DAD'S DAY UNDER WAY ON CAMPUS TOMORROW

Dad's Day chairman Bob Jacobsen said this week that some 115 fathers and 120 students are expected to take part in the Dads' Day activities here tomorrow. A banquet and attendance at the Southern Oregon-HSC football game are highlights of the program.

Beginning at 4 p. m. the Dads will be guided on a tour of campus buildings by members of college service clubs, the Spokes, the Intercollegiate Knights and Circle K. The tour will include visits to the art department, chemistry and physics labs, the newly-opened wildlife building, the science building and Jenkins Hall.

Following the tours, at 5:45, the banquet will begin in the administration building quadrangle. James T. Mearns, associate professor of music, will serve as

Master of Ceremonies. Entertainment will be furnished by the college a capella choir, a local singing group known as the Tune Tempters, and by students John Dufour and Dale Ingvarsen.

Talks will be given, during the banquet program, by chairman Bob Jacobsen, Dr. Cornelius H. Siemens, college president, and by Dr. Joseph M. Forbes, advisor of the event.

Special half-time activities during the SOCE-HSC game are scheduled by the Lumberjack band, and the Dads will get a special view of both game and special band formations by sitting in the rooting section on the 50-yard line.

Ralph Barnes, father of an HSC student, and secretary-manager of the Redwood Acres fair and rodeo in Eureka, will serve as Dads' representative during the game.

The purposes of Dads' Day are to bring students and their fathers closer together, and to acquaint the fathers with the campus where the students spend so much time.

Fathers from as far north as Washington state and as far south as San Francisco are slated to arrive here for the event.

Members of the Dads' Day committee are: Dale Calihan, entertainment chairman; Jim Ely, decorations; Fran Singleton, posters; Ed White, guides and tours; Dick Sorensen, publicity; and Jim Barnes, game arrangements.

Council Invites Visitors, Swaps Meeting Dates

Student leaders, beginning with the presidents of the four classes, will be invited to attend council meetings as special guests, ASB President Larry Flammer told the Executive Council at its regular meeting Wednesday.

The meetings are open to the public, Flammer stressed, and it was felt that better representation could be obtained by inviting several student leaders to attend each week.

In other matters, the Council changed its meeting date to Thursdays at 3:30 p. m., and approved a revision of the previous week's minutes to indicate separate constitutions for the newly-formed senior honoraries.

The Inter-Club Senate proposal for a student activities control board was sent back to ICS for a definite recommendation after consulting individual organizations.

The Frosh Camp committee was given permission to solicit student organizations for small scholarships to Frosh Camp each year. John Dufour acted as representative of the Frosh Camp committee.

Bibler, Mondrus Display Efforts In HSC Art Show

This month's exhibit in the HSC art gallery includes some of the work of an artist whose paintings have been displayed regularly in state and national at exhibitions for more than ten years.

This painter, Martin Mondrus, new member of the art faculty replacing Melvin Schuler, associate professor of art now on leave for a year, has held four one-man showings from 1943 to 1952, the last in the Pasadena Art Institute. He has sold paintings to about 60 collections, including Los Angeles State College and Clermont Graduate school, from which two schools he obtained his BA and MFA degrees.

Although Mondrus works in any art medium, and is familiar (Continued On Page 2.)

Exec Council OKs Honorary Groups For Top Seniors

Two new "senior honoraries" intended to provide recognition for students who have been outstanding in non-academic activities, have been approved by the Executive Council and will be activated in the near future.

The Golden Key and the Green Key, women's and men's honorary, respectively, will be made up of no more than seven senior students apiece, chosen by a secret faculty committee on the basis of participation in student activities.

The honoraries were the outgrowth of a recommendation made at the Spring Retreat, semi-annual get-together of student leaders, last spring. A secret faculty committee was chosen on request of the ASB Executive Council, by President C. H. Siemens, which in turn chose a committee of three men and three women to write the new constitutions and become charter members of the organizations.

