The 1874 *New Hampshire Gazetteer* reports: “The surface of Washington is uneven and broken with hills, but the soil is deep, moist, and fertile, and when properly cultivated, produces fine crops. Clay of superior quality is found, also peat is plenty in the swamps. Washington village is pleasantly located. In this village are several stores, hotel, church, academy, post-office, hosiery manufactory, lumber mills, improved turbine water wheel, and several other small shops. At East Washington are two or three stores, church, school house, post-office, bobbin and rake manufactories, grist mill, lumber mills, blacksmith shop, etc.”

WHERE TO GET THINGS DONE:

Assessor's Card	Town Hall
Assessment Information	Assessors

** Appointed to fill position

***Deceased

If you wished to travel outside the town of Washington, the 1874 *New Hampshire Gazetteer* mentions that the stage goes "three times a week to Hillsborough Bridge station, twelve miles, on the Contoocook Valley Railroad. When completed, the Windsor and Forest Line Railroad, will pass through this town [Washington]. [Note: this railroad was never built, but as late as the 1890s, there was still hope and talk in Washington of a railroad coming here.]

**State of New Hampshire
TOWN WARRANT
2007**

To the inhabitants of the Town of Washington qualified to vote in Town affairs:

You are hereby notified to meet at Camp Morgan Lodge in said Washington on Tuesday, the thirteenth of March at nine o'clock in the forenoon. The polls will open at 10:00 a.m. and not close before 7:00 p.m. to elect Town Officers. The following articles will be acted upon:

ARTICLE 1. To elect by non partisan ballot a Town Treasurer and a Fire Chief for a term of one year, a member of the Planning Board for a term of two years, an Assessor, a Selectman, a Library Trustee, a Cemetery Trustee, a Trustee of the Trust Funds and two members of the Planning Board for three years.

ARTICLE 2. To hear reports of any and all officers, committees and agents of the Town and take any action in relation thereto.

ARTICLE 3. To see if the Town will go on record in support of effective actions by the President and the Congress to address the issue of climate change which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Washington.

These actions include:

1. Establishment of a national program requiring reductions of U.S. greenhouse gas emissions while protecting the U.S. economy.
2. Creation of a major national research initiative to foster rapid development of sustainable energy technologies thereby stimulating new jobs and investment.

In addition, the town of Washington encourages New Hampshire citizens to work for emission reductions within their communities, and we ask our Selectmen to consider the appointment of a voluntary energy committee to recommend local steps to save energy and reduce emissions.

[Petitioned Article]

ARTICLE 4. To see if the Town will vote to amend the Land Use Ordinance (changes in brackets) as follows: (Referendum Ballot)

A. #201.1 Area, Frontage, Depth, and Coverage

Lot area. Not less than two acres. [No area of wetland, as defined by RSA 482 A: 2 X, is to used to satisfy required acreage under the provisions of this ordinance. The minimum dry land (upland soil) area must be contiguous and sufficient in size and configuration to adequately accommodate all required utilities such as sewerage disposal, leach field, and water supply. All contiguous areas must have a minimum of 50 feet in length and width in order to be considered contiguous. All Structures and supporting utilities are prohibited

from being built on wetland. Setbacks from wetlands are the same as shoreline setbacks in paragraph #202 (Petitioned Article)

B. # 202 Setbacks (Add) septic fields must be setback a minimum of 35 feet from the road culverts and ditches.

C. #310 Cluster Development (3rd paragraph) Provision shall be made for common open space, at least 50% of which shall be usable e.g. with no slope greater than 25% and no wetland. All owners with deeded rights to the common land shall have access to said land.

D. #310 Cluster Development (4th paragraph) The total area of the parcel/development shall be 15 acres. The minimum lot size for each dwelling shall be one acre of usable land, e.g., with no slope greater than 25% and no wetland, with a minimum road frontage of 100 feet.

E. #310 Cluster Development (Add 5th paragraph) Not less than one acre shall be permitted provided that the common land is increased proportionally.

ARTICLE 5. To see if the town will vote to raise and appropriate the sum of Three Hundred Seventy Nine Thousand Four Hundred Five Dollars (\$379,405.00) to defray the costs of General Government for the ensuing year. This article is exclusive of all other warrant articles.

Executive	\$59,348.00
Election, Registration and Vital Statistics	19,281.00
Financial Administration	136,010.00
General Government Buildings	30,752.00
Legal	20,000.00
Planning & Zoning	9,193.00
Insurance	50,321.00
Motor Fuel	54,500.00

[This article is estimated to add \$1.46 to the tax rate in 2007.]

ARTICLE 6. To see if the Town will vote to raise and appropriate the sum of Twenty Three Thousand Dollars (\$23,000.00) for upgrading the Town's Accounting System and contract. This will be a non-lapsing appropriation per RSA 32: 7, VI and will not lapse until the system has been installed or by December 31, 2011 whichever is sooner. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.09 to the tax rate in 2007]

ARTICLE 7. To see if the Town will vote to raise and appropriate the sum of Ninety Nine Thousand Five Hundred Sixty Dollars (\$99,560.00) for the operation of the Police Department for the ensuing year.

Chief's Salary	\$44,578.00
Officers Payroll	15,545.00
Training Payroll Expense	300.00

Secretary Payroll Expense	3,494.00
Health Insurance	12,037.00
FICA	1,230.00
Medicare	934.00
Retirement	4,797.00
Telephone	2,500.00
Computer Expense	1,500.00
Animal Control	250.00
Dues	150.00
Clerical Supplies	1,000.00
Cruiser Maintenance	1,000.00
OHRV Expenses	250.00
Equipment	2,500.00
School /Training	300.00
Uniforms	1,500.00
Custodial	500.00
Electricity	1,400.00
Heat	2,600.00
Repairs & Maintenance	500.00
Alarm Maintenance	650.00
Extinguisher Service	45.00

[This article is estimated to add \$0.38 to the tax rate in 2007.]

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of Eight Thousand Dollars (\$8,000.00) to be added to the Police Cruiser Replacement Capital Reserve Fund previously established. The Selectmen recommend this appropriation.
[This article is estimated to add \$0.03 to the tax rate in 2007]

ARTICLE 9. To see if the Town will vote to raise and appropriate the sum of Three Hundred Seventy Nine Thousand One Hundred Sixteen Dollars (\$379,116.00) for operation of the Highway Department for the ensuing year.

Elected, Payroll	\$38,474.00
Elected, Overtime Payroll	6,384.00
Elected, Other, Vacation, Sick, Holiday	5,788.00
Payroll Expense	87,627.00
Part Time Payroll Expense	5,200.00
Overtime, Payroll	13,676.00
Other, Vacation, Sick, Holiday, Payroll	12,400.00
Health Insurance	60,800.00
FICA	10,189.00
Medicare	2,383.00
Retirement	12,770.00
Telephone	2,000.00

Drug and Alcohol Testing	300.00
Electricity	3,400.00
Heat and Oil	6,000.00
Alarm Maintenance	425.00
Fire Extinguisher Service	200.00
Rentals and Leases	4,500.00
Safety	1,000.00
Dues	800.00
Parts, Supplies and Equipment	33,000.00
Vehicle Maintenance	10,000.00
Road Maintenance Materials	40,000.00
Miscellaneous	600.00
Training	400.00
Uniforms	4,000.00
General Road Improvements	10,000.00
Emergency Supplies & Trucking	5,000.00
Street Lighting	1,800.00

[This article is estimated to add \$1.45 to the tax rate in 2007]

ARTICLE 10. To see if the Town will vote to accept and appropriate the Highway Block Grant Funds estimated to be Forty Seven Thousand Seven Hundred Sixty Eight Dollars (\$47,768.00) anticipated during 2007 for the use of the Highway Department for construction or reconstruction projects in addition to the regular maintenance budget. The Selectmen recommend this appropriation.

(Accepting the Block Grant Funds, using them to pay for regular road maintenance, and not expending them in addition to the regular highway budget, would reduce the tax rate in 2007 by an estimated \$0.18.)

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of Thirty Thousand Dollars (\$30,000.00) for construction or reconstruction projects in addition to the regular maintenance budget. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.11 to the tax rate in 2007]

ARTICLE 12. To see if the Town will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000.00) to be added to the Highway Equipment Capital Reserve Funds previously established. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.19 to the tax rate in 2007.]

ARTICLE 13. To see if the Town will Vote to raise and appropriate the sum of Thirty Thousand dollars (\$30,000.00) for the construction of Halfmoon Pond Road Bridge. This will be a non-lapsing appropriation per RSA 32: 7, VI and will not lapse until the project is completed or by December 31, 2011, whichever is sooner. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.11 to the tax rate in 2007]

ARTICLE 14. To see if the Town will vote pursuant to RSA 231:63; to require the highway agent, in addition to his regular duties, to have charge of, under the direction of the selectmen, collection of waste, refuse and garbage; public dumps; public beaches, public forests, public playgrounds; shade and ornamental trees and public buildings, and to have these duties fall under the title of The Town of Washington Department of Public Works.

ARTICLE 15. To see if the Town will vote pursuant to RSA 231: 64; to instruct its selectmen to appoint an Expert Highway Agent, who, under the direction of the selectmen, shall have the same power to perform the same duties as a highway agent elected by the town.

ARTICLE 16. To see if the town will vote to raise and appropriate the sum of Twenty Five Thousand Dollars (\$25,000.00) for the purpose of making crushed gravel for use by the Highway Department. The Selectmen recommend this appropriation.
[This article is estimated to add \$0.10 to the tax rate in 2007]

ARTICLE 17. To see if the Town will vote pursuant to RSA 231: 79; to designate the following roads as Highways to Summer Cottages, King Street, entire length of existing class V section; Ayers Pond Road from # 484 Ayers Pond Road to # 693 Ayers Pond Road; Lovell Mountain Road from the intersection of Sandy Knolls Road 1,400 feet to the class VI section; and to have the Town exempt from keeping open and repairing said highways from December 10 to April 10.

ARTICLE 18. To see if the Town will vote raise and appropriate the sum of Sixty Thousand Dollars (\$60,000.00) to improve King Street, Ayers Pond Road and Lovell Mountain Road for the purpose of regular maintenance by the highway department. The Selectmen recommend this appropriation.
This article is estimated to add \$0.23 to the tax rate in 2007.]

ARTICLE 19. To see if the Town will vote to raise and appropriate the sum of One Hundred Twenty Four Thousand Five Hundred Sixty Three Dollars (\$124,563.00) for the operation of the Solid Waste Recycling Center and for the Landfill Closure for the ensuing year.

Payroll Expense	\$26,870.00
Part Time Payroll Expense	7,500.00
Overtime Payroll Expense	1,000.00
Other, Sick, Holidays, Vacation	3,373.00
Health Insurance	12,100.00
FICA	2,340.00
Medicare	550.00
Retirement	2,430.00
Telephone	350.00

Electricity	1,000.00
Heat & Propane	350.00
Fire Extinguisher Service	100.00
Safety	500.00
Dues	100.00
Vehicle Maintenance	2,000.00
Miscellaneous	1,000.00
Training Expense	1,200.00
Uniforms	500.00
Transportation & Removal	43,000.00
Marlow Side Trash Removal	9,300.00
Landfill Closure	
Hazardous Waste Cleanup	\$7,000.00
Water Tests	2,000.00

[This article is estimated to add \$0.48 to the tax rate for 2007.]

ARTICLE 20. To see if the Town will vote to appropriate the sum of Twenty Eight Thousand Dollars (\$28,000.00) from the Recycling Fund for the purchase and installation of the trash compactor for the Transfer Station. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.00 to the tax rate in 2007]

ARTICLE 21. To see if the Town will appropriate the sum of Twenty Two Thousand Four Hundred Forty Five Dollars (\$22,445.00) to be added to the Health Insurance Reimbursable Account previously established. The Selectmen recommend this appropriation.

[This article is estimated to add \$0.08 to the tax rate in 2007.]

ARTICLE 22. To see if the Town will vote to raise and appropriate the sum of Seventy Nine Thousand Seven Hundred Ten Dollars (\$79,710.00) for the operation of the Rescue Squad and Fire Department for the ensuing year.

Rescue Squad	
Payroll	\$21,000.00

Selectmen, Washington, NH

A True Copy - Attest:

Guy L. Eaton

Thomas H Taylor

Richard E Cook
Selectmen, Washington, NH

I, Guy Eaton, hereby certify that true attested copies of this Warrant were posted as follows:

On the Camp Morgan Lodge on February 16, 2007 being the place of meeting,

On the Washington Town Hall on February 16, 2007 being a place of Public Notice; and

On the East Washington Bulletin Board on February 16, 2007 being a place of Public Notice.

Guy Eaton, Selectman

STATE OF NEW HAMPSHIRE

Sullivan, ss

The above named Selectmen, known to me, acknowledged and signed the above certification in my presence.

Michelle Dagesse

Notary Public

February 15, 2007

Binding decisions from previous meetings:

- 78-6: Mandates that Planning Board members be elected, rather than nominated as theretofore.
- 78-30: Authorizes the appointment of a deputy tax collector.
- 78-33: Names the various sections of the East Washington Cemetery.
- 78-34: Requires perpetual care on cemetery lots subsequently sold.
- 79-20: Establishes a five member Parks & Recreation Commission, appointed by the Selectmen.
- 79-23: Requires new untrained assessors to attend Department of Revenue Administration training during their first year in office.
- 80-11: Transfers to the Town responsibility for maintenance of the security light on the Marlow side of Ashuelot Pond.
- 80-14: Rooms at Shedd Free Library were dedicated to Preston E. Rolfe and to Zaida E. Cilley.
- 80-26: Continues the 1961 policy on selling real estate and surplus equipment, provided that the latter is advertised and the former was acquired by tax collector's deed.
- 81-21: Identifies the Camp Morgan camp-fire area as the Hubie Williams Campfire Site.
- 81-28: The town clerk's copy of the annual checklist is to be retained in the Archives.
- 82-18: Makes Town Meeting approval necessary before structurally altering Town buildings.
- 83-31: Leases three acres of land at Camp Morgan to Washington Youth Association for ninety nine years, but lease to terminate 6.30.86 if no construction has started.
- 84-27: Permits Washington to enter into an agreement with neighboring towns for mutual communication and dispatch services.
- 85-25: Prohibits parking in front of the Town buildings on the Common.
- 87-18: Prohibits consumption of alcohol on Town property.
- 87-27: Establishes a Capital Improvement Plan.
- 87-36: States that the Tax Collector will be paid an annual salary. (Previously a percentage of the tax income.)
- 89-24, 25: Covers tax exemptions for the elderly and the blind.
- 90R: Covers several tax exemptions for the use of certain types of energy and for veterans.
- 90-24: Establishes a Capital Reserve Fund for structures and equipment used in recycling Town Meeting to expend.
- 92-37: Permits the Selectmen to accept gifts to the Town, other than money, for any public purpose.
- 93-25: Makes the Rescue Squad part of the Fire Department, but with its own By-laws, etc.
- 94-5: Establishes a Health Insurance Reimbursement Account under the General Fund Trust Fund.

- 94-33: Permits the Library trustees to apply for, expend, etc., money from various sources.
- 94-34 Permits Selectmen to issue tax-anticipation notes.
- 95-36: Permits Selectmen to apply for, expend, etc., unanticipated money.
- 95-37: Permits Selectmen to dispose of surplus property other than real estate.
- 96-14: Establishes a Capital Reserve Fund for fire apparatus.
- 96-26: Permits Trustees to accept donations of personal property to the library.
- 96-35: Permits the Selectmen to convey Town real estate up to 10 acres.
- 99-6: Makes the position of selectman and police officer incompatible.
- 99-7: Establishes capital reserve fund for cruiser replacement.
- 00-12: Establishes Town forests.
- 00-26: Establishes capital reserve fund for Highway maintenance equipment.
- 01-12: Established the Rescue Squad Intercept Fund Reimbursement Account- Selectmen as agents to expend.
- 01-13: Established the Rescue Squad Reserve Fund- Selectmen as agents to expend.
- 02-B1: Established the Noise Ordinance.
- 02-B3: Established the Wireless Telecommunications Facilities Ordinance.
- 02-B4: Established the Impact Fee Ordinance.
- 02-6 Established the Capital Reserve Fund for Revolution- Selectmen to expend.
- 02-9: Established a Conservation Commission under the provision of RSA 36-A.
- 04-20: Revenue from the Land Use Change Tax to be deposited to the Conservation Fund.

