SELECTMEN'S REPORT

This was the first year Hopkinton instituted two full time firemen to operate both fire stations and the ambulance service. We found that this was most beneficial. The vehicles and equipment need full time maintenance to keep them in operating condition and we have provided better ambulance service for our community and generally increased the efficiency of the department.

The 701 Study was completed this year. The Metcalf and Eddy report is now available to our citizens for their consideration. Hearings are being conducted on the proposed zoning ordinance presented by the 701 Study. The Town will be asked to vote on this ordinance at a date later this Spring.

Work on the Contoocook Fire Station was completed this year with the installation of a new roof on part of the station and exterior painting of the building and other needed repairs also were made. This was a much needed improvement.

In December we received a report from the N. H. Fire Underwriters relative to the Fire Department and the water system in the Contoocook Precinct. It was noted that many areas seemed to be deficient in the Fire Department and if changes and recommendations were not followed there could be a change in the fire insurance rate for the Contoocook area. Some of the recommendations were a new pumper and new ladder company for the Contoocook station and new equipment of various kinds for both stations. It was strongly recommended that a new fire station be built in Contoocook in an area of less congestion than the present location.

These and other recommendations do not have to be made immediately but plans should be made to eliminate these problems over the next few years. As a result of this report many positive steps have been taken. The pumper in the Hopkinton Station has been equipped with additional equipment and after examination by the Board of Underwriters, Hopkinton has been reclassified to an E2 insurance rating. In regard to the recommended ladder company, we were fortunate in that the City of Concord was offering a ladder truck for sale that was in fine condition for \$3,500 and rather than pass up the opportunity to purchase this the Board of Selectmen authorized the deposit to hold the truck for acceptance at our next Town meeting. The truck is housed in the Hopkinton station and hopefully we have saved the Town considerable expense as a new ladder truck would cost in the vicinity of \$60,000 and at the same time have satisfied another requirement of the Board of Underwriters.

Mr. Wayne L. Patenaude has most generously offered to give the Town a tract of land bounded by Kearsarge Avenue and Pine Street and the Contoocook River for the purpose of constructing a new fire station.

Our greatest problem as always has been the valuation of property in Hopkinton. It seeems that this is one of the most difficult tasks facing us or for that matter any assessing officials in the State. We consider assessing and re-assessing a continuing process. With the dollar being inflated at a fantastic rate

in the last few years we find that properties reflect this to a point where it may seem unreasonable. We have attempted to reconsider and reassess each piece of property each year. We realize that some areas may have been neglected or improperly assessed in a given period of time because of the nature of the situation. We have many parcels to be considered so naturally there does seem to be some room for human error and mistakes. We have entered in the warrant for 1972 an article to reassess the Town either by the State Tax Commission or an independent appraising organization. We do not accept or reject the idea but in fairness to all citizens and taxpayers and because of the magnitude of this problem and being only part time assessors, we feel it only fair and proper to offer the article for the Town's consideration.

The addition on the town hall has greatly added to the efficiency of town government as a whole. It has provided much more favorable working conditions for the Selectmen, Tax Collector, Police Department and other agencies of Town government.

We have found it necessary to include in the warrant for the Town's consideration \$80,000 for final planning for the sewerage abatement project for the Contoocook River. As we look to the future and the demands placed upon us by the Federal and State government, it seems that we must show some progress in this area. We hope that this project or a suitable alternative may be initiated in the near future.

Respectfully submitted,

Thomas H. Johnson, Jr. Chairman David A. Story Frank M. Kimball

Selectmen, Town of Hopkinton

POLICE DEPARTMENT

Your Police Department continued a program of preventive law enforcement, started in prior years, to attempt to minimize accidents and crime in Hopkinton. This Department will continue strict but fair enforcement of all criminal and motor vehicle laws, for the safety and protection of residents of Hopkinton, visitors and people passing through Hopkinton.

The illegal use, and abuse, of drugs, including alcohol, in Hopkinton is a major concern to this Department, as it should be to all citizens of Hopkinton. In 1969 we made 2 drug arrests, with 17 drug related investigations. In 1970 we made 8 drug arrests with 25 drug related investigations. In 1971 we made 7 drug arrests with 48 drug related investigations — almost twice the investigations as in 1970.