Seniors Only
Membership in the honoraries is open only to senior students who have been active in at least two activity areas. Extra-curricular activities play the largest role in selection, but allowance is also made for character and scholarship.

Students will be recommended by a secret, self-perpetuating faculty committee, representing each of the nine student activity areas enumerated in the constitution. A majority vote of the combined membership of the two honoraries will determine admission.

Two public initiation ceremonies will take place each year. The first will be held during part of the Homecoming assembly Friday, October 28. Students chosen for membership will be announced at the assembly. Another selection ceremony will be held during the spring semester, at which time remaining seniors will be initiated and a small group of juniors selected to form the nucleus for the following year's honoraries.

Gammas Pick Fern As Girl Of Week

Fern Fowler has been chosen the Gamma House's second "Girl of the Week".

She was selected by a unanimous vote of all members of the group.

The Gammas are planning an invitational dance to be held in the near future at the Hospitality House in Eureka, according to Mike Ladd, publicity chairman for the group.

SIGMAS HOLD DANCE

The first "Sigma" social event of the year was held Sunday at the Sigma "Whitehouse". This was a dance, barbecue, and social gathering.

Attending were Pierre Marceau, Gene Marks, Nub Humgreen, Dick Severson, Skip Bvogan, Tom Murdoch, Arlan King, Jim Patmore, Darrel Cooley, Jack Cinn, Mike Stone, Joe Kramer, George Psaros, Larry Tylor, Pat Heney, Pat Clark, Silvia, and Karen Palson.

VARSITY MEETS RAIDERS IN 17TH ANNUAL GAME

Both Humboldt State football squads will be in action tomorrow against Southern Oregon College at Redwood Bowl, the Junior Jacks meeting the Red Raider junior varsity at 2 p. m. and the varsity teams tangling at 8 p. m. under the lights.

The varsity game will be the 17th in Humboldt State's oldest gridiron rivalry, dating back to 1927, when the Red Raiders won 30-0. Humboldt has won seven and SOC nine in the historic series, but Humboldt has held the edge in recent games. Last year the Lumberjacks smothered a game but outmanned Red Raider team 30-0 at Redwood Bowl.

This season the Southern Oregon squad has been rejuvenated by a new head coach, Al Adkins, a former Washington State and

Cleveland Browns player. The Raiders have won over Portland State (a team Humboldt meets Nov. 5) by 20-6, and over Linfield 19-15, and lost 6-7 to Sacramento State.

Originally scheduled to be played at Ashland, tomorrow night's game was moved to Arcata because Southern Oregon teams couldn't draw at the office in their home territory. The best indication of the new enthusiasm at Ashland is the request of Southern Oregon that next year's game be played there.

The Raiders will fly to Arcata for the contest.

A few Southern Oregon veterans will appear conspicuously in tomorrow night's game. Among them will be Bill Seymour, quarterback; John Garrett, fullback; Jerry Livingston and Chuck Crandall, ends; Herb Cooley and Ray Theiss, tackles; Len Weber, guard, and Tom Quinowski and Pete Thompson, centers.

However, only Seymour and Quinowski rate the starting call this season. The first string is made up of newcomers like Ralph Clarno, sophomore from Myrtle Creek, the squad's best runner and a tough man on defense. He plays fullback.

(Continued on Page 4)

Talent Is Wanted For Homecoming Variety Tryouts

Initial tryouts for the Homecoming variety show were held Tuesday and will continue twice each week until Homecoming Oct. 28, according to Jim Arnot, committee member in charge of the show.

Arnot said time of the tryouts would be posted on bulletin boards.

He encouraged any student with talent in entertaining to try out. "We're interested in all kinds of acts—from trampoline to balancing a thimble on the nose," he said. About 15 acts will be used in the hour and a half show.

Response already has indicated a superior variety show, he pointed out. In questionnaires they filled out early this year 95 freshmen indicated they were interested in appearing.