An 1890 letter tells us that to take the train from Hillsborough Bridge to Boston via Hancock would cost \$2.45 (round trip - \$3.70). Should you take the train from Hillsborough Bridge to Boston via Concord and Nashua, it would cost \$2.50 (round trip \$4.60). The cost of the stage from Washington to Hillsborough Bridge was \$1.00.

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of Washington
Washington, New Hampshire

We have audited the accompanying financial statements of the Town of Washington as of and for the fiscal year ended December 31, 2006 as shown on pages 2 through 6. These financial statements are the responsibility of the Town of Washington's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Management has not implemented Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Therefore these financial statements are presented following the principles that were in effect prior to GASB Statement No. 34. Management has not presented government-wide financial statements to display the financial position and changes in financial position of its governmental activities and business-type activities. The financial statements presented do not contain separate statements for governmental and fiduciary fund types, nor are major and nonmajor funds separately identified and classified. The financial statements presented report expendable and nonexpendable trust funds, some of which should be reported as special revenue and permanent funds under the new reporting model. The financial statements also present a general long-term debt account group which should not be reported as such, but the information contained therein should be included in the government-wide financial statements were they presented. Also, the financial statements do not contain any information on capital assets because the government has not maintained historical cost records of such assets. Management has not presented a management's discussion and analysis as required. The amounts that would be reported in the missing statements and required supplementary information, and the effects of reclassifying and properly reporting the information presented are not reasonably determined.

In our opinion, because of the effects of the matters discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Town of Washington as of December 31, 2006, or the changes in its financial position or its cash flows, where applicable, for the year then ended.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Washington basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. For reasons stated in the third paragraph of this report, we expressed an opinion that the financial statements of the Town of Washington do not fairly present financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. Therefore, we do not express an opinion on the accompanying combining and individual fund schedules.

Driving horses in 1900 could be dangerous as this account of events in Washington from the October 19, 1900, issue of the Newport *Argus & Spectator* tells: "The teams of John Haselton and Everett Lord collided in a runaway last week, and the consequence was that Mr. Haselton was thrown from his carriage receiving several bad bruises and two broken ribs and Mr. Lord's carriage was badly damaged, the team running against the bandstand with such force that it was removed from its former foundations and considerably damaged."

Road machines were always big news in Washington. On March 14, 1935, the Washington column in the *Argus-Champion* reports: "Road machines are being placed on the Goshen road ready for work as soon as the frost is out and the first steam shovel ever in town is there ready for work."

TOTAL		\$452,271.77

Fires and fire prevention were frequently the talk of the town. On March 26, 1931, the *Argus-Champion* reports in its Washington news: "Mr. Tripp of the NH Forestry Department was in town Friday and after dinner at The Maples went to the Bassett [portable saw]mill to decide upon the best way to extinguish a fire which has been burning in the sawdust pile for over four weeks. It was found necessary to have the sawdust spread on snow, which will require quite a number of men and teams several days to do the work."

The Washington column in the *Argus-Champion* reported on July 18, 1935: "The C.C.C. [Civilian Conservation Corps] Camp boys have completed the waterhole back of the Town House and it is a first class job, and now with 45,000 gallons of water there and the town well being uncovered by the removal of the Lovell House annex and with the water that can be used from the Fowler swimming pool of 60,000 gallons capacity, the village now has better fire protection than any of the villages around us."

**Archives Committee
2006**

The Archives of the Town of Washington are located in the basement of the Shedd Free Library, where they house important town and school documents that are not currently in use in town or school offices. The humidity and temperature are controlled for the best preservation of the material. The Archives are open by appointment.

The Archives Committee answers inquiries sent to the town about genealogy or historical matters. On occasion town officials need information buried in old records sometimes legal questions need to be researched.

During 2006 the Archives Committee and Town Clerk applied for grant money for the preservation and repair of some old volumes of vital records. In January the Office of State Archives will assess the condition of our records and possibly grant money for restoring some of them.

It saddens us to record the loss of one of our committee members, Wendy Otterson. Wendy always had a love for Washington's past and enjoyed telling stories about it. Even though in recent years she was not able to navigate the stair to the Archives, she served as a valuable resource of knowledge for our committee. We will continue to miss her.

Ashuelot River Local Advisory Committee

Washington Lempster Marlow Gilsum Sullivan Surry Keene Swanzey
Winchester Hinsdale

2006 Annual Report

The Ashuelot River Local Advisory Committee (ARLAC) was established in 1994, one year after the Ashuelot River was enrolled into the State Rivers Management and Protection Program. Since then, members, nominated by local municipal officials and appointed by the Commissioner of the Department of Environmental Services (DES), have been educated in a broad array of issues associated with the River and its watershed. It is the hope of the committee to be a resource that works well between the interests and concerns of the citizens in the watershed and State authorities.

The volunteer Ashuelot River water quality monitoring program in conjunction with the DES Volunteer River Assessment Program (VRAP) continued for its sixth season. Ten sites were sampled along the River's 64-mile length, from Washington to Hinsdale with a new site added on the South Branch in Swanzey Center. Analyses were done for temperature, pH, total phosphorus, dissolved oxygen (DO), turbidity and conductivity, with the City of Keene donating lab services to check samples for cadmium, copper, lead and zinc. ARLAC members, working with community volunteers, participated in a spring training session, leading into a five-month effort of sampling once per month from May through September. E. coli samples were obtained monthly on Tuesdays in July, August and September. While most parameters test favorably, concern continues for high E.coli readings that occur in the River most notably south of Keene. July showed high readings in the South Branch. August showed the South Branch, Cresson, Hinsdale and Thompson Bridge sites all >460 colonies/100ml, Winchester <400. In Sept Cresson was 250 and the South Branch was down, noting that the September collection day was quite cold. In November, Stephen Stepenuck, presented ARLAC and monitor volunteers with a summary presentation of this year's sampling results. The 6 years of data are available online at <http://academics.keene.edu/pegglest/AshuelotRiver.htm> or <http://www.des.state.nh.us/wmb/VRAP/>. Also, the NH DES Biomonitoring program includes a site in the Ashuelot River in Gilsum that will help determine water quality by the macroinvertebrates found there.

A second water quality concern is the elevated phosphorus readings, again mostly south of Keene. This year ARLAC participated in the review of the National Pollutant Discharge Elimination System permits issued by the US Environmental Protection Agency for the Keene and West Swanzey wastewater treatment plants. The amount of phosphorus discharged by West Swanzey's plant will now be regulated. Phosphorus was also added to Keene's discharge limitations; however at the time of this report the amount of that limit was not finalized. Winchester was recently re-permitted under a general permit, did not have ARLAC review, and does not include phosphorus limits. Hinsdale's permit renewal is scheduled to occur this year and ARLAC anticipates participating in the review.

A regular task for ARLAC is to review and comment on state permit applications within the River corridor that may have potential impacts on the River. This year we submitted comments on projects proposed in Washington, Gilsum, Keene, Swanzey, Winchester, and Hinsdale. These included 3 site-specific applications, and 9 wetlands applications. The flooding from Oct. 2005 generated the need for many restoration and debris removal projects in the corridor, and ARLAC coordinated with the Natural Resource Conservation Service in reviewing projects under the Emergency Watershed Program. ARLAC continued to follow the legislation and rulemaking regarding sludge and septage, continuing to advocate for maintaining River corridor protection. Included was support of a bill to keep landfills outside of the 1500 foot river corridor. Also we offered comments to the NH Rivers Management Advisory Committee regarding improvements to the Comprehensive Shoreland Protection Act.

We continued participation as a member of the NH River Restoration Task Force and continue to support removal of the Homestead dam. Concerns regarding the stability of the Thompson Covered Bridge are being addressed but continue to delay dam removal plans.

With the assistance of the Southwest Region Planning Commission, ARLAC completed an update of the Ashuelot River Corridor Management Plan. We found many of the goals and recommendations remain current, but among the updates are information on the progress of the water quality monitoring and information on The Nature Conservancy's project in the Ashuelot Watershed. Copies of the plan can be viewed at each Town Hall of the River communities or online at <http://www.des.state.nh.us/rivers>. Efforts are under way to have each Town incorporate the updated plan in their Master Plan.

ARLAC's winter hike took place in Hinsdale and Winchester, using the rail trails that border the Connecticut and Ashuelot Rivers to obtain a new perspective on the river corridor. Visible from the Fort Hill line is the confluence of the Ashuelot with the Connecticut, and the Ashuelot line offers intermittent views of the river through a wooded corridor. Here one can also get a glimpse of the mill and railroad history along the river. While the rail trail offers a flat accessible walk, frequent rain and freezing last winter created a rather slippery surface for walking.

The Committee meets each month, on the third Tuesday evening in Keene. The Local Advisory Committee invites citizens and town officials to contact their local ARLAC representatives or the Southwest Region Planning Commission for more information.

Respectfully submitted,

Barbara Skuly, Chairman

2006 Membership: Bob Thompson, Washington; John Asseng – Marlow; Roger Sweet–Sullivan; Pablo Fleischmann – Gilsum; Malcolm MacDonald – Surry; Gary Pelton – US Army Corps of Engineers; Patrick Eggleston, Jim Holley -- Keene; Barbara Skuly, Stephen Stepenuck – Swanzey; Jim Ammann, John Stetser – Winchester; Barbara Fostyck – Hinsdale.

Board of Assessors

2006

The 2005 Revaluation is nearly complete. Two appeals remain with the Sullivan County Superior Court and four with the NH Board of Tax and Land Appeals. Our contract assessing firm, AVITAR, will be assisting us in defending the values for the properties involved. Abatement applications were filed on 6% of the properties. Of the 142 requests, 123 were granted. In addition, a large amount of map changes were brought to our attention during the revaluation process. Many of these changes require a significant amount of research before being turned over to our mapping company. Numerous hours have been spent this past year working on map improvements; we will continue in the coming year.

The first phase of the cyclical revaluation has started. This process involves on-site inspections of a portion of all parcels each year. One sixth of the properties were visited this year by AVITAR and property cards were updated to reflect changes.

This past summer, all three members completed the New Hampshire State Statutes course offered by NH Department of Revenue Administration and the NH Association of Assessing Officials. Much knowledge was gained from information given in the course itself, as well as from the interaction of all the participants. It was beneficial to hear how other towns handle similar situations.

The NH Department of Revenue Administration is in the process of conducting our first assessment review. James Gibney from the Department of Revenue Administration has been visiting properties verifying data. In addition, he has been doing spot checks in our office, checking our procedures and accuracy of information. We expect the results soon.

Current Use applications and lien releases, deed transfers, address changes, exemption updates, abatement applications, tax map updates, state reports, Intent to Cut applications, Report of Wood Cut forms, timber taxes, tax warrants in May and November, and Highland Haven Betterment warrant were completed as our normal duties.

The Board of Assessors is undergoing a restructuring process. Since the town hires a contract assessing firm, the Board's energies are being redirected toward decision making and property records maintenance. We expect a decrease in the number of working hours required of the Board; however, this will be a gradual process taking place over the next few years.

If you have any questions, we encourage you to call or visit our office during regular business hours on Thursdays between 9 AM – 2 PM, (603) 495-3074.

Respectfully submitted,
Algird Krygeris, Arline France, and Laurie Dube

**Cemetery Trustees
2006 Report**

First of all, it was a welcome relief to have Jim Gaskell elected to the Trustees. Jim has been a very active member, and with him on board a backlog of work has been done that one person just could not do alone.

Row markers were set, as well as lot corners. Spring bulbs donated by Trustees Lorrie and Jim have been planted in the Cremains Garden.

Several lots were sold, and several burials took place.

The restoration of the Old Cemetery has been completed. Louis Borey III and his family are the ones that have been keeping the cemeteries looking so nice. However, they find it necessary to raise their contract price, so the Trustees found it necessary to advertise for bids. And after many years of a flat, no increase appropriation the Trustees finally have to bite the bullet and ask for a budget increase.

If you have questions or concerns please contact one of the Trustees, they are the only ones that can help you.

Respectfully submitted,

Phil Barker, Chairman
Lorrie Killam
Jim Gaskell

Bianca MacIntyre

Conservation Commission

2006 Report

The past year has brought unprecedented interest in land conservation in Washington. Many landowners have contacted us about a possible conservation easement for their property. If you would like information about land protection options you may want to visit the Forest Society's website at www.forestsociety.org or contact a member of the Conservation Commission.

Much of our time this year has been spent working on the first Natural Resource Inventory for the Town of Washington. We would like to thank the Planning Board, Board of Selectmen, Washington Historical Society, the Washington Snowriders and many others for their input. We would also like to thank the many landowners who allowed our NRI consultant, Chris Kane, to visit their property. Draft maps were displayed in the Town Hall for several weeks to give townspeople a chance to participate. Important information about natural, historic and cultural resources is in the process of being mapped and described in detail. This will help the town to set priorities for conservation.

In October 13 brave participants joined us for a hike up Ayers Pond and Ulrich Roads in East Washington. We hiked through diverse woodlands and wetlands; a great example of an area with high-value natural resources and wildlife habitat in Washington. Hikers were pleased to be led to a series of beautiful boulder sculptures by artist David Phillips.

2006 was also the year of the release of NH Fish and Game's new Wildlife Action Plan. Much of the land in Washington is mapped as some of the most important wildlife habitat in New Hampshire. This information is included in the Natural Resource Inventory and confirms our thoughts that we have very important lands for conservation.

The Conservation Commission meets the third Wednesday of every month at 7:00 p.m. at the Town Hall. Please join us.

Help us to protect what's important to Washington- send your tax deductible donation to the town's conservation fund by mailing a check to the Conservation Commission, 7 Halfmoon Pond Road, Washington, NH 03280. Thank you!

Washington Volunteer Fire Department 2006

The Washington Volunteer Fire Department responded to 37 calls this past year which is a low to average number for our department. The seriousness of these calls however have increased.

A house fire on Bailey Road caused the home owner to be a victim of smoke inhalation with severe lung damage. Unfortunately his home and all of his belongings were a total loss.

Our second structure fire on Faxon Hill Road started with wires burning in the floor on the second story. We were able to contain the fire rapidly, as it was detected right away.

The third structure fire was located off of East Shore Drive, with only walking access to the building. This home is one of many residencies over the Stoddard line that Washington provides Fire and EMS services for because the only road access is from Washington. The owners of the property were home at the time of the fire, which started from the chimney and spread rapidly through the rafters. The home was fully involved when the Fire Department arrived on scene. The structure and all its contents were a total loss, fortunately there were no injuries.

We were able to utilize the D.A.R.T Helicopter in Washington for three separate calls this year. Twice for motorcycle accidents on North Main Street and for a boating accident on Highland Lake.

When ever the Fire or Rescue responds to a call there is the potential for the call to be hazardous and/or dangerous. With that said it has always been our commitment to Safety 1st that the members uphold, to get us through another year safely.

We were very lucky to have 2 new members, Jeff Iadonisi and Scott Dumeny, complete the certified Fire Fighter course at the New Hampshire Fire Academy. Other members took the opportunity to go to the Meadow Wood training facility to learn skills ranging from rapid intervention to ice rescue and SCBA. As a whole the department really excelled this year at training!

I would like to take this time to remind everyone to have their "911" address clearly marked from both directions, with 3 inch reflective numbers. Check your smoke and carbon monoxide detectors annually along with your heating systems. This year has proven to be very rewarding for both the members and I.

We look forward to our new truck being put in service and continuing to train regularly with all the different aspects of being a Fire Fighter.

It is my pleasure and honor to be your Fire Chief, please know I could not complete this task with out the help of all my Officers, Fire Fighters, Rescue Personal, Police Officers and Auxiliary. And to my family and friends who stand beside me and understand the commitment that this job takes. My heart felt thanks to you all.

Respectfully Submitted,

John R. Eccard, Fire Chief

TOWN FOREST FIRE REPORT 2006

Once again we had the start of a very dry April with extreme (class 5) fire danger. But as things were starting to get bad, Mother Nature quenched the grounds thirst and then some. From that point on the fire danger remained low for almost 2 months straight and never reached high danger until August.

We had a total of 18 non permit fires which has us on a downward trend from the past 3 years, and only 2 official warnings, of which one was during April's extreme fire danger.

Starting 2007 ALL fires will need to be inspected and given a category number under new state rules and regulations, no exceptions. Your Warden and Deputy Wardens will be going through training to help make this a smooth transaction from old to new permits. Warden and Deputy Wardens will also be going through evaluations of training, classes, and attendance to state meetings at state and local levels.