It is most important that the citizens of Hopkinton concern themsleves with the problems of youth and take an active part in helping to solve these problems. Parents of teen-agers can help particularly by knowing at all times where their youngsters are, who they are with and what they are doing. Parents and all residents can help to minimize the drug problem by supporting and cooperating with police and citizen groups working on the problems of drug abuse. Police, schools and other groups cannot, and should not have to do parents' jobs in educating and supervising their children. Parents must accept some of this responsibility.

The School Safety Patrol operated successfully for the fourth year under the direction of Mrs. Pertice Gaskill and Mrs. Dearborn Bailey.

Chief Hargrove and Officers Strickford and Jordan attended St. Anselms College in Manchester in the evening, on their own time, working toward their Associate Degree in Law Enforcement.

Your Police Department answered 3,430 calls and travelled 52,985 miles during 1971 in the town cruiser.

Burglaries in private homes and businesses is not just a problem in Hopkinton but is an ever growing problem in New Hampshire and the nation.

The above increase in burglary, plus many other reasons, is why this year, for 1972, I feel it is necessary to hire a third full-time police officer, to work the "3rd shift" when we have no one on duty. Because of the rapid growth in population and growth in business and industry, it has become impossible for two full-time police officers to cover 24 hours a day, 7 days a week.

The Governor's Commission on Crime and Delinquency also agrees this new man is necessary and has agreed to cover over 50 percent of the entire cost of this man for the first year.

In 1971 the Governor's Crime Commission funded completely \$750.00 for your Department to hire a police cadet for the school vacation. We hired, with the approval of the Selectmen, Wayne Peasley, a senior at Hopkinton High School, who worked with Chief Hargrove and Officer Jordan in all phases of police work, in the cruiser, with a police officer in the station doing

photography work, fingerprints, evidence work and work on the police records, including answering the police phone and dispatching over our radio system. While riding in the cruiser, he was exposed to accident investigation, criminal investigations, routine traffic work and everything else a police officer comes in contact with during his shift of duty. I feel this program was a great success, both to the Department, the Town and Wayne.

I will ask the Crime Commission to again fund this program this year, at no cost to Hopkinton.

Chief Hargrove and Officer Jordan were both given a chance to go to a week-long school, completely funded by the Crime Commission. Both accepted and found the advanced law enforcement training very beneficial to better serve our town.

Our thanks are again extended to the Selectmen and other town officials and to the residents, for helping us do our job.

Your Police Department extends its special appreciation to Ted Starkweather, Tom Johnson, Chief Salsbury and the members of the Fire Department for their valuable assistance with the ambulance at our accidents and other emergencies.

All residents should feel free to call this Department, on the police phone 746-4211, in case of any problem where the Department might be helpful, and for information on police matters.

James P. Hargrove Chief of Police

REPORT OF HOPKINTON FIRE DEPARTMENT

Last year we were at a low period for fires and alarms, and as we predicted, a rising trend has started again. We experienced 48 calls against 39 last year. Ambulance runs were down to 87 from 93, the first "down-trend" for the ambulance.

Again this year we co-sponsored with the Police Dept. a Little League Baseball team, and for the first time, also with the Police Dept., presented a scholarship at the High School. We are again sponsor of Cub Pack No. 77.

On the Fourth of July our annual celebration, parade and muster were held. Flag poles were purchased and installed at each station and flood-lighted for 24-hour viewing.

The Meadowbrook Fire School at Fitzwilliam was attended and for the first time, we sponsored a state-wide fire school in Contoocook at the High School and Park. It was generally agreed by all attending that it can become a fine school and it is planned to run it again next Fall.

Repairs to the Contoocook Station roof necessitated removal and relocation of our radio antenna. An 85 ft. pole was donated and placed at the rear of the station, and the antenna installed, giving a greatly improved reception and transmission.

We wish to thank everyone who attended this year's Thanksgiving benefit.

In May, Arthur Starkweather, Jr. and Thomas Johnson, Sr. were appointed permanent Fire Fighters, working Mon. through Fr. 8 a. m. to 5 p. m. They have been repairing and maintaining equipment and facilities. A new pump was purchased and installed in Tank 1. Dents were removed, compartments remodeled, a pre-connected line was installed for more efficiency. It was repainted red and white and placed back in service with its 1,000 gals. ready to roll.

Work benches and area were installed in the Hopkinton station, along with a new kitchen facility, the new stainless steel sink and gas range purchased by our Ladies' Auxiliary. This maintenance and new work by these men will make it possible to spend more time in training and practice.