HERE'S TO WILDLIFE IN NEWLY DEDICATED HOME

Since yesterday the wildlife of HSC, or the study thereof, is formally confined to the Wildlife building dedicated at 10 a. m. in what are described as informal ceremonies. Now available for use, officially, are two labs, a classroom, a collection room, an audio-visual room, four offices and a secretary's office. The cutting of a fish net marked the opening official of the new facility.

Dr. Roy E. Simpson, state superintendent of public instruction from Sacramento, headed the informal program. HSC President Dr. Cornelius Siemens and Dr. Homer P. Balabanis, dean of instruction presided at the opening.

Participants included Capt. Walter Gray representing Seth Gordon, director of the California Department of Fish and Game; M. D. Ramsey, representing Anson Boyd, state architect; Dr. Harry D. McGintie, chairman of the division of natural sciences, HSC; Dr. Charles F. Yocum, associate professor of wildlife management, HSC; and

Bruce Wyatt, president of Conservation Unlimited, HSC student wildlife club.

Only the upper floor of the unique redwood frame structure will be ready for classes next week. The ground floor and auxiliary facilities of the \$700,000 plant will, when completed, house wildlife and fishery studies, giving Humboldt State College the most modern plant of this type in the nation.

Formal dedication of the wildlife plant will be planned on completion of all structures. Construction was started in October 1954 by George W. Reed Co. of Sacramento.

"Private Ear"

By Larry Knopf

I entered the Chief's office warily. He was not eating his Bran Flakes as usual, but was munching on a biscuit of Shredded Wheat.

"How did you happen to change brands, boss?"

"Mmmshomff chooommfomp (gasp) Grrumpleshtoff!" (Translated, means: 'Someone kept putting Prince Albert in my Bran Flakes').

"Oh, I see."

He finished off the biscuit with half a glass of Calso Water. "Too much nonsense in your column. This is an institution of higher learning." (We took off our beanies and stood facing the Ad Building for a minute of silence. He noted it on my time card).

"Get me a story on the educational processes of Humboldt State, and all I want is the facts!"

"When do you want this, Friday?" I left before he could figure it out.

The Science Building at HSC is really the center of the process of dissemination of knowledge on the campus. Here the whole story of the physical universe is being passed on to eager students. As I entered, Dr. McGinitie hurried past me into a class-room. I followed. Mr. Parke was explaining a complicated diagram to his Analyt class. Dr. McGinitie went over and opened some windows. I sat there while Parke explained the diagram; it was this week's doodle. Dr. McGinitie opened some more windows. I left.

There was a movie in progress in the Chemistry lecture room, but the script was in Afganistani and the plot was so mixed up that I decided not to stay, until someone told me Dr. Smith was running it backwards for jollies.

In a lab down the hall, Dr. Brandt was holding forth in his usual glib manner. "Today we are going to discuss the Substroposchmaltziniae Parleyvousoblongata or, as it is sometimes more commonly known to the layman, the gnat. Now the Substropo..."

I walked into the little back-room, trying to imagine how many double-jointed popaicles it took to train him to talk like that. In the little room were all these many pickled specimen's. I saw on the shelf a bottle of old turtle eggs; on another, a bottle of old grasshoppers; in a closet I found a bottle of Old Crow. This, apparently, was the pickling source. I didn't touch.

I left. I came back. It looked like Old Crow; even smelled like it. The feeling of scientific adventure swept over me. 'Young Scientist Risks Life To Determine Unknown Quality'. I downed it like a man and upped it like a volcano.

The next thing I remember was Dr. Scheppler extracting the last of the black shiny feathers from my teeth. "Wha hoppen, Doc?"

"Like the label said, Son. 'old crow'."

BIBLER

(Continued from page 1)

with many forms and phases of art, he prefers oils, the medium in which most of his exhibit work is done.

