Summer Session 1996

May 28–August 2

Semester I

August 30, Friday

Residence halls open for new freshmen

August 31, Saturday

Schedule pickup and academic advising for new freshmen

September 1, Sunday

Residence halls open for upperclass students

September 2, Monday

Labor Day holiday

September 3, Tuesday

Classes begin—follow Monday schedule

September 13, Friday

Last day to withdraw and qualify for $\frac{1}{4}$ tuition refund

September 14–15, Saturday–Sunday*

Rosh Hashanah

September 20, Friday

Last day to add courses without dean's approval and without \$25 late add fee

Last day to drop courses or change to audit without \$25 late drop fee

Last day to choose pass/fail option

September 23, Monday *

Yom Kippur

September 27, Friday

Last day to file an Intent to Graduate form for Dec. 1996 graduation without late fee

October 4, Friday

Last day to withdraw or drop to part time and qualify for $\frac{1}{2}$ tuition refund

Last day to drop courses or change to audit (\$25 per course late fee continues to apply)

Last day to carry more than 20 credits without a surcharge

October 18, Friday

Midsemester

Last day to withdraw from the university without grades of WP or WF

November 5, Tuesday

Election Day—no exams can be scheduled

November 11, Monday

Veterans Day holiday—no classes

November 27, Wednesday

Classes follow Friday schedule

November 28–29, Thursday–Friday

Thanksgiving holidays

December 2, Monday

Classes resume

December 5, Thursday

Last day an announced oral or written exam may be given before final exam period

December 12, Thursday

Last day of classes

December 13, Friday

Reading Day—no classes

December 16, Monday

Final exams begin

December 20, Friday

Final exams end

December 23–27, Monday–Friday

Christmas holidays—offices closed

December 28, Saturday

Graduation date (no ceremony)

January 1, Wednesday

New Year's holiday—offices closed

Semester II

January 19, Sunday

Residence halls open

January 20, Monday

Martin Luther King, Jr. holiday—offices closed

January 21, Tuesday

Classes begin

January 31, Friday

Last day to withdraw and qualify for $\frac{1}{4}$ tuition refund

February 7, Friday

Last day to add courses without dean's approval and without \$25 late add fee

Last day to drop courses or change to audit without \$25 late drop fee

Last day to choose pass/fail option

February 14, Friday

Last day to file an Intent to Graduate form for May 1997 graduation without late fee

February 21, Friday

Last day to withdraw or drop to part time and qualify for $\frac{1}{2}$ tuition refund

Last day to drop courses or change to audit (\$25 per course late fee continues to apply)

Last day to carry more than 20 credits without a surcharge

March 14, Friday

Midsemester

Last day to withdraw from the university without grades of WP or WF

March 17–21, Monday–Friday

Spring Break

March 24, Monday

Classes resume

March 28, Friday*

Good Friday

March 30, Sunday*

Easter

April 22, Tuesday*

Passover

April 25, Friday*

Orthodox Good Friday

April 27, Sunday*

Orthodox Easter

May 5, Monday

Last day an announced oral or written exam may be given before final exam period

May 12, Monday

Last day of classes

May 13–14, Tuesday–Wednesday

Reading Days—no classes

May 15, Thursday

Final exams begin

May 22, Thursday

Final exams end

May 23, Friday

Senior Day

May 24, Saturday

Commencement (10:00 A.M.)

Summer Session 1997

May 27–August 1

The university reserves the right to modify this calendar subsequent to printing. Refund deadlines may change from those in this calendar.

* These holidays, important to many members of the university community, are not university holidays, but they are listed here to facilitate planning of university events. Faculty and staff should be sensitive to the needs of those who celebrate these and other holidays.

GENERAL INFORMATION

The University

The University of New Hampshire, founded in 1866 as the New Hampshire College of Agriculture and the Mechanic Arts, was among the early state institutions of higher education whose formation was made possible by federal government land grants to establish colleges to serve the sons and daughters of farming and laboring families.

First situated in Hanover in connection with Dartmouth College, New Hampshire College moved to its Durham campus in 1893 after Benjamin Thompson, a prosperous farmer, bequeathed land and money to further the development of the college.

The college thrived in Durham, and in 1923 the state legislature granted it a new charter as the University of New Hampshire, composed of the College of Agriculture, the College of Liberal Arts, and the College of Technology. The Graduate School was formally added in 1928. The two-year program in agriculture, which had been offered since 1895, was formally recognized in 1939 and is now the Thompson School of Applied Science. The Whittemore School of Business and Economics was established in 1962.

In 1963, the University System of New Hampshire was created when the teachers colleges at Plymouth and Keene were brought under the same board of trustees as the university. In 1968, the School of Health Studies was established as part of the university's programs. In 1969, the state legislature recognized the extended functions of the College of Agriculture, renaming it the College of Life Sciences and Agriculture. Beginning in 1971, the Division of Continuing Education was authorized to offer associate in arts degree programs for New Hampshire residents. In 1975, the College of Technology was renamed the College of Engineering and Physical Sciences, and in 1989, the School of Health Studies became the School of Health and Human Services.

In 1984, the university began offering courses to residents of the most densely populated region of the state through the Nashua Center. In 1985, the state legislature incorporated the University of New Hampshire at Manchester as the sixth academic division of the university. The college offers selected baccalaureate and graduate programs for commuter students in the Merrimack Valley region.

It also provides credit and noncredit continuing education courses.

Academic and cultural resources of each campus are amplified through System-shared programs and facilities. Co-operative ventures among the twelve member institutions of the New Hampshire College and University Council combine public and private higher education resources.

Mission

The University of New Hampshire is unique among educational institutions in the state. By its original land-grant charter, the university combines the professions with the liberal arts and sciences and serves the public need for educated citizens. This mission, confirmed by the achievement of sea-grant and space-grant status, has expanded as the university has evolved. Now the largest and most diverse educational institution in the state, the university offers a broad array of undergraduate programs, professional programs, and research and graduate programs. Its primary purpose remains service to the citizens of New Hampshire. To serve the state well, the university has achieved national and international stature.

Nearly ninety percent of the full-time faculty members hold doctoral or terminal degrees, and many have earned national and international reputations. The ratio of full-time equivalent credit-seeking students to full-time instructional faculty for the combined Durham and Manchester campuses is seventeen to one. The university engages in regular evaluation of each faculty member's teaching by students and colleagues. Such evaluation is intended to promote excellence in teaching and is used in tenure, promotion, and salary decisions concerning teaching faculty.

The modern land-grant university has a threefold mission: the scholarly functions of teaching, research, and public service are mixed and balanced in a wide variety of programs.

Teaching. All students at the university, from beginning to advanced levels, share the freedom of the faculty to follow academic interests in various directions. Yet all learning that can be shared rests on the foundation of common knowledge and basic skills, and therefore all undergraduate programs of instruction at the

university are built on a program of general education. The objectives of general education carry through the undergraduate subject major, as students refine and apply their skills and discover the relationships among fields of study. At the graduate level, students achieve independence as scholars. The moderate size and full scope of the university offer students at every level the advantage of close contact with individual faculty members. That this faculty is dedicated to research and artistry is also an advantage for students, because active scholars and artists teach by sharing their own learning.

Research. The activity of research embraces all the arts and sciences at the university. This activity is valuable in itself as it results in original contributions to human understanding and expression, but it is also an integral part of both undergraduate and graduate programs. In doctoral study, and in many master's programs, thesis research is a primary mode of learning. As a land-grant, sea-grant, and space-grant institution, the University of New Hampshire has a special obligation to conduct applied research in the areas of agriculture, engineering, and marine sciences, and to disseminate the findings to the state and nation. Although any university must be selective in its quest for excellence in research, the only public university in the state has the responsibility to meet the public need for a broad scope of pure and applied research. The obligation not only to know but to share knowledge extends the university to the larger world of learning.

Public Service. The university is likewise cosmopolitan in its public service activities. It fulfills its special responsibility for the welfare of the state through UNH Cooperative Extension, through the Division of Continuing Education, and through research and consultation on particular needs of New Hampshire citizens. Likewise, the array of professional and graduate programs at the university reflects not only the distinctive expertise of the faculty, but also the dedication to the state and region. Outside the classroom, too, participation in an academic community dedicated to the public interest inculcates an ethic of public service.

The University of New Hampshire is dedicated to collaborative learning inside and outside the classroom. By long tradi-

tion, it puts concern for humanity at the center of learning and attends to the ethical dimensions of the intellectual enterprise. From this standpoint, the university community is committed to the free and open exchange of ideas and prizes the scholarly virtues of integrity and honesty. It prepares students for full and active participation in a democratic society.

The Campus

The home of the main campus of the university is Durham—one of the oldest towns in northern New England—near the seacoast of New Hampshire. The semirural town still retains traces of its colonial past.

The 200-acre campus is surrounded by more than 2,400 acres of fields, farms, and woodlands owned by the university. A stream flowing through a large wooded area in the middle of the campus enhances the natural open space among the buildings.

College Woods, on the edge of campus, includes 5 miles of well-kept paths through 260 acres of woods.

The *University Library* houses more than one million volumes, 6,000 periodical subscriptions, one million government documents, patents, maps, sound recordings, compact disks, video cassettes, manuscripts, and other related material. Specialized subject collections in chemistry, engineering and mathematics, biological sciences, and physics are housed in four branches administered by a physical sciences librarian and a biological sciences librarian.

Computing facilities; the newly renovated and expanded student union; and a new recreation, sports, and entertainment complex (The Whittemore Center) are described in the campus life and services for students sections.

Visual and performing arts are accommodated in the Paul Creative Arts Center, which contains the Art Gallery and two theatres; in the Whittemore Center; and in the student union.

Research facilities are extensive and serve every field of academic endeavor. Information is available from the departments involved.

The campus of the *University of New Hampshire at Manchester* is located at two sites, French Hall on Hackett Hill and the University Center in the city's historic millyard area.

Accreditation

The University of New Hampshire is accredited by the New England Association of Schools and Colleges, Inc., which accredits schools and colleges in the six New England states. Accreditation by the association indicates that the institution has been carefully evaluated and found to meet standards agreed upon by qualified educators. Specialized programs of study are also accredited by various professional organizations.

All degree programs at the University of New Hampshire are approved for veterans' educational benefits. Individuals are encouraged to contact the veterans coordinator in Stoke Hall about specific questions.

The University of New Hampshire supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of its applicants for admission.

Admissions

The university welcomes visitors to campus. Candidates are encouraged to contact the Office of Admissions to arrange for a group information session, interview, or tour of campus with a student admissions representative. These representatives are qualified to give information about the university and the criteria used by the Admissions Committee in reviewing candidates, and they are best able to discuss student activities and student life. A professional staff member oversees each day's interview activity and is available to assist candidates with special concerns or questions. The Saturday morning and weekday group information sessions in the fall are led by an admissions staff member and student representatives and are followed by guided tours of the campus. Please call the Office of Admissions (603) 862-1360 for information on dates.

Admission Criteria

Admission to a bachelor's degree program is based upon successful completion of a four-year secondary school program of college preparatory coursework. Pri-

mary consideration is given to the academic record, as demonstrated by the quality of candidates' secondary school course selections, academic achievement, recommendations, and the results of a College Entrance Examination Board Scholastic Assessment Test (SAT-I) or results from the American College Testing program (ACT). Strong consideration is given to character, initiative, leadership, and special talents.

The choice of secondary school program and courses may limit or enhance opportunities and achievements in college. Candidates are strongly encouraged to extend their knowledge and learning skills through work in the basic academic disciplines. Most successful candidates present at least four years of English and mathematics, three or more years of laboratory science, and two years of social science. Recommended mathematics preparation includes algebra I, geometry, algebra II, and trigonometry. Successful candidates have generally completed at least three years of study in a single foreign language or more than one year of study in each of two different languages.

Candidates are expected to pursue in greater depth those fields in which they have special interests. For example, students who plan to specialize in engineering, science, mathematics, or forestry should present at least four years of mathematics including trigonometry, as well as laboratory coursework in chemistry and/or physics. Students pursuing business-related studies should have also completed four years of mathematics including trigonometry. For students planning to major in health-related disciplines, laboratory courses in biology and chemistry are strongly recommended.

Applicants who have decided upon academic programs should indicate their "prospective" majors on the application for admission. Undecided candidates may apply for admission as "undeclared" applicants for each of the university's five school and college divisions and at UNH Manchester.

Many university students request a change in major during their undergraduate years, and most are approved. These changes are possible after a student has been at the university for at least a semester and has secured permission from the appropriate college dean and department chairperson. In recent years, however, the university has not always been able to honor all requests for a

change of major, most notably into biological sciences, environmental conservation, nursing, occupational therapy, and wildlife management.

Admission Test Requirements

All candidates for admission to bachelor's degree programs are required to submit the results of a College Entrance Examination Board Scholastic Assessment Test (SAT-I) or the American College Testing program (ACT). SAT-II tests are not required, but a foreign language subject test may satisfy the foreign language requirement of the bachelor of arts degree programs. Required scores vary by test.

International students whose primary language is not English must submit the results of a Test of English as a Foreign Language (TOEFL). The recommended minimum TOEFL score is 550.

Art and Music Candidates

Candidates applying to any program within the Department of the Arts (except art history) are required to submit a portfolio to the department chairperson (603) 862-2190. Candidates applying for programs in the Department of Music must make arrangements with the department chairperson for an audition (603) 862-2404. Details regarding portfolio or audition requirements may be obtained from the departments.

Freshman Admission Application Deadlines

Except for early notification candidates, applications should be submitted after the first marking period grades for senior year are available and before February 1. Applications received after that date may be considered only on a space-available basis.

Candidates who apply for regular admission by the February 1 application deadline will receive notification by mid-April. Accepted candidates are required to confirm their intention to enroll with the payment of an enrollment fee (\$300) by May 1.

Early Notification

The university considers well-qualified freshman applicants for fall enrollment under the early notification program. The deadline for early notification is De-

ember 1. The early notification program places the applicant under no obligation to enroll if accepted for admission. The benefits of early notification are an early decision of admission and priority in the selection of a residence hall if the student ultimately chooses to enroll. Applicants who are not admitted under the early notification program will be reconsidered in the regular admissions process after receipt of senior year, first semester grades. Early notification applicants must submit an application, secondary school record, the results of the SAT-I or ACT, and a counselor's letter of recommendation. Decisions will be reported by January 15 on all early notification candidates who have observed the application deadline.

Deferred Admission

The university considers applicants for deferred admission, which enables students to reserve a space at the university while taking time off from school for work or travel. The university may not be able to offer deferred admission in certain program areas, however.

Advanced Standing

The university recognizes outstanding secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants qualify for such credit by successfully completing coursework for college credit and satisfactory achievement on university approved placement examinations, including the College Board Advanced Placement Tests, or through the College Level Examination Program (CLEP).

The university accepts College Board Advanced Placement Tests in every subject area, with credit and course equivalency based on the score achieved. Contact the Office of Admissions for further information (603) 862-1360.

The university recognizes the College Level Examination Program. Up to 32 semester credits of General Examination tests may be applied as elective credit only. Scores must be 500 or better in the humanities, natural sciences, and social sciences-history exams. The minimum score for mathematics is 500 and for the English exam with essay, 500. Subject exams, when applicable, may be used to satisfy either departmental or general education requirements.

Maximum credit accepted for all credit by exam or advanced placement testing is 64 semester hours. Further information may be obtained from the Office of Admissions.

Associate Degree Candidacy

The university accepts candidates for associate in applied science and associate in arts degree programs who have demonstrated ability and motivation for learning through academic achievement, work experience, and/or military service.

Both New Hampshire residents and out-of-state students may be considered for admission to associate in applied science degree programs offered by the university's Thompson School of Applied Science. Candidates applying from the senior year in high school must submit the results of a College Entrance Examination Board Scholastic Assessment Test (SAT-I) or results from the American College Testing program (ACT). Students granted freshman admission to the Thompson School are eligible for university residence hall accommodations.

The university offers an associate in arts degree program through the Division of Continuing Education. This program is available to both New Hampshire residents and out-of-state students. Associate in arts degree candidates are not guaranteed housing but are encouraged to contact the Department of Housing (603) 862-2120 to explore possibilities.

For information concerning bachelor and associate degree programs offered through UNHM, see the section on the University of New Hampshire at Manchester (page 100).

Eligibility for Degree Candidacy

Applicants who meet the appropriate requirements for admission may become candidates for any undergraduate degree offered by the university. However, applicants having a bachelor of arts degree will not be admitted into a program of study that awards the same degree (e.g., B.A., history, and B.A., zoology). Applicants can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Applicants may also be admitted into a program awarding a different degree (e.g., B.A., history, and B.S., biology; or B.A., history, and A.A.S., applied business management).

Readmission

An undergraduate who withdraws, does not register for UNH coursework in a given semester, or is suspended or dismissed from the university thereby terminates degree candidacy and must apply for readmission by the following deadlines: fall semester, June 1; spring semester, November 1. Readmission applications are processed in the Office of Admissions. However, decisions regarding readmission are made in consultation with the Division of Student Affairs and the dean's office of the university college division to which the student is applying.

Before seeking readmission, suspended students must remain away from school for at least one semester. The applications of suspended students should include a statement about the applicant's readiness to resume university work.

Only under extraordinary circumstances will students be readmitted after dismissal for academic reasons. Applications submitted by dismissed students are reviewed by the university's Academic Standards and Advising Committee.

Students applying for readmission should realize that it may not be possible to enroll in certain programs that have established enrollment limitations.

Transfer Students

Transfer admission to UNH is competitive. The university will consider qualified candidates seeking to transfer from approved institutions. The consideration of a student's candidacy includes review of course selection and the extent to which that selection addresses the university's general education requirements. Transfer credit is awarded for courses that have been completed with a grade of C or better, provided those courses are comparable to courses offered at UNH. Each course must carry at least 3 semester credits to qualify for general education consideration. Formal transfer credit evaluations are provided with the offer of admission.

Students enrolled in one of the university's associate degree programs who desire admission to a bachelor's degree program at UNH must apply as transfer students through the Office of Admissions. A recommendation from the associate degree adviser is also required.

It may not be possible for transfer applicants to enroll in certain programs with established enrollment limitations. While university housing is not guaranteed, transfer students may contact the Department of Housing (603) 862-2120 to discuss the possibility of on-campus accommodations.

Students seeking to transfer for the fall semester must complete application procedures before March 1; for spring semester, by November 1.

No portion of a student's grade-point average will transfer; that is, external averages will not be calculated with UNH grades.

New England Regional Student Program

The university participates in the New England Regional Student Program of the New England Board of Higher Education, in which each state college and university in New England offers a number of specialized curricula at the undergraduate level to students from other New England states. Under this program, admitted students pay the UNH in-state tuition plus an additional percentage. Students must indicate on the application the specific approved curriculum for which they are applying. Information about the curricula may be obtained from the New England Board of Higher Education, 45 Temple Place, Boston, MA 02111, or call (617) 357-9620.

Special Student Status

UNH offers the special student classification for persons who wish to participate in university coursework without entering a degree program. Special (non-degree) students register for coursework through the university's Division of Continuing Education and are usually restricted to part-time study (maximum of 11 credits) unless permission is granted by the Office of Admissions to exceed this limit. In evaluating requests for full-time status, the Office of Admissions generally applies the same criteria used in the review of applicants for admission to degree candidacy. Special students have full access to the academic advising services within the division. Students must maintain satisfactory achievement to continue with university coursework.

Resident Status

All students attending any division of UNH in any capacity shall be charged tuition at a rate to be determined by their primary, legal domicile. Those domiciled within the state of New Hampshire shall pay the in-state rate. Those domiciled elsewhere shall pay the out-of-state rate.

Students are classified as residents or nonresidents for tuition purposes at the time of admission to the university. The decisions, made by the Office of Admissions, are based upon information furnished in students' applications and any other relevant information.

All applicants living in New Hampshire are required to submit a notarized statement to the effect that they, if financially independent, or their parents, if financially dependent, have been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their attendance at the university unless they have acquired bona fide domicile in New Hampshire.

If students maintain residency apart from that of their parents, they must clearly establish that they are financially independent and that their residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the university. To qualify for in-state status, students must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. The university reserves the right to make the final decision concerning resident status for tuition purposes.

A copy of the rules governing tuition rates may be obtained from the Office of Admissions.

Financial Aid

The University Financial Aid Office assists students who are unable to meet educational expenses entirely from their own family resources. Aid is available in the form of grants and scholarships, loans, and part-time employment. The financial aid catalog, *Scholarships and Grants*, contains a listing of scholarships available from endowments, special programs, and gifts. The financial aid brochure gives program information, application procedures, and deadlines.

In many communities, scholarships and loans are available locally. School principals and guidance counselors have information about these sources of assistance, which are available to both high school seniors and adult students.

Before applicants may be considered for assistance by the university, they must submit the Free Application for Federal Student Aid (FAFSA). Applicants may obtain the FAFSA from local high schools or from the UNH Financial Aid Office.

The financial aid application deadline for the 1997-98 academic year for aid awarded by the university is March 1, 1997. This is the date by which your fully completed FAFSA must be received by the federal processor.

The importance of meeting this deadline cannot be overstated. While there are some types of aid (e.g., Pell Grants and Stafford Loans) for which you may apply after this deadline, it is likely that you will receive substantially less total aid if your application is late. For the past several years, applicants applying after the deadline did not receive any aid awarded by UNH (SEOG, tuition grant, Perkins Loan, or work study).

It is the university's position that the student applicant is accountable for the accuracy and timely submission of the FAFSA. We realize that in most cases a student's parent(s) also participates in completing the form. However, we invest in the student's ultimate responsibility for monitoring the application process. Students should not wait until being admitted to the university before applying for financial aid.

Note: There is reference on the FAFSA to a "deadline" of May 1, 1997. Do not be misled by this date. This is simply the last date on which the federal processor will accept the form. It is *not* the financial aid deadline at UNH or most other colleges.

Grants and Scholarships

Admitted undergraduate degree candidates who will attend UNH on a full- or part-time basis may be considered for tuition grants and university scholarships. The basic consideration is financial need, although some scholarships are awarded on the basis of scholastic attainment, participation in extracurricular activities, or meeting specific requirements of a donor.

The university participates in the federally sponsored Federal Supplemental Educational Opportunity Grant Program, which is designed to assist needy students who are admitted degree candidates.

Federal Pell Grant Program

Students may apply directly to the federal government for a Pell Grant using the FAFSA. Students must reapply each year for a grant.

Loan Programs

Two loan funds are administered by the university: UNH Loan Fund and Federal Perkins Loans. Admitted undergraduate and graduate degree candidates who will attend the university on at least a half-time basis may be considered for these loans. Financial need must be clearly demonstrated, and loans may be used only for educational expenses.

Most states now have higher education loan plans established by the Higher Education Act of 1965. Contact your local bank, other lender, or the Financial Aid Office for information.

Part-Time Employment

The Federal Work-Study Program, both academic year and summer, assists students who, as determined by the Financial Aid Office, need financial assistance for their educational expenses. Admitted undergraduate and graduate degree candidates attending at least half time are eligible for consideration.

Students who do not qualify for the Work-Study Program may find part-time employment on or near campus.

ROTC Scholarships

ROTC scholarships are offered on a competitive basis by both the Army and Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. Students in both the

four-year ROTC program and the two-year program compete for scholarships covering their remaining academic years. Scholarships pay up to full tuition, all mandatory university fees, and required textbooks for all courses. Limits may be placed on these scholarships depending on the type and amount of expenses incurred. In addition, all scholarship recipients receive a tax-free \$150-per-month subsistence allowance.

Campus Life

Housing

The university offers students a variety of housing options, including small halls of approximately 100 students to medium halls and large halls (ranging from 400 to 600 students). Some halls are single sex; others are coeducational. Upperclass undergraduates may also choose from either of two on-campus apartment complexes—the Gables and Woodside apartments. These apartment complexes are designed to meet the more independent and self-reliant life-styles of upperclass students. Special-interest housing is offered in the minidorms (each dorm focuses on a theme) and in Smith Hall, which is primarily for international students. There is also a residence hall for students participating in SELF (Students Electing to Live Free), a program whose participants have chosen not to use alcohol or any chemical substances. Graduate and family housing are available.

The Department of Housing and the Residential Life Office are committed to providing a living environment that maintains high standards of health and safety. Full-time professional directors manage the residence halls and work with a student staff to offer special programs and enforce hall standards.

Undergraduate university housing is available to all full-time baccalaureate degree candidates and is available to associate in applied science degree candidates on a space-available basis. Offers of housing to associate in arts degree and Division of Continuing Education students are made on a case-by-case basis. Students are not required to live on campus.

Offers for on-campus housing are sent to all accepted new freshmen. Transfer and readmitted students may apply for housing upon admission to the uni-

versity. Offers will be made on a space-available basis. All application materials are available at the Department of Housing located in Pettee House.

For more information, contact the Department of Housing (603) 862-2120.

Dining

Three dining halls offer continuous meal service, Monday through Friday, and serve brunch and dinner on weekends. Several entrees are offered at each meal including a vegetarian choice, a deli bar, salad bar, desserts, and more. After hours, "Prime Time," at each dining hall offers quick-service meals and snack items in the evening.

Students living in residence halls purchase semester meal plans at fourteen or nineteen meals per week. A ten-meal-per-week, Monday-Friday plan is also available. Students living in undergraduate apartments or off campus may choose to purchase any one of six meal plans currently offered.

On-Tray, a newsletter distributed weekly, displays the current menu and contains articles about nutrition as well as special dining and campus activities. A healthy choice meal guide is published each week and a registered dietitian is available for private consultation. Students with special nutritional considerations are advised to meet with the dietitian before committing to a meal plan and dormitory housing.

Cat's Cache

Cat's Cache is a convenient way to make purchases on campus. Money may be deposited into a Cat's Cache debit account when a student signs up for housing, attends June Orientation, or pays tuition.

Cat's Cache is accepted at a growing variety of campus retail outlets, including the UNH Bookstore, dining halls, and the Memorial Union Building retail outlets, vending machines, and the Recreation Center. Cat's Cache is as convenient as a swipe of an ID card and offers the convenience of not carrying cash for small purchases.

Memorial Union

The newly renovated Memorial Union Building (MUB) is the university's community center. The union provides opportunities for student involvement and offers space for programs, meetings, and

study, as well as for major public events, movies, and other entertainment. Students, faculty, and staff serve on the Memorial Union Board of Governors and work with the director to set policies for the building's operation. The original building was a gift from UNH alumni and is the official state war memorial.

Headquartered in the MUB are the Information Center, a convenience and card store, the UNH Copy Center, the UNH Bookstore, the Ticket Office, specific lounge/study space for both nontraditional and graduate students, and Granite Square Station, the undergraduate mail center. The Entertainment Center provides a comfortable atmosphere for relaxing with live performances and houses the Eatery, a restaurant specializing in vegetarian fare. The Food Court offers expanded dining options, and food service is also available in the Coffee Office and in Lumpy's in the Games Room. The Student Senate Office; WUNH-radio; *The New Hampshire*, the student newspaper; and nearly 60 other student organizations have office space in the MUB.

The Office of the Memorial Union is responsible for the registration and recognition of more than 100 student organizations and assists students with the mandatory registration process. Advising is provided to all student organizations, including Greek organizations. Memorial Union staff members assist in the coordination of their activities and adherence to student rights and rules. Learning opportunities are provided through leadership and management skills conferences. Staff members are available for advising and assistance with publicity, recruitment, and advertising for student events. The Memorial Union staff members work on a variety of programs in conjunction with student organizations such as Jukebox, bus tours, daytime programming, MUB minicourses, and the craft series.

Recognized student organizations and university departments are encouraged to use rooms in the MUB. Reservations are arranged through the MUB Scheduling Office, 862-1526. For a complete listing of Memorial Union programs, services, and events, phone the Information Center at 862-2600.

Cultural Events

Students at the university can participate in a rich cultural life. In addition to the numerous lectures, films, concerts, and university theatrical productions offered

throughout the year, the UNH Celebrity Series and exhibitions at the Art Gallery bring artists of international stature to campus. The arts at UNH are an important part of undergraduate education, and programs are frequently incorporated into coursework.

Recreational Sports

Many opportunities for leisure activities, regardless of skill or ability, are offered through Recreational Sports. In addition to intramurals, club sports, and fitness programs, informal recreation is available to all degree candidates with student IDs. Others must purchase a university recreation pass at the information desk in the Recreation Center.

The new Whittemore Center combines a state-of-the-art student recreational facility with an Olympic-size hockey rink that converts to a basketball court or to a venue for major concerts and performances.

The recreational facilities include two multipurpose athletic courts, squash and racquetball courts, aerobics and martial arts rooms, an 8,000-square-foot fitness center with 100 exercise stations, three basketball/volleyball courts, an indoor track, a lounge, and a club room.

The university also has both indoor and outdoor pools and numerous playing fields.

Services for Students

Advising and Counseling Services

Every UNH student is assigned an academic adviser, who provides help in choosing courses and planning a program of study. Each college within the university also has an advising office. Other sources of help, for academic or personal problems, are described below.

University Advising Center

The University Advising Center, Hood House, 862-2064, provides academic advising for undeclared students and selected majors in the College of Liberal Arts. The advising center has four full-time advisers and a director to assist students with program selection. Students are encouraged to use their period of undeclared status to explore areas of study that will help them select a major.

The advising center coordinates the

services of part-time faculty advisers representing each of the five schools and colleges on campus. Each faculty member, available for appointments at the center, can give students the most current information on specific majors and departmental requirements.

Center for Academic Resources

The Center for Academic Resources offers a comprehensive program of academic-related services to undergraduate students. Participants work on an individual basis or in group seminars with trained staff members to improve their academic performance and enhance their educational experience. The center offers learning skills instruction, reading assessment, drop-in subject area tutoring, study groups, computer support, course information, clarification of academic goals, personal advising, and referral. The center serves approximately 1,200 students a year. There is no cost associated with these services.

Additional services are available through the Student Support Services component for students who meet income and disability criteria. These services include individualized subject-area tutoring, reading and writing instruction, support for students with learning disabilities, graduate school advising and preparation, and scholarship search assistance. Student Support Services is 100 percent federally funded through a \$190,000 grant from the U.S. Department of Education.

Located at Wolff House (8 Ballard Street, next to Health Services), the center is open Monday, Tuesday, and Wednesday from 8:00 A.M. to 8:00 P.M. and on Thursday and Friday from 8:00 A.M. to 4:30 P.M. Call 862-3698 for further information.

Counseling Center

The Counseling Center offers confidential professional consultation, individual and group therapy, and educational workshops for a broad range of emotional, psychological, and interpersonal concerns. Services are provided for all students who have paid their Health Services/Counseling fee and who may be facing a major crisis, confusion, depression, family difficulties, or other personal problems.

The center provides a scheduled intake system. Intake appointments can be made over the phone or in person. In addition, emergency services are offered by the

Counseling Center during regular business hours, 8:00 A.M.–5:00 P.M., Monday through Friday, and after hours through Health Services at 862-1530. When necessary, the center's staff assists with outside mental health referrals.

The staff, which includes certified psychologists, counselors, and consulting psychiatrists, is committed to the welfare and development of UNH students. The staff is available for consultation with faculty, administrative staff, and parents on matters relating to the welfare of students. The Counseling Center is fully accredited by the International Association of Counseling Services, Inc. and offers a predoctoral internship training program that is accredited by the American Psychological Association.

All information about a student's visits to the Counseling Center is confidential and cannot be released without the written permission of the student.

For information or to schedule an appointment, call 862-2090.

Athletics, Men's and Women's

UNH participates in the following intercollegiate men's athletics programs: baseball, basketball, cross country, football, golf, hockey, lacrosse, skiing, soccer, swimming, tennis, and track and field. UNH also participates in the following intercollegiate women's athletics programs: basketball, crew, cross country, field hockey, golf, gymnastics, ice hockey, lacrosse, skiing, soccer, swimming, tennis, track and field, and volleyball. An undergraduate athletic pass provides access to certain sporting events on a space available basis. (See also Recreational Sports, page 8.)

Career Services

Career Services assists students at every step of their careers—includes identifying potential careers for the undecided, offering opportunities to explore career possibilities, and securing employment. Interest testing and computer-aided career decision making are designed for the undecided. A career library, a nationwide parent/alumni career advisers network composed of more than 2,500 members, and an internship/field experience office help students explore career possibilities. Job placement opportunities are offered through an on-campus recruiting program and a job notice retrieval telephone

system called "UNH Alumni Jobline." An annual career day, graduate school fair, and summer job/internship fair help in career planning. The office administers national tests for postgraduate schooling. The service is available to all undergraduates and graduate students; early use is encouraged.

Job Locator Program

The federally funded Job Locator Program helps students locate part-time and summer jobs, preprofessional internships (also called field experiences), and community service jobs. All three types of positions are posted on the job board in the Memorial Union Building, are listed in UNHinfo, and are maintained in the Career Services office.

Internships can take place anywhere, for example, in a business, a research facility, or a wildlife refuge. Internships can last from one to several months, be full or part time, and be paid or unpaid. Students engaged in career-oriented work experiences may earn academic credit.

The Community Service Program locates positions in not-for-profit service agencies for work-study students. These positions are designed to encourage students to assist in community agencies and programs involved with improving living conditions, especially for residents who may be termed disadvantaged.

Students who wish to participate in the Job Locator Program need only consult the job listings and apply. Those interested in internships or the community service/work-study program should contact Career Services 862-2010.

Internships

Internships can be located through a variety of departments and offices on campus. Several academic departments require students to complete an internship as part of the requirements for their program. Career Services maintains information on a large number of internships/field experiences which include the business community, not-for-profit organizations, and government and educational institutions. (See also Job Locator Program, above.)

Child Care Resource and Referral Service

Information about seacoast area child care and assistance selecting appropriate care

are available through the UNH Child Care Resource and Referral Service 862-2895. The university also operates on-campus day care and preschool programs. Call 862-2835 for further information.

Computing Facilities

Every UNH student has access to microcomputers and mainframe computers.

UNH has three microcomputer centers for use by students. Centers are located in McConnell and Kingsbury Halls and Dimond Library. They are equipped with a total of 120 computers, both IBM PS/2 and Apple Macintosh models, and compatible printers. Each center has a library of software for word processing, spreadsheets, graphics, modeling, and statistical analysis. Some students use their own software or software provided by their instructors. The centers are staffed by student consultants who help with questions or problems. For information and center hours, call 862-0058.

Mainframe computing at the university comprises three central system computers available for academic use by students: Christa, Hopper, and Kepler, running OSF/1, a version of Unix. These computers operate 362 days a year, 24 hours a day. Any student may request an account on these systems and have access to them via terminals in any of three large systems computing centers located in McConnell and Kingsbury Halls (or with terminal emulation programs in the small systems centers). Students may apply for an account at the Computing and Information Services (CIS) Help Desk located in Room 14, Thompson Hall.

At the CIS Help Desk students can have disks translated (bring a blank disk), pick up free virus protection software, and apply for mainframe computer accounts, which enable students to receive and send e-mail and access the Internet.

The CIS Help Desk is also a telephone consulting line at 862-4242 for questions relating to using computers at UNH.

At the Training Center in Hamilton Smith Hall, students can learn about computing through free short courses offered every semester, many of which include hands-on training. Some courses may be viewed on videotape. The center also offers computer-based training, which combines an instructional videotape with software for hands-on exercises. For more information call the center at 862-3667.

Students who want to purchase their own computers can do so at the Univer-

sity Technology Center, the campus computer store, located in Room 14A, Thompson Hall. The store offers IBM, Apple, and Dell computers as well as a variety of software, supplies, and peripherals at educational pricing to members of the UNH community. Warranty service and computer maintenance and repair are provided through the Computer Service Center

Disabilities, Services for Students

Students with physical, mental, or learning disabilities who need accommodations must register with the ACCESS Office (Accessing Career Challenges in Education through Specialized Services), Room 118, Memorial Union Building, 862-2607 voice/TDD.

The university encourages members of the community with disabilities to use existing services and to become involved in the mainstream of campus life. For information about priority scheduling, accessible classrooms, special parking arrangements, assistance in securing academic aides, accessible on-campus transportation, reading services, interpreters, academic modifications, and other special arrangements, contact the ACCESS Office.

International Students and Scholars

The Office of International Students and Scholars (OISS) of the Center for International Education provides counseling, programming, and administrative support to international students, faculty, staff, and exchange scholars and serves as a general resource and referral center. OISS is responsible for the reception and orientation of new international students and provides assistance concerning immigration matters. All new international students are required to report to OISS within fifteen days of their arrival at UNH. Students are also required to maintain contact with OISS and must report any change of visa status, address, academic program, or source of educational funds.

Judicial Programs

The Judicial Program is dedicated to preserving standards of conduct and is designed to be fair, to meet the requirements of due process, and to provide occasions for those involved to learn from their experiences.

Most violations of the Rules of Con-

duct are resolved in an informal manner. Those not resolved informally may be referred to a hearing board or judicial officer. Hearings are held to determine responsibility and appropriate sanctions, ranging from warnings to dismissal. If student misconduct results in the violation of both university regulations and criminal law, the student may face both the university student conduct system and criminal court proceedings. Staff members are available to answer questions relative to conduct issues or concerns and to provide advisement. More specific information can be found in the *Student Rights, Rules, and Responsibilities* publication.

Multicultural Student Affairs

The Office of Multicultural Student Affairs (OMSA) assists the university in its commitment to the recruitment, retention, and graduation of African American, Native American, Asian American/Pacific Islander, and Latino student populations. The office is dedicated to fostering the full participation of students of color in all facets of the UNH community to assure access to all academic, social and recreational groups and activities. In addition, Multicultural Student Affairs acts as an advocate for all students and as a university liaison to various student organizations. The office focuses on the value of multiculturalism and promotes diversity, integration, and interaction through both structured programs and informal opportunities for dialogue among members of the campus community. The Office of Multicultural Student Affairs seeks to make a "difference that makes a difference." For more information, call OMSA at 862-2050.

Nontraditional Student Services

The Nontraditional Student Organization offers programs and services to students returning to college after a number of years out of school. The Nontraditional Student Organization (NTSO) maintains an office at the Memorial Union Building and lounge space is provided. Students are encouraged to stop by for information, to study in the lounge, or to visit with other students.

Police, University

The University Police Department, which is committed to the enforcement of laws and university policies supportive

of the rights and dignity of all persons, seeks to maintain a campus environment in which learning may thrive. Officers, professionally trained in their respective areas, staff both the police and Security Services units.

Programs, including a women's self-defense program, and literature regarding crime prevention are offered. On request, staff members will meet with groups to share precautions for increasing personal safety and protection of personal property. A walking patrol provides an escort service for students, faculty, and staff. Engraving pencils to inscribe identification numbers on property in case of theft are loaned free of charge to members of the campus community. To take advantage of any of these services, contact the University Police Department, 862-1427.

Sexual Harassment and Rape Prevention Program (SHARPP)

SHARPP is dedicated to providing a safe environment for all members of the university community. They operate a twenty-four-hour hotline to respond to the needs of survivors of sexual assault and their significant others. The hotline is staffed at all times by two victim advocates who are trained in accordance with the New Hampshire state statute that protects confidential communication between counselor and victim. Sexual assault advocates are trained volunteers, women and men, who offer confidential assistance to students who have been sexually assaulted at any time in their lives. These advocates will accompany the survivor through the criminal justice system, medical procedures, police reports, and student judicial proceedings. SHARPP offers peer support groups for male and female adult survivors, incest and child sexual assault survivors, significant others, and parents. All of SHARPP services are free and confidential.

SHARPP also provides campuswide rape awareness workshops and sexual harassment workshops for residence halls, academic classes, fraternities and sororities, athletic teams, and faculty/staff/student organizations.

The SHARPP office is open Monday through Friday, 8:00 A.M. through 4:30 P.M. Their business phone is 862-3494. After hours, a SHARPP advocate can be reached by dialing 862-1212. When calling, only a first name and phone number are needed. A SHARPP advocate will return the call immediately.

Student Life Office

The Office of Student Life works to ensure a university environment that is conducive to learning and to maintain standards of behavior appropriate to the campus community. The office fulfills the role of student advocate, assisting students with general concerns and providing leadership to SHARPP and Judicial Programs. A liaison relationship with the University Chaplains Association fosters a connection to the broader community.

The Partnership for Social Action Program, another program of the office, provides students with opportunities to volunteer their time and talent locally toward a variety of human and environmental problems. The program connects students with nonprofit and governmental agencies for specific projects. Students may also work with local corporations in fund-raising activities. Programs available to interested students include Habitat for Humanity's Alternative Spring Break Trips; visits to group homes for abused boys and girls; painting projects for the houses of low-income families; mentoring relationships between UNH students and teenagers; fund-raising events; and tutoring projects between the university and area elementary schools.

Staff members and student volunteers conduct outreach minisessions throughout campus. In addition, the program works closely with People for the Advancement of Volunteer Efforts (PAVE), a recognized student organization dedicated to volunteer efforts. A listing of volunteer opportunities is maintained on the UNH campus information system, UNHinfo.

UNHinfo

UNHinfo is the university's campuswide computer information system. It provides news on events, employment, housing, the time and room schedule, the UNH online catalog, the Internet, and much more. Students can connect to UNHinfo from the central Unix systems. Access to UNHinfo is available through the student computing centers, the residence halls via a modem or dataline, and through video terminals located throughout the campus.

Veterans Information

The UNH veterans coordinator, located in the Registrar's Office 862-1595, provides counseling on all aspects of veterans' benefits as well as assistance in pro-

curing and completing the required forms and certifications for veterans' benefits. The veterans coordinator maintains a comprehensive directory to assist veterans in contacting state, local, and university resources for housing, day care, career planning, employment, financial aid, tutorial assistance, remedial training, handicapped services, and Vietnam Veterans Outreach. The coordinator also provides a framework for networking among campus veterans.

Women's Commission

The President's Commission on the Status of Women was established to explore conditions and attitudes within UNH relating to the mobility and functional equality of women and to encourage movement toward the goal of full participation of women. The commission recommends policies to the president and other university administrators to improve the status of women and to ensure an environment of equal educational and employment opportunities, networking opportunities, information, and support to all women on campus. The commission is located in Batcheller House on Rosemary Lane. The office is open Monday through Friday, 8:00 A.M. to 4:30 P.M., 862-1058.

Health Services

Health Services provides comprehensive primary health care, including laboratory examination, x-rays, and pharmacy services. The staff maintains close relationships with outside specialists in the area to whom they may refer patients. Three well-staffed and -equipped community hospitals are nearby, and emergency ambulance service is available in Durham at all times. For after-hours urgent care, Health Services has an agreement with Wentworth-Douglass Hospital in nearby Dover to provide care for students.

During the regular academic year, Health Services is staffed by full-time board-certified physicians, as well as part-time consultant physicians in orthopedics, pathology, and radiology. Additional clinical staff include physician assistants, nurse practitioners, and nurses. All full-time registered nurses are certified in college health. Visits with physicians, physician assistants, or nurse practitioners are by appointment. Medical problems re-

quiring immediate attention are evaluated and treated on a walk-in basis.

Office of Health Education and Promotion (Health Services)

The Office of Health Education and Promotion presents educational workshops on a variety of physical and emotional health issues. Confidential assessment and referral are also available. The resource room (Room 249) contains information on physical and emotional health issues, including HIV/AIDS, alcohol/other drugs, men's and women's health issues, wellness, stress management, sexuality, and eating concerns. These services and programs reflect Health Services's commitment to promoting awareness and encouraging self-care and informed decision making.

Appointments are made at the Office of Health Education and Promotion, or by calling 862-3823.

Health and Counseling Fee

All undergraduate and graduate-degree candidates and all full-time nondegree candidates pay a mandatory health and counseling fee. The academic year 1995–1996 health and counseling fee was \$319. Payment of the Health Services portion entitles the student to the following: unlimited office visits; unlimited routine x-rays and laboratory procedures (when ordered by a Health Services practitioner); a minimal level of off-campus laboratory work (when ordered and collected in-house); health education visits; many medicines for treatment of acute illness and injuries; family planning services; and one physical examination.

Health Insurance

An optional student health insurance policy is available through Health Services. Its cost for a full year in 1995–1996 was \$582. It covers most health care needs not covered by the health fee, including major medical payments. It is specifically designed to work in conjunction with the student health fee and may supplement or replace other insurance. Pre-existing conditions may not be covered. The maximum benefit is \$500,000 lifetime per accident or illness. There is a deductible and copayments. Health insurance for spouses and children of students is also available at a higher cost. For more information, call (603) 862-2840.

Health Record Requirement

In order to provide effective care, Health Services requires that students who have been formally accepted for bachelor's or associate degree candidacy, and who register for 6 or more credits, must have complete medical records on file with Health Services. These records consist of (1) a health history to be completed by students before registration on a form provided by Health Services, (2) proof of immunity to measles, and (3) documentation of tuberculosis (TB) testing within one year prior to entrance to UNH. This is mandatory for registration. **STUDENTS MUST HAVE HAD TWO LIVE-VIRUS MEASLES VACCINATIONS AFTER 12 MONTHS OF AGE OR A POSITIVE TITRE (BLOOD TEST), OR BE BORN BEFORE 1957.** International students must have been tested for TB within four weeks of arrival in the United States. Proof of date tested and test results must be submitted to Health Services. Students wishing exemption from this requirement on religious grounds must make a written request to the director of Health Services. It is the responsibility of students to complete the forms before the beginning of classes. Any student failing to complete these requirements may not be allowed to register for classes.

Fees and Expenses

The cost for the freshman year at the university averages about \$12,100 for residents of New Hampshire and about \$20,950 for nonresidents. See the chart below for a breakdown of these costs.

Fees and Expenses (1995–1996)*

	In-state residents	Non-residents
Tuition	\$3,870	\$12,540
Fees		
Activity fee	65	65
Recreational fee	195	195
Memorial Union fee	205	205
Student athletic fee	387	387
Health and counseling fee	319	319
Subtotal of Required Expenses	\$5,041	\$13,711
Room and Board		
Double room	2,420	2,420
19 meals/wk.	1,730	1,730
Subtotal	\$4,150	\$4,150

Estimated Expenses (to cover books, supplies, transportation, misc.)	2,909	3,089
Total Estimate	\$12,100	\$20,950
Optional Fees		
Health Insurance	582	582
Parents Association Sponsorship	25	25

*The university reserves the right to adjust charges for such items as tuition, board, student fees, and room rent. Such changes will be announced as far in advance as feasible.

Tuition

Tuition is \$3,870 (\$12,540 for nonresidents) per academic year. Undergraduates registering for 12 credits or more per semester pay the full tuition.

Students are permitted to enroll for more than 20 credits only with the approval of their college or school dean. After midsemester, persons carrying more than 20 credits will be billed a per-credit fee of \$163 for each credit above 20 for resident students and \$523 for nonresident students, whether or not a student has obtained the dean's approval. (No refund will be made if a student subsequently drops a course, bringing the credits to 20 or fewer.) Resident undergraduates registering for fewer than 12 credits pay \$163 per credit hour, plus a registration fee of \$15 per semester. Nonresident undergraduates registering for fewer than 12 credits pay \$523 per credit hour, plus a registration fee of \$15 per semester. The minimum charge for any recorded course is \$163 for residents and \$523 for nonresidents.

Tuition differential charges apply to some majors. Students majoring in engineering (chemical, civil, electrical, mechanical) and computer science will be charged a tuition differential of \$175 for both resident and nonresident students per academic year. Students in these programs (both resident and nonresident) who register for fewer than 12 credits pay a differential tuition of \$5 per credit hour. Whittemore School majors are subject to a tuition differential surcharge of \$300 for both resident and nonresident students per academic year.

All admitted students must pay an enrollment fee—\$300 for residents and nonresidents. The enrollment fee, less \$105 (to cover new student services such as orientation, preregistration, and record preparation), will be credited to the tuition bill. If a student decides not to attend the university, these payments may

be refunded on a prorated basis until August 15, according to the guidelines set by the Office of Admissions.

Three-fourths of tuition charges will be refunded to students withdrawing or dropping courses within one week of registration; one-half after one week and within thirty days; and none thereafter (see the University Calendar). Students receiving federal financial aid will have their refund calculated in accordance with the U.S. Department of Education regulations in effect at the time of their withdrawal. A \$100 administrative fee will be retained by the university. Specific details regarding the regulations are available in the UNH Financial Aid Office. Sample refund calculations are available at Business Services upon request. A degree candidate who withdraws from UNH and subsequently enrolls as a special student within the following year will be billed for tuition and fees on the same basis as degree candidates. Students with outstanding financial obligations to the university must clear their accounts before their registration will be confirmed.

A \$25 fee must be paid by all students dropping courses after the third Friday of classes. The \$25 fee will not be charged to persons changing to a reduced load or withdrawing; in both of these cases, the regular tuition rebate policy will apply. If a student has received permission to add a course after the third Friday of classes, a \$25 fee will be assessed for each course added. A change of section within the same course is accomplished by a "drop" of one section and an "add" of another; however, only one \$25 fee is assessed under these circumstances.

Fees

Required fees for 1995–96 included a Memorial Union fee (\$205) for the use and administration of the student union; a recreational fee (\$195) for support of recreational facilities; a student activity fee (\$65) for support of the undergraduate newspaper, yearbook, student government, student lawyer, student radio station, and other student organizations; a student athletic fee (\$387) to provide support for athletic programs; and a health and counseling fee (\$319) to provide general health care through University Health Services.

There are no waivers or refunds of these fees. The services and facilities are available to all—the extent to which each

student uses them cannot be the factor by which assessment is determined.

Participants in intercollegiate athletics are required to purchase the student accident and sickness insurance or demonstrate proof of comparable insurance to the respective athletic department. The 1995–96 cost for student accident and sickness insurance was \$582 for a full calendar year.

A \$25 contribution may be included for sponsorship of the Parents Association.

Room and Board

Room and board charges average \$4,150 per academic year for a double room with a 19-meal-per-week plan.

Students accepting a space on campus must include a \$200 housing deposit with a signed Room and Board Agreement. Written notification of cancellation of the room application or assignment received before August 15 will result in forfeiture of the deposit only. Written notification of cancellation after August 15 and before Friday of the first week of class will result in a charge of one-fourth of the full semester's housing fee.

If the student fails to occupy the assigned room by Friday of the first week of class or cancels the agreement by mutual consent, or if for disciplinary or nonrenewal actions the agreement is canceled, the student will receive a 75 percent refund of the semester's housing fee. Cancellation after the first Friday of classes and before thirty days after registration will result in a 50 percent refund of the semester's housing fee. Cancellation thirty days after registration will result in no refund of the housing fee. Students who check in or move in to a hall or apartment, move out, and do not withdraw from the university are charged the full housing fee. If the agreement is canceled, the total amount of the housing deposit will be applied against any unpaid university charges.

Refunds on board plans will be granted only on approved waivers or withdrawal from the university. Cancellation of a meal plan before registration day will result in a 100 percent refund; after registration day but before the end of the first week of the semester, 75 percent refund; and after the end of the first week but before the end of the fourth week, 50 percent refund. Refunds after the fourth week through the end of the twelfth week will be based on the re-

maining food cost portion of the meal plan. No refunds will be made after the end of the twelfth week. Generally, rebates will not be allowed for missed meals except in the case of illness.

Rebates

Any amount owed to the university will be deducted from any rebate due to a student.

Deposits and Course Fees

Refundable deposits may be required to cover locker keys or loss or breakage in certain departments. A charge will be made for individual lessons in music, as noted in the description of applied music courses. A charge will be made for riding lessons and scuba, as noted in the sections on animal sciences and physical education. Some courses carry special fees to cover the costs of special equipment, field trips, etc.; these are noted in the course descriptions. Thompson School students pay curriculum fees to cover special costs in their programs (see the Thompson School catalog). Students will be charged a computer use fee for courses requiring computer access and/or common access accounts. For certain courses, there are also lab fees.

Other Expenses

Books and classroom supplies cost approximately \$650, annually. These may be purchased at the University Bookstore.

Personal expenses vary considerably with individual students and include clothing, laundry, recreation, incidentals, and travel.

Payment

All bills, including those for room and board in university buildings, are due and payable in full on the payment due date for each semester. A late payment fee will be assessed to all accounts unpaid by the payment due date set for each semester.

Parents and students who wish to make periodic payments should consult their local banks, other financial institutions, or the university's Business Services Office for assistance in locating firms that provide programs for budgeting educational expenses.

UNIVERSITY ACADEMIC REQUIREMENTS

To graduate from the University of New Hampshire, students must fulfill three types of university requirements: general education, degree, and major.

General Education Program

The general education program is designed to emphasize the acquisition and improvement of those fundamental skills essential to advanced college work, especially the abilities to think critically, to read with discernment, to write effectively, and to understand quantitative data. It aims to acquaint the student with some of the major modes of thought necessary to understanding oneself, others, and the environment. It seeks to develop a critical appreciation of both the value and the limitations of significant methods of inquiry and analysis. Its goal, moreover, is the student's achievement of at least the minimal level of literacy in mathematics, in science and technology, in historical perspectives and the comprehension of our own and other cultures, in aesthetic sensibility, and in the diverse approaches of the humanities and the social sciences to understanding the human condition.

General education is intended to serve as a foundation for any major. It aims to go beyond the mastery of job-related skills and educate students so that they learn how to learn. The program is based on the premise that change is the dominant characteristic of our times and that the truly useful education stresses intellectual adaptability and the development of those problem-solving abilities, cognitive skills, and learning techniques vital to lifelong learning.

General Education Requirements

Students must fulfill the following general education requirements:

1. one course in writing skills, which must be taken during a student's first year;
2. one course in quantitative reasoning, which must be taken during a student's first year;
3. three courses in biological science, physical science, or technology, with no more than two courses in any one area;
4. one course in historical perspectives

5. one course in foreign culture (may also be satisfied by approved study abroad programs);
6. one course in fine arts;
7. one course in social science; and
8. one course in works of philosophy, literature, and ideas.

General education requirements shall not be waived on the basis of special examinations or placement tests, except for the College Board Advanced Placement tests and the College Level Examination Program (CLEP) tests. The required courses cannot be taken on a pass/fail basis. No single course may be counted in more than one general education category. Academic departments may or may not permit general education courses to count toward requirements for a major. Each course must carry at least 3 credits to qualify for general education consideration.

The specific courses that fulfill each category of the general education requirements are printed below. Any course appearing in this list will fulfill a general education requirement if taken after August 31, 1996.

1. Writing Skills

ENGL 401

2. Quantitative Reasoning

ADM 430‡
 BIOL 528
 CS 410C, 410F, 412
 DS 420
 HHS 540
 INCO 404B*
 MATH 419, 420, 424, 425
 PHIL 412, 550
 PSYC 402
 SOC 502

3. Biological Science, Physical Science, and Technology

Biological Science

ANSC 400, 401
 BIOL 405‡, 406‡, 411, 412, 413‡, 414‡, 443‡, 445‡
 HMP 501
 INCO 404C*
 KIN 607
 MICR 501
 NR 410, 412
 PBIO 400, 412, 421
 SOIL 502
 WILD 433
 ZOOL 402, 412, 474, 507, 508

Physical Science

CHEM 401, 402, 403, 404, 405, 409
 ESCI 401, 402, 409, 450, 501
 INCO 404D*
 PHYS 401, 402, 406, 407, 408
 WARM 504
Technology
 CIE 520
 CIS 411‡
 CS 401, 403
 EC 535
 ESCI 405
 FOR 502

Degree Requirements

Requirements in this catalog apply to students who enter the university between July 1, 1996, and June 30, 1997. (Students who entered the university at an earlier time but who wish to change to the requirements of this catalog must apply to the appropriate office for the change.) Students will be held responsible for all work required for graduation and for the scheduling of all necessary courses. Students are each provided one free copy of the catalog that is in effect at the time of their entry to the university. They are expected to keep that copy for the duration of their time at the university. Any other copies must be purchased, and availability cannot be guaranteed.

Modifications tend to occur in major programs during the four-year period of students' undergraduate careers. Students are expected to conform to these changes insofar as they do not represent substantive alterations in their course of study.

Note: Although the university will try to provide sufficient facilities so that students may pursue any major or curriculum for which they meet the requirements, such a privilege cannot be guaranteed, since rapidly increasing enrollment sometimes results in the overcrowding of required specialized courses. On occasion, students may remain in a crowded curriculum if they are willing to take certain courses during the summer session.

Bachelor of Arts

1. At least 128 credits in courses numbered 400-799, with a cumulative grade-point average of 2.00 for all courses taken at the university in which a grade is given.
2. Completion of the university general education requirements.
3. Proficiency in a foreign language at the level achieved by satisfactory work in a one-year, college-level course. This requirement may be fulfilled by taking a College Board foreign language achievement test, or by completing a full-year elementary course in any foreign language, or by completing a semester of a course in a foreign language beyond the elementary year, or by completing a one-year college-level course in American Sign Language. This requirement must be satisfied by the end of the sophomore year.

4. Satisfaction of major requirements by completing at least 32 credits of major coursework with grades of C- or better and a grade-point average of 2.00 or better.

Bachelor of Fine Arts, Bachelor of Music

Requirements for the B.F.A. degree are on page 26; for the B.M. degree, on page 36.

Bachelor of Science

1. At least 128 credits in courses numbered 400-799, with a cumulative grade-point average of 2.00 for all courses taken at the university in which a grade is given.
2. Completion of the university general education requirements.
3. For specific requirements, check individual departmental or program listings. See also pages 44, 59, 73, and 83.

Associate in Arts

1. Completion of at least 64 credits with a minimum grade-point average of 2.00.
2. Completion of general education requirements as follows (no pass/fail allowed):
 - a. one course in writing skills
 - b. one course in quantitative reasoning
 - c. one course in the biological sciences, or physical sciences, or technology
 - d. three courses chosen from the following, with no more than one from each category: historical perspectives; foreign culture; fine arts; social science; works of philosophy, literature, and ideas

The Division of Continuing Education may prescribe up to four of the six required courses used to satisfy the general education requirements. A list of courses that may be used to meet these requirements will be available from an adviser.

3. A minimum of four courses freely selected by the student.

4. The remaining courses or credits may be earned in one of the career concentrations described on pages 100 and 102 and/or in elective general education courses.

5. The last 16 credits must be University of New Hampshire courses completed at UNH following admission and matriculation, unless permission is

granted to transfer part of this work from another institution.

Dual Degrees

The opportunity to pursue simultaneously two undergraduate degrees enhances and broadens the education of certain students. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program. Except for specific five-year degree programs (page 19), a student may not pursue two different degree levels simultaneously.

Requirements

1. Students desiring dual degrees must petition the college dean or deans involved for permission.

2. Students must have a minimum 2.5 cumulative grade-point average.

3. Students planning to take one degree in a highly prescribed curriculum should register as freshmen in the appropriate school or college for that curriculum.

4. It is expected that candidates for two degrees will complete 32 credits beyond those required for the first degree.

5. Students can earn more than one bachelor of science (B.S.) degree, provided that each degree is in a different field. Students cannot earn more than one bachelor of arts (B.A.) degree.

6. Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional baccalaureate degree at the University of New Hampshire provided they fulfill the previously listed requirements. The degree received at the first institution will be accepted by UNH as awarded by that institution.

Supervision

As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student's academic program. The college offices and the supervisors will receive copies of grade reports and other records for students pursuing two degrees.

Minimum Graduation Average

A cumulative grade-point average of 2.00 in University of New Hampshire courses is the minimum acceptable level for undergraduate work in the university and for graduation. In addition, some majors require a grade-point average greater than 2.00 in certain courses or combinations of courses. The Academic Standards and Advising Committee examines the records of students periodically and may place academically deficient or potentially deficient students on warning, or may exclude, suspend, or dismiss those who are academically deficient.

Quota of Semester Credits

Students registering for more than 20 credits must receive the approval of the college dean.

Undergraduates are assigned class standing on the basis of semester credits of academic work completed with a passing grade, as follows: to be a sophomore—26 credits; to be a junior—58 credits; to be a senior—90 credits.

Residence

"Residence" means being enrolled in University of New Hampshire (including UNH at Manchester) courses after admission to and matriculation in a degree program. Students who are candidates for a bachelor's degree must attain the last one-quarter of total credits for the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.

Leave of Absence or Withdrawal from the University

Students who leave the university are required to file formal notification with the registrar.

Majors, Minors, and Options

Majors and some interdisciplinary minors are described under their various schools and colleges; other interdisciplinary and intercollege minors are described in the section on Special University Programs.

Student-Designed Majors

See page 91 for requirements for a student-designed major.

Second Majors

Bachelor's degree students may choose to fulfill the requirements of two dissimilar major programs, provided they obtain the approval of their principal adviser and the dean(s) of the college(s) in which the programs are offered, and comply as follows:

1. If the two majors are offered in different schools or colleges within the university, the admissions requirements of each must be satisfied.

2. If the two majors have two distinct degrees, e.g., B.A., B.S., or some other designated degree, students must choose which of the two degrees is to be awarded and fulfill all requirements for that degree.

3. No more than 8 credits used to satisfy requirements for one major may be used as requirements for the other major.

Minors

Students may earn a minor in any undergraduate discipline designated by the university. A list of minors is available from the advising coordinator in each college or school (or see the program descriptions for each college or school in this catalog). Students must consult with their major adviser and also the minor supervisor. A minor typically consists of 20 credits with C- or better and a 2.00 grade-point average in courses that the minor department approves. Courses taken on the pass/fail basis may not be used for a minor. No more than 8 credits used to satisfy major requirements may be used for the minor. Students should declare an intent to earn a minor as early as possible and no later than the end of the junior year. During the final term, an application should be made to the dean to have the minor shown on the academic record.

Options

Some degree programs offer a selection of options (e.g., art history and art studio through the Department of the Arts). These areas of concentration allow students to specialize within a discipline. The choice of option is recorded on the student's transcript.

Grades

Grading and honors policies as stated in this catalog apply to all undergraduate students.

Instructors assign grades as listed below; grade points per credit are indicated in parentheses. For all undergraduate courses, grading standards established by the Academic Senate are that a C indicates competent, acceptable performance and learning; B indicates superior performance and learning; and A indicates excellent performance and learning. These standards apply to all undergraduate courses, instructors, departments, subjects, and colleges. The university reserves the right to modify grading and honors practices.

A	(4.00)	Excellent
A-	(3.67)	Intermediate grade
B+	(3.33)	Intermediate grade
B	(3.00)	Superior
B-	(2.67)	Intermediate grade
C+	(2.33)	Intermediate grade
C	(2.00)	Satisfactory, competent
C-	(1.67)	Intermediate grade
D+	(1.33)	Intermediate grade
D	(1.00)	Marginal grade
D-	(0.67)	Intermediate grade
F	(0.00)	Failure: academic performance so deficient in quality as to be unacceptable for credit
AF	(0.00)	Administrative F (usually indicates student stopped attending without dropping the course); is included in grade-point average
CR		Credit: given in specific courses having no letter grades, designated credit/fail
P		Passing grade in a course taken under the student pass/fail grading alternative
W		Withdrawal—assigned if withdrawal is later than fifth Friday of classes (but not after midsemester); is not included in grade-point average
WP		Withdrawal—assigned if withdrawal is after midsemester and if student is passing; is not included in grade-point average
WF		Withdrawal—assigned if withdrawal is after midsemester and if student is

AU	Audit—no credit earned
IC	Grade report notation for student's incomplete course-work
IA	Indicates "incomplete" in a thesis or continuing course of more than one semester; the grade earned will replace "IA" assigned in previous semesters
IX	Grade not reported by instructor

Students earning a semester or cumulative grade-point average less than 2.00 are placed on "academic warning."

Pass/Fail

While earning a bachelor's degree, students may choose the pass/fail grading alternative for a maximum of 4 credits per semester up to a total of 16 credits toward the degree.

Pass/fail cannot be used for general education requirements, for courses required by a student's major or second major, for option or minor requirements, for ENGL 401, or for repeated courses. In addition, B.A., B.F.A., and B.M. degree candidates may not use pass/fail for courses taken to meet the foreign language requirement, and no Whittemore School course may be taken on a pass/fail basis by a student majoring in administration, economics, or hospitality management.

The minimum passing grade for credit is a D- (0.67); any grade below this minimum is a fail. All grades will be recorded on the grade roster as A, B, C, D, F, or intermediate grades. The pass/fail marks will be placed on students' transcripts and grade reports by the Registrar's Office. The course will not be included in the grade-point calculation, but the pass or fail will be recorded, and in the case of a pass, the course credits will be counted toward degree requirements.

Associate in arts students, see page 15.

Honors

An undergraduate degree student, after completion of at least 12 graded credits in University of New Hampshire courses, is designated as an honor student for a given semester if the student has (a) completed at least 12 graded credits for that semester and earned at least a 3.20 semester grade-point average; or (b) earned at least a 3.20 cumulative grade-

point average and at least a 3.20 semester grade-point average regardless of the number of graded credits that semester. These categories are used: 3.20 to 3.49 (honors); 3.50 to 3.69 (high honors); and 3.70 to 4.00 (highest honors).

Bachelor's degree candidates who have earned honors for their entire work at the university will be graduated with honors based on the final cumulative grade-point average, provided that a minimum of 64 graded credits have been completed in University of New Hampshire courses. The Latin equivalent of the honors classification will appear on the student's academic record and diploma. The student's honors classification will be noted in the commencement program.

Academic Honesty

Academic honesty is a core value at the University of New Hampshire. The members of its academic community both require and expect one another to conduct themselves with integrity. This means that each member will adhere to the principles and rules of the university and pursue academic work in a straightforward and truthful manner, free from deception or fraud. The academic policy can be found in the annual publication, *Student Rights, Rules, and Responsibilities*.

It is the purpose of the College of Liberal Arts, as a center of learning and scholarship, to help students achieve an understanding of the heritage of civilization and to educate them in the tradition of the past and realities of the present so that they may recognize and act upon their obligations to the future.

The college seeks to meet the educational needs of each student through the development of interests and skills, which, combined with the individual's potential, makes possible the living of a richer, more useful life.

Degrees

The College of Liberal Arts offers three degrees: bachelor of arts, bachelor of fine arts, and bachelor of music.

Bachelor of Arts

These programs primarily provide a broad liberal education along with a major in one of the fields listed on this page. Requirements for the bachelor of arts degree and information regarding these majors are presented on pages 15 and 26.

Bachelor of Fine Arts

This curriculum provides training for students who plan to enter a professional graduate school. Requirements for the bachelor of fine arts degree are outlined on page 26.

Bachelor of Music

This curriculum provides professional training in performance, in musical theory, and in music education, and it allows students to develop their talent to a standard equivalent to the one achieved at conservatories of music. Requirements for the bachelor of music degree and information regarding the curriculum are presented on page 36.

Five-Year Program: B.A.-M.B.A.

The College of Liberal Arts and the Whittemore School of Business and Economics offer a combined five-year pro-

gram leading to a B.A. degree in French, philosophy, or psychology and an M.B.A. degree. Information about the program can be obtained from those departments or from the undergraduate counselor in the Whittemore School.

Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows:

Minors: See page 16; see also interdisciplinary minors, page 19 and below.

Second Majors: See page 16.

Dual-Degree Programs: See page 16.

Student-Designed Majors: See page 91.

Other combined programs and interdisciplinary opportunities: See page 88.

Interdisciplinary Minors

African American Studies

The African American studies minor provides students with an interdisciplinary approach to a central dimension of United States history, literature, and culture. Many aspects of African American history and culture have been central to the development of the United States, highlighting both the nation's problems and its promise, and affecting virtually all areas of academic study through the years, from the humanities to the sciences. The minor therefore is designed to serve the needs of all students, regardless of their ethnic or cultural background, complementing their work in their major fields of study while serving also as a focused corrective to traditionally marginalized approaches to African American experience.

African American studies consists of five 4-credit courses, including an introductory course, a required history course, and three other approved offerings. Students must take at least one course at the 600 or 700 level. The required core courses provide students with a general understanding of the broad and diverse spectrum of African American history, literature, and culture. Electives enable students to develop that understanding by way of special topics courses in their major fields of study, including some that provide students with an opportunity to relate African American issues to African history and culture. Students must earn a C- or better in each course, and maintain a 2.00 grade-point average in courses taken for the minor. Electives may include a senior seminar.

Students interested in minoring in African American studies should contact the coordinator, John Ernest, Department of English, Hamilton Smith Hall.

Required Courses

ENGL 517/AMST 502, Introduction to African American Literature and Culture
or
INCO 450, Introduction to Race, Culture, and Power
HIST 505 or 506, African American History

Elective Courses

Electives will be approved for the minor, with the consent of the appropriate faculty members, and will be announced each semester. Included in the courses listed below are special topics and other courses (for example, courses covering specific periods in American literature or history) that may sometimes focus on African American studies. Check with the minor coordinator or the course instructor each semester for details. Some courses require special approval by the minor coordinator and course instructor. Possible courses currently listed in the catalog include the following:

ANTH 500D, Peoples and Cultures of the World. Sub-Saharan Africa
ENGL 609, HUMA 609, MUSI 609, Ethnicity in America: the African American Experience in the Twentieth Century
ENGL 581, Introduction to Postcolonial Literatures in English*
ENGL 650, Studies in American Literature and Culture
ENGL 681, Introduction to African Literatures in English
ENGL 690, Introduction to African American Literature

ENGL 693, 694, Special Topics in Literature*
ENGL 695, 696, Senior Honors*
ENGL 795, Independent Study*
ENGL 797, 798, Special Studies in Literature*
HIST 595, 596, Explorations in History*
HIST 600, Advanced Explorations in History*
HIST 603, The European Conquest of America
HIST 609, American Legal History: Special Topics*
HIST 611, Civil War and Reconstruction in the United States
HIST 625, Southern History and Literature since 1850*
HIST 587, 588, History of Africa South of the Sahara
HIST 684, History of Southern Africa since 1820
HIST 695, 696, Independent Study*
HUMA 690, Special Studies in the Humanities*
HUMA 698, Independent Study in the Humanities*
MUSI 513: Introduction to the Music of Africa and Asia
MUSI 795, Special Studies in Music*
POLT 513, Civil Rights and Liberties
POLT 600, Selected Topics in American Politics*
POLT 553, Third World Politics*
POLT 620, Selected Topics in Political Thought*
SOC 530, Race and Ethnic Relations
SOC 697, Special Topics in Sociology*
WS 595, Special Topics in Women's Studies*
WS 796, Advanced Topics in Women's Studies*
WS 798, Colloquium in Women's Studies*

* When course content is relevant to the African American studies minor.

American Studies

The American studies minor offers a wide variety of opportunities for the interdisciplinary study of American culture. Students learn basic methods of interdisciplinary study by examining the history, literature, arts, politics, and other aspects of American life. The minor encourages students to take advantage of the rich resources of the New England region, through work at libraries and museums as well as in independent study and fieldwork projects. Many of the courses in the minor are team taught in order to encourage a close relationship between faculty and students. Independent study and fieldwork projects will be approved by the faculty member supervising the work and by the coordinator of

the American studies minor. Field experience may involve internships at local museums, libraries, historical societies, and other institutions dedicated to the study and preservation of American culture.

Further information is available from the American studies coordinator and the University Advising Center. Any faculty member teaching in the program may serve as a contact person.

The American studies minor consists of five courses. Students must take at least one course concentrating on the issues of gender, race, or ethnicity in America (starred [*] courses). Students are encouraged to take American studies 696 or other seminars in American studies when offered by participating departments.

Two Required Courses

AMST 501, Introduction to American Studies
One of the following: HUMA 607, 608*, 609*, or 610

Three Elective Courses

AMST 502
AMST 696
ANTH 500A*, 501A*
ARTS 487E, 654, 693
CMN 505
ECON 515
ENGL 515, 516, 522, 525, 616†, 650, 685†, 690*, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750
GEOG 513, 610
HIST 505*, 506*, 507*, 511, 566*, 603*, 605, 606, 611, 612, 615, 616, 619, 620, 621, 622, 623, 624, 625
MUSI 511
POLT 500, 504, 508, 512, 513, 523, 600, 703
SOC 520, 530*, 540, 645
THDA 450, 463
WS 595†, 796†, 798†

† These courses may be taken as electives when the subject is in American studies

Students may wish to concentrate their major work in courses related to American studies. The three elective courses may not be in the student's major department. No more than two courses of the five for the minor may be at the 500 level. Departmental prerequisites may be waived for American studies students at the discretion of the instructor.

For more information contact Lisa Watt Macfarlane, Department of English.

Asian Studies

The Asian studies minor is a coherent program that integrates five classes pertaining to Asia and its people. There are two ways to complete the minor. The first, the "Asian languages track," combines intermediate level language study with three other courses dealing with Asia. The second, the "Asian studies perspective," in addition to the remaining courses needed to complete the minor, allows the student either to (1) study an Asian language at the introductory level; or (2) register for a semester abroad in Asia; or (3) complete two courses pertaining to Asia.

Asian Languages Track

JPN 401 and JPN 402*; or semester abroad; or two Group B electives (only one course may be from political science or history)

Asian Studies Perspectives

JPN 503 and JPN 504*

Group A Electives: (Two required from each discipline)

HIST 579, History of China: From Empire to People's Republic or HIST 580, History of Japan: From Yamato to Tokyo
POLT 545, People and Politics in Asia
POLT 546, Wealth and Politics in Asia

Group B Electives: (One required)

ANTH 500E, People and Cultures of South Asia
ANTH 500F, People and Cultures of Southeast Asia
ARTS 697, Arts of the Far East
ENGL 581, Introduction to Postcolonial Literatures in English
GEOG 541, Geography of Japan
HIST 681, Modern China Topics
PHIL 520, Eastern Philosophy
POLT 556, Politics in China
POLT 557, Politics in Japan and Southeast Asia
POLT 566, Foreign Policies in Asia and the Pacific
POLT 660, Foreign Policy of China (Selected Topics in International Politics)
POLT 797, Seminar in Chinese Politics (Section I: Seminar in Political Thought)

* Japanese taught at UNH. Other Asian languages studied elsewhere may be substituted by approval.

For more information, contact Bernard K. Gordon at 862-1995, 316 Horton Social Science Center or the Asian Studies Office in 330 Huddleston Hall.

History and Philosophy of Science

Why have people in different periods had such strangely diverging views on such questions as the motion of the heavens, or the nature of the human body, or the logic that governs human actions and desires? And what do these differences say about the truth of our own views? It is a puzzling reality of world history that the human understanding and experience of nature, society, and the mind have varied greatly with place and time. This minor provides students with an opportunity to explore this intriguing variety—both in terms of its historical origins and its philosophical implications. The minor is highly interdisciplinary, offering courses in such diverse departments as economics, history, mathematics, philosophy, and psychology. It presupposes no specialized scientific background and may be combined with any undergraduate major. Five 4-credit courses are required for the minor, with no more than three from any single department.

Students interested in minoring in history and philosophy of science should contact the coordinator, Jan Golinski, Department of History, Horton Social Science Center.

ECON 615, History of Economic Thought
ECON 698, Topics in Economics*
ECON 798, Economic Problems*
HIST 521, The Origins of Modern Science
HIST 522, Science in the Modern World
HIST 523, Introduction to the History of Science
HIST 621, 622, History of American Thought
HIST 651, 652, European Intellectual History
HIST 654, Topics in History of Science
HUMA 651, Humanities and Science: The Nature of Scientific Creativity
MATH 419, Evolution of Mathematics
PHIL 424, Science, Technology, and Society
PHIL 435, The Human Animal
PHIL 630, Philosophy of the Natural Sciences
PHIL 683, Technology: Philosophical and Ethical Issues
PHIL 725, Philosophy of the Social Sciences
PHIL 780, Special Topics in Philosophy*
PSYC 571, The Great Psychologists
PSYC 591, Special Topics in Psychology*
PSYC 770, History of Psychology
PSYC 771, Psychology in 20th-Century Thought and Society

*with approval

Humanities

The humanities minor studies the fundamental questions and issues of Western civilization. (For a more complete description, see Humanities, page 34.) The minor consists of a minimum of 20 credits of academic work (five courses), with a minimum grade of C from the following courses:

Two courses from either the 501/502/503 sequence or the 510/511/512/513 sequence

HUMA 501, Humanities: The Ancient World
HUMA 502, Humanities: The Modern World
HUMA 503, Humanities: The 20th Century
HUMA 510, Chance, Necessity, and Reason: The Search for the Good Life
HUMA 511, Fortune, Sin, and Faith: The Search for the Spiritual Life
HUMA 512, Reason, Doubt, and Experience: The Search for the Enlightened Life
HUMA 513, History, Mind, and the Absurd: The Search for the Meaningful Life

Two 600-level humanities courses

HUMA 607, The American Character: Religion in American Life and Thought
HUMA 608, Arts and American Society: Women Writers and Artists, 1850–Present
HUMA 609, Ethnicity in America: The Black Experience in the Twentieth Century
HUMA 610, Regional Studies in America: New England Culture in Changing Times
HUMA 650, Humanities and the Law: The Problem of Justice in Western Civilization
HUMA 651, Humanities and Science: The Nature of Scientific Creativity
HUMA 690, Special Studies in the Humanities

Humanities Program Seminar

Either HUMA 500, Critical Methods in the Humanities, or
HUMA 600, Seminar in the Humanities

For more information on the humanities minor, please consult the coordinator, David S. Andrew, 2 Murkland Hall.

Justice Studies

This interdisciplinary minor spans the social sciences and humanities, from criminology to philosophy of law, focusing on the relationship of law and legal systems to issues of social policy. Interested students may plan a course of study that combines various perspectives and ways of reasoning about problems of jus-

tice: jurisprudential, historical, philosophical, and scientific. Students with career interests in law, criminal justice, government, and social services are able to pursue the intellectual and practical concerns of their potential careers in conjunction with their regular coursework. The justice studies minor may be combined with any undergraduate major field.

Required Courses

POLT 507, Politics of Crime and Justice, or
SOC 515, Introductory Criminology
JUST 601, Field Experience in Justice Studies

Elective Courses

Students elect three additional courses from a list approved and published yearly by the Justice Studies Executive Committee. Cooperating departments include history, humanities, philosophy, political science, psychology, social work, sociology, family studies, health management and policy, recreation management and policy, resource economics, and community development.

Departmental offerings that are currently accepted for the minor include the following:
CD 717, Law of Community Planning
DCE 552, Corrections Treatment and Custody
DCE 554, Juvenile Delinquency
EC 718, Law of Natural Resources and Environment

FS 794, Families and the Law
HMP 734, Health Law
HIST 509, Law in American Life
HIST 559, History of Great Britain
HIST 609, American Legal History: Special Topics
HUMA 650, Humanities and the Law: The Problem of Justice in Western Civilization
PHIL 635, Philosophy of Law
PHIL 660, Law, Medicine, and Morals
POLT 507, Politics of Crime and Justice
POLT 508, Supreme Court and the Constitution
POLT 513, Civil Rights and Liberties
POLT 520, Justice and the Political Community
POLT 701, The Courts and Public Policy
RMP 772, Law and Public Policy in Leisure Services
SW 525, Introduction to Social Welfare Policy
SOC 515, Introductory Criminology
SOC 655, Sociology of Crime and Justice

Students who are interested in minor-ing in justice studies should consult with the coordinator, Susan White, 213 Horton Social Science Center, 862-1759.

Latin American Studies

The Latin American studies minor provides an interdisciplinary approach to the study of Latin America. Latin Americans will soon comprise the largest minority group in the United States. Knowledge of Latin America is especially valuable for students who plan to work in education, international organizations, government, social services and business, as well as for those who plan to undertake graduate study in Latin America.

The minor requires five courses, which represent three disciplines and which do not duplicate requirements of the student's major. Latin American history (HIST 531 or 532) is required. Spanish or Portuguese language courses through the intermediate level are required (completion of SPAN 504 or PORT 504 at UNH; or equivalent courses or equivalency testing). Academic study in Latin America is strongly recommended.

Elective courses must be approved by the Latin American studies minor coordinator or committee. At least 50 percent of any selected course must focus on Latin America. Courses are evaluated on an individual basis to determine acceptability. Suggested possible courses include the following:

AOE 630, Development of Food Fiber in Third World Countries
ANTH 500B, Peoples and Cultures of the World: South America
EC 535, Contemporary Conservation Issues
FORS 502, The Endangered Forest
HIST 425, Foreign Cultures*
HIST 631, 632, Latin American History
POLT 554, Politics of Central America, Mexico, and the Caribbean
POLT 559, Politics of South America
POLT 565, United States- Latin American Relations
POLT 651, Selected Topics in Comparative Politics*
SPAN 526, Latin American Culture and Civilization
SPAN 622, Latin American and Brazilian Literature in Translation
SPAN 653, 654, Introduction to Latin American Literature and Thought
SPAN 771, Latin American Drama
SPAN 772, Latin American Novel
SPAN 773, Latin American Short Story
SPAN 774, Major Latin American Authors
SPAN 797, 798, Special Studies in Spanish Language and Literature*

* When course content is relevant to the Latin American studies minor

For more information on the Latin American studies minor, call Janet N. Gold, the coordinator, 209 Murkland Hall, or 331 Huddleston, 862-3126.

Religious Studies

The religious studies minor offers a scholarly investigation and analysis of various religious phenomena in a multidisciplinary and cross-cultural manner. Included are such approaches as comparative religion, history of religion, philosophy of religion, psychology of religion, sociology of religion, and religious literature. It entails no sectarian or theological bias. It uses a number of scholarly methods and tools to investigate various religious traditions as well as such cross-cultural aspects of religion as prayer, belief, mythology, male and female images and roles, ritual, scripture, sectarianism, religious movements, religion and society, and religion and politics.

Students minoring in religious studies must take a survey of world religions (presently provided by RS 483, 484, Introduction to the History of World Religion); RS 699, Senior Seminar; and the equivalent of two other 4-credit courses—for a total of at least five courses, one of which must be at the 600 or 700 level. The two "other" courses may include RS 599, Special Topics; RS 607, The American Character: Religion in American Life and Thought; and RS 795, 796, Independent Study, or any course accepted for the minor by the Religious Studies Executive Board or approved by petition to the board. Currently, such acceptable courses include the following:

ANFH 616, Anthropology of Religion
ENGL 518, The Bible as Literature
HIST 575, The Ancient Near East
HIST 639, 640, Three Medieval Civilizations
HIST 642, Religious Conflict in Early Modern Europe
HIST 651, 652, European Intellectual History
HIST 661, 662, England in the Tudor and Stuart Periods
HIST 663, Russia: Origins to 1905
HIST 683, Religion in World History
PHIL 417, Philosophical Reflections on Religion
PHIL 520, Introduction to Eastern Philosophy
PHIL 571, Medieval Philosophy
PHIL 710, Philosophy of Religion
POLT 522, Dissent and the Political Community

SOC 797, Special Topics in Sociology: Q. Religious Movements
SPAN 526, Latin American Civilization and Culture

Students wishing to minor in religious studies or wanting more information should consult with the coordinator, Lisa Watt MacFarlane, Department of English, Hamilton Smith Hall.

Women's Studies

The women's studies minor offers students an interdisciplinary introduction to the status and contributions of women in various cultures and historical eras. (For a more complete description, see *Women's Studies*, page 42.)

For the women's studies minor, students must complete 20 credits of women's studies courses. These must include WS 401, Introduction to Women's Studies, and WS 798, Colloquium in Women's Studies, normally taken at the beginning and end of the course sequence, respectively. In between, students should select other women's studies courses or courses from departmental offerings that have been designated women's studies courses or that have the approval of the women's studies coordinator.

Other women's studies courses are WS 595, Special Topics in Women's Studies; WS 632, Feminist Thought; WS 795, Independent Study; and WS 796, Advanced Topics in Women's Studies.

Departmental offerings include the following regularly repeated courses:

ARTS 487D, Themes and Images in Art: Major Mythic Images of Women
ARTS 690, Women Artists of the Nineteenth and Twentieth Centuries
CMN 567, Images of Gender in the Media
CMN 583, Gender and Expression
ECON 698, Topics in Economics: Women in Economic Development
ENGL 585, Introduction to Women in Literature
ENGL 586, Introduction to Women Writers
ENGL 685, Women's Literary Traditions
ENGL 785, Major Women Writers
FS 645, Family Relations
HIST 565, Women in Modern Europe
HIST 566, Women in American History
NURS 595, Women's Health
SOC/ANTH 625, Female, Male, and Society

Students may complete the minor requirements by selecting from other courses that are offered as special topics by the departments. In the past, such offerings have included the following: ANTH 697, Women in the Middle East; FREN 525, French Women: Subject and Object; PHIL 510, Philosophy and Feminism.

Students who wish to minor in women's studies should consult with the coordinator, 304 Dimond Library, 862-2194.

Other Programs

Languages

Majors and minors in French, German, Greek, Latin, Russian, and Spanish, and a minor in Italian (see page 154), are offered. Courses are also offered in Chinese, Hittite, Japanese, Portuguese, and Sanskrit.

Special Centers

Center for the Humanities

The Center for the Humanities, located in Huddleston Hall, was established in 1986 to support the arts and humanities at UNH. It currently involves about a dozen departments and more than 125 faculty members from across the university, representing such fields as literature, fine arts, anthropology, philosophy, folklore, history, religious studies, and foreign languages and literature.

Participation in the activities of the center is open to faculty members from across the university who are interested in the humanities, broadly defined. The center acts as a forum for discussion and intellectual cross-fertilization regarding humanistic issues and perspectives; it fosters and supports creative research in the humanities, both within and among disciplines; it assists humanities faculty (broadly defined) in their educational and curricular activities in general, and in the development of interdisciplinary courses and programs in particular; it serves the humanities faculty, students, programs, and community by assisting in the development and dissemination of educational

and research materials; it fosters and develops outreach activities in the humanities for the state and region; and it is a focus for the humanities within the university, the state, and the region.

Institute for Policy and Social Science Research

The Institute for Policy and Social Science Research, located on the first floor of Hood House, provides financial and administrative support for social, behavioral, cognitive, and policy-related research at the university. It also works to raise the contribution that UNH faculty and students can make to public decision makers in universities, communities, New Hampshire, and the Northeast.

Work of the institute is conducted within a set of broad themes. These reflect concern for sustaining natural environments, achieving peace and social equity, providing public education, implementing microcomputer decision support systems, sustaining economic development, and increasing knowledge about human cognition and social behavior. The institute helps faculty to secure external research funds, aids in the dissemination of results, conducts short courses for senior public officials, offers research facilities to house interdepartmental groups, hosts foreign visitors to the university, and provides students with opportunities for internships in public offices.

One special resource of the institute is its UNH Survey Center—an advanced, computer-assisted, telephone-interviewing facility to gather and report on public attitudes about important issues. Another is the Laboratory for Interactive Learning, a facility that collects, designs, publishes, and disseminates innovative, group-centered learning materials. Of special interest is the laboratory's extensive library of educational games. A third facility operated in collaboration with the Department of Kinesiology, is the Browne Center, a 100-acre campus devoted to leadership and team-building workshops.

Programs of Study

The bachelor of arts programs provide a broad liberal education with a concentration involving a minimum of 32 credits in a major field. Departments may specify certain (but not more than thirteen) required courses. Students must declare a major before the beginning of the junior year. A bachelor of fine arts degree program and a bachelor of music degree program are also available (see Arts and Music). The objectives, opportunities, and departmental requirements of these programs are described below.

Anthropology

(For descriptions of courses, see page 111.)

The anthropology major, offered by the anthropology section of the Department of Sociology and Anthropology, provides an introduction to the various branches of anthropology and an appreciation of its place among other academic disciplines. At the same time, the major encourages intensive study of particular topics within the field, according to the interests and talents of students. It provides both a broad basis for the general education of students and sufficient background for those who wish to pursue a career in anthropology at the graduate level. Concentrations in archaeology and social change and development are also available.

Majors must complete a minimum of 36 credits with grades of C- (1.67) or higher and a grade-point average of 2.00 or better, distributed as follows: ANTH 411, 412, 518, 600, one topical course (516, 519, 614, 618, 625, 697, 714, or 770), one ethnographic-area course (500A, B, C, D, E, F, G, or Z), and any other three courses in anthropology or related disciplines approved by the supervisor.

Students wishing to major in anthropology should consult with the anthropology chairperson.

A minor consists of five 4-credit courses in anthropology with a C- or better in each course.

Art and Art History

(For descriptions of courses, see page 113.)

The courses offered by the Department of Art and Art History provide an opportunity, within the liberal arts framework,

for students to acquire a thorough knowledge of the basic means of visual expression, to study intensively the history of art, or to prepare themselves for a career in art teaching. In addition, these courses offer foundation experience for students who are interested in art but are majoring in other departments in the university. The Department of Art and Art History offers programs leading to a bachelor of arts degree in either studio art or art history and a bachelor of fine arts degree in studio art. Certification for art teaching in the public schools is also offered in cooperation with the Department of Education (see Education, page 28). Students who major in either studio art or art history must fulfill the fine arts general education requirement with a course outside the Department of Art and Art History.

Studio Art Major

Candidates applying for admission to the bachelor of arts program and all students wishing to transfer from other schools into the studio art major are required to submit a portfolio. Students already matriculated at the university may declare a studio art major (bachelor of arts degree) after having completed two studio art courses in the Department of Art and Art History with an average of C+ or above; one of these must be ARTS 532, Introductory Drawing. Students enrolling as freshmen at the university may become studio art majors by either of two methods: (a) by admission through acceptance of a portfolio submitted during the senior year of high school; or (b) by entering the university as an undeclared major and taking two studio art courses in the Department of Art and Art History with an average of C+ or above; one of these must be ARTS 532. The university reserves the right to retain selections from a student's work for a period of not more than two years.

Bachelor of Arts Curriculum (Studio)

Students selecting to work toward a bachelor of arts degree in studio art must complete a minimum of twelve courses (48 credits), of which the following are required:

ARTS 532, Introductory Drawing

One of the following:

ARTS 501, Ceramics
ARTS 525, Woodworking
ARTS 567, Introductory Sculpture

One of the following:

ARTS 536, Introduction to Printmaking: Intaglio
ARTS 537, Introduction to Printmaking: Lithography
ARTS 551, Photography

One of the following:

ARTS 544, Water Media I
ARTS 546, Introductory Painting

Three additional courses in a studio concentration

Two additional studio electives
One 500-level art history course
Two 600-level art history courses

While these courses represent the minimum departmental requirements for the studio art major, students may wish to plan a program involving greater depth in one or several of the studio areas.

Art History Major

The writing and researching skills of an art history major, preferably combined with foreign language skills, may be applied in directly related fields such as museum administration, publishing, and librarianship, or readily transferred to fields as diverse as law and tourism. Students must complete a minimum of eleven courses (44 credits), of which the following are required: two 500-level art history courses or one 500-level and one 400-level passed with a grade of at least B-; five 600- or 700-level art history courses (at least one each from the following categories: Pre-Renaissance, Renaissance/Baroque, modern, and architectural history); ARTS 795, Methods of Art History; ARTS 799, Seminar in Art History; ARTS 532, Introductory Drawing, and one other studio course. Art history majors receive preferential placement in ARTS 532. Students contemplating graduate school should contact their adviser as early as possible.

Bachelor of Fine Arts Curriculum

The bachelor of fine arts curriculum provides training for students who plan to enter professional graduate school or pursue careers as professional artists. Students selecting to work toward a bachelor of fine arts degree must complete a minimum of 84 credits of which the following courses are required:

ARTS 532, Introductory Drawing
ARTS 546, Introductory Painting
ARTS 551, Photography

ARTS 567, Introductory Sculpture
 ARTS 598, Sophomore Seminar
 ARTS 632, Intermediate Drawing
 ARTS 798, Seminar/Senior Thesis (8 credits)
 Six courses in a studio concentration
 Three additional art electives
 Four art history courses, one must be at the 600 level

The possible areas of concentration within the department are: (1) painting, (2) sculpture, and (3) individualized programs. Individualized programs may be designed in the following subject areas: (a) ceramics, (b) drawing, (c) printmaking, (d) photography, and (e) furniture design. Proposals for individualized programs are accepted only by permission of the departmental chairperson, the major adviser, and the departmental bachelor of fine arts committee. Candidates applying for the bachelor of fine arts program are required to submit a portfolio to the B.F.A. committee, which meets each semester one week before preregistration.

Art Education Curriculum

The program in art education is organized into a five-year, teacher-education sequence.

This curriculum is designed to prepare teachers of art in the public schools. Completion of the B.A. or B.F.A. degree before a fifth-year internship is necessary for teacher certification. The satisfactory completion of the B.A. or B.F.A. curriculum and the fifth-year internship will satisfy the initial certification requirements for teachers of art in the public schools of New Hampshire and in most other states.

Art education majors may take accredited crafts courses at other institutions as art electives.

Minor in Architectural Studies

The minor in architectural studies provides students with an interdisciplinary introduction to the history, theory, and methods of architecture and its symbolism. The program allows students who are interested in this field to receive programmatic recognition for their work. It is designed to assist those who (a) are contemplating enrollment at a school of architecture; (b) are particularly interested in architectural history; (c) want to supplement their technical majors (e.g., civil engineering) with strong academic minors; or (d) plan to pursue careers in

preservation, education, community service, and public relations.

The minor in architectural studies consists of 20 credits (ordinarily five courses) distributed in the following way:

Two courses in architectural history chosen from

ARTS 574, Architectural History
 ARTS 654, 17th- and 18th-Century American Architecture
 ARTS 655, Early Modern Architecture: Revolution to World War I
 ARTS 656, Contemporary Architecture: The Buildings of Our Times
 ARTS 799, Seminar in Art History

The course in architectural graphics and design

ARTS 455, Introduction to Architecture

A beginning course in drawing

ARTS 532, Introductory Drawing

An elective

Chosen in consultation with the program coordinator of the architectural studies minor (an additional course in architectural history, a studio course, or some other appropriate elective)

Admission to the minor will be authorized by the program coordinator. Interested students should consult with the coordinator in advance of selecting the minor.

Minor in Art

The minor in art consists of five courses (20 credits) chosen from the offerings of the department, two of which must be at the 500 level or above.

Classics

(For descriptions of courses, see page 121.) While it is true that classical Greek and Latin are no longer spoken languages, the literature and art of the Ancients speak to us still. To study the classics is to come into direct contact with the sources of Western civilization and culture, both pagan and Christian. An intimate knowledge of our Greco-Roman heritage furnishes students of the classics with historical, political, and aesthetic perspectives on the contemporary world. An undergraduate classics major provides excellent preparation for careers not only in academic, but also in nonacademic professions. A background in classics is, moreover, highly

advantageous for applicants to graduate and professional schools in English, modern languages, history, philosophy, law, medicine, and theology. Finally, for the qualified student who is undecided about a major but interested in a sound liberal arts education, classics may be the best option.

The classics major is offered by the classics section of the Department of Spanish and Classics. The minimum requirements for a major in classics are 40 credits offered by the classics section. Twenty-four of these must be in Greek and/or Latin. A classics major must complete as a minimum a 700-level course in one of the classical languages. Students will be encouraged to take courses in related fields such as ancient history, classical art, modern languages, and English, and to take part in overseas study programs in Greece and Italy. For the requirements of the Greek and Latin majors, see pages 33 and 34.

A minor in classics consists of five courses (20 credits) in classics, Greek, and/or Latin.

The supervisor for majors is John C. Rouman.

Communication

(For descriptions of courses, see page 122.)

The Department of Communication offers a major that emphasizes a range of integrative studies in human communication, including rhetorical studies, media studies, and interpersonal/small group studies. Students are taught analysis of communication transactions through historical, critical, and empirical investigations. Students examine verbal, nonverbal, and mediated messages across a wide spectrum of communication interactions: intrapersonal, interpersonal, group, and mass. They explore connections and interrelationships among various types of communication, theoretical perspectives, and methodological approaches.

While the major emphasizes critical analysis and understanding grounded in theory and research, application of understanding to a variety of communication settings and processes is an important dimension of study.

Students wishing to declare communication as a major should contact the supervisor for majors, Professor Joshua Meyrowitz, for application information and requirements.

Majors must complete nine courses (36 credits). The distribution of required courses for the major is as follows:

1. CMN 455, 456, and 457. Students must earn a grade of C or better in each of these courses.
2. Three 500-level courses (12 credits), one from each of the following groups:
 - a. Media Studies: CMN 505, 515, 519, 550, 567, 596
 - b. Rhetorical Studies: CMN 504, 507, 557, 597
 - c. Interpersonal Studies: CMN 503, 506, 530, 572, 583, 598
3. Three 600- and/or 700-level courses (12 credits). A maximum of 4 credits of independent study (CMN 795) may be counted.

Transfer students must complete 18 credits of their communication coursework at UNH to complete the major satisfactorily. Exchange students may transfer no more than 10 approved credits from another institution to be applied toward completion of the communication major at UNH.

A minor is confined to coursework in rhetoric and public address. Five courses (20 credits) are required for completion of the minor. Students must complete CMN 456, Propaganda and Persuasion, with a grade of C or better. Any additional four rhetoric courses with a grade of C- or better from the following list will satisfy the minor requirements, however, one of the listed 500-level courses is required prior to enrollment in any 600- or 700-level course: CMN 456, 500, 504, 507, 557, 604, 605, 607, 656, 657 (may be taken more than once, with different topics), 670, 697, 703, and ENGL 503.

Education

(For descriptions of courses, see page 131.)

Basic Programs

The preservice programs in teacher education at the University of New Hampshire seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders.

The basic program to achieve these ends is the "five-year program" in which students begin preparation for teaching at the undergraduate level with a semester of field experience and professional coursework in education. Students com-

plete a baccalaureate degree outside of education and move into a fifth year of study and full-year internship, which leads to either the M.Ed. or M.A.T. degree and licensure for teaching.*

Students in music, mathematics, nursery school/kindergarten, and adult and occupational education have the option of choosing a basic four-year undergraduate program for licensure.

*Students in the five-year program may combine their program for teacher licensure with a master's program in their major field department.

Program Philosophy and Mission Unit Mission Statement

The following conceptual framework guides all of the programs which prepare professionals in education at the University of New Hampshire.

The professional education unit at the University of New Hampshire seeks to prepare practitioners who will become leaders in their own practice settings and within their profession, applying knowledge to improve education for all students and enrich the lives of clients. Immersion in subject matter, research, theory, and field-based experience provides a base for our graduates to make well-reasoned judgments in complex situations, render informed decisions, model exemplary practice, and take initiative for planned change. Students learn to establish caring environments which celebrate individual differences and backgrounds while fostering cooperation and educational improvement. We stress reflective critical inquiry as a mode of study and community-building as a means for promoting change. We value and support both our students' local practice and their broader leadership within the profession.

Mission of Programs in Teacher Education

The following mission statement gives direction to the basic and advanced programs in teacher education.

We seek to prepare beginning teachers who demonstrate excellence in classroom practice and who will become educational leaders. Our graduates will possess the knowledge, skills, and dispositions required for outstanding classroom practice and eventual leadership within the local school community and the larger education community.

Program Themes Excellence in Practice

We expect our students to gain mastery of subject matter, command professional knowledge, and acquire a good grounding in general education, including global perspectives regarding diverse cultures and environments. They will recognize how knowledge in their subject matter areas is created, organized, and linked to other subjects. Upon graduation, they should possess a specialized knowledge of how to teach subject matter to their students and employ multiple, motivational approaches in teaching their subjects. They will know how to orchestrate learning in group settings, placing a premium on student engagement and thoughtfulness. They will remain mindful of their teaching and learning objectives through selection and use of appropriate measures.

In their commitment to students and their students' learning, our graduates will recognize diverse backgrounds and perspectives in their students as well as individual development. They will be able to adjust their practice to meet students' needs, working diligently to help each student reach his or her full potential. They will create and contribute to a classroom atmosphere which fosters a community of learners, establishes an atmosphere of mutual respect and caring, and cultivates a celebration of diversity.

We expect our graduates to be thoughtful and reflective practitioners who learn from experience. They will be capable of making choices and decisions in complex and demanding situations, analyzing the effects of their actions, taking into account moral and philosophical implications. They will seek to improve their practice by observing others, seeking advice, and drawing upon educational research and scholarship.

Leadership in the Profession

We believe that, over time, our graduates will become well-informed decision makers and agents of change, providing leadership within the school community and profession. We seek to equip our graduates with the knowledge, skills, and dispositions necessary for such leadership, but we recognize that development and demonstration of leadership skills takes time and practice within the professional setting. Through study and experience, our graduates will learn to assess the relative merits of educational reform ef-

forts, determining their appropriateness to the classroom, the institution, and the broader societal contexts in which reform is implemented. Drawing upon current theories and research in education, graduates will be able to develop and articulate their own conceptual and philosophical perspectives on teaching and learning. We expect them to develop an understanding of how leadership is informed by varied perspectives on the structure of public education, the nature of educational change, and the teacher's role in the change process. They should be willing to take risks in advocating for high levels of quality within the teaching profession. We expect them to become active members of learning and professional communities. In doing so, they will engage colleagues in their own and other's teaching, learning, and professional development. They will be able to work collaboratively with all members of the community—students, peers, specialists, parents, etc., to contribute to effective learning environments. They will continue to be active learners, participating in professional organizations, pursuing avenues of inquiry through study, research, and dialogue while taking into account the moral and ethical implications of their professional practice and efforts to enhance the school, community, and profession.

Our two program themes, Excellence in Practice and Leadership in the Profession, are reflected in the goals and expected student outcomes that form the basis of our program.

Phase I. Enroll in Exploring Teaching: Education 500.

Goals of Exploring Teaching

Throughout all phases of the UNH teacher preparation programs, we stress the importance of excellence in the classroom, and classrooms are where the UNH teacher preparation program begins. Exploring Teaching is the initial phase of the teacher preparation program. Students in Exploring Teaching spend 5 hours per week in local classrooms to obtain realistic views of current classroom practices. These views provide a backdrop for students to explore what excellence in teaching means to them and to begin the process of deciding whether or not to pursue a career in education.

Students are encouraged to take Exploring Teaching as a sophomore, but completion during junior year could also

leave enough time for other education course requirements.

Exploring Teaching is also available through the Live, Learn, and Teach Summer Program which is open to juniors and seniors. For information, contact the Department of Education, 203 Morrill Hall. A positive recommendation from the Exploring Teaching instructor is required before further coursework is taken in the teacher education program.

Phase II. Professional Coursework in Education at the Undergraduate Level Education 500 is a prerequisite to further work in the teacher education program. An undergraduate receives a coadviser in the Department of Education (usually the Exploring Teaching instructor). This coadviser works with the students, along with the major adviser to plan the undergraduate portion of the teacher education program.

Every student must take 4 credits in each of four areas (EDUC 700, Educational Structure and Change; EDUC 701, Human Development and Learning; Educational Psychology; EDUC 703, Alternative Teaching Models; EDUC 705, Alternative Perspectives on the Nature of Education). EDUC 707, Teaching Reading through the Content Areas, is required for some secondary subject licensure areas. Elementary education students are required to have four methods courses: one each in the teaching of reading, mathematics, science, and social studies. Those who do not intend to use this coursework for initial licensing may enroll with instructor permission. All 700-level education courses at UNH are restricted to students with junior or senior standing.

Any course taken in the Department of Education that will be used for a teacher licensure requirement must be completed with a grade of B- or better.

Phase III. Internship and Graduate Phase of the Program

Undergraduates should apply for the final phase of the teacher education program during the first semester of their senior year.

The final phase of the program includes a full-year internship, a 12-credit graduate concentration, electives, and a concluding project or thesis. This phase normally takes at least an academic year plus a summer to complete.

The yearlong internship (EDUC 900/901) is part of the final stage of the five-year program. It meets the goals of increased clinical experience and better integration of theory and practice.

The internship is a teaching and learning experience in which the intern is involved in an elementary or secondary school over the course of an entire school year. Interns become a part of the school staff, sharing appropriate instructional tasks, and often carrying the full instructional duties in one or more classes.

Interns are supervised by a school staff member who is designated as a "cooperating teacher." A UNH faculty member collaborates in intern supervision and conducts a weekly seminar for all interns with whom he/she is working.

The internship is a full-time experience for 6 graduate credits each semester. It typically begins in September and runs through May or June. Due to the intensive time commitment, it is recommended that, at most, only one course be taken in addition to the internship each semester.

Before the internship, all students will have completed a bachelor's degree with a major outside of education. Because of this, they will possess a depth of knowledge in a subject area and a broad general education, in addition to substantive preparation for teaching. Secondary education candidates must have completed an approved major, or its equivalent, in the subject that they intend to teach. Elementary education candidates may pursue an undergraduate major in any area, however, majors in the core disciplines taught in elementary schools are desirable.

Undergraduates should apply for internship in September/October of their senior year. At the same time, it is advisable to begin the application process for graduate school. Arranging an appropriate placement is a time-consuming process. Starting early will facilitate finding the best setting for your needs and goals. The director of field experiences in Durham and the director of teacher education at Manchester play a major role in identifying internship sites and should be consulted regarding placement. Internship applications are available at the Department of Education, Durham, and the Office of Teacher Education, Manchester. Admission to the internship requires a completed application to the internship, admission to the graduate school, and a

consultation with the director of field experiences.

Admission to the Program

Admission to Phase I

Exploring Teaching is open to all students subject to available space. Approximately 150 students are accepted each semester.

Admission to Phase II

Continuation in Professional Coursework is dependent upon positive recommendations from Education 500, Exploring Teaching.

Admission to Phase III

Admission to the Internship and the Graduate Program requires acceptance to the Graduate School. The process is competitive due to high admissions standards and limited space in the program. Approximately 75 percent of candidates for Phase III are accepted.

In determining admission of students to teacher education graduate programs, several criteria are used:

1. The undergraduate grade-point average of the middle 50 percent of students admitted to the graduate programs in teacher education falls in the range of 2.84 to 3.35. Students with an undergraduate grade-point average below 2.67 are usually not admitted.

2. The Graduate Record Examination (GRE) scores of the middle 50 percent of students admitted to the graduate programs in teacher education fall in the following range: Verbal—470–600; Quantitative—480–640; Analytical—510–670. Students with scores below 400 are usually not admitted.

3. Positive recommendations from EDUC 500, Exploring Teaching, or the equivalent and from those able to relay information about a candidate's performance in teaching situations or related areas. Recommendations from subject major professors are also important.

In our admission process, we seek evidence that our students have the following knowledge, abilities, and dispositions: (1) motives to teach that include a strong social commitment to contribute to society through education; (2) a disposition to care for their students—each and every one; (3) an ability to interact positively with children and adults; (4) a ca-

capacity to win the respect of their peers and be effective in group interaction, showing openness to the needs and views of others; (5) well-developed communication skills, including speaking, writing, and listening skills as well as an ability to engage others in both the giving and receiving of information and feelings; (6) perceptiveness—the ability to identify and process the relevant details in their environment, especially in the context of a classroom; (7) the ability to make reasonable judgments in a context of complex situations that change from moment to moment; (8) the capacity for clear thinking and an ability to translate their thoughts into simple and clear explanations; (9) superior academic skills, extensive knowledge of at least one major discipline, intellectual curiosity, and the ability to be open to the unknown; (10) a disposition to take charge of their own learning, which includes the active pursuit of feedback and the willingness to take thoughtful risks.

Early Admission

Provision exists for UNH seniors to apply for "early admission" to the Graduate School, i.e., admission for the second semester of the senior year. Such candidates may petition to have up to 8 credits in graduate coursework simultaneously count toward the bachelor's and master's degree. A student must be admitted to the Graduate School before the start of the semester in which the course(s) will be taken in order to receive graduate credit. A minimum of a 3.2 cumulative grade-point average is required to qualify for early admission.

A student would apply for early admission on the regular graduate school application.

Four-Year, Undergraduate Option

A bachelor's degree including a one semester teaching requirement allows students to be recommended for licensure in certain specialized areas. Those areas are: mathematics, music, nursery/childergarten education, and adult/occupational education.

These program options include a major appropriate for the licensure being sought, in addition to these core professional courses or their equivalent: EDUC 500, Exploring Teaching; EDUC 700, Educational Structure and Change; EDUC 701, Human Development and Learning; Educational Psychology;

EDUC 703, Alternative Teaching Models; EDUC 705, Alternative Perspectives on the Nature of Education; and EDUC 694, Supervised Student Teaching.

The nursery/childergarten program, because of its emphasis on the young child, has an equivalent set of core courses. FS 708/709 is the equivalent of EDUC 500; FS 743 is the equivalent of EDUC 700; FS 623, 635, and 525 are the equivalent of EDUC 701; FS 734, MATH 621, EDUC 706, 750, 751, or 760 are the equivalent of EDUC 703; FS 733 is the equivalent of EDUC 705; and FS 785, 786, and 788 are the equivalent of EDUC 694.

For admission to supervised student teaching, a minimum 2.50 (2.60 for nursery/childergarten) grade-point average at the time of application is required. Students in music, mathematics, and adult and occupational education need to apply by February 15 of the junior year for student teaching to the Department of Education.

In addition to the four-year undergraduate licensure option, the five-year program with full-year internship and master's degree is available in mathematics, music, and adult and occupational education. Many students who complete the nursery/childergarten program also go on to complete the five-year program in elementary education. This extends the license to teach to grades 1–8.

English

(For descriptions of courses, see page 135.)

Through studying a wide variety of literary materials, English majors deepen their understanding of history, culture, language, and human behavior. They also gain skill in writing, reading, and critical thinking. Upon graduation, English majors traditionally enter a broad range of vocational fields and areas of graduate study.

The Department of English offers three majors: the English major, the English teaching major, and the English/journalism major. It also offers courses in writing nonfiction, fiction, and poetry; courses in linguistics; courses in film; courses in folklore; and courses for honors in English.

The English Major

The English major has two chief objectives: to provide all students with a common core of literary experience and to provide each student with the opportu-

nity of shaping a course of study to suit individual interests. The flexibility and freedom inherent in the second of these objectives places a responsibility upon students to devise a program that has an intelligent rationale. For example, students who intend to pursue graduate study in literature written in English should choose more than the minimum number of advanced literature courses and should seek a broad, historical background. Students with special interests in linguistics or writing may, on the other hand, wish to elect only the minimum number of advanced literature courses required for the major. All students should secure the assistance and approval of their advisers in formulating an early plan for the major program.

For the English major, students must complete a minimum of 40 credits of major coursework including ENGL 519 or 529, two additional 500-level courses, and seven courses numbered 600 and above. In selecting these courses, students must be sure to meet the following distribution requirements:

1. Two courses in literature before 1800: either two advanced courses (numbered 600 or above), or one advanced course and ENGL 513.

2. Two courses in literature since 1800: either two advanced courses, or one advanced course and one course from the following list: ENGL 514, 515, or 516.

Students interested in majoring in English should consult Tory Poulin, administrative assistant in the Department of English, 862-1313.

The English Teaching Major

This major is designed for students wishing to teach English in middle or high schools. Completion of this undergraduate major does not in itself, however, meet state certification requirements. To meet these requirements, students should enroll in the undergraduate major and, by September 15 of their senior year, apply for the fifth-year teaching internship and master's degree program. (For a full description of the program, see page 28.) Undergraduate English teaching majors must pass the following English courses with an average of 2.50 or better: ENGL 514, 516, 519 or 529, 619, 657, 725-726 or 710 and 792, 718 or 791, and two additional literature courses numbered 600 or above. ENGL 513 may be substituted for one of these two courses.

Students who are interested in majoring in English teaching should consult the director of the English teaching program.

The English/Journalism Major

The English/journalism major is designed for students considering careers in print journalism or related fields. Students who complete the program are ready for entry-level writing or editing positions on newspapers or magazines.

The program allows students to develop their writing, reporting, and editing skills while developing a strong background in English literature. English/journalism majors must complete the literature requirements of the standard English major. In addition, they must complete ENGL 621 (News writing), ENGL 722 (Feature Writing), at least one other on-campus journalism course, and an internship (ENGL 720) approved by the director of the journalism program. Many journalism students work for the on-campus student newspaper, *The New Hampshire*. Many students hold summer jobs in journalism and some have part-time journalism jobs during the school year.

Students interested in the English/journalism major should see Tory Poulin, administrative assistant in the Department of English, or a program faculty member.

Writing Programs

The Department of English offers courses for students interested in becoming writers. Up to four consecutive creative writing workshops can be taken in fiction or in poetry, as well as a course in form and theory of either genre. The instructors for these courses are professional writers. Interested students should inquire at the departmental office.

French

(For descriptions of courses, see page 142.) The French major, offered by the Department of French and Italian, provides knowledge of the language, literature, and culture of France and other French-speaking countries. An undergraduate major in French is useful in a number of careers, such as teaching, business, law, and social service. Prospective teachers should see page 28. In addition, they should include LING 505 (which also satisfies a general education requirement for group 7) in

their overall program and make special note of the FREN 791 requirement which does not count toward completion of a major in French. Students interested in nonteaching careers are urged to consult with members of the French faculty and with other appropriate departments early in their academic careers.

A major consists of 40 credits in courses numbered 631 or above, in which readings are in French. Majors are required to take FREN 631-632, 651, 652, 790, and at least two 700-level literature courses at the Durham campus. Transfer students must earn a minimum of 12 major credits at the Durham campus. To complement their major, students are strongly encouraged to take either HIST 647 or 648 and courses in the literature of other countries as well as in fields such as music, art, philosophy, history, political science, and sociology that provide insight into nonliterary aspects of culture.

A minor in French consists of 20 credits in French courses numbered 503 and above. No fewer than three courses have to be taken at UNH. No more than one course conducted in English (e.g., FREN 525, 621, 622) will be counted toward the minor, although students may elect to take more than one such course provided they earn more than 20 credits. Members of the department supervise the work of both majors and minors.

The department offers a junior year abroad at the University of Burgundy in Dijon, France (see FREN 685-686). This program is open to all qualified students at the University of New Hampshire who have completed FREN 631-632, 651, and 652 by the end of their sophomore year. Early consultation with the director of the program is urged.

In addition to its summer school offerings at the Durham campus, the department sponsors a program at the Centre International d'Études des Langues (CIEL) in Brest, France, where students may enroll in courses equivalent to FREN 503, 504, 631, and 632. Students interested in this program should consult the program's on-campus director early spring semester.

Each year the French government offers a teaching assistantship in a French secondary school to a graduating French major nominated by the department. Applications are accepted early in the fall semester.

Five-Year, Dual-Degree Program in French and Business Administration

The dual-degree program permits students who matriculate with business backgrounds to earn both a B.A. in French and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the French major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Students interested in this program should consult with the departmental adviser to the program early in their freshman year.

Geography

(For descriptions of courses, see page 144.)

Geography is best defined as the discipline that describes and analyzes the variable character, from place to place, of the Earth as the home of human society. As such, geography is an integrating discipline, studying many aspects of the physical and cultural environment that are significant to understanding the character of areas or the spatial organization of the world.

Geography aims to provide students with a basis for understanding the world in which we live.

Because its integrating character establishes common areas of interest with many other fields of knowledge, geography provides an excellent core discipline for a liberal education. Those who would understand geography must also know something of the earth sciences, as well as economics, cultures, politics, and processes of historical development.

Students who have a strong interest in the spatial organization of the world and the distinctive character of its major regions and who also want a broad educational experience can achieve these goals effectively by majoring in geography.

Students with degrees in geography have found their education valuable in such fields as urban and regional planning, locational analysis for industry and marketing organizations, cartography, geographical information systems (GIS), library work, military intelligence, international studies, the Foreign Service, travel and tourism, and journalism.

Students planning careers as scholars or teachers in the field should concentrate their coursework in geography and appropriate related disciplines and should

plan to go on to graduate study after completing an undergraduate major in geography. Students from this department have been admitted to first-rate graduate schools in all parts of the United States.

Students who major in geography are required to take ten courses.

A. All of the following core courses:

GEOG 401, Regional Geography of the Western World
GEOG 402, Regional Geography of the Non-Western World
GEOG 572, Physical Geography
GEOG 797, Senior Seminar

B. One of the following regional courses:

GEOG 512, Geography of Canada
GEOG 513, Geography of United States
GEOG 531, Geography of Western Europe and Mediterranean
GEOG 540, Geography of Middle East
GEOG 541, Geography of Japan
GEOG 610, Geography of New England

C. Three of the following systematic courses:

GEOG 573, Environmental Geography
GEOG 581, Human Geography
GEOG 582, Economic Geography
GEOG 583, Urban Geography
GEOG 584, Political Geography
GEOG 585, Population and Development

D. One of the following physical courses:

GEOG 473, The Weather
GEOG 570, Climatology

E. One of the following technique courses:

GEOG 590, Cartography
NR 757, Photo Interpretation and Photogrammetry
NR 759, Digital Image Processing for Natural Resources
NR 760, Geographical Information Systems in Natural Resources

A minor consists of five courses (20 credits) in geography.

Students interested in majoring in geography should consult with the supervisor, Robert G. LeBlanc.

German

(For descriptions of courses, see page 145.)

The German major is offered by the Department of German and Russian. This program is of interest to the following groups of students:

1. Those who have a special interest in

the German language, literature, and culture.

2. Those who intend to enter fields in which a background in foreign languages and literatures is desirable, such as international business and law, trade, journalism, science, library science, government service, and international service organizations.

3. Those who plan to teach German in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level should plan their programs carefully. They should combine a major in one of the languages and its literature with a minor or at least a meaningful sequence of courses in another subject. Dual majors are also possible. For certification requirements, see the department chairperson.

4. Those who intend to pursue graduate study in German language and literature, cross-cultural studies, film, or women's studies, or foreign language education in preparation for teaching careers at the high school or university level.

A major consists of a minimum of 40 credits in German language, literature, and culture beyond GERM 503. No more than 8 of 40 credits may be taken in English toward the major (GERM 521 or 523; 525). Required for the major are GERM 504, 525, 601, 631, 632 (or their equivalents) and 20 other credits, 12 of which must be taken in Durham on the 600 and 700 levels (excluding 795, 796). GERM 520 and 791 do not count for major credit (720 is the equivalent of 520 for majors); 791 is recommended as an elective and required for teacher certification. Majors are required to spend the minimum of one semester in an approved German-speaking study abroad program, or equivalent.

A minor consists of 20 credits in German courses numbered 503 and above. The minor may include one course taught in English (520, 521, 523, or 525) but not 791.

Study Abroad

(See also INCO 685, 686.) The university allows both German majors and minors and other students to attend approved study abroad programs for UNH credit. UNH is part of the New England Universities consortium (Maine, Vermont, Connecticut, and Rhode Island) which sponsors a program in Salzburg, Austria. UNH students get a discount on Salzburg

Program tuition and have an easy transfer of credits. Students may also feel free to attend other programs, for example, a work-study term in Hamburg or semester or year programs at universities such as Bonn, Freiburg, Heidelberg, Marburg, Munich, or Tübingen. UNH also sponsors a summer program in Berlin (see GERM 625, 626). Most programs require a minimum of two years of college German. For intensive language study at any level, students may attend Goethe-Institut centers in Germany for one or more eight-week courses. For details, see the foreign study coordinator, Center for International Education, or the Department of German and Russian. Financial aid applies to all approved programs.

Greek

(For descriptions of courses, see page 146.) The Greek major is offered by the classics section of the Department of Spanish and Classics. The supervisor for majors is John C. Rouman.

The minimum requirements for a major in Greek are: 32 credits in Greek, including GREK 401-402. A Greek major must complete as a minimum a 700-level course in the Greek language. A Greek minor requires 16 credits of coursework in Greek. Students are encouraged to take courses in related fields such as Latin, classics, and ancient history, and to take part in overseas study programs in Greece.

History

(For descriptions of courses, see page 147.) The study of history is an essential element of the liberal education. The history major provides both an awareness of the past and the tools to evaluate and express one's knowledge. The student who majors in history will have the opportunity to study the breadth of the human past and will acquire the skills in critical reading and writing which form the foundation of the educated life. The study of history may include all of human culture and society and provides tremendous latitude in the subjects which may be studied. The interdisciplinary nature of the field makes it a natural focus for study which may encompass a variety of other fields.

Students majoring in history must complete ten 4-credit history courses or

their equivalent with a grade of C- or better and an overall average in these courses of 2.00 or better. History majors are urged to complete HIST 500, Introduction to Historical Thinking, in the semester following declaration of major and must complete it no later than the second semester following declaration of major. Majors must take HIST 797, Colloquium in History, during their senior year. In addition to 500 and 797, a major must take at least eight courses, of which a minimum of three must be at the 600 level or above. Only one 695/696 independent study course may be used to fulfill the 600-level requirement, and no more than two independent study courses may count toward the ten-course requirement. No more than two 400-level courses may be counted toward the major requirements. General education courses offered by the department may be counted for major credit or for general education credit, but not for both.

The student's program of study must include two parts:

(1) An area of specialization. A student must select at least five courses to serve as an area of specialization within the major. Up to two courses (each 4 credits or their equivalent) in the area of specialization may be taken in other departments. Such courses must be 500 level or above and have the approval of the student's adviser. The area of specialization may be in a nation, region, a time period, or an interdisciplinary field.

(2) Complementary courses. A student must select, in consultation with his or her adviser, at least two history courses in fields outside the area of specialization, chosen to broaden his or her understanding of the range of history.

The program must be planned in consultation with an adviser. A copy of the program, signed by one's adviser, must be placed in one's file no later than the second semester of one's junior year. Courses at the 700 level will be judged by one's adviser as to their applicability for area of specialization or complementation. The program may be modified with the adviser's approval.

Students who enter the university as history majors and continuing students intending to declare a history major are considered "provisional majors" and are advised in the University Advising Center until they complete two history courses with a C- or better and have registered for HIST 500. At that time they

can confirm their major and be assigned a departmental adviser. Provisional majors are accorded all the rights and privileges of any history major.

For transfer students, a minimum of five of the semester courses used to fulfill the major requirements must be taken at the university. One upper-level course may be transferred to satisfy the requirement that a major must take at least three courses numbered 600 or above. Transfer students must complete both HIST 500 or its equivalent and HIST 797.

A minor in history consists of 20 semester credits with C- or better and at least a 2.00 grade-point average in courses that the Department of History approves. Courses taken on a pass/fail basis may not be used for the minor. No more than 12 credits in 400-level courses may be used for this minor. For transfer students, a minimum of two of the semester courses, or 8 credits, must be taken at the University of New Hampshire with a grade of C- or better.

Students intending further work in history beyond the bachelor's degree are urged to take HIST 775, Historical Methods.

Students intending to major in history should consult with the department secretary in Horton 405. Suggested programs for students with special interests or professional plans are available in the department office.

Undergraduate Awards for Majors

The Philip M. Marston Scholarship, an award of \$500, is available to students who are interested in colonial or New England history and have demonstrated financial need. There are course requirements for this scholarship. More details are available from the history office.

The Ethyl Gerrish Scholarship, an award of \$500, is available to students who are full-time and in their sophomore year or above. Applicants must be New Hampshire residents and have a grade-point average of 3.20. There are application guidelines for this scholarship. More details are available from the history office.

Each spring the members of the departmental undergraduate committee choose one major to receive the William Greenleaf Prize in History. Award candidates must have a minimum grade-point average of 3.20 in history courses and must submit a major paper completed for

a history course or written specifically for this award. Individuals may nominate themselves or may be nominated by faculty members.

The Allen Linden Prize for the best senior history thesis is funded by the Signal Fund.

Phi Alpha Theta, the history honor society, is an international scholastic organization dedicated to promoting historical study on the undergraduate and graduate levels. Admission to the UNH Psi Pi chapter is open to undergraduates with an overall grade-point average of 3.20 and a grade-point average of 3.20 or better in history courses.

Humanities

(For descriptions of courses, see page 152.)

The humanities program examines the fundamental questions and issues of Western civilization. Through studying diverse texts in the arts, music, literature, history, philosophy, and science, students seek answers to questions that thoughtful human beings often address in the course of their lives. Whether these questions come from Socrates (What is justice?), from Sir Thomas More (What is obligation to God?), from Raphael (What is beauty?), from Newton (What are the laws of nature?), or from Martin Luther King Jr. (What is freedom?), they direct our attention to enduring human concerns and to texts that have suggested or illustrated the most profound and powerful answers.

Humanities Major

The humanities major consists of a minimum of 40 credits of academic work, with a minimum grade of C, including the following core requirements:

1. *Critical Methods in the Humanities* (HUMA 500)

2. *Integrated Core Courses* (HUMA 501, 502, 503, or 510, 511, 512, 513). Each student takes at least two courses (8 credits) from the 501/502/503 sequence or at least two courses (8 credits) from the 510/511/512/513 sequence, preferably in the freshman and/or sophomore year.

3. *Seminar in the Humanities* (HUMA 600). Each student takes at least one offering (4 credits) of the Seminar in the Humanities, preferably before the end of the junior year. This seminar provides an

opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. The emphasis is on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines.

4. *Research Seminar in the Humanities* (HUMA 700). Each student participates in the research seminar (4 credits) in the final semester of the senior year. The seminar provides a context within which students may discuss and receive directions in the course of completing a major research paper. At the end of the seminar, students present their research to the faculty and their fellow students.

5. *Additional Requirements*. Beyond the 16 credits of core requirements, each student must fulfill the following requirements: (1) a minimum of 8 additional credits in 600-level humanities program courses; (2) an additional 12 credits from humanities program offerings or from the offerings of other departments and programs, with the advice and approval of each student's major adviser or the program coordinator. These offerings should bear some relation to the student's particular interests and senior research paper, as seem appropriate in each individual case.

Humanities Minor

The humanities minor consists of the following courses: (1) two courses from either the 501/502/503 sequence or the 510/511/512/513 sequence; (2) two 600-level humanities courses; and (3) either *Critical Methods in the Humanities* or *Seminar in the Humanities*. (For a more complete description of the humanities minor, see page 23.)

Inquiries about the humanities major and minor should be directed to David S. Andrew, coordinator of the humanities program, 2 Murkland Hall.

Latin

(For descriptions of courses, see page 159.) The Latin major is offered by the classics section of the Department of Spanish and Classics. The supervisor for majors is John C. Rouman.

The minimum requirements for a major in Latin are 32 credits in Latin, excluding LATIN 401-402. A Latin major must complete as a minimum a 700-level course in the Latin language. A Latin

minor requires 16 credits of coursework in Latin. Students are encouraged to take courses in related fields such as Greek, classics, and ancient history, and to take part in overseas study programs in Italy.

Linguistics

(For descriptions of courses, see page 159.)

Linguistics is the study of one of the most important characteristics of human beings—language. It cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or preprofessional major for education, law, medicine, clergy, and others. It is a particularly appropriate major for students who want to teach English as a foreign language. Dual majors with a foreign language, business administration, and the like, are quite feasible.

Students interested in the major or the minor should consult with the program coordinator or with any professor who teaches linguistics courses. To declare a major in linguistics, a student must first submit a proposal, signed by a faculty sponsor, to the Linguistics Committee. Information is available from the Advising Center, Hood House.

A minor in linguistics is also available and consists of any five linguistics courses approved by the linguistics coordinator.

Requirements for the Major

1. LING 505, Introduction to Linguistics
2. One course in historical linguistics: LING 506, Introduction to Comparative and Historical Linguistics; ENGL 752, History of the English Language; GERM 733, History and Structure of the German Language; RUSS 734, History and Development of the Russian Language, or SPAN 733, History of the Spanish Language
3. LING 605, Introduction to Linguistic Analysis
4. LING 793, Phonetics and Phonology
5. LING 794, Syntax and Semantic Theory
6. Two years college study (or equivalent) of one foreign language
7. One of the following cognitive specialties.

(a) One year college study (or equivalent) of a second foreign language from a different language family or subfamily (Old English may count as the second foreign language if the first foreign language is not in the Germanic family);

(b) PSYC 712, Psychology of Language (with its prerequisite, either PSYC 512, Psy-

chology of Primates, or PSYC 513, Cognitive Psychology);

(c) PHIL 745, Philosophy of Language (with its prerequisite PHIL 412, Beginning Logic, or PHIL 550, Logic);

(d) The following sequence of courses from the Department of Computer Science: CS 415-416, Introduction to Computer Science I and II; CS 730, Introduction to Artificial Language; CS 765, Introduction to Computational Linguistics.

8. Three elective courses from the list below (students who select option 7 (d) are required to take only *two* courses from the list below):

Area Courses

Anthropology: 795, 796, Reading and Research in Anthropology; B. Anthropological Linguistics.

Communication: 572, Language and Behavior; 672, Theories of Language and Discourse.

Communication Disorders: 522, The Acquisition of Language.

Computer Sciences: 765, Introduction to Computational Linguistics.

English: 715, TESL: Theory and Methods; 716, Curriculum Design, Materials, and Testing in English as a Second Language; 718, English Linguistics and Literature; 752, History of the English Language; 778, Brain and Language; 779, Linguistic Field Methods; 790, Special Topics in Linguistic Theory; 791, English Grammar; 793, Phonetics and Phonology; 794, Syntax and Semantic Theory.

French, German, Greek, Latin, Russian, Spanish: 791, Methods of Foreign Language Teaching.

German: 733, History and Structure of the German Language

Latin: 795, 796, Special Studies in Latin.

Linguistics: 505, Introduction to Linguistics; 506, Introduction to Comparative and Historical Linguistics; 605, Introduction to Linguistic Analysis; 779, Linguistic Field Methods; 790, Special Topics in Linguistic Theory; 793, Phonetics and Phonology; 794, Syntax and Semantic Theory; 795, 796, Independent Study.

Philosophy: 550, Logic; 618, Recent Anglo-American Philosophy; 745, Philosophy of Language.

Psychology: 512, Psychology of Primates; 513, Cognitive Psychology; 712, Psychology of Language. (Students may count either PSYC 512 or 513 toward the linguistics major or minor, but not both.)

Russian: 734, History and Development of the Russian Language.

Sociology: 797F, Sociolinguistics.

Spanish: 601, Spanish Phonetics; 733, History of the Spanish Language; 790, Grammatical Structure of Spanish.

Other courses may be substituted, with the permission of the student's adviser and the Linguistics Committee, when they are

pertinent to the needs of the student's programs.

Music

(For descriptions of courses, see page 167.)

The Department of Music offers two degree programs: the bachelor of arts and the bachelor of music.

The Department of Music is a member of the National Association of Schools of Music. Prospective majors in music are advised to consult with the chair of the department.

Bachelor of Arts Program

The bachelor of arts program offers students an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering the five-year undergraduate-graduate program in teacher education or graduate study leading to the M.A. or Ph.D. degrees.

To be admitted formally to the B.A. program, students must give evidence of satisfactory musical training by taking an admission audition. Students must declare music as a major before the beginning of the junior year, but it is highly recommended that they declare as early as possible, considering the large number of required courses. Admission to the upper level of the degree program will be subject to review by the Department of Music faculty.

The bachelor of arts degree is offered with four options: music history, performance study, music theory, and preteaching. The B.A. may also be taken as a degree in music with no option specified. We refer to this as the undifferentiated B.A. in music. The following courses are required of all students: Theory I and Ear Training I (MUSI 471-472, 473-474), Theory II and Ear Training II (MUSI 571-572, 573-574), History and Literature of Music (MUSI 501-502), and one course from MUSI 771 (Counterpoint) or MUSI 781, 782 (Analysis: Form and Structure). Other requirements, grouped by option, are shown below.

Undifferentiated B.A. in Music

Any combination of advanced theory and history (15 credits); performance and/or ensemble study, any combination from

MUSI 536-564 inclusive and/or MUSI 441-461 inclusive (8 credits).

Option 1, Music History

Advanced theory (3 credits); advanced history and literature (12 credits); performance study, any one of MUSI 536-564 inclusive (8 credits); ensemble study, any combination from MUSI 441-461 inclusive (4 credits); conducting, MUSI 731-732, (4 credits). Students must also demonstrate the ability to sight-read a Bach chorale harmonization.

Option 2, Music Theory

Advanced theory (12 credits); advanced history (3 credits); performance study, any one of MUSI 536-564 inclusive (8 credits); ensemble study, any combination from MUSI 441-461 inclusive (4 credits); conducting, MUSI 731-732 (4 credits). Students must also demonstrate the ability to sight-read a Bach chorale harmonization. The emphasis in this option is on musical composition and/or theory.

Option 3, Performance Study

Advanced theory or literature (3 credits); performance study, any one of MUSI 536-564 (16 credits—2 credits per semester); ensemble study, any combination from MUSI 441-461 inclusive (4 credits); conducting, MUSI 731-732 (4 credits). Qualified students may concentrate in voice, piano, strings, woodwinds, brass, or percussion. Those choosing voice must successfully complete, in addition to the foreign language requirement, one of the following course sequences: ITAL 401-402, GERM 401-402, FREN 401-402.

Option 4, Music Preteaching

EDUC 500; conducting, MUSI 731-732; orchestration, MUSI 779; techniques and methods (8 credits); ensemble study, any combination from MUSI 441-453 (8 credits); music history, any one of MUSI 701-717 (3 credits); performance study, any one of MUSI 536-564, 736-764 (8 credits); departmental piano proficiency exam. The music preteaching option is a part of the five-year graduate-undergraduate certification program (see page 28). The department also offers a four-year program leading to teacher certification, the bachelor of music with a major in music education.

For all the options listed above, but excluding the undifferentiated B.A. in mu-

sic, a public performance is given during the senior year. For students in the music history option, this must be a lecture or lecture-recital; for those in performance study, a full recital; for students in the music theory option, a lecture, lecture-recital, or a recital including at least one original composition; for those in the preteaching option, a half recital is the minimum.

Bachelor of Music Program

The bachelor of music degree program is offered to students who wish to develop their talent in performance, composition, or music education to a high professional level. The program is recommended to those considering graduate study leading to the M.M. or D.M.A. degrees. The music education option is part of the undergraduate certification program (see page 30).

To be admitted to the B.M. program, students must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selectivity is exercised as appropriate to the professional requirements of each programmatic option. Students must formally declare the B.M. as a degree program before the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the department faculty.

The bachelor of music curriculum offers concentration in the following areas, as detailed below: option 1, piano; option 2, organ; option 3, voice; option 4, strings, woodwinds, brass, or percussion; option 5, theory (composition); option 6, music education.

Students in music education must maintain a minimum 2.50 grade-point average in the option and have a 2.20 cumulative average at the time of application for student teaching (February 15 of junior year). Further, all music education students must have passed the departmental piano proficiency exam before their student-teaching semester. Techniques and methods courses must include MUED 545 (strings), 741 (choral), 747 (woodwinds), 749 (brass), and 751 (percussion).

A public performance is required during the senior year. For students in the performance options this must be a full recital; for those in theory, a lecture, lecture-recital, or a recital including at least one original composition; for those in music education, a half recital is a minimum.

The following shows a year-by-year breakdown of required courses for options 1-6.

Option 1—Piano

Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); piano, MUSI 541 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); piano, MUSI 541 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Junior Year: general education requirements (2 courses, 8 credits); music history, MUSI 501-502 (6 credits); counterpoint, MUSI 771-772 (4 credits); piano, MUSI 741 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); piano methods, MUED 743 (2 credits); one elective course outside the department (4 credits). Total credits: 32.

Senior Year: piano, MUSI 741 (7 credits); ensemble, MUSI 455 (2 credits); advanced piano pedagogy, MUSI 795Y (2 credits); advanced history, MUSI 717 (3 credits); two 3-credit courses elected in advanced theory and literature (6 credits); conducting, MUSI 731-732 (4 credits); two 4-credit elective courses outside the department (8 credits). Total credits: 32.

Option 2—Organ

Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); organ, MUSI 543 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); organ, MUSI 543 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Junior Year: general education requirements (2 courses, 8 credits); music history, MUSI 501-502 (6 credits); MUSI 771-772 (4 credits); organ, MUSI 743 (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); voice class, MUED 540 (2 credits); choral methods, MUED 741 (2 credits);

one elective course outside the department (4 credits). Total credits: 34.

Senior Year: organ, MUSI 743 (7 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); advanced piano pedagogy, MUSI 795Y (2 credits); one course in liturgical music, organ literature, repertoire, or hymnology (3 credits); two 3-credit courses elected in advanced theory and literature (6 credits); conducting, MUSI 731-732 (4 credits); elective courses outside the department (6 credits). Total credits: 30.

Option 3—Voice

Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); voice, MUSI 545 (6 credits); piano, MUSI 541 (2 credits); choral and/or vocal ensemble, any combination from MUSI 441,442, 443, 448, 461 inclusive (2 credits). Total credits: 34.

Sophomore Year: general education requirements (4 courses, 16 credits)—the group 5 general education requirements must be satisfied with a foreign language; music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); voice, MUSI 545 (6 credits); piano, MUSI 541 (2 credits); choral and/or vocal ensemble, any combination from MUSI 441,442, 443, 448, 461 inclusive (2 credits). Total credits: 34.

Junior Year: general education requirements (2 courses, 8 credits); a second foreign language: German, French, or Italian (8 credits); music history, MUSI 501-502 (6 credits); voice, MUSI 745 (6 credits); piano, MUSI 741, (2 credits); choral and/or vocal ensemble, any combination from MUSI 441,442, 443, 448, 461 inclusive (2 credits); choral methods, MUED 741-742 (4 credits). Total credits: 36.

Senior Year: voice, MUSI 745 (7 credits); piano, MUSI 741 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); advanced history, one course from MUSI 713 or MUSI 715 (3 credits); advanced theory, one course from MUSI 771 (2 credits), 781, or 782 (3 credits); two other 3-credit courses elected in advanced theory or literature (6 credits); conducting, MUSI 731-732 (4 credits). Total credits: 26.

Option 4—Strings, woodwinds, brass, or percussion

Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); performance study at "500 level" on major instrument (6 credits); piano, MUSI 541 or 467 (2 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (2 credits). Total credits: 34.

Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); performance study at "500 level" on major instrument (6 credits); piano, MUSI 541 or 467 (2 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (2 credits). Total credits: 34.

Junior Year: general education requirements (2 courses, 8 credits); music history, MUSI 501-502 (6 credits); conducting, MUSI 731-732 (4 credits); performance study at "700 level" on major instrument (6 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (4 credits); one instrumental methods course selected from MUED 545-546, 747-748, 749,751 (2 credits). Total credits: 30.

Senior Year: performance study at "700 level" on major instrument (7 credits); instrumental ensemble, a combination from MUSI 450, 452, 453, 456, 457, 458, or 459 (4 credits); one instrumental methods course selected from MUED 545-546, 747-748, 749,751 (2 credits); advanced theory, one course from MUSI 771 (2 credits), 781, or 782 (3 credits); two other 3-credit courses elected in advanced theory or literature (6 credits); two 4-credit courses elected outside the Department of Music (8 credits). Total credits: 30.

Option 5—Theory (composition)

Freshman Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); performance study at "500 level" on major instrument (2 credits); performance study: brass (1 credit) and woodwind (1 credit) or techniques and methods (2 credits); piano, MUSI 541 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 32.

Sophomore Year: general education requirements (4 courses, 16 credits); music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); music history, MUSI 501-502 (6 credits); performance study at "500 level" on major instrument (2 credits); piano, MUSI 541 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 36.

Junior Year: general education requirements (2 courses, 8 credits); counterpoint, MUSI 771-772 (4 credits); composition, MUSI 775-776 (6 credits); orchestration, MUSI 779 (3 credits); analysis, MUSI 781, 782 (6 credits); performance study at "700 level" on major instrument (2 credits); piano, MUSI 741 (2 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 33.

Senior Year: advanced counterpoint, MUSI 773 (2 credits); advanced composition, MUSI 777 (6 credits); piano, MUSI 741 (2 credits); two 3-credit courses in music literature (6 credits); ensemble, any combination from MUSI 441-461 inclusive (2 credits); performance study at "700 level" in major instrument (2 credits); performance study: strings (1 credit) and percussion (1 credit) or techniques and methods (2 credits); conducting, MUSI 731 (2 credits). Total credits: 24.

Option 6—Music Education

Freshman Year: general education requirements (4 courses, 16 credits); techniques and methods: string, MUED 545 (2 credits) and percussion, MUED 751 (2 credits); music theory and ear training: MUSI 471-472 (6 credits), MUSI 473-474 (2 credits); performance study at the "500 level" on major instrument (1 credit per semester); piano, MUSI 467 or 541 (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 34.

Sophomore Year: general education requirements (1 course, 4 credits); EDUC 500* (4 credits); techniques and methods: woodwind, MUED 747 (2 credits) and brass, MUED 749 (2 credits); music theory and ear training: MUSI 571-572 (6 credits), MUSI 573-574 (2 credits); music history, MUSI 501-502 (6 credits); piano, MUSI 467 or 542 (1 credit/semester); performance study at the "500 level" in major instrument (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (3 credits). Total credits: 33.

Junior Year: general education requirements (3 courses, 12 credits); education, EDUC 700-701 (8 credits); elementary music education, MUED 790 (3 credits); techniques and methods, choral, MUED 741 (2 credits); orchestration, MUSI 779 (3 credits); conducting, MUSI 731-732 (4 credits); performance study at "700 level" in major instrument (1 credit/semester); ensemble, any combination from MUSI 441-461 inclusive (2 credits). Total credits: 36.

Senior Year: general education requirements (1 course, 4 credits); education, EDUC 705 (2 credits); student teaching, EDUC 694 (8 credits); music education seminar, MUED 792 (2

credits); secondary music education, MUED 791 (3 credits); music history, one course from 701-717 (3 credits); music theory: one course from MUSI 771 (Counterpoint, 2 credits) or MUSI 781, 782 (Analysis: Form and Structure, 3 credits); performance study at "700 level" in major instrument and senior recital (2 credits); ensemble, any one from MUSI 441-461 inclusive (1 credit). Total credits: 28.

Minor in Music

All students minoring in music must complete a minimum of 20 credits of coursework in music, of which the following are required: MUSI 471-472, MUSI 473-474, MUSI 501-502. MUSI 411-412 may be substituted for MUSI 471-472 and MUSI 473-474.

Philosophy

(For descriptions of courses, see page 175.) Philosophy has always been the heart of liberal education, deepening and enriching the lives of those who pursue it. It is also excellent preparation for a variety of vocational and professional endeavors.

The Philosophy Major

The following courses constitute a core required of all majors: PHIL 412, 500, 530, 570, 574, 575. Majors must take a total of ten philosophy courses. Majors must take at least two courses at the 700 level and at most two courses (including 412) at the 400 level. At least one course must concentrate on major works of twentieth-century continental philosophy, and at least one course must concentrate on major works of twentieth-century Anglo-American philosophy. Courses used to satisfy requirements for the major may be used to satisfy general education requirements. PHIL 495, 795, and 796 normally do not count toward fulfilling major requirement credits; exceptions may be granted by special permission.

Special-Interest Program

Students may add to the above major a special-interest program of value in planning for postgraduate education or entry into such areas as law, medicine, business, education, theology, or social work. Special advisers are prepared to provide informal counsel to philosophy majors interested in these areas.

* EDUC 500 may be taken either semester of the second year. However, the music education methods course that covers the student's major instrument should be taken prior to enrolling in EDUC 500.

** Music education electives may include MUED 742, choral techniques II (2 credits); MUED 748, double reeds (2 credits); and MUED 795, Special Studies: Jazz Techniques or Marching Band Techniques (2 credits). MUSI 782, Analysis: Form and Structure, or MUSI 771, Counterpoint, may be substituted for MUSI 781.

Graduate Preparatory Emphasis

This emphasis is strongly recommended for students who plan to do graduate work in philosophy. Beyond the ten program courses, such students should select, with their advisers' approval, two additional philosophy courses above the 400 level, for a total of twelve courses. One of these should be PHIL 550.

Departmental Commendation

Students accepted for departmental commendation will register for PHIL 699 (usually during the second semester of the senior year) and will write, under the guidance of an adviser, an original paper in philosophy. If completed successfully, students will receive a letter of commendation.

Philosophy Minor

Any five philosophy courses constitute a minor (PHIL 495, 795, 796 with special approval only).

Five-Year, Dual-Degree Program in Philosophy and Business Administration

The dual-degree program permits students to earn both a B.A. in philosophy and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the philosophy major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Students interested in this program should consult the departmental adviser to the program early in their sophomore year.

Political Science

(For descriptions of courses, see page 180.) The study of government and politics, to which the courses and seminars of the Department of Political Science are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions; their problems and behavior; and their interactions—at the national and international levels and at the local, state, and regional levels.

Much of the learning offered by the Department of Political Science can also be regarded as essential for good citizenship, since political knowledge helps to explain both the formal institutions by which societies are governed and the issues that encourage people toward political interest

and political action. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including foreign service, and it will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable. An undergraduate major in political science will provide the most helpful foundation for further study in the field. Such an emphasis will also be valuable for students seeking careers in journalism, international organizations, and the public affairs and administrative aspects of labor, financial, and business organizations.

The major program in political science consists of at least nine courses (36 credits) and not more than twelve courses (48 credits) to be distributed in the following way:

1. Two 400-level courses. These introductory courses should be completed by majors by the end of the sophomore year.

2. Six 500- and/or 600-level courses. Of these, at least one shall be chosen from each of the four fields in which the department's courses are organized: American politics, comparative politics, international politics, and political thought.

3. One 700-level course.

The Department of Political Science will not allow the use of 400-level courses to "double count" as a major requirement and a general education requirement. However, if a student has successfully completed all three 400-level courses, special permission can be obtained to use one of the 400-level introductory political science courses as a general education requirement.

Minor in Political Science

The political science minor consists of five courses (20 credits total). These courses may be taken in any combination of the four fields and levels (400–700) offered. The fields to choose from are: American politics, political thought, comparative politics, and international politics. Please note: it is recommended that only two courses be taken at the 400 level.

The minimum grade requirement is C– per course. Any grade lower than a C– will not count toward the minor. Students wishing to use transfer credits from abroad or other universities should meet

with a political science adviser to determine eligibility toward the minor.

It is possible to "double count" 401, 402, or 403 for a minor and a general education requirement. However, this may only be done with two courses (8 credits) over an entire academic career.

Internships and Advanced Study

In addition to the courses regularly offered, the department will have available selected topics, advanced study in political science, and internships. Interested students should check with the department office to learn of the offerings for a given semester.

The department also offers several internship opportunities giving students experience in various aspects of government, policy making, and the legal system at the local, state, and national levels. Students need not be political science majors, but a student must have taken certain course prerequisites for each kind of internship. In addition, students must have junior or senior standing and normally have a 3.00 average or higher to be eligible for consideration. Washington placements are made either through the Department of Political Science or through the Washington Center for Learning Alternatives; major credit must be arranged through the department.

Psychology

(For descriptions of courses, see page 183.) The psychology major provides students with a broad education, while also allowing some specialization. The program exposes students to the scientific study of behavior and encourages an increased understanding of the behavior of humans and animals.

Students who wish to declare psychology as a major after enrolling in the university should consult with the department's academic counselor for application procedures and criteria.

Students majoring in psychology must complete 44 credits with a minimum grade of C– in each course and a 2.00 overall average in all major requirements. Students with a first major in psychology may not use any psychology courses to fulfill general education requirements. The distribution of the major requirements is as follows.