It is our opinion that the presence of these men in the station to respond immediately has already saved property and lives that otherwise may have been lost or severely damaged.

Very stringent rules regarding ambulance personal training have been received from state and federal regulations and our ambulance crew will be undergoing many hours of classes and training on their own time, in addition to classes possibly at the Hanover and Concord Hospitals before Sept. to comply with these regulations.

In explanation of our mutual aid system: We belong to two groups. Henniker, Warner and Webster to our West and North, and the Capitol Area mutual aid to the South which includes Concord, Bow, Boscawen, Canterbury, Loudon and Pembroke. As many may not realize, the Hopkinton telephone system extends

into Warner to Pleasant Lake and Webster to Lake Winnepocket. When someone in these towns has an alarm we get the call and respond, in turn notifying that Dept. We receive the same consideration from the Concord Dept., as all the houses from Willoughby's Corner in Hopkinton to the Concord and Dunbarton lines and Beech Hill area are all in the Concord telephone system. When Concord receives an alarm from this area they roll a truck immediately and notify us. No one town can afford all the equipment it might need on a large alarm, so the mutual aid offers a good pool of equipment and manpower.

Leslie C. Townes Clerk

HOPKINTON PLANNING BOARD

The 701 Study Plan involving both the State and consultant Metcalf & Eddy has been completed and a proposed Zoning Plan has been submitted to the Board by the consultant.

This Zoning was reviewed in a preliminary hearing held January 18. As a result of the Citizens response and the Boards inability to distribute a sufficient number of copies of the proposed Zoning to the community at that time the Board voted at a meeting held January 15 to postpone further action until the public can be informed. Thus the final voting on the proposed zoning may be at a special Town Meeting held late Spring.

The Initial Housing Element Study has been completed by the Environmental Consulting Group and a final report has been received.

REPORT OF THE TOWN CONSERVATION COMMISSION FOR 1971

The Hopkinton Conservation Commission met ten times during the past year, directing major efforts toward acquisition of access sites along power lines and to the Blackwater River — without success, to date. Individual members also attended the following meetings: Blackwater River Committee at Andover relative to proposed New London sewage disposal plant; Town of Hopkinton Comprehensive Planning meetings; and Natural Areas Inventory meeting at Henniker.

Respectfully submitted, Dr. Bascom Johnson, Chairman Arland Bernier Walter Dwyer Allen Lewis Hilbert Siegler

CIVIL DEFENSE AUXILIARY POLICE RESCUE SQUAD

During the Year, 1971, your Rescue Squad had a total of 11 Actual Rescue Calls, and a few Stand By Calls. In these 11 calls a total of 36 injured persons were involved and 8 were transported by the Squad. There were Two Highly Commendable calls, one being: A removal of a person with a broken back from the woods at hight across a river, by use of the Squad's Boat. The second remarkable incident was the removal of a Truck Driver hauling liquid gas, who was crushed in cab. This involved much of the equipment contained in the Porto Power Kit.

This year your Rescue Truck has been completed, a few major pieces of equipment have been added, see list as follows: 11 Rescue Calls 36 Injured People 8 Victims were taken to the Concord Hospital in the Truck.

New Equipment
5 Air Splints (type used in Vietnam)
Half Orthopedic Back Board
Full Orthopedic Stretcher
1 Aluminum Extension Ladder

Ram and Accessories for the Porto Power

3 Fire Extinguishers

Miscellaneous Diving Equipment

It is hoped that this completely Voluntary Organization will have your support in the Up Comming Year, and Years to Come, as we all realize that at some time a member of our own family or a friend could need this organization. The Rescue Truck will be on display at the Town Meeting, for your viewing. Please stop by and look at it.

a/The Water Board has published increased rates to take effect January 1, 1972. The Board estimates 1972 revenues under these rates will be somewhat in excess of \$11,000.

b/Includes two \$3,000 principal payments on \$60,000 note issued in 1963.

c/Includes \$59.74 expended prior to January 1, 1971.

WATER DEPARTMENT HOPKINTON VILLAGE PRECINCT Joseph Ransmeier, Treasurer

REPORT OF WATER BOARD - HOPKINTON VILLAGE PRECINCT

Several extensions to existing mains were installed during 1971. One runs from the Wylie house on the East Main Street line to Erlon Salsbury's residence. Another extends from Lilac Lane to the Slusser Apartments in the old Baptist Church building. These added 5 new units to the system.