His classes this fall include figure drawing and sculpture as well as oil painting. The class in oils is being given Wednesdays and Fridays from 2 to 4 p.m. and will be replaced in the spring with a water color class. Students who wish to take this opportunity to receive oil painting instruction from the widely known artist may still enroll today, after which the class will be officially closed.

Under the extension program an oil painting class will be given for both advanced and beginning students Monday evenings from 7 to 10 p.m. at the college.

Mu Epsilon Psi Slates Concert Programs Here

Three concerts and one lecture have been scheduled by Mu Epsilon Psi, college music club, for this calendar year, it was announced this week by Dale Ingvardsen, president.

The first program will feature the music faculty in recital Sunday, Oct. 30, at 3 p.m. in the college auditorium. The program will include Charles Fulkerson, pianist; James T. Mearns, pianist; Floyd Glende, violin; Daniel Backman, viola; Woodrow Thompson, violin; Jean Fulkerson, cello, and Dr. Leon Wagner, baritone.

The second program, scheduled Sunday, Nov. 6 at 3 p.m. in the CES auditorium, will feature Gordon Hendricks, New York drama critic, who will present an illustrated lecture on "Music in Motion Pictures."

Theodore Ullman, pianist, will be presented Sunday, Nov. 20, at 3 p.m. in CES auditorium, and Herbert Albin, violinist, and Wolfgang Hattenbach, pianist, will be heard in concert Sunday, Dec. 4, at 8 p.m. in CES auditorium.

Admission to musical programs is by student body activity card or \$1. Season tickets for fall and spring concerts may be bought at the reduced rate of \$3 by sending a check or money order to Ingvardsen or to Mr. Mearns at the college.

PICTURES STILL MAY BE TAKEN

Pictures for the Sempervirens yearbook are now being taken in the Coop, upstairs. Any students who have missed their appointments may have their pictures taken this coming week.

Students are reminded that the fee, while just a few cents over the price of last year's individual pictures, provides much more than in the past. The pictures are taken by a professional portrait photographer at cost, and retouched as necessary to present a pleasing portrait. This sitting also provides negatives from which may be made any number of personal portraits, simply by paying for the prints.

Further, these pictures may be used in succeeding issues of the Sempervirens without additional cost to the student. This is an opportunity to get personal portrait attention, along with a top quality picture in the year-book.

The idea of personal pictures in year-books is not new on progressive campuses across the nation, and the Sempervirens staff feels that H.S.C. students should not be denied this privilege. The staff is bringing out the biggest—the greatest Sempervirens in the history of Humboldt State, but it will not be quite so great without you.

Dr. Prescribes For Ailments Of Spirit Of HSC

"Last Friday, at our so-called rally, the Spirit of Humboldt State College suffered a severe shock. The ailment is not of a physical nature but is strictly one of Morale."

Physically, the Spirit has every reason for being in fine shape; the football team shows great potentialities, the coaching staff is "par excellence", and the faculty is supplying unlimited support.

Treatment: "In order to insure and facilitate a speedy recovery in the Spirit of Humboldt State College this treatment, as seen by the attending physician, should be taken in large quantities—the attendance of rallies, the taking of an active part in the rooting section, and the respecting and enforcing of our traditions.

Prognosis: "Excellent. Complete recovery to a 100% spiritual health is not only possible but imperative."

Cal Aggies Take SF State 27-7

The Cal Aggies from Davis, who tied HSC's Lumberjacks 7 to 7 only two weeks back, knocked off the highly rated San Francisco State College Gators last Saturday with a 27 to 7 score.

This was one of the big upsets of the season, as last year the Gators were conference champs and the Aggies the conference under-dogs.

The Cal Aggies, who before the season started were rated to finish in the second division of the Far Western Conference, continued to change the pickers' minds as they rolled to a 27-7 win over the defending champions, San Francisco.

A freshman fullback named Lonnie Cagle staged a one-man scoring spree Friday night to lead the Aggies to another conference win.

