Class of 2017,

As your fourth year at our medical college unfolded, a groundbreaking architectural piece made its appearance at the heart of Lubert Plaza – the Beacon. Showcasing lighting, music and fabric schema dynamically tuned to its human and natural environs, and with an ever-changing exterior woven each sunset by a drone, the Beacon beckoned passersby to stop the daily grind for a moment – to wonder, reflect, commune. But further, this 21st century mixed-medium display, interweaving observer and observed, symbolically signaled a Jefferson ever more engaged with its surrounding communities, and in the process, willing to defy traditional disciplinary constraints.

A new Jefferson – reaching outwards in highly imaginative ways – this was the Jefferson you experienced. Indeed, your years at Jefferson coincided with a most remarkable period of our storied institution's history – one of dramatic growth, program innovation and an embrace of creative collaboration. Cherishing legacy, embracing transformation.

The world of medicine you will inhabit will undergo disruptive change, the likes of which we can barely imagine at the moment. As diagnostic tools, therapeutic options and healthcare delivery systems continue to evolve at a bewildering pace, you too will have to evolve. Jefferson has primed you for such change, even to seek it out. Class of 2017 – go forth and serve as beacons, embracing your communities, pioneering medicine's future, and in so doing, fearlessly blazing paths across conceptual boundaries. Draw upon the broad perspectives and impressive reservoir of cross-cutting knowledge domains generated by the extensive co-curricular extra-curricular engagement that has defined your Jefferson experience. Engage the world expansively and creatively. We of the dean's staff and faculty at the Sidney Kimmel Medical College send you off with a sense of deep pride, confident that you will serve as Jefferson's messengers to improve lives.

Mark L. Tykocinski, M.D.

JeffHOPE

JeffHOPE is a student-run organization that aims to improve access to health care for the homeless and underserved population of Philadelphia, as well as to educate students, residents, and faculty members about medical issues, homelessness and poverty. It was formed in 1991 by a group of medical students who saw a need in the homeless community for proper medical care and the potential opportunities for health professionals to reach out to this population.

JeffHOPE currently operates five clinics at homeless shelters and one clinic with Prevention Point Philadelphia, a needle exchange program. JeffHOPE is one of the largest and most active student organizations at TJU, involving more than 700 medical and nursing students and over 50 faculty members.

Alpha Omega Alpha Medical Honor Society

Alpha Omega Alpha (AOA) is a national medical honor society founded in 1902. Eligible medical students in the junior and senior years must place within the top 25% of their class, at which point members are selected based upon a lasting commitment to scholarship, leadership, professionalism, and service.

The Jefferson chapter, Pennsylvania Alpha, was founded in 1903, the fifth to be chartered and the first to be established on the east coast. Our chapter strives to foster excellence in medicine through sponsoring over 20 ongoing educational and service projects that benefit Jefferson and the Philadelphia community.

Hippocratic Oath

I swear to fulfill, to the best of my ability and judgment, this covenant:

I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.

I will apply, for the benefit of the sick, all measures which are required, avoiding those twin traps of over-treatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.