A. Three core courses—PSYC 401, 402, and 502.

B. Four breadth (500-level) courses as follows:

Group I: two courses from two different tracks:

- Cognitive track: PSYC 512 or 513
- Behavioral track: PSYC 521 or 522
- Biological/Sensory track: PSYC 531

Group II: Two courses from two different tracks:

- Social/Personality track: PSYC 552 or 553
- Abnormal/Counseling track: PSYC 561
- History track: PSYC 571
- Developmental track: PSYC 581 or 582

C. Three depth (700-level) courses as follows:

Group I: one from any track:

- Cognitive track: PSYC 710, 713, 741B
- Behavioral track: PSYC 721, 723, 732, 741C
- Biological/Sensory TRACK: PSYC 710, 711, 731, 741D
- General track: PSYC 791A

Group II: one course from any track:

- Social/Personality track: PSYC 704, 752, 755, 791B, 791C
- Abnormal/ Counseling track: PSYC 762, 793, 791D
- History track: PSYC 770, 771, 791E
- Developmental track: PSYC 780, 783, 785, 791F, 791G
- General track: 791A

Group I or Group II: the third 700-level course may be completed from either group.

D. One Psychology elective that can be any 500- or 700-level course offered by the psychology department (4 credit minimum).

NOTE: Most offerings have one or more prerequisite courses. Students (with the help of their advisers) are expected to select breadth courses that will later enable them to select depth courses appropriate to their interests and career goals.

Transfer students who elect to major in psychology must complete at least 24 credits in the program at UNH to qualify for the degree in psychology. Transfer students must earn a total of 44 approved credits for completion of the psychology major. The distribution of these credits will be determined by the department's academic counselor. Transfer students

should note that courses are allotted only the number of credits granted by the original institution (after adjustments for semester-hour equivalents). Thus, students transferring from an institution at which courses carry less than 4 credits each must make up for any credit deficit created by acceptance of transfer credits into the psychology major.

Specific course selections should be discussed with advisers. Exceptions to the requirements for the major require a petition to the department.

Psychology majors planning to go on to graduate study in psychology are advised to include PSYC 702 and/or 705 among their courses.

The minor in psychology consists of five psychology department courses (20 credits), including PSYC 401. No more than 4 credits of PSYC 795 may be applied to the minor. A maximum of 12 psychology transfer credits can be applied to the psychology minor at UNH.

See the department secretary for further details on the major or minor in psychology.

Advising System

Students who enter the university as psychology majors are considered "provisional majors" and are advised in the University Advising Center until they complete PSYC 401 and 402, at which time they can confirm their major. "Provisional majors" are accorded all the rights and privileges of any psychology major. Undergraduate advising in the department is conducted jointly by the department's academic counselor and the full-time faculty. The academic counselor has primary responsibility for advising confirmed and newly declared freshman and sophomore psychology majors and is the initial contact for all majors in a state of transition (readmitted, transfer, newly declared students, etc.). The academic counselor assists students in all phases of educational planning and decision making, including preregistration, long-range academic planning, degree and program requirements, and career selection and planning. Junior and senior psychology majors are assigned to a faculty adviser with appropriate consideration for student preferences. The advising relationship with a faculty member is designed to encourage refining career and educational decisions.

Five-Year, Dual-Degree Program in Psychology and Business Administration

The dual-degree program permits students to earn both a B.A. in psychology and an M.B.A. in five years instead of the normal six. Students must meet all requirements for both the psychology major and the M.B.A. program offered by the Whittemore School of Business and Economics. A maximum of 16 credits may be counted toward both degrees. Candidates for the five-year, dual-degree program typically have a background of work experience in addition to a solid academic record. Students interested in this program should consult with the departmental adviser to the program early in their sophomore year.

Undergraduate Awards for Majors

Each year the faculty chooses psychology undergraduates as the recipients of the following awards: the Herbert A. Carroll Award for an outstanding senior in psychology, the George M. Haslerud Award for an outstanding junior in psychology, and the Fuller Foundation Scholarship for an outstanding junior in psychology with demonstrated interests in clinical psychology. Psychology majors with at least a 3.00 grade-point average are eligible for these awards. Faculty nominate students from the eligibility list and final selection of recipients is made by vote of the full-time psychology faculty.

Honors Program in Psychology

The Department of Psychology sponsors an honors program for outstanding students in the major. Students may apply to the honors program in psychology in their sophomore or junior year. Eligibility criteria include:

1. Overall G.P.A. of 3.20 or above
2. Completion of PSYC 401, 402, and 502 with a grade of B or above in each

Requirements of the program include:

1. Three 700-level psychology honors courses or equivalent
2. PSYC 797, Senior Honors Tutorial (fall)
3. PSYC 799, Senior Honors Thesis (spring)

Students interested in applying to the honors program should contact the department's academic counselor.

Undergraduate Research Conference

The Department of Psychology sponsors the annual George M. Haslerud Undergraduate Research Conference each spring. Undergraduates are invited to submit empirical or theoretical papers for presentation at the conference. Contact the department's academic counselor for more information.

Russian

(For descriptions of courses, see page 187.)

The Russian major provides students with an opportunity to study one of the world's most important languages, its culture, and its literature. In addition to the intrinsic value of Russian as a liberal arts experience, the Russian major leads to a number of careers, such as teaching, translation and interpreting, government, and foreign service. It is also a valuable asset in preparing for careers in law, economics, and international trade, and it can serve as a dual major with business administration, international affairs, the natural and physical sciences, and other liberal arts fields such as English, history, political science, sociology, philosophy, theatre, communication, linguistics, and other foreign languages.

The Russian major consists of a minimum of 44 credits above RUSS 504. Specific course requirements are RUSS 425, 505-506, 521, 522, 631-632, 691, 693, 733, and 734. Majors are required to spend a semester or summer on an approved study abroad program in Russia.

The minor in Russian consists of a minimum of 20 credits above RUSS 402 and must include RUSS 503-504 and RUSS 631-632, 691, or 733.

Students wishing to major in Russian should contact Aleksandra Fleszar in 9 Murkland Hall.

Russian Studies Minor

The Russian studies minor offers students an opportunity to pursue area study of Russia and the new states through an interdisciplinary program. The minor consists of a minimum of 20 credits (5 courses) with a minimum grade of C. In addition to the required courses and electives, students must demonstrate a Russian language proficiency at the level of RUSS 504 or 506 or an equivalent.

Students wishing to minor in Russian studies should consult with any faculty member in the Russian department, or

Professor Trout (political science) or Professor Frierson (history).

Sociology

(For descriptions of courses, see page 189.)

Sociology involves the study of human beings in social contexts. Sociologists examine the ways in which social relationships among individuals, groups, and organizations are created and maintained. They also study the causes and consequences of change in the social world.

Students who major in sociology may study socialization, social psychology, deviance and social control, formal organizations, equality and inequality within society, and social structure. Specific phenomena are also studied, including the family, health and illness, gender, race and ethnic relations, social policy, and criminology. Sociology majors should learn skills in methods of social research, statistical analysis, and sociological theory.

Majors must complete a minimum of 36 semester credits with grades of C- or better in each of these courses and a grade-point average of 2.00 or better in sociology courses. SOC 400, 502 (or acceptable substitutes), 599, 601, and 611 or 612 are required; majors must take 599 no later than the junior year. At least two of the additional major courses must be at the 600 or 700 level (excluding 795 or 796).

It is possible to select a concentration within the major by taking electives in a specific area, such as medical sociology, or criminal justice. Conjoint minors (allowing double-counting of one or two courses) are available for justice studies; gerontology; American studies; African-American studies; race, culture, and power; and women's studies, etc. There is also the possibility of second majors (with the same double-counting provision). Students interested in social work or in high school teaching can develop programs in conjunction with the appropriate departments. The departmental honors program is recommended for students with cumulative grade-point averages over 3.20, and especially for those anticipating graduate study.

Students interested in majoring in sociology should consult with the chairperson of the Sociology Committee for Undergraduate Studies for guidance. It is the responsibility of all sociology majors to obtain the latest information from the department office.

A minor consists of any five 4-credit courses in sociology with a C- or better

in each course and a grade-point average of 2.00 or better in such courses.

Spanish

(For descriptions of courses, see page 191.)

The major in Spanish is offered by the Department of Spanish and Classics. It is designed for students who wish to acquaint themselves more thoroughly with the language, culture, and literature of the Spanish-speaking peoples. In addition, the department offers courses in Portuguese.

Students who major in Spanish may prepare themselves for a variety of fields in which proficiency in the Spanish language and knowledge of Hispanic cultures are desirable. Such fields might include international relations, business administration, government work, social service, and communications. In addition, students can prepare to teach Spanish at the elementary and secondary levels and in bilingual education programs through the foreign language teacher education program. The undergraduate major also provides a basis for graduate study in preparation for scholarly research and teaching at the college level. When combined with coursework or a dual major in other disciplines, the major prepares students for work in Spanish-speaking areas of the world as well as in bilingual regions of the United States.

The UNH study abroad program in Granada, Spain, open to majors and nonmajors, offers students the opportunity to live and study abroad for a semester or a full academic year. Financial aid is available for eligible students. Contact the departmental program directors for further information.

The major consists of a minimum of 40 credits. Specific course requirements are (1) language and culture: 525 or 526, 601, 631, and 632; (2) introductory literature: 650, and either the sequence 651/652 or 653/654; (3) three courses taught in Spanish at the 700 level. A foreign study experience in a Spanish-speaking country of a minimum of one semester is required; a full academic year is highly recommended. The Spanish minor consists of 20 credits above 501, including 631 and 632.

For more information on the major, the minor, and options for the study abroad experience, please see the chair of Spanish or the Spanish undergraduate advising coordinator.

Theatre and Dance

(For descriptions of courses, see page 193.)

The theatre program offers a variety of opportunities to students interested in the performing arts. During a four-year period, the Department of Theatre and Dance offers a range of productions in a variety of styles. Because the department concentrates on undergraduate education, the students have many opportunities to perform, design, choreograph, and direct during their four-year period. Faculty contacts with area theatres, touring, and stock companies afford off-campus experiences in the junior and senior years.

The theatre major emphasizes the strengths of general theatre training within a broad liberal arts context, with opportunities for specialization in acting, directing, teaching, choreography, design and technical theatre, play writing, youth drama, storytelling, puppetry, secondary school certification, ballet, theatre (jazz and tap) dance, musical theatre, and touring theatre, not to mention the possibility for integration with other departments. Students interested in performance, technical, and historical aspects will find opportunities for personal and preprofessional growth. The program affords means for independent study and internships, special projects, and for active personal involvement in lecture and laboratory classes.

In addition to general liberal arts preparation, four specific course sequences are available within the theatre major: (1) courses leading to a major that when combined with requirements of the Department of Education qualify students for secondary school certification; (2) courses leading to a major that when combined with requirements of the Department of Education prepare students for elementary school certification with an undergraduate specialization in youth drama; (3) courses leading to a theatre major with an emphasis in dance (ballet, tap and jazz, and theatre dance); and (4) courses leading to a theatre major with an emphasis in musical theatre.

The basic theatre major allows students to explore a variety of areas. In the freshman and sophomore years, the student should enroll for at least two theatre courses per semester and two general education courses per semester. Students meet with the chair of the department, until the junior year when advisers are assigned appropriate to the individual's area of interest.

Course and Major Requirements General Sequence (Total credits, 48)

1. Required of all students

THDA 435, Introduction to Theatre; 653, Performance Project, or 654, Scenic Arts Project; 689A-D, Theatre/Dance Practicum; 697, Junior Seminar; and 698, Senior Thesis.

2. Theory/History

Total of 8 credits, 4 credits must be either THDA 436, History of Theatre I, or 438, History of Theatre II. The remaining 4 credits may be chosen from: 450, History of Musical Theatre in America; 520, Creative Drama; 541, Arts and Theatre Management; 621, Education through Dramatization; 627, Methods of Teaching Theatre; or 741, Play Reading.

3. Design/Technical

Total of 8 credits, four credits must be THDA 459, Stagecraft, the remaining 4 credits may be chosen from: THDA 458, Costume Construction; 475, Stage Makeup; 546, Costume Design for the Theatre; 547, Stage Properties; 548, Stage Lighting Design and Execution; 583, Puppetry; 592, Special Topics in Theatre (Costuming, Stage Management); or 652, Scene Design.

4. Performance

Total of 8 credits, 4 credits must be THDA 551, Acting I; the remaining 4 credits may be chosen from: THDA 457, The Actor's Voice; 550, The Actor's Voice through Text; 552, Acting II; 555, Exploring Musical Theatre; 622, Storytelling, Story Theatre, and Involvement Dramatics; 624, Theatre for Young Audiences; 632, The Interpretation of Shakespeare in the Theatre; 655, Musical Theatre Styles; 741, Directing; 755, Advanced Musical Theatre; 758, Acting III; or 768, Chamber Theatre.

5. Advanced Courses

Total of 8 credits from any 600- or 700-level course chosen from those listed in 1 through 4 above or THDA 691, Field Experience; 781, Theatre Workshop for Teachers; 782, Advanced Theatre Workshop for Teachers; or 795, Independent Study.

6. Performance Emphasis

This degree track is for those students wishing to emphasize coursework in performance.

I. Required of all students

THDA 435, Introduction to Theatre	4 cr.
THDA 436 or 438, History of Theatre I or II	4 cr.
THDA 457, The Actor's Voice	4 cr.
THDA 459, Stagecraft	4 cr.
THDA 463, Theatre Dance I	4 cr.
THDA 475, Stage Makeup	2 cr.
THDA 550, The Actor's Voice through Text	4 cr.

THDA 551, Acting I	4 cr.
THDA 552, Acting II	4 cr.
THDA 555, Exploring Musical Theatre or THDA 655, Musical Theatre Styles	4 cr.
THDA 653A, Performance Project	2 cr.
THDA 653B, Performance Project	2 cr.
THDA 689A-D, Practicum (1 cr. each)	4 cr.
THDA 697, Junior Seminar	2 cr.
THDA 698, Senior Thesis	2 cr.

II. 4 credits from design area

THDA 458, Costume Construction	4 cr.
THDA 548, Lighting Design and Execution	4 cr.

III. 4 credits from the following 600-800 level courses

THDA 632, Interpretation of Shakespeare in the Theatre	4 cr.
THDA 741, Directing	4 cr.
THDA 755, Advanced Musical Theatre	4 cr.
Total	62 cr.

Secondary Teacher Education (Total credits, 58)

These courses lead to a major that when combined with the requirements of the Department of Education qualifies students for acceptance into the M.A.T. program leading to secondary school certification. Students are required to take at least one methods course specifically in the teaching area, and they need a minor in a traditional liberal arts discipline (e.g., English, history, sociology). In the fifth year of the program, students must take either Performance Project, Scenic Arts Project, or Senior Project. This requirement is part of the student's internship, with additional credit being awarded.

EDUC 500, Exploring Teaching	
CMN 455, Introduction to Mass Communication	
CMN 500, Public Speaking	
THDA 435, Introduction to Theatre	
THDA 436, History of Theatre and Its Drama I or	
THDA 438, History of Theatre and Its Drama II	
THDA 457, The Actor's Voice	
THDA 458, Costume Construction	
THDA 459, Stagecraft	
THDA 551, Acting I	
THDA 575, Scenic Design	
THDA 621, Education through Dramatization	
THDA 627, Methods of Teaching Theatre	
THDA 657, Directing	
THDA 689A, Theatre/Dance Practicum	
8 credits in specialization area (communication or theatre)	

Youth Drama Concentration in Theatre and Elementary Education Certification (Total credits 60)

Students considering a career in elementary education may be interested in an undergraduate concentration in youth drama. When coupled with a master's in education, the student is well equipped to succeed in the classroom.

All of the graduates of this particular program in theatre are currently employed as teachers of elementary school-age children. They believe that the theatrical and practical experience they obtained as undergraduates prepared them for their teaching positions and for their classroom successes. The energy and immediacy of dramatic involvement seem to produce excellent results.

The course sequence for the concentration in youth drama is included here: THDA 435, Introduction to Theatre; 463, Theatre Dance; 457, The Actor's Voice; 459, Stagecraft; 520, Creative Drama; 583, Introduction to Puppetry; 621, Education through Dramatization; 622, Storytelling, Story Theatre, and Involvement Dramatics; 624, Theatre for Young Audiences; 653, Performance Project; 689A-B, Theatre/Dance Practicum; 697, Junior Seminar, and 698, Senior Thesis. These classes combine a theoretical base with practical "hands-on" experience at the undergraduate level.

Elementary Education Certification

In addition to the above courses, students must take courses in education. The list follows:

EDUC 500, Exploring Teaching

Education: 4 credits chosen from: EDUC 700, Educational Structure and Change; 701, Human Development and Learning; Educational Psychology; 703F, Teaching Elementary School Science; 703M, Teaching Elementary School Social Studies; 705, Alternative Perspectives in the Elementary Schools; or 706, Introduction to Reading Instruction 5. Mathematics: 4 credits chosen from: MATH 621, Number Systems for Teachers; MATH 622, Geometry for Teachers; MATH 623, Topics in Mathematics for Teachers; EDUC 703, Alternative Teaching Models; EDUC 706, Introduction to Reading Instruction; or EDUC 741, Exploring Mathematics with Young Children

Dance (Total, 60 credits)

1. Required of all students: THDA 435, Introduction to Theatre; 458, Costume Construction; 459, Stagecraft; 653, Performance Project, or 654, Scenic Arts Project; 689A-D, Theatre/Dance Practicum; 697, Junior Seminar; and 698, Senior Thesis.

2. Total of 8 credits from: THDA 487, The Dance; 633, Dance Composition; or 732, Choreography

3. Total of 8 credits from: THDA 546, Stage Costume Design; THDA 548, Stage Lighting Design; THDA 551, Acting I; THDA 555, Exploring Musical Theatre; THDA 755, Advanced Musical Theatre; ARTS 431, Visual Studies; ARTS 572, Art of the Age of Humanism; ARTS 573, Art of the Modern World; MUSI 411-412, Fundamentals of Music History; MUSI 709, Music of the Romantic Period; MUSI 711, Music of the 20th Century; PHIL 421, Philosophy of the Arts

4. Total of 16 credits from: THDA 461, Modern Dance I; 462, Ballet I; 562, Ballet II; 662, Ballet III; 463, Theatre Dance I; 563, Theatre Dance II; 663, Theatre Dance III; 684, Special Topics (Dance Technique and Injury, Partnering, Pedagogy); 576, Pointe; 597, Dance Theatre Performance

Musical Theatre (Total, 64 credits)

1. Required of all students: THDA 435, Introduction to Theatre; 411, Fundamentals of Music Theory; 450, History of Musical Theatre; 459, Stagecraft; 457, The Actor's Voice; 551, Acting I; 555, Exploring Musical Theatre; 653, Performance Project; 655, Musical Theatre Styles; 689A-D, Theatre/Dance Practicum; 697, Junior Seminar; 698, Senior Thesis

2. Total of 4 credits from: THDA 436 or 438, History of Theatre I or II; THDA 487, The Dance; MUSI 402, Survey of Music History or 511, Survey of Music in America; 755, Advanced Musical Theatre

3. Total of 8 credits of theatre dance

4. Total of 4 credits from: MUSI 441, Concert Choir; MUSI 448, Opera Workshop; MUSI 461, Vocal Ensemble; MUSI 467, Functional Piano; MUED 540, Beginning Techniques in Voice

5. An additional 4 credits in theatre, music, or dance. The student and adviser will

select courses appropriate to the needs of each student.

Theatre and Dance Minor

A general theatre minor consists of 20 credits in any of the theatre courses. The specialized minors in musical theatre and dance and youth drama require specific coursework. Please contact the Department of Theatre and Dance, D22 Paul Creative Arts Center, (603) 862-2919 or see a Department of Theatre and Dance handbook for details.

Women's Studies

(For descriptions of courses, see page 196.)

Women's studies provides students with an understanding of the status of women in various cultures and historical eras. Students learn the use of gender as a category of analysis and increase their knowledge of women's contributions to many fields. Women's studies courses offer students critical perspectives on such basic questions of the social order as assumptions about gender roles and gender identity.

A major or minor in women's studies prepares students for careers where the changing roles of women are having a perceptible impact. Women's studies graduates go on to law school and graduate school in a variety of disciplines. Some have taken positions with social change or family service agencies, while others have found work in such fields as communications, education, affirmative action, and personnel.

Women's Studies Major

For the women's studies major, students must complete 40 credits of women's studies courses (or 32 in the case of a double major) with grades of C- (1.67) or better and an overall grade-point average of 2.00 or better. These courses must include the following three: 1) WS 401, Introduction to Women's Studies, normally taken at the beginning of the course sequence; 2) WS 632, Feminist Thought, or an approved course in feminist theory; and 3) a 700-level WS-designated course (for instance, WS 795, 796, 797, 798, or 799). Electives are chosen in consultation with a faculty adviser principally from other women's studies and cross-listed departmental offerings.

Other women's studies courses are WS 595, Special Topics in Women's

Studies; WS 795, Independent Study; and WS 796, Advanced Topics in Women's Studies.

Departmental offerings include the following regularly repeated courses:

ARTS 487D, Themes and Images in Art: Major Mythic Images of Women
 ARTS 690, Women Artists of the Nineteenth and Twentieth Centuries
 CMN 567, Images of Gender in the Media
 CMN 583, Gender and Expression
 ECON 698, Topics in Economics: Women in Economic Development
 ENGL 585, Introduction to Women in Literature
 ENGL 586, Introduction to Women Writers
 ENGL 685, Women's Literary Traditions
 ENGL 785, Major Women Writers
 FS 645 Family Relations
 GERM 520, Women in German Literature and Society
 HIST 565, Women in Modern Europe
 HIST 566, Women in American History
 NURS 595, Women's Health
 SOC ANTH 625, Female, Male, and Society

of the women's studies minor, see page 25.)

Students who wish to major or minor in women's studies should consult with the coordinator, 304 Dimond Library, 862-2194.

Students may also select from other courses that are offered as special topics by the departments. In the past, such offerings have included the following: ANTH 697, Women in the Middle East; CMN 616, Women and Film; FREN 525, French Women: Subject and Object; PHIL 510, Philosophy and Women.

Electives must show a balance between arts and humanities/social sciences and be distributed between upper (600 and 700) and lower (400 and 500) level courses; no more than four electives may be from the same department. Strongly recommended are a practicum or internship course and a course that focuses on women of color or cross-cultural perspectives.

Women's Studies Minor

The minor consists of 20 credits of women's studies courses. These must include WS 401, Introduction to Women's Studies, and WS 798, Colloquium in Women's Studies, normally taken at the beginning and end of the course sequence, respectively. In between, students should select other women's studies courses or courses from departmental offerings that have been designated women's studies courses or that have the approval of the women's studies coordinator. Bachelor of Science in Forestry

Forestry
 Forest Management
 Forest Science

The objectives of the College of Life Sciences and Agriculture are to give students a fundamental education in the biological, natural, and social sciences and to introduce them to the arts and humanities. In addition, advanced technical and professional courses are offered to prepare students for graduate school or entry-level positions in areas concerned with improving the quality of life. Preparation can vary from fundamental studies of cancer cells to community-service planning, resource protection to genetic engineering, and career teaching to molecular biology and biotechnology.

A blend of the basic and applied aspects of life sciences and agriculture, coupled with careful selection of supportive courses, ensures graduates the background and experiences necessary to be competitive in the job market. Potential employers include federal, state, and local governments; consulting firms; and industrial organizations. Graduates are employed as watershed, soil, and natural resource managers; associates in biomedical and agricultural research laboratories; marketing analysts and extension specialists; nutrition supervisors and environmental regulators; and information educators and communications experts.

Community governments employ graduates as service planners and land-use specialists, teachers in traditional and vocational education, public health technicians, and urban pest control specialists.

Positions are available in private and commercial organizations in production agriculture, food processing, landscaping, agribusiness, sales, and private planning. Graduates may also pursue entrepreneurial careers as greenhouse, nursery, farm, and natural resource managers; or as consultants, arborists, and environmental planners.

For those graduates with international aspirations, the Peace Corps and the Foreign Agriculture Service employ farm production experts, soil and water managers, market analysts, agricultural engineers, teachers, plant and animal breeders, and nutrition specialists.

Additionally, departments prepare students for advanced study in their chosen field of interest where graduate study is required for attaining their career goals.

Degrees

The college offers three undergraduate degrees: the bachelor of arts, the bachelor of science, and the bachelor of science in forestry. Some of the courses prescribed in these degree programs partially fulfill the general education requirements. Students should see their adviser for specific information.

Bachelor of Arts

The bachelor of arts degree is available in plant biology and zoology. Students must accumulate 128 credits, attain a 2.00 cumulative grade-point average, satisfy general education requirements, and complete a foreign language requirement (see page 15 for B.A. language requirements). Check individual departmental listings for specific major requirements and minimum acceptable grades in major courses.

Bachelor of Science

The bachelor of science degree is available in all departments or programs except forestry. University requirements are the same as for the bachelor of arts degree, except that a foreign language is not required and minimum acceptable grades may differ in some programs. Check individual departmental or program listings for specific major requirements.

Bachelor of Science in Forestry

The bachelor of science in forestry is a professional, designated degree available to students majoring in forestry. (See page 50 for major requirements.)

Five-Year Program: B.S.-M.B.A.

The College of Life Sciences and Agriculture and the Whittemore School of Business and Economics offer a combined five-year program leading to a B.S. in plant biology and an M.B.A. degree. Information about the program can be obtained from the Department of Plant Biology or from the undergraduate counselor in the Whittemore School.

Advising System

A member of the faculty whose area of interest is closely related to the student's is appointed as an adviser to assist the undergraduate in planning his or her academic program. Further advising is also available in the dean's office, 201 Taylor Hall.

Undeclared Status

Students may select a major upon entering the college or may wait until registration for the sophomore year. Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases they should take the following courses, after which they should be ready to declare a major:

Fall	Spring
CHEM 403	CHEM 404
BIOL 411	BIOL 412
General education requirement	General education requirement
An introductory course in any department in the college	RECO 411*

*or other elective course to meet a general education requirement.

Undeclared freshmen should explore possible majors by taking courses in the areas or programs that interest them most. They should talk to faculty, students, and their adviser concerning requirements, job opportunities, etc., in the various programs and should be prepared to declare a major when they register for the first semester of the sophomore year.

Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study

as follows:

Minors: See page 16; see also page 19 and below.

Second Majors: See page 16.

Dual-Degree Programs: See page 16.

Student-Designed Majors: See page 91.

Other combined and interdisciplinary opportunities: See page 88.

Interdisciplinary Programs

Interdisciplinary Minor in Plant Pest Management

The interdisciplinary minor in plant pest management provides a broad, but comprehensive, foundation in the concepts and practices employed in managing the major groups of pests that affect agricultural crops. It covers both the integrated pest management systems used in modern agriculture in developed countries and the agricultural practices used in developing countries. It is designed for students majoring in plant biology with career interests in commercial agriculture, agricultural industries, agricultural consulting, USDA regulatory service, economic entomology, plant pathology, integrated pest management, or Cooperative Extension. It also provides a strong background for students interested in pursuing advanced degrees required for these areas.

Further information may be obtained from the chairperson of the plant biology department or any instructor teaching one of the courses. The minor consists of five courses as outlined below:

Required:

PBIO 651, Plant Pathology
PBIO 726, Integrated Pest Management

Select Two:

NR 412, Introductory Entomology
ZOO 530, Principles of Applied Entomology
FOR 506, Forest Entomology
PBIO 706/708, Weed Ecology
PBIO 752, Mycology

Genetics Program

An undergraduate degree in genetics is not offered at the University of New Hampshire. In the Graduate School, the M.S. and Ph.D. degrees are offered in an

interdepartmental genetics program, involving the departments of animal and nutritional sciences, biochemistry and molecular biology, natural resources, microbiology, plant biology, and zoology. For some of the courses offered in the program, see the genetics entry in the course descriptions of this catalog as well as other genetics courses offered by the cooperating departments within the genetics program. Students interested in preparing for graduate work in genetics at UNH or elsewhere should contact the chairperson of the genetics program early in their undergraduate careers for advice on courses.

General Science Certification

Students majoring in animal sciences, biochemistry, biology, environmental conservation, forestry, microbiology, plant biology, soil science, water resources management, wildlife management, zoology, or general studies may seek certification to teach science at the middle or junior high school level.

For further information, contact the coordinator of teacher education in the Department of Education.

Programs of Study

Adult and Occupational Education

(For descriptions of courses, see page 108.) The adult and occupational education program focuses on the preparation of students: as teachers of vocational/technical education, as participants in international agricultural education, as extension educators, and as adult educators concerned with human resource development.

This program complements a student major in technical subject matter within departments throughout the university and thus can serve as a viable dual major or minor.

Flexibility is maintained among individual programs, with credits allowed for qualified students through (1) the Occupational Competency Testing and Evaluation program, (2) internships in industry, (3) Cooperative Extension, and (4) other informal educational settings. Opportunity is provided for vocational teacher certification.

Students who desire to major or minor in adult and occupational education should consult with a member of the faculty of the program.

Students majoring in this program will normally concentrate in one of four areas, although programs for teacher education can be developed in other areas of vocational/technical education on an individual basis.

Areas of concentration are described below.

Agricultural Education Teacher Certification

This program prepares individuals for careers as teachers of agriculture. Individuals completing this concentration are eligible for state certification in New Hampshire and most other states. Recent occupational experience in the field of production agriculture or agribusiness is required for state certification.

Individuals are encouraged to complete a dual major in a technical agricultural field. For further information, contact David L. Howell.

AOE Required Courses	Credits
AOE 702, Concepts of AOE	4
AOE 650, Microcommunications	4
AOE 752, Youth Organizations	4
EDUC 750, Introduction to Exceptionality	4
AOE 791, Planning for Teaching	4
	<hr/> 20

Required Education Courses	Credits
EDUC 500, Exploring Teaching	4
EDUC 700, Educational Structure and Change	4
EDUC 701, Human Development and Learning, or FS 525, Human Development	4
EDUC 705, Alternative Perspectives on the Nature of Education	4
EDUC 694, Supervised Teaching in AOE	8
	<hr/> 24

Forty credits of technical agriculture courses are selected from the following areas: (1) animal science; (2) plant biology; (3) agricultural mechanization; (4) resource economics; (5) forestry (fifth-year program); (6) some courses from the Thompson School of Applied Science or similar out-of-state institutions may be appropriate.

Additional Programs

Programs for teacher education can be developed in other areas of vocational/technical education on an individual basis.

Trade and Industrial Teacher Certification

Trade and industrial education, with emphases in, but not limited to, building trades and food service, is formulated in three categories of courses to fulfill degree requirements. The degree requirements are 44 credits in general education, 44 credits in professional education, and 40–50 credits in technical subject matter or documented recent occupational experience. Technical subject matter is culminated in a competency test where credit (up to 30 credits) is awarded for successful completion of a written and practical exam. The competency exam is used to evaluate a student's previous occupational experience, when appropriate. Recent occupational experience in the field of specialization is required for state certification. For further information, contact David L. Howell.

Technical Courses

AOE 696, Field Experience
AOE 500, Occupational Competency Examination and Evaluation

Adult Education

This program prepares students for careers with Cooperative Extension, industrial training, and within other informal

educational settings. It includes opportunity for selected formal courses and for field experience valuable for the student's professional development. The most beneficial focus in this area may be a dual major or minor along with concentration in a technical subject matter field within the College of Life Sciences and Agriculture or within other colleges and schools of the university. For further information, contact David L. Howell.

AOE Required Courses	Credits
AOE 702, Concepts of AOE	4
AOE 650, Microcommunications	4

RECO 504, Business Management for Natural Resource Firms	4
RECO 604, Financial Concepts for Natural Resource Firms	4

Animal Sciences

(For descriptions of courses, see page 109. See page 172 for description of Nutritional Sciences courses.)

The undergraduate animal sciences program at UNH provides students with fundamental and applied education in nutrition, reproduction, genetics, physiology, pathology, cell biology, and large animal management. Courses are offered in all areas of dairy and light horse production.

The Department of Animal and Nutritional Sciences is housed in Kendall Hall, a modern five-story animal research facility. This building houses the New Hampshire Veterinary Diagnostic Lab; an electron microscopy facility; and nutrition, physiology, and cell culture labs, all of which provide opportunities for students interested in basic animal sciences. The department maintains a light horse center and offers an equine program with courses in management, equine diseases, equine discipline, physical performance, and horsemanship spe-

cializing in dressage and combined training. Dairy facilities include housing for more than one hundred milking-age cows in the new \$1.6-million Dairy Teaching and Research Center. Miniature swine are maintained at the Burley-Demerritt farm. Extensive poultry facilities also permit research and work experience in poultry science.

The animal sciences program offers two majors: animal science (with options in [1] equine sciences, [2] bioscience and technology, and [3] preveterinary medicine) and dairy management. In addition to satisfying the specific requirements of these majors or options, all animal science and dairy management majors must complete the university general education requirements. The department also offers a program in nutritional sciences.

The equine sciences option is intended to prepare students for a career in the equine industry. While the basic curriculum for this option provides students with the fundamental background in the equine sciences, preparation in a particular area of specialization is achieved by choosing courses from one of the following two areas of concentration: equine industry equestrian management or equine industry agribusiness management.

Students in the bioscience and technology option often specialize in nutrition, reproduction, genetics, or cell biology. This curriculum prepares students for advanced training in graduate school programs or in various medical professions; entry-level positions in biomedical, biotechnical, pharmaceutical, and other scientific companies; or technical positions in many research and medical units.

The preveterinary medicine option is designed to meet the academic requirements of most veterinary schools. Requirements may be met within three years, allowing students to apply to veterinary school during their senior year. However, most students finish their senior year, thus allowing more time for electives, concentration in areas of secondary interest, and completion of graduation requirements.

Employers in agriculture prefer to hire an agricultural graduate with extensive knowledge in a related field (e.g., computer science) rather than a graduate in one of these areas with no knowledge of agriculture. Hence, animal science students are encouraged to obtain training in a field that complements study in ani-

mal sciences. Such areas may include cell biology, biotechnical skills, communications, computer science, education, or business. This is generally accomplished by either taking a concentration of courses or obtaining a minor in a "specialty" area. Attainment of sufficient training in a "specialty" area enhances opportunity for employment. A careers course is offered to help students select and prepare for a particular career area.

Development of optional career goals is important for preveterinary students. Admission to schools of veterinary medicine is highly competitive. Therefore, students in this option are urged to prepare for alternative careers as they complete preveterinary requirements.

All animal science majors are required to complete ANSC 406; CHEM 403-404; and ENGL 501, 503, 519, or 529. In addition, the requirements in one of the three following options must also be completed:

Equine Sciences Option

ZOOL 507-508; RECO 411 or ECON 402; BIOL 528; ANSC 404, 609, 612, 620, 622, 625, 697, 796 (or INCO 606B); two 700-level ANSC courses; and at least five courses from one of the following two groups: (A1.) Equine Industry Equestrian Management Group: ANSC 507, 604, 653-654; KIN 501; CMN 500 or MGT 580; RECO 501 or MKGT 550, RECO 504; DCE 491-492 or CS 401. (A2.) Equine Industry Agribusiness Management Group: ANSC 701, 724; RECO 501 or MKTG 550, RECO 504, RECO 604; DCE 491-492 or CS 401, MGT 580 and MGT 713.

Bioscience and Technology Option

BIOL 411-412; PHYS 401-402; MATH 424B; BIOL 528; MICR 503 or BIOL 541; ZOOL 507-508 or ZOOL 518 and 627; CHEM 545 or 651-652; BIOL 604; BCHM 658/659 or 751-752; ANSC 750 and three 700-level ANSC courses.

Preveterinary Medicine Option

BIOL 411-412; PHYS 401-402; MATH 424B; BIOL 528; MICR 503; ZOOL 507-508; BIOL 604; CHEM 651-652; BCHM 658/659; ANSC 750 and one 700-level ANSC course.

For course requirements for the B.S. degree in dairy management, see page 49.

General Science Certification

See pages 28 and 45.

Biochemistry and Molecular Biology

(For descriptions of courses, see page 116.)

Biochemistry and molecular biology study the chemical basis of life. The program in biochemistry and molecular biology is based on fundamental courses in chemistry and the biological sciences, in addition to preparation in physics and mathematics. The department offers advanced courses in specialized areas of modern biochemistry, molecular biology, cellular metabolism, endocrinology, and biophysics.

Two curricula are offered to meet the educational needs of students with differing professional aspirations.

Biochemistry and Molecular Biology Curriculum A

This curriculum is designed for students planning graduate study in biochemistry, molecular biology, genetics, and biotechnology; and for students seeking admission to professional schools in medicine, dentistry, or pharmacy. It provides in-depth study in chemistry, biochemistry, and molecular genetics along with basic training in the biological and physical sciences. Students entering curriculum A should register for CHEM 405-406, MATH 425-426, and BIOL 411-412 in their freshman year.

Biochemistry and Molecular Biology Curriculum B

This curriculum provides a program leading to skilled technical positions in research laboratories in universities, biotechnology companies, medical schools, hospitals, government agencies, and industry. This program offers a fundamental education in chemistry, biochemistry, and the biological sciences. Students transferring to the major from the biology program will normally take this curriculum. Flexibility is designed into this curriculum to permit the student to concentrate in a variety of areas fundamental to biochemistry and molecular biology: biomedicine, genetics, biotechnology, endocrinology, and nutrition. Students entering this curriculum should register for CHEM 403-404, MATH 424B or 425-426, and BIOL 411-412 in their freshman year.

Students interested in electing a biochemistry major are advised to consult with the department chairperson or a faculty member as early as possible to ensure the most effective curricular planning.

General Science Certification

See pages 28 and 45.

Biology

(For descriptions of courses, see page 116.)

Students interested in earning a bachelor's degree in biology can choose one of the following options within the biology major: (1) ecology and evolutionary biology; (2) general biology; (3) marine and freshwater biology; and (4) molecular, cellular, and developmental biology. Majors in the following biological science departments are also available: (1) animal sciences, p. 46, (2) biochemistry and molecular biology, p. 47, (3) microbiology, p. 51, (4) nutritional sciences, p. 52, (5) plant biology, p. 52, or (6) zoology, p. 57.

Any of these majors is appropriate for students planning subsequently to earn M.S. or Ph.D. degrees; for those seeking a health-care-related professional degree; for those desiring biology teaching certification; and for those desiring employment in a wide variety of biology-oriented industries. Some examples of typical career areas for biology majors are biotechnology, pharmaceuticals, environmental consulting, environmental education, secondary school science teaching, college teaching and research, health-related professions, state or federal government services, science journalism, and marine biology. Students who wish to choose a departmental major should consult with that department for a more specific list of career opportunities.

New students wishing to major in a specific area within the biological sciences are encouraged to declare their major in the first year. Those generally interested in biology, but unsure of a specific major at this time should declare general biology to ensure a timely beginning of the core curriculum. In either case, each student will be assigned a biology faculty member as an academic adviser. The adviser will assist in academic program development, course selection, and choice of major. Changing majors within the biological sciences is easy during the first two years since the biology core curriculum is common to all biological sciences majors.

Biology Core Curriculum

Students generally take the core curriculum courses in the sequence recommended below. Many core curriculum

courses are also offered at UNH-Manchester. Students should discuss selection and sequencing of courses with their adviser because deferral of some core courses may be desirable for specific departmental majors, and the courses chosen may vary slightly depending on the major. The biology core curriculum satisfies the four university general education requirements in groups 2 and 3.

Freshman Year

BIOL 400* and 411-412; CHEM 403-404; MATH 424B

Succeeding Years

MICR 503**, BIOL 541**, BIOL 528; CHEM 545 and BCHM 658/659 or CHEM 651/653-652/654***; PHYS 401-402; BIOL 604; ENGL 501, 503, 519, or 529***; EDUC 500†

* BIOL 400 is required for first-year biology majors only.

** Biology majors take both. Departmental majors choose one as instructed by the department.

*** For premedical and prehealth-related professions only.

† For those preparing for teacher certification only

Biology Major

Students qualify for a B.S. degree in biology when they complete the university general education requirements, the biology core curriculum, and requirements for one of the four biology options described below. A complete list of approved courses for each option is available from the Biology Program Office in Taylor Hall, or from a biology faculty adviser.

Biology Major Options

Ecology and Evolutionary Biology. Eight courses in addition to core curriculum courses must be selected from those listed in the Ecology and Evolutionary Biology Option Guidelines.

General Biology. Within the biology core, BIOL 528 and BCHM 658/659 are preferred. Eight courses in addition to core curriculum courses must be selected from those listed in the General Biology Option Guidelines.

Marine and Freshwater Biology. BIOL 528 and BCHM 658/659 are preferred in the core. If possible students should consider enrolling in ZOOL 674, a 6-credit summer experience at the Isles of Shoals Marine Laboratory, in the summer fol-

lowing the freshman year. A senior project or undergraduate research experience is also strongly recommended. Eight courses in addition to core curriculum courses must be selected from those listed in the Marine and Freshwater Biology Option Guidelines.

Molecular, Cellular, and Developmental Biology. Eight courses in addition to core curriculum courses must be selected from those listed in the Molecular, Cellular, and Developmental Biology Option Guidelines.

Prehealth Care Professional Program

Students wishing to pursue postgraduate degrees in any of the health-care-related professions should visit the premedical/prehealth office in 7 Hood House for additional information, or call 862-3625.

Biology Teacher Certification and General Science Certification

Biology teacher certification for students preparing to teach high school biology can be obtained through the Department of Education's five-year, undergraduate-graduate degree program. Students are required to take EDUC 500 (preferably in the sophomore year), earn a bachelor's degree in one of the biological sciences, and complete a fifth year, which includes an internship and coursework leading to a master's degree in education. General science certification for students preparing to teach science in middle and junior high schools can be obtained through the Department of Education's general science certification program. For further information, see page 28 or contact the teacher education coordinator in the Department of Education.

Biology Minor

A minor in biology can be earned by completing the following requirements: (1) BIOL 411-412 or PBIO 412 and ZOOL 412; (2) one course from each of the three major organism groups: (a) animals (ANSC or ZOOL courses), (b) microbes (MICR courses), and (c) plants (PBIO courses); (3) two additional biological sciences courses at the 600-700 level.

Students interested in a biology minor should contact the Biology Program Office, Taylor Hall, 862-3066.

Community Development

(For descriptions of courses, see page 124.)

The community development program prepares students for professional careers as local government administrators, town or regional land-use planners, and community facilitators and educators. It is an applied social science degree program that gives the student an understanding of the interrelated social, economic, political, environmental, and technical factors that influence a community and its residents. The curriculum takes an interdisciplinary approach and includes field experience and internships as vital components that complement classroom and independent research.

Students majoring in community development are encouraged to concentrate in one of three areas: (1) community change and development, (2) community public administration, and (3) community and regional planning. These areas of specialty provide the necessary background and training to prepare graduates for entry-level positions with local municipalities and agencies throughout the nation. The community development program also provides a firm base for graduate study in a variety of areas such as regional planning, public administration, rural sociology, economic development, and law.

A minor in community development or community planning provides opportunities for students in other areas to better understand the application of their knowledge to specific community issues. A community development minor complements majors in both technical fields and liberal arts.

Local municipalities in New England are turning to full-time professional administrators to assume responsibility for the day-to-day administration, management, and planning activities that were previously carried out by part-time town officials. Officials at the New Hampshire Municipal Association estimated that New Hampshire needs, each year, at least twenty-five new graduates in community and public administration to fill local government professional needs. In addition to professional administration or planning positions in local or regional government, employment opportunities are also available with public agencies and organizations at the state, national, and international levels.

Students interested in the challenges of community development consult with the program coordinator or with the chairperson of the Department of Resource Economics and Development.

Required Courses

I. All of the following (16 credits):

CD 415, Community Issues and Perspectives
 CD 508, Applied Community Development
 BIOL 528, Applied Biostatistics I (or its equivalent)
 CD 795, Investigations in Community Development or CD 793, Community Administration Internship or CD 794, Community Planning Internship

II. One of the following (4 credits):

RECO 506, Population, Food, and Resource Use in Developing Countries
 GEOG 583, Urban Geography
 CD 777, Fundamentals and Practice of Community Planning
 TOUR 767, Social Impact Assessment

III. At least three courses from the following (Minimum of 12 credits):

RECO 606, Land Use Economics
 CD 607, Community Administration and Development
 CD 614, Community Planning
 CD 627, Community Economics and Finance
 CD 710, Community Development Seminar
 CD 717, Law of Community Planning
 CD 791, Community Administration Seminar
 CD 792, Community Planning Seminar

IV. Two courses from two of the following groups (at least 6 credits):

A: SOIL 609 or BIOL 541
 B: SOC 642 or 645
 C: MGT 580, 712, or 713

V. The following three courses:

MATH 420, Finite Mathematics*
 RECO 411, Resource Economics Perspectives*
 CMN 500, Public Speaking or AOE 650, Microcommunications

Community Planning minor requirements (5 courses including):

CD 614, Community Planning
 CD 777, Fundamentals and Practice of Community Planning

Group II: Tools and Application in Planning** (2 courses)

Group III: Resource Management Theory** (1 course)

*to satisfy general education requirements

**Contact Professor Jansen, program coordinator, 319 James Hall, for a list of approved courses.

Dairy Management

(For descriptions of courses, see page 109, Animal Sciences.)

The dairy management program, offered by the Department of Animal and Nutritional Sciences, is designed to provide students with solid training in areas important to the successful management of a dairy enterprise, for employment in related agribusinesses (e.g., pharmaceutical and feed industries), or for those wishing to pursue additional training leading to the M.S. or Ph.D. degree in dairy science or its related disciplines. Dairy management students receive training in areas such as nutrition, reproduction, diseases, genetics, lactation physiology, forages, agribusiness finance, personnel management, computer science, and public relations. In addition, senior students enrolled in this program will be given complete responsibility for managing the UNH teaching herd, thereby acquiring actual management experience along with their basic subject matter training. The UNH teaching and research center, a modern dairy facility, houses approximately one hundred milking cows plus a similar number of nonlactating animals.

In addition to the university's general education requirements, a typical dairy management student will take the following courses:

First Year

ANSC 408, 508, 552, 554, 603; CHEM 403-404; RECO 411

Second Year

Environmental Conservation

(For descriptions of courses, see page 139.)

The program in environmental conservation gives a broad background for understanding environmental and resource problems and their solutions. Development of policies and planning are essential to resolving environmental problems and require a foundation in biology as well as economics.

Students must choose an option (environmental affairs or environmental science) or develop a concentration that is related to specific career goals (for example, in the areas of environmental education, ecology, journalism, or business). Students choosing the latter route must incorporate a minor into their concentration. In addition to courses in the options or concentrations, students must complete the sixteen core courses listed below.

A minor of five courses in environmental conservation is available for students majoring in other areas. Permission is required.

The following 16 courses are required of all majors:

1. NR 401, Natural Resources Perspectives
2. PBIO 412, Introductory Botany
3. ZOOL 412, Principles of Zoology
4. 5. Ecology electives (two of the following): BIOL 541, General Ecology; FOR 527, Forest Ecology; PBIO 601, Terrestrial Plant Ecology; PBIO 566, Systematic Botany; PBIO/ZOOL 717, General Limnology; PBIO/ZOOL 719, Field Limnology; PBIO 724, Freshwater Algal Ecology; PBIO 745, Plant Community Ecology; PBIO 761, Plant Geography; FOR 706, Terrestrial Arthropods; WARM 721, Ecology of Polluted Waters; WILD 433, Wildlife Ecology; ZOOL/PBIO 503, Introduction to Marine Biology; ZOOL/PBIO 725, Marine Ecology
6. RFCO 411, Resource Economics Perspectives
7. Economics elective (one of the following): RFCO 676, Economics of Water Use and Quality Management; RECO 606, Land Use Economics; RECO 611, Marine Resource Economics; RECO 708, Environmental Economics; FOR 643, Economics of Forestry; FCON 668, Economic Development; ECON 607, Ecological Economics; FCON 707, Economic Growth and Environmental Quality
8. CHEM 403, General Chemistry
9. NR 602, Natural Resources and Environmental Policy
10. WARM 504, Freshwater Resources, or SOIL 501, Introduction to Soil Sciences
11. EC 637, Practicum in Environmental Conservation (4 credits; this practicum will be an independent project involving fieldwork on an actual conservation activity during the

senior year), or EC 601, Environmental Conservation Internship

12. EC 702, Ecological Values and Ethics
- 13, 14. One speaking skills course (AOE 650 or CMN 500 or beyond) and one writing skills course (ENGL 501, 503, 519, or 529)
15. Computational skills course (BIOL 528, PSYC 402, SOC 502, or equivalent)
16. NR 775, Natural Resources Senior Project

Students should plan to work for a master's degree if they wish to be professional conservationists. The undergraduate degree offers an education in environmental conservation with the opportunity for specialization or generalization in related fields.

All students must complete the university general education requirements.

Students interested in a major may consult with the program coordinator, Robert Eckert, James Hall.

General Science Certification

See pages 28 and 45.

Forestry

(For descriptions of courses, see page 141.)

Forestry is the art and science of managing and understanding the natural and human dimensions of forests and forest use. The forestry program is designed to provide graduating professionals with a sound technical preparation and a broad general education. The forest management and forest science options of the forestry major leading to the bachelor of science in forestry degree (B.S.F.) are accredited by the Society of American Foresters (SAF). The SAF is recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education as the accrediting body for forestry in the United States.

Professional foresters are employed by private industry, public agencies, public interest firms, groups, educational institutions, research organizations, and consulting firms. Some graduates work toward natural resource protection and the improvement of environmental quality. Others are employed in the production and utilization of raw materials; still others become involved with wildlife, watershed, and recreation management and other aspects of ecosystem management. There are rapidly expanding opportunities in international forestry. Many students enter graduate school for

advanced training in forest biology or related social sciences.

Technical, administrative, and managerial skills are required of all professional foresters. This program provides a foundation in scientific knowledge, as well as technical and managerial skills, with elective freedom to cultivate special abilities and interests.

Students majoring in forestry must complete 130 credits of classroom work and 4 credits of field training. University general education requirements are included in this total.

Besides these formal courses, all forestry majors are required to have at least one summer of forestry work experience (FOR 500). While students are responsible for their own summer work, placement assistance is available from the faculty.

In addition to the normal university fees and tuition, forestry students pay certain course transportation fees and the cost of meals in connection with some planned field sessions.

In the junior year, students must choose to concentrate in either of the following options (and must earn 24 credits within that concentration to graduate):

Forest Management Option

This option is designed for students who intend to plan a career in forest resource management. Requirements: NR 753, Decision Sciences in Natural Resource Management; FOR 754, Wood Products Manufacture and Marketing; RMP 711, Recreation Resource Management; one course in administration, 500 level or higher; two courses (8 credits) in advanced forestry, wildlife, hydrology, soils, resource management, urban forestry, recreation, or administration.

Forest Science Option

In this option, students may specialize in specific forest sciences as background for graduate school or focus their interests in areas other than forest management. Areas of concentration include genetics, forest ecology, wood science, watershed management, or the social sciences. Students in this option are encouraged to minor in the area of their choice.

Minors

Nonforestry majors may minor in forestry by completing 20 to 22 credits of coursework approved by the forestry program faculty.

651-653; MATH 424B; MICR 503, 602, 704-708, 705; PHYS 401-402. Group Two requirements may be satisfied by choosing at least one course from each of the following areas: medical (MICR 702, 706); general (MICR 709, 710-712, 711, 716, 717, 718, 751); and ecological (MICR 707, 713-715, 714; PBIO 721).

Curriculum B

Students entering this program as freshmen will be advised to adhere closely to the biology core curriculum. However, students may also transfer into the microbiology program from liberal arts, health sciences, or other science programs via this curriculum. Curriculum B has the following Group One requirements: BIOL 411-412 or two semesters of a laboratory biological science may be accepted upon approval; BCHM 658/659; CHEM 403-404, 545-546; MATH 424B; MICR 503. Group Two requirements may be satisfied by choosing at least one course from each of the following areas: medical (MICR 602, 702, 705, 706, 708); general (MICR 704, 709, 710-712, 711, 716, 717, 718, 751); ecological (MICR 707, 713-715; 714; PBIO 721); and applied (MICR 707, 713, 714, 716; PBIO 721). Other microbiology-related courses offered in the following departments may be taken with an adviser's permission: animal sciences, biochemistry and molecular biology, plant biology, civil engineering, zoology, or medical laboratory science. Courses in these areas are reviewed periodically by the microbiology faculty to ascertain their suitability for microbiology majors.

Problems in Microbiology (MICR 795, 796) is available by special permission and allows students the opportunity to conduct semi-independent research projects in conjunction with departmental faculty. Up to 4 credits of Problems in Microbiology may be applied to major requirements, although students may enroll for additional hours. Students must receive a minimum grade of C- in major requirements taught in the College of Life Sciences and Agriculture (e.g., microbiology, biology, or biochemistry). A passing grade in major requirements taught outside the College of Life Sciences and Agriculture (e.g., chemistry, math, or physics) is acceptable.

Students planning to attend graduate or postgraduate professional school or to apply for certification as registered microbiologists through the American So-

ciety of Microbiology are strongly advised to take a course in quantitative analysis (CHEM 517-518).

Individuals considering a major in microbiology are strongly encouraged to enroll in MICR 503 and organic chemistry in their sophomore year. Requirements in the biology core curriculum may be deferred until the subsequent year, if necessary.

Students may obtain a minor in microbiology by successfully completing MICR 503 and four additional departmental courses totaling a minimum of 20 credits at the 600 or 700 level. BCHM 658/659 may be substituted for one of these courses. A maximum of 4 credits of Problems in Microbiology may be applied to the minor.

Departmental Honors

Honors in microbiology will be awarded to students who complete 16 credits of honors courses in microbiology (including a minimum of 4 credits in a senior research project), and who maintain a minimum grade-point average of 3.20 in the major. Students interested in the microbiology honors program should apply to the department before their junior year.

Students wishing to declare a major or minor in microbiology or to be admitted to the microbiology honors program should consult Robert M. Zsigray.

Nutritional Sciences

(For descriptions of courses, see page 172 and page 109, Animal Sciences.)

The science of nutrition is the study of nutrients in food and the body's handling of these nutrients. As an applied science, nutrition is based on biochemistry and physiology but can also include anthropology, economics, genetics, microbiology, pathology, animal sciences, and zoology. Consequently, the nutritionist often cooperates with workers in many different fields. The nutrition program at UNH is designed to permit specialized study in human and/or animal nutrition.

Two curricula are offered to meet the educational needs of students with differing professional aspirations.

Basic Science Curriculum

This curriculum provides students with a solid science background in biology, chemistry, physiology, nutrition, biochemistry, and physics. Upon gradua-

tion, students are well prepared for technically oriented jobs in science. This curriculum is also excellent preparation for students planning further education in graduate school or professional schools of medicine and dentistry. Students in this curriculum are required to complete the biology core curriculum: NUTR 400, 499, 750; ZOOL 507 and 508; MICR 503; BCHM 658/659; ENGL 501, 503, 519, or 529; and 12 additional credits from recommended courses in nutrition.

Dietetics Curriculum

Approved by the American Dietetics Association (ADA), the dietetics curriculum prepares students to apply for a postgraduate dietetic internship. Completing this internship and passing the ADA examination are essential for becoming a registered dietitian (RD), requisite for employment opportunities in clinical dietetics and community nutrition. Required courses for this curriculum are NUTR 400, 401, 405, 476, 478, 499, 503, 504, 509, 511, 550, 620, 650, 750, 773, 775, and 780; ZOOL 507 and 508; CHEM 403-404, and 545-546; ENGL 401; DCE 491; MICR 501 or 503; BCHM 658/659; SOC 500; MGT 580; HMP 710; and either PSYC 402, SOC 502, BIOL 528, or HHS 540.

Plant Biology

(For descriptions of courses, see page 177.) Plant biology is the study of plants at the population, organismal, cellular, and molecular level; and the investigation of the uses of plants for food, fiber, recreational, and ornamental purposes. Offerings in marine and freshwater plant biology are also provided and are facilitated by the Jackson Estuarine Laboratory and two marine laboratories where the plant biology faculty maintains an active involvement in teaching and research. The Department of Plant Biology offers three baccalaureate degrees: bachelor of science in plant biology, bachelor of science in horticulture and agronomy, and bachelor of arts in plant biology. See also programs listed under biology major, page 48, and marine sciences, page 89.

B.S. in Plant Biology

This degree is for students intending to seek employment in agricultural, pharmaceutical, and biotechnology industries; to work in governmental agencies, environmental groups, and consulting firms;

to teach secondary education; or to undertake graduate studies in preparation for advanced research and teaching positions. Students interested in university teaching and/or research, and governmental and industrial research, should plan to complete an advanced degree in the field.

Students entering the B.S. in plant biology program are required to complete the biology core curriculum and to take PBIO 401, 606, 608, 774, and to choose one of the following: PBIO 566, 666, or 703. Six additional courses must be selected from those listed below under categories 1–5, with the proviso that no more than four courses from one category can be used to fulfill the requirement. It is strongly recommended that students choose courses from as many of the categories as possible to obtain a broad background in plant biology.

Category 1: Systematics, Ecology, and Evolution PBIO 566, 601, 625, 666, 703, 705, 717, 719, 721, 722, 724, 742, 745, 747, 752, 758, 761.

Category 2: Marine and Freshwater Plant Biology PBIO 503, 625, 717, 719, 721, 722, 724, 725, 747.

Category 3: Plant Structure and Physiology PBIO 709, 713, 714/715, 727/729, 751, 758, 764, 765, 774/775, 776.

Category 4: Ornamental and Crop Science PBIO 546, 565, 651, 652, 653, 655, 672, 678, 682, 689, 706/708, 726; NR 412; ZOOL 530; FOR 506.

Category 5: Plant Genetics and Biotechnology PBIO 705, 714/715, 753, 764, 765, 773, 774/775; BCHM 771, 772.

B.S. in Horticulture and Agronomy

This program offers a flexible curriculum for students interested in managing farms, greenhouses, golf courses, and nurseries; in teaching; in practicing journalism; in working for park and highway planning commissions; in working in sales or brokerage aspects of wholesale and retail marketing; and in finding employment in food- and feed-processing firms.

Students are required to take the core courses and support courses listed below. In addition, students must select an area of specialization.

Core Courses

PBIO 401, Plant Biology Orientation	1
PBIO 412, Introductory Botany	4
PBIO 421, Concepts of Plant Growth	4
PBIO 546, Plants, Soils, and the Environment	4
PBIO 606, Plant Physiology	3
PBIO 612, Genetics of Domesticated Plants	4
PBIO 651, Plant Pathology or PBIO 653, Forest and Shade Tree Pathology	4
PBIO 672, Plant Propagation	4
PBIO 706/708, Weed Ecology	4
PBIO 797, Senior Seminar	1

Crop Science Specialization

PBIO 726, Integrated Pest Management	4
PBIO 682, Sustainable Food Systems	4

A minimum of 8 credits of production courses:

PBIO 432, Animal Forages	3
PBIO 445, Flower Shop Management	2
PBIO 475, Floricultural Crop Production	3
PBIO 476, Bedding Plant Production	2
PBIO 565, Turf Management	4
PBIO 652, Vegetable Crops	4
PBIO 655, Tree Fruit Management	3
PBIO 657, Small Fruit Crop Management	2
PBIO 678, Ornamental Plants	4
PBIO 689, Herbaceous Landscape Plants	4

Ornamentals Specialization

PBIO 427, Landscaping the Home Ground	4
PBIO 565, Turf Management	4
PBIO 566, Systematic Botany	4
PBIO 678, Ornamental Plants	4

A minimum of 6 credits from the following:

PBIO 445, Flower Shop Management	2
PBIO 456, Horticultural Pruning	2
PBIO 461, Interior Plants and Landscaping	2
PBIO 463, Landscape Construction and Maintenance	4
PBIO 475, Floricultural Crop Production	3
PBIO 476, Bedding Plant Production	2
PBIO 689, Herbaceous Landscape Plants	4

Support Courses

CHEM 403-404, General Chemistry	8
PBIO 501, Basic Biochemistry or CIEM 545/546, Organic Chemistry	3
NR 412, Introductory Entomology or ZOOL 530, Principles of Applied Entomology	5
RECO 411, Resource Economics Perspectives	4

Credits

Five-Year, Dual-Degree Program

A five-year, dual-degree program leading to a B.S. in horticulture and agronomy and an M.B.A. degree (business administration) is available. Students preparing for a business career in agricultural enterprises should notify the department of their interest in their sophomore year. Superior students will be considered for Graduate School enrollment in their junior year.

B.A. in Plant Biology

Students must complete a minimum of 37 semester credits in the major. The curriculum provides a broad background in the liberal arts and plant biology. Students may enter this program as freshmen or transfer into it from other liberal arts or science programs. This program is of particular interest to students who intend to utilize their plant biology training in public relations, teaching, or other related careers in combination with a liberal arts background. The program allows for obtaining minors in other fields such as English, history and philosophy of science, international affairs, education, art, and the like, to create an interdisciplinary program, or to pursue a double major.

Requirements

	Credits
PBIO 401, Plant Biology Orientation	1
PBIO 412, Introductory Botany or BIOL 411-412, Principles of Biology I & II	4
BIOL 541, General Ecology or PBIO 601, Terrestrial Plant Ecology	4
PBIO 566, Systematic Botany or PBIO 666, Summer Flora of N.H.	4
BIOL 604, Principles of Genetics or PBIO 612, Genetics of Domesticated Plants	4
PBIO 606/608, Plant Physiology	5
PBIO 774, Plant Cell Culture & Genetic Engineering	3

Plant Biology Electives:

12 credits minimum
Highly recommended: Select upper-level electives from several of the five plant biology categories (see B.S. program).

General Education

Required: Group 3, CHEM 403-404, General Chemistry
Recommended: Group 2, BIOL 528, Applied Biostatistics I
Group 8, PHIL 424, Science, Technology, & Society; and HUMA 651, Humanities and Science: The Nature of Scientific Creativity

Foreign Language

See university requirement, page 15.

General Science Certification

See pages 28 and 45.

Minors

The Department of Plant Biology participates in the interdisciplinary minor in plant pest management and offers two departmental minors: minor in plant biology and minor in horticulture and agronomy. These minors are available to all students and are designed to provide a flexible and broad selection of courses to complement any other major area of study.

The specific requirements of the minor in plant biology include PBIO 401, PBIO 412 or equivalent, and a minimum of 15 credits from the following list of courses: PBIO 566, 601, 606/608, 625, 651, 653, 666, 703, 705, 709, 713, 714/715, 717, 719, 721, 722, 724, 727, 729, 745, 747, 751, 752, 753, 758, 761, 764, 774/775, 795, 799.

The requirements for the horticulture and agronomy minor are PBIO 401, PBIO 421, and a minimum of 15 credits from the following list of courses: PBIO 427, 445, 463, 475, 480, 565, 566, 606/608, 612, 651, 652, 653, 655, 672, 678, 682, 689, 706/708.

For selection of specific courses, see the department chair or your adviser.

Resource Economics

(For descriptions of courses, see page 186.)

This program offers training in resource economics, including public resource policy, resource management, natural resource and environmental economics, and community economics and finance. This program emphasizes applied economics in the context of public policy. Training is also available in agricultural economics, including agribusiness, small business management, food marketing, agricultural policy, and world food supplies.

Students majoring in resource economics will normally concentrate in one of the following three areas: natural resource economics, agricultural economics, or community economics. In addition, students must satisfy general education requirements, which lead to a broad university education. Majors interested in the economic or business aspects of agriculture and natural resources will be expected to take courses in the biology departments.

Students majoring in any of the social science, life science, and agriculture de-

partments of the university may find it to their advantage to elect courses or a minor in resource economics or agribusiness. By doing so, their basic training can be supplemented in a specific area of interest, such as resource development and natural resource policy for social science majors, farm management and agricultural marketing for agricultural majors, and community economics and finance for students interested in local government and development.

Required Courses

All of the following:

ECON 401, Principles of Economics (Macro)
RECO 411, Resource Economics Perspectives
RECO 504, Business Management for Natural Resource Firms
MATH 420, Finite Mathematics, or MATH 424B, Calculus for Life Sciences
ECON 605, Intermediate Microeconomic Analysis
ECON 611, Intermediate Macroeconomic Analysis, or ECON 635, Money & Banking
RECO 525, Statistical Methods and Applications

At least five of the following, of which two must be 700 level:

RECO 501, Agricultural and Natural Resource Product Marketing
RECO 506, Population, Food, and Resource Use in Developing Countries
RECO 604, Financial Concepts for Natural Resource Firms
RECO 606, Land Use Economics
RECO 611, Marine Resource Economics
RECO 627, Community Economics and Finance
RECO 633, Economics of Travel and Tourism
RECO 666, Empirical Resource Economics: Methods and Techniques
RECO 676, Economics of Water Use and Quality Management
RECO 704, Economics of Policy Issues in Food and Natural Resource Use
RECO 705, Environmental Economics
RECO 710, Resource Economics Seminar
RECO 715, Linear Programming and Quantitative Models
RECO 756, Rural and Regional Economic Development

Students who major in resource economics are qualified for a wide variety of opportunities upon graduation. Private business, public institutions, and government agencies currently have a strong demand for specialists trained in natural resource development; land and water use policy; natural resource and small

business management; agricultural, fisheries, and forestry marketing; and community development. In many cases, students may wish to improve their qualifications by pursuing more specialized graduate studies in one or more of the above areas.

Departmental Honors

Honors in resource economics will be awarded to students who complete 16 credits of honors courses in resource economics (including a minimum of 4 credits of a senior research project), and who maintain a minimum grade-point average of 3.20 in the major. Students interested in the resource economics honors program should contact the resource economics and development chairperson in James Hall for more information.

Students interested in a major or minor in resource economics or agribusiness should contact Alberto B. Manalo at (603) 862-1700.

Soil Science

(For descriptions of courses, see page 190.)

Soil scientists are concerned with proper management of our soil resources, in rural and urban environments, and with the essential role of soil in food and fiber production. Growing national attention to environmental concerns has also created a need for soil scientists as members of interdisciplinary teams engaged in a variety of natural resource issues.

Career opportunities are excellent for graduates of the soil science program. There is a growing awareness that planning, design, and construction of public and private facilities must be compatible with the soil upon which these facilities are placed. Thus, the increasing urbanization of the Northeast has created a demand for soil scientists competent to advise on soil considerations during planning and development stages. Soils expertise is usually needed in identification of sensitive areas in need of protection. Soil scientists often play important roles in toxic waste remediation, aquifer protection, and site selection for hazardous waste disposal or storage. There is also a growing role for soil scientists who wish to work with plant scientists and foresters in improving food and fiber production.

Students in the soil science program are given a strong analytical background for studying physical, chemical, and bio-

logical properties of soils, as well as their classification and management. Graduates are well prepared for further study in graduate school, and professional certification is available through the American Registry of Certified Professionals in Soils.

Core Courses

A. Soil Science Courses

SOIL 501, Introduction to Soil Science
 PBIO 546, Plants, Soils, and the Environment
 SOIL 607, Soil and Land Evaluation
 SOIL 611, Soils and Environmental Quality
 SOIL 702 and 703, Chemistry of Soils and Chemical Analysis of Soil
 SOIL 704, Soil Genesis and Classification
 SOIL 705, Forest Soils

B. Natural Resources Courses

NR 401, Natural Resources Perspectives
 FOR 527, Forest Ecology
 NR 602, Natural Resources and Environmental Policy
 WARM 716, Wetland Delineation
 NR 775, Natural Resources Senior Project

C. Support Courses

PBIO 412, Introductory Botany
 CHEM 403-404, General Chemistry
 PHYS 401 (or 407), Introduction to Physics I
 RECO 411, Resource Economics Perspectives
 ESCI 512, Principles of Mineralogy or ESCI 561, Surficial Processes
 BIOL 528, Applied Biostatistics I
 One course in mathematics (MATH 420, 424B, or 425)
 One course in chemistry beyond CHEM 403-404.
 One writing course beyond ENGL 401 (ENGL 501, 503, 519, or 529, DCE 596, or equivalent)

Students interested in the soil science major should consult with Robert Harter.

General Science Certification

See pages 28 and 45.

Tourism

(For descriptions of courses, see page 195.)

Tourism creates immense economic activity, totaling more than \$4 trillion dollars of world spending activity. Tourism is also an integral part of New England's economy. Experience has shown that the public and private sectors of the tourism industry benefit substantially from proper planning. Those locations with the best planned and managed tourism developments are likely to be the most successful tourist destinations from the

standpoint of providing both high-quality tourist experiences and bringing substantial economic benefits with minimal disruptions to the social and natural environment. In response to these needs, the Department of Resource Economics and Development offers a bachelor of science degree in tourism that focuses on tourism planning and development from regional and international perspectives.

The tourism curriculum provides students with the skills and knowledge necessary to plan, develop, and manage natural, cultural, and financial resources in an environmentally responsible manner. The program utilizes an interdisciplinary approach to provide students with a strong liberal education supplemented by a broad professional understanding of tourism planning and its role in local, state, national, global economic, and social development. Students study both the social and environmental sciences in order to better understand the complexity of natural and social systems. The program emphasizes the practical application of planning and economic theory to the planning for the development of tourism resources.

Curriculum Structure

Students entering the major may choose either: (1) the regional tourism planning emphasis, which includes the tourism core course and tourism electives to support interest in planning and community development, or (2) a concentration in international tourism development, which includes the tourism core, language competency, and coursework centered on international affairs and experience.

Core Courses

All majors must complete a core curriculum of twelve courses. TOUR 400, Introduction to Tourism; RECO 411, Resources Economics Perspectives; TOUR 439, Analyzing Community Systems; DCE 491, Introduction to Computer Information Studies I (or equivalent); RECO 504, Business Management for Natural Resource Firms; MKTG 550, Survey of Marketing; SOC 601, Methods of Social Research; CD 614, Community Planning; TOUR 615, Tourism Planning and Development; TOUR 633, Economics of Travel and Tourism; and TOUR 700, Marketing Places. Class projects and a fourteen- to sixteen-week, full-time, supervised, professional internship (TOUR 794) enables students to meet and work in association with representatives from the public and private sectors of the tourism industry. All students must complete the internship and courses in a selected concentration area.

International Tourism Development Concentration

This concentration area prepares students to work in the dynamic and challenging environment of international tourism development. Depending on interests, language skills, and international experiences, students may expect to find employment in settings such as national tourism offices, international tourism organizations, national and foreign consults, and multinational tourism destination resorts. In addition to the required core courses, students who pursue the international tourism development concentration must complete the following departmental requirements: TOUR 705, Ecotourism; TOUR 792, International Experience; two TOUR electives; competency in a foreign language (i.e., functional reading, writing, and speaking ability equivalent to the third-year second-semester level); and two additional electives that will enhance students' career opportunities in the international area.

Regional Tourism Planning Concentration

This concentration area prepares students to obtain professional roles in planning in the public or private sectors of the tourism industry. Depending on interests and technical skills, students may expect to find employment in settings such as local and regional economic development organizations, chamber of commerce offices, convention and visitor bureaus, state and federal offices of tourism development, local and regional planning commissions, and resort communities. In addition to the required core courses, students who pursue the regional tourism planning concentration must complete the following departmental requirements: TOUR 767, Social Impact Assessment; TOUR 798, Independent Study in Tourism; two TOUR electives; and all requirements for a minor in community planning.

Regional Student Planning

The B.S. in tourism program is one of the specialized curricula recognized by the New England Board of Higher Education and participates in the New England Regional Student Program. Under this program, students from the state of Rhode Island, Connecticut, Massachusetts, Vermont, and Maine receive some preferential admission consideration and, if ad-

mitted, pay the UNH in-state tuition rate plus 50 percent.

Water Resources Management

(For descriptions of courses, see page 195.) There is a critical need for individuals who understand how changes in land use affect water quantity and quality. The B.S. degree program in water resources management is designed to educate students in the principles of land management, biology, chemistry, water quality, and hydrology specifically as they relate to the management of water resources. The program stresses an interdisciplinary approach to resource management, including environmental, economic, social, and political considerations. Hands-on field experience is expected and research projects are encouraged.

This degree program is designed for students who intend to pursue advanced degree work in environmental studies or careers in government, in public or private utilities that manage land and water resources, in private consulting firms that offer water resource management services, and in any of a wide variety of not-for-profit organizations that address land and water resource issues.

The program is divided into three interacting parts: general education, core requirements, and an area of specialization or exploration. The core program provides a foundation in both physical and social sciences. The area of specialization or exploration allows students to pursue a minor or double major, or to survey a variety of courses relevant to water resources management. This allows students to tailor their education to meet individual areas of interest.

In addition to formal courses, all water resources management majors are required to participate in a relevant work experience or internship (WARM 500) and a senior project (NR 775). Students are responsible for identifying appropriate work experiences, although assistance is available from the faculty. Students may also choose to do a senior thesis (WARM 795).

Water resources management students will be required to pay occasional special fees in addition to normal tuition and university fees. The special fees will defray the costs of travel, lodging, and

meals for some field sessions as well as copying expenses as needed.

Students who are interested in the water resources management B.S. program should contact William B. Bowden or William H. McDowell in the Department of Natural Resources.

General Education	Credits
ENGL 401, writing skills	4

* Alternates available.

Each student must take a combination of courses, devised by the student and his or her adviser, that suitably defines a coherent area of professional specialization. Each student must accumulate a total of at least 128 credit hours.

Wildlife Management

(For descriptions of courses, see page 196.) The wildlife curriculum is for students interested in the ecology, conservation, and management of wild animals. It is designed to provide a knowledge of wildlife species and their various forest, field, and wetland habitats. Students are prepared for employment with public and private agencies in wildlife management, or for continued study at the graduate level.

Fieldwork is carried out during the academic year on local and regional wildlife areas. Each year, a two-week field session is held during June for all students who have completed the sophomore year. Majors are assisted and encouraged to obtain summer employment related to their career objectives.

The degree earned is a bachelor of science with a major in wildlife management. The program is administered in the Department of Natural Resources.

In addition to the normal university fees and tuition, wildlife students are required to meet special fee charges in connection with regularly planned field laboratory sessions.

*Electives should be used to satisfy remaining general education requirements and the wildlife major requirements in the areas of policy and administration, communication skills, and physical sciences (one course in each area—pertinent courses are listed in the detailed wildlife curricular guidelines available from the department).

Students interested in the wildlife management major may consult with the program coordinator, Peter Pekins, Pettee Hall.

General Science Certification

See pages 28 and 45.

Zoology

(For descriptions of courses, see page 197.)

The Department of Zoology has a primary responsibility for undergraduate and graduate instruction in fundamental aspects of animal biology, including the principles of form, function, development, and diversity produced by animal evolution. The teaching program provides a broad coverage of basic biological processes in invertebrate and vertebrate animals at the cellular, organismic, population, and community levels. Students receive background for a variety of professional positions in the public and private sector, and for graduate programs in the biological sciences including health-related fields. The department offers the bachelor of arts, bachelor of science, master of science, and doctor of philosophy degrees. Zoology faculty contribute significantly to the biology core curriculum, marine biology minor, genetics program, University Honors Program, Ocean Projects and Undergraduate Research Opportunity programs, and courses at the Shoals Marine Laboratory.

There is a strong teaching and research emphasis on ecological and physiological processes in aquatic animals or ecosystems. This focus is enhanced by the geographical location of the university and the availability of facilities for aquatic research. The university provides unusual opportunities for the study of a wide variety of aquatic and terrestrial animals due to its access to the seacoast and the lakes region of New Hampshire, and the presence of two coastal marine laboratories, as well as estuarine and freshwater laboratories.

The zoology major builds from the common background of the biology core curriculum, with ample time for third- and fourth-year students to concentrate in specialized disciplines such as marine and freshwater biology, behavior, cell and developmental biology, ecology, evolution, fisheries, physiology, and neurobiology. Zoology majors must complete 32 credits from courses in the biological sciences approved by the department with a 2.00 average. Students must receive a minimum grade of C- in major requirements taught in the College of Life Sciences and Agriculture (e.g., zoology, microbiology, biology, biochemistry). A passing grade in major requirements taught outside the College of Life Sciences and Agriculture (e.g., chemistry, math, physics) is acceptable. Minimum

requirements for the zoology major are as follows: completion of the biology core excluding MICR 503 (which includes chemistry, math, statistics, physics, and biology courses) and ZOOL 518 or 628; ZOOL 627; ZOOL 629 or BIOL 605; and biological science electives.

Students who are interested in a zoology major should consult the department's undergraduate adviser.

The College of Engineering and Physical Sciences provides an optimal opportunity for students to achieve educational objectives appropriate to their interests in engineering, mathematics, and the physical sciences. The college offers an outstanding education in each of its twelve primary disciplines leading to the bachelor of science, and a broad liberal education coupled with majors in mathematics and each of the three physical sciences leading to the bachelor of arts. All programs include an opportunity for study in the arts, humanities, and social sciences.

The key to an undergraduate program in the college is flexibility, with a strong emphasis on personal and individualized education. In addition to specific programs, a number of options are available. Special programs can be developed to meet the specific interests of individual students.

MATH 425 and 426 (Calculus I and II) or the equivalent in transfer credits or advanced placement approved by the Department of Mathematics are required by all departments of the college for their majors. Prerequisites for calculus are three years of college-preparatory mathematics, including a half-year of trigonometry.

Accreditation

The baccalaureate-level programs in chemical, civil, electrical, and mechanical engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. The baccalaureate-level programs in electrical and mechanical engineering technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology. The baccalaureate-level program in computer science is accredited by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board. The Department of Chemistry's undergraduate bachelor of science program is approved by the American Chemical Society.

Degree Requirements

Candidates for a degree must satisfy all of the university general education requirements for graduation, as well as the particular requirements of their individual major programs. In order to meet one of the requirements of the Accreditation Board for Engineering and Technology, engineering students must take a two-course sequence which provides an opportunity to study an area in depth. The two-course sequences listed below will provide this opportunity and will also satisfy two of the university's general education requirements. We strongly urge you to satisfy this requirement as soon as possible. Students who choose to gain the required in-depth experience by taking sequences not listed below, may find that they will need to take more courses than those indicated in the program outline that follows.

*Designated degree (the name of the specialization is on the diploma, e.g., B.S. in Chemistry).

Degrees

Bachelor of Science

The programs leading to the bachelor of science degree, offered in each of the departments of the college, emphasize the preparation of students for a professional career and continuing or graduate education.

The degree requirements for the bachelor of science include the university general education requirements (page 14) and the specific departmental requirements for graduation. A minimum grade-point average of 2.00 must be achieved. Graduation credit requirements established by the departments range from 128 to 133. There are enrollment limitations in some programs, and it is not possible to guarantee all change-of-major requests.

Bachelor of Arts

Programs leading to a bachelor of arts degree are offered in the departments of chemistry, earth sciences, mathematics, and physics. These programs provide a broad liberal education along with a major in one of these fields. The university requirements for the bachelor of arts degree are on page 15.

Interdisciplinary Majors

Bachelor of Science in Hydrology

The hydrology major is an interdisciplinary major offered by the departments of earth sciences and civil engineering. The coordinator of the program is S. Lawrence Dingman of the Department of Earth Sciences. For details of this program, please see B.S. in hydrology under earth sciences (page 64).

Bachelor of Science in Mathematics
 Mathematics–Chemistry option
 Mathematics–Computer Science option
 Mathematics–Economics option
 Mathematics–Electrical Science option
 Mathematics–Fluid Dynamics option
 Mathematics–Mechanics option
 Mathematics–Physics option
 Mathematics–Statistics option
 Mathematics–Thermodynamics option

For details of these programs, please see page 67 under mathematics.

Interdisciplinary Minors

Interdisciplinary minors have been developed in environmental engineering, hydrology, materials science, ocean engineering, and oceanography. These programs enable students to obtain experience in the specialized area and to retain identification with their major professional area. (For university requirements, see page 16.)

Environmental Engineering

The environmental engineering minor is intended primarily for students in engineering and physical sciences, other than civil and chemical engineering majors. Students contemplating such a minor should plan on a strong background in the sciences and mathematics (including differential equations).

The minor provides a comprehensive introduction to major areas of interest in environmental protection, namely air pollution and water pollution, through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the choice of appropriate elective courses.

Requirements for the minor include a minimum of five courses totaling at least 18 credits, chosen from the following: (1) three required courses: CHE 709, Fundamentals of Air Pollution and Its Control; CIE 645, Fundamental Aspects of Environmental Engineering; CHE 772, Physicochemical Processes for Water and Air Quality Control, *or* CIE 743, Environmental Sampling and Analysis; (2) a minimum of two elective courses from the following list: CHE 604, Chemical Engineering Thermodynamics; CHE 605, Mass Transfer and Stagewise Operations; CHE 606, Chemical Engineering Kinetics; CHE 772, Physicochemical Processes for Water and Air Quality Control; CIE 739, Industrial Wastewater Treatment; CIE 740, Rural Wastewater Engineering; CIE 743, Environmental Sampling and Analysis; CIE 744, Physicochemical Treatment Design; CIE 746, Biological Treatment Design; CIE 747, Introduction to Marine Pollution and Control; CIE 748, Solid Waste and Residuals Management; CIE 749, Water Chemistry; CIE 742, Hazardous Waste Management; CIE 753, Marine Pollution at Shoals Marine Laboratory; CIE 755, Design of Water Transmission Systems; CIE 756, Environmental Engi-

neering Microbiology; *or* 695, Engineering Projects (CHE, CIE, EE, ME).

Choice of elective courses should be made in consultation with the minor area adviser, Nancy Kinner, civil engineering, or Stephen S. T. Fan, chemical engineering. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year. During the final semester, students should apply to the dean to have the minor appear on the transcript.

Hydrology

The minor in hydrology is open to all students in the university. It consists of a minimum of six courses totaling at least 18 credits. Students must earn grades of C (2.00) or better and take no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program shall be selected by students in consultation with the hydrology minor adviser in the Department of Earth Sciences.

Required courses are (1) ESCI 401, Principles of Geology I, *or* ESCI 409, Environmental Geology; (2) ESCI 705, Principles of Hydrology; (3) ESCI 710, Groundwater Hydrology; (4–6) at least three of the following courses: ESCI 561, 703, 708, 747; CIE 642, 741, 742, 743, 745, 749; NR 757, 759, 760; WARM 504, 603, 700, 711, 713, 716, 718, 721; P BIO 717, 719.

Students are encouraged to declare their intention to enter the program before the end of the junior year. During the final semester, students should apply to the dean to have the minor appear on the transcript.

Materials Science

The minor, administered by the Department of Mechanical Engineering, is open to all students of the university and offers a broad introduction to materials science. Students should contact the minor supervisor by midsemester of their junior year.

Students must complete at least 18 credits and a minimum of five courses as follows: ME 661 (required); ME 760 (required); and ME 730 (required); additional courses from the group ME 695 (materials), 696 (materials), 730, 731, 760, 761, 762, 766, and 795 (materials).

Interested students may consult James E. Krzanowski, Department of Mechanical Engineering.

Ocean Engineering

The ocean engineering minor is described under marine sciences on page 89.

Oceanography

The oceanography minor is described under marine sciences on page 89.

Other Programs

Independent Study and Projects

All departments within the college offer courses in independent study or in projects, the content varying with the current scientific and technological needs and with student and faculty interest.

Permission of the instructor and/or the department chairperson is required. (See the course descriptions for the independent study and project courses and for specific requirements.) The initiative for independent study courses in any area rests with the student.

Special Provisions

The requirement of a given course in any prescribed curriculum may be waived by the faculty of a student's college. The student's petition must be approved by his/her major adviser and the dean of the college. This power will usually be delegated by the faculty to the dean or to a committee. (Senate Rule 05.21(s): Waiver of Requirements in a Prescribed Curriculum.)

This rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those in a regular curriculum.

In addition, upon the recommendation of the department chairperson, superior students may be allowed to count credits from up to two 800-level courses toward both a bachelor's degree and a master's degree, provided that the students have been admitted to the master's program.

Research Opportunities

The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduates are included in many of these research projects with the intent of discovering and fostering their creative talents. In funded research projects, students may have an opportunity to receive pay while learning.

A multiplicity of research programs is reflected in special facilities: the Analog Computer Facility, Antenna Systems Laboratory, Bioelectronics Laboratory, Computation Science Center, Electronics Laboratory, Engineering Design and Analysis Laboratory, Fluid Mechanics Laboratory, Materials Laboratories, Mechanics Research Laboratory, Sanitary Engineering Laboratory, Solid State Laboratory, Space Science Center, Wind Tunnel and Water Tunnel Facility, and X-ray Laboratory.

Students have the opportunity to acquire applied experience in business and industry by working with faculty members who undertake client-sponsored professional projects in management and technical areas for business and industry, and for state and local governments.

Study Abroad Program

The College of Engineering and Physical Sciences has arranged an opportunity for its students to spend the fall semester of their junior year at the Technical University of Budapest (TUB) in Budapest, Hungary. Courses at TUB are taught in English and receive prior approval for degree credit. Students studying in Budapest, therefore, will graduate on schedule at UNH. A general education course on the language, geography, and culture of Hungary, taken at TUB, is required. The foreign student office at TUB will appoint a Hungarian adviser for each student and will assist in obtaining housing either in dormitories, or in apartments. Further information is available from the college's student affairs office and the college's foreign exchange program coordinator, Professor Andrzej Rucinski.

Preparing for Teaching

Students interested in mathematics education (elementary, middle/junior high, or secondary), chemistry and physics teaching, earth science teaching, or general science teaching should refer to the Department of Education section (page 28) and to the appropriate department for a description of the requirements.

Combined Programs of Study

In addition to pursuing a single major, students may combine programs of study as follows:

Minors: See page 16; see also pages 19 and 59 and Departmental Programs of Study in this section.

Second Majors: See page 16.

Interdisciplinary Majors: Many of the departments in the college offer ways of combining a major with another field of interest. See the descriptions that follow.

Dual-Degree Programs: See page 16.

Student-Designed Majors: See page 91.

Other combined and interdisciplinary opportunities: See page 88.

Programs of Study

In addition to the following departmental majors and options, departmental minors are offered in chemical engineering, chemistry, electrical engineering, geology, hydrology, mathematics, applied mathematics, mechanical engineering, physics, and statistics.

Chemical Engineering

(For descriptions of courses, see page 117.) Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material.

The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the economic development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the areas of energy engineering, pollution abatement, and biochemical and biomedical engineering; in addition, they are employed by many government laboratories and agencies as well as private industries and institutions.

The curriculum trains students to enter the diverse areas of employment or graduate study. The considerable number of electives in the curriculum provides flexibility for individuals to design programs that fulfill their needs and interests. They also provide an opportunity for students to elect departmental options or interdisciplinary minors.

A minimum of 129 credits is required

for graduation with the degree of bachelor of science in chemical engineering. There are nine electives in the chemical engineering curriculum. Six of these are for the general education requirements. The remaining three electives should consist of two chemical engineering electives and one engineering elective outside of the department. In fulfilling general education requirements, no technology courses in Group 3 will be accepted.

Students are required to obtain a minimum 2.00 grade-point average in CHE 501-502 and in overall standing at the end of the sophomore year in order to continue in the major.

* See page 58 for degree requirements.

Energy Option

This option covers the major areas of current interest in the energy field. The required courses provide students with a general background knowledge of fossil fuels, nuclear power, solar energy, and other alternative energy resources. The elective courses will permit the student to study topics of special interest in more depth or gain a broader perspective on energy and some closely related subjects. Three courses are required, and a minimum of two additional courses of at least 3 credits each should be selected from the electives list. Students interested in the energy option should declare their intention during the sophomore year to the department faculty. They may consult with Stephen S. T. Fan.

Required Courses	Credits
CHE 705, Natural and Synthetic Fossil Fuels	4
CHE 712, Introduction to Nuclear Engineering	4
ME 710, Solar Heating Systems	3
	11

Elective Courses

CHE 695, Chemical Engineering Project	3-4
CHE 696, Independent Study	3-4
CHE 772, Physicochemical Processes for Water and Air Quality Control	4
ME 705, Thermal System Analysis and Design	3
	6-8

Environmental Engineering Option

The chemical engineering program, with its substantial requirements in chemistry, fluid dynamics, heat transfer, mass transfer, unit operations, and reaction

kinetics, provides students with a unique preparation to deal with many aspects of environmental pollution problems. The option gives students a special focus on the application of chemical engineering principles and processes to the solution of problems relating to air pollution, water pollution, and the disposal of solid and hazardous waste. Three required courses must be selected, plus two electives from the electives list. Each course must carry a minimum of 3 credits. Students interested in the environmental engineering option should declare their intention during the sophomore year to the department faculty. They may consult with Stephen S. T. Fan.

Required Courses	Credits
CHE 709, Fundamentals of Air Pollution and Its Control	4
CHE 772, Physicochemical Processes for Water and Air Quality Control	4
CIE 748, Solid Waste and Residuals Management	3
	11

Elective Courses

CHE 695, Chemical Engineering Project	3-4
CHE 696, Independent Study	3-4
CIE 746, Biological Treatment Design	3
CIE 749, Water Chemistry	4
	6-8

Chemistry

(For descriptions of courses, see page 118.) "Chemistry is everywhere. From agriculture to health care, chemistry extends life and improves its quality. From disposable diapers to space suits, chemistry provides new materials—for clothing, shelter, and recreation. From computer chips to fiber optics, chemistry is the foundation of today's high technology" (American Chemical Society, 1987).

Study in chemistry leads everywhere—to careers in education, law, forensics, medicine, biotechnology, environmental protection, technical sales, semiconductors, and industrial chemicals production.

Students interested in chemistry may major in one of four programs offered in the department, depending upon their plans for a career. Since the required chemistry courses in each degree

program are the same in the first year, it is easy to change from one program to another.

In each of the programs, students should register for the following courses in the first year: CHEM 405 (first semester), General Chemistry; CHEM 406 (second semester), Quantitative Analysis; MATH 425 (first semester), Calculus I; and MATH 426 (second semester), Calculus II. Students interested in a chemistry program may consult with the coordinator of undergraduate studies in the department.

Bachelor of Science in Chemistry

This curriculum prepares students for careers requiring a thorough knowledge of chemistry and provides a strong foundation for graduate study in chemistry or in interdisciplinary areas. The curriculum requires a greater depth in chemistry and physics than do the other degree programs.

Requirements

1. Satisfy general education requirements.
2. For specific course requirements, see the accompanying chart.

Bachelor of Arts, Chemistry Major

This curriculum offers students the opportunity to combine a chemistry major with other interests, for example, the prehealing arts, education, or business.

Requirements

1. Satisfy general education requirements.
2. Satisfy the bachelor of arts degree requirements (see page 15).
3. For specific course requirements, see the accompanying chart.

Chemistry Baccalaureate Degree Requirements

Chemistry Courses

	B.S.	B.A.
405*, General	x	x
406 & 407, Quant. Analysis	x	x
547 & 549, Organic I	x	x
548 & 550, Organic II	x	x
574, Intro. Inorganic	x	x
683 & 685, Physical I	x	x
684 & 686, Physical II	x	x
762 & 763, Instrum. Analysis	x	x
698, Seminar	x	
699, Theses	x

774 & 775, Adv. Inorganic	x
776, Physical III	x
708, Spectroscopic Invest.	
778, Large Molecules	

Other Requirements

All majors: MATH 425 and 426, Calculus I and II.

B.S. degree; PHYS 407-408, General Physics I and II; CS 410C or 410F, Introduction to Scientific Programming; two chemistry-related courses (only one of which may be a chemistry course).†

B.A. degree, chemistry major; PHYS 407, General Physics I, or PHYS 401-402, Introduction to Physics I and II; two other CHEM courses, except 698, or two approved chemistry-related courses.†

*CHEM 403-404 may be substituted for CHEM 405, but this is not recommended.

†Suggested courses: MATH 527, 528; PHYS 505; EE 620; BCHM 658, 751.

Bachelor of Arts, Chemistry and Physics Teaching

This major is designed for students who wish to teach chemistry and physics in secondary schools. The number of positions available for teaching only chemistry or physics is limited, and there are more opportunities to teach both subjects on the secondary-school level. Chemistry and physics teaching majors will have good preparation for teaching these subjects and will have the necessary mathematics and education background.

Requirements

1. Satisfy general education requirements.
2. Satisfy the bachelor of arts degree requirements (see page 15).
3. Chemistry requirements: 405, General Chemistry, or 403-404, General Chemistry; 406, 407, Quantitative Analysis; 545, 546 or 547-548 and 549-550, Organic Chemistry; 683-684 and 685-686, Physical Chemistry I and II.
4. Physics requirements: 407, General Physics I; 408, General Physics II; 505, General Physics III; 605, Experimental Physics I. PHYS 406, Introduction to Modern Astronomy, is strongly recommended.
5. Math requirements: 425, Calculus I, and 426, Calculus II.
6. All education courses in the teacher preparation program (see page 28).

Environmental Option

This option incorporates studies of environmental issues involving chemistry into the B.S. and B.A. chemistry major pro-

grams. The required seminar course will expose students to a wide variety of contemporary environmental issues, and required laboratory research will emphasize some of the experiments required to solve environmental problems. The student, in consultation with the environmental coordinator, will choose as electives four of a selection of nonchemistry courses that contain applications of chemistry to areas of environmental concern.

Required Courses	Credits
CHEM 520, Seminar in Environmental Chemistry	2
CHEM 696, Independent Study or CHEM 699, Thesis	4 or 8
	8
	14 or 18

Elective Courses

Coherent program of 4 courses with environmental content chosen from the environmental coordinator's list

12-16

General Science Certification

See pages 28 and 45.

Civil Engineering

(For descriptions of courses, see page 119.)

Civil engineers plan, design, and direct the construction of public and private facilities that are essential to modern life and vary widely in their nature, size, scope, operation, use, and location. For example, civil engineers design and build: tunnels, bridges, dams, roads, airports, transit systems, facilities for treatment and distribution of drinking water, solid waste management facilities, wastewater collection and treatment facilities, and hazardous waste remediation systems. These facilities must provide safe and efficient service to the users, be cost-effective, and be compatible with the environment.

The program leads to a bachelor of science degree in civil engineering. Its strong analytical basis prepares graduates for many career opportunities, typically in public, private, or university career paths. Some graduates of the program pursue future education and careers in medicine, law, and business.

Students must enter the program with an open and creative mind. Analytical rigor is obvious, but imagination, creativity, and communication skills are just as important in resolving the many problems presented to civil engineers.

The Department of Civil Engineering (CIE) excels in environmental engineering, geotechnical engineering, materials engineering, and structural design. Involvement with the Hydrology Program also provides for strength in water resources engineering. A student may design a program which covers a broad range of civil engineering topics, or may focus on a particular area. For example, students may elect: up to 37 credits in environmental engineering, up to 26 credits in structural design, up to 9 credits in materials engineering, up to 9 credits in geotechnical engineering, or up to 16 credits in water resources engineering.

Environmental engineering is a cornerstone of the department. The department is home to the Environmental Research Group whose faculty and students have been nationally and internationally recognized for their work in the areas of solid waste management, drinking water treatment, remediation of hazardous waste contamination, and groundwater monitoring, evaluation, and remediation.

The importance of planning, design, and construction of facilities is stressed from the first semester on. Students in CIE 400 are introduced to a project, and use that project for examples, theory, and problems in all subsequent civil engineering courses during their tenure. The project currently being used by the department for this integrated curriculum approach is the Deer Island Wastewater Treatment Plant. The plant will treat one billion gallons per day of wastewater generated in the Boston area. This \$6.1 billion project has used many innovations in geotechnical, structural, and environmental engineering design and construction management. Several graduates of the UNH program work on the Deer Island project in its planning, design, and construction. Therefore, current students have many opportunities to visit and tour the site, and engineers from the project come into their classes to discuss the project with them.

The following schedule is the planned program for civil engineering students. This schedule subscribes to the rigorous guidelines of the Accreditation Board for Engineering and Technology (ABET). The department has been continuously accredited by ABET since the early part of this century. The program also provides the flexibility for majors to elect roughly one third of the total credits required for graduation.

	Fall	Spring

* See page 14 for general education requirements.

** Approved list available in CIE office.

*** A minimum of one approved design course is required. These courses can be taken, if desired, in a specific discipline within civil engineering, e.g., environmental, structural, water resources, or geotechnical engineering.

The general education, engineering science, professional development, and mathematics electives are chosen to meet requirements of the university, the Department of Civil Engineering, and the national accreditation board, ABET. The engineering science elective is a course taken from a department other than civil engineering. Students must have the proper prerequisites to select this course. Complete and current lists of the engineering science, mathematics, and professional development electives are available from the civil engineering department. General education requirements are listed on page 14.

ABET requires that civil engineers have both depth and breadth in their general education. The College of Engineering and Physical Sciences has designed various two-course sequences to satisfy both the university's general education and the ABET sequence requirements. The current list of these courses appears on page 58 of this catalog. There are other course sequences that also satisfy this ABET requirement, but the student is required to submit a petition for variance which must be approved before other sequences are accepted.

In order to enter the required 600-level CIE courses (junior year), a CIE major must have completed the mechanics sequence (CIE 528 and CIE 529) with a minimum of a 2.00 grade-point average. Alternatively, students passing both courses but with less than a 2.00 grade-point average may take a comprehensive examination. In addition, the student must have taken and received a passing grade in CIE 530. Exceptions to these requirements are granted only under extremely unusual circumstances and require the department's approval of a written petition.

All CIE 600- and 700-level courses are intended for CIE majors only. Nonmajors may enter these courses only with the permission of the instructor. Nonmajors are limited to a maximum of 20 credits of 600- and 700-level CIE courses.

Transfers into the civil engineering department should have a minimum cumulative grade-point average of 2.30 and have taken at least 16 credits (four courses or more) of math, physics, chemistry, and civil engineering courses (MSE courses) with a minimum grade-point average of 2.00. In addition, 16 credits of these courses must exhibit a grade-point

average of 2.50. Transfer students into the department may transfer up to a maximum of 20 credits of CIE 600- or 700-level coursework. Grades in the transferred courses must be C- or better.

No CIE major may repeat more than two CIE courses. Any CIE major who receives lower than a 2.00 grade-point average for more than two consecutive semesters may not continue as a CIE major. Any CIE major who receives lower than a 2.00 cumulative grade-point average in CIE courses during any three semesters may not continue as a CIE major.

The CIE program requires a minimum of 133 total course credits for graduation. To qualify for graduation, a CIE major must: have satisfied the previously specified course requirements, have a minimum cumulative grade-point average of 2.00, and have a minimum CIE cumulative grade-point average of 2.00.

Computer Science

(For descriptions of courses, see page 125.) Computer scientists are concerned with all aspects of the design, implementation, and application of computers. They are concerned with problem solving in general, with particular emphasis on the design of computer-efficient solutions. This involves detailed understanding of the nature of algorithms, the software implementation techniques necessary to utilize these algorithms on computers, and a knowledge of how algorithms can be combined in a structured manner to form highly complex software systems.

The program leads to a B.S. in computer science and is designed to prepare students for employment in the computer field or to pursue graduate study in computer science. The program emphasizes the application of computer science theory and principles but also includes a broad background in basic mathematics and an introduction to computer hardware. Most courses require heavy use of the computer and the laboratories stress hands-on experience with computer equipment.

Computer science majors must obtain an overall grade-point average of 2.00 or better in all required computer science, mathematics, and electrical engineering courses in order to graduate. If at the end of any semester, including the first, a student's cumulative average in these courses falls below 2.00, the student may not be allowed to continue as a CS major.

Requirements

1. Satisfy general education requirements. PHYS 407-408, MATH 425, and PHIL 424 are required and may be used to fulfill requirements in the appropriate general education group. CS 401, 406, 410, and 412 may not be used to fulfill general education requirements.

2. One additional biological or physical science course.

3. Two additional approved courses chosen from the humanities, social sciences, and arts.

4. Ten core courses in each of which the student must obtain a grade of C- or better. Before taking a course having any of these ten courses as a prerequisite, the prerequisite course(s) must be passed with a grade of C- or better: CS 415 and 416, Introduction to Computer Science I and II; CS 515, Data Structures; CS 610, Operating System Fundamentals; CS 611, Assembly Language Programming and Machine Organization; CS 671, Programming Language Concepts and Features; MATH 425 and MATH 426, Calculus I and II; MATH 531, Mathematical Proof; MATH 532, Discrete Mathematics.

5. One computer science theory course chosen from: CS 658, Analysis of Algorithms, or CS 659, Introduction to the Theory of Computation.

6. Three approved computer science courses chosen from CS courses numbered above 650.

7. One approved course chosen from CS courses numbered above 650 or from the following list of mathematics courses: MATH 645, Linear Algebra for Applications; MATH 735, Probability (only if taken with MATH 736, Statistics); MATH 761, Abstract Algebra; MATH 776, Logic; MATH 783, Set Theory.

8. One course in probability and statistics chosen from: MATH 644, Probability and Statistics for Applications; or MATH 736, Statistics (with MATH 735, Probability, as prerequisite).

9. Two electrical engineering courses: EE 543, Introduction to Digital Systems, and EE 612, Computer Organization.

Earth Sciences

(For descriptions of courses, see page 128.) The courses offered in the Department of Earth Sciences cover the broad spectrum of earth sciences, with emphases on geology, hydrology, geochemistry, and oceanography. The curriculum encompasses a group of related studies concerned with an understanding of the Earth: its size, shape, and constitution; the processes that are now, or have formerly been, at work upon its surface, including tectonic cycles, ocean currents, the hydrologic cycle, energy flows, bio-

geochemical cycles, and climate changes; and the origin and evolution of life. Studies in these areas are based on a foundation of basic mathematics, physics, and chemistry.

The need for people trained in the earth sciences has been increasing in response to society's growing concern with sound environmental and resource management, including the disposal of waste on land and in the atmosphere and oceans; the management of water resources; the development of energy and mineral resources; and the assessment of environmental hazards. In addition, the demand for well-trained secondary school teachers of earth sciences has been steadily increasing.

Four undergraduate degree programs are offered through the Department of Earth Sciences. These programs prepare students for advanced study in the geosciences; for entry-level professional employment in public or private institutions concerned with environmental and resource management, including consulting firms, government agencies, energy- and resource-extraction firms, utilities, and nonprofit organizations; and for secondary-school teaching of earth sciences.

Bachelor of Science in Geology

This program represents a strong concentration in the earth sciences and is especially well suited for students who plan to continue their studies in graduate school. Beyond a central core of courses, there is sufficient flexibility in course selection so that students may, in consultation with their academic advisers, orient the program toward a particular facet of the earth sciences (e.g., mineralogy-petrology, oceanography, hydrogeology, geophysics-structural geology, geomorphology-glacial geology, geochemistry, paleontology-stratigraphy). Students are encouraged to attend an off-campus field camp, for which scholarship funds may be available.

Requirements

1. Satisfy the general education requirements.

2. Satisfactorily complete MATH 425 and 426, CHEM 403-404 (or CHEM 405), and PHYS 407-408 and 505. Some of these courses may also satisfy Group 2 and part of Group 3 of the general education requirements.

3. Complete a minimum of twelve courses in earth sciences, which should include ESCI 401, Principles of Geology I, or ESCI 409, En-

Environmental Geology; ESCI 402, Principles of Geology II; ESCI 501, Introduction to Oceanography; ESCI 512, Principles of Mineralogy; ESCI 614, Optical Mineralogy and Petrography; ESCI 530, Field Methods; ESCI 631, Structural Geology; ESCI 561, Surficial Processes; ESCI 652, Paleontology and Biostratigraphy; and three approved earth sciences 700-level electives.

4. Complete four approved electives. The following should be considered: one additional 700-level course in the earth sciences; additional courses in mathematics, chemistry, and physics; as well as courses in computer science, engineering, and the biological sciences; and an off-campus field camp.

Bachelor of Science in Hydrology

The hydrology major provides a sound foundation for understanding and managing fresh-water resources. It prepares students for entry-level professional employment in firms and agencies and for graduate study.

The hydrology major is an interdisciplinary major offered by the departments of earth sciences and civil engineering. Each hydrology major is assigned to an adviser, who helps with course selection and provides general guidance.

University General Education Requirements:

Students are required to complete the university general education requirements. Completion of the hydrology core curriculum automatically satisfies the requirement for one course in quantitative reasoning (Group 2) and two physical science courses in Group 3. To complete the requirements in Group 3, hydrology majors must take one of the following biological science courses: PBIO 412, PBIO 421, ENTO 402, WILD 433, or ZOO 412.

Core Courses

MATH 425, 426, 527; MATH 644 or BIOL 528; PHYS 407-408; CIE 642; CHEM 403-404 (or CHEM 405); CS 410C or F; ESCI 401 or 409, 512, 530, 561; CIE 642; ESCI 703 or CIE 741; ESCI 705, 710; two of the following: CIE 743, 745, or ESCI 747.

Major Electives

Three approved electives are to be selected with the guidance of the adviser. Qualifying courses may be selected from a list of hydrogeology, biohydrology, water quality, fluid flow, water resources management, and weather and climate courses offered in various departments in the university.

For a list of the elective courses and for further information about the hydrology major, contact the coordinator, S. Lawrence Dingman, Department of Earth Sciences.

Bachelor of Arts, Earth Sciences Major

This program offers students an opportunity to obtain a broad liberal education and a general background in earth sciences with a greater degree of freedom in choosing electives than in the bachelor of science program. By a careful choice of electives, students can prepare for graduate school, business, or industry.

Requirements

1. Satisfy the general education requirements.
2. Satisfy the bachelor of arts degree requirements (page 15).
3. Complete a minimum of eight courses in the department (with a C- or better), including ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; ESCI 402, Principles of Geology II; ESCI 512, Principles of Mineralogy; and five upper-level earth sciences courses, two of which must be 700 or above.
4. Math requirements: 425, Calculus I, and 426, Calculus II.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

Bachelor of Arts, Earth Science Teaching Major

This program is specifically designed to prepare students to teach earth sciences in secondary school. Upon graduation from this program, students receive full teacher certification which is recognized in most states.

Requirements

1. Satisfy the general education requirements.
2. Satisfy the bachelor of arts degree requirements (page 15).
3. Complete the following: ESCI 401, Principles of Geology I, or ESCI 409, Environmental Geology; ESCI 402, Principles of Geology II; ESCI 501, Introduction to Oceanography; GEOG 473, The Weather; CHEM 403-404, General Chemistry; PHYS 401-402, Introduction to Physics I and II; PHYS 406, Introduction to Modern Astronomy; plus 12 approved elective credits from intermediate and/or advanced earth sciences courses.
4. Math requirements: 425, Calculus I, and 426, Calculus II.
5. Satisfy the secondary-school teacher education program. (See page 28.)

General Science Certification

See pages 28 and 45.

Electrical Engineering

(For descriptions of courses, see page 133.) The Department of Electrical and Computer Engineering offers an accredited program in electrical engineering. Within this program, students may choose options in computer engineering, electrical engineering systems, or pursue the student-designed option.

Electrical engineers are concerned with the design, development, and production of products and systems that involve electrical signals. Thus, broad areas of applications are covered, such as monitoring the environment, outer space and the ocean floor, developing robots for factories and biomedical instruments for hospitals, and building microcomputers and power systems. They use such principles and techniques as computer-aided design, optics, acoustics, electronics, automatic control theory, and electromagnetics. Further, it is essential for electrical and computer engineers to include a variety of realistic constraints, such as economic factors, safety, reliability, aesthetics, ethics, social implications, and environmental impact.

The electrical engineering curriculum prepares students for productive employment as electrical engineers, and for graduate work in electrical engineering and related areas. It is compatible with the dual-degree program described on page 84.

At UNH, the cornerstone of the electrical engineering program is the involvement of students in the solution of real-world problems. During the freshman and sophomore years, students take basic courses in mathematics and science, learn how to use the computer, and receive introductory experience in electric circuits, logic design, and electronics. In the junior and senior years, students learn more about the techniques necessary for the analysis and design of electrically based systems.

In addition to general university requirements, the department has a number of grade-point average and credit requirements:

1. For an electrical engineering major to enter the junior year and take any of the first-term junior courses (EE 617, 645, 651, or 612), he or she must have taken, and achieved a cumulative grade-point average of 2.10, in all of the following freshman and sophomore courses: MATH 425, 426, 527; PHYS 407, 408; and EE 541, 543, 544, and 548.

2. Any electrical engineering major whose cumulative grade-point average in EE courses is less than 2.00 during any three semesters will not be allowed to continue as an electrical engineering major.

3. Electrical engineering majors must achieve a 2.00 grade-point average in EE courses as a requirement for graduation.

To make an exception to any of these departmental requirements based on extenuating circumstances, students must petition the department's undergraduate committee. Students should also be aware of the CEPS requirement for a two-course sequence in their general education requirements in order to provide depth. Mindful of these rules, students, with their advisers' assistance, should plan their programs based on the distribution of courses in the chart below for a total of at least 128 credits.

Basic Curriculum for B.S. in Electrical Engineering

(First two years are common to all options)

Freshman Year	Fall	Spring
Core Courses		
CHEM 405, General Chemistry*	4	—
MATH 425, 426, Calculus I and II	4	4
PHYS 407, 408, General Physics I and II	4	4
Elective, writing skills	—	4
CS 410C, Introduction to Scientific Programming	—	4
Elective, general education requirement***	4	—
Total	16	16

Sophomore Year Core Courses

MATH 527, Differential Equations with Linear Algebra	4	—
EE 541, Electrical Circuits	4	—
EE 543, Introduction to Digital Systems	4	—
EE 544, Engineering Analysis	—	3
EE 548, Circuits and Electronics	—	4
ME 523, Introduction to Statics and Dynamics	—	3
Elective, math-science elective**	—	3 or 4
Electives (2), general education requirements	4	4
Total	16	17 or 18

Junior Year Core Courses

EE 617, Junior Laboratory I	2	—
EE 618, Junior Laboratory II	—	2

EE 612, Computer Organization	4	—
EE 645, Electrical Networks	3	—
EE 651, Advanced Electronics I	3	—
EE 603, Electromagnetic Fields and Waves	—	3
EE 647, Random Processes in Electrical Engineering	—	2
EE 657, Electromechanical Energy Conversion	—	2
EE 690, 691, Engineering Design Principles I and II	.5	.5
Elective, math-science elective**	3 or 4	—
Elective, general education requirement	—	4
Subtotal	15.5 or 16.5	13.5

Computer Engineering Option

CS 610, Operating System Fundamentals	—	4
Total	15.5 or 16.5	17.5

Electrical Engineering Systems Option

EE 652, Advanced Electronics II	—	4
Total	15.5 or 16.5	17.5

Senior Year Core Courses

EE 771, Linear Systems and Control	3	—
EE 790, Engineering Design Experience	—	0
Electives (3), 2 general education and 1 free elective	4	8
Subtotal	7	8

Computer Engineering Option

EE 711, Digital Systems	4	—
EE 714, Real-Time Computer Applications	—	4
EE 757 or 772, Communication or Control Systems	4	or 4
Elective, approved professional elective	4	or 4
Total	15	16

Electrical Engineering Systems Option

EE 757, Fundamentals of Communication Systems	4	—
EE 772, Control Systems	—	4
Electives (2) approved professional electives	4	4
Total	15	16

*CHEM 403-404 may be required for students whose preparation in chemistry is inadequate.

**Math-science electives are courses chosen from the following list: MATH 645, 646, 647, ME 503, 762, PHYS 505, 508.

***See page 58 for requirements.

Options and Minors

In the junior year, students complete the core courses and begin studying in a chosen option. Students must choose one of the three options and additionally may elect one of the various minors (see page 59). The options, described in the following paragraphs, provide for professional electives so that students may pursue their individual interests. In addition, the senior year features many opportunities for individual or group projects. Each option is made up of five courses and builds upon the background acquired in the core curriculum.

Computer Engineering Option

During the past several years, advances in the technology of electronic circuit manufacturing have vastly reduced the costs of digital computers. This low cost, coupled with flexibility, has allowed them to be used in a broad variety of applications, from data processing in a small retail store to controlling a robot in a manufacturing plant. Since computers are basically electronic devices, it is primarily the job of electrical engineers to design or specify the purchase of the computer and integrate it into larger systems. To do so requires a knowledge of both hardware (circuits) and software (programming) concepts. In this option, students will learn to design, build, and test systems involving digital computers.

The following are required courses: EE 711, 714; CS 610. As electives, students take EE 757 or 772 and one approved professional elective chosen in consultation with the adviser to meet students' professional objectives.

Electrical Engineering Systems Option

The electrical engineering systems option provides students with a background in electrical systems, including communication and control. An effort is made to balance the theory and the applications so that students will appreciate both system development and system implementation. In addition to the required courses, there are two additional professional elective courses that allow students to delve further into areas of interest.

Required courses include EE 652, 757, and 772. For professional electives, students choose two courses in consultation with the adviser.

Student-Designed Option

This option is for the unusual student whose grade-point average is at least 2.70 and who has well-defined academic goals that cannot be satisfied by either of the regular options. The student and adviser prepare an option proposal that includes a statement of the student's goals and a listing of the option courses that will be taken. The option must include at least one EE course with an engineering design content of fifty percent or greater. Each student's proposal requires approval by the department's undergraduate committee.

Engineering Technology

(For descriptions of courses, see page 134.) Engineering technology requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Normally engineering technology is not concerned with the development of new principles and methods. The engineering technology program offers only junior- and senior-level work. Students admitted to this program must have an appropriate associate's degree from the New Hampshire Technical Institute, the Vermont Technical College, Keene State College, or an equivalent T.A.C.-A.B.E.T.-accredited institution or evidence of ability to successfully complete the requirements of the program. Curricula in electrical engineering technology and mechanical engineering technology are offered. Students may continue study in their fields of specialization, select electives that broaden their educational backgrounds, and participate in project courses where, as part of a technology team, their talents are applied in solving real problems.

Students interested in an engineering technology program may consult with the program chairperson, Ralph W. Draper, 138 Parsons Hall, (603) 862-1827.

Electrical Engineering Technology

Junior Year	Fall	Spring
ET 671, Digital Systems	—	4

CS 671, Programming Language Concepts and Features	4
CS 727, Computer Communications Software Design	4
CS 730, Introduction to Artificial Intelligence	4
CS 770, Computer Graphics	4

All students entering the electrical engineering technology program should have a minimum of 12 credits of college-level mathematics, including two semesters of calculus. Students without this background will be required to take either MATH 426, 527, or 644 during the first semester of their junior year. The student's adviser will determine which of these courses is most appropriate for the student's program. Electrical engineering technology students must also complete a minimum of 9 credits of coursework in communication skills. Computer science technical electives are contingent on space availability and the appropriate prerequisites being satisfied.

Mechanical Engineering Technology

Junior Year	Fall	Spring

ET 674, Control Systems and Components	—	4
Electives (3)	4	8
	15	19

All students entering the mechanical engineering technology program should have a minimum of 12 credits of college-level mathematics, including two semesters of calculus. Students without this background will be required to take either MATH 426, 527, or 644 during the first semester of their junior year. The student's adviser will determine which of these courses is most appropriate for the student's program.

All mechanical engineering technology students must satisfactorily complete CHEM 403 or offer evidence of equivalent coursework. Students in this program must also complete a minimum of 9 credits of courses in communication skills.

Mathematics

(For descriptions of courses, see page 161.) A variety of programs is offered by the Department of Mathematics. These programs provide flexibility through elective choices and are designed to maximize educational and employment opportunities.

Each student must enroll in one specific program; however, changes between programs can usually be accommodated.

The first two years of all programs are similar. In the first year, students are expected to take MATH 425 and 426 as well as an introductory computer science course (either CS 412, Introduction to Computer Programming with C++, or CS 415-416, Introduction to Computer Science I and II). In the sophomore year MATH 527, 528, and 531 keep a student on schedule in most programs. General education courses will normally be com-

pleted by the end of the sophomore year.

In addition to the degree programs, the department has an active interest in the actuarial profession and is an examination center for the Society of Actuaries. Recommended courses for those interested in actuarial science can be included in any of the degree programs.

Standards for Graduation

To qualify for graduation, departmental majors must complete all except two of the courses that are used to satisfy their major requirements with a grade of C- or better and attain an overall grade-point average of at least 2.00 in these courses.

Bachelor of Arts, Mathematics Major

This program offers a broader liberal arts education than the bachelor of science programs. By a careful selection of electives, students can shape this major into a preparation for graduate school, business, or industry.

Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

Foreign language requirement as defined by the university for the B.A. degree.

Required MATH/CS courses

- CS 412, Introduction to Computer Programming with C++
- MATH 425-426, Calculus I and II
- MATH 527, Differential Equations with Linear Algebra
- MATH 528, Multidimensional Calculus
- MATH 531, Mathematical Proof
- MATH 639, Introduction to Statistical Analysis
- MATH 761, Abstract Algebra
- MATH 762, Linear Algebra
- MATH 767, One-Dimensional Real Analysis
- Two approved MATH or CS electives

Bachelor of Science in Mathematics

This program offers the strongest concentration in mathematics, requiring courses that are intended to prepare the student for graduate work in mathematics. Through a judicious choice of electives, students may design a stronger pregraduate program or slant the program toward a career in business or industry.

Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

Foreign language requirement as defined by the university for the B.A. degree in

Russian, German, or French.
Other required courses
PHYS 407-408, General Physics I and II (satisfies two of the three courses for general education in Group 3, biological science, physical science, and technology)

Required MATH/CS courses

- CS 412, Introduction to Computer Programming with C++
- MATH 425-426, Calculus I and II
- MATH 527, Differential Equations with Linear Algebra
- MATH 528, Multidimensional Calculus
- MATH 531, Mathematical Proof
- MATH 639, Introduction to Statistical Analysis
- MATH 761, Abstract Algebra
- MATH 762, Linear Algebra
- MATH 767, One-Dimensional Real Analysis
- MATH 784, Topology
- MATH 788, Complex Analysis
- One approved MATH elective
- One approved MATH or CS elective

Bachelor of Science in Mathematics Education

This professional degree program prepares students for mathematics teaching at the elementary, middle/junior high, or secondary level. The program is coordinated with the education department's teacher certification programs. Students may complete the degree requirements for middle/junior high or secondary option with full teacher certification in either four or five years. For the elementary option, full certification requires the five-year program. Students electing the four-year option must plan for one semester of student teaching (EDUC 694) in their senior year and should consult with the mathematics department program adviser concerning the schedule of mathematics courses. The five-year program involves a required yearlong teaching internship in the fifth year. (The internship can be coupled with other graduate work leading to a master's degree.) See Education, page 28.

Elementary Option Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

- Required mathematics courses*
MATH 419, Evolution of Mathematics
MATH 425-426, Calculus I and II

- MATH 531, Mathematical Proof
- MATH 621, Number Systems for Teachers
- MATH 622, Geometry for Teachers
- MATH 623, Topics in Mathematics for Teachers
- MATH 639, Introduction to Statistical Analysis
- MATH 645, Linear Algebra for Applications
- MATH 657, Geometry
- MATH 703, The Teaching of Mathematics, K-6
- MATH 791, The Teaching of Mathematics, 7-12
- One approved MATH elective.

Other required courses

- CS 412, Introduction to Computer Programming with C++
- PHYS 406, Introduction to Modern Astronomy (satisfies one of three courses for general education in Group 3, biological science, physical science, and technology)
- EDUC 500, Exploring Teaching
- EDUC 700, Educational Structure and Change
- EDUC 701, Human Development and Learning: Education Psychology
- EDUC 705, Alternative Perspectives on the Nature of Education
- EDUC 706, Introduction to Reading Instruction in the Elementary Schools

Middle/Junior High School Option Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

Required mathematics courses

- MATH 419, Evolution of Mathematics
- MATH 425-426, Calculus I and II
- MATH 531, Mathematical Proof
- MATH 621, Number Systems for Teachers
- MATH 622, Geometry for Teachers
- MATH 639, Introduction to Statistical Analysis
- MATH 645, Linear Algebra for Applications
- MATH 657, Geometry
- MATH 698, Senior Seminar
- MATH 761, Abstract Algebra
- MATH 791, The Teaching of Mathematics, 7-12
- One approved MATH elective.

Other required courses

- CS 412, Introduction to Computer Programming with C++
- EDUC 500, Exploring Teaching
- EDUC 700, Educational Structure and Change
- EDUC 701, Human Development and Learning: Educational Psychology
- EDUC 705, Alternative Perspectives on the Nature of Education

*CS 401, 406, and 505 may not be taken for credit in any program in mathematics.

Secondary Option Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

Required mathematics courses

MATH 425-426, Calculus I and II
MATH 527, Differential Equations with Linear Algebra
MATH 528, Multidimensional Calculus
MATH 531, Mathematical Proof
MATH 639, Introduction to Statistical Analysis
MATH 645, Linear Algebra for Applications
MATH 657, Geometry
MATH 698, Senior Seminar
MATH 761, Abstract Algebra
MATH 791, The Teaching of Mathematics, 7-12
Two approved MATH electives.

Other required courses

CS 412, Introduction to Computer Programming with C++
EDUC 500, Exploring Teaching
EDUC 700, Educational Structure and Change
EDUC 701, Human Development and Learning: Educational Psychology
EDUC 705, Alternative Perspectives on the Nature of Education

Bachelor of Science: Interdisciplinary Programs in Mathematics and Its Applications

The interdisciplinary programs in mathematics prepare students for employment in areas of applied mathematics. Some of them can lead to graduate work in appropriate fields (e.g., physics, computer science, economics). The major may consist of mathematics combined with chemistry, computer science, economics, electrical science, fluid dynamics, mechanics, physics, statistics, or thermodynamics.

Each interdisciplinary major consists of ten mathematics courses plus at least six courses in the discipline of the option. Specific requirements follow.

Requirements

General education requirements (MATH 425 satisfies the requirement in Group 2, quantitative reasoning.)*

Required courses in all options

MATH 425-426, Calculus I and II
MATH 527, Differential Equations with Linear Algebra
MATH 528, Multidimensional Calculus
MATH 531, Mathematical Proof
MATH 639, Introduction to Statistical Analysis

MATH 645, Linear Algebra for Applications
CS 412, Introduction to Computer Programming with C++
(or CS 410, Introduction to Scientific Programming, or CS 416, Introduction to Computer Science II)

Other required courses by option

Chemistry Option

MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing

CHEM 405, General Chemistry
CHEM 683 and 685, Physical Chemistry I and Laboratory
CHEM 684 and 686, Physical Chemistry II and Laboratory
CHEM 776, Physical Chemistry III
PHYS 701, Introduction to Quantum Mechanics I
CHEM 774, Inorganic Chemistry
One additional CHEM course chosen from approved electives

Computer Science Option:

MATH 532, Discrete Mathematics
MATH 754, Introduction to Scientific Computing
One additional MATH course chosen from approved electives

CS 415-416, Introduction to Computer Science I and II

CS 515, Data Structures and Algorithms
EE 543, Introduction to Digital Systems
CS 610, Operating System Fundamentals
CS 611, Assembly Language Programming and Machine Organization
CS 658, Analysis of Algorithms, or CS 659, Introduction to the Theory of Computation
One additional CS course chosen from approved electives

Economics Option:

MATH 739, Regression Analysis
One MATH course chosen from: MATH 740, 741, 742, 755
One additional MATH course chosen from approved electives

ECON 401, Principles of Economics (Macro)
ECON 402, Principles of Economics (Micro)
ECON 605, Intermediate Microeconomic Analysis
ECON 611, Intermediate Macroeconomic Analysis
DS 632, Operations Research
One additional ECON or DS course chosen from approved electives

Electrical Science Option

MATH 646, Analysis for Applications

MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing

EE 541, Electrical Circuits
EE 548, Circuits and Electronics
EE 603, Electromagnetic Fields and Waves I
EE 645, Electrical Networks
EE 757, Fundamentals of Communication Systems
EE 771, Linear Systems and Control

Fluid Dynamics Option

MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing

ME 503, Thermodynamics
ME 525, Mechanics I
ME 608, Fluid Dynamics
ME 707, Analytical Fluid Dynamics
ME 708, Gas Dynamics

Mechanics Option

MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing
ME 503, Thermodynamics
ME 525, 526, 627, Mechanics I-III
Two additional ME courses chosen from approved electives

Physics Option

MATH 646, Analysis for Applications
MATH 647, Complex Analysis for Applications
MATH 754, Introduction to Scientific Computing

PHYS 407, 408, 505, Physics I-III
Three additional PHYS courses, chosen from the following seven courses:
PHYS 508, Thermodynamics and Statistical Mechanics
PHYS 616, Physical Mechanics
PHYS 701, 702, Introduction to Quantum Mechanics I, II
PHYS 703, 704, Electricity and Magnetism I, II
PHYS 708, Optics

Statistics Option

MATH 739, Regression Analysis
MATH 755, Probability and Stochastic Processes
MATH 756, Principles of Statistical Inference
Two additional MATH courses chosen from MATH 740, Industrial Statistics and Design of Experiments
MATH 741, Biostatistical Methods
MATH 742, Multivariate Statistics and Modern Regression Analysis
Three additional MATH courses chosen from approved electives

Thermodynamics Option

MATH 646, Analysis for Applications
 MATH 647, Complex Analysis for Applications
 MATH 754, Introduction to Scientific Computing

ME 503, Thermodynamics
 ME 525, Mechanics I
 ME 608, Fluid Dynamics
 Two additional ME courses chosen from approved electives

Mechanical Engineering

(For descriptions of courses, see page 163.) Mechanical engineering is a challenging profession encompassing research, design, development, and production of aerospace vehicles, underwater vessels, instrumentation and control systems, nuclear and conventional power plants, and consumer and industrial products in general. The profession also makes contributions through more fundamental studies of material behavior, the mechanics of solids and fluids, and energy transformation.

The mechanical engineering program develops the student's creative potential to meet the increasingly complex needs of industry, government, and education while giving an appreciation of the role of technology in a modern society.

The curriculum prepares prospective graduates either for more advanced studies or for beginning professional engineering careers. It provides a foundation of knowledge in the basic physical sciences, mechanics of solids and fluids, dynamic systems, thermal sciences, materials science, and design. Students develop abilities in analysis, experimentation, and design. Elective courses allow students to gain additional competence in any of these specific areas. Other elective courses in the arts, humanities, and the social sciences are included to provide a liberal education.

Students, with their advisers' assistance, should plan a program based on the following distribution of courses that totals not less than 128 credits. The outline that follows is to be considered as being typical only in format. Within the constraints of satisfying all of the requirements and having all the necessary prerequisites, schedules may vary because of scheduling needs or student preference. Some mechanical engineering elective courses may not be offered every year.

The curriculum has thirteen elective courses. These should be selected in consultation with a departmental adviser to lead to a balanced program that addresses chosen areas of interest. Five of the elective courses are selected from groups four through eight of the university's general education requirements, with the Group 7 general education course being either ECON 402 or RECO 411. One of the elective courses must be selected from the biological science listing of Group 3 of the general education requirements. Seven technical elective courses of at least 3 credits each are required. Three of the seven technical electives must come from the prescribed lists: A. engineering practice; B. mathematics; C. advanced engineering topics. These lists are available in the mechanical engineering office. All students must take one course from each list. Two of the remaining four technical electives can be used for studying a focused area such as a foreign language, or a pre-professional program, with mechanical engineering department approval. Some programs may require additional elective courses to reach the minimum of 128 credits required for graduation. Other programs may exceed 128 credits to include all the required courses.

To enter the junior-year courses in the mechanical engineering major, students must have at least a 2.00 combined grade-point average for the following group of courses: PHYS 407-408, ME 503, ME 525, and ME 526.

In order to graduate in the mechanical engineering major, students must have at least a 2.00 grade-point average in all engineering and science courses, including required technical electives. The option of repeating required engineering, science, and technical elective courses normally taken after the start of the junior year may be exercised in only one of the following: (1) one course may be repeated twice; and (2) a maximum of two courses may be repeated once.

Freshman Year	Fall	Spring
ENGL 401, Freshman English	4	—
CHEM 405*, General Chemistry	4	or 4
MATH 425, 426, Calculus I and II	4	4
PHYS 407, General Physics I	—	4

General education electives (2)**	4	4
	17-18	15-18

*CHEM 403-404 may be required for students whose preparation in chemistry is inadequate.
 ** See page 58 for degree requirements.

Energy Option

Many mechanical engineering graduates traditionally pursue professional careers in areas that are related to energy generation, conversion, or use. Increased emphasis on energy conservation and the development of alternative energy sources has created challenging and rewarding opportunities for graduates having a strong interest and capability in these fields. The Department of Mechanical Engineering offers a formal energy option intended to

promote the development of well-planned student programs with special emphasis on courses applicable to career goals in energy-related industries. This program of four courses, open to mechanical engineering majors, emphasizes those subjects necessary for an understanding of the engineering aspects of energy systems and related problem areas. Students electing the energy option should do so during the first semester of the junior year and have their program approved by a department faculty member involved in the option. To have the energy option shown on transcripts, students should file appropriate forms with the dean's office during the first semester of the junior year.

Required Courses

ME 708, Gas Dynamics
ME 710, Solar Heating Systems
CHE 705, Natural and Synthetic Fossil Fuels
CHE 712, Introduction to Nuclear Engineering

Physics

(For descriptions of courses, see page 177.) Physics is concerned with the properties of matter and the laws that describe its behavior. It is an exact science based on precise measurement, and its objective is the kind of understanding that leads to the formulation of mathematical relationships between measured quantities. As a fundamental science, its discoveries and laws are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as medical instrumentation, solid state electronics, and space research have relied heavily on the application of basic physical laws and principles.

Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates have participated in research studies ranging from nuclear scattering experiments at major particle accelerators to astrophysical studies of the solar system using space probes. These experiences have proven beneficial to engineering and physics students alike. The department has its own library, which provides a comfortable, inviting atmosphere for study and relaxed reading.

The suggested programs that follow are indicative of the flexibility available to students, whether they are preparing for graduate work in physics, industrial

opportunities, governmental research, secondary-level teaching, or a general education that might utilize the fundamental knowledge of physics.

The following undergraduate degree programs are offered through the Department of Physics. Interested students may consult with the department chairperson.

Bachelor of Science in Physics

The bachelor of science degree in physics prepares students for professional work as physicists. The required courses in the standard options are those typically necessary for admission to graduate study in physics. The new interdisciplinary options require fewer physics courses combined with a concentration in another area (chemistry, biology, optics, environmental radiation, or materials science).

Requirements

1. Satisfy general education requirements.
2. Satisfy bachelor of science requirements (page 58).
3. One course in English is required in addition to the university requirement.
4. Minimum physics requirements: 407-408, 505, 508, 605, 615-616, 701, 702, 703, 704, 705; two courses selected from 707, 708, 710, 712, 718, 720.
5. Chemistry: 403-404 or 405.
6. Math: 425-426, 527, 528, 646 (optional); CS 410.
7. By the end of the spring semester of the sophomore year, a student must have a minimum grade of C in each 400- or 500-level course specifically required for the B.S. degree and an overall grade-point average of 2.33 in these courses in order to continue in the B.S. program.

Physics electives

Additional physics courses may be selected from the following: 791, Special Topics; 795, Independent Study.

Suggested Curriculum for B.S. in Physics

Freshman Year	Fall	Spring
PHYS 407-408, General Physics I and II	4	4
MATH 425, 426, Calculus I and II (Group 2)	4	4
CHEM 403-404, General Chemistry (Group 3)	4	4
ENGL 401, Freshman English	—	4
Elective (general education requirement)	4	—
	16	16

Sophomore Year

PHYS 505, General Physics III	4	—
-------------------------------	---	---

PHYS 508, Thermodynamics and Statistical Mechanics	—	4
PHYS 615, Introduction to Mathematical Physics	—	4
MATH 527-528, Differential Equations with Multidimensional Calculus	4	4
CS 410, Introduction to Scientific Programming	4	—
English (from Group 8)	—	4
Elective (general education requirement)	4	—
	16	16

Junior Year

PHYS 605, Experimental Physics I	5	—
PHYS 616, Physical Mechanics	3	—
PHYS 701, Introduction to Quantum Mechanics I	—	4
MATH 646, Analysis for Applications (optional)	—	4
PHYS 703, Electricity and Magnetism I	—	4
Electives (general education requirements)	8	4
	16	16

Senior Year

PHYS 702, Quantum Mechanics II	4	—
PHYS 704, Electricity and Magnetism II	4	—
PHYS 705, Experimental Physics III	4	—
Physics electives (must take two) (707, 708, 710, 712, 718, 720)	—	8
Elective (free)	4	8
	16	16

Biophysics Option, Bachelor of Science in Physics

1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement
4. Physics requirements: PHYS 407-408; 505, 615, 616, 701, 702 (or approved elective), 703, 704 (or approved elective), 795 (senior thesis)
5. Chemistry: CHEM 405, 545, 546, 683, 684
6. Biology: BIOL 411, 412
7. Biochemistry: BCHM 751, 752, 755
8. Mathematics: MATH 425, 426, 527, 528
9. Computer Science: CS 410

Biophysics Option, Bachelor of Arts in Physics

1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement

4. Physics requirements: PHYS 407-408, 505, 605, 615, 616, 701
5. Chemistry: CHEM 405, 545, 683, 684
6. Biology: BIOL 411, 412
7. Biochemistry: BCHM 751, 752, 755
8. Mathematics: MATH 425, 426, 527, 528
9. Computer Science: CS 410

Chemical Physics Option, Bachelor of Science in Physics

1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement
4. Physics requirements: PHYS 407-408, 505, 605, 615, 616, 701, 703, 705, 718 (optional), 795 (senior thesis)
5. Chemistry: CHEM 405, 406-407, 547, 548, 549, 574, 550, 683, 684, 685, 686, 762, 763, 776
6. Mathematics: MATH 425-426, 527, 528, 646
7. Computer Science: CS 410

Environmental Radiation Option, Bachelor of Science in Physics

1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement
4. Physics requirement: PHYS 407-408, 505, 508, 605, 615, 616, 701, 702, 703, 704, 705, 795 (senior thesis)
5. Chemistry: CHEM 405
6. Chemical engineering: CHE 709, 712
7. Mathematics: MATH 425, 426, 527, 528, 646
8. Computer science: CS 410
9. Biology: BIOL 411, 412, 605

Materials Science Option, Bachelor of Science in Physics

1. Satisfy general education requirements
2. Satisfy bachelor of science requirements
3. One course in English is required in addition to the university requirement
4. Physics requirements: PHYS 407-408, 505, 605, 615, 616, 701, 703, 705, 795 (senior thesis)
5. Chemistry: CHEM 405, 406, 407, 574
6. Mechanical engineering: ME 661, 730, 760, 761 or 731, 762
7. Computer science: CS 410
8. Mathematics: MATH 425, 426, 527, 528, 646
9. Chemical engineering: CHE 604, 605

Physics Major, Bachelor of Arts

This degree provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. A judicious choice of electives may also prepare students for interdisciplinary programs that require proficiency in a restricted area of physics.

Requirements

1. Satisfy general education requirements.
2. Satisfy bachelor of arts degree requirements (page 16).
3. PHYS 407-408, 505, 605, 615, 616, 701, 703, 705. Note that MATH 425, 426, and MATH 527, 528 are prerequisites for some of the courses. A total of 32 credits is required.

Chemistry and Physics Teaching, Bachelor of Arts

Bachelor of Arts

Social Work

The School of Health and Human Services, established in 1968, was created in response to the growing need for programs in higher education that prepare young men and women for health-related careers. The school offers undergraduate instruction leading to the bachelor of science degree in communication disorders, family studies, health management and policy, kinesiology, medical laboratory science, nursing, occupational therapy, and recreation management and policy. It also offers undergraduate instruction leading to a bachelor of arts degree in social work. Each program enables students to acquire the basic knowledge and skills needed to practice their chosen professions and to obtain a broad cultural background in the humanities and social sciences.

Degree Requirements

Candidates for the B.S. and B.A. degree must satisfy all general education requirements for graduation (page 14), earn at least 128 credits, successfully complete the courses required in one of the curricula described in this section, and achieve the required minimum grade-point average in the chosen curriculum. Candidates for the B.A. degree must satisfy a language requirement (page 15). Generally, courses are to be completed in the sequence in which they are arranged.

Minors: See page 16; see also page 19.
 Dual-Degree Programs: See page 16.
 Student-Designed Majors: See page 91.
 Second Majors: See page 16.

Undeclared Major

A limited number of well-qualified freshmen who have expressed an interest in a health-related career, but who are undecided about a specific major may enter the School of Health and Human Services as undeclared students. Undeclared students should explore possible majors by selecting courses from those listed below.

Required Courses

ENGL 401, Freshman English
 PSYC 401, Introduction to Psychology
 ZOO 507-508, Human Anatomy and Physiology

Recommended Courses

CHEM 403-404, General Chemistry
 COMM 520, Survey of Communication Disorders
 FS 525, Human Development
 HMP 401, U.S. Health Care Systems
 KIN 500, Historical and Contemporary Issues in Physical Education
 KIN 502, Basic Athletic Training
 MLS 401, Introduction to Medical Laboratory Science
 NUTR 400, Introduction to Nutrition
 NUTR 499, Introduction to Clinical Nutrition
 RMP 490, History and Philosophy of Leisure
 RMP 501, Recreation Services for Individuals with Disabilities
 SW 524, Introduction to Social Work

All SHHS undeclared students are advised by a professional academic counselor. Upon declaration of a specific major, each student is assigned to a faculty adviser within the major department.

Student Liability Insurance

All students whose programs require participation in clinical learning internships must purchase and maintain liability insurance for the entire clinical experience. The university has arranged for appropriate insurance coverage at a modest cost to students. Further information may be obtained at major department offices.

Programs of Study

Communication Disorders

(For descriptions of courses, see page 124.) Communication disorders is the profession devoted to helping people overcome disabilities of speech, language, or hearing. The study of communication disorders may begin in the freshman or sophomore year. Students learn about speech, language, and hearing disorders in the classroom and then become involved in clinical observation, in the on-campus clinic. Students are encouraged to take elective courses in linguistics, human development, learning theory, early childhood, health administration, special education, or various aspects of rehabilitation.

Students' professional education must be continued at colleges or universities offering graduate programs leading to a master's degree and to subsequent certification by the American Speech and Hearing Association. Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, or private practice.

The required courses in communication disorders, which all students in the program must successfully complete, are COMM 520, Survey of Communication Disorders; COMM 521, Anatomy and Physiology of the Speech and Hearing Mechanism; COMM 522, The Acquisition of Language; COMM 523, Clinic Observation; COMM 524, Applied Phonetics; COMM 630, Organic Pathologies; COMM 631, Articulation and Language Disorders in Children; COMM 634, Introduction to Clinical Procedures; COMM 704, Basic Audiology; COMM 705, Introduction to Auditory Perception and Aural Rehabilitation; and COMM 777, Speech and Hearing Science. Students must also complete a course in statistics. Other elective courses are available. Students must have a G.P.A. of 2.75 at the end of their sophomore year to continue in the major.

Students interested in this program should consult with the chairperson, Frederick C. Lewis.

Family Studies

(For descriptions of courses, see page 140.) The Department of Family Studies offers specialized programs of study for stu-

dents desiring professional careers emphasizing family advocacy. Students may choose from three program concentrations. Each concentration has entry-level criteria and unique course requirements. All require close consultation with a faculty adviser.

The child studies concentration is highly structured and has limited enrollment. Acceptance to this program and to the family internship is restricted to students demonstrating exceptional potential for working with children and families.

Core Courses

Core courses required of each family studies major are FS 525, Human Development; FS 555, Management and Decision Making; and FS 645, Family Relations. For the academic years 1994-1995 and 1995-1996, an alternate family studies course may be selected upon consultation with a departmental adviser for FS 555.

A minimum of two 700-level courses in the student's concentration is required.

Twenty credits of supporting coursework are selected in consultation with the adviser. These courses must be 500 level or above and must include at least 12 credits in courses outside the department.

Child Studies

Young Child Students desiring a background in child development, for preparation for careers in early childhood settings, enroll in 24 credits of concentration courses from the following: FS 623, Developmental Perspectives on Infancy and Early Childhood; FS 635, Learning in Child Development Settings; FS 708 or 709, Child and Family Center Internship or Child Study and Development Center Internship; FS 733, Supervising Programs for Young Children; FS 734, Curriculum for Young Children; and FS 743, Parents, Children, and Professionals.

Nursery-Kindergarten Certification This certification has been approved by the New Hampshire State Board of Education to prepare students for certification as nursery-kindergarten teachers. Students must apply to the department for this competitive program by the spring semester of their junior year. Students enroll in five concentration courses: FS 623, Developmental Perspectives on In-

fancy and Early Childhood; FS 635, Learning in Child Development Settings; FS 733, Supervising Programs for Young Children; FS 734, Curriculum for Young Children; and FS 743, Parents, Children, and Professionals. Students also enroll in the following supporting courses: FS 708 or 709, Child Study and Development Center Practicums; THDA 621, Education through Dramatization or THDA 583, Puppetry; KIN 675, Motor Development; MATH 621, Number Systems for Teachers, or FS 797, Exploring Math with Young Children (summer course); EDUC 706, Introduction to Reading Instruction in the Elementary Schools; EDUC 750, Introduction to Exceptionality, EDUC 751, Educating Exceptional Learners, or EDUC 760, Introduction to Young Children with Special Needs. An additional elective is selected in consultation with the adviser.

If accepted into the internship at the end of the junior year, students in their senior year enroll in FS 785, 786, Seminar for Student Teachers, and FS 788, Student Teaching of Young Children.

Family Relations

This concentration provides students with educational preparation to work in a community agency providing direct services to families. Students select 24 credits from the following: FS 623, Developmental Perspectives on Infancy and Early Childhood; FS 624, Developmental Perspectives on Adolescence and Early Adulthood; FS 635, Learning in Child Development Settings; FS 743, Parents, Children, and Professionals; FS 746, Human Sexuality; FS 794, Families and the Law; and/or other family studies courses recommended by their adviser. Students who anticipate applying for the family internship should enroll in FS 743 prior to submission of their application.

General Studies

Students desiring to work in settings providing services to children and/or families construct an individual plan of study in this concentration congruent with their specific professional goals.

Courses required for individual plans of study must be selected from current departmental offerings that are approved by the student's academic adviser.

Family Internship

Internship students will apply knowledge gained from their academic studies in a

supervised environment. Students apply for the internship during the fall semester of their senior year. Students must have completed most of their program coursework in family relations or general studies prior to submission of their application. Accepted students will enroll in FS 782, Family Internship, and FS 792, Seminar for Family Interns. These last two courses will count toward the 20 credits required in supporting courses.

Minor

The department offers a minor to interested students in related majors. Students desiring further information are advised to consult with the departmental administrative assistant as early as possible.

Health Management and Policy

(For descriptions of courses, see page 146.) Undergraduates majoring in the health management and policy program are prepared to embark upon management careers in a wide range of health care delivery and financing organizations. Graduates work in many settings, including health care delivery systems, hospitals, nursing homes, health maintenance and other managed care organizations, public health departments, community-based and home-health agencies, mental health facilities, regulatory bodies, consulting companies, and insurance companies.

The academic program is interdisciplinary, with undergraduates taking courses in many academic units of the university. Students gain a broad view of health and health care while developing analytical skills in health care management and policy. The department's computer laboratory is integrated throughout the curriculum.

The department's undergraduate program is an Approved Full Member of the Association of University Programs in Health Administration (AUPHA). Students have the opportunity to become student members in the American College of Healthcare Executives and the American College of Health Care Administrators, both of which are represented by student chapters at the university. There is also an organization for students interested in public health issues. The department curriculum is approved under the New England Regional Student Program.

Academic Program

Competencies are achieved through three components of the curriculum: university general education requirements, HMP collateral courses, and the HMP core courses including a field practicum. Students work closely with their assigned faculty advisers to develop a plan of study to achieve completion of each of these components. Additionally, several upper-level HMP elective courses are available.

University General Education Requirements: Advisers assist students in selecting courses that satisfy certain program expectations and simultaneously meet university general education requirements.

HMP-Required Collateral Courses: A basic understanding is expected in each of the following five areas related to health management and policy: (1) microeconomics, (2) finite math or calculus, (3) organizational behavior, and (4) statistics. HMP faculty advisers work with students to select the appropriate courses to fulfill these requirements. In general, students are advised to complete their collateral coursework prior to their junior year in the major. Program-approved courses in organizational behavior and U.S. Health Care Systems (HMP 401) must have been completed successfully before a student may begin junior-level studies in the major.

HMP Core Courses: Each of the following courses must be completed by HMP majors prior to graduation. *Introductory courses* include HMP 400, Introduction to Health Management and Policy; HMP 401, U.S. Health Care Systems; and HMP 501, Epidemiology and Community Medicine. *Upper-division courses* include HMP 721, Managing Health Care Organizations; HMP 723, Health Planning; HMP 739, Health Care Accounting; HMP 740, Health Care Financial Management; HMP 741, Quantitative Methods for Health Care Organizations; HMP 742, Strategic Management for Health Care Organizations; HMP 744, Ethical Issues in Health Management and Medicine; and HMP 746, Health Policy. Upper-division courses are not offered every semester and students, in class groupings, generally progress through these courses in a sequential order.

Field Practicum: A full-time practicum (or administrative internship) that integrates class work with a supervised managerial work experience constitutes an essential part of the academic program. It allows students to explore an area of special interest in depth. Courses comprising this component of the major include: HMP 621, Prepracticum Seminar; and HMP 622, Field Practicum. The practicum is divided into three concurrent components: A. Field Practicum Organizational Analysis; B. Field Practicum Management Skills Development; and C. Field Practicum Project Analysis. Field practicum sites are selected by faculty with student involvement and are concentrated in central and northern New England. Given sufficient timing of student request, efforts will be made to arrange practica at distant sites based on special needs.

HMP field practica occur during the summer between the junior and senior year in the major. They begin in late May and end in late August and require a full-time commitment (i.e., 40 hours or more per week).

HMP Elective Courses: Upper-division elective courses within the program may include: HMP 750, Comparative Health Care Systems; and HMP 755, Aging and Long-Term Care Policy. In addition, seniors may have the opportunity to elect independent studies (HMP 796) through individual arrangements with HMP faculty. Majors are encouraged to enroll in one or more of these courses before graduation.

Academic Requirements

HMP majors must obtain a minimum of a C- in all HMP core courses and must pass all HMP-required collateral courses. Majors must have an overall grade-point average of 2.50 by the end of the semester preceding their practicum. Students not maintaining an overall grade-point average of 2.50 are reevaluated by the faculty and may be counseled into another major area of study at the university.

The faculty reviews student performances during the semester before the practicum to determine each student's readiness. Students who do not successfully complete prerequisite courses may not be permitted to advance through subsequent courses in the major.

Applications for Major

Students interested in additional information or in applying for admission to the health management and policy major are encouraged to contact the department's director of undergraduate studies. Students seeking internal transfer into the major must complete an internal transfer application form and meet with the director of undergraduate studies. Efforts should be made to complete this process during the freshman year or early in the sophomore year to ensure sufficient time to complete all of the required collateral courses as well as those in the major in a timely and efficient manner.

Honors in Major

The department offers an Honors in Major program. To qualify, students must meet the department's requirement of having an overall 3.20 grade-point average at UNH and a 3.30 grade-point average for required HMP courses taken by the end of the junior year. Honors in Major students take honors courses during the senior year and complete an honors project in health care management or policy. Students work with a faculty member in the department in the development of the honors project. Students should contact the department's Honors in Major adviser for further information.