Cagle, an 18-year-old 180-pounder, scored all of the Aggies' touchdowns on combinations of long runs and smashing drives.

San Francisco held its own in the first half when each team scored once. Cagle ripped off a 54-yard scoring run in the first quarter, and State retaliated with a recovered pass from quarterback Dick Ellis to John Sochor.

In the second half, it was all Cagle. He scored once on a 30-yard jaunt and twice on short plunges for 18 more points.

Choir Program For Dads' Day

The HSC choir will sing at the Dads' Day dinner Saturday, Oct. 15. The program includes three numbers, the Bach Chorale "Jesus, Priceless Treasure," a humorous piece by Haydn entitled "Maiden Fair," and HSC "Alma Mater." The choir is presently under the direction of Dr. Leon Wag-

ner, newly appointed vocal and choir director, in the absence of Leland Barlow. The latter is now on leave for graduate studies at UCLA.

Dr. Wagner came to HSC from Emporia State College in Kansas. He was previously on the faculty of Baylor University.

Why do more college men and women smoke

VICEROYS

than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance found in delicious fruits and other edibles!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
3. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich; satisfying, yet pleasantly mild.
4. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroy's cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000
Tiny Filter Traps...
plus that Real Tobacco Taste

Campus Hams Take Part In Radio Alert

Grouped around mobile radio equipment they used in an annual simulated emergency test Sunday are Vern Rollins, Don Hitt, Dr. Roscoe Peithman, and Don Rollins. Dr. Peithman is advisor to the HSC Amateur Radio club, the others are members. This station-wagon load of equipment was set up at Patrick's Point and hooked the HSC group up with other amateurs all over the nation participating in the test.

STUDENT HAMS TAKE PART IN RADIO ALERT

Eight students, members of the HSC Amateur Radio Club, and their sponsor Dr. Roscoe E. Peithman participated Sunday, October 9, in a nationwide simulated emergency test of amateur communications facilities.

The HSC group set up, at Patrick's Point, a radio transmitter and receiver, using a gasoline engine and generator for their own power supply.

The group is part of the Humboldt Amateur Radio Club, which set up another transmitter and receiver in Eureka during the nationwide test. There were similar setups in cities all over the United States.

All the test stations set up their own means if power is cut off and normal means of communication are suspended.

The test situation may actually mean more to Humboldt County residents than to people in many other areas, since floods occasionally cut off communication and transportation in some parts of the county.

Dr. Peithman, professor of physical sciences at HSC, operated the same kind of amateur radio setup from his own home during the flood emergency of 1952, and with other Humboldt "hams" established the only link between many small northwest California towns and the outside world for a time.

The HSC Amateur Radio Club membership maintains its own amateur station, with license and call letters W6HIQ granted by the Federal Communications Commission. Dr. Peithman is sponsor of the club and trustee of the station.

Better know nothing than half-know many things.—Nietzsche—Thus Spake Zarathustra.

GLENN LONG
—DRUGS—

Drugs - Sundries
Complete Prescription Service

1091 H St. Ph. 1058 Arcata

A play's popular appeal is not the sole criterion (to use a professional type word) in choosing a play appropriate for presentation on a college campus, says Dr. Stanley Glenn, the new assistant professor of speech who will direct all HSC campus plays this year. Prof. Glenn has just finished two and one half years of directing the Community Theater at Millbrae while also earning a Ph. D. in drama and speech at Stanford University.

To be of most value to a college campus audience, Glenn says, a play should be related to other phases of a student's education—to experiences studied in classes in philosophy, history, literature and economics. In addition, Glenn considers it worthwhile to make available plays important in the history of modern drama.

First One Popular Combining these characteristics, the drama department has tried to plan a balanced program for this year's play productions. "My Sister Eileen", the first play, was selected primarily, Glenn says, for its popular appeal. "My Sister Eileen" will be presented Thursday, Friday and Saturday, Nov. 17, 18 and 19, in the HSC auditorium. "The Beggar's Opera", an

eighteenth century type of comic opera with music consisting of early English ballads, is scheduled for late February. The year's third play, a serious drama, will be announced later.