The south side of Main Street received a replacement line from the Precinct House to St. Andrew's parsonage. In connection with this line, several customers replaced service lines to their buildings. The old line was badly deteriorated. It has been very expensive to maintain in recent years, and it was so filled with corrosion that pressure to customers served by it was most unsatisfactory.

The R. E. Prescott Company of Exeter, New Hampshire completed its redesign and reconstruction of the pumping system which should greatly improve its dependability and extend the life of the facilities involved. We now have a standby pump and motor on hand, ready for installation in case of pumping failure.

Litigation with the R. H. White Company was concluded during the year. (See Financial Report.)

Expansion and improvements in the waterworks plant during the last few years has very substantially increased our annual expenses, including interest and debt service charges. A rate increase had become unavoidable if we were to continue to pay our bills. Therefore, a new point survey with respect to water-consuming devices on customers' premises was completed last fall and a new tariff was developed. Prospective revenues under the new rates, which became effective January 1, 1972 after a public hearing on December 28, 1971, should approximately cover our expenses. In order to hold the amount of the increase to a minimum, however, the Board included in them no allowance for any surplus to finance future capital improvements. The problem of completely financing a new main westward from the Village Square, which would replace the last of the mains inherited from the old Hopkinton Aqueduct Association and which is still in service remains troublesome.

Leland Wilder Richard Brunel Ralph Bennett

REPORT OF THE CONTOOCOOK FIRE PRECINCT

In 1971, the Precinct Commissioners can report several significant events which have had an important impact on the Precinct, particularly in the realm of the water system activities, which is the major area of activity.

Two important studies of the water system were performed. The first was the "Preliminary Study on Water System Improvements" conducted by Anderson-Nichols and Company, Inc., of Concord, New Hampshire under a planning grant advanced by the Community Facilities Administration of the U. S. Department of Housing and Urban Development (HUD).

In general, this engineering study recommended a program of improvements consisting of development of a gravel-packed well as a new source of supply; increasing storage reservoir capacity and water main replacement. The estimated cost of these improvements is \$976,000 and the program is recommended to be implemented in four phases with completion scheduled in the year 2,000. The initial step in the program is to be begun in 1972 with the groundwater exploration program.

The second survey was conducted by the New Hampshire Board of Underwriters. This survey covered the fire defenses of the Town of Hopkinton and investigated the Precinct's water system.

Several improvements were recommended, most important among which were improvement of adequacy and reliability by locating an additional source of water to provide adequate quantities for domestic consumption and fire flows; improved operation and inspection of valves; and that all hydrants be properly gated. The Commissioners have embarked on several programs to correct the deficiences outlined by the Underwriters.

The Precinct experienced substantial growth this year, with 12 new services installed. This growth rate is anticipated to continue in the years to come.

Mr. David Prohaska resigned from the Board Commissioners in September. Mr. Norman Greenly was appointed Commissioner for the unexpired term and Superintendent effective January 1, 1972.

Our sincere appreciation to all residents of the Precinct for their assistance, understanding and patience during the past year.

Respectfully submitted, PRECINCT COMMISSIONERS Richard A. Currier, Chairman Murray R. George

410 Salaries	\$2,000.	3,168.
490 Other	2,620.	3,075.

Reasons for change: 1. A reapportionment of the shares of the nurse's salary between the district and the town has increased the district's share. 2. A slight increase in the fee for physical examinations and a raise in the cost of service with the Concord Mental Health Center. The latter also contains a corresponding increase in time alloted Hopkinton.

Reasons for change: 1. Site - It is necessary to make repairs in the septic system at the High School. The sum listed will provide for work to be done during the summer. 2. Building - This sum of money will provide for one room of carpeting at the Harold Martin School. 3. New Equipment - A portion of the funds allocated will be to initiate a program in Electricity in the High School. Another new program will be a Resource Room at the Harold Martin School for which a sum is included. The balance of the category will be used to upgrade the quantity and quality of the equipment used in our present programs.

N. B. The revenue section shows a considerable decrease over this year. There are two primary reasons. One is that we do not have an estimated unencumbered balance that will be added later. Second, our State Building aid would normally be about \$19,500, but because of State budget cuts we will probably receive about 50% of that. Obviously, this would account for a sizeable portion of our revenue.