Academic Minor in Health Management

The department offers an integrated minor in health management designed for students majoring in clinically oriented professional programs offered through other departments in the School of Health and Human Services. Students not enrolled in the school who wish to minor in health management may inquire about doing so by contacting the department's director of undergraduate studies. Students accepted into the minor must complete: (1) three required courses (HMP 401, U.S. Health Care Systems; HMP 721, Managing Health Care Organizations; and HMP 710, Financial Management for Clinicians); (2) one HMP elective course (HMP 501, Epidemiology and Community Medicine; HMP 734, Health Law; HMP 744, Ethical Issues in Health Management and Medicine; or HMP 755, Aging and Long-Term Care Policy); and (3) one additional elective course from a list approved by the department. Students seeking to minor in

health management must complete the application available in the department office and meet with the department's director of undergraduate studies *before* commencing the minor.

Kinesiology

(For descriptions of courses, see page 155.)

Physical education is a dynamic profession, keeping pace with society's burgeoning passion for physical activity. The mission of the Department of Kinesiology is to generate, transmit, and apply knowledge about the role of physical activity (including exercise, movement, outdoor adventure experiences, and sport) in the advancement of health in society. The department has several teaching, research, and service functions that support this mission, including the preparation of professionals in the five options described below. While options vary in emphasis, each curriculum offers students fundamental knowledge in the following areas: the biological, psychological, and sociocultural foundations and consequences of physical activity; the pedagogy and rehabilitative aspects of physical activity; and the management and marketing of delivery systems in the field. Each option makes extensive use of field experiences and internships that blend theory with practice.

The department offers five areas of study for majors: (1) athletic training; (2) exercise science; (3) outdoor education; (4) sport studies; and (5) physical education pedagogy. Students who wish to minor in physical education must complete 20 credits of coursework that have been approved by a department minor adviser. No more than 6 of the 20 credits may be earned through activity or coaching courses.

Students interested in majoring or minoring in physical education should consult with the specific option coordinator.

Athletic Training Option

An athletic trainer implements injury prevention programs and immediate treatment and rehabilitation procedures for injured individuals as directed by physicians. The National Athletic Trainers Association (NATA)-approved athletic training option prepares professionals qualified to attend the athlete, the fitness-conscious jogger, or the skilled professional athlete.

Students take coursework in prevention, evaluation, management, care, and rehabilitation of athletic injuries as well as administration, education, and counseling. Students must earn a grade of B (3.00) or better in KIN 502 and a grade of C (2.00) or better in all other KIN required courses and ZOO 507-508.

Students are also required to work in university training rooms as they earn clinical experience. Successful completion of the entire program, including 1,000 hours of supervised clinical experience, qualifies students to take the NATA Certification Exam. Students who wish to pursue both NATA certification and public school teacher certification should also see the pedagogy option. This double course of study will require between five and six years.

Students are admitted to the university in the athletic training option with conditional status. Specific criteria must be met during the student's first year before he or she attains full-time status in the option. It's very important that any interested students consult with option coordinator, Daniel Sedory, as soon as possible.

Required Courses	Credits
KIN 502, Basic Athletic Training	3
KIN 503B, Basic Athletic Training Lab	1
KIN 585, Emergency First Responder	3
KIN 620, Physiology of Exercise	4
KIN 622, Principles and Applications of Health and Fitness	3
KIN 652, Clinical Kinesiology	3
KIN 653A, Musculoskeletal Assessment	2
KIN 658, Advanced Athletic Training	4

NUTR 400, Introduction to Nutrition	3
NUTR 499, Introduction to Clinical Nutrition	2
PSYC 401, Introduction to Psychology Statistics Course	4
ZOOL 507-508, Human Anatomy and Physiology	8
HHS 740, Health Promotion Seminar	4

Exercise Science Option

This curriculum prepares individuals for career opportunities in health promotion programs in hospitals, industry, and communities. Exercise scientists work in physical activity programs of prevention, intervention, and cardiac rehabilitation. Students with a particular interest in corporate health and fitness may wish to elect one or more of the following: ACFI 501, Survey of Basic Accounting; MGT 580, Introduction to Organizational Behavior; ECON 402, Principles of Economics (Micro). Students must earn a grade of C (2.00) or better in every required course. All required courses must be completed before enrolling in KIN 650. Interested students may consult with the option coordinator, Robert Kertzer.

Required Courses	Credits
KIN activities (452, 457)	2
KIN 502, Basic Athletic Training	3
KIN 503A, Basic Athletic Training Lab	1
KIN 585, Emergency First Responder	3
KIN 620, Physiology of Exercise	4
KIN 621, Exercise Laboratory Techniques	3

ZOOL 507-508, Human Anatomy and Physiology	8
--	---

Outdoor Education Option

The outdoor education option prepares individuals for careers working with diverse populations in public and private schools, organizations, and agencies. The techniques and approaches of adventure education represent the underlying philosophy of the curriculum. The option is interdisciplinary in scope, uses the various natural resources in the seacoast and mountain area, and gives students ample opportunity for practical application and field experience. Students must earn a grade of C (2.00) or better in every required course. In addition they must complete 100 days of documented leadership experience prior to beginning internship. Students seeking teacher certification should enroll in the pedagogy option and select additional appropriate courses in outdoor education. Interested students may consult with the option coordinator, Michael Gass.

Required Courses	Credits
KIN activities (540-549) Six outdoor education activities from recommended list (credits depend upon choices elected)	14-26
KIN 550, Outdoor Education Philosophy and Methods	4
KIN 681, Theory of Adventure Education	4
KIN 683, Organization and Administration of Outdoor Education	4
KIN 685, Emergency Medical Care: Principles and Practices	4
KIN 686, Wilderness Emergency Medical Care	3
KIN 650, Internship in Outdoor Education	2-4

Elective Courses

Two semesters of one or both of these courses must be taken.	
KIN 682, Outdoor Leadership	2
KIN 693C, Teaching Assistantship	2

University Required Courses

ENGL 501, Introduction to Prose Writing	4
PSYC 401, Introduction to Psychology	4
Other: Core of courses emphasizing the particular area or population in outdoor education of interest to student—e.g., business, education, psychology—selected with assistance of an adviser	20

Sport Studies Option

Sport studies is an interdisciplinary field of study that provides a foundation for a variety of career paths, including sports writing or broadcasting; aspects of management or marketing in sport organizations; or further graduate study in areas such as sport law or sport psychology. Students take a core of courses in history, literature, sociology, and psychology of sport. Cognate courses may be in journalism, communication, administration, psychology, or in other approved areas. Students must earn a grade of C (2.00) or better in each required KIN course. An internship experience or an independent study is required. An internship is strongly recommended since it is often critical to career development. Interested students may consult with the option coordinator, Stephen Hardy.

Required Courses

Required Courses	Credits
I. Take one of the following:	
KIN 561, History of American Sport and Physical Culture	4
KIN 635, Sport in Literature	4
KIN 741, Sport in Society	4

II. Take each of the following:	
KIN 562, Introduction to Sports Information	4
KIN 640, The Sport Industry	4
KIN 750, Theories of Motivation in Sport	4
KIN 761, Senior Seminar in Sport Studies	4

Electives

Sixteen credits of approved kinesiology courses to include KIN 650 or KIN 696.

University Required Courses

PSYC 401, Introduction to Psychology	4
SOC 400, Introductory Sociology	4
CS 401, Computer Applications	4
One approved statistics course	4

Cognate Requirement (outside of Department of Kinesiology)

Students must select a second major, a minor, or a package of cognate courses approved by the faculty (minimum 20 credits). Suggested areas are administration, communication, economics, English, history, psychology, and sociology.

Physical Education Pedagogy Option

Pedagogy is the art and science of teaching. This option integrates a general education background with the theoretical and process knowledge involved in teaching movement-based elementary and secondary physical education programs.

Extensive practicum experiences prepare students to teach preschool children, school-aged youth, and young adults, including students with developmental disabilities.

The physical education pedagogy option provides the foundation for public school teacher certification through the Department of Education's fifth-year program. All fifth-year candidates must meet the requirements for admission to graduate school (e.g., grade-point average of 2.75 or above and 900 or above on the Graduate Record Examination) (see page 28). Students not seeking certification will find a bachelor's degree a solid basis for successful teaching or coaching in settings such as athletic or fitness clubs, YWCAs and YMCAs, boys' and girls' clubs, private schools, or resorts.

Interested students should consult with the option coordinator.

Required Courses	Credits
KIN 500, Historical and Contemporary Issues in Physical Education	4
KIN 501, First Aid Responding to Emergencies	2

Medical Laboratory Science

(For descriptions of courses, see page 165.)

Medical laboratory science is a challenging and rewarding profession for students interested in laboratory medicine. Medical laboratory scientists are vital members of the health care team who perform various medical laboratory tests and provide the diagnostic assistance required in modern patient care. Medical laboratory scientists are employed in hospitals, biotechnology, research, industry, education, and a variety of other health care settings.

Students entering the program spend their freshman, sophomore, and junior years on campus. During their senior year, students may follow the generalist curriculum to become certified as a medical technologist, or choose to specialize in either hematology, microbiology, chemistry, or immunohematology. Students choosing the medical technology option will spend 26 weeks at an area hospital where they complete clinical courses MLS 751-754. Upon successful completion of this program, which is accredited by the National Accrediting Agency for CLS, students are awarded a B.S. degree and are eligible to take the ASCP and NCA certification examinations.

Those students choosing to specialize in their senior year will spend 26 weeks at an area hospital completing an internship (MLS 761, 762, 763, or 764) as well as an Independent Study project (MLS 696). Upon successful completion, students are awarded a B.S. degree and are eligible to take the ASCP and NCA categorical examinations in their specialty area.

All students participating in clinical courses must purchase liability insurance and show evidence of selected immunizations.

Academic requirements are as follows: students must obtain a grade of C in all MLS courses. An overall grade-point average of 2.50 is required for those students following the medical technology option prior to the clinical experience. A personal interview at the clinical affiliation hospital is required for the medical technology and the specialty options. These interviews evaluate a student's understanding of the profession, communication skills, supervisory potential, maturity, and self-confidence. Students must demonstrate these attributes to participate in the clinical courses. A fee for liability insurance is charged when students are on their clinical affiliations.

Internship fees will be charged by the clinical affiliate in some instances.

Students interested in this program should consult the chairperson of the medical laboratory science program.

Career Mobility Option

This option is designed to make the B.S. degree in medical laboratory science available to certified laboratory assistants, medical laboratory technicians, military-trained laboratory personnel, and other individuals with at least two years of full-time recent experience in the clinical laboratory. This may be done on a full- or part-time basis by taking prerequisite courses at UNH or other accredited institutions throughout the state. Students have the opportunity to challenge clinical course requirements through credit by examination. Written and practical examinations are available in the areas of chemistry, hematology, urinalysis, microbiology, and immunohematology. Students interested in the option should contact the chairperson of the medical laboratory science program.

Senior Year (Specialty Students)

Students choosing to specialize take the courses listed above during the fall semester of their senior year. However, during the spring semester, all specialty students will register for MLS 696, Independent Study (4 credits), and either MLS 761, Clinical Microbiology Internship; MLS 762, Clinical Hematology Internship; MLS 763, Clinical Immunohematology Internship; or MLS 764, Clinical Chemistry Internship. The courses numbered MLS 761–764 are each worth 16 credits.

Nursing

(For descriptions of courses, see page 171.) The nursing program reflects the mission and goals of the university and focuses on the uniqueness of each individual. The program is accredited by the National League for Nursing. Its goals are to help nursing students develop knowledge and skills essential to the present and future practice of nursing. Graduates of the program are prepared to provide care to individuals and groups, help people identify and meet their health care needs, be effective colleagues on the health care team, and shape the future of health care.

The curriculum is divided into two areas: biological and social sciences as a

foundation for courses in the major; and nursing courses, which emphasize caring, critical thinking, problem solving, decision making, and developing clinical skills. Clinical experiences are offered in area hospitals and in community health agencies. The senior year culminates in a practicum in which students apply curriculum concepts to an interest area of their choice.

The faculty of the nursing program believe learning is a creative process wherein students are active participants in their education, growth, and development as professional nurses. Faculty members are facilitators and mentors to students within a supportive, scholarly environment.

Honors in major courses are offered to interested nursing students who have achieved a minimum cumulative grade-point average of 3.20.

The following prerequisite courses must be completed successfully prior to the first clinical course, NURS 514, Techniques of Clinical Nursing: ENGL 401, ZOOL 507-508, NUTR 475, PSYC 401, MICR 501, and NURS 501. FS 525 may be a pre- or corequisite to NURS 514. A course in statistics must be completed prior to, or taken concurrent with, NURS 645, Nursing Research. Prerequisite courses require grades of C or better and may not be repeated more than once to achieve successful completion.

Most of the prerequisite courses also meet general education requirements. A cumulative grade-point average of 2.50 must be attained prior to NURS 514 and maintained throughout the program. Major courses require a minimum grade of C.

Students are responsible for their own transportation to clinical agencies, uniforms, professional equipment, liability and health insurance coverage, and selected immunizations. Additional costs associated with the program include laboratory fees each semester beginning in sophomore year and fees associated with attendance at professional meetings. Students must be certified in cardiopulmonary resuscitation before the first clinical course and recertified as necessary until graduation.

R.N. Baccalaureate Program

Registered nurses with a valid New Hampshire license who meet university admission criteria may pursue, on a full- or part-time basis, a bachelor of science degree with a major in nursing at UNH

in Durham, Keene State College, or at UNH Manchester.

All students must successfully complete prerequisite courses before entering the nursing component. Curriculum requirements may be met through transfer credits, course enrollments, and challenge examinations.

The nursing component is based on the belief that R.N. students enter the program with knowledge and competence gained through previous educational and work experiences. This knowledge and competence can be demonstrated through completion of required baccalaureate-level nursing courses. Individualized plans of study are developed to enable completion of nursing content.

The R.N. student must earn a minimum of 128 credits and maintain a minimum UNH grade-point average of 2.00 for completion of the program.

Interested R.N.'s should consult with the R.N. program coordinator at Durham, Keene, or Manchester.

Occupational Therapy

(For descriptions of courses, see page 173.) Occupational therapy practice is directed toward enabling or restoring individual capacity for functional independence and adaptation in the context of clients' environments. The occupational therapy program includes studies in three major areas: (1) liberal arts; (2) biological, behavioral, and health sciences; and (3) occupational therapy theory and practice. Observation and guided practice in local clinical sites are an integral part of some courses. The program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE). ACOTE is located at the American Occupational Therapy Association, 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. ACOTE's phone number is (301) 652-2682.

Following completion of the four-year academic program, students are placed in three 3-month, full-time fieldwork experiences: OT 797, Psychosocial Dysfunction; OT 798, Physical Dysfunction; OT 799, Special Area. These level II fieldwork experiences are scheduled in centers that have established educational programs and are approved by the department. Successful completion of these three placements qualifies students to be awarded a B.S. degree. A fee is charged for the coordination of level II fieldwork. Graduates of

the program are eligible to sit for the Certification Examination for the Occupational Therapist administered by the American Occupational Therapy Certification Board (AOTCB). After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). Most states require licensure in order to practice; however, state licenses are usually based on the results of the AOTCB Certification Examination.

Students must maintain a minimum 2.33 cumulative grade-point average in required courses and earn a grade of C or better in designated courses. Specific requirements are delineated in the *OT Department Policy and Procedure Manual*, which is distributed to all new students. Curriculum review and revision is undertaken annually. Students are expected to check with their department advisers in September for updated policies and requirements. Students are responsible for transportation to off-campus clinical and other learning experiences and must purchase personal liability insurance for coverage for the clinical components of the curriculum. Students are responsible for meeting the health clearances established by their level I and level II fieldwork sites. Proof of immunizations such as poliomyelitis, rubella, and hepatitis B may also be required. For level II fieldwork, health insurance and a physical examination, including a tuberculin test, is required.

Undergraduate students may enter the program at the freshman level or through transfer at the junior level. Prospective students with baccalaureate degrees may apply to the Post-Baccalaureate Certificate Program. Transfer and Certificate Program applications are accepted for fall semester only. The deadline for application is March 1. Transfer students must enter the program with the following: (1) 64 credits and most general education requirements; (2) completion of the following courses: ENGL 401; PSYC 401; a second psychology course (excluding statistics, child and adult development, and abnormal psychology); a sociology course; and ZOOL 507-508. In addition to the courses listed above, certificate program students must have a baccalaureate degree from an accredited college or university. Freshman and transfer students applying to the university may obtain applications from the Admissions Office. UNH students applying for admission may obtain applications from the Department of Occupational Therapy. Post-Baccalaureate Certificate Program applications may also

be obtained from the Department of Occupational Therapy. For more information about the program contact the department.

The course sequence for students entering the program as freshmen follows.

First Year	Fall	Spring
ENGL 401, Freshman English	4	—
PSYC 401, Introduction to Psychology	4	—
OT 500, The Behavior and Development of Children	—	4

Recreation Management and Policy

(For descriptions of courses, see page 184.)

The Department of Recreation Management and Policy is nationally accredited by the National Recreation and Parks Association/American Association for Leisure and Recreation. The department's curriculum supports a broad-based liberal education and an opportunity to acquire specialized professional knowledge and skills. As the fabric of life in contemporary society grows in complexity, people are increasingly turning to leisure and the recreation services profession to find meaning, renewal, and enrichment in life. Recreation professionals work to enhance quality of life in diverse settings, including human services, health care, natural recreation resource areas, and commercial recreation businesses. Graduates are employed by communities, youth-serving agencies, conference centers, resorts, parks, hospitals, rehabilitation centers, and long-term care facilities. Population and economic projections suggest that recreation service industries will continue to expand and thereby continue to provide numerous professional career opportunities.

Curriculum Structure

Students entering the major may choose either: (1) the program administration option, which includes the professional core and RMP electives combined with courses to support career interests, or (2) a specialized option in therapeutic recreation, which includes the professional core and required courses in therapeutic recreation.

International Study in Recreation and Leisure

A semester abroad sponsored by the American Universities International Pro-

gram is available to students pursuing a degree in recreation management and policy. Programs in Scotland, Australia, or New Zealand provide discipline-related exchange opportunities. Approval by the curriculum director is required approximately one year before departure. Eleven transfer credits can be granted. Other destinations can be negotiated through the Center for International Education on campus.

Core Courses

All majors must complete a core curriculum of eight courses: RMP 490, History and Philosophy of Leisure; RMP 501, Recreation Services for Individuals with Disabilities; RMP 557, Recreation Services Program Design and Planning; RMP 558, Program Supervision and Leadership; RMP 654, Professional Development, Issues, and Ethics; RMP 664 (A or B), Professional Internship; RMP 724, Grantsmanship, Evaluation, and Research; and RMP 772, Law and Public Policy in Leisure Services.

A supervised internship (RMP 664) and an emphasis area of 18 to 20 credits are required of all majors. The internship is designed to bridge the gap between theory and practical application. Students working with their advisers and the internship coordinator select an appropriate setting based on their professional and career interests. They must complete a minimum of 480 hours of supervised field study within twelve weeks. Specific requirements are identified in the Internship Manual available from the Department of Recreation Management and Policy. The emphasis area supports a student's career goals and is designed by the student with approval from their academic adviser.

Program Administration Option

This program prepares students for supervisory or middle-management positions and emphasizes planning, marketing, and administrative concepts. Depending on the RMP electives and the career-support emphasis chosen, students may expect to find employment in settings such as conference and meeting planning, recreation resource management, youth serving agencies, entrepreneurial recreation, residential communities, municipal recreation, employee services recreation, and resorts.

In addition to the required core courses, students who pursue the pro-

gram administration option must complete the following departmental requirements: RMP 663, Management and Policy in Leisure Services; two RMP course electives; CS 401, Computer Applications, or an approved equivalent; SOC 502, Statistics; PSYC 401, Introduction to Psychology; FS 525, Human Development; MKTG 550, Survey of Marketing; MGT 580, Organizational Behavior; and KIN 501, Advanced First Aid and Emergency Care, or equivalent certification.

Therapeutic Recreation Option

This option prepares students to work primarily in clinical, allied health facilities such as hospitals, rehabilitation centers, mental health centers, and extended care facilities focusing on therapeutic recreation services while achieving overall treatment goals. Observation and applied experience is a component of several courses. Students complete a 12- to 14-week full-time clinical internship under the supervision of a Certified Therapeutic Recreation Specialist (CTRS). Students must purchase personal liability insurance for coverage for the clinical components of the curriculum. The Bureau of Labor Statistics reports that therapeutic recreation is one of the fourteen fastest growing occupations in the country. The occupational outlook statistics reflect a "39% increase in demand for recreational therapists with strong clinical backgrounds" for the beginning of the twenty-first century. Upon successful completion of this option, students are prepared to meet sitting requirements for the National Council for Therapeutic Recreation Certification Examination.

In addition to the required core courses, students who choose this option must complete the following departmental requirements: RMP 502, Introduction to Therapeutic Recreation; RMP 603, Principles of Therapeutic Recreation; RMP 604, Clinical Aspects and Techniques in Therapeutic Recreation; RMP 606, Therapeutic Recreation Practices and Procedures; RMP 705, Management in Therapeutic Recreation; CS 401, Computer Applications, or approved equivalent; PSYC 401, Introduction to Psychology; PSYC 402, Statistics in Psychology; PSYC 561, Abnormal Behavior; FS 525, Human Development; ZOOL 507-508, Human Anatomy and Physiology; and KIN 652, Clinical Kinesiology.

Criteria for Admission and Retention

Internal transfer students must have a minimum 2.00 cumulative grade-point average and approval from an RMP faculty member for admission. Students within the major are required to maintain a minimum 2.50 semester grade-point average every semester to retain good academic standing within the major. In addition, student majors must obtain a grade of C (2.00) or better in RMP courses and a grade of C- (1.67) or better in all other courses specifically required by the department.

Social Work

(For descriptions of courses, see page 188.)

The social work major prepares graduates for beginning generalist social work practice within the context of a liberal arts education. It also prepares students for admission to graduate schools of social work and other graduate professional programs in human service professions. It is an accredited program, based on standards set by the national accrediting body—the Council on Social Work Education.

Social work majors pursue a program that deals with the origin, development, and organization of health and welfare institutions; methods of social work practice; and the relationship of the social work profession to contemporary social issues and problems. Social work majors gain direct experience and a better understanding of the field through a required field internship in a social welfare setting. The details of the field experience will be arranged between the student and the fieldwork coordinator. Students are required to pay a liability insurance fee for their off-campus fieldwork experience.

Social work majors are required to take ZOOL 401; SW 524, 525, 550, 551, 622, 623, 640, 640A, 641, 641A; and either SW 601 or SOC 601. In addition, students are expected to take six designated distribution courses in several liberal arts disciplines. Many of these may also fulfill general education requirements. Students wishing to minor in social work are required to take any five courses offered by the department, excluding SW 640, 641. Students interested in either a major or minor in social work should consult with the undergraduate coordinator in Murkland Hall.

WHITTEMORE SCHOOL OF BUSINESS AND ECONOMICS

Lyndon E. Goodridge, Dean
 John Freear, Associate Dean
 Jo-Ann Kelly, Director of Undergraduate
 Programs
 Gail Stepina, Academic Counselor

Department of Accounting and Finance
 Department of Decision Sciences
 Department of Economics
 Department of Hospitality Management
 Department of Management
 Department of Marketing

Bachelor of Arts

Economics
 Financial and Managerial Economics
 International and Development Economics
 Public Policy Economics

Bachelor of Science

Business Administration
 Hospitality Management

The Whittemore School of Business and Economics prepares students for future careers in management, public service, research, and education. The liberal arts are the basic foundation of the curriculum, and management of change in a global community is the major emphasis. Each department and program has its unique disciplinary tradition and the simultaneous commitment to broad educational excellence in critical thought, verbal and written communications, quantitative skills, computer literacy, and ethical reasoning. International awareness and cross-cultural understanding are essential components of the educational experience of Whittemore School students. The educational process encourages the integration of practice and theory through student interaction with businesses, public agencies, and faculty research.

The Whittemore School's undergraduate curricula combine a breadth of liberal education with specifics of professional education in business administration, economics, and hospitality management. Undergraduates enrolled in the Whittemore School programs take a substantial part of their coursework in other colleges in the university in order to fulfill the general education requirements. Beyond those requirements, students are encouraged to elect additional courses in the arts, the behavioral and social sciences, the humanities, mathematics, and the natural sciences. Thus, students who complete the Whittemore School programs in business administration, economics, and hospitality management are prepared for employment and graduate study in both these and adjacent fields.

The Whittemore School offers a minor in business administration and in economics. Within the limits of its resources, the Whittemore School also serves the needs of undergraduates elsewhere in the university for whom selected courses in business administration, economics, or hospitality management are desirable complements to their primary course of study. To the extent that space is available after majors have enrolled, a limited number of Whittemore School courses are open to nonmajors who have the prerequisite preparation.

A maximum of 32 credits in courses offered by the Whittemore School of Business and Economics may be taken by non-Whittemore School students.

Degree Requirements

The Whittemore School offers a bachelor of arts degree program in economics and bachelor of science degree programs in business administration and hospitality management. Course listings for business administration are found under accounting and finance (ACFI), business administration (ADMN), decision sciences (DS), management (MGT), and marketing (MKTG). Candidates for a degree must satisfy all of the university general education requirements for graduation as well as the particular requirements of their individual major programs. In addition, candidates must complete a math course (400 level) and a computer applications course. Economics majors must also satisfy specific requirements associated with the bachelor of arts degree (see page 15). No Whittemore School course may be taken on a pass/fail basis by a student majoring in business administration, economics, or hospitality management.

Modifications tend to occur in major programs during the four-year period of a student's undergraduate career. Students are expected to conform to these changes. Students transferring into the Whittemore School from other universities must have business, economics, and hospitality management courses reviewed and approved by the Whittemore School Undergraduate Programs Office to be considered for major requirements.

For information concerning advanced degrees, see the Graduate School catalog.

Advising System

Undergraduate advising in the Whittemore School is carried out jointly by academic advisers and the faculty. The academic advisers are based in the Whittemore School Undergraduate Programs Office, where student academic records are kept. The advisers assist students in program planning, preregistration, understanding and meeting general academic requirements, and general academic and career decision making. In addition, the advisers coordinate study abroad, domestic exchange and honors programs, as well as the Washington Internship Program. The faculty draw on their own experience, expertise, and interests in helping students with course, program, and career selection.

The Peer Advising System, established in 1984, was created for the purpose of introducing freshmen to the college experience. Selected upperclass students provide a positive resource to guide freshmen. The program's goals are, through a mandatory yearlong program, to familiarize students with their major, college, and university; to support students in their personal growth; to develop personal responsibility; and to encourage freshmen to use the advising services on campus.

Undergraduates are encouraged to develop an advisory relationship with one or more faculty members with whom they have mutual interests. *All students are urged to seek as much assistance as they need, from whatever source, but are reminded that theirs is the ultimate responsibility for knowing and meeting the various academic requirements for a degree.*

Independent Study/Internship

Juniors or seniors in the Whittemore School may elect the internship or independent study options for variable credit. For either option, the student must secure a faculty sponsor in the area of interest and submit a written proposal prior to the start of the semester in which the project is to be undertaken. Independent study normally involves research, while internships are usually undertaken with cooperation of an off-campus organization and involve a nonroutine but practical application of skills and concepts acquired in a student's program.

Independent studies and internships require considerable self-direction and

self-monitoring on the part of the student, who must be in high academic standing. Careful prior review of requirements with the undergraduate adviser is necessary. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience.

The Washington internship, a semester of supervised work experience in Washington, D.C., is open to any major. See page 188.

International and Exchange Programs

The Whittemore School encourages qualified students to participate in programs of international work and study. The Whittemore School has international exchanges including Grenoble, France, and Maastricht, the Netherlands.

Students may also elect to take a dual major in international affairs, offered in conjunction with the program for international perspectives (see page 89).

Information on all other international programs can be obtained from the sponsoring department or the Center for International Education, Hood House, Room 204.

Five-Year Programs: B.A.-M.B.A., B.S.-M.B.A.

The Whittemore School and the College of Engineering and Physical Sciences offer a joint program leading to a bachelor of science (B.S.) in chemical engineering, civil engineering, electrical engineering, or mechanical engineering and a master of business administration (M.B.A.) in five years rather than the normal six. Similarly, with the College of Liberal Arts, the Whittemore School offers a joint program leading to a B.A. in French, philosophy, or psychology and an M.B.A. The College of Life Sciences and Agriculture and the Whittemore School offer a joint program leading to a B.S. in plant biology and an M.B.A. See the individual college descriptions for details. Very few students have been admitted to these programs. The programs are intended for students with strong academic competence, maturity, and work experience. Recent changes in the M.B.A. curriculum have reduced substantially the ability of students to complete the programs within five years.

Programs of Study

Accounting and Finance

(For descriptions of courses, see page 107.) Accounting and finance are fundamental academic disciplines in business schools. Accounting provides the basic language of business and the underlying structure for information systems. Finance provides important knowledge about asset management, capital markets, and risk strategies.

Many professional career opportunities are open to students who elect an emphasis in accounting and finance. An accounting emphasis prepares them for jobs in certified public accounting, industrial accounting, and governmental service. This emphasis also allows students to sit for the Certified Public Accountant (CPA) exam and the Certified Management Accountant (CMA) exam. A financial emphasis prepares students for jobs in corporate financial management, investments management, banking, and governmental service. This emphasis allows students to sit for the Certified Financial Analyst (CFA) exam and the Certified Financial Planner (CFP) exam. All of these career tracks are in segments of the economy that will expand in future years.

In addition to required core courses, students with a career emphasis in accounting can choose three to six courses from the following advanced courses: ACFI 704, Derivative Securities and Markets; ACFI 721-722, Financial Accounting Theory and Applications I and II; ACFI 723, Advanced Cost Accounting; ACFI 724, Auditing; ACFI 725, Financial Statement Analysis; and ACFI 726, Business Taxation. Courses offering special topics in accounting and a variety of internships are also available.

Students with a career emphasis on finance can choose three to six courses from the following advanced courses: ACFI 701, Financial Policy; ACFI 702, Investments Analysis; and ACFI 703, International Financial Management. Courses offering special topics in finance (ACFI 640; ACFI 720), internships (ACFI 751) and independent studies (ACFI 753) are also available.

Students are also encouraged to develop a combined accounting and finance concentration with a course mix of their own choosing.

Business Administration

(For descriptions of courses, see *Accounting and Finance*, page 107; *Business Administration*, page 117; *Decision Sciences*, page 126; *Management*, page 160; and *Marketing*, page 160.)

The business administration program provides training for individuals interested in managerial or administrative careers in business or in public or private institutions.

Since most graduates of the program embark upon business careers, the program emphasis is in that direction. However, as demand has grown in recent years for people able to apply business-like methods to the problems of not-for-profit institutions such as hospitals, school systems, government departments, and other socially oriented organizations, the program's objectives have been broadened to include all types of administration.

The curriculum offers professional education in the basic theories, principles, concepts, and analytical tools used by successful modern administrators, combining them with an introduction to some of the important functional areas of management. At the same time, typical students achieve a well-rounded education by selecting courses in the liberal arts and the sciences from other colleges and schools in the university.

The business administration program consists of thirteen required courses in three groupings, plus three required WSBE electives. In addition, the program requires completion of one semester of a 400-level math course and a computer applications course, which can be satisfied through coursework or acceptable equivalency. Group A includes the core courses taken in the freshman and sophomore years. These focus on basic concepts, tools, and skills. Group B consists of six courses in the functional areas of organizational behavior, operations management, marketing, finance, management information systems, and quantitative methods, normally taken in the junior and senior years. Group C consists of a course in business, government, and society; a "capstone" course in strategic management; and three electives. These electives must be chosen from upper-level (500 or above) Whittemore school courses and are taken in the junior and senior years. Courses that are taken on a pass/fail or credit/fail basis will not count as Group C electives.

Students must successfully complete all Group A courses (achieving a minimum grade-point average of 2.00 with no individual grade lower than C-) and obtain junior standing before any Group B courses may be taken; and all Group B courses must be completed before taking required Group C courses. In order to graduate, students must achieve a grade-point average of at least 2.30 in the sixteen major courses and a minimum grade of C- in each major course. Transfer credit can be applied only to Group A courses.

Students are encouraged to take advanced electives in areas of their interest and in relation to career goals. Faculty and the undergraduate advisers can provide useful information and guidance for choices of electives.

The Whittemore School also offers courses for nonmajors. Students interested in these courses should contact the undergraduate programs office.

The required plan of study is given below:

Freshman Year (Group A)

ECON 401, Principles of Economics (Macro); ECON 402, Principles of Economics (Micro); MATH 420, Finite Mathematics, or MATH 424A, Calculus for Social Sciences

Sophomore Year (Group A)

ACFI 502, Introductory Financial Accounting; ACFI 503, Managerial Accounting; DS 420, Business Statistics; CS 401, Computer Applications (or equivalent)

Junior and Senior Years (Group B)

ACFI 601, Financial Management; DS 670, Management Information Systems; DS 650, Operations Management; DS 630, Quantitative Methods; MGT 611, Behavior in Organizations; MKTG 651, Marketing

Senior Year (Group C)

MGT 701, Business, Government, and Society; MGT 703, Strategic Management: Decision Making; three WSBE electives

Minor

The Whittemore School faculty has developed a group of courses for nonmajors that, if available and when combined with certain elective courses, can constitute a minor in business administration. A list of minor requirements is available in the Whittemore School Undergraduate Programs Office, Room 120, McConnell Hall.

Decision Sciences

(For descriptions of courses, see page 126.)

The Department of Decision Sciences brings together faculty with special expertise in business statistics, decision support systems, management information systems, management science, production/operations management, operations research, and manufacturing strategy. The department contributes to the general education of all students in the Whittemore School through the development and teaching of required and elective courses. The department's faculty serve the school and the university through teaching excellence, active scholarship, and involvement with the business and professional community within the state and beyond.

Beyond the core courses students may elect any of three emphases within the department. For an operations management emphasis, students take DS 754, Resource Management; DS 755, Manufacturing Management; and DS 758, Strategic Management of Operations. These courses help prepare students to sit for the American Production and Inventory Control Society (APICS) certification exams. For a management science/statistics emphasis, students take DS 626, Applied Regression Analysis; DS 633, Advanced Operations Research; and choose from DS 522, Advanced Business Statistics; DS 624, Time Series Forecasting; and DS 625, Statistical Decision Making. For a management information systems emphasis, students take DS 672, Computer Systems Analysis and Design; and DS 772, Decision-Support Systems. Students may also take DS 698 or DS 798, Topics in Decision Sciences.

Economics

(For descriptions of courses, see page 130.)

Economics is the study of how societies organize themselves to produce goods and services and to distribute those products among the members of society. In the modern world, a combination of market forces, public policies, and social customs perform these basic economic tasks. Economists use concepts, models, and data to analyze efficiency of resource use, fairness of economic outcomes, and development of global and national economies. The economics program is designed to introduce students to the tools of eco-

conomic analysis and to show students how they can use those tools to analyze and better understand real-world situations.

Undergraduate training in economics is an excellent background for a variety of careers; these include banking and financial services, journalism, international business, public service, the diplomatic corps, entrepreneurial ventures, and government administration. An undergraduate major in economics is also excellent preparation for those interested in graduate work in law, business administration, and international relations.

Graduate work in economics can lead to careers in college teaching, research in public and private agencies, and business consulting. Those interested in studying economics at the graduate level should ask their economics professors what undergraduate coursework is appropriate and which graduate schools would be suitable.

Courses in economics are open to nonmajors on a space-available basis. Students majoring in other programs have found that certain economics courses are useful supplements to their own majors and a help in gaining employment. For example, political science majors can profit from studying public finance, economic development, international economics, and comparative economic systems. Mathematics and engineering students might elect to study regression analysis and intermediate microeconomics. Environmental conservation majors could choose to study ecological or energy economics. For more information on economics electives, please consult the Whittemore School Undergraduate Programs Office (McConnell 120) or the chairperson of the economics department.

Economics majors must complete eight courses in economics plus DS 420 with a grade of at least C– (1.67) in each course and an average grade of C or better. These courses must include ECON 605 and 611. In addition, majors must complete CS 401 and either MATH 420 or 424A. Coursework in accounting is recommended but not required.

Major credit toward ECON 605 and/or 611 will be awarded to transfer students only if equivalent courses have been taken at the junior level or above. Transfer students must take at least five of their economics courses at UNH.

Students may petition to substitute one business administration course for an economics elective if the course is at

the 600 level or above and if a grade of C– or better is earned. Students may earn no more than 16 credits in internships, independent studies, field experience, and supervised student teaching experience. All economics majors must satisfy the bachelor of arts degree requirements (page 15).

The economics department offers three specialized options within the major. By selecting economics electives from an approved list, a student majoring in economics can graduate with an option in financial and managerial economics, international and development economics, or public policy economics.

A suggested plan of study for economics majors follows:

Freshman Year

ECON 401, 402, Principles of Economics (Macro and Micro); CS 401, Computer Applications (or equivalent); MATH 420 or MATH 424A

Sophomore Year

DS 420, Business Statistics; ECON 605, Intermediate Microeconomic Analysis; ECON 611, Intermediate Macroeconomic Analysis

Junior and Senior Years

Economics electives (at least 4)

A minor in economics consisting of five courses is also available. At least three of these courses must be taken at UNH. For more on the minor and options within the major, consult the Whittemore School Undergraduate Programs Office.

Hospitality Management

(For descriptions of courses, see page 151.) The program in Hospitality Management is an integral part of the offerings of the Whittemore School. It is one of only five programs worldwide that is accredited by both the American Assembly of Colleges and Schools of Business-AACSB and the Accreditation Commission for Programs in Hospitality Administration-ACPHA. Graduates are prepared to assume management positions in all sectors of the service sector, with primary emphasis on the hospitality industry.

Graduates have accepted positions in lodging and food service (and their allied businesses and wholesalers), retirement facilities, software companies, tourism, travel and recreation industries, and in-

stitutions such as hospitals, nursing homes, colleges, and schools.

In order to have a well-rounded university education, students take courses in liberal arts as well as foundation courses in business administration and economics. The hospitality management curriculum builds upon this foundation and provides experience and in-depth education in the lodging and food service-related industries, as well as the broader industries that comprise the hospitality discipline. Each course includes an international component.

With our on-campus learning laboratory, the New England Center Hotel and Conference Center, the program includes a mix of practical experiences along with classroom activities. These practical experiences are provided by major consulting projects to industry as part of classroom activities, lecture series, seminars, and field trips; a minimum of 400 hours approved work experience or practicum; and by involvement in the food service and lodging operations at the New England Center.

The Department of Hospitality Management encompasses seventeen required courses and four hospitality electives in three groupings. Group A consists of eight core courses taken in the freshman and sophomore years. Group B includes most of the functional hospitality and business disciplines required to develop into a successful manager. A wide range of elective courses, independent studies, and internships can complement the required curriculum. In addition, the program requires completion of one semester of a 400-level math course and a computer application course, which can be satisfied through coursework or acceptable equivalency.

Students must successfully complete Group A courses, achieving a minimum grade-point average of at least 2.00, before Group B courses may be taken. Group B courses must be completed before taking any Group C courses.

To graduate, students must obtain a 2.30 grade-point average in all major required courses and a minimum grade of C– in each major course. Graduates of this program who are qualified for, and interested in further allied studies, are well prepared for advanced degree programs in hospitality, tourism, business, institutional, or health administration. Students may earn up to 16 total credits in internships, independent studies, field experience, and supervised student teaching experiences.

A required plan of study is given below.

Freshman Year

(* denotes Group A courses)

HMGT 401, The Hospitality Industry: An Historical Perspective and Distinguished Lecture Series*
 HMGT 403, Intro. to Food and Beverage Management*
 ECON 401, Principles of Economics (Macro), or ECON 402, Principles of Economics (Micro)*
 ENGL 401, Freshman English
 MATH 420, Finite Mathematics, or 424A, Calculus for Social Sciences
 Computer applications
 4 university general education courses

Sophomore Year

(* denotes Group A courses)

HMGT 554, Lodging Operations Management* or
 HMGT 567, Food and Beverage Operations Management*
 ACFI 502, Introductory Financial Accounting*
 ACFI 503, Managerial Accounting*
 DS 420, Business Statistics*
 ECON 402, Principles of Economics (Micro), or ECON 401*
 3 university general education courses

Junior Year (Group B)

HMGT 600, Hospitality Marketing Management
 HMGT 603, Service Industries Management
 HMGT 618, Uniform Systems for the Hospitality Industry
 HMGT 635, Hospitality Human Resource Management
 MGT 611, Behavior in Organizations
 3 hospitality, business, or university general education courses

Senior Year (Group C)

HMGT 625, Hospitality and Employment Law (Group B)
 HMGT 655, Hospitality Finance and Development
 HMGT 703, Strategic Management in the Hospitality Industry
 5 hospitality, business, or university general education courses

Management

(For descriptions of courses, see page 160.)

The study of management focuses on how organization members develop and use strategies, structures, and the accompanying social, political, economic, and technical processes needed to compete in national and global markets. Courses cover such topics as leadership, ethics, adaptation, innovation, organizational

learning and change, human resource management, governmental policy making, and industrial economics. The department's approach to teaching involves educational methods that promote behavioral and analytic competence through experiential learning, self-awareness, theoretical mastery, and case studies. A major emphasis is on action learning through group projects.

In addition to the required core course (MGT 611, Behavior in Organizations) and the capstone senior-year courses (MGT 701, Business, Government, and Society; and MGT 703, Strategic Management), students may choose from a variety of electives including MGT 614, Organizational Analysis; MGT 647-648, Business Law I & II; MGT 712, Managing Organizational Change; MGT 713, Management Skills; MGT 714, Conflict in Organizations; MGT 732, Exploration in Entrepreneurial Management; MGT 745, International Business; MGT 755, International Management; MGT 770, Strategic Human Resource Management; MGT 780, Issues for Men and Women as Managers; and MGT 785, Career Management. Courses offering special topics are also available, e.g., total quality management, management consulting, and group dynamics/team leadership.

Marketing

(For descriptions of courses, see page 160.)

The marketing curriculum is designed to help students explore the exchange process between a business or institution and its customers or memberships. A marketing exchange occurs when a person gives up something he or she values (e.g., money, time, or effort) for something he or she wants or needs from the business or institution (e.g., goods or services). Marketing is the function in the organization which is responsible for determining what those needs and wants are, how they might be met, and how to communicate with prospective customers about how the organization can meet their needs.

To this end, the department offers courses in marketing strategy, marketing research, advertising and promotion, selling and sales management, international marketing, and other special topics such as consumer behavior and the marketing of services. MKTG 651 is the introductory required course; the remaining courses are electives.

Careers for students interested in marketing include jobs in marketing management, sales, advertising, and marketing research. Opportunities exist in consumer and industrial products at all levels of the marketing channel from manufacturer to wholesaler to retailer; for goods as well as services; and within for-profit and not-for-profit organizations.

SPECIAL UNIVERSITY PROGRAMS

Interdisciplinary Programs

Earth, Oceans, and Space
Gerontology
Health Promotion
Intercollege Courses
International Affairs
Marine Sciences
Race, Culture, and Power
Student-Designed Majors
Technology, Society, and Values
War and Peace Studies

Preprofessional Programs

Prelaw
Premedical/Pre dental Study

Off-Campus Programs

UNH/UNHM Cross Registration
Consortium (NHCUC) Student Exchange Program
New England Subdegree Exchange Program
Exchange Programs within the U.S.

Study Abroad Programs

Other Programs

Honors Program
Reserve Officer Training Corps Programs
Undergraduate Research Opportunities Program

In addition to programs listed above, the following interdisciplinary programs may be found under their separate colleges and schools:

African American studies minor, page 21
American studies minor, page 22
Asian studies minor, page 23
Biology, page 48
Community development, page 49
Dual degrees, page 16
Environmental conservation, page 50
Environmental engineering minor, page 59
Five-year B.A.–M.B.A. program, page 21, 32, 38, 39, 84
Five-year B.S.–M.B.A. program, page 45, 53, 84
General studies, page 51
Genetics minor, page 45
History and philosophy of science minor, page 23
Humanities major and minor, pages 23 and 34
Hydrology, pages 59 and 64
Independent study and projects in the College of Engineering and Physical Sciences, page 60
Interdisciplinary mathematics (9 options), page 67
Justice studies minor, page 23
Latin American studies minor, page 24
Linguistics major, page 34
Materials science minor, page 59
Nutritional sciences, page 52
Plant pest management, page 45
Religious studies minor, page 24
Resource economics, page 54
Second majors, page 16
Soil science, page 54
Student-designed majors, page 91
Wildlife management, page 56
Women's studies major and minor, pages 25 and 42

This section describes interdisciplinary study opportunities; preprofessional programs (prelaw, premed/prehealth); off-campus, foreign study, and exchange programs; and other special academic programs at UNH.

Interdisciplinary Programs

Earth, Oceans, and Space

The Institute for the Study of Earth, Oceans, and Space (EOS) is devoted to obtaining a scientific understanding of the entire Earth system and its environment in space. EOS research analyzes on global and finer scales the interactions and processes controlling the Earth system's components: the atmosphere, magnetosphere, biosphere (including anthrosphere), hydrosphere, cryosphere, lithosphere, the Sun, and the space environment.

The institute brings together under a common theme several established research groups on campus: the Space Science Center, the Biogeochemical Systems Center, the Glacier Research Group, the Complex Systems Research Center, and the Ocean Processes Analysis Laboratory. Although the primary educational theme of the institute is to expand upon existing graduate degree programs to train future scientists with a global view, undergraduate courses to stimulate and excite advanced students with the Earth system perspectives are offered.

Gerontology

The gerontology interdisciplinary minor provides students with the opportunity to examine and evaluate the aging process as it affects the individual and society. Through in-depth inquiry, personal encounters, and classroom discussion, students develop an understanding of aging from a variety of perspectives. Stu-

dents are encouraged to analyze the historical and philosophical foundations from which policies, programs, and professional activities affecting the aged are developed, implemented, and evaluated.

Gerontology minors are required to take a minimum of 20 credits (five courses). The courses must include three core gerontology courses plus two electives from a list of courses approved by the Gerontology Interdisciplinary Minor Advisory Committee.

Required Core Courses

GERO 600, Introduction to Gerontology
NURS 670, Issues in Health Care of the Aged
GERO 795, Independent Study (a practicum arranged by the coordinator of the minor, or by the appropriate designee)

Approved Electives

FS 525, Human Development
HMP 755, Aging and Long-Term Care Policy
KIN 607, Biology of Aging
NURS 535, Death and Dying
NUTR 760, Geriatric Nutrition
OT 501, Developmental Tasks of Adulthood
PSYC 582, Adult Development and Aging
SW 525, Introduction to Social Welfare Policy
SW 550, Human Behavior and Social Environment I
SW 700, Social Gerontology
SW 701, Women and Aging
SOC 720, Current Developments in the Family: Aging and Late-Life Family

Other courses on special topics may complete the electives if approval is obtained from the advisory committee.

Students who wish to minor in gerontology should consult with Elizabeth Crepeau, Department of Occupational Therapy, Hewitt Hall, 862-3420. The director of the Interdisciplinary Program on Aging is Raelene Shippee-Rice, Department of Nursing, Hewitt Hall, 862-4715.

Health Promotion

The health promotion minor introduces students to concepts of health and health promotion with a focus on personal life-

style, community structure, economic structure, and social organization. The program relies on such fields as health education, kinesiology, recreation management, sociology, psychology, epidemiology, public health, and community analysis. Thus, the minor is a valuable asset for students in various fields.

The health promotion minor consists of 20 credits of approved coursework, including three core courses and two electives from a list of approved courses. An advisory committee, chaired by a School of Health and Human Services faculty member, oversees the program. Students who wish to minor in health promotion should consult with the dean's office, School of Health and Human Services, Hewitt Hall, Room 217, 862-1177.

Required Core Courses

HMP 401, U.S. Health Care Systems
HHS 640, Environmental and Occupational Health
HHS 740, Health Promotion Seminar

Elective Courses

FS 746, Human Sexuality
GERO 600, Introduction to Gerontology
HMP 501, Epidemiology and Community Medicine
HMP 750, Comparative Health Care Systems
HMP 755, Aging and Long-Term Care Policy
MICR 501, Public Health Microbiology
NURS 595, Women's Health
NURS 670, Issues in Health Care of the Aged
NUTR 400, Introduction to Nutrition
NUTR 499, Introduction to Clinical Nutrition
PHIL 660, Law, Medicine, and Morals
HHS 510, AIDS: Health, Ethics, and Social Agenda
HHS 798L, Special Topics: Health Promotion

Intercollege Courses

Intercollege courses are listed on page 153. INCO courses include INCO 401, War; INCO 402, Peace; INCO 404, Honors: Freshman Seminar; INCO 450, Introduction to Race, Culture, and Power; INCO 480, Art in Society; INCO 585, 586, Foreign Exchange; INCO 604, Honors: Senior Thesis/Project; INCO 606, Internship; INCO 655-656, London Program; INCO 685, 686, Study Abroad; and INCO 698, Summer Research Project.

International Affairs

(For descriptions of courses, see page 154.) The Center for International Education offers undergraduate students the opportu-

nity to pursue a dual major in international affairs. The dual major requires completion of the interdisciplinary international affairs program and any other major.

The purpose of the program is to expand students' global horizons, enhance their disciplinary major, and expand their career opportunities into the international arena. The requirements for international affairs are listed below.

Required Core Courses

IA 401, International Perspectives: Science, Business, and Politics
IA 501, Global Issues in International Affairs
IA 701, Seminar in International Affairs

Four Electives

(one from each of the program's four elective groups)
Foreign area
Science, technology, and the private sector
Public policy
Theory in international affairs

Competency in a Foreign Language

Functional reading, writing, and speaking ability equivalent to the third-year, second-semester level

Foreign Experience

A minimum of eight weeks in a non-English-speaking country

The courses in the dual major program are multidisciplinary, taught by faculty from many different departments in the university. They are designed to help students appreciate the complex interrelationships and interdependencies among nations and peoples and to equip students with the analytical skills and broad perspectives necessary for both public- and private-sector international careers.

Students who wish to declare international affairs must earn a *C or better in IA 401*, have declared (or be prepared to declare) a disciplinary major, and have a *2.50 cumulative grade-point average*. After declaration, students are expected to maintain at least a *2.50 grade-point average*, which is the minimum required for study abroad at UNH.

IA 401, a prerequisite for IA 501, should be taken during the fall of the freshman or sophomore year, and IA 501 no later than spring of the sophomore year.

The foreign experience (usually completed during the junior year) and the foreign language requirement are completed before taking IA 701 in the spring of the

senior year. To acquire the knowledge, skills, and experience that come from residence in a foreign culture, students may spend an academic year, semester, or summer in an academic institution, in an internship with a private or public organization, or in purposeful travel.

The completion of the dual major requires no additional credits for graduation beyond the 128 required of all UNH students. All coursework required for international affairs must be completed with a *grade of C or better*. For information, contact the Center for International Education, Hood House, 862-2398.

Marine Sciences

Undergraduate programs in marine science and ocean engineering at the University of New Hampshire reflect the diversity of the ocean itself and are enriched by easy access to a variety of natural laboratories, including tidal rivers, estuaries, coastal areas, and the open ocean.

Studies in marine science and ocean engineering are offered through various departments of the university. Students identify the discipline (ranging from zoology through earth sciences to mechanical engineering) they like best and pursue marine specializations related to that area of study. Studies can take place in research laboratories on campus as well as at various field stations or aboard UNH research vessels.

Marine Program

The Marine Program provides a campuswide focus on marine activities and maintains specialized facilities to support efforts of faculty in individual departments and organized research units. The Center for Marine Biology, the Center for Ocean Science and the Center for Ocean Engineering—the Marine Program's three major components—provide education and research activities in their particular areas.

Estuarine research is pursued at the Jackson Estuarine Laboratory on Great Bay, which is designated a National Estuarine Research Reserve. The Coastal Marine Laboratory, a major running-seawater facility, is located in nearby New Castle. Research on salmonids and other freshwater animals is conducted at the Anadromous Fish and Aquatic Invertebrate Research Laboratory, located near the Durham reservoir. The Institute for the Study of Earth, Oceans, and Space is a major center for ocean sciences re-

search. The on-campus Ocean Engineering Laboratory houses both educational and research activities. Off-shore and coastal studies are carried out aboard the university's 50-foot research vessel, which has docking facilities at the Jackson Lab and at the State Fish Pier in Portsmouth Harbor. During the summer, students may live and study at the Shoals Marine Laboratory on Appledore Island, one of the Isles of Shoals. UNH and Cornell University cooperatively offer undergraduate courses in marine sciences in a summer field laboratory setting. Each facility contains up-to-date specialized equipment, including navigational and sampling aids aboard the research vessel.

Curricula in the Marine Sciences

There is currently one undergraduate major and three minors in the marine sciences. The College of Life Sciences and Agriculture offers a major in biology with an option in marine and freshwater biology (see biology under COLSA). Alternatively, students can declare a major in an established science discipline and augment it with a minor in one of marine biology, ocean engineering, or oceanography.

Marine Biology

The minor in marine biology, available to all students in the university, consists of 20 credits with grades of C- or better and no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program are selected in consultation with the minor adviser.

Students who want to minor in marine biology must take one introductory course (ESCI 501, Introduction to Oceanography; ZOOL/PBIO 503, Introduction to Marine Biology; or ZOOL 674, Field Marine Science) and four courses concentrating on an area of interest. For example, a student interested in marine mammals might take Mammalogy (ZOOL 712), Marine Invertebrate Evolution and Ecology (ZOOL 628), and Fisheries Biology (ZOOL 772). Courses commonly taken as part of the minor include PBIO 625, 721, 722, 725; CIE 747; MICR 714, 707; ZOOL/PBIO 503; ZOOL 628, 674, 751, 753, 772, 775. In addition, students are encouraged to become involved in a research project, either by working in a professor's laboratory or by participating in the Undergraduate Ocean Research Program (TECH 797).

Students should declare their intention to minor in marine biology before the end of the junior year. During the final term, students should apply to the dean to have the minor shown on their transcript.

Ocean Engineering

The ocean engineering minor allows undergraduate engineering students to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

In addition to meeting the university minor requirement of 20 credits, students must satisfactorily complete a minimum of five courses from the following list: ESCI 501, Introduction to Oceanography; OE 690, Introduction to Ocean Engineering; ESCI 752, Chemical Oceanography; ESCI 758, Introductory Physical Oceanography; ESCI 759, Geological Oceanography; OE 710, Ocean Measurements Lab; OE 753, Ocean Hydrodynamics; OE 754, Ocean Waves and Tides; OE 761, Materials in the Ocean; OE 781, Physical Instrumentation; OE 785, Underwater Acoustics; OE 795, Special Topics in Ocean Engineering; OE 751, Naval Architecture in Ocean Engineering; OE 752, Submersible Vehicle Systems Design; CIE 747, Introduction to Marine Pollution and Control; OE 757, Coastal Engineering and Processes; and TECH 797, Undergraduate Ocean Research Program. Ordinarily, students must take ESCI 501, TECH 797, and OE 690 plus two additional engineering courses from the above list to complete the minor.

Students wishing to take the ocean engineering minor should indicate their interest to the ocean engineering minor adviser, Kenneth C. Baldwin, Department of Mechanical Engineering, no later than the beginning of the junior year. During the final semester, students must apply to the dean to have the minor shown on their transcript.

Oceanography

The minor in oceanography, available to all students in the university through the Department of Earth Sciences, consists of a minimum of five courses with grades of C (2.00) or better and no pass/fail courses. No more than 8 major requirement credits may be used. All courses in the program are selected in consultation with the oceanography minor adviser, T. C. Loder, in the Department of Earth Sciences.

Required courses include (1) ESCI 501, Introduction to Oceanography; (2) two of the following courses: ESCI 750, Biological Oceanography; ESCI 752, Chemical Oceanography; ESCI 758, Introductory Physical Oceanography; ESCI 759, Geological Oceanography; (3) any two of the following courses, or a suitable substitute approved by the minor adviser (at least one of these courses should be in the biological sciences): PBIO 625, 722; CIE 747, 757; ESCI 653, 754, 756; EOS 754; MICR 707; OE 690, 710, 751, 752, 753, 754, 757, 785; RECO 611; TECH 797; ZOOL 503, 560, 674, 720, 725, 730, 751, 753, 772, 775; ZOOL/ESCI 750.

Students are encouraged to declare their intention to minor in oceanography before the end of the junior year. During the final semester, students should apply to the dean to have the minor shown on their transcript.

Shoals Marine Laboratory

The University of New Hampshire, in cooperation with Cornell University, offers a summer field program in marine sciences on Appledore Island of the Isles of Shoals. Courses introduce undergraduates to a broad array of marine sciences, including oceanography, marine biology, fisheries, and marine resources. Introduction to Field Marine Science (ZOOL 474), a three-week, 4-credit course, is offered each summer at the Shoals Marine Lab. It has no prerequisites and satisfies the general education requirement in the biological sciences. The four-week, 6-credit general course, Field Marine Science (ZOOL 674), is offered in June and August of each summer. It draws upon the backgrounds of more than fifteen faculty and many others, including captains, fishermen, and others whose living is associated with the sea. At least one full year of college biology or the equivalent is a prerequisite. Daily lectures and work in laboratory and field are offered; the course is graded on a letter grade basis. Other credit courses are offered in marine pollution, marine botany, adaptations of marine organisms, underwater research, and other areas. For further information, contact the Center for Marine Biology, Jackson Estuarine Laboratory, University of New Hampshire.

Diving Program

The UNH diving program offers instruction in scuba diving and research diving

techniques. It also provides professional diving support for underwater research. The Shoals Marine Laboratory offers courses in marine archaeology and underwater research during the summer, under the guidelines of UNH diving regulations. For further information, contact Paul Lavoie, diving safety officer, through the Marine Program Office in the Ocean Engineering Building.

Marine Research

There are many opportunities for undergraduates to participate in marine research involving UNH faculty.

The University of New Hampshire and the University of Maine at Orono have a joint Sea Grant College Program that supports research, teaching, and service projects through funding from the National Oceanic and Atmospheric Administration of the Department of Commerce. Marine research projects also receive support through the National Science Foundation, the Department of the Interior, the Office of Naval Research, and other foundations and private donors.

Extensive research, interdisciplinary academic programs, and the extraordinary variety of marine environments and facilities allow students to observe and learn about the frontiers of science and technology being explored in the ocean. For further information about marine opportunities, contact the Marine Program Office in the Ocean Engineering Building.

Race, Culture, and Power

The minor in race, culture, and power offers a wide variety of opportunities to study the historical, psychological, social, and economic implications of race and culture in the United States and in the world. The goal of the minor is to promote a broad and empathetic conception of culture and to offer productive ways of addressing racial and cultural differences. Courses for the minor are designed to promote knowledge of particular cultural experiences, and to enable students to develop critical perspectives on the function of racial and cultural difference in the constitution of social power.

To complete the minor, students are required to take an introductory course (INCO 450) and then 16 credits of electives. Student must earn a C- or better in each course, and maintain a 2.00 grade-point average in courses taken for the minor. Ordinarily, no two electives may

be taken from the same academic department. A relevant internship may be substituted for one of the electives. Electives may include a senior seminar.

A selected list of electives follows.

-
- INCO 450, Introduction to Race, Culture, and Power
 - AOE 630, Development of Food and Fiber in Third-World Countries
 - AMST 502/ENGL 517, Introduction to African American Literature and Culture
 - AMST 696, Seminar in American Studies: Black Protest in the Sixties
 - ANTH 500, Peoples and Cultures of the World
 - ANTH 512, Introduction to World Ethnography
 - ANTH 697, Special Topics in Anthropology*
 - CMN 572, Language and Behavior
 - CMN 596, Special Topics in Media Studies*
 - CMN 680, Perspectives on Culture and Communication
 - ECON 668, Economic Development
 - EDUC 797, Seminar in Contemporary Educational Problems
 - ENGL 581, Introduction to Postcolonial Literatures in English
 - ENGL 690, Introduction to African American Literature in America
 - ENGL 739, American Indian Literature
 - ENGL 750, Special Studies in American Literature
 - FREN 676, Topics in French Civilization
 - GEOG 402, Regional Geography of the Non-Western World
 - HIST 505, African American History
 - HIST 507, Native Peoples of the Americas
 - HIST 509, Law in American Life
 - HIST 588, History of Africa South of the Sahara
 - HIST 603, The European Conquest of America
 - HIST 609, American Legal History: Special Topics
 - HIST 616, 20th-Century America
 - HIST 631, History of Brazil
 - HIST 684, History of Southern Africa since 1820
 - POLT 651, Special Topics in Comparative Politics*
 - SW 525, Introduction to Social Welfare Policy
 - SOC 530, Race and Ethnic Relations
 - SOC 645, Class, Status, and Power
 - SOC 750, Middle East: Issues of Ethnicity, Work, and Identity
 - SPAN 526, Latin American Civilization and Culture
 - SPAN 798, Special Studies in Spanish Language and Literature*
 - THDA 563, Theater Dance II
 - WS 595, Special Topics in Women's Studies*
 - WS 796, Advanced Topics in Women's Studies*
 - WS 798, Colloquium in Women's Studies*

*These courses must be approved by an adviser for the race, culture, and power minor.

For more information and to be assigned an adviser for the race, culture, and power minor, contact Bill Woodward, Department of Psychology, 862-3199 or Carmen Buford, Academic Affairs, 862-3753.

Student-Designed Majors

Under special circumstances, students may design their own majors. This option is offered for highly motivated and self-disciplined students who seek a course of study that is not available through existing programs at the university. It allows students, with the close supervision of faculty members, to cross department and college lines and to create educational experiences on and off campus as part of individual programs of study.

Student-designed majors are administered by a committee of elected faculty that operates through the Office of the Provost and Vice President for Academic Affairs. Students who want to design their own majors are expected to give the committee evidence of careful thought and planning in a detailed proposal submitted before the middle of their junior year. Proposal guidelines are available in the Office of the Provost and Vice President for Academic Affairs.

Technology, Society, and Values

The technology, society, and values (TSV) minor integrates studies of the nature of technology, its social and environmental impact, and its ethical implications. It allows students in technological majors to understand their disciplines in a broader context, and those in nontechnological majors to become better informed about technology and its effects. It provides courses which illuminate technological achievements and dilemmas spawned by technology, and arranges public programs at which policy and ethical issues on technology are addressed.

The student minoring in TSV must complete a minimum of 20 credits of TSV courses. All students in the minor must take PHIL 424, Science, Technology, and Society. TECH 583, Technology: Cultural Aspects is required of all non-engineering students. Other students, particularly those in the College of Engineering and Physical Sciences, may petition out of the TECH 583 requirement with the approval of the TSV adviser.

The remaining courses to constitute the minor must be selected from the following list.

CHE 410, Survey of Current Energy and Pollution Control Technology
 CIE 520, Environmental Pollution and Protection—A Global Context
 CMN 455, Introduction to Mass Communication
 CMN 647, Rhetoric of Science
 EC 501, Environmental Philosophy
 EC 535, Contemporary Conservation Issues
 ENGL 521, The Nature Writers
 HMP 401, U.S. Health Care Systems
 HIST 521, The Origins of Modern Science
 HIST 522, Science in the Modern Period
 HIST 523, Introduction to the History of Science
 HIST 654, Topics in the History of Science
 INCO 401, War
 NURS 670, Issues in Health Care of the Aged
 PHIL 424, Science, Technology, and Society
 PHIL 447, Computer Power and Human Reason
 PHIL 630, Philosophy of the Natural Sciences
 PHIL 660, Law, Medicine, and Morals
 TECH 583, Technology: Cultural Aspects
 TOUR 767, Social Impact Assessment

The student may apply at most 4 credits within his or her major, and at most 8 credits within any one department, toward the TSV minor.

Students interested in minoring in TSV should contact the TSV coordinator, George Romoser, in the TSV Office, 334 Huddleston Hall or in 214A Horton Social Science Center, 862-1778, fax 862-0178.

War and Peace Studies

War is the scourge of humankind. Tribes, cities, and nations have gone to war against each other for as long as we have record; only here and there, among some small "precivilized" groups, has war been absent or strictly controlled. For as long as we have record, too, we find thoughtful people crying out against war and pleading for peace, arguing for principles to govern war's conduct and laboring to mitigate war's effects, imagining a world where war is abolished, and taking steps to bring that world about. As the scale of war has grown to a size now great enough to devastate the entire globe in a single conflict, more and more people have devoted themselves to preventing war and finding acceptable substitutes. In the nuclear era, age-old moral and religious discussion has

joined with historical study and practical, even technical, research to produce a set of related disciplines sometimes called "war and peace studies."

To meet the requirements for the war and peace studies minor, students must complete two core courses (8 credits) and 12 credits of elective courses with a grade of C- or better. At least one core course must be completed before any elective can be counted toward the minor. Ordinarily no two electives (or no more than 4 credits) may be taken from the same academic department. No elective may count for both a student's major and the war and peace minor. A relevant internship may be substituted for one of the electives. As they are announced, other relevant courses may be added to the list of acceptable electives. Students may request others not so listed. Courses carrying fewer than 4 credits will be counted as partial satisfaction of an elective requirement. If a good case can be made for it, a departure from any of these rules may be approved by the adviser for the minor and the coordinator.

All students will be assigned an adviser from the membership of the Committee on War and Peace Studies, ordinarily one not in the student's major department. The adviser will assist students in constructing a coherent program that suits their particular interests.

The core courses are INCO 401, War, and INCO 402, Peace. Occasionally a new core course may be devised.

Departmental elective courses will include the following:

AERO 681, National Security Forces in Contemporary American Society (3 cr.)
 CMN 456, Propaganda and Persuasion
 EC 535, Contemporary Conservation Issues
 HIST 520, The Vietnam War
 HIST 537, Espionage and History
 MILT 413, The Defense Establishment and National Security (1 cr.)
 MILT 502, American Military History (2 cr.)
 POLT 562, Strategy and National Security Policy
 POLT 761, International Law
 POLT 778, International Organization
 RECO 506, Population, Food, and Resource Use in Developing Countries
 SOC 780, Social Conflict

Special offerings that may serve as electives:
 ANTH 797, Advanced Topics in Anthropology (e.g., War and Complex Society)
 ECON 698, Topics in Economics (e.g., Economics of War and Peace)

ENGL 595, Literary Topics; ENGL 693, 694, Special Topics in Literature; ENGL 797, 798, Special Studies in Literature (e.g., Literature of World War I, Literature of the Vietnam War)
 HIST 600, Advanced Explorations in History (e.g., Comparative Revolutions)
 HUMA 690, Special Studies in the Humanities (e.g., Nonviolence, Thinking about War and Peace)
 INCO 404P, Understanding War
 POLT 660, Special Topics in International Politics (e.g., Arms Control and Disarmament)

For more information, contact either Ken Fuld, Department of Psychology, or Michael Ferber, Department of English.

Preprofessional Programs

Prelaw

The Prelaw Committee of the University of New Hampshire recommends consideration of the following description of prelegal education.

Law schools are vitally concerned with the quality of preparation that students bring from their undergraduate experiences. For unless that preparation has been of high quality, the law schools cannot equip them for satisfactory performance within the legal profession and the democratic community.

The Prelaw Committee's responsibility in matters of prelegal education cannot best be met by prescribing certain courses and extracurricular activities for students planning to study law. The wide range of a lawyer's tasks opens a correspondingly wide range for choice in prelaw preparation. So-called law courses in undergraduate instruction should not be taken for the purpose of learning the "law." They are not likely to be effective as education for lawyers, although they can be very useful for teaching students "about law" and for helping them estimate whether they might be interested in law study.

But while it considers the prescription of particular courses unwise, the association can call attention to the quality of undergraduate instruction it believes fundamental to the later attainment of legal competence. That quality of education is concerned with the development

in prelaw students of the following basic skills and insights.

Comprehension and Expression in Words

Language is the lawyer's working tool. He or she must be able, in the drafting of legal instruments, to convey meaning clearly and effectively. In oral and written advocacy he or she must be capable of communicating ideas convincingly and concisely. In reception, no less than in expression, language is fundamental as the lawyer's medium of communication. For the lawyer must be able to grasp the exact meaning of factual statements and legal instruments, to catch the fine points of legal reasoning and argument, and to comprehend the technical materials that constitute the body of the law. To acquire sufficient capacity for communication requires extensive practice in all phases of the art. Truly, the legally trained man or woman must be precise in the use of the English language.

Critical Understanding of Human Institutions and Values

The purpose is to develop insight into, rather than merely information about, institutions and values: human nature and the physical world; the economic systems of societies; the democratic processes in western societies; the social structures of societies; the cultural heritage of western societies, including philosophy and ethics.

Creative Power in Thinking

The purpose is to develop power to think clearly, carefully, and independently. A large part of the work legally trained people are called upon to do calls for problem solving and sound judgment. Creative power in thinking requires the development of skills in research, fact-completeness, marshaling and differentiation of facts, deductive and inductive reasoning, reasoning by analogy, critical analysis, constructive synthesis, and power of decision.

For additional information, please contact a member of the Prelaw Committee: Richard Desrosiers, at the Advising Center, 7 Hood House, 862-2064, also in the Department of Classics, 303 Murkland Hall, 862-3132; William Jones, History, Horton Social Science Center, 862-3025; John Kayser, Political Science, Horton Social Science Center, 862-1699; or Ann Morgan, Recreation Management and Policy, Hewitt Hall, 862-2391.

Premedical/Prehealth Care Professional Study

Students preparing for careers in medicine, dentistry, optometry, osteopathy, podiatry, pharmacy, and physician assistant programs should become familiar with the minimum course requirements in their respective fields of interest as early as possible in order to incorporate the required courses into their college programs. There is no premedical/prehealth professional major with a rigidly prescribed curriculum. Students are encouraged to major in subjects of their choice, either in sciences or nonsciences. In the past few years there has been a trend, particularly in premedicine and predentistry, away from exclusive concentration in a single area of science. Successful applicants from UNH have majored not only in sciences such as zoology, microbiology, biology, biochemistry, and chemistry but also English, history, languages, psychology, political science, and engineering as well as economics. (For information on the Preveterinary Science Option in Animal Sciences, see page 46.)

Students are assigned an appropriate academic adviser from the department or school of their chosen major. The Premedical/Prehealth Care Professional Advisory Office provides information about specific admission requirements and procedures to the professional schools desired and provides recommendations at the time of application.

All medical and dental schools expect applicants to have demonstrated ability in basic natural and physical sciences. Although the specific requirements for admission vary considerably, the following courses constitute a *minimum* for students to be considered for admission: biological sciences, physics, general chemistry, and organic chemistry—all two semesters each with laboratory. A year of English, preferably composition, is required, as are one or two semesters of calculus. An appropriate group of courses from among the offerings at the university would be the following: BIOL 411-412; PHYS 401-402; CHEM 403-404 (or 405-406, 405-517/518), 651/653, 652/654; ENGL 401, 501 or 503, 519, 529; MATH 424B and BIOL 528, or MATH 425, 426. One semester of general psychology is also required by some dental schools. Contact the Premedical/Prehealth Care Professional Advisory Office, 11 Hood House.

Courses that qualify individuals for consideration as premedical, pre dental, or other preprofessional students should be completed by the time application to a professional school is submitted, usually by the end of the junior year. Inasmuch as performance in these courses is weighted heavily by the admissions committees, it is strongly recommended that students not register for them under the pass/fail grading alternative.

The following schedule is suggested for timing applications to medical and dental schools:

1. Students should apply to schools of their choice in the summer after their junior year if they wish acceptance following graduation. However, a delay of a year or more to complete courses or to gain exposure to the profession is neither detrimental nor unusual for acceptance into medical or dental school. Applications are accepted from June through October/November. Early applications are advantageous because most schools have a rolling admissions policy.

2. The Medical College Admission Test (MCAT) or the Dental Admission Test (DAT) must be taken before or at the time of application to medical or dental schools. The MCAT and DAT exams are preferably taken in the spring of the student's junior year (if the student is applying as a senior).

3. Interested students should contact the Premedical/Prehealth Advisory Office early in their college careers, since services provided by this office are integral to the admissions process. Visit the office or call 862-3625 for an appointment.

Among students from UNH who were accepted into medical and dental schools over the past five years, the competitive overall grade-point average was approximately 3.50 for medical school and 3.20 for dental school.

Off-Campus Programs

UNH/UNHM

Cross Registration

Matriculated students at the University of New Hampshire and the University of New Hampshire at Manchester may take UNH courses at either location. Students must have permission from their academic advisers and must register for the

courses on a space-available basis. For more information and special registration forms, students should contact James Wolf, associate registrar, Stoke Hall, or Regina McCarthy, director of academic counseling, UNHM. See page 199 for UNHM course listings.

Consortium (NHCUC) Student Exchange Program

Under the Student Exchange Program of the New Hampshire College and University Council (NHCUC), UNH students may be eligible to enroll for one or two courses, one semester of courses, or a full year of coursework at a member school, on a space-available basis. The consortium exchange allows matriculated undergraduates to use educational resources that are not available at the home campus and are considered appropriate for their degree programs. The consortium exchange will be used only when academic reasons or other special circumstances warrant it. Approval of the UNH adviser and college dean is required. Schools in the NHCUC consortium include Colby-Sawyer College, Daniel Webster College, Franklin Pierce College, New England College and its Arundel Branch in England (limited enrollment), New Hampshire College, Notre Dame College, Rivier College, St. Anselm College, UNH, Keene State College, and Plymouth State College. Students will remain as degree candidates and continue to pay normal UNH tuition and fees, but must make their own room and board arrangements if they plan to spend a full semester at another consortium school. For more information and application forms, students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

New England Subdegree Exchange Program

In order to provide students at the New England land-grant universities with expanded access to unique programs and faculty expertise, the institutions have agreed to encourage student exchanges of one, but not more than two, semesters. To qualify, students must identify a course or combination of courses related to their area of academic interest and not available on their home campus, be degree candidates in good standing with at least a 2.50 grade-point average, be at

least first-semester sophomores, and receive permission from the appropriate university exchange authorities at both the sending and receiving institutions. Interested students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

Exchange Programs within the U.S.

The university offers many possibilities for exchange study with other American institutions. Exchange programs provide an educational experience in a different environment within the United States. It is hoped that students will develop new ways of viewing the country and expand their knowledge of our complex society.

A one-semester or full-year exchange program is available with the University of California, Santa Cruz. In addition, through the National Student Exchange, UNH students can study at more than one hundred colleges and universities throughout the country (including, but not limited to, North Carolina, New Mexico, Utah, Colorado, and Alaska and Puerto Rico). Several historically black colleges and universities are exchange members.

To qualify for exchange study, students must be full-time undergraduate degree candidates with at least a 2.50 grade-point average, have declared a major, receive permission from their college dean and adviser, and receive permission from the exchange coordinator.

Students in exchange programs are expected to return to UNH to complete their studies. Participation in an exchange program does not disrupt the continuity of a student's educational process. Exchange program participants continue to maintain their status as UNH students, even while temporarily located at another university. Students thus do not have to withdraw from school and later be readmitted. Maintaining UNH student status also facilitates reentry into classes, on-campus housing, and many other dimensions of university life.

Interested students should contact Carolyn Tacy in the National Student Exchange Office in Hood House.

Study Abroad Programs

The university offers opportunities for full-time, degree candidates with a de-

clared major, 32 credits, and minimum 2.50 grade-point average to study in many foreign institutions. Opportunities in Canada, England, France, German-speaking countries, Hungary, Japan, the Netherlands, Russia, and Spain are described below. Students may study abroad in other locations through approved non-UNH programs by using the intercollege option (INCO). All students who transfer credit from study abroad through non-UNH programs will be charged a transfer credit approval/transcripting fee. For information on study abroad programs, students should contact the Center for International Education (Hood House) or the departments identified in the UNH program descriptions below.

Canada

New England/Quebec Student Exchange Program

Students may spend one or two semesters during their junior or senior year at one of eighteen French- or English-speaking universities in the province of Quebec. Eligibility requirements include a command of the language of the host campus, U.S. citizenship, and sophomore or junior standing. Contact the Center for International Education, Hood House.

New England/Nova Scotia Student Exchange Program

Students may spend one or two semesters during their junior or senior year at one of eleven participating Nova Scotia institutions offering programs in the liberal arts, agriculture, business, engineering, art, and other fields. Eligibility requirements include U.S. citizenship and sophomore or junior standing. Contact the Center for International Education, Hood House.

England

Cambridge Summer Program

For six weeks each summer, students from across the United States have the opportunity to participate in the Cambridge Summer Program held at Cambridge University in England. Program participants take courses in English, history, or the humanities, taught by faculty from Cambridge University and UNH. Students live, dine, and study together at Gonville and Caius College, one

of the oldest colleges at Cambridge. The program is open to students who have successfully completed at least one year of college; participation fulfills UNH's (Group 5) foreign culture, General Education Requirement. For more information, contact the director at the Department of English, Cambridge Program Office, 53 Hamilton Smith Hall.

London Program

At Regent's College in the heart of London, the University of New Hampshire sponsors courses in British studies, the arts, humanities, and a wide range of other basic subjects, offered during the fall and spring semesters. Taught by British and American faculty members, many of the courses are specifically concerned with British studies or have a special British emphasis. The program allows students to spend a semester or year in London while still making normal progress toward their U.S. degrees. To be eligible, students must have successfully completed at least one year of college and must have an overall grade-point average of at least 2.50. Interested students should contact the program coordinator, London Program Office, 53 Hamilton Smith Hall.

London Summer Program

The university also offers a summer program Regent's College (see London Program, above). Introductory courses from a variety of humanities and social science disciplines are offered in two intensive three-week sessions. Students take one course per session. As during the regular academic year, the offerings are taught by British and American faculty and have either a specifically British subject emphasis or a cross-cultural focus. To be eligible, students must have successfully completed at least one year of college and must have an overall grade-point average of 2.50. Interested students should contact the London Office, 53 Hamilton Smith Hall.

France

Summer French Language Program in Brest

Qualified students may take the equivalent of FREN 503 and/or 504, the UNH Intermediate French sequence, or FREN 631 and/or 632, the UNH advanced French sequence, in Brest. A port city in the province of Brittany in western France, Brest is a sister city of Portsmouth, New Hampshire. The courses are

offered consecutively in two intensive four-week summer sessions at the Centre International d'Études des Langues (CIEL). Students live with local families and attend classes a total of 24 hours per week. Credit for courses completed successfully will be automatically transferred to UNH. For more information, contact Barbara Cooper, Department of French and Italian, Murkland Hall.

Junior Year Program in Dijon

The Department of French and Italian sponsors a junior year abroad program at the University of Burgundy in Dijon, France. Students live with French families in the heart of this historic city and take classes at the university with French students. Credit for all work completed successfully will be automatically transferred to UNH. The program is open to those who have completed FREN 631-632 and FREN 651-652, with a grade of B or better. For more information, see Jack Yeager, Department of French and Italian, Murkland Hall.

Business Administration Program in Grenoble

The New England State Universities offer a spring semester of study in international marketing at the Groupe ESC Grenoble. This is an opportunity for students interested in international business, economics, and trade to participate in an English-speaking program while gaining exposure to French culture. The semester will begin early in January with a one-week orientation and introduction to France, followed by two weeks of intensive French language. Students will be assessed and placed in the appropriate level. Students will be enrolled in five courses: four taught by Grenoble faculty and one taught by the U.S. faculty member accompanying the group as resident director. The language of instruction is English. Students will earn 16 credits for the program. The program will continue until the end of May. During the semester there will be two one-week breaks and a one-week study trip.

Germany

Summer German Language Program in Berlin

Students with GERM 504 or equivalent proficiency may obtain 8 credits taking GERM 625-626, a course sequence focusing on improvement of language skills and exposure to the history and culture

of contemporary Berlin. The course is taught by UNH staff; students are housed at the Glienicke International Youth Center (IBJG) and with Berlin host families. The program is offered during late May and June (six weeks for 8 credits) and may count toward a German major or minor. Further information is available in the Department of German and Russian.

Programs in German-Speaking Countries

In addition to the UNH summer program in Berlin, students may study for a summer, a semester, or a full year through an approved American study abroad program or by applying directly to universities in Germany, Austria, or Switzerland. Study abroad plans should be discussed with an adviser as early as freshman year. Students must submit a Prior Approval Form after consultation with the major adviser and the study abroad adviser to establish possible UNH equivalents and fulfillment of major and/or general education requirements. To ensure proper credit transfer, students should keep syllabi, course descriptions, and all coursework to document their accomplishments abroad. American programs vary in size, quality, content, and cost. For credit in the German major or minor, the program must be conducted in German. Most programs require a minimum grade-point average of 3.00 and a B average in one's major. To study abroad in a program other than the UNH Berlin Seminar, German majors register for GERM 685 or 686 and nonmajors register for INCO 685 or 686.

Hungary

Budapest University of Economic Sciences

Students may spend the fall semester of their sophomore, junior, or senior year in Budapest, Hungary. Participants take classes in English that are approved for UNH credit toward major, minor, and general education requirements. Courses in the social sciences, political science, economics, and business are taught at the Budapest University of Economic Sciences, an internationally recognized institution in both education and research. During their semester abroad, students gain an understanding of international history and the impact of modern America and industrialization on eastern Europe. Contact the Institute for Policy

and Social Science Research, Hood House, 862-2186.

Engineering and Physical Sciences Exchange Program in Budapest

The College of Engineering and Physical Sciences has arranged an opportunity for its students to spend the fall semester of their junior year at the Technical University of Budapest in Budapest, Hungary. Courses at TUB are taught in English and receive prior approval for degree credit. Students studying at Budapest, therefore, will graduate on schedule at UNH. A general education course on the language, geography, and culture of Hungary, taken at TUB, is required. The foreign student office at TUB will appoint a Hungarian adviser for each student and will assist in obtaining housing either in dormitories, or in apartments. Further information is available from the college's associate dean and the college's foreign exchange program coordinator, Andrzej Rucinski, Department of Electrical and Computer Engineering.

Japan

Kansai Gaidai University, Osaka

Students may spend one or two semesters during their junior or senior year at Kansai Gaidai University in Osaka, Japan. Program participants study the Japanese language, business, politics, literature, fine arts, and other courses. Eligibility requirements include a 3.00 grade-point average and sophomore, junior, or senior standing. Contact the Center for International Education, Hood House.

The Netherlands

International Business and Economics Program in Maastricht

The New England Universities offer a fall semester of study in International Business and Economics at the University of Limburg in Maastricht. This program provides students who are interested in multinational business and economics the opportunity to participate in an English-speaking European studies program. Students admitted to the program will earn 16 credits. The semester begins in late August with an orientation program and ends in mid-December. Participants will enroll in five 3-credit courses:

three required courses and two electives. All instruction is in English. The university will consider applications from full-time undergraduate business and economics majors who have at least a 2.70 average and sixth- or seventh-semester standing by the fall of enrollment in the program. Other majors with a special interest in business and economics and exceptional fifth-semester students will be considered. Students must have completed at least the introductory courses in economics prior to the beginning of the program, and priority will be given to students who have also taken international trade or international finance. A transcript will be requested, as well as letters of recommendation from faculty members and others who know the student.

Russia

Programs in Russia

The UNH-sponsored program is designed for students who have completed RUSS 632 or equivalent with a grade of B or better. It serves not only as a mechanism for improving language skills, but also for developing skills necessary for cross-cultural communication, where the audience is Russian and the topic is American English and current American culture and civilization. UNH students spend a semester in St. Petersburg, Russia, where they (1) take courses in Russian language and/or culture at an accredited Russian university, and (2) study foreign language and culture and civilization pedagogy with local methodologists and serve as interns in a local precollege, a higher education institution, adult education program, or a nongovernmental organization.

In addition to the UNH-sponsored study abroad program in Russia, there are a number of approved study programs that provide the opportunities for students from UNH to earn college credits for spending a summer or a semester at an institution of higher learning in Russia. For further information about these approved programs, students should contact faculty members of the UNH Department of German and Russian in Murkland Hall, 862-3522.

To receive credit for study abroad in Russia, students should register for RUSS 685 or 686.

Spain

Granada Program

The Granada program is administered jointly by the Spanish departments of the Universities of New Hampshire, Connecticut, and Rhode Island. Students may spend one or two semesters in a program designed for those who have completed SPAN 631 or its equivalent, have a B average in Spanish and a cumulative grade-point average of 2.50, and have at least sophomore status. Courses taught by professors from the University of Granada fulfill requirements for the Spanish major and minor and general education requirements in humanities areas. Deadlines for fall applicants is March 1; for spring applicants, October 1. For further information, contact the Department of Spanish and Classics, 209 Murkland Hall. (See also SPAN 685, 686 on page 192.)

Other Programs

Honors Program

The University of New Hampshire has a tradition of encouraging academic achievement through its twenty-one honorary societies, including active chapters of Phi Beta Kappa and Phi Kappa Phi. In 1984, the university took another step toward the recognition of outstanding students by establishing an undergraduate honors program. The University Honors Committee, made up of representatives from all colleges of the university, the Office of Admissions, the Division of Student Affairs, and the Registrar's Office, supervises the operation and requirements of the program.

There are two ways to enter the University Honors Program:

1. The Office of Admissions identifies a number of qualified incoming freshmen who are then invited to submit an application to the honors program. The honors committee reviews these applications and determines admission to the program.

2. Freshmen who achieve a grade-point average of 3.20 or better during their first semester are also invited to join the program.

Participation in the University Honors Program does not add courses to

those required to graduate. The first two years of the program focus on general education requirements. Students take a minimum of four honors-designated general education courses, one of which is an honors seminar based on a special topic. All students must attain a cumulative grade-point average of 3.20 by the end of their sophomore year in order to continue in the honors program.

The upperclass part of the honors program consists of honors work in the majors. A booklet describing these programs is available in department and college advising offices as well as in the Honors Program Office. Programs with "honors in major" work are animal sciences, anthropology, arts, biochemistry, business administration, chemistry, chemical engineering, civil engineering, classics, communication, communication disorders, computer science, earth sciences, economics, English, electrical and computer engineering, environmental conservation, family studies, forestry, French, geography, German, health management and policy, history, hospitality management, humanities, kinesiology (exercise specialist option), linguistics, mathematics, mechanical engineering, medical laboratory science, microbiology, music, nursing, occupational therapy, philosophy, physics, plant biology, political science, psychology, resource economics, Russian, social work, sociology, Spanish, theatre, wildlife management, women's studies, and zoology. The University Honors Committee has developed a "university honors" option for students in majors that do not offer honors work. Contact the Honors Program Office for further information.

To satisfy honors program requirements, students must have a final cumulative grade-point average of 3.20. All courses used to achieve "university honors," "university honors in major," or "honors in major" must have a minimum grade of B-. Successful completion of University Honors Program requirements entitles the student to receive the designation "university honors" or "university honors in major" on his or her academic record and diploma. Completion of "honors in major" only is similarly denoted.

Full-tuition and partial-tuition merit-based scholarships are available to a select number of incoming freshmen. Several partial-tuition scholarships are also awarded to upper-class students. For

more information, please contact Robert Mennel, director, University Honors Program, Hood House.

Reserve Officer Training Corps Programs

The Army and Air Force offer Reserve Officer Training Corps (ROTC) programs leading to a commission as a second lieutenant in their respective services. Both programs are open to men and women. Students in either ROTC program may pursue any university curriculum that leads to a baccalaureate or higher degree.

Two- and four-year programs are available. The four-year program is open to freshmen, sophomores, and transfer students who began ROTC at another institution. In addition to on-campus ROTC course requirements, students must attend an officer preparatory training session for a part of one summer.

ROTC is open to all students pursuing a baccalaureate degree who have a minimum of two academic years or more remaining within their degree program. Entering freshmen may preregister for MILT 413 (AROTC) or AERO 415 (AFROTC). Sophomores desiring to enter ROTC should check with either the Army or Air Force enrollment advisers located in Zais Hall.

Two-year ROTC programs are open to students who have two academic years of study remaining at the university. Applicants for the two-year program must attend a six-week training session during the summer immediately before their entry into ROTC.

ROTC scholarships are offered on a competitive basis by both the Army and Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. Additionally, incoming students with either a four-year or three-year ROTC scholarship will receive a room and board grant for the entire time that they are on an ROTC scholarship. Students in a four-year ROTC program and two-year program applicants compete for scholarships covering their remaining academic years. Scholarships pay for tuition, mandatory university fees, and required textbooks for all courses. Limits may be placed on these scholarships dependent upon the type and amount of expenses incurred. In addition, all scholarship recipients receive a tax-free \$150-per-month subsistence

allowance. Nonscholarship students in the last two years of the ROTC program also receive the tax-free \$150-per-month subsistence allowance.

Students in Air Force ROTC are required to take a math reasoning course from a list approved by the professor of aerospace studies as part of their curriculum.

More specific information about ROTC programs may be obtained by contacting the professor of military science (Army ROTC) or the professor of aerospace studies (Air Force ROTC).

Undergraduate Research Opportunities Program (UROP)

Students can enhance their undergraduate education through collaborative research projects with faculty members. The Undergraduate Research Opportunities Program offers participants the chance to improve research skills and to acquire an understanding of the nature of research in an academic field. Students may apply to the program to receive awards and fellowships in support of their research projects. They may conduct their research on campus or at appropriate research sites in the United States and abroad. Participation in the program can also aid students in making choices and developing plans concerning careers and graduate schools. For information, please contact Donna Brown, director, UROP Office, Hood House.

THOMPSON SCHOOL OF APPLIED SCIENCE

Brian A. Giles, Director
 Davis H. Burbank, Assistant Director
 Emily J. Creighton, Admissions Coordinator

Applied Animal Science
 Dairy Management
 Equine Management
 Small Animal Care
 Applied Business Management
 Business Computing
 Business Management
 Civil Technology
 Architecture Technology
 Construction Management
 Surveying and Mapping
 Food Services Management
 Dietetic Technician
 Restaurant Management
 Forest Technology
 Forest Technician
 Horticultural Technology
 Landscape Operations
 Floriculture Operations
 General Ornamental Horticulture

The Thompson School is a two-year school within the university offering the associate in applied science degree. A combination of science-based education, professional preparation, and practical experience qualifies graduates for employment as technicians, professional assistants, and supervisors in business and public organizations, or as small-business owners.

Facilities

The Thompson School of Applied Science is one of the few two-year schools in the country located on the campus of a major university. Thompson School students share residence and dining halls with UNH students and actively participate in university social life. They receive the same consideration for financial aid as all other UNH students, use the libraries and computer centers, and participate in the nearly one hundred clubs and organizations and in intramural and club sports.

The Thompson School, at the western end of campus, is a ten-minute walk from the center of campus. Barton Hall contains an animal science lab, a food preparation lab, a meat processing center, a biochemistry lab, a computer study cluster, several classrooms, and faculty offices. Cole Hall, the Thompson School headquarters, includes a 150-seat lecture auditorium, a quantity-foods kitchen, Stacey's (a specialty cafeteria), Balcony Bistro (for fine dining), a study area, an instructional computer lab, a computer-aided design (CAD) lab, a thirty-seat seminar room, and administrative offices.

Nearby Putnam Hall houses a grooming area, an architecture lab, a surveying and mapping lab, a GIS (geographical information system) instructional lab, an agricultural mechanization shop, classrooms, and faculty offices. Other facilities include the Dairy Bar (a restaurant and ice-cream shop in a renovated railroad station), a sawmill, high- and low-temperature greenhouses, and a nursery

plot. The Thompson School is also supplemented by many other university facilities including a new Dairy Center, a forty-stall light horse barn, and a new Equine Science Center.

Admissions

The Thompson School of Applied Science welcomes applications from both high school, transfer, and adult students who meet the admission standards of the University of New Hampshire.

High school students who plan to enter the Thompson School after graduation will be considered on the basis of their high school course selection, academic achievement, class rank, and high school recommendations. Emphasis is placed on the applicant's personal motivation, demonstrated interest in a career field, and preparation for college-level studies.

Adult students who have earned a high school diploma (or equivalent) will have both their academic record and their accomplishments since high school considered in the application process. Important factors include the student's professional work and advancement, personal and work-related level of responsibility, learning since high school, and motivation to succeed at college-level studies.

A number of Thompson School specializations require evidence of satisfactory work in high school preparatory courses. Applicants to the following specializations must present at least two years of satisfactory work in college-preparatory mathematics: architecture technology, construction management, and surveying and mapping; business management and business computing; forest technician; and dietetic technician. In addition, applicants to the dietetic technician specialization must also complete one course in biology, and one year of college preparatory chemistry is preferred. Applicants to the specializations in applied animal science must complete one year of biological science in high school.

Associate Degree Programs

The Thompson School of Applied Science offers the following professional program specializations:

Applied Animal Science

Applied animal science provides students with hands-on practical skills combined with knowledge and understanding of the latest technology. The core program provides a solid background in anatomy, physiology, nutrition, health, and animal breeding. In addition, students choose a specialization in either equine management, dairy management, or small animal care. Each specialization allows choices of elective courses in other areas as well.

Practical learning experience is provided at the UNH equine facilities and the new UNH Dairy Center, while the Thompson School also operates its own grooming shop and biology laboratories. The curriculum has a number of animal-related educational programs, including cooperative arrangements with local humane shelters, a pet-assisted therapy program, and field trips to animal-related businesses.

Applied Business Management

The applied business management program combines class work and practical experience to give students a thorough understanding of the business field. Along with a core curriculum of skills in accounting, human resource management, and communications, students choose to specialize in either business computing or business management. In the business computing specialization, students study operating systems, database management, spreadsheet applications, and accounting with microcomputers. The business management specialization allows students to develop skills in accounting, economics, management, salesmanship, and business law. After their first semester, students may take up to three elective courses chosen from university course offerings.

Practical experience is gained through research projects with local industries, municipalities and state agencies, and student-run businesses. Students may also elect to take internships with area businesses.

Civil Technology

The civil technology program offers applicable skills through class instruction, extensive laboratory experience, and

fieldwork. Students choose from one of the following specializations: architecture technology, construction management, and surveying and mapping.

The program offers instruction and practical experience in computer-aided-design (CAD) using the Thompson School's state-of-the-art CAD lab, in field surveying using the latest surveying equipment; in geographical information systems (GIS) using the new GIS Instructional Lab; and in electrical wiring, materials, soils, test methods, and building construction using other dedicated lab facilities.

Food Services Management

The food services management program allows students to choose either the restaurant management or dietetic technician specialization.

The dietetic technician specialization prepares graduates to become certified as registered dietetic technicians (D.T.R.) by the American Dietetic Association (A.D.A.) and to work in hospitals, nursing homes, extended care facilities, and other food service institutions. The program of study consists of coursework in food production, nutritional science, professional preparation, general education, and field experience designed to comply with stringent requirements established by the A.D.A.

The restaurant management program is a carefully developed combination of classroom and laboratory work. Course topics include personnel management, food production, hospitality and function management, food and labor cost control, restaurant management, food and beverage accounting, purchasing, and sales. Students train in classrooms, in state-of-the-art food laboratories, and in the kitchens of two restaurants operated by the program. All students participate in the preparation of gourmet dinners, catered functions, and a work experience offered in cooperation with the New England Center—a restaurant, hotel, and convention center located on the UNH campus.

Forest Technology

Students in the forest technician specialization are given a broad and deep level of instruction that provides them with flexibility when seeking a job in the natural resources field. Graduates have career paths available in wood products-related industries, in public forest-land management agencies, with forestry consulting

firms and urban tree care companies, and with a range of conservation organizations. Technicians help plan, direct, and operate forestry enterprises. Some specific responsibilities include planting, thinning, and other cultural operations; harvesting supervision; design, layout, and construction of roads, trails, and recreational facilities; mapping and surveying; improvement of wildlife habitat; and conservation of soil, water, and other natural resources.

Horticultural Technology

Horticultural technology students gain knowledge and skills in the art and science of applied horticulture. The goal of the program is to give students a general horticultural background while also providing an opportunity to specialize in the fields of floriculture operations, landscape operations, and general ornamental horticulture. The curriculum includes such foundation courses as plant structure and function, woody plant materials, plant propagation, soil technology, and pest management. Employment opportunities in the program's specializations continue to be excellent. Many recent graduates have established their own horticulture enterprises.

How to Apply

You may request a Thompson School catalog and an application for admission by mail or phone from either of the following offices: Thompson School of Applied Science, Cole Hall, 291 Mast Road, Durham, NH 03824-3562 (603) 862-1025; or UNH Office of Admissions, Grant House, 4 Garrison Avenue, Durham, NH 03824-3510 (603) 862-1360.

Campus Visits

Prospective students are encouraged to take part in an interview, an open house, and tours of the Thompson School and the University of New Hampshire. To arrange your visit, please contact the Thompson School at (603) 862-1025.

Transfer Opportunities

The primary goal of most Thompson School students is to acquire the necessary knowledge, skills, and experience to enter employment in their field at the end of two years. However, many gradu-

ates elect to continue their education and earn a bachelor's degree.

Graduates with the associate in applied science degree may continue their education at UNH in a baccalaureate degree program. A grade-point average of at least a 2.50 at the completion of the two-year associate degree is generally required for transfer consideration. Some UNH programs require a higher G.P.A.

to be admitted. Successful completion of a bachelor's degree will, in most cases, require two-and-a-half to three years of additional study at UNH. Thompson School students are encouraged to work closely with their adviser and professors to understand and prepare for transfer opportunities. Many other colleges and universities also welcome Thompson School graduates.

Expenses and Aid

Costs for in-state students averaged \$12,100 in 1995-96 for tuition, room and board, required fees, books and supplies, and personal and travel expenses. Out-of-state students' costs averaged \$20,950. For information about scholarships, loans, and work study, write Financial Aid Office, Stoke Hall, 11 Garrison Avenue, Durham, NH 03824-3511, or call (603) 862-3600.

Sign Language Interpretation

The University of New Hampshire at Manchester was established in 1985 to increase access to a university education for people who live and work in central New Hampshire. The newest college of the university offers associate and selected bachelor's degrees, access to other UNH undergraduate and graduate degree programs, special courses, workshops, seminars, and cultural events for the region.

Degree Programs

The University of New Hampshire at Manchester offers bachelor of arts degree programs in communication, English, history, humanities, political science, and psychology and bachelor of science degree programs in business administration, electrical engineering technology, mechanical engineering technology, nursing (registered nurse certification required), and sign language interpretation. Students are required to satisfy university requirements, which include 128 credits, a 2.00 minimum cumulative grade-point average, general education requirements, and, for the bachelor of arts degree, a foreign language require-

ment. The foreign language is not required in the bachelor of science programs.

Students can also pursue UNH associate in arts or associate in science degree programs full or part time with a choice of concentrations. Requirements for the associate degrees include completion of 64 credits, a 2.00 minimum grade-point average, and an interdisciplinary core course. Those students who complete the last 16 credits of the associate degree with a grade-point average of at least 2.50, earn a cumulative associate degree grade-point average of 2.50 or higher, and are recommended by their academic advisers are guaranteed admission to a baccalaureate program at the university in either Durham or Manchester. The university does not, however, guarantee admission to a specific college or program.

Selected graduate degrees from UNH and other colleges of the University System of New Hampshire are also available through the University of New Hampshire at Manchester.

Minors

The following academic minors are available at UNHM for enrolled baccalaureate candidates. Further information may be obtained from the Academic Counseling Office, (603) 668-0700, ext. 270.

American Sign Language and Deaf Studies
 Art
 Computer Information Systems
 Education
 English
 History
 Humanities
 Philosophy
 Political Science
 Psychology
 Sociology
 Women's Studies

Pre-Majors

Students entering the associate in arts program in general studies may prepare for transfer admission to many baccalaureate degree programs available through the university's Manchester and Durham campuses. By working closely with an academic adviser, general studies students can select structured course plans or pre-majors that are compatible with the following baccalaureate majors:

Biology
 Communication
 Communication Disorders
 Ecology
 Economics
 Engineering
 English
 History
 Humanities
 Marine Biology
 Physics
 Political Science
 Psychology
 Sign Language Interpretation

Credit Certificate Program

The University of New Hampshire at Manchester offers a credit certificate program in sign language interpretation. This program is designed for individuals who want to add to their career or change careers to the field of sign language interpretation. This program is open only to those students who have completed at least a baccalaureate degree program and requires four years (eight semesters) to complete.

College Transition Program

The University of New Hampshire at Manchester's College Transition Program (CTP), formerly known as the Alternative Freshman Year (AFY) Program, enables students to begin their university studies as candidates for the associate in arts degree while receiving an intensive yearlong (two semesters) plan of academic support and study skill enhancement.

Students are identified as CTP eligible during the standard admission application review process and may enter the program during either the spring or fall semester. Typically, CTP students register for credit-bearing courses on a part-time basis. In some instances, CTP students may be required to supplement their academic schedules with noncredit coursework to strengthen writing or quantitative skills.

New Student Orientation and Strategies for Success Workshop attendance is required for CTP enrollment. After orientation, CTP students work closely with academic advisers to design appropriate course plans, establish performance goals, determine which learning support services are required, and monitor academic achievement.

Students who successfully complete two semesters of CTP may continue on to earn their associate degree through either full-time or part-time study.

UNHM Application Deadlines

The application deadline for the fall semester is June 15 and for the spring semester is November 1. For priority consideration for financial aid, the application deadline is May 1 for both fall and spring semesters.

For More Information

UNHM courses are listed on page 199 of this catalog. To receive a UNHM bulletin, catalog, or more specific information on UNHM courses and programs, contact the University of New Hampshire at Manchester, French Hall, 220 Hackett Hill Road, Manchester, NH 03102, phone (603) 668-0700; fax (603) 623-2745; TTY (603) 622-4511.

DIVISION OF CONTINUING EDUCATION

William F. Murphy, Dean

The Division of Continuing Education provides access to higher education for New Hampshire residents under conditions that permit individuals to participate in university programs appropriate to their changing educational needs. These needs may at times be best satisfied through participation in workshops, seminars, short courses, or certificate programs—at other times by enrollment in credit courses and degree programs.

The Division of Continuing Education faculty is drawn from the teaching staffs of the university and from business, professional, and community leaders.

In addition to the programs listed below, it is possible to complete many of the degree requirements in other areas of study offered by the university through enrollment in credit courses scheduled by the Division of Continuing Education each semester.

Associate in Arts Degree

The associate in arts degree gives students an opportunity to obtain a general, two-year college education, elect coursework in several career-related fields, and in some instances earn college credits in supervised work experience with cooperating employers. The program is particularly suited to adults who are returning to the university after an interruption in their studies, who wish to be either full- or part-time degree students, and who need some time to establish their academic goals.

A wide range of university credit courses is available during both the daytime and the early evening hours. Special procedures have been designed to simplify admission and registration for part-time students.

Within the A.A. program, students have the opportunity to complete concentrations in a broad range of subjects offered by all of the schools and colleges or to take courses in several fields of study to explore a major, or they may elect to concentrate in computer information studies or pre-engineering and physical sciences. (For descriptions of courses, see page 127.)

The degree can be complete in itself or it can be a halfway mark toward a bachelor's degree. Credits earned as an A.A. degree candidate are transferable into related baccalaureate programs at UNH and other colleges and universities.

Admission Requirements

For the associate in arts degree program, candidates must have a high school diploma or an equivalency certificate and should have demonstrated ability and motivation through academic achievement, work experience, and/or military service. Associate in arts degree candidates are not guaranteed housing but are encouraged to contact the Department of Housing, (603) 862-2120, to explore possibilities.

Graduates of associate in arts programs are usually awarded a minimum of 64 credits upon entry into a UNH bachelor's degree program. Degree candidates wishing to continue their studies should consult with their advisers to ensure that their planned programs meet the specific requirements for the selected major at the institution awarding the bachelor's degree.

The associate in arts degree program is offered on a full-time and a part-time basis. Students interested in the part-time A.A. degree option should obtain an application form from the Division of Continuing Education. Students interested in a full-time A.A. degree program should obtain the application form from the UNH Admissions Office.

Degree Requirements

For degree requirements, see page 15.

Career Concentrations

Computer Information Studies

A career in computer information offers excellent opportunities for advancement and professional growth for individuals with appropriate training. Because computer information specialists are essential in today's technological, information-oriented society, qualified men and women will be in constant demand. Long-range employment forecasts predict solid, continuing growth well into the next decade.

This career concentration trains individuals for such entry-level positions as data analyst, applications technician, programmer, and computer operations supervisor. Graduates should be qualified to work on projects that involve equipment ranging from personal computers to large-scale hardware.

Required computer information studies courses: CS 406 or CS 410 or 412, DCE 491 and DCE 492 (or CS 401); DCE 590, 591, and 592.

Pre-Engineering and Physical Sciences

Adults who desire a university degree in engineering or the physical sciences may enroll on a full- or part-time basis through the associate in arts degree program.

This program satisfies first-year course requirements of most B.S. programs in engineering and physical sciences. For further information, see separate Pre-Engineering Bulletin.

Required courses: MATH 425-426; PHYS 407-408; CHEM 403-404.

Academic Regulations and Pass/Fail

Associate in arts degree candidates are subject to the academic requirements established by the university for all students.

Associate in arts degree candidates, after completion of a minimum of 16 credits at UNH on a regular graded basis of A to F, may use the pass/fail grading alternative in a maximum of two elective 4-credit courses. The pass/fail grading alternative may be used for a maximum of 4 credits per semester. No pass/fail grading alternative may be used in fulfillment of university general education requirements or for courses in students' declared career concentrations. The minimum passing grade for credit is a D- (0.67).

Advising

Program planning and other advising services are provided by the professional staff of the Division of Continuing Education. Academic advisers are available from 8:00 A.M. to 4:30 P.M. daily and during evening hours on an appointment basis.

Financial Aid

Associate in arts degree candidates are eligible for the full range of financial aid offered by the university. See the Financial Aid section of this catalog.

Special Student Status

Special students—those who are not formally admitted into a degree program at the University of New Hampshire—may enroll in university credit courses each semester through the Division of Continuing Education.

All special undergraduate students are limited to 11 credits per term unless they obtain written permission from the director of admissions, Grant House. Special graduate students are also subject to enrollment limitations. Contact the Division of Continuing Education for details.

Undergraduate Courses

Special students must have a high school diploma or its equivalent or be at least 18 years of age.

Graduate Courses

Special students must hold a bachelor's degree or equivalent from a regionally accredited college or university.

Prerequisites

All students are responsible for satisfying course prerequisites, if any. Instructors may require students to withdraw from a course if they are not adequately prepared for the level of work.

Academic Standards

A cumulative grade-point average of 2.00 (C grade) is the minimum acceptable level for undergraduate work in the university. The records of special undergraduate students are examined periodically; academically deficient or potentially deficient students may be warned, excluded, or suspended.

Noncredit Courses

Throughout the year, the Division of Continuing Education offers noncredit courses to the community. These courses provide opportunities for individual growth or continuing education for groups and individuals in business, labor, education, government, or the professions.

Professional and career development noncredit seminars and courses typically meet for one day or one evening a week for about ten weeks, depending on the learning objectives. Examples include paralegal studies, business management, information systems, graphic arts, skills for teaching, and human resource management.

Personal enrichment courses are offered during the day and evening, during the week, and on weekends. Examples include physical fitness and recreation, parent-child communication, arts and crafts, local history, current events, personal financial planning, creative writing, and photography.

Noncredit Certificate Programs

Certificate programs consist of specifically developed sequences of courses that provide a sound balance of theory, fundamentals, and specialized training. Certificates of achievement awarded by the Division of Continuing Education have earned professional acceptance as evidence of increased knowledge in basic principles and techniques.

Noncredit certificate programs include graphic arts, paralegal studies, computer applications, construction management, human resources management, and supervisory training.

Seminars and Conferences

The Division of Continuing Education also conducts conferences, institutes, workshops, and seminars, which range from half-day briefings on specific topics to residential programs lasting several days or weeks. Such programs are offered on topics of community interest and for the continuing education of business, industry, government, and the professions.

The Division of Continuing Education uses the facilities of the entire university campus for its programs, including the New England Center, extension centers at Nashua and Pease/Portsmouth, and nearby commercial establishments.

Course Charges

Students who enroll in credit courses through the Division of Continuing Education pay on a per-credit basis, depending on course level. These course charges are listed in the Division of Continuing Education Bulletin published before each

semester. The course charges for non-credit courses and for conferences, workshops, and institutes vary according to the scope of the individual programs.

Class Schedule

While students may enroll in morning and afternoon classes through the Division of Continuing Education, many courses offered each semester are scheduled in the late afternoon and early evening to accommodate working adults.

All courses offered by the university each semester are open to special students on a space-available basis.

For More Information

For further information about programs or services, course offerings, registration procedures, and academic requirements, call or write the Division of Continuing Education, University of New Hampshire, Verrette House, 6 Garrison Avenue, Durham, NH 03824-3529, (603) 862-2015.

Admissions

Persons holding a baccalaureate degree from an accredited college or university and wishing to take graduate-level courses at the university as part of a graduate degree program must apply for admission to the Graduate School. Admission to the Graduate School is both limited and competitive and is based solely upon academic qualifications and potential.

Applications for admission and the Graduate Catalog, containing detailed descriptions of graduate programs, may be obtained from the Graduate School, Thompson Hall, 105 Main Street, Durham, NH 03824-3547.

Early Admission—University of New Hampshire Seniors

Qualified senior students at the University of New Hampshire may be admitted to the Graduate School provided they have followed normal application procedures; they must have been admitted for the semester in which they wish to enroll in courses for graduate credit. A 3.20 cumulative grade-point average is normally required to be considered for early admission. Such seniors are normally admitted prior to the start of their last undergraduate semester. Seniors who have been admitted under early admission may register for a maximum of two courses for up to 8 graduate credits.

Dual Credit—UNH Seniors

University of New Hampshire seniors who have been admitted to the Graduate School under early admission may, upon recommendation of the department and approval of the Graduate School, be allowed a maximum of two graduate-level courses for up to 8 credits toward both a

bachelor's and master's degree. Dual credit forms must be completed and approved by the dean of the Graduate School at the beginning of the semester for which dual credit is sought. Dual credit forms are available at the Graduate School.

Admission to the 3/2 Program

Undergraduate UNH students may be admitted to one of the approved five-year combined bachelor's degree/master of business administration programs (see page 84), which normally commence during the fall semester of their senior year. Application to the Graduate School is made during the second semester of the junior year. Interested students should contact the Whittemore School for information.

Financial Assistance

Graduate assistantships are available in most departments. These involve part-time work in connection with the university's instructional or research activities. University awards, such as tuition scholarships, are also available to qualified students. Assistantships and scholarships are awarded on the basis of academic qualifications.

Financial assistance in the form of college work study and loans may be available through the Financial Aid Office.

SUMMER SESSION

William F. Murphy, Dean

The University of New Hampshire offers students the opportunity to continue their studies on a year-round basis through multiple sessions during the summer months. The summer courses are of the same high quality as those during the regular academic year and require the same level of academic performance.

Summer Session offerings include a broad range of undergraduate and graduate credit courses in most of the major academic disciplines. Throughout the summer, classes are scheduled in the morning, afternoon, and evening, as are special, intensive institutes.

Enrollment in Summer Session classes does not imply admission to degree candidacy.

Undergraduate Courses

Undergraduate courses are open to undergraduates from UNH and other colleges, to interested members of the community who have a high school diploma or its equivalent or who are at least 18 years of age, and to high school students completing their junior or senior year.

Graduate Courses

Graduate courses are open to UNH graduate students and other individuals with a bachelor's degree from a regionally accredited college or university or its equivalent from a foreign institution.

Other Offerings

Other Summer Session offerings include noncredit courses and certificate programs; workshops and seminars for business, industry, and the professions; and residential conferences and institutes.

For More Information

A separate summer bulletin is published each year in March and is available from Summer Session, University of New Hampshire, Verrette House, 6 Garrison Avenue, Durham, NH 03824-3529, (603) 862-2015.

DESCRIPTION OF COURSES

Explanation of Arrangement

The title and arabic number designate the particular course. When two course numbers are connected by a hyphen, the first semester of the course, or its equivalent, is a prerequisite to the second. If the course numbers are separated by a comma, qualified students may take the second semester without having had the first. Course numbers separated by a slash indicate same subject offerings at lower and upper levels.

In courses that are not designated by title as laboratory courses, the notation "Lab" indicates that laboratory sessions are a part of the course.

All courses marked with an # have not been offered in the last three years.

Prerequisites and Corequisites

Each prerequisite for a course is separated from the other prerequisites by a semicolon; e.g., Prereq: EDUC 601; PSYC 635. If permission (of the instructor, department, adviser, or committee) is a prerequisite for all students, it is listed among the prerequisites (e.g., Prereq: EDUC 601; PSYC 635; permission). If, on the other hand, permission may be substituted for one or more of the listed prerequisites, it follows the other prerequisites and is separated from them by a slash mark (e.g., Prereq: EDUC 601; PSYC 635;/or permission). If permission may be substituted for only one of the prerequisite courses, it is listed with the course for which it may be substituted (e.g., Prereq: EDUC 601 or permission; PSYC 635).

Corequisites are courses that must be taken in the same semester.

Credits

The number of credits listed is the number of semester credits each course number will count toward graduation (except in the case of variable credit courses). Students must register for the number of credits shown or, if the course is variable credit, within the range of credits shown.

Cr/F following the description indicates that no letter grade is given but that the course is graded Credit or Fail.

For up-to-date information about when a course is offered; who teaches the course; the number of recitations, lectures, labs, and such, students are referred to each semester's *Time and Room Schedule*.

The system of numeric designation is as follows:

- 200–299 Courses in Thompson School of Applied Science.* Full credit only to TSAS degree candidates, who may transfer partial credit toward other associate and baccalaureate degrees.
- 300–399 Associate in arts /associate in science courses. Courses may be taken for credit only by associate's degree or nondegree students. Credits may not be applied to baccalaureate degrees.
- 400–499 Introductory courses not carrying prerequisites and courses generally falling within university and college requirements.
- 500–599 Intermediate-level courses for undergraduate credit only.
- 600–699 Advanced-level undergraduate courses. Entrance to courses numbered 600 and above normally requires junior standing.
- 700–799 Advanced-level undergraduate courses. Ordinarily not open to freshmen and sophomores.
- 800–999 Courses that carry graduate credit only and therefore are open only to admitted or special graduate students.

Accounting and Finance (ACFI)

(For program description, see page 84.)

Chairperson: Ahmad Etebari
Professors: Ahmad Etebari, John Freear, Fred R. Kaen
Assistant Professors: L Franklin Fant, Jr., Flora G. Guidry, Edward S. O'Neal, Steven K. Rock

Virginia Paul Dee Assistant Professor: Catherine A. Craycraft
Instructor: Douglas E. Stevens
Lecturer: Andrew J. Leone

501. Survey of Basic Accounting

Overview of basic financial and managerial accounting concepts and procedures. Fundamentals for the preparation of financial statements and basic budgetary and cost control issues. For nonbusiness administration majors and minors. (No credit for students who have had ACFI 502.) 4 cr.

502. Introductory Financial Accounting

Fundamentals of financial accounting concepts and procedures for analyzing economic events and the preparation and use of financial statements. Freshmen not allowed. (No credit for students who have had ACFI 501 or ADM 532.) 4 cr.

503. Managerial Accounting

The use of information by managers to (1) determine the cost and profitability of the organization's products or services; (2) plan, control, and evaluate routine operations; and (3) make special nonroutine decisions. The demand for managerial accounting information is derived from an integrated treatment of organizational objectives, an orientation to customers, and a focus on activities as the unit of analysis for measurement of cost, quality, and time. Prereq: ACFI 502. Freshmen not allowed. (No credit for students who have had ADM 533.) 4 cr.

601. Financial Management

The investments, financing, and dividend decisions of the firm in a global setting. Topics include capital budgeting, designing and issuing securities, manager performance evaluation, resolution of agency problems, and working capital management. Prereq: WSBE majors only. all Group A courses, and junior standing. 4 cr.

#620. Topics in Accounting I

Special topics; may be repeated. Prereq: ACFI 721 or 723 depending on topics and junior standing. 4 cr.

#640. Topics in Finance I

Special topics; may be repeated. Prereq: ACFI 601 and junior standing. 4 cr.

701. Financial Policy

Development of analytical tools and practical skills for recognizing and solving complex problems of business finance. Working-capital management, capital budgeting, cost of capital, capital structure, and dividend policy. Prereq: ACFI 601. 4 cr.

702. Investments Analysis

Security valuation, efficient markets, portfolio management, options, and alternative investments. Computer research topics. Prereq: ACFI 601; permission. 4 cr.

703. International Financial Management

Financial management problems facing multinational firms. Primary focus on effects of currency denominations on financial decisions. Prereq: ACFI 601. 4 cr.

704. Derivative Securities and Markets

Derivative assets and markets, and their role in business decision-making and portfolio management. Emphasis on practical and theoretical aspects

* See the TSAS bulletin. UNH baccalaureate or associate in arts degree candidates may take 200-level courses for audit only, as the courses do not carry any graduation credit.

of hedging and speculating using futures and options for both commodities and financial assets, including their market mechanics. Prereq: ACFI 601. 4 cr.

720. Topics in Finance II

Special topics. Prereq: ACFI 601 and senior standing. 4 cr.

721. Financial Accounting Theory and Applications—I

Examination of the nature and applicability of accounting theory and the conceptual framework of accounting. Development of the capacity to address and resolve issues and problems in financial reporting, including an understanding of, and an aptitude in, techniques and procedures. Prereq: all Group A courses. 4 cr.

722. Financial Accounting Theory and Applications—II

A continuation of 721. Emphasis on special topics and current pronouncements. Prereq: ACFI 721. 4 cr.

723. Advanced Cost Accounting

Builds on ACFI 503, Managerial Accounting, by continuing the theme of accounting as a management tool. Emphasis is on cost accounting as a source of data for measuring and improving the economic condition of the enterprise. Newly evolving management themes are integrated into the traditional topics of planning and control, cost analysis, overhead allocation, transfer pricing, and decision modeling. Prereq: all Group A courses. 4 cr.

724. Auditing

Philosophy and environment of auditing, with attention to an understanding of the major auditing concepts and objectives and its judgment process. Emphasis on the nature and economic purpose of audits, standards, professional ethics, auditors' legal liability, internal control, and audit evidence. Includes audit procedures, reports, and computer software. Prereq: ACFI 721. 4 cr.

725. Financial Statement Analysis

The empirical properties of financial statement data and their power to predict security returns, risk levels, corporate restructuring, debt ratings, financial distress, and other corporate events. An empirical research project is required. Prereq: all Group B courses and senior standing. 4 cr.

726. Business Taxation

Taxation factors relevant to business decisions. Taxable income and deductions, passive activities, alternative minimum tax, property transactions, deferred compensation, and corporate and partnership taxes. Prereq: ACFI 601. 4 cr.

#740. Topics in Accounting II

Special topics. Prereq: ACFI 721 or 723, depending on topics, and senior standing. 4 cr.

750. Internships in Accounting

Accounting fieldwork in a business or other type of organization. Supervision provided by the organization and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1–4 cr. Cr/F.

751. Internships in Finance

Finance fieldwork in a business or other type of organization. Supervision provided by the organization, and consultation provided by the faculty sponsor. Written report required. Course credits vary according to the nature of the fieldwork, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1–4 cr. Cr/F.

#752. Independent Studies in Accounting

Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1–4 cr.

#753. Independent Studies in Finance

Student-designed individual research projects, approved by a faculty sponsor. Paper required. Course credits vary according to the nature of the project, to be determined by the faculty sponsor. Prereq: seniors in high standing; permission. 1–4 cr.

#754. Honors Seminar in Accounting and Finance

Seminar discussions of advanced readings in accounting and finance. For seniors with standing in the honors program. 4 cr.

Adult and Occupational Education (AOE)

Department of Resource Economics and Development
(For program description, see page 45.)

Coordinator: David L. Howell

Professor: David L. Howell

Thompson School Professor: Thomas A. March

Associate Professors: Patricia D. Bedker, Lewis Roberts, Jr.

Adjunct Associate Professor: Peter J. Horne

440. Concepts of Career Exploration

Examines the four major roles of people (as family members, students, workers, and users of leisure time) and how these roles apply to (1) achieving a balanced life; (2) exploring individual areas for improvement; (3) relating present and future classes to entering the world of work; and (4) developing flexibility for changes that may occur in the future. 4 cr.

500. Occupational Competency Examination and Evaluation

Examination and/or evaluation to determine the level of competency within an occupation. Restricted to adult and occupational education majors. Prereq: permission. Special fee. 0–30 cr. Cr/F.

510. Leadership Techniques in Diverse Populations

Analysis of various historical theories and styles of leadership; characteristics of groups, group dynamics, and conflict resolution. Methods used in planning and conducting effective meetings. Methods of group problem solving and decision making. Analysis of leadership styles in diverse situations. 4 cr.

630. Development of Food and Fiber in Third World Countries

The world food situation and the role of agriculture and education in development of third world agrarian systems. Identification of constraints on food production, technology transfer, advantages and disadvantages of different agriculture systems, agricultural marketing, and career opportunities in international agriculture. 4 cr.

650. Microcommunications

Organization, presentation, and evaluation of microlessons in a variety of educational settings. Preliminary experience and practice in communications. Variables of communicating under controlled conditions with videotaping for immediate feedback. Required for majors and minors. Special fee. 4 cr.

695. Investigations in Adult and Occupational Education

A) Career Education; B) Secondary Education; C) Postsecondary Education; D) Adult Education; E) Extension Education; F) Exemplary Education; G) Cooperative Education; H) Disadvantaged and Handicapped Education. An opportunity for undergraduates to address a special problem. Prereq: permission. May be repeated. 2–4 cr.

696. Field Experience

Work with an agency, institution, or organization to gain technical and/or professional competence not otherwise available. Student plans experience with departmental adviser. Credit approval subject to recommendation of faculty members and performance of student. Prereq: permission. 2–16 cr.

#700. Workshops in Adult and Occupational Education

Modularized instruction of in-service education. Focus varies with the needs of the student. May be repeated up to 8 credits. 1–4 cr.

702. Concepts of Adult and Occupational Education

Development of occupational education in the U.S.; socioeconomic influences responsible for its establishment; federal and state requirements for secondary and postsecondary schools. Coordination of programs with general education and vocational fields. Focus on selected concepts relevant to adult education. Special attention on the adult as a learner, volunteer management, evaluation and accountability, experiential learning, and adult education. Required of all degree candidates in AOE concentrations. 4 cr.

752. Youth Organizations

Organizational Development (advising youth organizations, teaching parliamentary procedure; developing programs and activities; leadership).

FFA/SAEP (Future Farmers of America/Supervised Agricultural Experience Programs, for high school youth).

VICA (Vocational Industrial Clubs of America).

4-H (Cooperative Extension Youth Program). 4 cr.

#753. Volunteer Program Development/ Administration

Principles of involving volunteers in programs. Application of theories of adult education and adult development to the planning and administration of programs that use volunteers. 3 cr.

783. Conducting and Supervising Adult Education Programs

Analysis of traditional and nontraditional adult education programs; development of strategies of program planning, instruction, evaluation, and supervision. 4 cr.

784. Experiential Adult Learning

Theory, development, and applications of experientially based educational programming especially in relation to adult learning styles. Major emphasis placed on student-directed simulations, journals, facilitation, experiential reflection, and group activities. 4 cr.

791. Planning for Teaching

Organization of materials of instruction to meet group and individual needs. Techniques of instruction, planning for teaching, function of consulting committees, working with youth groups, program evaluation. Course scheduled concurrently with EDUC 694. Prereq: Microcommunications or permission. 4 cr.

796. Investigations in Adult and Occupational Education

A) Career Education; B) Secondary Education; C) Postsecondary Education; D) Adult Education; E) Extension Education; F) Exemplary Programs; G) Cooperative Education Programs; H) Disadvantaged and Handicapped Education Programs; I) International Agriculture. Student-selected problems in one of the areas listed. Elective after consultation with the instructor. Hours to be arranged. May be repeated. 1-4 cr.

Agricultural Mechanization

451. Welding and Fabrication Technology

Processes and procedures of welding (arc, oxy-acetylene, gas metal arc, gas tungsten arc) and metal fabrication. Lab. 3 cr.

461. Internal Combustion Engines, Principles and Maintenance

Internal combustion engines and their components with emphasis on how they function, preventive maintenance, and troubleshooting. Prereq: permission. Lab. 3 cr.

462. Internal Combustion Engines, Repair and Overhaul

Principles and techniques of engine overhaul. Each student is required to provide and overhaul, to factory specifications, at least one 4-stroke cycle engine. Prereq: Internal Combustion Engines, Principles and Maintenance; permission. Lab. 3 cr.

470. Residential Electricity

Electrical principles, laws, and installation with emphasis on the National Electrical Code. Lab. 3 cr.

475. Construction Methods and Materials

The materials and methodology of building construction with an emphasis on building science. Prereq: permission. Special fee. Lab. 4 cr.

Aerospace Studies (AERO), Reserve Officer Training Corps

(For program description, see page 97.)

Professor: Lt. Col. James Y. Allen

Assistant Professors: Major Gary P. Grover, Major Paul G. Saunders

301. Leadership Laboratory

Taken by all AFROTC cadets throughout enrollment in AFROTC. Command and staff leadership experiences in cadet corps. Air Force customs and courtesies, drill and ceremonies, career opportunities, and life and work of the junior officer. Student leadership potential developed in a practical, supervised laboratory. Field trips to Air Force installations. 0 cr.

415. The Air Force Today I

Mission and organization of today's Air Force as an instrument of the U.S. national defense policy. Customs and courtesies, officership, and followership are discussed. 1 cr.

416. The Air Force Today II

Air Force installations, fundamentals of Air Force written and verbal communication, and current events of interest to Air Force Officers are discussed. 1 cr.

541. The Development of Air Power I

The nature of warfare; development of air power from balloons and dirigibles through World War II. 1 cr.

542. The Development of Air Power II

Development of air power from post-World War II through the peaceful use of air power in Berlin; the Cuban crisis; air war in Southeast Asia; and research and development of present and future aerospace vehicles. 1 cr.

671. Air Force Management and Leadership I

An integrated management course emphasizing the individual as an officer/leader in the Air Force. Motivation and behavior, leadership, communication, group dynamics, and decision making in a changing environment. Air Force cases studied. 4 cr.

672. Air Force Management and Leadership II

Organizational and personal values; management of forces in change; organizational power, politics, managerial strategy, and tactics; Air Force cases studied. 4 cr.

681. National Security Forces in Contemporary American Society I

Focus on the armed forces as part of American society, emphasizing civil-military relations in context of U.S. policy formulation and implementation. Requirements for adequate national security forces; political, economic, and social constraints on the national defense structure; impact of technological and international developments on strategic preparedness; the variables involved in the formulation and implementation of national security policy. 4 cr.

682. National Security Forces in Contemporary American Society II

Focus on attitudes toward the military, socializa-

tion processes, role of the professional military leader-manager, and military justice and administrative law. 4 cr.

American Studies (AMST)

(For program description, see page 22.)

Coordinator: Lisa Watt MacFarlane

501. Introduction to American Studies

Team-taught course on the basic methods used in the interdisciplinary study of history, literature, the arts, and other aspects of life and culture in the United States. Disciplinary approaches drawn from literature, history, art history, architecture, film, anthropology, sociology, etc. Required for students minoring in American studies. 4 cr.

502. Introduction to African-American Literature and Culture

An introduction to African-American literature in the context of a variety of cultural perspectives. Course topics may include: major writers, literary genres, historical periods, Harlem Renaissance, Black Arts Movement, fine and folk arts, religion, music, and film. (Also offered as ENGL 517.) 4 cr.

696. Seminar in American Studies

Seminar on an issue, problem, or theme in American studies. Required for students minoring in American studies. Prereq: AMST 501; or one HUMA course in the 607-610 series or permission. 4 cr.

Animal Sciences (ANSC)

Department of Animal and Nutritional Sciences (For program description, see page 46. For Dairy Management description, see page 49. For courses in Nutritional Sciences, see page 172.)

Chairperson: William E. Berndtson

Professors: William E. Berndtson, William A. Condon, Thomas P. Fairchild, James B. Holter, Samuel C. Smith, Willard E. Urban, Jr.

Adjunct Professor: Robert J. Nicolosi
Associate Professors: Patricia D. Bedker, Elizabeth P. Boulton, Thomas L. Foxall, Charles G. Schwab, Robert L. Taylor, Jr., Paul C. Tsang
Adjunct Associate Professor: Arthur F. Stucchi
Assistant Professors: Janet C. Briggs, Allen J. Young

Adjunct Assistant Professors: Gerard Beekman, Larry Bush, Paul F. Cotter, Eugene J. Rogers

Instructor: Elizabeth C. Smith

Teacher/Trainer: Amy S. Dickens

Director of Preveterinary Programs: Joseph J. Moore

400. Food and People

Survey of nutritional and food science emphasizing the biological significance of food. Special fee. (Credit cannot be received for both ANSC 400 and NUTR 400.) 4 cr.

401. Animals and Society

Contributions of animals to human society are considered within the context of contemporary

practices and issues associated with the use of animals in agricultural production, as human companions, and in agricultural and biomedical research. Special fee. Lab. 4 cr.

402. Horsemanship

For beginning, intermediate and advanced riders. Basics of balance seat, specializing in basic dressage and combined training. Limited number of students may stable their horses at the university. Special fee. May be repeated for a maximum of 12 credits. 2 cr.

404. Introductory Equine Science

Study of the horse industry encompassing nutrition, genetics, breeds, selection procedures, and health maintenance. Special fee. Lab. 4 cr.

405. Food and Society

Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Also offered as NUTR 405.) 4 cr.

406. Careers in Animal Science

Survey of various areas of animal and veterinary science and opportunities available. 1 cr. Cr/F.

408. Mathematical Applications in Agriculture

Practical experience in setting up and solving applied mathematical problems in dairy and animal sciences, agronomy, horticulture, land use and soils, water, buildings, materials and waste handling, environmental pollution, and interpretation of tables and figures. (Students may pretest out of the course with credit.) 2 cr.

504. Introductory Meats

Selection of meats for quality and economy. Study of wholesale cuts, retail cuts, and grading systems. Pricing of meats as affected by shrinkage and customer demand. Quality control as it affects shelf life of meats. Lab. 3 cr.

507. The Scientific Approach to Equine Discipline

Physiological development, control, and education; biting, lunging, driving, and equine gymnastics. Prereq: ANSC 402; permission. Special fee. Lab. 2 cr.

508. Dairy Production Techniques

Practical experience in dairy husbandry techniques. Only for students with no previous experience in dairy husbandry. Prereq: permission. 2 cr. Cr/F.

552. Introductory Dairy Herd Management

Economic principles and management factors involved in successful dairy herd management. Criteria for success, record keeping, applied genetics, housing, materials handling, feeding, and health care are topics covered. 3 cr. (Not offered every year.)

554. Introductory Dairy Herd Management Lab

Practical study of various aspects of dairy herd management. Farm visits and case studies will be involved. Should be taken concurrently with ANSC 552. 1 cr. (Not offered every year.)

602. Animal Rights and Societal Issues

To explore all aspects of human-animal interaction and welfare emphasizing social, ethical, biological,

historical, and economic aspects of animal care and use. (Juniors and seniors only.) Special fee. 4 cr.

603. Dairy Cattle Selection

Principles of selecting dairy cattle based on performance, pedigree analysis, progeny testing, and type evaluation. Lab. 2 cr.

604. Light Horse Selection

Principles of selecting light horses based on performance, pedigree, progeny records, and type evaluation. Lab. 2 cr.

607. Small Animal Diseases

Common diseases in companion animals; emphasis on canine and feline medicine. 2 cr.

609. Principles of Nutrition

Applied animal nutrition and nutrient metabolism. Prereq: one year of chemistry; one semester of physiology. Special fee. 4 cr.

611. Computer Applications in Animal Science

Development of confidence and skills in the use of computers for tasks necessary for managing animal enterprises and the related health professions. Includes skills in DOS commands, Windows 3.1, word processing, spreadsheets, and the Internet as tools for accomplishing such tasks as reproduction, genetics, ration development, records manipulation, and computer simulations. Special fee. CS 401 recommended. 4 cr.

612. Genetics of Domestic Animals

Application of Mendelian principles to traits of domestic animals with particular emphasis on economically important traits of farm animals. Principles of population and quantitative genetics are introduced. Topics include sex linkage, Hardy-Weinberg Law, meiosis, elementary statistics, genetic relationships, and heritability. Lab. 4 cr.

#614. Diseases and Parasites of Wildlife

An ecological approach to some of the more common diseases and parasites of fishes, birds, game, and fur-bearing mammals. Influence of environment and management practices on the incidence and severity of diseases; relationship of wildlife diseases to human health. Prereq: permission. 3 cr. (Not offered every year.)

#616. Wildlife Disease Laboratory

Demonstrates necropsy techniques and examination of wildlife specimens for common parasitic and other diseases. Restricted to wildlife management majors only. Prereq or coreq: ANSC 614. 1 cr. Cr/F.

620. Equine Diseases

Body-systems approach to the discussion of medical and surgical diseases affecting the horse. Prereq: ANSC 404. 2 cr.

622. Equine Disease Clinic

Evaluation techniques of the normal and abnormal horse using the university horse herd. Discussion of clinical cases within the herd. Prereq: ANSC 404, coreq: ANSC 620. 2 cr.

623. Comparative Histology

Introduction to microscopic anatomy of domestic animal tissues and body systems with reference to human, avian, fish, and marine mammals. Structure and function briefly correlated. Prereq: ZOOL

507-508 or permission. Special fee. 4 cr. Recommended for all premed, prevet, and pre dental students.

625. Equine Sports Medicine and Lameness

Limitations of the healthy horse in athletic competition and the prevention and treatment of equine athletic injuries with heavy emphasis on the musculoskeletal system. Prereq: ANSC 404; ZOOL 507-508. Special fee. 4 cr.

630. Dairy Cattle Diseases

Covers the principles of immune response, disease development, immunological basis for disease control, management practices to maintain animal health, and dairy cattle disease identification and prevention. Coreq: ANSC 632. 2 cr.

632. Dairy Cattle Diseases Clinic

Clinical application of disease principles taught in ANSC 630, Dairy Cattle Diseases. Coreq: ANSC 630. 2 cr.

653-654. Principles of Teaching Equitation

Teaching techniques and procedures, with emphasis on dressage; opportunity to teach riding theory and techniques to other students under supervision of instructor. Teaching certificate awarded to students successfully completing course. Prereq: ANSC 402 and 507; permission. Special fee. Lab. A year-long course; 4 cr. each semester, 8 cr. total, an IA grade (continuous course) given at the end of first semester. Withdrawal from course results in loss of credit.

695-696. Supervised Teaching Experience

Participants are expected to perform such functions as leading discussion sections, directing and assisting in laboratories, and assisting students with their problems in courses that participants have completed successfully. Enrollment is limited to juniors and seniors who have a minimum 3.00 cumulative average. Prereq: permission of instructor and department chairperson. May be repeated up to a maximum of 4 credits. 1-2 cr. Cr/F.

697. Equine Seminar

Current equine industry issues, recent literature and research, and professional preparation. May be repeated to a maximum of 4 credits. 1 cr. Cr/F.

701. Physiology of Reproduction

Comparative aspects of embryology, anatomy, endocrinology, and physiology of reproduction. Special fee. Lab. 4 cr.

704. Principles of Pathobiology

Principles of disease processes, reactivity of the diseased cell, tissue, and organ. Prereq: ZOOL 507-508 or permission. 3 cr.

708. Ruminology

Anatomy of the ruminant gastrointestinal tract, physiological factors related to rumen function, and microbial metabolism of carbohydrates, protein, and lipids. Prereq: MICR 503 or equivalent. 2 cr.

710. Dairy Nutrition

Feeding and related management of dairy cows, nutrients and their use, digestive anatomy and physiology, energy systems, forage quality and conservation methods, metabolic disorders, economic ration balancing. Prereq: permission. 4 cr.

714. Research Methods in Endocrinology

Application of modern laboratory techniques to the study of hormonal and molecular mechanisms in the endocrine system. Prereq: ANSC 701 or BCHM 658 or ZOOL 704; permission. Special fee. Lab. 4 cr.

715. Physiology of Lactation

Examines the biological and biochemical influences of the lactation process. Emphasis on the physiological effects of environments, hormones, and nutrition on milk synthesis and secretion, mammary physiology, and maternal response. Prereq: junior standing or above; BCHM 658; ANSC 701. 4 cr.

718. Mammalian Physiology

Advanced study of the systems that control mammalian functions with emphasis on cellular and molecular mechanisms. Includes the nervous, muscular, cardiovascular, renal, gastrointestinal, and endocrine systems. Prereq: ZOOL 507-508; ZOOL 627 and one semester of biochemistry or permission. 4 cr.

#720. Public Health Nutrition

Focus on managerial processes of planning, leading, and evaluating community nutrition programs and the skills and tools needed to develop and present such programs. (Also offered as NUTR 720.) 4 cr. (Not offered every year.)

722. Immunogenetics

Cellular interactions leading to immune regulatory mechanisms. Emphasis is placed on the major histocompatibility complex, immune responses, and antibody diversity. (Also offered as GEN 722.) Lab. 4 cr. (Offered alternate years.)

724. Reproductive Management and Artificial Insemination

Focus on goals and fundamentals of reproductive management of horses, dairy and livestock animals, and, through actual experience, development of competency in performing modern breeding techniques for equine and bovine reproduction. Prereq: ANSC 701; permission. Special fee. Lab. 4 cr.

726. Advanced Dairy Management I

Advanced management evaluation of milking procedures, reproduction, genetics, nutrition, mastitis, and calf and heifer management. Coreq: ANSC 730. Prereq: junior or senior standing; permission. 2 cr.

727. Advanced Dairy Management II

Advanced management evaluation of dairy cattle housing, milking equipment, milk quality, record keeping, and herd health. Coreq: ANSC 731. Prereq: junior or senior standing; permission. 4 cr.

728. Advanced Dairy Management III

Advanced management evaluation of financial and business aspects, personnel management, environmental issues, public policy, and marketing genetics. Coreq: ANSC 732. Prereq: junior or senior standing; permission. 4 cr.

730. Dairy Internship I

The first of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the "teaching" herd of dairy cows at the UNH Dairy Teaching and Re-

search Center. In addition to the hands-on experience, concurrent registration in ANSC 726 is required. Prereq: junior or senior standing; permission. 4 cr.

731. Dairy Internship II

The second of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the "teaching" herd of dairy cows at the UNH Dairy Teaching and Research Center. In addition to the hands-on experience, concurrent registration in ANSC 727 is required. Prereq: junior or senior standing; permission. 2 cr.

732. Dairy Internship III

The third of three semester internships which are required for all students in the dairy management program. Students assume responsibility for total management and care of the "teaching" herd of dairy cows at the UNH Dairy Teaching and Research Center. In addition to the hands-on experience, concurrent registration in ANSC 728 is required. Prereq: junior or senior standing; permission. 2 cr.

741. Senior Seminar (Résumés)

Students gain experience in developing and preparing résumés, interviewing skills, and developing and pursuing job contacts. Prereq: junior or senior standing; permission. 1 cr.

742. Senior Seminar (Issues)

Seminars and discussions on current topics pertinent to agriculture. Students are expected to facilitate group discussions, research relevant topics, and present several oral and written presentations that enhance writing and public speaking skills. Prereq: junior or senior standing; permission. 1 cr.

750. Nutritional Biochemistry

Detailed analysis of the digestion, absorption, transport, and intermediary metabolism of nutrients. Nutrient requirements are evaluated in the context of their physiological and biochemical functions. Prereq: ZOOL 507-508; BCHM 658; or equivalents. (Also offered as NUTR 750.) Special fee. 4 cr. (Fall semester only.)

751. Cell Culture

Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as MICR 751 and P/BIO 751.) Special fee. Lab. 5 cr.

#760. Geriatric Nutrition

Emphasis on the nutritional requirements and status of the elderly in view of psychological and physiological changes in aging. Approaches for nutrition intervention and support will be addressed. Prereq: NUTR 400 and 499 or permission. (Also offered as NUTR 760.) 3 cr. (Summer session only.)

#773. Clinical Nutrition

Application of principles of normal nutrition and physiology to clinical problems; altered nutrient requirements in human disease. Prereq: basic nutrition and biochemistry or permission. Coreq: ANSC 775. (Also offered as NUTR 773.) 4 cr. (Spring semester only.)

#775. Practical Applications in Therapeutic Nutrition

Supervised practical experience in therapeutic dietetics in one of several cooperating New Hampshire hospitals. Emphasis on nutritional counseling, assessment, and instruction of patients with nutrition-related disorders. Coreq: ANSC 773. (Also offered as NUTR 775.) 3 cr. (Fall semester only.)

#780. Critical Issues in Nutrition

Critical review and analysis of controversial topics in nutrition; emphasis on developing oral and written communication skills and analytical reasoning skills. Prereq: permission. (Also offered as NUTR 780.) 4 cr. (Spring semester only.)

796. Investigations in the Animal Sciences

Problems in A) Genetics; B) Nutrition; C) Management; D) Diseases; E) Histology; F) Light Horsemanship; G) Physiology; H) Cell Biology; I) Microbiology; J) Dairy Management. Prereq: permission. May be repeated. 1-4 cr.

798. Contemporary Topics in Biomedical Science and Nutrition

Lecture-discussion series on topics in animal biology, nutrition, and medicine including production and applications of monoclonal antibodies; oncogenesis; sports nutrition; nutrition and cancer; toxicology; atherogenesis. Prereq: permission. May be repeated. 2 cr.

799. Honors Thesis

Independent research culminating with a written honors thesis in: A) Genetics; B) Nutrition; C) Management; D) Diseases; E) Histology; F) Light Horsemanship; G) Physiology; H) Cell Biology; I) Microbiology; J) Dairy Management. Prereq: permission. May be repeated. 1-4 cr.

Anthropology (ANTH)

Department of Sociology and Anthropology
(For program description, see page 26.)

Chairperson: Stephen P. Reyna

Professor: Stephen P. Reyna

Associate Professors: Charles E. Bolian, Barbara K. Larson, Nina Glick Schiller, Deborah Winslow

Assistant Professor: Joe L.P. Lugalla

Faculty-in-Residence, Assistant Professor:

Robert G. Goodby

411. Cultural and Social Anthropology

Cultural and social aspects of human behavior, particularly in relation to nonindustrial societies. Analysis of selected societies, institutions, and forms of social structure. 4 cr.

412. Physical Anthropology and Prehistoric Archaeology

Human physical evolution and cultural prehistory; evolutionary theory and archaeological techniques. 4 cr.

500. Peoples and Cultures of the World

A) North America; B) South America; C) Middle East and North Africa; D) Sub-Saharan Africa; E) South Asia; F) Southeast Asia; G) Oceania; Z) Other. Characteristic ecological, historical, and sociocultural factors in the major ethnographic regions of the globe. Analysis of selected societies

and institutions. Offered in the following sections as staff is available and student needs dictate.

North America Study of the economy, society, religion, art, and ideas of North American Indians from precolonial times to the present. **South America** A survey of the indigenous cultures and selected studies of the relationship between environment and culture. Changes in culture and social organization since the 16th century will be considered where historical data permit. **Middle East and North Africa** The role of ecological, social, cultural, and historical factors in shaping Middle Eastern and North African culture today. Special attention will be paid to family, values, and religion; to nomadic, village, and urban ways of life; and to issues of unity, diversity, colonialism, and culture change. **Sub-Saharan Africa** Study of Sub-Saharan economy, society, and culture from precolonial times to the present. **South Asia** Emphasis on India, Sri Lanka, and Nepal. Traditional and changing South Asian cultures, including caste, family, economy, and religious traditions of Hinduism and Buddhism. **Southeast Asia** Geographical, historical, ethnic, and sociocultural factors characteristic of the region. Impact of Indian, Chinese, Islamic, and European civilizations. Analysis of selected indigenous social, political, economic, and religious institutions. **Oceania** Study of the economy, society, religion, art, and ideology of Pacific Island cultures from precolonial times to the present. 4 cr.

501. World Prehistory

A) North America; B) Mesoamerica; C) South America; D) Near East; E) Other. The development of prehistoric culture in various areas of the world. Offered in the following sections as staff is available and student needs dictate. **North America**: Archaeology of the Indians north of Mexico from earliest evidence of settlement to European contact. Diversity of cultures from ecological and evolutionary perspectives. Emphasis on the Eastern Woodlands, the Plains, and the Southwest. **Mesoamerica**. Cultural development from earliest cultures through the Spanish conquest. Emphasis on origins of agriculture and rise of Olmec, Teotihuacan, Mayan, Toltec, and Aztec civilizations. Stress on factors critical to the development of complex societies. **South America**: Cultural development from earliest migrations through Inca Empire. Focus on major regions of South America. Consideration of Intermediate Area, Amazon Basin, and Central Andes as core regions for foundations of civilization. **Near East** From earliest cultures to the development of agriculture and settled village life. Examines the processes that gave rise to the world's first civilizations. 4 cr.

512. Introduction to World Ethnography

Primarily for majors and minors, but open to all students. Historical and geographic factors, types of social and economic organization, and problems involved in the comparative study of human societies and institutions. Analysis of selected peoples in the major ethnographic areas. 4 cr.

514. Method and Theory in Archaeology

Basic method and theory; techniques in recovering and interpreting data; laboratory exercises in ceramic and lithic analysis. Critical evaluation of archaeological literature. Prereq: ANTH 412 or permission. 4 cr.

515. Anthropology and Contemporary Issues

Anthropological approaches to current world issues

such as racism, poverty, religious movements, revolution, and environmental stress. Selected topics examined in the context of both western and nonwestern societies. 4 cr.

516. Kinship and Social Organization

The significance of kin and nonkin relations in human societies. Topics include the origins and evolution of human society, variations in the form and functions of marriage, family, and kin-based groups and selected nonkin relationships. Primary focus will be on nonindustrial societies. Prereq: ANTH 411 or permission. 4 cr.

517. Introduction to Anthropological Analysis

Basic skills of reading, writing, and analysis essential to the study of anthropology. Focus on learning to recognize, compare, and evaluate critically the central arguments of several major books drawn from different subfields and orientations in anthropology. Small class size for extensive discussion and feedback. Prereq: ANTH 411 or 412/or permission. 4 cr.

518. History of Anthropological Theory

Reading and discussion of the works of major theoreticians of American, British, and French schools. Selections from the works of Spencer, Morgan, Tylor, Boas, Kroeber, Lowie, Steward, White, Durkheim, Mauss, Levi-Strauss, Malinowski, Radcliffe-Brown, Evans-Pritchard, and others are treated in terms of their contributions to the historical development of anthropology and their relevance to contemporary debates in anthropological theory. 4 cr.

519. Social Change and Development: An Anthropological Perspective

Extraordinary growth of European and American economic and political power since 1450. Major social, cultural, and economic changes resulting from this growth, described from the anthropological literature for the developing world. Existing theories reviewed in terms of their ability to explain these changes. 4 cr.