Glenn directed the Millbrae Community Theater in ten plays, including, "Detective Story", "My Three Angels", "Gigi", and "The Play's the Thing". Previously he taught in the UCLA drama department for three years while he secured B. A. and M. A. degrees. At UCLA he acted in "St. Joan", "Richard II", and "Faust", among others, directed several productions, acted in three films made for television, and both acted and directed "The Importance of Being Earnest".

Glenn's teaching assignments at HSC include classes in acting, directing, speech, and history of the theater and American drama.

CLUB CAPERS

By Jan Smeltzer

Most of the clubs are now busy preparing floats and skits for the Homecoming events. Several clubs are sponsoring candidates for the Queen Contest.

Tentative plans are underway for the International Relations Club to sponsor an assembly featuring the members in skits and entertainment describing their country. They are also planning to have a booth selling different foods from their native lands.

The Newman Clubbers are fixing a hall behind St. Mary's Church to use for their meetings.

The HSC Film club are presented to the faculty and student body a "bonus" film called "Passion for Life," in French with English substitutes.

The Knights are parking cars at the games and they also held a formal initiation for their new pledges recently.

A free, FREE Freshman dance will be held tonight at Nelson Hall from 9 to midnight. The Dale Ingvarsdson Trio will provide music for the gala sports-dress affair.

LUMBERJACK

Oct. 14, 1955

This is Charles Miyashiro, transfer student from Honolulu, who is one of the big guns in the junior varsity attack and will see action this Saturday afternoon against the Southern Oregon Jayvees at 2 p. m.

VARITIES MEET AT NIGHT JAYVEES TANGLE AT TWO

(Continued from page 1)

Other starters are Walt McCoy and Dick Smith at ends; Rich Smith and Al Sodaro at tackles; Chuck Romine and Don Dickson at guards; Don Korn and Ted Tenny at halfbacks.

Humboldt Coach Phil Sarboe, after looking over scouting reports, calls this Southern Oregon team the best in the past five years.

HSC Potential

However, Sarboe also has gone on record to the effect that this year's Lumberjack team has the potential to become the best squad in Humboldt history. The Lumberjacks go into tomorrow night's game with a season record of two wins (19-0 over Moffett Field and 14-3 over Alameda Naval Air Station), one loss (26-10 to Cal Poly) and one tie (7-7 with Cal Aggies). The Aggie game was the only Far Western Conference tilt to date.

Tomorrow night's game is a non-conference go, Southern Oregon playing in the Oregon Collegiate Conference since the Far Western was expanded last season.

A number of players who as transfers are ineligible for varsity intercollegiate competition will be seen in action in the afternoon game. They include big Chuck McAninch, transfer from Washington U. who looked

fine at fullback against Alameda last week; Charlie Miyashiro, halfback from Honolulu, and Jim Ennis, guard from Everett, Washington.

Two other players, Dick Cahill, 235-pound tackle, and Jack Moore, sophomore guard and center, may suit up for both games.

Sarboe has made some other switches to strengthen the Lumberjacks for this game. Zeke VanDeventer, freshman fullback from Eureka, has been shifted to left end. Ozzie Gooden has been back from end to halfback. Ralph Mayo is on the mend from his rib injury and should be ready to start at fullback, backed up by Billy Franklin and Warren Smith. Phil Huff is rounding into shape after his knee injury and will start at right tackle.

Other Lumberjack starters will be Jim Colwell and Happy Haft at ends; Joe Myers at left tackle; Jim Joseph and Bob Hanson at guards, and Caesar Fiamma at center. Warren Baker, who passed Alameda dizzy last week, will be at quarterback, Henry Cooper and Russ Ashburn at halfbacks.