George A. Langewasser Chairman, Supervisory Union Board

Hopkinton School District REPORT OF ANNUAL SCHOOL MEETING March 9, 1971

The School Meeting was called to order at 8:55 A. M. March 9, 1971 by the Moderator, Richard A. Brunel at the Town Hall. An attested copy of the warrant was read by the Moderator.

After action on Article I the meeting was recessed to reconvene at 1:00 p. m. Saturday, March 13, 1971 at the Hopkinton High School Gymnasium to act upon Article II through IX.

At the above date, time and place, the meeting was reopened by Moderator Philip Dunlap, duly elected and qualified, by the balloting on March 9, 1971.

The Moderator read the warrant.

Article II

The Moderator recognized Luciele Gaskill who moved that Article II be passed over. Motion adopted.

Article III

The Moderator recognized David Prohaska who offered the following motion: I move that the district authorize the School Board to make application for and accept on behalf of the district any and all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire for the school year 1971-72.

The motion was adopted in the affirmative.

Article IV

The Moderator recognized Carol Proulx who offered the following motion:

I move that the district accept the report of agents, auditors and officers chosen as printed in the school report subject to errors or ommissions.

It was adopted in the affirmative after corrections on the report had been noted.

Article V

The Moderator recognized Harry Parker who offered the following motion: I move that the district raise and appropriate the sum of \$810,329. for the support of schools, payment of salaries of school district officials and agents and for the payment of statutory obligations of the district.

The Moderator recognized Lawrence Patz who offered the following amendment:

I move that the budget be increased by \$29,910 so that the article will provide an appropriation of \$840,239.

The amendment was adopted and the motion as amended was adopted.

Article VI

The Moderator recognized Malcolm Merrill who offered the following motion:

I move that the district authorize the school board to reorganize the Hopkinton Elementary School system so that all pupils in grades 1 and 2 will attend the Harold Martin School and all pupils in grades 3 through 6 will attend the Maple Street School and that the district raise and appropriate the sum of \$9,000 to provide additional transportation to support elementary school reorganization.

Andrew McEvoy asked for a written ballot. After a brief discussion the question was moved by Thelma McManus and seconded by Douglas Brown.

The results were 143 affirmative, 30 negative.

The motion was adopted in the affirmative.

Article VII

The Moderator recognized Richard Damelio who offered the following motion:

I move that the District appropriate 4,464. for the purpose of providing a driver education program in the High School - \$1,500 to be raised by taxation, and \$1,500 to be raised from special student tuition and \$1,464 to be raised from grants from Federal and/or State sources.

It was adopted in the affirmative.

Article VIII

The Moderator recognized Mary Merrill who offered the following motion:

I move that the district raise and appropriate the sum of \$2,000 as a contingency fund.

The motion was adopted in the affirmative.

Article IX

There being no other business to come before the meeting a motion was made to adjourn. Motion adopted.

The Moderator declared the meeting adjourned at 1:50 p. m.

Respectfully submitted: Clerk, Neola Crathern

Moderator, Philip Dunlap

SUPERINTENDENT OF SCHOOLS MESSAGE

There are a number of things I would like to discuss in this report to you that attest to the idea that it is our continuing desire to achieve a system of education that recognizes each child for his own worth, strives to provide for this recognition through varied methods of instruction and attempts to do so within reasonable economic bounds. Through the efforts of many people we are moving in this direction. The process of education is not an individual matter. It is one that requires a coordinated effort on the part of all members of the system wherein each one's peculiar talents can be utilized to their fullest for the benefit of the children, their school and community. Many of the programs to be discussed, although on the surface not seemingly related to the foregoing, do never-the-less have as their ultimate goal the strengthening of the system educationally as well as economically. The discussion that follows is not necessarily in any order of importance.

Accountability is becoming a byword in the economics of education. It is, perhaps, long overdue. As we approach the two million dollar mark in total budgets in Supervisory Union No. 24 it is becoming vital that we develop techniques whereby we know well where the educational tax dollar is going and whether or not it is reaching the goals we have set. Accountability in its strictest sense is rather sophisticated for small school districts that do not have access to the computer. Yet that is no excuse. We have begun to work with our staffs in developing their budget requests on the basis of the goals they desire to accomplish. In addition we are looking to them for evidence of long range planning in the development of their programs and for the ways in which these programs will be evaluated. Expenditures for teaching materials are now made by a modified program format so that we may readily identify amounts of money being spent in each subject area. This will lead us to the point whereby we may begin to relate the economic factors of our program to the educational results. This is not an easy task. However, we feel it to be most vital in assisting your school board members in interpreting their budget needs and school programs to you. At the same time it will lead us down the road to greater economic efficiency. In a day when education is going to have to compete with many other vital community needs this process is of high priority. Not simply to keep getting more dollars, but to use better what we have.