600. Issues in Contemporary Anthropological Theory

Explores such recent directions in the discipline as cognitive/symbolic anthropology, cultural materialism, evolutionary theory, gender studies, interpretive anthropology, political economy, practice theory, and structuralism. Prereq: ANTH 518 or permission. 4 cr.

614. Economic Anthropology

Economics of nonindustrial societies; definition of economics; production, distribution, and consumption in selected societies; development. Prereq: ANTH 411 or permission. 4 cr.

616. Anthropology of Religion

Major anthropological theories of religion; analysis of religious beliefs as symbolic systems and their interrelations with ritual and other social institutions. Detailed study of specific religions. Prereq: ANTH 411 or permission. 4 cr.

618. Political Anthropology

Political processes and structures in nonindustrial societies. Major topics: centralization of power and authority, legal systems, and warfare. Prereq: ANTH 411 or permission. 4 cr.

625. Female, Male, and Society

Critical, cross-cultural study of sex-related behavior in historical as well as contemporary perspective. Draws on anthropological, social-psychological, and sociological literature. (Also offered as SOC 625.) 4 cr.

626. Women in the Middle East

Explores the diversity of women's lives in the Middle East and North Africa. Among the themes addressed are: national, regional, class and ethnic variations; the effects of differing ecological adaptations (rural, urban, and nomad) on gender roles; the underlying cultural and religious values that affect gender relations in this part of the world, and the social, ecological, economic, and political factors which shape how those values are enacted in every day life. Also examines women's active participation in contemporary movements such as feminism, nationalism, and Islamic fundamentalism, as well as their roles in periods of national, radical, or revolutionary ferment. 4 cr.

627. Urbanization in Africa

Explores the process of urbanization and describes the creation of urban culture in sub-Saharan Africa by investigating the effects of urbanization on socio-economic and cultural conditions. An attempt is made throughout the course to study urbanization and urban life within the context of broader societal, economic, cultural, and political relations in order to understand the dynamics inherent in these processes. Urbanization discussed in the context of colonialism, postcolonialism, and other social relations of dependency that continue to shape urban life and urban-rural relations. 4 cr.

630. Anthropological Field Research

Explores in theory and practice a range of approaches to doing field studies in anthropology. Techniques such as life histories, questionnaires, projective tests, participant observation, and field diaries are explored in class and through active participation in a class research project. Prereq: ANTH 411; one 500-level or higher anthropology course; or permission. 4 cr.

#650. Field School in Archaeology

Field and laboratory methods in archaeology. Emphasis on excavation techniques and data analysis as related to project research design. Includes practical experience in lab as well as field. Prereq: permission. Special fee. 4-8 cr.

697. Special Topics in Anthropology

Occasional or experimental offerings. May be repeated for different topics. Prereq: permission. 4 cr.

699. Senior Thesis

Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision prior to senior year. 4 or 8 cr. 2 semesters. 8 cr. required for honors. an IA grade (continuous course) given at end of first semester.

#714. Caste, Class, and Colonialism

Peasants, urban communities, race and ethnicity, stratification, local-national integration, the effects of colonialism, modernization, and social change. Prereq: ANTH 411 or permission. 4 cr.

#750. Middle East: Issues of Ethnicity, Work, and Identity

Community studies approach to such topics as ethnicity and identity in the interrelationship of language, religion, and corporate membership in a community; ethnic division of labor; work, pluralism, and family networks; mobility and immobility; estates vs. classes. (Also offered as SOC 750.) 4 cr.

#770. Culture, Personality, and Society

A cross-cultural view of the development of personality as emergent from genetic, situational, and sociocultural determinants; analysis of the dynamic interplay of sociocultural and psychological behavior systems. Prereq: prior courses in sociology, anthropology, or psychology. (Also offered as SOC 770.) 4 cr.

795, 796. Reading and Research in Anthropology

A) Cultural/Social Anthropology; B) Anthropological Linguistics; C) Archaeology; D) Physical Anthropology. Prereq: 12 credits of anthropology; permission. Variable (normally 1–8) cr.

797. Advanced Topics in Anthropology

Advanced or specialized courses presenting material not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Course descriptions on file in department office during registration. A) Social Organization; B) Economic Anthropology; C) Anthropology of Religion; D) Political Anthropology; E) Social Impact Analysis; F) Cultural Ecology; G) Prehistoric Archaeology; H) Historic Archaeology; I) Cultural Resources Conservation; J) Lithic Analysis; K) Ceramic Analysis; L) Faunal Analysis; M) Human Evolution; N) Human Variations; O) Anthropological Theory. Prereq: ANTH 411 or 412 (as appropriate);/or permission. 4 cr.

Art and Art History (ARTS)

(For program description, see page 26.)

Chairperson: Daniel L. Valenza

Professors: David S. Andrew, Arthur E. Balderacchi, Daniel L. Valenza, Mara R. Witzling, Melvin J. Zabarsky

Associate Professors: Grant Drumheller, Patricia A. Emison, Chris Enos, Craig A. Hood, Maryse Searls McConnell, Michael McConnell, Scott Schnepf, Carol Shore, David R. Smith

Assistant Professors: Eleanor M. Hight, Jennifer K. Moses

Faculty-in-Residence, Assistant Professor:

Timothy D. Harney
Adjunct Assistant Professor: Vicki C. Wright

Lecturers: Joan Larson Esch, Lee Schuette

Art Studio**Two-Dimensional Courses****Architecture****455. Introduction to Architecture**

Study of architectural graphics, design theories, form determinants, and the architect in society. Includes case study projects. Lab. 4 cr.

Drawing**532. Introductory Drawing**

Students deal primarily with observational perspective problems (still life, architectural interiors, landscape, etc.), utilizing a full range of drawing materials. Lab. 4 cr.

632. Intermediate Drawing I

Focuses on three major topics: (1) linear perspective, (2) anatomical and/or structural aspects of the human figure, and (3) special materials (painterly and/or mixed media). Outside assignments encourage original thinking about image making. Prereq: ARTS 532. Lab. 4 cr.

633. Life Drawing

A continuation of the more formal aesthetic issues introduced in introductory and intermediate drawing with an emphasis on drawing the human figure from life. Prereq: ARTS 632. Lab. 4 cr.

732. Advanced Drawing

Treatment of more complex compositional problems; application of a broader range of solutions to pictorial concepts to reinforce individual concepts of image and technique. Prereq: ARTS 632 (8 cr.). May be repeated for a maximum of 12 credits. Lab. 4 cr.

Painting**544. Water Media I**

Transparent and opaque water color. Prereq: ARTS 546. Lab. 4 cr.

546. Introductory Painting

Use of the still life and the figure. Color, value, composition, and some art history. Slide lectures. Prereq: ARTS 532. Lab. 4 cr.

645. Water Media II

Continuation of ARTS 544; introduction to other water-based media. Prereq: ARTS 544. Lab. 4 cr.

646. Intermediate Painting

More complex issues of the visual language. Still life and the figure continue as dominant subject matter. Slide lectures. Prereq: ARTS 546. May be repeated for a maximum of 8 credits. Lab. 4 cr.

746. Advanced Painting

Development of a higher degree of technical skill to handle more advanced conceptual problems. Class assignments may be more individually directed. Prereq: ARTS 646 (8 cr.). May be repeated for a maximum of 12 credits. Lab. 4 cr.

Photography**551. Photography**

Introduction to theory and practice of black and white photography as an expressive medium. Students provide their own cameras. Prereq: any art dept. course or permission. Lab. 4 cr.

651. Photography Workshop

Individualized projects involving creative methods, including color, manipulative, and documentary techniques. Students provide their own cameras. Prereq: ARTS 551. May be repeated. Lab. 4 cr.

Printmaking**536. Introduction to Printmaking: Intaglio**

Study of intaglio printmaking techniques, including etching, dry point, and engraving. Prereq: ARTS 532 or permission. Lab. 4 cr.

537. Introduction to Printmaking: Lithography

Study of lithographic processes on stone and aluminum plate. Prereq: ARTS 532 or permission. Lab. 4 cr.

636. Printmaking Workshop

Emphasis on development of the individual's imagery in lithography and/or intaglio, including an introduction to multicolor printmaking. Prereq: ARTS 536 and/or ARTS 537. May be repeated for a maximum of 12 credits. Lab. 4 cr.

Three-Dimensional Courses

All courses elective by permission of the Department of the Arts.

Ceramics**501. Ceramics**

Theory and practice of basic ceramics; includes all methods of basic construction, decoration, glazing, and kiln firing. Emphasis on each individual's perceptual development. Lab. 4 cr.

601. Ceramics Workshop

Application of new ceramic materials and techniques, with emphasis on ideas and their expression through form and content. Experimentation encouraged. Prereq: ARTS 501. May be repeated. Lab. 4 cr.

701. Clay and Glaze Calculation

Presentation and practice of a scientific method for calculating glazes, based on the empirical formula technique. Includes background information on clay and the chemistry of glazes and glaze materials. Prereq: ARTS 501. Lab. 4 cr. (Not offered every year.)

Sculpture**567. Introductory Sculpture**

Theory and practice of designing three-dimensional compositions using a series of progressive assignments to develop a practical understanding of visual elements, including line, form, space, mass, and plane. Lab. 4 cr.

667. Sculpture Workshop

Design and production of sculpture focusing on various materials and techniques and how they relate to composition and content. Emphasis on understanding visual language while developing an individual style. Prereq: ARTS 567. May be repeated. Lab. 4 cr.

767. Bronze Casting

Practice of designing, building, and maintaining a working sculpture foundry. Emphasis on a thorough understanding of the lost-wax investment casting process, including pattern making, mold making, wax working, investing, casting, chasing, and patination. Prereq: ARTS 667 (8 cr.). Lab. 4 cr. (Not offered every year.)

Woodworking**525. Woodworking**

Theory and application of basic woodworking principles; design concepts, primarily utilitarian, applied to shaping a mass, constructing volumetric and line/plane forms; use of a complete range of hand, portable powered, and stationary powered tools. Lab. 4 cr.

625. Furniture Design Workshop

Design and construction of the major furniture

forms, using a broad range of techniques (including lamination, bending, and molding) to execute a series of concept areas relevant to furniture. Prereq: ARTS 455 or 525 or 507. May be repeated. Lab. 4 cr.

725. Wood Multiples

Development and construction of prototype furniture designs intended for more than one-of-a-kind production; jig and production strategies. (Offered concurrent to I.W.F.-sponsored biennial National Student Furniture Design Competition.) Prereq: ARTS 625 (4 cr.). Lab. 4 cr.

Special Courses

598. Sophomore Seminar

Encourages experimentation by integrating verbal and plastic understandings through readings, discussions, studio work. Field trips. Prereq: two art history courses and two studio arts courses. 4 cr.

695. Special Problems in the Visual Arts

Topics and prerequisites to be announced before preregistration. May be repeated with permission of the instructor. Lab. 4 cr.

700H. Honors Seminar

Requires successful completion of a written thesis supervised by two faculty advisers (one each from studio and art history faculty) to be reviewed by members of the department honors committee. The art history thesis will involve an original problem in art history and the studio art thesis will examine the student's own work. Honors students only. 4 or 8 cr.

796. Independent Study in the Visual Arts

A) Photography; B) Sculpture; C) Drawing; D) Painting; E) Printmaking; F) Water Media; G) Architectural Design; H) Curatorial Assistant; I) Art History; J) Ceramics; K) Wood Design. Open to highly qualified juniors and seniors. Prereq: permission of department chairperson and supervising faculty member or members. May be repeated to a total of 8 cr. 1-8 cr.

798. Seminar/Senior Thesis

Readings and discussions oriented toward the intellectual premises of art. Culminates in mounting an exhibition of the student's work. Required of all students in the B.F.A. program. Other advanced students may elect with instructor's permission. A year-long course; an IA grade (continuous course) will be given at the end of the first semester. Lab. Variable credit; may be repeated to a total of 8 cr. B.F.A. majors must take 8 credits total. 1-8 cr.

Art History

All introductory 400- and 500-level courses in art history have the following goals: to introduce the discipline, its vocabulary, its periods and styles, its media, and its various approaches.

Exemption from prerequisites by permission of instructor

431. Visual Studies

Appreciation and understanding of the visual arts. Works from variety of periods, emphasis on style, formal analysis, methods, and materials of production. For freshmen and sophomores; open to juniors and seniors by permission. Not for art dept. major credit 4 cr

480. Introduction to Art History

Analysis of the central forms and meanings of art history through intensive study of selected artists and monuments. The course will include works of architecture, sculpture, painting, and the graphic arts. Topics will vary but might include the Parthenon, Chartres cathedral, Michelangelo's Sistine Chapel ceiling, Rembrandt's self-portraits, Monet's landscapes, Picasso's *Guernica*, Frank Lloyd Wright's *Falling Water*, Georgia O'Keeffe's abstractions, *ukiyo-e* prints, and Benin sculpture. 4 cr.

487. Themes and Images in Art

Examination of one or two central ideas embodied in the artistic imagery of painting, sculpture, and architecture, covering a wide cultural spectrum. Stress on the interconnection between visual forms and the symbolic and philosophical concepts they express. Papers and essay examinations are required. A) Classicism and Its Discontents; B) Nature and Culture in Art; C) Primitivism and Modern Art; D) Major Mythic Images of Women; E) Symbols of Innocence and Experience in the New World; F) Abstraction and Ideology. Descriptions of sections available from the art department office. No more than one section of this course may be taken for credit. 4 cr.

570. Art of the Ancient World

The chief and representative monuments in architecture, sculpture, and painting from Paleolithic times to the late Roman Empire. The history of art from a broadly humanistic perspective with investigation of works such as Stonehenge, the pyramids at Giza, Mesopotamian votive figures, the Parthenon and its sculptures, and illusionistic Roman frescoes at Pompeii. 4 cr.

571. Art of the Middle Ages

The chief and representative monuments in architecture, sculpture, and painting from early Christian times to the Gothic era. The history of art from a broadly humanistic perspective with investigation of works such as the Constantinian basilicas, Byzantine mosaics, the Lindisfarne Gospels, the portal sculpture of Autun, and Chartres cathedral. 4 cr.

572. Art of the Age of Humanism

The chief and representative monuments in architecture, sculpture, and painting from the early Florentine Renaissance to the courtly era of Louis XVI. The history of art from a broadly humanistic perspective with investigation of works such as Masaccio's frescoes, Michelangelo's *David*, the Ghent Altarpiece, the basilica of St. Peter's, Rembrandt's self-portraits, and the Georgian house in Portsmouth. 4 cr.

573. Art of the Modern World

The chief and representative monuments in painting, sculpture, and architecture from the Age of Reason to the present. The history of art from a broadly humanistic perspective with investigation of works such as David's revolutionary paintings, Manet's *Olympia*, Rodin's *Gates of Hell*, Picasso's *Demaiselles d'Avignon*, Pollock's drip paintings, Warhol's soup cans, Serra's *Tilted Arc*, and the architecture of Ledoux, Wright, Le Corbusier, and Venturi. 4 cr.

574. Architectural History

A survey of the chief and representative buildings from the entire history of architecture. Analysis of

buildings with regard to structure, form, and symbolic content, concentrating on major works such as the pyramids, the Roman Pantheon, the Gothic cathedral, the Renaissance palace, the Baroque church, and the modern skyscraper. 4 cr.

580. Survey of Art History I

A chronologically and geographically broad introduction to the history of art and architecture and to the discipline of art history. The first semester of the two-semester sequence ranges from the Ancient World to the Renaissance. 4 cr.

581. Survey of Art History II

A chronologically and geographically broad introduction to the history of art and architecture and to the discipline of art history. The second semester of the two-semester sequence ranges from the Renaissance to the present. ARTS 580 is recommended as preparation for, but it is not a formal prerequisite for 581. 4 cr.

#608. Arts and American Society: Women Writers and Artists, 1850-Present

Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Fannie Fern, Lilly Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENGL 585, 586, 685, 785, or a 600-level art history course. (Also offered as ENGL 608, HUMA 608, and HIST 608.) Studio art majors who take this course for major credit will not receive major credit for ARTS 610. 4 cr.

610. Regional Studies in America: New England Culture in Changing Times

Team-taught course investigating some of the major contributions New England has made to American life. Focusing on three periods: the Puritan era, 1620-90; the Transcendental period, 1830-60; and the period of emerging industrialism in the late 19th century. (Also offered as ENGL 610, HIST 610, and HUMA 610.) Studio art majors who take this course for major credit will not receive major credit for ARTS 608. 4 cr.

654. 17th- and 18th-Century American Architecture

Chief colonial architectural styles and monuments; their relation to European antecedents. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

655. Early Modern Architecture: Revolution to World War I

Chief styles and monuments of American and European architecture from the visionaries (Ledoux, Latrobe, Jefferson) to the birth of the skyscraper and nonhistorical architecture. Unique American contribution to modern architectural thought. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

656. Contemporary Architecture: The Buildings of Our Times

Chief styles and monuments of American and European architecture from Frank Lloyd Wright and the International Style to the present. Field trips. Prereq: one 400- or 500-level art history course. 4 cr.

675. Greek and Roman Art

Art and architecture in ancient Greece and Rome from about 1500 B.C. through the fourth century A.D. Emphasis on classical Greek art of the fifth century B.C. and Roman Imperial art of the first and second centuries A.D. Prereq: one 400- or 500-level art history course. 4 cr.

676. History of Illuminated Manuscripts

During the Middle Ages manuscripts were the primary locus of the painting tradition. After a consideration of the development of the manuscript book and our method of study, this course will consider the major monuments of manuscript illumination and their painted cycles of miniatures. Such important works as the *Book of Kells*, the Winchester Bible, the Psalter of St. Louis, and the Trés Riches Heures of Jean de Berry are considered in their cultural and historical contexts. Prereq: one 400- or 500-level art history course. 4 cr.

677. Early Medieval Art

Development of Christian art from 300 to 1000 A.D. Study of the formulation of a new visual language via the intersection of Mediterranean and northern European traditions. Major focus on early Christian catacombs, Byzantine mosaics, insular manuscripts, and Carolingian imperial art. Prereq: one 400- or 500-level art history course. 4 cr.

678. Romanesque and Gothic Art

The culmination of medieval artistic development through examination of major architectural monuments and their sculptural programs, as well as important centers of manuscript illumination. The period from the year 1000 A.D. through the beginnings of the Renaissance in the early 15th century will be stressed. Prereq: one 400- or 500-level art history course. 4 cr.

679. Northern Renaissance Art I

Painting, sculpture, graphic arts, and manuscript illumination in France, Germany, and the Netherlands in the 14th and 15th centuries. Emphasis on the development of the traditions of Northern naturalism and the emergence in 15th-century Flanders of a distinct Renaissance consciousness, which runs parallel to contemporary trends in Italy. Major figures include the Limbourg brothers, Claus Sluter, Jan van Eyck, and Hugo van der Goes. Prereq: one 400- or 500-level art history course. 4 cr.

680. Northern Renaissance Art II

Painting, sculpture, and graphic arts in Germany and the Netherlands in the 16th century. Emphasis on the encounter of the Northern tradition with the classical and humanistic culture of the Italian Renaissance and on the impact of the Protestant Reformation. Major figures include Bosch, Dürer, Holbein, and Bruegel. Prereq: one 400- or 500-level art history course. 4 cr.

681. Early Renaissance Art in Italy

Painting, sculpture, and architecture in Italy during the 14th and 15th centuries. The emergence of Renaissance style in the art of such masters as Giotto, Masaccio, Donatello, Bellini, and Piero della Francesca. Attention is also given to the broad cultural developments to which they belong. Prereq: one 400- or 500-level art history course. 4 cr.

682. High Renaissance and Mannerist Art in Italy

Continuation of ARTS 681. Primary focus on the

formation of High Renaissance classicism in the art of Leonardo, Michelangelo, Raphael, Bramante, and Titian. Attention is also given to the subsequent crisis of the classical ideal in 16th-century mannerism. Prereq: one 400- or 500-level art history course. 4 cr.

683. Baroque Art in Southern Europe

Painting, sculpture, and architecture in Italy, France, and Spain during the 17th century. Emphasis on the diverse and innovative character of art in this period of crisis between the Renaissance and the modern era. Intensive analysis of the works of such major masters as Bernini, Caravaggio, Poussin, and Velazquez. Prereq: one 400- or 500-level art history course. 4 cr.

684. Baroque Art in Northern Europe

Dutch and Flemish painting in the 17th century. Examination of such major figures as Rubens, Rembrandt, Van Dyck, and Vermeer. Attention is also given to the development of the genres and to the many little masters who practiced them. Prereq: one 400- or 500-level art history course. 4 cr.

685. Graphic Art of the Renaissance and Baroque Periods

The availability of paper and the invention of the printing press made it possible for drawings and prints to become fundamental elements in the western artistic tradition. Prints have been called major instigators of the production of secular art and of overtly experimental art. They were the first art made with an elite but relatively broad class of collectors in mind, and—in different examples—the first art that could be owned even by the poor. Examination of anonymous works, works by artists famous only as printmakers, and the printed work by or after Mantegna, Dürer, Lucas van Leyden, Raphael, Michaelangelo, Bruegel, and Rembrandt, as well as drawings of the period. Prereq: one 400- or 500-level art history course. 4 cr.

686. Neo-Classicism to Romanticism

European painting and sculpture in its sociopolitical context, with emphasis on the relation of idea to image, from David and the French Revolution to the romantic landscapes of Friedrich and Runge, and the romantic-classic debate involving Delacroix and Ingres. Prereq: one 400- or 500-level art history course. 4 cr.

687. Realism and Impressionism

The rise of realism and impressionism in the second half of the 19th century in France. Emphasis on the influence of the *plein air* sketch of the English and Barbizon landscape painters, the realism of Courbet and Millet, the Hausmannization of Paris and the painting of modern life, Seurat and neoimpressionism, and the late works of Cézanne and Monet. Prereq: one 400- or 500-level art history course. 4 cr.

688. Twentieth-Century Art I

Evolution of modernism from symbolism and post-impressionism to World War II. Emphasis on the art and theory of cubism, expressionism, abstraction, surrealism, and social realism. Prereq: one 400- or 500-level art history course. 4 cr.

689. Twentieth-Century Art II

Examines abstract expressionism as a framework for analyzing art since World War II. Focus on

"Action Painting" and Color Field Painting, minimalism and conceptual art, pop art, earthworks and cited sculpture, new image painting, post-modernism, and related critical theory. Prereq: one 400- or 500-level art history course. 4 cr.

690. Women Artists of the Nineteenth and Twentieth Centuries

Examination of the works of women artists of the past two centuries. After considering current scholarship related to some of the theoretical issues involved in studying art by women, the works of women artists from the Middle Ages through the early 19th century will be surveyed briefly. Focus will then shift to works by women artists of the past 150 years and their relationship to and impact on major movements in modern art. Prereq: one art history and another appropriate course. 4 cr.

691. A History of Venetian Art

The artistic culture of Venice from Byzantine times through Tiepolo and Canaletto introduced. Course emphasis will be on Renaissance Venice, including topics such as the reclining female nude, the courtesan portrait, and the origins of landscape painting. Artists to be studied include Bellini, Giorgione, Titian, and Palladio. Prereq: one 400- or 500-level art history course. 4 cr.

692. History of Photography

History of the photograph from its origins in the aesthetic and technological context of the early 19th century to the present. Lectures and discussions on such topics as the impact of early photography on painting, 19th-century landscape and travel photography, pictorialism, abstract photography, the photograph as metaphor, photojournalism and the interpretation of war, and postmodernism and photography. Critical reading of texts by Beaudelaire, Benjamin, Barthes, Sontag, and Sekula. Prereq: one 400- or 500-level art history course. 4 cr.

693. American Art

A chronological survey of painting and sculpture in the United States from the colonial period to the present. Prereq: one 400- or 500-level art history course. 4 cr.

#697. Art of the Far East

Examination of the major trends in painting, sculpture, and architecture of India, China, and Japan, with emphasis on the relation of philosophical concepts to imagery. Prereq: one 400- or 500-level art history course.

699. Museum Studies

Introduction to the history and practices of American museums, including their purposes, organization, interpretation, policies, and procedures. Use of the Art Gallery, visits to other museums, lecturers. Prereq: two courses in art history and permission. 4 cr.

795. Methods of Art History

Essential bibliography and the methodology of research; the variety of approaches to art historical scholarship. Readings, discussion, and projects in connoisseurship, iconography, and other art historical methods. Open to advanced students with a strong art history background. It is strongly recommended that students take this course in their junior year. Prereq: (for non-art history majors): permission. 4 cr. (Usually offered fall semester only.)

799. Seminar in Art History

Topics and prerequisites to be announced before preregistration. May be repeated with permission of instructor. 4 cr.

(See also ARTS 695, 700H, and 796 under Special Courses.)

Art Education

All courses elective by permission of the Department of the Arts.

791. Art Education (Elementary)

Children's creative growth as revealed through their visual expression. Development of elementary art education programs with emphasis on objectives, methods, materials, and techniques to foster creativity. Suggested prereq: EDUC 500. 4 cr.

792. Art Education (Secondary)

The creative process in the visual arts in relation to the development and skills of middle and high school students in the public schools; mechanics of beginning and maintaining a secondary art program; exploring resources for art education programs on the secondary level. Suggested prereq: EDUC 500. 4 cr.

#797. Art Education Seminar

Architecture as a resource in teaching. Primarily for secondary school teachers and those involved in adult education. Not for major credit in art dept. (See also ARTS 796.) 4 cr.

Biochemistry and Molecular Biology (BCHM)

(For program description, see page 47.)

Chairperson: Thomas M. Laue

Professors: Clyde L. Denis, Thomas M. Laue, Samuel C. Smith, Stacia A. Sower, James A. Stewart

Associate Professors: John J. Collins, Rick H. Cote, Anita S. Klein, Andrew P. Laudano

658. General Biochemistry

A comprehensive, introductory course emphasizing the cellular metabolism and the structure and function of proteins, nucleic acids, carbohydrates, and lipids. Coreq: BCHM 659 (except BCHM majors who are encouraged to take BCHM 755). Prereq: BIOL 411, CHEM 545-546, CHEM 547-548, or CHEM 651-652. 3 cr.

659. General Biochemistry Laboratory

Structured laboratory experiments that provide training in analytical and preparative techniques fundamental to modern biochemistry and molecular biology. Coreq: BCHM 658 (except for BCHM majors who are encouraged to take BCHM 755 instead of BCHM 659). Special fee: 2 cr.

704. Endocrinology

Structure and function of vertebrate endocrine systems. Influence of endocrine system on the molecular and biochemical mechanisms and physiology of vertebrates, with special reference to mammals. Current investigations of the endocrine

system as a regulator and integrator of body function, including such systems as growth, reproduction, metabolism, differentiation, and behavior. (Also offered as ZOO 704.) Prereq: BCHM 658 or 751/or permission. 4 cr.

711. Genetics of Eukaryotic Microbes

Expression and transfer of genetic material in eukaryotic microbes including fungi, algae, protozoa, and *Caenorhabditis elegans*. Laboratory experience in DNA sequence entry retrieval and analysis. Macintosh work stations are used for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MICR 503; BIOL 604 (Also offered as GEN 711 and MICR 711). Special fee: Lab. 3 cr.

750. Physical Biochemistry

Structure, interactions, and physical-chemical properties of biomolecules. Thermodynamic, hydrodynamic, and spectroscopic methods for the study of proteins and nucleic acids. Prereq: BCHM 751;/or permission. 3 cr.

751-752. Principles of Biochemistry

In-depth survey of biochemistry; macromolecular structure; metabolism of proteins, nucleic acids, carbohydrates, and lipids; molecular biology of DNA, RNA, and protein synthesis and regulation. Prereq: CHEM 547-548 or CHEM 651-652 or CHEM 545 and 546;/or permission. 4 cr.

755. Laboratory in Biochemistry and Molecular Biology

Application of modern techniques to the characterization of biomolecules, with an emphasis on proteins and nucleic acids; analysis of enzyme kinetics; and basic techniques used in molecular biology. (Majors anticipating taking BCHM 799 should take this course in their junior year.) Prereq: BCHM 751;/or permission. Special fee: 5 cr.

760. Cellular Signaling Processes

Signal transduction and the regulation of metabolism, cell growth, and cellular activation; molecular basis of cellular communication. Prereq: BCHM 658 or 751;/or permission. 3 cr.

763. Biochemistry of Cancer

Molecular mechanisms of viral and chemical carcinogenesis; role of oncogenes in normal cell growth, development, and differentiation. Biochemical basis of cancer chemotherapy. Prereq: BCHM 658 or 751;/or permission. 3 cr.

765. Molecular Biology and Biochemistry of Plants

Molecular mechanisms and regulation of plant metabolic functions. Structure and function of cellular constituents of plants; role of secondary metabolites. Emphasis on developments in current literature. Complements PBIO 774/775. Prereq: BCHM 658 or 751; BIOL 604; or permission. (Also offered as PBIO 765.) 3 cr.

771. Molecular Genetics

Structure, organization, replication, dynamics, and expression of genetic information in eukaryotes. Focus on molecular genetic mechanisms of gene expression and its control, molecular genetics methods; molecular genetic control of cell division and differentiation during development. Prereq: BCHM 658 or 751; BIOL 604; or permission. (Also offered as GEN 771.) 3 cr.

#772. Introductory Laboratory in Molecular Genetic Techniques

Biochemical gene manipulation techniques including the genetic, physical, and enzymatic characterization of gene vectors, gene cloning, construction of genetic probes, and sequencing of nucleic acids. Prereq: BCHM 658 or 751; and BIOL 604;/or permission. (Also offered as GEN 772.) Special fee: 3 cr.

782. Developmental Genetics

The molecular genetic basis of metazoan development. Focuses on how genes direct the process of development and how this problem is analyzed in model organisms using molecular genetic approaches. Topics include: control of cell division, maternal factors, cell-cell interactions, and differential gene expression. Prereq: BIOL 604; BCHM 658 or 751. (Also offered as GEN 782.) 3 cr. (Not offered every year.)

795. Investigations in Biochemistry and Molecular Biology

Independent research experience in the following areas: A) Genetics; B) Signal Transduction; C) Gene Regulation; D) Molecular Evolution; E) Biochemistry of Cancer; F) Biophysics of Macromolecules; G) Endocrinology; and H) Teaching Experience. Prereq: permission. Not more than 4 total credit hours can be applied to BCHM or major electives. 1-4 cr.

799. Senior Thesis

Research in biochemistry and molecular biology for senior majors. A) Developmental Genetics; B) Signal Transduction; C) Gene Regulation; D) Molecular Evolution; E) Biochemistry of Cancer; F) Biophysics of Macromolecules; and G) Endocrinology. Prereq: BCHM 659 or 755; permission. May be repeated to a maximum of 4 credits. 1-4 cr.

Biology (BIOL)

(For program description, see page 48.)

Coordinator: James L. Pollard

400. Professional Perspectives on Biology

Views scope of biology and explores professional opportunities for biological sciences majors. Guest speakers from on and off campus present seminars and lead discussions on contemporary issues in biology; departmental and interdepartmental major and option programs; and strategies for achieving professional goals. Required for all first-semester biology majors. 1 cr. Cr. F.

404. Biotechnology and Genetic Engineering: Future Perspectives

History and science of biotechnology and genetic engineering of bacteria, plants, and animals including humans. Applications of DNA technology, cloning, and genetic engineering to agriculture, biomedicine, industrial products and environmental problems. Discussion of economic, social, environmental, legal, and ethical issues related to the applications of biotechnology and genetic engineering. Lab. 4 cr.

411. Principles of Biology I

Introduction to structure and function of cells; tis-

sues and organs; physiological processes; genes and heredity. Required for majors in the biological sciences. Special fee. Lab. 4 cr.

412. Principles of Biology II

The biology of organisms, including survey of kingdoms, behavior, evolution, and ecology. Required for majors in the biological sciences. Special fee. Lab. 4 cr.

#420. Parasites and Pestilence

Ecology of human disease; role of disease in history; biological, social, and economic problems involved in eradication and control. Particular attention to diseases that still account for serious sickness and mortality in overpopulated, underdeveloped countries. No credit toward a major or minor. 4 cr.

528. Applied Biostatistics I

Development of elementary statistical techniques through the analysis of prepared biological data. Continuous and discrete probability distributions; distributions of sample statistics; small-sample theory; regression; correlation; and analysis of variance. No credit for students who have completed ADM 430; DS 420; HHS 540; MATH 644; PSYC 402; RECO 525, 528; SOC 502. 4 cr.

541. General Ecology

Physical and biological factors affecting distribution, abundance, and adaptations of organisms. Population, community, and ecosystem structure and function. Prereq: BIOL 411-412 or equivalent. Special fee. Lab. 4 cr.

604. Principles of Genetics

Chemical structure of genetic material, Mendelism, gene recombination, and chromosome mapping. Mutation, gene expression and regulation, recombinant DNA. Quantitative inheritance and population genetics. Prereq: BIOL 411 and 412; CHEM 403 and 404. College math or statistics suggested. Offered each semester. Special fee. 4 cr.

605. Eukaryotic Cell and Developmental Biology

Cell and developmental biology of eukaryotic animals and plants. General topics include the structure and function of major cellular compartments, an analysis of intracellular dynamics, mechanisms of intercellular chemical communication, and mechanisms for elaborating and integrating multicellular animals and plants. Special topics include mitogenesis, cell motility, oncogenesis, control of gene expression, and pattern formation. Prereq: BIOL 411 and 412; CHEM 403 and 404. Special fee. Lab. 3 cr.

695, 696. Biology Teaching Practices

Students assist in teaching labs in undergraduate biology courses, supervised by the lab coordinator/instructor. Responsibilities include facilitating lab endeavors, giving a presentation, and writing a report. Prereq: permission. May be repeated to 8 cr. 1-4 cr.

702. Genetics Lab

An experimental approach to understanding the fundamental principles of heredity. Theoretical aspects of genetics hypothesis testing, data analysis, and techniques of isozyme and DNA electrophoresis and polymerase chain reaction (PCR). In lab, students conduct mating and mutagenesis experiments with plants, animals, and yeast, do hu-

man DNA fingerprinting; and employ techniques of DNA isolation, electrophoresis, PCR, cytogenetics, and statistical analysis to generate and interpret genetic data. Prereq: BIOL 604 or equivalent. Special fee. (Also offered as GEN 702.) 4 cr.

711. Applied Biostatistics II

Design and analysis of biological and ecological research experiments. "Real world" studies used to discuss the identification of hypotheses, appropriate experimental design, and the application of statistical analyses including ANOVA, ANCOVA, correlation and regression, cluster analysis, classification and ordination techniques. Theoretical statistical concepts tailored to consider student's own thesis and dissertation research, allowing statistical problems to be addressed at various stages of the research process. Common computer packages used for analyses. Prereq: BIOL 528; permission. 4 cr.

#791. Problems in the Teaching of High School Biology

Objectives and methods; selection and organization of materials, preparation of visual aids and other projects; use of field trips. Prereq: two years of biological science; permission. 4 cr.

795, 796. Biology Independent Investigations

A) Teaching—teaching practicum in a biological science supervised by a biology faculty member. Prereq: permission. B) Research—research practicum in a biological science supervised by a biology faculty member. Prereq: permission. C) Special topics—selected topics of current interest in biology. Lecture-discussion format. Prereq: 12 credits of biology or permission. May be repeated to 4 cr. 1-4 cr.

Departmental Biological Science Courses

(Other biological science courses include those listed and described under the following department/program headings: Animal Sciences, p. 109; Biochemistry and Molecular Biology, p. 116; Genetics, p. 143; Microbiology, p. 166; Natural Resources, p. 170; Nutritional Sciences, p. 172; Plant Biology, p. 177; and Zoology, p. 197.)

Business Administration (ADMN)

(For program description, see page 85. For faculty listings, see pages 107, 126, 130, 151, 160.)

685-686. Study Abroad

Open to students studying abroad in the discipline as approved by the department chair and Undergraduate Programs Office. 1-16 cr. Cr/F.

695. Independent Study

Individual research projects that are student designed. Initial sponsorship of a business administration faculty member must be obtained, and approval of WSBE Undergraduate Programs Office and department chair. For juniors and seniors in high standing. 1-12 cr.

696. Supervised Student Teaching Experience

Participants are expected to perform such functions

as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisers in the advising center. Enrollment is limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, department chair, and director of undergraduate programs. No more than 4 credits may be earned as a teaching assistant in any one course. 1-8 cr.

795. Internship

On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization, with frequent consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May not be used as a Group C elective. Prereq: permission of instructor, department chair, and director of undergraduate programs. 1-16 cr. Cr/F.

798. Topics in Business Administration

Special topics; may be repeated. Prereq: permission. 2-4 cr.

799. Honors Thesis/Project

Supervised research leading to the completion of an honors thesis or project; required for graduation from the honors program in administration. Prereq: permission of director of undergraduate programs and department chair. 4-8 cr.

Chemical Engineering (CHE)

(For program description, see page 60.)

Chairperson: Stephen S.T. Fan

Professors: Stephen S.T. Fan, Ihab H. Farag,

Virendra K. Mathur, Gael D. Ulrich

Associate Professors: Dale P. Barkey, Russell

T. Carr, Donald C. Sundberg, Palligarnai T.

Vasudevan

410. Survey of Current Energy and Pollution Control Technology

Energy supply in this country and the world; conventional fuel reserves: coal, oil, natural gas; alternative sources: nuclear, solar, geothermal, etc. Forecasts and strategies to meet needs. Environmental pollution, sources, and economic and environmental impacts. Methods for pollution control. Regulatory standards for environmental protection. Prereq: good background in high school chemistry. 4 cr.

501. Introduction to Chemical Engineering I

Systems of units; material balances and chemical reactions; gas laws; phase phenomena. 3 cr.

502. Introduction to Chemical Engineering II

Energy and material balances for systems with and without chemical reactions; design case studies. 3 cr.

601. Fluid Mechanics and Unit Operations

Continuity, momentum, and energy equations; laminar and turbulent flow in pipes; rheology. Applications to flow in porous media, filtration, and fluidization. 3 cr.

602. Heat Transfer and Unit Operations

Thermal properties of materials, steady-state and transient conduction and convection; radiation; applications to heat exchangers and process equipment. 3 cr.

603. Applied Mathematics for Chemical Engineers

Mathematical modeling and analysis of chemical engineering problems. Analytical methods for first- and second-order differential equations; numerical solutions; series solutions; Bessel functions; Laplace transforms; matrix algebra. Interpretation and solution of partial differential equations. Prereq: knowledge of scientific computer programming. Lab. 4 cr.

604. Chemical Engineering Thermodynamics

Volumetric and phase behavior of ideal and real gases and liquids; cycles; steady-flow processes; chemical equilibrium. Lab. 4 cr.

605. Mass Transfer and Stagewise Operations

Diffusion in gases, liquids, and solids; design and analysis of distillation, absorption, adsorption, extraction, and other stagewise equipment and operations. 3 cr.

606. Chemical Engineering Kinetics

Use of laboratory data to design commercial reactors. Continuous, batch, plug-flow, and stirred-tank reactors for homogeneous and catalytic multiphase reactions. 3 cr.

608. Chemical Engineering Design

Introduction to cost engineering. Application of acquired skills to design of chemical processes. Individual major design project required. Lab. 3 cr.

612. Chemical Engineering Laboratory I

Selected experiments in fluid mechanics, heat transfer, and unit operations. 3 cr.

613. Chemical Engineering Laboratory II

Selected experiments in mass transfer, stagewise operations, thermodynamics, and kinetics. 3 cr.

695. Chemical Engineering Project

Independent research problems carried out under faculty supervision. 1-4 cr.

696. Independent Study

Prereq: permission of the adviser and department chairperson; granted only to students having superior scholastic achievement. 1-4 cr.

701. Introduction to Polymer Engineering

Principles of polymer chemistry, polymerization kinetics, polymer rheology, and material characteristics. Design and analysis of polymer reactors, extruders, molding machines, and other forming operations. Lab. 4 cr.

705. Natural and Synthetic Fossil Fuels

Study of U.S. and foreign reserves of coal, oil, and natural gas. Petroleum processing and refining. Coal, oil shale, and tar sand. Gasification and liquefaction of coal. Lab. 4 cr.

709. Fundamentals of Air Pollution and Its Control

The origin and fate of air pollutants. Fundamentals of atmospheric meteorology, chemistry, and dispersion phenomena. Control of air pollutants and the related equipment. Current issues. Prereq: MATH 527; CHEM 403-404. Lab. 4 cr.

712. Introduction to Nuclear Engineering

Development of nuclear reactors; binding-energy; radioactivity; elements of nuclear reactor theory; engineering problems of heat transfer, fluid flow, materials selection, and shielding; environmental impacts. 4 cr.

#744. Corrosion

Fundamentals of corrosion processes in industrial and environmental settings; thermodynamics, kinetics, and mass transport in local corrosion cells; protection by electrochemical, chemical, surface modification or barrier methods; instrumental methods in corrosion science. Lab. 4 cr.

751. Process Simulation and Optimization

Techniques for computer-aided analysis of chemical processing systems. Development of mathematical models to describe process behavior. Application of optimization techniques. Prereq: a knowledge of scientific computer programming. Lab. 4 cr.

752. Process Dynamics and Control

Dynamic behavior of chemical engineering processes described by differential equations; feedback control concepts and techniques; stability analysis. Lab. 4 cr.

#754. Graphic, Numerical, and Finite Element Applications in Chemical Engineering

Computational methods for solving differential equations resulting from the modeling of a process or physical phenomena. Graphical display of results of data and of curve-fitted equations. Use of interactive graphics and the solution of boundary-value problems. Applications of finite element analysis and discussion of other software available. Prereq: CHE 603 or permission of instructor; a knowledge of scientific computer programming. 4 cr.

761. Biochemical Engineering

Immobilized enzyme technology, microbial biomass production, transport phenomena in microbial systems, biological reactor design, process instrumentation and control, applications in separation and purification processes. Lab. 4 cr.

772. Physicochemical Processes for Water and Air Quality Control

Origin and characterization of pollutants. Controls, including filtration, sedimentation, coagulation and flocculation, absorption and adsorption. Applied fluid mechanics, mass transfer, and kinetics. Thermal pollution, chemical treatment, oil spills on water, and aeration. Lab. 4 cr.

Chemistry (CHEM)

(For program description, see page 61.)

Interim Chairperson: W. Rudolf Seitz
Professors: Kenneth K. Andersen, N. Dennis Chasteen, Richard P. Johnson, Howard R. Mayne, James D. Morrison, W. Rudolf Seitz, James H. Weber, Gary R. Weisman, Edward H. Wong

Associate Professors: Christopher F. Bauer, Roy Paul Planalp, Sterling A. Tomellini
Assistant Professors: Carmela C. Amato-wierda, Glen P. Miller, Chifuru Noda, Charles K. Zercher

#*401-402. Introduction to Chemistry

Elementary, broad view of chemistry; emphasizes topics related to everyday life. For students who do not intend to take any other chemistry courses, and those interested in satisfying a science requirement. Not a prerequisite for any other chemistry courses. Lab. 4 cr. (Not offered every year.)

***403-404. General Chemistry**

Fundamental laws and concepts applied to nonmetals, metals, and their compounds. For students who plan to take further chemistry courses. Previous chemistry recommended. Knowledge of algebra, exponentials, and logarithms required. Special fee. Lab. 4 cr.

***405. General Chemistry**

Basic principles; atomic structure, bonding, equilibria, and thermodynamics. First course for chemistry majors. Prereq: one year of high school chemistry, algebra, and knowledge of exponentials and logarithms. Cannot be taken for credit if credit received for CHEM 403-404. Not recommended for premedical students. Special fee. Lab. 4 cr.

406. Quantitative Analysis

Studies of pollution, environmental problems, and the more traditional professional work in chemistry rely heavily on a sound knowledge of analytical chemistry. Gravimetric and volumetric analysis, potentiometry, spectrophotometry, and selected separations methods. Prereq: CHEM 404 or 405. Coreq: CHLM 407. 3 cr.

407. Quantitative Analysis Laboratory

Gravimetric and volumetric analysis; chemical separations; potentiometry and spectrophotometry. Treatment of data, error analysis, and calculation of results. Coreq: CHEM 406. Special fee. 2 cr.

***409. Chemistry and Society**

Elementary survey of chemistry; integrates principles and applications. For students who do not intend to take any other chemistry courses and those interested in satisfying a general education science requirement. Not a prerequisite for any other chemistry course. Lab. 4 cr. (Not offered every year.)

517. Quantitative Analysis

For students planning careers in medicine, dentistry, plant and animal science, nursing, oceanography, and environmental science. Volumetric methods, separations, and instrumental methods. Prereq: CHEM 404 or 405. Coreq: CHLM 518. 3 cr.

518. Quantitative Analysis Laboratory

Volumetric methods with an emphasis on technique; separations; and selected instrumental methods such as potentiometry, spectrophotometry, atomic absorption, and gas chromatography. Coreq: CHEM 517. Special fee. 2 cr.

520. Seminar in Environmental Chemistry

Several speakers on environmental topics such as water quality, atmospheric chemistry, and hazardous waste. Includes reading assignments from the environmental literature, classroom discussion, and a presentation to the class. Prereq: CHEM 404 or 405, 547-549, or 651-653 and permission. Coreq: CHEM 548-550 or 652-654. 2 cr.

* Students receive credit for only one course from 401, 403, 405, and 409, and for only one course from 402 and 404.

545. Organic Chemistry

Introductory study of carbon compounds for those who desire a brief terminal course. Prereq: CHEM 404 or 405. Coreq: CHEM 546. Students receiving credit for CHEM 545 may not receive credit for CHEM 402, 547-548, or 651-652. 3 cr.

546. Organic Chemistry Laboratory

Coreq: 545. Special fee. 2 cr.

547-548. Organic Chemistry

Principal classes of organic compounds, aliphatic and aromatic; class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Prereq: CHEM 404; 405;/or permission. Coreq: CHEM 549-550. Students receiving credit for CHEM 547-548 may not receive credit for either CHEM 545 or 651-652. 3 cr.

549-550. Organic Chemistry Laboratory

Coreq: 547-548. Special fee. Lab. 2 cr.

574. Introduction to Inorganic Chemistry

Elementary concepts including periodicity, descriptive chemistry of metals and nonmetals, and coordination compounds. Prereq: CHEM 404; 405;/or permission. 3 cr.

651-652. Organic Chemistry

Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for prehealing arts, biological science, and health science students. Prereq: CHEM 404; 405;/or permission. Coreq: CHEM 653-654. Students receiving credit for CHEM 651-652 may not receive credit for either CHEM 545 or 547-548. 3 cr.

653-654. Organic Chemistry Laboratory

Coreq: 651-652. Special fee. 2 cr.

683-684. Physical Chemistry I, II

The properties of gases, liquids, and solids; thermochemistry and thermodynamics; solutions, chemical equilibria, reaction rates, conductance, and electromotive force. Prereq: CHEM 404 or 405; MATH 426. Pre- or coreq: PHYS 402 or 407. Coreq: CHEM 685-686. 3 cr.

685-686. Physical Chemistry Laboratory

Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: CHEM 404 or 405; MATH 426. Pre- or coreq: PHYS 407 or 402. Coreq: CHEM 683-684. Special fee. 2 cr.

696. Independent Study

For exceptional students. Individual reading, writing, or laboratory work carried out under the tutelage of a faculty member. May be used to replace specific required courses in chemistry. Prereq: approval of the adviser and department chairperson. Credits to be arranged.

698. Seminar

Student reports on topics of interest. Prereq: CHEM 548 or 652; CHEM 684. 1 cr.

699. Thesis

Yearlong investigation in a selected topic, with background and experimental investigation. For chemistry majors who have completed CHEM 548, 684, and 762. Required for B.S. majors. Strongly

recommended for B.A. chemistry majors. Prereq: 2.50 average or permission. Lab. Two semesters of 4 cr. each are required. 4 cr./semester.

708. Spectroscopic Investigations of Organic Molecules

Survey of the use of modern spectroscopic techniques for the identification and structural and dynamic characterization of organic compounds. Topics include proton and carbon-13 nuclear magnetic resonance spectroscopy, infrared spectroscopy, and mass spectroscopy. Problem solving is emphasized. 1-4 cr.

755. Advanced Organic Chemistry

Methods of synthesis and determination of structure, including stereochemistry of complex organic compounds. Prereq: CHEM 548 or 652 or equivalent. Coreq for CHEM majors: 756. 3 cr.

756. Advanced Organic Chemistry Laboratory

Synthesis and structural determination of complex organic compounds, techniques for the separation, determination of purity, and identification of compounds by spectroscopic and chemical means. Coreq for CHEM majors: 755. Special fee. 3 cr.

762. Instrumental Methods of Chemical Analysis

Theory, instrumentation, and application of methods such as atomic absorption, coulometry, emission spectrography, gas and liquid chromatography, polarography, potentiometry, IR and UV-VIS absorption spectrophotometry, and mass spectrometry to chemical analysis. Prereq: CHEM 406 or 517; CHEM 684 as a pre- or corequisite;/or permission. Coreq: CHEM 763. 3 cr.

763. Instrumental Methods of Chemical Analysis Laboratory

Experimental parameters, error analysis, and applications of the methods covered in CHEM 762. Coreq: CHEM 762. Special fee. 2 cr.

774. Inorganic Chemistry

Basic theoretical concepts and their applications to inorganic reactions and compounds. Prereq: organic chemistry; physical chemistry;/or permission. Coreq: CHEM 775. 3 cr.

775. Inorganic Chemistry Laboratory

Synthesis and characterization of inorganic compounds with an emphasis on techniques not taught in other laboratory courses. Coreq for undergraduates: CHEM 774. Special fee. 2 cr.

776. Physical Chemistry III

Application of quantum theory to atomic electron structure, spectroscopy, and molecular structure. Prereq: CHEM 683-684. Special fee. Lab. 4 cr.

#778. Chemistry of Large Molecules

Basic chemistry of high-molecular-weight compounds, including synthetic polymers and substances occurring in living systems. Elementary aspects of the structures, syntheses, and properties of large molecules, and their roles in modern science, technology, and living systems. Prereq: one semester of organic chemistry. 4 cr. (Not offered every year.)

Chinese (CHiN)**#401-402. Elementary Chinese**

Aural-oral practice in meaningful contexts of the fundamental vocabulary and grammar of Mandarin Chinese. Reading and writing in romanization (pinyin) and in Chinese characters. 4 cr.

#503-504. Intermediate Chinese

Continuation of CHIN 401-402. Conducted entirely in Chinese, with work on listening comprehension, speech, reading, and writing of Chinese characters, with increasing attention to reading contemporary Chinese texts. 4 cr.

Civil Engineering (CIE)

(For program description, see page 62.)

Chairperson: Thomas P. Ballestero

Professors: Pedro A. de Alba, David L. Gress, Paul J. Ossenbruggen

Associate Professors: Thomas P. Ballestero, Jean Benoit, Michael R. Collins, Charles H. Goodspeed, Robert M. Henry, Nancy E. Kinner, James P. Malley

Research Associate Professor: T. Taylor Eighmy

Assistant Professors: Raymond A. Cook, Michael B. Stetson

Research Assistant Professor: Larry K. Brannaka

400. Civil Engineering Lectures

Introduction to the profession; the civil engineer as a planner, builder, and problem solver; and the goals of the civil engineering curriculum. Introduction to concepts of integrated design. Lectures by faculty and visitors. Introduction to word processing and spreadsheet software. Field trips to construction sites. Engineering ethics. Required of CIE first-year students; open to others by permission. 1 cr. Cr/F.

505. Surveying

Principles of land measurements by ground and photogrammetric methods. Application of error theory to planning and adjusting engineering surveys. Conformal mapping and its applications to state plane coordinate systems. CIE majors or permission. Coreq: MATH 426 or permission. Special fee. Lab. 4 cr.

520. Environmental Pollution and Protection—A Global Context

Introduction to environmental science and engineering and the anthropogenic causes of environmental change. Emphasis on the causes, effects, and controls of air, water, and land pollution. The political, ecological, economic, ethical, and engineering aspects of pollution are discussed. 4 cr.

528. Mechanics I

Introduction to statics and particle dynamics and rigid body dynamics. Two- and three-dimensional force systems; the concept of static and dynamic equilibrium; rotational and translational kinetic energy of rigid bodies; friction; momentum and impulse principles; analysis of trusses and beams, centroids, development of moment and shear diagrams. Prereq: MATH 425, 426; PHYS 407. 4 cr.

529. Mechanics II

Introduction to strength of materials, virtual work, work-energy relationships. Analysis of members under bending, torsion, axial loads; diagrams; stresses and strains; stability of columns. Prereq: CIE 528. 4 cr.

530. Introduction to Civil Engineering Applications

Introduction to the solution of civil engineering problems using computer applications; regression analysis, curve fitting, numerical integration, statistics, roots of equations, spreadsheets, databases, CAD, and an introduction to engineering drawings. Emphasis on use of computers as an engineering tool, and how to verify results obtained from a computer analysis. Prereq: CIE 400; 528;/or permission. Special fee. 3 cr.

622. Engineering Materials

Structural properties and applications of the various materials used in civil engineering projects, including steel, cement, mineral aggregates, concrete, timber, and bituminous materials. Microstructure and properties of common metals, plastics, and ceramics. Prereq: CIE 529; CIE major or permission. Special fee. Lab. 4 cr.

633. Systems Analysis

Techniques for modeling and analysis of engineering systems. Topics include economic evaluation, optimization, system variability and uncertainty, and model calibration. Pre- or coreq: MATH 527 and 644; CIE major or permission. 3 cr.

642. Fluid Mechanics

Properties of fluids, fluid statics, continuity, momentum and energy equations, resistance to flow, flow in open channels and piping systems, dimensional analysis, similitude, drag, and lift. Laboratory exercises on measurement of fluid properties, flow resistance, discharge measurement, momentum, hydropower, groundwater flow, and settling of spheres. Prereq: CIE 528, 529; CIE major or permission. Special fee. Lab (meets every other week, opposite CIE 665 labs). 4 cr.

645. Fundamental Aspects of Environmental Engineering

Application of fundamental concepts of mass balance in treatment processes. Physical, chemical, and biological aspects of pollution control, and design concepts for operations and processes used in environmental engineering are discussed. Concepts of engineering ethics are presented. Prereq: CHEM 403-404. MATH 425, 426; CIE major or permission. 4 cr.

665. Soil Mechanics

Soil classification and physical properties. Permeability, compressibility, consolidation, and shearing resistance are related to the behavior of soils subjected to various loading conditions. Coreq: CIE 642; CIE major or permission. Special fee. Lab (meets every other week, opposite CIE 642 labs). 4 cr.

681. Classical Structural Analysis

Analytical stress and deflection analysis of determinate and indeterminate structures under static and moving loads by classical methods. Prereq: CIE 528-529; CIE major or permission. 3 cr.

#695. Civil Engineering Projects

Independent research, under faculty guidance, of a

subject of particular interest to an individual or a small group. Prereq: approval of faculty member involved. 2-4 cr.

721. Pavement Design

Flexible and rigid pavements and bases for highways, airports, and city streets; pavement selection, construction methods, materials, specifications, and engineering cost estimates. Prereq: CIE 665 or permission. 3 cr.

722. Properties and Production of Concrete

Basic principles of hydraulic cements and mineral aggregates, and their interactions in the properties of plastic and hardened concrete; modifications through admixtures; production handling and placement problems; specifications; quality control and acceptance testing; lightweight, heavyweight, and other special concretes. Prereq: CIE 622 or permission. 3 cr.

723. Bituminous Materials and Mixtures

Considerations of major types of bituminous materials, asphalt cements, cutback asphalts, asphalt emulsions, and tars; influence of chemical composition on physical properties; desirable aggregate characteristics for bituminous mixtures; construction techniques; current practices for determining optimum asphalt contents. Prereq: CIE 622 or permission. 3 cr.

734. Project Analysis

Methods of analysis for decision making used in the planning, design, and management of various engineering systems involving chance and uncertainty. Topics in applied probability and statistics are used for risk analysis and for investigating system performance and reliability. Prereq: CIE 633, MATH 644, or permission. 3 cr.

739. Industrial Wastewater Treatment

Engineering consideration of the origin, characteristics, and treatment of industrial wastewater; the theory and application of unit operations unique to the treatment and disposal of industrial wastes. Prereq: CIE 645 or permission. 3 cr.

#740. Rural Wastewater Engineering

Methods for collecting and treating wastewater in small communities and rural areas. Biological and physicochemical treatment systems for small communities; land application; soil absorption; gray water treatment; and septage treatment. Prereq: CIE 645 or permission. 3 cr.

741. Open Channel Flow

Energy and momentum principles in open channel flow; flow resistance; channel controls and transitions; unsteady open channel flows; and basic modeling techniques using program HEC-2. Prereq: CIE 642 or permission. 3 cr.

742. Hazardous Waste Management

A thorough examination of the hazardous waste management problem in terms of the magnitude of the problem, the regulation of hazardous wastes, hazardous waste treatment and disposal technology, siting requirements, and remedial actions required at uncontrolled dump sites. Prereq: CIE 645 or permission. 3 cr.

743. Environmental Sampling and Analysis

Theory of analytical and sampling techniques used in environmental engineering. Topics include potentiometry, spectroscopy, chromatography,

automated analysis, quality control, sampling design, and collection methods. Methods discussed in lecture are demonstrated in labs. Prereq: CHEM 403-404; CIE 645 or permission. Special fee. Lab. 4 cr.

744. Physicochemical Treatment Design

Selection, design, and evaluation of unit processes employed in physicochemical treatment of waters, wastewaters, and hazardous wastes. Discusses preparation of alternative designs and economic analysis. Emphasizes treatment schemes based on experimental findings. Prereq: CIE 645 and CIE 749;/or permission. Special fee. 3 cr.

745. Engineering Hydrology

Hydrologic cycle, probability theory related to hydrology and the design of water resources structures, water law basics, flood discharge prediction, hydrograph development, hydraulic and hydrologic river routing, reservoir routing, theory of storage, reservoir operations, hydropower development, modeling of watershed hydrology with program HEC-1, multipurpose projects. Prereq: CIE 642 or permission. 3 cr.

746. Biological Treatment Design

Selection, design, and evaluation of unit processes employed in biological treatment of waters, wastewaters, and hazardous wastes. Preparation of engineering reports, including developing design alternatives and economic analysis, is required. Prereq: CIE 645 and CIE 642;/or permission. 3 cr.

#747. Introduction to Marine Pollution and Control

Introduction to the sources, effects, and control of pollutants in the marine environment. Dynamic and kinetic modeling; ocean disposal of on-shore wastes, shipboard wastes, solid wastes, dredge spoils, and radioactive wastes; and oil spills. Prereq: CIE 645 or permission. 3 cr.

748. Solid Waste and Residuals Management

Collection, characterization, treatment, and disposal of solid waste and residuals (sludge) from environmental treatment processes. Topics include waste minimization, sludge stabilization, thickening, dewatering, composting, codisposal, landfill design, and incineration. Prereq: CIE 645 or permission. 3 cr.

749. Water Chemistry

Emphasizes the use of chemical equilibrium principles and the theory, calculations, and applications of ionic equilibrium stresses. Topics include thermodynamics, kinetics, acid/base, complexation, precipitation/dissolution, and redox equilibria. Computer equilibrium modeling will be presented. Prereq: general chemistry or equivalent. 4 cr.

753. Marine Pollution at Shoals Marine Laboratory

Effects of pollutants in the marine environment discussed from the perspectives of elementary physical and chemical oceanography and biological processes. Covers sources and effects of marine pollutants; oil spill impact and clean-up procedures; ocean outfall disposal; shipboard wastewater treatment; marine disposal of sludge, solid waste, and dredge spoils; and radioactive waste disposal. Hands-on lab exercises test both low-level pristine marine water and high-level saline wastewater for chemical and microbial parameters. Conducts dye current studies. Class participates in the continu-

ing assessment of the environmental impact of the Shoals Marine Laboratory domestic sewage system. Field trips to Seabrook nuclear power plant and state of N.H. oil pollution control unit. Daily and evening lectures, labs, and fieldwork. Prereq: Field Marine Science or permission; non-CIE majors. 4 cr.

754. Transportation Engineering and Planning
Fundamental relationships of traffic speed, density, and flow applied to public and private modes of transport. Principles of demand forecasting and urban systems planning. Prereq: permission. 3 cr.

755. Design of Water Transmission Systems
Pressure, sewer, and open channel system design. Theory developed for individual components to large complex systems. Topics include: closed conduit flow, open channel flow, groundwater flow, valves and meters, pump selection, system planning and layout, and system operation and maintenance. Pressure system modeling with program KYPIPES. Rainfall runoff calculations with US SCS TR55 model. Prereq: CIE 642 or permission. 3 cr.

756. Environmental Engineering Microbiology
Concepts of wastewater treatment microbiology. Topics include taxonomy of wastewater species; cellular chemical composition and ultrastructure of sewage microorganisms; microbial metabolism, interaction, and growth kinetics in wastewater treatment; biogeochemical cycling in polluted water; and effects of environmental parameters on wastewater microbial processes. Laboratory projects examine these concepts. Prereq: CIE 645 or permission. Special fee. Lab. 4 cr.

757. Coastal Engineering and Processes
Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave-structure interaction. Introduction to mathematical and physical modeling. Prereq: CIE 642 or permission. 3 cr.

760. Foundation Design I
Foundation design based on subsurface investigation and characterization using current methods of laboratory and in situ testing. Use of consolidation theory and bearing capacity theory for the design of shallow foundations including footings and rafts. Basic design pile foundations. Earth pressure theory applied to design of retaining walls. Slope stability theory and applications. Prereq: CIE 665 or permission. 4 cr.

761. Foundation Design II
Advanced pile and pier design under vertical and lateral loads. Slope stability by circular and noncircular arc methods. Design of flexible bulkhead walls and mechanically stabilized walls. Excavation and dewatering. Soil and site improvement. Prereq: CIE 760 or permission. 3 cr.

762. Introduction to Geotechnical Earthquake Engineering
Overview of earthquake source mechanisms; magnitude and intensity; seismicity of the U.S. Dynamics of simple structures; response spectra. Selection of design parameters; source, magnitude, input records. Measurement of dynamic characteristics of soils; site response, liquefaction, and ground deformation. Prereq: CIE 760 or permission. 3 cr.

763. Geological Engineering
Functional classification of rocks and rock masses. Stereographic projection. Engineering properties of rocks. Rock mechanics. The influence of geology in the design of underground excavations, tunneling, foundations, and rock slope engineering. Prereq: soil mechanics; prin. of geology;/or permission. 3 cr.

766. Introduction to Geo-Environmental Engineering
Geo-environmental site characterization and investigation using in situ geotechnical and geophysical methods; ground water, soil and gas monitoring and sampling; containment design including landfills, geosynthetics for liners and covers, leachate collection systems, vertical cutoff walls and stability analyses; remediation techniques such as stabilization, bioremediation and electrical methods. Prereq: CIE 760 or permission. 3 cr.

774. Reinforced Concrete Design
Introduction to the design of reinforced concrete structural members by the strength method and considering deflection performance. Includes beams, columns, foundations, and construction details of reinforcing. Prereq: CIE 681 or permission. 4 cr.

782. Timber Design
Properties and characteristics of structural woods, mechanics of wood, connection methods, design of timber members, and connections in beams, columns, and trusses, and glued laminates of wood. Prereq: CIE 681 or permission. 3 cr.

783. Matrix Structural Analysis
Analysis of determinate and indeterminate structures; nonprismatic members subject to static and moving loads. Solution by matrix and computer-applied methods. Determination of appropriate loading conditions, study of wind and earthquake loads, and introduction to engineering drawings. Prereq: CIE 681 or permission. 3 cr.

784. Civil Engineering Analysis with Numerical Techniques
Unifying concepts of civil engineering analysis, theory, and numerical techniques. Discussion includes assumptions required by numerical techniques and their relationship to the theory and analytical results. Prereq: permission. 3 cr.

785. Introduction to Structural Vibrations
Dynamic analysis of single- and multi-degree-of-freedom systems. Simple beam and frame structures. Earthquake analysis and design. Pre- or coreq: CIE 783. 3 cr.

786. Introduction to Finite Element Analysis
Topics include basic matrix theory, Galerkin method, direct stiffness method, development of finite element theory, and modeling techniques, applications in solid mechanics, heat transfer, fluids, and dynamics using commercially available codes. Prereq: CIE 681; 783;/or permission. 3 cr.

787. Dynamics of Structures
Dynamics of single- and multi-story buildings. Response due to earthquakes, blasting, traffic, and mechanical equipment. Analysis in the time domain and through the Fourier Transform. Fundamentals of structural vibration measurement. Prereq: CIE 785 or permission. 3 cr.

788. Project Planning and Design
Student groups will be formed into design teams to prepare a design plan for a large-scale civil engineering system including consideration of budgetary constraints, building code criteria, and environmental impacts. Each team prepares a final written report and gives a formal presentation. Prereq: senior CIE major or permission. 4 cr.

789. Project Management
Project management concepts including labor, material and equipment usage; cost estimation; financing and economic evaluation of projects; scheduling; and quality control and safety during construction. Existing projects are integrated in class discussions and homework. An understanding of CIE 633 topics is assumed. 3 cr.

791. Prestressed Concrete
Design of prestressed and post-tensioned concrete sections in flexure and shear. Prestressing systems and ultimate strength methods are introduced. Prereq: CIE 774 or permission. 3 cr.

793. Structural Design in Steel
Design of members and connections: tension and compression members, beams, plate girders; riveted, bolted, and welded joints. Introduction to plastic design of beams and frames. Prereq: CIE 681 or permission. 4 cr.

795-796. Independent Study
A limited number of qualified seniors will be permitted to pursue independent studies under faculty guidance. Seniors may write terminal theses reporting the results of their investigations. May be repeated. 1-4 cr.

Classics (CLAS)

Department of Spanish and Classics
(For program description, see page 27; see also course listings under Greek and Latin.)

Chairperson: John C. Rouman
Professor: John C. Rouman
Associate Professors: Richard V. Desrosiers, Maria C. Pantelia
Assistant Professor: Richard E. Clairmont
Lecturers: Arthur E. Athans, Philip J. Sheridan

#411-412. Elementary Hittite
Elements of grammar, reading of simple prose. Special fee. 4 cr.

413-414. Elementary Sanskrit
Elements of grammar, reading of simple prose. Special fee. 4 cr.

501. Classical Mythology
Survey of the myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, the arts, music, history, modern languages, classics, etc. Special fee. 4 cr.

#502. Hellenic and Roman Institutions
Lecture, discussion. Introduction to ancient Greek and Roman literature. Emphasis on the institutions from the earliest period to the end of the classical age. Open to all students. 4 cr.

#503. Cicero and the Roman Republic

Introduction to the political background of Cicero's career and study of the role played by the greatest of Roman orators in the constitutional crisis of the last century of the Republic. Open to all students. 4 cr.

#504. The Augustan Principate

A study of the early Roman Empire as created by Augustus and his immediate successors; glorified by Vergil, Horace, and the poets of the Golden Age; and described by Tacitus, Suetonius, and the prose writers of the Silver Age. Open to all students. 4 cr.

506. Introduction to Comparative and Historical Linguistics

Major language families (primarily Indo-European) and the relationships among languages within a family. Diachronic studies; methods of writing; linguistic change; glottochronology; etymological studies. Some language training and LING 505 desirable. (Also offered as LING 506.) Special fee. 4 cr.

511. Major Greek Authors in English

Major classical authors such as Homer, the Tragedians of Athens, Herodotus, Thucydides, and Plato in the context of their civilization, from which so much of our contemporary culture derives. For students unprepared to read Greek. Background for majors in English, history, Latin, Greek, the arts, music, philosophy, modern languages, etc. Open to all students. 4 cr.

#512. Major Roman Authors in English

Major classical authors such as Plautus, Terence, Cicero, Catullus, Vergil, Ovid, Seneca, Juvenal, and Tacitus in the context of their civilization, from which so much of our contemporary culture derives. For students unprepared to read Latin. Background for majors in English, philosophy, history, Latin, Greek, the arts, music, modern languages, etc. Open to all students. 4 cr.

#521, 522. Masterpieces of Greco-Roman Culture in English

More advanced study of the writings of classical civilization centered on a single theme and taught in the Socratic method. For students with some classical preparation, although no knowledge of the Greek and Latin languages is required. Background for prelaw students as well as majors in English, history, Latin, Greek, modern languages, and political science. 4 cr.

525. Greek and Latin Origins of Medical Terms

Study of medical terminology. Exercises in etymology and the development of vocabulary in a context at once scientific, historical, and cultural. No knowledge of Greek or Latin is required. Useful to premedical, pre dental, preveterinary, nursing, medical technology, and other students in the biological and physical sciences. Open to all students. 4 cr.

#595, 596. Topics in Classics

Introduction and elementary study related to linguistic study of Latin and Greek or relevant to Greco-Roman culture and history. Primarily for students unprepared to read Latin and Greek. Topics. A) Byzantine Heritage; B) Grammar: Comparative Study of English and the Classical Languages; C) Greek and Latin Origins of Legal

Terms; D) Greek and Latin Origins within the English Language; E) Classical Backgrounds of Modern Literature; F) Classical Archaeology. 4 cr.

695, 696. Special Studies in Classics

Advanced work in classics. Research paper. Not open to freshmen and sophomores. 2 or 4 cr.

Communication (CMN)

(For program description, see page 27.)

Chairperson: Sheila McNamee

Professors: Joshua Meyrowitz, Barbara M.

Montgomery, John D. Shotter

Associate Professors: Patrick J. Daley, James

M. Farrell, Beverly James, John Lannamann,

Sheila McNamee, Lawrence J. Prelli

Assistant Professors: John N. Erni, Lynn M.

Stearney, Marietta M. Tonn

Faculty-in-Residence, Assistant Professors:

Mark S. Kuhn, David J. Maxcy

Lecturer: Amy R. Chartoff

402. Communication and Social Order

Introduction to human communication from a broad liberal arts perspective; emphasizing the role of symbolic interaction in the construction of social reality. Processes of intrapersonal, interpersonal, group, public, and mass communication. Freshman, sophomore priority. 4 cr.

455. Introduction to Mass Communication

Nature, development, and effects of mass media. Overview of mass communication history and theory. 4 cr.

456. Propaganda and Persuasion

Introduction to theories of propaganda and persuasion. Examination of symbolic strategies designed to secure or resist social and institutional change. Attention given to case studies of social, political, economic, and religious reformation. Special consideration of the ethical ramifications of such efforts. 4 cr.

457. Introduction to Interpersonal Communication

Research and theory that define the area of interpersonal communication. Examination of the associations between communication and such social phenomena as self-concept, social attraction, relationship development, and health. 4 cr.

500. Public Speaking

Performance course buttressed by practical theories of public discourse. Focus on analysis of speaking situations and audiences, message construction, presentation, and critical evaluation. Does not count for credit towards the CMN major. 4 cr.

503. Introduction to Group Process

Focuses on a variety of concepts relevant to the study, analysis, and understanding of communication in the small group setting. Issues include leadership, group roles, problem-solving and decision-making processes in task-oriented groups. Prereq: CMN 457. 4 cr.

504. Introduction to Argumentation

Persuasive discourse as inquiry and advocacy grounded in practical inductive and deductive rea-

soning. Discovery, analysis, and testing of practical arguments. The nature and function of proof. Some emphasis on applied presentation. Prereq: CMN 456. 4 cr.

505. Analysis of Popular Culture

Locates the development of popular cultural artifacts and practices within the 20th-century social history of the U.S. Examines the political-economic forces that underpinned the commercialization of art, leisure, sports, and other elements of culture in industrial and postindustrial America. Prereq: CMN 455. 4 cr.

506. Communication as Social Influence

Examines cognitive and social bases of persuasion and social influence from a variety of theoretical perspectives. Focuses on processes of change as applied to face-to-face interaction, group and family settings, and mediated communication. Prereq: CMN 457. 4 cr.

507. Introduction to Rhetorical Theory and Analysis

Major precepts of rhetorical theory. Application of those precepts in analysis and understanding of a wide range of human communication. Consideration of how precepts and issues of rhetorical theory apply to contemporary issues and problems. Prereq: CMN 456. 4 cr.

515. Analysis of News

Explores the psychological, social, economic, political, and cultural factors that influence the definition and reporting of news. Prereq: CMN 455. 4 cr.

519. Advertising as Social Communication

Social role of advertising, public policy debates concerning advertising, influence of advertising on culture, and methods of analyzing advertising messages. Prereq: CMN 455. 4 cr.

530. Family Communication

Comparison and evaluation of theories of communication developed for the analysis of family interaction. Focus on pattern development and intervention, change, stability, and coherence in family interaction. Prereq: CMN 457. 4 cr.

550. Cinema and Society

The art, history, technology, economics, and theory of moving images from the silent period to the present. Focus on film as a social practice. Examination of both classic Hollywood film and alternative cinema. Prereq: CMN 455. Special fee. 4 cr.

557. Great Speakers and Speeches

Historical survey of masterpieces of oratory from the period of Demosthenes and Cicero through the golden age of American oratory with Lincoln and Webster, to the time of Martin Luther King, John Kennedy, and Ronald Reagan. Critical attention to the circumstances, talents, and rhetorical attributes that combine to make eloquent, persuasive discourse and effective public communication. Prereq: CMN 456. 4 cr.

567. Images of Gender in the Media

The symbolic construction of sexuality and gender in specific social, historical, and cultural settings. Examination of the power to define media images and the media's function as one element in the preservation of gender inequality. Prereq: CMN 455. 4 cr.

572. Language and Behavior

Focus on language and how a person's, group's, society's, and culture's uses of language are associated with different behavioral patterns and world views. Topics include the relationship of language to social standing, race, minority group membership, gender, and stereotyping. Prereq: CMN 457. 4 cr.

583. Gender and Expression

Analysis of the different ways people communicate about gender, the different ways men and women communicate, and the consequences of these differences. Prereq: CMN 457. 4 cr.

596. Special Topics in Media Studies

Selected topics not covered by existing courses in media studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 455. 2 or 4 cr.

597. Special Topics in Rhetorical Studies

Selected topics not covered by existing courses in rhetorical studies. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 456. 4 cr.

598. Special Topics in Interpersonal Studies

Selected topics not covered by existing courses in interpersonal communication. Topics vary; course descriptions are available in department office during preregistration. May be repeated for credit if topics differ. Prereq: CMN 457. 4 cr.

602. Theories of Interpersonal Communication

Analysis and criticism of contemporary perspectives on interpersonal communication. Theories, concepts, issues, and research models are examined as they contribute to our understanding of social interaction. Prereq: any CMN 500-level interpersonal studies course or permission. 4 cr.

#604. Public Argument in Contemporary Society

Studies of inquiry and advocacy within such contemporary fields as law, politics, science, ethics, business, and the arts. Prereq: any 500-level rhetorical studies course or permission. 4 cr.

605. Argumentation and Public Advocacy

Ideas and methods of adversarial and consensual public advocacy. Applied emphasis on public policy argumentation and decision making. Prereq: any 500-level rhetorical studies course; CMN 500 or 504 recommended. 4 cr.

607. Persuasion in American Politics

Study of the forms and strategies of persuasive discourse employed by contemporary American political leaders. Analysis of important political addresses of the 20th century, with attention to theoretical and critical issues in political communication and public address. Discussion of the status of rhetoric in modern politics, and the impact of persuasive discourse on campaigns, policy decisions, crisis management, political scandal, and the national identity. Prereq: any 500-level rhetorical studies course or permission. 4 cr.

615. Public Opinion and Mass Communication

Examines the historical development of the 18th-century public sphere and its relationship to the press. Traces the transformation of the press from

an ideological grounding to a commercial base. Analyzes the consequences of contemporary mass consumer-oriented media on the public sphere and democratic life. Prereq: any 500-level media studies course. 4 cr.

630. Psychology of Communication

Exploration of differing world views in the study of the individual in interaction, with emphasis on how they generate very different conceptions of the human communication process. Specific attention to such notions as the construction of social meaning, the construction of self, and the construction of interactive patterns. Prereq: any 500-level interpersonal studies course or permission. 4 cr.

632. Communication Theory

Terminology, concepts, theoretical models, functions, levels, modes and media, and role taking in human communication. Prereq: any 500-level CMN course (three 500-level courses recommended) or permission. 4 cr.

638. Media and Social Thought

Situates the development of media, public attitudes toward media, and academic study of media within late 19th- and 20th-century social theories, including mass society theory, functionalism-pluralism, and European critical theories. Traces the fragmentation of 19th-century social philosophy into discrete specialized academic disciplines in the 20th century, and discovers the roots of modern media studies in such cognate fields as sociology, psychology, anthropology, and linguistics. Prereq: any 500-level media studies course or permission. 4 cr.

640. Media, Culture, and Society

Focuses on the construction of meaning in the interplay between social structure and cultural expression. Theory and analysis emphasize the ideological role of the media in the social struggle for meaning. Prereq: any 500-level media studies course or permission. 4 cr.

647. The Rhetoric of Science

Employs rhetorical analysis to examine how science is socially constructed through communication. Investigates persuasive strategies writers and speakers employ to gain approval of ideas as "science" and of themselves as "scientists." Explores strategies used to construct images and ideas about "science" and "scientists" in the popular media, and the influence of these constructed images and ideas on selected political and social issues within society at large. Prereq: any 500-level rhetoric course or permission. 4 cr. Cr/F.

650. Critical Perspectives on Film

Advanced, focused study of film theory as cultural practice. Topics vary from year to year and with instructor. Focus may range from general considerations of film theory, criticism, and history, to specific analyses of selected genres, directors, national cinemas, and periods. Course descriptions available in department office during preregistration. Prereq: CMN 455; 550, ENGL 533, or permission. Special fee. 4 cr.

656. Principles of Rhetorical Criticism

Application of critical principles to message evaluation. Consideration of the varying roles, methods, and standards of rhetorical critics. Special attention to major perspectives on rhetorical criticism including neo-Aristotelian, historical, dramatic, and

generic, literary, and psychological. Prereq: any 500-level rhetorical studies course (CMN 507 recommended). 4 cr.

657. Public Address and the American Experience

Study of persuasive texts set firmly in their historical and social contexts. Discussion of the impact of popular discourse on historically significant political and social events. Analysis of how leading persuasive speakers and writers responded to the fundamental questions confronting their age and articulated ideas in a manner that provoked or motivated their community, state, or nation. Historical period studied will vary. Prereq: 500-level rhetorical studies course or permission. May be repeated for credit when topic varies. 4 cr.

658. Media Analysis and Criticism

Approaches and methodologies for media criticism. Analysis of sample studies. Students work on original media analysis projects. Prereq: any two 500-level CMN courses (three 500-level courses recommended) or permission. 4 cr.

#670. Systems and Theories of Rhetoric

Critical interpretation of significant works in the history of rhetorical theory and the major philosophical systems underlying them. Selected contemporary theories of rhetoric examined as they relate to classical perspectives. Explores fundamental philosophical and theoretical questions asked by rhetorical theorists and several responses to those questions. Prereq: any 500-level rhetorical studies course (CMN 597 recommended). 4 cr.

672. Theories of Language and Discourse

Focus on different theoretical orientations to the study of language and specific models for analyzing conversation. Specific issues include conversational rules and coherence, turn taking, narrative development and analysis, speech act analysis, accounts analysis, and conversational analysis. Prereq: any 500-level interpersonal studies course (CMN 572 recommended) or permission. 4 cr.

680. Perspectives on Culture and Communication

Theoretical and practical problems of intercultural communication. Explores how communication transactions create, maintain, and separate different cultures. Prereq: any 500-level interpersonal studies course or permission. 4 cr.

685. Studies Abroad at IHES/Holland

Studies at the Institute of Higher European Studies, Haages Hogeschool (in the Hague, Holland) for junior and senior communication majors who have completed their sophomore year at UNH and have a G.P.A. of 2.5 or better. Students are expected to take communication courses, but may take additional courses as electives. Prereq: attendance at informational meeting; application submitted to the chairperson of the Department of Communication; completion of all 400- and 500-level communication courses. Special fee. Variable to 16 cr. IA.

696. Communication Seminar in Media Studies

Variable topics in media research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: any 500-level media studies course or permission. 4 cr.

697. Communication Seminar in Rhetorical Studies

Variable topics in rhetorical research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: any 500-level rhetorical studies course or permission. 4 cr.

698. Communication Seminar in Interpersonal Studies

Variable topics in interpersonal research, theory, and practice. May be repeated for different topics. Topic descriptions available in department office during preregistration. Prereq: any 500-level interpersonal studies course or permission. 4 cr.

701. Modes of Communication Inquiry

Overview of selected philosophical orientations, issues, and concepts central to communication research. Examination of both qualitative and quantitative methods. Prereq: two 500-level CMN courses or permission. 4 cr.

702. Seminar in Interpersonal Communication Theory

In-depth concentration on a particular theoretical orientation in interpersonal communication. Original works are read. Theoretical orientation varies by semester. Theories covered include rule theories, systems theories, individual difference theories, symbolic interactionism, constructivism, hermeneutics, phenomenology, cybernetics, etc. Prereq: three 500-level CMN courses with at least one in interpersonal studies or permission. 4 cr.

#703. Seminar in Rhetorical Theory

Focused study of problems in rhetorical theory construction through examination and criticism of selected theoretical frameworks used to explain or interpret rhetorical phenomena. Prereq: permission. 4 cr.

#772. Seminar in Media Theory

Detailed analysis of major theories related to the interaction of communication technologies and society. Application to current examples in politics, advertising, and entertainment. Prereq: at least one 600-level course or permission. 4 cr.

795. Independent Study

Advanced individual study in rhetoric, media, or interpersonal communication. Project to be developed with supervising instructor. May be repeated for credit. Prereq: permission. Variable to 4 cr.

799H. Honors Thesis

Written thesis based on substantial and original research under the direction of a full-time member of the communication faculty. Thesis must be in the form and style of a publishable, scholarly work. Restricted to seniors seeking honors in major. 4 cr.

Communication Disorders (COMM)

(For program description, see page 74.)

Chairperson: Frederick C. Lewis

Professor: Stephen N. Calculator

Associate Professors: Steven P. Bornstein, Frederick C. Lewis, Penelope L. Webster

Adjunct Associate Professors: Linda Hanrahan, Ronald W. Lane, Frederick P.

Murray, John M. O'Day

Assistant Professors: Susan Dietrich, Amy S. Plante

Adjunct Assistant Professors: Sheryl

Gottwald, Richard Guare, Mark R. Hammond,

Karen Lucas, Lygia Soares

Clinical Supervisor: Allison Murray

520. Survey of Communication Disorders

Causes, diagnosis, and treatment of speech, language, and hearing disorders. 4 cr.

521. Anatomy and Physiology of the Speech and Hearing Mechanisms

Anatomy, physiology, neurology, and function of the mechanisms for the production and perception of speech. 4 cr.

522. The Acquisition of Language

Review of research and theories in speech education, linguistics, and learning theory related to development of language in the normal child. 4 cr.

523. Clinic Observation

Formal observation of diagnosis and therapy being conducted for individuals with a variety of communication disorders. Prereq: COMM 520. 1 cr. Cr/F.

524. Applied Phonetics

Application of the International Phonetic Alphabet to normal and clinical populations; use of broad and narrow transcriptions. Basic speech science, acoustic phonetics, and acoustic analysis of speech production. 4 cr.

630. Organic Pathologies

Neurological bases, diagnosis, and treatment of communication disorders; emphasis on motor speech disorders and aphasia. Prereq: permission. 4 cr.

631. Articulation and Language Disorders in Children

Research, diagnosis, and therapy procedures as applied to articulation and language disorders. 4 cr.

633. American Sign Language I

Introduction to the vocabulary, finger spelling, and grammatical processes of American Sign Language. Emphasis on applying basic principles of sign language, psychosocial aspects of deafness, and the deaf person as bilingual. 2 cr.

634. Introduction to Clinical Procedures

Clinical procedures and client management. Treatment techniques for disorders of articulation and language. Parent interview and counseling, facilitating target behaviors, and report writing. History requirements and governance of the profession. Prereq: COMM 631. 4 cr.

660. Special Problems in Communication Disorders

Individual or group projects to enrich or expand theoretical knowledge and to afford an opportunity for applied experience. Prereq: permission and arrangement with faculty. May be repeated to a maximum of 8 credits. 2, 4, 6, or 8 cr.

700. American Sign Language II

Advanced phonology, syntax, and semantics of American Sign Language. Emphasis on grammatical processes that modulate meaning of signs in discourse and development of receptive language skills. Prereq: COMM 633. 2 cr.

702. American Sign Language III

Emphasis on the advanced linguistic principles of American Sign Language including idioms, slang, and their place in the communication patterns of the deaf. Improvement of speed and accuracy in receptive and expressive skills for communicating with the deaf. Educational and vocational problems associated with deafness. Prereq: COMM 700. 2 cr.

704. Basic Audiology

Normal hearing process and pathologies of the auditory system. Hearing screening, pure-tone testing, and speech audiometry. Prereq: COMM 521 or permission. 4 cr.

705. Introduction to Auditory Perception and Aural Rehabilitation

Research, testing, and clinical procedures of auditory perception, applied to the communicatively impaired. Prereq: COMM 704, permission. 4 cr.

777. Speech and Hearing Science

Physical, acoustical, and perceptual correlates of normal speech production and audition. Includes theoretical models along with the generation, transmission, detection, and analysis of speech signals. 3 cr.

780. Diagnosis of Speech and Language Disorders

Principles and practice for diagnosis of speech and language disorders; examination procedures and measurement techniques. Prereq: COMM 630 (or 631). 4 cr.

795. Independent Study

Application of the theory to specific communication disorder areas for individual or group projects. Prereq: permission. May be repeated to a maximum of 8 credits. 2, 4, 6, or 8 cr.

Community Development (CD)

Department of Resource Economics and Development

(For program description, see page 49.)

Chairperson: Bruce E. Lindsay

Coordinator: Edmund T. Jansen, Jr.

Professors: Edmund T. Jansen, Jr., Bruce E. Lindsay

Associate Professors: John M. Halstead,

Douglas E. Morris

Assistant Professor: Robert A. Robertson

Adjunct Assistant Professor: Lynda Brushett

415. Community Issues and Perspectives

Introduction of the concept of community and issues that are facing contemporary communities as they undergo change. Investigations of the required components for a successful community and the role and responsibilities of professional administrators and individual citizens in the dynamic process of community policy formulation, decision making, and administrative implementation. 4 cr.

508. Applied Community Development

Students work in an actual community, assisting individuals and groups to identify needs and problems, establish attainable and objective goals, assess requirements and resources, and formulate

programs for development; methods of collection, analysis and integration of pertinent primary and secondary economic, social, political, and physical data for community development. Prereq: CD 415 or permission. Lab. 4 cr.

607. Community Administration and Development

Principal theories and methods of community administration and development; skills required for professional and citizen volunteers who are involved in decision making and administrative activities in local communities. Emphasis on the responsibilities and strategies of individuals working in the field of local public administration. Prereq: CD 415 or permission. 4 cr.

614. Community Planning

Community planning process in nonmetropolitan communities; practical application of planning techniques. Community components: housing, jobs, schools, recreation, transportation, community appearance, and the administrative structure for planning. Use of planning tools: data gathering and analysis, the master plan, zoning and subdivision regulations, community development programs. Prereq: RECO 411; CD 415;/or permission. 4 cr. (Offered every other year.)

627. Community Economics and Finance

Economic and financial factors affecting community and local government decisions. Emphasis on use of economic theory and analytical techniques to evaluate problems in contemporary New England communities and towns. Prereq: RECO 411 or ECON 402. (Also offered as RECO 627.) 4 cr. (Offered every fourth semester.)

710. Community Development Seminar

Seminars arranged to students' needs and offered as demand warrants: in-depth treatment of area, including classic works. May be repeated. 2-4 cr.

717. Law of Community Planning

Common law and the constitution with respect to property law, including eminent domain, land-use planning, urban renewal, and zoning. Makes the nonlawyer aware of the influence and operation of the legal system in community development. 4 cr. (Offered every other year.)

777. Fundamentals and Practice of Community Planning

Advanced treatment of the concepts and tools required for effective local and regional planning to guide land use, capital investment in infrastructure, and organization for service delivery. Prereq: CD 614 or permission. 4 cr. (Offered every other year.)

791. Community Administration Seminar

Special topics in community administration. Covers material not normally covered in the regular courses on current issues of major importance. Prereq: permission. 1-4 cr.

792. Community Planning Seminar

Special topics in community and regional planning. Covers material not normally covered in the regular planning courses or current planning issues of major importance. Prereq: permission. 1-4 cr.

793. Community Administration Internship

Fieldwork in governmental agency or a local government unit for on-the-job skill development. Normally supervised by a qualified administrator

in the organization with frequent consultation with a faculty sponsor. A written report is required. Internship may be part- or full-time with course credits assigned accordingly. Prereq: permission. 1-8 cr.

794. Community Planning Internship

Fieldwork in a public planning office or agency for on-the-job skill development. Normally supervised by a qualified planner in the planning organization with frequent consultation with a faculty sponsor. A written report is required. Internship may be part- or full-time with course credits assigned accordingly. Prereq: permission. 1-8 cr.

795, 796. Investigations in Community Development

Special assignments in readings, investigations, or field problems. May be repeated. Prereq: permission. 2-4 cr.

Computer Engineering

(See *Electrical and Computer Engineering*.)

Computer Science (CS)

(For program description, see page 64.)

Chairperson: R. Daniel Bergeron

Professors: R. Daniel Bergeron, Eugene C. Freuder, T. M. Sparr

Associate Professors: Raymond Greenlaw, Philip John Hatcher, Robert D. Russell, James L. Weiner
Adjunct Associate Professor: Sylvia Weber Russell

Assistant Professor: Pilar de la Torre

Research Assistant Professor: Rakesh Thapar

Instructors: Brian L. Johnson, Daniel J. Lickly
Skills Application Teacher: Israel J. Yost

401. Computer Applications

Use of computers to manage and analyze information across a variety of settings and disciplines. Introduction to major categories of software for large and small computer systems and discussion of the computer's role in today's society. No prior computer experience required. Not open to students who have completed DCF 491 or 492. Not open to CS majors. CEPS students should check with their major department for approval. Special fee. 4 cr.

403. Online Network Exploration

Use and organization of today's information network, the World Wide Web; Web publishing; Web interest groups, information searching techniques; security and privacy issues; commerce and legal issues. Students acquire new skills as well as broad understanding of the technical possibilities of living and working in an online society and its implications. 4 cr.

410. Introduction to Scientific Programming

Introduction to the concepts and techniques of computer programming. Particular emphasis on computer programming as a problem-solving technique in science and engineering applications. The

C language is taught and used for assignments. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have completed CS 412, 416, or the equivalent. Pre- or coreq: MATH 425. 4 cr.

412. Introduction to Computer Programming with C++

Introduction to the concepts and techniques of computer programming including strings, lists, stacks, and queues. Teaches the C++ programming language including class definition and use, recursion, address manipulation, file handling, and data abstraction concepts. Good programming style is stressed. Significant out-of-class programming required. Not open to students who have had CS 410, 416, or the equivalent. 4 cr.

415-416. Introduction to Computer Science I and II

Theory and practice of computer science. Algorithm development and analysis; data abstraction techniques; elementary data structures; and programming with imperative languages and functional languages. Computer systems and applications. Intended for CS majors. 4 cr.

505. Applications Programming

Concepts and techniques used in the development of professional quality applications programs for microcomputers. Emphasis on DOS batch files, spreadsheet macros, and database programming. Introduces state-of-the-art applications development tools for Apple Macintosh and PC-compatible computers. Prereq: CS 401, 406, or 410, or equivalent. CEPS students should check with their major department for approval. Special fee. 4 cr.

512. Introduction to Data Structure with C++

Introduction to basic data structures including strings, stacks, queues, lists, files, and binary search trees; emphasis on abstract data type (ADT) design and programming techniques. Basic introduction to C++ including nonhierarchical classes, operator overloading, template functions, and template classes. Not open to CS majors or students who have had CS 416. Prereq: CS 410, 412, or equivalent. 4 cr.

515. Data Structures

Review of basic data structures; advanced data structures such as graphs, B-trees, and AVL trees; abstract data structure design and programming techniques; use of a data abstraction language. Introduction to algorithm analysis. Prereq: CS 416. 4 cr.

610. Operating System Fundamentals

Introduction to operating system concepts and design. Job, process, and resource management; I/O programming; file systems; interprocess communication. Prereq: CS 410 or 412 or 416; and CS 611 or EE 612. 4 cr.

611. Assembly Language Programming and Machine Organization

Assembly language programming and machine organization: program and data representation; registers, instructions, and addressing modes; assemblers and linkers. Impact of hardware on software and software on hardware. Historical perspectives. Prereq: CS 410 or 412 or 416. 4 cr.

658. Analysis of Algorithms

Introduction to use of basic mathematics in design and analysis of computer algorithms. Topics include

O-notation, divide and conquer, the greedy method, dynamic programming, and NP-completeness. Prereq: MATH 531 and 532; CS 515. 4 cr.

659. Introduction to the Theory of Computation

Review of sets, relations, and languages. Induction and diagonalization. Finite automata, context-free languages, pushdown automata. Basic complexity theory. Prereq: MATH 531 and 532; CS 515. 4 cr.

671. Programming Language Concepts and Features

Programming language syntax and semantics; characteristics of imperative, applicative, and special purpose symbol manipulation languages illustrated through implementation of a series of simple interpreters; comparison of several existing languages. Prereq: CS 515. 4 cr.

696. Independent Study

Individual projects developed and conducted under the supervision of a faculty member. Prereq: permission of faculty supervisor and department chairperson. May be repeated for credit. 1–6 cr.

712. Compiler Design

Formal languages and formal techniques for syntax analysis and parsing; organization of the compiler and its data structures; problems presented by error recovery and code generation. Classical top-down and bottom-up techniques currently in widespread use, general discussion of LL(k) and LR(k) parsers; automatic methods of compiler generation and compiler compilers. Students required to define a simple, nontrivial programming language and to design and implement its compiler. Prereq: CS 671. 4 cr.

#718. Software Engineering

Design approaches, implementation methodologies, and management techniques required to develop large, reliable software systems, including applications-oriented systems. Team programming projects. Prereq: CS 515 or permission. 4 cr.

719. Object-Oriented Methodology

Object-oriented system design and programming. Languages for object-oriented programming. Prereq: CS 515 or permission. 4 cr.

720. Operating System Concepts

Theory and practice of building operating systems. In-depth investigation of operating system concepts and design. Developments from current operating systems. Prereq: CS 610. 4 cr.

722. Advanced Systems Programming

Topics in systems programming. Organization and implementation of typical POSIX 1003.2 utilities and tools. Emphasis on file handling, text processing, pattern matching, and portability. Prereq: CS 610. 4 cr.

725. Introduction to Computer Networks

Introduction to local, metropolitan, and wide area networks using the standard OSI reference model as a framework. Introduction to the Internet protocol suite and to network tools and programming. Discussion of various networking technologies such as Ethernet, FDDI, and ATM. Prereq: CS 610. 4 cr.

727. Computer Communications Software Design

Telecommunications software, error detection al-

gorithms; asynchronous and synchronous communications software; network architectures; protocol definition and implementation; links through a local area network; timing considerations. Selected communications software will be implemented. Prereq: CS 610. 4 cr.

730. Introduction to Artificial Intelligence

Machine intelligence, representation and control issues, search methods, problem solving, learning, natural language understanding, knowledge engineering, game playing. Heuristic programming using the LISP language. Prereq: CS 515. 4 cr.

735. Introduction to Parallel Programming

Data-parallel programming, message-passing parallel programming, parallel programming with threads, performance evaluation of parallel programs, debugging of parallel programs, and parallel hardware. Course requirements consist primarily of programming assignments. Parallel programming tools based upon the C/C++ programming languages used. Prereq: CS 610; 611; EE 612; or permission. 4 cr.

#746. Introduction to Programming Semantics

Informal, nonmathematical introduction to descriptive techniques of denotational semantics. Provides framework needed to formally describe programming languages such as PASCAL. No previous knowledge of the theory of computation or of any particular programming language is assumed. Prereq: CS seniors only or instructor's permission. 4 cr.

753. Introduction to Numerical Methods

An introduction to mathematical algorithms and methods of approximation. A wide survey of approximation methods are examined including, but not limited to, polynomial interpolation, root finding, numerical integration, approximation of differential equations, and techniques used in conjunction with linear systems. Included in each case is a study of the accuracy and stability of a given technique, as well as its efficiency and complexity. It is assumed that the student is familiar and comfortable with programming a high-level computer language, such as C or FORTRAN. Prereq: MATH 426; CS 410, 412 or 416. (Also offered as MATH 753.) 4 cr.

754. Introduction to Scientific Computing

Introduction of the tools and methodology of scientific computing via the examination of interdisciplinary case studies from science and engineering. Emphasis on numerical approaches to solving linear systems, eigenvalue-eigenvector problems, and differential equations. Problems are solved on various hardware platforms using a combination of software and data visualization packages. Prereq: MATH 425, 426; CS 410, 412, or 416; MATH 527 or 645 or permission. (Also offered as MATH 754.) 4 cr.

765. Introduction to Computational Linguistics

Introduction to computational analysis of natural language with a focus on semantic representations and the resolution of ambiguity. Provides an elementary working knowledge of linguistic and artificial intelligence analysis methods as motivated by examples of potential input texts. Topics include parsing, formal grammars, representation of knowledge and memory, inference, and interpretation of nonliteral language. Prereq: elementary knowledge of LISP or instructor's permission. 4 cr.

770. Computer Graphics

Input-output and representation of pictures from hardware and software points of view; interactive techniques and their applications; three-dimensional image synthesis techniques. Prereq: CS 515. 4 cr.

775. Database System Principles

Introduction to database system concepts and design; data models, especially the relational model; data description and manipulation languages; normalization and schema design; implementation issues and mechanisms. Prereq: CS 515; MATH 531. 4 cr.

780. Topics in Computer Science

Material not normally covered in regular course offerings. May be repeated for credit. 4 cr.

Decision Sciences (DS)

(For program description, see page 85.)

Chairperson: Marvin J. Karson

Professors: Marvin J. Karson, Barry Shore, Linda G. Sprague

Associate Professors: Richard L. Mills, R. Daniel Reid, Jeffrey E. Sohl

Assistant Professors: Roger B. Grinde, Christine M. Shea, A. R. Venkatachalam, Craig H. Wood

Instructor: Peter W. Rnyce

420. Business Statistics

Introductory coverage of statistical methods for managerial decision making; probability, descriptive and inferential statistics, and regression. Quantitative techniques common to many introductory statistics courses are covered, but the emphasis is on understanding concepts such as uncertainty, inferences from sample data, and model formulation, and on utilizing these techniques as aids in decision making. No credit for students who have had ADM 430; BIOL 528; IHHS 540; MATH 644; PSYC 402; RECO 525, 528; SOC 502. 4 cr.

#522. Advanced Business Statistics

A second-level course in statistics covering such topics as sample survey design and analysis, experimental design, analysis of variance, nonparametric methods, and GLIM. Prereq: DS 420 or equivalent. 4 cr.

#624. Time Series Forecasting

Introduction to modern methods of forecasting from time series data. Exponential smoothing, time series analysis and stationarity, Box-Jenkins analysis, state space model fundamentals, dynamic regression models. Each model methodology includes model identification, estimation, and diagnostic checking. Emphasis on use of the models as forecasting tools. Prereq: DS 420 or equivalent. 4 cr.

#625. Statistical Decision Making

Introduction to decision-making theory, including alternatives, criteria, loss functions, and risks. A probabilistic, including Bayesian, approach to decision making under uncertainty. Applications from statistics and management science. Prereq: DS 420 or equivalent. 4 cr.

626. Applied Regression Analysis

Introduction to regression techniques as used in business; estimation and statistical inference in the context of the general linear model; residual analysis and model selection; interpretation of the analysis is emphasized. No credit for students who have had DS 726. Prereq: DS 420 or equivalent. 4 cr.

630. Quantitative Methods

An introduction to quantitative methods and how these methods serve as an input to the decision-making process. The topics covered include linear programming problem formulation and solution, sensitivity analysis, network models, integer programming, goal programming, and forecasting. Prereq: WSBE majors only; all Group A courses and junior standing. 4 cr.

632. Operations Research/Management Science

Review of the basic principles and methods of operations research/management science applied to managerial decision making. Mathematical programming, networks, inventory, queuing, and scheduling. Junior or senior standing. 4 cr.

633. Advanced Operations Research/Management Science

Analysis of complex operations research/management science models and their impact on the decision-making process. Project is undertaken by all students. Advanced mathematical programming (nonlinear, parametric linear, stochastic, and dynamic), stochastic inventory models, heuristic programs, and forecasting. Prereq: DS 630, 632, or equivalent. 4 cr.

650. Operations Management

Introduction to planning and analysis of operational problems in the manufacturing and service sectors; strategy standards, capacity, inventory, scheduling, and planning and control systems. Prereq: WSBE majors only; all Group A courses and junior standing. 4 cr.

670. Management Information Systems

Provides students with the background necessary to understand, develop, and use computer-based information systems in organizational environments. Topics include information technology, application software, and management of information resources. Prereq: CS 401 (or 495); WSBE majors only; all Group A courses and junior standing. 4 cr.

672. Computer Systems Analysis and Design

Analysis and design of computer systems in administration. Applications in finance, accounting, marketing, and manufacturing. Case studies and projects. Prereq: DS 670 or equivalent. 4 cr.

#698. Topics in Decision Sciences

Special topics; may be repeated. Prereq: permission. 4 cr.

754. Resource Management

Analysis and development of resource management planning and control systems. Topics include inventory management, material requirements planning, and capacity management. Prereq: DS 650 or permission. 4 cr.

755. Manufacturing Management

Analysis and development of manufacturing management planning and control systems. Topics include production planning, master scheduling, distribution, and production activity control. Prereq: DS 650 or permission. 4 cr.

758. Strategic Management of Operations

Application of techniques and methodologies in the development of operations strategies. Projects with client firms using operations analysis emphasizing the firms' strategic operations alternatives. Prereq: DS 650 and permission. 4 cr.

767. Art and Science of Decision Making

Builds from the classical theory of decision making and explores the problems inherent in the decision process. Both individual and group or two-party decision processes are explored with emphasis on negotiation as a means of decision making. No prerequisite required. 4 cr.

#772. Decision-Support Systems

Exploration of computer usage in support of the problem-solving and decision-making process. Topics include conceptual foundations of decision-support systems, design of decision-support systems, spreadsheets, databases, and expert systems. Use of mainframe and microcomputers, cases, projects. Prereq: all Group B courses; DS 670; or permission. 4 cr.

798. Topics in Decision Sciences

Special topics; may be repeated. Prereq: permission. 4 cr.

Division of Continuing Education (DCE) Career Concentration Courses

(For program description, see page 102.)

Dean of the Division of Continuing Education: William F. Murphy**519. Career Planning**

Skills and methods of career planning, including integration of career and educational goals. Topics include self-assessment, occupational investigation, occupational selection and decision making, goal setting, and job search techniques. Available to associate degree students, freshmen, and sophomores; others by permission. Special fee. 2 cr.

#599. Special Topics

Occasional course offerings of specialized material in A.A. career concentrations; general studies topics for nontraditional learners; travel/study programs. Prereq: permission. 1-4 cr.

Computer Information Studies**491. Introduction to Computer Information Studies I**

Computer components and computer applications. Emphasis on using microcomputers and application software to solve particular problems. Not open to students who have completed CS 401 (or 495). Not open to WSBE majors. 2 cr.

492. Introduction to Computer Information Studies II

Information system concepts and applications, including system comparisons, information processing, networking, telecommunications, ergonomics, and office automation. Laboratory assignments focus on information processing using application software. Prereq: CS 406 or CS 410; DCE 491 or CS 401 (or 495). Not open to WSBE majors. 2 cr.

590. Information Systems Applications

Emphasizes practical experience in using microcomputers for software applications, such as word processing, database management, accounting, decision making, spreadsheets, and business graphics. Students use and adapt/develop software packages. Prereq: DCE 492. Special fee. Not open to WSBE majors. 4 cr.

591. Systems Analysis and Design

Design and implementation of integrated systems such as inventory control or accounting, including topics such as human factors, file creation and maintenance using CRT on-line communications facilities, sorting, and report writing on both large and microcomputer systems. Prereq: CS 406 or 410; DCE 492. Not open to WSBE majors. 4 cr.

592. Database Applications

Students use database software and design and implement a management information system using a database management system. Prereq: CS 406 or 410; DCE 492. Not open to WSBE majors. 4 cr.

595. Independent Study in Computer Information Studies

Students adequately prepared by coursework and/or experience pursue an in-depth project under the direction and supervision of the coordinator. Prereq: permission prior to registration. 1-4 cr.

596. Technical Writing

Students learn to produce both technical and non-technical documents for applications in education, business, industry, and the home. Each student creates small manuals for critique by the instructor and the class. Topics include logical thinking and organization, interviewing skills, technical writing styles and formats, word processing/graphic programs, paste-up, color usage, cover selection/design, interfacing with a print shop, and budget analysis. Prereq: ENGL 401 or 501; CS 401 (or 495). 4 cr.

597. Documentation Practicum

This independent work project stresses techniques and mechanics required to produce a highly useful, professional document. Under the direction of a coordinator, students apply knowledge previously acquired through courses in this program to create a substantial, final product. Prereq: DCE 596 or permission. 2 cr.

Criminal Justice**552. Corrections Treatment and Custody**

Scientific diagnosis and treatment of offenders. Institutional administration methods' climate, personnel, structure, and procedure. 4 cr. (Not offered every semester.)

554. Juvenile Delinquency

Overview of criminological research and theory regarding patterns and sources of juvenile delin-

quency Examines the history and structure of the American juvenile justice system. 4 cr. (Not offered every semester.)

Merchandising

411. Promotion and Advertising

Mass communication in marketing; use of advertising media; integration of promotional plans and sales techniques; evaluation of promotional efforts. Not open to WSBE majors. 4 cr. (Not offered every year.)

531. Salesmanship

Principles and techniques of personal selling; customer's needs and satisfaction. Not open to WSBE majors. 4 cr.

Earth, Oceans, and Space, Institute for the Study of (EOS)

(For program description, see page 88.)

Director: Berrien Moore, III

Professors: John D. Aber, Roger L. Arnoldy, Wendell S. Brown, Edward L. Chupp, Henri E. Gaudette, Robert C. Harriss, Joseph Hollweg, Martin A. Lee, Theodore C. Loder III, Paul A. Mayewski, Loren D. Meeker, Eberhard Möbius, Berrien Moore III, Roy B. Torbert

Research Professor: Terry Forbes

Associate Professors: Barrett N. Rock, James M. Ryan, Karen Von Damm

Research Associate Professors: Ann C. Bucklin, Janet W. Campbell, Patrick M. Crill, Jack E. Dibb, David J. Forrest, Philip A. Isenberg, Craig A. Kletzing, Changsheng Li, Michael L. Prentice, Robert W. Talbot, W. T. Vestrand
Research Assistant Professors: Steve Frolking, Lynn M. Kistler, Kristina A. Lynch, Mark L. McConnell, David L. Skole, Charles J. Vorosmarty, Cameron P. Wake, Gregory A. Zielinski

#707. Global Ecosystem Policy

Scientific and institutional issues pertinent to global change; long-term effects of major human perturbations (greenhouse warming of the atmosphere, ozone depletion, deforestation, desertification, and biotic and soil impoverishment) and human-environment feedback mechanisms on the viability of ecosystems, effectiveness of existing and alternative national, regional, and international institutions in responding to global change. Prereq: permission. 3 cr.

#712. Physics of the Ionosphere

Introduces basic plasma physics using a case study of the Earth's ionosphere and its connection both to the upper atmosphere and to the Earth's magnetosphere. Topics include single particle motion, fluid and kinetic descriptions of ionospheric plasma, wave propagation, and instabilities. Prereq: electric and magnet 1 or equivalent; calculus II. (Also offered as PHYS 712.) 4 cr.

713. Biogeochemical Dynamics

Examines the influence of biological processes on geochemical transformations and elemental cycles

from the molecular to the global scale involving both microorganisms and higher plants and animals; factors that regulate cycles; interactions among biosphere, hydrosphere, lithosphere, and atmosphere; transformations of C, N, S, and trace elements. Prereq: one semester each biology and chemistry. 3 cr.

715. Global Atmospheric Chemistry

Introduction to the principles of atmospheric chemistry and their relationship to biogeochemical cycles, climate, and global change. Focus is on understanding the basic physical and chemical processes that determine the trace gas distribution in the global troposphere. An introduction to atmospheric vertical structure and global circulation dynamics provides the foundation. Then chemical cycles of important C, S, and N molecules examined, including their possible perturbation by human activities. Basic photochemical processes outlined, particularly with respect to reactive nitrogen, hydrocarbons, and the production/destruction of ozone. Prereq: one year chemistry. (Also offered as ESCI 715.) 3 cr.

754. Ocean Waves and Tides

Introduction to waves: small amplitude, linear wave theory, standing and propagating waves, transformation in shallow water, energy and forces on structures, generation by wind and specification of a random sea, long waves with rotation, and internal waves. Introduction to tides: description of tides in ocean tidal generation forces, equilibrium tide, and tidal analysis. Lab/project: field and lab measurements with computer analysis. Prereq: PHYS 407-408; MATH 527;/or permission. (Also offered as OE 754.) Lab. 4 cr.

764. Introductory Paleoclimate Analysis

An overview of paleoclimate indicators for the last one million years in the context of global teleconnections (atmosphere-lithosphere-hydrosphere-cryosphere) and mathematical tools developed to interpret and link the different records of climate change. Prereq: one year calculus, one year chemistry, basic statistics;/or permission. (Also offered as ESCI 764.) 4 cr.

795. Topics in Earth, Oceans, and Space

Study on an individual or group basis of topics not covered by the other listed courses. Topics may include any area relevant to interest in Earth, ocean, atmospheric, and space studies. May be repeated. Lab. 1-4 cr.

Earth Sciences (ESCI)

(For program description, see page 64.)

Chairperson: S. Lawrence Dingman

Professors: Franz L. Anderson, Francis S. Birch, Wallace A. Bothner, Wendell S. Brown, S. Lawrence Dingman, Henri E. Gaudette, Robert C. Harriss, Theodore C. Loder III, Paul A. Mayewski, Herbert Tischler

Adjunct Professors: Eugene L. Boudette, Anthony Jack Gow

Associate Professors: Jo Laird, Karen L. Von Damm

Research Associate Professors: Janet W. Campbell, Patrick M. Crill, Jack E. Dibb, Michael L. Prentice, Dork I. Sahagian, Robert W. Talbot

Adjunct Associate Professors: Mark E. Hines, Neal R. Pettigrew

Assistant Professor: John Matthew Davis

Research Assistant Professors: Charles J. Vorosmarty, Cameron P. Wake, Larry G. Ward, Gregory A. Zielinski

Adjunct Assistant Professors: Frank L. Bub, Mark A. Person

401. Principles of Geology I

The earth; earth materials (rocks and minerals), landforms, and the processes that form them (volcanism, earthquakes, glaciation, etc.). Field trips. Special fee. Lab. 4 cr.

402. Principles of Geology II

Geological history of the earth; interpretation of past geologic events emphasizing the geological development of North America and the evolution of life. Special fee. Lab. 4 cr.

405. Global Environmental Change

Human activity rivals nature as an agent of change in the global environment. Explores evidence of environmental degradation in Earth's crust, hydrosphere, and atmosphere; considers prospects for future sustainable human health, diversity, and economic development. Problem solving through critical analysis of environmental variables. Lab. 4 cr.

409. Environmental Geology

Environmental impact of geologic processes; natural hazards—landslides, earthquakes, volcanoes, flooding, erosion, and sedimentation; land exploitation and site investigations; environmental considerations of water-supply problems; the recovery of energy and mineral resources. Special fee. Lab. Students may not receive credit for both ESCI 401 and ESCI 409. 4 cr.

#450. Introduction to the Earth Sciences

Modular course introducing contemporary topics in earth sciences. Successful completion of four modules fulfills one gen ed Group 3 (physical science) requirement. Each module is approximately 3.5 weeks. Four of the following topics are offered each semester (check *Time and Room Schedule* for current semester offerings): Planetary Geology; Plate Tectonics, Rocks and Minerals; Earthquakes; Water Resources of New England; Springs and Underground Rivers; Evolution of Mountains; Volcanoes; The Global Ocean; The Gulf Stream; Geologic Time: Climate Change; Beaches and Coasts; Prehistoric Life; Energy and the Environment, Geology of Puerto Rico. Additional topics may be available. Special fee. Lab. 1 cr.

501. Introduction to Oceanography

Physical, chemical, geological, and biological processes in the sea. Special fee. Lab. 4 cr.

512. Principles of Mineralogy

Natural history of the solid state; introductory crystallography, diffraction, and structure of minerals. Silicate minerals; their chemical and physical properties, origins, occurrences, and uses. Nonsilicates. Prereq: CHEM 401, 403, or 405. Field trips. Special fee. Lab. 4 cr.

530. Field Methods

Standard geological field-mapping techniques, including pace and compass and plane table and alidade; bedrock and surficial mapping on topographic and aerial photographic bases in local areas;

one 4- to 5-day exercise in a selected area of the northern Appalachian Mountains. Prereq: ESCI 401 or 409; 402. Special fee. 4 cr.

561. Surficial Processes

Processes leading to the development of landforms, chemical and mechanical weathering of earth-surface materials and erosion and transport in colluvial, fluvial, glacial, and coastal systems. Field trips. Special fee. Lab. 4 cr.

#595, 596. Introductory Investigations in Earth Sciences

Special topics by means of lectures, conferences, assigned readings, and/or field or laboratory work in the areas of geology, hydrology, or oceanography. 1-4 cr.

614. Optical Mineralogy and Petrography

Description and classification of igneous, sedimentary, and metamorphic rocks in hand specimen and thin section; optical mineralogy. Prereq: ESCI 512. Special fee. Lab. 4 cr.

631. Structural Geology

Structural units of the earth's crust and mechanics of their formation. Prereq: ESCI 530. Special fee. Lab and fieldwork. 4 cr.

652. Paleontology and Biostratigraphy

Systematic study of major invertebrate fossil groups emphasizing their stratigraphic and paleoecologic uses. Prereq: ESCI 402 or permission. Special fee. Lab. 4 cr.

653. Estuaries and Coasts

Examines physical and biological aspects of estuaries and coasts with special regard to sediment transport. Includes field trips and cruises to the coastal environments of New Hampshire and Maine, with follow-up laboratory analyses. A student project is required involving field sampling and oceanographic equipment design, fabrication, and testing. Prereq: ESCI 501; or permission. Special fee. Lab. 4 cr.

703. Fluvial Hydrology

Mechanics of natural open-channel flows: forces, the continuity and energy principles, velocity distributions, flow resistance, fluvial erosion and sediment transport, channel form, computation of flow profiles, weirs, hydraulic jumps, and stream-flow routing. Lab and field exercises. Prereq: one year each of calculus and physics. Special fee. 4 cr.

705. Principles of Hydrology

Basic physical principles important in the land phase of the hydrologic cycle, including precipitation, snowmelt, infiltration and soil physics, evapotranspiration, and surface and subsurface flow to streams. Problems of measurement and aspects of statistical treatment of hydrologic data. Field trips. Prereq: one year each of calculus and physics. Special fee. Lab. 4 cr.

708. Hydrology and Water Resources

Interrelations of hydrologic data and analysis with the environmental, economic, and legal aspects of water resource management. Examination of local, national, and global water-resource problems. Prereq: ESCI 705; basic statistics; or permission. 3 cr.

710. Groundwater Hydrology

Principles for fluid flow in porous media with em-

phasis on occurrence, location, and development of groundwater but with consideration of groundwater as a transporting medium. Major topics include well hydraulics, regional groundwater flow, exploration techniques, and chemical quality. Laboratory exercises involve use of fluid, electrical, and digital computer models to illustrate key concepts. Prereq: ESCI 705 or permission. Lab. 4 cr.

715. Global Atmospheric Chemistry

Introduction to the principles of atmospheric chemistry and their relationship to biogeochemical cycles, climate, and global change. Focus is on understanding the basic physical and chemical processes that determine the trace gas distribution in the global troposphere. An introduction to atmospheric vertical structure and global circulation dynamics provides the foundation. Then chemical cycles of important C, S, and N molecules examined, including their possible perturbation by human activities. Basic photochemical processes outlined, particularly with respect to reactive nitrogen, hydrocarbons, and the production/destruction of ozone. Prereq: one year chemistry. (Also offered as EOS 715.) 3 cr.

725. Igneous Petrology

The evolution of igneous rocks as determined from field, petrographic, chemical, experimental, and theoretical studies. Application of thermodynamics to igneous petrogenesis. Physical properties of magmas. Prereq: mineralogy; petrography; adequate background in calculus, chemistry, and physics. Field trips. Special fee. Lab. 4 cr. (Offered alternate years with ESCI 726.)

726. Metamorphic Petrology

The metamorphism of pelitic, mafic, and calc silicate rocks as determined from field, petrographic, mineral chemistry, experimental, and theoretical studies. Closed- and open-system reactions, multisystems, reaction space. Calculation of pressure-temperature time paths. Prereq: mineralogy; petrography; adequate background in calculus, chemistry, and physics. Field trips. Special fee. Lab. 4 cr. (Offered alternate years with ESCI 725.)

732. Regional Geology and Advanced Structure

Readings, discussion, and field/lab exercises in the tectonic analysis of mountain systems. Emphasis on the northern Appalachian Orogen. Application of modern structural analysis. Field excursion. Prereq: ESCI 631 or permission. Special fee. 4 cr.

734. Applied Geophysics

Gravity, magnetic, seismic, electrical, and thermal methods of investigating subsurface geology. Fieldwork and use of computers in data analysis. Prereq: ESCI 401; one year of calculus; one year of college physics; or permission. Special fee. Lab. 4 cr.

741. Geochemistry

Thermodynamics applied to geological processes; geochemical differentiation of the earth; the principles and processes that control the distribution and migration of elements in geological environments; stable and radiogenic isotopes in geologic processes. Prereq: ESCI 512 or permission. 4 cr.

745. Isotope Geochemistry

Discussion of element abundance and isotope formation; radioactive decay as applied to geologic systems, detailed investigation of K-Ar, Rb-Sr, U-

Pb, and Sm-Nd systems, and geologic-oceanographic applications of stable isotopes. Lab involves mass spectrometric and chemical techniques of isotopic analysis. Course includes the completion of a laboratory project. Prereq: ESCI 741; or permission. Special fee. Lab. 4 cr.

746. Analytical Geochemistry

Theory, instrumentation, and applications of analytical methods in geochemistry. Prereq: one year of chemistry or geochemistry; or permission. Special fee. Lab. 4 cr.

747. Aqueous Geochemistry

Processes that determine the geochemical characteristics of water bodies. Emphasis on the geochemical continuum of terrestrial water and its geochemical evolution. Topics include the influence of cyclic salts, the nature of weathering reactions, the CO₂-CaCO₃ system, the formation and dissolution of salts and authigenic mineral formation. Prereq: one year of chemistry or geochemistry; or permission. Lab. 4 cr.

#750. Biological Oceanography

Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton feeding ecology, microbial ecology, and global ocean dynamics. Emphasis on experimental approaches. Term project involves either development of an ecosystem model or performance of a field experiment. Field trips on R/V *Gulf Challenger* and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of the instructor. (Also offered as ZOO 750.) 4 cr.

752. Chemical Oceanography

Water structure, chemical composition and equilibrium models, gas exchange, biological effects on chemistry, trace metals, and analytical methods. Lab includes short cruise aboard R/V *Gulf Challenger*. Prereq: permission. Lab (optional) with special fee. 3 or 4 cr.

#754. Modern Sediments

Examines recent sediments from their source area to the depositional environment. Emphasis on shallow-water clastic sediments and their characteristic properties. Weekly lab, conducted off campus at the Jackson Estuarine Laboratory, is concerned with aspects of textural and compositional analysis. New analytical techniques compared with classical sediment analysis. Lab. 4 cr.

755. Analytical Techniques for Sediments

A laboratory course focusing on applied analytical techniques geoscientists use in sediment sampling; coarse- and fine-grained textural analysis, and some aspects of mineralogical composition. Special fee. Lab. 2 cr.

#756. Estuarine Sedimentation

Examines all aspects of estuarine sedimentation, from erosion and transportation to deposition. Emphasis on fine-grained estuarine sediments and factors affecting particulate matter transport. Animal/sediment and plant/sediment interactions considered in detail. Includes an in-depth field research project in student's area of interest conducted by graduate students with undergraduate participation at the Jackson Estuarine Laboratory. Subject matter is relevant to students in related disciplines in which animal/plant/sediment relationships are important. Lab. 4 cr.

758. Introductory Physical Oceanography

Descriptive treatment of atmosphere-ocean interaction; general wind-driven and thermo-haline ocean circulation, waves and tides, and continental shelf and nearshore processes; instrumentation and methods used in ocean research. Simplified conceptual models demonstrate the important principles. Prereq: college physics; ESCI 501./or permission. 3 cr.

759. Geological Oceanography

Major geological features and processes of the ocean floor; geological and geophysical methods, plate tectonics. Prereq: two semesters each of calculus, physics, and geology. Lab. 4 cr.

762. Glacial Geology

Glacial environment: glacier dynamics and glacial erosion and deposition. Review of world glacial stratigraphy in light of causes of glaciation and climatic change. Field trips. Prereq: ESCI 561 or permission. Special fee. Lab. 4 cr.

#763. Glacier Research

Glaciers as proxy indicators of climatic change with specific emphasis on the interpretation of physical and chemical time series collected from glaciers. Field and laboratory work used as a tool in the course. Prereq: surficial processes; glacial geology; one year of college calculus; one semester each of college physics and chemistry;/or permission. 4 cr.

764. Introductory Paleoclimate Analysis

An overview of paleoclimate indicators for the last one million years in the context of global teleconnections (atmosphere-lithosphere-hydrosphere-cryosphere) and mathematical tools developed to interpret and link the different records of climate change. Prereq: one year calculus, one year chemistry, basic statistics;/or permission. (Also offered as EOS 764.) 4 cr.

795, 796. Topics in Earth Sciences

Geologic, hydrologic, and oceanographic problems and independent studies by means of conferences, assigned readings, and field or laboratory work fitted by ESCI faculty to individual student needs; or, new or specialized courses. Topics include geochemistry; geomorphology; geophysics; glaciology; groundwater, structural, and regional geology; crystallography; mineralogy; petrology; thermodynamics; ore deposits; earth resource policy; paleontology; sedimentation; stratigraphy; water resources management, chemical, physical, and geographical oceanography; earth systems. Also, senior synthesis and earth science teaching methods. 1-4 cr

Economics (ECON)

(For program description, see page 85.)

Chairperson: Richard W. England

Professors: Richard W. England, Robert C. Puth, Evangelos O. Simos

Associate Professors: Karen Smith Conway, Bruce T. Elmslie, Marc W. Herold, Richard L. Mills, Neil B. Niman, Torsten Schmidt, Allen R. Thompson, James R. Wible

Assistant Professors: William D. Bradford III, Michael D. Goldberg, Stanley A. Sedo

401. Principles of Economics (Macro)

Basic functions of the United States economy

viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and international money matters. No credit for students who have had ECN 411. 4 cr.

402. Principles of Economics (Micro)

Functions of the component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. Not open to students who have had RECO 411. No credit for students who have had ECN 412. 4 cr.

515. Economic History of the United States

United States economy from colonial times to the present. Models of economic development applied to the United States. How social, political, technological, and cultural factors shape economy; development and influence of economic institutions. Prereq: ECON 401 or 402;/or permission. 4 cr.

518. European Economic History

Western European economies from medieval times to the present. Explanations for differential growth rates and patterns; comparisons among political, social, and economic events. Prereq: ECON 401 or 402;/or permission. 4 cr.

#602. Introduction to Political Economy

Theoretical and historical analyses of the economic, political, and social dimensions of capitalism. Specific topics such as racism, monopoly, militarism, technological change, pollution, and business cycles. Prereq: ECON 401; ECON 402;/or permission. 4 cr.

605. Intermediate Microeconomic Analysis

Analysis of supply and demand. Determination of prices, production, and the distribution of income in noncompetitive situations and in the purely competitive model. General equilibrium. Prereq: ECON 402. 4 cr.

607. Ecological Economics

Analysis of efficiency, equity, and growth issues in the economy and their links to environmental quality and natural resources availability. Case studies of global warming, world hunger, etc. Prereq: ECON 401 and 402. 4 cr.

611. Intermediate Macroeconomic Analysis

Macroeconomic measurement, theory, and public policy determination. Prereq: ECON 401 and 402. 4 cr.

615. History of Economic Thought

Examination and critical appraisal of the work of major economists, including the work of contemporary economists, and major schools of economists, particularly with reference to the applicability of their theories to current economic problems. Prereq: ECON 401 and 402. 4 cr.

630. Comparative Study of Economic Systems

Analyzes crisis of ideologies, markets, and nonmarket systems. Swedish capitalism, reform processes of state socialist systems (Russia, Poland,

Hungary), and the centrally planned Cuban economy. Stresses theory, policy, and institutions. Prereq: ECON 401 or permission. 4 cr.

635. Money and Banking

Study of interest rates, financial markets, financial institutions, monetary institutions, the supply of money, the demand for money, monetary theory, and monetary policy. Prereq: ECON 401 and 402. 4 cr.

641. Public Economics

Alternative prescriptions and explanations concerning the role of government in contemporary market economies. General principles of public expenditure analysis. Selected case studies of public spending programs, e.g., welfare, defense, education. Analysis of various federal, state, and local taxes. Prereq: ECON 401; ECON 605;/or permission. 4 cr.

642. Health Economics

Theoretical and empirical analysis of the U.S. health care delivery sector. Topics include health insurance markets and their effects on patient demand, uninsured populations and their access to health care services, breakdowns in the principal/agent relationship between patients and providers, competition in the medical sector, technology, pharmaceuticals and the scope and effect of government involvement in the delivery of health care. Prereq: ECON 402. 4 cr.

645. International Economics

Covers both international trade theory and open-economy macroeconomics. Major issues include whether free trade is always preferred to restricted trade, the controversy over industrial policy, and how best to structure the international financial system. Students gain an understanding of topics including currency exchange rate movements, macroeconomic adjustment mechanisms and trade policy, among others. Prereq: ECON 401 and 402. 4 cr.

651. Government Regulation of Business

Mergers, competition, monopoly, and the regulated industries. 4 cr.

656. Labor Economics

Functioning of labor markets from theoretical and policy perspectives. Labor demand and supply, wages and employment. Welfare programs, human capital, discrimination in the labor market, unions, wage differentials. Prereq: ECON 401; ECON 402; ECON 605 recommended. 4 cr.

668. Economic Development

Theories of development/underdevelopment. Trade, growth, and self-reliance. The role of agriculture (land tenure, food crisis, Green Revolution). World Bank policy. Industrialization strategies. Role of the state. Prereq: ECON 401, ECON 402;/or permission.

669. Women and Economic Development

Examines the position, roles, and contribution of women in economic development as interpreted through different discourses (feminism, modernity, post modernity) and in theoretical conceptualizations (neoclassical integrationists, liberal feminism, class and gender, feminist ecology). Applied analyses on Africa, South Asia, and Latin America. Prereq: permission. 4 cr.

670. Economics of Energy

The availability and use of inanimate energy resources and their relation to economic activity. Investigates energy demand, energy supply, the relation of energy to economic growth, and energy policy. Prereq: ECON 605 or permission. 4 cr.

#685-686. Study Abroad

Open to students studying abroad in the discipline as approved by the economics program director. 1–16 cr. Cr/F.

692. International Economic Integration

Systematic analysis of the process and consequences of international integration. Introduction to the theoretical foundations of free trade areas, customs unions, common markets, and economic unions. Comprehensive examination of the historical developments in the formation of major economic blocs, such as the European Union (EU) and the North American Free Trade Area (NAFTA), and evaluation of the growing political and economic relationships between member countries regarding monetary and fiscal integration. Prereq: ECON 401; ECON 402. 4 cr.

695. Independent Study

Individual research projects that are student designed. Initial sponsorship of an economics faculty member must be obtained, and approval of WSBE adviser and dean. For juniors and seniors in high standing. Up to 4 credits may be used as a major elective. Variable (in multiples of 2). 2–12 cr.

696. Supervised Student Teaching Experience

Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisers in the advising center. Enrollment limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, department chair, and director of undergraduate programs. 1–8 cr. No more than 4 cr. may be earned as a teaching assistant in any one course. Cr/F.

698. Topics in Economics

Special topics. May be repeated. Prereq: permission. 4 cr.

707. Economic Growth and Environmental Quality

Analysis of the interrelationships among economic growth, technological change, population increase, natural resource use, and environmental quality. Application of alternative theoretical approaches drawn from the social and natural sciences. Focus on specific environmental problems, e.g., affluence and waste disposal problems, and environmental impact of technology transfer to less-developed nations. Prereq: ECON 605; ECON 611;/or permission. 4 cr.

711. Economic Fluctuations

Recurrent movements of prosperity and depression; emphasis on causes and public policy implications. Prereq: ECON 611 or permission. 4 cr.

720. U.S. Economic History

From colonial times to the present. Applied economic theory; economic models and interpretation of data. Influence of technology, industrialization, foreign trade, monetary factors, and government; noneconomic factors. Prereq: ECON 605; ECON 611;/or permission. 4 cr.

725. Mathematical Economics

Principal mathematical techniques and their application in economics. Topics covered: matrix algebra, derivatives, unconstrained and constrained optimization, linear and nonlinear programming, game theory, elements of integral calculus. Prereq: permission. 4 cr.

726. Introduction to Econometrics

Introduction to regression techniques as used in economics and management; estimation and statistical inference in the context of the general linear model; discussion of problems encountered and their solutions; extensions of the general linear model. Prereq: DS 420 or equivalent. 4 cr.

735. Economics of Financial Markets

Economic analysis of financial market systems. Topics include financial market functions, theories of saving and investment, financial intermediation, flow-of-funds analysis, loanable funds theory, interest rate forecasting, portfolio theory, capital-asset pricing models, structure of interest rates (including term-structure theory), and macroeconomic models of the financial sector. Prereq: ECON 635. 4 cr.

736. Seminar in Monetary Theory and Policy

Contemporary developments in monetary theory and the evaluation of policy measures. Prereq: ECON 635. 4 cr.

#741. Introduction to Public Policy

Explores the basic issues of public sector economics and emphasizes the use of economic theory in predicting the effects of public policy on individual behavior and the overall economy. Specific topics include market failures, collective decision making, cost/benefit analysis, and an evaluation of tax and transfer programs. 4 cr.

#745. International Trade

Contemporary issues in international economic theory and policy. Analysis of trade theory, dynamics of world trade and exchange, and international commercial policy. Prereq: ECON 605; ECON 645. 4 cr.

746. International Finance

International monetary mechanism; balance of payments, international investment; exchange rates, adjustment systems, international liquidity, foreign aid, multinational corporations. Prereq: ECON 611; ECON 645. 4 cr.

747. Multinational Enterprises

Internationalization of economies. Growth and implications of multinational corporations at the level of systems. Theories of imperialism, international unity/rivalry; theories of direct investment, exercise of influence and conflict, technology transfer, bargaining with host country; effects on U.S. economy. Prereq: permission. 4 cr.

#755. Collective Bargaining

Historical development of the U.S. labor movement and the industrial relations system. Contemporary collective bargaining issues; the role of public policy in industrial relations. 4 cr.

#756. Labor Economics

Recent developments in labor market analysis and public policies related to contemporary labor issues. Labor supply, the structure and stratification of labor markets, economic discrimination, unem-

ployment and poverty, inflation, and wage-price controls. Prereq: ECON 656. 4 cr.

768. Seminar in Economic Development

Advanced reading seminar. Topics include methodologies underlying economic development theory; industrialization and post-import substitution; state capitalist development; stabilization policies; appropriate technologies: the capital goods sector; agricultural modernization schemes; and attempts at transition to socialism. Prereq: permission. 4 cr.

795. Internship

On-the-job skill development through fieldwork in an organization (business, industry, health, public service, etc.). Normally, supervision is provided by a qualified individual in the organization, with frequent consultation by a faculty sponsor. Written report required. Internships may be part or full time, with course credits assigned accordingly. May not be used as a major elective. 1–16 cr. Cr/F.

798. Economic Problems

Special topics; may be repeated. Prereq: permission of adviser and instructor. 2 or 4 cr.

799. Honors Thesis

Supervised research leading to the completion of an honors thesis: required for graduation from the honors program in economics. Prereq: permission of director of undergraduate programs and department chair. 4–8 cr.

Education (EDUC)

(For program description, see page 28.)

Chairperson: Susan D. Franzosa

Professors: Michael D. Andrew, Angelo V. Boy, Susan D. Franzosa, Jane A. Hansen, David J. Hebert, Barbara E. Houston, Bruce L. Mallory, Sharon N. Oja

Associate Professors: Charles H. Ashley, John J. Carney, Grant L. Cioffi, Ellen P. Corcoran, Todd A. DeMitchell, Ann L. Diller, Janet Elizabeth Falvey, Virginia E. Garland, Barbara H. Krysiak, Judith A. Kull, Rebecca S. New, Jane A. Nisbet, Joseph J. Onosko, Thomas H. Schram, M. Daniel Smith, William L. Wansart, Dwight Webb

Research Associate Professor: Richard H. Goodman

Adjunct Associate Professor: Harry J. Richards

Assistant Professors: Eleanor D. Abrams, Richard M. Barton, Georgia M. Kerns, Ann L. Loranger, Joann M. Portalupi, Paula M. Salvio
Research Assistant Professor: Stephen Lichtenstem

Lecturers: John F. Hornstem, Carla W. Rensenbrink, Patricia L. Walton

500. Exploring Teaching

For students considering a teaching career. In-school experiences to develop introductory skills in observation and teaching. On-site seminars for analysis and evaluation. Assessment and advising related to teaching as a career. Prerequisite for further work toward teacher licensure. Minimum of 7 hours a week, plus travel time, required. Prereq: permission. 4 cr. Cr/F.

#653. Humanities and Education: Society and the Formation of Character

Interdisciplinary modular course examines the manner in which society forms character through custom, laws, and formal institutions. Works by Plato, Rousseau, and Dewey explore if and how we can become educated. Students take three successive 5-week modules during the semester. 4 cr. [Not offered every year.]

694. Courses in Supervised Teaching

Supervised Teaching of Music. 8 cr. Cr/F. Supervised Teaching of Adult and Occupational Education. 8 cr. Cr/F. Supervised Teaching of Mathematics. 8 cr. Cr/F.

700. Educational Structure and Change

Organization, structure, and function of American schools; historical, political, social and cross-cultural perspectives; nature and processes of change in education. A) Educational Structure and Change; B) Education in America: Backgrounds, Structure, and Function; C) Governance of American Schools; D) School and Cultural Change; E) Teacher and Cultural Change; F) Social Perspectives of Conflict in the Schools; G) Nature and Processes of Change in Education; H) What Is an Elementary School?; I) Schooling for the Early Adolescent; J) Children with Special Needs: Historical and Institutional Aspects; K) Curriculum Structure and Change; L) Stress in Educational Organizations. 2 and 4 cr. courses offered. Candidates for teacher licensure must take either 4-cr. course 700A, or 2 cr. each of 700F and 700 G. 700I is required for licensure in general science and recommended for those planning to teach at the middle school level. Prereq. for teacher licensure: EDUC 500 and junior status. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

701. Human Development and Learning; Educational Psychology

Child development through adolescence, learning theory, cognitive psychology, research in teaching and teacher effectiveness, cross-cultural variability, and evaluation—all applied to problems of classroom and individual teaching and learning. A) Human Development and Learning; Educational Psychology; B) Human Development: Educational Psychology; C) Human Learning: Educational Psychology; D) Developmental Bases of Learning and Emotional Problems; E) Learning Theory, Modification of Behavior, and Classroom Management; F) Cognitive and Moral Development; G) Evaluating Classroom Learning; H) Deliberate Psychological Education; I) Sex Role Learning and School Achievement; J) The Development of Thinking. Each semester 2-cr. and 4-cr. courses are offered. 2-cr. courses emphasize either development or learning. Candidates for teacher licensure are required to have the 4-cr. course (701A) or 2 cr. each of 701B and 701C. Prereq. for teacher licensure students: EDUC 500 and junior status. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

703. Alternative Teaching Models

Basic teaching models, techniques of implementation, and relationships to curricula. A) Alternative Teaching Models; B) Curriculum Planning for Teachers; C) Alternative Strategies for Maintaining Classroom Control; D) Social Studies Methods for Middle and High School Teachers; E) Teaching Elementary School Science; G) Language Arts for

Elementary Teachers; H) Experiential Curriculum; I) Children with Special Needs: Teaching Strategies for the Classroom Teacher; K) Writing across the Curriculum; L) Learning and LOGO; M) Teaching Elementary School Social Studies. 2-cr. and 4-cr. courses are offered. Teacher education students should be aware of the specific course(s) required for their licensure area. EDUC 703F and M are required for elementary education candidates. EDUC 703D is required for social studies candidates. EDUC 791 is required for science candidates. For all other secondary education candidates, the appropriate methods course in the department of the major is required. See the *Schoolhouse Book* for specific course listings. Prereq. for teacher licensure: EDUC 500 and junior status. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

705. Alternative Perspectives on the Nature of Education

Students formulate, develop, and evaluate their own educational principles, standards, and priorities. Alternative philosophies of education; contemporary issues. A) Contemporary Educational Perspectives; B) Controversial and Ethical Issues in Education; D) Concepts of Teaching: Differing Views; E) Curriculum Theory and Development; F) Readings on Educational Perspectives; G) Philosophy of Education; I) Education as a Form of Social Control; K) Schooling and the Rights of Children; L) Education, Inequality, and the Meritocracy; M) Readings in Philosophies of Outdoor Education; N) Alternative Perspectives on the Nature of Education; O) Classrooms: The Social Context; P) Teaching: The Social Context; Q) School and Society. 2-cr. and 4-cr. courses are offered. Candidates for teacher licensure must choose either 4-cr. course 705A, 705B, or 705Q. Prereq. for students not seeking teacher licensure: instructor permission. 2 or 4 cr.

706. Introduction to Reading Instruction in the Elementary Schools

Reading process; current procedures and materials; diagnostic techniques; practicum experience. Course satisfies reading requirement for prospective elementary teachers in the five-year teacher education program and may be included in the 12 required graduate credits in education at the graduate level. May also be taken for undergraduate credit before entrance into fifth year; in this case the course satisfies reading requirements but is not applicable toward the 12 required graduate credits. Prereq: EDUC 500. 4 cr.

707. Teaching Reading through the Content Areas

Approaches and methods for teaching reading through content materials; coursework includes practical applications through development of instructional strategies and materials. Required for candidates seeking certification in art, biology, chemistry, earth science, general science, physics, or social studies. 2 cr.

720. Introduction to Computer Applications for Education

Examination of major issues related to classroom computer applications: historical development, computer functioning, methods of introduction, problem solving, educational software development and evaluation, psychological and sociological impact of the computer on children and learning. Introduction to classroom applications of the

programming language LOGO and authoring languages. A hands-on approach is stressed. Lab. 4 cr.

733. Introduction to the Teaching of Writing Development of writers, child to adult; ways to respond to writing; organization of the classroom for the teaching of writing. Persons taking the course need to have access to students to carry out course requirements. Prereq: permission. 4 cr.

734. Children's Literature

Interpretive and critical study of literature for children in the elementary, middle, and junior high schools. Methods of using literature with children. 4 cr.

#741. Exploring Mathematics with Young Children

A laboratory course offering those who teach young children mathematics, and who are interested in children's discovery learning and creative thinking, an opportunity to experience exploratory activities with concrete materials. It offers, on the adult level, mathematical investigations through which one may develop the ability to provide children with a mathematically rich environment, to become adept at asking problem-posing questions, and to establish a rationale for doing so. 4 cr.

750. Introduction to Exceptionality

Social, psychological, and physical characteristics of exceptional individuals, including intellectual, sensory, motor, health, and communication impairments. Implications for educational and human service delivery. 4 cr.

751. Educating Exceptional Learners

Foundations of special education and introduction to the techniques of special teaching. Primary application to learners with mild and moderate disabilities. 4 cr.

752. Diagnosis and Remediation of Learning Disabilities

Terminology, etiology, common characteristics, and symptoms; theory and practice in gross-motor, visual, and auditory remediation; testing procedures used in diagnosis and remediation programs. 4 cr.

#753. Children with Behavior Disorders

Nature and scope of emotional disturbances and social disabilities in children, including causes, characteristics, treatment implications, and educational problems. 4 cr.

754. Survey of Developmental Disabilities

The causal factors, physical and psychological characteristics, and educational and therapeutic implications of mental retardation, cerebral palsy, epilepsy, autism, and related disabling conditions. Observations of programs and services for persons with developmental disabilities may be required. 4 cr.

760. Introduction to Young Children with Special Needs

Needs of children (birth to eight years) with developmental delays or who are at risk for disabilities. Strengths and special needs of such children; causes, identification, and treatment; current legislation; parent and family concerns; program models. 4 cr.

776. Reading for Children with Special Needs Techniques and procedures for teaching reading to children with special learning needs: the mentally

retarded; learning disabled; gifted; and culturally diverse. Emphasis on the implications of providing reading instruction in the least restrictive alternative. 4 cr.

781. Probability and Statistics

Introductory-level coverage of applied probability and statistical methods. Problems selected from many disciplines, with a focus on the behavioral and social sciences, to illustrate the logic and typical application of the techniques. Emphasis on understanding concepts through analyses of prepared data. 4 cr.

785. Educational Assessment

Theory and practice of educational evaluation; uses of test results in classroom teaching and student counseling; introductory statistical techniques. 4 cr.

791. Methods of Teaching Secondary Science

Application of theory and research findings in science education to classroom teaching with emphasis on inquiry learning, developmental levels of children, societal issues, integration of technology, critical evaluation of texts and materials for science teaching, and planning for instruction. Lab. 4 cr.

795, 796. Independent Study

Juniors and seniors only, with approval by appropriate faculty member. Neither course may be repeated. 2 or 4 cr.

797. Seminar in Contemporary Educational Problems

Issues and problems of special contemporary significance, usually on a subject of recent special study by faculty member(s). Prereq: permission. May be repeated for different topics. 1–4 cr.

Electrical and Computer Engineering (EE)

(For program description, see page 65.)

Chairperson: W. Thomas Miller, III

Professors: Kent Chamberlin, Ronald R. Clark, Filson H. Glanz, L. Gordon Kraft, John R. LaCourse, W. Thomas Miller III, Paul J. Nahin, John L. Pokoski, Andrzej Rucinski, Kondagunta Sivaprasad

Adjunct Professors: Sidney W. Darlington, Robert E. Levin

Associate Professors: Michael J. Carter, Allen D. Drake, Richard A. Messner

Adjunct Associate Professors: Thomas F. McCoy, Stuart M. Selikowitz

Assistant Professors: Jennifer T. Bernhard

Adjunct Assistant Professors: Paul W. Latham II, Barbara Dziurla Rucinski

Instructor: Francis C. Hludik, Jr.

537. Introduction to Electrical Engineering

Fundamentals of electrical engineering. Topics are: circuit elements; signal waveforms; circuit laws and theorems; transfer functions; free, forced, and steady state responses; power calculations; amplifiers; and magnetic circuits. Non-EE majors only. Prereq: MATH 527; PHYS 408. Lab. 4 cr.

541. Electrical Circuits

Linear passive circuits beginning with resistive circuits, independent and dependent sources, basic op-

amps, power and energy relations, mesh and node analysis. Energy storage elements, capacitor and inductors, transient and steady-state circuit analysis for first- and second-order circuits. Steady-state AC circuits using phasors. For EE majors only. Prereq: MATH 426; pre- or coreq: PHYS 408. Lab and discussion. 4 cr.

543. Introduction to Digital Systems

Fundamental analysis and design principles. Number systems, codes, Boolean algebra, and combinational and sequential digital circuits. Lab: student-built systems using modern integrated circuit technology and an introductory design session on a CAD workstation. Lab. 4 cr.

544. Engineering Analysis

Review of infinite series and multiple integrals. Differential calculus of functions of several variables. Vector differential and integral calculus with applications to electrostatics and magnetostatics. Prereq: MATH 527. 3 cr.

548. Circuits and Electronics

Continuation of Electrical Circuits, including AC analysis, power, complex frequency, Laplace transforms. Introduces circuits containing diodes and BJTs. Prereq: EE 541. Lab. 4 cr.

#596. Topics in Electrical Engineering

Topics in electrical engineering. Prereq: permission. 1–4 cr.

603. Electromagnetic Fields and Waves I

Maxwell's equations in integral and differential form with applications to static and dynamic fields. Uniform plane waves in free space and material media. Boundary conditions; simple transmission line theory; parallel plate and rectangular waveguides; simple radiating systems. Prereq: PHYS 408; EE 544 or equivalent. 3 cr.

603H. Electromagnetic Fields and Waves I/ Honors

Same topics as EE 603. Honors students will attend an additional one-hour meeting each week. Prereq: PHYS 408; EE 544 or equivalent. 4 cr.

612. Computer Organization

Basic computer structure, including arithmetic, memory, control, and input/output units; the trade-offs between hardware, instruction sets, speed, and cost. Laboratory experiments involving machine language programming and I/O interfacing using microcomputers. Prereq: CS 410C; EE 543; permission. Lab. 4 cr.

617. Junior Laboratory I

Application of laboratory instrumentation to the investigation of active and passive circuit characteristics; introduction to computer-aided design, analysis, and testing; development of report writing and oral presentation skills. Coreq: EE 651; 645. 2 cr.

618. Junior Laboratory II

Laboratory exercises in the design and analysis of active circuits, techniques of signal processing, and the properties of distributed circuits. Continued development of report writing and oral presentation skills. Prereq: EE 617. Coreq: EE 603; 657. 2 cr.

#620. Electronics and Instrumentation

For nonengineering and nonphysics students; no mathematical or engineering detail. Techniques for

using electronic instruments and equipment. DC and AC circuits, electronic amplifiers, grounding and shielding problems, transducers, electronic instruments, schematic reading, transients, noise problems, and digital techniques. Prereq: junior standing. 4 cr.

645. Electrical Networks

Two ports and transfer functions, time and frequency domain concepts, Fourier series and transforms, state equations, convolution, introductory network synthesis, passive and active filter design, and approximation. Prereq: EE 548. 3 cr.

645H. Electrical Networks/Honors

Same topics as EE 645. Honors students will attend an additional one-hour meeting each week. Prereq: EE 548. 4 cr.

647. Random Processes in Electrical Engineering

Emphasis on applied engineering concepts such as component failure, quality control, noise propagation. Topics include random variables, probability distributions, mean and variance, conditional probability, correlation, power spectral density. Prereq: EE 544. 2 cr.

651. Advanced Electronics I

FETS; differential and multistage amplifiers; frequency response; feedback; development of writing skills. Prereq: EE 548. 3 cr.