Please remember permits are required for all outside fires, including all portable fire places, chimeneas, steel fire pits, and any other device designed to burn permissible combustibles other than gas or charcoal, even while raining, unless there is adequate snow cover.

REPORT OF FOREST FIRE WARDEN AND STATE FOREST RANGER 2006

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L: 17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdfl.org.

Fire activity was very high during the first several weeks of the 2006 fire season, with red-flag conditions issued by the National Weather Service and extreme fire danger in many sections of the state. The largest forest fire during this period occurred in late April and burned 98 acres. The extremely dry conditions in spring resulted in over twice the amount of acreage burned than in all of 2005. Our statewide system of fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Fires in the wildland urban interface damaged 6 structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey the Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

2006 FIRE STATISTICS

**Washington Forestry Committee
2006**

The Forestry Committee had a quiet year this year. We continue to have many visitors to the Camp Morgan Trail, which has been well kept up by Steve Hanssen and Tom Taylor. We conducted a reconnaissance of the Huntley Lot in preparation for survey work and investigated the cost of survey. In order to move forward with the Town Forest Management Plan, survey work must be conducted on a number of property lines in order to ensure that we know where the boundaries of the Town Forest properties are. We hope to move forward with this project this spring.

Thinking of doing a timber harvest, or a thinning, on your land? Contact a member of the Forestry Committee first. We'd love to help give you any advice you might need on how to start the process, applicable laws, and on how to get the most out

of your land. We meet on the 2nd Tuesday of every other month, or whenever there is business to conduct.

Respectfully Submitted,

Aileen Chute
Chair, Washington Forestry Committee

HEALTH OFFICERS REPORT 2006

To the Residents of Washington:

This past year has been a very enjoyable time and very educational also. As your new health officer there was much to learn and like life, learning continues.

Early spring brought on the start of planning for a pandemic epidemic. The town has become a Point of Distribution; with Camp Morgan as the focal point should we have any outbreaks. Monthly meetings have been held through the year and expenditures have been refunded to the town by funds from a grant from Homeland Security.

Soon after the snows of winter left, there were many septic problems that needed attention. These included failed systems, open systems, lack of silt barriers by contractors, and improper installation of systems. These problems continued through the summer and into the fall. I would like to thank the Department of Environmental Services for their guidance and sincere help with these problems.

Spring also brought another rainstorm, not as bad as last October, but enough water to require assistance from our local volunteers, and various departments.

Other activities included: Inspection of properties with miscellaneous problems; Inspections of homes wishing to adopt or have child care; Meeting with the senior group with a speaker on Emergency Preparedness; A fall flu clinic, with 51 people receiving shots; and Posting of town beach areas for e-Coli during the summer,

Lastly, I would like to thank the Selectmen, The Highway Department, The Fire and Rescue and The Police Department for their continuing help and assistance during the year. It is people like these that make a job more enjoyable.

Most of all I wish to thank the people of Washington for their support and encouragement throughout the year. If you have any questions or concerns, please feel free to contact me.

Respectively Submitted
James E. Berry
Healthofficer@washingtonnh.org

2006 Highway Department Annual Report

2006 proved to be another busy year for the highway department. Several projects were completed and others are in the works for next year.

Our major project for the year was finishing the reconstruction of a mile of Lempster Mountain road. We had reclaimed the existing pavement the year before and replaced some of the drainage structures. This year we focused on the rest of the culvert replacements and rebuilding the sub base. Rocks were pulled and replaced with crushed gravel. The ditches were cleaned and re shaped for better drainage. We paved the road with 3' of cold mix asphalt and rolled. Shimming the shoulders with gravel to stabilize the edges of the new asphalt finished the project. We would like to complete the last one-mile section of road reconstruction in 2007 by using the same process.

Through a grant from the Office of Emergency Management, the department was able to clear several hazardous trees and limbs from the East Washington Road. We rented a 52 foot arial bucket truck to remove limbs that were beyond our reach from the ground. Many dead or diseased trees were cut to eliminate their potential from blocking roadways should they fall during a wind or ice storm. The department cleaned all the brush with the towns brush chipper and delivered chips to many residences in Washington.

The Town took delivery of the new backhoe in July this year. We purchased a rental unit with low hours and were able to save a substantial amount of money from the original purchase estimates. We also purchased an extended hydraulic and drive train warranty for

the machine to further protect our investment. The new backhoe had some minor problems initially but the dealer support was excellent and all items were fixed at no cost to the town.

We will be asking the town to put money aside in the highway equipment capitol reserve fund for the department's road grader replacement that is scheduled for March 2009. Our current grader will be 16 years old then and in need of replacement. These machines are very expensive and by setting money aside now we can reduce the overall impact to the tax rate in the future.

Road projects are becoming increasingly difficult to complete with the money that our town has been appropriating on an annual basis. The raw cost of asphalt products, a derivative of petroleum, has increased in the last 2 years by over 100%. To try and mitigate these increases, I believe oil or chip sealing some of our existing paved roads can prolong their effective life and reduce maintenance costs and the need for total reconstruction. We are asking for additional money in this years warrant specifically for this purpose.

All remaining repair work has been completed from the October 2005 floods. The total money spent to reconstruct or repair our roads and bridges was \$98,000.00 dollars. Of this we received a reimbursement from FEMA and the State of New Hampshire for \$83,206.00. Some of the reimbursement was set aside for culvert replacements on Lovell Mtn. Road, Halfmoon pond Rd. and Bailey Rd. These roads received more severe damage from culverts that are undersized and in need of replacement.

Through funds provided by a grant from the Washington Snowriders Club, A portion of Class VI fire lane was improved for access for the Fire Department and others on Ayers Pond Road in East Washington. This section of road was previously impossible to get the fire departments forestry truck through. By ditching and adding stone to the roadbed we were able to improve access for all.

I would like to thank the Townspeople and employees for their continued support of their highway department.

Respectfully Submitted,

Edward G. Thayer

HISTORICAL SOCIETY TRUST FUNDS-- 2006

In 1989 a charitable trust, known as the Old District #5 School House Trust, was registered by the Board of Directors of the Washington Historical Society with the Attorney General of the State of New Hampshire, pursuant to RSA 7:19. The interest from this trust is to be used for the repair and maintenance of the old school buildings in East Washington. This fund is invested in a Certificate of Deposit, whose value at the beginning of the year, as reported in last year's Town Report, was \$2523.42. No funds from this account were expended during the year 2005-2006. The Certificate earned a total of \$62.13 in interest during the year and the total in the fund at the end of the year 2006 was \$2585.55. The CD will mature in May, 2007.

In 1991 a bequest was made to the Town of Washington, in the will of Edna M. Gage, the interest from which was designated to be used for the maintenance of the exterior of the Old District #5 School House in East Washington. The money has been invested in a Certificate of Deposit, called the Gage Fund, with a principal value of \$3500, as reported in last year's Town Report. When this Certificate matured in June, the accumulated interest of \$112.59 was transferred to the Museum's checking account and used to defray expenses incurred in repairing the roof. The principal of \$3500 was reinvested in a special 11-month 4% CD which will mature in May, 2007.

Respectfully submitted,
Thomas E. Talpey, Treasurer

**Lake Sunapee Region Visiting Nurse Association
Annual Report 2006**

Dear Friends,

When you speak to patients' families, no matter what the age, the desire to have the family unit together with the support of community friends and neighbors is key to their sense of well-being. The number one need/concern of seniors according to a 2003 AARP study is how to live in their own home and their own community for as long as possible. Eighty-three percent want to stay in their existing home as long as possible and recognize that they may need to make some changes in order to do so.

The population in New Hampshire is expected to grow 29% between now and 2020. The NH population 65 years and over will grow 177% from 163,615 to 332, 178 during that time. Friends and family members provide eighty percent of all long term care at home.

All of these changes will have substantial impact on our community in terms of needed social and economic resources. A vital community depends on a variety of resources to meet the needs of its residents. Town leadership depends on the quality and commitment of community-based organizations to support physical, emotional, social and financial "health" in the town.

Since its founding in 1970, Lake Sunapee Region VNA has evolved to meet the needs of the community. Our mission is to provide home health, hospice, personal support, health promotion and other non-medical services that encourage independence and preserve dignity for people of all ages. This year was no exception.

Lake Sunapee Region VNA invested in education to ensure competency of staff in pediatrics, hospice and palliative care, wound care and more. A number of staff became certified in specialty areas in order to ensure that the latest advances in health care are available to you at home. We continue to acquire the necessary medical and information technology to support excellence in care. LSRVNA consistently ranks above the 95th percentile in patient satisfaction, and meets or exceeds state and national standards for patient outcomes. In October 2006, Outcome Concept Systems ranked Lake Sunapee Region VNA in the top 25% of home care agencies nationally based on publicly available data.

When you choose Lake Sunapee Region VNA for your home health and hospice care, you can feel comfortable knowing that among the more than 120 staff and 70 active volunteers, many are your neighbors and friends who stand ready to care for you 24 hours a day, 7 days a week. Almost 30% of the staff has been with us for over 15 years, with six years being the average length of employment. Sixty-three percent live within the Kearsarge, Sunapee or Newport area. Every staff person undergoes reference and background checks, extensive orientation and training. Every employee is fully covered by liability insurance. We know that these kinds of standards are important to you when you choose a provider.

Think about your family, friends and neighbors and what home health and hospice care might mean to them.

Think of the woman who suffered from a rare neurological disorder for the last 10 years of her life. After falling in love in high school and 50 years of marriage, her husband was determined to care for her at home. After he experienced some health problems, he realized he would need help. LSRVNA physical therapists helped him get back to good health. Physical therapists, nurses and home health aides helped this patient

to “make the best possible use of her continuing more limited abilities.” “The aides were so capable and loving that my wife felt like they were a part of the family. Finally, hospice care became a reality. Hospice “made it possible for my wife to be comfortable at home surrounded by our family.”

Think of the young couple bringing home their first born infant who needed to be closely monitored for newborn jaundice and breathing issues. “Bringing home our newborn was exciting and overwhelming.” The Lake Sunapee Region VNA nurse came to our home several times to check on our son’s feeding, weight, and breathing and on my progress...all in the comfort of our own living room. The care we received made the transition from hospital to our home much more manageable.”

Think of the teenager whose life changed forever when he was struck by an automobile and sustained life threatening injuries. The family was insistent on bringing their child home rather than having him enter a rehab facility. Unable to walk, speak, eat, or use his arms, this child needed nursing care, physical and occupational therapy. His parents believe that their son is doing well- or better- at home than he could ever have done in a facility away from the support of his family, friends and community. Miracles do happen and this young man said grace at his family dinner on Thanksgiving.

The Lake Sunapee Region VNA volunteer Board of Trustees and staff plans for the future using information gathered from all of you in the community. As we look to that future, we are grateful for the support of our member towns, businesses, service organizations and individuals who value our work and our mission. Our planning focuses on achieving operating efficiencies, expanding revenues sources, and collaborating with local and regional organizations to implement programs and services that will support town residents; in short, to help strengthen the rich tapestry of services and support that makes your community special to you.

More than 35 residents of Washington utilized home care services and programs through Lake Sunapee Region VNA during the past year. Home care patients received 428 visits. Hospice patients received ninety-two days of service and 21 volunteer visits; and four families received bereavement services. Daily Lifeline personal emergency response and telehomecare health status monitoring services were provided for 7 residents.

Thank you for the opportunity to care for residents of the Washington community. We renew our commitment to you to provide the quality home health and hospice services you expect with the caring, respect and compassion you deserve.

Sincerely,
Andrea Steel
President and CEO

The 2006 Camp Morgan Summer Youth Program began on July 10 and continued for a full six weeks ending August 18. This year we had a total of 120 registered Campers, 24 Staff members and 3 Volunteers. Although we experienced a large amount of rain, we were able to spend a great deal of time outdoors and everyone had a wonderful summer! We ended the summer with 100 people attending a trip to Water Country in Portsmouth, NH. Thank you to all of our residents, taxpayers, chaperones, parents and everyone else who made our Camp experience so great! A special thank you goes out to the Rudert family for donating their Sunfish to our Camp. The Camper's will enjoy the use of this sailboat for many years!

The annual Easter Egg Hunt was held once again at the Town Hall, with over 40 children attending. Everyone enjoyed this community building event. We again held an Outdoor Movie Night behind the Town Common, with more than 60 people. This is the second year that we have put on such an event and the interest is increasing. We are always open to new ideas for activities and events. We also contributed funds once again to the Senior trips.

We are fortunate to have added two new members to our Commission. Dawn Bilski and Lorrie Killam are very active with the School and other programs around town and they have signed on with us as alternate board members.

Respectfully,
Guy Eaton, Chairman
Steve Hanssen
Jenn Murdough
Larry L'Hommedieu
Ken Eastman
Dawn Bilski
Lorrie Killam

PATRIOTIC PURPOSES

The American Legion Post #59 of Hillsboro, NH once again was able to provide a Memorial Day Service on the Town Common. Flags are annually placed at the Monument and on the graves of Veterans along with flag holders for the newly departed comrades. Five new American flags and State of New Hampshire flags were provided for the Town Common and the Washington Elementary School.

Respectfully submitted,
Patriotic Purposes Committee

Travis Petrie

PLANNING BOARD ANNUAL REPORT FOR 2006

At the Town Meeting in March, William Rhoades was elected to the Planning Board for a three year term. He replaced Tom Talpey who had faithfully served the Town for many years. In October Marvin Jager's term as an alternate on the Planning Board expired. He chose not to be reappointed and was replaced by Dennis Kelly. In December the Board

received the resignation of William Rhoades. Mr. Rhodes resigned because he felt he was unable to give his full attention to the Board due to unanticipated business pressures.

A Public Hearing was held in January to discuss changes in the Land Use Ordinance. The Planning Board proposal to adopt the International Residential Building Code was strongly opposed by those attending the Hearing.

Preliminary discussions were held on three major subdivisions and four minor subdivisions. Public Hearings were held on two major subdivisions. One major subdivision was approved and the other was tabled pending the applicant complying with Town ordinance requirements and restrictions. Three minor subdivisions were also approved.

During the year the Planning Board approved 18 driveway permits, 6 lot mergers, 1 annexation, 1 business permit, and 1 lot line adjustment.

A Municipal Building and Space Needs Task Force was appointed to investigate the long term space requirement of the different town departments, boards and commissions. Their recommendation should be available sometime in 2007.

During the year three board members attended joint meetings of area planning boards; two members attended the State Planning Conference. The sub district comprising area towns was surveyed in regards to Town Building Codes and code enforcement. The majority of the towns in our sub district have both.

The Master Plan was approved after a Public Hearing. The Natural Resource Inventory will be added to the Master Plan as an Appendix when it is completed in the near future.

The Capital Improvement Plan was up-dated pursuant to State Law and presented to the Board of Selectmen to aid in the preparation of the annual budget. Copies available at Town Hall.

Respectfully submitted,
Jack Sheehy, Chairman
Linda Cook, Vice Chairman
Charles Fields, Secretary
William Rhoades, Member
Tom Taylor, Ex-Officio

Annual Report of the Washington Police Department

495-3294 police@washingtongh.org www.washingtongh.org/Police.html

It's hard to believe that I'm sitting here writing my 8th annual report to the town. What a privilege and honor it has been to serve as your police chief all these years. Part of that honor is because of the men and women that I serve with.

In response to the feedback from citizens that the Board of Selectmen and I have received, 2 more officers were added to our rolls this year. Ofcs. Derek Brown and Mark Philibert joined us in the late summer. They are both experienced officers, working full-time for the Hillsboro Police Department. I have been fortunate to have a very good working relationship with Chief Brown and Lt. Roarick that have allowed the Washington Police to benefit from the experience and equipment opportunities afforded by the Hillsboro Police.

They join our longstanding members, Ofc. Aaron Smith and of course Ofc. Brian Moser in providing nearly 90 hours of patrol services a week to the Town. JJ Campbell continues with us to run the office, do all our data entry and make sure that the proper reports are filed with the State and Federal agencies. Cindy Turner serves as the volunteer Animal Control Officer, and saved the community several hundred dollars by housing strays in a kennel at her home and working diligently at finding owners of lost dogs. If we did not have that resource we would be driving many miles to the shelter in Swanzey and paying large fees to the Humane Society.

