.

Cost of same:

Hydrant	\$52 20	
Sundry materials	1 60	
Labor	15 00	
		\$68 80

Work at the reservoir then began and a space has been cleared around the banks to a distance of approximately seventy five (75) feet.

The wood and logs are disposed of and brush burned.

The reservoir was then cleaned out and the approach from the highway widened and made passable.

This is the first year since the system was installed that work clearing away the brush and trees has been attempted and when we realize the growth dates back to 1907 the cost of this work amounting to \$153.78 does not seem excessive.

WM. E. PUTNAM

W. D. FOGG

H. M. SHELDON

Water Commissioners

Report of Electric Lighting Committee

The extension of the lighting system from the village to the west part of the town has been completed in accordance with the vote passed at the last annual town meeting, at a total cost to the town of \$726.27. This is \$523.73 less than the amount appropriated and represents principally the extra amount your committee was able to get from the New England Telephone and Telegraph Co. over and above the amount estimated for joint ownership in the poles. Fourteen meters have been added

during the year. We have received from Keene Gas & Electric Co. a rebate of \$1002.16 to Jan. 1, 1924. There is due us for the month of January \$87.16. Total amount of income for the year \$1089.32.

We herewith submit account of extension of lighting system and account of new services and repairs on original lighting system.

EXTENSION TO WEST PART OF THE TOWN

Received:		
Amount raised by taxation	\$625 00

Report of the Auditors of the Town of Hancock

We have examined the accounts of the Tax Collector, Road Agent, Treasurer, Town Common, Water Commissioners, Electric Light Committee, Memorial Day Committee, Dental Clinic, Town Clerk, Town Treasurer, Library Trustees, Trustees of Trust Funds, and the Selectmen, and find them correctly cast and properly vouched.

We find a balance in the hands of the Town Treasurer of \$3501.55. In the hands of the Treasurer of Common Fund \$11.84. In the hands of the Treasurer of Town Library \$381.83.

SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD OF HANCOCK:

Herewith is submitted my fifth annual report on the condition and work of your schools.

TEACHERS

The changes in the teaching force this year was smaller than usual, there being only two new teachers to start work in September. Miss Shea was transferred from the Number Seven school to fill the vacancy in the intermediate grades caused by the resignation of Miss Dexter. In the High School Miss Allen, a graduate of the University of New Hampshire, was elected to fill the vacancy caused by the resignation of Mrs. Weston.

The teaching force as at present constituted is faithful and efficient, and all are doing exceptionally good work. The securing of good teachers and the retaining them after they are once secured, is, perhaps the most important factor in the administration of the schools, for upon the teacher rests, in great part, the character of the work done, and a good teacher is an asset to any community whose value should not be lightly considered.

THE WORK IN THE SCHOOLS

I am quite confident that, all things considered, the work of the schools this year has been the best of any year with which I have been acquainted. It has been quite the fashion in some localities of late years to criticize the schools because, as the critics say, so much time is being put upon many new things, which they are pleased to call fads and frills, that the so called fundamental subjects are being neglected. This is a statement that anyone with little actual knowledge of the real work of the schools can make, and yet it is seldom, if ever, substantiated by any proof. In fact, the less we know of the actual workings of any organization, the more certain we are that we can establish ourselves as competent critics of the organization.

Whatever may be the case in other communities I am quite sure that in Hancock the so called fundamental subjects are being given their proper amount of time and attention. A study of the daily program of each school will disclose this fact. That the results we are getting in these subjects are adequate I am equally sure.

In January a test in spelling was given to all the grades in this supervisory union, each grade being given fifty words that

had made up part of the list of words studied since September. As the lists of words for each grade are uniform in all the schools a comparison could fairly be made. While nearly all schools in the union made a good record, the schools of Hancock headed the list with an average of 90% for the district as a whole.

In the early part of the winter tests in spelling and arithmetic were sent out by the State Department to be given to all eighth grade children in the state. In the spelling test an average of 74% would have been creditable. Our eighth grade attained an average of about 85%. The arithmetic test was the same test that was given in 1846 in Springfield, Mass. to a group of ninth grade children, what would correspond in our schools to the first year in High School. This same test was given to our eighth grade. In Springfield an average of 29% was attained. Our eighth grade average was 79%. Certainly arithmetic is as well taught in Hancock in 1924 as it was in Springfield in 1846.

In writing we have adopted this year a new system called the Houston system. While it has hardly been in use long enough to measure definitely the results as yet, I am quite positive that the results are going to be satisfactory. In many individual cases great improvement is already noticeable. The aim is not to produce fancy penmanship, but to develop an easy legible style of handwriting.

Reading, perhaps, the most important of the school subjects, is being continued in all the grades, with special emphasis in the fifth and sixth grades on silent reading. The purpose of this silent reading is to teach the child to get the thought from the printed page. Many children can read words, but do not get the thought from what they read. The purpose of the systematic teaching of silent reading is to correct this.

REPAIRS

Probably only the ordinary repairs will have to be made during the coming year. The village school is in good condition. In time the intermediate room should be equipped with new seats and desks. Those in use now, while not dilapidated, are of an old type, and the tops of the desks are considerably marked and cut up which makes them unsuited for writing surfaces. Also they cannot be adjusted to fit the pupil.

At the number seven school the seats and desks, also, should be attended to. Some of them in use at the present time are broken, and, with the exception of three or four that have been recently put in, all are in a battered condition. Probably enough fairly good seats from the village school could be secured to fit out this school in a fairly satisfactory manner.

