Axial spondyloarthritis: looking for the blind spot

Ocular manifestations and disease burden of axial spondyloarthritis.

PROLOGUE

- Chapter 1 General introduction and outline of this thesis
- Chapter 2 Axial spondyloarthritis in the era of precision medicine.

PART 1 DISEASE BURDEN IN AXIAL SPONDYLOARTHRITIS

- Chapter 3 Patients with axial spondyloarthritis report significant differences between men and women and high impact of the disease: a large websurvey analysis.
- Chapter 4 Ankylosing Spondylitis Performance-based Index (ASPI): objective test for physical functioning is highly reliable and feasible.

PART 2 OCULAR MANIFESTATIONS IN AXIAL SPONDYLOARTHRITIS

- Chapter 5 High prevalence of previously undiagnosed axial spondyloarthritis in patients referred with anterior uveitis and chronic back pain – the SpEYE study.
- Chapter 6 Reduced occurrence rate of acute anterior uveitis in Ankylosing Spondylitis patients treated with golimumab – the GO-EASY study.
- Chapter 7 The impact of certolizumab pegol treatment on the incidence of anterior uveitis flares in patients with axial spondyloarthritis: 48-week interim results from C-view.
- Chapter 8 Microvascular changes of the retina in Ankylosing Spondylitis, and the association with cardiovascular disease – the Eye for a Heart study.
- Chapter 9 Multidisciplinary approach of ophthalmologists and rheumatologists in the management of ocular inflammatory diseases in adult patients.

SUMMARY AND GENERAL DISCUSSION

- Chapter 10 Summary
- Chapter 11 General discussion

APPENDICES

- Summary in Dutch
- Authors and affiliations
- Review committee
- List of publications
- PhD portfolio
- Curriculum Vitae
- Dankwoord