We always brag about the quality of the people we serve. However, the quality did not shine any brighter than that tragic day in October when Ofc. Michael Briggs of the Manchester Police was killed for merely doing his job. We were very heartened by the personal comments, e-mails and notes we got consoling us for the loss and thanking us for what we do. We don't do this job for the awards and the accolades, but it is nice to get the recognition that you give us.

So what have we done in 2006? The answer is as varied as the number of people in the community. Following this report are the statistics of the work and type of calls we do. This report is written in late November, so I can't tell you what the final numbers will be. However, I can report that the types of calls we have been handling are changing with the increasing number of residents in town. We deal with more property and neighborhood disputes than we have before. There are also more "service" type calls. We have issued more pistol and burn permits than in years past, as well as taken more vacant house check requests than when I first got here.

Traffic concerns still top the list of complaints we handle. Because of the number of requests for radar patrols residents have submitted, I was given authorization to hire two additional police officers to try and do more traffic enforcement. One existing officer resigned for family health reasons, so we have a net gain of 1. Through the end of October the numbers of stops, warnings, and summonses have already exceeded the total for 2005. The added enforcement appears to have a positive effect. The number of crashes to date has been less than half of last year's number (of course we have not had any snow yet so that number may change slightly!)

In order to be as efficient as we can for the town, and to get more visibility, we have tried to make as much use of grant funding as we can. We received 2 grants from the NH Highway Safety Agency for 60 hours each of radar enforcement and DWI patrols. We also have added visibility in the Valley Rd. and LAE areas with the ATV Enforcement grant from NH Fish & Game.

While the rest of the area was dealing with flooding over the Mother's Day weekend, we came out fairly unscathed. During that weekend 10 of our mature citizens and neighbors from other communities braved the rain and came to Washington to attend a Mature Drivers Course that the police department sponsored and put on by AAA. The comments I got back were all positive.

In August, Ofc. Smith was sent to Orlando, FL. To be trained on our new night vision equipment. The equipment, his travel, and training were all paid for by grants from the federal government after a grant application I submitted was approved. The night vision enhances the thermal imaging gear we got last year to help us with officer safety, search and rescue and fugitive apprehension.

The fall found us working on some minor burglaries where some cottages were entered, but no serious thefts took place. We did have one larger burglary from a house, that was solved and the property recovered before the victim even knew they had been broken in

to. I encourage citizens to make use of the Vacant House Checks when they go away for the season. You can download the form from the web site.

Once school opened we continued with our Student of the Month program. We continue to have such a good response to that program. The residents have always been so generous to sponsor the program. I sent out one call via my newsletter, and there are more volunteers than I can use. You have been so generous that I have sponsorships filled all the way to January, 2008.

In November, working with Emergency Manager Ed Thayer, Fire Chief John Eccard and Head Teacher Suzanne Lull, we ran an emergency drill at the school. The drill went off very well and the students and staff showed they had trained well and paid attention to the plan. It was quite obvious that your children are very safe in our school.

Members of the Department were involved in several regional programs throughout the year. I served as staff member for my 20th year at the NH Police Cadet Training Academy. Ofcs. Moser & Smith, and WACO Turner assisted by teaching classes and being actors in scenarios. We have a member on the regional SWAT team, and members serve with the Sullivan County Alcohol Enforcement Task Force. We were also requested by area towns to assist with our night vision and thermal imaging for searches and locating fugitives.

You can always keep up with the activities of the Department and community by checking the Department web site and going to the Activity Log page. JJ compiles a press release of the week's calls and it is posted on the page. There are 3 months worth of entries always posted. You can also subscribe to the Police Chief's E-Newsletter for periodic updates of items of interest to keep you safe and some interesting town notes. Go to the subscription link on the Department web site.

I could not complete my report without extending my thanks and admiration to the other members of the town agencies we serve with. I do not think that the community understands how closely all the field responders work together. Although each has specific tasks by definition, when a job needs to be done, we work together and get it done. You could find an EMT pulling hose at a fire scene, firefighter directing traffic at a crash, police officer running a wing on a plow or a highway truck driver helping carry a patient to the ambulance. My thanks and admiration goes to all the professionals of Fire, Highway and Rescue who come to our aid so often and so selflessly.

To close, let me share with you the most favorite part of my job. In my 23 years in this career I have gotten to do some very amazing things. While I have to say the privileges that the teachers and parents give me at the school are not to be compared with any task I have, the best part of my job I do alone. It has become my role to change the flags on the flagpole when they start to become tattered. I do not possess the vocabulary to properly describe the pride I have of raising a brand new United States flag over the Common on a bright sunny day.

I am very grateful for the love and encouragement of my grandson, daughters, son-in-law and wife, the dedication of my employees, and the support of my employers. That all comes to a very proud fruition when I am alone raising that flag. I thank you all for allowing me to continue to serve as your police chief.

We are a very approachable group. If you have any questions, suggestions of how we can better serve you or make our operation more efficient for the taxpayers please wave the cruiser over, stop in, call or e-mail. If you are interested in a ride-along to observe what we do and how we do it (this is not TV COPS ©) please set it up with me.

I wish you all the best for safety, health and happiness for 2007. For Brian, Aaron, Mark, Derek, Cindy and JJ,

Respectfully,

Steven I. Marshall
Chief of Police, EMT-I

Dylan Zubrzycki

2006 Washington Transfer Station Annual Report

The transfer station again was a busy place in 2006. Recycling markets remained steady and the scrap steel markets are very strong. It is anticipated that paper and cardboard prices may rise as their demand increases from newly constructed fiber recyclers in the mid west. Aluminum and plastics remain steady, as does the cost associated with processing them for market.

Washington may soon see changes in the locations and manner we handle our solid waste and recyclables. Last year a commission was formed under HB 293, Chapter 265:1 to study the feasibility of developing a materials resource and recovery facility (MRF) in Sullivan County. I served as Washington's representative on this commission along with other State and Local officials to recommend suitable alternatives for solid waste management in our County.

With constantly shrinking landfill space and rising costs associated with transportation, it was the commissions belief that a centralized materials resource and recovery facility (MRF) be constructed and owned by a waste district or non- profit corporation wholly owned by a group of Sullivan County Towns. The commission also recommends that the General Court introduce and pass legislation supporting grants, or funds for the construction of such a facility.

This MRF has the potential to reduce trucking costs for Washington and possibly in the future generate revenue for our recyclables. If a solid waste facility were incorporated

with the MRF as some people are suggesting, we would haul our compactor wastes to this facility where it would be reloaded onto 100 yd long haul trailers and trucked to another facility for less cost than we can haul it now.

Scale revenues were lower than projected because tonnage totals received at the transfer station were lower than expected. A slowing construction market and wastes being sent to other facilities contributed to this. The end result is less Construction and demolition waste being shipped out of the transfer station therefore reducing costs to the Town. A total of \$17,572.00 dollars was collected at the scale house in 2005. This represents about 176 tons of waste generated. I wish to thank the local contractors again for their efforts in making this transition.

We generated over \$8,800.00 dollars in recyclable revenue this year from scrap steel; lead acid car batteries, crushed oil filters and other metals. This revenue is placed in a trust fund for the purpose of replacing or purchasing recycling equipment. This trust fund has a current balance of \$29,854.00 dollars. We would like to use some of these funds to replace the 20-year-old trash compactor at the transfer station this year.

The household hazardous waste day in August was another huge success. Several residents were able to dispose of pesticides, paint, gas, oil, and other wastes that are not normally accepted at the transfer station during the rest of the year. Clean Harbors Environmental was the contractor for 2006 and set up shop in the highway garage for the day. They as the contractor assume all responsibility as the generator of the waste as soon as they take possession of it during the collection. All items are packaged in accordance with EPA and State regulations for proper disposal.

Below is a comparison of wastes accepted at the Transfer Station for 2005 and 2006:

	Recyclables	
	<u>2005</u>	<u>2006</u>
Commingled cans, bottles, plastic	68	68 Tons
Commingle paper, cardboard	52	46 Tons
Scrap steel	85	65 Tons
Construction Demolition	268	160 Tons
Lead acid batteries	2	2.3 Tons
Cathode Ray tubes/ Electronics	10	13.7 Tons
Used oil for recycle	1,305	919 Gallons
Used antifreeze for recycle	55	55 Gallons
Air conditioners and refrigerators	96	103 Units
Automotive Tires	15	12 Tons
Propane Tanks	313	100 Units

Land filled Waste

	<u>2005</u>	<u>2006</u>
Household compactor waste	429	426 Tons
Land filled Bulky waste	108	131 Tons

You will be happy to know, an independent study performed by the Antioch New England Institute of 15 Towns in Sullivan County, ranked Washington number one in diversion rates for recycling. The States current goal is 40% and the Town of Washington is now at 32%. This highlights the commitment from the transfer station staff and most importantly you the residents of Washington as to your solid waste reduction efforts. Interestingly, the two largest communities of Newport and Claremont are ranked last at 7% diversion rate.

I would like to thank the town residents for their continued support and recycling efforts.

Respectfully Submitted,
Edward G. Thayer
Road Agent

The Washington column in the *Argus-Champion* reported on July 18, 1935: "The C.C.C. [Civilian Conservation Corps] Camp boys have completed the waterhole back of the Town House and it is a first class job, and now with 45,000 gallons of water there and the town well being uncovered by the removal of the Lovell House annex and with the water that can be used from the Fowler swimming pool of 60,000 gallons capacity, the village now has better fire protection than any of the villages around us."

Jordan Goodliff

Washington Rescue Squad Annual Report 2006

2006 is Washington Rescue's 25th year in service. What a silver anniversary year this has been! I would like to thank all who have served on the squad throughout the years. I would like to mention one outstanding member who was a founding member and has served all twenty-five years, Robert Wright. Bob is an extremely dedicated and skilled EMT-I. He has held many leadership positions with Fire and Rescue, and currently serves as our Training Officer.

Thanks to the support at Town Meeting last year we were able to host an EMT basic class in town, bringing on 5 new members. This increased our membership by 50 percent. Several squad members were able to attend State EMS Conferences this year.

Numerous townspeople took advantage of several CPR/AED classes that we offered. Washington Rescue received the Pamela Mitchell/Richard Connolly EMS Achievement Award on October 11, 2006 from the New Hampshire Department of Safety. This award is presented to an individual or group who has made an outstanding contribution to the Emergency Medical Services System of New Hampshire. What an honor it was to receive this from the State.

Thank you all for your continued support.
Respectfully Submitted,

Nancy Tanner, Captain	Jean Bates	Nancy Curran
Cindy Turner, Lieutenant	John Bates	Lolly Gilbert
Robert Wright, Training Officer	Laurie Carter	Denise Hanscom
Jim Russell, Treasurer	Kim Cilley	Jenn Murdough
Carolyn Russell, Secretary	Ben Crane	Don Turner

Selectmen's Report 2006

As we enter 2007, the financial status of the Town is excellent; The long term debt will be nearly paid off this year leaving only a final payment of \$25,000 in 2008, Capital Reserve Accounts are being maintained at planned levels, the emergency, highway and police vehicles are in excellent condition and the full time employee positions continue to be occupied by a stable work force. In October 2006, the Selectmen authorized the use of \$100,000 from the Fund Balance to further reduce the new tax rate to 3.727, a 12 % reduction from the previous year. Our sound financial status is in part attributed to the tireless dedication of the Town's long time Finance Officer, Lynda Roy, who is scheduled to retire after this years Town Meeting. Jackie Weldon has been selected as Lynda's replacement and will fill the Bookkeeper position when she takes full responsibility in April.

Legal threats and litigation have caused necessary changes in the conduct of Town business. In 2006, the Town experienced eleven legal actions filed against several departments and the Selectmen. Additionally, other individuals leveled legal threats against the Town in an attempt to force their will without benefit of public dialogue, causing the need for legal assistance. This type of approach of doing business with the Town has resulted in a three hundred percent increase in expenditures for legal services. Unfortunately, the need for assistance by Town Counsel to the Planning Board has become the practice rather than the exception. This trend has led to a sharp increase in the funding for legal expenses.

One highlight during the year was a petition to change the boundaries of the Ashuelot Pond Dam Village District. After a time consuming review with Town Counsel the Selectmen denied the petition as submitted.

We voiced concern over a wind power project proposed in Lempster. The State has taken up a Site Evaluation Committee for the proposed project after being asked by several intervenors. One possible concern was the possible damage to Lempster

Mountain Road if construction equipment were to use Washington Town roads as access to Lempster Mountain as originally planned by the Project Manager.

Some very necessary maintenance and modification was accomplished on Camp Morgan Lodge. Ventilation of the attic and roofline has been improved, and new shingling installed. A new covered entrance was added with a handicapped entrance that meets ADA standards. The new doors have helped keep the heat in the building. There is still some work left to be done which has been included in this year's budget request. Similarly, extensive work was performed on the Library with a substantial portion paid for by the Friends of the Library from non-tax funds.

The need for maintenance and upgrade to all our Town buildings has been identified in the Capital Improvement Plan as an urgent need. The administrative offices desperately need more space, security, electrical upgrades and everything else that goes with such needs and their solutions. The Assessors, Clerk, Tax Collector, Finance Officer and Supervisor of the Checklist all have computer systems mandated by the State, but operate without proper workspace, electrical service or cooling in hot temperatures. Likewise the need for upgrade of the Fire and Rescue facilities is lurking in the background. The Selectmen have on hold any upgrade to the Town administrative offices until the Planning Boards, "Municipal Building Task Force", develops a strategic plan as a roadmap for all facility upgrades.

The Selectmen recommend the Town move toward adopting GASB-34 accounting standards this year. Compliance with GASB-34 is a prerequisite to future financing for facilities upgrades. For this reason it has been included in this years proposed budget.

With growth comes challenge to the Town and need for adjustment. The time has come for an adjustment in the salary and benefits for the members of the Highway Department. After review of surrounding environment and current economic conditions, the Selectmen made an adjustment in the wages and benefits of the full time Highway and Transfer Station employees.

Concurrently the Selectmen recommend the formal establishment of a Public Works Department to include the functions of highway, transfer station and municipal facilities. This recommendation is on this years warrant. As part of this changed organization and broader responsibilities, all new full time employees of the Public Works Department will be required to qualify and participate as part of the Towns Fire and Rescue units.

The lessons learned in the flood disaster a year ago and ongoing State sponsored emergency training has emphasized the need for depth in our emergency management preparation. Ed Thayer continues to do an outstanding job as Director of Emergency Management. We have created the position of Deputy Director of Emergency Management for Operation and Bob Hofstetter has agreed to assume this key role. Additionally, the Health Officer will be an essential part of emergency planning and the principle advisor on health related issues.

Respectfully,
Guy Eaton, Chairman
Thomas Taylor
Richard Cook

**ANNUAL REPORT 2006
SHEDD FREE LIBRARY**

Last year marked a whole decade of change for the Library. This year has also been about changes. The biggest one was seeing the dream of the Washington Wayside Park become a completed reality. You can read all the details in the Park Report, but we want to say “thanks” again to Carolyn Russell, the Park Planning and Advisory Committees and all of the many, many volunteers. Not only does the Library have a pleasant view of the Park, but so do those driving south into Town. We shall all enjoy our new Park for years to come.

Library activities for this year have included our monthly Book Discussions and a return to Story Time with Sheila Munson. The Library continues to write, publish and distribute Monthly Town Calendars of Town events. After many years of gathering the news for the Calendar, Charlene Cobb decided the time was right to retire. A big “thanks” to her! Our new news-gatherer is Sue Burt. The Calendar is also available through e-mail (shedd@gsinet.net) and the Town Website.

We spent the final donations in Sylvia Crane’s memory on more juvenile series non-fiction books. We have placed them on special shelves in the Juvenile section.

As always, the Library was booming this summer. We out-did ourselves in computer usage, with people often waiting in line to get online. We also participated in the big July Flea Market and sold over \$300 worth of books! Thank you to all who so generously donate and buy our books...we really do appreciate it. And remember...we ALWAYS have room to start storing items for next year's sale!

The Fall Book & Bake Sale was also a success. Thank you Geri Taylor for luring customers onto the property! We were able to send over 100 leftover books to Springfield Library and the remainders went to the Mall, where many of you picked them up for free.

Carolyn Russell again very generously assisted sixty people to e-file their income taxes and later helped with the Low and Moderate Income New Hampshire Property Tax Rebate returns. She spent over 84 hours providing this free service, courtesy of AARP and the Library. She will continue to provide this service again in 2007.

