COMMENCEMENT

Spring 2020

COMMENCEMENT

Spring 2020

LETTER FROM THE PRESIDENT

Congratulations on your graduation from the University of Iowa!

Today is an exciting and proud day in the life of the university—when our students, their friends and family, and their teachers and mentors celebrate the completion of a University of Iowa degree. One of the greatest badges of pride you will wear from this day forward is your degree from the University of Iowa. The contributions you will make to the world will be rooted in the unique character of an Iowa education, so when you say you are an Iowa graduate, that carries a very special meaning.

Your graduation is occurring during an extraordinary time in history. The pandemic has changed the way we do everything for the time being, including how we are celebrating your commencement. Even as we recognize your college graduation in a different way, our pride in your accomplishments remains as strong and bright as ever. We stand together as Hawkeyes today with dignity and joy as always, and I believe with even greater strength and purpose. On this day we must honor you at a distance, but our virtual handshake is just as warm and hearty as if we had gathered on campus. And when our campus opens again, we hope you will visit us so we can give you that handshake you so richly deserve in person.

No matter where you work and live in the years ahead, we encourage you to stay connected and involved through ForIowa.org. There you will find information and inspiration to keep you connected to the UI as we continue to combat the current crisis, and after it has passed, you will learn how to reconnect with fellow Hawkeyes at home and elsewhere. You will find locations of Iowa Clubs across the country (and world!) that provide good company for game watches and service activities. You can also access alumni resources and networking opportunities, stay up to date on university happenings by subscribing to the *Iowa Magazine* and newsletter, and join alumni affinity groups to stay in touch with alumni who share some of your most important Iowa experiences.

When we are once again able, we will come visit you as well! Members of the university community travel the country every year to bring the campus to your community, to share updates about the exciting advances and innovations happening at the university, and to give Hawkeyes a chance to gather with each other and celebrate their Iowa pride.

As you transition to the next phase of your life, we will continue to think of you as part of our university family and hope to always be an important part of yours. And of course, we hope you will come back to visit us when you can.

Again, congratulations on all your achievements. And remember, Once a Hawkeye,

Always a Hawkeye!

A handwritten signature in black ink that reads "J. Bruce Harreld". The signature is written in a cursive, flowing style.

J. Bruce Harreld
President

An aerial photograph of a university campus at sunset. The sun is low on the horizon, casting a warm, golden glow over the scene. In the foreground, a wide river flows through the campus, with a bridge crossing it. The campus buildings are scattered across the landscape, some with red brick facades. The sky is a mix of orange, yellow, and blue. The overall mood is peaceful and reflective.

Hawkeyes standing together, apart

Spring semester 2020 was a strange one, to be sure. And a scary one. As the novel coronavirus spread across the country and worries intensified, campus life seemingly changed overnight.

Students were asked to make sacrifices mid-semester to maintain health and safety. Instruction was moved online, residence halls were shuttered, internship and study abroad programs were suspended, athletic competition was cancelled, stages went dark. And—in a gut punch for many graduating students—traditional spring commencement ceremonies were called off.

Despite the challenges set before them, however, Hawkeyes stepped up:

A senior in history and secondary education rallied a group of her healthy peers to run errands for and deliver groceries to community members whose immune systems were compromised, while a senior biomedical engineering student created a website mapping food and meals available at area schools, food banks, and soup kitchens.

Medical students transitioned their in-person mobile clinic to a telehealth clinic so they could treat uninsured and underinsured patients while also practicing social distance. And many student employees of UI Hospitals & Clinics, from undergraduate nursing assistants to fourth-year doctoral candidates in pharmacy, continued to report for duty.

Several Cambus student employees switched gears and took shifts driving delivery trucks to provide clean linens to UI Hospitals & Clinics. They even helped with folding laundry.

Faculty members mentored peers on technology and how to transition to online instruction. One drove across the state to deliver a laptop to a student in need.

Countless individuals and teams across campus secured or constructed personal protective equipment, including face shields, face masks, surgical caps, and other items, to boost the supply needed by health care workers.

Alumni and friends of the university answered the call for donations to the Student Life Emergency Fund, helping students adversely affected by the pandemic, as well as the UI Health Care Staff Emergency Fund, providing assistance to caregivers with urgent needs.

Research teams across campus, meanwhile, rushed to aid in the crisis, whether investigating treatments for COVID-19 or designing computer models to predict the spread of the disease or assisting educators in the effective delivery of online instruction.

These are just some examples of how the Hawkeye family united in an inspiring show of strength and resilience. Coming together for the greater good—that's the Hawkeye way.

Decades from now, when 2020 graduates recall their time as University of Iowa students, their last semester will likely stand out for many reasons, not the least of which will be due to the lessons learned during this global pandemic. The sacrifices made were not for naught—in fact, they illustrated what is possible when we collaborate, even in isolation. What is possible when we stand together, even when we're apart.

Our graduates will always be Hawkeyes. And they will be better for it.

ABOUT THE UNIVERSITY OF IOWA

The University of Iowa is one of the nation's premier public research universities, with **32,535 students** from **114 countries** and **all 50 states**. Founded in 1847, it is Iowa's oldest institution of higher education and is located alongside the picturesque Iowa River in Iowa City.

A member of the Association of American Universities since 1909 and the Big Ten Conference since 1899, Iowa is home to one of the largest and most acclaimed medical centers in the country, as well as the famous Iowa Writers' Workshop.

In pursuing its missions of teaching, research, and service, the university seeks to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to educate students for success and personal fulfillment in a diverse world.

The University of Iowa carries out its academic mission primarily through its 11 colleges, which offer undergraduate and graduate education, professional education, and education and training in the health sciences.

A Proud Tradition of Progress

Hawkeyes have always challenged barriers that prevented driven student from pursuing an education. This heritage of continuous progress shapes our community today as we endeavor to create a welcoming home for every perspective.

First university in the state of Iowa

First public university to admit men and women on an equal basis

First to officially recognize an LGBT student organization

First to broadcast educational television

First to offer the Master of Fine Arts degree

First college of law west of the Mississippi

First college of education in the country

GRADUATION HONORS

High scholastic achievement is recognized at graduation in two ways: graduation with distinction (based on grades only) and graduation with honors in a particular field (based upon both grades and the completion of special work as outlined by the college and the major department).

Graduation with Distinction. The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average (GPA) upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the Colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

With Highest Distinction	Highest 2%
With High Distinction	Next Highest 3%
With Distinction	Next Highest 5%

Graduates with distinction in University College must complete a total of 45 semester hours in residence; 30 must be completed prior to final registration. Recognition is determined as follows:

With Highest Distinction	3.90–4.00 GPA
With High Distinction	3.80–3.89 GPA
With Distinction	3.75–3.79 GPA

In the undergraduate programs in the College of Medicine:

With Highest Distinction	3.85 GPA or above
With High Distinction	3.75–3.84 GPA
With Distinction	3.65–3.74 GPA

In the Colleges of Nursing and Education:

With Highest Distinction	3.90 GPA or above
With High Distinction	3.80–3.89 GPA
With Distinction	3.75–3.79 GPA

In the College of Pharmacy:

With Highest Distinction	4.0 GPA or above
With High Distinction	3.75–3.99 GPA
With Distinction	3.50–3.74 GPA

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation *with highest distinction*; two, *with high distinction*; and one, *with distinction*.

Graduation with Honors Degrees. Students may graduate with both departmental honors and university honors. Departmental honors recognizes excellence in a student's major area(s) of study, whereas university honors recognizes a breadth of academic accomplishment. Departmental honors requires additional work by the student, commonly a scholarly project or creative piece completed under the mentorship of a single faculty member, that goes beyond the regular requirements for the major. University honors requires the completion of a flexible curriculum of honors coursework and experiences—such as research, study abroad, or internships—woven into the student's undergraduate education. Liberal arts and sciences and education candidates who are graduating with departmental honors wear white cordons draped over the shoulders, and university honors is recognized by a medal on a black-and-gold lanyard worn around the necks.

ACADEMIC COSTUME

The academic costume code recognizes three styles of gowns: bachelor's, master's, and doctoral. In May 2000, the Graduate College commemorated its centennial year with a new doctoral gown; the main differences can be seen in the trimming, cut, and shape of the sleeves. Hoods also denote degrees and may vary; the more elaborate adornments designate higher levels of degree attainment. The shell of the hood matches the black material of the gown, and the lining color represents the institution granting the degree. University of Iowa hoods are lined in old gold. The color of the velvet hood border indicates the field of study to which the degree pertains. At the University of Iowa, only doctoral degree candidates wear hoods. The velvet trim on hoods corresponds to colors established in the intercollegiate code.

The Oxford cap is proper for all degrees and can be worn both indoors and out with academic costume. The tassel, worn over the left eye, symbolizes the degree to be conferred on the wearer; tassels conform to the code colors for hood trimming.

Institutional practice may vary from the established code. University of Iowa candidates for degree display tassels corresponding to the college from which their degree will be granted.

Business: sapphire blue
Dentistry: lilac
Education: black and gold

Engineering: orange
Graduate: black
Law: purple

Liberal Arts and Sciences: white
Medicine: green
Nursing: apricot

Pharmacy: olive green
University College: white

PRESIDENTIAL EMBLEM

The jeweled gold medallion worn by the University of Iowa president during commencement ceremonies and other formal academic events on campus was designed as an emblem of the university's presidency by Karen Cantine when she was a graduate student in the UI School of Art and Art History.

Featuring an abstract UI motif in the university's colors—old gold and black—the emblem was first used in the investiture of Howard R. Bowen as the university's 14th president during inauguration ceremonies on Dec. 5, 1964.

Four-and-one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is nearly an inch in diameter. A slightly smaller topaz is set in the link that attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one at the end of each "spoke."

Designing and making the presidential emblem was part of Cantine's work for a Master of Arts degree in metalwork and jewelry design.

CANDIDATES FOR DEGREE

GRADUATE COLLEGE

Founded in 1900, the University of Iowa Graduate College manages the enrollment and degree progress of nearly 5,000 students from over 100 graduate programs in 10 different colleges spanning the arts and humanities, biological sciences, health sciences, engineering, education, physical sciences, social sciences, and business.

The mission of the Graduate College is to foster an intellectual environment conducive to exemplary research, scholarship, and creativity among graduate students, postdoctoral scholars, and faculty. The college makes every effort to ensure that the graduate programs offered by the university are of a high quality and stimulate the creation of new knowledge and information, and that these efforts simultaneously benefit both graduate and undergraduate student learning. The Graduate College serves as an advocate for graduate education, allocates resources that support graduate students and programs, manages policies and procedures to establish and assess graduate programs, and fosters interdisciplinary programs.

HENRY B. TIPPIE COLLEGE OF BUSINESS UNDERGRADUATE PROGRAMS

The University of Iowa first offered courses in economics and business in 1858. The School of Commerce was formally established in 1914 and was later renamed the College of Business Administration in 1921. The college received national accreditation in 1923 and has held that accreditation ever since.

The college was renamed the Henry B. Tippie College of Business in 1999 in recognition of a significant gift from 1949 alumnus Henry B. Tippie. Today, there are more than 4,000 students in the college working toward Bachelor of Business Administration (BBA), Master of Accountancy (MAc), Master of Business Administration (MBA), Master of Science (MS), and doctoral (PhD) degrees.

With more than 50,000 living alumni around the globe, the Tippie College of Business continues its long tradition of having an impact on the world.

HENRY B. TIPPIE COLLEGE OF BUSINESS GRADUATE MANAGEMENT PROGRAMS

The Tippie College of Business MBA Programs are committed to developing ethical global leaders who will thrive in a world that demands innovative approaches to business practice. We pursue this mission through a combination of programs across the state of Iowa and around the world, including Hong Kong and Italy. The Executive MBA program operates in Iowa City and Des Moines, whereas the Professional MBA program operates in Cedar Rapids, Des Moines, and the Quad Cities (as well as fully online).

Iowa MBA Programs have a particularly important impact on economic development in the state of Iowa as students typically represent over 400 corporations, educational institutions, and not-for-profit organizations across the state. National reach continues to expand with growth of the Online MBA program, which is trending 50% non-Iowa participants. International aspects—including unique overseas programs, a robust international student population, and engaging international study trips—serve to provide a true global perspective for our graduates. This enhances personal as well as professional understanding of our complex and dynamic business environment.

COLLEGE OF DENTISTRY

Dental education began at the University of Iowa in 1882 with 14 students, four faculty members, and a budget of just over \$1,000. Patients were treated in an improvised clinic equipped with borrowed barber chairs. Today, the College of Dentistry is among the leading dental schools in the United States. The college offers academic programs in all advanced-education dental programs, including opportunities for continuing education, full courses of study for dental and graduate students, and PhD-level programs.

The college has a long history of graduating students who become nationally prominent clinicians, dental educators, and researchers. More than 4,600 living alumni perpetuate the college's tradition of excellence as they distinguish themselves with contributions to their professions and our society.

COLLEGE OF EDUCATION

The University of Iowa College of Education is the highest ranked of its peers in Iowa and recognized nationally—in the top 2% for secondary education and the top 6% for elementary education. The college’s roots reach all the way to the UI’s founding: Teacher education was the only program specifically called for when legislators created the State University of Iowa in 1847, just 59 days after Iowa became a state.

The college awards eight BA majors—one in Elementary Education and seven for secondary teaching (Art Education, English Education, Foreign Language Education, Mathematics Education, Music Education, Science Education, and Social Studies Education), which complement majors in liberal arts and sciences. Currently, the college enrolls approximately 550 undergraduate teacher candidates.

The college’s graduate programs are also highly acclaimed, ranking in the nation’s top 20. More than 550 graduate students are enrolled, and graduates serve as teachers, counselors, psychologists, principals, superintendents, testing specialists, and higher education leaders both in Iowa and across the nation.

COLLEGE OF ENGINEERING

The College of Engineering at the University of Iowa is recognized for its groundbreaking research; hands-on, personalized learning; and education that connects our students to a wide range of disciplines and resources. We position our students for success while on campus and in their careers beyond the university by providing them with the tools and experiences that will make them successful engineers who will have a global impact. Becoming an engineer at Iowa—an engineer and something more—is rooted in our commitment to combining engineering education and research with other areas of academic excellence across the university, including international studies, writing and communications, health sciences, business, law, arts, and humanities. This approach has helped establish the University of Iowa as the place to educate and train talented engineers who can address grand global challenges in a rapidly changing world.

There are more than 16,000 Iowa engineering alumni living and working throughout the world—4,800 in the state of Iowa—many with corporate and personal ties to the college through recruitment, mentoring, guest seminars, faculty consulting, sponsored research, financial giving, and other interactions.

COLLEGE OF LAW

The University of Iowa College of Law prepares its students to become tomorrow's leaders in law, government, and industry. Our leading law library, global curriculum, and strong writing tradition underpin the world-class legal education we provide. Through our live-client clinics and a wide range of externship placements, our law students hone their skills and embrace the highest ideals of the legal profession by providing legal services to the indigent and working on law reform for the improvement of the general welfare. Iowa-educated lawyers begin making a difference very early in their careers.

Our alumni practice law from Wall Street to Silicon Valley, from London to Beijing, and in almost all of Iowa's 99 counties. As corporate counsel, they advise business leaders, and as chief executive officers, they run businesses. They are state and federal judges, appointed officials, elected leaders, law professors, and university presidents. They can be found in classrooms, courtrooms, and boardrooms in every state in the nation, and around the world.

The College of Law ranks among the best law schools in the United States, public or private. But as a public law school, we take our missions of access, affordability, and service seriously. To fulfill our promise to the public we serve, we draw upon the breadth and depth of the law school's assembled expertise to create new knowledge and to address the weightiest problems confronting modern society. We are grateful to the state of Iowa and the many individuals whose support contributes to our successes.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences invites students to explore the entire range of human learning, from the visual and performing arts to the humanities, social sciences, and natural and mathematical sciences.

Our students work with faculty members who are committed to integrating their research into their teaching and to helping students develop their own capacity to communicate persuasively, think creatively, adapt quickly, be open to emerging ideas and technologies, and work with colleagues with diverse expertise and backgrounds to solve problems and develop new frontiers.

In 1900–01, the college had about 600 students in its four “courses of study,” and a faculty consisting of only 28 professors and assistant professors. Today, more than 17,000 undergraduates are enrolled every year. About 80% of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award about 70% of the university’s undergraduate degrees.

We are grateful to the many alumni who continue to support the college with their time and expertise and who have helped to provide funding to create opportunities and scholarships for our students. Most important, we are proud of our hardworking graduates who carry their University of Iowa College of Liberal Arts and Sciences education into their professional and civic lives.

ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Roy J. and Lucille A. Carver College of Medicine is an integral part of University of Iowa Health Care, the state's only comprehensive academic medical center, which also includes UI Hospitals & Clinics and UI Physicians, the state's largest multispecialty group practice. Educated in an atmosphere of scholarship, humanism, and respect, students acquire the knowledge and skills necessary to embrace advances in medical science and technology and serve as advocates for their patients, their profession, and their communities

The Carver College of Medicine is the only college in the state of Iowa that offers a curriculum leading to the Doctor of Medicine. It also awards degrees in Doctor of Physical Therapy, Master of Clinical Nutrition, Master of Clinical Anatomy, Master in Medical Education, Master of Physician Assistant Studies, and Master of Science in Athletic Training. Additionally, Carver College of Medicine students can earn a Bachelor of Science degree in medical laboratory science, nuclear medicine technology, or radiation sciences.