The boy's toilet, also, at this school should receive attention.

ATTENDANCE

The per cent of attendance for last year was 91.1, the average membership 101.1 and the average attendance 92.2. There were 130 cases of tardiness reported for the year, an average of 1.2 per pupil in average membership for the year.

The following names should be mentioned for perfect attendance during the year, without an absent or tardy mark.

High School: Ethel Hubbard.

Junior High: Ray Woodward, Harriett Hubbard.

Intermediate: Cynthia Upton, Elinor Upton.

Number Seven: Orton Hubbard.

HIGH SCHOOL

Instead of commenting myself on the High School this year I am enclosing the report of Headmaster Weston. This shows a healthy condition of affairs. For the last two years the school has had a steady improvement in the character of the work done, which, I am sure, is very gratifying to all.

In closing may I express my appreciation for the hearty support of all interested in the schools.

Respectfully submitted,

L. E. PRIOR, Superintendent

TO THE SUPERINTENDENT, TRUSTEES, AND SCHOOL BOARD OF
HANCOCK

I herewith submit my first report. Fortunately I have found myself surrounded by those who are pleasant, sympathetic and willing to work.

THE STUDENT BODY

One of the best school barometers of a school success or failure is the student body. The attitude and spirit shown by the pupils of Hancock High School toward their work is very pleasing to the faculty. The cooperation of pupils, teachers, school officials and townspeople has been a credit to the school.

ROOMS AND EQUIPMENT

I found a very modern school building with an ideal location but rather poorly equipped. This lack of equipment is due to the fact that the school is new. I will say that the Trustees are very generous and willing to buy equipment with the funds they have to buy with. The class rooms did not provide any suitable

furniture to write on. Books were used for this purpose until the boys made some arms for the settees which were greatly appreciated by all. This year the pupils used \$40 of their money obtained from subscriptions to the Ladies' Home Journal to buy arm chairs for the class rooms. The Trustees put enough with this fund to buy fifteen chairs. The pupils take a great deal of pride in the appearance of their school as not one of the new chairs has been defaced in any way as yet.

SCHOOL ACTIVITIES

Last year the pupils purchased a victrola and cabinet that cost \$93. This money was raised by selling subscriptions to The Ladies' Home Journal, selling chocolate and presenting a minstrel show. The Seniors (1923) under the direction of Mrs. Weston and myself presented the play "Aaron Slick from Pumkin Crick" which was a credit to the class and the school I believe. This last fall the school held the best exhibit that has ever been held. It is the first time that the exhibit was ever held in the town hall and I hope that this will continue in the future. The Agricultural Club formed this year hopes to be a little county agent for Hancock farmers. Any one having problems of an Agricultural nature should consult the club, its service is free. Miss Barrett's cooking and sewing classes speak for themselves by the good work shown at the exhibit and the well prepared and served meals at the school house. The chemistry laboratory has been fitted up with individual desks well equipped with apparatus and hot and cold water. Any rural school would be proud to possess such a laboratory.

Our girls' basketball team coached by Miss Dwyer has won nearly all of their games by one sided scores. I believe that this team would make any team in New Hampshire exert themselves to win from Hancock. The boys have lost most of their games by one sided scores. Too much should not be expected from the boys as they are younger and inexperienced compared with the teams they have played. The spirit of the team is wonderful. They play like "champs" when losing. This year each pupil is required to address the student body for five minutes on some current topic. This gives the pupil training in public speaking. A new flag pole is ready to be set as soon as the ground will allow. I wish that the school might have a school nurse. We all realize the good the dental clinic has done and I do believe that a school nurse would do as well. There are pupils in our schools who are doing poor work and these pupils have adenoids, bad tonsils or defective vision. I believe that if these same pupils were attended to that their work would improve.

MUSIC

I am very sorry to have Mrs. Putnam leave the music department because she was liked by the teachers and pupils and she holds the interest of the school at heart.

Miss Malvern, the new music teacher from Keene Normal, is doing very creditable work. Miss Malvern hopes to present an operetta in the spring by the schools of Hancock.

GENERAL CONCLUSION

It pleases me much to have our graduates continue their education. The class of 1923 boasts of 100% of its class attending schools of higher learning.

I should like to see the school continue with its present teaching force of four teachers and not change to three next year. I believe the progress the school has shown in the last two years with four teachers justifies this desire and wish. The standards of the school have been raised with the present teaching force. The morale of the school is much better and I hope that this will continue in the years to come.

I extend a special invitation to parents and friends to visit the schools more often than they have in the past. This would give you a chance to see what the boys and girls are doing and would stimulate the pupils to do their best work.

I wish to thank the parents, friends, teachers, trustees, superintendent and the members of the school board for the loyal support given me in making Hancock High School a success.

Respectfully submitted,

GEORGE W. WESTON

Headmaster Hancock High School

REPORT OF SCHOOL BOARD

The report of Superintendent Prior covers the work done by the schools this year in a very thorough manner and leaves very little for us to say.

Our teachers have been far above the average of the teachers of the state in towns like Hancock while we pay more than the average in the state we think that the results prove the wisdom of doing so.

A test in spelling and arithmetic was sent out by the state board to all the 8 grades in the state, the average for the whole state in spelling was 67.42, Hancock was 86. In arithmetic the state was 49, Hancock was 79. The present year we have the following teachers:

Loretta Dwyer at \$1200.00; Nellie Welsh, \$1100.00; Marie Shea, \$900.00; Mildred Fogg, \$625.00; music, Beatrice Malvern, \$5.00 and expenses each day.