652. Advanced Electronics II

Output stages; power amplifiers; frequency response; feedback; analog ICs; filters; tuned amplifiers; signal generators; wave-shaping circuits; MOS and bipolar digital circuits; development of writing and oral presentation skills. Prereq: EE 651. 4 cr.

657. Electromechanical Energy Conversion

Magnetic circuits; theory and analysis of transformers and induction; synchronous, DC, brushless, and stepping motors and generators. Design of systems with these components. Prereq: EE 548. Coreq: EE 603. 2 cr.

681. Teaching Experience

Credit for assisting in the instruction of undergraduate laboratories. Available on a limited basis to students selected by the department chairperson. May be repeated for credit up to a total of 4 credits. 1 cr.

690. Engineering Design Principles I

Lectures, seminars, and discussions related to engineering design and professionalism. Provides background for capstone design experience. Topics include: creativity, design methodology, specification development, total quality management, ethics, safety, reliability, aesthetics, and preparation for oral and written reports. .5 cr. Cr/F.

691. Engineering Design Principles II

Continuation of EE 690. .5 cr. Cr/F.

Some 700-level courses are offered subject to adequate student demand. Most 700-level courses require writing reports and giving oral presentations.

704. Electromagnetic Fields and Waves II

Loop antennas; aperture and cylindrical antennas; self and mutual impedance; receiving antennas and

antenna arrays; bounded plane waves; rectangular and cylindrical waveguides; waveguide discontinuities and impedance matching; solid state microwave sources. Prereq: EE 603. 4 cr.

711. Digital Systems

Digital design principles and procedures, including top-down design techniques, prototyping and documentation methods, and realistic considerations such as grounding, noise reduction, loading, and timing; digital design and development tools; computer-aided design using microprocessor development systems and engineering workstations including hands-on experience with state-of-the-art design automation systems. Prereq: EE 612; permission. Lab. 4 cr.

714. Real-Time Computer Applications

Organization and programming of real-time computer-based systems. Special purpose peripherals, digital filters, program and data organization, priority interrupt processing of tasks, real-time monitor systems. Applications to communication, automated-measurement, and process-control systems. Semester design project required. Prereq: EE 612; senior standing; programming experience; permission. Lab. 4 cr.

715. Introduction to VLSI

Principles of VLSI (Very Large Scale Integrated) systems at the physical level. CMOS circuit and logic design, CAD tools, CMOS system case studies. Students exercise the whole development cycle of a VLSI chip: design, layout, and testing. Design and layout performed during Semester I. The chips are fabricated off campus and returned during Semester II, when they are tested by students. An IA grade is given at the end of Semester I. Prereq: EE 612. 4 cr.

717. Introduction to Digital Image Processing

Digital image representation; elements of digital processing systems; sampling and quantization, image transformation including the Fourier, the Walsh, and the Hough transforms; image enhancement techniques including image smoothing, sharpening, histogram equalization, and pseudocolor processing; image restoration fundamentals. Prereq: EE 645; 647; CS 410C or equivalent experience; permission. Lab. 4 cr.

745. Fundamentals of Acoustics

Acoustic wave equation for air; laws of reflection, refraction, and absorption; characteristics and measurement of acoustical sources; human perception of sound, loudness, intensity; microphones; acoustical materials, problems in environmental sound control; ultrasonics; architectural acoustics. Prereq: PHYS 408; MATH 527, permission. Lab. 4 cr.

757. Fundamentals of Communication Systems

Discussions of deterministic signals, Fourier spectra, random signals and noise, baseband communication, analog and digital modulation schemes, and system signal-to-noise ratio. Prereq: EE 645; 647, permission. Lab. 4 cr.

758. Communication Systems

Design of high-frequency communication systems. RF amplification, modulators for AM and FM systems, receiving techniques, antennas, free-space propagation, propagation characteristics of the ionosphere. Prereq: EE 603, 757 or equivalent; permission. Lab. 4 cr.

760. Introduction to Fiber Optics

Basic physical and geometric optics; solution of Maxwell's equations for slab waveguides and cylindrical waveguides, of both step index and graded index profiles; modes of propagation and cutoff; polarization effects; group and phase velocity; ray analysis; losses; fabrication; sources; detectors; couplers; splicing; cabling; applications; system design. Prereq: PHYS 703 or EE 603 or permission. Lab. 4 cr.

761. Optical Engineering

First-order imaging optics, thin and thick lenses, aberrations, mirrors, stops, apertures, gratings, prisms, resolution, interferometry, diffraction, ray tracing, design of optical instruments, image evaluation, modulation transfer function, optical system design by computer. Prereq: PHYS 408; MATH 527; or permission; CS 410C or equivalent experience. Lab. 4 cr.

771. Linear Systems and Control

Fundamentals of linear system analysis and design in both continuous and discrete time. Design of feedback control systems. Topics include modeling; time and frequency analysis; Laplace and Z transforms; state variables; root locus; digital and analog servomechanisms; proportional, integral, and derivative controllers. Demonstrations and computer simulations included. Prereq: senior standing in EE or ME or permission. (Also offered as ME 771.) 3 cr.

771H. Linear Systems and Control/Honors

Same topics as EE 771. Honors students will attend an additional one-hour meeting each week. Prereq: senior standing in EE or permission. 4 cr.

772. Control Systems

Extension of EE 771 to include more advanced control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parameter sensitivity; controllability; observability; introduction to nonlinear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq: EE 771 or permission. (Also offered as ME 772.) Lab. 4 cr.

#775. Applications of Integrated Circuits

Design and construction of linear and nonlinear electronic circuits using existing integrated circuits. Limitations and use of operational amplifiers. Laboratory course in practical applications of nondigital integrated circuit devices. Prereq: EE 652; permission. Lab. 4 cr.

#781. Physical Instrumentation

Analysis and design of instrumentation systems. Sensors, circuits, and devices for measurement and control. Elements of probability and statistics as applied to instrument design and data analysis. Transmission, display, storage, and processing of information. The design, implementation, testing, and evaluation of a relevant instrument system is an integral part of the course. Prereq: senior standing in EE or equivalent; EE 652; and permission. Lab. 4 cr.

784. Biomedical Instrumentation

Principles of physiological and biological instrumentation design including transducers, signal conditioning, recording equipment, and patient safety. Laboratory includes the design and use of instrumentation for monitoring of electrocardiogram, electromyogram, electroencephalogram,

pulse, and temperature. Current research topics, such as biotelemetry, ultrasonic diagnosis, and computer applications. Prereq: ZOO 507-508 or equivalent; EE 652; permission. Lab. 4 cr.

#785. Underwater Acoustics

Vibrations, propagation, reflection, scattering, reverberation, attenuation, sonar equations, ray and mode theory, radiation of sound, transducers, and small- and large-signal considerations. Prereq: permission. 4 cr.

#787. Analysis and Design of Human Physiological Control Systems

Analysis and design of human physiological control systems and regulators through the use of mathematical models. Identification and linearization of systems components. Membrane biophysics. Design of feedback systems to control physiological states through the automatic administration of drugs. System interactions, stability, noise, and the relationship of system malfunction to disease. Prereq: ZOO 507-508 or equivalent; EE 771 or equivalent; and permission. 4 cr.

790. Engineering Design Experience

Capstone engineering design project that draws on previous coursework and involves many of the following features: synthesis, analysis, alternative approaches, modeling, construction, simulation, testing, and evaluation. Designs must consider realistic constraints such as time, economics, safety, reliability, functionality, social and environmental implications, practicality, etc. Oral and written reports required. Normally taken by EE seniors in conjunction with other technical electives or work experience. 0 cr. Cr/F.

795. Electrical Engineering Projects

Laboratory course. Students either join a department research project or engage in a project in an area of staff interest. Prereq: acceptance by staff member. 1-4 cr.

795H. Senior Honors Project

Independent analytical or laboratory study under the guidance of a faculty member. A written report is required. Prereq: senior EE honors standing. 4 cr. for 1 semester or 2 cr. for each of 2 semesters with IA given at end of first semester.

796. Special Topics in Electrical Engineering

New or specialized courses and/or independent study. Prereq: permission. 1-4 cr.

Engineering Technology (ET)

(For program description, see page 67.)

Chairperson: Ralph W. Draper

Associate Professors: Ralph W. Draper, David A. Forest, Jill Schoof

Assistant Professor: T. A. Parssinen

Professor Emeritus: Joseph B. Murdoch

Permission of instructor is a prerequisite to all engineering technology courses.

637. Heat and Fluid Power I

Work and heat, first and second laws of thermodynamics, heat engines and refrigerators; applied to various cycles (power plants, turbines, jet engines,

etc.). Field trips. Prereq: differential and integral calculus; physics. Lab. 4 cr.

638. Heat and Fluid Power II

Continuation of 637 for MET students only. Further applications of thermodynamics. Additional topics include heat transfer and fluid dynamics. Prereq: ET 637 or equivalent. Lab. 4 cr.

641. Production Systems

Market forecasting; waiting line theory, manufacturing inventories and their control; production scheduling; quality control. Prereq: differential and integral calculus. 3 cr.

642. Applications of Design of Experiments

Process variation and control; measurements; normal distributions; analysis of variance; full factorial designs; fractional factorial designs; screening experiments; robust design methodology; Taguchi designs; Taguchi loss function; response surface designs; EVOP; industrial cases throughout the course. Project required. 3 cr.

644. Mechanical Engineering Technology Concepts in Design and Analysis

Kinematics, kinetics, work and energy, fluids, heat transfer; application of these concepts to problems in mechanical design. Prereq: strength of materials and dynamics and ET 637. 4 cr.

671. Digital Systems

Digital systems design and applications using TTL and CMOS devices. Topics include logic design of memory systems and interfacing. Digital design project required. Prereq: introductory digital design. Special fee. Lab. 4 cr.

674. Control Systems and Components

Topics include linear systems analysis, the Laplace transform and its properties, controllers, root locus technique, transient response analysis, first- and second-order systems, error analysis, and control system design. Prereq: differential and integral calculus. Lab. 4 cr.

675. Electrical Technology

Electrical circuits—DC and AC network analysis; power factors, transformers; power supplies. Electronic circuits—diodes, transistors and operational amplifiers. Digital circuits and introduction to computer-aided engineering. Prereq: differential and integral calculus. Lab. 4 cr.

677. Analog Systems

Op amp specifications, instrumentation and bridge amplifiers, advanced op amp circuits and linear ICs. Interfacing techniques, and A/D and D/A converters. Lab applications. Prereq: intro. analog design. Special fee. Lab. 4 cr.

678. Design and Applications of Robust Instrumentation

Design methods for analysis and synthesis of reliable and accurate state-of-the-art circuits and systems for use in precision measurements in severe conditions. A design project will be required. Prereq: Majors only or permission. Lab. 4 cr.

680. Communications and Fields

Topics include Fourier series analysis; the Fourier transform and its properties; convolution; correlation including PN sequences; modulation theory; encoding and decoding of digital data (NRZ-M, NRZ-S, RZ, Biphase-L, and Manchester); antennas

and antenna pattern; Radar Range Equation; and an introduction to information theory. Prereq: differential and integral calculus. Lab. 4 cr.

695. Independent Study

A) Topics in Engineering Technology Mathematics; B) Topics in Mechanical Engineering Technology; C) Topics in Electrical Engineering Technology. 1–4 cr.

733. Business Organization and Law

Corporations; proprietorships; product liability; contracts; federal agencies; commercial paper; conditions of employment; business ethics; bankruptcy; U.C.C. Special fee. 3 cr.

734. Economics of Business Activities

Elementary financial accounting; compound interest and time value of money; sources of capital; cost estimating; depreciation; risk and insurance; personal finance. Prereq: differential and integral calculus. Special fee. 3 cr.

740. Application of Design and Experiments

Statistics and statistical process control. Measurements. Analysis of variance (ANOVA). Screening designs. Full factorial designs. Fractional factorial designs. Taguchi techniques. Robust design. Response surface design. Evolutionary operation (EVOP). A design project will be required. Prereq: Majors only or permission. Lab. 4 cr.

745. Instrumentation

Statistics of experimentation; quantity standards and measurement; design of experiments; use of laboratory gear including dynamometer; field trips. Prereq: differential and integral calculus; ET 644 or equivalent. Lab. 4 cr.

751. Mechanical Engineering Technology Project

Group project; students are required to find solutions to actual technological problems in design, fabrication, and testing as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the hardware needed. Prereq: senior standing in ET. A yearlong course: 4 cr. each semester, 8 cr. total; an IA grade (continuous course) given at the end of first semester. Withdrawal from course results in loss of credit.

762. Illumination Engineering

Radiation; spectra, wave, and particle nature of light; physics of light production, light sources and circuits, luminaires, science of seeing, color theory, measurements, control of light, light and health, lighting calculations. Prereq: MATH 527, PHYS 408 or equivalent background. (Also offered as EE 772.) Lab. 4 cr.

763. Lighting Design and Applications

Lighting design process, modeling, interior and exterior lighting calculation and design, flux transfer, form and configuration factors, lighting quality and aesthetics, daylighting calculations, lighting economics, lighting power and energy analysis, selected applications of light in interior and exterior spaces. Prereq: ET 762. 4 cr.

783. Advanced Electronic Design Methods

Design methods for analysis and synthesis of state-of-the-art circuits and systems, with real-world examples. A design project will be required. Laboratory work will form an important part of the

course. Prereq: intro. analog and digital design. Special fee. Lab. 4 cr.

790. Microcomputer Technology

Microprocessors; their operation, programming, interfacing, and various uses. The 8085A is used as an operational model for hardware and software applications. SDK-85 microcomputer development systems are used for lab. Microcomputer applications, with emphasis on lab work. Prereq: ET 671. Special fee. Lab. 4 cr.

791. Electrical Engineering Technology Project

Group project; students are required to find solutions to actual technological problems in design, fabrication, and testing, as posed by industry. Students define the problem, prepare a budget, and work with the client company to research, design, build, and test the software and/or hardware needed. Prereq: senior standing in ET. Special fee. A yearlong course: 4 cr. each semester, 8 cr. total; an IA grade (continuous course) given at end of first semester. Withdrawal from course results in loss of credit.

English (ENGL)

(For program description, see page 30.)

Chairperson: Michael V. DePorte

Professors: Janet Aikins, Thomas A. Carnicelli, Mary Morris Clark, Robert J. Connors, Michael V. DePorte, Karl C. Diller, Walter F. Eggers, Burt H. Feintuch, Michael K. Ferber, Lester A. Fisher, Melody G. Graulich, Elizabeth H. Hageman, Robert Hapgood, Jean E. Kennard, Rochelle Lieber, Andrew H. Merton, Thomas R. Newkirk, Susan Schibanoff, Patrocinio P. Schweickart, Charles D. Simic, Mark R. Smith, David H. Watters, John A. Yount
Associate Professors: Brigitte Gabcke Bailey, Jane T. Harrigan, Susan Margaret Hertz, Romana C. Huk, James Krasner, Douglas M. Lanier, John S. Lofty, Lisa Watt MacFarlane, Mekeel McBride, Sarah Way Sherman, Sandhya Shetty, Patricia A. Sullivan, Rachel Trubowitz
Assistant Professors: Elizabeth Jane Bellamy, Margaret-Love G. Denman, John Richard Ernest, Diane P. Freedman, Peter J. Mascuch, Lisa C. Miller

See departmental brochure for detailed descriptions of course offerings.

English 401 is a prerequisite for all English courses but 400.

400. English as a Second Language

Improves the competence of foreign students in listening comprehension, speaking, reading, and writing. Recommended as preparation for ENGL 401. Prereq: student should meet with, and have the permission of, the instructor. May be repeated up to a total of 8 cr. 4 cr. Cr/F.

401. Freshman English

Training to write more skillfully and to read with more appreciation and discernment. Frequent individual conferences for every student. Special fee. 4 cr

401A. Freshman English for ESL Students

A special section of Freshman English for students whose native language is not English. Training to write more skillfully and to read with more appreciation and discernment, with special attention to the problems of non-native speakers of English. Supplemental work on listening and speaking as necessary. Frequent individual conferences for every student. Special fee. 4 cr.

#403. Introduction to the Study of Literature

The art of thoughtfully enjoying various kinds of literature, the substance and language of literature, and literary techniques. 4 cr.

500. Writing about Reading; Writing about Nonfiction

Emphasis on close reading of a variety of nonfiction sources and on intensive writing to develop interpretive skills. Prereq: ENGL 401 or permission. Special fee. 4 cr.

501. Introduction to Prose Writing

Nonfiction writing; weekly papers and frequent conferences. May be repeated for credit with the approval of department chairperson. Special fee. 4 cr.

503. Persuasive Writing

Writing of all types of persuasive nonfiction prose, including argumentative essays and position papers. Special attention to argumentative structures and analysis of audiences. Weekly papers of varying lengths and formats, frequent conferences. Special fee. 4 cr.

505. Introduction to Linguistics

Overview of the study of language: universal properties of human language, Chomsky's innateness hypothesis, language acquisition in children, dialects and language variation, language change. Includes introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as LING 505.) 4 cr.

511. Major Writers in English

In-depth study and discussion of a few American and/or British writers. Topics and approaches vary depending on instructors. 4 cr.

#512. Introduction to American Literature

Works of major American writers from Irving to Faulkner, with emphasis on how to adapt and present the material to high school English classes. Open only to English teaching majors. 4 cr. (Not offered every year.)

513, 514. Survey of British Literature

Selected works in poetry and prose considered in chronological order and historical context. Attention to the works and to the ideas and tastes of their periods. 513: *Beowulf* through 18th century. 514: 1800 to the present. 4 cr.

515, 516. A Survey of American Literature

515: From the beginning of American literature to the Civil War. 516: From the Civil War to the present. 4 cr.

517. Introduction to African American Literature and Culture

An introduction to African American literature in the context of a variety of cultural perspectives. Course topics may include: major writers, literary

genres, historical periods, Harlem Renaissance, Black Arts Movement, fine and folk arts, religion, music, and film. (Also offered as AMST 502.) 4 cr.

#518. The Bible as Literature

Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version. 4 cr.

519. Introduction to Critical Analysis

Critical analysis of fiction, poetry, and drama. Frequent short papers. This course, or 529, is a prerequisite with a minimum grade of C for those intending to declare an English major. Students may not take both ENGL 519 and 529 for credit. 4 cr.

#520. Literature and the History of Ideas

Interdisciplinary study of literary works as influenced and illuminated by the concepts of philosophers, historians, and scientists. Barring duplication of subject, may be repeated for credit. 4 cr.

521. The Nature Writers

Fiction, poetry, and nonfiction books on the natural environment. Such books as Thoreau's *Walden* or *Maine Woods*, Leopold's *Sand County Almanac*, Beston's *Outermost House*, Dillard's *Pilgrim at Tinker Creek*—books by naturalists who observe nature vividly and knowingly and who write out of their concern for the environment. 4 cr.

522. American Literary Folklore

Folktales, songs, proverbs, beliefs, superstitions, and their use by such American authors as Irving, Hawthorne, Longfellow, Melville, Thoreau, Twain, Frost, and Faulkner; some emphasis on oral folk culture of New Hampshire. 4 cr.

#523. Madness in Literature

How various writers depict insanity, and how they approach the problem of determining what attitudes and what behavior are truly sane. Emphasis on 19th- and 20th-century works, but works from earlier periods also considered. Euripides' *The Bacchae*, Shakespeare's *King Lear*, Cervantes's *Don Quixote*, Hoffman's *The Golden Pot*, Dostoevsky's *Notes from the Underground*, Robbe-Grillet's *The Voyeur*, Nabokov's *Pale Fire*, and other texts. 4 cr.

525. Popular Culture in America

Cultural expression in popular media. Verbal arts (best sellers, magazines, newspapers, speeches); (some attention to television, film, comics, popular music. The multidisciplinary approach deals with historical context, cultural institutions, and distinctions between "popular arts" and "great literature." Recurrent images, situations, and themes are investigated to see what values are celebrated and what fears are revealed. 4 cr.

529. Writing about Literature

Close reading of poetry, fiction, and drama. Frequent papers. A prerequisite with a minimum grade of C for those intending to declare an English major. Students may not take both ENGL 519 and 529 for credit. 4 cr.

533. Introduction to Film Studies

A survey of the international development of the motion picture from the silent period to the present, emphasizing film's narrative practices. The course introduces students to the study of the art, history, technology, economics, and theory of cinema. Films and film makers of various nations,

periods, movements, and genres examined. Special fee. 4 cr.

581. Introduction to Postcolonial Literatures in English

Survey of contemporary Asian, African, and Caribbean fiction, drama, travelogues, essays, and poetry from the 1950s to the present. Introduction to political, historical, and cultural contexts within which these forms are produced. 4 cr.

585. Introduction to Women in Literature

Survey of images of women in literature. Content and approach vary depending on instructor. 4 cr.

586. Introduction to Women Writers

Survey of women writers. Content and approach vary depending on instructor. 4 cr.

595. Literary Topics

Various faculty members investigate topics of special interest at a level appropriate for nonmajors. Past topics have included Irish literature, animals in literature, and literature of the Vietnam War. See department for details of current offerings. 1–4 cr.

605. Introduction to Linguistic Analysis

Introduces analysis methods and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis will be both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding languages' behavior). Prereq: ENGL/LING 505, or permission. (Also offered as LING 605.) 4 cr.

#607. The American Character: Religion in American Life and Thought

Interdisciplinary study of the American religious experience and its relationship to other aspects of American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Also offered as HIST 607, HUMA 607, and RS 607.) 4 cr.

#608. Arts and American Society: Women Writers and Artists, 1850–Present

Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Fannie Fern, Lilly Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENGL 585, 586, 685, 785, or a 600-level art history course. (Also offered as ARTS 608, HIST 608, and HUMA 608.) 4 cr.

609. Ethnicity in America:**The African American Experience in the Twentieth Century**

Team-taught course investigating music, literature, and social history of African American America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s. Special attention to the theme of accommodation with and rejection of dominant white culture. (Also offered as HUMA 609 and MUSI 609.) 4 cr.

610. Regional Studies in America: New England Culture in Changing Times

Team-taught course investigating some of the

major contributions New England has made to American life. Focusing on three periods: the Puritan era, 1620–90; the Transcendental period, 1830–60; and the period of emerging industrialism in the late 19th century. (Also offered as ARTS 610, HIST 610, and HUMA 610.) Not for art studio major credit. 4 cr.

616. Studies in Film

Advanced, focused study of the cinema. Topics vary from year to year and with instructor. Focus may range from general consideration of film theory, film criticism, and film history, to specific analyses of selected national cinemas, periods, movements, genres, and film makers. Course descriptions available in department office during preregistration. Prereq: ENGL 533; CMN 550;/or permission. Special fee. 4 cr.

619. Critical Approaches to Literature

Selected methods of literary criticism applied to fiction, poetry, and/or drama with critical approaches varying from year to year. A follow-up of 519, course provides a second semester of training in critical reading and writing, examining such major modern strategies as formalist, biographical, archetypal, psychological, sociological, historical, feminist, and structuralist criticism. Prereq: ENGL 519, 529, or equivalent. 4 cr.

621. Newswriting

Workshops to develop reporting and writing skills. Prereq: ENGL 501 or equivalent; written permission. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

623. Essay Writing

Intensive writing course emphasizing experimentation with a variety of essay forms. Also reading and discussion of contemporary essays. Prereq: ENGL 501 and written permission of instructor. Special fee. 4 cr.

625, 626. Writing Fiction

Workshop in the fundamental techniques of fiction writing. Student work is criticized by fellow students; individual conferences with instructor. Prereq: ENGL 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

627, 628. Writing Poetry

Workshop in the fundamental techniques of poetry writing. Class discussion and criticism of poems written by students. Individual conferences with instructor. Prereq: ENGL 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

630. Poetry

American and British poetry. Various poetic techniques and their demonstration. See course descriptions available in department office for further information. 4 cr. (Not offered each semester.)

631. The Drama

Nature and types of drama illustrated by major English, American, and (translated) European plays. How to read a play. Live and filmed performances studied as available. 4 cr.

632. Fiction

Modern novels and/or short stories. The ways in

which fiction communicates its meanings; the tools and methods at the fiction writer's disposal, primarily as they function in individual works. See course descriptions available in department office for further information. 4 cr. (Not offered each semester.)

649. Studies in British Literature and Culture

Special topics in British studies, varying from year to year. 4 cr. (Not offered every year.)

650. Studies in American Literature and Culture

Special topics in American studies, varying from year to year. 4 cr. (Not offered every year.)

651, 652. Comparative Literature

Comparative studies of major authors representative of important periods of world literary achievement. 651: Homer to Dante; common themes and the development of the epic tradition in early Western literature. 652: Renaissance to modern. Topics and approaches vary from semester to semester. 4 cr.

655. Chaucer

Study of Chaucer's earlier works in the context of their continental sources and analogues. All readings in translation. 4 cr.

657. Shakespeare

Ten major plays representative of the main periods of Shakespeare's career and the main types of drama which he wrote (tragedy, comedy, history). Live and filmed performances included as available. Restricted to undergraduates and designed for both English majors and students majoring in other fields. 4 cr.

#681. Introduction to African Literatures in English

In-depth study of writers, literary movements, political contexts, and historical pressures that have shaped and continue to shape African literatures in the colonial and postcolonial periods. Primary focus on Anglophone texts but possibly some literature in translation. 4 cr.

685. Women's Literary Traditions

Intensive study of themes, topics, and techniques in women's literature. Topics vary from year to year. 4 cr.

690. Introduction to African American Literature in America

Selected prose, fiction, drama, and poetry. Individual works and historical-cultural background. Course varies from year to year. 4 cr.

693, 694. Special Topics in Literature

A) Old English Literature; B) Medieval Literature; C) 16th Century; D) 17th Century; E) 18th Century; F) English Romantic Period; G) Victorian Period; H) 20th Century; I) Drama; J) Novel; K) Poetry; L) Nonfiction; M) American Literature; N) A Literary Problem; O) Literature of the Renaissance. The precise topics and methods of each section vary. Barring duplication of subject, course may be repeated for credit. For details, see course descriptions available in the English department. 4 cr. (Not offered every year.)

695, 696. Senior Honors

Open to senior English majors who, in the opinion of the department, have demonstrated the capacity to do superior work; permission required. An hon-

ors project consists of supervised research leading to a substantial thesis or the writing of poetry or fiction portfolio. Required of students in the honors in major program. 4 cr. (Not offered every year.)

697, 698. English Major Seminar

Intensive study of specialized topics that vary from year to year. Enrollment in each seminar is limited to 15 so that all students can take an active part in discussion and work closely with the instructor on their papers. Prereq: a grade of B or better in ENGL 519 or 529, and permission. For details, see course description available in the department office. 4 cr.

701. Advanced Writing of Fiction

Workshop discussion of advanced writing problems and readings of students' fiction. Individual conferences with instructor. Prereq: 625, 626, or equivalent; written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

703, 704. Advanced Nonfiction Writing

Workshop course for students intending to write publishable magazine articles or nonfiction books. Equal stress on research and writing techniques. Prereq: ENGL 621; 722 recommended. Written permission of instructor required. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

705. Advanced Writing of Poetry

Workshop discussion of advanced writing problems and submitted poems. Individual conferences with instructor. Prereq: ENGL 627, 628, or equivalent; written permission of instructor. May be repeated for credit with the approval of the department chairperson. Special fee. 4 cr.

707. Form and Theory of Fiction

A writer's view of the forms, techniques, and theories of fiction. The novels, short stories, and works of criticism studied vary, depending on the instructor. 4 cr.

708. Form and Theory of Nonfiction

A writer's view of contemporary nonfiction, emphasizing the choices the writer faces in the process of research and writing. 4 cr. (Not offered every year.)

709. Form and Theory of Poetry

A writer's view of the problems, traditions, and structures of poetry. 4 cr.

710. Teaching Writing

Introduction to various methods of teaching writing. Combines a review of theories, methods, and texts with direct observation of teaching practice. 2 or 4 cr.

711. Editing

Emphasis on newspaper editing but principles applicable to magazine and book editing also covered. Prereq: ENGL 621; permission. Special fee. 4 cr.

713, 714. Literary Criticism

Major critics from Plato to the present; the chief critical approaches to literature. 4 cr. (Not offered every year.)

715. TESL: Theory and Methods

How linguistic, psychological, sociological, and neurological theory influence or even determine

the choice of methods of language teaching. Research on second language acquisition and bilingualism, language aptitude, and the cultural context of language acquisition. Introduction to standard and exotic methods of language teaching. 4 cr.

716. Curriculum Design, Materials, and Testing in English as a Second Language

Study of the problems in designing an effective teaching program for various types of ESL students. Competence and aptitude testing; choosing and adapting materials for ESL classes. 4 cr.

#718. English Linguistics and Literature

Introduction to linguistics for students of literature. Includes a survey of the grammar of English (phonology, morphology, syntax, dialect variation, historical change) with applications to the analysis of the language of poetry and prose. 4 cr. (Not offered every year.)

720. Newspaper Internship

Students intending to pursue careers in journalism spend a semester working full or part time for a daily newspaper under close supervision of editors. Reporting is stressed, but students may do some editing as well. The number of internships is very limited. Prereq: ENGL 621 or its equivalent; permission. Special fee. 4-16 cr.

721. Advanced Reporting

Students learn advanced techniques for developing story ideas and acquiring information from people and documents. Discussion of legal and ethical issues facing reporters. Prereq: ENGL 621 and written permission. Special fee. 4 cr.

722. Feature Writing

Students refine interviewing, reporting, and writing techniques. Emphasis on in-depth features. Prereq: ENGL 621; permission of instructor. May be repeated for credit with the approval of department chairperson. Special fee 4 cr.

725, 726. Seminar in English Teaching

In this seminar on teaching English at the middle- and secondary-school levels, students meet the requirements for both ENGL 710, Teaching Writing, and ENGL 792, Teaching Secondary School English. The two-semester course integrates the teaching of reading, writing, speaking, and listening, addressing both theoretical and practical issues. Through the study of different approaches, students develop their own philosophies of instruction. 4 cr.

#732. Folklore and Folklife

Examines the materials and methods used to study folklore and folklife, emphasizing the historical context and development of folklore studies in North America and Europe, field research, performance theory, and other topics. 4 cr.

#739. American Indian Literature

Close study of traditional and/or contemporary American Indian literature and folklore with historical and cultural background. 4 cr

741. Literature of Early America

Prose and poetry of the periods of exploration, colonization, early nationalism, Puritanism, Enlightenment. Individual works and historical-cultural background. 4 cr (Not offered every year)

742. American Literature, 1815-1865

Fiction, nonfiction, and poetry in the period of romanticism, transcendentalism, nationalism. Individual works and cultural background. 4 cr. (Not offered every year.)

743. American Literature, 1865-1915

Fiction, nonfiction, and poetry in the period of realism, naturalism, industrialism, big money. Individual works and cultural background. 4 cr.

744. American Literature, 1915-1945

Fiction, poetry, and drama in the period of avant-garde and leftism, jazz age, and Depression. Individual works and cultural background. 4 cr.

745. Contemporary American Literature

A gathering of forms, figures, and movements since 1945. Individual works and cultural background. 4 cr.

746. Studies in American Drama

Topics vary from year to year. Examples: 20th-century American drama; contemporary playwrights; theatricality in American life. 4 cr. (Not offered every year.)

747. Studies in American Poetry

Topics vary from year to year. Examples: poets of the open road; Pound and his followers; major American poets; contemporary American poetry. 4 cr. (Not offered every year.)

748. Studies in American Fiction

Topics vary from year to year. Examples: the romance in America; the short story; realism and naturalism; the city novel; fiction of the thirties. 4 cr.

749. Major American Authors

Intensive study of two or three writers. Examples: Melville and Faulkner; Fuller, Emerson, and Thoreau; James and Wharton; Dickinson and Frost. 4 cr.

750. Special Studies in American Literature

Topics vary from year to year. Examples: the Puritan heritage; ethnic literatures in America; landscape in American literature; five American lives; pragmatism; American humor; transcendentalism; women regionalists. 4 cr

751. Medieval Epic and Romance

The two major types of medieval narrative; comparative study of works from England, France, Germany and Iceland, including *Beowulf*, *Song of Roland*, the *Nibelungenlied*, *Njal's Saga*, and Malory's *Morte d'Arthur*. All works read in modern English translations. 4 cr. (Not offered every year.)

752. History of the English Language

Evolution of English from the Anglo-Saxon period to the present day. Relations between linguistic change and literary style. 4 cr. (Not offered every year.)

753. Old English

Introduction to Old English language and literature through the reading of selected poetry and prose. 4 cr

754. Beowulf

A reading of the poem and an introduction to the scholarship. Prereq: ENGL 753. 4 cr.

#755, 756. Chaucer

755: *Troilus and Criseyde*, in the context of medieval continental literature by Boccaccio and other influences. 756: *The Canterbury Tales* in its original language. 4 cr.

758. Shakespeare

A few plays studied intensively. Live and filmed performances included as available. 4 cr.

759. Milton

Milton and his age. Generous selection of Milton's prose and poetry, with secondary readings of his sources and contemporaries. 4 cr. (Not offered every year.)

763. Continental Backgrounds of the English Renaissance

Major philosophers, artists, and writers of the continental Renaissance (in translation): Petrarch, Ficino, Pico, Vives, Valla, Castiglione, Machiavelli, Luther, Calvin, Rabelais, Montaigne, Cervantes, Erasmus, and Thomas More, as representative of the early English Renaissance. 4 cr. (Not offered every year.)

764. Prose and Poetry of the Elizabethans

Shakespeare and his contemporaries. Major works, including Spenser's *Faerie Queene*, Sidney's *Astrophel and Stella*, and Shakespeare's *Sonnets*: their literary and intellectual backgrounds. 4 cr. (Not offered every year.)

765. English Literature in the 17th Century

Major writers of the 17th century, including Donne, Jonson, Herbert, Bacon, and Hobbes. 4 cr. (Not offered every year.)

#767, 768. Literature of the Restoration and 18th Century

Representative works; texts studied closely; the ways they reflect the central intellectual problems of their age. 767: Dryden, Rochester, Restoration plays, Bunyan, Defoe, Montesquieu, and Swift. 768: Pope, Fielding, Johnson, Boswell, Voltaire, Sterne, Rousseau, Beckford, Diderot, and Blake. 4 cr.

769, 770. The English Romantic Period

Major literary trends and authors, 1798 to 1832. Focus on poetry but attention also to prose works and critical theories. 769: Wordsworth, Coleridge, Lamb, Hazlitt, DeQuincey; 770: Byron, Shelley, Keats. 4 cr. (Not offered every year)

771. Victorian Prose and Poetry

Major writers; social and cultural history. Selections vary from year to year. Special fee 4 cr (Not offered every year.)

773, 774. British Literature of the 20th Century

Poets and novelists of the modernist and post-modernist periods. 773: W. B. Yeats, James Joyce, Virginia Woolf, E. M. Forster, D. H. Lawrence, and other modernists. 774: a selection of postmodernist or contemporary writers, such as William Golding, Doris Lessing, John Fowles, Philip Larkin, Seamus Heaney, Margaret Drabble, and others. 4 cr.

#775. Irish Literature

Survey from the beginnings to present; works in Irish (read in translation) such as *The Cattle Raid of Cooley*, medieval lyrics, and *Mad Sweeney*; and works in English from Swift to the present. 20th-century authors: Joyce, Yeats, Synge, O'Casey.

Beckett, and Flann O'Brien. 4 cr. (Not offered every year.)

778. Brain and Language

Introduction to neurolinguistics, a study of how language is related to the structure of the brain. Biological foundations of linguistic universals and language acquisition. Examination of evidence from aphasia and from normal language use. 4 cr.

779. Linguistic Field Methods

Study of a non-Indo-European language by eliciting examples from an informant, rather than from written descriptions of the language. Students learn how to figure out the grammar of a language from raw data. Prereq: ENGL/LING 505. (Also offered as LING 779.) Special fee. 4 cr. (Not offered every year.)

780. English Drama to 1640

Development of the drama through the Renaissance, emphasizing the Elizabethan and Jacobean dramatists. 4 cr.

781. English Drama, 1660–1780

Representative plays, both serious and comic, by such writers as Wycherly, Congreve, Etherege, Goldsmith, Sheridan, Davenant, Dryden, Otway, Rowe, and Lillo. 4 cr.

782. Modern Drama

Major English, American, and (translated) European plays of the modern period by such playwrights as Shaw, Ibsen, Chekhov, Strindberg, Pirandello, O'Neill, Brecht, Beckett, Williams, Miller, Pinter. Live and filmed performances studied as available. 4 cr. (Not offered every year.)

783. The English Novel of the 18th Century

Rise and development of the novel through study of selected major works by Defoe, Richardson, Fielding, Smollett, Sterne, and Austen. 4 cr.

784. The English Novel of the 19th Century

Representative novels from among Austen, Scott, Dickens, Thackeray, Emily Brontë, Charlotte Brontë, Trollope, George Eliot, Hardy, and Conrad. 4 cr.

785. Major Women Writers

Intensive study of one or more women writers. Selections vary from year to year. 4 cr.

786. Twentieth-Century British Fiction

Traces the development of the novel from the turn of the century to the present day. Representative novels by Lawrence, Joyce, Conrad, Woolf, West, Forester, Huxley, Waugh, Murdoch, Burgess, and Lessing. 4 cr.

790. Special Topics in Linguistic Theory

Advanced course on a topic chosen by the instructor. Inquire at the English department office for a full course description each time the course is offered. Topics such as word formation, dialectology, linguistic theory and language acquisition, history of linguistics, language and culture, cross-disciplinary studies relating to linguistics. Barring duplication of subject, may be repeated for credit. (Also offered as LING 790.) 4 cr.

791. English Grammar

Survey of the grammar of English (pronunciation, vocabulary, sentence structure, punctuation, dialect variation, historical change) with special atten-

tion to the distinction between descriptive and prescriptive grammar and to the problems students have with formal expository writing. 4 cr.

792. Teaching Secondary School English

Methods of teaching language, composition, and literature in grades 7–12. Required of all students in the English teaching major. Open to others with permission. 4 cr.

793. Phonetics and Phonology

The sound system of English and other languages as viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articulatory properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. (Also offered as LING 793.) Prereq: a basic linguistics course or permission. 4 cr.

794. Syntax and Semantic Theory

Relationship of grammar and meaning as viewed from the standpoint of modern linguistic theory. Emphasis on the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. (Also offered as LING 794.) Prereq: a basic linguistics course or permission. 4 cr.

795. Independent Study

Open to highly qualified juniors and seniors. To be elected only with the permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit up to a maximum of 16 credits. 1–16 cr.

#797, 798. Special Studies in Literature

A) Old English Literature; B) Medieval Literature; C) 16th Century; D) 17th Century; E) 18th Century; F) English Romantic Period; G) Victorian Period; H) 20th Century; I) Drama; J) Novel; K) Poetry; L) Nonfiction; M) American Literature; N) A Literary Problem; O) Literature of the Renaissance. The precise topics and methods of each section vary. Barring duplication of subject, may be repeated for credit. For details, see the course descriptions available in the English department. 2–6 cr.

Environmental Conservation (EC)

Department of Natural Resources

(For program description, see page 50; for faculty listing, see page 170; see also course listings under *Forestry, Natural Resources, Soil Science, Water Resources Management, and Wildlife Management.*)

501. Environmental Philosophy

Provides a grounding in philosophical theory underlying environmental studies and approaches to environmental conservation. Students conduct critiques of extensive readings and write papers creatively analyzing aspects of selected philosophical works. Major research manuscript required. 4 cr.

502. Conservation Biology Forum

Introduction to conservation biology and issues of loss in species diversity. Introduction to the ele-

ments of reserve design. Discussion of current events and their relation to loss in diversity. 2 cr.

503. Wetlands Resources

Examination of coastal and adjacent freshwater and estuarine wetlands from historical, destruction, and preservation perspectives. Field trips and laboratory sessions emphasize succession and investigation of dominant plant, insect, and vertebrate associations. Daily and evening lectures, labs, and fieldwork. Prereq: one full year of college-level biology. 2 cr. (Offered summers at the Shoals Marine Laboratory.)

535. Contemporary Conservation Issues and Environmental Awareness

How human technology causes biological and social conflicts when applied to the ecosystem; multiple demands of game, timber, water, minerals, and soil ecosystems vs. economic growth. 4 cr.

595, 596. Problems in Natural and Environmental Resources

Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. A faculty consultant and a study topic must be chosen before registration for the course. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and find channels to actively pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. 2–4 cr.

601. Environmental Conservation Internship

Practical internship and field experience in a location removed from the university milieu to give the environmental conservation student a dimension and insight into sustainable resource management systems not available in the campus experience. Prereq: EC majors only. 4 cr. Cr/F.

610. Coastal and Oceanic Law and Policy

Intended for students interested in careers in marine or coastal resources management, or in the natural sciences. Includes law and policy related to ocean dumping, marine sanctuaries, environmental impact statements, water and air pollution, fisheries management, offshore gas and oil production, and territorial jurisdiction. Lectures on the status and history of laws are accompanied by discussions of relevant policy and the efficacy of various legal techniques. A case study, requiring extensive use of the laboratory's library and personnel, is assigned. 2 cr. (Offered summers at the Shoals Marine Laboratory.)

637. Practicum in Environmental Conservation

Independent participation in an environmental conservation activity in the area of the student's specialization. Individual or group projects may be developed under the supervision of any faculty member within or outside natural resources or with supervisors in public and private agencies, upon approval of the course instructor. Research projects not acceptable. Prereq: senior standing in the environmental conservation program. Lab. 4 cr. Cr/F.

684. Sustainable Living

Concepts of living within ecosystem limits explored in a learning-community format. The importance of human communication, sense of place and time, and the health and longevity of our hu-

man species and natural systems emphasized. Examination of governance, education, economic, agricultural, and ethical systems while asking, "What makes one system more or less sustainable than another?" to lead to directions for sustainable society. Two field trips and small research projects conducted. 2 cr

687. Internship in Sustainable Living
Residential field experience in building a sustainable community at a location removed from the university context. Experiential learning combined with time for dialog, reading, and reflection offers a unique learning opportunity. Prereq: permission. Special fee. 4 cr.

695. Special Topics in Environmental Conservation
Topics may include environmental and natural resource policy; environmental diplomacy; the application of ethics, values, and philosophy to environmental conservation, agriculture, and related areas. Seminar format. Prereq: permission. 1-3 cr. Cr/F.

702. Ecological Values and Ethics
Deeper more fundamental philosophical questions, including spiritual values questions, are being asked concerning the ecological/environmental challenge of our time. Aspects of this challenge—environmental education, energy, food, agriculture, and natural resources—analyzed with ethics and values approaches. Students develop ways of responding to problem identification and resolution. Prereq: permission. 4 cr.

710. Environmental History
History of ideas, beliefs, values, and actions regarding the environment and the socioeconomic matrix within which they lie, with special reference to the American experience. Prereq: senior/junior standing in the environmental conservation program. 4 cr. (Not offered every year.)

718. Law of Natural Resources and Environment
For resource managers: the legal system pertaining to resource management, protection of the environment, and possibilities for future action. Prereq: EC 435, RECO 606, or equivalent. 3 cr.

720. International Environmental Politics and Policies for the 21st Century
Examines policies for managing human activities to sustain the health of regional ecosystems and planetary life-support systems. Focus on selected problems of the international commons (e.g., oceans, marine resources, atmosphere, migratory species); global and regional carrying capacity (e.g., population, resource consumption), internationally shared ecosystems (e.g., transboundary watersheds and waterbodies, tropical forests); and the relevant international institutions and politics for policy formation, conflict resolution and implementation. Using a policy analytic framework, students develop case studies to assess international policies and institutional arrangements to achieve the objectives of Agenda 21-The Earth Summit Strategy to Save the Planet. Prereq: permission. 4 cr.

724. Resolving Environmental Conflicts
Theories and practices of environmental dispute settlement. Roles of public, nongovernmental organizations and government assessed. Effectiveness of public participation initiatives in influencing public policy decisions and/or resolving

environmental conflicts examined. Alternative approaches to consensus (policy dialogues, joint problem solving; strategic planning; negotiation/mediation) as well as litigation examined. Specific cases critiqued and evaluated; conflict resolution skills developed. Prereq: second semester juniors, seniors, or graduate students; permission. 3 cr.

785. Systems Thinking for Sustainable Living
Introduction to systems thinking from a sustainable living perspective. The course is a collaborative inquiry using a problem-solving approach. After studying different types of systems and learning a variety of tools useful in systems analysis, we ask, "In what ways can systems thinking be employed to understand and begin to resolve the complex problems that face us as we move toward living within limits of natural systems?" Prereq: EC 684 or permission. 2 cr.

799. Senior Thesis and Seminar
Writing and completion of a senior thesis synthesizing the environmental conservation undergraduate experience, supported by a weekly seminar with all thesis writers. Prereq: majors only, senior standing. 4 cr. Cr/F.

Environmental Engineering

(See pages 59 and 61.)

Family Studies (FS)

(For program description, see page 74.)

Chairperson: Larry J. Hansen
Associate Professors: Kristine M. Baber, Elizabeth M. Dolan, Barbara R. Frankel, Larry J. Hansen, Michael F. Kalinowski, Victor R. Messier
Assistant Professor: Kerry Cielinski
Adjunct Instructor: MaryJane Moran

525. Human Development
Developmental information from conception through death; theoretical perspectives and research methods in human development; emphasis on student's communication and analytical skills. 4 cr.

553. Personal and Family Finance
Applied financial management; allocation of income to maximize wealth. Topics include banking, investments, credit, insurance. 4 cr.

555. Management and Decision Making
Theories of management, information processing, and decision making in the allocation of resources. 4 cr.

#556. Housing and Design
Housing examined in terms of design, physical, sociopsychological, and community needs. 4 cr (Not offered every year.)

615. Field Experience
Work with agency, institution, or organization concerned with the welfare of families and individuals. Students plan with department adviser and

apply for approval. Prereq: approval of departmental faculty. 1-6 cr.

623. Developmental Perspectives on Infancy and Early Childhood
Integrative view of the developing child from conception through childhood within the family context. Prereq: FS 525. 4 cr. (Fall semester only.)

624. Developmental Perspectives on Adolescence and Early Adulthood
Developmental information from pubescence through early adulthood; the concept of identity and influences on identity formation. 4 cr.

635. Learning in Child Development Settings
Current theoretical approaches to communicating with children and influencing their behavior. Weekly four-hour laboratory experience working with preschool children is required at UNH Child and Family Center. Weekly three-hour seminar. Prereq: FS 525; permission. 4 cr.

645. Family Relations
Theories and research relating to the family and its role in individual development. 4 cr.

695. Independent Study
Scholarly project in the area of child, family, and consumer studies. Regular conferences with supervising faculty required. Prereq: approval of departmental faculty. 1-6 cr.

707. Practicum
Supervised in-depth experience in teaching, research, or advocacy in a professional setting to increase the student's understanding of children, families, or consumer issues. A) Child; B) Family; C) Consumer Studies. Prereq: FS major; permission. 1-6 cr. Cr/F.

708. Child and Family Center Internship
Supervised position within the UNH Child and Family Center nursery school programs: a) videotape assistant; b) assessment assistant; c) toddler program assistant; d) assistant for three- to five-year-olds; e) computer technology assistant; f) international perspectives assistant. May be repeated up to a total of 9 credits. Prereq: FS 635; permission. 1-6 cr. Cr/F.

709. Child Study and Development Center Internship
Supervised positions within the UNH Child Study and Development Center child care programs: a) videotape assistant; b) assessment assistant; c) infant assistant; d) toddler assistant; e) assistant for three- to five-year-olds; f) computer technology assistant; g) international perspectives assistant; h) health issues assistant. May be repeated up to a total of 9 credits. Prereq: FS 635; permission. 1-6 cr. Cr/F.

710. Kindergarten Internship
Supervised position with the Child Study and Development Center kindergarten program: A) Assessment Assistant; B) Assistant to Teacher; C) Computer Technology Assistant; D) International Perspectives Assistant; E) Health Issues Assistant. May be repeated. Prereq: FS 525; 623; permission. 1-6 cr. Cr/F.

733. Supervising Programs for Young Children
Philosophical bases and theoretical rationales of

various programs for young children; program alternatives and resources; issues in administration including supervision, finances, and regulations. Prereq: permission. 4 cr. (Fall semester only.)

734. Curriculum for Young Children

Designing and implementing developmentally appropriate activities for young children; assessing the effectiveness of activities; evaluating materials and equipment. Prereq: FS 525; 623; 635; permission. 4 cr. (Spring semester only.)

741. Marital and Family Therapy

Introduction to the theory and practice of marital and family therapy. Major approaches to be examined include strategic, transgenerational, structural, experiential/humanistic, and behavioral. Prereq: FS 645 or equivalent; permission. 4 cr.

743. Parents, Children, and Professionals

Exploration of professional roles related to child and family advocacy. Consideration of philosophical, ethical, and pragmatic issues in the helping professions; evaluation and design of advocacy programs. Prereq: permission. 4 cr. (Fall semester only.)

746. Human Sexuality

Investigation of physiological, psychological, and sociological aspects of human sexuality. Particular attention to various social practices, policies, and programs that affect sexual attitudes and behaviors. Prereq: permission. 4 cr.

753. Family Economics

Impact of economic change on families, family income, and resource allocation. Prereq: FS 645; one course in economics; permission. 4 cr.

757. Race, Class, Gender, and Families

This seminar explores the intersection of race, class, and gender in family life in the United States. Theory, research, and other relevant literature used to examine the variety of family configurations in our society today and the diverse expectations that families have as a result of existing social, political, and economic institutions. The strengths of various family types considered, as well as the particular challenges these families may encounter in contemporary society. Prereq: seniors or graduate students only; permission. 4 cr.

782. Family Internship

Supervised experience working in social, legal, and marketplace settings that offer services to families. Students spend a minimum of 20 hours per week in a selected community program. Admission by application only. Applications due prior to preregistration fall semester of the senior year. Prereq: FS major; FS 525; 555; 645; 20 additional credits in major courses; permission. Coreq: FS 792. 8 cr. Cr/F. (Spring semester only.)

785-786. Seminar for Student Teachers

These seminars supplement the student teaching experience and effect a transition to the profession of teaching for those students admitted to the early childhood certification option. 2 cr.

788. Student Teaching of Young Children

Supervised teaching experience. Students spend a minimum of 20 hours per week in a selected program for young children working with a cooperating teacher. Students must apply during the spring semester of their junior year. Prereq: FS major; FS

525; 623; 635; 645; 733; 734; 743; EDUC 706; KIN 675; MATH 621; THDA 520; permission. Coreq: FS 785-786. 8 cr. Cr/F. (Spring semester only.)

792. Seminar for Family Interns

This weekly seminar focuses on issues of concern to family internship students, provides advanced training in educational strategies for working with families, and develops students' professional skills. Prereq: admission to family internship program. Coreq: FS 782. 4 cr. (Spring semester only.)

794. Families and the Law

Exploration of laws affecting families and the interaction of family members with each other and with society. Prereq: FS 555; 645; permission of instructor. 4 cr.

797. Special Topics

Highly focused examination of a particular theoretical, methodological, or policy issue. Prereq: permission. 4 cr.

799. Honors Senior Thesis

Under direction of a faculty sponsor, students plan and carry out an independent investigative effort in an area of family, child, and/or consumer studies, resulting in a written thesis and an oral presentation before students and faculty. Prereq: majors only; senior standing; permission. Two-semester sequence as continuing course. 2-4 cr.

Forestry (FOR)

Department of Natural Resources

(For program description, see page 50; see also course listings under *Environmental Conservation, Natural Resources, Soil Science, Water Resources Management, and Wildlife Management*. For a listing of the faculty, see under *Natural Resources*.)

423. Dendrology

North American forest trees; taxonomy, silvical characteristics, community relationships; major forest regions. Restricted to NR majors; others by permission. Coreq: FOR 425. 2 cr.

425. Field Identification of Trees and Shrubs

Identification and nomenclature of important North American trees; emphasis on trees and associated woody species of the Northeast. Restricted to NR majors; others by permission. Coreq: 423. Special fee. Lab. 2 cr.

426. Wood Science and Technology

Wood microstructure and identification: physical, chemical, and mechanical properties; characteristics of wood including those produced by growth and form (i.e., knots, cross-grain) and those produced by degradation (i.e., stain, decay); log and lumber processing and quality evaluation; preparation of wood for use, including drying, gluing, and protection against degradation. Special fee. Lab. 4 cr.

500. Work Experience

Work in forestry or closely related field; must be performed under professional supervision or approved by natural resources faculty. Students are responsible for arranging their own experience. (Forestry majors only.) May be repeated. 0 cr. Cr/F.

#501. Working with Forests

Integrated study of scientific, technical, administrative, and social elements of forest resource management. Emphasis on tree identification, measurement, and protection techniques. Of interest to students in unrelated as well as related fields. Not open to forestry majors. Special fee. Lab. 4 cr.

502. The Endangered Forests

Discussion of the two major international problems in forestry: dying of forests due to air pollution in developed countries; and loss of forests due to clearing and heavy cutting in tropical countries. The value of forests and their importance to people. Guest speakers and field trip. Special fee. 4 cr.

506. Forest Entomology

Especially for forest majors. Structure, development, classification, and control of representative forest insects. Insect collection required. Special fee. Lab. 4 cr.

527. Forest Ecology

Application of general ecological principles to the study of forests; examination of the forest from the level of the individual tree to the forest community; consideration of the impact of forest management on ecosystem structure and function. Prereq: PBIO 412 or equivalent. (Open only to EC, FOR, PBIO, SOIL, WARM, and WILD majors.) Special fee. Lab. 4 cr.

542. Forestland Measurement and Mapping

Elementary measuring equipment and techniques; preparation of maps; public land survey; courthouse deed search. Two-week field session following spring semester. (FOR, WARM, and WILD majors only.) Special fee. 2 cr.

544. Forest Biometrics

Sampling techniques basic to forest inventory, regression estimation used in deriving volume equations and predicting forest growth and yield. Field labs include plot and point sampling. Analyses made using microcomputers. Special fee. Lab. 3 cr.

#581. Methods in Land Surveying

Principles and field methods of land surveying for the natural resource manager; measurement of distance, direction, and elevation; instrumentation and computation; legal aspects of land description and boundary. Prereq: FOR 542 or permission. Lab. 4 cr. (Not offered every year.)

629. Silviculture

Application of ecological knowledge to the control, establishment, composition, and growth of forest stands for economic purposes. Prereq: FOR 423 and 527. Special fee. Lab. 3 cr.

630. Forest Harvesting and Silviculture

Harvesting and silvicultural practices. Prereq: FOR 629 or permission. Limited enrollment. 2 cr. Cr/F.

643. Economics of Forestry

Intermediate-level analyses of supply and demand for forest-based goods and services, managerial economics, taxation, capital investments. Prereq: RECO 411 or ECON 402. 4 cr.

652. Forest Resources Assessment

Aerial photo type mapping and forest resources inventory; type identification and delineation, map construction, cruise design, and forest resources

inventory. Two-week field session following spring semester. (Natural resources majors, others by permission.) Prereq: FOR 527 and 544. Special fee. 2 cr.

660. Forest Fire Protection

Forest fire prevention, behavior, and effective control; weather phenomena; other aspects of forest damage; fire effects and use. Prereq: FOR 527 or 629; SOIL 501. Special fee. Lab. 2 cr.

695. Investigations in Forestry

A) Forest Ecology; B) Remote Sensing; C) Wood Products; D) Mensuration; E) Forest Economics; F) Forest Management; G) Decision Science; H) Recreation; I) Policy; J) Forest Genetics; K) Watershed Management; L) Natural Resource Education. Prereq: permission. 1-4 cr.

#706. Terrestrial Arthropods

Biology, ecology, and systematics of the principal terrestrial arthropods, with emphasis on forest and grassland communities. Role of arthropods in decomposition and nutrient cycling; effects of forestry and agricultural practices on fauna considered. Collection, extraction, identification, and experimental procedures. Two lectures, one lab, fieldwork, and discussions. Prereq: permission. 4 cr. (Not offered every year.)

722. Advanced Silviculture

Intensive silviculture of forest stands. Regeneration (e.g., alternative regeneration methods and site preparation); stand management (e.g., thinning schedules and fertilization). Prereq: FOR 629 or equivalent; permission. Special fee. 3 cr. (Not offered every year.)

725. Ecology and Management of Tropical Forests

Investigations of tropical environments; structure, composition, and evolution of tropical forests; examination of the archeological record of human impacts on tropical forests; tropical deforestation; tropical soils and agroforestry systems. Analysis of tropical timber and nontimber forest products. Prereq: FOR 527 or equivalent, RECO 411 or equivalent. 4 cr.

734. Forest Protection Seminar

Discussion and special problems based on principles and techniques of forest protection. Prereq: permission. 3 cr. (Not offered every year.)

745. Forest Management

Forest land ownership; management objectives; forest inventory regulation and policy; forest administration, professional responsibilities and opportunities. Prereq: completion of junior year in forestry curriculum. Special fee. Lab. 4 cr.

754. Wood Products Manufacture and Marketing

Wood products from harvesting and procurement of raw material to finished product processes, management decisions, marketing and promotion problems. Case-study approach backed up by weekly all-day field trips to wood products manufacturing plants in the region. Prereq: FOR 426 or permission. Special fee. Lab. 4 cr.

755. Regional Silviculture and Forest Management

Extended field trip to another forest region. Prereq: senior standing. FOR 745 or permission. Limited enrollment. 2 cr. Cr. F.

#764. Forest Industry Economics

Business methods and economics in the forest industry; planning for minimum cost operations and profitable use of capital in a forest enterprise. Individual projects. Prereq: senior standing; permission. 4 cr. (Not offered every year.)

799. Honors Senior Thesis

Students design and conduct individual research projects under the direction of an honors thesis committee. The research should address a real issue in forestry related to students' interests. The resulting written thesis is defended in an oral presentation to committee members. Restricted to seniors seeking honors in major. Prereq: permission. 4 cr.

French (FREN)

Department of French and Italian

(For program description, see page 31; see also course listings under Italian.)

Chairperson: Claire-Lise Malarte-Feldman

Professors: Barbara T. Cooper, Jack A. Yeager

Associate Professors: Rose T. Antosiewicz,

Claire-Lise Malarte-Feldman, Grover E. Marshall

Assistant Professors: Nadine S. Berenguier,

Juliette M. Rogers

Lecturers: Adrienne S. Defendi, Sharon B. Neal,

Henry M. Smith, Katharine E. Stansfield, Kelle

S. Truby

New students will be initially assigned to the proper course on the basis of their scores on the College Board Achievement Test or numbers of years of previous study. All courses are conducted in French unless otherwise noted. FREN 631 is the first course counting toward a major. Students educated in French-speaking countries may not register for courses below the 700 level without permission. No UNH or transfer credit will be given for elementary-level college courses in French if the student has had two or more years of French in secondary school.

401-402. Elementary French

For students without previous training in French. Aural comprehension, speaking, writing, reading. Labs. (No credit for students who have had two or more years of French in secondary school, however, any such students whose studies of French have been interrupted for seven years or more should consult the department chairperson about possibly receiving credit.) Special fee. 4 cr.

425. Introduction to French Studies

Taught in English, designed for students interested in exploring the history, literature, and culture of France and other French-speaking countries. Learning by means of guest speakers, field trips, and multimedia. Prepares for FREN 401-402. Does not satisfy B.A. foreign language requirement, but does satisfy the general education requirement(s) for foreign culture. Special fee. 4 cr. (Offered spring semesters and occasional summer semesters.)

501. Review of French

Emphasis on active use of spoken French. Review of basic grammar. Labs and films. Designed primarily for those whose study of French has been in-

terrupted and for those who have had only two years of high school French. Special fee. 4 cr.

503, 504. Intermediate French

Review of grammar with emphasis on the development of reading, writing, speaking, and listening skills, and on culture. Discussion in French of literary and cultural readings. Labs and films. Special fee. 4 cr.

#525. Introduction to French Civilization

French civilization from a variety of perspectives and topics. Includes historical, geographical, and artistic expressions of French culture. Readings, discussion, and papers in English. Not for major credit. May be repeated for credit barring duplication of materials. Special fee. 4 cr. (Not offered every year.)

#526. Introduction to Francophone Civilization

Civilization of French-speaking countries other than France. Includes historical, geographical, and artistic expressions of these cultures. Readings, discussion, and papers in English. Not for major credit. May be repeated for credit barring duplication of materials. Special fee. 4 cr. (Not offered every year.)

585. Intermediate Language Study in France

Equiv. to FREN 503, requires four weeks of intensive study of French language and culture at the Centre International d'Études des Langues (CIEL) in Brest, France. Prereq: FREN 501 or French 4 in a U.S. high school, with a grade of C+ or better and permission. Special UNH administrative fee and DCE registration fee. Student responsible for personal and travel expenses, and tuition costs in France. 4 cr. (Offered summers only.)

586. Intermediate Language Study in France

Equiv. to FREN 504, requires four weeks of intensive study of French language and culture at the Centre International d'Études des Langues (CIEL) in Brest, France. Prereq: FREN 503 or 585 with a grade of C+ or better and permission. Special UNH administrative fee and DCE registration fee. Student responsible for personal and travel expenses, and tuition costs in France. 4 cr. (Offered summers only.)

595. French Practicum

Practical use of French language or cultural skills outside the classroom through special projects. Prereq: permission. May be repeated up to 4 cr. 2 cr.

621. French Prose in Translation

Works affecting French thought from the Renaissance to the modern period. Readings, discussion, papers in English. Not for major credit. Special fee. 4 cr. (Not offered every year.)

#622. French Drama in Translation

Major works of comedy, tragedy, and drama. Moliere and Racine to the present day. Readings, discussions, papers in English. Not for major credit. Special fee. 4 cr. (Not offered every year.)

631-632. Advanced French Conversation and Composition

Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent written compositions and oral presentations using materials on

contemporary culture taken from the various media. Students develop phonetics and oral/aural skills in lab and class. Prereq: C or better in FREN 504. Required for majors. Special fee. 4 cr.

645. France in the European Union

Topics drawn from all aspects of contemporary French culture in its relationship with the twelve member states of the European Union, with emphasis on the role of France in the building of the European Union. Special fee. 4 cr. (Not offered every year.)

651, 652. Readings in French Literature

Reading and rigorous oral and written analysis of texts selected to illustrate important themes/genres in French literature. May be taken in any order. Pre- or coreq: FREN 631-632. Required for majors. Special fee. 4 cr.

675. Topics in French Civilization

Topics drawn from all aspects and periods of French civilization. Prereq: FREN 631-632. Coreq: 651 or 652. Special fee. May be repeated for credit barring duplication of materials. 4 cr. (Not offered every year.)

676. Topics in French Civilization

Topics drawn from all aspects and periods of civilizations. Prereq: 631-632. Coreq: FREN 651 or 652. Special fee. May be repeated for credit barring duplication of materials. 4 cr. (Not offered every year.)

683. Advanced Language Study in France

Equivalent to FREN 631, this course requires four weeks of intensive study of French language at the Centre International d'Études des Langues (CIEL) in Brest, France. Prereq: FREN 504 with a grade of C or better and permission. Special UNH administrative fee and DCE registration fee. Student responsible for personal, travel expenses, and tuition costs in France. Special fee. 4 cr. (Offered summers only.)

684. Advanced Language Study in France

Equivalent to FREN 632, this course requires four weeks of intensive study of French Language at the Centre International d'Études des Langues (CIEL) in Brest, France. Prereq: FREN 504 or FREN 683, with a grade of C or better and permission. Special UNH administrative fee and DCE registration fee. Student responsible for personal and travel expenses and tuition costs in France. Special fee. 4 cr. (Offered summers only.)

685-686. Junior Year at the University of Burgundy

Studies at the University of Burgundy (in Dijon, France) for juniors who have completed their sophomore year at UNH and have passed with a grade of B or better FREN 631-632, FREN 651, and FREN 652. Students are expected to take French courses in each semester of their freshman and sophomore years. Attendance required at orientation sessions during the second semester of sophomore year. Interested students should consult the director of the program. Prereq: permission (Not for graduate credit.) Special fee. 32 cr. Cr/F.

762. 17th-Century French Literature

Prereq: FREN 651 and 652 or equivalent. Special fee. 4 cr. (Offered fall semester in alternate years.)

765. 18th-Century French Literature

Prereq: FREN 651 and 652 or equivalent. Special fee.

4 cr. (Offered spring semester in alternate years.)

775. 19th-Century French Literature

Prereq: FREN 651 and 652 or equivalent. Special fee. 4 cr. (Offered fall semester in alternate years.)

782. 20th-Century French Literature

Prereq: FREN 651 and 652 or equivalent. Special fee. 4 cr. (Offered spring semester in alternate years.)

785. Topics in Francophone Literature

Readings in French literatures from outside of France (e.g., Quebec, Africa, the Caribbean). Taught in French. Prereq: FREN 651 and 652. Special fee. 4 cr. (Not offered every year.)

790. Advanced Language and Style

Translation of literary texts, intensive study of principal techniques of style, explication de textes. Required for major. Prereq: at least two literature courses in French numbered above 652. Special fee. 4 cr. (Fall semester only.)

791. Methods of Foreign Language Teaching

Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Not for major credit. 4 cr. (Fall semester only.)

795, 796. Special Studies in French Language and Literature

Individual guided study of the work of a major author, a genre, or specific topics in literature. Training in bibliography and organization of material. Prereq: permission. 1-4 cr. (Not offered every year.)

#798. Seminar in French Literature

Topics chosen by the instructor. May be repeated for credit barring duplication of material. Prereq: FREN 651, 652; permission. 4 cr. (Not offered every year.)

799. Honors Senior Thesis

Yearlong course leading to an honors senior thesis. Open only to seniors seeking honors in major whose individually designed research projects have been approved by the dept. honors committee and who have been assigned an adviser. Students must enroll for both fall and spring semesters. Students defend the resulting written thesis in an oral presentation before dept. members and others. Prereq: permission. 2 cr./semester.

Genetics (GEN)

(For program description, see page 45.)

Chairperson: Anita S. Klein

Professors: Clyde L. Denis, Thomas P. Fairchild, J. Brent Loy, Subhash C. Minocha, Willard E. Urban, Jr., Robert M. Zsigray

Associate Professors: John J. Collins, Thomas M. Davis, Robert T. Eckert, Anita S. Klein, Thomas D. Kocher, Robert L. Taylor, Jr.
Research Associate Professors: Ann C. Bucklin, William A. Gilbert

Assistant Professor: Louis S. Tisa

702. Genetics Lab

An experimental approach to understanding the fundamental principles of heredity. Theoretical aspects of genetics hypothesis testing, data analysis, and techniques of isozyme and DNA electrophoresis and polymerase chain reaction (PCR). In lab, students conduct mating and mutagenesis experiments with plants, animals, and yeast; do human DNA fingerprinting; and employ techniques of DNA isolation, electrophoresis, PCR, cytogenetics, and statistical analysis to generate and interpret genetic data. Prereq: BIOL 604 or equivalent. Special fee. (Also offered as BIOL 702.) 4 cr.

704. Microbial Genetics

Expression and transfer of genetic elements (chromosomal and nonchromosomal) in prokaryotic and eukaryotic microorganisms; consideration of factors influencing public health, industry, the environment, and society. Prereq: MICR 503; BCHM 658. Special fee. Lab. (Also offered as MICR 704.) 4 cr.

705. Population Genetics

Population growth and regulation; genetic variation; factors affecting gene frequency; ecological genetics. Prereq: principles of genetics or permission. (Also offered as PBIO 705.) 4 cr. (Not offered every year.)

706. Human Genetics

The genetic basis of human traits and diseases. New understanding added by molecular genetic approaches. Human genome project, gene therapy. Discussion of genetic components of quantitative and behavioral traits, and human evolution. Prereq: BIOL 604 or permission; junior, senior, or graduate standing. Special fee. 3 cr. (Not offered every year.)

711. Genetics of Eukaryotic Microbes

Expression and transfer of genetic material in eukaryotic microbes including fungi, algae, protozoa, and *Caenorhabditis elegans*. Laboratory experience in DNA sequence entry retrieval and analysis. Macintosh workstations are used for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MICR 503; BIOL 604 (Also offered as BCHM 711 and MICR 711). Special fee. Lab. 3 cr.

#715. Molecular Evolution

Molecular mechanisms of organismal evolution. Emphasis on integrating evidence from biochemistry, molecular genetics, and organismal studies. Review of population genetics and the neutral theory. Evolution of sex. Genetics of speciation. Methods of reconstructing phylogeny from molecular sequences. Prereq: BIOL 604 or permission. Some knowledge of statistics plus a computer language (BASIC or PASCAL) is recommended. (Also offered as ZOO 715.) 4 cr. (Not offered every year.)

722. Immunogenetics

Cellular interactions leading to immune regulatory mechanisms. Emphasis is placed on the major histocompatibility complex, immune responses, and antibody diversity. (Also offered as ANSC 722.) Lab. 4 cr. (Offered alternate years.)

753. Cytogenetics

Chromosome structure, function, and evolution. Eukaryotic genome organization. Theory of, and laboratory techniques for, cytogenetic analysis in plants and animals. Prereq: BIOL 604. Special fee.

Lab. (Also offered as PBIO 753.) 4 cr. (Not offered every year.)

771. Molecular Genetics

Structure, organization, replication, dynamics, and expression of genetic information in eukaryotes. Focus on molecular genetic *mechanisms* of gene expression and its control; molecular genetics *methods*; molecular genetic control of cell division and differentiation during development. Prereq: BCHM 658 or 751; BIOL 604; /or permission. (Also offered as BCHM 771.) 3 cr.

#772. Introductory Laboratory in Molecular Genetic Techniques

Biochemical gene-manipulation techniques including the genetic, physical, and enzymatic characterization of gene vectors, gene cloning, construction of genetic probes, and sequencing of nucleic acids. Prereq: BCHM 752; and either BCHM 771 or MICR 704. (Also offered as BCHM 772.) Special fee. 3 cr.

774. Plant Cell Culture and Genetic Engineering

Theory and techniques of cell-tissue culture and genetic manipulation in plants, transformation vectors, somatic cell genetics, regulation of foreign gene expression, molecular basis of agriculturally important traits, environmental and social implications of genetic engineering in plants. Prereq: BIOL 604 or permission. Complements BCHM 765. Coreq: GEN 775. (Also offered as PBIO 774.) 3 cr.

775. Plant Cell Culture and Genetic Engineering Lab

Techniques of plant cell and tissue culture, protoplast fusion, and genetic transformation. Mutant cell selection, analysis of foreign gene expression. Coreq: GEN 774. (Also offered as PBIO 775.) Special fee. 2 cr

782. Developmental Genetics

The molecular genetic basis of metazoan development. Focuses on how genes direct the process and how this problem is analyzed in model organisms using molecular genetic approaches. Topics include: control of cell division, maternal factors, cell-cell interactions, and differential gene expression. Prereq: BIOL 604; BCHM 658 or 751. (Also offered as BCHM 782.) 3 cr. (Not offered every year.)

Geography (GEOG)

(For program description, see page 32.)

Chairperson: Robert G. LeBlanc

Professors: Alasdair D. Drysdale, Robert G. LeBlanc, William H. Wallace

Adjunct Associate Professor: James W. Cerny

Assistant Professor: Debra L. Straussfogel

Lecturer: Barry D. Keim

401. Regional Geography of the Western World

Major culture areas of the Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasis on the manner in which people of different cultures have made use of the opportunities and solved the problems existing in

the major regions occupied by Western culture. Europe, Russia, the Americas, and Australia and New Zealand. 4 cr.

402. Regional Geography of the Non-Western World

Major culture areas of the non-Western world and the unique interaction of human and physical phenomena that produces the distinctive character of these areas. Emphasis on the manner in which people of different cultures have made use of opportunities and solved problems existing in the major regions occupied by non-Western cultures: the Middle East and North Africa, Africa south of the Sahara, Oriental Asia and the Pacific Islands. 4 cr.

473. Elements of Weather

Basic principles of weather phenomena and the physical processes underlying these phenomena. Emphasis on weather patterns of New England. 4 cr.

512. Geography of Canada

Historical and regional geography of Canada. Historical growth; development of its distinctive regions; contemporary prospects and problems. Resource base, exploration, settlement, population growth, cultural contrasts, economic development, and special relationship with the U.S. Required 5-day field trip to Canada. Prereq: permission. Special fee. 4 cr. (Not offered every year.)

513. Geography of the United States

Geographical diversity of the U.S.: its physical setting, historical development, and contemporary spatial organization. Distinctive character and problems of major American regions; recent changes in economic, demographic, and social conditions. 4 cr. (Not offered every year.)

#531. Geography of Western Europe and the Mediterranean

Regional and topical analysis of Western Europe and the Mediterranean. The geographical diversity of Europe in the context of physical setting and historical development. Present-day problems. 4 cr. (Not offered every year.)

540. Geography of the Middle East

Environmental, cultural, political-geographic, and ecological foundations of the Middle East. Selected regional problems and issues, e.g., geographical dimensions of the Arab-Israeli conflict, oil, urbanization, population growth, and nomadism. 4 cr. (Not offered every year.)

541. Geography of Japan

Examination of Japan's environmental setting, historical geographic evolution, distinctive cultural geographic patterns, population and settlement characteristics, internal spatial differentiation, economic growth, political geographic structure, and global importance. 4 cr.

570. Climatology

General survey of climate classification and the geographical distribution of climate types, interpretation and applications of climate data, and climate change over geologic time and issues of global warming. 4 cr.

572. Physical Geography

Basic principles underlying the study of landforms. Emphasis is placed on their spatial distribution and the processes that shape the landscape. Special fee. Lab. May be repeated. 4 cr. (Not offered every year.)

581. Human Geography

Differentiation of the world in terms of population, race, language, religion, political territory, and economic life. Collection and critical use of empirical data; emphasis on spatial and ecological analysis. 4 cr.

582. Economic Geography

Investigation of the manner in which resources and space have been organized for the production of goods and services: agriculture, the extractive industries, manufacturing, and the tertiary sector. Empirical studies, theories of location, and location models. Major contemporary problems and issues in agriculture and food supply, energy sources, industrial readjustment, and the global economy. 4 cr. (Not offered every year.)

583. Urban Geography

Spatial structure of cities and the city system. Emphasis on the North American city and its problems: land use, transportation, political fragmentation, physical environment, and residential patterns. Trends in urbanization in the developed and developing worlds. Global cities. 4 cr. (Not offered every year.)

584. Political Geography

Interactions between geographic and political phenomena at the sub-national, national, and international levels. Emphasis on geographical aspects of current political problems within and between states. 4 cr. (Not offered every year.)

590. Introductory Cartography

Map usage, design, and production; emphasis on special-purpose thematic maps as used in scholarly papers, theses, journals, and books. Macintosh computer used as desktop mapping tool. 4 cr.

610. Geography of New England

The distinctive physical setting of New England, its settlement and development during the past three centuries, and the present-day problems and opportunities of the region. One Saturday field excursion near end of term. Special fee. 4 cr. (Not offered every year.)

673. Environmental Geography

Survey of the interactions between human and Earth's physical environments. Attention focused on the geographical distribution of environmental problems. Topics include resource utilization, economic factors, population growth, food supplies, and air and water pollution. 4 cr.

685. Geography of Population and Development

A regional approach to the study of population geography with concern for the interaction between the focus of economic growth and the components of population change and development. Considers the environmental impact of development trends in the developed and developing worlds and the relationship of these trends to sustainable growth and population patterns. 4 cr.

#690. Advanced Cartography

Organized in seminar fashion to study a selected major cartographic topic in detail. Emphasis on use of computers as cartographic tools. Potential topics include contour mapping, atlas design, and map perception. Prereq: GEOG 590 or permission. 4 cr. (Not offered every year.)

795. Special Project in Geography
Readings, library, archival, and fieldwork. Primarily for geography seniors. Prereq: permission. 2 or 4 cr.

796. Special Topics in Geography
Special topics in geography: A) Climatology; B) Environmental Geography; C) Urban Geography; D) Political Geography; E) Population Geography; F) Economic Geography; G) Cultural Geography. Prereq: permission. 4 cr.

797. Seminar in Geography
Exploration of geography as a research discipline. Techniques of geographic analysis. Definition and investigation of research problems. Primarily for geography seniors. 4 cr.

Geology

(See Earth Sciences.)

German (GERM)

Department of German and Russian
(For program description, see page 32; see also course listings under Japanese and Russian.)

Chairperson: Edward T. Larkin

Professor: Nancy Lukens

Associate Professors: Roger S. Brown, Edward T. Larkin, Mary E. Rhiel

New students will be initially assigned to the proper course based on their scores on the College Board Achievement Test or number of years of previous study. New students are encouraged to present scores on the German Advanced Placement (AP) Test for UNH course credit and for placement at an advanced level. No transfer or UNH credit can be given for elementary German (401-402) if the student has had two or more years of that language in secondary school unless a significant amount of time has elapsed since completion of the last course. Students may petition the German program to be admitted to the 400-level courses for credit. Students considering a major or minor in German should consult with the program as early as possible to plan a meaningful sequence of study and to discuss options for studying abroad. All courses are conducted in German unless otherwise indicated.

401-402. Elementary German

For students without previous training in German. Aural comprehension, speaking, writing, reading, language labs. No credit for those with two or more years of German in secondary school (for exceptions, see above). Special fee. 4 cr.

#403-404. German for Reading Knowledge

Reading in the natural, physical, and social sciences and the humanities for students without previous training in German. No credit for those with two or more years of German in secondary school. Special fee. 4 cr.

501. Review of German

Refresher course for those whose study of German has been interrupted or who have had no more than two years of high school German. Emphasis on oral-aural practice; review of basic structures; reading and writing to develop active command of the language. Special fee. Lab. 4 cr.

503-504. Intermediate German

Review of grammar; practice in oral and written expression; readings and cultural material. Prereq: GERM 401-402 or equivalent. Special fee. Labs. 4 cr.

520. Women in German Literature and Society (in translation)

A study of representative works by and about women in German society from the 18th century to the present. Texts discussed include fiction, fairy tales, autobiography, interviews, poetry, diaries, historical essays, and film, as well as selected critical works on the history of German feminism and feminist aesthetics. Special fee. 4 cr.

#521. Major German Authors in English

Selected masterpieces of the 18th, 19th, and 20th centuries by authors such as Goethe, Heine, Mann, Kafka, Hesse, Bachmann, Koeppen, Brecht, Frisch, Wolf, and Dürrenmatt. Readings and discussions in English. May be taken for major credit. Can be used to fulfill gen ed Group 8: works of literature, philosophy, and ideas. Special fee. 4 cr.

523. Women and German Film

Acquaints students with major German film texts. Asks gender-specific questions about German film history, male and female film makers, the construction of sexuality through film images and narrative, and the impact of feminism on these. In English. Can be used to fulfill gen ed Group 5: foreign cultures. Special fee. 4 cr.

525. Introduction to German Culture and Civilization

Aspects of the political, social, and cultural life of Germany, Austria, and Switzerland. Conducted in English. Required of German majors; strongly recommended for any students planning study abroad in a German-speaking country. Special fee. 4 cr.

601. Introduction to German Literature

Reading and analysis of poems, dramas, and short prose; introduction to theory of literary forms and methods of analysis. Required of all German majors; prerequisite to upper-level literature courses. Prereq: knowledge of German. Special fee. 4 cr.

625. Berlin Seminar I (Study Abroad)

Explores the recent history, culture, and politics of the once-divided city of Berlin. Addresses German unification and the everyday effects of the end of the Cold War, including the questions of resistance, multiculturalism, and the recent resurgence of racist violence. Includes language, lecture, readings, discussion, and a final project. Prereq: GERM 504 or equivalent; permission. Special fee. 4 cr.

626. Berlin Seminar II (Study Abroad)

A continuation of GERM 625. Extends the home stay in Berlin and adds a supervised independent study project on some aspect of the material covered in 625, to be defined by contract with the instructor. Prereq: GERM 504 or equivalent; GERM 625; permission. Special fee. 1-4 cr.

630. German Narrative Forms

Textual studies based on works from one of the following prose genres: novel; novella; autobiography; fairy tale; short prose (short story, parable, documentary prose, feuilleton). Focus on the nature and characteristics of the genre, thematic and stylistic features of each text, and the diverse cultural, political, gender, or national perspectives that generate these forms. Special fee. 4 cr.

631. Advanced Communication Skills I

Intensive practice in vocabulary building and developing a sense of appropriate style for various contexts of oral and written communication. Special emphasis on conversational and expository speaking. Discussion of topics of current interest, oral reports, role play, and simulation of everyday situations, reinforced by written work. Required for the German major and minor. Special fee. 4 cr.

632. Advanced Communication Skills II

Intensive practice in vocabulary building and coherent expression in a variety of stylistic contexts. Special emphasis on writing skills, from expository prose to letter and résumé writing, essays, journalistic reports, and creative writing, focusing on topics of current interest. Required for the German major. Special fee. 4 cr.

640. German Drama

Selected masterpieces of the German theatre from the 18th century to the present, including reception and performance history. Course may vary in emphasis from classical German tragedy and comedy to more modern forms such as didactic and documentary plays, tragicomedy, and farce. Special fee. 4 cr.

645. Contemporary German Literature

Literary trends in the German-speaking countries since 1945. Analysis and interpretation of works by major authors. Special fee. 4 cr.

#685, 686. Study Abroad

A summer, semester, or year of study in one or a combination of the departmentally recognized programs such as the New England Universities Salzburg Program (UNH students as consortium members receive a discount on this program), the work-study program in Hamburg, or any other appropriate, approved programs. Open to students of any major with GERM 504 or equivalent training. Financial aid applies to all approved programs. Interested students should inquire at department for program brochures and specific requirements and should apply in consultation with a German adviser. For information on other study abroad programs, students should contact the Center for International Education. Variable to 16 cr. Cr/F. An IA grade will be assigned until official transcript is received from the foreign institution.

#720. Images of Women in German Literature

Reading and analysis of original texts by both male and female authors from the Middle Ages to the present with a view toward the changing representation and self-concept of women. Critical approaches to the literary canon. Prereq: GERM 504; 601;/or equivalent experience. Special fee. 4 cr.

721. German Culture and Civilization

Historical, social, artistic, and folkloristic developments in German-speaking countries from the beginning to the present. Prereq: GERM 525 or permission of instructor. Special fee. 4 cr.

#723. Survey of Preclassical German Literature
Lecture and readings in German literature from its Germanic beginnings to the Enlightenment. Prereq: GERM 601. Special fee: 4 cr.

724. The Age of Goethe
Major literary movements between 1770 and 1832. Reading and analysis of selected works. Prereq: GERM 601. Special fee: 4 cr.

#727. German Literature of the 19th Century
Major literary movements from Goethe's death to the unification of Germany by Bismarck (1832-1872). Reading and analysis of selected works. Prereq: GERM 601. Special fee: 4 cr.

728. Modern German Literature
Major literary movements from 1872 to 1945. Reading and analysis of selected works. Prereq: GERM 601. Special fee: 4 cr.

733. History and Structure of the German Language
An analysis of the history and structure of the German language from Indo-European to New High German with an emphasis on phonology and morphology. Prereq: GERM 632 or equivalent. 4 cr

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills, including developments in computer-assisted instruction. Prereq: permission of instructor. Special fee: 4 cr

795, 796. Independent Study
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. 1-4 cr.

#797, 798. Special Studies in German Language and Literature
Selected topics in language, culture, and literature 2 or 4 cr

Gerontology (GERO)

(For program description see page 85.)

Adviser: Elizabeth L. Crepeau

600. Introduction to Gerontology
Introduction to the study of normal aging and to the applied practice of service to the elderly. Primary for minors but open to other students. 4 cr.

795. Independent Study
Practical experience with elderly populations under supervision of designated faculty. 4 cr.

(See Nursing 670 for Issues in Health Care of the Aged.)

Greek (GREK)

Department of Spanish and Classics
(For program description, see page 33; see also course listings under Latin and Classics; for faculty listing, see page 191.)

New students will be initially assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit will not be given for elementary-level college courses in foreign languages if a student has had two or more years of the foreign language in secondary school.

401-402. Elementary Classical Greek
Grammar, simple composition, and translation. For students without previous training in Greek. Special fee: 4 cr.

403-404. Elementary Modern Greek
Aural-oral practice and the study of fundamental speech patterns, reading, and writing to achieve a firm basis for an active command of the language. (No credit for students who have had two or more years of modern Greek in secondary school.) Special fee: Lab. 4 cr.

503-504. Intermediate Classical Greek
Readings from Xenophon, Plato, Herodotus, Euripides, and the New Testament. Prereq: GREK 402. 4 cr.

#505-506. Intermediate Modern Greek
Short selections from modern Greek literature with grammar review and oral practice. Readings from such authors as Solomos, Cavafy, Palamas, Kazantzakis, Venezis, Myrivilis, Seferis, and Elytis. Prereq: GREK 404 or equivalent. Lab. 4 cr.

595, 596. Directed Reading in Greek
Independent study of a classical, Byzantine, or modern Greek author. Prereq: GREK 503-504, or equivalent. May be repeated. 2-4 cr

#631-632. Greek Prose Composition
Review of Attic Greek grammar; study of Greek prose style; English to Greek translation. Prereq: permission. 4 cr.

#751, 752. Homer and the Archaic Period
Readings from the *Iliad*, the *Odyssey*, the Homeric hymns, Hesiod, Pindar, and the lyric poets. Prereq: permission. 4 cr.

753, 754. Advanced Studies in Athenian Literature
A) Aeschylus, B) Sophocles, C) Euripides; D) Aristophanes; E) Herodotus; F) Thucydides; G) Xenophon; H) Plato; I) Aristotle; J) Lysias; K) Demosthenes; L) Isocrates. Major Attic authors from the Battle of Marathon to the death of Alexander the Great. Prereq: permission. 4 cr.

#791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee: 4 cr.

#795, 796. Special Studies in Greek
A) Pre-Socratic Philosophers, B) Hellenistic Greek

Authors; C) Menander; D) Callimachus; E) Apollonius of Rhodes; F) Theocritus; G) Polybius; H) Greek Authors of the Roman Empire; I) Plutarch; J) Septuagint; K) New Testament; L) Greek Church Fathers; M) Byzantine Authors; N) Spoken Greek; O) Advanced Greek Composition; P) Introduction to Classical Scholarship; Q) Greek Epigraphy; R) Greek Dialects; S) Comparative Grammar of Greek and Latin; T) Homer: A Linguistic Analysis; U) Greek Institutions; V) Paleography and Textual Criticism. Topics selected by instructor and student in conference. Prereq: permission. 4 cr

Health and Human Services

(See School of Health and Human Services.)

Health Management and Policy (HMP)

(For program description, see page 75.)

Chairperson: Jeffrey Colman Salloway
Director of Undergraduate Studies: James B. Lewis
Professors: David A. Pearson, Roger A. Ritvo, Jeffrey Colman Salloway, John W. Seavey, Lee F. Seidel
Associate Professors: Marc D. Hiller, James B. Lewis, Richard J. A. Lewis
Assistant Professor: Jeffrey G. White

400. Introduction to Health Management and Policy
Acquaints incoming freshmen and sophomore HMP majors to the administrative roles, functions, settings, and professional expectations of health management professionals. Provides an overview of health care organizations and services. Students visit selected health care organizations and talk with professionals. Prereq: HMP majors only, freshman or sophomore. Special fee: 2 cr.

401. U.S. Health Care Systems
Nature and functions of health care services and health professionals; impact of social, political, economic, ethical, professional, legal, and technological forces on health care systems. Current health policy issues. 4 cr

501. Epidemiology and Community Medicine
The distribution and determinants of disease, illness, and health in the community. Community health and illness measures, health status, and sources of data. Development of hypotheses and study designs to reduce community health problems using epidemiological reasoning, methods, and analyses. Special fee: Lab. 4 cr.

#510. Hospitals in the 20th Century
Examines the development of hospitals in the United States since 1900. Emphasizes the social power of the hospital as a changing social institution in American society. 4 cr

#555. Nursing Facility Management

Describes and analyzes the role, organization, function, and characteristics of nursing homes. Examines their administration, staffing, financing, planning/marketing, and regulation. Includes residents' psychological, biological, and sociological needs. Addresses several core information areas for nursing home administrators. Prereq: permission. Majors not permitted. 4 cr.

600. Special Topics

A) Hospital Management; B) Long-term Care Management; C) Ambulatory Care Management; D) Clinical Services Management; E) Home Care Management; F) Mental Health Management; G–Z) Interdisciplinary. Prereq: junior major or permission. May repeat, but may not duplicate subject areas. 1–4 cr.

621. Prepracticum Seminar

Preparation for field practicum experience, orientation to experiential learning and competency development. Prereq: major. 2 cr.

622. Field Practicum

Experiential learning in a health organization; application of theories to practice. Planned learning objectives are accomplished through three distinct components. Supervision by agency personnel. Prereq: junior major; permission.

622A. Field Practicum Organizational Analysis: analysis of assigned health care agency, from external and internal viewpoints. Coreq: 622B; 622C. 1 cr. Cr/F.

622B. Field Practicum Management Skills Development: development of the basic quantitative and interpersonal skills required of a health services manager. Coreq: 622A; 622C. 1 cr. Cr/F.

622C. Field Practicum Project Analysis: demonstration of knowledge and analysis of specific problem-solving skills required during internship. Coreq: 622A; 622B. 1 cr. Cr/F.

710. Financial Management for Clinicians

Basics of health care financial management and cost accounting. Includes cost concepts and product costing, budgeting, and variance analysis with emphasis at the departmental level. Contains basic accounting principles: use of ratio analysis to examine balance sheets and revenue and expense statements. Explores capital project analysis and health care reimbursement. Prereq: HMP 401 or equivalent; permission. Majors not permitted. 4 cr.

721. Managing Health Care Organizations

Organizational characteristics of ambulatory, acute, and long-term care facilities. Management issues and strategies involving governance, clinical services, human and fiscal resources, and community-based services. Prereq: major or permission. 4 cr.

723. Health Planning

Theoretical and historical foundations of health planning; the relationship of health planning and regulation; the application of planning methods; and the utilization of strategic planning and its relationships to marketing. Prereq: major or permission. Special fee. 4 cr.

734. Health Law

Concepts and principles of law as these affect medical and administrative decision making in health care institutions and the ability to discern issues that warrant the advice and/or assistance of legal

counsel. Topics covered include corporations and antitrust, property law, patients' rights under law, and malpractice. Prereq: major or permission. 4 cr.

739. Health Care Accounting

Principles and practices used to record, summarize, and report financial transactions of health care organizations. Topics include fund accounting, cost accounting, ration analysis, cost analysis, and budgeting. Not open to students who have completed ACFI 501. Prereq: HMP major or permission. Special fee. Lab. 4 cr.

740. Health Care Financial Management

Techniques, principles, and practices of managing fiscal aspects of health care organizations. Exploration of concepts and techniques associated with variance analysis, cost allocation, management of working capital, and capital decision analysis. Analysis of the impact of rate setting and reimbursement on health care organizations. Prereq: HMP 740; HMP major or permission. Special fee. Lab. 4 cr.

741. Management Methods for Health Care Organizations

Methods from industrial engineering, operations research, and statistics to support management systems used in health care organizations. Application areas include demand forecasting and the design and analysis of service systems. The role and function of information systems. Prereq: permission. 4 cr.

742. Strategic Management for Health Care Organizations

Application of managerial methods involving financial, marketing, and operational analysis to health management. Case studies. Prereq: major or permission; HMP 740. Special fee. Lab. 4 cr.

743. Health Care Reimbursement

Explores concepts and techniques associated with paying providers of health care. Impact of current practices and future trends on health care providers and U.S. health care system. Prereq: major or permission. 2 cr.

744. Ethical Issues in Health Management and Medicine

Ethical theories and decision-making models; patients' rights and professional responsibilities; social justice and resource allocation; critical issues facing clinicians, managers, and health policy makers; managerial versus medical care conflicts. Prereq: major or permission. 4 cr.

746. Health Policy

Analysis of the public policy process, the development of health policies in the United States, and discussion of specific health policy issues. Prereq: major or permission. 4 cr.

#750. Comparative Health Care Systems

Analysis and comparison of world health problems and delivery systems using nations with different cultures, political and economic systems, and stages of economic development. Methods for developing and evaluating health care systems. 4 cr.

#755. Aging and Long-Term Care Policy

Analyzes significant contemporary public policy issues associated with the aging population and the continuum of long-term care in the United States. Emphasis on costs associated with and approaches to financing, accessibility, delivery, and quality of

home-based, community-based, and institution-based health care services. Prereq: major or permission. 4 cr.

796. Independent Study

In-depth study with faculty supervision. Prereq: permission of major adviser and faculty in the area concerned. 2–4 cr.

798H. Honors Project/Research Design

Examines selected research designs and methods used in health services research/program evaluation. Establishes theoretical and methodological foundation for honors-in-major research project to be conducted during the subsequent semester under a faculty member's supervision. Prereq: senior honors-in-major status and permission. 2 cr.

799H. Honors Project/Research

In-depth research project (conducting and analysis) under supervision of faculty member. Includes scholarly presentation of findings to faculty and other interested parties and preparation of manuscript suitable for publication in peer-reviewed journal. Prereq: HMP 798H and permission. 4 cr.

History (HIST)

(For program description, see page 33.)

Chairperson: Jeffrey M. Diefendorf
Professors: Charles E. Clark, Jeffrey M. Diefendorf, William R. Jones, Francis D. McCann, Jr., Robert M. Menzel, Janet L. Polasky, Harvard Sitkoff, Douglas L. Wheeler
Adjunct Professors: Dennis A. O'Toole, Laurel Ulrich
Associate Professors: Cathy A. Frierson, Jan V. Golinski, J. William Harris, Jr., Gregory McMahon, Lucy E. Salyer, Marc L. Schwarz
Adjunct Associate Professors: Stephen H. Hardy, William R. Woodward
Assistant Professors: Funso Afolayan, W. Jeffrey Bolster, Kurk Dorsey, David Frankfurter, Kristin E. Gager, Eliga H. Gould
Adjunct Assistant Professor: Deborah J. Coon
Faculty-in-Residence, Assistant Professors: Nicoletta F. Gullace, Patricia Kelleher
Lecturers: Zaha B. Bustami, Barbara M. Ward

Group I. American History**405. History of Early America**

America from the early age of European discovery to the mid-19th century. Emphasis on the interaction of European, Native American, and African peoples; on the separation of the English colonies from Great Britain; and on the establishment and early history of the United States. Not open to majors or minors who elected HIST 410. 4 cr.

406. History of the Modern United States

History of the United States since the mid-19th century. Political, social, and economic developments as well as relationships of the modern U.S. with other countries. Not open to majors or minors who elected HIST 410. 4 cr.

410. Historical Survey of American Civilization

Typical survey, within broad chronological divi-

sions, of the development of American civilization since 1600. Not open to majors or minors who elected HIST 405 or 406. 4 cr.

#505, 506. African American History

Experiences, aspirations, and contributions of black Americans from their ethnic origins in Africa to the present American crisis in race relations; comparative study of cultures and institutions. 4 cr.

507. Native Peoples of the Americas

Indian societies of the American continents, their reactions to, and interactions with, the Europeans who invaded and conquered them. Emphasis on North America. 4 cr.

509. Law in American Life

Investigates the role of law in American social, political, and economic life from the European settlements to the present. Traces the development of legal institutions, but focuses on the various functions of law (e.g., in structuring social relationships, allocating resources, defining governmental authority, expressing social and moral values, and as a mechanism for control). 4 cr.

511. History of New Hampshire

From presettlement times to the present, emphasizing the use of locally available materials and sources. 4 cr.

520. The Vietnam War

Intensive, full-scale examination of how and why the United States went to war in Vietnam, how and why it failed, and the consequences and legacies of American involvement. 4 cr.

566. Women in American History

Key changes in women's roles in the past three centuries with an emphasis upon the peculiarities of the American setting. How, for example, were women's lives affected by the frontier; the intersection of European, African, and native American cultures; religious diversity; the problem of defining citizenship in a democratic republic? Students will sample recent scholarship in women's history and study a wide variety of documents produced by women. 4 cr.

603. The European Conquest of America

Study of the social consequences of colonization, migration, and war in America, 1500–1775. Emphasis on the interaction of British colonies with competing European cultures (French, Dutch, Portuguese, and Spanish), with Native Americans, and with African American slaves. 4 cr.

605. Revolutionary America, 1750-1788

Examines the social, political, and cultural transformation of thirteen British colonies into the United States, up to the adoption of the Constitution. 4 cr.

606. History of the Early Republic

Explores the histories of the people and institutions that transformed the new United States from a coastal republic of largely independent freeholders to a transcontinental democracy increasingly riven by class. Topics include slavery, the family, reform movements, and the formation of national identity. 4 cr.

#607. The American Character: Religion in American Life and Thought

Interdisciplinary study of the American religious experience and its relationship to other aspects of

American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Also offered as ENGL 607, HUMA 607, and RS 607.) 4 cr.

#608. Arts and American Society: Women Writers and Artists, 1850–Present

Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Fannie Fern, Lilly Martin Spencer, and Mary Hallock Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq: permission or one of the following: WS 401, HIST 566, ENGL 585 or 586, ENGL 685 or 785, or a 600-level art history course. (Also offered as ARTS 608, ENGL 608, and HUMA 608.) 4 cr.

609. American Legal History: Special Topics

In-depth thematic exploration of law in American life. Topics include race and equality in America; community, pluralism, and American law; property, liberty, and law; gender and law. May be repeated for credit with instructor's permission. Prereq: HIST 509 or instructor's permission. Consult department for listing of topics. 4 cr.

610. American Studies: New England Culture in Changing Times

A team of three instructors from history, literature, and art investigates major contributions New England has made to American life. Focus on three periods: the Puritan era, 1620–90; the Transcendental period, 1830–60; and the period of emerging industrialism in the late 19th century. Prereq: second semester sophomore. (Also offered as ARTS 610, ENGL 610, and HUMA 610.) Not for art studio major credit. 4 cr.

611. Civil War and Reconstruction in the United States

Surveys the period from the presidency of Andrew Jackson to the end of the Reconstruction. Focuses on causes, course, and consequences of the Civil War. Topics include slavery in the Old South, antebellum reform movements, creation and breakdown of the Second Party System, social and economic (as well as military) events during the war and major developments during Reconstruction after the war. 4 cr.

612. Emergence of Industrial America

Investigates the economic transformation of 19th-century America from a rural, agricultural society to an urban, industrial one. Explores the sweeping economic changes and focuses on such topics as change in work and leisure, westward expansion and its effects on Native Americans, shifts in gender roles, growth of a consumer culture, rise of the labor unions and populism, immigration, reform and regulation movements, growth of American imperialism, and intellectual developments. 4 cr.

615, 616. 20th-Century America

U.S. after 1900; cultural, political, and social factors causing major changes in American life. Semester I: Progressivism through the New Deal. Semester II: World War II to the present. 4 cr.

619, 620. The Foreign Relations of the United States

The history of American diplomacy from the colo-

onial era to the present, with the dividing point at 1900. The focus will be on both the foreign and domestic influences that shaped American diplomacy. 4 cr.

621, 622. History of American Thought

Significant American thinkers considered in their social context. Semester I: 1600 to 1860. Semester II: 1860 to the present. 4 cr.

#623. Anglo-American Social History

Study of everyday life in British America and the early United States, 1600–1820, with an emphasis on gender, class, and race. Consideration of child-bearing, labor systems, religious observance, crime, and other themes in the light of recent social theory. Readings in both primary and secondary literature, with an emphasis on local records and on material culture. 4 cr.

624. Modern American Social History

Major social developments since 1820: industrialization and the history of labor, immigration, urban growth, race relations, history of women and of the family. 4 cr.

625. Southern History and Literature since 1850

Equal focus on the history and literature of the South. Topics include slavery, the Civil War, Reconstruction, the age of segregation, and the civil rights movement. Literary focus on the "Southern Renaissance" of the 1930s and after, including works by William Faulkner, Robert Penn Warren, Flannery O'Connor, and Richard Wright. 4 cr.

Group II. European History

435, 436. Western Civilization

The classical origins and evolution of European civilization through the Renaissance, Reformation, and voyages of discovery. The rise of Europe to global supremacy in the 19th century and its transformation in the 20th century. 4 cr.

#521. The Origins of Modern Science

Development of scientific ideas in Europe from the Renaissance through the Scientific Revolution to the Enlightenment. Topics include themes in the physical and biological sciences and their relations to cultural and social contexts. No special science background is required. 4 cr.

#522. Science in the Modern World

Development of science, particularly in Europe and North America, from the 18th century to the present. Themes include Darwinism, the growth of modern physical and biological sciences, and science in the contemporary world. No special science background is required. 4 cr.

523. Introduction to the History of Science

Introduces the role of science in Western culture, from the ancient world to the 20th century. Covers important themes of the development of the physical and biological sciences, and indicates their place in broader social and cultural changes. No specific technical background is required. 4 cr.

537. Espionage and History

Introduction to the history and politics of espionage and intelligence organizations in modern times. Special attention to intelligence work among the major powers in World War I, World War II,

and the Cold War. Readings include autobiographical accounts and other primary sources as well as novels. 4 cr.

559, 560. History of Great Britain

History of Great Britain from the earliest times to the present; from social, constitutional, economic, political, and intellectual perspectives. Designed for history students as well as those interested in literature, Western political and social systems, American studies, education, and prelaw. 4 cr.

563. Introduction to Russian Culture and Civilization

Interdisciplinary course on the development of Russian culture from its origins through the end of the 19th century. Historical documents, literary works, ethnographic materials, films, slides of Russian art, and music. 4 cr.

565. Women in Modern Europe

A social history of women in Europe from 1700 to the present. Examines the development of the "modern nuclear family," transformations in women's work during the industrial revolution, and women's political evolution from bread rioters to hearth tenders to petitioners. Sources include published diaries, historiographical studies, and novels. 4 cr.

#639, 640. Three Medieval Civilizations

Demise of classical antiquity in the lands bordering the Mediterranean, and the genesis and fruition of three new cultural traditions: Latin Christian, Islamic, and Byzantine. Religious, literary, and scholarly survivals and innovations from 400 A.D. to 1400 A.D. 4 cr.

641. Europe after Black Death

Explores the dramatic changes that characterized Western Europe as it rebounded in the fifteenth through the seventeenth centuries from the ravages of the Black Death of 1348. Examines the social, political, and artistic developments in late medieval and Renaissance Italy before "crossing the Alps" to trace the expansion of Renaissance culture in Northern Europe. Topics covered include the humanist movement, new patterns of social organization, the revival of classical antiquity in the arts, architecture, religion and political theory, the effects on European society of the encounter with the "New World," shifting roles for men and women in early modern European societies, and religious war and conflict. 4 cr.

642. Religious Conflict in Early Modern Europe

Religious, social, and political maps of Europe were profoundly and permanently altered in the sixteenth and seventeenth centuries due to the split of the Protestant churches from the Roman Catholic church in 1517 by Martin Luther. Explores the background to the Protestant Reformation of the sixteenth century and investigates the various personalities—the Protestant and Catholic reformers, the princes, the artisans and peasants, the Anabaptist radicals—that shaped this era of religious change and conflict. Also explores the important effects of religious change on European society and culture at that time, including changes in gender roles, family life, and popular cultural practices such as magic and witchcraft. 4 cr.

647. Early Modern France

An exploration of the culture and politics of early modern French society. Popular culture, religion,

gender relations, the family, state-building, political theory, and revolution will be emphasized. Primary documents in translation will be read and discussion encouraged. 4 cr.

648. Modern France

French society from Napoleon to Mitterand. Topics include the Revolution of 1848 and the Paris Commune; World Wars and the Vichy regime; Existentialism, DeGaulle, and the Revolt of May–June 1968. 4 cr.

649. Comparative Topics in the History of Early Modern Europe

Topics will vary, but may include enlightenment and revolution; the peasantry; gender and the family; crime and deviance; science and society. May be repeated for a maximum of 8 cr. 4 cr.

#650. History of European Socialism

Socialist thought in Europe in the 19th and 20th centuries. Examines Utopian Socialism, the development of Marxism, the emergence of the New Left, and new socialist developments in the late 20th century. 4 cr.

651, 652. Topics in European Intellectual History

Exploration of such major developments as the Enlightenment, Russian intellectual history, ancient world views and cosmologies, and the relationship between gender and intellectual history. 651 includes topics up to the Scientific Revolution; 652 includes topics since the Renaissance. Since topics will vary, students should check the department newsletter or office for course theme in any given term. May be repeated as topics change. 4 cr.

654. Topics in History of Science

Advanced study of a selected topic in the history of European science since the Renaissance. (Topics vary.) 4 cr.

#656. 20th-Century Europe

World War I, European totalitarianisms, World War II, the loss of European primacy, and the search for a new Europe. 4 cr.

659. History of Modern Spain and Portugal

Iberian states and their peoples from the coming of liberalism to the present. Failure of Iberian liberalism and liberal government. Political and social change, imperial and intellectual movements, influence of Western European thought and activity. 4 cr.

661, 662. England in the Tudor and Stuart Periods

Political, religious, socioeconomic, and intellectual forces for change at work in England from the accession of Henry VII to the revolution of 1688–89. 4 cr.

663. Russia: Origins to 1905

Russia from its foundation through the Revolution of 1905. Political, social, and economic developments; intellectual and ideological currents. 4 cr.

664. Russia: Modernization through Soviet Empire

The challenges of modernization, experience, and legacy of Leninist and Stalinist revolutions. Soviet consolidation, and decline through the Gorbachev era. 4 cr.

#667. Early Modern Germany: Reformation to the Revolution of 1848

Conflict between Holy Roman Empire and petty states; rise of Prussia; religious conflict and Enlightenment. 4 cr.

668. Modern Germany since 1848

Bismarck and Imperial Germany; Weimar and the rise of Hitler; divided Germany post-World War II. 4 cr.

#789. Seminar in the History of Science

In-depth examination of a selected topic in the history of science. Subject varies. Open to undergraduates with permission of the instructor. No special background in science required. 4 cr.

Group III. Non-Western History and Ancient History

421. World History to the 16th Century

The global experience of human communities with special emphasis on the development of the major civilizations and their interactions. Comparisons of social, cultural, religious, and political life and the emergence of distinctive and diverse human societies are examined. 4 cr.

422. World History in the Modern Era

Emergence of major global human interactions due to the growth of major civilizations. The global context for the rise of the modern West. The rise and decline of Western global domination and emergence of new states and changing societies throughout the world. 4 cr.

531. The Americas: Introduction to Latin America and the Caribbean

The thirty-three countries of the region are important trading partners and resource suppliers for the United States. Examines the history, culture, politics, economics, social structures, and the international relationships of this region. Ranges from the macro-level discussion of economics, to personal and family issues, to key moments in history, to aspects of local and transnational cultures. Individual community and country examples illustrate larger processes affecting the whole region. Stereotypes and generalizations challenged by stressing the human face of national development, military rule, democratization, migration, urbanization, color, class, identity, women's roles, religion, popular culture, sovereignty, revolution, and impact of migrants from the region on the United States. 4 cr.

532. Modern Latin America

Provides a broad overview of Latin America from the 18th century to present. It examines the breakdown of colonial rules, the establishment of independent countries, the formation of viable nation states, the importance of geography, the roles of the different elements of society. Social, political, and economic changes and continuities emphasized to give a sense of the ambiguities of the historical process. Cultural differences illustrated with slides and music. The effects of elite rule and of United States interventions studied. 4 cr.

575. The Ancient Near East

From the neolithic revolution to the time of Alexander the Great. Rise of civilization; nature of human artistic and intellectual development in the earliest civilizations of Mesopotamia and Egypt; Judaism in its historical setting. 4 cr.

576. The Hebrew Bible in Historical Context
An introductory study of the Hebrew Bible, or Old Testament, examining the development of biblical literature in the context of ancient Near Eastern cultures and history. Interpretations of the creation stories and patriarchal narratives using literary and folklore methods; the transformation of Israelite religion from Moses to David to Ezra; the role of prophets and nature of ancient prophecy; the concept of the messiah; "wisdom" literature and the biblical interpretations of misfortune; the formation of a biblical canon; and the critical analysis of sacred texts. (Also offered as RS 576.) 4 cr.

577. The New Testament in Historical Context
A study of the collection of writings known as the New Testament as both literature and historical documentation. Assigned readings from primary and secondary sources stress the historical, social, religious, and literary backgrounds of gospels, Paul's letters, and the Apocalypse, and will include a variety of early Christian texts left out of the canonical New Testament. Other more general themes are: the formation of the Christian canon, the division of the Jesus-movement from Judaism, the status of Jesus in his own time, the nature of parables, the end of the world, and the authority of women in early churches. Emphasis on the historical understanding of sacred scripture. (Also offered as RS 577.) 4 cr.

579. History of China: From Empire to People's Republic

The origins and development of Chinese civilization and its revolutionary transformation in modern times. Institutional and cultural changes will be stressed. 4 cr.

580. History of Japan: From Yamato to Tokyo
The development of Japanese civilization from its origins to the present. Special attention will be paid to the transformation of Japan from an agrarian to an industrial society. 4 cr.

#585. Middle Eastern History in the Medieval Islamic Era

The origins and expansion of Islam and the development of the Muslim community from the time of Muhammad until the Islamic empires of the 16th century. Attention is given to religious and artistic as well as political developments. 4 cr.

586. History of the Middle East in Modern Times

Emergence of modern Middle Eastern states and societies from the time of the Ottoman Empire to the present. A survey of major developments, including the emergence of nationalism, the Islamic resurgence, and social transformations. 4 cr.

587, 588. History of Africa South of the Sahara

From ancient times to the present. Semester I: from prehistoric times to 1870. Semester II: from 1870 to the present. African migrations, kingdoms, and societies; African responses to the slave trade; Islam; European imperialism, colonialism, and industrialization; African nationalism, independence, and postindependence problems. 4 cr.

#590. The City in History

The preindustrial and modern city as a philosophical and cultural institution, with emphasis on city design and architecture. Certain great cities, such

as Athens, Florence, Paris of 1900, and Berlin of the 1920s, dealt with in detail. 4 cr.

631. History of Brazil

Brazil has the fifth largest territory, the sixth largest population, and the eighth largest industrial/economy in the world. Its colorful history has many distinctive features; the only country in the Americas to have been the capital of a European monarchy and then to have its own emperor for most of the last century; its outwardly peaceful image masks internal violence and turmoil; a suspicion of foreigners balanced by a desire to be accepted by them as equals; seemingly benevolent racial attitudes that serve to keep people of color on society's lower range; a tremendous cultural creativity that has given the world samba, film star Carmen Miranda, composer Heitor Villa Lobos, songwriter Antonio Carlos Jobim, poet Vinicius de Moraes, and novelist Jorge Amado. Includes an examination of the roles of various elites; political, social, economic, military, cultural, and religious. HIST 531, 532 recommended. 4 cr.

632. Latin American History: Topics

Topics vary (see department listing for current semester). Seminar entails reading, discussion, and research on literature and documents related to the selected topic. Provides students with the opportunity to do research under close direction. 4 cr.

675. The Early History of Ancient Greece

Greek history from the Minoan and Mycenaean eras through the Persian Wars of the early fifth century. Emphasis on original sources including the Homeric epics, Plutarch, Sappho, and Herodotus. Examination of the distinctive developments of political systems in Sparta and Athens, as well as issues of colonization, diplomacy, religion, and culture. Through discussion of types of available evidence and their integration into historical understanding. 4 cr.

676. The Classical and Hellenistic Greek Worlds

Greek history from the Persian Wars of the early fifth century through the life of Alexander the Great and the creation of the Hellenistic world. Emphasis on original sources including Herodotus, Thucydides, the Athenian playwrights, and Plato. Examination of the transformation from city-state political organization to large Hellenistic kingdoms, as well as discussion of Greek historiography, intellectual life, and social theory. Thorough discussion of types of available evidence and their integration into historical understanding. 4 cr.

677. The Roman Republic

Covers pre-Roman Italy, the Etruscans, and the foundation of the Republic. Rome's expansion through the Punic Wars and relations with the Hellenistic kingdoms. Disintegration and final collapse of the Republic. Includes discussion of Roman art, engineering, and political theory. Emphasis on Latin sources in philosophy, history, and literature. 4 cr.

678. The Roman Empire

Collapse of the Roman Republic and creation of the Augustan principate. History of the principate through the division of the empire, with discussion of the fall of Rome in the west and the eastern empire through Justinian. Discusses Roman art, literature, philosophy, and religious developments

such as the proliferation of mystery religions and the rise of Christianity. 4 cr.

681. Modern China Topics

Issues in modern Chinese history, 1800 to the present. Students will read and discuss major works concerning the semester's topic and write several book reports and a term paper. The topic for a given semester will be posted in the history department office. HIST 579 is recommended. 4 cr.

682. Cults and Charisma

Examines religious sects and charismatic leaders using case studies from history and the contemporary world, as well as analytical principles from religious studies and anthropology. Explores various approaches to the question, what makes a person powerful over others?, in connection with the formation of messianic sects, the genesis of the "cult," the traditional authority of priests and kings, sainthood, the events at Jonestown and Waco, and the popular image of the "cult." Students learn to employ a variety of tools and models to understand historical situations of charismatic leadership. (Also offered as RS 682.) 4 cr.

683. Religion in World History

The religious experience of man from the perspective of world history. The major modes of religion; development of the major religious traditions and institutions. 4 cr.

684. History of Southern Africa since 1820

Struggle for political and economic control in the only region of Africa where European groups remain in power. Impact of European imperialism, European-settler nationalism, racial conflict, economic competition and industrialization, apartheid, and assimilation with special attention to development of European hegemony. Official American policy. 4 cr.

#685. The Modern Middle East

From 18th century to the present. Problems created by modernization and reform of the traditional society; conservative reaction to reform, impact of nationalism, and appearance of new ideologies. 4 cr.

Group IV. Special Courses

425. Foreign Cultures

Introduction to the culture of a particular nation or region; preparation for experiencing a foreign culture. Consult department for listing of topics. 4 cr.

483, 484. Introduction to the History of World Religion

An introduction to the history of religion, covering major traditions of world religions and the methods of their study. (Also offered as RS 483, 484.) 4 cr

497. Explorations in Historical Perspectives

Seminar for freshmen and sophomores. In-depth exploration of a particular historical question or topic for example, the French Revolution, Chaucer's England, or the New Deal. Students should consult with the Department of History for a list of topics and instructors. 4 cr.

500. Introduction to Historical Thinking

Basic skills essential to the study of history: critical reading of historical literature, improvement of written and oral analysis of historical material, and

use of library resources. Intensive study of books and documents from varying historical fields and periods. Required of history majors; open to other interested students. 4 cr.

595, 596. Explorations in History

See department listings for semester topic. 1–4 cr.

600. Advanced Explorations in History

See department listings for semester topic. Barring duplication of subject, may be repeated for credit. 1–4 cr.

665. Themes in Women's History

In-depth examination of a selected topic in women's history. Topics may include Women and Health, Women in Modern European Political Theory, Comparative History of Women and Revolution. See *Time and Room Schedule* or history department newsletter for the specific topic. May be repeated for credit with permission of instructor. 4 cr.

670. Historical Thinking for Teachers

Examines the sources, methods, and interpretive strategies of the historian. Emphasis on texts and topics relevant to the middle- and high-school classroom. Designed for history teachers as well as individuals in the Master of Arts in Teaching (M.A.T.) program. 4 cr.

695, 696. Independent Study

A) Early American History; B) American National History; C) Canada; D) Latin America; E) Medieval History; F) Early Modern Europe; G) Modern European History; H) Ancient History; I) Far East and India; J) Near East and Africa; K) European Historiography; L) American Historiography; M) Russia; N) World History; O) English History; P) New Hampshire History; Q) Historical Methodology; R) Irish History; S) History of Science; (T) Maritime. For students showing a special aptitude in history who desire to study an area or subject for which no appropriate course is offered. Prereq: permission. 4 or 3 cr.

772. Studies in Regional Material Culture

Designed to acquaint students with artifacts commonly used in New England homes during the period 1750–1860 and to present these artifacts in their contemporary cultural context, including their relationships with designers, clients, patrons, manufacturers, craftsmen, and consumers. 4 cr. (Not offered every year.)

774. Historiography

Analysis of ancient and modern historians. Required of all entering Ph.D. candidates; open to undergraduates with permission. 4 cr. (Not offered every year.)

775. Historical Methods

Contemporary historical methods. Required of all entering Ph.D. candidates; open to undergraduates with permission. 4 cr. (Not offered every year.)

787. Quantitative Methods and Computers for Historians

The historian's use of computers and statistics: opportunities and problems in using and analyzing quantitative sources; elementary statistical techniques; practical applications involving microcomputers and applications programs. No previous knowledge of computers or college mathematics is assumed or required. Prereq: admission as an undergraduate major or graduate student in history;

or permission of the instructor. 4 cr. (Not offered every year.)

797. Colloquium in History

Selected topics in American, European, and non-Western history. Required of history majors. Students must select section in the department office at the time of registration. 4 cr.

799. Senior Thesis

Supervised research leading to the presentation of a major research paper. Open only to history majors. Permission of department chairperson required. May not be used as a substitute for the required senior colloquium. 4 cr.

Hospitality Management (HMGT)

(For program description, see page 86.)

Chairperson: Joseph F. Durocher, Jr.

Professor: Raymond J. Goodman, Jr.

Associate Professor: Joseph F. Durocher, Jr.

Assistant Professors: Paula Francesc, Sylvia H. Marple

Instructor: Yae Sock Roh

Lecturers: Gary Armitage, William Corcoran, Edward Simeone

401. The Hospitality Industry: Historical Perspectives and Distinguished Lecture Series

Review the broad spectrum of the hospitality industry from an historical perspective, in concert with current history, trends, and challenges presented by notable industry executives. Distinguished guests represent all segments of the hospitality industry plus selected allied support businesses. Industry segments include, but are not limited to, hotels and lodging, restaurant and food service, travel and tourism, conferences and conventions, casinos and gaming, clubs and resorts, health care and senior living, franchising and entrepreneurship, and technology support. 4 cr.

403. Introduction to Food and Beverage Management

Focuses on the basic principles of food and beverage operations management. During weekly laboratory sessions in the New England Center for Continuing Education, students experience both front of the house and back of the house activities. Application of classroom principles further enhanced through industry guests, field trips, participation in gourmet dinner productions, and a class-managed and produced catered function. Prereq: permission. 4 cr.

554/654. Lodging Operations Management

Focus on management history, planning, organizing, leadership, and current and future management issues. The course requires students to compare rooms division management in a large hotel with that of a small hotel, including reservations, front office operations and accounting, housekeeping, and auxiliary functions. The complexities and the terminology of the design, management, and maintenance of physical structures used by civil engineers and architects are integral to the course. Guest lecturers include hotel general managers and department heads who highlight student projects. Sophomores register for 554 Juniors register for 654. Prereq: HMGT 401 and 403. 4 cr.

567/667. Food and Beverage Operations Management

Integration of operations management principles and techniques. Presentation of large-scale theme gourmet dinners; act as managerial consultants to on-campus food service facilities. The lab provides an experiential setting for the application of such principles as marketing, operations management, accounting and organizational behavior through the planning, organizing, coordinating, and execution of two weekend food service events. Sophomores register for 567. Juniors register for 667. Prereq: HMGT 403. Lab. 4 cr.

595. Internship I

A nontraditional academic experience relating to work experience within the university system. Coordinated by a faculty member who provides supervision, along with an on-site supervisor, through regular class meetings. Includes academic assignments and a written report. Prereq: permission and good academic standing. May be repeated to a maximum of 12 cr. 1–12 cr. Cr./F.

600. Hospitality Marketing Management

Students apply basic marketing principles to the competitive environment of service businesses, such as hotels, restaurants, and other hospitality firms. Strong emphasis on consumer behavior, services management theory, and the hospitality marketing mix as they relate to service firms of all types. Course material is presented through a variety of techniques: case studies, lectures, guest speakers, team projects, and written assignments. No credit for students who have had MKTG 651. 4 cr.

603. Service Industries Management

Provides broad understanding of managerial issues in the operation of service firms, as distinct from consumer product or manufacturing firms, e.g., lodging, restaurants, health care, banking, and education. Examines, from the viewpoint of the service firm manager, the role services play in the economy, delivery systems, encounters, technology, human resources, productivity, and quality issues, along with the concept of service. 4 cr.

618. Uniform Systems for the Hospitality Industry

Following a review of financial statements and an introduction to the Uniform System of Accounts for Hotel and Restaurants, students learn specific applications of managerial accounting and decision support systems for the hospitality industry. Topics include cash flow analysis, cost management, cost-volume-profit analysis, pricing models, budgeting, and forecasting. Students develop an understanding of course topics as they relate specifically to the hospitality industry through lectures, computer exercises, and papers. Prereq: ACFI 502; 503. 4 cr.

625. Hospitality and Employment Law

Tort and contract liability in the hospitality industry. Emphasis on a managerial approach to solving or avoiding potential problems while managing a business. Explores the employment relationship in business and the requirements and components of legal employment practices. 4 cr.

635. Hospitality Human Resource Management

Addresses key hospitality resource management issues of a general, technical, and social nature including communication, motivation and leader-

ship, job stress and safety, security, government regulations, discrimination, and substance abuse. Covers technical areas such as recruiting and selecting, placement, employment, training, performance appraisal, disciplining, and termination. No credit for students who have had MGT 770. 4 cr.

655. Hospitality Finance and Development

Provides the advanced student with a familiarity of the principles and practices of development and acquisition of hotel, restaurant, and other hospitality businesses, and the real estate development process. Emphasis on market and financial evaluation and decision making relative to economic, ethical, legal, and social aspects of the organization's environment. Group projects involving the preparation of a complete economic feasibility study for hotel or restaurant development or acquisition or repositioning are required. Prereq: HMGT 61S. 4 cr.

661. Meetings and Conventions

Strategic and logistical considerations in managing the planning, development, marketing, and implementation of meetings, conferences, and conventions. Prereq: permission. 4 cr.

#655-656. Study Abroad

Open to students studying abroad in the discipline as approved by the hospitality management program director. 1-16 cr. Cr/F.

695. Independent Analysis

Study and research project for honor students to advance knowledge in lodging and food services fields. Prereq: junior standing and permission. 2-16 cr.

696. Supervised Student Teaching Experience

Participants are expected to perform such functions as leading discussion groups, assisting faculty in undergraduate courses that they have successfully completed, or working as peer advisers in the advising center. Enrollment is limited to juniors and seniors who have above-average G.P.A.s. Reflective final paper is required. Prereq: permission of instructor, program director, and director of advising. May be repeated to a maximum of 8 cr. 1-8 cr. Cr/F.

698. Topics in Hospitality Management

Special topics and developments in lodging, food services, and other hospitality industries. Prereq: junior standing and permission. Course may be repeated when topics change. 1-4 cr.

703. Strategic Management in the Hospitality Industry

Case-study course, interpreting and applying strategic management concepts to hospitality organizations. Cases from hotel companies, restaurant chains, and other hospitality-related businesses, supplemented by journal and other published information from the industry, are used as departure points for class discussion. Prereq: all Group B courses. 4 cr.

750. Senior Operations Seminar

Allows students to experience and participate in the planning and decision-making process of a full-service hotel, to understand and understand the implications of managing change, while gaining a perspective on the interdepartmental coordination of a hotel. Prereq: permission. 4 cr.

771. Beverage Management

Examination of purchasing, evaluation, storage, service, and control of alcoholic beverages. Emphasis on wines, although beer, ale, distilled spirits, liqueurs, and mixed drinks are examined. Prereq: HMGT 567/667, or permission. 4 cr.

795. Internship II

Off-campus work in the hospitality industry for on-the-job skill development. Normally, supervision is provided by a qualified individual in the organization with frequent consultation by a hotel program faculty sponsor. A written report is required of the student. Internships may be part-time or full-time, with course credits assigned accordingly. Prereq: permission and good academic standing; junior and senior students only. May be repeated to a maximum of 12 cr. 1-12 cr. Cr/F.

799. Honors Thesis Project

Supervised research leading to the completion of an honors thesis or project, required for graduation from the honors program in hospitality management. Prereq: permission of director of undergraduate programs and department chair. 4-8 cr.

Humanities (HUMA)

(For program description, see page 34.)

Coordinator, Humanities Program: David S. Andrew

Core Faculty: David S. Andrew, Art and Art History; Rose T. Antosiewicz, French; Donna B. Brown, Humanities; Warren R. Brown, Political Science; Richard J. Callan, Spanish; Thomas A. Carnicelli, English; Charles E. Clark, History; Patricia A. Emison, Art and Art History; Michael K. Ferber, English; Susan D. Franzosa, Education; Jan V. Golinski, History; Gregory McMahon, History; Susan Mennel, Humanities; David M. Richman, Theatre; Peter W. Urquhart, Music; Charlotte Elizabeth Witt, Philosophy.

401. Introduction to the Humanities

A modular course introducing students to themes and texts taught by faculty members from art, music, literature, philosophy, and history. Each section consists of three five-week modules that focus on such themes as Fate and Freedom, Innocence and Experience, Work and Play, Humanity and Divinity, and War and Peace. No fee. HUMA major credit. 4 cr.

480. What a Text Can Teach

Students examine selected classic texts in the humanities with faculty members representing the arts, music, literature, and philosophy. Through three modules and a team-taught symposium, students investigate how each of these forms of expression contributes to human knowledge and an understanding of the human being. No fee. HUMA major credit. 4 cr.

500. Critical Methods in the Humanities

Critical analysis of works in the humanities. Focuses on major texts, evaluation of secondary literature, research, writing, criticism. Required for all HUMA majors. 4 cr.

501. Humanities: The Ancient World

Students develop an appreciation of the roots of

Western civilization through the study of ancient art, literature, and philosophy, including Homer, Greek tragedy, Plato, Aristotle, the Bible, Vergil. Weekly lecture series, slides, films. Special fee. 4 cr.

502. Humanities: The Modern World

Contributions to human knowledge and culture from the Early Renaissance through the Enlightenment examined through literature, philosophy, and art. Students study Dante, Castiglione, Machiavelli, Montaigne, Racine, Molière, Pope, Goethe, Wordsworth, Zola, Tolstoy, and examples of art and architecture. Weekly lecture series, slides, films. Special fee. 4 cr.

503. Humanities: The 20th Century

Students gain insight into the nature of contemporary Western civilization through selected examples of literature, philosophy, psychology, and art. Students study and discuss works by writers and artists such as Kafka, Mann, Hesse, D.H. Lawrence, Sartre, C.G. Jung, Picasso, Chagall, di Chirico, Beckett, Mishima, Lillian Smith, Weizenbaum, Weil. 4 cr.

Students enrolling in HUMA 510, 511, 512, or 513 must designate a discussion section in only one of four fields—arts, English, history, or philosophy—corresponding to and satisfying one of four general education categories. To satisfy the general education requirement in fine arts, students should register for 510A, 511A, 512A, or 513A; in works of literature and ideas, 510B, 511B, 512B, or 513B; in historical perspectives, 510C, 511C, 512C, or 513C; in philosophical perspectives, 510D, 511D, 512D, or 513D. For students who complete the entire sequence of HUMA 510, 511, 512, and 513, enrolling in different discussion sections each time, a fifth general education requirement (in foreign culture) will be waived, although additional credit hours will not be granted.

510. Chance, Necessity, and Reason: The Search for the Good Life

What is a human being? How should we explain or understand what happens to us? How ought we to live? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science of ancient Greece. 4 cr.

511. Fortune, Sin, and Faith: The Search for the Spiritual Life

What is the soul and how is its health related to temptation and, also, to specifically Christian virtues? How closely does the medieval definition of an eternal God determine good and evil in daily life? To what extent does the hope of immortality affect the practice of writing literature, making art, studying philosophy, and investigating science? This team-taught course examines these important questions by focusing on the literature, art, philosophy, and science from the collapse of the classical world to the rise of capitalism. 4 cr.

512. Reason, Doubt, and Experience: The Search for the Enlightened Life

Exploration of the interrelationships of art, literature, philosophy, and science from the High Renaissance into the 19th century. Study of the works and ideas of such influential figures as Shakespeare and Milton, Raphael and Rembrandt, Galileo, Descartes, Newton, and Hume. Special attention to the following: (1) classical roots of mod-

ern imagination. 12. God in the world of the scientific revolution. 13. The uncertain relationship between experience and reality. 4 cr.

513. History, Mind, and the Absurd: The Search for the Meaningful Life

Explores the central paradoxes of our culture in the modern age. Is there such a thing as "progress" and if so what is its nature? What is the relation of conscious and unconscious? Is the contemporary world devoid of meaning? These three questions are examined in literature from Goethe's *Faust* to Samuel Beckett in the history of science from Darwin to Freud and contemporary chaos theory in philosophy from Hegel and Marx to Nietzsche and Foucault; and in art from Picasso and Le Corbusier to postmodern architecture. 4 cr.

600. Seminar in the Humanities

Provides an opportunity for in-depth reading, viewing, and/or listening to texts and artifacts. Emphasis on the multiple perspectives and methodologies that can be brought to bear upon these works from several humanistic disciplines. 4 cr.

#607. The American Character: Religion in American Life and Thought

Interdisciplinary study of the American religious experience and its relationship to other aspects of American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Also offered as ENGL 607, HIST 607, and RS 607.) 4 cr.

#608. Arts and American Society: Women Writers and Artists, 1850–Present

Team-taught course studying the impact of gender definitions on the lives and works of selected American artists. Considers lesser-known figures such as Fannie Fern, Lilly Martin Spencer, and Mary Halleck Foote as well as better-known artists such as Willa Cather and Georgia O'Keeffe. Prereq: permission or one of the following: WS 4-1, HIST 566, ENGL 585 or 586, ENGL 685 or 785, or a 600-level art history course. (Also offered as ARTS 608, ENGL 608, and HIST 608.) 4 cr.

609. Ethnicity in America: The Black Experience in the Twentieth Century

Team-taught course investigating music, literature, and social history of black America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s. Special attention to the theme of accommodation with and rejection of dominant white culture. (Also offered as ENGL 609 and MUSI 609.) 4 cr.

#610. Regional Studies in America: New England Culture in Changing Times

Team-taught course investigating some of the major contributions New England has made to American life. Focusing on three periods: the Puritan era, 1620–90; the Transcendental period, 1830–60; and the period of emerging industrialism in the late 19th century. Prereq: second-semester sophomore. (Also offered as HIST 610, ENGL 610, and ARTS 610.) Not for art studio major credit. 4 cr.

650. Humanities and the Law: The Problem of Justice in Western Civilization

Interdisciplinary modular course examines inter-

pretations of the nature of justice, its origins, the role of the professional judiciary, and the relationship of law and ethics. Students take three successive five-week modules during the semester. 4 cr. (Not offered every year.)

651. Humanities and Science: The Nature of Scientific Creativity

Interdisciplinary modular course examines the historical and intellectual foundations of the physical, biological, and human sciences. Students take three successive five-week modules during the semester. 4 cr. (Not offered every year.)

690. Special Studies in the Humanities

Selected topics not covered by existing courses with subjects to vary. May be repeated for credit. Prereq: one 400- or 500-level HUMA course or junior standing. 4 cr.

698. Independent Study in the Humanities

Independent study open only to highly qualified juniors and seniors who have completed at least four humanities courses above the 400 level. Requires original research and substantial writing projects under direction of a member of the core faculty of the humanities. Prereq: HUMA junior or senior majors; four HUMA courses above the 400 level. 4 cr.

699. Senior Project in Humanities

Independent study open only to senior humanities majors with individual project approved and supervised by faculty. 2–6 cr.

700. Research Seminar in the Humanities

Provides a context within which students may discuss and receive direction in the course of completing a major research paper. At the end of the seminar, students present their research to the faculty and their fellow students. Restricted to majors. 4 cr.

Hydrology

For program description, see pages 59–64 for courses; see Earth Sciences.

Coordinator: S. Lawrence Dingman

Intercollege Courses (INCO)

401. War

Nature and experience of modern warfare and its historical development; social and biological roots of war; national security and defense concepts and issues; the nuclear age and weapons of mass destruction; the post-Cold War age; philosophical issues. 4 cr.

402. Peace

Investigates (1) military deterrence in theory and practice; (2) alternatives to military deterrence such as diplomacy, international law, conflict resolution, and nonviolent defense; (3) economic and environmental interdependence of nations; and (4) political, cultural, ethical, and religious conceptions of peace. 4 cr.

404. Honors: Freshman Seminar

Introductory course required of all honors program students. A general education course with sections offered in all general education groups except Groups 1 and 2. Special fee. 4 cr.

450. Introduction to Race, Culture, and Power

Explores the ways in which the concept of "race" serves to justify global relationships of domination and inequality, and is embedded in U.S. society. Examines how dominant powers use "culture" to maintain subordination and how subordinated peoples use "culture" to resist exploitation. 4 cr.

480. Art in Society

Brings students into relationship with classical visual and performing arts. Students attend lectures about the arts and live performances of music, theatre, and dance; take trips to visit museums and view architecture. Students read relevant materials and write about each art work experienced. Special fee. 4 cr.

506. Internship

Based on appropriate career-oriented work experience found with the aid of Career Services' Job Locator Program or with established national/international internship programs or preprofessional jobs initiated by the student. Prereq: permission for A.A. degree students only; contact Career Services. 1–4 cr. Cr/F.

585, 586. Foreign Exchange

Juniors and seniors may spend a semester or year in Canada at one of eleven colleges and universities in Nova Scotia or one of eighteen participating institutions in Quebec. Possible disciplines include public relations, hospitality management, and computer science. Eligibility requirements include U.S. citizenship, junior or senior standing, and good academic achievement. For more information, contact the Center for International Education.

595. Winterim Topics:

Concentrated interdisciplinary exposure to a particular culture or locale off campus during the winter term. Includes anthropological, artistic, biological, cultural, environmental, or geographical, historical, political, sociological, and other aspects of a culture, country, or locale. May be repeated to a maximum of 8 cr. 1–4 cr.

604H. Honors Senior Thesis

Final requirement for graduation with University Honors. Intended for honors students in majors that do not offer honors work. Open by special permission to other honors students. 4 cr. May be repeated for a maximum of 8 cr. IA.

606. Internship

Based on appropriate career-oriented work experience found with the aid of Career Services' Job Locator Program or with established national/international internship programs or preprofessional jobs initiated by the student. B) College of Life Sciences and Agriculture; C) College of Liberal Arts; D) College of Engineering and Physical Sciences; E) Whittemore School of Business and Economics; F) School of Health and Human Services. May be repeated to a maximum of 8 cr. Prereq: permission contact Career Services. 1–4 cr. Cr/F.

655–656. London Program

Enables students to pursue a semester or academic year of study in UNH's program in London. En-

gland. Students must be admitted into the London program before enrolling in the course. For information and application forms, consult the program secretary, 53 Hamilton Smith Hall. Special fee. Variable to 15 cr. Cr/F. IA grade will be assigned until official transcript is received.)

657. Budapest University of Economic Sciences Exchange Program

Coordinated through the Institute for Policy and Social Science Research, this program is designed for students studying in the social sciences or related disciplines who wish to study abroad. The program is conducted each fall in Budapest, Hungary. The English language courses offered transfer as general education, major, or elective credit within the departments of sociology, economics, political science, history, tourism, communication, and other social sciences. Students accompanied by a UNH professor. Prereq: first-year student. Special fee: 0-16 cr.

685, 686. Study Abroad

Enables students to pursue a semester, summer, or an academic year of foreign study in programs other than those offered by UNH. Students must provide the University Committee on Study Abroad with detailed information about the curriculum and must receive approval from that committee before registration. Credit awarded only upon successful completion of the course of study and after receipt by the committee of an official transcript. Interested students should consult the Center for International Education. Prereq: permission. Special fee. Financial aid requires a minimum of 6 credits. Variable to 16 credits. Cr/I.

698. Summer Research Project

Guided independent research or student/faculty collaborative research. Open to recipients of summer undergraduate research fellowships or by permission of the Undergraduate Research Opportunities Program. 0-8 cr. (Summer only.)

International Affairs (IA)

Center for International Education
(For program description, see page 89.)

401. International Perspectives: Science, Business, and Politics

Examination of the interaction of developments in science, economics, and politics as they shape international affairs. Topics include science and technology, world trade and investment, politics, cultural values, and ethics in world affairs. Team-taught, modular course. Prereq: permission, IA major. 4 cr.

501. Global Issues in International Affairs

Introduction to basic issues in international and global relations in the contemporary world with some emphasis on the changing nature of relationships among political, social, and economic units. Prereq: permission, IA major. 4 cr.

#599. Special Topics

Subjects vary. Course descriptions are available at the Center for International Education. Some semesters, this course will satisfy specific requirements for the dual major in international affairs. For specific information in a particular semester, contact the Center for International Education. 4 cr.

685-686. Foreign Experience

Dual majors will register for IA 685-686 for foreign experience situations not covered by the foreign language departments' Study Abroad (685-686). Most commonly the foreign experience consists of study in a non-English-speaking country for a year, a semester, or a summer (eight weeks). It should be in a country where the language spoken is the one the student presents to satisfy his/her foreign language requirement. The University Committee on International Studies will consider exceptions to this rule upon petition explaining reasons for the alternative experience. Prereq: permission. Special fee. Variable transfer credit. (Financial aid requires a minimum of 6 cr.) Cr/F.

699. Topics in International Affairs

Special topics course with varying subject matter and format. Study of areas and subjects not covered by existing courses. Center for International Education provides information on current offerings. Recommended as a dual major elective. 4 cr.

701. Seminar in International Affairs

Capstone of the dual major in international affairs. To be taken after completion of the foreign language and foreign experience requirements. Strong emphasis on research and analysis, use of foreign language skills, writing, and criticism. Prereq: IA 501; IA major. 4 cr.

Italian (ITAL)

Department of French and Italian
(For faculty listing, see page 142.)

New students will be assigned to the proper course upon consultation with the section coordinator. Students educated in Italian-speaking countries may not register for courses below the 700 level. No UNH or transfer credit will be given for elementary-level college courses in Italian if students have had two or more years of Italian in secondary school.

The minor in Italian consists of five courses beyond the 401-402 sequence. These courses may include ITAL 503, 504, 631, 651, 652, 795, 796, or one course taught in English in a related field. The minor provides a thorough study of grammar, critical reading and writing, and an introduction to Italian culture and civilization.

401-402. Elementary Italian

For students without previous training in Italian. Aural comprehension, speaking, writing, reading, labs. (No credit for students who have had two or more years of Italian in secondary school; however, any such students whose studies of Italian have been interrupted for five years should consult the section coordinator about possibly receiving credit.) Special fee: 4 cr.

425. Introduction to Italian Studies

Designed for students interested in exploring Italian language and culture. Language learning through various practical communicative activities. Culture learning by means of guest speakers and visuals. Prepares for ITAL 401-402. Does not satisfy foreign-language proficiency requirement. Special fee: 4 cr. (Offered summers only. Not offered every summer.)

503-504. Intermediate Italian

A complete review of the fundamentals of grammar and syntax. Selected readings as a general introduction to Italian civilization and culture. Labs and films. Special fee: 4 cr.

621. Italian Literature in Translation, 13th-16th Centuries

Major works of fiction and nonfiction, reflecting ideas and taste during the first three centuries of Italian history. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. Special fee: 4 cr. (Not offered every year.)

622. Italian Literature in Translation, 18th-20th Centuries

Major trends in post-Renaissance thought and culture in Italy. Readings, discussions, papers in English. No more than one course in English may be counted toward the minor. Special fee: 4 cr. (Not offered every year.)

631. Advanced Italian Conversation and Composition

Rapid review of basic grammatical structures and in-depth study of more complex linguistic patterns. Vocabulary building. Frequent written compositions and oral presentations using materials on contemporary culture taken from the various media. Phonetics and oral/aural skills development in lab and class. Prereq: C or better in ITAL 504 or permission. Special fee: 4 cr.

651. Introduction to Italian Culture and Civilization I: Middle Ages, Renaissance, Baroque
Survey of major representative writers and artists, studied against the backdrop of social and cultural history. Dante, Petrarch, Boccaccio, Machiavelli, Marino. Pre- or coreq: ITAL 631 or permission. Special fee: 4 cr. (Not offered every year.)

652. Introduction to Italian Culture and Civilization II: Age of Enlightenment, Romanticism, Modernism

Survey of major representative writers and artists, studied against the backdrop of social and cultural history. Parini, Goldoni, Leopardi, Manzoni, Pavese, Calvino. Pre- or coreq: ITAL 631 or permission. Special fee: 4 cr. (Not offered every year.)

795, 796. Independent Study in Italian Language and Literature

Individual guided study. Prereq: permission. 1-4 cr. (Not offered every semester.)

Japanese (JPN)

Department of German and Russian
(For faculty listing, see page 145.)

New students will be assigned to the proper course on the basis of an achievement test. Transfer credit will not be given for elementary-level college courses in foreign language if a student has had two or more years of the foreign language in secondary school.

401-402. Elementary Japanese

Elements of Japanese grammar. Oral practice and written drills designed to achieve a mastery of basic grammatical patterns. Reading of graded exer-

cises introducing the student to written Japanese (Hiragana and Katakana) and Chinese characters used in contemporary Japan. Labs. (No credit for students who have had two or more years of Japanese in secondary school; however, any such students whose studies of Japanese have been interrupted for a significant period of time should consult the department chairperson about possibly receiving credit.) Special fee. 4 cr.

503-504. Intermediate Japanese

Review of Japanese grammar. Reading of prose and practice in oral and written expression. Labs. Prereq: JPN 402 with a grade of C (2.00) or better or permission of instructor. Special fee. 4 cr.

631-632. Advanced Japanese

Advanced spoken and written Japanese to attain aural-oral fluency. Advanced reading and composition. Prereq: JPN 504 or permission of instructor. Special fee. 4 cr.

795, 796. Independent Study in Japanese

Open to highly qualified juniors and seniors. To be elected only with the permission of department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. 1-4 cr.

Justice Studies (JUST)

(For program description, see page 23.)

601. Field Experience in Justice Studies

Placement by the justice studies coordinator in a position related to the justice system (e.g., criminal courts, corrections, civil courts, law firms, policy-making agencies, law enforcement agencies); weekly seminar meetings. Prereq: permission; seniors only. 4 or 8 cr. Cr/F.

Kinesiology (KIN)

(For program description, see page 76.)

Chairperson: Michael A. Gass

Professors: Ronald C. Croce, Michael A. Gass, Robert Kertzner

Associate Professors: Stephen H. Hardy, Neil B. Vroman, Walter E. Weiland

Assistant Professors: Heather Barber, Thomas R. Barstow, Toni Bruce, Robert W. Kenefick, John P. Miller, Timothy J. Quinn, Daniel R. Sedory, Scott D. Wurdinger

Instructors: Kerrriann Catlaw, Susan E. Goodwin, Kenneth T. Hult, David W. Lockett

Adjunct Faculty from the Departments of Intercollegiate Athletics

Adjunct Lecturers: James H. Boulanger, M. William Bowes, Edward Datti, James H. Urquhart

The Major Program

Prospective kinesiology majors should refer to page 76 for information regarding the major programs.

Program Fees

Fees are charged for off-campus activities such as backpacking, canoeing, ice climbing, rock climbing, and for courses that use special equipment. Students with physical limitations are encouraged to participate in the program on a modified basis. KIN 410-457 may be repeated once for credit. For specific course requirements, prerequisites, and fees, consult the department chairperson.

410. Cardiopulmonary Resuscitation

Appropriate actions for survival from cardiac arrest and foreign body airway obstruction. Recognition of the early warning signs of cardiovascular disease. Leads to certification by the American Heart Association. Special fee. .5 cr. Cr/F.

Half-Semester Course (.5 credits)

462. Basic Canoeing

Full-Semester Courses (1 credit each)

447. Lifeguard Training

452. Weight Training

#454. Special Topic

457. Aerobic Activities

Theory Courses

500. Historical and Contemporary Issues in Physical Education

Topics include relationship to medicine, social reform, and education; growth of the profession and its linkage to cognate fields of knowledge; current legal, ethical, and political issues in exercise, sport, and physical training. Open to KIN students in pedagogy option, undeclared HHS students, undeclared liberal arts students. 4 cr.

501. First Aid—Responding to Emergencies

Covers the nationally accredited American National Red Cross First Aid—Responding to Emergencies and BLS-CPR professional rescuer course. May not repeat for credit. 2 cr. Cr/F.

502. Basic Athletic Training

Introductory course on techniques for prevention, recognition, treatment, and rehabilitation of common athletic injuries. Course is a pre- or corequisite for beginning clinical experience in athletic training rooms. Lab. Pre- or coreq: ZOOL 507. Coreq: KIN 503A or 503B, Basic Athletic Training Lab. 3 cr.

503A. Basic Athletic Training Lab

Theory and techniques of protective taping and wrapping to prevent common athletic injuries. Coreq: KIN 502. Only for students not seeking entry in the athletic training option. Special fee. 1 cr. Cr/F.

503B. Basic Athletic Training Lab

Theory and techniques of protective taping and wrapping to prevent common athletic injuries. Techniques of transfer and transportation of injured athletes. Identification of anatomical landmarks. Observation and practice in the university training rooms. Coreq: KIN 502. Required for full-time admission into the athletic training option. Special fee. 1 cr. Cr/F.

504. Measurement and Evaluation in Physical Education

Introductory elements essential to the use of measurement and evaluation as an integral part of physical education's instructional process. Use of descriptive statistics and test administration and selection for the purposes of assigning grades and justifying program effectiveness. 4 cr.

505. Activity Assisting

Student assists in the conduct of an activity course under the direct supervision of the course instructor and receives same number of credits as that of the activity course. Prereq: sophomore standing. May repeat once for credit with a different activity course. 0.5-2.0 cr. (maximum: 4 cr.) Cr/F.

#520. Water Safety Instructor Course

Analysis of aquatic techniques: methods of teaching swimming, diving, and lifesaving. A.R.C. instructor certification awarded to candidates with high caliber of personal skill, knowledge, and teaching ability. Course will include A.R.C. Emergency Water Safety. 2 cr.

#521. Theory of Coaching Basketball

Individual and team offense and defense; rules of the game. Problems in team handling and conditioning. Prereq: permission. 2 cr.

522. Theory of Coaching Football

Systems of play: team and individual offensive and defensive fundamentals; theory and strategy of team play; coaching methods, physical conditioning; rules. 2 cr.

523. Theory of Coaching Hockey

Basic hockey skills. Fundamentals of individual and team offense and defense; coaching methods; rules. Prereq: students must have basic skating skills prior to taking course. 2 cr.

#524. Theory of Coaching Baseball

Batting and fielding; fundamentals of each position; problems of team play; coaching methods; physical conditioning; rules. Prereq: permission. 2 cr.

525. Theory of Coaching Soccer

Fundamental and advanced skills and techniques; offensive and defensive principles of team play; tactical formations and strategy; methods of training and practicing; rules. Prereq: permission. 2 cr.

526. Theory of Coaching Wrestling

Theory, practical teaching methods, and the development of skills and techniques from basic maneuvers to the more advanced. 2 cr.