Sue Bermudez resigned her Chairman's position on the Board of Trustees in the Spring, and was replaced by Colleen Duggan. Betty Talpey also resigned in December, 2006, allowing Lynn Hendrickson to start learning the Secretary's function. Thank you, Sue, for your five years and thank you, Betty, for your fifteen years of service. We shall miss you, but welcome the new members with open arms. Linda Marshall, a new Alternate, was also appointed during this time.

We were greatly saddened by the death of one of our former Trustees, Barbara Fields. She was an ardent Friend and supporter of the Library. She will be sorely missed.

We have a new Custodian, Dawn Bilski, and a new General Maintenance Contractor, her husband, Jon. They both have already been a huge boon to us.

The exterior of the Library received a welcome facelift over the summer, including a new insulated side door, a complete paint job, and new storm windows. A volunteer also painted the hand railings and our book drop. The roof received new copper hip caps and both chimneys were repaired (we'd had some minor leaking). A contract has been signed with Suburban Wildlife Control to evict the bats from the attic. Included in this will be a total cleanup of the attic space and replacement of the insulation.

In 2007 we plan to purchase new entrance lights for above the Library steps, and possibly a new walkway light. We are considering how to restore the walkway up to the Library. For inside, we expect to install new window shades and new lighting in the back room. In 2006 we acquired a Wi-Fi connection to the Internet, so you may come in with your laptops and hook up. Steve Marshall helped us obtain an AED (Automatic External Defibrillator) through a grant. We are also developing plans for Disaster Preparedness.

Sadly, we lost the big maple on the front lawn due to old age and storm damage. At last count, it was 140 years old, making it older than the Library. The Friends of the Library

are considering replacing the tree with some kind of planting to commemorate their 20th Anniversary.

Marcellus, Charlotte Treadwell and I attended the bi-annual CLiF Conference in White River Junction this year. (CLiF is the Children's Literacy Foundation that gives book grants for libraries and schools in small rural communities). We were recognized as the only Library who has received three grants from them and the ONLY library in the program that has raised funds themselves to sponsor yet another library. We're also eligible to receive another grant this year and we plan to follow through on this.

The Friends of the Library have worked hard again by "Reaching Out" to the Community and even going beyond their reach. Among their many accomplishments include:

- *Monthly Birthday Books delivered to all the town school children and staff
- *Participation in Grandpal's Day at school
- *Donating \$100 to the Breast Cancer Walk in Concord
- *Providing six new Baby Books in the babies' names upon their birth
- *Donation of books, tapes & videos to the Sullivan County House of Corrections; Merrimack County House of Corrections received audios
- *Making 20 fleece blankets and donating them to Sullivan County Nursing Home
- *Sewing baby blankets and donating them to My Place, a facility of NH Catholic Charities that assists young, pregnant women who choose not to have abortions
- *Ten exhibits during the year including Lynn Hendrickson's beaded jewelry, Quillusions, Hurricane Lanterns, Owls by Betty Talpey, Puffins by Peter France, Christmas Plates, Emmett Kelley Clowns & Nutcrackers by Vivian Hunter, Bunnies by Charlotte Treadwell & Needlework by Gretchen Collins
- *Participation in the July 4th Flea Market
- *Providing refreshments for the audience who watched on the Day the Little Red House was moved
- *Donating \$100 to a small library in Bayou, Labatre, Louisiana, destroyed by Hurricane Katrina
- *Donation to Rubia, an Afghanistan organization dedicated to bringing literacy to the women and girls there
- *Providing Food Pantry items for the Thanksgiving holiday; providing a permanent drop off box for other Food Pantry Donations
- *Providing many forms of Outreach

Many, many thanks to all our volunteers for keeping this place humming: Vivian Hunter & Geri Taylor found our exhibits and set up Teas for many of the exhibitors; Vivian also kept the Library open for us on Wednesdays from Memorial Day to Columbus Day; Rachel Halverson, Martha Hamill & Priscilla Iosch were also great help. And, as always, thank you to Bob Wright for his cheerful help & support. And Marcellus, what **would** I do without you?

We wish to thank you all once again for your patronage, support and good wishes. This has been a very difficult year for us in many ways, but you have made it better by your

encouragement. Please remember all the numerous ways in which we may serve you: Free Inter-Library Loans, Photo Copying (free to school children along with computer copies), free Fax Services (495-0410), free Income Tax Assistance, free Internet Access with DSL and Wi-Fi connection (our access is provided free to the Library from Granite State Telephone), free programs for adults and children, free E-Mail Service, Free Computer Usage, free Delivery of Library Materials in our Outreach Program, free Printing and Delivery of Monthly Town Calendars, free Notary Public Service and free rental of Videos, DVD's, Books on Tape and Audio Tapes. Our name isn't Shedd **FREE** Library for nothing!

We still have weekly Story Times, monthly Book Discussions, Monthly and Bi-Monthly Exhibits, occasional winter Travelogues, Children's Programs and Pajama Parties, Summer Reading Programs and very lively Friends' Meetings. Our Trustees' Bi-Monthly Meetings are always open to the public and are listed on the Monthly Calendars. Beginning in 2007, Marcellus and I will each be working one Saturday a month.

We welcome your comments and suggestions. This is **YOUR** Town Library...please come in and **USE** it! Come in and take advantage of everything we have to offer you. It is our job, and more importantly, our privilege to serve you.

Jo Ellen Wright
Librarian

**Southwestern Community Services Inc.
2006**

Currently 67 Washington households are benefiting from this service. The average household receives benefits of \$860.93 and the average benefit per resident is \$281.38. The total direct assistance to Washington residents is \$57,682.56 with an economic impact of \$144,206.40

Southwestern Community Services Inc assists Washington residents in the following areas:

Health Insurance Counseling, Commodity Supplemental Food, Eldercare, WIC, Fuel Assistance, Electric Assistance Program, Neighbor Helping Neighbor, HUD Homeless Outreach.

Supervisors of the Checklist

The Supervisors of the Checklist have had a very busy year. There were 5 elections at which the voter list was in use. Yvonne and I are new to the board so we had to learn the process with the original system. That was used for the first 3 elections. We are very thankful to Alan Goodspeed, the only experienced member of the board, who is very knowledgeable and willing to teach us election laws, rules and procedures.

Also, in order to comply with the Federal Help America Vote Act of 2002 the State of New Hampshire set up a statewide database system this year that contains the voter list for each town. We spent many hours preparing our list for the conversion in June. In March we went to a training session for the intermediate stage of the voter list. The old list was sent to the state and converted to an intermediate list called eHarbor. That had to be checked and any errors that occurred during conversion were corrected – each voter card had to be pulled from the file in order to make sure the information was correct and complete. Transfer to the new database happened in June. Next came 3 day-long training sessions for learning how to use the new database called Electionet, and then verification of our list. It was used for the first time at the State Primary Election on Sept 12. We are still in the process of learning to use all the features. Hopefully village districts lists will be available from Electionet in time for use in 2007. We thank you for your patience and cooperation as we continue to implement Electionet.

WASHINGTON WAYSIDE PARK AT SHEDD FREE LIBRARY

On August 20, 2006, Washington Wayside Park at Shedd Free Library was dedicated in honor of the benefactors and volunteers who support the community of Washington. The support comes in many ways—service in town offices, volunteer activities, contributions of time, talent and other resources. In the case of the Park, the contributions also included cash donations that provided the Town's matching portion of the DOT Transportation Enhancement Grant.

During the summer of 2003, Trustees of the Library and the Librarian pondered the concept of an expanded parking area for the Shedd Free Library in a park-like setting. All that was needed was more space and the funds to make the dream come true.

It took a very short time for the volunteer spirit to emerge in support of this project as the appeal of the concept caught on. Selectmen, Assessors, Road Agent, Planning Board, Board of Adjustment, Finance Officer, Tax Collector and many others contributed their expertise. The owners of "the little red house" responded quickly and generously to our audacious appeal that they donate their land to our project. Soon the DOT grant was awarded and subsequently accepted at Town Meeting in 2005, donations of land were acquired, an Advisory and Planning Committee was formed, and a fundraising effort was launched.

As many townspeople gathered on the lawn of the Shedd Free Library on a warm and sunny spring day on March 30, 2006, "the little red house" was moved from its foundation at 49 North Main Street to a new site a short distance away on Lempster Mountain Road. The house, once owned by Luman Jefts, maintains its "historic" place near the Library that Jefts built for the Town in 1881. The house has remained in the Jefts family for over 100 years.

On April 16, 2006, ground was broken and the construction of the new Park and parking lot were underway. It would be many weeks of difficult weather—too much rain and too much mud—that might have discouraged a less determined crew. Committed to the project and excited by the image of the new entry to town center, the work crews persisted, including many volunteers who worked in boots and raingear, frequently dousing themselves with anything that would discourage the bites of the black flies. Somewhat behind schedule, the plants were finally in place by mid-June, and the site was beginning to look like a Park. Benches, lights, signs, trash receptacle, landscaping of all sorts, slowly began to fill the area. When the rain finally stopped and the sun appeared, it shone brightly on our newborn Park.

Vehicles slowed down as they drove by, some drivers would actually call out their approving comments, and patrons of the Library began to stroll approvingly along the Park path as they made their way to the Library.

We looked forward with great anticipation to the day of the dedication of the Park. It would be wrapped in ribbons and balloons, tents would be erected to shield the approving

crowd from the intense August sun. There would be music and celebration with cake and punch for all.

Celebrate we did, but not under the glare of the summer sun. It rained, it poured, and some of the tents we had erected for the celebration had collapsed under the weight of the driving rains. As we had done every time we met an obstacle along the course of bringing the project to completion, we adjusted. The Town Hall was quickly decorated with flowers and balloons, thanks again to the resilient energies of the volunteers. Then, with standing room only, we gathered there on Sunday, August 20, 2006, to celebrate and to proclaim to the Town that it had given itself this wonderful gift—the result yet again of the generosity of the benefactors and volunteers, far too many to mention by name, who support this community.

WELFARE DEPARTMENT

The Welfare Department is responsible for providing emergency assistance to families in need of shelter, heat, food and medical care when they cannot provide it for themselves. During 2006 the following emergency assistance was provided to thirteen families:

Electricity	\$2,820.99
Fuel	1,248.60
Health Service	916.89
Housing	15,251.49

Miscellaneous	1,599.12
Total	\$21,837.09

Emergency assistance applications may be made by calling the Town Office at 495-3521 between 9 AM and 4 PM on Tuesday, Wednesday or Thursday. At other times messages may be left on the confidential phone mail service. Calls will be returned as soon as possible.

Every family enjoys celebrating the holidays with a special meal. At Thanksgiving time the Washington Seniors make that possible by providing food baskets for our families and the Washington Congregational Church provides both food baskets and gifts for the children at Christmas time. In the name of all the families who receive these gifts, we thank you.

Throughout the year many generous individuals and groups in town fill our Food Pantry with basic food and household items. When families experiencing temporary hardships and need assistance, we offer them the opportunity to “shop” in the Food Pantry. This allows them to choose foods that their family will enjoy rather than being given a random variety of items that may not be suitable for their needs. We feel that this gives our families a sense of privacy and dignity in their time of need.

Thank you, everyone, who helps us care for our neighbors.

Respectfully submitted,

Lynda B. Roy

Annual Report of the Washington Web Page Manager
www.washingtonnh.org

The web site, www.washingtonnh.org has become a very large and integrated tool to access the town government. There are currently more pages and files than I can count, all of them designed to promote our community and provide another means to conduct business outside of the normal business hours.

The site has undergone a complete redesign that was started in late 2005 and completed this year. Due to the amount of information being provided, the web site is now broken down into sub sites to make it easier to navigate. The Highway & Police Departments and Conservation Commission have their own sites. The Assessors and Health Officer pages are in the development. A Directory of telephone numbers for town agencies and

personnel has been added. Parks & Recreation, Planning Board and Zoning Board of Adjustment now have their minutes posted on-line as soon as possible after the meeting.

Currently in development and being added to regularly, is the Documents Page. From this page you can either download or get a link to the various forms that are required by Town government. You can get building permit applications, Requests to use Town Buildings, Pistol Permit applications, Driveway Permits, Land Use Ordinance and so much more.

The web forum is still in operation, albeit underused. The forum was set-up to help foster communication and exchange year round outside of the formal town meeting. There is no cost to join, and it is Spam and junk free. Register via the web site Forum page.

The goal of the website is to make living in a town with a part-time government as convenient and accessible as possible. Please e-mail or call me with your suggestions of how the web site can be configured to make it easier for you as a customer of the Town.

Respectfully,

Steven I. Marshall

Web Manager

603-495-3294 police@washingtonnh.org

Zoning Board of Adjustment

The Washington Board of Adjustment is authorized to hear appeals from land use decisions made by Town officials as well as to grant variances and equitable waivers of dimensional requirements in accordance with the Town of Washington Land Use Ordinance and New Hampshire statutes.

The board meets on the last Wednesday of each month at 7:30 p.m. in the town hall. During the past year, it has considered one case involving a use variance and 13 cases requesting variances related to dimensional requirements of the Land Use Ordinance. The board approved 11 and denied two of these requests based on the individual properties' specifications, evidence presented by the applicants, testimony of contractors and abutters, and the basic purposes of our Land Use Ordinance: "to promote the health, safety, and general welfare of the community." One case was tabled due to the applicant's failure to appear.

Members of the board have kept abreast of updates in state law and municipal decisions related to planning and zoning issues through attending workshops offered by the Municipal Association.

During the year, Janice Philbrick resigned as a member of the board after many years of service. She was replaced on the board by James Bissonnette. Robert Evans joined as an additional alternate member of the board.

Respectfully submitted,
 Laura-Jean Gilbert, Chair
 James Bissonnette, Member
 Chris Gannon, Member
 Stephen Hanssen, Member

**State of New Hampshire Minutes of
Washington Town Meeting
March 14, 2006**

All portions of this report typed in **bold type** were sent to the State DRA as the legal record of this meeting.

Moderator Ronald Jager called the 230th unbroken March tradition of the Annual Meeting of the Town of Washington, New Hampshire to order at 9:00 am. The Pledge of Allegiance was recited, followed by the introduction of town and election officials. The moderator explained the six general rules of order to be followed during this meeting. Mr. Jager invited the audience to enjoy the goodies provided by the Washington Fire Department Auxiliary. Al Krygeris asked that applause be held when an issue is being discussed because it demeans the opposing side's position. Moderator Jager said Al had a valid point, but not sure it was necessary. Marty Harrison asked if she would need permission to speak, Phil Barker, point of order, has she registered to vote anywhere else, no she didn't, so she is still on the check list. Mary Krygeris announced that 748 eligible voters were on the checklist.

The Ballot Box was shown to be empty and was locked by Moderator Jager who declared the polls would be opened at 10 am.

ARTICLE 1: The following people received votes for an office elected by non-partisan ballot:

Write-in candidates receiving fewer than 5 votes are not recorded here. Of the 748 registered voters in Washington, 188 residents cast their vote in this town election.

ARTICLE 2: Guy Eaton moved to hear reports of any and all officers, committees and agents of the Town and take any action in relation thereto. Motion seconded by Richard Cook.

The following comments/corrections on the Town Report were presented: A corrected financial sheet was passed out at the door along with several other supplemental items that did not appear in the town book. Guy Eaton thanked Michelle Dagesse for a great job coordinating the Town Report, especially because it was her first year.

Again this year the auditor's report was brought up and after much discussion Lionel Chute asked what the town risked by not changing to the GASB standard suggested by the State. Lynda Roy said it wouldn't affect us unless we needed to borrow millions of dollars. Phil Barker mentioned that the auditors report looked like a form letter like last year, so could the town publish the whole report. He was told it was 40-50 pages long. Phil also asked if the town is required to publish the auditor's letter. Yes. Guy Eaton went over the Financial Highlights Report explaining where the 3.76% reduction in this year's

proposed budget was coming from. Mike Otterson asked if the Assessors could comment under this article. It was agreed that Article 3 would be a better place.

Guy Eaton moved to accept the town report as printed and corrected. Seconded by Al Krygeris.

Voice vote: passed

ARTICLE 3: Guy Eaton moved that the town raise and appropriate the sum of Three Hundred Forty Five Thousand Two Hundred Twenty Five Dollars (\$345,255.00) to defray the costs of General Government for the ensuing year. This article is exclusive of all other warrant articles. Motion seconded by Tom Taylor.