Continuing along the line of economics, a considerable amount of effort has been spent in some of our districts in trying to discover ways by which we may make better use of community resources in expanding our school programs. The rather traditional outlook that an education ought to take place solely in the school, and that it was the exclusive domain of the certified professional portrays a weak position. This is not to say that the teacher is no longer a vital person in the process, for most certainly he is and will continue to be, although the role will probably undergo some significant changes. The point to be made is that we have in all of our communities persons who have particular talents who,

on a part time, paid or unpaid basis could enrich the variety of educational experiences that could be made available to our students. Also, as space needs become known community facilities could become a reasonable alternative to expensive building programs. Currently, this is the object of study by the Henniker and Hillsboro Districts. For the smaller districts shared use of such facilities as libraries, town halls and the like along with talented residents may be one approach to providing an educational program that would help meet the requirements of the State Elementary Standards.

Before closing out on this theme I would like to make two proposals.

- 1. Each community develop a Human Resources Committee whose function would be to identify those residents who possess skills and a desire to share them, and to develop ways in which these talents might be used.
- 2. A committee should be developed composed of representatives of municipal and school departments for the purpose of sharing information and plans relative to fulfilling community needs now and in the future and to develop methods by which the available tax dollars may be used most effectively.

And finally these things are also happening to make for a better educational opportunity for each child:

- A course in how to individualize instruction sponsored by the Unionwide curriculum project - CAPE.
- Plans are now being developed through a joint committee school, college and community — to initiate a community services center to meet the numerous social needs of the residents in the area served by Supervisory Union No. 24.
- Initiation of individualized instruction and continuous progress programs in our schools wherein each child is recognized for his individual worth and appropriate methods of instruction used to meet his particular needs. Success is emphasized rather than failure.
- An advisory committee of teachers who meet monthly with me to discuss items of concern. This represents a small beginning at developing better lines of communication between the central office and those with whom we work.
- A project designed to use in a more effective manner the skill and experience of staff members in the instructional process. Commonly referred to as Differentiated Staffing, the gist of the project is to identify the various tasks a teacher has to perform, assign specific responsibilities and roles to each person and provide the environment wherein staff members can work as a team and benefit by what each has to offer. Two pilot programs will be initiated in Hopkinton commencing in September of 1972.

Each effort described in this report manifests our sincere desire to make the educational opportunity available to your children the best we possibly can. Despite all the fancy pronouncements we find in wordy philosophies of education, it still comes down to the desire to provide at a reasonable cost a sound and up to date system of education. I am blessed with many fine people

on my staffs and on the school boards in Union No. 24 who can make this happen.

With your support it will.

Respectfully submitted, Douglas H. Brown, Superintendent

REPORT OF HOPKINTON ELEMENTARY SCHOOLS

Malcolm A. Merrill, Principal

Whereas in years past I have devoted my report to brief discussions of programs needed, and proposals anticipated, this year I will make brief progress reports of two programs you voted in 1971, and provide some direction from this point.

Harold Martin School A Primary Levels Program

The Harold Martin School opened its doors in September of 1971 to 143 first and second grade children. Since that time pupils have been grouped into a language arts bloc for the morning session of school, eight levels of achievement have been established, and a program is in progress whereby a pupil may move from one level to the next by accomplishing given sets of skills. Pupil progress is reported via parent/teacher conferences, and by issuing to parents a periodic skills checklist type of written report. Even though we find it difficult not to relate a certain child to grade I or grade II, the grade concept has little meaning in this program. A pupil who transfers from the Martin School to the Maple Street School in June will have satisfactorily completed certain prescribed levels of instruction. In September he will continue into the next level of instruction, at a different school.

Program for Children with Specific Learning Disabilities

In my 1970 report, I stressed the need for a Learning Disabilities Program with a full time teacher-specialist.

This program is operative, with 30 children receiving either auditory-perceptual training, gross and fine motor training or a combination of these. Behavior modification and development of social skills are included, as well as a certain amount of remedial reading and math. Each child was tested at the beginning of the school year, and a training program has been established, based on the assessment of the child's needs. Classroom teachers play a vital role in the process, helping to individualize the child's program as well as consistantly reinforcing the behavior modification techniques and maintaining a direct line of communication with the learning disabilities teacher about the child's progress. Although the pupil progress is constantly being evaluated, post testing will take place before the close of school in June to help determine what types of changes children have undergone.