528. Theory of Coaching Track and Field

Starting, sprinting, middle-distance and distance running, relay, hurdling, high and broad jumping, pole vault, shot putting, discus, hammer, and javelin. Methods of training and practicing. Prereq: permission. 2 cr.

#529. Theory of Coaching Gymnastics

Theory, practical teaching methods, and officiating. Construction of gymnastic routines, from elementary to international level. Prereq: permission. 2 cr.

#530. Theory of Coaching Swimming and Diving

Philosophy, historical development, and psychological theories of coaching. Mechanical and kine-

biological aspects of the competitive strokes and required optional dives, low and high board. 2 cr.

#531. Theory of Coaching Field Hockey

Analysis of field hockey coaching techniques. New systems of play; use of interval training for pre-season conditioning and in-season practices. Prereq: permission. 2 cr.

#532. Theory of Coaching Racquet Sports

Thorough and in-depth knowledge of the administration and coaching of major racquet sports: badminton, racquetball, squash, and tennis. Prereq: permission. 2 cr.

533. Basic Scuba

Pool and classroom instruction in scuba fundamentals, N.A.U.I. certification for successful completion of course and three open-water dives. Strong swimming ability required. Special fee. Lab. 2 cr.

540. Top Rope Rock Climbing

Introduction to the skills and safety systems associated with beginning rock climbing (e.g., top rope rock climbing, rappelling, bouldering) and the management of rock climbing in adventure programs. Prereq: permission. Special fee. Lab. 2 cr.

541. Management of Initiatives and Challenge Courses

Management of adventure initiatives and challenge courses as an educational and therapeutic medium with a variety of populations. Focus on skill development, processing techniques, rescue skills, evaluation techniques, and applications to specific client groups. Prereq: permission. Special fee. Lab. May be repeated. 4 cr.

542. Summer Backpacking Skills

Introduction to the basic summer backpacking skills, including equipment, nutrition, fitness, minimum impact camping, safety, beginning map and compass skills, leadership issues, and environmental ethics. Emphasis on technical applications and the implementation of these skills in adventure programs. Prereq: permission. Special fee. Lab. 2 cr.

543. Winter Backpacking Skills

Introduction to winter backpacking and wilderness living skills, including equipment, nutrition, minimum impact camping, snow physics, safety and medical issues, backcountry skiing techniques, snowshoeing, snow shelters, leadership issues, and environmental ethics. Emphasis technical applications and the implementation of these skills in adventure programs. Prereq: permission. Special fee. Lab. May be repeated up to 4 credits. 2 cr.

544. Map and Orienteering Skills

Advanced course focusing on wilderness and topographical map reading, route finding, terrain analysis, trip planning, and map-compass orienteering. Students will be provided with practical experience with all facets of overland/wilderness navigation and orienteering. Prereq: permission. Special fee. Lab. May be repeated up to 4 credits. 2 cr.

545. Wilderness Survival and Rescue

Advanced course focusing on wilderness search and rescue techniques, including wilderness first aid skills, preventing and preparing for survival situations, and coordinating search techniques. Wilderness Emergency Medical Technician (WEMT)

status and skills highly desired. Prereq: permission. Special fee. Lab. 2 cr.

547. Lead Rock Climbing

Advanced course focusing on lead rock climbing skills, including equipment, climbing techniques, multiple pitch route techniques, safety systems, and high-angle rescue skills. Prereq: permission and previous experience in rock climbing at the 5.7 level or higher. Special fee. Multiple labs. 3 cr.

#548. High Altitude Mountaineering

Knowledge, skills, and attitudes of mountaineering at high altitudes. Focus on techniques used when leading adventure experiences with groups for extended periods of time and distances. Covers backcountry skiing, advanced climbing techniques, avalanche issues, safety systems, and rescue skills. Prereq: permission; previous backpacking and climbing experience. (KIN outdoor education majors only.) Special fee. Multiple labs. May be repeated. 4 cr.

550. Outdoor Education Philosophy and Methods

The rationale and basic structure of effective teaching techniques and procedures for outdoor education; uses an interdisciplinary approach; 3 lecture hours and field experience required. Special fee. 4 cr.

560. Psychology of Sport

Introduction to the discipline of sport psychology. Explores behavioral, cognitive, and social psychology in relation to elite, collegiate, and high school athletes, as well as recreational sport participants. 4 cr.

561. History of American Sport and Physical Culture

Major individuals, organizations, and trends that influenced the development of an American industry in sports, active recreation, and physical fitness. Readings, discussions, and research projects provide experience in the craft and utility of history. 4 cr.

562. Introduction to Sports Information

Basic concepts of sports information related to preparation of material for public relations including radio, television, and publications. Includes guest lecturers and work in the UNH Sports Information Office. 4 cr.

563. Secondary Physical Education Pedagogy

Planning, implementing, and evaluating curricular models of instruction, as well as effective teaching strategies and styles relevant to secondary (grades 6-12) physical education is studied. Content and process knowledge is applied through microteaching episodes with peers. Systematic observation is introduced for the purpose of reflecting on teaching behaviors. Prereq: EDUC 500. Lab. 4 cr.

585. Emergency First Responder

Standards of practice that conform to the content of the U.S. Department of Transportation curriculum for First Responder. Initial evaluation and stabilization of patients at the scene of medical emergencies; CPR; and other basic medical care for illness and injury. Prepares the student for the New Hampshire First Responder Certification Examination. Prereq: permission. Lab. Special fee. 3 cr. Cr/F.

600. Movement Fundamentals

Includes content relevant to teaching elementary physical education. Students learn how to perform fundamental movement skills, design lessons based on skill themes, and the relationship of both to the content areas of educational dance and gymnastics. Prereq: permission. 3 cr.

601. Lifetime Sports

Provides teachers with the technical knowledge as well as the psychomotor and pedagogical skills necessary for instructing lifetime activities, including tennis and badminton. Prereq: permission. 3 cr.

602. Adventure Activities

Provides teachers with the technical, physical, and teaching skills necessary to instruct adventure activities, initiatives, ropes course management, and orienteering. Prereq: KIN pedagogy major or permission. Special fee. 3 cr.

603. Team Sports

Provides teachers with the technical, physical, and pedagogical skills necessary for instructing team sports, including soccer and volleyball. Prereq: KIN pedagogy major or permission. 3 cr.

604A. Rhythmic Forms I

Emphasizes folk, square, and social forms of dance. Content focuses on the development of individual performance skills as well as the ability to design, implement, and evaluate learning episodes relative to the specific dance form. Prereq: KIN 600; permission. Coreq: KIN 604B. 1.5 cr.

604B. Rhythmic Forms II

Introduces student to modern dance and creative movement. Content focuses on the development of individual performance skills as well as the ability to design, implement, and evaluate learning episodes relative to the specific dance form. Prereq: KIN 600; permission. Coreq: KIN 604A. 1.5 cr.

605. Activity Teaching

Student teaches an activity course under supervision of activity program coordinator and receives twice the number of credits as that of the activity course. Check with activity program coordinator for available activity courses each semester. Prereq: sophomore standing; permission; current certification in activity (if appropriate). May repeat once for a maximum of 8 cr. 1-4 cr. Cr/F.

606. Secondary Physical Education Practicum

Students apply secondary content and process knowledge within microteaching experiences with peers. Students also teach grades 6 through 12 within the public school setting. Emphasizes lesson, unit plan design, and systematic observation. Prereq: KIN 563; permission. 3 cr.

607. Biology of Aging

Biological mechanisms of the aging process, with special emphasis on human aging; changes due to chronic disease. 4 cr.

608. Track and Field

Students acquire the foundational skills and learn about teaching strategies specific to the sport. Open only to KIN pedagogy majors. 1.5 cr.

609. Gymnastics

Students acquire the foundational skills and learn about teaching strategies specific to the sport. Open only to KIN pedagogy majors. 1.5 cr.

620. Physiology of Exercise

Acute and chronic effects of exercise. Muscle physiology, respiration, cardiac function, circulation, energy metabolism, and application to training. Prereq: ZOOL 507-508. 4 cr.

621. Exercise Laboratory Techniques

Administration of graded exercise tests on treadmill, cycle ergometer, and stepping bench. Monitoring physiological variables during the graded exercise test. Calculation of metabolic data resulting from the exercise test. Prereq: KIN 620. Special fee. 3 cr.

622. Principles and Applications of Health and Fitness

Provides students with theoretical, entry-level information relative to physical conditioning from childhood through adulthood, followed by practical, hands-on experience. Prereq: KIN 620; permission. 3 cr.

624. Physical Conditioning/Exercise Leadership Practicum

A) Aerobics class; B) Weight training class. Field experience teaching physical conditioning or practicing exercise leadership under appropriate supervision. Prereq: KIN 620; permission. 3 cr.

625. Foundations in Fitness Programs I

Fitness program development and fitness testing. General areas include program, equipment and personnel selection, legal considerations, budgets, strength testing, cardiovascular testing, and flexibility assessments. Students participate in the UNH Employee Fitness Program. Open to exercise science majors only. Prereq: KIN 621. Lab. 4 cr.

626. Foundations in Fitness Programs II

Program management and marketing as well as personal training. Important topics include leadership, evaluation, market analysis, basic promotional techniques, exercise prescription, goal setting, motivation, and adherences. Students participate in the UNH Employee Fitness Program. Lab. Open to exercise science majors only. Prereq: KIN 621, 625. 4 cr.

634. Sport Data Analysis

Applied course that analyzes traditional sports "stats" but emphasizes using basic statistical tools to evaluate sports data. Guest lecturers and practical problems are an inherent part of the course. Prereq: statistics course or permission. 4 cr.

635. Sport in Literature

Survey of sport as it is recorded in literature and film, both classical and contemporary. Consideration of major theories for interpreting literature. Writing projects by students. 4 cr.

#640. The Sport Industry

An overview of the various segments that make up the sport industry, including governing bodies, the mass media, sporting goods firms, players and coaches associations, public regulatory agencies, and secondary and higher education. Readings and discussions consider the development and structure of each segment, interactions between segments, legal issues, and policy implications. While the course will focus on the United States, there will be some comparison to other countries. 4 cr.

650. Internship

Experiential learning in a setting appropriate to the major option and to student's objectives. An 8-cr.

internship will require a minimum of 600 hours experience; fewer credits will require proportionally fewer hours. Prereq: junior/senior major; permission. 2-8 cr. Cr/F.

A) Exercise Science. In an agency that offers physical activity programs of prevention, intervention, and rehabilitation. Activities include graded exercise testing, prescription, and leadership. Must have completed all requirements for the option. 8 cr.

B) Outdoor Education. Provides an appropriate transition from undergraduate education and future employment in the field of outdoor education. Generally done after students have completed all other requirements for the option. 2-8 cr.

C) Sport Studies. May be on- or off-campus with an approved organization. May be repeated for a maximum of 8 credits. 2-8 cr.

652. Clinical Kinesiology

The science of human movement from biomechanical, neuromuscular, and anatomical perspectives; human muscular, joint, and connective tissue anatomy; and actions of skeletal muscles are detailed. Prereq: HHS major; ZOOL 507-508. Coreq: KIN 653A or 653B. 3 cr.

653A. Musculoskeletal Assessment

Principles and methodology of joint range of motion, body mechanics, and muscle strength evaluation. Uses muscle palpation, goniometry, manual muscle testing, hand-held dynamometry, electromyography, and human projections to facilitate understanding of musculoskeletal anatomy and assessment. Special fee. Prereq: ZOOL 507-508. Coreq: KIN 652. 2 cr.

653B. Biomechanical Analysis of Movement

Principles and methodology of analyzing posture and movement. Uses muscle palpation and testing, electromyography, and cinematography to facilitate students' understanding of movement analysis. Special fee. Prereq: ZOOL 507-508. Coreq: KIN 652. 2 cr.

658-659. Advanced Athletic Training

Factors involved in the care and recognition of athletic injuries. Mechanisms, etiology, and pathology. Clinical signs and symptoms. Techniques for performing appropriate test and assessment procedures. First aid procedures. 658 emphasizes fractures, soft tissue injury, and the lower extremities; 659 emphasizes upper extremities, head, and trunk. Prereq: KIN 502; ZOOL 507-508. Lab. 4 cr.

658 LO1-659 LO1 Advanced Athletic Training Lab

Techniques and practice for performing test and assessment procedures for athletic injuries. Prereq: KIN 503B. Coreq: KIN 658. Coreq: KIN 659. 1 cr.

660. Therapeutic Exercise in Athletic Training

Rationale, use, and application of exercise in athletic injury rehabilitation. Basic components of designing and implementing rehab programs. Assessment of physical/injury status. Prereq: KIN 652; 653A. Coreq: KIN 661. 3 cr.

661. Therapeutic Exercise Laboratory

Students learn and practice psychomotor techniques associated with rehabilitative and conditioning exercise. Coreq: KIN 660. Lab. 1 cr.

662. Therapeutic Modalities in Athletic Training

Rationale, use, and application of therapeutic mo-

dalities in athletic injury rehabilitation. Principles of electrophysics and biophysics. Physiological effects on body tissues, indications and contraindications, and clinical applications. Prereq: KIN 502; 502B. Coreq: KIN 663. 3 cr.

663. Therapeutic Modalities Laboratory

Students use and practice with the devices, machines, and techniques associated with the treatment and rehabilitation of athletic injuries. Coreq: KIN 662. Lab. 1 cr.

665. Laboratory Practicum in Athletic Training

Minimum of 200 hours of experience in N.A.T.A.-approved athletic training clinical sites under the supervision of a N.A.T.A.-certified athletic trainer. 2 cr. Cr/F.

665A, Level I: General training room assignment and/or low-risk sport. Prereq: KIN 503B; permission. 2 cr.

665B, Level II: Assist with moderate- or high-risk sport. Prereq: 665A; permission. 2 cr.

665C, Level III: Assignment to moderate-risk sport as primary student. Prereq: 665B; KIN 658-659; permission. 2 cr.

665D, Level IV: Assignment to high-risk sport as primary student. Prereq: 665C; permission. 2 cr.

665E, Level V: Off-campus internship. Prereq: 665A; permission. 2 cr.

671. Motor Learning and Control

Study of the processes underlying human motor functioning. Emphasis on an understanding of motor behavior that specifically integrates psychology, motor skill acquisition, motor control, motor performance, and pedagogy. Practical application is required in the motor laboratory. Prereq: KIN 504. Special fee. Lab. 4 cr.

675. Motor Development

Characteristics of motor behavior across time, and the role of movement in children's and adolescents' total development. Growth processes, stage theory, as well as the relationship of maturation, experience, and the environment to motor development. Prereq: KIN 600; permission. 4 cr.

681. Theory of Adventure Education

Basic skills and theories necessary in developing adventure education activities. Prereq: two outdoor adventure activity classes and permission. Three hours of lecture and field experience. Special fee. 4 cr.

682. Outdoor Leadership

Provides students with leadership experience and new skills in vigorous environments. Students must have previous outdoor skill experience. Three class hours per week plus two weekend field experiences. Offered both semesters—may be taken once in each semester. Special fee. 2 cr. Cr/F.

683. Organization and Administration of Outdoor Education

Study of the administration of outdoor education programs using a variety of organizational models. Students develop and, through simulated exercises, manage a program. Field experience. Prereq: KIN 550; junior standing. Special fee. 4 cr.

685. Emergency Medical Care: Principles and Practices

Basic emergency health care, including cardiopulmonary resuscitation (CPR), trauma patients, medical and environmental emergencies, and childbirth.

Includes clinical experience with a local hospital and ambulance service. Prepares the student for the National Registry of EMTs Examination. Prereq: permission. Special fee. Lab. 4 cr. Cr/F.

686. Wilderness Emergency Medical Care

Standards of practice for professionals providing emergency medical care in remote areas. Consideration of prolonged transport times, severe environments, and the use of portable and improvised equipment. Topics include wilderness trauma and illness, search and rescue operations, and environmental emergencies. Certification upon course completion provided by the National Association for Search and Rescue (NASAR). Prereq: current EMT-Basic and CPR certifications; permission. Special fee. 3 cr.

692. Elementary Physical Education Pedagogy

Planning, implementing, and evaluating a movement-based curricular model of instruction relative to teaching preschool and elementary-aged children physical education. Systematic observation, teaching strategies and styles, lesson design, and methods of integrating academic subject matter into elementary physical education. Prereq: KIN pedagogy or FS major; KIN 600, 675; permission. 4 cr.

693. Teaching Assistantship

B) Exercise Leader; C) Outdoor Education; D) Science Labs; E) Cardiac Rehabilitation. Students serve as teaching assistants in assigned class activities. Assignments to be made by the class instructor may include teaching assistants' and administrative duties. May take two different sections. Prereq: junior standing; permission of adviser and instructor. (Max. 4 cr.) 2 cr. Cr/F.

696. Independent Study

An advanced, individual scholarly project under the direct supervision of a faculty member. Prereq: junior or senior; permission. 2-4 cr. to a maximum of 8 cr.

699H. Honors Project

Project first involves tutorial sessions to introduce the student to the experimental design, after which a research question is developed. After an appropriate literature review, the student collects and analyzes data, forms conclusions, and prepares a written report on the findings. 4 cr.

700. Applied Statistics

Statistical procedures and associated elements of basic research design with direct, practical application to areas within physical education and other health disciplines. Prereq: KIN 504 or equivalent. 4 cr.

706. Neurology

Development, morphology, internal configuration, physiology, histology, function, and pathology of the human nervous system. Labs consist of clinical case studies, brain dissections, and videos/slides. Prereq: ZOOL 507-508. Special fee. Lab. 4 cr.

710. Organization and Administration of Athletic Training Programs

Principles of organization and administration of athletic training programs, management of personnel, legal aspects, relation of athletic trainer to athletic programs and sports medicine team. 4 cr

715. Seminar in Athletic Training

Career issues and special topics in athletic training. Students required to submit and present a term project on an assigned topic. Prereq: KIN 658-659; athletic training majors only. 4 cr.

721. Science and Practice of Strength Development

Designed to provide students with exposure to the knowledge and practical experience necessary for establishing strength development programs in a variety of populations including healthy, athletic, and higher-risk individuals. Program design, correct lifting techniques, physiological adaptations, and organization and administration of programs highlighted. Fundamentals regarding selection of programs and equipment, spotting techniques, as well as ways to assess strength and power in humans without expensive equipment included. Prereq: KIN 620; 621; permission. 3 cr.

722. Graded Exercise Testing and Exercise Prescription

Graded exercise testing and its application to the prescription of exercise. Special emphasis on the patient with cardiovascular disease. Prereq: KIN 620. 4 cr.

725. Motor Control Issues in Dysfunction

In-depth analysis of current motor control/learning theories from the fields of neurophysiology, psychology, and motor development as they relate to normal and pathological movement. Cognitive, anatomical, biomechanical, and physiological variables constraining movement organization discussed. Application of basic research findings for appropriate therapeutic approaches to motor dysfunction. Prereq: kinesiology and neurology or motor learning or equivalent. Lab. 4 cr.

732. Electrocardiography

Introduction to the reading and assessment of EKGs. Prereq: KIN 620 or equivalent. 4 cr.

733. Environmental Physiology

Human physiological response to both acute and chronic effects of various environmental conditions, such as heat, cold, altitude, and air pollution. Prereq: KIN 620 or permission. 4 cr.

734. Advanced Exercise Leadership

Group/individual exercise programs for healthy and high-risk populations. Topics include exercise programming, exercise prescription, decision making, safety and emergency procedures, and administrative concerns. Prereq: KIN 620, 621, 722, 732. permission. 4 cr.

735. Advanced Scuba

Classroom, pool, and open-water instruction in advanced diving techniques. Topics covered are navigation, search and recovery, boat diving, low visibility, surface supplied diving, ice diving, diving accident management, hyperbaric medicine underwater physiology, and scientific research methods for divers. Prereq: open water certification; permission. Special fee. Lab. 3 cr

740. Athletic Administration

Introduces basic management components and processes used in the successful administration of school and college athletic programs. Topics include: planning, organizing, and managing sports programs, personnel, and policies; game scheduling, finances and facilities, equipment and event

management; student support services; and key legal issues. Prereq: permission. 4 cr.

741. Sport in Society

Investigation of interrelationships among sport, culture, and society in an attempt to understand better the role and function of sport in contemporary society. Overview of selected sociocultural factors that influence and result from participation in sports. Prereq: SOC 400 or permission. 4 cr.

742. Diagnostic Motor Assessment

Overview of diagnostic and prescriptive procedures used in special physical education. Psychomotor assessment instruments used by practitioners in the field are described that can be applied when discerning level of performance in children with special needs. Prereq: measurement procedures in physical education. Lab. 3 cr.

743. Sport Marketing

Survey of concepts and processes used in the successful marketing of sport programs and events. Special emphasis on the unique or unusual aspects of sport products, markets, and consumers. Prereq: MKTG 550 or permission. 4 cr.

744. Medical and Exercise Issues of Disabling Conditions

Study of disabilities caused by anomalies found in the neurological, cardiorespiratory, sensory, and musculoskeletal systems. Addresses exercise and programming techniques necessary for physical and motor development relative to present physiological functioning. Prereq: kinesiology or exercise physiology or equivalent. 3 cr.

754. Human Motion Analysis

In-depth analysis of human motion and the techniques of motion analysis. Emphasis on the broader aspects of human movement such as the kinematic variables of velocity, acceleration and position and on the myoelectrical components of voluntary movement. Prereq: permission. Special fee. 4 cr.

750. Theories of Motivation in Sport and Exercise

Social cognitive theories of achievement motivation as they relate to sport and exercise participation. Special attention will be directed at social interactions in sport. Prereq: PSYC 401; permission. 4 cr.

#760. Application of Research to Teaching and Coaching

Pertinent research findings in sport psychology, sport sociology, exercise physiology, biomechanics and kinesiology, and motor learning and development. Prereq: KIN 504 or equivalent, permission. 4 cr.

761. Senior Seminar in Sport Studies

Discussions of sport studies topics, such as gambling, aggression, media, gender, race, class. Students will consider different disciplinary approaches to these topics and develop projects to advance knowledge related to their interests. Prereq: KIN 561; 741; 780;/or permission. 4 cr

770. Psychological Skills in Performance

Provides essential elements of psychological skills training in performance. Focuses on mental aspects that enhance or inhibit physical performance. Theory, direct skill acquisition, and skill applica-

tion are all integral to this course. Topics include: progressive relaxation, meditation, hypnosis, goal setting, and stress inoculation testing. Special fee. Prereq: PSYC 401 or KIN 780. 4 cr.

780. Psychological Factors in Sport

Factors of outstanding athletic achievement; psychological variables in competition; the actions and interactions of sport, spectator, and athlete. Special attention directed to strategies for coaches, teachers, and athletic trainers to utilize sport psychology in their professional practice. Prereq: PSYC 401 or KIN 671. 4 cr.

781. Special Physical Education Pedagogy

Overview of special physical education. Addresses modifying instruction, expectations, and learning environment to accommodate physical and motor behaviors of students with disabilities. Prereq: permission. Lab. 4 cr.

782. Therapeutic Applications of Adventure Programming

Examines the use of adventure activities as elements of therapeutic treatment plans. Incorporates theoretical seminars and associated practical experiences. Prereq: KIN 550 or 681; permission. 4 cr.

783. Elementary Physical Education Practicum

Provides opportunities for developing and refining elementary and special physical education movement content with pedagogical processes. Emphasis on demonstrating competence in teaching and establishing a least-restrictive learning environment. Prereq: KIN 675; permission. 3 cr.

#785. Applied Behavior Management

Overview of applied behavior management procedures used in special physical education. A number of investigations and approaches used by researchers and practitioners in the field are described, practiced, and critically analyzed. Practice and theory of behavior management, to be applied with children who continually misbehave, exhibit behavior disorders, or have an emotional disturbance. Prereq: permission. Lab. 4 cr.

790. Social and Health Issues in Sport Psychology

Current trends in social and health psychology as they pertain to the competitive sports environment. Includes adherence motivation, bulimia and anorexia in athletes, self-theory, exercise and depression, and substance abuse in sports. Prereq: PSYC 401 or KIN 671. 4 cr.

798. Special Topics

New or specialized courses not normally covered in regular course offerings. Prereq: permission. May be repeated up to 8 cr. 1-4 cr.

Latin (LATN)

Department of Spanish and Classics

(For program description, see page 34; for faculty listing, see page 191; see also course listings under Classics and Greek.)

New students will initially be assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit

will not be given for elementary-level courses in foreign languages if a student has had two or more years of the foreign language in secondary school.

401-402. Elementary Latin

Elements of grammar, reading of simple prose. (No credit for students who have had two or more years of Latin in secondary school; however, any such students whose studies of Latin have been interrupted for a significant period of time should consult the section supervisor about possibly receiving credit.) Special fee. 4 cr.

501. Review of Latin

Intensive review of Latin grammar and vocabulary. Designed primarily for those whose study of Latin has been interrupted for a year or more and for those who have had only two years of high school Latin. 4 cr.

502. Latin Syntax and Composition

A continuation of LATN 501. Intensive review of Latin syntax; introduction to reading and composition. 4 cr.

503-504. Intermediate Latin

Review. Readings from Cicero, Caesar, Sallust, Livy, Catullus, Horace, Ovid, Plautus, Terence, and Seneca. Prereq: LATN 402 or equivalent. 4 cr.

595, 596. Directed Reading in Latin

Independent study of a classical or medieval Latin author. Prereq: LATN 503, 504, or equivalent. May be repeated. 2-4 cr.

631-632. Latin Prose Composition

Grammar review; study of Latin prose style; English to Latin translation. Prereq: permission. 4 cr.

#751, 752. Cicero and the Roman Republic

Prereq: permission. 4 cr.

753, 754. Advanced Studies in the Literature of the Golden Age

A) Lucretius; B) Catullus; C) Caesar; D) Sallust; E) Vergil; F) Horace; G) Tibullus; H) Propertius; I) Ovid; J) Livy. Major Roman authors from the dictatorship of Sulla to the death of Augustus. Prereq: permission. 4 cr.

#755, 756. Advanced Studies in the Literature of the Silver Age

A) Seneca the Younger; B) Persius; C) Petronius; D) Lucan; E) Statius; F) Quintilian; G) Martial; H) Juvenal; I) Tacitus; J) Pliny the Younger. Major Roman authors from the reign of Nero to the death of Trajan. Prereq: permission. 4 cr.

791. Methods of Foreign Language Teaching

Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

#795, 796. Special Studies in Latin

A) Minor Authors of the Republic; B) Plautus; C) Terence; D) Minor Authors of the Empire; E) Suetonius; F) Latin Church Fathers; G) Medieval Latin; H) Advanced Latin Composition; I) Introduction to Classical Scholarship; J) Latin Epigraphy; K) Italic Dialects; L) Comparative Grammar of Greek and Latin; M) Roman Law. Topics selected by instructor and student in conference. Prereq: permission. 4 cr.

Linguistics (LING)

(For program description, see page 34.)

See also the list of courses approved for the major or minor at the linguistics entry in the front of this catalog.

505. Introduction to Linguistics

Overview of the study of language: universal properties of human language; Chomsky's innateness hypothesis, language acquisition in children, dialects and language variation, language change. Includes an introduction to modern grammar (phonology, syntax, and semantics) and to scientific linguistic methodology. (Also offered as ENGL 505.) 4 cr.

506. Introduction to Comparative and Historical Linguistics

Major language families (primarily Indo-European) and the relationships among languages within a family. Diachronic studies; methods of writing; linguistic change; glottochronology; etymological studies. Some language training and LING 505 desirable. (Also offered as CLAS 506.) 4 cr.

605. Introduction to Linguistic Analysis

Analysis and problem solving in phonology, morphology, and syntax using data from many languages. Emphasis is both practical (learning how to describe the grammar and sound system of a language) and theoretical (understanding languages' behavior). Prereq: LING/ENGL 505, or permission. (Also offered as ENGL 605.) 4 cr.

695. Senior Honors

Open to senior LING majors who, in the opinion of the department, have demonstrated the capacity to do superior work. Prereq: permission. 4 cr.

779. Linguistic Field Methods

Study of a non-Indo-European language by eliciting examples from an informant, rather than written descriptions of the language. Students learn how to work out the grammar of a language from raw data. Prereq: ENGL/LING 505. (Also offered as ENGL 779.) 4 cr. (Not offered every year.)

790. Special Topics in Linguistic Theory

Advanced course on a topic chosen by the instructor. Inquire at the English department office for a full course description each time the course is offered. Topics such as word formation, dialectology, linguistic theory and language acquisition, history of linguistics, language and culture, cross-disciplinary studies relating to linguistics. Barring duplication of subject, may be repeated for credit. (Also offered as ENGL 790.) 4 cr.

793. Phonetics and Phonology

Sound system of English and of other languages viewed from the standpoint of modern linguistic theory, including the following topics: the acoustic and articulatory properties of speech sounds, the phonemic repertoires of particular languages, phonological derivations, and prosodic phenomena such as stress and intonation. Prereq: a basic linguistics course or permission. (Also offered as ENGL 793.) 4 cr.

794. Syntax and Semantic Theory

Relationship of grammar and meaning viewed

from the standpoint of modern linguistic theory. Emphasis on the syntax and semantics of English, with special attention to the construction of arguments for or against particular analyses. Prereq: a basic linguistics course or permission. (Also offered as ENGL 794.) 4 cr.

795, 796. Independent Study

A) Synchronic Linguistics; B) Diachronic Linguistics; C) Linguistic Theory. For students showing a special aptitude for linguistics who desire to pursue a line of inquiry for which no appropriate course is offered. All requests must be forwarded by the faculty sponsor to the director of the Interdepartmental Linguistics Committee. 1-4 cr.

Management (MGT)

(For program description, see page 87.)

Chairperson: Allen M. Kaufman

Professors: Stephen L. Fink, Francine S. Hall, Allen M. Kaufman

Associate Professors: Gene Boccialetti, Ross J. Gittell, Michael J. Merenda, William Naumes, Rita Weathersby

Assistant Professor: Carole K. Barnett

Lecturers: Ann L. Conliffe, Joseph E. Michael, Jr.

580. Introduction to Organizational Behavior

Application of behavioral science concepts to work settings in profit and nonprofit organizations. Individual behavior, interpersonal relations, work groups, relations among groups—studied in the context of organizational goals and structure. Experiential focus. For nonbusiness administration majors and minors. No credit for students who have had MGT 611. 4 cr.

#602. Values in a Managerial Society

The role and influence of values on management decision making. The conflict between traditional values such as material progress, private property, self-interest, etc., and emerging notions about environmentalism, consumerism, worker and product safety, etc., is examined through case discussions and readings. 4 cr.

611. Behavior in Organizations

Behavioral science concepts applied to work settings. Focus on understanding and analyzing individual beliefs, values, goals, perceptions, motivation, commitment, and decision making; group structures and processes (interpersonal skills, communication, conflict resolution, leadership, and team work); organizational control systems (rewards, task design, performance appraisal); outcomes (satisfaction and development of the person as well as the organization); and organizational change. Open to WSBE majors only. No credit for students who have had MGT 580. Prereq: all Group A courses and junior standing. 4 cr.

614. Organization Theory

Provides a framework and concepts for understanding the nature and functioning of organizations of various types—business, educational, health, social service. Enhances students' skills as organizational members and managers. Includes organization structure and design, the organization's external environment, innovation, change, technology, decision making, culture, and

leadership for organizational learning. Case discussions, class exercises, fieldwork. Prereq: juniors and seniors only; prior study of organizational behavior or an equivalent is desirable. 4 cr.

647-648. Business Law I, II

Law of contracts, agency, sales, negotiable instruments, real and personal property, partnership and corporations, with application of the Uniform Commercial Code. Prereq: at least junior standing; permission. 4 cr.

701. Business, Government, and Society

Managerial problem solving and decision making relative to economic, ethical, legal, political, social, and technological aspects of an organization's environment. Case discussion, stakeholder analysis, industrial ecology, and social issues management are important course components. Open to WSBE majors only. Prereq: all Group A and B courses. 4 cr.

703. Strategic Management: Decision Making

Capstone course: integrates the functional discipline skills within the role of the general manager, the external environment of the firm, and the strategic decision process. Uses case analysis, industry and competitive analysis, environmental scanning, and strategic audits. Open to WSBE majors only. Prereq: all Group A and B courses. 4 cr.

#712. Managing Organizational Change

Presents conceptual and technical tools to manage the challenge of change, both unpredictable and predictable. Topics include the process of change; change strategies; change agent roles' internal and external; bases of resistance to change; coping with resistance. Prereq: permission; prior study of organizational behavior or an equivalent is desirable. 4 cr.

713. Management Skills

Focuses on the role of the manager, particularly the interpersonal competencies required to work effectively with superiors and subordinates. Participants develop and critique their behavior in situations that involve interviewing, listening, delegation, conflict management, performance appraisal, and handling problem employees. Includes written and verbal presentations, field study, and videotaping. Prereq: permission. 4 cr.

#714. Conflict in Organizations

Explores the individual and collective sources of conflict in organizations as well as how to manage conflict in two-person or larger organizational groups. Examines methods of conflict resolution ethically and socially. Emphasizes personal and interpersonal skill building through experiential learning. 4 cr.

732. Exploration in Entrepreneurial Management

Examines the management of change and innovation, especially the role of entrepreneur in managing new ventures. Characteristic behavioral, organizational, financial, and marketing problems of entrepreneurs and new enterprises. Prereq: permission. 4 cr.

#745. International Business

Issues and problems confronting managers in the international economy. Emphasis on problems of working across national borders rather than on those encountered within the framework of different national economies, cultures, and institutions. For managers working in a multinational enterprise. Prereq: permission. 4 cr.

755. International Management

Develops an understanding of international ventures and partnerships from the viewpoint of management, leadership, human resource management, and organizational structure and strategy. Emphasis on the impact of culture on business practices and personal effectiveness and on interpersonal skills and global perspectives needed for success in international and multicultural environments. Prereq: junior and senior standing. 4 cr.

770. Strategic Human Resource Management

Role of the human resource professional in leading personnel and human resource administration in organizations. Functions and scope of human resource management past, present, and future; current issues in human resource management; the human resource executive as organizational change agent; the human resource function's initiatives and responses to the changing nature of work. No credit for students who have had HMG 635. Prereq: permission. 4 cr.

#780. Issues for Men and Women as Managers

With changing work patterns and family roles, male and female managers need enhanced skills and sensitivities to work together effectively. Heightens awareness of gender-related attitudes and behaviors as they affect work interactions. Topics include implications of gender expectations and gender-related structures of organizational work for leadership, communication, and career success; impact of stereotypical attitudes and behaviors; issues of sexual attraction and harassment; and considerations for balancing career and family. Prereq: senior standing; permission. 4 cr.

785. Career Management

Develops individual career management skills, including corporate career development. Topics include concepts of career development; issues pertaining to career management in organizations. Helpful for students interested in human resource management. Prereq: juniors and seniors only; permission. 4 cr.

798. Topics in Management

Special topics; may be repeated. Prereq: permission. 4 cr.

Marketing (MKTG)

(For program description, see page 87.)

Chairperson: Jonathan Gutman

Professors: Charles W. Gross, Jonathan Gutman

Associate Professor: Lucy L. Henke

Assistant Professors: Walfrid M. Lassar, James E. Stoddard

Lecturer: Jacalyn L. Cilley

550. Survey of Marketing

Focuses on marketing as the process of planning and executing the conception, pricing, promotion, and distribution of ideas, goods, and services to create exchanges that satisfy individual and organizational objectives. For nonbusiness administration majors and minors. No credit for students who have had MKTG 651. 4 cr.

651. Marketing

Covers marketing as the process of planning and developing goods and services to satisfy the needs

of target customers: consumers, other businesses, and institutions. Focus on how marketing contributes to the firm's goals through product planning, pricing, promotion, and distribution policies. Open to WSBE majors only. No credit for students who have had MKTG 550 or HMG 600. Prereq: all Group A courses and junior standing. 4 cr.

750. Strategic Marketing

Practical application of theories taught in MKTG 651. Planning, organization, and control of marketing activities in large national and multinational corporations and small businesses; new product development; pricing policies; selection of domestic and international channels of distribution; interrelationships between marketing, production, and finance. Sound policy formulation and decision making established through analysis of cases. Prereq: a basic marketing course. 4 cr.

751. Advertising and Promotion

Covers advertising and other promotional tools that assist the firm in communicating with its customers. Advertising planning and strategy development in relation to marketing goals; creating and executing advertisements; advertising from a cultural perspective domestically and internationally. Prereq: MKTG 651; 752; 753;/or permission. 4 cr.

752. Marketing Research

Formulating research objectives to solve marketing problems: qualitative and quantitative techniques for surveys and marketing experimentation; commonly encountered analyses and models of secondary and primary data to aid marketers in decision making; strengths and limitations of marketing research in the marketing process. Prereq: MKTG 651 or equivalent. 4 cr.

753. Consumer/Buyer Behavior

Study of consumer/buyer behavior. Covers concepts, models, and theories from the behavioral sciences applied to decision making and purchasing behavior. 4 cr.

755. Marketing of Services

The marketing of intangible offerings. Includes profit and nonprofit situations, retail and business-to-business settings, public and international services. Covers theory, service quality attainments, design and strategy, and implementation plans. Texts, case analysis, speakers, field work. Prereq: MKTG 651 or permission of the instructor. 4 cr.

760. International Marketing

Environmental factors affecting international trade: culture and business customs, political and legal factors and constraints, economic and technological development, and the international monetary system. Integration of these with the marketing management functions of market research and segmentation; product, promotion, distribution, and pricing decisions. Prereq: MKTG 651 or permission. 4 cr.

761. Sales Management

Principles and methods of successful personal selling and management of the sales function. Exposure to selling experience in field of student interest; case studies, sales presentations; oral and written analyses of sales management issues. Prereq: MKTG 651 or equivalent. 4 cr.

762. Marketing Workshop

Integrative study of a real marketing situation in a business, nonprofit institution, or government

agency. Student teams identify problem, research or collect data, suggest alternative solutions, and submit a recommended course of action. Prereq: MKTG 651; one additional advanced marketing course; permission. 4 cr.

798. Topics in Marketing

Special topics; may be repeated. Prereq: a basic marketing course and permission. 1–4 cr.

Mathematics (MATH)

(For program description, see page 67.)

Chairperson: Kenneth I. Appel

Professors: Kenneth I. Appel, Albert B. Bennett, Jr., David M. Burton, Arthur H. Copeland, Jr., Joan Ferrini-Mundy, Marie A. Gaudard, Donald W. Hadwin, A. Robb Jacoby, Loren D. Meeker, Eric A. Nordgren, Samuel D. Shore, Donovan H. Van Osdol

Associate Professors: William E. Bonnice, David V. Feldman, William E. Geeslin, Karen J. Graham, Rita A. Hibschiweiler, Edward K. Hinson, Ernst Linder, Berrien Moore III, Lee L. Zia

Assistant Professors: Kelly J. Black, Matthias

Pfau, Kevin M. Short, Debajyoti Sinha

Instructor: Rita Fairbrother

Visiting Instructor: Steven R. Benson

Skills Application Teacher: Martha B. Burton

*301. Elementary Math I

Beginning algebra including integer operations, solving linear equations, graphing linear functions, solving linear inequalities, systems of linear equations, polynomials, rational expressions and equations, and exponents and radicals. Students with one or more years of college preparatory mathematics are not eligible for credit. 4 cr.

*302. Elementary Math II

Review of elementary algebra, exponents, polynomials, factoring, rational exponents, and absolute value. Solving linear and quadratic equations and inequalities; systems of equations; radical equations. Linear functions and related notions; quadratic functions. Students with two or more years of college preparatory mathematics are not eligible for credit. Prereq: MATH 301 or the equivalent. 4 cr.

*305. Elementary Functions

Properties of elementary functions, including exponential and logarithmic, trigonometric and inverse trigonometric functions. Students with three or more years of college preparatory mathematics are not eligible for credit. Prereq: MATH 302 or the equivalent. 4 cr.

419. Evolution of Mathematics

Mathematics from antiquity to the present; origins of the various methods and branches. How and why such concepts as number and geometry evolved. Prereq: MATH 302 or the equivalent. Credit offered only to nonmathematics majors and to mathematics education majors 4 cr.

420. Finite Mathematics

Topics selected from probability, systems of linear equations, matrix algebra, linear programming,

mathematics of finance. Not a preparation for calculus. Prereq: MATH 302 or the equivalent. Not offered for credit to mathematics majors. 4 cr.

Note for calculus students: Students enrolling in MATH 424 are given a test on algebra during the first week of the semester. Those doing unsatisfactory work will be required to take MATH 305 before enrolling in MATH 424 or to complete review assignments in the Mathematics Center (MaC) concurrently with MATH 424.

424A. Calculus for Social Sciences

Real-valued functions and their graphs; derivatives and their applications; antiderivatives and areas; exponentials and logarithms; introduction to multivariable calculus and partial derivatives. CEPS majors not allowed. Primarily intended for majors in College of Liberal Arts and the Whittemore School.

Note: students who desire a two-semester calculus course are strongly advised to take MATH 425. Those students who successfully complete MATH 424 and subsequently wish to continue their study of mathematics with MATH 426 are required to successfully complete a supplementary module and examination on trigonometric calculus administered by the MaC Center. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 425.) 4 cr. (Fall semester only.)

424B. Calculus for Life Sciences

Real-valued functions and their graphs; derivatives and their applications; antiderivatives and areas; exponentials and logarithms; introduction to multivariable calculus and partial derivatives. CEPS majors not allowed. Primarily intended for majors in College of Life Sciences and Agriculture.

Note: students who desire a two-semester calculus course are strongly advised to take MATH 425. Those students who successfully complete MATH 424 and subsequently wish to continue their study of mathematics with MATH 426 are required to successfully complete a supplementary module and examination on trigonometric calculus administered by the MaC Center. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 425.) 4 cr. (Spring semester only.)

Note for calculus students: Students enrolling in MATH 425 are given a test on algebra and trigonometry during the first week of the semester. Those doing unsatisfactory work will be required to take MATH 305 before enrolling in MATH 425 or to complete review assignments in the Mathematics Center (MaC) concurrently with MATH 425.

425. Calculus I

Calculus of one variable covering limits; derivatives of algebraic, trigonometric, exponential, and logarithmic functions; applications include curve sketching, max-min problems, related rates, and volume and area problems. Prereq: MATH 305 or the equivalent. (Not offered for credit if credit is received for MATH 424.) 4 cr.

426. Calculus II

Second course in calculus of one argument, techniques and applications of integration, polar coordinates, and series. Prereq: MATH 425. 4 cr.

* MATH 301, 302, and 305 may not be taken for credit toward a baccalaureate degree.

527. Differential Equations with Linear Algebra

Fundamental methods of solving first-order equations, essentials of matrix algebra, higher-order linear equations, and linear systems; series solutions; Laplace transforms, selected applications. Prereq: MATH 426. 4 cr.

528. Multidimensional Calculus

Partial differentiation; composite functions and chain rules; maximum and minimum; transformations; vector algebra, vector functions; gradient, divergence, and curl; curves and surfaces; multiple, line, and surface integrals; divergence, Green's, and Stoke's theorem. Prereq: MATH 426. 4 cr.

531. Mathematical Proof

Introduction to reading and writing proofs in mathematics. The basic language of mathematics common to all branches of the subject, especially set theory and basic logic. Prereq: MATH 426. 4 cr.

532. Discrete Mathematics

Counting principles, (including permutations, combinations, pigeonhole principle, inclusion-exclusion principle); big-O relation; graphs, trees, and related topics. Prereq: MATH 531. 4 cr.

621. Number Systems for Teachers

Problem solving; counting and set concepts, number systems (whole numbers, integers, rational, and real numbers); number theory; estimation and mental calculation techniques; and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate the concepts and properties of the number systems and teach number sense. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. Prereq: permission. 4 cr.

622. Geometry for Teachers

Properties of plane and space figures; tessellations; symmetry; LOGO computer language; nonstandard, English, and metric units of measure; area and perimeter; volume and surface area; estimations and approximations of measurements; constructions; congruence and similarity mappings; problem solving using geometric and algebraic skills, and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate concepts and properties of geometry. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. Prereq: MATH 621 or permission. 4 cr.

623. Topics in Mathematics for Teachers

Logic (valid and invalid forms of reasoning); descriptive statistics (graphs, measures of central tendency, measures of variation); inferential statistics (samplings, distributions, measures of relative standing, simulations); probability (experimental, geometrical, and theoretical); permutations and combinations; probability simulations; problem solving using skills from statistics and probability; mathematical connections and communication review of computer software; and applications requiring calculators and computers. Prereq: permission. Credit offered only to mathematics education majors in the elementary or middle/junior high school option. 4 cr. (Offered in alternate years during spring semester.)

639. Introduction to Statistical Analysis

A first course introducing concepts of probability and methods for data analysis and statistical infer-

ence, including: probability concepts, exploratory data analysis, discrete and continuous distributions, confidence intervals, hypothesis testing, comparing samples, linear regression, analysis of variance. Offered primarily for mathematics majors at the sophomore level; engineering majors are urged to take MATH 644. No credit for students who have completed MATH 644: ADM 430; BIOL 528; DS 420; HHS 540; PSYC 402; RECO 525, 528; SOC 502. Prereq: MATH 426. 4 cr.

644. Probability and Statistics for Applications

Calculus-based introduction to probability and statistics with an emphasis on applying theory and methods to practical problem solving. Probability concepts, random variables, parameter estimation, confidence intervals, hypothesis testing, quality control, regression and correlation, design of experiments. Especially geared to students in science and engineering. No credit for students who have completed MATH 639; ADM 430; BIOL 528; DS 420; HHS 540; PSYC 402; RECO 525, 528; SOC 502. Prereq: MATH 426. 4 cr.

645. Linear Algebra for Applications

Fundamental notions of vector space theory, linear independence, basis, span, scalar product, orthogonal bases. Matrix algebra, solution of systems of linear equations, rank, kernel, eigenvalues and eigenvectors, the LU- and QR-factorizations, and least squares approximation. Prereq: MATH 426. (Not offered for credit if credit is received for MATH 762.) 4 cr.

646. Analysis for Applications

Initial-boundary-value problems of mathematical physics; Sturm-Liouville problems; series expansions by orthogonal functions; Green's functions; numerical methods. Prereq: CS 410, 412, or 416; MATH 527, 528;/or permission. 4 cr.

647. Complex Analysis for Applications

Complex numbers, analytic functions, Cauchy-Riemann equations, conformal mapping, contour integration, Cauchy's integral formula, infinite series, residue calculus, Fourier and Laplace transforms. Prereq: MATH 528. (Not offered for credit if credit is received for MATH 788.) 4 cr.

656. Introduction to Number Theory

Unique factorization, arithmetic functions, linear and quadratic congruences, quadratic reciprocity law, quadratic forms, introduction to algebraic numbers. Prereq: MATH 531. 4 cr. (Offered in alternate years.)

657. Geometry

Advanced approach to fundamental properties of Euclidean and other geometries. Prereq: MATH 531. 4 cr.

658. Topics in Geometry

Topics selected from among projective geometry, finite geometries, convexity, transformational geometry, non-Euclidean geometry, and other areas of elementary geometry within the framework of modern mathematics. Prereq: MATH 657. 4 cr. (Offered in alternate years.)

696. Independent Study

Projects of interest and value to student and department. Prereq: permission of faculty supervisor and department chairperson. 1-6 cr.

698. Senior Seminar

Exploration of mathematical topics outside the standard undergraduate curricula. Focus on problem solving, generation of problems, and explain-

ing mathematical concepts. Prereq: Senior standing in mathematics or mathematics education. 4 cr.

703. The Teaching of Mathematics, K-6

Methods of teaching (geometry, number relations and operations, statistics, probability, and problem solving); uses of manipulatives, models, and diagrams; mathematics assessment (objectives, goals, alternative methods of assessment, and purposes of assessment); modeling instructional formats; review and evaluation of textbook series; review of computer software; uses of calculators and computers; teaching reading and writing in mathematics; developing lesson plans; and elementary curriculum projects. Prereq: MATH 621 or 721; EDUC 500 or permission. 2-4 cr. (Offered in alternate years.)

721. Number Systems for Teachers

Problem solving; counting and set concepts, number systems (whole numbers, integers, rational, and real numbers); number theory; estimation and mental calculation techniques; and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate the concepts and properties of the number systems and to teach number sense. Prereq: permission. Credit offered only to M.Ed., M.A.T., and certified-only students. 4 cr.

722. Geometry for Teachers

Properties of plane and space figures; tessellations; symmetry; LOGO computer language; nonstandard, English, and metric units of measure; area and perimeter; volume and surface area; estimations and approximations of measurements; coordinate geometry; equations and inequalities; linear and exponential functions; constructions; congruence and similarity mappings; problem solving using geometric and algebraic skills, geometric-algebraic connections, and applications requiring calculators and computers. Manipulatives and models are used in a lab setting to illustrate concepts and properties of geometry. Prereq: permission; MATH 721. Credit offered only to M.Ed., M.A.T., and certified-only students. 4 cr.

723. Topics in Mathematics for Teachers

Logic (valid and invalid forms of reasoning); descriptive statistics (graphs, measures of central tendency, measures of variation); inferential statistics (samplings, distributions, measures of relative standing, simulations); probability (experimental, geometrical, and theoretical); permutations and combinations; probability simulations, problem solving using skills from statistics and probability; mathematical connections and communication review of computer software; and applications requiring calculators and computers. Prereq: permission. Prereq: MATH 721 or 722. Credit offered only to non-mathematics majors and to mathematics education majors (elementary, middle/junior high school option). 4 cr. (Offered in alternative years.)

739. Regression Analysis

Estimation, testing, and diagnostic methods for regression models. Simple linear regression, residual analysis and model validation, multiple linear regression, model selection, multicollinearity, polynomial regression, categorical predictors, analysis of variance, analysis of covariance. Prereq: MATH 639 (or 644);/or permission. 4 cr.

740. Industrial Statistics and Design of Experiments

Quality control methods, design of experiments

for quality improvement, randomization and blocking, factorial designs, nested designs, fixed-, random-, and mixed-effects models, fractional factorial designs, response surface methods. Industrial and engineering applications. Prereq: MATH 639 (or 644);/or permission. 4 cr.

741. Biostatistical Methods

Concepts and methods of nonparametric statistics, categorical data analysis, and failure-time data analysis: Censored data analysis. Biostatistical techniques. Reliability and life testing, Poisson regression. Prereq: MATH 639 (or 644);/or permission. 4 cr. (Offered in alternate years.)

742. Multivariate Statistics and Modern Regression Methods

Random vectors and matrices, multivariate normal distribution, Hotelling's T^2 , multivariate analysis of variance (MANOVA), principal components, discriminant analysis, factor analysis, partial least squares, empirical orthogonal functions, additive and generalized additive models. Prereq: MATH 639 (or 644) and 645;/or permission. 4 cr. (Offered in alternate years.)

745-746. Foundations of Applied Mathematics

Basic concepts and techniques of applied mathematics intended for graduate students in mathematics, engineering, and the sciences. Fourier series and transforms, Laplace transforms, optimization, linear spaces, eigenvalues, Sturm-Liouville systems, numerical methods, conformal mapping, residue theory. Prereq: MATH 527; 528, or equivalent. 4 cr.

747. Introduction to Nonlinear Dynamics and Chaos

The mathematics of chaos and nonlinear dynamics. Topics include: Linear and nonlinear systems of ordinary differential equations; discrete maps; chaos; phase plane analysis; bifurcations and computer simulations. Prereq: MATH 527; 528. 4 cr.

753. Introduction to Numerical Methods

Introduction to mathematical algorithms and methods of approximation. A wide survey of approximation methods examined including, but not limited to, polynomial interpolation, root finding, numerical integration, approximation of differential equations, and techniques used in conjunction with linear systems. Included in each case is a study of the accuracy and stability of a given technique, as well as its efficiency and complexity. It is assumed that the student is familiar and comfortable with programming a high-level computer language such as C or FORTRAN. Prereq: MATH 426; CS 410, 412, or 610. (Also offered as CS 753.) 4 cr.

754. Introduction to Scientific Computing

Introduction to the tools and methodology of scientific computing via the examination of interdisciplinary case studies from science and engineering. Emphasis on numerical approaches to solving linear systems, eigenvalue-eigenvector problems, and differential equations. Problems are solved on various hardware platforms using a combination of software and data visualization packages. Prereq: CS 410, 412, or 416; MATH 527, 645, or permission. (Also offered as CS 754.) 4 cr.

755. Probability and Stochastic Processes

Introduction to the theory of probability, random variables, expectation, discrete and continuous

probability distributions, correlation, Markov chains, introduction to stochastic processes, birth-death processes, moment-generating functions, limit theorems. Prereq: MATH 528 and 639 (or 644);/or permission. 4 cr.

756. Principles of Statistical Inference

Theory of statistical inference, principles of point estimation, maximum likelihood and other methods, exact and approximate methods, confidence regions, significance testing, bootstrapping, Bayesian inference, decision theory. Prereq: MATH 755; or 528, 644, and permission. 4 cr.

761. Abstract Algebra

Basic properties of groups, rings, fields, and their homomorphisms. Prereq: MATH 531. 4 cr.

762. Linear Algebra

Abstract vector spaces, linear transformations and matrices, determinants, eigenvalues and eigenvectors. Prereq: MATH 761. (Not offered for credit if credit is received for MATH 645.) 4 cr.

764. Advanced Algebra

Topics selected from rings, modules, algebraic fields, and group theory. Prereq: MATH 761. 4 cr. (Offered in alternate years.)

767. One-Dimensional Real Analysis

Theory of limits, continuity, differentiability, integrability. Prereq: MATH 531. 4 cr.

776. Logic

Induction and recursion; sentential logic; first-order logic; completeness, consistency, and decidability; recursive functions. Prereq: MATH 531. 4 cr. (Offered in alternate years.)

783. Set Theory

Axiomatic set theory, including its history; Zermelo-Fraenkel axioms; ordinal and cardinal numbers; consistency, independence, and undecidability. Prereq: MATH 531. 4 cr. (Offered in alternate years.)

784. Topology

Open sets, closure, base, and continuous functions; connectedness, compactness, separation axioms, and metrizable. Prereq: MATH 531. 4 cr.

788. Complex Analysis

Complex functions, sequences, limits, differentiation and Cauchy-Riemann equations, elementary functions, Cauchy's theorem and formula, Taylor's and Laurent's series, residues, conformal mapping. Prereq: MATH 767. (Not offered for credit if credit is received for MATH 647.) 4 cr.

791. The Teaching of Mathematics, 7-12

Methods for teaching junior high and secondary school mathematics (prealgebra, algebra, geometry, trigonometry, statistics, probability, precalculus, discrete mathematics, and calculus); survey of instructional materials; models for mathematical concepts; uses of graphing calculators and computers; teaching reading and writing in mathematics; instructional formats; methods of assessment; problem solving; theories of learning mathematics; review of computer software and uses of computers; review and evaluation of curriculum materials and resources; developing lesson plans; and professional organizations and publications. Prereq: EDUC 500; MATH 426; and permission. 4 cr.

796. Topics in Mathematics

New or specialized courses not covered in regular course offerings. Prereq: permission. May be repeated up to 8 cr. 4 cr.

Mechanical Engineering (ME)

(For program description, see page 70.)

Chairperson: Kenneth C. Baldwin

Professors: Barbaros Celikkol, Robert Jerard, David E. Limbert, Godfrey H. Savage, M. Robinson Swift

Associate Professors: Kenneth C. Baldwin, Barry K. Fussell, Todd Stuart Gross, James E. Krzanowski, John Philip McHugh, William Mosberg, David W. Watt, John A. Wilson

Assistant Professor: Michael R. Gosz

441. Engineering Design and Graphics

Engineering design process and the language of graphical communication introduced via team design projects and laboratory exercises. Topics include sketching, 3-D visualization, computer-aided design, solid modeling, projection theory, engineering drawings, report writing, and oral communication. 4 cr.

503. Thermodynamics

Laws of thermodynamics and their relation to working substances. Prereq: MATH 426. 3 cr.

523. Introduction to Statics and Dynamics

Overview of statics and dynamics; two- and three-dimensional force systems; laws of equilibrium; moments of area; volume; inertia; stresses and strains; particle and rigid body dynamics; fixed and moving reference frames; impulse-momentum principles; work-energy relationships. Prereq: MATH 426; PHYS 407. Not for ME majors. 3 cr.

525. Mechanics I

Introduction to statics. Two- and three-dimensional force systems, the concept of equilibrium, analysis of trusses and frames, centroids, bending moment and shear force diagrams, friction, and stress-strain relationships. Prereq: MATH 425 and 426; PHYS 407. 3 cr.

526. Mechanics II

Introduction to strength of materials. Analysis of members under torsion, axial, shear and bending stresses, superposition of stresses, stability of columns. Prereq: ME 525. 3 cr.

#541. Manufacturing Processes and Design

Manufacturing drawings, sketching basic mechanisms found in machine shops, operation of basic machine tools. Lab. 4 cr.

542. Mechanical Dissection and Design Analysis

Engineering design and analysis of mechanical systems through in-depth dissection experiences. Relationships between functional specifications and design solutions, role of engineering analysis in design, and the importance of manufacturing constraints. Lab experiences include team dissections of mechanical artifacts, e.g., fishing reel, bike, electric drill. Introduction to basic metal working operations. Prereq: ME 441. Coreq: ME 525 and permission. Special fee. Lab. 4 cr.

603. Heat Transfer

Analysis of phenomena; steady-state and transient conduction, radiation, and convection; engineering applications. Pre- or coreq: ME 608. 3 cr.

608. Fluid Dynamics

Dynamics and thermodynamics of compressible and incompressible fluid flow; behavior of fluids as expressed by hydrostatic, continuity, momentum, and energy equations. Prereq: ME 503; ME 627. (No credit for students who have taken ME 508.) 3 cr.

627. Mechanics III

Introduction to particle and rigid body dynamics. Rectilinear and curvilinear motion, translation and rotation, momentum and impulse principles, and work-energy relationships. Prereq: ME 525 or permission. (No credit for students who have taken ME 627.) 3 cr.

629. Kinematics and Dynamics of Machines

Kinematic and dynamic analysis of mechanisms and their synthesis. Applications to reciprocating engines; balancing and cam dynamics are developed. Prereq: ME 627. 3 cr.

643. Elements of Design

Analysis, synthesis, and design of machine elements and systems. Development of engineering judgment; selection of materials stress and failure analysis; kinematic arrangements; design for finite and infinite life. Open-ended design problems unify course topics. Prereq: ME 526; ME 661. 3 cr.

646. Experimental Measurement and Data Analysis

Basic and advanced techniques of engineering and scientific parameter measurement including statistical data and error analysis, curve fitting, calibration and application of transducers, and technical writing. Laboratory experiments draw on concepts from mechanics, thermodynamics, and fluid mechanics. Prereq: ME 503, 525, 526, 608, 627. 4 cr.

661. Introduction to Materials Science

The concepts of materials science and the relation of structure to material properties. Atomic structure, bonding material transport, mechanical properties of materials, solidification, phase diagrams, solid state transformations, and corrosion and oxidation. Laboratory exercises are carried out to demonstrate the basic concepts of the course. Prereq: ME major; CIEM 405 or equivalent. (No credit for students who have had ME 561, 564, 545.) 4 cr.

670. Systems Modeling, Simulation, and Control

Lumped parameter models for mechanical, electrical, thermal, fluid, and mixed systems. Matrix presentation, eigenvalues, eigenvectors, time domain solutions, frequency response plots, and computer simulations are used to explore system response. Design of system for desired responses. Introduction to feedback control, stability, and performance criteria. Prereq: EE 535, ME 608, MATH 527. 4 cr.

695. Special Topics in Mechanical Engineering

Course topics not offered in other courses. Prereq: permission. Lab. May be repeated for credit. 2-4 cr.

696. Mechanical Engineering Projects

Analytical, experimental, or design projects under-

taken individually or in teams under faculty guidance. May be repeated for credit. 1-4 cr.

#697. Mechanical Engineering Seminar

Study and discussion of engineering topics, with student-faculty participation. May be repeated for credit. 1 cr.

701. Macroscopic Thermodynamics

Thermodynamic principles using an analytic, post-rotational approach and Legendre transformations to obtain thermodynamic potentials. 4 cr.

#702. Statistical Thermodynamics

Macroscopic thermodynamic principles developed by means of microscopic analysis. Prereq: ME 503. 4 cr.

705. Thermal System Analysis and Design

Engineering design of thermal systems that involve real problems and analysis of performance of the design. Design criteria include function, performance, optimization, economy, safety, and others as appropriate for the system. Required for ME seniors. (No credit if credit has been received for ME 605.) Prereq: ME 603. 4 cr.

707. Analytical Fluid Dynamics

Kinematics of flow; constitutive relationships; development of the Navier-Stokes equations; vorticity theorems; potential flow. Prereq: ME 608. 4 cr.

708. Gas Dynamics

Study of one-dimensional subsonic and supersonic flows of compressible ideal and real fluids. Wave phenomena; linear approach to two-dimensional problems; applications in propulsion systems. Prereq: ME 503. 4 cr.

#709. Computational Fluid Dynamics

Review of matrix methods; basics of finite-differential methods for differential equations; exact solutions to differential equations; basics of spectral methods, including the Galerkin, tau, and collection methods, spectral accuracy, and stability; Navier-Stokes solvers, treatment of boundary conditions, complex geometries, computational examples. 4 cr.

#710. Solar Heating Systems

Analysis and computer modeling of solar radiation as an energy source for heating. Phenomena, availability, collection, performance, and economy of solar energy for heating systems. Prereq: ME 603. 3 cr.

711. Coherent Optical Methods

Introduces electro-optic experimental techniques in mechanics. Optical fundamentals including elements of scalar diffraction theory, interferometry, holography, Doppler shifts, coherence, and laser speckle. Applications including mechanical strain measurements, vibrational mode determination, fluid pressure, temperature measurements, and fluid velocity measurements. Concepts from course are demonstrated in lab. Prereq: permission. 3 cr.

#717. Cryogenics

Phenomena and processes at very low temperatures. Basic engineering sciences applied to problems of low-temperature refrigeration, liquefaction, separation, and storage; transport of cryogenic fluids, measurement systems; vacuum technology. Prereq: ME 503. 4 cr.

723. Advanced Dynamics

Classical dynamics oriented to contemporary engineering applications. Review of particle dynamics. Hamilton's principle and the Lagrange equations. Kinematics and dynamics of rigid bodies, gyroscopic effects in machinery and space structures. 4 cr.

724. Vibration Theory and Applications

Discrete vibrating systems. Linear system concepts; single-degree-of-freedom system with general excitation. Matrix theory and eigenvalue problems. Many degrees of freedom, normal mode theory for free and forced vibration. Numerical methods; introduction to continuous systems; applications to structural and mechanical systems. 4 cr.

#726. Experimental Mechanics

Experimental methods and theoretical bases applied to measurement of stress, strain, and motion. Transmitted and scattered-light photoelasticity, strain gage applications, brittle coating and grid techniques, dynamic measurements, and associated instrumentation. 4 cr.

727. Advanced Mechanics of Solids

Stress, strain, stress-strain relations, anisotropic behavior, introduction to elasticity, plane stress/strain, bending and torsion of members with general cross-sections introduction to thin plates and shells, energy methods. 4 cr.

730. Mechanical Behavior of Materials

Elastic and inelastic behavior of materials in terms of micro- and macromechanics. Stress, strain, and constitutive relations related to recent developments in dislocation theory and other phenomena on the atomic scale and to the continuum mechanics on the macroscopic scale. Elasticity, plasticity, viscoelasticity, creep, fracture, and damping. Anisotropic and heterogeneous materials. 4 cr.

731. Fracture and Fatigue Engineering Material

Reviews fundamentals of linear elastic fracture mechanics and strain energy release rate analyses. Discusses basic methods of design for prevention of failure by fast fracture and fatigue for metals, ceramics, and polymers with attention to the effect of material properties and subsequent property modification on each design approach. 4 cr.

741. Nonlinear Systems Modeling

Modeling of hydraulic, pneumatic, and electromechanical systems. Solution methods including linearization and computer simulation of nonlinear equations. Development of methods of generalizing the nonlinear models for design purposes. (Also offered as EE 741.) 4 cr.

747. Experimental Measurement and Modeling of Complex Systems

Experimental measurements for evaluation, design, and control of mechanical, electrical, and thermal/fluid phenomena. Emphasizes the dynamic response of both sensors and systems and the interactions between physical processes. Experimental examples are drawn from mechanics, material science, thermal-fluid science, and controls. Prereq: ME majors only; ME 503; 525; 526; 603; 608; 627; 646; 661; 670. 4 cr.

751. Naval Architecture in Ocean Engineering

Selected topics in the fundamentals of naval architecture pertinent to ocean engineering, including

hydrostatic characteristics, basics of resistance and propulsion and rules and regulations for surface, semisubmersible, and submersible marine vehicles. Computer applications. Prereq: ME 525; ME 608; or equivalent. (Also offered as OE 751.) 4 cr.

752. Submersible Vehicle Systems Design

Conceptual and preliminary design of submersible vehicle systems; submersibles, environmental factors, hydromechanic and structural principles, materials, intra/extravehicle systems, operating considerations; predesign and design procedures. Design projects selected and completed by student teams. Prereq: permission. (Also offered as OE 752.) 4 cr.

755. Senior Design Project I

Part I of a yearlong open-ended design experience required for all ME seniors. Undertaken individually or in teams under faculty guidance. Part I emphasizes project proposal development, design alternative evaluation, and a final design report. Typically taken in semester 7. TECH 797 or ME 751-752 may be substituted for this experience. 2 cr.

756. Senior Design Experience

Part II of a yearlong, open-ended design experience required for all mechanical engineering seniors. Undertaken individually or in teams under faculty guidance. Part II emphasizes the development and testing of the design proposed in Part I. Typically taken in semester 8. TECH 797 or ME 751-752 may be substituted for this course. 2 cr.

#757. Coastal Engineering and Processes

Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave method and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduction to mathematical and physical modeling. Prereq: ME 608 or permission. (Also offered as CIE 757 and OE 757.) 3 cr.

760. Physical Metallurgy I

Introduction to physical metallurgy: dislocations, thermodynamics of materials, diffusion, phase transformations, and strengthening mechanisms in solids. Prereq: ME 661 or permission. Lab. 4 cr.

761. Diffraction and Imaging Methods in Materials Science

Introduction to x-ray diffraction and electron microscopy. Basic crystallography; reciprocal lattice; x-ray and electron diffraction; x-ray methods; transmission and scanning electron microscopy. Prereq: CIE 622 or ESCI 512. Lab. 4 cr.

762. Electronic Properties of Materials

Introduction to the electronic properties of materials and their application in electronic devices. Crystallography, atomic bonding and energy band diagrams for semiconductors; intrinsic and extrinsic semiconductors; the p-n junction; diodes and transistors. Methods used in the manufacture of semiconductor devices, such as ion implantation, thermal oxidation, metallization, and packaging. Prereq: PHYS 407, 408; MATH 527; CHEM 405 or 403-404. 3 cr.

#766. Physical Ceramics

Characteristics of crystalline and noncrystalline ceramic solids; defect structures; diffusion in ceramic materials; nucleation and crystal growth,

spinodal decomposition, and solid-state reactions; kinetics of grain growth; sintering, and vitrification. Prereq: permission. 4 cr.

771. Linear Systems and Control

Fundamentals of linear system analysis and design in both continuous and discrete time. Design of feedback control systems. Topics include modeling; time and frequency analysis; Laplace and Z transforms; state variables; root locus; digital and analog servomechanisms; proportional, integral, and derivative controllers. Includes demonstrations and computer simulations. Prereq: senior standing in EE or ME or permission. (Also offered as EE 771.) 3 cr.

772. Control Systems

Extension of ME 771 to include more advanced control system design concepts such as Nyquist analysis; lead-lag compensation; state feedback; parameter sensitivity; controllability; observability; introduction to nonlinear and modern control. Includes interactive computer-aided design and real-time digital control. Prereq: ME 771 or permission. (Also offered as EE 772.) Lab. 4 cr.

#774. Computer-Aided Engineering

Data acquisition and experiment control, multi-variable data curve fitting, computer simulation of lumped systems based on analytical and data-based models, graphical display of data and simulation results. Interactive graphics and 3-D line drawing of objects for finite element analysis. Introduction to finite element analysis and survey of other software available. Prereq: ME 747 or permission. 3 cr.

781. Mathematical Methods in Engineering Science I

Solution of discrete and continuous systems. Review of calculus, linear algebra, complex numbers, Fourier series, differential and partial differential equations with examples from acoustics, vibration theory, hydrodynamics, elasticity, solid mechanics, transport theory, and particle mechanics. 4 cr.

783. Geometric Modeling

Topics covered include curves, surfaces, solids, analytic and relational properties, intersections, transformations, and solid modeling. Emphasizes applications in computer graphics and CAD/CAM systems. Prereq: familiarity with calculus, analytic geometry, vectors, matrix methods, and computer programming; permission. 4 cr.

786. Introduction to Finite Element Analysis

Topics include basic matrix theory, Galerkin method, direct stiffness method, calculus of variations, development of finite element theory, and modeling techniques. Applications in solid mechanics, heat transfer, fluids, dynamics, and electromagnetic devices, via both commercially available codes and student-written codes. Prereq: CS 410F or 410C; ME 603. Lab. 4 cr.

795. Special Topics in Mechanical Engineering

New or specialized courses and/or independent study. May be repeated for credit. 2-4 cr.

797. Honors Seminar

Course enrichment and/or additional independent study in subject matter pertaining to a 600- or 700-level ME course other than ME 695, 696, 697, or 795. 1 cr.

Medical Laboratory Sciences (MLS)

(For program description, see page 78.)

Chairperson: Christine L. Bean

Associate Professors: Jae Kang, Karol A. LaCroix

Adjunct Associate Professor: Walter Noll, M.D.

Assistant Professors: Christine L. Bean, Joyce Stone

Adjunct Assistant Professors: Deborah Brough, Frank Polito, Jill Polito, Deborah E. Zuaro

Clinic Coordinator: Sylvia Countway

401. Introduction to Medical Laboratory Science

Functions and responsibilities of medical technology as a unit of the health team. Lectures, films, demonstrations, and field trips. 1 cr. Cr/F.

500. Introduction to Medical Laboratory Methods and Techniques

Overview of medical laboratory procedures routinely used to diagnose common diseases such as anemia, mononucleosis, heart disease, leukemia, and diabetes. Emphasis on the clinical application of certain tests along with their theory and practice. Students learn proper techniques for use in a medical laboratory to assure accuracy and precision of patient results. Other topics include laboratory safety, instrumentation, and quality assurance. Prereq: CHEM 403-404 or CHEM 405. Special fee. Lab. 4 cr.

602. Medical Laboratory Seminars

Clinical case study presentations emphasizing the role of the laboratory in diagnosing and treating disease and in maintaining health. Prereq: senior MLS majors only or permission. 1-2 cr.

610. Laboratory Management

Introduction to laboratory management, supervision, and education. Lectures, discussions, and student projects cover financial concerns, personnel management, and teaching skills. Prereq: senior MLS majors or permission. 4 cr.

650A. Phlebotomy Theory

Procedures for blood collection by venipuncture and capillary puncture. Emphasis on professionalism, safety, equipment, laboratory orientation, and complications of the procedures. Students will observe all techniques and have a limited opportunity to perform them. Prereq: sophomore MLS majors only or permission. 1 cr.

650B. Phlebotomy Clinical Internship

Students obtain experience and proficiency in blood collection techniques at a health care facility (100-120 hours). Prereq: MLS 650A; sophomore MLS majors or permission. 1 cr.

652. Clinical Hematology

Routine hematological procedures, both manual and automated. Analysis of white blood cells, red blood cells, and platelets; hemostasis techniques. Prereq: MLS majors or permission. Special fee. Lab. 5 cr.

653. Clinical Immunohematology

Routine blood-banking procedures, including blood typing, antibody screening, cross-matching, and confirmatory testing on blood units. Prereq: MLS majors or permission. Special fee. 3 cr.

654. Clinical Chemistry

Laboratory safety, mathematics, introduction to instrumentation, and quality control. Clinical significance, evaluation, and performance of manual procedures. Includes analysis of plasma glucose, BUN, creatinine, electrolytes, enzymes, cholesterol, bilirubin, and uric acid determination. Prereq: CHEM 403-404. Special fee. 5 cr.

655. Urinalysis and Body Fluids

Review of routine and special tests on urine and other body fluids. Emphasis on physical, chemical, and microscopic analytes and their relationship to health and disease. Prereq: MLS majors or permission. 2 cr.

696. Independent Study

In-depth studies under faculty supervision. Prereq: junior standing; approval of the major adviser and the faculty of the area concerned. 2-4 cr./F.

700. Toxicology

Overview of effects of environmental pollutants, medications, and abused substances on human health. Emphasizes the mechanisms, assessment, and management of their toxicology. Prereq: one semester of organic chemistry, biochemistry, or permission. 4 cr.

720. Clinical Mycology-Parasitology

Clinical laboratory identification and pathology of human mycology and parasitology infections. Classification and diagnosis of clinically significant viruses. Prereq: MICR 602 or permission. Lab. 4 cr.

751. Advanced Clinical Microbiology Internship

Advanced clinical bacteriological procedures, fluorescent techniques, and special procedures. Mycology and parasitology identification and testing. Prereq: senior MLS majors only. Special fee. 5 cr.

752. Advanced Hematology Internship

Special hematology procedures including diagnostic staining, advanced hemostasis studies, and evaluation of blood cells in disease states. Prereq: senior MLS majors only. Special fee. 5 cr.

753. Advanced Immunohematology Internship

Advanced blood-banking procedures, including antibody identification, and component therapy. Principles and procedures for detecting disorders of cellular and humoral immunity. Prereq: senior MLS majors only. Special fee. 5 cr.

754. Advanced Clinical Chemistry Internship

Theory, operation, evaluation, and maintenance of automated chemistry systems. Advanced laboratory analysis of body fluid chemistries including enzymology, isotopes, hormones, blood gases, and toxicology. Data analysis, computerization. Prereq: senior MLS majors only. Special fee. 5 cr.

761. Clinical Microbiology Internship

Advanced instruction in clinical bacteriology, mycology, parasitology, and virology at local hospital or reference laboratory. Isolation, identification, and antibiotic sensitivities for common pathogens are emphasized. Prereq: MICR 602; MLS majors only. 16 cr.

762. Clinical Hematology Internship

Advanced instruction in hematology and hemostasis at a local hospital or reference laboratory. Spe-

cialized tests such as automated cell counts, cytochemical analyses, cell markers, and specialized hemostasis are covered. Prereq: MLS 652; MLS majors only. 16 cr.

763. Clinical Immunohematology Internship

Advanced instruction in clinical immunohematology at a local hospital or reference laboratory. Pretransfusion testing, donor screening, phlebotomy, and component therapy emphasized. Prereq: MLS 653; MLS majors only. 16 cr.

764. Clinical Chemistry Internship

Advanced instruction in clinical chemistry at a local hospital or reference laboratory. Analysis of carbohydrates, proteins, enzymes, lipids, hormones, electrolytes, blood gases, and drugs. Prereq: MLS 654; MLS majors only. 16 cr.

Microbiology (MICR)

(For program description, see page 51.)

Chairperson: Robert M. Zsigray

Professors: Richard P. Blakemore, Thomas G.

Pistole, Frank G. Rodgers, Robert M. Zsigray

Associate Professor: Aaron B. Margolin

Assistant Professor: Louis S. Tisa

Research Assistant Professor: Michael Lesser

500. Microbes and Sustainable Living

Provides an acquaintance with the microbial world with an emphasis on its importance to humans. Selected infectious diseases of current global significance discussed to illustrate the frustrating maleficence of certain microbes as well as the numerous ways in which microorganisms are beneficial in foods and nutrition, agriculture, industry, and pollution abatement. Laboratory emphasizes microbe hunting as a cure for microphobia. By means of field trips and lab exercises in which maintenance of sterility is frequently not important, students learn to find, observe, collect, and cultivate numerous kinds of harmless microorganisms. These include photosynthetic, salt-loving, luminescent, acid-tolerant, and magnetic bacteria, as well as plant symbionts and fermentative microbes. Microscopy optional; autoclaving unessential, but inquiry paramount. Special fee. Lab. 4 cr.

501. Public Health Microbiology

Medical microbiology with emphasis on immunology, pathogenic bacteriology, parasitology, animal virology, and the incidence and control of human communicable diseases. Laboratory techniques for identification of important pathogenic microorganisms and disease diagnosis. Special fee. Lab. 4 cr.

503. General Microbiology

Principles of microbiology; morphology, physiology, genetics, culture, and classification of bacteria and other microorganisms; and their relationships to agriculture, environment, industry, sanitation, and infectious diseases. Prereq: CHEM 403-404 or equivalent. Special fee. Lab. 5 cr.

602. Pathogenic Microbiology

Morphologic, cultural, biochemical, serologic, and pathogenic characteristics of microorganisms causing human and animal diseases. Discussion of clinical presentation in host and laboratory diagnoses. Prereq: MICR 503. Special fee. Lab. 5 cr.

702. Infectious Disease and Health

Principles underlying the nature of infectious agents; the diseases they cause; pathogenic strategies; response of the host; intracellular parasitism; epidemiology; control measures including vaccines and chemotherapy; action of antimicrobial chemotherapeutic agents; pharmacokinetics and drug metabolism. Ethical issues in infectious disease covered. Well-established pathogens and newer, emerging human and animal disease agents covered. Prereq: MICR 602; permission. Special fee. Lab. 5 cr.

704. Microbial Genetics

Expression and transfer of genetic elements (chromosomal and nonchromosomal) in prokaryotic microorganisms; consideration of factors influencing public health, industry, the environment, and society. Prereq: MICR 503; BCHM 658. (Also offered as GEN 704.) Special fee. Lab. 4 cr.

705. Immunology

Examination of the immune response in vertebrates. Characterization of the major components of the immune system; study of host defense mechanisms and immunopathology. Serological and animal laboratory studies. Prereq: MICR 503; permission. Special fee. Lab. 5 cr.

706. Virology

Principles of animal and selected plant and bacterial virology in relation to infection and disease. Emphasis on the molecular biology of viruses, viral replication, isolation, propagation, assay, pathogenesis, diagnosis, detection, epidemiology, and control. Prereq: MICR 503. 3 cr.

707. Marine Microbiology

Characterization of microorganisms in the sea including taxonomy, physiology, and ecology; sampling, enumeration, distribution; and effects of marine environment upon microbial populations. Prereq: MICR 503. Special fee. Lab. 4 cr. Cr/F.

708. Virology Lab

Principles and practices of animal, selected plants, and bacterial virological methods for the propagation, detection and enumeration of viruses. Prereq: MICR 503. Coreq: MICR 706. Special fee. 2 cr.

709. Advanced Virology

Provides in-depth study of virology. Selected RNA, DNA, retroviruses, and non-retroviruses capable of causing cancer. Enables students to (1) understand genetic regulatory events occurring during virus-cell interactions and to (2) understand the specific pathogenicity, epidemiology, prevention, and control of selected (model) viruses. Prereq: MICR 706; permission. Lab. Special fee. 4 cr. (Not offered every year.)

710. Electron Microscopy and Microbial Cytology

Ultrastructure of eukaryotes, prokaryotes, and viruses. Role of bacterial appendages; cell membranes and cell walls; cytoplasmic inclusions; cell division and sporulation and virus ultrastructure. Preparative electron microscopy techniques for biological material described in detail. Practical applications of electron microscopy instrumentation together with theory of electron optics, and instrument function discussed. Prereq: MICR 503; permission. 3 cr. (Not offered every year.)

711. Genetics of Eukaryotic Microbes

Expression and transfer of genetic material in eu-

karyotic microbes including fungi, algae, protozoa, and *Caenorhabditis elegans*. Laboratory experience in DNA sequence entry retrieval and analysis. Macintosh workstations are used for accessing and retrieving data from the National Library of Medicine and other sources via the Internet. Prereq: MICR 503; BIOL 604 (Also offered as BCHM 711 and GEN 711). Special fee. Lab. 3 cr.

712. Electron Microscopy Laboratory

Operation of electron microscopes; manipulation of instrumentation and specimens. Application of shadowing, negative staining, embedding, thin-sectioning, labeling, freeze-fracture/etching to biological specimens; photographic techniques; interpretations of micrographs. Project work. Prereq: MICR 503; permission. Coreq: MICR 710. Special fee. 3 cr. (Not offered every year.)

713. Microbes and the Environment

Principles of microbial ecology in relation to human ecology. Physiological ecology as required to understand microbial roles in matter and energy flow through ecosystems. Environmental sensing and behavioral or metabolic responses by independent cells and social microbes. Aquatic, terrestrial, and biotic habitats in which microbes have influence. Biotic interactions including syntrophy, consortial mixtures, and stable symbioses between prokaryotes and eukaryotes. May be repeated. Prereq: MICR majors only; MICR 503. 3 cr. Cr/F.

714. Water Pollution Microbiology

Application of general principles of microbial ecology to water pollution. Study of viruses, bacteria, algae, and parasites found in contaminated water: their genetics, physiology, occurrence, detection, and health implications in addition to the organic and inorganic chemistry of the water they are found in. Prereq: MICR 503. Special fee. Lab. 4 cr. (Not offered every year.)

715. Microbial Ecology Laboratory

Methods of evaluating microbial community composition, structure and activity. Enrichment, isolation, and consideration of particular microbial groups important in the biogeochemistry of major elements including metals. Molecular methods of evaluating microbe-environment interactions. Prereq: MICR 713. Special fee. Lab. 1 cr.

716. Advanced Immunology

Selected topics in immunology based on current trends and class interest. Includes recent advances in the field as well as issues of ethics and misconduct in science. Recurring topics include AIDS, tumor immunology, vaccine development, and antimicrobial immunity. Laboratory experience includes protein (antibody) purification, immunoassays, development and evaluation of immunologic probes. Prereq: gen. immunology; gen. biochemistry. Special fee. Lab. 3 cr. (Not offered every year.)

717. Microbial Physiology

Fundamental physiological and metabolic processes of bacteria and fungi with a strong emphasis on prokaryotes. Literature-based course. Topics include regulation of and coordination of microbial metabolism, bacterial cell cycle, function of prokaryotic cell structure, diversity of energy metabolism, and microbial cell differentiation. Prereq: MICR 503, BCHM 658 or 751; permission. Special fee. Lab. 4 cr.

718. Ethics and Issues in Microbiology

Multiple forces affect the transfer of information from the research laboratory to the practical world. Who evaluates scientific findings? Who determines their validity? What political, economic, and societal factors influence the availability of newly acquired scientific information? These and related questions presented and discussed in a format to provide factual information and opportunities to evaluate selected issues. Topics selected from current literature and suggestions made by class members. 3 cr.

751. Cell Culture

Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as ANSC 751 and PBIO 751.) Special fee. Lab. 5 cr.

795, 796. Problems in Microbiology

Prereq: permission. 1-8 cr.

Military Science (MILT)

Reserve Officers Training Corps
(For program description, see page 97.)

Professor of Military Science: Lt. Col. Terry J. LeBoeuf

Adjunct Associate Professor: Col. John D. Kraus, Jr.

Assistant Professors: Capt. Ralph J. Huber, Capt. Kristin E. Hull, Major David B. Madden, Major John R. Tierney

413. The Defense Establishment and National Security

Elements of the U.S. defense establishment and their roles in national security. Functional interrelationships: service branches, tactical maneuver elements, major commands, operating agencies, other uniformed services, and civilian agencies. The principle of civilian control. Current world events of significance to the Army officer. Leadership laboratory required for cadets. 1 cr.

414. Military Skills I

Introduction to land navigation, expedient medical care, casualty processing, and cardiopulmonary resuscitation. Leadership lab required for cadets. 1 cr.

501. American Military History

Development of American military institutions, civil-military relations, and use of military forces as an instrument of national policy from the Revolutionary War to the present. Emphasis on battle campaign analysis. Lab (required only of cadets). 2 cr.

502. Military Skills II

Standard military map reading and use, principles of leadership, general first aid, and selected communications and technical skills development. Lab (required only of cadets). 2 cr.

601. Military Leadership & Management I

Introductory studies in human relations, interpersonal communications, and group interaction which relate to management and leadership application. Participative leadership and management,

motivation and self-actualization. Emphasis on interrelationship between supervision, management, and leadership, and hands-on application of theory to practice. Lab. 2 cr.

602. Military Leadership & Management II

Further studies in human relations, interpersonal communication, and group interaction. Demonstrated abilities required in leadership and management. Emphasis on theory of training methods with the functions of military management and dynamic leadership. Prereq: MILT 601. Lab. 2 cr.

611. Seminar on Leadership & Management I

Examination of the military skills and professional knowledge needed for a second lieutenant. Emphasis on various Army management systems and the new lieutenant's responsibilities to the Army and to his/her superiors and subordinates. Lab. 2 cr.

612. Seminar on Leadership & Management II

Examination of fundamentals of military law to develop the students' understanding of military-specific offenses and disposition procedures. Law of war and professional ethics also discussed. Prereq: MILT 611. Lab. 2 cr.

695. Officer Internship

Experiential learning through fieldwork in a military-type unit. Written analysis required. Prereq: MILT 611 (may be taken concurrently). By permission only. May be taken up to a total of 8 credits. 1-4 cr.

Music (MUSI)

(For program description, see page 35; see also course listings under Music Education.)

Chairperson: John E. Rogers

Professors: Keith Polk, Mary H. Rasmussen, John E. Rogers, David E. Seiler

Adjunct Professor: Clark Terry

Associate Professors: Mark S. DeTurk, Robert W. Eshbach, Stanley D. Hettinger, Cleveland L. Howard, Christopher Kies, Nicholas N. Orovich,

W. Niel Sir, Kathleen Wilson Spillane, Robert Stibler, Peter W. Urquhart, Peggy A. Vagts,

Larry J. Veal

Assistant Professor: Michael J. Annicchiarico

Instructors: Christopher Humphrey, David K. Ripley

Lecturers: Les Harris, Jr., Margaret Herlehy, John B. Hunter, Charles Jennison, Christopher Kane, Arlene Kies, Olivia Mattis, Terrie S. Meier, David Newsam, Janet E. Polk, Jean M. Rife, John B. Skelton, Nancy Smith

History, Literature, and Appreciation

401. Introduction to Music

Fundamental approach to perceptive listening, based on a detailed study of several masterpieces representing different periods and forms. Historical perspective, but main emphasis is on confronting significant works of musical art on their own terms. Some participation in musical life of the university required. Does not fulfill a major requirement. 4 cr.

402. Survey of Music History

The study of the development of musical styles and idioms in the context of selected historical and cultural aspects of Western civilization. 4 cr.

501-502. History and Literature of Music

Styles, forms, and techniques of composition in Western music. Required of all music majors. 3 cr.

511. Survey of Music in America

From colonial times to the present, including the various European influences, the quest for an American style, and the emergence of such indigenous phenomena as jazz. 4 cr.

512. Survey of African American Music

Survey of African American music written for the concert stage. Includes both vocal and instrumental music forms, for small and large ensembles from approximately 1850 to present. The recorded compositions demonstrate a fusion of African, American, and European traditions. Composers studied include: Thomas Greene (Blind Tom), Frank Johnson, James Bland, Samuel Coleridge Taylor, William Grant Still, Florence Price, Julia Perry, Nathaniel Dett, William Dawson, Undine Smith-Moore, Margaret Bonds, John Work, Olly Wilson, and Scott Joplin. Jazz considered as it relates to and has its roots in a particular concert work. An occasional field trip to hear an African American performance required. Music majors may receive elective credit. 4 cr. Cr. F.

#513. Introduction to the Music of Africa and Asia

Folk and classical music of various ethnic cultures, particularly those of Japan, India, and sub-Saharan Africa. 4 cr.

581. Harmony in Traditional Jazz and Popular Music

A practical course in the harmonization of popular songs and "blues." Typical chord progressions; their logic, extensions, and symbolic representations. Written exercises and instrumental improvisation. Prereq: knowledge of notation and fundamental harmony; ability to perform on a musical instrument. Some keyboard skill highly desirable. Permission. 4 cr.

595. Special Topics in Music Literature

Open to music majors and nonmajors; topics in areas not easily covered in historical courses. Prereq: permission. May be repeated for credit. 1-4 cr.

609. Ethnicity in America: The Black Experience in the Twentieth Century

Team-taught course investigating music literature and social history of black America in the period of the Harlem Renaissance, in the Great Depression, World War II, and in the 1960s. Special attention to the theme of accommodation with, and rejection of, dominant white culture. (Also offered as ENGL 609 and HUMA 609.) 4 cr.

#701. Music of the Medieval Period

Nature of the beginnings of polyphony. The pre-eminent influence of the church in the 13th century and the rising secular movement in the 14th. Music as a dominant force in the political and social life of the Middle Ages. 3 cr.

703. Music of the Renaissance

Works of the 15th- and 16th-century composers from Dunstaple to Palestrina. 3 cr.

705. Music of the Baroque

Music of Europe from de Rore to Bach. 3 cr.

707. Music of the Classical Period

Growth of musical styles and forms from early classicism through the high classicism of Haydn, Mozart, and the young Beethoven. 3 cr.

709. Music of the Romantic Period

A survey of romanticism in music from Beethoven's late period to the end of the 19th century. The works of Schubert, Berlioz, Schumann, Mendelssohn, Chopin, Wagner, Verdi, Brahms, Austrian symphonists, French pre-impressionists, and national styles in European music. 3 cr.

711. Music of the 20th Century

Styles and techniques of composers from Debussy to the present. Special emphasis on tonal music before World War I; neoclassical trends; the emergence of atonality and serial techniques; antirationalist music; electronic music. 3 cr.

713. The Art Song

History and literature of the solo song with piano accompaniment. Survey of national styles of the 19th and 20th centuries and deeper study of the central core of the art song—the German Lied. 3 cr.

715. Survey of Opera

History of the genre from Monteverdi to the present. Representative masterpieces by Handel, Mozart, Beethoven, Weber, Wagner, Verdi, Mussorgsky, Debussy, Berg, and others. 3 cr.

717. Survey of Pianoforte Literature

Keyboard literature from the Baroque to the present. Analysis, discussion, and illustration of works by Bach, Haydn, Mozart, Beethoven, the romantic composers, and contemporary writers. 3 cr.

795. Special Studies in Music

A) J. S. Bach; B) Franz Schubert; C) Debussy and Ravel; D) The World of Jazz; E) The Iconography of Western European Musical Instruments; F) 19th-Century French Music; G) Advanced Analysis; H) Advanced Study in Electronic Music; I) Composition through Computer-generated Sound; J) Woodwind Literature; K) Brass Literature; L) String Literature; M) Medieval Performance Practice; N) Renaissance Performance Practice; O) Baroque Performance Practice; P) Classical Performance Practice; Q) 19th-Century Performance Practice; R) 20th-Century Performance Practice; S) Woodwind Repair; T) String Repair; U) Advanced Jazz Improvisation; V) Advanced Piano Pedagogy; W) Advanced Accompanying; X) Advanced Conducting; Y) Independent Study. Prereq: permission. May be repeated for credit with permission. 1-4 cr.

Performance

Registration for ensemble courses (441-461) should be completed during the registration period. All ensemble courses may be repeated. A maximum of 8 credits earned in ensemble may be used toward graduation.

441. Concert Choir

A mixed chorus that studies and performs classical and modern literature. Recommended for voice majors. Open to all students. Prereq: permission. 1 cr.

442. Chamber Chorus

A mixed chorus which studies and performs sacred and secular works from the Renaissance to the present, participates with the opera workshop and with the orchestra, and serves as a nucleus for larger choral-instrumental work. Prereq: permission. 1 cr.

443. Women's Chorus

Open to all students interested in singing the finest literature in this medium and who can fulfill the requirement of an audition. 1 cr.

448. Opera Workshop

Operatic singing, acting, and production techniques; performance of both complete operas and operatic excerpts. Prereq: permission. 1 cr.

450. Symphony

Presents several concerts during the year, of repertoire ranging from the great, standard symphonic literature to experimental, multimedia composition. Prereq: permission of conductor and audition. 1 cr.

#451. UNH Training Orchestra

Designed for music education majors, but open to all who wish to develop proficiency on major or secondary instruments. Ensemble experience in the basic repertoire often met in school situations for students who do not yet meet the standards required for the UNH Symphony. 1 cr.

452. UNH Symphonic Wind Ensemble

Open to all students. Campus concerts and New England tour. Prereq: permission and audition. 1 cr.

453. Symphonic Band

Original band music, transcription, marches, etc. For students whose program does not permit music as a major interest, but who are interested in maintaining their playing proficiency and continuing their study of music. Prereq: permission. 1 cr.

454. UNH Marching Band

Open to all students; performs during home and away football games. Rehearsals conclude at the end of the football season. Prereq: permission. 1 cr. Cr/F.

#455. Piano Ensemble

Drawing from available student instrumentalists and singers, pianists learn the art of performing in trios, duo sonatas, and two-piano works, and gain experience in Lieder accompaniment. 1 cr.

456. String Ensemble**457. Woodwind Ensemble****458. Brass Ensemble****459. Percussion Ensemble****460. Jazz Ensemble**

In these five courses, MUSI 456 through MUSI 460, groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission. 1 cr.

461. Vocal Ensemble

Singers perform in small ensembles such as trios, quartets, quintets, and octets. Prereq: permission. 1 cr.

467. Functional Piano

Basic instruction for music majors with no previous keyboard training. Pianoforte technique, key-

board harmony geared to the practical harmonization of simple melodies, sight reading, transposition, and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission. Special fee. 1 cr.

468. Voice Class

Basic instruction in voice for nonmajors and music majors who are not majoring in voice. May involve both class instruction and individual lessons. Prereq: permission. Special fee. May be repeated to a total of 4 cr. 1 cr.

In courses 536-564 and 736-764 (private instruction in performance) presentation and material used vary from pupil to pupil. The emphasis is on musical values and sound technique. As the student advances, repertory is broadened to include works of all periods. One solo performance each semester may be required.

Private lessons are given weekly and are one hour or one half-hour in length; an hour master class is given on alternate weeks. One semester-hour credit may be earned with the half-hour lesson; two, three, or four semester hours of credit may be earned with the one-hour lesson. In general, only students in performance in the bachelor of music curriculum are allowed to register for private lessons of more than two credits. Five one-hour practice periods are expected for each credit of private study. The special semester fee for lessons is \$105 for 1 credit, \$210 for 2 credits, \$315 for 3 credits, and \$420 for 4 credits (this fee applies for courses numbered 541-564 and for courses numbered 741-764). The fee includes the use of a practice room for the required preparation.

Registration in courses of private instruction is generally restricted to music majors. Nonmajors may enroll on a space available basis, subject to approval by the Department of Music and the instructor. Students may register for credit in successive semesters.

536/736. Early Wind Instruments

Private instruction in Renaissance and Baroque wind instruments. Special fee. 1-4 cr.

537/737. Early String Instruments

Private instruction in Renaissance and Baroque string instruments. Special fee. 1-4 cr.

541/741. Piano

Private instruction in piano. Special fee. 1-4 cr.

542/742. Harpsichord

Private instruction in harpsichord. Special fee. 1-4 cr.

543/743. Organ

Private instruction in organ. Special fee. 1-4 cr.

544/744. Harp

Private instruction in harp. Special fee. 1-4 cr.

545/745. Voice

Private instruction in voice. Special fee. 1-4 cr.

546/746. Violin

Private instruction in violin. Special fee. 1-4 cr.

547/747. Viola

Private instruction in viola. Special fee. 1-4 cr.

548/748. Violoncello

Private instruction in violoncello. Special fee. 1-4 cr.

549/749. String Bass

Private instruction in string bass. Special fee. 1-4 cr.

550/750. Classical Guitar

Private instruction in classical guitar. Special fee. 1-4 cr.

551/751. Flute

Private instruction in flute. Special fee. 1-4 cr.

552/752. Clarinet

Private instruction in clarinet. Special fee. 1-4 cr.

553/753. Saxophone

Private instruction in saxophone. Special fee. 1-4 cr.

554/754. Oboe

Private instruction in oboe. Special fee. 1-4 cr.

555/755. Bassoon

Private instruction in bassoon. Special fee. 1-4 cr.

556/756. French Horn

Private instruction in French horn. Special fee. 1-4 cr.

557/757. Trumpet

Private instruction in trumpet. Special fee. 1-4 cr.

558/758. Trombone

Private instruction in trombone. Special fee. 1-4 cr.

559/759. Euphonium

Private instruction in euphonium. Special fee. 1-4 cr.

560/760. Tuba

Private instruction in tuba. Special fee. 1-4 cr.

561/761. Percussion

Private instruction in percussion. Special fee. 1-4 cr.

562/762. Keyboards

Private instruction in keyboard instruments. Special fee. 1-4 cr.

563/763. Jazz Guitar

Private instruction in jazz guitar. Special fee. 1-4 cr.

564/764. Drum Set

Private instruction in drum set. Special fee. 1-4 cr.

731-732. Conducting

Physical aspects, equipment of conductor, fundamental gestures and beats, baton techniques. Reading and analysis of full and condensed scores, study of transposition, psychology of rehearsal. Prereq: MUSI 571-572 and junior standing. 2 cr.

735. Collegium Musicum

Instrumentalists and singers perform small ensemble music from all periods, with emphasis on Renaissance and Baroque music. Prereq: permission. 1 cr.

Theory and Composition

411-412. Fundamentals of Music Theory

Elements of music theory for the nonmusic major; principles of musical structure, analysis, elementary written counterpoint and harmony, and ear training. May not be counted for credit toward a music major. Prereq: ability to read music and permission of instructor. 4 cr.

471-472. Theory I

Introduction to the tonal system; species counterpoint; principles of voice leading and harmonic progression through the analysis, realization, and composition of one-, two-, and four-voiced textures. Concept of triad inversion and consonant diatonic harmonies of the major and minor modes. Students should register for MUSI 473-474 concurrently. Prereq: permission. 3 cr.

473-474. Ear Training I

Laboratory exercises to develop aural skills: sight-singing and dictation. Students should register for MUSI 471-472 concurrently. Prereq: permission. 1 cr.

571-572. Theory II

Continuation of MUSI 471-472. Compositional and analytic work stresses the treatment of dissonance within the tonal system; accessory tones, seventh chords, tonicization, modulation, basic principles of chromatic harmony, and harmonization of chorale melodies are covered. Students should register for MUSI 573-574 concurrently. Prereq: MUSI 472; 474; permission. 3 cr.

573-574. Ear Training II

Laboratory exercises to develop aural skills further. Students should register for MUSI 571-572 concurrently. Prereq: MUSI 472; 474; permission. 1 cr.

771-772. Counterpoint

Contrapuntal techniques of tonal music. Melodic construction and dissonance treatment through work in species counterpoint and studies in harmonic elaboration and prolongation. Analysis of selected compositions emphasizes the connection between fundamental contrapuntal techniques and the voice-leading of composition. Prereq: MUSI 572 or permission. 2 cr.

773. Advanced Counterpoint

Continuation of MUSI 772. Prereq: MUSI 772 or permission. 2 cr.

775-776. Composition

Construction of phrases, periods, and short compositions following classical models. Problems of text-setting. Prereq: MUSI 572 or permission. 3 cr.

777. Advanced Composition

Continuation of MUSI 776. Individual compositional projects. Prereq: MUSI 776 and permission. May be repeated for credit. 3 cr.

779. Orchestration

Characteristics of band and orchestral instruments both individually and in small (homogeneous) and large (mixed) groupings. Students study scores, write arrangements, and have arrangements performed if at all possible. Some aspects of vocal writing. Prereq: MUSI 572 or permission. 3 cr.

781, 782. Analysis: Form and Structure

Introduction to analytical techniques through the study of representative masterworks: formal and

structural elements and their interrelationships. Semester I: analysis of 18th- and 19th-century works; semester II: analysis of 20th-century works. Prereq: MUSI 572 or permission. 3 cr.

785. Electronic Sound Synthesis

Computers and digital synthesizers, methods of sound synthesis (e.g., fm synthesis, sampling), MIDI programming in VisualBasic and C++, control programs for synthesizers, notation using computers (e.g., Finale for PC and Macintosh). 4 cr. (Generally offered in the spring.)

Music Education (MUED)

(For program description, see page 37; for faculty listing, see page 167; see also course listings under Music.)

#500. Exploring Music Teaching

Introductory fieldwork course for students to explore music teaching as a career. Observation, teaching, research, examination of multimechanical aids for music curriculum development. In the MUED curriculum, this course is not required if EDUC 500 is taken with a music department professor. 2 cr. Cr/F.

540. Beginning Techniques in Voice

Basic techniques of voice production. Individual work is emphasized. Working knowledge of an instrument required. This course is desirable for, but not restricted to, MUED majors. Prereq: permission. 2 cr.

545, 546. Beginning Techniques in String Instruments

Class and individual instruction. Four hours practice per week. Training on the violin, viola, cello, and double bass. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr

595. Special Projects in Music Education

Individual investigation, research, or study. Creative projects may be included. A) Marching Band Methods and Techniques. Prereq: permission. 1-4 cr.

741-742. Techniques and Methods in Choral Music

Problems in the organization and performance of high school, college, and community choruses. Techniques of choral conducting and rehearsal, repertory, and materials. 2 cr.

743. Materials and Methods in Piano Music

Gives potential piano teachers a coherent but flexible approach to the instruction of students of different ages and levels of talent through evaluation of methods and materials and discussion of the role of the private teacher. 2 cr

#745-746. Techniques and Methods in String Instruments

Class and individual instruction. Four hours of practice per week required. Intensive training on the violin, viola, cello, and double bass enables participants to perform in string ensembles. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr

#747-748. Techniques and Methods in Woodwind Instruments

Basic fundamentals of performance, class instruction, associated acoustical problems and study of woodwind literature. First semester: clarinet, flute, and saxophone. Second semester: double-reed instruments. 2 cr.

749. Techniques and Methods in Brass Instruments

Basic course in embouchure formation, tone, tonguing, fingering, flexibility, accuracy, and range development as applied to the trumpet or baritone horn, French horn, and trombone; methods, studies, solos, and ensembles most likely to be useful with grade school, junior high school, and high school players of brass instruments. 2 cr.

751. Techniques and Methods in Percussion Instruments

Basic performance skills on snare drum, timpani, mallet instruments, and other percussion instruments used in bands and orchestras. Materials and methods of instruction. 2 cr.

#785. Music for the Elementary Classroom Teacher

Basic skills and techniques for the nonspecialist. Correlation and integration of music in the school curriculum. 4 cr.

790. Teaching Elementary School Music

Experiential approach toward learning creative strategies for teaching elementary school music. Includes various curricula and methods; philosophy and psychology of music; demonstration of materials and instruments. Observation and teaching in schools. Prereq: piano proficiency. 3 cr.

791. Teaching Secondary School Music

Assembling, managing, and teaching junior/senior high school music curriculum. Academic issues of philosophy, curriculum building, application of learning theories, administration, evaluation, motivation, and classroom management combined with field experience in lesson planning and teaching/rehearsal techniques. Prereq: piano proficiency; MUSI 731-732. 3 cr.

792. Seminar in Music Teaching

Group discussion and demonstration of effective music teaching. On-site examinations of school music teaching. Organization and teaching of curriculum units. Normally taken during student teaching semester. 3 cr.

795. Special Studies in Music Education

Allows upper-level students to explore individually or in groups areas related to their specific professional interests. Prereq: permission. 1-4 cr.

Natural Resources (NR)

(For program description, see page 44; see also course listings under Environmental Conservation, Forestry, Soil Science, Water Resources Management, and Wildlife Management.)

Chairperson: Theodore E. Howard
Professors: John D. Aber, James P. Barrett, John E. Carroll, Robert D. Harter, William W. Mautz, R. Marcel Reeves

Adjunct Professors: Christopher Eagar, C. Anthony Federer, Peter W. Garrett, James W. Hornbeck, William B. Leak, Sidney A.L. Pilgrim, Lawrence Safford, Paul Edwin Sendak

Associate Professors: William B. Bowden, Russell G. Congalton, Robert T. Eckert, Christine V. Evans, Theodore L. Howard, Paul C. Johnson, John A. Litvaitis, William H. McDowell, Peter J. Pekins, Barrett N. Rock, Richard R. Weyrick

Research Associate Professors: Stephen H. Jones, Frederick T. Short

Adjunct Associate Professors: Bert Cohen, Richard J. DeSeve, David Y. Hollinger, Bruce Kantner

Assistant Professors: Mimi L. Becker, Daniel J. Zarin

Research Assistant Professor: David M. Burdick

Adjunct Assistant Professors: Jeffrey H. Gove, Mariko Yamasaki

Instructor: Christine L. Schadler

401. Natural Resources Perspectives

Introduction to conservation and management of living and nonliving natural resources. The economics, ethics, history, politics, and science of resource use and misuse; an overview of resource career preparation and opportunities. Selected lab/field/discussions/problem solving of forest, marine, soil, water, waste, and wildlife issues. Restricted to Department of Natural Resources freshmen. Lab. Special fee. 4 cr.

410. Insects and Society

Insects and their relations to humans, their environments, and their activities. Not for major credit. Special fee. Lab. 4 cr.

412. Introductory Entomology

Insect structure and function, development, classification, ecology, behavior, and evolution for students in the biological sciences; importance of insects in terrestrial and aquatic ecosystems. Insect collection required. Special fee. Lab. 4 cr.

#601. Race to Save the Planet

Global environmental problems facing planners, politicians, researchers, and citizens. Topics include rain forests, fossil fuel dependency, atmospheric alterations, current agricultural and industrial practices and alternatives, plant and animal diversity, waste disposal, etc. The ten 1-hour videos and weekly lecture/discussion periods are designed to provoke thought and analysis. Not offered for credit to majors within Department of Natural Resources. Students may not receive credit for EC 535 and NR 601. 3 cr.

602. Natural Resources and Environmental Policy

Contemporary natural resource and environmental policy problems/issues addressed from a policy sciences perspective with emphasis on domestic policy solutions. Critical assessment of major policy initiatives and their implementation toward sustainable resource use and a healthy environment. Public policies analyzed to determine the extent to which their implementation strategies have succeeded, and to assess their adequacy within a bioregional or ecosystem approach and/or capacity to integrate economic and environmental decisions. Cases include national and local policies in their global context. Students apply public policy analysis and decision tools in laboratory ses-

sions. Restricted to Department of Natural Resources juniors and seniors. Special fee. 4 cr.

702. Natural Resource Workshops

Short-term courses (generally a few days to two weeks) offered off-campus by the A) New Hampshire Audubon Society and B) Appalachian Mountain Club, as well as C) Nature Study covering a broad variety of environmental and natural resource topics. May be repeated. 1-4 cr. Cr F.

709. Fire Ecology Seminar

Lectures, guest lectures, and student presentations dealing with the natural role of fires in wild land communities, fire adaptations in plant and animal species, human responses to wild land fires and prescribed fire applications. Optional set of one-half to one-day field trips for an additional 1 credit. Prereq: basic ecology course; junior, senior, or graduate student. Special fee, variable 2-3 cr. (Not offered every year.)

712. Sampling Techniques

Techniques of sampling finite populations in environmental sciences; choice of sampling unit and frame, estimation of sample size, confidence limits, and comparisons of sample designs. Prereq: BIOL 528 or equivalent. 2-4 cr. (Not offered every year.)

#713. Quantitative Ecology

Applied quantitative techniques: basic concepts in probability and statistics applied to ecological systems; population dynamics; spatial patterns; species abundance and diversity; classification and ordination; production; and energy and nutrient flow. Additional credit for in-depth mathematical analysis of a particular topic. Prereq: intro. courses in calculus, statistics, and ecology. 3 or 4 cr. (Not offered every year.)

730. Terrestrial Ecosystems

Processes controlling the energy, water, and nutrient dynamics of terrestrial ecosystems: concepts of study at the ecosystem level, controls on primary production, transpiration, decomposition, herbivory; links to earth system science, acid deposition, agriculture. Prereq: FOR 527, PBIO 412 or BIOL 411, or permission. Lab. 3 cr.

753. Decision Sciences in Natural Resource Management

Application of decision science methods (optimization, simulation, input-output, and statistics) to natural resources problems. Emphasis on practical work in evaluating projects, dealing with risk and uncertainty, analyzing regional impacts, valuing nonmarket resources, and exploring sustainability of managed forests. Prereq: FOR 643 or intermediate microeconomics. Special fee. Lab. 4 cr.

757. Photo Interpretation and Photogrammetry

Practical and conceptual presentation of techniques for using remote sensing, specifically aerial photographs, in natural resources. Includes photo measures of scale, area, parallax and object heights; flight planning, photo geometry; an introduction to the electromagnetic spectrum; and photo interpretation and mapping. Concludes with an introduction to digital remote sensing including multispectral scanners, radar, and thermal imagery and a brief discussion of geographic information systems (GIS). Applications to forestry, wildlife, land-use planning, earth sciences, soils, hydrology, and engineering. Prereq: algebra. Special fee. Lab. 4 cr.

759. Digital Image Processing for Natural Resources

Introduction to digital remote sensing including multispectral scanners (Landsat and SPOT) radar and thermal imagery. Hands-on image processing including filtering, image display, ratios, classification, registration, and accuracy assessment. GIS as it applies to image processing. Discussion of practical application. Use of ERDAS image processing software. Knowledge of PCs and DOS required. Prereq: NR 757 or equivalent and permission. Special fee. 4 cr.

760. Geographic Information Systems in Natural Resources

Introduction to the use of geographic information systems (GIS) for use with natural resources including data input, manipulation, storage, analysis, and display. Accuracy of spatial data and use of digital elevation models. Discussion of practical applications. Use of PC Arc/Info software. Prereq: permission. Special fee. Lab. 4 cr.

775. Natural Resources Senior Project

Multidisciplinary approach to land-use planning. Provides experience with dynamics of working in a group to identify, evaluate, and suggest management strategy to solve environmental problems. Class will be divided into small groups, each of which will choose or be assigned a real problem. Each group will act as a consulting firm in developing management strategies. Prereq: senior standing in the Department of Natural Resources and permission. Special fee. 2 cr.

Nursing (NURS)

(For program description, see page 79.)

Chairperson: Ann Kelley

Professor: Judith A. Sullivan

Associate Professors: Gene E. Harkless, Ann Kelley, Margaret A. Lamb, Juliette D. Petillo, Dorothy D. Rentschler, Raelene Shippee-Rice, Rosemary Y. Wang, Carol L. Williams-Barnard
Assistant Professors: Sarah Jo Brown, Jeffrey A. Eaton, Elizabeth Ely, Judith A. Evans, Susan J. Fetzer, Barbara H. Kautz, Liza Little, Judith A. Metcalf, Denise M. Nies, Linda Robinson, Alison H. Sweatt

501. Introduction to Nursing

Examines the values and philosophy of the Department of Nursing. Explores the four domain concepts of nursing: health and how it is defined, the diverse clients served by nursing, nursing as a profession, and the complex environment within which nursing is practiced. The nature of nurse-client encounters is explored with an emphasis on teaching students the skills to interact in a caring, facilitative manner. 4 cr.

502. Concepts of Pathophysiology/Pharmacology

Focuses on concepts of pathophysiology, pharmacology relevant to nursing practice. The physiologic response and manifestations of alterations in normal body functioning are analyzed and the effects of pharmacological agents on these alterations are examined. Prereq: ZOO 507-508; MICR 501; majors only. 4 cr.

508. Foundations of Nursing Judgment

Focuses on the knowledge and analytical skills required to adequately assess the health status of individuals. Students learn how to collect data using an assessment framework, analyze the data, and identify client resources and problems. Emphasizes the implications of the individual's developmental status, culture, and biologic variations at all points in the assessment process. Prereq: ZOO 507-508; NUTR 400 and 499; NURS 501; majors only. Coreq: NURS 514. 4 cr.

514. Techniques of Clinical Nursing

Focuses on the acquisition of psychomotor and assessment skills required for the delivery of safe nursing care. Students begin by learning clinical skills in the simulation setting and then using those skills with supervision in the clinical setting. Prereq: ZOO 507-508; majors only. Coreq: NURS 508. Lab. Special fee. 4 cr.

535. Death and Dying

Significance of death and dying examined from perspective of the individual, the family, the professional, and society. Discussion of theories of death and dying, and grief and grieving. Exploration of legal and ethical concerns. Open to all students. Prereq: permission. 4 cr.

595. Women's Health

Examines women's health and women's health care from historical, political, and social perspectives. Discussion of societal and health-care constraints that hinder women from achieving their full health potential. Also presents information on women's health-care practices, including the concept of self-care, and relates this to the development of educated consumerism in the health-care system. 4 cr.

606. Seminar on Professional Nursing

Nature and function of health care systems and role of health professionals from historical, social, political, economic, and technical viewpoints. Health and how interactions between physical and social environments affect it. Individual student examination of values, attitudes, and beliefs regarding professional role and personal goals, in relation to current nursing practice. Open to R.N. students only, by permission. Special fee. 7 cr.

611. The Nurse-Client Encounter in Health Transitions

Explores the ethical and interpersonal nature of the nurse-client relationship as the client experiences situational and maturational transitions in health. Analyzes the multiple variables influencing perceptions and responses of nurse and client to transitions. Prereq: junior major. 4 cr.

614. Nursing and Social Policy

Examines critical aspects of the U.S. health care delivery system from a nursing perspective. Also examines the economic and political issues of nursing care delivery. Introduces the strategies and skills for participating in the health care planning process, including background on the influence of various power groups. Prereq: junior major. 4 cr.

615. Caring for Adults

Addresses the professional nursing practice, decision making processes, strategies and interventions as they relate to the care of adults who are experiencing chronic illnesses, acute illnesses, or impending death. The perspective adopted emphasizes the

functional issues of daily living that these illnesses impose and the meanings these illnesses have for adults and their families within cultural, socioeconomic, sociopolitical, physical, and personal contexts. Prereq: junior major. Special fee. 6 cr.

618. Caring for People with Alterations in Mental Health

Provides an understanding of the concepts of mental health and major factors affecting human behavior and interaction. Uses specific theoretical concepts and psychosocial theories as a vehicle for supporting the person's and family's optimum state of well-being. Also emphasizes the practice of psychiatric nursing as being grounded on certain empirical, aesthetic, personal, and ethical knowledge. Through a variety of clinical experiences, the student applies mental health concepts, principles of therapeutic communication, and the nursing process in caring for individuals and families with alterations in mental health. Prereq: junior major. Special fee. 3 cr.

620. Caring for the Childbearing and Childrearing Family

The family as focus for nursing practice. Introduces students to the care of young families throughout pregnancy, birth, and child-rearing periods. Examines healthy transitions and physical alterations occurring from conception through adolescence. Discusses the health needs of the young family in terms of major morbidity/mortality and contemporary issues. Experience in various clinical settings will provide opportunities for the development of professional practice roles. Prereq: junior major. Special fee. 6 cr.

624. Nursing in the Community

Explores the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Explores a variety of clinical and population-focused roles in primary, secondary, and tertiary prevention of health problems. Special fee. Prereq: junior major. 3 cr.

625. Nursing in the Community

Explores the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Explores a variety of clinical and population-focused roles in primary, secondary, and tertiary prevention of health problems. Open to R.N. students only, by permission. Prereq: NURS 606. Special fee 4 cr.

626. Seminar on Community Nursing

A nonclinical course, exploring the role of community health nursing in health promotion, disease prevention, and long-term care. Analyzes contemporary community health problems with implications for community health nursing. Prereq: Open to RN students with documented community health clinical experiences only; NURS 606. 3 cr.

636. Cardiac Arrhythmias

Theory and practice of basic single-lead arrhythmia interpretation and 12-lead electrocardiography for identifying disturbances of the cardiac rhythm. Designed to provide a firm foundation for the assessment and treatment of persons experiencing

disturbances of the cardiac rhythm; includes field experiences. Prereq: ZOOL 507-508 or permission. 4 cr.

645. Nursing Research

Focuses on enhancing the student's ability to evaluate, read, comprehend, participate in, and apply research to the practice of nursing. Prereq: junior major. Pre- or coreq: statistics. 2 cr.

670. Issues in Health Care of the Aged

Current concepts and issues related to study of aging from biological and sociological perspectives. Multidisciplinary study of issues relevant to the development of social policies affecting health care and delivery of services to the elderly. Course divided into two parts: (1) study of the normal physiological and psychological processes of aging, and (2) impact of social, cultural, and economic forces on care of the elderly and delivery of health services. Open to all students. 4 cr.

694. Special Topics

Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not duplicate areas of content. Prereq: permission. 1-4 cr. (Not offered every year.)

695. Independent Study

In-depth study with faculty supervision. Prereq: junior standing and approval of adviser and faculty of the area concerned. May be repeated for different topics. 2-4 cr.

703. Nursing Leadership/Management and the Organizational Context

Focuses on understanding ways in which the nurse can affect the organizations in which practice occurs and ways in which the organizations affect the individual's practice. Emphasizes issues of leadership; management; power; change; motivation; and interfacing of autonomous, dependent, and interdependent nursing functions in current and future health care delivery systems. Prereq: junior major. 4 cr.

719. Professional Nursing Practice: Transitions

Provides opportunity for students to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience/environment. Open to R.N. students only, by permission. Prereq: NURS 606. Special fee. 7 cr.

720. Professional Nursing Practice: Transitions

Provides opportunity for students to refine and integrate previously learned knowledge and skills into professional practice through a cooperatively designed learning experience/environment. Final course in major. Special fee. 8 cr.

#794. Special Topics

Specialized courses covering information not normally presented in regular course offerings. Description of topics varies. May be repeated but not duplicate areas of content. Prereq: permission 1-4 cr.

#796. Assessment and Intervention of Addictive Behaviors

Concepts related to addictions seen in common disorders such as alcoholism, drug abuse, eating disorders, and codependency. Addresses assessment treatment, and relapse prevention. Generic concepts are expanded through specific areas of addic-

tion. Seminar format to facilitate class participation. Prereq: junior, senior, or graduate standing. (Also offered as OT 796.) 4 cr.

797. Honors Project

Honors seminar designed to expand the knowledge and skills presented in previous honors in major courses. Focus of course is a project relevant to the discipline of nursing under the direction of a faculty adviser. Pre- or coreq: NURS 645; permission. 4 cr.

Nutritional Sciences (NUTR)

Department of Animal and Nutritional Sciences (For program description, see page 52. For other courses, see listings under Animal Sciences, page 109.)

Professor: Samuel C. Smith

Associate Professors: Gale B. Carey, Joanne Curran-Celentano, Colette H. Janson-Sand, Anthony R. Tagliaferro

Assistant Professor: Dennis J. Bobilya

Teacher/Trainer: Carolyn Giles

Extension Educators: Valerie A. Long, Catherine A. Violette

400. Introduction to Nutrition

Introduction to nutrition and food science. Coreq: NUTR 499. (Credit cannot be received for both NUTR 400 and ANSC 400.) 3 cr.

401. Introduction to the Dietetics Profession

Survey of the role and responsibilities of the dietitian. Legal and ethical considerations necessary for the student dietitian in clinical experiences. Educational and personal qualifications for specialization in dietetics. Prereq: NUTR major. 1 cr. Cr/F. (Fall semester only.)

405. Food and Society

Consideration of the cultural significance of food, emphasizing historical, psychological, social, political, and economic aspects. (Also offered as ANSC 405.) 4 cr.

476. Nutritional Assessment

Experimental techniques in anthropometric and biochemical assessment of nutritional status with emphasis on client interviewing and nutritional evaluation in a community setting. Prereq: NUTR 400 and 499 or permission. Special fee. 3 cr. (Spring semester only.)

478. Food Fundamentals

Principles and techniques of food selection, preparation, and preservation in relation to quality and acceptability. 3 cr. (Spring semester only.)

499. Introduction to Clinical Nutrition

Practical applications of nutrition as a therapeutic tool in health promotion disease prevention with a focus on clinical applications. Coreq: NUTR 400. Special fee 2 cr.

503. Principles of Institutional Food Service Management I

Practical experience in methods of purchasing, and handling food, tools, and equipment used in quantity food preparation; lab experience in selective

settings. May be taken independently of NUTR 504. Prereq: NUTR 478 or permission of instructor. 3 cr. (Fall semester only.)

504. Principles of Institutional Food Service Management II

Emphasizes the basic principles of managing food service operations, including personnel management, in-service and on-the-job training, policies and procedures development, and financial management. May be taken independently of NUTR 503. 3 cr. (Spring semester only.)

509. Nutrition Counseling

Emphasis on basic principles of counseling and practical skills necessary to perform as effective nutrition counselors in a clinical or health-care environment. Prereq: NUTR 400, 476, 499; or permission. Special fee. 2 cr. (Fall semester only.)

511. Nutrition Education: Methods and Materials

Principles, methods, and materials involved in nutrition education. Emphasis on development of educational materials for clinical and community programs. Prereq: NUTR 400 and 499. Special fee. 2 cr. (Fall semester only.)

550. Food Science: Principle and Practice

Principles of food composition structure and properties and the chemical changes foods undergo in preparation and processing. Study of the laws and regulations that are applied to marketing food systems; principle and practice in food preservation. Application of scientific principles and interpretations of laboratory findings. Prereq: NUTR 400, 478, and 499; CHEM 403-404; CHEM 545-546. Special fee. Lab. 4 cr. (Spring semester only.)

600. Field Experience in Nutrition

Supervised field experience in public and private agencies with planned learning objectives related to the areas of clinical and community nutrition and food service management. Students are responsible for their own transportation; faculty member coordinates arrangements with fieldwork sites. Prereq: NUTR majors and minors only; permission: NUTR 400 and 499. May be repeated for a maximum of 6 cr. 1-4 cr. Cr. F.

620. Principles of Community Nutrition

Study of community agencies and programs providing for differing age groups. Emphasis on assessment of nutritional needs of the community. Prereq: NUTR 400 and 499. 3 cr. (Spring semester only.)

646. Sports Nutrition

In-depth look at the facts and fallacies of sports nutrition for students who plan to become health professionals. Topics include protein needs for athletes, fat as fuel, carbohydrates and athletic performance, nutrition ergogenic aids, vitamin and mineral needs of athletes, fluid replacement, eating disorders, and proper training diets. Prereq: NUTR 400 and 499 or ANSC 400; KIN 620 or ZOOL 507-508. 4 cr.

650. Life Cycle Nutrition

Detailed analysis of nutrient requirements throughout the life cycle. Nutrient needs are evaluated in the context of their metabolic functions. Prereq: NUTR 400 and 499. 3 cr. (Spring semester only.)

699. Independent Study

Scholarly project in an area of the nutritional sciences under the guidance of a faculty adviser. Prereq: permission. 1-4 cr.

720. Public Health Nutrition

Focus on managerial processes of planning, leading, and evaluating nutrition programs and the skills and tools needed to develop and present such programs. (Also offered as ANSC 720.) 4 cr.

730. Dietetics Practicum I—Foodservice Management and Community Nutrition

Supervised practical experience in the professional areas of food service management and community nutrition integrated with classroom theory and lectures. Prereq: ADA Plan IV/V verification and acceptance into the NACS AP-4 Program. 4 cr. IA.

731. Dietetics Practicum II—Clinical Nutrition

Supervised practical experience in the professional areas of dietetics and clinical nutrition integrated with classroom theory and lectures. Prereq: ADA Plan IV/V verification and acceptance into the NACS AP-4 Program. 2 cr. IA.

750. Nutritional Biochemistry

Detailed analysis of the digestion, absorption, transport, and intermediary metabolism of nutrients. Nutrient requirements are evaluated in the context of their physiological and biochemical functions. Prereq: ZOOL 507-508; BCHM 658; or equivalents. (Also offered as ANSC 750.) Special fee. 4 cr.

755. Disorders in Energy Balance

Etiology, pathophysiology, and treatment of obesity, anorexia nervosa, and bulimia. Role of hereditary, neurological, metabolic, and environmental mechanisms. Particular emphasis on obesity. Prereq: permission of instructor. 4 cr.

#756. Principles and Practices of Obesity Management

Emphasis on the necessary professional assessment tools, techniques, and strategies for comprehensive weight loss and weight management. Prereq: NUTR 400; 476; 499; permission. 2 cr. (Summer session only.)

760. Geriatric Nutrition

Emphasis on the nutritional requirements and status of the elderly in view of psychological and physiological changes in aging. Approaches for nutrition intervention and support will be addressed. Prereq: NUTR 400 and 499 or permission. (Also offered as ANSC 760.) 3 cr. (Summer session only.)

773. Clinical Nutrition

Application of principles of normal nutrition and physiology to clinical problems; altered nutrient requirements in human disease. Prereq: basic nutrition and biochemistry or permission. Coreq: NUTR 775. (Also offered as ANSC 773.) 4 cr. (Fall semester only.)

775. Practical Applications in Therapeutic Nutrition

Supervised practical experience in therapeutic dietetics in one of several cooperating New Hampshire hospitals. Emphasis on nutritional counseling, assessment, and instruction of patients with nutrition-related disorders. Coreq: NUTR 773.

(Also offered as ANSC 775.) Special fee. 3 cr. (Fall semester only.)

780. Critical Issues in Nutrition

Critical review and analysis of controversial topics in nutrition; emphasis on developing oral and written communication skills and analytical reasoning skills. Prereq: permission. (Also offered as ANSC 780.) 4 cr. (Spring semester only.)

795. Honors Thesis

A special project conducted under faculty supervision and resulting in a written honors thesis. Students must initiate discussion of the project with an appropriate faculty member. Prereq: senior major with cumulative G.P.A. of 3.20; permission. 4 cr.

Occupational Therapy (OT)

(For program description see page 80.)

Chairperson: Elizabeth L. Crepeau

Associate Professors: Elizabeth L. Crepeau, Lou Ann Griswold, Alice C. Seidel, Ruth Smith, Barbara Sussenberger, Ann D. Ury, Judith D. Ward

Assistant Professors: Maureen E. Neistadt, Deborah L. Pinet

Fieldwork Coordinator: Erlinde M. Beliveau

The following courses are for occupational therapy students; elective for others by permission of the course instructor.

410. Introduction to Occupational Therapy

Concepts and historical perspective of the basic theories and techniques. Fundamentals of evaluation, testing, and problem solving; planning and administering treatment. Prereq: OT major or permission. 4 cr.

441. Level I Fieldwork—Introduction

Designed to provide first-year OT students the opportunity to experience OT in a clinical setting. Lecture format, followed by one-week clinical placement, followed by one processing session. Faculty member coordinates fieldwork sites; students are responsible for transportation and housing; yearly professional liability insurance fee charged. Prereq: majors only. 1 cr.

500. The Behavior and Development of Children

Introduction to the biological, psychosocial, and cultural aspects of human development from birth through adolescence. Emphasis on theories that help explain human behavior; discussion of implications of developmental research. 4 cr.

501. Developmental Tasks of Adulthood

Includes the biological and psychosocial context of development. Developmental tasks as they relate to the accomplishment of prior tasks, physiological change, socioeconomic status, and psychosocial development. Prereq: child development course or permission. 4 cr.

511. Introduction to Professional Literature and Communication

Literature related to the practice of occupational therapy and the communication skills required of

therapists. Emphasis on research in professional literature, scholarly writing, and professional terminology. Introduction to oral reporting, clinical observation, and documentation techniques. Special fee. Prereq: sophomore OT major. 4 cr.

514. The Meaning of Human Occupation

A major assumption of occupational therapy, the importance of activity or occupation in sustaining health, provides the framework for the course. The meaning of occupation to individuals, major theories of occupation, and methods of assessing an individual's self-care, work, and leisure activities. Laboratory experiences enable the students to acquire skills in elected activity or occupation. Special fee. Prereq: OT 410. 4 cr.

516. Introduction to Human Occupation

The importance of activity or occupation to sustain health provides the framework of this course. The meaning of occupation to individuals, major theories of occupation, and methods of assessing an individual's self-care, work, and leisure activities. Prereq: permission. 2 cr.

581. Concepts of Medicine and Health for Occupational Therapists

Models of health and medicine are used to determine the impact of selected diseases and disabilities on human function and occupational behavior. Students learn various approaches to studying disease or chronic disability processes. Prereq: ZOOL 507-508 or permission. 4 cr.

641. Level I Fieldwork—Observation and Interpretation

Designed to provide OT students a more in-depth exposure to OT in a clinical setting. Lecture format, followed by one-week clinical placement, followed by one processing session. Faculty member coordinates fieldwork sites; students are responsible for transportation and housing; yearly professional liability insurance fee charged. Prereq: junior majors only; OT 441. 1 cr.

682A. Rehabilitation Principles for Occupational Therapists

Principles and techniques used by occupational therapists in rehabilitation of clients with physical disabilities. Labs provide practice in techniques. Prereq: OT majors only; KIN 652, 653A; OT 410, 514, 581. Lab. 3 cr.

682B. Rehabilitation of the Upper Extremity

Principles and techniques used by occupational therapists in rehabilitation of clients with upper extremity and hand dysfunction. Lab provides experience in muscle testing, range of motion assessment, and splinting. Prereq: KIN 652, 653A; OT 410, 514, 581, OT majors only. Special fee. Lab. 1 cr.

683. Occupational Therapy: Psychiatric Foundations

Clinical psychiatric conditions presented through lecture and observations. Recognition of psychiatric symptoms, their cause, and general treatment are emphasized. Prereq: PSYC 401 or permission. Special fee. 4 cr.

694. Neurodevelopmental Evaluation and Treatment

Processes involved in treatment of neurodevelopmental disabilities. With thorough under-

standing of normal child development as base, therapist learns to differentiate among behaviors and functional styles of clients that may be considered appropriate and anticipated, delayed, or pathological. Knowledge of unique characteristics of specific disabilities and choice of appropriate assessment tools and course of therapeutic intervention. Prereq: KIN 706; child development. Lab. 4 cr.

695. Independent Study

In-depth study with faculty supervision. Prereq: junior standing in OT major; approval of major adviser and faculty of area concerned. May be repeated for a maximum of 8 cr. 2–4 cr. Letter grading unless Cr/F requested.

723. Group Process

Theories of group development and models of group treatment. Comparison of normal and therapeutic groups. Group process in practice; role development and leadership concepts. Prereq: OT senior standing. Special fee. 2 cr.

725. Occupational Therapy Treatment of Psychosocial Dysfunction

Current frames of reference for occupational therapy practice in psychiatric/mental health settings. Focuses on client evaluation and treatment methods as well as an overview of program development approaches in mental health systems. Prereq: OT 683. Lab. 4 cr.

733. Treatment in Adult Neurodysfunction

Presents diseases of the adult central nervous system. Includes beginning skills in evaluation, setting of measurable treatment objectives, and selection of treatment techniques and activities for this population. Prereq: KIN 652, 653A, 706; OT 682, 694. Lab. 4 cr.

734. Systems of Therapeutic Intervention in Physical Disabilities

Case observation and presentation of methods of delivery and factors related to delivery of occupational therapy services. Development of treatment plans for clients with physical disabilities. Prereq: KIN 652, 653A, 706; OT 694, 733. Special fee. 4 cr.

774. Occupational Therapy in School Systems

Current issues of practice in school systems. Explores unique features of occupational therapy in schools, interrelationships among educational personnel, and unique skills necessary for effective service delivery. Prereq: OT 694. 1 cr.

786. Management of Occupational Therapy Services

Organization and administration theory applied to the field of practice. Knowledge and abilities necessary to assume administrative responsibilities for services that reflect the standards and ethics of the profession. Prereq: OT 733 or permission. 2 cr.

788. Transitions: Student to Professional

Exploration of role changes involved in leaving the academic world and entering the realm of professional and clinical settings. Role delineation, effective communication, supervisor/supervisee relationship, and career planning are addressed. Prereq: OT 733 or permission. 2 cr.

791. Senior Honors Thesis

Completion of a research proposal based on a topic of relevance to the occupational therapy profes-

sion. Development of knowledge and skills in receiving and critiquing research and professional literature; research design and methodology; and the development of a research proposal. Required for graduation with honors in the major. 4 cr.

#795. Special Topics

Explores areas related to occupational therapy theory, practice, and/or research. May repeat to 12 credits but not duplicate subject areas. Prereq: permission. 2–4 cr.

796. Assessment and Intervention of Addictive Behaviors

Concepts related to addictions seen in common disorders such as alcoholism, drug abuse, eating disorders, and codependency. Addresses assessment, treatment, and relapse prevention. Generic concepts are expanded through specific areas of addiction. Seminar format to facilitate class participation. Prereq: junior, senior, or graduate standing. (Also offered as NURS 796.) 4 cr.

797. Psychosocial Dysfunction Fieldwork

Supervised field experience in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

798. Physical Dysfunction Fieldwork

Supervised field experience in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

799. Special Area Fieldwork

Supervised field experience in off-campus setting for three-month period. Prereq: completion of senior year OT requirements or permission. Must be completed successfully to qualify to take professional certification exam. This is a multiterm course; an IA grade will be given at the end of the first semester. Special fee. 0 cr.

799A. Continuing Fieldwork

Students who have previously registered for OT 797, 798, or 799 and have not completed their fieldwork must register for OT 799A. Prereq: permission. 0 cr. Cr/F. IA.

Ocean Engineering (OE)

(For program description, see page 90.)

690. Introduction to Ocean Engineering

Survey of engineering applications in the ocean environment. Topics vary and include: hydrodynamics, waves, tides, underwater sound, instrumentation, diving technology, marine geomechanics, and naval architecture. Taught by a team of faculty members from engineering departments. Prereq: PHYS 408; MATH 527. Special fee. 4 cr.

710. Ocean Measurements Lab

Measurements of fundamental ocean processes and parameters. Emphasis on understanding typical offshore measurements, their applications, and the use of the acquired data, in terms of the effects on structures and processes in the ocean. 4 cr.

751. Naval Architecture in Ocean Engineering

Selected topics in the fundamentals of naval architecture pertinent to ocean engineering, including hydrostatic characteristics, basics of resistance and propulsion, and rules and regulations for surface, semisubmersible, and submersible marine vehicles. Computer applications. Prereq: ME 525; 608;/or equivalent. (Also offered as ME 751.) 4 cr.

752. Submersible Vehicle Systems Design

Conceptual and preliminary design of submersible vehicle systems; submersibles, environmental factors, hydromechanic and structural principles, materials, intra/extravehicle systems, operating considerations, predesign and design procedures. Design projects selected and completed by student teams. Prereq: permission. (Also offered as ME 752.) 4 cr.

#753. Ocean Hydrodynamics

Fundamental concepts of fluid mechanics as applied to the ocean; continuity; Euler and Navier-Stokes equations; Bernoulli equation; stream function, potential function; momentum theorem; turbulence and boundary layers are developed with ocean applications. Prereq: permission. 3 cr.

754. Ocean Waves and Tides

Introduction to waves: small amplitude, linear wave theory, standing and propagating waves, transformation in shallow water, energy and forces on structures, generation by wind and specification of a random sea, long waves with rotation, and internal waves. Introduction to tides: description of tides in ocean tidal generation forces, equilibrium tide, and tidal analysis. Lab/project: field and lab measurements with computer analysis. Prereq: PHYS 407-408; MATH 527;/or permission. (Also offered as EOS 754.) Lab. 4 cr.

757. Coastal Engineering and Processes

Introduction to small amplitude and finite amplitude wave theories. Wave forecasting by significant wave method and wave spectrum method. Coastal processes and shoreline protection. Wave forces and wave structure interaction. Introduction to mathematical and physical modeling. (Also offered as CIE 757; ME 757.) Prereq: fluid dynamics or permission. 3 cr.

#761. Materials in the Ocean

Introduction to mechanical properties of materials; ferrous metals; non-ferrous metals; concrete, plastic, wood, etc.; corrosion of metals; corrosion control; durability of cementitious materials; degradation of plastics, wood, etc., in marine environment; proper materials selection for a marine environment. Prereq: permission. 3 cr.

#781. Physical Instrumentation

Analysis and design of instrumentation systems. Sensors, circuits, and devices for measurement and control. Elements of probability and statistics as applied to instrument design and data analysis. Transmission, display, storage, and processing of information. The design implementation, testing, and evaluation of a relevant instrument system is

an integral part of the course. Prereq: senior standing in EE or equivalent; EE 652; and permission. Lab. 4 cr.

785. Underwater Acoustics

Vibrations, propagation, reflection, scattering, reverberation, attenuation, sonar systems, ray and mode theory, transducers and arrays, signal analysis. Prereq: permission. 4 cr.

#795. Special Topics in Ocean Engineering

New or specialized courses and/or independent study. May be repeated for credit. 2-4 cr.

Oceanography

(For program description, see page 90.)

Philosophy (PHIL)

(For program description, see page 37.)

Chairperson: Willem A. deVries

Professors: Paul T. Brockelman, Robert C. Scharff, Duane H. Whittier

Associate Professors: Drew Christie, Willem A. deVries, R. Valentine Dusek, Neil B. Lubow, Timm A. Triplett, Kenneth R. Westphal, Charlotte Elizabeth Witt, Yutaka Yamamoto

Assistant Professors: Paul McNamara, Ruth J. Sample

Lecturers: Jennifer K. Armstrong, Deborah R. Barnbaum, Thomas P. Sullivan

Introduction to Philosophy: The 400-level courses (except 495) listed below are all introductions to philosophy; students should select among them according to interest. See course descriptions posted in department for detailed information on course offerings.

401. General Introduction to Philosophy

Depending upon the instructor, the emphasis will be on basic philosophic problems, recurrent types of philosophies, or selected readings from the history of philosophy. 4 cr.

412. Beginning Logic

Principles of reasoning and development of symbolic techniques for evaluating deductive and inductive arguments. 4 cr.

417. Philosophical Reflections on Religion

Introductory philosophy of religion. To help students become critically aware of philosophical issues involved in various forms of religious belief and some of the persisting philosophical understandings of those issues. 4 cr.

421. Philosophy and the Arts

Contemporary philosophic concerns and perspectives as reflected in one or more of the arts (literature, theatre, film, music, plastic art). 4 cr.

424. Science, Technology, and Society

Consideration of the scientific endeavor and its social import from a philosophical perspective. 4 cr.

430. Society and Morals

Critical study of principles and arguments advanced in discussion of current moral and social issues. Possible topics: violence, rules of warfare, sexual morality, human rights, punishment, abortion. 4 cr.

435. The Human Animal

Philosophy of biology and the evolutionary process. Readings of scientists and philosophers' commentary on scientists. Examination of the differences between scientific debate and philosophic debate. Philosophical study of scientific theory stressing humans' place in the natural world and the ethical implication of humans as natural beings in the evolutionary process. 4 cr.

436. Social and Political Philosophy

Important concepts in social and political philosophy such as natural rights, revolution, law, freedom, justice. Variable content. 4 cr.

447. Computer Power and Human Reason

The historical origins of the science of computation. The implications of the nature of information-processing for understanding the mind-body relation. Examination of the possible social, economic, and educational consequences of the computer revolution. 4 cr.

450. Ecology and Values

Focus on historical and contemporary philosophies of nature and their effects on human interaction with the environment. Issues include obligations to future generations and to animals, plants, and ecosystems; moral limits on consumption and reproduction; and the existence of objects of intrinsic value. Specific topics may include species loss and biological diversity, population growth, changes in the atmosphere, energy use, and sustainable development. 4 cr.

495. Tutorial Reading

Basic introductory reading under faculty direction on topics of philosophical importance. Books offered for tutorial reading may be in any area the instructor chooses or on independent study basis. Prereq: permission. Variable to 4 cr.

#496. Philosophic Topics

Introductory-level seminar in specific topics or problems (e.g., death, love, friendship) considered from a philosophical point of view. 4 cr.

For special introductory courses in the area of applied philosophy, see Fundamentals of Applied Philosophy, page 176.

500. Philosophy Workshop

Introduction to methods of studying philosophical texts. Emphasis on reading philosophical texts and arguments for comprehension, and on writing philosophically with accuracy and clarity. Open to PHIL majors only (PHIL minors may enroll if they receive special permission). 4 cr.

510. Philosophy and Feminism

Focus on the philosophical issues in feminism primarily through the work of historical and contemporary philosophers. Topics include the question of the nature of women, feminism as an ethical and political theory, feminism as an exploration and transformation of the self, feminism as a philo-

sophical methodology; the institutions of marriage and motherhood. 4 cr.

520. Introduction to Eastern Philosophy

Major Eastern traditions of philosophy. Concentration on Indian, Chinese, and Japanese systems may vary from semester to semester. 4 cr.

530. Moral Philosophy

Critical examination of the development of philosophical thinking regarding human values, rights, and duties. 4 cr.

550. Symbolic Logic

Principles and techniques of modern logic. Topics: propositional logic, truth tables, predicate logic, and, time permitting, basic metatheorems. Prereq: PHIL 412. 4 cr.

570. Ancient Philosophy

Development of Western philosophy from its beginnings in Greece to the Roman period, with particular emphasis on the thought of Plato and Aristotle. 4 cr.

571. Medieval Philosophy

Philosophical thought of the Middle Ages from inception in the late Roman period with thinkers such as Plotinus and Augustine through the late medieval speculative mysticism of such figures as Meister Eckhart. Writings of Augustine and Thomas Aquinas. 4 cr.

574. 17th-Century Philosophy

Important works of the 17th century, the birth of modern philosophy. Selections may be drawn from the works of Galileo, Descartes, Hobbes, Malebranche, Gassendi, Boyle, Spinoza, Locke, Leibniz, Berkeley, and others. 4 cr.

575. 18th-Century Philosophy

Important works of 18th-century philosophy, especially those of Immanuel Kant. Selections may be drawn from the works of Leibniz, Berkeley, Hume, Wolff, Condillac, Rousseau, Reid, Kant, and others. Prereq: PHIL 574 or permission. 4 cr.

600. Philosophy through Literature

Philosophical implications of representative literary works; content variable. 4 cr.

616. 19th-Century Philosophy

Philosophical movements such as later German idealism, French positivism, utilitarianism, pragmatism, Marxism, existentialism, and vitalism. Prereq: PHIL 574 or 575;/or permission. 4 cr.

618. Recent Anglo-American Philosophy

Philosophical movements such as analytic philosophy, pragmatism, and process philosophy. Typical readings: Russell, Wittgenstein, James, Dewey, Whitehead. Prereq: two courses in history of philosophy (one of which may be concurrent);/or permission. 4 cr.

620. Recent European Philosophy

Major developments and themes. Representative figures: Jaspers, Husserl, Heidegger, Bloch, Lukacs, Habermas, Bergson, Marcel, Sartre, Merleau-Ponty, Ricoeur, Kolakowski, etc. Prereq: two courses in history of philosophy (one of which may be concurrent),/or permission. 4 cr.

630. Philosophy of the Natural Sciences

Philosophical problems raised by the physical and biological sciences; role of mathematics in science, nature of scientific concepts of space and time, relations of science to common sense, relation of theory to observation, logic of scientific discovery, nature of historical changes in scientific worldview, relation of logic of science to the psychology, and history of science. 4 cr.

635. Philosophy of Law

Systematic study of salient features of legal systems. Possible topics: nature of law; concept of legal validity; law and morality; individual liberty and the law; legal punishment; legal responsibility and related concepts (for example, legal cause, harm, mens rea, negligence, strict liability, legal insanity). 4 cr.

650. Logic: Scope and Limits

Close examination of the scope and limits of formal systems. Variable content: consistency and completeness of predicate logic; Gödel's proof and the formalization of mathematics; modal and deontic logic; set theory; finite automata and computing machines; and formal semantics. Prereq: PHIL 550; MATH 531;/equivalents or permission. 4 cr.

699. Senior Thesis

Tutorial work for philosophy department candidates for "Commendation" and "Honors." Prereq: two courses in history of philosophy, senior standing, and permission. 4 cr. Cr/F.

701. Topics in Value Theory

Philosophical inquiry into the nature of value. Topics may include the grounds of right and wrong, various conceptions of morality, the nature of good and evil, theories about the meaning of life, the nature of the beautiful. Prereq: permission. 4 cr.

702. Topics in Metaphysics and Epistemology

Advanced study in one or more of the following topics: nature of reality, relationship of thought and reality, nature of knowledge and perception, theories of truth. Prereq: two courses in history of philosophy;/or permission. 4 cr.

710. Philosophy of Religion

Philosophical nature and significance of religious experience; historical and systematic analysis of such traditional issues as the nature of faith, relation of faith to reason, arguments concerning the existence and nature of God, the problem of evil, the relationship of religion and morality, and the relationship of religion and science. Prereq: two courses in history of philosophy;/or permission. 4 cr.

720. Philosophical Psychology

Philosophical perspectives and problems concerning human nature or the human condition; e.g., the nature of "self," human action, the body-mind problem, freedom of the will, the meaning of "person," the nature of behavior, etc. Prereq: two courses in history of philosophy, /or permission. 4 cr.

#725. Philosophy of the Social Sciences

Nature of explanation and understanding in the social sciences. Similarities and differences between the social and physical sciences, claims of objectivity and of subjectivity in the social sciences;

role of values in the social sciences. Prereq: two courses in history of philosophy;/or permission. 4 cr.

735. Major Figures in Philosophy

Content variable. In-depth examination of a major figure (e.g., Aristotle, Kant, Heidegger) or movement (logical positivism, phenomenology, feminism, etc.). Prereq: two courses in history of philosophy;/or permission. 4 cr.

745. Philosophy of Language

Contemporary philosophical studies of the nature of meaning and structure of language. Prereq: two courses in history of philosophy;/or permission. 4 cr.

#750. Philosophy of History

Nature of historical knowledge, efforts to discover patterns of meaning in the past. Prereq: two courses in history of philosophy;/or permission. 4 cr.

755. Environmental Ethics

Exploration of moral issues, principles, and perspectives involved in human behavior toward, and treatment of, the natural environment. Various historical and contemporary ethical perspectives compared and evaluated, e.g., utilitarianism, natural law tradition, deep ecology, anthropocentrism, ecofeminism, as well as other social and religious approaches. For graduate students and advanced undergraduates. Prereq: one course on environmental issues (PHIL 450 or EC 635) or permission. 4 cr.

780. Special Topics in Philosophy

Advanced study of special topics: a problem, figure, or movement in the history of philosophy; or selected issues, thinkers, or developments in contemporary philosophy. Prereq: two courses in history of philosophy;/or permission. 4 cr.

795, 796. Independent Study

For students who are adequately prepared to do independent, advanced philosophical work; extensive reading and writing. Before registering, students must formulate a project and secure the consent of a department member who will supervise the work. Conferences and/or written work as required by the supervisor. 1-4 cr.

798-799. Honors Thesis

Open only to philosophy majors in the University Honors Program. Students writing an honors thesis must take both of these courses, in consecutive semesters, under the supervision of two faculty advisers. Students are required to give an oral defense of their thesis. Prereq: for 799: satisfactory grade on written work in 798. 4 cr.

Fundamentals of Applied Philosophy

The following are introductory courses on the fundamentals of philosophy in practice. Special emphasis is placed on identifying and reflecting on philosophical issues that arise in the context of one's professional as well as everyday life. They are designed to interest those who wish to examine the broader philosophical implications of their chosen professional activity and also those who share the awareness that, in today's world, a systematic value-orientation must complement one's scientific knowledge and skills.