Guy said the increase of \$500.00 from what was in the warrant was for the Supervisor of the Check List budget and he had just been notified. Mike Otterson said he had attended the budget hearing, but was still confused about the revaluation and asked if Avitar had completed all of its contract assignment. Al Krygeris said they were not done yet; Avitar had to finish up the appeal process and the Assessors would have to be satisfied with the end results. Laurie Dube explained the changes in the State mandate to do a revaluation every five years. The proposed 6-year plan would review all records, data verification and statistical updates. This plan would not be as intense because new building and remodeling would be done each year. Inflation costs are built into the budget figure. Lionel Chute understands the need for devising a plan, but concerned about locking us to Avitar. Many residents wanted to know if this contract would commit the town to staying with Avitar for the six years. Town residents were not very complimentary of the work done by Avitar, but the Assessors pointed out that Avitar has much more knowledge of State guidelines and provided us with a good work base of information. If we go with another company they would insist starting at the beginning again. The Assessor's felt that even though Avitar has been publicly criticized for some of its practices, other companies doing revaluation are also in the news. Discussion on many assessing issues, budget items and personal comments continued for quite awhile. Aileen Chute asked if the cost on Article 17 was for a year contract or six years. Answer: for six years, but like all contracts if the need arises it could be broken.

Moderator Jager declared the polls open at 10 am and presented the ballot box to the assistant moderator, Marcellus Liotta.

Jim Gaskell mentioned that other towns were considering hiring a full time assessor and had we thought of that. Arline France said that none of the town assessors feel qualified to do revaluation. She mentioned trying to get certified and how difficult that was and to date has not been successful. Al asked the State if they felt the assessors were qualified to do revaluation. They said they wanted certified assessors or a neutral out of town company. Arline said that many of the errors were the town's fault and it is a big job to get the information corrected, but that is their goal. Mike Otterson asked what the \$8318 software and support contract is for. Al Krygeris reported it is for support of Assessors software provided by Avitar.

Mike Otterson moved to amend Article 3 by reducing the proposed amount by \$9,000. Motion seconded by Gil Oliveira. After further discussion a voice vote was called for, the moderator wasn't quite sure as to the results. Seven town members requested a paper ballot.

Paper ballot results of the amendment motion: not passed Yes37 No59

Voice vote on Article 3 as moved: passed

Motion to move to Article 17 made by Al Krygeris and seconded by Laurie Dube.

Voice vote: passed

ARTICLE 17: Laurie Dube moved that the Town vote to raise and appropriate the sum of Nine Thousand Dollars (\$9,000) to be placed in the existing Capital Reserve Fund for the Revaluation of the Town, Guy Eaton seconded the motion. Moderator Jager asked if anyone had any questions on this motion because it has been fully discussed under Article 3.

Voice vote: passed

ARTICLE 4: Tom Taylor moved that the Town vote to raise and appropriate the sum of Ninety Two Thousand Four Hundred Ninety Eight Dollars (\$92,498.00) for the operation of the Police Department for the ensuing year. Motion seconded by Guy Eaton. Tom said that the increase was mainly due to the increase in the Chiefs salary. A comparison study of State information was done to arrive to this figure, which is not the lowest, but not the highest.

Guy Eaton moved to allow non-residents to speak at the Annual Town Meeting. Motion seconded by Richard Cook.

Voice vote on motion: passed

Steve Marshall said things were good and did anyone have any questions. Jim Garvin asked if the same criteria were used for all town employees. Tom responded that a cost of living raise of 4.1% was determined by the Consumer Price Index and State employment scale. Health Insurance again an issue was looked at carefully by the selectmen comparing both sides, employee contribution vs. a raise to compensate for the expense to the employee. Tom explained the town avoids employment tax if employee compensation is in benefits vs. Wages. They still feel it's a better choice for the town to pay for the insurance. Ralph Otterson questioned two police cruisers and Steve said we only have one cruiser – having just received the new cruiser. The equipment is being changed out of the old cruiser that was traded in. Ralph also asked how a cruiser was purchased without coming before the Town Meeting. He was reminded that a few years ago it was voted at Town Meeting to give the selectmen the authorization to approve the expenditures from Capital Funds. Moderator Jager suggested that if this wasn't to

everyone's satisfaction a motion could be made under the last article to have the selectmen bring in a warrant article to change the procedure.

Voice vote on Article 4: passed

ARTICLE 5: Richard Cook moved that the Town vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000) for increasing Town Office Space. This will be a non lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or by December 31, 2009, whichever is sooner. Guy Eaton seconded the motion. Richard explained that the department heads that have office space at the Town Hall have indicated a need for more space due to the increase of equipment and computer. Also that the town is growing and more business is conducted in the building. Rich noted that the Town Hall is a Historical Building and therefore changes should be carefully considered. The Planning Board has formed a committee to look to evaluate expanding the existing space or a second building. Tom Taylor said a professional would be needed to evaluate the structural integrity of the building.

Allan Treadwell made a motion to amend the motion to read: raise an appropriate the sum of Five Thousand Dollars (\$5,000) for a study of space needs for all town offices. This will be a non lapsing: appropriation per RSA 32:7, VI and will not lapse until the project is completed or by December 31, 2009, whichever is sooner. Motion seconded by Philip Barker. Bob Fraser wanted Camp Morgan basement considered. Tom Taylor noted the intent of "office space" was all town facilities.

Voice vote on amendment: passed

Voice vote on amended motion: passed

ARTICLE 6: Ed Thayer moved that the Town vote to raise and appropriate the sum of Three Hundred Fifty Four Thousand Seven Hundred Seventy Dollars (\$354,770.00) for operation of the Highway Department for the ensuing year. Motion seconded by Guy Eaton. After a brief explanation of the budget Ed asked if anyone had any questions. Vivian Clark wanted to know what article would address Lempster Mt. Road repaving and would it be done before any other projects were started. Ed said it would be done this year.

Voice vote: passed

ARTICLE 7: Ed Thayer moved that the Town vote to raise and appropriate the Highway Block Grant Funds estimated to be Fifty Thousand Two Hundred Eighty Two Dollars (\$50,282.00) anticipated during 2006 for the use of the Highway Department for construction or reconstruction projects in addition to the regular maintenance budget. Guy Eaton seconded the motion.

Voice vote: passed

ARTICLE 8: Ed Thayer moved that the Town vote to raise and appropriate the sum of Twenty Thousand Dollars (\$20,000) for construction or reconstruction projects in addition to the regular highway maintenance budget. Motion seconded by Guy Eaton. Vivian Clark asked when Lempster Mt. Road would be done and if it would be before the summer season. She also asked about the material that would be used and if it wouldn't be cheaper to hire a paving company. Ed said hiring out wouldn't be cost effective.

Voice vote: passed

ARTICLE 9: Ed Thayer moved that the Town vote to raise and appropriate the sum of Sixty Thousand Dollars (\$60,000) to be added to the Highway Equipment Capital Reserve Funds previously established. Tom Taylor seconded the motion. Ed said it would allow the Highway Department to purchase a new backhoe and that historically they usually trade in every 10 years, but it's been 11 years. Last year the backhoe cost approximately \$5,000 to repair in house. Ralph Otterson asked if this machine was the same size and how much does it cost. Ed said \$131,000 with about a \$30,000 trade-in. Some mention of the brand being purchased. Ed said the new machine would meet the Town's need.

Voice vote: passed

Moderator Jager suggested breaking for lunch at 11:55 am and resume the meeting at 1 pm. Before the meeting was called back to order at 1:00 pm, Janice Philbrick announced a first time voter Meagan Gaskell, which was followed by applause. Guy acknowledged that on the inside cover of the town report, in memorial that Anna Dalphond's name had been omitted. Anna was involved with the Fire Department Auxiliary. Guy mentioned that he had recommended Carolyn Russell for the Volunteer of the Year Award because of her tireless volunteer work in our community. Bob Fraser announced that on Saturday March 18, the Congregation Church would host a spaghetti supper to benefit the Alstead Relief Fund and all proceeds would go to fund.

ARTICLE 10: Guy Eaton moved that the Town vote to confirm the Selectmen's plan to construct a twenty-two foot wide bridge on Halfmoon Pond Road in lieu of an eighteen-foot wide bridge. Motion seconded by Richard Cook. The Selectmen provided a description of their decision on the bridge project, which was passed out at the door. Ed Thayer asked if anyone had any questions. He showed a drawing of the proposed sight and highly recommended construction of a new bridge especially because the State funding at 20/80%. Residents who live in the bridge area discussed the width of the bridge in depth and there seemed to be a lot of confusion about the width of the bridge if you took away the walkway.

Phil Barker moved to amend Article 10 to read: to construct a twenty-two foot wide bridge without a walkway on Halfmoon Pond Road. Motion seconded by Mike Otterson. Many interesting comments regarding safety issues, pedestrian signage and a desire by some to make it compatible with a rural setting followed the motion.

Voice vote on the amendment: passed

Vivian Clark moved to amend the motion to strike the words “in lieu of an eighteen foot wide bridge” Mike Otterson seconded the motion. The moderator read the twice amended motion: to confirm the Selectmen’s plan to construct a twenty-two foot wide bridge, without walkway, on Halfmoon Pond Road.

Voice vote on the amended motion: passed

ARTICLE 11: Philip Barker moved that the Town vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000) for the construction of Halfmoon Pond Road Bridge. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or by December 31, 2009, whichever is sooner. Motion seconded by Guy Eaton.

Voice vote: passed

Phil Barker moved to move onto Article 14 and 15 made by Philip Barker. Motion seconded by Guy Eaton.

Voice vote: passed

ARTICLE 14: John Eccard moved that the Town vote to raise and appropriate the sum of Eighty Two Thousand Seven Hundred Seventy Nine Dollars (\$82,779.00) for the operation of the Rescue Squad and “Fire Department for the ensuing year. Motion seconded by Robert Wright. Bob appealed for more EMT’s to service the needs of our community. The rescue squad is in need of certified members so they would need an additional \$10,000 to train up to 15 people plus \$6,000 for training pay. Vivian Clark asked if the rescue squad considered billing patients for the service provided. Nancy Tanner responded saying the selectmen have asked rescue to consider billing, but the squad would still like to keep the service free to town residents. Other towns do charge to recover costs and if Hillsboro answers the call to Washington the resident will be billed. Laurie Dube said the extra cost was a small price to pay for the service the rescue squad provides for the people of our town.

Voice vote: passed

ARTICLE 15: John Eccard moved that the Town vote to raise and appropriate the sum of Eight Four Thousand Dollars (\$84,000.00) to be added to the Fire apparatus Replacement Fund previously established. Motion seconded by Guy Eaton. John explained why the fire department needed a new truck, emphasizing that the used truck they are using is failing and concept of replacing with a used truck hasn’t worked out as well as they expected.

Mike Otterson moved to amend Article 14 to read: to appropriate the sum of Eight Four Thousand Dollars (\$84,000.00) from the fund balance (surplus) to be added to the Fire Apparatus Replacement Fund previously established. Motion seconded by

Philip Barker. Many questions were asked about the difference between surplus and fund balance. The selectmen recommended against using fund balance without benefit of full financials. Rick Niven thought the price for the truck was too high, suggesting it was the Cadillac of trucks. He felt the subject was too big for just the Fire Department and they needed a larger group to review the purchase of a truck. Chief Eccard stated the Fire Department reviewed all current equipment and it is their responsibility to recommend what equipment is needed for this town. The discussion for a 10 wheel chassis is so the Fire Department can get enough water to the fire with initial truck and not depend on mutual aid. Shawn Atkins offered an explanation of the bids for several trucks including Peterbuilt, Freightliner, Kensworth and International were considered. Freightliner offered the best chassis price. The body buildup to meet special Washington needs. Charlie Eastman thought it was a good idea getting the new truck especially if your house was on fire. Diana Hanssen asked what the difference in water capacity was, John responded that the old truck 1,100 and the new on 2,600. Charlie Field recommended purchasing the truck from the budget appropriation. Jim Garvin said the truck being considered was a lot of money. Al Krygeris, Lionel Chute and Jed Schwartz all spoke to support the motion.

Voice vote on the amendment to Article 15: passed

Voice vote on the amended motion: passed

Moderator Jager called for a five-minute recess.

ARTICLE 12: Ed Thayer moved that the Town vote to raise and appropriate the sum of One Hundred Nineteen Thousand Eight Hundred Dollars (\$119,800.00) for the operation of the Solid Waste Recycling Center and for the Landfill Closure for the ensuing year. Motion seconded by Guy Eaton. Ed said this year's budget was reduced by 4% and he felt it was because of the scale that was installed last year.

Voice vote: passed

ARTICLE 13: Ed Thayer moved that the Town appropriate the sum of Four Thousand Dollars (\$4,000.00) from the Recycling Equipment Fund for the purchase of a new roll-off container. Motion seconded by Don Turner. Ed said the old one was rusting out and in need of replacement. Again Moderator Jager pointed out that this was the only Capital Reserve Fund where the authority to expend was retained by the town meeting, the Selectmen having authority to expend other Capital Reserve Funds.

Voice vote: passed

ARTICLE 16: Nancy Tanner moved that the Town vote to raise and appropriate the sum of Four Thousand Dollars (\$4,000.00) to be added to the Rescue Squad Intercept Capital Reserve Fund previously established. Bob Wright seconded the motion. A member of the audience asked what the current balance was and it was reported to be at \$4,585.00.

Voice vote: passed

ARTICLE 18: John Pasioka moved that the Town vote to raise and appropriate the sum of One Thousand Seven Hundred Dollars (1,700.00) for Forest fire Control for the ensuing year. Bob Wright seconded the motion. Lionel Chute asked what these funds were used for. John said they are used to match State grants for forest fire equipment.

Voice vote: passed

ARTICLE 19: Colleen Duggan moved that the Town vote to raise and appropriate the sum of Thirty Thousand Two Hundred Dollars (\$30,200.00) for the operation of the Shedd Free Library for the ensuing year. Don Turner seconded the motion.

Voice vote: passed

ARTICLE 20: Carolyn Russell moved that the Town vote to raise and appropriate the sum of Eighteen Thousand Nine Hundred Twenty Dollars (\$18,920.00) for the construction of the Wayside Park and a new parking area: to accept \$4,644.00 in the form of a grant from New Hampshire Department of Transportation, Ten Year Transportation Improvement Plan, and to raise \$14,276.00 by donations. Motion seconded by Don Turner. Carolyn Russell said this will allow the Town to accept additional money approved for the State Grant. Carolyn thanked the many people who have volunteered their talent: energy, time and expertise to this project and to the generous donations for the park and the parking lot. After explaining a history of the Beede house and what it means to the family to be a part of this wonderful project, Carolyn thanked the Beede family publicly because without their involvement the park would never have been realized.

Voice vote: passed

ARTICLE 21: Carolyn Russell moved that the Town vote to raise and appropriate the sum of Twenty Six Thousand One Hundred Eight Five Dollars (\$26,185.00) for Health and Welfare for the ensuing year. Motion seconded by Guy Eaton.

Voice vote: passed

ARTICLE 22: Philip Barker moved that the Town vote to raise and appropriate the sum of Eleven Thousand Dollars (\$11,000.00) for the care and maintenance of the Cemeteries for the ensuing year. Don Turner seconded the motion.

Voice vote: passed

ARTICLE 23: Lynda Roy moved that the Town vote to raise and appropriate the sum of Eight Four Thousand Nine Hundred Twelve Dollars (\$84,912.00) for Debt Service for the ensuing year. Motion seconded by Guy Eaton.

Voice vote: passed

ARTICLE 24: Guy Eaton moved that the Town vote to raise and appropriate the sum of Forty Seven Thousand Two Hundred Fifty Eight Dollars (\$47,258.00) for the operation of the Parks and Recreation Commission and for Patriotic Purposes for the ensuing year. Holly Eaton seconded the motion. Guy said the budget was self-explanatory and included a safety fence along the ball field and repair of the docks. John Pasioka asked if the lawn care bid was the lowest and Guy responded saying they were satisfied with last year's contractor so they extended the contract for this year. Lionel Chute asked how many acres of lawn are in the contract. Guy said all the town properties plus it would include the Wayside Park this year. Alan Treadwell asked what kind of fence was to be put up. Guy said a chain link fence. A discussion of the docks followed. John Pasioka said he was somewhat an expert on the docks and that when they were purchased they were supposed to be commercial grade, but they are not. The docks can be repaired and will last a few more years. Ralph Otterson thought we should do away with the docks completely and that special event and senior trips should be eliminated from the budget. Phil Barker moved to amend Article 24 by reducing the total budget by \$3,700.00. Gwen Gaskell seconded the motion. Bob Fraser disagreed saying the seniors contributed a lot to the community. Lionel Chute asked for an explanation of special events and was told it included trips taken by the summer program and senior trips, the Easter Egg hunt and videos shown at special times.

