ICU Language Database Series 4: ECPPT Digital Archive

14

Foreword

This volume of the International Christian University Working Papers in Linguistics (ICUWPL) contains the collection of ICU Language Database pertaining to Xitsonga (South Africa), Irish (Ireland), and Basque (Spain). The eight parts of ICULD cover topics regarding the prosodic structure in various languages.

Each database in this volume consists of citation methods, basic information, and a list of items that can be downloaded from the archive.

We would like to thank the speakers of Xitsonga, Irish and Basque for their patience during the recording sessions. From 2012 to 2016, this work was supported by a National Science Foundation Grant titled “Effects of Syntactic Constituency on Phonology and Phonetics of Tone (ECPPT) [#1147083]”. The creation of an archive based on these materials was supported by a grant from Information Resources Center (IRC) [#IRC202010], Research Institute for Languages and Cultures of Asia and Africa, Tokyo University of Foreign Studies. We would like to specially thank Dr. Daisuke Shinagawa for sponsoring this grant. The URL of the archive is <https://ecppt.aa-ken.jp>. The ICU Language Database (ICULD) series has been developed in collaboration with Dr. Priyankoo Sarmah in CLST at IT Guwahati. ICUWPL is sponsored by ICU Linguistics.
