Office Hours by Appointment

Monday and Thursday 2:30 - 3:50: Synchronous Learning Environment

Course Description:

HUM 102 is an introduction to writing using both primary and secondary sources. While building on the skills you learned and practiced in HUM 101, HUM 102 asks you to develop research questions, find and cite sources, conduct your own primary research, and synthesize elements of research into a coherent whole. To do so successfully, you will be asked to understand and interpret sources and put them in conversation with each other, as well as correctly document and attribute them. Overall, the general purpose of this class is to set you up for research and writing success in your future courses, both inside and outside of your major.

Course Goals:

During this course you will:

- Explore and refine research topics
- Find, evaluate and choose sources effectively
- Practice writing from primary and secondary research, developing different types of research projects that use fieldwork, library, and online research methods
- Demonstrate knowledge of the conventions of bibliographic citation

- Demonstrate an understanding of intellectual property, plagiarism, and the importance of distinguishing between source material and one's own work.
- Draft, review, and revise multiple versions of a single writing project

Required Texts: NJIT Custom Textbook- Available at the University bookstore or through Top Hat HUM 102 Introduction to Academic Research 2019-2020 (Editor/Compiler: Dr. Megan O'Neill)

Critical Research Paper

In HUM102, the Critical Research Paper should be a well-written, analytical, researched, and documented paper based on some convergence of science and technology. The issue must be debatable. This research should reflect a close, careful reading of strategic sources and demonstrate thorough critical analysis. The final paper should be roughly 10-12 pages in APA format and contain 8-10 sources (primary and secondary).

Learning Outcomes:

After completing this class, students will improve their writing and research skills, enhance their knowledge of media and how media information can assist in success, and will be better prepared for the demands of other coursework and career expectations.

Classroom Policy/ Class Etiquette

Our classroom is a forum for discussion and cultivation of ideas, and the home of our writing community. It is expected that we will treat each other with respect. No form of sexism, racism, ageism, elitism, or other toxic behavior will be tolerated.

The following rules are in place to keep our space safe and foster an atmosphere of intellectual growth and curiosity:

Cell phones and other electronic devices are to be stored out of sight and turned to silent once our class begins, unless being used to access the class.

I expect that, as adults, you will practice **proper etiquette**.

1. This means that you will refrain from texting in class, surfing the web or allowing yourself to be distracted from the task at hand.
2. Always come to class prepared to discuss the readings or to work on drafts. You are expected to take notes during class discussion, as well as being prepared for class discussion with questions/comments on the assigned readings This means having your course text(s) and other required materials with you (pen/pencil/highlighter, peer review sheets, appropriate number of drafts, handouts, etc.).
3. Participate in each class regularly. This includes raising questions about the texts, responding to others' questions, proposing interpretations, and making

connections between our assigned texts. You should complete all reading prior to class, bring it with you, and be prepared to discuss it with your classmates.

4. Exchange phone numbers with a classmate so that if you are absent, you can catch up on any announcements or changes discussed in class. Do not prepare to leave before the class has ended.

Failure to comply with any aspect of this classroom policy may result in your being asked to leave the class and/or being considered absent for that class period.

Netiquette:

In order to maintain a positive online environment for this class, everyone needs to follow the netiquette guidelines summarized below. All learners are expected to:

1. Show respect for the instructor and for other learners in the class
2. Respect the privacy of other learners
3. Express differences of opinion in a polite and rational way
4. Maintain an environment of constructive criticism when commenting on the work of other learners
5. Avoid bringing up irrelevant topics when involved in group discussions or other collaborative activities

The following list summarizes the kind of behavior that is not acceptable. Learners should not:

1. Show disrespect for the instructor or for other learners in the class
2. Send messages or comments that are threatening, harassing, or offensive
3. Use inappropriate or offensive language
4. Convey a hostile or confrontational tone when communicating or working collaboratively with other learners

Synchronous Learning:

At this point, unless something changes, we will meet virtually during our scheduled class time. This is called synchronous learning because all students are working and attending the class at the same time. Regarding attendance, you are responsible for attending each class session, unless otherwise specified; attendance will be taken.

What to expect from a Synchronous Learning Environment: A self-disciplined student will find online college courses to be rigorous, challenging, and engaging. A typical online college course will require as much or more work as a traditional college course. Most online courses require substantial reading and writing skills to master the subject. You should expect to spend 15-20 hours per week working in the course in

order to complete the learning activities and assignments, take quizzes or exams, and participate in the classroom discussions.

Being a successful student requires knowing where to go for the information you need and activities you are to complete.

Become familiar with the Canvas environment and the technology necessary to be successful in an online classroom. You will want to learn how to: access course materials, communicate with classmates and your instructor, submit homework, take tests/submit essays, and check your grades.

Students enrolled in synchronous learning courses need good time management and communication skills to be successful. Below are guidelines to help you be a successful online student:

- Pace yourself. You will need to pace yourself and stay on top of the course schedule at all times. You also will need to set aside blocks of time to do your coursework when you will not have distractions. Be diligent and protective of your study time.
- Do not fall behind. If you must be away from the course for a legitimate reason such as illness, contact your instructor immediately and arrange for when you will be able to get caught up with your coursework.
- Follow up with your instructor(s) if you think something is wrong within the course. It may be that you missed something and need clarification, or that the instructor has not had a chance to respond to something in a timely manner.
- Engage yourself. You will need to communicate regularly with your instructor(s). You also will engage with your classmates in discussion forums or other types of learning activities. The more you communicate within the course, the more comfortable you will become with your instructor and classmates.
- Log into the course often and check for new announcements, assignments, and messages.
- Review the course schedule and keep track of due dates for projects, assignments, exams, etc.
- Ask questions when you don't understand something, and don't wait until the day before an assignment is due or you may not be able to get the help you need.
- Save all your work in the appropriate file format, such as MS Word, Google Docs or Excel, PDF, or other file format that the instructor can download and open. Save all your work in a safe and recoverable storage location, such as an external hard drive.

- Contact the helpdesk if you have a technical problem accessing the course. You can contact them at this link: mtss@njit.edu

Robert W. Van Houten Library:

TO EXCEL IN THIS COURSE, you are expected to be able to locate and use web AND library resources effectively and cite them correctly. Googling alone will not suffice. Most of the library materials are available online 24/7 from anywhere. Try a search in the SEARCH ALL interface. Davida Scharf is an expert researcher and our librarian for the Humanities Department. She has prepared a Research guide for all writers you may find useful. Feel free to contact her at scharf@njit.edu or any of the librarians via chat, email, or in person. Self-help materials on finding books and articles can be found in the Tutorials Guide and on many of the other Research Guides.

Communication Class Cancellations: Students will be informed via email and via Canvas if class is canceled.

Campus Email: It is vital that students check their NJIT email accounts regularly for announcements, changes, and cancellations. Announcements will also be posted on Canvas.

Center for Counseling and Psychological Services:
