Fire Department Report

The Salisbury Volunteer Fire Department answered eighteen calls during the past year: six chimney fires; seven brush and grass fires; three fires in contents of homes with no great damage reported; one fire resulting in the loss of a room in a home; and one fire resulting in the loss of a cottage at Tucker Pond.

In the early spring of last year a ladies auxiliary of the local company was formed. The ladies have worked to raise money to go towards the finishing off of the upstairs section of the fire station.

Your support of and your interest in your local fire department is greatly appreciated. We are grateful to all townspeople who have proven to be very fire cautious and conscientious. Any new ideas or suggestions you may have to offer would be appreciated by your department.

Just another reminder — when reporting a fire PLEASE use the fire phone number, 8-2200. This will get you a quicker response as it puts our call system into quicker operation by using this number. Again many thanks for your support and cooperation.

Fire Chief

Report of the Forest Fire Warden

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump.
If you must burn rubbish or brush;
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 PM
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

Report of Superintendent of Schools

To the School Board and Citizens of Salisbury:

The Salisbury Elementary School opened in September with a large enrollment in the three upper grades. There have been additions since the opening day which may make it necessary to purchase additional seating to provide for everyone.

Large enrollments with two and three grade to a classroom make it very difficult for teachers and pupils to devote the necessary amount of time to all subject matter areas and to work most effectively in these areas.

For the same reasons it is impossible for each pupil to receive the individual attention and assistance so necessary for effective teaching and learning. our teachers are, nevertheless, doing effective work under these circumstances.

With Salisbury now officially a part of a cooperative school group it may soon be possible to assign no more than two grades to a classroom. This will reduce the number of pupils in each class and make possible much more effective educational activities in the school. It should also offer greater opportunities to those continuing their educational efforts in the new district.

It has been a pleasure to work with the Salisbury Board, and with others in the community who have indicated an interest in the future of our school children, and who have been willing to devote time and effort to help provide better educational opportunities for all pupils.
