

Making the local count: Social Change Communication and participation in HIV prevention

**The role of face to face interaction with a local change agent in an integrated
intervention to promote health and address vulnerability to HIV among migrant and
seasonal farm workers in Hoedspruit, Limpopo province, South Africa.**

Janine Simon-Meyer

Final Dissertation submitted to the School of Public Health, Faculty of Health Sciences,
University of the Witwatersrand, in fulfilment of the requirements for Master of Science in
Medicine by Research and Dissertation.