Jim Evans, who started last week's game at center, has been on the injured list all this week and may not suit up.

Hanson will be game captain.

Probable Starting Lineups

Southern Oregon	Pos.	Humboldt State	No.
82 Walt McCoy	LER	Happy Haft	27
75 Rich Smith	LTR	Phil Huff	44
62 Don Dickson	LGR	Bob Hanson	33

11 Bill Seymour	QB	Warren Baker	15
33 Don Korn	LMB	Russ Ashburn	36
40 Ted Tenny	RMB	Henry Cooper	11
57 Ralph Clarno	FB	Ralph Mayo	32

JACKS' PASSING ATTACK KEEPS NAVY GROUNDED

Humboldt State put together a sharp passing attack that netted 108 yards through short, spot aerials, then held firm in the clutches to play its best game of the year and turn back Alameda Naval Air Station 14-3 last Saturday at Redwood Bowl.

The game was the Lumberjack's second against a service team this year and gave Coach Phil Sarboe's squad its second victory against one defeat and one tie.

Alameda went into the game heavily favored, largely on the basis of a 36-0 win over Moffett Field earlier this year. Humboldt defeated Moffett 19-0 in the season's opener here Sept. 17.

The Hellcats scored on a placekick in the first quarter after a penalty and fumble drove them off the Humboldt six-yard line, back to the 27. Halfback Ray Bogar took a screen pass and ran to the Lumberjack 13. On fourth down guard Don VanSickle booted a beautiful field goal that put the navy team ahead 3-0. But the Hellcats didn't have another such scoring opportunity until the waning minutes of the game, and that one sputtered out after a brilliant pass brought the visitors to the HSC 21-yard line.

Humboldt scored early in the third quarter when Warren Baker hit Happy Haft with one of his 13 completed passes of the evening and the play went from Alameda's 19 to the nine-yard line. Hank Cooper went over left tackle for the TD and Bob Renwick kicked the extra point.

Early in the fourth quarter Renwick's field goal from the 40-yard line fell far short. The Lumberjacks scored again midway in the canto, however, when Charlie Miyashiro intercepted a pass from Mickey Conery, Alameda quarterback, on the Alameda 25 and returned the ball to the 12-yard-line. Ozzie Gooden, in his only carry of the evening, streaked through the right side of the line for the score and Renwick converted again.

Russ Ashburn was the workhorse of the Lumberjack backfield, carrying 13 times for a gain of 28 yards, usually when yards counted most. Ralph Mayo, ailing regular fullback, played only late in the game, with Billy Franklin and Chuck McAninch filling in for him nicely.

Junior Jacks Hot For Saturday's Tilt With SOCE

Coach Franny Givins was busy this week getting the Junior Jacks, Humboldt State's junior varsity, ready for their first home game of the season tomorrow at 2 p.m. in Redwood Bowl against Southern Oregon's junior varsity.

The jayvees opened their season in winning 21-6 over the Shasta junior college Knights at Redding Oct. 1.

Humboldt's starting lineup likely will be the same as that used against Shasta: Pete Dye at quarterback, Charlie Miyashiro and Charlie Brackett at halfback, Chuck McAninch at fullback, Dennis Collieran at center, Larry Gurney and Ken Crawford or Dick Cahill at tackles, Jim Ennis and Jack Moore at guards, Dennis Collieran at center, Marshall Young and Dick Trone at ends.

Collieran and Moore will suit up for the varsity game to give the Lumberjacks depth at center while regular center Jim Evans is recovering from injuries. Dick Cahill also is likely to perform in the varsity game.

Other Junior Jack games are scheduled Oct. 21 against Lassen junior college at Arcata and Oct. 29 against Chico State's jayvees at Weaverville, with the possibility that still others might be added to the slate.

Here's Billy Franklin, starting varsity fullback in last week's game against the Alameda Naval Air Station squad. Saturday he will back up Ralph Mayo, probable starter in the fullback slot.