447. Computer Power and Human Reason

(For course description, see page 175.)

660. Law, Medicine, and Morals

Critical examination of the diverse legal and moral issues facing the profession of health care. Variable topics. Possible topics: duty to provide care; nature of informed consent to treatment; problems of allocating limited health-care resources (e.g., withdrawal of life-support systems, quality-of-life decisions, etc.); patient's right to confidentiality; problems relating to involuntary preventive care (e.g., involuntary sterilization, psycho-surgery, etc.). 4 cr.

#683. Technology: Philosophical and Ethical Issues

The bases of modern technology in, and its impact upon, people's philosophic conceptions of themselves and their world. Ethical, social, political and ecological implications of technology. Risk and benefit criteria. Technological and humanistic philosophies of life. 4 cr.

Physics (PHYS)

(For program description, see page 71.)

Chairperson: John R. Calarco

Professors: Roger L. Arnoldy, L. Christian Balling, John R. Calarco, Edward L. Chupp, John F. Dawson, Iochen Heisenberg, F. William Hersman, Joseph Hollweg, Richard L. Kaufmann, Robert H. Lambert, Martin A. Lee, Eberhard Möbius, Harvey K. Shepard, Robert E. Simpson, Roy B. Torbert, John J. Wright

Research Professor: Terry Forbes**Associate Professors:** Olof Echt, Dawn C.

Meredith James M. Ryan

Research Associate Professors: David J. Forrest, Philip A. Isenberg, Craig A. Kletzing, W. T. Vestrand

Assistant Professor: Robert E. Leuchtner

Research Assistant Professors: Lynn M. Kistler, Mark L. McConnell

401-402. Introduction to Physics I and II

Broad survey of classical and modern physics. Designed to enable students to appreciate the role of physics in today's society and technology. Emphasis on the fundamental laws of nature on which all science is based, with some examples of interest to biologists. Knowledge of high school algebra, geometry, and trigonometry essential. Special fee. Lab. 4 cr. each.

#405. Concepts of Physics

Descriptive course investigating a limited number of important physical systems. Emphasis on how the system is to be investigated and the patterns in which the results fall. Intuitive concepts used in investigations traced into their application in modern physics. Patterns of thought in physics related to patterns of thought in liberal arts. Recommended for liberal arts juniors and seniors. 4 cr. (Not offered every semester.)

406. Introduction to Modern Astronomy

Descriptive coverage of contemporary astronomical and astrophysical techniques with a review of current knowledge and theories concerning the solar system, galaxies, and the universe. Recommended for liberal arts and beginning science stu-

dents. Knowledge of high school algebra is assumed. Special fee. Lab. 4 cr.

407-408. General Physics I and II

Introductory course emphasizing mechanics, heat, sound, and electromagnetism. Recommended for the student specializing in science and engineering. Prereq: thorough knowledge of algebra, geometry, and trigonometry. MATH 425 for 407; MATH 426 for 408, or taken concurrently. Students may not receive credit for both 401 and 407 (or 402 and 408). Special fee. Lab. 4 cr. each.

412. Technical Physics

Introductory course emphasizing the fundamentals of mechanics, heat, electricity, and other subjects underlying modern machinery and instruments. Recommended for Thompson School students. Prereq: algebra and trigonometry. Lab. 4 cr.

505. General Physics III

Electromagnetic waves, geometrical and physical optics, relativity, atomic physics, elementary quantum mechanics, molecular physics, and nuclear physics. Prereq: PHYS 407-408; MATH 425, 426. Special fee. Lab. 4 cr.

508. Thermodynamics and Statistical Mechanics

Classical and statistical approach to thermodynamics, kinetic theory. Prereq: PHYS 407-408, 505 or equivalent; MATH 528. 4 cr.

605. Experimental Physics I

Circuit design with passive and active elements including transistors and operational amplifiers; electrical measurements for experimental physics; digital electronics, microprocessors, and interfacing techniques. Prereq: PHYS 408, 505; MATH 527 or taken concurrently. Lab. 5 cr.

615. Introduction to Mathematical Physics

Application of mathematical analysis to physics, including complex numbers, multiple integrals, vector analysis, and Fourier series. Prereq: MATH 425-426; 527, and 528 or taken concurrently. 4 cr.

616. Physical Mechanics

Analytical treatment of classical mechanics covering the dynamics of particles and rigid bodies, at an intermediate level. Prereq: PHYS 407; MATH 527-528 (or taken concurrently); PHYS 615. 3 cr.

701-702. Introduction to Quantum Mechanics I and II

Nonrelativistic Schroedinger equation, the hydrogen atom, applications to atomic and nuclear structure. Prereq: PHYS 615-616; MATH 527, 528; MATH 646 desirable; permission. 4 cr. each.

703-704. Electricity and Magnetism I and II

Foundation of electromagnetic theory; electrostatics, dielectric theory, electromagnetism, magnetic properties of matter, alternating currents, Maxwell's field theory. Prereq: PHYS 615; MATH 527, 528; MATH 646 desirable; permission. 4 cr. each.

705. Experimental Physics II

Modern physics experiments and special project problems assigned to individual students. Prereq: PHYS 605; senior standing in physics. Lab. 4 cr.

#707. Computational Physics

Application of numerical methods to physics, including integration of ordinary and partial differ-

ential equations, matrix methods, Fast Fourier transforms, and quadrature. Prereq: knowledge of a high-level programming language. MATH 527, 578; PHYS 407-408, 505, and 615. 4 cr. (Not offered every year.)

708. Optics

Geometrical optics, electromagnetic theory of light, interference, diffraction, polarization, related phenomena, and nonlinear optics. Prereq: PHYS 615, 616; MATH 527, 528; MATH 646 recommended. Lab. 4 cr.

710. Introduction to Modern Astrophysics

Review of the sun, stars, Milky Way, external galaxies, and expansion of the universe. Recent discoveries of radio galaxies, quasi-stellar objects, cosmic black-body radiation, x rays, and gamma rays precede a discussion of Newtonian and general relativistic cosmological models, steady-state, big-bang theories, and matter-antimatter models. Prereq: PHYS 616; MATH 527 or permission. 4 cr. (Offered if sufficient demand.)

712. Physics of the Ionosphere

Introduces basic plasma physics using a case study of the Earth's ionosphere and its connection to both the upper atmosphere and to the Earth's magnetosphere. Topics include single particle motion, fluid and kinetic descriptions of ionospheric plasma, wave propagation, and instabilities. Prereq: PHYS 408; PHYS 703 or EE 603; or permission. (Also offered as EOS 712.) 4 cr.

718. Introduction to Solid State Physics

Theory and experiment underlying the behavior of solids. Transport theory, surface studies, and the interaction of radiation and matter. Operation of semiconducting and superconducting devices and lasers. Prereq: PHYS 615, 616; 701. 4 cr. (Offered if sufficient demand.)

720. Nuclear Physics

Nuclear phenomenology, reactions, models, radiation, interaction of radiation with matter, accelerators; properties and interactions of elementary particles; symmetries and symmetry breaking; standard model. Prereq: PHYS 702, 704, or permission of instructor. 4 cr.

#791. Special Topics

Any selected topics not covered sufficiently in a general course may be studied. May be repeated to eight credits. 4 cr.

795. Independent Study

Individual project under direction of a faculty adviser. Prereq: department permission. 1-8 cr.

Plant Biology (P BIO)

(For program description, see page 52.)

Chairperson: Robert O. Blanchard

Professors: Robert O. Blanchard, A. Linn Bogle, Garrett E. Crow, George O. Estes, Curtis V. Givan, J. Brent Loy, William E. MacHardy, Arthur C. Mathieson, Subhash C. Minocha, Otho S. Wells

Associate Professors: Alan L. Baker, Thomas M. Davis, Wayne R. Fagerberg, Leland S. Iahnke, Anita S. Klein, Thomas D. Lee, James R. Mitchell, James F. Pollard, John M. Roberts
Assistant Professor: Estelle M. Hrabak
Adjunct Professor: Walter C. Shortle
Adjunct Assistant Professors: Rakesh Minocha, Kevin T. Smith, Janet R. Sullivan
Extension Educator: William G. Lord

400. The Power of Plants

Global experience of human interactions with plants and ways in which plants have contributed to the development and flourishing of human societies. Includes role of plants in providing sustenance, clothing and shelter, quest for spices and the historical consequences of plant explorations and exploitations, the power to heal or kill, plants in mythology and spiritual endeavors, plants that alter consciousness, plant diseases and human history, plants as energy for society, and the Green Revolution—global change and feeding the world in the future. Special fee. Lab. 4 cr.

401. Plant Biology Orientation

Overview of plant biology research and teaching facilities; introduction to research, extension, and educational functions within the department; career opportunities in plant biology. Required of all plant biology majors. 1 cr. Cr/E.

405. Natural History of Hawaii (winter break field course)

A two-week, winter-term field course designed to provide interdisciplinary exposure to a multicultural, "melting pot" society, aspects of Polynesian culture, Hawaiian history, volcanic geology and island building, and tropical biodiversity. Lectures (fall semester, second half), assigned reading, field trip, postfield trip report. Prereq: permission. 4 cr. January field trip only, 2 cr. IA.

412. Introductory Botany

Plants in their natural environments: their structure, function, growth, reproduction, and evolutionary diversity. Special fee. Lab. 4 cr.

421. Concepts of Plant Growth

Fundamentals underlying plant growth and response in natural and modified environments. Special fee. Lab. 4 cr.

427. Landscaping the Home Ground

Design and maintenance of small properties; arrangement, plant use for the beautification of home surroundings. Lab. 4 cr.

432. Animal Forages

Production and utilization of New England forage crops. Selection of species and varieties, cultural and harvesting practices for top production of excellent quality. Combining uses for greatest efficiency in feeding various livestock classes. Lab. (Also listed as TSAS AAS 232.) 3 cr.

445. Flower Shop Management

Operation and management of a retail floral enterprise. Site selection, shop layout, products and services, displays, marketing, personnel, and management techniques. Seven-week module. Prereq: permission. (Also offered as TSAS IIT 245.) Special fee. Lab. 2 cr.

454. Landscape Construction and Maintenance

Landscape contracting, basic construction materi-

als and methods, plant materials, blueprints and specifications, estimating and bidding; landscape installation; and landscape maintenance. Prereq: PBIO 412 or 421; permission. (Also offered as TSAS HT 263.) Special fee. Lab. 4 cr.

456. Horticultural Pruning

Basic pruning techniques for fruits and ornamentals: apples, peaches, raspberries, blueberries, grapes; deciduous and evergreen shrubs and trees; herbaceous materials. Prereq: plant systematics; permission. (Also offered as HT 256.) Special fee. Lab. 2 cr.

461. Interior Plants and Plantscaping

Establishment and maintenance of interior foliage plants in residence and commercial buildings. Identification and cultural requirements of common foliage plants and house plants. Prereq: permission. (Also offered as TSAS HT 261.) Special fee. Lab. 2 cr.

475. Floricultural Crop Production

Leading cut flower crops, potted plants, and bulbous crops, including cultural requirements, crop timing, harvesting procedures, distribution systems, and marketing principles. Prereq: permission. (Also offered as TSAS HT 275.) Special fee. Lab. 3 cr.

476. Bedding Plant Production

Bedding plant production, cultural requirements, crop timing, marketing principles. Includes common annuals, perennials, vegetables, and herbs of the Northeast. Field trips. Seven-week module. Prereq: permission. (Also offered as TSAS IIT 276.) Special fee. Lab. 2 cr.

480. Garden Center Management

Operation and management of the retail garden center: site selection, layout, products and services, marketing and management. Seven-week module. Prereq: plant systematics or equivalent; permission. (Also offered as HT 280.) Special fee. Lab. 2 cr.

501. Basic Biochemistry

Fundamentals of general biochemistry and molecular biology for students in majors not requiring the biology core, e.g., health sciences, agricultural sciences, environmental biology. Lectures and discussion. (Will not substitute for BCHM 658-659, BCHM 751-752). Prereq: CHEM 403-404 recommended, or permission. (Not open to first-year students.) 3 cr.

503. Introduction to Marine Biology

Organization of marine biological communities. Various marine environments—pelagic, benthic, temperate, tropical—and their characteristic communities. Major emphasis on the approaches (e.g., analysis of energy flow and predator-prey interactions) used to analyze marine communities as well as the sampling techniques employed for each approach and the characteristic habitat type. Prereq: BIOL 411-412. Lab. (Also listed as ZOOI 503.) 4 cr.

546. Plants, Soils, and Environment

Plant, soil, and environment relationships under natural and modified conditions with emphasis on soils as the foundation resource for plant production. Principles and practice of organic and conventional culture to sustain and improve soils/crops. Contemporary activities impacting soils as part of ecosystems, particularly waste management where

urban and rural areas meet. Prereq: CHEM 403 or permission. Special fee. Lab. 4 cr.

565. Turf Management

Adaptation and management of fine turf grasses for recreational, aesthetic, and functional use. Lab. 4 cr.

566. Systematic Botany

Scientific basis of plant taxonomy and the identification and classification of major plant families, native trees, shrubs, and wild flowers. Field trips, plant collection. Prereq: BIOL 412 or PBIO 412. Lab. 4 cr.

#601. Terrestrial Plant Ecology

Regulation of distribution and abundance of terrestrial plants by physical and biotic environmental factors; ecology of plant life history patterns; development and structure of plant communities; ecosystem structure and function. Occasional Saturday field trips. Prereq: PBIO 412, BIOL 412, or equivalent with permission. Lab. 4 cr. (Not offered every year.)

606. Plant Physiology

Structure-function relationship of plants, internal and external factors regulating plant growth and development, plant hormones, plant metabolism, water relations, and mineral nutrition. Prereq: PBIO 412 or PBIO 421 or BIOL 411-412; one year of college chemistry (e.g., CHEM 403-404); CHEM 545 or PBIO 501; or permission. 3 cr.

608. Plant Physiology Laboratory

Analytical techniques for plant physiology, effects of growth regulators on plant growth and development, cell and tissue culture, enzyme kinetics, and plant water relations. Pre- or coreq: PBIO 606. Special fee. 2 cr.

612. Plant Genetics and Reproduction

Introduction to plant domestication, Mendelian inheritance, plant reproduction, biochemical basis of inheritance, plant breeding, and biotechnology of crop plants. Prereq: CHEM 403; PBIO 412 or equivalent. *Will not satisfy biology core requirement for genetics.* 4 cr.

625. Introduction to Marine Botany

Life history, classification, and ecology of micro- and macroscopic marine plants, including phytoplankton, seaweed, and salt marsh plants, and the interactions between humans and marine plant communities. Occasional Saturday morning field trips. Prereq: BIOL 412 or PBIO 412 or permission. Special fee. Lab. 4 cr.

651. Plant Pathology

Nature, symptomatology, etiology, epidemiology, and control of important plant diseases. Prereq: PBIO 412, BIOL 411-412, or equivalent. Lab. 4 cr.

652. Vegetable Crops

Technology and systems for producing and marketing vegetables locally and nationally; study of characteristics of specific crops and of their response to environment. Prereq: PBIO 421 or equivalent. 4 cr. (Not offered every year.)

653. Forest and Shade Tree Pathology

Principles, symptomatology, etiology, and control of forest and shade tree diseases. Prereq: PBIO 412 or equivalent. Lab. 4 cr. (Not offered every year.)

655. Tree Fruit Management

Management systems for the major tree fruit crops grown in the northeastern United States. Emphasis on integrated orchard management and environmental considerations, planting systems, tree training, nutrition, pest management, and marketing and economics. 3 cr.

657. Small Fruit Crop Management

Management strategies for a wide variety of small fruit crops appropriate for growing in the United States: soils, nutrition, climatic considerations, integrated pest management, marketing, and economics. 2 cr.

666. Summer Flora of New Hampshire

Study of the flora of New Hampshire with an in-depth look at the major vegetation types. Fieldwork will include trips to study flora of forests, dunes, salt marshes, swamps, bogs, lakes, ponds, streams, and alpine. Prereq: basic botany or permission. Field trips. Special fee. 4 cr. (Summer session only.)

672. Plant Propagation

Sexual and asexual propagation of horticultural plants. Special fee. Lab. 4 cr.

678. Ornamental Plants

Identification, culture, and use. Prereq: PBIO 566 or equivalent. Lab. 4 cr.

682. Sustainable Food Systems

Resource use in the food chain. Historical perspective of traditional resource management and sustainability. Genetic and physiological basis for improved resource use in plant/animal systems. Resource depletion and opportunities for recovery/substitution. Comparative analysis of enterprises in terms of profitability. Socioeconomic and ethical issues associated with technological innovation. Field trips. Lab. 4 cr.

689. Herbaceous Landscape Plants

Principles and practices of growing and using annuals, herbaceous perennials, and bulbs in the landscape. Emphasis on identification and the garden designs in which they are used. Lab. 4 cr.

703. Evolutionary Survey of the Plant Kingdom

Evolutionary origins of the green photosynthetic plants, as seen in living groups and the fossil record; their roots in the protista; the major trends of evolutionary specialization in form, structure, and reproductive mechanisms linking the major divisions and culminating in the flowering plants. Prereq: BIOL 412 or PBIO 412. Lab. 5 cr.

#705. Population Genetics

Population growth and regulation; genetic variation; factors affecting gene frequency; ecological genetics. Prereq: principles of genetics or permission. (Also offered as GEN 705.) 4 cr. (Not offered every year.)

706. Weed Ecology

Ecology and reproductive biology of weed species. Dormancy and germination, dispersal, and patterns of weed establishment. Physiology and biochemistry of herbicides. Genetic engineering and environmental issues. Prereq: BIOL 411-412 or PBIO 412; CHEM 403-404. 2 cr.

708. Weed Ecology Laboratory

Application of weed identification and weed control practices, considering various types of crops (including ornamentals), cultural control, herbicide equipment, application, and safety. Environmental considerations. Field trips. Special fee. Pre- or coreq: PBIO 706. 2 cr.

711. Plant Cell Biochemistry

Photosynthetic and nonphotosynthetic metabolism of plant cells: nitrogen and carbon metabolism, lipid biosynthesis and degradation, nitrogen fixation, respiration, integration and regulation of cell functions. Prereq: PBIO 501 or equivalent; PBIO 606;/or permission. 3 cr.

709. Plant Stress Physiology

Physiological and biochemical mechanisms of plant responses to abiotic stresses including drought, salt, high and low temperature, visible and ultraviolet radiation, heavy metals, and air pollutants. Current hypotheses, agricultural and ecological implications are discussed. Prereq: plant physiology; biochemistry;/or permission. 3 cr.

713. Photosynthesis

Physiology and biochemistry of photosynthesis in higher plants and microorganisms: light reactions, electron transport, membrane structure and function, carbon assimilation pathways, energy conservation, and metabolic regulation. Agronomic and ecological aspects of photosynthesis are examined. Prereq: plant physiology or biochem. 4 cr. (Not offered every year.)

714. Electron Microscopy

Theory and principles involved in preparing plant and animal tissue for observation with the transmission (TEM) and scanning (SEM) electron microscopes; shadow casting; photographic techniques; stereology; and presentation of micrographs for publication. Prereq: permission. Coreq: PBIO 715. 2 cr.

715. Electron Microscopy Lab

Practical application of theoretical principles and practices used in preparing and observing plant and animal tissues with the transmission and electron microscopes. Student project assigned. Prereq: permission. Coreq: PBIO 714. Special fee. 3 cr.

717. General Limnology

Special relationships of freshwater organisms to the chemical, physical, and biological aspects of the aquatic environment. Factors regulating the distribution of organisms and primary and secondary productivity of lake habitats. Prereq: BIOL 541 or equivalent. (Also offered as ZOO 717.) 4 cr.

718. Quantitative Aquatic Ecology

Aquatic ecosystems studied through field and laboratory exercises. Emphasis on the application of statistical methods from sampling design to statistical and ecological interpretation of results. Field trip data analyzed in both biology and statistics laboratories. Understanding how the principles underlying statistical concepts can be applied to biological systems will be emphasized. Field trips, designed to collect data for rigorous statistical analysis, include remote pristine lakes in the White Mountains National Forest as well as lakes in southern New Hampshire. Prereq: BIOL 541 or equivalent. (Also offered as ZOO 718.) 6 cr. (Fall semester only. Alternate years.)

719. Field Limnology

Freshwater ecology examined through laboratory exercises with freshwater habitats. Methods to study freshwater lakes; interpretation of data. Seminars and occasional Saturday field trips. Prereq: present or prior enrollment in PBIO 717, ZOO 717, or equivalent; permission. (Also offered as ZOO 719.) Special fee. 4 cr. (Fall semester only. Alternate years.)

721. The Microscopic Algae

Survey of phytoplankton and periphyton in local marine and freshwater habitats. Identification, systematics, and evolution. Class and individual collection trips. Prereq: BIOL 412 or PBIO 412 or 703. Lab. 4 cr. (Not offered every year.)

722. Marine Phycology

Identification, classification, ecology, and life histories of the major groups of marine algae, particularly the benthonic marine algae of New England. Periodic field trips. Prereq: BIOL 412 or PBIO 412 or 703. Lab. 4 cr. (Not offered every year.)

724. Freshwater Algal Ecology

Survey of freshwater algal habitats; physiological explanation of population models. Individual experimental projects. Prereq: PBIO 717 or permission. 4 cr. (Not offered every year.)

#725. Marine Ecology

Marine environment and its biota, emphasizing intertidal and estuarine habitats. Includes field, laboratory, and independent research project. Prereq: general ecology; permission. Marine invertebrate zoology, oceanography, and statistics are desirable. (Also offered as ZOO 725.) 4 cr. (Not offered every year.)

726. Integrated Pest Management

Integration of pest management techniques involving biological, cultural, and chemical control with principles of ecology into management approaches for pests. Prereq: permission. 4 cr.

727. Algal Physiology

Survey of major topics in the physiology and biochemistry of marine and freshwater algae including: nutrition, metabolic pathways, reproductive physiology, storage and extracellular products, cell inclusions, growth and development. Prereq: plant physiology and introductory biochemistry or permission. 3 cr. (Not offered every year.)

729. Algal Physiology Laboratory

Useful laboratory techniques in studying the physiology of freshwater and marine algae. Experiments in nutrition, metabolism, pigment, and enzyme analysis. Small research project required. Prereq: concurrent registration in PBIO 727; permission. 2 cr. (Not offered every year.)

742. Physiological Ecology

Physiological responses of plants to the physical environment; energy exchange, light and photosynthesis, water relations, and mineral nutrition. Prereq: PBIO 606 or permission. Lab. 4 cr. (Not offered every year.)

745. Plant Community Ecology

Methods for analysis of biological communities; ordination and classification of communities; theoretical and empirical investigation of factors controlling community structure; theory and modeling of succession. Occasional Saturday field trips.

Prereq: intro. statistics and intro. ecology (BIOL 541, PBIO 601, or equivalent). Lab. 4 cr. (Not offered every year.)

#747. Aquatic Higher Plants

Flowering plants and fern relatives found in and about bodies of water in the northeastern United States; extensive field and herbarium work, preparation techniques, and collections. Prereq: PBIO 566 or permission. Lab. 4 cr. (Not offered every year.)

751. Cell Culture

Theory and principles fundamental to the culture of cells in vitro. Introduction to techniques of preparation and maintenance of animal, plant, insect, and fish cell cultures. Application of cell culture to contemporary research in biological sciences. Prereq: MICR 503; permission. (Also offered as ANSC 751 and MICR 751.) Special fee. Lab. 5 cr.

752. Mycology

Classification, identification, culturing, life histories, and ecology of fungi, from slime molds to hallucinogenic mushrooms; the significance of fungi in human history, from their contribution to the art of bread making and alcoholic fermentation to their destructiveness as agents of deadly diseases of plants and animals. Prereq: BIOL 411-412 or PBIO 412 or equivalent. Special fee. Lab. 4 cr.

753. Cytogenetics

Chromosome structure, function, and evolution. Eukaryotic genome organization. Theory of, and laboratory techniques for, cytogenetic analysis in plants and animals. Prereq: prin. of genetics. Special fee. Lab. (Also offered as GEN 753.) 4 cr. (Not offered every year.)

758. Plant Anatomy

Anatomy of vascular plants, emphasizing structure and development of basic cell and tissue types, and of the major plant organs. Prereq: BIOL 412 or PBIO 412. Lab. 5 cr. (Not offered every year.)

761. Plant Geography

Distribution of plants, a consideration of world vegetation types and floras, and problems of endemism with emphasis on North America; major influential factors such as geologic, climatic, edaphic, and biotic. Four Saturday field trips. Prereq: PBIO 566 or permission. 4 cr. (Not offered every year.)

764. Microtechnique

Methods of preserving cell and tissue structure, embedding, sectioning, and staining plant tissues, and an introduction to microscopy. Prereq: permission. Lab. 4 cr. (Not offered every year.)

765. Molecular Biology and Biochemistry of Plants

Molecular mechanisms and regulation of plant metabolic function. Structure and function of cellular constituents of plants; role of secondary metabolites. Emphasis on developments in the current literature. Complements PBIO 774-775. Prereq: BCHM 658 or 751, BIOL 604, or permission. (Also offered as BCHM 765.) 3 cr.

773. Breeding Improved Varieties

Techniques for creating new varieties of crop and ornamental plants. Prereq: genetics. 4 cr. (Not offered every year.)

774. Plant Cell Culture and Genetic Engineering

Theory and techniques of cell/tissue culture and genetic manipulation in plants, transformation vectors, somatic cell genetics, regulation of foreign gene expression, molecular basis of agriculturally important traits, environmental and social implications of genetic engineering in plants. Prereq: BIOL 604 or permission. 3 cr. (Not offered every year.)

775. Plant Cell Culture and Genetic Engineering Lab

Techniques of plant cell and tissue culture, protoplast fusion, genetic transformation. Mutant cell selection, analysis of foreign gene expression. Coreq: PBIO 774. (Also offered as GEN 775.) Special fee. 2 cr.

795. Investigations in Plant Biology

A) Systematic Botany; B) Plant Physiology; C) Plant Pathology; D) Plant Anatomy; E) Plant Ecology; F) Mycology; G) Cell Biology; H) Phycology; I) Botanical Teaching; J) Morphology; K) Cell Physiology; L) Scientific Writing; M) Microtechnique; N) Cell and Tissue Culture; O) History of Botany; P) Genetics; Q) Plant Utilization. Individual projects under faculty guidance. Prereq: permission. 4 cr. max. per semester for any single section. 1-6 cr.

797. Senior Seminar

Library research, presentation, and discussion of current topics in plant biology. Attendance of selected seminars in related subject areas. Required of all senior majors in horticulture and agronomy. 1 cr. Cr/F. (Fall semester only.)

799. Honors: Senior Thesis

Students work under the direction of a faculty sponsor to plan and carry out independent research resulting in a written thesis. Two-semester sequence; 1A grade (continuous course) given at end of first semester. May be repeated to a total of 6 cr. 2-4 cr.

Political Science (POLT)

(For program description, see page 38.)

Chairperson: B. Thomas Trout

Professors: Bernard K. Gordon, Marilyn Hoskin, David L. Larson, George K. Romoser, B. Thomas Trout, Susan O. White

Associate Professors: Warren R. Brown, Robert E. Craig, Judith A. Gentleman, John R. Kayser, Aline M. Kuntz, Lawrence W. O'Connell, Susan J. Siggelakis, Clifford J. Wirth

Assistant Professors: John F. Camobreco, Janine A. Clark, Clark R. Hubbard, Lawrence C. Reardon

Introductory Courses

401. Politics and Society

Introduction to the nature of politics and political institutions. Emphasis on political behavior and continuing issues of modern politics, such as power, authority, legitimacy, freedom, and order. 4 cr.

402. American Government and Politics

Institutions and processes of national government in the United States; political culture of the American people. Structure of national government; role of general public in government; cultural influences on American politics. 4 cr.

403. United States in World Affairs

Major issues in world affairs since 1945 as they relate to United States foreign policy; problems of world order, third-world politics, regional and alliance politics, weapons technology and resource depletion, economic development, and population control. 4 cr.

595, 596. Explorations in Politics

Designed to meet special interests of students and instructors in exploring selected issues in political science. See departmental listings for semester offerings. 2-4 cr.

American Politics

500. American Public Policy

Political and economic factors that mold the processes by which American policymakers deal with such domestic issues as crime and violence, poverty and inequality, inflation and unemployment, urban blight and renewal, and energy and the environment. 4 cr.

502. State Government and Federalism

Powers, politics, and constitutional setting of American state governments: state legislatures, governorships, party systems, interest groups, taxation, welfare, environment, and education. 4 cr.

#503. Local Government and Politics

Structure, politics, and legal setting of American local government, including towns, cities, counties, and special districts. Community power and decision making; town meetings and such issues as home rule, zoning, and the property tax. 4 cr.

504. American Presidency

Role and powers of the Presidency in domestic and foreign affairs. The President as administrator, policymaker, and political leader. Executive-legislative relations. 4 cr.

505. American Congress

Role and powers of Congress as national lawmaker and check on the executive branch; committee structure, concepts of representation, legislative oversight and party cleavage, federal budget control, and foreign policy involvement. 4 cr.

506. Parties, Interest Groups, and Voters

Role of political parties as organizers and managers of social conflict. Role of voters in controlling parties and government. Influence of interest groups in the electoral process and in governmental decision making. 4 cr.

507. Politics of Crime and Justice

Criminal justice in theory and practice; contemporary role of police, prosecutors, judges, juries, counsel, and interest groups in the administration of criminal justice. 4 cr.

508. Supreme Court and the Constitution

Supreme court treated as a political institution whose historic mission is to decide all controversies arising under the constitution between the nation

and the states, the President and Congress, governments generally and the people regarding their respective rights and duties. 4 cr.

#509. Bureaucracy in America

Growth and development of the bureaucratic state. Roles and powers of administrative officials, decision making in bureaucratic settings, citizen participation, and the influence of interest groups on bureaucratic policy making. 4 cr.

510. Mass Media in American Politics

Contemporary review of media in politics; major roles of media today in providing news, setting public agenda, influencing public opinion; government regulations vs. media responsibility; future developments and consequences for American democracy. 4 cr.

512. Public Opinion in American Politics

Relationship of mass and elite opinion within the context of American political culture. Impact of public opinion on American governmental policies, especially with respect to major issues facing the President and Congress. Appraisal of responsiveness to influence and responsibility to lead. 4 cr.

513. Civil Rights and Liberties

Analysis of three major areas of constitutional rights and liberties—political freedom, equal protection of the laws, and due process—with particular attention to their impact on such problems as political protest, discrimination, school segregation and busing, and student rights. 4 cr.

600. Selected Topics in American Politics

Special topics such as politics and public affairs in New Hampshire, the press and the media in America, women in politics, and civil liberties. See department listings for semester offerings. 4 cr.

701. The Courts and Public Policy

Impact of judicial decisions on public policy at federal, state, local, and regional levels. 4 cr.

702. Public Planning and Budgeting

Analysis, goal setting, and strategic planning in a governmental setting, with particular emphasis on budgetary processes as a means for controlling policy effectiveness. 4 cr.

703. Urban and Metropolitan Politics

An eclectic approach to the study of urban and metropolitan politics. Topics include: urban politics, forms of local government; migrations, urban development, intergovernmental relations; community power structure, urban policy making, urban service delivery, crime and law enforcement, urban bureaucracy, urban decay, and revitalization. 4 cr.

704. Policy and Program Evaluation

Policy and program evaluation of federal, state, and local governmental enterprise; focuses on the politics, practices, and methods of evaluative investigation. Evaluation as a technique for providing rational information for budgetary and policy-making decisions. 4 cr.

797, 798. Section B: Seminar in American Politics

Advanced analysis and individual research. Prereq: senior standing. 4 cr.

797, 798. Section F: Seminar in Public Administration

Advanced analysis and individual research, including opportunities for direct observation of governmental administration. Prereq: senior standing. 4 cr.

Comparative Politics

544. Dictatorship and Totalitarianism

Political systems of Nazi Germany, Fascist Italy, Stalinist Russia, and Maoist China; the movements that gave rise to them and their significance for understanding political behavior. 4 cr.

545. People and Politics in Asia

Surveys the contemporary politics of nations and peoples of the multicultural Pacific Rim within the framework of their modern histories and societies. Emphasizes China and Japan, and introduces the new political systems of Taiwan, Korea, Hong Kong, Singapore, Malaysia, Indonesia, Thailand, and the Philippines. Companion course to POLT 546, but either may be taken separately. 4 cr.

546. Wealth and Politics in Asia

Different paths to modernization, industrialization, and development in nations of the Asia-Pacific Rim. Examines Japan, "Greater China," Korea, Singapore, Malaysia, Indonesia, and Thailand, the challenges faced and the results achieved, in the light of each nation's distinct society and history. Companion course to POLT 545, but either may be taken separately. 4 cr.

547. Politics of the Middle East

An examination of the political dynamics of selected states and societies (Egypt, Syria, Iraq, Jordan, Saudi Arabia, Israel, and Palestine) in the Middle East. Issues examined include: different ways of understanding the politics of the Middle East, impact of early Middle Eastern history upon today's politics; classes in the Middle East and their impact upon politics; rise of Arab nationalism; Zionism; military intervention in politics; politics of oil; status of women; political impact of economic restructuring; Islamic movements; state-building; and political liberalization and democratization in the Middle East. 4 cr.

550. Major Foreign Governments

Concepts for comparing and contrasting modern political systems. Ideologies, political movements, and various forms of the modern state; different models of development and modernization. Examples from Western-style democracies, former communist systems, and the developing countries of the third world. 4 cr.

551. Global Urban Politics

Examines the social, economic, demographic, and political processes of cities around the globe. Topics include: population growth; theories of urbanization; urban economic development; urban policies toward transportation; environment; employment; housing; land; water supplies; sanitation; solid-waste disposal; and infrastructure. Comparisons are made between cities of the developed and less developed nations of the world. Urban and national social stratification, structures of urban and subnational governments, and political participation examined. 4 cr.

552. Contemporary European Politics

Politics and governments in Western Europe, with

attention to both basic characteristics of political life in different countries and current issues of politics. 4 cr.

553. Third World Politics

Third world politics in selected states of Africa, Latin America, and elsewhere. Issues and concepts of political change and development. 4 cr.

554. Politics of Central America, Mexico, and the Caribbean

Politics and development in Central America, Mexico, and the Caribbean; political conflict in Central America, Cuba's revolutionary experience, and Mexico's lingering authoritarian politics. 4 cr.

555. Politics in Russia and the New States

Background, structure, leadership, and underlying issues of the Russian political system. Ideological bases, political history, and contemporary trends. 4 cr.

556. Politics in China

Historical development, structure, ideological bases, and underlying contemporary issues of the Chinese political system; influence of ideology and the role of Maoism. 4 cr.

#557. Politics in Japan and Southeast Asia

Major noncommunist governments in East Asia; parties and policy making in Japan and other states such as Malaysia, Thailand, Indonesia, and the Philippines. 4 cr.

558. Government and Politics of Canada

Cultural background of party competition, role of ideology, structure of government, and contemporary issues in Canadian political system. Special fee. 4 cr.

559. The Politics of South America

Politics and development of South American nations and the experiences of populism, reform, insurgency, military authoritarian rule, and the breakdown of democratic norms along with the current process of political liberalization in the region. 4 cr.

651. Selected Topics in Comparative Politics

Specialized areas or issues such as regional politics, national politics, judicial systems, administrative law, constitutions, etc. See department listing for semester offerings. 4 cr.

743. Comparative Political Economy

Exploration of the origins, development, and functions of the modern state in the West, its links with markets and capitalism, and its role in contemporary political economy. Examples from various advanced industrial societies. 4 cr.

797, 798. Section C: Seminar in Comparative Politics

Advanced analysis and individual research on foreign nations or regions, focusing on governmental institutions, foreign policy, political parties, or bureaucracy. Prereq: senior standing. 4 cr.

International Politics

560. World Politics

Issues and structures that shape contemporary international politics, including rise of the nation-state system, conflict and its resolution, and prob-

lems of national interest and choice between nations. 4 cr.

561. American Foreign Policy

Constitutional, institutional, political, and societal factors that influence the formulation and execution of U.S. foreign policy. Special fee. 4 cr.

562. Strategy and National Security Policy

Defense and deterrence among the major powers, including the impact of modern weapons on war and arms limitations, the military as a profession, and the role of the armed forces in shaping defense policy. 4 cr.

563. Foreign Policies of Europe

East-West relations, security alliances, economics and political cooperation, and impact of domestic changes and superpower relationships upon the international politics of Europe. 4 cr.

564. Russia in World Affairs

Background and contemporary perspectives of the Russian role in international politics. Particular emphasis on issues in international economics, American relations, arms development, and regional relations. 4 cr.

565. United States-Latin American Relations

Contemporary political, economic, and social relations between the U.S. and Latin America. Topics include the pattern of U.S. response to political change in Latin America, regional cooperation, debt, trade investment, the drug trade, immigration, rising interdependence, and prospects for economic integration. 4 cr.

566. Foreign Policies of Asia and the Pacific

Current foreign and defense policies as they affect the Pacific region. International politics of China, Japan, and selected Southeast Asian nations, including their efforts at cooperation. 4 cr.

567. Politics of Global Resources

International politics from the perspective of the exhaustibility of global resources and the expansion of global demand. Concentrates on issues including population, food, energy, the environment, security, and human rights. Global interdependence and the appearance of new institutional frameworks of global public policy making. 4 cr.

568. Introduction to Intelligence

The purpose and practice of intelligence in the national security process. Concentration on the role of intelligence in the United States involving the C.I.A. military intelligence agencies, and the practice of intelligence in other countries. 4 cr.

571. International Politics of the Middle East

An examination of inter-Arab affairs and United States involvement in the region. Particular focus on oil and economics; migration; transnational political ideologies (Arab nationalism, Islam, democracy), and the Arab-Israeli crisis. 4 cr.

660. Selected Topics in International Politics

Specialized areas or issues in international relations such as conflict resolution and disarmament European perspectives on American politics, contemporary diplomatic practices, seapower, and defense. 4 cr.

760. Theories of International Politics and Integration

General explanations of the behavior of nations; theory and practice of supranational integration; theories of peace and security and community building at the international level; concepts and experience in arms limitations and conflict resolution. 4 cr.

761. International Law

Formalized processes for regularizing state behavior; development of norms based on custom, precedent, and formal institutions, as in treaties and cases. Arms reduction and limitation arrangements; inspection, and other formal procedures designed to preserve peace. 4 cr.

762. Politics of International Trade and Development

Explores the postwar global trade system, against the background of calls for increased protectionism. Emphasis given both to domestic as well as to international political considerations. 4 cr.

778. International Organization

Collective security and other forms of cooperation among nations through international organizations such as the United Nations and its predecessors, and through regional bodies. Special fee. 4 cr.

797, 798. Section E: Seminar in International Politics

Advanced analysis and individual research; emphasis on developments in theory. Prereq: senior standing. 4 cr.

Political Thought

520. Justice and the Political Community

Origin of the idea of justice; relationship between politics, justice, and morality; selections from Plato, Aristotle, Roman, Islamic, and Christian political philosophers. 4 cr.

521. Rights and the Political Community

Human rights and the quality of communities as expressed in Hobbes, Locke, Mandeville, Rousseau, and others. 4 cr.

522. Dissent and the Political Community

Current political ideologies and controversies in America and abroad; liberal democracy and its critics since the 19th century. 4 cr.

523. American Political Thought

American political thinkers and observers of American politics; the founding of the Republic; problems and tensions reflected in the writings of Calhoun, Thoreau, Lincoln, de Tocqueville, and others; relations between liberty and authority, democracy and stability, capitalism and alienation. 4 cr.

524. Politics and Literature

Classical and contemporary works of literature to illustrate perennial issues in political philosophy; among authors studied are Aristophanes, Sophocles, Shakespeare, Melville, Tolstoy, and Sartre. 4 cr.

620. Selected Topics in Political Thought

Selected issues in political theory, such as liberalism and conservatism, radical political thought, the American political character, and others. See department listings for semester offerings. 4 cr.

720. Perspectives on Political Science

Different views on the study and meaning of politics. Perspectives of political scientists, political philosophers, and political activists. 4 cr.

797, 798. Section I: Seminar in Political Thought

Advanced treatment and individual research. Prereq: senior or graduate standing. 4 cr.

Internships, Advanced Studies, and Honors Thesis

602A, B. Internship in Political Science

Field experience in a governmental or nongovernmental organization at the local, state, national, or international level. Arrangements should be made through the political science department. Open to juniors or seniors with at least a 3.00 G.P.A. Permission of the Undergraduate Curriculum Committee of the department is required prior to the internship. From 4 to 16 credits may be taken; however, only 4 credits may be for a grade. The rest will be credit/fail, and only 4 credits may be applied to the political science major. May be taken in conjunction with Advanced Study in Political Science. (602A: Variable 4–12 cr. Cr/F; 602B: 4 cr. Letter grade.)

795, 796. Advanced Study in Political Science

Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake advanced study (political science), in an area of their choice, in consultation with member(s) of the faculty. Normally, the result of the project will be a significant written product of a quality comparable to that done at the 700 course level. Students must initiate the project discussion and obtain approval of the Undergraduate Curriculum Committee of the department before undertaking the project. 4 cr.

799. Honors Thesis

Senior POLT majors, with a cumulative average of 3.20 or greater, may undertake a special honors project in an area of their choice. The results of this special project will be a significant written product constituting an honors thesis, under the supervision of a faculty sponsor. Students must initiate the project discussion and obtain the approval of the Undergraduate Curriculum Committee before undertaking the project. The honors thesis will constitute the tenth course in the major. 4 cr.

Portuguese (PORT)

Department of Spanish and Classics
(For faculty listing, see page 191.)

401-402. Elementary Portuguese

For students without previous knowledge of Portuguese. Aural-oral practice; fundamental speech patterns; reading and writing to achieve a firm basis for an active command of the language. Labs. No credit toward a major. (No credit for students who have had two or more years of Portuguese in secondary school; however, any such students whose studies of Portuguese have been interrupted for a significant period of time should consult the chairperson about possibly receiving credit.) Special fee. 4 cr.

503-504. Intermediate Portuguese

Conversation and composition based on readings in contemporary Portuguese and Brazilian literature, especially theatre, which is closest to conventional language. A traditional grammar text supplements reading. Special fee. Lab. 4 cr.

Psychology (PSYC)

For program description, see page 38.

Chairperson: Victor A. Benassi

Professors: William M. Baum, Victor A. Benassi, Ellen S. Cohn, Peter S. Fernald, Kenneth Fuld, Robert G. Mair, Rebecca M. Warner

Associate Professors: John E. Limber, John D. Mayer, Kathleen McCartney, Carolyn I. Mebert, Edward J. O'Brien, William Wren Stine, Daniel C. Williams, William R. Woodward

Research Associate Professor: Daniel G. Morrow

Assistant Professors: Victoria L. Banyard, Deborah J. Coon, Robert C. Drugan, Suzanne Mitchell, Bill E. Peterson, Elizabeth A.L. Stine-Morrow

Lecturers: Richard I. Kushner, Peter Yarensky
Academic Counselor: Janice Chadwick

The listings that follow are general descriptions of the courses. Students are referred to the Instructors' Course Descriptions published by the department each semester for specific details about each section. Listings will be made available in departmental offices during the preregistration period.

PSYC 401 is a prerequisite for all courses in the psychology department except PSYC 402 and 571.

PSYC 402 and 502 are prerequisites for all 700-level psychology courses.

General Course**401. Introduction to Psychology**

Psychology as a behavioral science; its theoretical and applied aspects. Coverage of basic topics in the field, including developmental, learning, personality, abnormal, social, perceptual, sensory, and physiological psychology. To experience actively the nature of psychological research, students have an opportunity to participate in a variety of studies as part of a laboratory experience. 4 cr.

Major Courses**402. Statistics in Psychology**

Design, statistical analysis, and decision making in psychological research. Substantive problems as illustrations of typical applications and underlying logic. No credit for students who have completed ADM 430; BIOL 528; DS 420; HHS 540; MATH 644; RECO 525, 528; SOC 502. Special fee. 4 cr.

502. Research Methods in Psychology

Research design, including experimental and correlation design; internal versus external validity; measurement; writing a research report; graphic and statistical methods for summarizing data; sampling; and special problems such as experimenter effects, reactivity of measurement, and others. The use of hypothesis testing and data analysis in research. Prereq: PSYC 401 and 402. Special fee. 4 cr.

512. Psychology of Primates

A comparative analysis of primate cognitive, linguistic, and social processes. The origins of human behavior will be explored from the perspectives of history, evolution, and contemporary work in neuropsychology, linguistics, sociobiology, and related fields. Prereq: PSYC 401. 4 cr.

513. Cognitive Psychology

The study of human cognition, its basic concepts, methods, and major findings. Human knowledge acquisition and use. Attention; perception; memory; imagery; language; reading; problem solving; and decision making. Prereq: PSYC 401. 4 cr.

521. Behavior Analysis and Its Applications

Principles developed from experimental study of human and animal learning; their theoretical integration; their application to the understanding of human behavior. Procedures for changing behavior in practical situations related to theories of learning. Prereq: PSYC 401. 4 cr.

522. Behaviorism

Introduction to behaviorism as a philosophy of science. Some historical background, but concentration on modern behaviorism as exemplified in the works of B. F. Skinner. Prereq: PSYC 401. 4 cr.

531. Psychobiology

The human as a biological machine; advantages and limits of such an approach for studying behavior. Perception, language, and thought; learning and memory; emotions from the point of view of physiology. Prereq: PSYC 401. 4 cr.

552. Social Psychology

Behavior of individuals as affected by other individuals, groups, and society. Topics include attitude change and social influence, conformity, social interaction, interpersonal attraction, impression formation, research. Prereq: PSYC 401. 4 cr.

553. Personality

Major theories, methods of assessment, and research. Prereq: PSYC 401. 4 cr.

561. Abnormal Behavior

Causes, diagnosis, and treatment of abnormal behavior. Implications of varying theoretical viewpoints. Prereq: PSYC 401. 4 cr.

571. The Great Psychologists

Historical introduction to some of the great psychologists and their classic works. 4 cr.

581. Child Development

The developing child in the context of his/her society. Current problems in, and influences on, development of the child. Personality and cognitive development; exceptional children. Prereq: PSYC 401. 4 cr.

582. Adult Development and Aging

A life-span developmental framework for the study of growth, decline, and stability on adult development. Developmental methods in adult development research; biological basis for aging; patterns of change and stability in diverse domains of psychological functioning, e.g., perception, cognition, intellectual performance, and personality organization. Prereq: PSYC 401. 4 cr.

702. Advanced Statistics and Research Methodology

Experimental design, analysis, and interpretation. Repeated measures designs, trend analyses, non-parametric analyses, confounding, missing data, interpretation of interactions, and computer processing of data. Intended primarily for majors planning to attend graduate school. Prereq: PSYC 402; 502; or permission. 4 cr. (Not offered every year.)

704. Research Methods in Social Psychology

Critical examination of the experimental method and nonexperimental alternatives including survey research, field techniques, and evaluation research. The importance of ethical responsibility, experimental artifacts, and validity issues. Each student is responsible for an original research project. Prereq: PSYC 402; 502; or permission. Special fee. 4 cr.

705. Tests and Measurement

Testing intelligence, creativity, achievement, interests, and personality. Test construction, evaluation; relation to psychological theory, research, and practice. Prereq: PSYC 402; 502; or permission. 4 cr.

710. Visual Perception

Anatomy, physiology, psychophysics, and perceptual processes of vision. Topics include physics of light, psychophysics, color, space and form, depth, motion, eye movements, visual learning and development, constancy, and illusions. Prereq: PSYC 402; 502; 531; or permission. Special fee. 4 cr.

711. Sensation and Perception

Anatomy, physiology, psychophysics, and perceptual processes of the visual, auditory, gustatory, olfactory, and cutaneous senses. Topics include stimulus definition, psychophysics, sensory transduction, sensory and perceptual adaptation, neural coding of space, time, magnitude, and quality. Prereq: PSYC 402; 502; 531; or permission. Special fee. 4 cr.

712. Psychology of Language

Theories of language structure; functions of human language; meaning; relationship of language to other mental processes; language acquisition; indices of language development; speech perception; reading. Prereq: PSYC 402; 502; 512 or 513; or permission. Special fee. 4 cr.

#713. Advanced Cognitive Psychology

Complex mental activities; consciousness and attention; concept formation; reasoning, problem solving, creative thinking; relationship between cognition and affective behavior. Prereq: PSYC 402; 502; 513; or permission. 4 cr.

721. The Experimental Analysis of Behavior

Environmental and biological determiners of behavior. Theory, research methods, and applications. Major concepts and recent research. Prereq: PSYC 402; 502; 521, or 522; or permission. Special fee. 4 cr.

723. Behavior Modification and Therapy

Applications of learning and behavior theory to the solution of socially relevant problems, including maladaptive behavior in educational and therapeutic settings. Emphasis on current research and theory. Prereq: PSYC 402; 502; 521, or 522; or permission. 4 cr.

731. Brain and Behavior

Relationships between the nervous system and behavior. Physiological, neural, and biochemical mechanisms underlying instinct, memory, learning, emotion, and consciousness in humans; evolution of these functions in lower animals. Prereq: PSYC 402; 502; 531;/or permission. Special fee. 4 cr.

732. Evolution, Behavior, and Culture

Behavior from the perspective of evolutionary theory. Comparisons of basic processes, such as learning and social behavior, across species. Current psychological theories of behavior discussed in the light of theories formulated by ethologists and ecologists. Prereq: PSYC 402; 502; 512, 521, or 522;/or permission. Special fee. 4 cr.

752. Advanced Social Psychology

A general survey of current research and major theories. An in-depth critical analysis of selected topics such as attribution theory, social cognition, and theories of aggression. Prereq: PSYC 402; 502; 552;/or permission. 4 cr.

755. Psychology and Law

Applications of psychology to the study of the law, including theories of legal and moral judgment, participants in the legal system (judges, police, victims, witnesses), the trial process, and plea bargaining. Special focus on the death penalty, the insanity plea, and child witnesses. Prereq: PSYC 402; 502;/or permission. 4 cr.

762. Counseling

Theories of counseling; ethical considerations; professional and paraprofessional activities in a variety of work settings. Prereq: PSYC 402; 502; 553, or 561;/or permission. 4 cr.

#770. History of Psychology

Survey of the history of psychology up to the 20th century. Major figures, theories, and developments. Relationship to developments in cultural history, philosophy, and the natural sciences. Beginnings of modern scientific psychology. Prereq: PSYC 402; 502;/or 571;/or permission. 4 cr.

771. Psychology in 20th-Century Thought and Society

Reassesses, extends, and integrates knowledge of 20th-century psychology within the historical perspective. Major figures, schools, systems, theories. Social, institutional, and international developments since the 19th century. Review of major fields of psychology. Prereq: PSYC 402; 502;/or 571;/or permission. 4 cr.

780. Prenatal Development and Infancy

Psychological development of infants from conception through second year of life. Factors and potential influences on reproductive health and prenatal physical and behavioral development. Transition to parenthood, infant temperament and parent-infant relationships. Developmental patterns of specific capabilities. Prereq: PSYC 402; 502; 581 or IS 525;/or permission. 4 cr.

783. Cognitive Development

Theories of cognitive development. Comparison among major theorists on how knowledge, thought, and development are defined and studied. Current research, including cognitive development, memory, perceptual processes; language. Prereq: PSYC 402; 502; 581 or permission. 4 cr.

785. Social Development

Examines development of social interactions. Emphasizes important social relationships for the child (i.e., attachment to parents and friendships with peers). Considers other topics of relevance to social developmentalists, such as temperament, aggression, social cognition, and sex roles. Prereq: PSYC 402; 502; 581;/or permission. 4 cr.

Special Courses**591. Special Topics in Psychology**

New or specialized courses are presented under this listing. Staff present material not normally covered in regular course offerings. May repeat but not duplicate content. Prereq: PSYC 401. 4 cr.

741. Advanced Topics

Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CI. A) Psychology as a Natural Science; B) Cognition; C) Behavior Analysis; D) Biological/Sensory. Prereq: PSYC 402; 502; plus other prerequisites when offered;/or permission. 4 cr.

791. Advanced Topics

Advanced material in which instructor has specialized knowledge through research and study. May be repeated for different offerings. Topics under this listing may be used to fulfill a major requirement in category CII. Prereq: PSYC 401, 402; 502; plus other prerequisites when offered;/or permission. 4 cr.

793. Externship

Supervised practicum in one of several cooperating New Hampshire mental health/rehabilitation facilities. Coursework knowledge applied to meaningful work and team experience. Commitment includes a negotiated number of weekly work hours and weekly seminars. Supervision by institution personnel and the instructor. Course applications accepted beginning in March for fall term and October for spring term. Prereq: permission; PSYC major; PSYC 402; 502; 561; additional psychology courses desirable. 4-8 cr.

795. Independent Study

A) Physiological; B) Perception; C) History and Theory; D) Learning; E) Social; F) Cognition; G) Statistics and Methods; H) Experimental; I) Personality; J) Developmental; K) Counseling; L) Psychotherapy; M) Research Apprenticeship; N) Teaching of Psychology (content area to be determined). Specific independent study opportunities are sometimes posted in the psychology offices. Arrangements to be made with a specific faculty member; enrollment by permission only. Prereq: PSYC 402; 502;/or permission. 1-4 cr.

797. Senior Honors Tutorial

For senior psychology honors students. Students propose honors theses under the supervision of psychology faculty. Theses proposed and begun in this course are completed in PSYC 799. Prereq: admission to psychology honors program. 4 cr. (Typically offered in fall.)

799. Senior Honors Thesis

Under supervision of psychology dept. faculty members, students complete the honors projects proposed and begun in PSYC 797. The honors project, which should be empirical in nature, cul-

minates in an oral presentation at the end of the semester. Prereq: admission to psychology honors program; PSYC 797. Special fee. 4 cr. (Typically offered in spring.)

Recreation Management and Policy (RMP)

(For program description, see page 81.)

Chairperson: Lou G. Powell

Associate Professors: Ann L. Morgan, Lou G. Powell

Adjunct Associate Professor: Wendy W. Lull

Assistant Professors: Janet R. Sable, Albert E. Williams

Research Assistant Professor: Linda Aldrich

Adjunct Assistant Professors: James Hilton, Steven J. Miller

Instructor: Jill Gravink

400. Impact of Leisure in Society

Critical factors such as self, family, aging, ecology, health, work patterns, communications, cultural diversity, affluence, and changing sex roles are studied in relationship to present and future leisure patterns. Leisure trends are examined through a process of issue analysis spanning social, technological, economic, and political spheres. 4 cr.

490. History and Philosophy of Leisure

Examines the historical and philosophical foundation of recreation and leisure. Emphasizes concepts, theories, and the interrelationships between factors (social, economic, political, and environmental), which influence people's leisure attitudes and behavior. Explores implications of leisure for holistic and balanced living. 4 cr.

501. Recreation Services for Individuals with Disabilities

Presentation and discussion of issues that concern the delivery of quality leisure services to individuals with disabilities in community settings. Lab requirements as well as classroom activities provide opportunities for practical experience. Prereq: permission. Lab. 4 cr.

502. Introduction to Therapeutic Recreation

History and professional concepts of therapeutic recreation and the roles and functions of the therapeutic recreation specialist. 4 cr.

554. Recreation Business Management

Principles of business management and managerial problem solving as applied to the operation of recreation facilities, parks, and tourist attractions. Emphasizes knowledge in both the public and private sectors: personnel and financial management, market analysis, promotion, and the protection and maintenance of facilities and resources. Prereq: RMP 490 or permission. Lab. 4 cr.

557. Recreation Services Program Design

Introduces the student to a systems approach to program design. Course topics include needs assessment techniques, goal setting and objectives writing, process of group planning, public relations, program evaluation, and leisure education. Applied projects are required. Prereq: RMP 490 or permission. Lab. 4 cr.

- 558. Program Supervision and Leadership**
Emphasis on specific knowledge of leisure activity categories with related organization and leadership techniques. Other topics include facilitation of activity throughout the lifespan and planning for instruction, safety, and crisis confrontation. Applied projects are required. Prereq: RMP 557 or permission. 4 cr.
- #560. Campus Recreation Services**
Management of college unions and campus recreation resources in higher education. 4 cr.
- #561. Introduction to Outdoor Recreation**
The history, delivery system, social and economic impacts, and management tools for outdoor recreation. Includes identification of contemporary issues, problems, and opportunities in recreation resource management. Lab. 4 cr.
- 570. Community Systems Planning and Development**
Evaluation of principal theories of community systems and planning. Topics include problem analysis, methods of community research design, and decision-making skills. 4 cr.
- 593. Special Topics**
A) Camping and Outdoor Education for Individuals with Disabilities; B) State Parks: Their Management and Role; C) Therapeutic Recreation in the School Setting; D) Social Psychology of Leisure; E) Multicultural Perspectives in Recreation; F–Z) Interdisciplinary. Specialized courses covering information not presented in regular course offerings. Description of topics available in department office during preregistration. Prereq: RMP majors or permission. May be repeated but not in duplicate areas. 2–4 cr.
- 600. Multicultural Perspectives of Leisure**
Explores the multicultural issues within a pluralistic society both generally and as they are specifically evident through leisure, recreation and play behaviors, values, and possibilities. Course topics and assignments applied to the exploration of three questions: (1) How does leisure expression honor, value, and preserve unique cultural and ethnic heritages? (2) Does and/or can leisure expression create meaningful bridges across interpersonal and societal differences? (3) What are the moral and ethical responsibilities and opportunities for leisure services providers within a pluralistic society? 4 cr.
- 603. Principles of Therapeutic Recreation**
Addresses the principles of activity analysis, client leisure assessment, documentation, individualized program planning, and evaluation. Prereq: RMP 490; 502. 4 cr.
- 604. Clinical Aspects and Techniques in Therapeutic Recreation**
Addresses specific clinical knowledge and skills essential to therapeutic recreation service delivery including clinical interviewing, group process, leisure education, and treatment approaches. Prereq: RMP 490; 502; 603. 4 cr.
- 606. Therapeutic Recreation Practices and Procedures**
Introduction to and utilization of mobility techniques in clinical settings. Application of activity and task analysis to selected leisure activities with a variety of populations. Creation of, and use of, assistive technology and adaptive recreation devices appropriate to specific disabilities. Knowledge and utilization of leadership and group process strategies. Prereq: RMP 490; 502; 603. Special fee. 2 cr. Cr/F.
- 654. Professional Development, Issues, and Ethics**
Issues related to applied professional practice. Investigates professional work environment concerns, including value congruence, ethics, credentialing, networking, and time management. Also prepares students for the internship experience through the identification of career goals and the selection of an approved internship site. Prereq: RMP major; permission. 1–4 cr.
- 663. Management and Policy in Leisure Services**
Comparative analysis of administrative processes within various organizations as well as the political and policy-making roles of managers in the private and public sectors. Emphasis on organizational development, fiscal management, and budgeting as tools used in formulating and implementing policy. Prereq: RMP 557 or permission. 4 cr.
- 664. Internship**
A) Internship in Recreation Management; B) Internship in Therapeutic Recreation. Students enroll in the section corresponding to their major option after receiving approval from the academic adviser. Supervised work experience in an approved profession-related agency. An IA grade (yearlong course) may be assigned at the end of the semester or summer session. Prereq: majors only; permission. Special fee. 2–6 cr. Cr/F.
- 665. Information Retrieval and Communication in Leisure Services**
Prepares students to respond effectively to an information-based society. Course topics are applied to the leisure service delivery systems and include microcomputer systems and applications; standardized information systems; networking; understanding and disseminating descriptive research; and dissemination of information through audiovisual and mass media. Prereq: RMP 557 or permission. 4 cr.
- #667. Recreation Resource Planning**
Overview of site-planning techniques and issues as currently practiced by recreation resource agencies at local, state, and national levels. Relationships of planning to management, policy, and practice; current trends in planning and likely future directions. Extensive use of field trips to enable students to learn how to read landscapes in order to use natural features in design as well as to enhance visitor experiences. Prereq: RMP 490; RMP major or permission. 4 cr.
- 705. Management and Policy in Therapeutic Recreation**
Addresses National Council for Therapeutic Recreation Certification knowledge areas concerning management competency. Students acquire knowledge of current principles and procedures for assuming an administrative role in the therapeutic recreation profession. Issues and practices related to budgeting, reimbursement, quality improvement programs, and comprehensive program planning. Prereq: RMP 502; 603; 604. 4 cr.
- 711. Recreation Resource Management**
Examines the supply and demand of natural resources for outdoor recreation uses, with emphasis on relationships between public and private roles and responsibilities. Social, environmental, and economic impacts of outdoor recreation use are discussed. Current principles and techniques of recreation resource planning and management are outlined. Prereq: seniors or permission. 4 cr.
- 724. Grantsmanship, Evaluation, and Research**
Emphasis on understanding and application of grantsmanship, research techniques, and research writing. Addresses the process of program planning and grant proposal development. Examines research methodologies and the evaluation processes as applied to recreation and allied health settings. Critical assessment of uses and limitations of research for recreation. Prereq: RMP 490; 557. 4 cr.
- 743. Environmental Education**
Blend of environmental education/interpretation theory, process, and practical application. Includes seminars, workshops, and practical experience in an environmental education program. Prereq: permission. 4 cr.
- 764. Issues in Leisure Services Management**
Issues are presented and discussed as related to applied professional practice. Examination of the commonality in professional experience as well as in-depth investigation of option-specific issues and trends. Students enroll in the course section corresponding to their declared option within the major: A) Program Administration; B) Therapeutic Recreation. Prereq: RMP major; senior; permission. 4 cr.
- 772. Law and Public Policy in Leisure Services**
Topics including the law of torts, contracts, property, civil rights, risk management, and legal research are addressed in the context of leisure services and recreation resources. Public policy and professional advocacy implications are examined in relation to legislative and judicial systems. Prereq: senior RMP major or permission. 4 cr.
- 793. Advanced Topics**
A) Area and Site Planning; B) Concepts and Trends in Therapeutic Recreation; and C) Conference Planning. Topics presented by instructors with specialized knowledge gained through professional practice, research, and study. Description of topics available in department office during preregistration. May be repeated but not in duplicate areas. (Also offered as HMGT 698.) 2–4 cr.
- 796. Independent Study**
Individual study and/or research relating to leisure-oriented topics. Prereq: permission. 1–4 cr.

Religious Studies (RS)

(For program description, see page 24.)

Coordinator: Lisa Watt MacFarlane

483, 484. Introduction to the History of World Religion

An introduction to the history of religion, covering the major traditions of world religions and the methods of their study. (Also offered as HIST 483, 484.) 4 cr.

576. The Hebrew Bible in Historical Context

An introductory study of the Hebrew Bible, or Old Testament, examining the development of biblical literature in the context of ancient Near Eastern cultures and history. Interpretations of the creation stories and patriarchal narratives using literary and folklore methods; the transformation of Israelite religion from Moses to David to Ezra; the role of prophets and nature of ancient prophecy; the concept of the messiah; "wisdom" literature and the

biblical interpretations of misfortune; the formation of a biblical canon, and the critical analysis of sacred texts. (Also offered as HIST 576.) 4 cr.

577. The New Testament in Historical Context
A study of the collection of writings known as the New Testament as both literature and historical documentation. Assigned readings from primary and secondary sources stress the historical, social, religious, and literary backgrounds of gospels, Paul's letters, and the Apocalypse, and will include a variety of early Christian texts left out of the canonical New Testament. Other more general themes are: the formation of the Christian canon, the division of the Jesus-movement from Judaism, the status of Jesus in his own time, the nature of parables, the end of the world, and the authority of women in early churches. Emphasis on the historical understanding of sacred scripture. (Also offered as HIST 577.) 4 cr.

599. Special Topics
Studies of particular religious traditions, or periods within those traditions, or special topics and issues of concern within religious studies such as mythology, ritual, mysticism, etc. 4 cr.

#607. The American Character: Religion in American Life and Thought
Interdisciplinary study of the American religious experience and its relationship to other aspects of American culture, taught by a team of three specialists, each in a different discipline: American intellectual and cultural history, American literature, and American church history. Central emphasis on several transforming themes of the 19th century and their effects upon the interplay of religion and society. (Also offered as ENGL 607, HIST 607, and HUMA 607.) 4 cr.

682. Cults and Charisma
Examines religious sects and charismatic leaders using case studies from history and the contemporary world, as well as analytical principles from religious studies and anthropology. Explores various approaches to the question, what makes a person powerful over others?, in connection with the formation of messianic sects, the genesis of the "cult," the traditional authority of priests and kings, sainthood, the events at Jonestown and Waco, and the popular image of the "cult." Students learn to employ a variety of tools and models to understand historical situations of charismatic leadership. (Also offered as HIST 682.) 4 cr.

699. Senior Seminar
A capstone experience intended to help students draw together their various studies in the field of religion. Prereq: any two courses in religious studies and permission. 4 cr.

795, 796. Independent Study
Independent study of traditions, topics, or figures within the scope of religious studies. Prereq: permission. 2 or 4 cr.

Reserve Officers Training Corps

(For program description, see page 97.)
(See *Aerospace Studies and Military Science*.)

Resource Economics (RECO)

Department of Resource Economics and Development
 (For program description, see page 54; see also course listings under *Community Development*.)

Chairperson: Bruce E. Lindsay
Professors: Edmund F. Jansen, Jr., Bruce E. Lindsay
Adjunct Professor: George E. Frick
Associate Professors: John M. Halstead, Alberto B. Manalo, Douglas E. Morris
Extension Educators: Michael R. Sciabarrasi, William H. Zweigbaum

411. Resource Economics Perspectives
Microeconomic theory and analysis in resource management and use decisions. Survey of significant resource problems from an economic perspective and the application of economic analysis. Cannot be taken for credit after ECON 402 or equivalent. Special fee. 4 cr.

501. Agricultural and Natural Resource Product Marketing
Structure, organization, strategies and performance of the business sector in agriculture, forestry, and other local natural resource-based industries; commodity marketing systems; demand estimation, pricing policies, consumer characteristics, and related topics. Prereq: RECO 411 or equivalent; or permission. 4 cr. (Offered every other semester.)

504. Business Management for Natural Resource Firms
Planning, operation, and control of natural resource-based firms with direct application to agriculture, aquaculture, forestry, and recreational businesses. Emphasis on decision making, problem solving, and operational strategies. Prereq: RECO 411 or equivalent. Lab. 4 cr.

506. Population, Food, and Resource Use in Developing Countries
Economic, technical, cultural, social, and political factors that influence food supplies, nutrition resource use, employment, and income distribution in the developing countries; the population explosion; strategies for expanding food supplies; social and institutional constraints, strategies and policies for economic development. Prereq: RECO 411 or equivalent. 4 cr.

#512. Gulf of Maine Economic Resources
Topics include fisheries management, oil and gas recovery, and ocean minerals mining. Lab and fieldwork will include opportunity to observe and interview those professionally involved in harvesting marine resources in the Gulf of Maine. Offered as a one-week course at the Shoals Marine Laboratory. Prereq: Intro. econ. course or permission. 1 cr. (Summers only.)

525. Statistical Methods and Applications
Applications of elementary statistical concepts and methods including probability, descriptive techniques, statistical inference and bivariate and multivariate statistical analysis. Orientation is toward analysis and interpretation of data commonly encountered in social science disciplines. No credit for students who have completed ADM 430; BIOI 528, DS 420; IHS 540; MATH 644, PSYC 402; RECO 525, 528, SOC 502.

#595, 596. Problems in Natural and Agricultural Resources
Students pursue field, laboratory, or library problems in natural and environmental resources that are not covered by other courses. Faculty consultant and study topic must be chosen before registration. In consultation with the faculty adviser, students select the problem area, create a bibliography for reflection, and pursue the topic. A professionally written paper is expected at termination of the study. May be repeated once for credit. Prereq: permission. 2-4 cr.

604. Financial Concepts for Natural Resource Firms
Financial decision theory, risk management, investment analysis, financial statement analysis, and asset appraisal techniques with direct application to agricultural and natural resource firms. Prereq: RECO 504. Lab. 4 cr.

606. Land Use Economics
Economic and institutional factors affecting human use of land resources; historical discussion of land ownership patterns; supply and demand; production relationships; location and resource use; benefit-cost analysis; institutional restraints and planning for more efficient use of land. Real estate market and taxation. Prereq: RECO 411 or equivalent. 4 cr. (Offered every other semester.)

611. Marine Resource Economics
Economic overview of the marine environment, interactions/conflicts surrounding this multiple-use resource. Economics of fisheries; marine recreation; offshore facilities; aquaculture; waste disposal. Prereq: RECO 411 or ECON 402; or permission. 4 cr. (Offered every other semester.)

627. Community Economics and Finance
Economic and financial factors affecting community and local government decisions. Emphasis on use of economic theory and analytical techniques to evaluate problems in contemporary New England communities and towns. Prereq: RECO 411 or ECON 402. (Also offered as CD 627.) 4 cr. (Offered every fourth semester.)

633. Economics of Travel and Tourism
Provides an understanding of both the microeconomic and macroeconomic aspects of travel and tourism. Using economics as a theory base, the course attempts to identify what is significant or special about travel and tourism compared with other activities. Special attention is given to issues such as resource immobility, capacity constraints, seasonality, and consumers' inability to experience the product before purchase. Prereq: RECO 411. (Also offered as TOUR 633.) 4 cr.

#666. Empirical Resource Economics: Methods and Techniques
Integrates the theoretical, experimental, mathematical, and statistical components of resource economics analysis. Includes problem identification, data collection techniques, data management, mathematical and statistical models, and report generation. Methods and techniques discussed in lecture are demonstrated using personal computers. Addresses assumptions required by the models and techniques and their relationship to the theory and analytical results. Prereq: RECO 411; MATH 420; CS 401 (or 495); junior standing and permission. 4 cr.

676. Economics of Water Use and Quality Management
Economics of water use; role of government and

policy agencies, water supply and demand, economic impact of water and water quality standards, alternatives in quality management, externalities, and methods of evaluation. Prereq: elementary biological or physical science (or WARM 504); RECO 411. 4 cr. (Offered every third semester.)

704. Economics of Policy Issues in Food and Natural Resource Use

Economic analysis of current issues affecting food and natural resource use, such as food, safety, air and water pollution, land use and conservation, and waste management. Economic, political, and social consequences of alternative policies and programs are evaluated. Prereq: at least one RECO 600-level course or permission. (Not offered every year.)

708. Environmental Economics

Environmental pollution, the market economy, and optimal resource allocation; alternative control procedures; levels of environmental protection and public policy; property right issues. Prereq: Intermed. microecon. theory; permission. 4 cr. (Offered every third semester.)

#710. Resource Economics Seminar

Seminars arranged to students' needs and offered as demand warrants: A) Rural Development; B) Marine Economics; C) Community Economics; D) Land and Water Economics; E) Quantitative Methods; F) Recreation Economics; G) Small Business Economic and Managerial Issues. In-depth treatment of area, including classic works. May be repeated. 2-4 cr.

715. Linear Programming and Quantitative Models

Solving applied economic problems using linear and nonlinear techniques with emphasis on problem specification and interpretation of model results. Unit of analysis includes individuals, firms, or communities as they address contemporary problems dealing with resource allocation, product distribution, and whole-firm organization. Computer applications on both mainframe and personal computers utilized for managerial decision making. Project required. Prereq: permission. 4 cr. (Offered every other year.)

756. Rural and Regional Economic Development

Concepts and methods of delineating regional economies, methods of measuring activity, regional development, and public policies. Emphasis on empirical research studies. Prereq: intermed. econ. theory or permission. 4 cr. (Offered every third semester.)

795. Investigations in Resource Economics

Special assignments in readings, investigations, or field problems. A) Agricultural Marketing; B) Agricultural Production and Farm Management; C) Community Development; D) Economics of Human Resources; E) Economics of Population and Food; F) Land Economics; G) Marine Economics; H) Rural Economic Development; I) Regional Economics; J) Water Economics. Prereq: permission. May be repeated. Variable 2-4 cr.

799H. Senior Thesis/Honors

Students develop and conduct individual research projects related to applied resource economics under the direction of a senior thesis committee. The resulting written thesis is defended in an oral presentation before departmental faculty and students. Prereq: permission, majors only, senior standing. 4 cr.

Russian (RUSS)

Department of German and Russian
(For program description, see page 40.)

Chairperson: Aleksandra Fleszar

Visiting Professor: Takuya Nishitani

Associate Professors: Arna Beth Bronstein, Aleksandra Fleszar, Ronald D. LeBlanc

Lecturer: Aleksandr I. Glukharev

New students will be assigned to the proper course on the basis of proficiency tests. A student may not receive UNH credit for elementary Russian courses if he or she has had two or more years of secondary school Russian. If a significant number of years has elapsed since completion of the last course, a student may petition the department to take 400-level language courses for credit.

401-402. Elementary Russian

Oral-aural practice and written drills designed to achieve a mastery of basic grammatical patterns. Language lab and computer lab work. For students without previous training in Russian. Special fee. 4 cr.

425. Introduction to Russia through Literature

Introduction to contemporary Russian society through 20th-century literature. Includes a brief outline of Russian history, history of literature, and the arts prior to 1917. Examines through post-1917 literature and film the "Russian mind" and the "Soviet mind," how they clashed, and how the "Russian mind" is adapting to the recent changes in Russia. 4 cr.

#485. Russian Seminar in the Russian Language and Culture

Four weeks of language, culture, and civilization classes on the intermediate level. Conducted in Russia by Russian instructors. Classes four hours per day, six days per week; field trips. Prereq: RUSS 402 or equivalent; permission. 4 cr. (Summers only.)

502. Review Russian for Intermediate Students

Reviews the complete Russian declensional system, singular and plural, nouns, adjectives, possessives, and verb system (conjugations, aspectual usage, imperative usage and formation). Students successfully completing this course (with a C or better) should be able to continue their study in RUSS 504. Prereq: RUSS 402 or equivalent; permission. Special fee. 4 cr.

503-504. Intermediate Russian

Continuation of RUSS 401-402. Review of Russian grammar, and practice in oral and written expression. Prereq: RUSS 402 or equivalent high school or college course with a grade of C or better. Special fee. 4 cr.

505-506. Russian Conversation and Reading

Designed to increase fluency in Russian conversation and reading. Students are advised to take this as a sequence along with RUSS 503-504. Prereq: RUSS 401-402 or permission. Special fee. 4 cr.

521. Survey of 19th-Century Russian Literature in English

Selected masterpieces of 19th-century Russian literature. Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, and others. Lectures and readings in English. Open to all students, including freshmen. Special fee. 4 cr.

522. Survey of 20th-Century Russian Literature in English

Selected masterpieces of 20th-century Russian literature. Chekhov, Pasternak, Bely, Bulgakov, Solzhenitsyn, and others. Lectures and readings in English. Open to all students, including freshmen. Special fee. 4 cr.

#585. Russian Language Seminar in Russia

Five weeks of Russian language classes on all levels conducted in the USSR, four hours per day, six days per week. No prerequisites. 4 cr. (Summers only.)

586. Russian Language Seminar, Civilization, and Culture in Russia

Five weeks of culture and civilization classes and field trips to museums, art galleries, schools, factories, etc. Conducted in Russia. Classes and excursions average three hours per day, seven days per week. No prerequisites. 4 cr. (Summers only.)

593. Major Russian Authors in English

In-depth discussion and analysis of major Russian authors or literary periods. A different author or period offered each semester. Lectures and readings in English. Open to all students. Not for major credit; majors must register for RUSS 693. Special fee. 4 cr.

631-632. Advanced Russian Conversation and Composition

Advanced spoken and written Russian designed to maintain aural-oral fluency; emphasis on translation and advanced grammatical structures. Prereq: RUSS 503-504 or equivalent with a grade of C or better. Special fee. 4 cr.

685, 686. Study Abroad

Studies at a Russian institution of higher learning. Interested students should consult with a Russian adviser. Prereq: primarily for juniors and seniors who have completed RUSS 632 or equivalent with a grade of B (3.00) or better. Special fee. Variable to 16 cr. Cr/F. (IA grade will be assigned until official transcript is received from the foreign institution.)

691. Readings in Russian Literature

Linguistic and stylistic characteristics of works of important authors of the 19th and 20th centuries. Readings, lectures, and papers entirely in Russian. Special fee. 4 cr.

692. Drama

Examination of exemplary Russian plays. A play production in Russian emphasizing phonetic articulation, intonation, and fluency and allowing in-depth analysis of a particular text. Special fee. May be repeated for credit barring duplication of material. 4 cr.

693. Major Russian Authors

Same as RUSS 593, except that majors may do selected readings in Russian and conduct research assignments on a specified topic. Final project required. Special fee. 4 cr.

733. Advanced Language and Style

For students who have a strong, active control of grammar. The most difficult problems of Russian grammar and syntax; poetry and prose. Develops confidence in expression both in everyday situations and in abstract concepts (emphasis on the latter). Prereq: grade of C or better in last Russian language course taken. Special fee. 4 cr.

734. History and Development of the Russian Language

Overview of the changes in sounds, structure, and

vocabulary from Proto-Indo-European through Old Church Slavonic, Old Russian, to contemporary Russian. Readings in culture and civilization parallel to the chronology of the studied linguistic period. Prereq: grade of C or better in last Russian course taken. Special fee. 4 cr.

791. Methods of Foreign Language Teaching
Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

795, 796. Independent Study in Russian
Open to highly qualified juniors and seniors. To be elected only with permission of the department chair and the supervising faculty member or members. Barring duplication of subject, may be repeated for credit. 1-4 cr.

797, 798. Special Studies in Russian Language and Literature
Selected topics in language, culture, and literature. Barring duplication of subject, may be repeated for credit. 2 or 4 cr.

School of Health and Human Services (HHS)

(For program description, see page 73.)

510. AIDS: Health, Ethics, and Social Agenda
AIDS has become one of the most important health issues of our time. This course explores the medical, policy, financial, and ethical issues raised by society's efforts to respond to this "crisis." (Also offered as INCO 404S.) 4 cr.

540. Statistics for Health and Human Services Professionals

A conceptual and analytical approach to the use of statistics in the health and human service professions. Emphasis on the logic and purpose of statistics. Attention to special problems of statistical design such as random assignment, single subject trials, and the ethics of control groups. Basic computer skills for manipulating data. No credit for students who have completed ADM 430; BIOL 525; DS 420; MATH 644; PSYC 402; RECO 525; SOC 502. Special fee. 4 cr.

640. Environmental and Occupational Health

Environmental health is the area of human ecology that studies the interrelationship between humans and their environment as it affects the health of the individual or groups. Occupational health examines the workplace as a significant source of discomfort, illness, injury, and death in the population. Traces the evaluation of environmental health across time and across many cultures. 4 cr.

740. Health Promotion Seminar

Examines contemporary health concerns in terms of lifestyle, environmental, and sociocultural dimensions. Focus on theories relating to health behavior and behavioral change. Analyzes risk factors and identifies strategies to reduce risk. Special fee. 4 cr.

798. Special Topics in Health and Human Services

Explores areas related to specific professional

health interests. May repeat but not duplicate subject areas. A) Communication Disorders; B) Health Management and Policy; C) Medical Laboratory Science; D) Nursing; E) Occupational Therapy; F) Kinesiology; G) Recreation Management and Policy; J) Family Studies; K) Social Work; L) Health Promotion; I, M-Z) Interdisciplinary. Prereq: permission. 1-4 cr.

Social Science (SCSC)

Coordinator: Jo-Ann Kelly

681. Internships

Fieldwork in a state or local government department, agency, or institution, or in an approved private agency. Work will be under supervision of agency. Department chairperson or representative is responsible for arranging the program. Offered through departments of history, political science, psychology, sociology, and anthropology. Prereq: senior standing. Variable to 16 cr.

682. Washington Internship

Internship placements in Washington, D.C., through the Washington Center. Individual internships arranged with legislative and judicial offices, law firms, public interest organizations; in the arts, the media, labor, international affairs, business, consumer affairs. Supervision by agency personnel and faculty sponsor. Students should have above-average academic record before applying. Open to all majors. Applications available in the Whittemore School Undergraduate Programs Office, McConnell Hall. Prereq: junior or senior. Student must also register for a graded, 4-credit independent study in the student's major. Internship credit variable to 12 cr. Cr/F.

Social Work (SW)

(For program description, see page 82.)

Associate Professors: Robert E. Jolley, Sylvia Y. Kaneko

Assistant Professors: Mary Banach, Sharyn J. Zunz, Jerry D. Marx, Angie H. Rice

Instructors: L. Rene Bergeron, Martha A. Byam, Karen R. Oil, Martha H. Ortmann
Lecturer: Susan A. Lord

524. Introduction to Social Work

The role of social work within agency structures. Programs, policies, social work services studied in historical perspective: their auspices, goals, and operations for consumers from various ethnic, racial, and social groups. Weekly observational/participatory assignments at community agencies. 4 cr.

525. Introduction to Social Welfare Policy

U.S. social welfare provisions: income, housing, employment, and health care. Programs and policies in historical perspective: their auspices, goals, and operations for consumers from various social, racial, and ethnic groups. 4 cr.

550. Human Behavior and Social Environment I

Introduction to human behavior and development

as it influences and is influenced by multiple factors in the social environment, including individual genetic and biological composition, race, gender, age, socioeconomic status, ethnicity, geographic location, physical appearance, and ability. How these factors operate throughout the life cycle. Provides a knowledge base and perspective to understand a client's behavior, attitude, and values in relation to the attitudes and values of the social work professional and the larger society. 4 cr.

551. Human Behavior and Social Environment II

Continuation of 550. Agents of socialization that most significantly affect individual development and behavior, and a dynamic and changeable concept of social systems as they affect individual and group behavior in relation to the dominant society. Prereq: SW 550; major. 4 cr.

601. Research Methods in Social Work

Introduces students to practitioner-researcher role in social work. Critical evaluation of, and introduction to research including project design, survey and evaluative methodologies. Introduction to statistics used in research process. Each student completes an individual research project. Cannot be taken for credit after SOC 601 or PSYC 502. Prereq: junior or senior standing or permission. 4 cr.

622. Social Work Practice I

Introduction to methods and practice. Basic principles, values, and ethics. Interviewing skills, problem assessment, social contracting. Skills training in lab sessions. Required for majors, should be taken in junior year. Prereq: SW 524 or permission. 4 cr.

623. Social Work Practice II

Continuation of SW 622. Delineation and study of intervention and change strategies differentiated with individuals, groups, and communities. Required for majors. Prereq: SW 622. 4 cr.

633. Seminar in Social Work Methods

Analysis and comparison of change theories, intervention strategies, therapeutic techniques. Seminar format. Possible topics: techniques of group work, casework or community practice, behavior modification, and staff development and supervision. Prereq: senior major standing. 4 cr.

640. Social Welfare Field Experience I

Majors will be placed in a social welfare setting for a minimum of 225 hours; individual arrangements with faculty coordinator. Required for majors. Prereq: SW 622 and permission. Coreq: SW 640A. Special fee. (No credit toward a minor.) 5 cr. Cr/F.

640A. Social Welfare Field Experience I: Seminar

Seminar on campus. Prereq: SW 622 and permission. Coreq: SW 640. (No credit toward a minor.) Special fee. 3 cr.

641. Social Welfare Field Experience II

A continuation of SW 640 with a minimum of 225 hours. Required for majors. Prereq: SW 640 and permission. Coreq: SW 641A. (No credit toward a minor.) 5 cr. Cr/F.

641A. Social Welfare Field Experience II: Seminar

Continuation of 640A. Required of majors. Prereq: SW 623 and permission. Coreq: SW 641. (No credit toward a minor.) 3 cr.

697A–H. Special Topics in Social Welfare
Seminar for advanced majors. Topics may include: A) Alcohol and Alcoholism, B) Drugs and Chemical Dependency, C) Income Maintenance, D) Health Care, E) Child Welfare, F) Aging, G) Mental Health, or H) Developmental Disabilities. May be repeated for different topics. Prereq: permission. 4 cr.

700. Social Gerontology

Theories, social problems, programmatic responses, and recent research on aging; emphasis on psychosocial forces. Prereq: senior status;/or permission. 4 cr.

701. Women and Aging

Analysis of the major theories about the social conditioning of aging women and its effect in contemporary society. Human service response. Psychosocial, biological, legal, and economic implications. Prereq: senior status or permission. 4 cr.

705. Child Welfare: Policies, Programs, and Practice

Examination of the major policy and program questions of child welfare with a focus on child care and protection, adoption and foster care, juvenile delinquency, service delivery, and concepts of treatment in public and private programs. Prereq: senior status or permission. 4 cr.

710. Computer Utilization in Social Work

Provides students with a basic understanding of computerization and its application in social work. Computer literacy is seen as a requirement for the effective practice of social work for the 1990s and beyond. 4 cr.

711. Social Work and Mental Illness

An overview of the public mental health system focusing on people affected by severe and persistent mental illness. Reviews the current service system and its history; major mental illness, psychosocial rehabilitation, and treatment; and community support systems. Prereq: junior or senior status. 4 cr.

712. Social Work and Developmental Disabilities

Analysis of the complex social contexts of people with developmental disabilities. Explores and questions traditional approaches and the current service system. Examines family and community services and resources. Prereq: junior or senior status. 4 cr.

795. Independent Study in Social Service

Independent work under department faculty guidance. Enrollment by permission only through arrangement with specific faculty. May be repeated with a different focus to maximum of 8 cr. Prereq: 12 hours social service coursework; permission. Variable 1–6 cr. Cr/F.

796. Independent Study: Teaching Assistantship

Participating students provide leadership and supervision for small groups of majors in social work practice simulations. Student teaching assistants work closely with, and under the direction of, department faculty. May be repeated to a maximum of 8 cr. Prereq: senior status; 16 hours in social work; and permission. Variable 2 or 4 cr. Cr/F.

797H-798H. Honors Thesis

Working with an assigned faculty adviser, students propose and develop a thesis project for both oral

and written presentation before the end of the semester. Prereq for 797H: admission to the SW honors program; permission. Prereq for 798H: satisfactory completion of 797H; permission. Variable credits: 2–4 per semester; 6 cr. maximum for both semesters.

Sociology (SOC)

Department of Sociology and Anthropology
(For program description, see page 40; see also additional course listings under Anthropology.)

Chairperson: Sally Ward

Professors: Melvin T. Bobick, Lawrence C. Hamilton, Bud B. Khleif, Arnold S. Linsky, Stuart Palmer, Murray A. Straus, Sally Ward
Associate Professors: Peter Dodge, Michael J. Donnelly, Cynthia M. Duncan

Assistant Professors: Anita I. Garey, James Tucker, Heather A. Turner
Lecturers: Stephen D. Adair, Priscilla S. Reinertsen

400. Introductory Sociology

Overview of sociology as the scientific study of human social and cultural relationships. Social theory, methods and techniques of research, and current research findings on a wide range of social issues. 4 cr.

500. Introduction to Social Psychology

Social structure and culture and human behavior. Sociological analysis of behavior in interpersonal relationships, small groups, formal organizations, and other social units. Social psychological issues within various institutions of society. 4 cr.

502. Statistics

Elementary applied statistical techniques; tables, graphs, cross-classifications; central tendency and dispersion; correlation and linear regression; confidence intervals and hypothesis testing. No credit for students who have completed ADM 430; BIOL 528; DS 420; HHS 540; MATH 644; RECO 525, 528; PSYC 402; but petitions for acceptance of such courses to fulfill the sociology major requirement in statistics will be entertained. 4 cr.

515. Introductory Criminology

Scientific study of causes and control of crime. Indexes, rates, theories of crime and delinquency, police, courts, probation, prison, and parole. 4 cr.

520. The Family

Sociological study of marriage and the family in American society. Following a life-cycle approach, topics include gender roles, communication and conflict, dating and mate selection, work and family economics, the transition to parenthood, middle- and late-life family, divorce, and remarriage. 4 cr.

530. Race and Ethnic Relations

Majority-minority group relations; special attention to nature and results of black-white and ethnic group relations in the United States. Special fee. 4 cr.

540. Social Problems

Relation of customs and institutions to such social problems as crime, delinquency, alcoholism, physical and mental disease, sexual deviance, poverty,

old age, broken families, and racial and religious prejudices. Especially for nonmajors. 4 cr.

570. Sexual Behavior

A comparative approach to questions of the universality and variability of human sexual behavior. Topics include the changing expression of sexuality at various stages of the life cycle, patterns of arousal and response for each sex, the social control of sexuality, and sexual dysfunctions. 4 cr.

597. Special Topics in Sociology

Occasional or experimental offerings. May be repeated for different topics. Special fee. 4 cr.

599. Critical Analysis in Sociology

Basic skills essential to the study of sociology; development of critical reading of sociological literature through the practice of systematic evaluation of evidence and the process of theory construction; written and oral analysis of sociological classics; use of library resources. To be taken by sociology majors only no later than the junior year. 4 cr.

601. Methods of Social Research

Cross-sectional and longitudinal survey design; direct and indirect measurement techniques; design of field and laboratory experiments; special topics. Prereq: major in sociology or social work; junior or senior standing;/or permission. 4 cr.

611. History of Social Theory

Analysis of the writings of major contributors to the development of sociological theory from Plato to Max Weber. Special emphasis given to works of Marx, Weber, and Durkheim. 4 cr.

612. Contemporary Sociological Theory

Major schools, concepts, and issues in present-day sociological theory. Readings on functionalism, conflict theory, systems theory, critical theory, and hermeneutics. 4 cr.

#620. Studies in Social Psychology

Application of basic concepts of social psychology to a series of studies involving theoretical, methodological, and substantive issues. Prereq: SOC 500. 4 cr.

625. Female, Male, and Society

Critical, cross-cultural study of gender-related behavior in historical as well as contemporary perspective. Draws on anthropological, social-psychological, and sociological literature. (Also offered as ANTH 625.) 4 cr.

#629. Small Groups

Interaction among individuals in small groups and between small groups; perception, attitude, and behavior. Analytical techniques are applied. Prior course in social psychology recommended. 4 cr.

#635. Medical Sociology: Organization and Processes of Modern Medicine

Interrelationship of health, medicine, and society; the social construction of wellness, illness, and healing; age, sex, class, and ethnicity in medical care; institutional networks and the social control functions of medicine; roles and relations of physicians, patients, nurses, and other health workers; medicine in a cross-national context. 4 cr.

#642. Introduction to Social Policy

Definition of social policy. Role of the social scientist in social policy research. Sociological research for policy decisions. Research examples in specific

policy areas. Utilization of sociological research in policy decisions. 4 cr.

645. Class, Status, and Power

Pattern of distribution of economic, honorific, and political variables within the populations of complex societies; allocation of personnel to the roles in question, notably through occupational mobility; and the impact of such processes upon behavior, both individual and social. Prereq: SOC 400. 4 cr.

655. Sociology of Crime and Justice

Seminar devoted to analyses of the relationships between violent, property, and "victimless" crime on the one hand and the police, judicial, and correctional components of criminal justice systems on the other. Prereq: SOC 515 or permission; seniors only. 4 cr.

#660. Rural-Urban Sociology

Application of sociological and social-psychological principles to the study of populations at various points on the rural-urban continuum. 4 cr.

665. Environmental Sociology

Interactions between society and the physical environment, including: environmental constraints; population and economic growth; social impacts of resource development; large-scale environmental change; and the social bases of environmental attitudes, behavior, and politics. 4 cr.

675. Sociology of AIDS

Seminar class addresses social, political, emotional, and bioethical dimensions of HIV infection and AIDS. Specific topics include the social epidemiology and etiology of AIDS, stigmatization and the social construction of disease, community action, AIDS prevention, and ethical issues in the health care of people with AIDS. 4 cr.

697. Special Topics in Sociology

Occasional or experimental offerings. May be repeated for different topics. 4 cr.

699. Senior Thesis

Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision from two faculty members. Should be initiated by next-to-last semester. 4–8 cr.; in latter case to extend over two semesters.

715. Criminological Theory

Examines the major schools of criminological thought. Traditional perspectives—learning, control, strain, and labeling theories—are covered, as are more contemporary approaches, including Marxian, feminist, rational-choice, routine-activities, and structural theories. Prereq: SOC 515. 4 cr.

720. Current Developments in Sociology of the Family

Current topic selected each semester, such as stratification and the family, intrafamily communication, power structure of the family, kinship in modern societies. Critical review of the literature; class or individual research project usually carried out. Prereq: 8 credits of sociology; SOC 520 recommended. 4 cr.

730. Political Sociology

Contemporary issues in political sociology, with emphasis on the relationship between social class structure and political power. Seminar explores

various perspectives on the nature and distribution of power, theories of the state, class structure and political participation, and the politics of policy making. 4 cr.

#735. Complex Organizations

Comparative and historical study of the structure and dynamics of complex organizations (business, military, scientific, political, educational, medical) in their various environments: power and social control, structure and technology, size and performance, environments and adaptation. 4 cr.

#740. Culture Change

Various types of society; development of theory. Descriptive studies of institutional as well as theoretical materials selected from the writings of Comte, Marx, Spencer, Durkheim, Spengler, Sorokin, Redfield, and others. 4 cr.

#741. Social Change and Societal Development

Comparative, interdisciplinary approach. Interrelationships among economic, political, and social factors in determining the structure, dynamics, character, and level of development of societies. SOC 740 recommended. 4 cr.

750. Middle East: Issues of Ethnicity, Work, and Identity

Community studies approach to such topics as ethnicity and identity in the interrelationship of language, religion, and corporate membership in a community; ethnic division of labor; work, pluralism, and family networks; mobility and immobility; estates vs. classes. (Also offered as ANTH 750.) 4 cr.

760. Aging and Late Life Family

Using a life course perspective, this course focuses on family relationships and social role transitions in later life. Addresses the impact of the empty-nest stage, grandparenting, retirement, care giving, and widowhood on the well-being and relationships of older people. Prereq: junior or senior. 4 cr.

#761. Population Studies

Major population trends including changes in birth and death rates, population characteristics, mobility, migration, world population growth, population problems, and policies of countries at different stages of economic development. Interrelationship of population and society. 4 cr.

#770. Culture, Personality, and Society

A cross-cultural view of the development of personality as emergent from genetic, situational, and sociocultural determinants; analysis of the dynamic interplay of sociocultural and psychological behavior systems. Prereq: prior courses in sociology, anthropology, or psychology. (Also offered as ANTH 770.) 4 cr.

780. Social Conflict

Nature, setting, and initiation of social conflict, its dynamics, and factors affecting its course and outcome. 4 cr.

785. The Study of Work

Understanding society through the structure of work. Case studies, in an ethnographic manner, of high-status and low-status occupations to provide understanding of social processes and interrelationships in the social structure. 4 cr.

790. Applied Sociology

(1) Current level of use of sociological knowledge; (2) the advocate, consultant, and researcher roles in applied settings; (3) techniques of applied research; (4) implications of applied sociology, including ethical problems. Each student will focus on a social problem and write a paper covering the above issues. Applied projects where possible. Prereq: SOC 601. 4 cr.

794. Evaluation of Social Programs

Evaluation research defined: purposes of evaluation; design of evaluation studies; setting of programs; utilization of evaluation results. Examination of case studies of evaluations of social programs. Students are responsible for designing an evaluation study in their chosen substantive area. Prereq: SOC 601. 4 cr.

795, 796. Reading and Research in Sociology

A) Communications; B) Criminology; C) Culture Change; D) Culture and Personality; E) Deviant Behavior; F) Family; G) Population; H) Rural-Urban; I) Social Control; J) Social Differentiation; K) Social Movements; L) Social Psychology; M) Social Research; N) Social Theory; O) Applied Sociology; P) Medical Sociology. Prereq: 12 credits of sociology or permission. 2–8 cr.

797. Special Topics in Sociology

Occasional or experimental offerings. May be repeated for different topics. 4 cr.

Soil Science (SOIL)

Department of Natural Resources

(For program description, see page 54; for faculty listing, see page 170; see also course listings under *Environmental Conservation, Forestry, Natural Resources, Water Resources Management, and Wildlife Management.*)

501. Introduction to Soil Sciences

An overview of physical, chemical, and biological properties of soil. Sub-disciplines of soil chemistry, soil physics, soil microbiology, soil genesis, and classification. Prereq: CHEM 403 or equivalent. Special fee. Lab. 4 cr.

601. Field Description of Soils

Description of soils in the field. Application of soils properties to forestry, plant science, and community planning. Strong orientation to fieldwork. Prereq: SOIL 501 or permission. Special fee. Lab. 3 cr.

607. Soil and Land Evaluation

Field and lecture course emphasizing application of USDA Soil Taxonomy and Soil/Land-use interpretations to soils, landscapes, parent materials. Students gain on-site practice in preparing detailed soil descriptions, classifications, and interpretations, and participate in collegiate soil judging meets. Prereq: SOIL 501. Special fee. Lab. 2 cr.

609. Soils and Community Planning

Using a town plan and soils map, students develop reports for multiple urban and rural land use—housing, sewage, recreation, transportation, runoff, etc. USDA soil classification system; Soil Conservation Service rating criteria. New Hampshire soils. Guest lecturers. 2 cr.

611. Soils and Environmental Quality

An in-depth look at soil as an environmental component. The role of soil in global nutrient cycling. Soil control of pollutant levels in air and water. Effect of pollutants on soil processes and the effect of soil processes on pollutants. Prereq: SOIL 501 or equivalent. 4 cr.

#620. Topics in Soil Science

One-week short course taught in summer only. Consult Division of Continuing Education or Department of Natural Resources for current offering. 1 cr.

#701. National Cooperative Soil Survey Standards

An in-depth look into the National Cooperative Soil Survey under the leadership of the USDA Soil Conservation Service. Emphasizes the objectives and philosophies of the NCSS program, organization and infrastructure, operations management, and the standards used to carry out this national program. Includes methods of conducting quality control/quality assurance activities and covers the procedure used to establish standards for soil mapping, characterization, and interpretation, as well as standards for styles of information delivery to users of NCSS products. May be repeated up to 3 cr. 1 cr. (Summers only.)

702. Chemistry of Soils

Chemical composition of soil, colloidal phenomena and the exchange and fixation of elements, cation exchange capacity and source of negative charge, inorganic reactions in soil and their effect on soil properties. Prereq: one year college chem. or permission. 3 cr.

703. Chemical Analysis of Soil

Methods of soil chemical analysis. Coreq: SOIL 702. Prereq: SOIL majors or permission. Not available for graduate credit. Lab. 1 cr.

704. Soil Genesis and Classification

Processes involved in formation of soils, soil properties as reflectors of genetic processes. Classification systems of soils related to soil genesis and soil landscapes. Lab sessions illustrate concepts by examining soils in the field. Prereq: SOIL 501 or equivalent. Special fee. Lab. 4 cr.

705. Forest Soils

Basic ecological and management perspectives; soil-site quality evaluation; forest land classification and interpretation; forest soil management techniques. Prereq: SOIL 501 or 502 or permission. Special fee. Lab. 4 cr. (Not offered every year.)

#708. Soil Physics

Physical properties of soils and how they relate to the movement of water, solutes, and contaminants in saturated and unsaturated soils. Methods of measuring and characterizing soil physical properties. Applications to environmental problems, including land-based disposal systems, hazardous waste site investigation and remediation, and soil-water management. Prereq: basic courses in mathematics, chemistry, and physics or permission. 3 cr. (Not offered every year.)

795. Independent Work in Soil Science

A) Soil-Plant Relationships; B) Physics of Soils; C) Chemistry of Soils; D) Soil Classification; E) Forest Soils; F) Soil Microbiology. Prereq: permission. 1-4 cr.

Spanish (SPAN)

Department of Spanish and Classics
(For program description, see page 40; see also course listings under Portuguese.)

Chairperson: Barbara H. Wing
Professors: Richard J. Callan, F. William Forbes
Associate Professors: John M. Chaston, Bernadette Komonchak, William Mejías-López, Phoebe A. Porter, Barbara H. Wing
Assistant Professors: Janet Gold, Alicia Quiroz Woodruff
Instructors: Nancy C. Modern, Susan M. Riddell, Elisa F. Stoykovich, Linda J. Thomsen-Breig, Monica V. Torregrosa
Lecturer: Mary Kathleen Belford

New students will be assigned to the proper course on the basis of their scores on the College Board Achievement Test or number of years of previous study. Transfer credit will not be given for elementary-level college courses in foreign languages if a student has had two or more years of the foreign language in secondary school. No student educated in a foreign country or for whom Spanish is the native tongue will be permitted to register for any Spanish course numbered 649 or below, except 601. All courses conducted in Spanish except where noted. In the 401-632 range, a grade of C- or better is required to advance to the next course in the language series.

401-402. Elementary Spanish

For students without previous knowledge of Spanish. Aural-oral practice; fundamental speech patterns; reading and writing to achieve a firm basis for an active command of Spanish. Labs. No credit toward a major. (No credit for students who have had two or more years of Spanish in secondary school; however, any such students whose studies of Spanish have been interrupted for a significant period of time should consult the chair about possibly receiving credit.) Special fee. 4 cr.

#407. Accelerated Spanish

SPAN 401-402 in one semester. Study of fundamental speech patterns, reading, and writing to achieve a firm basis for active command of Spanish. Labs. Previous knowledge of Spanish is not required. (No credit for students who have had two or more years of Spanish in secondary school; students whose studies of Spanish have been interrupted for a significant period of time should consult the chair about possibly receiving credit.) Special fee. 8 cr.

501. Review of Spanish

Emphasis on aural-oral practice; review of basic structure; reading and writing to develop active command of the language. Labs. Designed for those whose study of Spanish has been interrupted for a significant amount of time and for those who have had only two years of high school Spanish. Special fee. 4 cr.

503-504. Intermediate Spanish

Emphasis on the development of reading, writing, speaking, and listening skills. Review of grammar. Discussion and short papers in Spanish based on cultural and literary readings. Films. No credit toward the major. Special fee. Lab. 4 cr.

525. Spanish Civilization and Culture

Historical, geographical, and artistic expressions of Spanish civilization that have formed the character of contemporary Spanish culture. Readings, slides, films, tapes, and records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. Special fee. 4 cr.

526. Latin American Civilization and Culture

Significant historical, geographical, and artistic expressions of pre-Colombian and Latin American civilization. Readings, slides, films, tapes, records. Conducted in English. Majors must take either 525 or 526, but both may not be counted for major credit. Special fee. 4 cr.

601. Spanish Phonetics

Practical application of fundamental phonetic theory to spoken Spanish. Required of Spanish majors. Special fee. 4 cr.

621. Spanish and Portuguese Literature in Translation

Major works by principal authors, such as: Camões, Cervantes, Lope de Vega, Calderón, Eça de Queiroz, Unamuno, Ortega y Gasset, García Lorca, Casona, etc. Readings, discussions, papers in English. Does not count for Spanish major. Special fee. 4 cr.

622. Latin American and Brazilian Literature in Translation

Major works by principal authors, such as Inca Garcilaso, Díaz del Castillo, Machado de Assis, Borges, Asturias, Neruda, E. Veríssimo, Fuentes, Leñero, Guimarães Rosa, and Jorge Amado. Readings, discussion, papers in English. Does not count toward Spanish major. Special fee. 4 cr.

631, 632. Advanced Spanish Conversation and Composition

To maintain and perfect written and spoken Spanish through intensive classroom work, individual conferences, and laboratory sessions. Discussion and frequent papers in Spanish based on cultural and literary readings, audiotapes, and videos. Prereq: SPAN 504 or equivalent. Special fee. 4 cr.

One course from SPAN 650, 651, 652, 653, 654 (or an equivalent course) is prerequisite to all higher literature courses in Spanish.

650. Introduction to Critical Analysis

Methods and practice of literary criticism. Critical analysis of representative essays, fiction, poetry, and drama from Spain and Latin America. Frequent short papers. Required of Spanish majors; should be taken concurrently with or immediately following Spanish 632. Special fee. 4 cr.

651, 652. Introduction to Spanish Literature and Thought

Reading and analysis of major works within the historical, cultural, and social background of the Iberian peninsula. Papers, discussion, and examinations in Spanish. Prereq: SPAN 631, 632. May be taken concurrently with SPAN 632 with permission of adviser. Special fee. 4 cr.

653, 654. Introduction to Latin American Literature and Thought

Reading and analysis of major works within the historical, cultural, and social background of the New World. Papers, discussion, and examinations

in Spanish. Prereq: SPAN 631, 632. May be taken concurrently with SPAN 632 with permission of adviser. Special fee. 4 cr.

685, 686. Study Abroad

Studies at a Spanish or Latin American university. Prereq: primarily for juniors and seniors who have passed SPAN 503-504 or equivalent with grade of B (3.00) or better. Noncredit orientation meetings required during semester prior to departure. Interested students should consult with the program directors. Special fee. Variable to 16 cr. Cr/F. (An IA grade will be assigned until official transcript is received from the foreign institution.)

#691, 692. Readings in Current Periodicals

Advanced practice in reading, speaking, and writing, based on current events in contemporary periodicals of the Spanish-speaking world. Pre- or coreq: SPAN 632 or equivalent. Special fee. May be repeated. 2 cr.

#733. History of the Spanish Language

Evolution of the Spanish language from the period of origins to the present. Special fee. 4 cr.

752. Drama and Poetry of the Siglo de Oro

Social and historical background of the baroque period. Representative plays of Lope de Vega, Tirso de Molina, Calderón; lyric poetry of Lope, Góngora, and Quevedo; prose developments. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

754. The Age of Cervantes

Study of the major works of Cervantes and his contemporaries in the context of the historical, literary, and social currents of the times. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

755. Literature of the 19th Century

Larra, Espronceda, Bécquer, Pérez Galdós, and Blasco Ibáñez. Romanticism, realism, and naturalism. Prereq: SPAN 652 or 654 or equivalent. Special fee. 4 cr. (Not offered every year.)

756. Modern Spanish Poetry

Study of selected Spanish poets of the 18th, 19th, and 20th centuries in the context of historical, literary, and social currents of the time. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

757. Spanish Drama of the 20th Century

Study of selected Spanish dramatic works of the 20th century in the context of the historical, literary, and social currents of the times. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

758. Spanish Prose of the 20th Century

Novels, short stories, and essays. Unamuno, Baroja, Menéndez Pidal, Ortega y Gasset, Julián Marías, Aranguren, Pérez de Ayala, Gironella, and Cela; survey of contemporary prose. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

#760. Unamuno and Ortega y Gasset

Philosophical ideology and literary content of major contributions of Miguel de Unamuno and Jose Ortega y Gasset. Prereq: SPAN 652, 654, or equivalent, or permission. Special fee. 4 cr. (Not offered every year.)

771. Latin American Drama

From pre-Hispanic origins to the present, modern playwrights of Mexico and Puerto Rico. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

#772. Latin American Novel

Development from romanticism to the present; contemporary trends and techniques. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

773. Latin American Short Story

Representative authors; stress on 20th century. Principles of interpretation. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

774. Major Latin American Authors

Works and lives of selected writers; pertinent historical circumstances. Prereq: SPAN 652, 654, or equivalent. Special fee. 4 cr. (Not offered every year.)

790. Grammatical Structure of Spanish

Overview of the grammatical structure of Spanish through in-depth analysis of both morphology and syntax, with emphasis on the meaningful contrasts within the Spanish language and the grammatical contrasts between Spanish and English. Special fee. 4 cr.

791. Methods of Foreign Language Teaching

Objectives, methods, and techniques in teaching foreign languages from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Special fee. 4 cr.

795. Independent Study

Guided individual study with training in bibliography and organization of materials. Topics selected by instructor and student in conference. Barring duplication of content, may be repeated for credit. Prereq: permission of major supervisor. 1-4 cr.

797. Special Studies in Spanish Language and Literature

A) History of the Spanish Language; B) Medieval Spanish Literature; C) Spanish Literature of the Renaissance; D) Spanish Literature of the Golden Age; E) Spanish Literature of the 18th and 19th Centuries; F) Spanish Literature of the 20th Century; G) Contemporary Spanish Literature; I) Latin American Literature of the 16th and 17th Centuries; J) Latin American Literature of the 18th and 19th Centuries; K) Latin American Literature of the 20th Century; M) Contemporary Latin American Literature; N) Structural and Applied Linguistics; O) Spanish Literary Criticism; P) Latin American Essay; Q) Latin America; S) Spanish Theatre; T) Spanish Poetry; U) Latin American Poetry; V) Galdós; W) Archetype Latin American Literature; X) Special Teaching Problems; Y) Spanish Civilization and Culture; Z) Latin American Civilization and Culture. Specialized courses covering topics not normally presented in regular course offerings. Prereq: permission of major supervisor. Special fee. 4 cr.

798. Special Studies in Spanish Language and Literature

A) Historic Minorities of the United States; B) Portuguese, C) Hispanic Film; D) Introduction

to Hispanic Linguistics; E) Hispanic Dialectology; F) Other. Specialized courses covering topics not normally presented in regular course offerings. Barring duplication of content, topic F may be repeated for credit. Prereq: permission of major supervisor. Special fee. 4 cr.

799. Senior Honors

For senior Spanish majors with a minimum cumulative grade-point average of 3.20 and the same or better average in the major who want to undertake a special honors project in an area of Spanish language or literature of their choice. Prereq: permission. 4 cr.

Technology (TECH)

Roy B. Torbert, Dean

The following courses are not necessarily offered every year.

564. Fundamentals of CAD

Fundamentals of CAD and computer-based graphics including using CAD as a design tool to create engineering drawings. AutoCAD and Softdesk Civil software used to cover the following topics: drawing file storage and retrieval, display functions, basic drawing and editing commands, symbol libraries, plotting drawings on paper, and using parametric design features in the CAD system. Basic DOS familiarity is assumed. Prereq: civil engineering majors only. Special fee. Lab. 3 cr.

583. Technology: Cultural Aspects

Study of the requirements, limitations, benefits, and hazards that are constraints on the development of technological systems. Prereq: prior courses in physics or chemistry at high school level; sophomore or higher standing at UNH; not open to CHE, CIE, EL, or ME majors; permission. 4 cr.

685. Budapest Program

Enables students to pursue a semester of study at the Technical University of Budapest. For information, contact the Dean's Office, College of Engineering and Physical Sciences. 0-16 cr. Cr/F.

696. Independent Study

Open to qualified students pursuing studies that do not fall within existing departmental areas. 1-4 cr.

797. Undergraduate Ocean Research Program

Students work as members of interdisciplinary project teams on contemporary ocean-related problems under the guidance of a faculty adviser. Student team defines problem, prepares a budget, conducts literature surveys, engages in dialogue with experts in the ocean community, deals with vendors, designs and builds a working engineering model, gathers and analyzes scientific data or conducts a comprehensive study, makes interim reports, and defends the results before a jury of experts. Prereq: normally senior standing and permission of the program director. A yearlong effort. 2 credits each semester, 4 credits total, an IA grade given at the end of the first semester. 4 cr.

Theatre and Dance (THDA)

Department of Theatre and Dance
(For program description, see page 41.)

Chairperson: Carol Lucha-Burns

Professor: Carol Lucha-Burns

Associate Professors: Gilbert B. Davenport, H. Gay Nardone, David M. Richman, Charles L. Robertson

Assistant Professors: Joan W. Churchill, David L. Ramsey

Faculty-in-Residence, Assistant Professor: Peggy Rae Johnson

Instructor: Ruth J. Grossen

Faculty-in-Residence, Instructor: Carol J. Fisher

Lecturers: Chip Lamb, Sarah Jane Marschner, Daniel J. Raymond, Nancy E. Saklad

Dance

461. Modern Dance I

Introductory course that includes techniques and improvisation as well as lectures in history and theory. Students who have had several years of modern dance are expected to register for THDA 561. Instructor will determine appropriate level. Not open to seniors. 4 cr. (Not offered every semester.)

462. Ballet I

Introductory course: technique; historical development of ballet. Students who have had several years of ballet are expected to register for THDA 562 or 662. Instructor will determine appropriate level. Not open to seniors. 4 cr.

463. Theatre Dance I

Introductory course: techniques; improvisation; lectures on jazz, ethnic, and other theatrical dance forms. Students with prior experience are expected to register for THDA 563 or 663. Instructor will determine appropriate level. Not open to seniors. 4 cr.

470. Theatre Movement

Stage movement as it applies to performers, dancers, actors, and singers. May be repeated for credit. 2 cr.

487. The Dance

Historical and philosophical consideration of dance trends. Not a performance course. 4 cr.

561. Modern Dance II

Intermediate-level course that includes techniques and improvisation. Not offered every semester. May be repeated for credit. 2 cr.

562. Ballet II

Extension of Ballet I syllabus; emphasis is on technique, with additional step vocabulary. Prereq: THDA 462 or permission. May be repeated once for credit. 2 cr.

563. Theatre Dance II

Technique; African-Cuban, modern, and East Indian dance; body movement through exercise and combinations involving stretch, strength, and flexibility. Prereq: THDA 463 or permission. May be repeated for credit. 2 cr.

576. Pointe

Beginning/advanced beginning course in art of dancing in toe shoes. Focus on technique involved in gaining strength and on methodology for understanding the art of the ballerina. 2 cr.

597. Dance Theatre Performance

Designed for students participating in UNH Dance Theatre Company. Skill development through rehearsal and actual performance experience. 2 cr.

633. Dance Composition

Practical, developmental approach to process of creating dances. Prereq: THDA 561; 562; 563; or permission. 4 cr.

640. Labanotation

Study and practice of recording human movement by the method of labanotation. Not offered every semester. 2–4 cr.

661. Modern Dance III

Advanced-level course in technique and composition. Prereq: THDA 561 or permission. May be repeated for credit. Not offered every semester. 2 cr.

662. Ballet III

Advanced-level course in technique; pointe work included. Prereq: THDA 562 or permission. May be repeated for credit. 2 cr.

663. Theatre Dance III

Extension of Theatre Dance I and II; brings students to a more advanced technical level. Prereq: Theatre Dance II. May be repeated for credit. 2 cr.

684. Special Topics in Dance

Exploration of topics agreed upon by students and instructor. Topics vary. May be repeated. 2–4 cr.

732. Choreography

Theoretical and practical consideration of the creative and aesthetic aspects of ballet, modern, and theatre dance. 4 cr.

Theatre

435. Introduction to Theatre

Introduces all aspects of theatrical production: play writing, acting, directing, design, technical theatre and construction, and theatre management. Cultural and social context of theatre in our time and through the ages. Introduces major classical and modern types of theatre. Selected plays are read and discussed, and attendance at theatrical production is required. Special fee. 4 cr.

436. History of Theatre I

History and theory in its social framework from the beginnings to 1700. 4 cr.

438. History of Theatre II

1700 to present. 4 cr.

441. Exploring Theatrical Process

Develops the idea that drama is the revelation of character through action. Students explore the myriad connections between theatre and the life it imitates, concentrating on gesture, movement, speech, and other forms of behavior as manifestations of character on and off the stage. Diverse approaches are used to examine in depth the verbal and nonverbal revelations of human personality. 4 cr. (Not offered every semester.)

450. History of Musical Theatre in America

Study of the development of the musical and its relationship to American social history. Special fee. 4 cr.

457. The Actor's Voice

Fundamentals of voice production, specifically respiration, phonation, resonance, and articulation. Exercises build awareness of, the need for, and methods of freeing the natural voice and increasing control, variety, and clarity. Includes selected readings for analysis. Prereq: THDA majors only. 4 cr.

458. Costume Construction

Study and development of costuming techniques, including hand and machine sewing, pattern drafting, alterations, and fabric manipulation. Emphasis on demonstrated understanding. 4 cr.

459. Stagecraft

Elements of play production: basic building components, tools and materials for producing the scenery; equipment and shop layouts supporting all of the areas of the set, lighting, and costume designs; and consideration of various stage spaces and theatrical venues. Practical application on university theatre productions. Special fee. 4 cr.

475. Stage Makeup

Fundamentals of juvenile, old age, character, and special stage makeup techniques. 2 cr.

520. Creative Drama

Drama techniques leading to the design and execution of drama sessions with children. Includes role-playing, improvisation, and story dramatization. Lab. 4 cr.

541. Arts and Theatre Administration

Administration practices applied to arts, music, and theatre management. Fund raising, public relations, business and box office management, audience development, and long-range planning. 4 cr.

546. Costume Design for the Theatre

How to design costumes for the theatre, not figure drawing, although drawing techniques are taught. Script analysis and research and presentational techniques for costume design explored and implemented. 4 cr.

547. Stage Properties

Research and manufacture of period and modern stage, trim, and hand properties. Prereq: THDA 459. 4 cr.

548. Stage Lighting Design and Execution

Script analysis, the light plot, and instrument schedule, including cue-writing, color, instrumentation, and the mechanics of developing a functional design. 4 cr.

550. The Actor's Voice through Text

Continuing development of the actor's techniques for creating increased vocal expressiveness. Addresses the methods of varying vocal style and presentation through in-depth analysis and interpretation of the text. Prereq: THDA 457; majors only. 4 cr.

551. Acting I

Development of fundamental vocal and physical stage techniques for actors and directors through

exercises, improvisation, and theatre games. 4 cr.

552. Acting II

Application of prior training in acting to building characterizations in scenes and short plays. Prereq: THDA 551. 4 cr.

555. Exploring Musical Theatre

Introduction to musical theatre as an American art form. Discussion and analyses of performing, acting, and staging techniques. Special fee. 4 cr.

583. Introduction to Puppetry

Introduces the art of puppetry for general appreciation, entertainment, application in the classroom, and as a therapeutic tool. Emphasis on constructing a variety of puppets (e.g., hand, rod, shadow, and scarf) and adapting literary sources for scripts and performance. (Not open to seniors.) Special fee. 4 cr.

592A. Special Topics in Theatre

Special topics, projects in theatre. Content varies according to needs and interests of students and faculty. Course descriptions are available in department office. May be repeated for credit. 1-4 cr.

592B. Special Topics in Theatre/Stage Management

Special topics in the study of stage management as it applies to theatre production. 2 cr.

592C. Special Topics in Theatre/The London Experience

Students explore the culture and history of London while enhancing their study of live theatre prior to actual study in the country. 2 cr.

621. Education through Dramatization

Application to educational curricula of drama techniques including sensory awareness, movement, pantomime, storytelling, story dramatization. Includes lesson plan writing. Appropriate for both elementary and secondary education. 4 cr.

622. Storytelling, Story Theatre, and Involvement Dramatics

Students actively develop storytelling techniques based on individual needs. Includes an examination of story theatre and involvement styles and the development of the ensemble. 4 cr.

624. Theatre for Young Audiences

This broad spectrum theatre course touches on every aspect of dramatic production from historical overview through scripted play to final production. Emphasis is on dramatic theory as it applies to play writing, acting, directing, and production techniques as applied to a production for young audiences. Students are expected to actively participate in a culminating production experience to complete the learning experience. 4 cr.

627. Methods of Teaching Theatre

Laboratory course for students interested in teaching theatre, directing extra-curricular theatre programs and examining the approaches, materials, and techniques of theatre structure in combination with a teaching practicum. Prereq: permission. 2-4 cr.

632. The Interpretation of Shakespeare in the Theatre

Increases understanding of Shakespeare's language and action, and improves ability to speak his verse

and prose with clarity and verve. Students achieve insights into Shakespeare's plays through the medium of performance. Weekly oral and written assignments. Prereq: two of the following three: THDA 457, 549, 551. 4 cr.

652. Scene Design

Scene design from script to finished design. Both aesthetic and practical viewpoints considered. Emphasis on presentational techniques: study of perspective and finished rendering. Prereq: THDA 459. 4 cr.

653. Performance Project

Application of prior coursework to a formal theatre production or to an individual performance or teaching project. Substantial written work is factored into the final grade. May be repeated. 2 cr.

654. Scenic Arts Project

Application of prior coursework to a formal theatre production or to an individual performance or teaching project. Substantial written work is factored into the final grade. May be repeated. 2 cr.

655. Musical Theatre Styles

Gives an increased understanding of performing and directing techniques as they apply to musical theatre. Students gain knowledge of various writers and historical periods, and they apply their knowledge to a variety of performance styles. Focus is on the discussion and application of auditioning, acting, and staging techniques. Special fee. Lab. 4 cr.

657. Play Reading

A high-volume reading course which introduces a breadth of modern dramatic literature. American and British alternates annually with European and Russian, all from Brechmer, Ibsen, Chekov to the present. Students read 4-5 plays per week and view 1-2 plays on video or film. Lab. Special fee. 4 cr.

689. Theatre/Dance Practicum

The practicum ensures a breadth of experience in the major. Students should register for a different topic each semester during the sophomore and junior years. A) Technical, B) Costumes, C) Management, D) Performance. May be repeated for up to 6 credits. 1 cr. Cr/F.

691. Field Experience in Theatre

Fieldwork with a regional or touring theatre. This advanced level internship allows the student to experience a professional theatre setting prior to graduation. Normally supervised by a qualified theatre professional in the organization with frequent consultation with a faculty sponsor. A written report is required. May be part- or full-time with credits assigned accordingly. Prereq: second-semester junior or senior standing; permission. Student must also register for a graded 4-credit independent study. Variable credit up to 8 cr. Cr/F.

697. Junior Seminar

Required of all THDA majors. Explores the practical question: What will I do after I graduate? Students explore a variety of professions in the performing arts. The course examines arts administration, contracts, marketing, as well as graduate and professional schools. Students begin preparation for their thesis papers. Must be taken in the fall semester of the junior year. 2 cr.

698. Senior Thesis

Students complete a research thesis. Prereq: THDA 697. 2 cr.

729. Community-Oriented Drama Programs

Advanced practicum in designing, developing, and producing drama programs for the school and community. Includes audience analysis and marketing skills as well as adapting spaces, soliciting volunteers, and working with a limited budget. 4 cr.

741. Directing

Continuation of performance sequence. The director and performer develop interaction of the character. Ensemble playing. Full directing responsibility for a one-act play. Prereq: THDA 552 or 755, or equivalent; and either 450, 436, or 438. 4 cr.

750. Writing for Performance

A) Play writing. Focus on original work with possible performances in other classes. Selected one-act plays will be eligible for entry into the Undergraduate Prize Productions performed in the spring semester. 4 cr. (Not offered every year.)

755. Advanced Musical Theatre

Emphasis on characterizations and directing techniques. Use of scripts and scores of representative composers, lyricists, and librettists. Prereq: THDA 655. Special fee. Lab. 4 cr.

758. Acting III

Continuation of THDA 551 and 552. Styles of drama for the actor: Greek, Shakespearean, 18th-century comedy, and 19th-century realism. Prereq: THDA 551; 552; 657;/or equivalent. 4 cr.

768. Chamber Theatre

Choric speaking, reader's theatre, chamber theatre, and other forms of group interpretation in theory and practice. Prereq: THDA 457. 4 cr.

781. Theatre Workshop for Teachers

A) Puppetry; B) Storytelling; C) Play Production for the Elementary and Middle School Teacher; D) Makeup; E) Performing the Musical with Elementary and Middle School Students; F) Play Production for the Middle School and High School Teacher; G) Basic Choreography for the School Musical; H) Script Adaptation; I) The Use of Drama to Enhance Reading and Writing; J) Set and Lighting: Design and Construction Techniques. Each of these intensive summer workshops for elementary, middle, and high school teachers focuses on developing both play production skills and methods of implementing theatre techniques in the classroom. Special fee. May be repeated 2-4 cr. (Offered summer semester.)

782. Advanced Theatre Workshop for Teachers

A) Puppetry; B) Storytelling; C) Play Production for the Elementary and Middle School Teacher; D) Makeup; E) Performing the Musical with Elementary and Middle School Students; F) Play Production for the Middle School and High School Teacher; G) Basic Choreography for the School Musical; H) Script Adaptation; I) The Use of Drama to Enhance Reading and Writing; J) Set and Lighting, Design and Construction Techniques. Each of these advanced, intensive summer workshops for teachers focuses on expanding both play production skills and methods of implementing theatre techniques in the classroom. May be repeated. 2-4 cr. (Offered summer semester.)

795, 796. Independent Study

Advanced individual study. Specific independent study opportunities are sometimes posted in the Theatre and Dance Department Office. Project, which includes a substantial piece of writing, must be developed with supervising instructor. May be repeated. 1–8 cr.

Tourism (TOUR)

Department of Resource Economics and Development

(For program description, see page 55.)

Chairperson: Bruce E. Lindsay

Coordinator: Robert A. Robertson

Professors: Edmund F. Jansen, Jr., Bruce E. Lindsay

Associate Professors: John M. Halstead,

Alberto B. Manalo, Gus C. Zaso

Assistant Professor: Robert A. Robertson

Extension Educator: Michael R. Sciabarrasi

400. Introduction to Tourism

Provides an informational foundation in tourism and gives a more extensive knowledge of the tourism industry. Examines historical perspectives, tourism organization, and supply and demand of the tourism industry. Discusses the dynamic and pluralistic nature of the tourism industry. Prereq: seniors by permission only. 4 cr.

439. Analyzing Community Systems

Examines key components, models, and data sources to provide an understanding of the forces that generate change within the community. The use of analytical tools to provide insight to the functioning of a community's economy and social system applied to towns and cities. Prereq: TOUR 400; RECO 411. 4 cr.

440. Tourism Attractions and Activities

Basic principles of planning, developing, and managing natural and manmade attractions. National, state, and local park systems, as well as private sector resorts, theme parks, and other tourist attractions are examined in view of their personal, economic, and social and environmental impacts. Prereq: Tour 400. 4 cr.

460. Professional Values and Ethics

Managers in public and private tourist organizations need to concern themselves with their obligations to employees, consumers, owners, and the society at large. This course involves the study of organizational values and ethics related to these complex human interactions in tourism professions, and the values and practices that should shape and improve them. Prereq: TOUR 400. 4 cr.

500. Trend Analysis and Policy Development

The process of trend analysis as it relates to understanding the components of tourism policy development, implementation, analysis, and evaluation in the public and private sectors. Prereq: TOUR 400. 4 cr.

550. Tourist Characteristics and Behavior

Study of the socioeconomic, demographic, and psychographic characteristics of various types of tourist populations; specific emphasis on host-guest

relationships and human development. Prereq: TOUR 400. 4 cr.

560. Special Topics in Tourism

A) Heritage Tourism Planning; B) Rural Tourism Development. Prereq: TOUR 400. May be repeated. 4 cr. Cr/F.

615. Tourism Planning and Development

The planning and development of tourist resources and programs within a geographic region. Planning models are reviewed and analyzed. The relationship among tourists, tourist developments, and the planning of tourist attractions and services is examined. A strategic planning process is applied to the development of a regional tourism plan in New Hampshire. Prereq: TOUR 400. 4 cr.

633. Economics of Travel and Tourism

Provides an understanding of both the microeconomic and macroeconomic aspects of travel and tourism. Using economics as a theory base, the course attempts to identify what is significant or special about travel and tourism compared with other activities. Special attention is given to issues such as resource immobility, capacity constraints, seasonality, and consumers' inability to experience the product before purchase. Prereq: RECO 411. (Also offered as RECO 633.) 4 cr.

640. Travel and Tourism Transportation Systems

Overview of the various transportation modes. Planning, financial, operational, marketing, and evaluation aspects of the different systems of transportation modes. Prereq: TOUR 400. 4 cr.

660. Designing and Implementing Conferences and Meetings

Basic principles and theory of the planning and management of conferences and meetings. Use of steering committees, selection of resource people, site selection, exhibits, and relations to supplier personnel. Special attention to designing the core of the conference and related activities. 4 cr.

700. Marketing Places

Concepts, tools, and techniques of services marketing with specific application to tourism attractions and facilities. Provides an understanding of market research, consumer attitudes and behavior, market segmentation, product pricing, and quality control. Differentiates between advertising, promotion, and public relations. Prereq: MKTG 550; TOUR 400. 4 cr.

705. Ecotourism: Managing for the Environment

Ecotourism embraces both the environment and economics. Provides a comprehensive framework for planning and managing ecotourism in order to both maximize potential benefits and to minimize potential costs for people and the environment. Seminar format. Case studies used to assess the role of ecotourism in the sustainable development of natural resources. Prereq: TOUR 400; juniors or seniors only. 4 cr.

720. Domestic and International Destinations

A study of the geography of travel with emphasis on absolute and relative location destinations, and the cultural and physical features that distinguish them from other places. Prereq: TOUR 400. 4 cr.

767. Social Impact Assessment

Provides a cross-disciplinary perspective on the issues, problems, and methods of Social Impact Assessment (SIA). Provides analytic approach and theoretical framework for the assessment of diverse events, including changes in the natural environment, the local economy, or dominant technology. SIA is required of most U.S. and Canadian federal and state sponsored projects that come under the National Environmental Protection Act, as well as all projects funded by international donor agencies. (Juniors and seniors only.) 4 cr.

792. International Experience

Travel to a foreign country for study of a specific topic to be approved by student's major adviser. Prereq: permission. 1–4 cr.

794. Tourism Internship

Fieldwork brings students in a full-time, 15-week (600 hours) supervised situation where they have an opportunity to achieve a synthesis, transfer, and application of the academic experience in a setting similar to that associated with professional employment. Prereq: permission. 4 cr.

798. Independent Study in Tourism

Special assignments in readings, investigations, or field problems. Prereq: permission. 1–4 cr.

Water Resources Management (WARM)

Department of Natural Resources

(For program description, see page 56; for faculty listing, see page 170; see also course listings under *Environmental Conservation, Forestry, Natural Resources, Soil Science, and Wildlife Management.*)

500. Work Experience

Work in the field of water resources management; must be performed under professional supervision or approved by natural resources faculty. Students are responsible for arranging their own experience. The department assists students in locating acceptable internships. Prereq: WARM majors. May be repeated. 0 cr. Cr/F.

504. Freshwater Resources

Major determinants of freshwater resources including hydrologic cycle and water balance, precipitation, stream-flow measurement, pollution, water supply and sewage treatment, water resource management and regulation. Special fee. Lab/field trips. 4 cr.

603. Watershed Water Quality Management

Principles of land use as they relate to water quality and quantity. Lectures focus on biogeochemical cycles and the watershed approach to land and water resource management. Labs and field trips focus on methods of water sampling and analysis. One year of chemistry is recommended. Prereq: WARM 504 or permission. Special fee. Lab/field trips. 4 cr.

609, 610. Independent Study

Projects arranged according to student needs. Prereq: permission. 1–4 cr.

700. Issues in Water Resource Management

Detailed consideration of current issues in water resource management in a seminar format. Emphasis on critical analysis of primary literature in environmental science relevant to water resources management. Special fee. Prereq: WARM 603. 2 cr.

711. Wetland Resource Management

Analysis of the natural resources of coastal and inland wetlands and environmental problems caused by human use and misuse of these ecosystems. Special fee. Prereq: BIOL 541, or WARM 603, or permission. 3 cr.

713. Field Wetland Ecology

Field investigation of coastal and inland wetland types. First half of course consists of field trips to visit and sample regional wetlands. Second half of course consists of methods used to analyze field samples from wetlands. Enrollment is limited. Prereq: present or past enrollment in WARM 711. Special fee. Lab/field trips. 3 cr.

716. Wetland Delineation

Examination of the soils, vegetation, and hydraulic functions of coastal and central New England wetlands. Students are responsible for the collection and identification of aquatic plant species, the description of wetland soils, and the delineation of wetland boundaries. Two course options meet over five weeks (Friday and Saturday or Wednesday and Thursday) during July and August; 4 hrs. of lecture, 4 hrs. of lab, and 8 hrs. of fieldwork per week. For juniors, seniors, grad. students, and professionals. Prereq: permission. (Also offered as PBIO 716.) Special fee. 4 cr.

718. Wetland Evaluation

Lectures and field trips covering the theory and practice of wetland evaluation techniques with emphasis on the method for the comparative evaluation of nontidal wetlands in New Hampshire. Prereq: for juniors, seniors, grad. students, and working professionals. Field trips. Special fee. 2 cr.

719. Wetlands Mitigation and Restoration

Assessing the problems of wetlands loss. Asks: what steps can be taken, does restoration work, can habitat value be replaced, and what constitutes equivalent mitigation? First half of course involves field trips to visit and sample mitigation and restoration sites. Second half focuses on student projects using the scientific method to address wetlands issues. Special fee. Lab/field trips. 3 cr. (Not offered every year.)

721. Ecology of Polluted Waters

Impact of various water quality problems (e.g., excessive nutrient loading, organic matter loading, contamination by trace organic compounds) on the ecology of fresh waters, including microorganisms, aquatic invertebrates, algae, and fish. Design of impact assessment studies and data interpretation. Prereq: WARM 603 or BIOL 528 or BIOL 541, permission. Special fee. Lab/field trips. 4 cr.

795. Senior Thesis

Individual research guided by a program faculty member on a topic relevant to the student's area of specialization in the major. The research should employ skills and knowledge acquired by students during their tenure in the program and will result in a written thesis or scholarly publication. This

course is open to all students in the program and is required for honors students. Prereq: permission. 4 cr.

Wildlife Management (WILD)

Department of Natural Resources

(For program description, see page 56; for faculty listing, see page 170; see also course listings under *Environmental Conservation, Forestry, Natural Resources, Soil Science, and Water Resources Management.*)

433. Wildlife Ecology

Historical, biological, ecological, and sociological factors affecting the wildlife resource and its management. Concepts in populations and their dynamics, communities, habitat, and management techniques. Special fee. Lab. 4 cr.

566. Wildlife Law Enforcement I

Fundamentals of wildlife law enforcement, its history, values, and the philosophy of managing people in the outdoors. Lab. 3 cr.

610. Seminar

Seminars arranged according to student needs. A) Fire Ecology; B) Urban Wildlife; C) Waterfowl; D) Endangered Species; E) Introduced Exotics. Prereq: junior standing and permission. Special fee. Optional lab/field trips. 0-3 cr.

615. Wildlife Habitats Management

Wildlife habitats of New Hampshire; their structural components; useful techniques for creating and managing them. Prereq: dendrology, plant identification, or permission; wildlife majors or minors. Special fee. 4 cr.

636. Wildlife Biology and Field Techniques

Introduction to major behavioral, physical, and physiological characteristics of wild mammals and birds; application of field and laboratory techniques used to study these characteristics. Prereq: one course in general ecology and statistics. Special fee. 4 cr.

655. Vertebrate Biology

Introduction to systematics, behavior, physiology, and ecology of terrestrial vertebrates. Topics include reproductive systems, foraging strategies, and animal-habitat relationships. Some emphasis on New England species. Prereq: BIOL 411; 412; FOR 527 or equivalent. Special fee. Lab. 4 cr.

#667. Wildlife Law Enforcement II

Techniques of wildlife law enforcement: dogs, computers, and other specific enforcement tactics. Hunter safety and conduct. Prereq: WILD 566 or permission. Lab. 3 cr.

695. Investigations in Wildlife Management

A) Wildlife Energetics and Physiology; B) Habitat Management; C) Population Dynamics; D) Waterfowl Management; E) Fire Ecology; F) Wildlife Management; G) Captive Wildlife Care; H) Landscapes and Wildlife Habitat. Prereq: permission. 1-4 cr.

737. Wildlife Population Dynamics

Mechanisms that influence and characteristics of terrestrial wildlife populations. Introduction to

census methods and computer modeling. Special fee. Prereq: One course in general ecology and statistics; senior major or permission of instructor. 4 cr.

738. Wildlife Policy and Management

Wildlife administration and policy. Local, regional, and national wildlife management strategies. Contemporary management issues of fragmentation, commercialization of wildlife, and wildlife professionalism. 4 cr.

772. Wildlife Energetics

Energy requirements of wildlife species and the manner in which these needs are met in their natural environment. Thermodynamics in ecological systems, factors influencing metabolic rate, food habits, food-use efficiency, food availability. Prereq: permission. Special fee. 2 cr.

Women's Studies (WS)

(For program description, see page 42; for minor program, see page 25.)

Coordinator, Women's Studies Program:

Barbara A. White

Professor: Barbara A. White

Core Faculty: Kristine M. Baber, Family Studies; Susan D. Franzosa, Education; Diane P. Freedman, English; Cinthia Gannett, University of New Hampshire at Manchester; Melody G. Graulich, English; Jean E. Kennard, English; Barbara K. Larson, Anthropology; Nancy Lukens, German; Janet L. Polasky, History; Mary E. Rhiel, German; Juliette M. Rogers, French; Susan Schibanoff, English; Patrocínio P. Schweickart, English; Sarah Way Sherman, English; Raelene Shippee-Rice, Nursing; Barbara A. White, Women's Studies; Mara R. Witzling, Art and Art History; Jack A. Yeager, French.

401. Introduction to Women's Studies

Interdisciplinary survey of the major areas of women's studies; women's history, cross-cultural perspectives, women in literature, psychology of women, etc. Basic principles and concepts fundamental to more advanced women's studies research. Topics vary. Required for minor. 4 cr.

595. Special Topics in Women's Studies

In-depth study of topics not covered in regular course offerings. Prereq: permission; WS 401. 1-4 cr.

632. Feminist Thought

Theories of women's oppression and emancipation explored from various historical, political, cultural, and social perspectives. A major goal of the course is to increase awareness of historical and contemporary feminist approaches to understanding women's experiences, representations, and relative positions in societies. The course also considers the interrelation of theory and practice and the impact of past feminist theories on feminist movements. Prereq: WS 401. 4 cr.

795. Independent Study

For advanced students who have the preparation to carry out an individual project of supervised research on a specific women's studies topic. Prepa-

ration should include WS 401 or equivalent, and/or other women's studies courses. Prereq: permission of instructor and women's studies coordinator. Barring duplication of topic, may be repeated for a maximum of 8 cr. 1-4 cr.

796. Advanced Topics in Women's Studies

Advanced or specialized topics not normally covered in regular course offerings. May be repeated, but not in duplicate areas. Prereq: permission. 4 cr.

797. Internship

Students gain practical experience in a woman-focused agency or organization. Plan of study and requirements are developed together with a faculty adviser and the student's workplace supervisor. Prereq: WS majors or minors. May be repeated. 4 cr.

798. Colloquium in Women's Studies

Intensive study of specialized topic for advanced students. Topics vary with instructor. Prereq: permission. Required for WS majors and minors. Barring duplication of topic, may be repeated for credit. 1-4 cr.

799. Honors Thesis

With a faculty sponsor, students enrolled in the honors-in-major program develop an independent, investigative project in women's studies. Written thesis. Prereq: majors only; one other WS 700-level course prior to or concurrently with WS 799; permission. 4-8 cr.

Zoology (ZOOL)

(For program description, see page 57.)

Chairperson: Winsor H. Watson, III

Professors: John F. Burger, Donald S. Chandler, James F. Haney, Larry G. Harris, John J. Sasner, Edward K. Tillinghast, Charles W. Walker, Winsor H. Watson III

Adjunct Professors: Miyoshi Ikawa, Philip J. Sawyer

Associate Professors: W. Hunting Howell, Thomas D. Kocher, Michelle P. Scott, James T. Taylor

Research Associate Professor: Ann C. Bucklin

Assistant Professors: Edwin D. Grosholz, Marianne Klausner Litvaitis

Research Assistant Professor: Michael Lesser

Adjunct Assistant Professors: David T. Bernstein, Michele Dionne, Scott C. France, Raymond E. Grizzle, Richard Langan, Patricia E. Rosel, Barry J. Wicklow

Instructor: Mary Katherine Lockwood

401. Human Biology

Elementary study of structure, function, and development of all systems of the body. No credit toward major or minor. Cannot be taken for credit after 507-508. 4 cr.

412. Principles of Zoology

Concepts of animal biology, introduction to ecological relationships, anatomy, physiology, embryology, taxonomy, and evolution. Special fee. Lab. 4 cr. (Spring semester only.)

460. Biological Illustration

Discusses scientific publishing, illustration labeling, color techniques, and printing processes. Presents an overview of several illustration techniques, including 1) Pen & Ink: wildlife illustrations; 2) Carbon Dust: half-tone illustrations using carbon pencil dust; 3) Colored Pencil: used on drafting film; 4) Watercolor: creates accurate and detailed illustrations. Student may choose to explore a single technique in depth. Course size limited to emphasize individual attention. Illustration subjects may be selected from a wide variety of material on Appledore Island. 2 cr. (Summers only at Shoals Marine Lab.)

474. Introduction to Field Marine Science

Nonbiology majors experience the breadth of the marine sciences under field conditions at an island laboratory. Topics include: general marine biology, intertidal ecology, plankton biology, fisheries, and benthic (sea floor) communities. Reading, independent research, and scientific writing are included. Extensive use is made of rich and extensive flora and fauna found in the rocky intertidal zone of Appledore Island. Additional excursions are made to seal and seabird colonies on neighboring islands and whale feeding grounds in the Gulf of Maine. Field investigations are supplemented with appropriate lectures, films, and laboratory work. 4 cr. (Summers only at Shoals Marine Lab.)

503. Introduction to Marine Biology

A lecture course emphasizing the organization of marine biological communities. Various marine environments—pelagic, benthic, temperate, tropical—and their characteristic communities. Major emphasis on the approaches (e.g., analysis of energy flow and predator-prey interactions) used to analyze marine communities as well as the sampling techniques employed for each approach and the characteristic habitat type. Prereq: BIOL 411-412. Lab. (Also offered as PBIOL 503.) 4 cr.

507-508. Human Anatomy and Physiology

All systems in the human body. Laboratories: a dissection of preserved cats and experiments with living tissues. Students may not receive credit for both ZOOL 507-508 and ZOOL 627. Not offered for credit to zoology majors. Special fee. 4 cr.

518. Vertebrate Morphology

Evolutionary and comparative examination of vertebrate anatomy. Structure of the major systems at the macroscopic and microscopic levels. Prereq: BIOL 411-412 or equivalent. Special fee. Lab. 5 cr.

530. Principles of Applied Entomology

Nature of destructive and beneficial insects and the fundamentals of insect pest management in our modern society. Introduction to the principal arthropod pests of New England associated with the major commodity groups, including structures, ornamentals, and turf. Elective for sophomores, juniors, and seniors. Special fee. Lab. 4 cr. (Not offered every semester.)

542. Ornithology

Identification and biology of birds, especially those of northeastern United States. Field trips, laboratory, and lectures. Prereq: one semester of biology. 4 cr.

560. Anatomy and Behavior of the Gull

Daily lectures, lecture demonstrations, laboratories, and fieldwork. Functional anatomy of all or-

gan systems, with emphasis on sensory, nervous, digestive, and respiratory systems. The large nesting colonies of two species of gulls on Appledore Island will be used to demonstrate territoriality, aggression, mating, and other basic patterns of gull behavior. Prereq: one course in college-level biology. 1 cr. Cr/F. (Summer only.)

570. Coastal Ecology and Bioclimates

Practically oriented. Emphasizes (1) the definition description, and measurement of major abiotic factors (e.g., radiation, temperature, atmospheric moisture and precipitation, and winds and currents); (2) the role of both biotic and abiotic coastal environmental factors with respect to plants and animals including humans; (3) the fundamentals of dynamic meteorology and short-term weather prediction from observing natural coastal phenomena such as cloud and wind patterns. Special attention will be given to the terrestrial and littoral microclimate of Appledore Island. Prereq: one year of college-level biology; some physics or physical geography preferred. 4 cr. (Summers only at Shoals Marine Lab.)

627. Principles of Animal Physiology

Introduction to the principles of animal function. The major systems (digestion, metabolism, respiration, circulation, osmotic and ionic regulation, nerve-muscle function, endocrine control) are covered with emphasis on functional mechanisms at the cell and tissue levels. Students may not receive credit for both ZOOL 507-508 and ZOOL 627. Prereq: two years of the biology core curriculum. Special fee. Lab. 4 cr.

628. Marine Invertebrate Evolution and Ecology

Lecture and laboratory survey of invertebrate phyla; systematic morphology, phylogeny, and natural history. Prereq: BIOL 411-412. Lab. 4 cr.

629. Developmental Biology of the Vertebrates

Principles of animal development including metamorphosis, regeneration, and aging in selected vertebrates. Prereq: ZOOL 518; 627; and BIOL 604. Lab. 4 cr.

674. Field Marine Science

Daily lectures; laboratory and fieldwork. Offered at the Isles of Shoals in cooperation with Cornell University. Initial overview of the marine sciences, emphasizing living material in natural habitats; biology of intertidal plants and animals; biological oceanography; ichthyology; and fisheries. Also, introductory physical and chemical oceanography, marine geology, marine ecology, and the effects of human activity on the marine environment. Prereq: at least a full year of college biology. 6 cr. (Summer only.)

690. Evolution

Evolution is the change in properties of populations of organisms that transcends the lifetime of single individuals. Darwin's mechanism of evolution by natural selection accounts for the diverse adaptations of organisms to different environments. Topics include principles of heredity, sources and maintenance of variation, adaptation, speciation, levels of selection, and rates of evolution. Prereq: BIOL 411-412 or equivalent. 4 cr.

704. Endocrinology

Structure and function of vertebrate endocrine systems. Influence of endocrine system on the physiology of vertebrates, with special reference to mammals. Current investigations of the endocrine systems as a regulator and integrator of body functions including such systems as growth, reproduction, metabolism, differentiation, and behavior. Prereq: BCHM 658 or 751; or permission. (Also offered as BCHM 704.) 4 cr.

708. Stream Ecology

Ecological relationships of organisms in flowing water. Lectures on physical and chemical features of streams, floral and faunal communities, and factors controlling populations of benthic invertebrates. Streams as ecosystems. Lab exercises employ both field and laboratory experimental techniques. Prereq: permission. Special fee. Lab. 4 cr. (Not offered every year.)

709. Environmental Physiology of Animals

Animal responses to natural changes or extremes of the physical environment. Emphasis on adaptation of animals to major environmental parameters such as nutrient levels, light, temperature, ionic environment, etc., as well as temporal (seasonal, daily) changes in these major environmental factors. Examples from several levels of organization including biofeedback mechanisms. Prereq: BIOL 541, ZOOL 627, or equivalent. 4 cr. (Not offered every year.)

710. Ichthyology

Introduction to the evolution, systematics, anatomy, physiology, and ecology of fishes, with emphasis on New England species. Prereq: prin. of biol. or equivalent. Lab. 4 cr. (Alternate years.)

711. Zooplankton Ecology

Methods of sampling populations; factors regulating temporal and spatial distribution; trophic interactions of communities, role in nutrient cycle of lakes. Experimental techniques employed in field trips to freshwater habitats. Seminars examine current research. Prereq: gen. ecol. and limnology, ZOOL PBIO 717, or equivalent; permission. 4 cr. (Not offered every year.)

712. Mammalogy

Evolution, ecology, behavior, physiology, and diversity of mammals. Focuses on conceptual issues, such as the relations of structure, function, physiology, and ecology of species, reproductive physiology and life history strategies; and the evolution of mating systems and social structure. Requires familiarity of mammalian groups to the family level and identification of local fauna to species. Prereq: BIOL 411-412 or equivalent. Lab. 4 cr. (Not offered every year.)

713. Animal Behavior

Introduces the naturalistic study of animal behavior. Emphasizes the evolution, development, physiology, and ecology of behavior. Topics include the genetic and acquired bases of behavior, neuroethology and behavioral endocrinology; communication, orientation, foraging strategies; reproductive ecology, and the evolution of altruistic behavior. Prereq: BIOL 411-412 or equivalent. Lab. 4 cr.