COLLEGE OF NURSING

The University of Iowa College of Nursing has offered leading-edge nursing education since the turn of the 20th century and baccalaureate and master's degree programs for more than 50 years. A PhD program in nursing began in 1988, and a Doctor of Nursing Practice program was established in 2008. The college is an integral part of the health sciences campus, contributing to teaching, research, and patient-care resources that have earned international recognition.

With renowned faculty, advanced clinical experiences, and a tradition of innovative leadership, the University of Iowa College of Nursing is consistently ranked as one of the best nursing programs in the nation. Our graduates are sought after as highly skilled professionals who have received a rigorous education of the highest quality.

COLLEGE OF PHARMACY

The hallmarks of a University of Iowa pharmacy degree are patient-centered practice; strong grounding in science and evidence-based practice; exploration of career choices through required and elective courses; and exposure to leadership opportunities within the college, the university, and the profession. Career options may include community and/or hospital pharmacy, public service, consulting and long-term care, teaching and research in academia, managed care, the pharmaceutical industry, or research careers.

The University of Iowa's Doctor of Pharmacy (PharmD) program synthesizes basic scientific principles and practices through caring and communication in an integrated professional program. The role of a pharmacist ranges from managing medication for individuals to shaping national health care policy. Students learn to manage aspects of practice, solve problems, make clinical decisions, clearly communicate ideas, practice ethically, and become leaders in their communities and profession. Students study with professors who, in many cases, are pioneering the development of new drugs and defining the appropriate use of others to solve chronic health problems.

In addition to offering the PharmD degree, the professional Certificate in Palliative Care, the Master of Science in pharmacy, the Doctor of Philosophy in pharmacy, and three undergraduate certificates in drug delivery, drug discovery, and drug disposition and metabolism, the College of Pharmacy collaborates with the College of Public Health to offer the combined Doctor of Pharmacy/Master of Public Health degree, and with the Graduate College to offer the Doctor of Pharmacy/Master of Science in informatics degree.

COLLEGE OF PUBLIC HEALTH

Public health is an interdisciplinary field made up of a wide range of professionals, including physicians, environmental scientists, health educators, biostatisticians, epidemiologists, health service administrators, pharmacists, social workers, nutritionists, and many others. What unites public health practitioners is the shared goal of preventing disease and injury and promoting healthy practices among entire populations.

The College of Public Health includes the Departments of Biostatistics, Community and Behavioral Health, Epidemiology, Health Management and Policy, and Occupational and Environmental Health. The college offers an undergraduate Bachelor of Arts in public health and a Bachelor of Science in public health. Four graduate degrees are offered: Master of Health Administration, Master of Public Health, Master of Science, and Doctor of Philosophy. Several public health combined-degree options are available with other UI colleges, including Business, Law, Liberal Arts and Sciences, Medicine, and Pharmacy, as well as the College of Veterinary Medicine at Iowa State University. An interdisciplinary program in human toxicology also is available.

There are opportunities for distance learning and certificate programs in public health. The Undergrad to Grad Program allows incoming undergraduates to earn both a bachelor's degree and a master's degree in five years. More than 23 research centers and institutes based in the college provide focused research on critical public health topics and deliver outreach and service activities in every Iowa county and beyond. Approximately 570 degree-seeking students are enrolled in the College of Public Health. The college is accredited by the Council on Education for Public Health.

UNIVERSITY COLLEGE

University College, created in 2005, is the academic home for a number of courses and degree programs that span the university.

The college provides educational opportunities for students that are both credit- and noncredit-awarding through the continuing work of service units: Distance and Online Education, the Center for Conferences, and the Summer Writing Festival. Many other nonacademic departments from across campus also offer coursework through University College.

Two undergraduate degrees, the Bachelor of Applied Studies (BAS) and the Bachelor of Liberal Studies (BLS), are offered through University College. Both degrees, which may be completed entirely online or through a combination of on-campus and online coursework, are interdisciplinary programs that draw on courses from other undergraduate colleges, providing a flexible pathway to an undergraduate degree. A number of undergraduate certificate programs are also offered through University College and can be added to either degree program.

Student success is an important mission of University College and is supported in numerous programs within the college, including Academic Support and Retention, Orientation Services, On Iowa!, Success at Iowa, First-Year Seminars, Excelling@Iowa, Supplemental Instruction, Tutor Iowa, and Early Intervention. These programs contribute to a student's personal measure of collegiate success, both academically and in providing an enriching undergraduate experience.