Voice vote on the amendment: not passed

Voice vote on motion as written: passed

ARTICLE 25: Ed Thayer moved that the Town vote to raise and appropriate the sum of Eleven Thousand Dollars (\$11,000.00) for Emergency Management for the ensuing year. Motion seconded by Don Turner. Ed said the increase was for a transfer switch for the generator at Camp Morgan and the school and permits the Town to operate both facilities at the same time with emergency power. Sandy Poole asked where emergency stations were set up, first – the school, second – Camp Morgan, third – the Fire Station. Diane Drew complimented Ed Thayer for the great job he does as Emergency Management Director. Ed responded by saying everyone involved in emergency Management deserves the thanks for their hard work and long hours devoted to making sure the residents of Washington are safe and well cared for.

Voice vote: passed

ARTICLE 26: John Eccard moved that the Town vote to raise and appropriate the sum of Twenty Four Thousand One Hundred Twenty Nine Dollars (\$24,129.00) for Emergency Communications for the ensuing year. Motion seconded by Don Turner. The increase of \$10,000 is due to the increase for Hillsboro Dispatch. Quotes were gotten from other area dispatch companies, but they didn't service both fire and police as Hillsboro does.

Voice vote: passed

ARTICLE 27: To transact any other business that may legally come before this meeting: Al Krygeris suggested modernizing the way transparencies were displayed on a screen by going to Power Point presentation. Phil Barker complimented the person responsible for improving the public address system. Ken Eastman talked about NH lakes and the problem of invasive water plants especially milfoil. He also mentioned the States concern and programs they offer. He said he would bring it up again next year. Marty Harrison said that Halfmoon Pond had its share of problem weeds also. During the heavy rains in October when they were told to move out of their house they became aware of the danger and were thankful they were being so well taken care of. Mary Krygeris publicly thanked Natalie Jurson for her years of loyal service with the Supervisors of the Checklist committee and that she would be greatly missed, which was followed by a round of applause from the audience.

Ralph Otterson moved than any future expenditure of \$10,000 or more would require a vote at town meeting. Motion seconded by Mike Otterson.

Voice vote: not passed

Denise Hanscom showed the new backboard being used by the department. Nancy Tanner, the new captain of the rescue squad said a CPR re-certification course would be held sometime in April. Holly Eaton said she would like to give the selectmen a raise, but she knew that would not fly, so she asked for a round of applause to show appreciation for a job well done. Ingrid Halverson thanked Rick Niven, Dave Hunt, Ed Thayer and Tom Taylor for all their help in assisting her with the school water problem, which is finally fixed. Carol Andrews invited everyone to look at the maps for the National Resource Inventory and to let her know if mistakes are discovered. Steve Marshall said he just finished a new web site design and that if you had any suggestion or information to be posted to let him know.

Guy Eaton moved to adjourn at 3:55 pm., seconded by Holly Eaton. All approved.

**Respectfully submitted,
Patricia A. Liotta Deputy
Town Clerk**

**A True Copy – Attest:
Patricia A. Liotta
Deputy Town Clerk**

Voice vote: passed

ARTICLE NINE: To transact any other business that may legally come before said meeting.

Ken Eastman said he was new to town, liked the Town Report because it broke down the percent of increase the article would add to your taxes. Ken asked if the School Board could do the same. The Board took it on as an action for next year.

Barbara Gaskell questioned the number of student names listed in the book. The Board responded by saying the some parents had refused to have their children's name listed. Barbara asked if at least the number of students in each grade be added to the report for next year allowing town residents to use an actual number in understanding the cost of education. The Board took it on as an action for next year. Sue Hofstetter had most of the number's, but said it wasn't complete, but if you wanted this year's numbers to contact her.

Mike Otterson publicly thanked the Board for a hell of a great job. John Corrigan thanked the audience for coming and for their continued support of education in Washington

Motion to adjourn at 3:30 pm was made by Al Krygeris and seconded by Tom Taylor.

Voice vote: passed

Moderator Eaton said the polls would remain open until 4 pm.

Respectfully submitted,
Patricia A. Liotta
Deputy School Clerk
A True Copy – Attest:
Patricia A. Liotta
Deputy School Clerk

as follows: for food service, sixteen thousand seven hundred dollars (\$16,700) and for Federal and State projects, forty thousand seven hundred and fifty dollars (\$40,750). Seconded by Sue Hofstetter. These appropriations have offsetting revenues from school lunch sales and state and federal revenues and do not affect the tax rate.

Voice vote: passed

ARTICLE SEVEN: Jonathan Bilski moved that the school district vote to raise and appropriate the sum of \$30,000 to add to the expendable trust fund created with the March 2005 Annual Meeting vote, for the purpose of paying for any unanticipated Special Education out-of-district tuition, related transportation and special therapy services and authorized the use of the sum of up to \$30,000 from the year-end undesignated fund balance (surplus) available on July 1 of 2006, if any, toward this purpose. Seconded by Ken Tanner. John Corrigan said the Board was not anticipating a surplus this year, but that if there were, it would go into the trust fund established last year. Otherwise the surplus could be returned to the taxpayer in the event there is a surplus. Mike Otterson said it was almost a mute issue because the Board does not anticipate a surplus so he urged a no vote. Charlie Fields also agreed and urged a no vote. Tom Taylor felt that if you didn't need it, why add to the trust fund and also supported a no vote. Diana Hanssen asked for an explanation as to why we should have this. John Corrigan explained it would be less of an impact if a single issue of special education came up during the year like last year and we had the money in the trust to cover it. Mike Otterson approached the board to clarify the definition "raise and appropriate" as defined by the State.

John Corrigan moved to allow non-residents to speak at the Annual School District Meeting. Seconded by Ken Tanner.

Voice vote: passed

Superintendent Baker addressed this issue along with the members of the Board. Larry Gaskell and Phil Barker were confused by the words in the context of the warrant article also. Charlie Fields said if there is no surplus why even have the article. John Corrigan said the school is not allowed to carry money over to the next year. Ron Jager clarified how the amendment should be changed. John Corrigan moved to amend the motion as follows: that the School District authorize the use of the sum of up to \$30,000 to add to the expendable trust fund created at the 2005 Annual Meeting from the year-end undesignated fund balance (surplus) available on July 1, 2006, if any, toward the purpose of paying any unanticipated special education out-of-district tuition, related transportation and special therapy services. Seconded by Jonathan Bilski.

Voice vote on the amended motion: passed

Voice vote: passed as amended

John Corrigan made a motion to delete Article Eight. Seconded by Ken Tanner

Voice vote: approved

The ballot box was shown to be empty by Moderator Eaton, and then locked and the polls were declared open at 2:15 pm and were closed at 4:00 pm.

ARTICLE FOUR: John Corrigan moved that the school district vote to raise the

sum of twenty-two thousand dollars (\$22,000) to reduce the general fund deficit

pursuant to RSA 189:28-a. Seconded by Ken Tanner. John Corrigan provided a

short presentation with charts to bring the Town up to date on the budget proposals. Ken

Eastman asked why are we appropriating money from next year's budget. John Corri-

gan explained that according to RSA 189:28-a II deficit money cannot be carried over

to next year's budget unless the money is appropriated. If the Town chooses not to fund

the deficit it could be taken out of special education trust fund, but if that is what is done

it could rain harder next year. Diana Hanssen asked how could it rain harder and John

said if we had any additional special education students move to town that weren't

budgeted for. John said that was what happened this year.

Voice vote: approved

ARTICLE FIVE: Jonathan Bilski moved that the School District vote to raise and

appropriate for the support of schools, the payment of salaries of School District

employees, and for the payment of statutory obligations of the District, the sum of

two million four-hundred and eighteen thousand seven-hundred and twenty-three

dollars (\$2,418,723) or take any other action in relation thereto. Seconded by Sue

Hofstetter. Ken Tanner, Sharon Cary-Taylor, Sue Hofstetter and John Corrigan using a

slide presentation explained the increases and adjustments of the budget proposal. Fol-

lowing the presentation Ken Eastman questioned teacher's pay scale, Phil Barker said

that the Board was tasked with reviewing insurance costs and member's share of the

cost. He was pleased in the change in compensation package, but questioned why most

corporations, schools, etc have a co-pay policy and not Washington. Jack Sheehy said

he's not against teacher and staff increases, but thinks it is excessive quoting informa-

tion given to him by Don Damm. On the insurance issue he suggested 10% co-pay and

thought the miscellaneous account could be reduced. He suggested cutting the budget

by \$40,000. Charlie Fields agreed with Jack Sheehy.

Jack Sheehy made a motion to amend Article 5, to reduce the budget by \$40,000.

Seconded by K Eastman.

Marcellus Liotta shared his personal experience in applying for a teaching position in

New Hampshire pointing out the extremely low pay scale of Washington as compared

to Connecticut and a lesser degree Peterborough where he accepted a position. John

Corrigan said if we take \$40,000 out of budget it comes out of the Washington school

budget. Lots of other things here at the school needed to be fixed but they are on hold.

Voice vote on amended motion: defeated

Voice vote on the main motion as written: passed

ARTICLE SIX: Sharon Cary-Taylor moved that the School District vote to accept and appropriate funds from state and federal aid for the support of school projects

THE STATE OF NEW HAMPSHIRE
WASHINGTON SCHOOL DISTRICT
ANNUAL MEETING MARCH 11, 2006

All portions of this report in bold type are sent to the State DRA as the legal record of the meeting.

The meeting was called to order by Moderator Guy Eaton at 2:00 pm. Moderator Eaton led the assembly in the Pledge of Allegiance to the flag, introduced School District and election officials and explained the rules of order that would be followed during the meeting.

ARTICLE ONE: The following people were elected to a School District office by nonpartisan ballot with 77 votes cast of the 748 registered voters in Washington:

Moderator: 1-year term
Guy Eaton
71

School Board Members for 3-year terms

John Corrigan
70
John Hyland
65
John Corrigan and John Hyland declared elected

Treasurer: 1-year term
Jean Bates
74
Jean Bates declared elected

Clerk: 1-year term
Janice Philbrick
71
Janice Philbrick declared elected

Write in candidates receiving fewer than five (5) votes were not included in this report.

ARTICLE TWO: Sharon Cary-Taylor moved to hear the reports of agents, auditors and committees or officers chosen and to pass any vote relating thereto. Seconded by Sue Hofstetter. John Corrigan explained that most of what would be discussed would come later with the presentations by several of the Board members.

Voice vote: approved

ARTICLE THREE: Jonathan Bilski moved to determine and appoint the salaries of the School Board, and fix the compensation for any other officers or agents of the District. Seconded by Ken Tanner

School Board Members: \$500
School District Clerk: 75
School District Treasurer: 500
School District Moderator: 100

sensitivity, particularly to educational matters, was a valuable contribution to the work of the Committee. I am extremely grateful that Sally Jenkins entrusted me and the Grant Committee with this very special responsibility and I trust that for all the years to come, that the work of the Trust Committee and the impact of the Trust will significantly enhance the quality of education, and as a result, the quality of life in our Hillsborough, Washington and Deering communities.

REPORT OF THE TRUSTEE OF THE DUNCAN JENKINS CHARITABLE TRUST

I am extremely pleased to report that 2006 was a very successful year for the Duncan Jenkins Trust. In addition to some of the regular programs that get support from the Duncan Jenkins Trust such as the Hillclat summer theater with its extraordinary production of The Sound of Music, the Washington teachers and their educational excursion to Vienna to study Mozart, and a group of first grade teachers on a Smithsonian trip to Alaska, we supported 54 students with approximately \$70,000 in scholarship aid. A variety of student trips, cultural programs in the schools and special enrichment programs for teachers, rounded out the grant program for 2006. In summary, we distributed a total of \$210,392; \$65,707 went to teacher enrichment programs, \$75,285 to student enrichment programs and \$69,400 to scholarships. There were a total of 41 grants for student enrichment and 26 grants for teacher enrichment.

Having complimented ourselves on the significant support for school programs, there is another aspect of the Trust which was extremely successful in 2006. Despite the fact that we spent \$210,392 in grants, the value of the Trust grew significantly through the performance of our investments. As I prepare this report, I don't have the year-end figures, but as of the first of December, the value of the Trust was in excess of \$6,000,000.00. Based on the decision of the Grant Committee to distribute 4% of the average value of the trust over the past three years, I expect we will be able to increase our grant capacity for 2007 to approximately \$225,000.00. This is an increase of over 10% from the amount allocated in 2006.

I continue to be honored and blessed to work with such a dedicated and committed Grant Committee. The effort that goes into this volunteer committee to read and evaluate grant applications, to bring their sense of community, their dedication to quality education, a love of the children from Washington and Hillsborough-Deering, and the extraordinarily high level of integrity to the table of our deliberations, is an asset that cannot be valued. I would like to particularly express appreciation to Steve Waters upon his retirement from the Committee for his contribution serving on the Grant Committee as a representative from the Hillsborough-Deering School Board. His insight and

Title I Report

Each year Washington Elementary School receives a Title I allocation that must be dedicated solely to assisting students who are struggling and who may be "at risk of failure." The goal of the WES Title I program is to give children in their early elementary years additional time with high-quality instruction in reading so they can make accelerated progress and become successful readers at their grade level. The Title I program does not replace regular classroom instruction, but adds to it.

Children are selected for the Title I program based on data from multiple assessments, teacher observation, and parent permission. Following the requirements of the No Child Left Behind Act, Title I supplementary instruction is provided by a part time highly qualified teacher and paraprofessional. Eleven students in Grades K-4 received services in 2005-2006.

The program is successfully accelerating student reading. This early intervention is clearly making a difference as most students identified for services in their primary years are on grade level in Grades 4 and 5. Research shows that extra help during these early years makes a significant difference in later academic achievement. Summer programs have also been offered as part of the Title I program.

Parent contact and outreach is a required part of the WES Title I program. The Washington School Board adopted a Title I Parent Involvement Policy in the spring of 2005 that can be read on the school's website, www.washingtonelementary.com. Both workshops for parents and student activities including parents have been offered during the school year. The school also offers a Parent Resource Room that is used by Early Learning parents as well as Title I parents. Title I funds support instructional salaries and supplies, professional development, parent involvement activities, class reduction, summer programs, and project management. The 2005-2006 Title I allocation was \$26,353.00.

Respectfully Submitted,

Catherine Terry

Title I Project Manager

- MAP (Measures of Academic Progress): This is the third year that Washington has used the MAP test for students in grades three through five. Students are tested three times during the year, in November, January, and May. Students are also tested at the end of grade two. This assessment is aligned with the New Hampshire Curriculum Frameworks and gives a breakdown in evenly scaled scores. The assessment gives teachers and parents much information on student skills and allows for flexible grouping and maximizing growth.

I look forward to working with you for the continued growth and achievement of each Washington student both in the Washington Elementary School and the Hillsboro-Deering Middle and High Schools. Thank you for your support of school programs.

Respectfully submitted,

Helène L. Bickford

Director of Curriculum, Instruction, and Assessment

INSTRUCTION

District-wide, the focus for professional development has been on supporting teachers new to the district, learning how to mine the wealth of data provided by the Measures of Academic Progress (MAP) test as well as other formative assessments, curriculum mapping, and Understanding by Design.

- MAP: The Leadership Team here participated in the "Climbing the Data Ladder" workshop held in Keene last spring. This has given them greater insight and understanding of how to access MAP data on their students and how to work on goal-setting and flexible grouping and instruction.
- PD/ERC: The focus of the Professional Development and Early Release Curriculum Work Days has been on curriculum mapping and UbD as noted above.

These will continue as the focus for professional development district-wide. The district is also working on building teacher leaders and drawing on local expertise. As mentioned above, we have trained lead teachers for the Web-based curriculum mapping and the work at each school on UbD.

ASSESSMENT

- As federal mandates require compliance with the "No Child Left Behind" legislation and Annual Yearly Progress, districts across New Hampshire saw a change in the state assessment program. Washington has selected the MAP test to look at student instructional level.
- NHEIAP (New Hampshire Educational Improvement and Assessment Program): Grade 10 took this for the final time last May. Students continue to make gains while remaining just below the state average. The district needs to make greater gains in the subgroup of students with identified educational disabilities.
- NECAP (New England Common Assessment Program): This is the second year New Hampshire has administered the NECAP. All students in grades three through eight tested in October. Students are tested on the Grade Level Expectations (GLEs) for the end of the previous grade. GLEs are based on New Hampshire Curriculum Frameworks.

Annual Report

Director of Curriculum, Instruction, and Assessment
2005-2006

I am pleased to have completed my first year at SAU #34 with the Washington School District. Much was accomplished yet there is much more to be done. I do appreciate the dedication, willingness, and talent of the school community continuing to work together ensures the continued growth of students and the improvement of learning.

CURRICULUM

SAU #34 is looking at three initiatives which are long-term and which together will guide and inform the work of the schools in increasing productivity and student achievement. All three initiatives are woven together to strengthen our curriculum and will ultimately help increase student learning and achievement. These are:

- Curriculum Mapping: In 2005/2006 teachers completed individual curriculum maps. This year we continue curriculum mapping, PK-12, using a Web-based program, Atlas Rubicon. Lead Teachers have been trained in each school to provide assistance with the technical aspect of mapping. Suzanne Lull is the Lead Teacher for Washington.

- Curriculum Revision: In 2005/2006 High School teachers and a Middle School teacher updated the English/Language Arts Curriculum Guide to include High School curriculum objectives. This year begins the five-year curriculum revision based on last year's Curriculum Audit. The Science Vertical Team has been meeting to plan the new science outline. World Languages has met with the NH Department of Education consultant and will work on competencies and a guide based on national standards.

- Understanding by Design (UbD): In 2005/2006 all teachers were given an overview of UbD and the second edition of the book by Wiggins and McTighe, *Understanding by Design*. This year all teachers received the *UbD Professional Development Workbook* and workshops were held for both beginning and advanced users of UbD. Future lesson design is to be based on identification of essential skills and core understandings using UbD. For this initiative, Lead Teachers have been identified for each school to provide focused discussion. Suzanne Lull is the Lead Teacher for this initiative as well.

schools.

As required by Individuals with Disabilities Act (IDEA), the district is required to locate, evaluate and identify children with disabilities, aged birth to 21, who are in need of early intervention or special education services. If you suspect your son or daughter may have a possible delay in development, please contact the office of Director of Student Support Services.

Respectfully Submitted,
Patricia Parenteau
Director of Student Support Services

year to review progress and address concerns.

The classroom housing the Life Skills Program at the high school anticipates some major changes as Wayne Crokus and his team of experts designed plans to renovate the classroom in order to meet the needs of students. While the Life Skills Program is tailored to meet individual student needs, its overall focus is on academic skills with a shift toward more functional programming and preparing students for independent living and working. Students' IEP goals typically include functional academic aspects of life skills areas. The goal is to prepare students for independent life, assisting them to improve their social and problem solving skills. Vocational and transition planning is a focus for students.

The High School Alternative Program provided academic, emotional and behavioral support to students identified with educational disabilities. Thirteen students from the Hillsboro-Deering Cooperative School District attended the program as well as three students who were tutored in from a neighborhood district. Through concerted efforts of the Alternative Program staff and collaboration with Bill Ryan, Consultant from SERESC there has been intensive focus on curriculum development and the use of thematic units with a hands-on approach. Students and parents are reporting positively regarding the instructional approach, and parents have shared a noticeable change in their son or daughter's attitude toward learning and attending school as a result. Community meetings have been introduced with a focus on team building, anger management and other character building activities. Recreational and challenge activities like swimming, hiking, orienteering, skiing/snowboarding and ropes course are planned in order to foster cooperative relationships between staff and students that translate into increased success in the academic classroom as well as in the community.

Four students who had participated in the Alternative Program graduated this year. Three of these students went on to college and another joined the United States Army. Parents have shared their appreciation and gratitude to the staff and expressed that without this program, their son or daughter would not have graduated.

In addition to individual schools' use of positive behavior interventions, a large number of school personnel have either completed their re-certification or have become newly certified in Pro-Act crisis intervention training under the direction of Dr. Jeremy Brooks, a consultant for the District. Overall, these skills have

Annual Report
Department of Student Support Services
2005-2006

The school year began under the new leadership of Joy Kiely, Director of Student Support Services. A vacant school psychologist position at the high school was quickly filled in October, completing the special education staffing needs of the district. Reallocation of para-professional positions led to two newly created special education office para-professional positions; one at Hillsboro-Deering Elementary School to assist preschool and elementary special education staff, and the other based out of the middle school to assist middle and high school special education staff. The goal is to provide assistance to special educators, and in turn, increase direct support to students, maximizing our resources.

Some parents continue to choose the option of educating their sons and daughters at home. The number of students being home-schooled that was reported to the SAU decreased from 77 students last year to 63 students this year. Forty-three students are from Hillsboro, 15 from Deering, four from Washington and one student from Windsor.

Washington Elementary School began with staffing and programming remaining consistent. The number of students identified with educational disabilities was fifteen which represents approximately 19% of the school district's elementary school-aged population.

This was the first year that Measures of Academic Progress testing was administered at Washington Elementary School. The results were used to target skill areas to reinforce with students with educational disabilities.

The end of the year marked a significant change for the Middle School as Linda Raines announced her retirement. Linda was passionate about the needs of students receiving special education and was very supportive of the special education staff. Her work was greatly appreciated by many.

The High School staff has been working on efforts to improve collaboration between regular educators and special educators. Special educators worked on developing their collaboration skills to ensure student access to the general education curriculum. Plans are to continue pursuing the Collaboration Model at HDHS. Nine teachers will participate in a two-day Collaboration Summit presented by Carol Kosnitsky, the District's Special Education Technical Assistance Consultant. The team will continue to meet over the course of the following

LEADERSHIP TEAM REPORT

After a busy summer with the Bookmobile, tutoring, and an enriching trip to Austria sponsored by the Jenkins Trust, the WES staff entered the 2006 school year with renewed energy and enthusiasm. We hired new staff and reconfigured our classes to best meet the needs of our 79 students. Erika Sullivan moved over from the Conval School District to join our staff as a half-time kindergarten teacher. Jeanine Clarke-Edmunds, our Art teacher, gave birth to a baby boy and took a maternity leave. Mary Ann D'amato, an experienced art educator at St. Joseph's School in Keene stepped in to fill this void. Both teachers have brought a wealth of ideas and experiences to share with the students at our school.

As we continue to strive for academic excellence, several new initiatives were implemented. Results from MAP (Measures of Academic Progress) computerized assessments allowed us to pinpoint weak areas and tailor instruction. A new reading series, aligned with state language arts standards, was purchased through the REAP grant to address deficiencies and to ensure that all grade level expectations are met. We analyzed MAP scores in reading, language usage, and math, developed strategies to improve scores, and shared test results with parents. Staff worked on professional development goals, learned to map curriculum, and continued to participate in committees and conferences devoted to issues in education. In 2006, all para-educators at Washington Elementary became certified. We are proud of their hard work and commitment to our students.

In addition to academic excellence, we continue to emphasize leadership, teamwork, and community service. On the 100th day of school, students rallied together to bring in canned goods for local food pantries. The Student Council also held a Jump-a-Thon to raise money for the American Heart Association. These activities allow students to see that they can make a difference in the world.

Our successes and accomplishments at Washington Elementary are due to the hard work and exceptional support of our students, parents, and community members. Our tireless staff, School Board and SAL work diligently to make our school the best that it can be. Thank you for another terrific year.

Submitted by

Washington Elementary Leadership Team

This report provides an overview of the Washington School District's efforts of the last year. It offers highlights of accomplishments and a summary of areas where additional improvement is required. However, while we must be mindful of financial figures and test scores, they are but a piece of the puzzle we work to complete each day - the achievement and well being of our children.

I would particularly like to acknowledge the dedication of our school board members and the WFS staff who spent countless hours focusing on student outcomes in academic achievement and personal development/citizenship. As always, our teachers, staff members and leadership team showed extraordinary commitment to serving the needs of all students and many community volunteers supported their efforts both inside and outside of the classrooms. I have pledged myself to the vision of this school district, to provide for the successful future of each of our students. By working together, I am confident that we can be a SAU where, when asked, "How are the children?" we can truly respond as a community, "All the children are well; very well."

Respectfully submitted,

Barbara K. Baker, Ph.D.
Superintendent of Schools

Annual Report
Superintendent of Schools
2005-2006

I am proud to present this year's annual report. The Washington School District continued to strive for excellence in 2005-2006. The school has a staff dedicated to our vision to provide a challenging, engaging and safe school, connecting each child to a successful future, everywhere and every day. The 2005-06 school year rendered remarkable accomplishments and significant challenges as we continued our quest to educate young people in Washington Elementary and Hillsboro-Deering Middle and High Schools.

We live in an era of unprecedented testing of student knowledge of core curriculum. The No Child Left Behind (NCLB) federal legislation continues to demand more accountability for student achievement. New state standards call for early identification and intervention procedures for struggling students. NCLB requires the school district to bring every student to academic proficiency, with no exceptions, by 2014. State educational standards are assessed through the New England Common Assessment Program (NECAP) taken by all students in grades 3-8 and NHFIAF in grade 10. We are seeing steady improvement in those scores as the staff at each of five SAL schools engage in meaningful data analysis to pinpoint areas for increasing achievement and curriculum alignment. Additionally, Washington Elementary school assesses student progress three times each year with the MAP assessment (Measured Academic Progress), allowing students and teachers to plan for instruction to meet the specific needs of each child.

This year, Education Commissioner, Lyonel Tracy, initiated the "Follow The Child" campaign, challenging all of us to focus more on individual student progress. The goals of this initiative are to provide "a personalized education that helps New Hampshire students learn today, graduate tomorrow, and prepare for the future by supporting their personal, social, physical and academic growth." To learn more about the Commissioner's plan, see the New Hampshire State Department of Education website at www.ed.state.nh.us. As a SAL, we have faced - and will continue to face - a number of very high hurdles: growing enrollments, a more diverse student population, increasingly rigorous state and national accountability standards, and the need for adequate and more equitable education funding. In 2005-06, the SAL made strides in meeting these challenges. But, as always, there is much work to be done.

rently addressing additional maintenance needs including repairing the broken air handler unit and bathroom ventilation fans; evaluating the need for electrical improvements to bring the system up to code and replacing the dishwasher. Next year's budget reflects a significant increase in transportation costs resulting from the need to double the number of Washington buses to support the single start time under consideration for Hillsboro-Deering. We are also faced with mandatory increases in the District's contributions to the NH Retirement System, as well as health insurance and tuition rate increases. However, an anticipated budget surplus should help offset the tax impact of these expenditures in the coming year.

As fellow taxpayers, parents, grandparents and supporters of academic excellence, Washington's School Board members strive to promote the best possible educational value for our collective tax dollars. We welcome your input and thank you for your continued support.

**Washington School Board Report
For Year 2006**

At a time in New Hampshire history when the challenges of defining and funding an adequate education make daily headlines, the Washington School District continues to pursue resourceful ways to provide the best possible education for all its students, while maintaining a fiscally conservative approach. The Washington School Board has adopted three strategic goals to serve as the basis for all decision-making:

- Improve Academic Performance in the four (4) core curricular areas, Math, Language Arts, Social Studies, and Science,
- Ensure effective fiscal management to achieve the goals of the educational plans, and
- Improve public perception.

The Board applies these goals as a "litmus test" when making key decisions and for prioritizing the use of resources. Since the SAV and Hillsboro-Deering Boards have also embraced the same criteria, a shared unified vision for achieving excellence has emerged.

Under the capable direction of the Leadership Team, Washington Elementary School's teachers and staff offer students in grades K-5 a full complement of educational opportunities designed to meet individual needs, expand horizons and master the core subject areas.

The Washington School Board has made a concerted effort to stay connected with the town's middle and high school students who attend Hillsboro-Deering schools. Each month our student School Board member, Rachel Halverson, keeps us informed of academic and social activities at the middle and high schools. Dr. Baker's monthly Superintendent's report also highlights programs aimed at meeting the District's strategic goals.

One of the Board's principle duties is to set policies in accordance with State standards. This year, we have focused a considerable portion of each monthly meeting on the task of reviewing and adopting all required policies in accordance with the State's RSAs and regulations, and we expect to complete this task by spring of 2007.

On the budget front, the Board has worked diligently to address known problems with the Washington Elementary School facility. This year we replaced the failing heating system with a new twin-boiler configuration. We are cur

INDEPENDENT AUDITOR'S REPORT

To the Members of the School Board
Washington School District
Washington, New Hampshire

We have audited the accompanying financial statements of the governmental activities and each major fund of the Washington School District as of and for the year ended June 30, 2006, which collectively comprise the Washington School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on the financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Washington School District as of June 30, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Washington School District's basic financial statements. The individual fund schedules are presented for the purposes of additional analysis and are not a required part of the basic financial statements. They have been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ARTICLE 6. To see if the school district will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to add to the expendable trust fund created with the March 2005 Annual Meeting vote, for the purpose of paying for any unanticipated Special Education out-of-district tuition, related transportation and special therapy services and authorize the use of the sum of up to \$20,000 from the year-end undesignated fund balance (surplus) available on July 1 of 2007, if any, toward this purpose? (Recommended by the School Board) (This article is estimated to add \$.08 to the tax rate.)

ARTICLE 7. To see if the school district will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to add to the expendable trust fund created with the March 2005 Annual Meeting vote, for the purpose of repairing and maintaining school buildings and grounds, and further, to appropriate, and authorize the use of, the sum of up to \$20,000 from the year-end undesignated fund balance (surplus) available on July 1 of 2007 if any, toward this purpose? (Recommended by the School Board) (This article is estimated to add \$.08 to the tax rate.)

ARTICLE 8. Shall the school district accept the provisions of RSA 198:20-b providing that any school district at an annual meeting may adopt an article authorizing indefinitely, until specific rescission of such authority, the school board to apply for, accept and expend, without further action by the school district, unanticipated money from a state, federal or other governmental unit or a private source which becomes available during the fiscal year? (Recommended by the School Board.)

ARTICLE 9. Shall the voters of the Washington School District within school administrative unit number 34 adopt the provisions of RSA 194-C:9-b to allow for insertion of the school administrative unit budget as a separate warrant article at annual school district meetings? (By petition) ARTICLE 10. To transact any other business that may legally come before said meeting.

Given under our hands at said Washington on this 13 day of February 2007.

School Board

THE STATE OF NEW HAMPSHIRE
WASHINGTON SCHOOL DISTRICT
SCHOOL WARRANT

To the inhabitants of the School District in the town of Washington
qualified to vote in District affairs:

You are hereby notified to meet at the Washington Elementary
School in said District on Saturday the 10th day of March 2007 at
two o'clock in the afternoon to act upon the following:

ARTICLE 1. To choose by nonpartisan ballot the following School District
officials:

Two School Board Members for 3-year terms
One Moderator:
1-year term

One Clerk:
1-year term

One Treasurer:
1-year term

ARTICLE 2. To hear the reports of agents, auditors and committees or offi-
cers chosen and to pass any vote relating thereto?

ARTICLE 3. To determine and appoint the salaries of the School Board, and
fix the compensation for any other officers or agents of the District as
follows:

School Board Members: \$500

School District Clerk: \$75

School District Treasurer: \$500

School District Moderator: \$100

ARTICLE 4. To see if the School District will vote to raise and appropriate
for the support of schools, the payment of salaries of School District
employees, and for the payment of statutory obligations of the District,
the sum of two million five-hundred and fifty-four thousand five-

hundred and six dollars (\$2,554,506) or take any other action in relation
thereto? (Recommended by the School Board) (This article is estimated to add
\$8.68 combined local and state school tax to the tax rate in 2008. This repre-

sents an estimated \$.05 decrease in the tax rate.)

ARTICLE 5. To see if the School District will accept and appropriate funds
from state and federal aid for the support of school projects as follows:
for food service, eighteen thousand one hundred and fifteen dollars

(\$18,115) and for Federal and State projects, thirty-six thousand eight
hundred and seventy dollars (\$36,870)? These appropriations have
offsetting revenues from school lunch sales and state and federal

revenues and do not affect the tax rate. (Recommended by the School
Board)