From Here to Where!

Although directed improvement in our elementary schools is a fact, we still have some curriculum needs which must be considered in years to come. We must continue to build our much improved library resources. While facilities,

especially at the Maple Street School, are excellent, books and related materials are still in short supply. Our budget request for 1971-72 (\$4.00 per pupil) should help to close this gap, and I anticipate a similar request for 1972-73.

The elementary music program needs a boost. Mr. John Brookfield provides two days a week of instruction in instrumental music, and Mrs. Wilson approximately 3½ days of Orff and/or vocal music. We still are unable to provide adequate music instruction on a once-a-week basis to all pupils. I feel that the elementary schools need one instructor, full time, to adequately handle the Orff-Kadaly Program grades 1-3, and a vocal instruction program Grades 4-6. All instrumental lessons could still be taught by an instructor working on a part-time basis. We are hoping to add at least part of one day of instruction in 1972-73.

Hopkinton Elementary Schools are still two years away from a physical education program for all pupils. Next year will be the second phase of a three phase proposal to place mobile table-bench units in the Maple Street cafeteria. Once we can effectively use the cafeteria for P. E. instruction, I will make my request for a program in health and physical education — complete with a qualified instructor.

We can be encouraged that the elementary education program for Hopkinton children is constantly improving. Frequently discouraging is the fact that progress seems so painfully slow. I sometimes wonder whether we are just treading water-attempting to stay afloat.

As of September, 1971, 30 members of the Class of 1971, 63.8%, have gone on to further their education – 42.5% at four-year institutions. Those continuing their education are attending the following institutions: University of New Hampshire, Plymouth State College, Keene State College, Colby College, Wheaton, St. Joseph College, (Vt.), St. Anselm's, New England College, Thompson School (UNH), Philadelphia School of Art, Daniel Webster Junior College, N. H. Vocational/Technical Institutes, St. Joseph Hospital (Manchester), and Concord Hospital School of Nursing. All of the remaining members of the class were gainfully employed.

There were three new additions to the staff this year. Miss Sharon Holt replaced Mrs. Carolyn Roberts who retired. Miss Holt graduated from Rutgers University with a Masters Degree in Library Science. Miss Jean Hall, a graduate of New Hampshire College, is the new Business Education teacher. Mrs. Janice Mellen, a graduate of Keene State College with two years experience is teaching science and mathematics.

We are in our second year using a rotating schedule. The students have found

this more acceptable than a schedule in which the same subject meets each day at the same time. We are still groping with the problems of scheduling to see if there aren't better ways of meeting student needs.

Since last summer, a group of teachers and administrators have been meeting regularly to study the concept of differentiated staffing. This concept differentiates into various roles the responsibilities of each individual teacher to allow for the different interests, abilities, and ambitions of teachers. Also, there is a differentiated salary based upon the extent of responsibilities assumed. It is hoped that a pilot program might be initiated at both the elementary and high school levels in September, 1972.

Other areas have also been receiving attention. Chief among these is what can be done to improve reading skills, particularly at the junior high level. It is our hope that a concerted effort will be made to work on this problem next year. Another area of concern is Industrial Arts. Numbers, particularly at the junior high level, would seem to indicate additional personnel. This could permit more exploratory offerings at the junior high level plus the possibility of additional high school offerings. Coupled with this is the desire to expand our work/study program which was started this year. Expansion of this program would require additional time to make on-the-job evaluations. Such supervision would appear to fall under the jurisdiction of the Industrial Arts Department.

At the same time, the various subject/matter areas are reviewing what has been done and what is being done in order to better meet the individual needs of students.

Mr. Douglas H. Brown Community Building School Street Hillsboro, New Hampshire 03244

Dear Mr. Brown:

Pursuant to the authority contained in RSA 194:23 and under the provisions of the Minimum Standards established by the State Board of Education on June 18, 1962, you are hereby notified that Hopkinton High School has been designated as a Comprehensive High School for the period of September 1, 1971, through June 30, 1972. This approval is granted for grades 7-12.

This approval status may change as a result of review; however, any change of status will not normally become effective until the next school year.

Sincerely yours, Newell J. Paire Commissioner of Education