714. The Ecology of Animal Behavior

An animal's behavioral patterns represent its ability to deal with the environment dynamically

Course focuses on ecological and evolutionary significance of behavioral patterns found in all organisms, particularly those animals that inhabit coastal marine environments. Strong emphasis on methods of behavioral research and interpretation of behavioral patterns using field observations conducted on diverse fauna of Appledore Island and surrounding waters. Prereq: introductory biology; experience in psychology, animal behavior, or ecology helpful. 4 cr. (Summers only at Shoals Marine Lab.)

715. Molecular Evolution

Molecular mechanisms of organismal evolution. Emphasis on integrating evidence from biochemistry, molecular genetics, developmental biology, and organismal studies. Review of population genetics and the neutral theory. Evolution of sex. Genetics of speciation. Methods of reconstructing phylogeny from molecular sequences. Prereq: BIOL 604 or permission. Some knowledge of statistics plus a computer language (BASIC or PASCAL) is recommended. (Also offered as GEN 715.) 4 cr. (Not offered every year.)

716. Quantitative Ecological Analysis

Methods of observation and inference in ecology; data reduction and exploratory analysis; detection of association, difference, and similarity using linear models and other multivariate approaches. Critiques of design and analysis of published studies. Prereq: formal coursework in statistics and ecology; permission. 4 cr.

717. General Limnology

Special relationships of freshwater organisms to the chemical, physical, and biological aspects of the aquatic environment. Factors regulating the distribution of organisms and primary and secondary productivity of lake habitats. Prereq: BIOL 541 or equivalent. (Also offered as PBIO 717.) 4 cr.

718. Quantitative Aquatic Ecology

Aquatic ecosystems studied through field and laboratory exercises. Emphasis on the application of statistical methods from sampling design to statistical and ecological interpretation of results. Field trip data analyzed in both biology and statistics laboratories. Understanding how the principles underlying statistical concepts can be applied to biological systems will be emphasized. Field trips, designed to collect data for rigorous statistical analysis, include remote pristine lakes in the White Mountains National Forest as well as lakes in southern New Hampshire. Prereq: BIOL 541 or equivalent. (Also offered as PBIO 718.) 6 cr. (Fall semester only. Alternate years.)

719. Field Limnology

Freshwater ecology examined through laboratory exercises with freshwater habitats. Methods to study freshwater lakes; interpretation of data. Includes seminars and field trips. Prereq: present or prior enrollment in PBIO 717, ZOOL 717, or equivalent; permission. (Also offered as PBIO 719.) Special fee. 4 cr. (Fall semester only. Alternate years.)

720. Marine Biology for Teachers

Primarily for teachers grades 6 through 12, but open to others. Overview of living marine organisms (algae, invertebrates, fishes, marine mammals, and shore birds) and their environment. Fieldwork is emphasized; students who are certified divers or

who wish to learn snorkeling are encouraged to use these techniques. At least one excursion on the lab's research vessel is included. Also such topics as coastal zone problems, marine fisheries, economics of marine organisms, and the educational resources of the marine environment. Participants are encouraged to register for an additional credit to research and prepare lesson plans and teaching material for class use. Prereq: introductory biology. 3-4 cr. (Summers only at Shoals Marine Lab.)

725. Marine Ecology

Marine environment and its biota, emphasizing intertidal and estuarine habitats. Includes field, laboratory, and independent research project. Prereq: general ecology; permission. Marine invertebrate zoology, oceanography, and statistics are desirable. (Also offered as PBIO 725.) 4 cr. (Not offered every year.)

726. Comparative Physiology

Laboratory modules designed to enable students to investigate nutrition, metabolism, neural function, reproduction and homeostatic mechanisms of animals, especially invertebrates. Emphasis on learning how to conduct effective physiological studies. Prereq: ZOOL 627 or equivalent; permission. 4 cr. (Not offered every year.)

727. Field Ecology of Amphibians and Reptiles

Origins, evolution, ecology, and conservation of amphibians and reptiles. Emphasis on overnight field trips conducted throughout the state, using photographic and other nondestructive sampling methods. Prereq: BIOL 411-412 or equivalent. Special fee. Field trips. 4 cr. (Summer only.)

730. Underwater Research

Hypothesis testing and experimental design, theoretical and practical aspects of sampling, and critiques of current research papers. Special problems of conducting research underwater (diving physics and physiology, theory and use of diving tables, hyperbaric medicine), and underwater techniques (underwater photography and video, photo quadrats, tagging/marking, cages/enclosures). Students must supply their own equipment. Students with special research interests encouraged to enroll in an additional third week of independent underwater research. Prereq: recognized scuba certification, a medical examination, one year of biology or other supporting science. 4 cr. (Summers only at Shoals Marine Lab.)

740. Ciliophorology

Ciliophoran biology in depth. Lectures on: a detailed look at the ciliate faunules in Chesapeake Bay salt marshes, sulfureta and plankton; Sippiswissett, Chincoteague, Bermuda, Florida Keys, Sapelo Island, Rye Beach and other sandy sediment interstitial psammobiotic habitats; the marine snow ciliates of the Gulf Stream and the Sargasso Sea; the marine cave ciliates of Bermuda; and the ciliates of the East Pacific Rim. Laboratory exercises: silver-staining techniques; back-scattered and secondary SEM and TEM; and ciliate extraction, cultivation, and isolation. 2 cr. (Summers only at Shoals Marine Lab.)

750. Biological Oceanography

Biological processes of the oceans, including primary and secondary production, trophodynamics, plankton diversity, zooplankton feeding ecology,

microbial ecology, and global ocean dynamics. Emphasis on experimental approaches. Term project involves either development of an ecosystem model or performance of a field experiment. Field trips on R/V *Gulf Challenger* and to the Jackson Estuarine Laboratory. Prereq: one year of biology or permission of instructor. Lab. (Also offered as ESCI 750.) 4 cr. (Offered in alternate years.)

751. Adaptations of Marine Organisms

Ecological physiology of selected algae and invertebrates from the Gulf of Maine. Offered at the Shoals Marine Lab (Isles of Shoals) in cooperation with Cornell University. Prereq: field marine science, plant or animal physiology, physiological ecology; understanding of chemical quantitative methods and analysis. 6 cr. (Summer only.)

753. Marine Vertebrates

Lectures, laboratories, and fieldwork on the systematics, ecology, and physiology of fishes, marine reptiles, marine birds, and marine mammals of the Gulf of Maine. Offered at the Shoals Marine Lab (Isles of Shoals) in cooperation with Cornell University. Prereq: field marine science or vertebrate biology. 6 cr. (Summer only.)

772. Fisheries Biology

Principles of fisheries science, with emphasis on techniques used to assess the biological characteristics of exploited fish populations, and the use of such information for fisheries management. Prereq: ZOO 711 or equivalent; permission. Lab. 4 cr. (Alternate years.)

#775. Reproduction and Development of Marine Invertebrates

Cultivation, experimental and descriptive embryology, developmental energetics, substrate selection, metamorphosis, and ecological significance of reproductive patterns in major invertebrate groups. Prereq: ZOO 674 (UNH), Biol Sci 364 (Cornell), or invertebrate zoology. Offered at Shoals Marine Lab (Isles of Shoals) in cooperation with Cornell University. 6 cr. (Summer only; not offered every year.)

777. Neurobiology and Behavior

Survey of fundamental concepts and recent discoveries in neurobiology. Topics include structure and function of neurons, development, cellular basis of behavior (sensory and motor systems), neuropharmacology, and neural plasticity (learning). Prereq: BIOL 411-412 or permission. Physiology (ZOO 627) also desirable. 4 cr.

778. Neuroscience Techniques

Techniques- and laboratory-oriented course designed for students of the behavioral and physiological sciences who wish to understand the basic electrophysiological properties of neurons and how they interact. Both invertebrate and vertebrate systems are called upon to illustrate principles of synaptic transmission, integration, sensory information processing, and the control of movement. Prereq: ZOO 777 or equivalent. Lab. 4 cr. (Not offered every year.)

795, 796. Special Problems in Zoology

A) Animal Behavior; B) Developmental Biology; C) Ecology; D) Endocrinology; E) Evolution; F) Ichthyology; G) Genetics; H) History of Biology; I) Invertebrate Biology; J) Neurobiology and Behavior; K) Physiology; L) Protozoology; M) Teach-

ing Practices; N) Underwater Research; O) Vertebrate Biology; P) Biological Techniques. Course sections for advanced work, individual or group seminar. May include reading, laboratory work, organized seminars, and conferences. Prereq: permission of department chairperson and staff concerned. 1-4 cr.

799. Senior Thesis

Working under the direction of a faculty sponsor, students plan and carry out independent research resulting in a written thesis. Prereq: for students enrolled in the honors program entering their senior year. Two semester sequence; LA grade (continuous course) given at the end of the first semester. 4 cr.

University of New Hampshire at Manchester

The following courses are normally offered only at the University of New Hampshire at Manchester. For more information, see page 100 or contact UNHM at French Hall, 220 Hackett Hill Rd., Manchester, NH 03102, phone (603) 668-0700; fax (603) 623-2745; TTY: 622-4511.

UNHM Associate Professors: Thomas D.

Birch, Deborah Brown, John J. Cerullo, Cinthia Gannett, Gary S. Goldstein, Lewis Knight, Thaddeus M. Piotrowski, John P. Resch, Terry M. Savage

Assistant Professor: Jerry D. Marx

UNHM Assistant Professors: Mae Lynn Arlinghaus, Michael Contarino, Lorraine D. Doucet, Roberta Kieronski, John P. Lambertson, Robert L. Macieski, Patrice T. Mettauer, Fred Metting, Stephen R. Pugh, Gail Rondeau, John E. Sparrow, Karla E. Vogel, Susan A. Walsh, Richard A. Zang

UNHM Adjunct Assistant Professor: Peter Haebler

UNHM Instructors: Jack E. Hoza, Jeffrey F. Klenotic, Jennifer Ann Lee, Jean Zipke
UNHM Lecturers: Carolyn M. Bradley, Mary C. McGuire

UNHM FIR-Assistant Professor: Julianne S. Cooper

Administration

ADM 400. Introduction to Business

Introduces the study of business; examines the origins and development of American business, its place in a global economy, and its legal and ethical roles in modern society. Includes an overview of the functional areas of business such as finance, marketing, and organizational behavior. Designed for business majors as well as for students considering a major in business. 4 cr.

ADM 430. Introduction to Business Statistics

The use of statistical methods for managerial decision making. Emphasis is on understanding concepts, including inferences from sample data and model formulation, as aids in decision making. No credit for students who have received credit for BIOL 528; DS 420; HHS 540; MATH 644; PSYC 402; RECO 525, 528; SOC 502. 4 cr.

ADM 532. Introduction to Financial Accounting

Fundamental concepts of accounting and their impact on the business world and society as a whole. Emphasis on the recording of economic transactions, and preparation and analysis of financial statements. No credit for students who have had ACFI 501, 502. 4 cr.

ADM 533. Introduction to Managerial Accounting

Emphasizes how organizational managers use accounting information to support their functions of planning, control, and decision making. Examples taken from corporations, small business, and not-for-profit organizations. No credit for students who have received credit for ACFI 503. Prereq: ADM 532. 4 cr.

#ADM 547. Survey of Business Law

Overview of the law pertaining to business and business relationships including such areas as contract, agency, sales, partnership, negotiable instruments, and property. Case methods. Prereq: sophomore status or permission based on appropriate experience. Not equivalent to MGT 647-648. Business Law I & II. No credit toward any major at the Whittemore School. 4 cr.

Biology

BIOL 405. General Biology I

Survey of ecology, evolution, genetics, and the diversity of life. Emphasis on basic biological principles. For nonbiological science majors. Lecture and lab. Cannot be taken for credit after completion of BIOL 411, 413, or equivalent. Special fee. Lab. 4 cr.

BIOL 406. General Biology II

Survey of biological chemistry, molecular and cell biology, and major plant and animal systems. Emphasis on basic biological principles. For nonbiological science majors. Lecture and lab. Cannot be taken for credit after completion of BIOL 412, 414, or equivalent. Special fee. Lab. 4 cr.

BIOL 413. Principles of Biology I

Lecture and laboratory introduction to biological principles; cell structure, function, replication, energetics and transport mechanisms; physiological processes; Mendelian, molecular genetics, and gene technology. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 411 or equivalent. Special fee. Lab. 4 cr.

BIOL 414. Principles of Biology II

Lecture and laboratory survey of the five kingdoms of life; physiology of cells, tissues, organs, and organ systems; evolution; human impact on the biosphere. Required for students majoring in the life sciences. Cannot be taken for credit after BIOL 412 or equivalent. Special fee. Lab. 4 cr.

BIOL 443. Natural History of North America

Introduction to the major terrestrial, aquatic, and marine communities of North American continent. Consideration given to climatic, geological, and ecological factors that have shaped the continent and its natural communities. Designed specifically for students who are not planning to major in the sciences. No prerequisites. Special fee. Lab. 4 cr.

BIOL 445. The Human Body in Health and Disease

An introductory course on human anatomy and physiology designed especially for students not planning to major in the sciences. Emphasis is on material that will help students converse intelligently with physicians and other health care workers. Special fee. Lab. (Some animal dissection is required.) 4 cr.

Computer Information Systems**CIS 411. Introduction to Computer Applications**

Beginning course on computer technology, specifically microcomputer systems. Emphasis is on (1) using computers to manage information for personal and professional applications and (2) the impact of computer information technology on today's society. Software applications used include word processing, spreadsheets, database, and graphics. Independent lab activities are a major part of the course content. No prior computer experience is required. No credit if credit has been received for DCE 491; 492; CS 401. Special fee. 4 cr.

CIS 412. Microcomputers and Office Automation

Explores the modern automated office. Students investigate tools available for the office environment such as local area networks (LANs), telecommunications systems, and document management systems. Emphasis is placed on the worker's role in an automated office and socioeconomic trends that have affected the office environment. Students also gain advanced skills in software applications such as programming database applications and desktop publishing. Prereq: CIS 411 or permission. Special fee. 4 cr.

CIS 415. The Digital Computer

Survey of the modern digital computer including its construction, operation, capabilities, limitations, history, and social significance. Explores the role of programming and representing data in digital computers. Students use and develop activities using Hypercard authoring language. Special fee. 4 cr.

CIS 420. Computer Information Systems

Investigates the role and impact of computer applications on information systems in general and specifically as applied to business requirements. Surveys the components of an information system; explores information systems in areas such as manufacturing, medicine, education, and government, discusses the issues of computerizing information resources. Directs attention to information systems in business and identifies the need for and function of formal systems development methodologies. Students investigate the steps involved in transaction processing and develop a prototype of a business information system using a DBMS application. Special fee. Prereq: CIS 411; CS 406; CIS 415; or permission. 4 cr.

CIS 515. Multimedia: Introduction and Applications

Examines the history and underlying theory behind computer integration of text, sound, video, and graphics. Topics include hardware and software requirements, design criteria, analysis of current hypertext and multimedia applications in education and business. Students gain practical experience in developing multimedia applications

on the Macintosh platform. Special fee. Prereq: CIS 411; CIS 420; CIS 415; or permission. 4 cr.

CIS 520. Database Management Concepts

Introduces students to the basic concepts of file and database organization. Special emphasis on understanding the steps involved in designing a database and using a relational model to define, search, report, and maintain a database. Discusses database security, integrity, and concurrency control. Also addresses the current trends in database development, such as distributed databases, natural language processing and expert systems, and object-oriented databases. Emphasis focused on the design and use of a relational model with practical experience using a DBMS application. Special fee. Prereq: CIS 411; CIS 420; CIS 415; or permission. 4 cr.

CIS 542. Operating System Applications

Introduction to operating system concepts with relevant lab experiences. Operating systems for both micro- and mainframe computers; available utilities; the generation of batch files for operation of a LAN. Operating systems covered may include MS-DOS, UNIX, and VAX VMS. Special fee. Prereq: CIS 411; CS 406; or permission. 4 cr.

Economics**ECN 411. Introduction to Macroeconomic Principles**

Studies how an economy functions. Develops measures and theories of economic performance to study such issues as unemployment, inflation, international trade and finance, and the level of national production. Examines government policies designed to correct for unemployment and inflation with close attention to the use of fiscal and monetary policies in the U.S. No credit for students who have received credit for ECON 401. 4 cr.

ECN 412. Introduction to Microeconomic Principles

Studies the behavior and interaction of fundamental decision-making units in an economy, especially consumers and business firms. Applies such economic principles as scarcity, supply and demand, and elasticity to a variety of social issues. Topics include the resource allocation problems of households and business firms, economic theories of social problems (such as crime, divorce, and discrimination), and the economic implications of government policies affecting the environment, the workplace, and industrial organization. No credit for students who have received credit for ECON 402. 4 cr.

ECN 540. Law and Economics

Study of various concepts, functions, and implications of law from an economic perspective. Topics include economic theories of property, contract tort, crime and punishment, implications for resource allocation of laws related to product liability, taxation, work, education, housing, patents, and the environment are examined using tools of economic analysis. Prereq: ECON 402; ECN 412; or permission of instructor. No credit toward any major at the Whittemore School. 4 cr.

Humanities**HUMA 411. Humanities I**

Introduction to the humanities and Western culture through literature, history, philosophy, mu-

sic, art, and architecture. Examination of selected historical periods from classical Greece through the Renaissance through readings, films, slides, and field trips. Special fee. 4 cr.

HUMA 412. Humanities II

Introduction to the humanities and Western culture through literature, history, philosophy, music, art, and architecture. Examination of selected historical periods from the Enlightenment to the present through the use of readings, films, slides, and field trips. Special fee. 4 cr.

HUMA 519. Humanities: Classical Greece

Examination of the culture of classical Greece through the history, drama, philosophy, and art of the period. Open to all students. Recommended for students in the humanities concentration. Special fee. 4 cr.

HUMA 520. The Age of Mozart

Introduction to the literature, political writings, and historical developments of the period 1756–1791, the years of Wolfgang Amadeus Mozart's life. Materials from different fields—music, literature, theatre, film, political theory, and philosophy—to explore the life and work of the composer and the times in which he lived. Examines topics such as individualism, political revolution, the beginnings of romanticism, the revolution in science and technology, and changes in economics and economic theory in readings and appropriate video and audio materials. No background in classical music is needed. 4 cr.

HUMA 622. Studies of Freedom and Liberty

Principles of freedom and liberty that helped to form Western culture from the Renaissance to the present. Topics include concepts of human nature, theories of government and society. Readings include Machiavelli, Locke, Paine, Mill, Marx, Freud, Sartre, and Marcuse. 4 cr.

HUMA 625. Social Justice in America

Introduction to theories of social justice and examination of historical examples of the law, economy, society, and public policy affecting social justice from the Colonial period to the present. 4 cr.

HUMA 630. The Development of Early Christianity

Examines the emergence of Western Christianity. Explores primary literature relating to religious concepts and theological positions during the first centuries of the Church from the Pauline letters, through the period of Roman Emperor Constantine, culminating in the writings of Augustine, Bishop of Hippo. Considers both Christian and non-Christian texts and assesses the forces that helped to shape the fledgling religion. Gives special attention to social, political, and cultural influences. 4 cr.

HUMA 632. The Beginning and End of the World: Genesis and Revelation in Western Humanities

Genesis and Revelation examined for the biblical views of history and time in general and then an exploration of various interpretations of this material in Western thought. After a careful reading of the texts, students examine how themes in these biblical works have influenced art and architecture, literature, science, history, and culture. Advantageous for students in English literature, history, and humanities as well as for individuals who want

a nondoctrinal reading of selections from one of the most influential literary works in the West. Special fee. 4 cr.

HUMA 660. The Moral Dimensions of Economic Life

Interdisciplinary examination of the moral implications of economic decisions, practices, issues, and events from ancient and modern perspectives. Topics include morality of trade, interest, profit, entrepreneurship, corporate takeovers, poverty, and wealth. Materials include philosophical and religious works (Aristotle, St. Thomas Aquinas), drama (Shakespeare), art and literature (Andy Warhol, Theodore Dreiser, F. Scott Fitzgerald), economics and history (Adam Smith, Jacob Viner), and films (Werner Herzog). 4 cr.

HUMA 680. New England Culture: Roots and Branches

Interdisciplinary examination of the richness, variety, and significance of selective periods of New England culture using literature, history, art and photographic images, music, artifacts, and oral histories. Subjects include Native American lore, European American contributions to regional culture, New England's literary tradition and influence on American culture. 4 cr.

HUMA 795. Humanities: A Study of Creativity

A study of human creativity through representative lives and works of such figures as daVinci, Einstein, Kathë Kollwitz, Bach, Dickens, and Freud. Lectures, class discussions, films, and slides supplemented by gallery tours, plays, and concerts. Open to students with a background in humanities or by permission of the instructor. Special fee. 4 cr. (Normally offered every other year.)

HUMA 796. Humanities: A Study of Contemporary Issues

Current social and political issues with focus on recent developments in public policy, science, and business, and their impact on social values. Prereq: junior status or permission. 4 cr. (Normally offered every other year.)

Independent Study

UMIS 599. Independent Study

Independent study with the approval and sponsorship of UNHM faculty of material not covered in regular course offerings. Barring duplication of subject, may be repeated for credit up to a maximum of 8 cr. 1-4 cr.

Sign Language Interpretation

INTR 430. Introduction to Interpretation

A survey of traditional and contemporary perspectives on interpretation and interpreters; introduces the cognitive processes involved in interpretation and factors that influence those processes. Several models of interpretation explored. Particular attention given to interpretation as an intercultural, as well as interlingual, process. Students engage in a research project related to course content. 4 cr.

ASL 435. American Sign Language I

Introduction to American Sign Language with emphasis on visual receptive and expressive skills using mime, gesture, facial expression, and ASL grammatical constructions and linguistics. Partici-

pants develop their skills through videotapes, classroom participation, and readings that cover issues important to the deaf community. Limited to 15 students. Special fee. 4 cr.

ASL 436. American Sign Language II

Continuation of ASL 435 and expansion on concepts and principles. Focus on more advanced vocabulary and patterns of grammar; use of space and modulation of signs to denote aspects of time and location; and additional information on deaf culture. Prereq: ASL 435 or program evaluation. Limited to 15 students. 4 cr.

INTR 438. A Sociocultural Perspective on the Deaf Community

Introduction to the deaf community and deaf culture. Discussion of similarities to, and differences from, mainstream hearing culture. Supplemental videotapes focus on aspects of the culture including deaf education, autobiographical sketches, deaf norms and values, and deaf literature and folklore. Theoretical issues of culture and linguistics applied to deaf culture, American Sign Language, and the variety of cultural perspectives of the deaf community. Students engage in a research project related to course content. Pre- or coreq: ENGL 401. 4 cr.

INTR 439. Ethics and Professional Standards for Interpreters

Seminar course using readings, theory, and discussion of hypothetical situations and role plays to explore ethical standards and dilemmas in ASL-English interpretation. Covers personal and professional values, ethics, and morality; professional principles; power, responsibility, and group dynamics; the interpreter's role; cross-cultural issues; and the decision-making process. Students engage in a research project related to course content. Prereq: INTR 430. 4 cr.

ASL 530. American Sign Language Lab

Opportunity to focus on enrichment activities in an ASL language lab. Class is conducted entirely in ASL; instructors provide continual evaluation of and feedback on language skills. Prereq: ASL 435 and 436 or program evaluation. 2 cr.

ASL 531. American Sign Language III

Continuation of ASL 436. Expands on the ground-work and grammatical principles established in ASL I and II. Introduces the sociolinguistic aspects of ASL as it functions within the deaf cultural context. Limited to 15 students. Prereq: ASL 436 or program evaluation. 4 cr.

ASL 532. American Sign Language IV

Continuation of ASL 531. Expands on the ground-work and grammatical principles established in ASL I, II, and III. Introduces the sociolinguistic aspects of ASL as it functions within the deaf cultural context. Areas of investigation include use of formal versus informal sign register; sign variation by region, age, and gender; social factors that give rise to code switching; and political and cultural evolution of the U.S. deaf community. Taught in the target language using the direct experience method. Prereq: ASL 531 or program evaluation. Limited to 15 students. 4 cr.

INTR 539. Comparative Linguistic Analysis for Interpreters

Examines the basic similarities and differences between the linguistic structure of American Sign Language and spoken English; focuses on each

language's communication functions and how they serve those functions. Students engage in a research project related to course content. Prereq: ENGL 505; pre- or coreq: ASL 532. 4 cr.

INTR 540. Principles and Practices of Translation

Introduction to theory and practice of translation. Students analyze preprepared interpretations and translations to discover how expert interpreters produce target language messages which are pragmatically equivalent to the source language messages. Particular attention paid to the form/meaning distinction. Students prepare translations from texts of their choosing. Pre- or coreq: ASL 532. 4 cr.

ASL 621. Advanced ASL Discourse for Interpreters

Focuses on the use of ASL discourse in formal as well as informal settings. Students explore the genres of public speaking, artistic expression, formal discussion, interview, and narrative. Development of ASL vocabulary in specialized areas not covered in previous courses. Prereq: ASL 532. 4 cr.

INTR 630. Principles and Practices of Consecutive Interpretation

Introduction to the theory and practice of consecutive interpretation. Analyzes and integrates specific subtasks of the interpreting process culminating in the performance of prepared and spontaneous consecutive interpretations. Students work with a variety of texts, language models, and settings with the goal of producing a grammatically correct target language text which is equivalent to the source language text. Prereq: INTR 540. 4 cr.

INTR 636. Principles of Simultaneous Interpretation

Introduces the theory and practice of simultaneous interpretation. Particular attention is given to processes involved in transition from consecutive to simultaneous interpreting. The advantages and limitations of both types of interpreting are compared. Students apply theoretical information to the process of simultaneous interpreting. Students engage in a research project related to course content. Prereq: INTR 630. 4 cr.

INTR 658. Deaf/Hearing Cultural Dynamics

Deaf culture and mainstream American culture compared, contrasted, and analyzed from a variety of perspectives. Cultural interactions between deaf and hearing people examined, and students explore potential cultural conflicts between deaf and hearing people. Students engage in a research project related to course content. Prereq: INTR 438 and ASL 532. Special fee. 4 cr.

INTR 732. Simultaneous Interpretation of Discussions, Speeches, and Reports

Focuses on the simultaneous interpretation of group discussions, speeches, and reports. Students apply theory learned in INTR 636 to a variety of texts, language models, and settings. Students engage in a research project related to course content. Prereq: INTR 636. 4 cr.

INTR 734. Field Experience and Seminar I

Gives students the opportunity to observe professional working interpreters, with some direct interpreting experience as deemed appropriate. Students integrate knowledge, theoretical understanding, and skills acquired in the interpreting

program by working closely with on-site supervisors (interpreters) in addition to attending a weekly seminar with the UNHM field experience coordinator. Pre- or coreq: INTR 732. 4 cr.

INTR 735. Field Experience and Seminar II

Gives students the opportunity to gain supervised interpreting experience. Students engage in actual interpreting assignments and receive support and mentorship from a professional interpreter, enabling them to integrate knowledge, theoretical understanding, and skills acquired in the interpreting program. Students work closely with on-site supervisors (interpreters) in addition to attending a biweekly seminar with the UNHM field coordinator. Prereq: INTR 734. 4 cr.

INTR 744. Principles and Practices of Transliteration

Introduces the theory and practice of transliteration. Students analyze preprepared transliterations to discover how expert transliterators produce semantically correct messages in signed and spoken English which are equivalent to the source texts. They will then produce transliterations which are semantically and pragmatically equivalent to the source texts. Students engage in a research project related to course content. Prereq: INTR 636. 4 cr.

INTR 798. Special Topics

Selected topics that vary by semester. Possible course topics are interpreting in educational settings, working with specific populations, or other topics of importance to interpretation. Descriptions available in departmental office during preregistration. Students engage in a research project related to course credit. Prereq: INTR 636; permission. May be repeated for credit if topics differ. 4 cr.

Special Topics**UMST 599. Special Topics**

Occasional offerings dependent on availability and interest of faculty. Barring duplication of subject, may be repeated for credit. 1–4 cr.

TRUSTEES AND ADMINISTRATIVE OFFICERS

University System of New Hampshire Trustees

Officers of the Board

Vice Chair of the Board

Harry H. Bird, M.D.

Hanover, N.H. (1989–1999)

Vice Chair of the Board

Sherilyn Burnett Young, J.D.

Concord, N.H. (1991–1998)

Secretary of the Board

Stella E. Scamman, B.A.

Stratham, N.H. (1985–1997)

Treasurer of the Board

Creeley S. Buchanan, B.A.

Amherst, N.H. (1983–1996)

Members of the Board

His Excellency Stephen E. Merrill, J.D.

Governor of New Hampshire
Manchester, N.H. (ex officio)

Ralph E. Brickett, B.S.

Bow, N.H. (1995–1998)

Thomas K. Christo, J.D.

North Hampton, N.H. (1992–1996)

Dudley W. Dudley, B.S.

Durham, N.H. (1995–1999)

William J. Farrell, Ph.D.

Chancellor, University System
Durham, N.H. (ex officio)

George E. Freese

Pittsfield, N.H. (1994–1998)

Louis J. Georgopoulos, B.S.

Newington, N.H. (1988–1996)

Nicholas A. Germana

Waterbury, Vt. (1995–1996)

Jane E. Hager, B.A.

Lyndeboro, N.H. (1991–1999)

George J. Khoury, B.A.

Salem, N.H. (1992–1997)

Robert L. Mallat, B.Ed.

Keene, N.H. (1995–1999)

William H. Marston, M.Ed.

Bedford, N.H. (1991–1999)

Terry L. Morton, M.S.

Rye, N.H. (1987–1999)

Donald G. O'Brien, M.S.

Rye Beach, N.H. (1989–1997)

The Honorable Walter R. Peterson, B.A., (L.L.D.)

Interim President, University of New Hampshire
Durham, N.H. (ex officio)

Stephen H. Taylor, B.A.

Commissioner of Agriculture
Meriden, N.H. (ex officio)

Roberta E. C. Tenney, M.A.

Concord, N.H. (1994–1998)

Elizabeth M. Twomey, Ed.D.

Commissioner of Education
Concord, N.H. (ex officio)

John F. Weeks, Jr., B.A.

Concord, N.H. (1992–1996)

Donald P. Wharton, Ph.D.

President, Plymouth State College
Plymouth, N.H. (ex officio)

Stanley J. Yarosewick, Ph.D.

President, Keene State College
Keene, N.H. (ex officio)

Administrative Officers

Interim President

The Honorable Walter R. Peterson, B.A., (L.L.D.)

Provost and Vice President for
Academic Affairs

Walter F. Eggers, Ph.D.

Interim Vice President for Research and
Public Service

Donald C. Sundberg, Ph.D.

Interim Vice President for Finance and
Administration

Neil B. Lubow, Ph.D.

Vice President for Student Affairs

Leila V. Moore, Ed.D.

Dean of the College of Liberal Arts

Marilyn Hoskin, Ph.D.

Interim Dean of the College of Life
Sciences and Agriculture

William W. Mautz, Ph.D.

Dean of the College of Engineering and
Physical Sciences

Roy B. Torbert, Ph.D.

Dean of the Whittemore School of
Business and Economics

Lyndon Goodridge, Ph.D.

Dean of the School of Health and
Human Services

Roger A. Ritvo, Ph.D.

Interim Dean of the University of New
Hampshire at Manchester

John P. Resch, Ph.D.

Dean of the Division of Continuing
Education and Summer Session;
Registrar

William F. Murphy, Ed.D.

Interim Dean of the Graduate School
Karol A. LaCroix, Ph.D.

Dean and Director of Cooperative
Extension

Peter J. Horne, Ed.D.

Director of the Thompson School of
Applied Science

Brian A. Giles, Ed.D.

Director of Admissions

David W. Kraus, M.S.T.

Director of Financial Aid

Richard H. Craig, M.Ed.

University Librarian

Claudia J. Morner, Ph.D.

Director of Records and Registration

Kathryn P. Forbes, B.A.

President, UNH Foundation

Gary J. Martin, Ph.D.

FACULTY

Faculty

(This list is current as of January 1, 1996. The date of appointment appears in parentheses following the faculty member's name.)

†Aber, John D. (1987)

Director of the Complex Systems Research Center and Professor of Natural Resources and Earth, Oceans and Space; B.S., Yale University, 1971; M.F.S., Yale School of Forestry, 1973; Ph.D., Yale University, 1976.

Abrams, Eleanor D. (1994)

Assistant Professor of Education; B.S., University of Massachusetts at Amherst, 1983; Ph.D., Louisiana State University, 1993.

Afolayan, Funso (1996)

Assistant Professor of History; Ph.D., Obafemi Awolowo University, Nigeria, 1991.

Aikins, Janet (1979)

Professor of English; B.A., Grinnell College, 1972; M.S., University of Chicago, 1973; Ph.D., *ibid.*, 1980.

Aldrich, Linda (1991)

Research Assistant Professor of Recreation Management and Policy; B.S., University of New Hampshire, 1984; M.Ed., Boston University, 1986.

Allen, James Y. (1994)

Lieutenant Colonel, U.S. Air Force and Professor of Aerospace Studies; B.S., Norwich University, 1976; M.S., Central Michigan University, 1984.

Amato-Wierda, Carmela C. (1995)

Assistant Professor of Chemistry; B.A., Harvard University, 1988; Ph.D., Rensselaer Polytechnic Institute, 1993.

Andersen, Kenneth K. (1960)

Professor of Chemistry; B.S., Rutgers, The State University of New Jersey, 1955; Ph.D., University of Minnesota, 1959.

Anderson, Franz E. (1967)

Professor of Geology; B.A., Ohio Wesleyan University, 1960; M.A., Northwestern University, 1962; Ph.D., University of Washington, 1967.

Andrew, David S. (1976)

Professor of Art History and the Humanities; B.A., University of Michigan at Ann Arbor, 1965; M.A., *ibid.*, 1968; Ph.D., Washington University, 1977.

Andrew, Michael D. (1966)

Professor of Education; B.S., Cornell University, 1960; A.M.T., Harvard University, 1961; Ed.D., *ibid.*, 1969.

Annicchiarico, Michael J. (1991)

Assistant Professor of Music; B.M., University of New Hampshire, 1976; M.F.A., Brandeis University, 1981; Ph.D., *ibid.*, 1993.

Antosiewicz, Rose T. (1970)

Associate Professor of Italian and the Humanities; A.B., Brown University, 1954; Ph.D., University of California at Los Angeles, 1971.

Appel, Kenneth J. (1993)

Professor of Mathematics; B.S., Queens College, 1953; M.A., University of Michigan at Ann Arbor, 1956; Ph.D., *ibid.*, 1959.

Arlinghaus, Mae Lynn (1991)

UNHM Assistant Professor of Psychology; B.A., Moravian College, 1985; M.A., University of New Hampshire, 1988; Ph.D., *ibid.*, 1991.

Arnoldy, Roger L. (1967)

Director, Space Science Center and Professor of Physics and Earth, Oceans, and Space; B.S., St. Mary's College, 1956; M.S., University of Minnesota, 1959; Ph.D., *ibid.*, 1962.

Ashley, Charles H. (1969)

Associate Professor of Education; A.B., Dartmouth College, 1957; M.Ed., University of New Hampshire, 1960; Ed.D., Boston University, 1969.

Baber, Kristine M. (1984)

Associate Professor of Family Studies; B.A., Southern Illinois University at Carbondale, 1970; M.A., University of Connecticut, 1981; Ph.D., *ibid.*, 1983.

Bailey, Brigitte Gabcke (1987)

Associate Professor of English; B.A., University of Virginia, 1977; A.M., Harvard University, 1980; Ph.D., *ibid.*, 1985.

Baker, Alan L. (1972)

Associate Professor of Plant Biology; B.A., State University of New York at Binghamton, 1965; Ph.D., University of Minnesota, 1973.

Balderacchi, Arthur E. (1965)

Professor of Art; A.B., Duke University, 1960; M.F.A., University of Georgia, 1965.

Baldwin, Kenneth C. (1982)

Associate Professor of Mechanical Engineering and Ocean Engineering and Director, Center for Ocean Engineering; B.S.M.E., Northeastern University, 1973; M.S.M.E., University of New Hampshire, 1977; Ph.D., University of Rhode Island, 1982.

Ballester, Thomas P. (1983)

Associate Professor of Civil Engineering and Director, Water Resources Research Center; B.S.C.E., Pennsylvania State University, 1975; M.S.C.E., *ibid.*, 1977; Ph.D., Colorado State University, 1981.

Balling, L. Christian (1967)

Professor of Physics; B.A., Oberlin College, 1960; M.A., Harvard University, 1961; Ph.D., *ibid.*, 1965.

Banach, Mary (1995)

Assistant Professor of Social Work; B.A., University of Wisconsin at Milwaukee, 1975; M.S.W., New York University, 1978; D.S.W., Columbia University, 1995.

Banyard, Victoria L. (1995)

Assistant Professor of Psychology; B.A., Brown University, 1988; M.A., University of Michigan at Ann Arbor, 1990; Ph.D., *ibid.*, 1994.

Barber, Heather (1993)

Assistant Professor of Kinesiology; B.S., St. Lawrence University, 1978; M.S., Pennsylvania State University, 1982; Ph.D., University of Oregon, 1992.

Barkey, Dale P. (1987)

Associate Professor of Chemical Engineering; B.A., Clark University, 1979; M.S., University of Cincinnati, 1982; Ph.D., University of California at Berkeley, 1987.

Barnett, Carole K. (1994)

Assistant Professor of Management; B.A., University of Michigan at Ann Arbor, 1989; M.A., *ibid.*, 1992; Ph.D., *ibid.*, 1994.

Barney, Dwight E. (1971)

Thompson School Associate Professor of Applied Animal Science; B.S., University of New Hampshire, 1966; M.S., *ibid.*, 1971.

†Barrett, James P. (1962)

Professor of Forest Biometrics and Management; B.S., North Carolina State University, 1954; M.F., Duke University, 1958; Ph.D., *ibid.*, 1962.

Barretto, Timothy E. (1986)

Thompson School Associate Professor of Communications; B.A., University of New Hampshire, 1974; M.A., *ibid.*, 1982.

Barstow, Thomas R. (1965)

Assistant Professor of Kinesiology; B.S., St. Lawrence University, 1961; M.Ed., *ibid.*, 1965.

Barton, Richard M. (1991)

Assistant Professor of Education; B.A., Dartmouth College, 1977; M.A., Johnson State College, 1982; Ph.D., University of Georgia, 1991.

Bauer, Christopher F. (1981)

Associate Professor of Chemistry; B.S., University of Notre Dame, 1974; M.S., University of Illinois at Urbana-Champaign, 1976; Ph.D., Colorado State University, 1979.

Baum, William M. (1977)

Professor of Psychology; A.B., Harvard University, 1961; Ph.D., *ibid.*, 1966.

†Bean, Christine L. (1990)

Assistant Professor of Medical Laboratory Science; B.S., University of New Hampshire, 1982; M.B.A., New Hampshire College, 1993.

Bechtell, Homer F., Jr. (1966)

Professor of Mathematics; B.S., Grove City College, 1951; M.A., University of Wisconsin at Madison, 1956; Ph.D., *ibid.*, 1963.

†Becker, Mimi L. (1993)

Assistant Professor of Natural Resources Policy; B.A., Carleton College, 1957; M.A., Duke University, 1989; Ph.D., *ibid.*, 1993.

Bedker, Patricia D. (1985)

Associate Dean of the College of Life Sciences and Agriculture and Associate Professor of Animal Science and Adult Education; B.S., University of Massachusetts at Amherst, 1974; M.S., University of New Hampshire, 1980; Ph.D., Cornell University, 1985.

Bellamy, Elizabeth Jane (1993)

Assistant Professor of English; B.A., Goucher College, 1972; M.A., Duke University, 1973; Ph.D., *ibid.*, 1982.

Bellinger, Christina (1991)

Assistant Professor, Librarian; B.A., Windham College, 1975; M.S., Simmons College, 1978.

Benassi, Victor A. (1982)

Professor of Psychology; B.S., California State College, 1969; M.A., Queens College, 1973; Ph.D., City College of New York, 1974.

Bennett, Albert B., Jr. (1967)

Professor of Mathematics; B.S., Maine Maritime Academy, 1954; B.S., University of Maine at Orono, 1958; M.A., *ibid.*, 1959; Ed.D., University of Michigan at Ann Arbor, 1966.

Benoit, Jean (1983)

Associate Professor of Civil Engineering; B.S., Ecole Polytechnique, University of Montreal, 1977; M.S., Stanford University, 1980; Ph.D., *ibid.*, 1983.

†Benson, Steven R. (1995)

Visiting Instructor of Mathematics; B.S., University of Texas at El Paso, 1983; M.S., University of Illinois at Urbana-Champaign, 1987; Ph.D., *ibid.*, 1988.

Berenguier, Nadine S. (1995)

Assistant Professor of French; D.E.U.G., Sorbonne University, France, 1976; Licence, *ibid.*, 1980; M.A., University of Pittsburgh, 1983; Ph.D., Stanford University, 1988.

Bergeron, Linda Rene (1992)

Instructor of Social Work; B.A., University of New Hampshire, 1973; M.S.W., University of Connecticut, 1981.

Bergeron, R. Daniel (1974)

Professor of Computer Science; Sc.B., Brown University, 1966; Ph.D., *ibid.*, 1973.

*†Berndtson, William E. (1979)

Professor of Animal Science; B.S., University of Connecticut, 1966; Ph.D., Cornell University, 1971.

Bernhard, Jennifer T. (1995)

Assistant Professor of Electrical Engineering; B.S., Cornell University, 1990; Ph.D., *ibid.*, 1994.

*Indicates time devoted to Cooperative Extension

†Indicates time devoted to Agricultural Experiment Station

‡Indicates part-time status (88-99 percent time)

- Birch, Francis S.** (1972)
Professor of Earth Sciences; A.B., Harvard University, 1958; M.S., University of Wisconsin at Madison, 1964; Ph.D., Princeton University, 1969.
- Birch, Thomas D.** (1987)
UNHM Associate Professor of Economics; B.A., Kenyon College, 1977; M.A., Indiana University at Bloomington, 1980; Ph.D., *ibid.*, 1983.

- *+Blanchard, Robert O.** (1972)
Professor of Biology (Plant Pathology); B.S., University of Southern Maine, 1964; M.Ed., University of Georgia, 1969; Ph.D., *ibid.*, 1971.
- Bobick, Melvin T.** (1958)
Professor of Sociology; A.B., University of Illinois at Urbana-Champaign, 1949; A.M., *ibid.*, 1952; Ph.D., *ibid.*, 1958.
- +Bobiliya, Dennis J.** (1991)
Assistant Professor of Nutritional Sciences; B.S., Purdue University, 1982; M.S., Michigan State University, 1985; Ph.D., University of Missouri, 1989.
- Boccialetti, Gene** (1983)
Associate Professor of Organizational Behavior; B.S., Fairfield University, 1969; Ph.D., Case Western Reserve University, 1982.
- Bogle, A. Linn** (1970)
Professor of Plant Biology; B.S., University of Washington, 1958; M.S., *ibid.*, 1961; Ph.D., University of Minnesota, 1968.
- Bolian, Charles E.** (1971)
Associate Professor of Anthropology; B.A., Mississippi State University, 1965; Ph.D., University of Illinois at Urbana-Champaign, 1975.
- Bolster, W. Jeffrey** (1991)
Assistant Professor of History; B.A., Trinity College, 1976; M.A., Brown University, 1984; Ph.D., Johns Hopkins University, 1991.
- Bonnice, William E.** (1962)
Associate Professor of Mathematics; B.A.E., Syracuse University, 1951; M.S., University of Washington, 1960; Ph.D., *ibid.*, 1962.
- Bornstein, Steven P.** (1989)
Associate Professor of Communication Disorders and Director of Audiology Clinic; B.S., Northeastern University, 1975; M.Ed., *ibid.*, 1977; Ph.D., University of Connecticut, 1981.
- Bothner, Wallace A.** (1967)
Professor of Geology; B.A., State University of New York at Binghamton, 1963; Ph.D., University of Wyoming, 1967.
- +Boulton, Elizabeth P.** (1988)
Associate Professor of Animal Science and Station Veterinarian; D.V.M., University of Georgia, 1980.
- +Bowden, William B.** (1987)
Associate Professor of Water Resources Management; B.S., University of Georgia, 1973; M.S., North Carolina State University, 1976; Ph.D., *ibid.*, 1982.
- Boy, Angelo V.** (1965)
Professor of Education; A.B., University of Notre Dame, 1953; Ed.M., Boston University, 1955; Ed.D., *ibid.*, 1960.
- Bozak, John C., Jr.** (1967)
Thompson School Professor of Forest Technology; B.S., University of Connecticut, 1962; M.F., Yale School of Forestry, 1963.
- Bradford, William D., III** (1991)
Assistant Professor of Economics; B.S., Mississippi State University, 1987; M.S., Louisiana State University, 1989; Ph.D., *ibid.*, 1991.
- Brannaka, Larry K.** (1994)
Research Assistant Professor of Civil Engineering; B.S.C.E., Lehigh University, 1978; M.S.C.E., Colorado State University, 1980; Ph.D., Pennsylvania State University, 1993.
- Briggs, Janet C.** (1963)
Assistant Professor of Animal Science; B.S., University of Massachusetts at Amherst, 1962.
- Brockelman, Paul T.** (1963)
Professor of Philosophy; A.B., Dartmouth College, 1957; M.A., Northwestern University, 1963; Ph.D., *ibid.*, 1968.
- Bronstein, Arna Beth** (1981)
Associate Professor of Russian; B.A., Colgate University, 1975; M.A., University of Pennsylvania, 1979; Ph.D., *ibid.*, 1986.
- Brown, Deborah** (1976)
UNHM Associate Professor of English; B.A., Wellesley College, 1963; M.Ed., University of New Hampshire, 1975; Ph.D., *ibid.*, 1976; M.F.A., Warren Wilson College, 1991.
- Brown, Donna B.** (1985)
Assistant Professor of the Humanities; B.A., Willamette University, 1966; M.A., Claremont Graduate School and University Center, 1971; Ph.D., *ibid.*, 1978.
- Brown, Roger S.** (1974)
Associate Professor of German; A.B., Emory University, 1966; M.A., University of Kansas, 1969; Ph.D., *ibid.*, 1971.
- Brown, Sarah Jo** (1990)
Assistant Professor of Nursing; B.S.N., Case Western Reserve University, 1964; M.S.N., Boston University, 1970; Ph.D., University of Rhode Island, 1990.
- Brown, Warren R.** (1972)
Associate Professor of Political Science and Humanities; B.A., Willamette University, 1966; M.A., Claremont Graduate School and University Center, 1972; Ph.D., *ibid.*, 1976.
- Brown, Wendell S.** (1974)
Professor of Earth Sciences and Earth, Oceans, and Space and Director of the Ocean Process Analysis Laboratory; B.S., Brown University, 1965; M.S., *ibid.*, 1967; Ph.D., Massachusetts Institute of Technology, 1971.
- Bruce, Toni** (1993)
Assistant Professor of Kinesiology; B.Ph.Ed., Otago University, New Zealand, 1987; Ph.D., University of Illinois at Urbana-Champaign, 1995.
- Buckley, Louise A.** (1994)
Assistant Professor, Librarian; B.A., St. John's University, 1979; M.A., *ibid.*, 1981; M.L.S., Rutgers University, 1992.
- Bucklin, Ann C.** (1992)
Director of UNH Sea Grant College Program and Research Associate Professor of Zoology and Earth, Oceans, and Space and Genetics; A.B., Oberlin College, 1975; Ph.D., University of California at Berkeley, 1980.
- Burdick, David M.** (1992)
Research Assistant Professor of Natural Resources and Marine Sciences; B.S., Hobart College, 1977; Ph.D., Louisiana State University, 1988.
- +Burger, John F.** (1977)
Professor of Zoology; B.A., Grinnell College, 1962; M.Sc., University of Arizona, 1965; Ph.D. *ibid.* 1971.
- Burton, David M.** (1959)
Professor of Mathematics; B.A., Clark University, 1954; A.M., University of Rochester, 1956; Ph.D. *ibid.* 1961.
- Burton, Martha B.** (1982)
Skills Application Teacher and Director of Mathematics Center; B.A., University of Rochester, 1958; M.S., *ibid.*, 1960.
- +Byam, Martha A.** (1992)
Instructor of Social Work; B.A., University of New Hampshire, 1975; M.S.W., University of Utah, 1979.
- Calarco, John R.** (1981)
Professor of Physics; B.S., George Washington University, 1963; M.S., University of Illinois at Urbana-Champaign, 1965; Ph.D., *ibid.*, 1969.
- Calculator, Stephen N.** (1983)
Professor of Communication Disorders; B.A., State University of New York College at Oswego, 1974; M.S., State University of New York College at Geneseo, 1975; Ph.D., University of Wisconsin at Madison, 1980.
- Callan, Richard J.** (1969)
Professor of Spanish and the Humanities; A.B., Iona College, 1957; M.A., Fordham University, 1959; Ph.D., St. Louis University, 1965.
- Camobreco, John** (1995)
Assistant Professor of Political Science; B.A., State University of New York at Albany; Ph.D., University of Binghamton, England, 1995.
- Campbell, Janet W.** (1993)
Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.A., Mary Baldwin College, 1966; M.A., Vanderbilt University, 1968; Ph.D., Virginia Polytechnic Institute and State University, 1973.
- Caramihalis, Charles A.** (1984)
Thompson School Associate Professor of Food Service Management; B.S., University of New Hampshire, 1981; M.O.E., *ibid.*, 1987.
- +Carey, Gale B.** (1989)
Associate Professor of Nutritional Sciences; B.S., University of Massachusetts at Amherst, 1974; M.S., University of Wisconsin at Madison, 1976; Ph.D., University of California at Davis, 1981.
- Carney, John J.** (1973)
Associate Professor of Education; B.A., Seton Hall University, 1963; M.A., *ibid.*, 1967; Ph.D., Syracuse University, 1973.
- Carnicelli, Thomas A.** (1967)
Professor of English and the Humanities; A.B., Princeton University, 1958; M.A., Harvard University, 1960; Ph.D., *ibid.*, 1966.
- Carr, Russell T.** (1984)
Associate Professor of Chemical Engineering; B.S., Brigham Young University, 1980; M.S., University of Rochester, 1983; Ph.D., *ibid.*, 1984.
- Carroll, John E.** (1974)
Professor of Environmental Conservation; A.B., Louisiana Technical University, 1966; M.A., Western Michigan University, 1968; Ph.D., Michigan State University, 1974.
- Carter, Michael J.** (1987)
Associate Professor of Electrical Engineering; B.S.E., University of Michigan at Ann Arbor, 1975; M.S., Stanford University, 1976; Ph.D., University of Michigan at Ann Arbor, 1984.
- +Catiaw, Kerriann** (1995)
Instructor of Kinesiology; B.S.E., State University of New York College at Cortland, 1992; M.Ed., University of Virginia, 1994.
- Celikkol, Barbaros** (1969)
Professor of Mechanical Engineering and Ocean Engineering; B.A., Elon College, 1964; M.S., Stevens Institute of Technology, 1967; Ph.D., University of New Hampshire, 1972.
- Cerullo, John J.** (1983)
UNHM Associate Professor of History; B.A., University of Pennsylvania, 1971; M.A., *ibid.*, 1976; Ph.D., *ibid.*, 1980.

- Chamberlin, Kent** (1985)
Professor of Electrical Engineering; B.S., Ohio University, 1974; M.S., *ibid.*, 1976; Ph.D., *ibid.*, 1982.
- †**Chandler, Donald S.** (1981)
Professor of Zoology and Curator; B.S., University of California at Davis, 1971; M.S., University of Arizona, 1973; Ph.D., Ohio State University, 1976.
- Chasteen, N. Dennis** (1972)
Professor of Chemistry; A.S., Flint Junior College, 1962; A.B., University of Michigan at Ann Arbor, 1965; M.S., University of Illinois at Urbana-Champaign, 1966; Ph.D., *ibid.*, 1969.
- Chaston, John M.** (1989)
Associate Professor of Spanish; B.A., Brigham Young University, 1980; M.A., *ibid.*, 1982; Ph.D., University of Texas at Austin, 1987.
- Christie, Drew** (1981)
Associate Professor of Philosophy; B.A., Princeton University, 1974; M.S.L., Yale University Law School, 1978; Ph.D., Massachusetts Institute of Technology, 1983.
- Chupp, Edward L.** (1962)
Professor of Physics and Earth, Oceans, and Space; A.B., University of California at Berkeley, 1950; Ph.D., *ibid.*, 1954.
- Churchill, Joan W.** (1994)
Assistant Professor of Theater and Dance; B.A., Ripon College, 1966; M.F.A., Carnegie Mellon University, 1968.
- Cielinski, Kerry** (1995)
Assistant Professor of Family Studies; B.A., University of Southern Maine, 1989; M.S., Auburn University, 1992; Ph.D., *ibid.*, 1995.
- Cioffi, Grant L.** (1980)
Associate Professor of Education; A.B., Stanford University, 1973; Ph.D., University of Minnesota, 1980.
- †**Clairmont, Richard E.** (1986)
Assistant Professor of Classics; B.A., University of New Hampshire, 1971; M.A., University of Virginia, 1973; Ph.D., Loyola University at Chicago, 1983.
- Clark, Charles E.** (1967)
Professor of History and the Humanities; A.B., Bates College, 1951; M.S., Columbia University, 1952; Ph.D., Brown University, 1966.
- †**Clark, Janine A.** (1995)
Assistant Professor of Political Science; B.S.L., University of Waterloo, Canada, 1985; M.A., Carleton College, 1988; Ph.D., University of Toronto, Canada, 1994.
- Clark, Mary Morris** (1978)
Professor of English; B.A., University of New Hampshire, 1962; Ph.D., University of Massachusetts at Amherst, 1978.
- Clark, Ronald R.** (1957)
Professor of Electrical Engineering; B.S., University of New Hampshire, 1956; M.E., Yale University, 1957; Ph.D., Syracuse University, 1963.
- Cohn, Ellen S.** (1978)
Professor of Psychology; B.A., Clark University, 1974; M.A., Temple University, 1976; Ph.D., *ibid.*, 1978.
- †**Collins, John J.** (1988)
Associate Professor of Biochemistry and Molecular Biology and Genetics; B.A., Colgate University, 1976; Ph.D., University of Wisconsin at Madison, 1984.
- Collins, Michael R.** (1985)
Associate Professor of Civil Engineering; B.S.C.E., Virginia Polytechnic Institute and State University, 1970; M.S.L., *ibid.*, 1972; Ph.D., University of Arizona, 1985.
- †**Condon, William A.** (1976)
Professor of Animal Science; B.A., Merrimack College, 1965; M.S., University of Massachusetts at Amherst, 1968; Ph.D., *ibid.*, 1975.
- †**Congalton, Russell G.** (1991)
Associate Professor of Remote Sensing & Geographic Information Systems; B.S., Cook College, Rutgers University, 1979; M.S., Virginia Polytechnic Institute and State University, 1981; Ph.D., *ibid.*, 1984.
- Connors, Robert J.** (1984)
Professor of English; B.A., University of Massachusetts at Amherst, 1973; M.A., Ohio State University, 1977; Ph.D., *ibid.*, 1980.
- Conroy, Andrew B.** (1990)
Thompson School Associate Professor of Applied Animal Science; B.S., University of New Hampshire, 1986; M.S., Northwest Missouri State University, 1987.
- Contarino, Michael** (1993)
UNHM Assistant Professor of Political Science; B.A., Connecticut College, 1976; Ph.D., Harvard University, 1984.
- Conway, Karen Smith** (1987)
Associate Professor of Economics; B.A., Eastern Illinois University, 1982; Ph.D., University of North Carolina at Chapel Hill, 1987.
- Cook, Raymond A.** (1992)
Assistant Professor of Civil Engineering; A.B., University of Illinois at Urbana-Champaign, 1981; B.S.C.E., *ibid.*, 1981; M.S.C.E., Cornell University, 1991; Ph.D., *ibid.*, 1992.
- Coon, Deborah J.** (1995)
Assistant Professor of Psychology and Adjunct Assistant Professor of History; A.B., Bucknell University, 1976; M.A., University of Colorado at Boulder, 1980; M.A., Harvard University, 1985; Ph.D., *ibid.*, 1988.
- Cooper, Barbara T.** (1978)
Professor of French; B.A., University of Wisconsin at Madison, 1966; M.A., *ibid.*, 1967; Ph.D., *ibid.*, 1974.
- Cooper, Julianne S.** (1994)
UNHM FIR-Assistant Professor of History and Humanities; B.G.S., University of New Hampshire, 1978; M.A., *ibid.*, 1988; Ph.D., *ibid.*, 1992.
- Copeland, Arthur H., Jr.** (1968)
Professor of Mathematics; B.S., University of Michigan at Ann Arbor, 1949; M.A., *ibid.*, 1950; Ph.D., Massachusetts Institute of Technology, 1954.
- Corcoran, Ellen P.** (1972)
Associate Professor of Education; B.A., Bryn Mawr College, 1962; M.A.T., New York University, 1968; Ph.D., *ibid.*, 1972.
- †**Cote, Rick H.** (1988)
Associate Professor of Biochemistry and Molecular Biology; B.S., Tufts University, 1974; Ph.D., University of Wisconsin at Madison, 1980.
- Craig, Robert E.** (1966)
Associate Professor of Political Science; B.A., Adelphi University, 1960; Ph.D., University of North Carolina at Chapel Hill, 1971.
- Craycraft, Catherine A.** (1991)
Virginia Paul Dee Assistant Professor of Accounting; B.A., University of Cincinnati, 1983; M.A., University of Missouri at Columbia, 1985; Ph.D., Ohio State University, 1991; C.P.A..
- Crepeau, Elizabeth L.** (1981)
Associate Professor of Occupational Therapy; B.S., University of New Hampshire, 1966; M.A., *ibid.*, 1988; Ph.D., *ibid.*, 1994.
- Crill, Patrick M.** (1988)
Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.S., University of Massachusetts at Amherst, 1978; M.S., University of North Carolina at Chapel Hill, 1981; Ph.D., *ibid.*, 1984.
- Croce, Ronald C.** (1986)
Professor of Kinesiology; B.S., Brooklyn College, City University of New York, 1973; M.Ed., Temple University, 1975; Ph.D., University of New Mexico, 1983.
- Crosby, Peter R.** (1987)
Assistant Professor, Librarian; B.A., Keene State College, 1971; A.M.L.S., University of Michigan at Ann Arbor, 1974; A.A.S., University of New Hampshire, 1977.
- †**Crow, Garrett E.** (1975)
Professor of Plant Biology; A.B., Taylor University, 1965; M.S., Michigan State University, 1968; Ph.D., *ibid.*, 1974.
- †**Curran-Celentano, Joanne** (1982)
Associate Professor of Nutritional Sciences; B.S., Rutgers, The State University of New Jersey, 1976; M.S., *ibid.*, 1978; Ph.D., University of Illinois at Urbana-Champaign, 1982.
- Daley, Patrick J.** (1988)
Associate Professor of Communication; B.A., University of North Dakota, 1972; M.A., University of Iowa, 1975; Ph.D., *ibid.*, 1983.
- Davenport, Gilbert B.** (1962)
Associate Professor of Theatre and Dance; B.A., Case Western Reserve University, 1956; Certification, Naval Intelligence School, 1958; M.A., University of Denver, 1961; Ph.D.C., Indiana University at Bloomington, 1970.
- Davis, John Matthew** (1993)
Assistant Professor of Hydrogeology; B.S., Montana State University, 1987; M.S., New Mexico Institute of Mining and Technology, 1990; Ph.D., *ibid.*, 1994.
- †**Davis, Thomas M.** (1984)
Associate Professor of Plant Biology and Genetics; B.S., California Polytechnic State University, 1980; Ph.D., University of California at Davis, 1985.
- Dawson, John F.** (1968)
Professor of Physics; B.S., Antioch College, 1958; Ph.D., Stanford University, 1963.
- de Alba, Pedro A.** (1977)
Assistant Professor of Civil Engineering; C.E., National University of Mexico, 1965; M.E., University of California at Berkeley, 1969; Ph.D., *ibid.*, 1975.
- de la Torre, Pilar** (1989)
Assistant Professor of Computer Science; B.S., University of Cordoba, Argentina, 1966; M.S., State University of New York at Buffalo, 1972; Ph.D., University of Maryland, 1987.
- DeMitchell, Todd A.** (1990)
Associate Professor of Education; B.A., University of LaVerne, 1969; M.A.T., *ibid.*, 1973; M.A., University of California at Davis, 1990; Ed.D., University of Southern California, 1979.
- †**Denis, Clyde L.** (1982)
Professor of Biochemistry and Molecular Biology and Genetics; B.S., University of Illinois at Urbana-Champaign, 1973; M.S., University of Washington, 1976; Ph.D., *ibid.*, 1982.
- Denman, Margaret-Love G.** (1992)
Assistant Professor of English; B.A., University of Mississippi, 1961; M.A., *ibid.*, 1967.
- DePorte, Michael V.** (1972)
Professor of English; B.A., University of Minnesota, 1960; M.A., Stanford University, 1964; Ph.D., *ibid.*, 1966.
- Desrosiers, Richard V.** (1965)
Associate Professor of Classics; A.B., Boston College, 1960; A.M., University of Wisconsin at Madison, 1961; Ph.D., University of North Carolina at Chapel Hill, 1969.
- DeTurk, Mark S.** (1988)
Associate Professor of Music; B.S.E., Princeton University, 1972; B.M., University of Wisconsin at Madison, 1975; M.M., Ohio State University, 1982; Ph.D., University of Wisconsin at Madison, 1988.

- deVries, Willem A.** (1988)
Associate Professor of Philosophy; B.A., Haverford College, 1972; M.A., University of Pittsburgh, 1975; Ph.D., *ibid.*, 1981.
- Dibb, Jack E.** (1991)
Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.S., University of Puget Sound, 1981; M.A., State University of New York at Binghamton, 1983; Ph.D., *ibid.*, 1988.
- Dickens, Amy S.** (1978)
Teacher-Trainer of Animal Science; B.S., University of New Hampshire, 1976; M.S., *ibid.*, 1988.
- Diefendorf, Jeffrey M.** (1976)
Professor of History; A.B., Stanford University, 1967; M.A., University of California at Berkeley, 1968; Ph.D., *ibid.*, 1975.
- Dietrich, Susan** (1989)
Assistant Professor of Communication Disorders; B.A., San Diego State University, 1978; M.S., University of Oklahoma, 1983; Ph.D., *ibid.*, 1990.
- Diller, Ann L.** (1973)
Associate Professor of Education; B.A., Maryville College, 1960; M.A., Tulsa University, 1962; Ed.D., Harvard University, 1971.
- Diller, Karl C.** (1972)
Professor of English; B.A., University of Pittsburgh, 1961; Ed.M., Harvard University, 1964; Ph.D., *ibid.*, 1967.
- Dingman, S. Lawrence** (1975)
Professor of Hydrology and Water Resources; A.B., Dartmouth College, 1960; A.M., Harvard University, 1961; Ph.D., *ibid.*, 1970.
- Dodge, Peter** (1964)
Associate Professor of Sociology; B.A., Swarthmore College, 1948; A.M., Harvard University, 1950; Ph.D., *ibid.*, 1961.
- Dolan, Elizabeth M.** (1980)
Associate Professor of Family Studies; B.A., University of California at Santa Barbara, 1971; M.A., Michigan State University, 1973; Ph.D., Virginia Polytechnic Institute and State University, 1980.
- Donnelly, Michael J.** (1991)
Associate Professor of Sociology; A.B., Harvard University, 1972; Ph.D., University of London, England, 1977.
- Dorsey, Kurk** (1994)
Assistant Professor of History; B.A., Cornell University, 1987; M.A., Northwestern University, 1989; Ph.D., Yale University, 1994.
- †Doucet, Lorraine D.** (1987)
UNHM Assistant Professor of Biology/Lab Supervisor; B.A., Notre Dame College, 1961; M.S., Rivier College, 1968; Ph.D., Clark University, 1974.
- Drake, Allen D.** (1983)
Associate Professor of Electrical Engineering; B.S., University of Rhode Island, 1967; S.M., Massachusetts Institute of Technology, 1968; E.E., *ibid.*, 1969; A.M., Harvard University, 1971; Ph.D., Tufts University, 1978.
- Draper, Ralph W.** (1985)
Associate Professor of Mechanical Engineering Technology; B.S.M.E., University of Maine at Orono, 1965; M.S.M.E., *ibid.*, 1970.
- Drugan, Robert C.** (1995)
Assistant Professor of Psychology; B.A., Susquehanna University, 1979; M.A., University of Colorado at Boulder, 1981; Ph.D., *ibid.*, 1984.
- Drumheller, Grant** (1986)
Associate Professor of Art; B.F.A., Boston University, 1976; M.F.A., *ibid.*, 1978.
- Drysdale, Alasdair D.** (1976)
Professor of Geography; B.A., University of Durham, England, 1971; M.A., *ibid.*, 1972; Ph.D., University of Michigan at Ann Arbor, 1977.
- Duncan, Cynthia M.** (1989)
Associate Professor of Sociology; B.A., Stanford University, 1971; M.A., University of Kentucky, 1981; Ph.D., *ibid.*, 1985.
- Durocher, Joseph F., Jr.** (1986)
Associate Professor of Hospitality Management; B.A., Columbia University, 1970; B.S., Cornell University, 1973; M.P.S., *ibid.*, 1974; Ph.D., *ibid.*, 1980.
- Dusek, R. Valentine** (1966)
Associate Professor of Philosophy; B.A., Yale University, 1963; Ph.D., University of Texas at Austin, 1972.
- †Eaton, Jeffrey A.** (1994)
Assistant Professor of Nursing; Diploma, New Hampshire Hospital School of Nursing, 1978; B.S.N., Boston University, 1981; M.S.N., University of Lowell, 1989.
- Echt, Olof** (1990)
Associate Professor of Physics; Diploma, Free University Berlin, Germany, 1975; Ph.D., University of Konstanz, Germany, 1979.
- †Eckert, Robert T.** (1978)
Associate Professor of Natural Resources and Genetics; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1967; M.S., *ibid.*, 1974; Ph.D., Ohio State University, 1978.
- Eggers, Walter F.** (1989)
Provost and Vice President for Academic Affairs and Professor of English; B.A., Duke University, 1964; Ph.D., University of North Carolina at Chapel Hill, 1971.
- Eighmy, T. Taylor** (1987)
Research Associate Professor of Civil Engineering and Director, Environmental Research Group; B.S., Tufts University, 1980; M.S., University of New Hampshire, 1983; Ph.D., *ibid.*, 1986.
- Elmslie, Bruce T.** (1989)
Associate Professor of Economics; B.S., Westminster College, Utah, 1983; Ph.D., University of Utah, 1988.
- †Ely, Elizabeth** (1984)
Assistant Professor of Nursing; B.S.N., Duke University, 1976; M.S., University of Maryland, 1980.
- Emison, Patricia A.** (1987)
Associate Professor of Art History and the Humanities; B.A., Bryn Mawr College, 1978; M.A., Columbia University, 1980; M.Phil., *ibid.*, 1982; Ph.D., *ibid.*, 1985.
- England, Richard W.** (1976)
Professor of Economics; B.A., Oakland University, 1965; M.A., University of Michigan at Ann Arbor, 1967; Ph.D., *ibid.*, 1974.
- Enos, Chris** (1986)
Associate Professor of Art; B.F.A., San Francisco State University, 1969; M.F.A., San Francisco Art Institute, 1971.
- Ernest, John Richard** (1993)
Assistant Professor of English; B.A., State University of New York at Binghamton, 1978; M.A., University of Virginia, 1984; Ph.D., *ibid.*, 1989.
- Erni, John N.** (1993)
Assistant Professor of Communication; B.A., Whitworth College, 1985; M.A., University of Oregon, 1987; Ph.D., University of Illinois at Urbana-Champaign, 1992.
- Eshbach, Robert W.** (1987)
Associate Professor of Music; Certificate, University of Vienna, 1971; B.A., Yale University, 1973; M.M., New England Conservatory of Music, 1976.
- †Estes, George O.** (1969)
Professor of Plant Biology; B.S., University of Maine at Orono, 1958; M.S., *ibid.*, 1960; Ph.D., Oregon State University, 1969.
- Etebari, Ahmad** (1980)
Professor of Business Administration; B.B.A., Teheran Business College, Iran, 1973; M.B.A., Texas A & M University, 1975; Ph.D., North Texas State University, 1979.
- †Evans, Christine V.** (1987)
Associate Professor of Pedology; B.S., Michigan State University, 1976; M.S., Purdue University, 1984; Ph.D., University of Wyoming, 1987.
- †Fagerberg, Wayne R.** (1984)
Associate Professor of Plant Biology (Cell Biology); B.S., University of Wyoming, 1967; M.S., University of South Florida, 1972; Ph.D., *ibid.*, 1975.
- †Fairbrother, Rita** (1990)
Instructor of Mathematics; B.S., Northeastern University, 1965; M.S.T., University of New Hampshire, 1986; M.S., *ibid.*, 1989.
- Fairchild, Thomas P.** (1969)
Professor of Animal Science and Genetics; B.S., University of New Hampshire, 1959; M.S., University of Wisconsin at Madison, 1961; Ph.D., *ibid.*, 1964.
- Falvey, Janet Elizabeth** (1984)
Associate Professor of Education; B.S., University of Maryland, 1977; M.A., University of New Hampshire, 1980; Ph.D., Pennsylvania State University, 1983.
- Fan, Stephen S.T.** (1962)
Professor of Chemical Engineering; B.S., Stanford University, 1957; M.S., *ibid.*, 1960; Ph.D., *ibid.*, 1962.
- Fant, L. Franklin, Jr.** (1994)
Assistant Professor of Finance; B.S., Clemson University, 1986; Ph.D., Florida State University, 1994.
- Farag, Ihab H.** (1976)
Professor of Chemical Engineering; B.S., Cairo University, Egypt, 1967; M.S., Massachusetts Institute of Technology, 1970; Sc.D., *ibid.*, 1976.
- Farrell, James M.** (1988)
Associate Professor of Communication; B.A., Bridgewater State College, 1979; M.A., University of Maine at Orono, 1982; Ph.D., University of Wisconsin at Madison, 1988.
- Feintuch, Burt H.** (1988)
Director of Center for the Humanities and Professor of English; B.A., Pennsylvania State University, 1971; M.A., University of Pennsylvania, 1972; Ph.D., *ibid.*, 1975.
- Feldman, David V.** (1987)
Associate Professor of Mathematics; B.A., Yale University, 1977; Ph.D., Wesleyan University, 1987.
- Ferber, Michael K.** (1987)
Professor of English and the Humanities; B.A., Swarthmore College, 1966; M.A., Harvard University, 1969; Ph.D., *ibid.*, 1975.
- Fernald, Peter S.** (1966)
Professor of Psychology; A.B., Amherst College, 1958; M.S., Springfield College, 1959; Ph.D., Purdue University, 1963.
- Ferrini-Mundy, Joan** (1983)
Professor of Mathematics; B.S., University of New Hampshire, 1975; M.S., *ibid.*, 1977; Ph.D., *ibid.*, 1980.
- †Fetzer, Susan J.** (1990)
Assistant Professor of Nursing; B.A., University of Connecticut, 1973; B.S.N., *ibid.*, 1975; M.S.N., University of Alabama, 1980; M.B.A., New Hampshire College, 1990.
- Fink, Stephen L.** (1969)
Professor of Organizational Behavior; B.S., Union College, 1954; Ph.D., Case Western Reserve University, 1959.
- Finkelhor, David** (1992)
Research Professor of Sociology; Ph.D., University of New Hampshire, 1978.

- Fisher, Carol J.** (1993)
Faculty-in-Residence, Instructor in Theatre and Dance; B.A., University of South Florida, 1979; M.A., Arizona State University, 1981.
- Fisher, Lester A.** (1968)
Professor of English. B.A., University of Maine at Orono, 1966; M.A., University of New Hampshire, 1970; Ph.D., Brown University, 1976.
- Flesher, Kenneth L.** (1990)
Thompson School Assistant Professor of Civil Technology; B.S., University of Pittsburgh, 1981; M.S.C.E., University of New Hampshire, 1994.
- Fleszar, Aleksandra** (1979)
Associate Professor of Russian; B.A., State University of New York at Buffalo, 1969; M.A., Ohio State University, 1972; Ph.D., *ibid.*, 1984.
- Forbes, F. William** (1970)
Professor of Spanish; A.B., Stanford University, 1965; M.A., University of Arizona, 1967; Ph.D., *ibid.*, 1971.
- Forbes, Terry** (1987)
Research Professor of Physics and Earth, Oceans and Space; B.S., Purdue University, 1968; M.S., University of Colorado at Boulder, 1970; Ph.D., *ibid.*, 1978.
- Forest, David A.** (1979)
Associate Professor of Electrical Engineering Technology; B.S.E.E., Northeastern University, 1968; M.S.E.E., *ibid.*, 1974.
- Forrest, David J.** (1984)
Research Associate Professor of Physics and Earth, Oceans, and Space; B.S., Lowell Technological Institute, 1963; Ph.D., University of New Hampshire, 1969.
- Fowler, Benjamin P.** (1987)
Thompson School Associate Professor of Applied Business Management; B.A., Campus Free College, Boston, 1976; M.B.A., University of New Hampshire, 1978; C.A.G.S., *ibid.*, 1993.
- †**Foxall, Thomas L.** (1984)
Associate Professor of Animal Science; B.S., Lebanon Valley College, 1968; M.S., University of Bridgeport, 1977; Ph.D., University of New Hampshire, 1980.
- Francese, Paula** (1991)
Assistant Professor of Hospitality Management; B.A., Ithaca College, 1970; M.P.S., Cornell University, 1986; Ph.D., *ibid.*, 1991.
- Frankel, Barbara R.** (1988)
Associate Professor of Family Studies and Director, Marriage and Family Therapy Program; B.A., University of Wisconsin at Madison, 1970; M.S.W., Kent State University, 1976; Ph.D., Purdue University, 1988.
- Frankfurter, David** (1995)
Assistant Professor of History and Religious Studies; B.A., Wesleyan University, 1983; M.T.S., Harvard Divinity School, 1988; M.A., Princeton University, 1988; Ph.D., *ibid.*, 1990.
- Franzosa, Susan D.** (1979)
Professor of Education and the Humanities; B.A., University of Connecticut, 1968; M.Ed., State University of New York at Buffalo, 1973; Ph.D., *ibid.*, 1979.
- Freear, John** (1983)
Associate Dean of the Whittemore School of Business and Economics and Professor of Accounting and Finance; B.A., Cambridge University, England, 1963; M.A., *ibid.*, 1967; M.A., University of Kent, England, 1969; F.C.A.
- Freedman, Diane P.** (1992)
Assistant Professor of English; A.B., Cornell University, 1977; M.A.T., *ibid.*, 1978; M.A., Boston University, 1982; Ph.D., University of Washington, 1989.
- Freuder, Eugene C.** (1977)
Professor of Computer Science; A.B., Harvard University, 1967; Ph.D., Massachusetts Institute of Technology, 1975.
- Frierson, Cathy A.** (1991)
Associate Professor of History; B.A., University of North Carolina at Chapel Hill, 1975; A.M., Harvard University, 1978; Ph.D., *ibid.*, 1985.
- Frolking, Steve** (1995)
Research Assistant Professor of Earth, Oceans, and Space; B.S., University of New Hampshire, 1980; M.S., *ibid.*, 1983; Ph.D., *ibid.*, 1993.
- Fuld, Kenneth** (1979)
Professor of Psychology; B.A., Northeastern University, 1971; Ph.D., Dartmouth College, 1976.
- Fussell, Barry K.** (1987)
Associate Professor of Mechanical Engineering; B.S., Ohio State University, 1975; M.S., *ibid.*, 1980; Ph.D., *ibid.*, 1987.
- Gager, Kristin E.** (1992)
Assistant Professor of History; B.A., Barnard College, 1984; M.A., Princeton University, 1987; Ph.D., *ibid.*, 1992.
- Gannett, Cynthia** (1985)
UNHM Associate Professor of English; B.A., Plymouth State College, 1974; M.A., University of New Hampshire, 1976; Ph.D., *ibid.*, 1987.
- Garey, Anita I.** (1995)
Assistant Professor of Sociology; B.A., California State University at Sacramento, 1973; M.A., *ibid.*, 1979; Ph.D., University of California at Berkeley, 1993.
- Garland, Virginia E.** (1988)
Associate Professor of Education; B.A., University of South Carolina, 1969; M.A.T., Harvard University, 1972; Ph.D., University of Connecticut, 1981.
- Gass, Michael A.** (1981)
Professor of Kinesiology; B.A., St. Olaf College, 1978; M.A., University of Northern Colorado, 1979; Ph.D., University of Colorado at Boulder, 1986.
- Gaudard, Marie A.** (1977)
Professor of Mathematics; A.B., Mount Holyoke College, 1973; Ph.D., University of Massachusetts at Amherst, 1977.
- Gaudette, Henri E.** (1965)
Professor of Earth Sciences and Earth, Oceans, and Space; B.A., University of New Hampshire, 1959; M.S., University of Illinois at Urbana-Champaign, 1962; Ph.D., *ibid.*, 1963.
- Geeslin, William E.** (1972)
Associate Professor of Mathematics; B.A., University of Texas at Austin, 1967; M.S., Stanford University, 1970; Ph.D., *ibid.*, 1973.
- Gentleman, Judith A.** (1988)
Associate Professor of Political Science; A.B., Trinity College, 1971; M.A., State University of New York at Buffalo, 1975; Ph.D., *ibid.*, 1982.
- Giles, Brian A.** (1987)
Director of the Thompson School of Applied Science and Thompson School Associate Professor of Applied Business Management; B.S.M.E., Northeastern University, 1961; M.B.A., University of Rochester, 1969; Ed.D., *ibid.*, 1985.
- Gingras, Rene J.** (1980)
Thompson School Associate Professor of Horticultural Technology; B.S., University of New Hampshire, 1975; M.S., Virginia Polytechnic Institute and State University, 1977.
- Gittell, Ross J.** (1993)
Associate Professor of Management; A.B., University of Chicago, 1979; M.B.A., University of California at Berkeley, 1981; Ph.D., Harvard University, 1989.
- Givan, Curtis V.** (1990)
Assistant Professor of Plant Biology (Plant Biochemistry); A.B., Stanford University, 1960; A.M., *ibid.*, 1961; Ph.D., Harvard University, 1968.
- Glanz, Filson H.** (1965)
Professor of Electrical Engineering; B.S., Stanford University, 1956; M.S., *ibid.*, 1957; Ph.D., *ibid.*, 1965.
- Gold, Janet** (1995)
Assistant Professor of Spanish; Ph.D., University of Massachusetts at Amherst, 1990.
- Goldberg, Michael D.** (1991)
Assistant Professor of Economics; B.S., Lehigh University, 1980; Ph.D., New York University, 1991.
- Goldstein, Gary S.** (1987)
UNHM Associate Professor of Psychology; B.A., State University of New York at Buffalo, 1971; M.A., University of New Hampshire, 1976; Ph.D., *ibid.*, 1980.
- Golinski, Jan V.** (1990)
Associate Professor of History and the Humanities; B.A., Cambridge University, England, 1979; Ph.D., The University of Leeds, England, 1983.
- Goodberry, James C.** (1986)
Thompson School Associate Professor of Mathematics; A.A., Onondaga Community College, 1968; B.S., State University of New York College at Oswego, 1970; M.Ed., University of New Hampshire, 1974.
- Goodby, Robert G.** (1991)
Faculty-in-Residence, Assistant Professor in Anthropology; B.A., University of New Hampshire, 1988; M.A., Brown University, 1988; Ph.D., *ibid.*, 1994.
- Goodman, Raymond J., Jr.** (1982)
Professor of Hospitality Management; B.B.A., Southwest Texas State University, 1967; M.P.S., Cornell University, 1975; Ph.D., *ibid.*, 1979.
- Goodman, Richard H.** (1976)
Director of the Center for Educational Field Services and Research Associate Professor of Education; B.A., Dartmouth College, 1953; M.A.T., Wesleyan University, 1955; Ed.D., Harvard University, 1961.
- Goodridge, Lyndon E.** (1990)
Dean of the Whittemore School of Business and Economics and Professor of Business Administration; B.S., University of Georgia, 1965; M.S., *ibid.*, 1966; Ph.D., Purdue University, 1971.
- Goodspeed, Charles H.** (1978)
Associate Professor of Civil Engineering and Director, Transportation Research and Computation Group; B.S.C.E., Worcester Polytechnic Institute, 1967; M.S.C.E., *ibid.*, 1969; Ph.D., University of Cincinnati, 1972.
- ‡**Goodwin, Susan E.** (1995)
Instructor of Kinesiology; B.S., University of New Hampshire, 1992; M.S., *ibid.*, 1995.
- Gordon, Bernard K.** (1971)
Professor of Political Science; B.A., New York University, 1953; A.M., *ibid.*, 1955; Ph.D., University of Chicago, 1959.
- Gosz, Michael R.** (1993)
Assistant Professor of Mechanical Engineering; B.S., Marquette University, 1988; M.S., Northwestern University, 1989; Ph.D., *ibid.*, 1993.
- Gould, Eliga H.** (1993)
Assistant Professor of History; A.B., Princeton University, 1983; M.Sc., University of Edinburgh, 1987; M.A., Johns Hopkins University, 1988; Ph.D., *ibid.*, 1992.
- Graham, Karen J.** (1987)
Associate Professor of Mathematics; B.A., State University of New York College at Cortland, 1975; M.A., State University of New York at Albany, 1978; M.S., University of New Hampshire, 1983; Ph.D., *ibid.*, 1986.

- Graulich, Melody G.** (1978)
Professor of English; B.A., Stanford University, 1974; M.A., University of Virginia, 1975; Ph.D., *ibid.*, 1979.
- Gravink, Jill** (1993)
Instructor of Recreation Management and Policy; B.A., University of New Hampshire, 1989.
- Greenlaw, Raymond** (1989)
Associate Professor of Computer Science; B.A., Pomona College, 1983; Ph.D., University of Washington, 1988.
- Gress, David L.** (1974)
Professor of Civil Engineering; B.S., Purdue University, 1966; M.S., *ibid.*, 1968; Ph.D., *ibid.*, 1976.
- Grinde, Roger B.** (1993)
Assistant Professor of Management Science; B.A., Carroll College, 1984; M.S., Oregon State University, 1986; Ph.D., Pennsylvania State University, 1993.
- Griswold, Lou Ann** (1987)
Associate Professor of Occupational Therapy; B.S., Colorado State University, 1979; M.S., *ibid.*, 1986; Ph.D., University of New Hampshire, 1995.
- Grosholz, Edwin D.** (1996)
Assistant Professor of Zoology; A.B., Brown University, 1982; Ph.D., University of California at Berkeley, 1990.
- Gross, Charles W.** (1986)
Professor of Marketing; B.A., Michigan State University, 1965; M.B.A., *ibid.*, 1967; Ph.D., University of Colorado at Boulder, 1972.
- Gross, Todd Stuart** (1988)
Associate Professor of Mechanical Engineering; B.S., Carnegie Mellon University, 1975; Ph.D., Northwestern University, 1981.
- †Grossen, Ruth J.** (1989)
Instructor of Theatre and Dance; B.A., Northeastern Illinois University, 1974; M.A., University of Iowa, 1988.
- Grover, Gary P.** (1992)
Major, U.S. Air Force and Assistant Professor of Aerospace Studies; B.S., U.S. Air Force Academy, 1983; M.S., Air Force Institute of Technology, 1988.
- Guidry, Flora G.** (1992)
Assistant Professor of Accounting; B.S., Louisiana State University, 1975; M.P.A., University of Texas at Arlington, 1982; Ph.D., University of Arizona, 1992.
- Gullace, Nicoletta F.** (1995)
Faculty-in-Residence, Assistant Professor in History; B.A., University of Rochester, 1983; M.A., University of California at Berkeley, 1987; Ph.D., *ibid.*, 1993.
- Gulman, Jonathan** (1987)
Professor of Marketing; B.A., Pomona College, 1960; M.S., Purdue University, 1962; Ph.D., University of Southern California, 1967.
- Hadwin, Donald W.** (1977)
Professor of Mathematics; B.S., Michigan State University, 1967; M.A., University of Wisconsin at Madison, 1968; Ph.D., Indiana University at Bloomington, 1975.
- Hageman, Elizabeth H.** (1971)
Professor of English; B.S., Simmons College, 1963; M.A., Columbia University, 1964; Ph.D., University of North Carolina at Chapel Hill, 1971.
- Hall, Francine S.** (1980)
Professor of Organizational Behavior; B.A., Boston University, 1965; M.S., Southern Connecticut State University, 1968; Ph.D., University of Toronto, Canada, 1975.
- †Halstead, John M.** (1988)
Associate Professor of Resource Economics; B.A., University of Notre Dame, 1976; M.S., University of Massachusetts at Amherst, 1981; Ph.D., Virginia Polytechnic Institute and State University, 1988.
- Hamilton, Lawrence C.** (1977)
Professor of Sociology; B.A., University of California at Santa Barbara, 1970; M.A., University of Colorado at Boulder, 1974; Ph.D., *ibid.*, 1978.
- †Haney, James F.** (1972)
Professor of Zoology; A.B., Miami University, Ohio, 1961; M.A., *ibid.*, 1963; Ph.D., University of Toronto, Canada, 1970.
- Hansen, Jane A.** (1979)
Professor of Education; B.S., Drake University, 1964; M.A., University of Iowa, 1976; Ph.D., University of Minnesota, 1979.
- Hansen, Larry J.** (1973)
Associate Professor of Family Studies; B.S., Brigham Young University, 1968; M.S., *ibid.*, 1971; Ph.D., Florida State University, 1973.
- Hanson, M. Katharine** (1990)
Thompson School Assistant Professor of Social Science; B.A., Connecticut College, 1973; M.Ed., University of New Hampshire, 1976.
- Hapgood, Robert** (1965)
Professor of English; B.A., University of California at Berkeley, 1950; M.A., *ibid.*, 1951; Ph.D., *ibid.*, 1955.
- Hardy, Stephen H.** (1988)
Associate Professor of Kinesiology and Adjunct Associate Professor of History; A.B., Bowdoin College, 1970; M.S., University of Massachusetts at Amherst, 1976; M.A., *ibid.*, 1978; Ph.D., *ibid.*, 1980.
- Harkless, Gene E.** (1985)
Associate Professor of Nursing; B.S.N., Duke University, 1976; M.S.N., Vanderbilt University, 1980; D.N.Sc., Boston University, 1991.
- Harney, Timothy D.** (1994)
Faculty-in-Residence, Assistant Professor in Art; B.F.A., University of Massachusetts at Amherst, 1983; M.F.A., *ibid.*, 1985.
- Harper, Valerie L.** (1989)
Associate Professor, Librarian; B.A., University of Rhode Island, 1980; M.S., Simmons College, 1982; M.A., Northeastern University, 1990.
- Harrigan, Jane T.** (1985)
Associate Professor of English; B.A., Boston College, 1975; M.A., Syracuse University, 1976.
- Harris, J. William, Jr.** (1985)
Associate Professor of History; B.S., Massachusetts Institute of Technology, 1968; M.A., Johns Hopkins University, 1976; Ph.D., *ibid.*, 1982.
- Harris, Larry G.** (1969)
Professor of Zoology; A.B., University of California at Berkeley, 1965; Ph.D., *ibid.*, 1970.
- Harriss, Robert C.** (1988)
Professor of Earth Sciences and Earth, Oceans, and Space; B.S., Florida State University, 1962; M.A., Rice University, 1963; Ph.D., *ibid.*, 1965.
- Hart, John L.** (1985)
Thompson School Associate Professor of Horticultural Technology; A.B., New College University, 1969; M.S., University of Michigan at Ann Arbor, 1974; M.L.A., University of Massachusetts at Amherst, 1994.
- †Harter, Robert D.** (1969)
Professor of Soil Chemistry; B.S., Ohio State University, 1961; M.S., *ibid.*, 1962; Ph.D., Purdue University, 1966.
- Hatcher, Philip John** (1986)
Associate Professor of Computer Science; B.S., Purdue University, 1978; M.S., *ibid.*, 1979; Ph.D., Illinois Institute of Technology, 1985.
- Hebert, David J.** (1967)
Professor of Education; B.S., University of Maine at Orono, 1962; M.Ed., Duquesne University, 1964; Ph.D., Kent State University, 1967.
- Heisenberg, Jochen** (1978)
Professor of Physics; Vordiplom, University of Munich, Germany, 1961; Diplom, University of Hamburg, Germany, 1964; Doctor, *ibid.*, 1966.
- Henke, Lucy L.** (1992)
Associate Professor of Marketing; B.A., Louisiana State University, 1975; M.A., University of Massachusetts at Amherst, 1976; Ph.D., *ibid.*, 1980.
- Hennessey, Barry J.** (1979)
Associate Professor, Librarian; A.B., University of Wisconsin at Madison, 1967; Ph.D., Harvard University, 1972; M.L.S., Simmons College, 1974.
- Henry, Robert M.** (1980)
Associate Professor of Civil Engineering; B.S.C.E., University of Pennsylvania, 1973; M.S.C.E., *ibid.*, 1974; Ph.D., *ibid.*, 1980.
- Herold, Marc W.** (1975)
Associate Professor of Economics; B.S., Swiss Federal Polytechnic University, 1967; M.B.A., University of California at Berkeley, 1970; Ph.D., *ibid.*, 1979.
- Hersman, F. William** (1984)
Professor of Physics; B.A., University of Cincinnati, 1977; B.S., *ibid.*, 1977; Ph.D., Massachusetts Institute of Technology, 1982.
- Hertz, Susan Margaret** (1986)
Associate Professor of English; B.A., University of New Hampshire, 1978.
- Hettinger, Stanley D.** (1965)
Associate Professor of Music; B.M., Ohio State University, 1955; M.M.E., Vander-Cook College, 1966.
- Hibschweiler, Rita A.** (1988)
Associate Professor of Mathematics; M.A., State University of New York College at Buffalo, 1981; Ph.D., State University of New York at Albany, 1988.
- Hight, Eleanor M.** (1992)
Assistant Professor of Art History; B.A., Skidmore College, 1970; A.M., Harvard University, 1977; Ph.D., *ibid.*, 1986.
- Hiller, Marc D.** (1979)
Associate Professor of Health Management and Policy; B.S., University of Pittsburgh, 1972; M.P.H., *ibid.*, 1974; Dr.P.H., *ibid.*, 1978.
- Hinkle, Terri-Leigh** (1991)
Assistant Professor, Librarian; A.A., Green Mountain College, 1978; B.A., Vermont College of Norwich University, 1987; M.S.L.S., University of Kentucky, 1990.
- Hinson, Edward K.** (1985)
Associate Professor of Mathematics; B.S., University of Florida, 1979; M.S., Northwestern University, 1982; Ph.D., *ibid.*, 1985.
- †Hludik, Francis C., Jr.** (1988)
Instructor of Electrical Engineering; B.S., University of New Hampshire, 1982; M.S., *ibid.*, 1985.
- Hollweg, Joseph** (1980)
Professor of Physics and Earth, Oceans, and Space; B.S., Massachusetts Institute of Technology, 1965; M.S., *ibid.*, 1965; Ph.D., *ibid.*, 1968.
- †Holter, James B.** (1963)
Professor of Animal Science; B.S., Pennsylvania State University, 1956; M.S., University of Maryland, 1958; Ph.D., Pennsylvania State University, 1962.
- Hood, Craig A.** (1981)
Associate Professor of Art; B.A., Pennsylvania State University, 1979; M.F.A., Indiana University at Bloomington, 1981.
- Hoskin, Marilyn** (1995)
Dean of the College of Liberal Arts and Professor of Political Science; B.A., Mount Holyoke College, 1967; M.A., University of California at Los Angeles, 1968; Ph.D., *ibid.*, 1972.
- House, Thomas M.** (1995)
Assistant Professor, Librarian and University Archivist; B.A., University of Kentucky, 1985; M.S.L.S., *ibid.*, 1991.

- Houston, Barbara E.** (1991)
Professor of Education; B.A., University of Western Ontario, Canada, 1963; M.A., *ibid.*, 1966; Ph.D., *ibid.*, 1977.
- Howard, Cleveland L.** (1969)
Associate Professor of Music; B.Mus., Boston University, 1953; M.M., *ibid.*, 1954; D.M.A., *ibid.*, 1969.
†**Howard, Theodore E.** (1982)
Associate Professor of Forestry Economics; B.S., University of Maine at Orono, 1972; M.F., Duke University, 1974; Ph.D., Oregon State University, 1982.
- Howell, David L.** (1982)
Professor of Adult and Occupational Education; B.S., Michigan State University, 1964; M.Ed., Pennsylvania State University, 1968; Ph.D., Ohio State University, 1973.
†**Howell, W. Huntting** (1980)
Associate Professor of Zoology; B.A., Otterbein College, 1969; M.S., University of Rhode Island, 1975; Ph.D., *ibid.*, 1980.
- ‡**Hoza, Jack E.** (1994)
UNHM Instructor of Sign Language Interpretation and Director of Sign Language Interpretation Program; B.A., University of Northern Colorado, 1978; M.A., Western Maryland College, 1991.
†**Hrabak, Estelle M.** (1995)
Assistant Professor of Plant Biology; B.S., Michigan State University, 1978; Ph.D., University of Wisconsin at Madison, 1992.
- Hubbard, Clark R.** (1995)
Assistant Professor of Political Science; B.A., University of Georgia, 1990; M.A., State University of New York at Stony Brook, 1991; Ph.D., *ibid.*, 1995.
- Huber, Ralph J.** (1995)
Captain, U.S. Army and Assistant Professor of Military Science; B.S., Franklin Pierce College, 1992.
- Huk, Romana C.** (1987)
Associate Professor of English; B.A., College of William and Mary, 1981; M.A., University of Notre Dame, 1984; Ph.D., *ibid.*, 1987.
- Hull, Kristin E.** (1995)
Captain, U.S. Army and Assistant Professor of Military Science; B.A., College of William and Mary, 1990.
- ‡**Hult, Kenneth T.** (1988)
Instructor of Kinesiology; B.S., Fairleigh Dickinson University, 1966; M.S., University of New Hampshire, 1969; A.S., N.H. Technical Institute, 1988.
‡**Humphrey, Christopher** (1987)
Instructor of Music; B.M., University of New Hampshire, 1987.
- Isenberg, Philip A.** (1991)
Research Associate Professor of Physics and Earth, Oceans, and Space; B.S., Massachusetts Institute of Technology, 1971; M.S., University of Chicago, 1974; Ph.D., *ibid.*, 1977.
- Jacoby, A. Robb** (1961)
Professor of Mathematics, S.B., University of Chicago, 1941; S.M., *ibid.*, 1942; Ph.D., *ibid.*, 1946.
†**Jahnke, Leland S.** (1977)
Associate Professor of Plant Biology; B.A., University of Minnesota, 1961; M.A., *ibid.*, 1966; M.S., *ibid.*, 1968; Ph.D., *ibid.*, 1973.
- James, Beverly** (1987)
Associate Professor of Communication, B.A., Florida Atlantic University, 1979; Ph.D., University of Iowa, 1983.
- †**Jansen, Edmund F., Jr.** (1969)
Professor of Resource Economics and Community Development, B.S., University of Illinois at Urbana-Champaign, 1960; M.S., North Carolina State University, 1964; Ph.D., *ibid.*, 1966.
- ***Janson-Sand, Colette H.** (1981)
Associate Professor of Nutritional Sciences, B.S., Bridgewater State College, 1967; M.S., University of New Hampshire, 1970; Ph.D., *ibid.*, 1980.
- Jenkins, Melvin E.** (1961)
Thompson School Professor of Forest Technology; B.S.F., University of Massachusetts at Amherst, 1959; M.S.T., University of New Hampshire, 1961.
- Jerard, Robert** (1988)
Professor of Mechanical Engineering; B.S., University of Vermont, 1969; M.S., Massachusetts Institute of Technology, 1970; Ph.D., University of Utah, 1977.
- ‡**Johnson, Brian L.** (1976)
Instructor of Computer Science; B.S., University of New Hampshire, 1967; M.S., *ibid.*, 1979; Ph.D., *ibid.*, 1992.
- Johnson, Nancy M.** (1995)
Thompson School Assistant Professor of Food Services Management; B.S., University of New Hampshire, 1979; M.Ed., University of Maine at Orono, 1984.
- †**Johnson, Paul C.** (1979)
Associate Professor of Natural Resources; B.S., Emory and Henry College, 1968; Ph.D., Cornell University, 1974.
- ‡**Johnson, Peggy Rae** (1992)
Faculty-in-Residence, Assistant Professor in Theatre and Dance and Director of Theatre-in-Education Program; B.S., Eastern Illinois University, 1969; M.A., University of Illinois at Urbana-Champaign, 1980.
- Johnson, Richard P.** (1985)
Professor of Chemistry; B.S., Syracuse University, 1972; Ph.D., *ibid.*, 1976.
- Jolley, Robert E.** (1979)
Associate Professor of Social Work; B.A., Allegheny College, 1966; M.S.S.S., Boston University School of Social Work, 1972; Ph.D., Smith College, 1983.
- Jones, Stephen H.** (1989)
Research Associate Professor of Natural Resources and Marine Science; B.S., University of Maine at Orono, 1976; M.S., University of Wisconsin at Madison, 1980; Ph.D., *ibid.*, 1983.
- Jones, William R.** (1962)
Professor of History; A.B., Harvard University, 1951; M.A., *ibid.*, 1952; Ph.D., *ibid.*, 1958.
- Kaen, Fred R.** (1973)
Professor of Finance and Carter Professor of Management; B.S., Lehigh University, 1963; M.B.A., University of Michigan at Ann Arbor, 1967; Ph.D., *ibid.*, 1972.
- Kalinowski, Michael F.** (1980)
Associate Professor of Family Studies; B.A., Bennington College, 1970; M.Ed., University of Massachusetts at Amherst, 1972; Ed.D., *ibid.*, 1976.
- Kaneko, Sylvia Y.** (1995)
Associate Professor of Social Work; B.A., University of North Carolina at Chapel Hill, 1959; M.S.W., University of Hawaii, 1974; Ph.D., Smith College, 1971.
- Kang, Jae** (1989)
Associate Professor of Medical Laboratory Science; B.S., Salve Regina - The Newport College, 1973; M.S., State University of New York, Brooklyn, 1977; Ph.D., *ibid.*, 1980.
- Karson, Marvin J.** (1983)
Professor of Business Statistics and Whittemore School Research Professor; B.B.A., City College of New York, 1959; M.A., Johns Hopkins University, 1961; Ph.D., North Carolina State University, 1967.
- Kaufman, Allen M.** (1983)
Professor of Business Administration; B.A., University of Wisconsin at Madison, 1971; Ph.D., Rutgers, The State University of New Jersey, 1980.
- Kaufmann, Richard L.** (1963)
Professor of Physics; B.S., California Institute of Technology, 1957; M.S., Yale University, 1958; Ph.D., *ibid.*, 1960.
- ‡**Kautz, Barbara H.** (1995)
Assistant Professor of Nursing; B.S.N., University of Maryland, 1969; M.S.N., University of Cincinnati, 1975.
- Kaysner, John R.** (1969)
Associate Professor of Political Science; B.A., University of New Hampshire, 1962; M.A., Ohio State University, 1964; Ph.D., Claremont Graduate School and University Center, 1969.
- Kelleher, Patricia** (1995)
Faculty-in-Residence, Assistant Professor in History; B.A., Rosemont College, 1970; M.A., University of Wisconsin at Madison, 1972; Ph.D., *ibid.*, 1995.
- Kelley, Ann** (1965)
Associate Professor of Nursing; Diploma, Peter Bent Brigham Hospital, 1955; B.S., Boston University, 1959; M.S., *ibid.*, 1966.
- Kenefick, Robert W.** (1995)
Assistant Professor of Kinesiology; Ph.D., University of Connecticut, 1995.
- Kennard, Jean E.** (1975)
Professor of English; B.A., University of London, England, 1958; M.A., University of California at Berkeley, 1966; Ph.D., *ibid.*, 1968.
- Kerns, Georgia M.** (1991)
Assistant Professor of Education; B.S.Ed., University of Delaware, 1969; M.Ed., *ibid.*, 1975; M.Ed., University of New Hampshire, 1983; Ph.D., University of Kansas, 1987.
- Kertzer, Robert** (1965)
Professor of Kinesiology; B.S., Brooklyn College, City University of New York, 1960; M.S., University of Illinois at Urbana-Champaign, 1961; Ph.D., Michigan State University, 1965.
- Khleif, Bud B.** (1967)
Professor of Sociology; Intermediate Certificate, British Government Arab College, Jerusalem, 1948; B.A., Hebrew University of Jerusalem, Israel, 1952; M.A., University of Michigan at Ann Arbor, 1954; Ph.D., Johns Hopkins University, 1957.
- ‡**Kieronski, Roberta** (1983)
UNHM Assistant Professor of Mathematics; B.S., Southern Connecticut State University, 1969; M.S., University of New Hampshire, 1971.
- Kies, Christopher** (1979)
Associate Professor of Music; B.M. Composition and B.M. Piano, New England Conservatory of Music, 1973; M.F.A., Brandeis University, 1977; Ph.D., *ibid.*, 1984.
- Kinner, Nancy E.** (1983)
Associate Professor of Civil Engineering; A.B., Cornell University, 1976; M.S.C.E., University of New Hampshire, 1980; Ph.D., *ibid.*, 1983.
- Kistler, Lynn M.** (1991)
Research Assistant Professor of Physics and Earth, Oceans, and Space; B.S., Harvey Mudd College, 1981; Ph.D., University of Maryland, 1987.
- †**Klein, Anita S.** (1985)
Associate Professor of Biochemistry and Molecular Biology and Genetics and Plant Biology; B.A., University of Rochester, 1975; Ph.D., Michigan State University, 1981.
- Klenotic, Jeffrey F.** (1992)
UNHM Instructor of Communication; B.A., Pennsylvania State University, 1985; M.A., University of Massachusetts at Amherst, 1988; Ph.D., *ibid.*, 1995.
- Kletzing, Craig A.** (1990)
Research Associate Professor of Physics and Earth, Oceans, and Space; B.A., University of California at Berkeley, 1981; M.S., University of California at San Diego, 1983; Ph.D., *ibid.*, 1989.
- Knight, Lewis** (1989)
UNHM Associate Professor of Mathematics, B.A., Amherst College, 1957; M.A.T., Harvard University, 1961; Ed.D., Stanford University, 1971.

- †**Kocher, Thomas D.** (1989)
Associate Professor of Zoology and Genetics; B.A. Yale University, 1981; Ph.D., University of Colorado at Boulder, 1986.
- Komonchak, Bernadette** (1976)
Associate Professor of Spanish; B.S., State University of New York College at Plattsburgh, 1954; M.A. University of Arizona, 1967; Ph.D., *ibid.*, 1974.
- Kraft, L. Gordon** (1978)
Professor of Electrical Engineering; B.S., University of Pennsylvania, 1971; M.S., University of New Hampshire, 1973; Ph.D., University of Connecticut, 1977.
- Krasner, James** (1989)
Associate Professor of English; B.A., Hampshire College, England, 1983; M.A., University of Pennsylvania, 1985; Ph.D., *ibid.*, 1989.
- Krysiak, Barbara H.** (1995)
Associate Professor of Education; B.S., University of Lowell, 1958; M.Ed., Boston University, 1963; C.A.G.S., Northeastern University, 1974; Ed.D., *ibid.*, 1981.
- Krzanowski, James E.** (1985)
Associate Professor of Mechanical Engineering; B.E., Stevens Institute of Technology, 1978; M.S., Massachusetts Institute of Technology, 1981; Ph.D., *ibid.*, 1983.
- Kuhn, Mark S.** (1992)
Faculty-in-Residence, Assistant Professor of Communication; B.A., Fordham University, 1973; Ed.M. Harvard University, 1978; Ed.D., *ibid.*, 1984.
- Kull, Judith A.** (1982)
Associate Professor of Education; A.B., Connecticut College, 1967; M.A., University of South Florida, 1969; Ed.D., University of Rochester, 1982.
- Kuntz, Aline M.** (1988)
Associate Professor of Political Science; B.A., California State University at Sacramento, 1978; M.A., Cornell University, 1981; Ph.D., *ibid.*, 1987.
- LaCourse, John R.** (1980)
Professor of Electrical Engineering; B.S., University of Connecticut, 1974; M.S., *ibid.*, 1977; Ph.D., *ibid.*, 1981.
- LaCroix, Karol A.** (1972)
Interim Dean of the Graduate School and Associate Professor of Medical Laboratory Science and Nursing; B.S., University of New Hampshire, 1967; M.Ed., *ibid.*, 1975; M.S., Northeastern University, 1983; Ph.D., *ibid.*, 1988.
- Laird, Jo** (1979)
Associate Professor of Geology; B.A., University of California at San Diego, 1969; Ph.D., California Institute of Technology, 1977.
- Lamb, Margaret A.** (1985)
Associate Professor of Nursing; B.S., State University of New York College at Brockport, 1975; M.S., University of Rochester, 1979; Ph.D., Boston College, 1991.
- Lambert, Robert H.** (1955-56, 1961)
Professor of Physics; B.S., St. Lawrence University, 1952; M.A., Harvard University, 1954; Ph.D., *ibid.*, 1963.
- Lambertson, John P.** (1992)
UNHM Assistant Professor of Art History; B.A., Mary Washington College, 1985; M.A., University of Illinois at Urbana-Champaign, 1988; Ph.D., *ibid.*, 1994.
- Lane, David M.** (1985)
Associate Professor Librarian; B.A., University of New Hampshire, 1973; M.S., *ibid.*, 1974; M.L.S., Syracuse University, 1983; Ph.D., Duke University, 1979.
- Lanier, Douglas M.** (1990)
Associate Professor of English; B.A., Stetson University, 1977; M.A., Duke University, 1980; Ph.D., *ibid.*, 1988.
- Lannamann, John** (1982)
Associate Professor of Communication; B.S., Babson College, 1977; M.A., University of Massachusetts at Amherst, 1980; Ph.D., *ibid.*, 1983.
- Larkin, Edward T.** (1986)
Associate Professor of German; B.A., St. Peter's College, 1971; M.A., St. John's University, 1980; M.A., University of Houston, 1980; Ph.D., University of Pennsylvania, 1986.
- Larson, Barbara K.** (1976)
Associate Professor of Anthropology; B.A., Stanford University, 1962; M.A., Harvard University, 1964; Ph.D., Columbia University, 1975.
- Larson, David L.** (1965)
Professor of Political Science; A.B., Dartmouth College, 1952; A.M., Fletcher School of Law and Diplomacy, Tufts University, 1957; M.A.L.D., *ibid.*, 1958; Ph.D., *ibid.*, 1963.
- Lassar, Walfried M.** (1995)
Assistant Professor of Marketing; Dipl.-Ing., Technische Universität, Berlin, 1984; M.B.A., University of California at Los Angeles, 1985; Ph.D., *ibid.*, 1992.
- †**Laudano, Andrew P.** (1986)
Associate Professor of Biochemistry and Molecular Biology; B.S., Southern Connecticut State University, 1974; M.S., *ibid.*, 1976; Ph.D., University of California at San Diego, 1981.
- †**Laue, Thomas M.** (1984)
Professor of Biochemistry and Molecular Biology; B.A., Johns Hopkins University, 1971; Ph.D., University of Connecticut, 1981.
- LeBlanc, Robert G.** (1963)
Professor of Geography; B.A., University of New Hampshire, 1959; M.A., University of Minnesota, 1962; Ph.D., *ibid.*, 1968.
- LeBlanc, Ronald D.** (1988)
Associate Professor of Russian; B.S., U.S. Air Force Academy, 1971; B.A., University of Washington, 1977; M.A., *ibid.*, 1979; Ph.D., *ibid.*, 1984.
- LeBoeuf, Terry J.** (1993)
Lieutenant Colonel, U.S. Army and Professor of Military Science; B.S., Nicholls State University, 1976; M.B.A., City University of Bellevue, 1983.
- Lee, Martin A.** (1984)
Professor of Physics and Earth, Oceans, and Space; B.S., Stanford University, 1966; Ph.D., University of Chicago, 1971.
- †**Lee, Thomas D.** (1980)
Associate Professor of Plant Biology; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1973; M.S., University of Alberta, Canada, 1976; Ph.D., University of Illinois at Urbana-Champaign, 1980.
- Lent, Robin** (1990)
Associate Professor, Librarian; B.A., Washington University, 1968; M.S., Columbia University, 1970; M.A., University of New Hampshire, 1988.
- Lerch, Barbara A.** (1982)
Associate Professor, Librarian; B.A., University of Maine at Orono, 1969; M.L.S., University of Pittsburgh, 1972; M.A., University of New Hampshire, 1982.
- ‡**Lesser, Michael** (1993)
Research Assistant Professor of Zoology and Microbiology; B.A., University of New Hampshire, 1983; M.S., *ibid.*, 1985; Ph.D., University of Maine at Orono, 1989.
- Leuchtner, Robert E.** (1992)
Assistant Professor of Physics; B.S., Indiana University at Bloomington, 1981; Ph.D., Pennsylvania State University, 1990.
- LeViness, Emily** (1995)
Assistant Professor, Librarian; B.A., State University of New York College at Purchase, 1982; M.S., University of New Hampshire, 1986; M.L.I.S., University of Rhode Island, 1993.
- Lewis, Frederick C.** (1976)
Associate Professor of Communication Disorders; B.S., Southern Connecticut State University, 1963; M.S., *ibid.*, 1967; Ph.D., Ohio University, 1970.
- Lewis, James B.** (1989)
Associate Professor of Health Management and Policy; B.A., University of Pittsburgh, 1972; M.M., Northwestern University, 1974; Sc.D., Johns Hopkins University, 1985.
- ‡**Lewis, Richard J. A.** (1982)
Associate Professor of Health Management and Policy; B.A., Allegheny College, 1961; M.B.A., Ohio State University, 1967; FACHE.
- Li, Changsheng** (1992)
Research Associate Professor of Earth, Oceans, and Space; B.S., University of Science and Technology of China, 1964; M.S., Chinese Academy of Sciences, 1981; Ph.D., University of Wisconsin and Chinese Academy of Science, 1988.
- Lichtenstein, Stephen** (1992)
Research Assistant Professor of Education; B.S., Cornell University, 1974; M.S., *ibid.*, 1979; Ph.D., University of Illinois at Urbana-Champaign, 1987.
- Lieber, Rochelle** (1981)
Professor of English; A.B., Vassar College, 1976; Ph.D., Massachusetts Institute of Technology, 1980.
- Limber, John E.** (1971)
Associate Professor of Psychology; B.S., University of Illinois at Urbana-Champaign, 1962; Ph.D., *ibid.*, 1969.
- Limbort, David E.** (1969)
Professor of Mechanical Engineering; B.S., Iowa State University, 1964; M.S., Case Western Reserve University, 1965; Ph.D., *ibid.*, 1969.
- Linder, Ernst** (1987)
Associate Professor of Mathematics; ETH., University of Zurich, Switzerland, 1978; M.S., Union College, 1980; Ph.D., Pennsylvania State University, 1987.
- *†**Lindsay, Bruce E.** (1976)
Professor of Resource Economics; B.A., King's College, 1971; M.S., University of Massachusetts at Amherst, 1973; Ph.D., *ibid.*, 1976.
- Linsky, Arnold S.** (1966)
Professor of Sociology; A.B., Dartmouth College, 1954; M.A., University of Washington, 1963; Ph.D., *ibid.*, 1966.
- Little, Liza** (1994)
Assistant Professor of Nursing; B.A., University of Vermont, 1975; B.S.N., *ibid.*, 1977; M.Sc.A., McGill University, 1981; Psy.D., Antioch Graduate School, 1992.
- ‡**Littlefield, Karen A.** (1964)
Assistant Professor, Librarian; B.A., University of New Hampshire, 1963; M.S., Simmons College, 1965; M.A., University of New Hampshire, 1971.
- †**Litvaitis, John A.** (1985)
Associate Professor of Wildlife Ecology; B.S., University of New Hampshire, 1975; M.S., Oklahoma State University, 1978; Ph.D., University of Maine at Orono, 1984.
- Litvaitis, Marianne Klausner** (1987)
Assistant Professor of Zoology; B.S., Clemson University, 1980; M.S., *ibid.*, 1982; Ph.D., University of Maine at Orono, 1986.
- ‡**Lockett, David W.** (1993)
Instructor of Kinesiology; B.S., University of New Hampshire, 1990.
- Loder, Theodore C., III** (1972)
Professor of Earth Sciences and Earth, Oceans, and Space; B.A., University of Rochester, 1962; M.S., Lehigh University, 1965; Ph.D., University of Alaska at Fairbanks, 1971.
- Lofty, John S.** (1991)
Associate Professor of English; B.Ed., London University, England, 1969; M.A., Tennessee State University, 1978; Ph.D., Michigan State University, 1986.

Loranger, Ann L. (1992)

Assistant Professor of Education; A.B., Emmanuel College, 1962; M.Ed., University of New Hampshire, 1972; Ed.D., Boston University, 1988.

†**Loy, J. Brent** (1967)

Professor of Plant Biology and Genetics; B.S., Oklahoma State University, 1963; M.S., Colorado State University, 1965; Ph.D., *ibid.*, 1967

Lubow, Neil B. (1974)

Interim Vice President for Finance and Administration and Associate Professor of Philosophy; A.B., Cornell University, 1966; C.Phil., University of California at Los Angeles, 1973; Ph.D., *ibid.*, 1974.

Lucha-Burns, Carol (1969)

Professor of Theatre and Dance; B.S., Syracuse University, 1963; Diploma, American Musical and Drama Academy, 1965; M.F.A., University of Utah, 1969.

Lugalla, Joe L.P. (1994)

Assistant Professor of Anthropology; B.A., University of Dar-es-Salaam, Tanzania, 1982; M.A., *ibid.*, 1983; Ph.D., Bremen University, Germany, 1990.

Lukens, Nancy (1985)

Professor of German; B.A., College of Wooster, 1967; M.A., University of Chicago, 1968; Ph.D., *ibid.*, 1973.

Lynch, Kathryn R. (1990)

Assistant Professor of Nursing; Diploma, Albany Medical Center, 1973; B.S.N., Northeastern University, 1977; M.S.N., University of Virginia, 1980; D.N.Sc., Boston University, 1989.

Lynch, Kristina A. (1995)

Research Assistant Professor of Earth, Oceans, and Space; A.B., Washington University, 1984; M.S., University of New Hampshire, 1990; Ph.D., *ibid.*, 1992.

MacFarlane, Lisa Watt (1987)

Associate Professor of English and Coordinator Religious Studies; B.A., Princeton University, 1979; M.A., University of Michigan at Ann Arbor, 1982; Ph.D., *ibid.*, 1987.

*†**MacHardy, William E.** (1972)

Professor of Plant Biology (Plant Pathology) and Extension Plant Pathologist; B.S., University of Maine at Orono, 1958; M.Ed., *ibid.*, 1965; M.S., University of Nebraska at Omaha, 1966; Ph.D., University of Rhode Island, 1970.

Macieski, Robert L. (1994)

UNHM Assistant Professor of History; B.A., Boston College, 1980; M.A., *ibid.*, 1982; Ph.D., *ibid.*, 1993.

Madden, David B. (1992)

Major, U.S. Army and Assistant Professor of Military Science; B.S., Nathaniel Hawthorne College, 1978; M.B.A., Boston University, 1991.

Mair, Robert G. (1985)

Professor of Psychology; A.B., Brown University, 1972; Sc.M., *ibid.*, 1975; Ph.D., *ibid.*, 1979.

Malarte-Feldman, Claire-Lise (1984)

Associate Professor of French, Licence, Université Paul Valéry, France, 1971; Maitrise, *ibid.*, 1972; Ph.D., University of California at Davis, 1984

Malley, James P. (1988)

Associate Professor of Civil Engineering; B.S., Rutgers, The State University of New Jersey, 1980; B.S.C.E., University of Massachusetts at Amherst 1987; M.S., *ibid.*, 1984; Ph.D., *ibid.*, 1988.

Maffory, Bruce L. (1979)

Professor of Education; B.A., Allegheny College, 1971; M.Ed., *ibid.*, 1972; Ph.D., George Peabody College, 1979

*†**Manalo, Alberto B.** (1986)

Associate Professor of Resource Economics; B.S., University of the Philippines, 1976; M.S., Kansas State University, 1978; Ph.D., *ibid.*, 1986

March, Thomas A. (1977)

Thompson School Professor of Agricultural Mechanization; B.S., Cornell University, 1974; M.P.S., *ibid.*, 1977.

†**Margolin, Aaron B.** (1988)

Associate Professor of Microbiology; B.S., University of Arizona, 1982; Ph.D., *ibid.*, 1986.

Marple, Sylvia H. (1983)

Assistant Professor of Hospitality Management; B.S., Winthrop College, 1963; M.S., Clemson University, 1964; R.D.

Marshall, Grover E. (1965)

Associate Professor of French and Italian; A.B., Bowdoin College, 1951; M.A., Princeton University, 1954; Ph.D., *ibid.*, 1971.

Marx, Jerry D. (1995)

Assistant Professor of Social Work; B.S., University of Southern Maine, 1981; M.S.W., Boston College, 1984; D.S.W., *ibid.*, 1994.

Mascuch, Peter J. (1995)

Assistant Professor of English; B.F.A., New York University, 1982; M.A., *ibid.*, 1995; Ph.D., Graduate Center of the City University of New York, 1995.

†**Mathieson, Arthur C.** (1965)

Assistant Professor of Plant Biology; B.A., University of California at Los Angeles, 1960; M.A., *ibid.*, 1961; Ph.D., University of British Columbia, 1965.

Mathur, Virendra K. (1974)

Professor of Chemical Engineering; B.S., Banaras Hindu University, India, 1953; M.S., University of Missouri at Rolla, 1961; Ph.D., *ibid.*, 1970.

†**Mautz, William W.** (1969)

Interim Dean of the College of Life Sciences and Agriculture, Interim Director of Agricultural Experiment Station and Professor of Wildlife Ecology; B.S., University of Wisconsin at Eau Claire, 1965; M.S., Michigan State University, 1967; Ph.D., *ibid.*, 1969.

Maxcy, David J. (1994)

Faculty-in-Residence, Assistant Professor of Communication; B.A., Rutgers University, 1982; M.A., University of Massachusetts at Amherst, 1988; Ph.D., *ibid.*, 1994.

Mayer, John D. (1989)

Associate Professor of Psychology; B.A., University of Michigan at Ann Arbor, 1975; M.A., Case Western Reserve University, 1979; Ph.D., *ibid.*, 1982.

Mayewski, Paul A. (1974)

Professor of Earth Sciences and Earth, Oceans, and Space; B.A., State University of New York at Buffalo, 1968; Ph.D., Ohio State University, 1973.

Mayne, Howard R. (1985)

Professor of Chemistry; B.Sc., University of Manchester, England, 1974; M.Sc., *ibid.*, 1975; Ph.D., *ibid.*, 1977.

McBride, Mekeel (1979)

Associate Professor of English; B.A., Mills College, 1972.

McCann, Francis D., Jr. (1971)

Professor of History; A.B., Niagara University, 1960; M.A., Kent State University, 1962; Ph.D., Indiana University at Bloomington, 1967.

McCartney, Kathleen (1987)

Associate Professor of Psychology; A.B., Tufts University, 1977; Ph.D., Yale University, 1982

McConnell, Mark L. (1991)

Research Assistant Professor of Physics and Earth, Oceans, and Space; B.S., Case Western Reserve University, 1980; Ph.D., University of New Hampshire, 1987

McConnell, Maryse Searls (1973)

Associate Professor of Art; B.F.A., Cleveland Institute of Art, 1971; M.F.A., Alfred University, 1973

McConnell, Michael (1976)

Associate Professor of Art; B.F.A., Ohio University, 1970; M.F.A., *ibid.*, 1974

†**McDowell, William H.** (1989)

Associate Professor of Water Resources Management; B.A., Amherst College, 1975; Ph.D., Cornell University, 1982.

McHugh, John Philip (1986)

Associate Professor of Mechanical Engineering; B.S., University of Michigan at Ann Arbor, 1978; M.S., *ibid.*, 1981; Ph.D., *ibid.*, 1986.

McMahon, Gregory (1988)

Associate Professor of History; B.A., University of Kansas, 1975; M.A., Miami University, Ohio, 1979; Ph.D., Oriental Institute of the University of Chicago, 1988.

McNamara, Paul (1990)

Assistant Professor of Philosophy; B.A., City College of New York, 1976; M.A., University of Missouri at Columbia, 1980; Ph.D., University of Massachusetts at Amherst, 1990.

McNamee, Sheila (1982)

Associate Professor of Communication; B.A., University of Massachusetts at Amherst, 1978; M.A., *ibid.*, 1980; Ph.D., *ibid.*, 1982.

Meadows, Dennis (1988)

Director of the Institute for Policy and Social Science Research and Professor of Policy Analysis; B.A., Carleton College, 1964; Ph.D., Massachusetts Institute of Technology, 1969

Mebert, Carolyn J. (1979)

Associate Professor of Psychology; B.A., Boston University, 1974; Ph.D., *ibid.*, 1978.

Meeker, Loren D. (1970)

Professor of Mathematics and Earth, Oceans, and Space; B.A., B.S., Oregon State University, 1959; M.S., Stanford University, 1962; M.Sc., University of Aston, England, 1969; Ph.D., Stanford University, 1965.

Mejías-López, William (1988)

Associate Professor of Spanish; B.A., University of Puerto Rico, 1981; M.A., *ibid.*, 1983; Ph.D., University of California at Berkeley, 1988.

Mennef, Robert M. (1969)

Professor of History; B.A., Denison University, 1960; M.A., Ohio State University, 1965; Ph.D., *ibid.*, 1969.

Meredith, Dawn C. (1987)

Associate Professor of Physics; B.S., St. John's University, 1980; M.S., California Institute of Technology, 1984; Ph.D., *ibid.*, 1987.

Merenda, Michael J. (1977)

Associate Professor of Strategic Management; B.A., B.S., Northeastern University, 1970; M.B.A., *ibid.*, 1972; Ph.D., University of Massachusetts at Amherst, 1978.

Merton, Andrew H. (1972)

Professor of English; B.A., University of New Hampshire, 1967

Messier, Victor R. (1970)

Associate Professor of Family Studies; B.P.E., University of Alberta, Canada, 1962; M.S., *ibid.*, 1965; Ph.D., Pennsylvania State University, 1973

Messner, Richard A. (1985)

Associate Professor of Electrical Engineering; B.S., Clarkson University, 1979; M.S., *ibid.*, 1981; Ph.D., *ibid.*, 1985.

Metcalfe, Judith A. (1987)

Assistant Professor of Nursing; B.S.N., Salem State College, 1974; M.S.N., Boston University, 1976.

Mettaufer, Patrice T. (1990)

UNHM Assistant Professor of Communication; B.A., State University of New York College at Oneonta, 1978; M.A., University of Rhode Island, 1980; Ph.D., University of Denver, 1991.

†**Metting, Fred** (1986)

UNHM Assistant Professor of English; B.S., Ohio University, 1968; M.A., Kent State University, 1971; Ph.D., University of New Hampshire, 1976

- Meyrowitz, Joshua** (1979)
Professor of Communication; B.A., Queens College, 1972; M.A., *ibid.*, 1974; Ph.D., New York University, 1978.
- Miller, Glen P.** (1995)
Assistant Professor of Chemistry; B.Sc., Clarkson University, 1987; Ph.D., *ibid.*, 1991.
- Miller, John P.** (1992)
Assistant Professor of Kinesiology; B.S., Brooklyn College, City University of New York, 1981; M.S., Long Island University, 1983; Ph.D., University of Maryland, 1992.
- Miller, Lisa C.** (1993)
Assistant Professor of English; B.A., University of New Hampshire, 1980; M.A., *ibid.*, 1988.
- Miller, W. Thomas, III** (1979)
Professor of Electrical Engineering; B.S., Pennsylvania State University, 1972; M.S., *ibid.*, 1974; Ph.D., *ibid.*, 1977.
- Mills, Richard L.** (1967)
Associate Professor of Economics and Business Administration; B.S., Rose-Hulman Institute of Technology, 1962; M.A., Indiana University at Bloomington, 1964; Ph.D., *ibid.*, 1967.
- †Minocha, Subhash C.** (1974)
Professor of Plant Biology and Genetics; B.Sc., Punjab University, India, 1968; M.Sc., *ibid.*, 1969; Ph.D., University of Washington, 1974.
- *†Mitchell, James R.** (1964)
Associate Professor of Plant Biology and Extension Agronomist, Forage Crops; B.S., University of New Hampshire, 1957; M.S., Pennsylvania State University, 1960; Ph.D., *ibid.*, 1969.
- Mitchell, Suzanne** (1995)
Assistant Professor of Psychology; B.Sc., University of Hull, England, 1985; M.Sc., *ibid.*, 1987; Ph.D., State University of New York at Stony Brook, 1992.
- Möbius, Eberhard** (1990)
Professor of Physics and Earth, Oceans, and Space; Diploma, Ruhr-Universität, Bochum, Germany, 1973; Ph.D., *ibid.*, 1977.
- ‡Modern, Nancy C.** (1991)
Instructor of Spanish; B.A., University of Wisconsin at Madison, 1975; M.A., University of New Hampshire, 1986.
- Montgomery, Barbara M.** (1987)
Associate Vice President for Academic Affairs and Professor of Communication; B.S., Ball State University, 1968; M.A., Memphis State University, 1970; Ph.D., Purdue University, 1980.
- Moore, Berrien, III** (1969)
Director of the Institute for the Study of Earth, Oceans, and Space and Associate Professor of Mathematics and Professor of Earth, Oceans, and Space; B.S., University of North Carolina at Chapel Hill, 1963; Ph.D., University of Virginia, 1969.
- †Moore, Joseph J.** (1975)
Director of Preveterinary Programs and Director, New Hampshire State Veterinary Diagnostic Lab; B.S., Trinity College, 1966; V.M.D., University of Pennsylvania, 1970.
- Morgan, Ann L.** (1981)
Associate Professor of Recreation Management and Policy; B.A., Hanover College, 1974; M.S., Pennsylvania State University, 1976; Re.D., Indiana University at Bloomington, 1981.
- Morin, Robert R.** (1965)
Assistant Professor, Librarian; B.A., University of New Hampshire, 1963; M.S., Simmons College, 1965.
- Morner, Claudia J.** (1995)
Professor and University Librarian; B.A., University of Minnesota, 1975; M.S.L.S., Simmons College, 1978; Ph.D., Boston College, 1993.
- †Morris, Douglas E.** (1984)
Associate Professor of Resource Economics; B.S., Oklahoma State University, 1968; M.S., *ibid.*, 1969; Ph.D., *ibid.*, 1972.
- Morrison, James D.** (1965)
Professor of Chemistry; B.S., Franklin and Marshall College, 1958; Ph.D., Northwestern University, 1963.
- Morrow, Daniel G.** (1994)
Research Associate Professor of Psychology; B.A., University of California at Davis, 1977; Ph.D., University of California at Berkeley, 1982.
- Mosberg, William** (1958)
Associate Professor of Mechanical Engineering; B.S.M.E., Columbia University, 1956; M.Eng., Yale University, 1960.
- Moses, Jennifer K.** (1990)
Assistant Professor of the Arts; B.F.A., Temple University, 1984; M.F.A., Indiana University at Bloomington, 1988.
- Moynihan, Robert G.** (1978)
Thompson School Professor of Civil Technology; B.S.C.E., University of New Hampshire, 1968; M.B.A., University of Akron, 1973.
- Nahin, Paul J.** (1975)
Professor of Electrical Engineering; B.S.E.E., Stanford University, 1962; M.S.E.E., California Institute of Technology, 1963; Ph.D., University of California at Irvine, 1972.
- Nardone, H. Gay** (1982)
Associate Professor of Theatre and Dance; B.F.A., Boston Conservatory of Music, 1974; M.F.A., *ibid.*, 1990.
- Naumes, William** (1989)
Associate Professor of Business Administration; B.S., Cornell University, 1967; M.B.A., *ibid.*, 1968; Ph.D., Stanford University, 1971.
- Neistadt, Maureen E.** (1992)
Assistant Professor of Occupational Therapy; B.A., State University of New York at Binghamton, 1972; M.S., Columbia University, 1975; Sc.D., Boston University, 1991.
- New, Rebecca S.** (1990)
Associate Professor of Education; B.S., Florida State University, 1968; M.Ed., University of Florida, 1972; Ed.D., Harvard University, 1984.
- Newkirk, Thomas R.** (1977)
Professor of English; B.A., Oberlin College, 1970; M.Ed., University of Massachusetts at Boston, 1973; Ph.D., University of Texas at Austin, 1977.
- ‡Nies, Denise M.** (1995)
Assistant Professor of Nursing; B.S.N., Alverno College, 1976; M.S.N., George Mason College, 1988.
- Niman, Neil B.** (1985)
Associate Professor of Economics; B.A., University of California at Santa Cruz, 1978; M.A., University of California at Riverside, 1980; Ph.D., University of Texas at Austin, 1985.
- Nisbet, Jane A.** (1987)
Associate Professor of Education; B.S., Simmons College, 1977; M.S., University of Wisconsin at Madison, 1980; Ph.D., *ibid.*, 1982.
- Noda, Chifuru** (1989)
Assistant Professor of Chemistry; B.S., Kobe University, Japan, 1979; M.S., *ibid.*, 1981; Ph.D., Stanford University, 1988.
- Nordgren, Eric A.** (1964)
Professor of Mathematics; B.Ch.E., Polytechnic Institute of Brooklyn, 1956; Ph.D., University of Michigan at Ann Arbor, 1964.
- O'Brien, David H.** (1988)
Thompson School Associate Professor of Food Service Management; B.S., University of New Hampshire, 1969; M.Oc.Ed., *ibid.*, 1991.
- O'Brien, Edward J.** (1988)
Associate Professor of Psychology; B.A., Framingham State College, 1978; M.A., State University of New York College at Oswego, 1980; Ph.D., University of Massachusetts at Amherst, 1984.
- O'Connell, Lawrence W.** (1966)
Associate Professor of Political Science; B.A., University of New Hampshire, 1956; Ph.D., Syracuse University, 1968.
- O'Neal, Edward S.** (1993)
Assistant Professor of Finance; B.S., North Carolina State University, 1986; M.B.A., Auburn University, 1989; Ph.D., University of Florida, 1993.
- ‡Oil, Karen R.** (1995)
Instructor of Social Work; B.A., State University of New York at Stony Brook, 1980; M.S.W., Simmons College, 1986.
- Oja, Sharon N.** (1977)
Professor of Education; B.A., Macalester College, 1966; M.A., University of Minnesota, 1971; Ph.D., *ibid.*, 1978.
- Onosko, Joseph J.** (1989)
Associate Professor of Education; B.S., University of Wisconsin at Madison, 1979; M.A., *ibid.*, 1984; Ph.D., *ibid.*, 1988.
- Orovich, Nicholas N.** (1980)
Associate Professor of Music; B.M., University of Wisconsin at Madison, 1976; M.M., New England Conservatory of Music, 1978.
- ‡Ortmann, Martha H.** (1992)
Instructor of Social Work; B.S.Ed., University of Texas at Austin, 1969; M.S.W., Simmons College, 1980.
- Ossenbruggen, Paul J.** (1975)
Professor of Civil Engineering; B.C.E., Syracuse University, 1963; M.S., University of Connecticut, 1967; Ph.D., Carnegie Mellon University, 1970.
- Palmer, Stuart** (1955)
Professor of Sociology; B.A., Yale University, 1949; M.A., *ibid.*, 1951; Ph.D., *ibid.*, 1955.
- Pantelia, Maria C.** (1989)
Associate Professor of Classics; B.A., University of Athens, Greece, 1981; M.A., Ohio State University, 1983; Ph.D., *ibid.*, 1987.
- Parssinen, T. A.** (1977)
Assistant Professor of Mechanical Engineering Technology; B.S.M.E., University of New Hampshire, 1960.
- Pearson, David A.** (1989)
Professor of Health Management and Policy; B.S., State University of New York College at Cortland, 1956; M.P.H., University of Michigan at Ann Arbor, 1961; Ph.D., Yale University, 1970.
- †Pekins, Peter J.** (1987)
Associate Professor of Wildlife Ecology; B.A., State University of New York College at Plattsburgh, 1976; M.S., University of New Hampshire, 1981; Ph.D., Utah State University, 1988.
- Peterson, Bill E.** (1993)
Assistant Professor of Psychology; B.A., University of California at Berkeley, 1987; M.A., University of Michigan at Ann Arbor, 1989; Ph.D., *ibid.*, 1993.
- Petillo, Juliette D.** (1973)
Associate Professor of Nursing; B.S.N., St. Anselm College, 1961; M.S., Boston University, 1973; Ph.D., Boston College, 1993.
- Petty, Guy E.** (1978)
Thompson School Professor of Civil Technology; B.Arch., Pennsylvania State University, 1969.
- Pinet, Deborah L.** (1995)
Assistant Professor of Occupational Therapy; B.S., University of New Hampshire, 1981; M.S., Tufts University, 1992.

Piotrowski, Thaddeus M. (1972)

UNHM Associate Professor of Sociology; B.A., St. Francis College, 1963; M.A., University of Pennsylvania, 1969; Ph.D., *ibid.*, 1972

†**Pistole, Thomas G.** (1971)

Professor of Microbiology; Ph.B., Wayne State University, 1964; M.S., *ibid.*, 1966; Ph.D., University of Utah, 1969.

Planalp, Roy Paul (1987)

Associate Professor of Chemistry; S.B., Massachusetts Institute of Technology, 1979; Ph.D., University of California at Berkeley, 1983.

‡**Plante, Amy S.** (1987)

Assistant Professor of Communication Disorders; B.S., University of New Hampshire, 1980; M.S., *ibid.*, 1982

Pokoski, John L. (1967)

Professor of Electrical Engineering, B.S., St. Louis University, 1959; M.S., Arizona State University, 1965; Ph.D., Montana State University, 1967.

Polasky, Janet L. (1981)

Professor of History, B.A., Carleton College, 1973; M.A., Stanford University, 1974; Ph.D., *ibid.*, 1978.

Polk, Keith (1964)

Professor of Music; B.A., San Diego State University, 1956; M.M., University of Wisconsin at Madison, 1958; Ph.D., University of California at Berkeley, 1968.

†**Pollard, James E.** (1970)

Associate Professor of Plant Biology; A.B., Duke University, 1965; Ph.D., University of Florida, 1969

Portalupi, Joann M. (1995)

Assistant Professor of Education; B.A., New England College, 1979; M.A., Teachers College, Columbia University, 1988; Ph.D., University of New Hampshire, 1995.

Porter, Phoebe A. (1988)

Associate Professor of Spanish; B.A., Bryn Mawr College, 1975; M.A., Brown University, 1980; Ph.D., *ibid.*, 1985.

Powell, Lou G. (1981)

Associate Professor of Recreation Management and Policy; B.S., Winthrop College, 1972; M.S., Florida State University, 1975; Re.D., Indiana University at Bloomington, 1981

Prelli, Lawrence J. (1985)

Associate Professor of Communication; B.S., State University of New York College at Brockport, 1977; M.A., State University of New York at Albany, 1979; Ph.D., Pennsylvania State University, 1984.

Prentice, Michael L. (1994)

Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.A., Princeton University, 1978; M.S., University of Maine at Orono, 1982; Ph.D., Brown University, 1988.

Pugh, Stephen R. (1993)

UNHM Assistant Professor of Biology; B.A., Ripon College, 1976; M.S., University of North Dakota, 1980; Ph.D., Boston University, 1989

Puth, Robert C. (1967)

Professor of Economics; B.A., Carleton College, 1958; M.A., Northwestern University, 1965; Ph.D., *ibid.*, 1967

Quigley, Donald W. (1978)

Thompson School Associate Professor of Forest Technology; B.S., University of New Hampshire, 1976; M.S., *ibid.*, 1978

Quinn, Timothy J. (1989)

Assistant Professor of Kinesiology, B.S., Bradley University, 1979; M.A., Michigan State University, 1983; Ph.D., *ibid.*, 1987.

Ramsey, David L. (1991)

Assistant Professor of Theatre and Dance; B.P.A., Plymouth State College, 1972; M.F.A., University of North Carolina at Greensboro, 1977

Rasmussen, Mary H. (1968)

Professor of Music; B.A., University of New Hampshire, 1952; M.M., University of Illinois at Urbana-Champaign, 1953; M.L.S., *ibid.*, 1956.

Reardon, Lawrence C. (1993)

Assistant Professor of Political Science; B.A., Johns Hopkins University, 1979; M.F.A., Columbia University, 1983; Ph.D., *ibid.*, 1991

†**Reeves, R. Marcel** (1964)

Professor of Entomology and Natural Resources; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1957; M.S., Cornell University, 1961; Ph.D., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1964.

Reid, R. Daniel (1987)

Associate Professor of Operations Management; B.A., University of Maryland, 1976; M.B.A., Angelo State University, 1978; Ph.D., Ohio State University, 1987.

Rentschler, Dorothy D. (1990)

Associate Professor of Nursing; B.S.N., C.W. Post College, 1974; M.A., New York University, 1977; Ph.D., *ibid.*, 1986.

Resch, John P. (1972)

Interim Dean of the University of New Hampshire at Manchester and UNHM Associate Professor of History, B.A., Denison University, 1962; M.A., Ohio State University, 1965; Ph.D., *ibid.*, 1969.

Reyna, Stephen P. (1973)

Professor of Anthropology; A.B., Columbia College, 1965; Ph.D., Columbia University, 1972.

Rhiel, Mary E. (1986)

Associate Professor of German; B.S., University of Wisconsin at River Falls, 1971; M.A., University of Wisconsin at Madison, 1978; Ph.D., *ibid.*, 1988.

‡**Rice, Angie H.** (1995)

Assistant Professor of Social Work; B.S., Centenary College, 1970; M.Ed., *ibid.*, 1972; M.S.W., Louisiana State University, 1977.

Richman, David M. (1988)

Associate Professor of Theatre and Dance and Director of Theatre; B.A., Harvard University, 1972; Ph.D., Stanford University, 1978.

‡**Riddell, Susan M.** (1987)

Instructor of Spanish; B.A., Mississippi College, 1964; M.A., Vanderbilt University, 1966; B.A., Columbus College, 1975.

‡**Ripley, David K.** (1992)

Instructor of Music; A.B., Harvard University, 1970; M.M., New England Conservatory of Music, 1977

Ritvo, Roger A. (1987)

Dean of the School of Health and Human Services and Professor of Health Management and Policy; B.A., Case Western Reserve University, 1967; M.B.A., George Washington University, 1970; Ph.D., Case Western Reserve University, 1976.

***Roberts, John M.** (1979)

Associate Professor of Plant Biology and Extension Specialist, Turf; B.S., Washington State University, 1974; M.S., Purdue University, 1975; Ph.D., *ibid.*, 1977

Roberts, Lewis, Jr. (1972)

Associate Professor of Occupational Education, B.A., Brown University, 1959; M.Ed., Auburn University, 1970; Ed.D., *ibid.*, 1972

Robertson, Charles L. (1975)

Associate Professor of Theatre and Dance and Director of Dance; B.F.A., International University School of Performing Arts, 1969; M.F.A., *ibid.*, 1971

Robertson, Robert A. (1993)

Assistant Professor of Tourism; B.A., Western Illinois University, 1981; M.A., Oregon State University, 1984; Ph.D., University of Illinois at Urbana-Champaign, 1990.

‡**Robinson, Linda** (1985)

Assistant Professor of Nursing; B.S.N., University of Colorado at Boulder, 1970; M.S.N., *ibid.*, 1974; M.A., University of California at San Diego, 1984.

†**Rock, Barrett N.** (1987)

Associate Professor of Natural Resources and Earth, Oceans and Space; B.S., University of Vermont, 1966; M.S., University of Maryland, 1970; Ph.D., *ibid.*, 1972.

Rock, Steven K. (1995)

Assistant Professor of Accounting; B.S.B.A., Shippensburg University, 1984; M.B.A., Pennsylvania State University, 1987; Ph.D., *ibid.*, 1995.

†**Rodgers, Frank G.** (1985)

Professor of Microbiology; B.Sc., University of Surrey, England, 1969; M.I.Biol., Institute of Biology, London, England, 1977; Ph.D., University of Surrey, England, 1977.

Rogers, John E. (1967)

Professor of Music; B.A., B.M., University of Georgia, 1960; M.M., Yale University, 1962; M.F.A., Princeton University, 1966.

Rogers, Juliette M. (1990)

Assistant Professor of French; B.A., Oberlin College, 1983; Ph.D., Duke University, 1990.

Roh, Yae Sock (1995)

Instructor of Hospitality Management; B.S., Kyonggi University, Seoul, Korea, 1985; M.S., University of Nevada at Las Vegas, 1988.

Romoser, George K. (1961-62, 1967)

Professor of Political Science; A.B., Rutgers University, 1951; A.M., University of Chicago, 1954; Ph.D., *ibid.*, 1958.

‡**Rondeau, Gail** (1986)

UNHM Assistant Professor of English; B.A., University of Rhode Island, 1970; M.A., Oklahoma State University, 1973.

Ross, William E. (1990)

Associate Professor, Librarian; B.A., East Carolina University, 1977; M.A., University of Maryland, 1980; M.L.S., *ibid.*, 1980; Ph.D., American University, 1992.

Rouman, John C. (1965)

Professor of Classics; B.A., Carleton College, 1950; M.A., Columbia University, 1951; Ph.D., University of Wisconsin at Madison, 1965.

Royce, Peter W. (1983)

Instructor of Quantitative Methods; B.S., University of New Hampshire, 1971; M.B.A., *ibid.*, 1983.

Rucinski, Andrzej (1984)

Professor of Electrical Engineering; M.S., Technical University of Odessa, Ukraine, 1973; Ph.D., Technical University of Gdansk, Poland, 1982

Russell, Robert D. (1975)

Associate Professor of Computer Science; B.A., Yale University, 1965; M.S., Stanford University, 1967; Ph.D., *ibid.*, 1972

Ryan, James M. (1984)

Associate Professor of Physics and Earth, Oceans, and Space; B.S., University of California at Riverside, 1970; M.S., University of California at San Diego, 1974; Ph.D., University of California at Riverside, 1978.

Sable, Janet R. (1989)

Assistant Professor of Recreation Management and Policy; B.A., University of Michigan at Ann Arbor, 1975; M.S., Northeastern University, 1981; Ed.D., Boston University, 1988.

Sahagian, Dork L. (1995)

Research Associate Professor of Earth Sciences; Ph.D., University of Chicago, 1987

Salloway, Jeffrey Colman (1988)

Professor of Health Management and Policy, B.A., Tufts University, 1963; A.M., Boston University, 1965; Ph.D., *ibid.*, 1969

- Salvio, Paula M.** (1992)
Assistant Professor of Education; B.A., Marymount College, 1981; M.A., Wesleyan University, 1983; Ph.D., University of Rochester, 1989.
- Salyer, Lucy E.** (1989)
Associate Professor of History; B.A., University of California at San Diego, 1979; M.A., University of California at Berkeley, 1983; Ph.D., *ibid.*, 1989.
- Sample, Ruth J.** (1995)
Assistant Professor of Philosophy; B.A., Oberlin College, 1986; M.A., University of Pittsburgh, 1995; Ph.D., *ibid.*, 1995.
- Sansom, Dana M.** (1986)
Thompson School Associate Professor of Horticultural Technology; A.A.S., Thompson School of Applied Science, 1977; B.S., University of New Hampshire, 1983; M.O.E., *ibid.*, 1985.
- †Sasner, John J.** (1965)
Professor of Zoology; B.A., University of New Hampshire, 1957; M.S., *ibid.*, 1959; Ph.D., University of California at Los Angeles, 1965.
- Saunders, Paul G.** (1995)
Major, U.S. Air Force and Assistant Professor of Aerospace Studies; B.S., Worcester State College, 1982; M.B.A., Montana State University, 1985.
- Savage, Godfrey H.** (1965)
Professor of Mechanical and Ocean Engineering; B.S.E., Princeton University, 1950; M.B.A., Harvard University, 1954; Ph.D., Stanford University, 1970.
- Savage, Terry M.** (1976)
UNHM Associate Professor of Philosophy; B.A., University of New Hampshire, 1969; M.A., Boston University, 1975; Ph.D., *ibid.*, 1978.
- †Schadler, Christine L.** (1995)
Instructor of Natural Resources; M.S., Syracuse University, 1976; M.S., Antioch Graduate School, 1994.
- Scharff, Robert C.** (1970)
Professor of Philosophy; A.B., University of Illinois at Urbana-Champaign, 1961; M.A., Northwestern University, 1965; Ph.D., *ibid.*, 1970.
- Schibanoff, Susan** (1971)
Professor of English; B.A., Cornell University, 1966; M.A., University of California at Los Angeles, 1967; Ph.D., *ibid.*, 1971.
- Schiller, Nina Glick** (1991)
Associate Professor of Anthropology; B.A., New York University, 1966; Ph.D., Columbia University, 1975.
- Schmidt, Torsten** (1988)
Associate Professor of Economics; M.A., University of Florida, 1984; Ph.D., *ibid.*, 1990.
- Schnepf, Scott** (1981)
Associate Professor of Art; B.A., Augustana College, 1977; M.F.A., Kansas State University, 1981.
- Schoof, Jill** (1987)
Associate Professor of Electrical Engineering Technology; B.S.E.E., Clarkson University, 1968; M.S.L.L., Northeastern University, 1974.
- Schram, Thomas H.** (1990)
Associate Professor of Education; B.A., Dartmouth College, 1978; B.A., University of Wyoming, 1982; M.Ed., University of Oregon, 1987; Ph.D., *ibid.*, 1990.
- †Schwab, Charles G.** (1975)
Associate Professor of Animal Science; B.S., University of Wisconsin at Madison, 1969; M.S., *ibid.*, 1970; Ph.D., *ibid.*, 1974.
- Schwarz, Marc L.** (1967)
Associate Professor of History; A.B., Bates College, 1959; M.A.T., Harvard University, 1960; Ph.D., University of California at Los Angeles, 1965.
- Schweickart, Patrocino P.** (1979)
Professor of English; B.S., University of the Philippines, 1963; M.Ch.E., University of Virginia, 1965; M.A., *ibid.*, 1969; M.A., Ohio State University, 1974; Ph.D., *ibid.*, 1980.
- †Scott, Michelle P.** (1990)
Associate Professor of Zoology; B.A., Wellesley College, 1961; M.A., Harvard University, 1980; Ph.D., *ibid.*, 1984.
- Scott, William H.** (1970)
Thompson School Professor of Applied Business Management; B.S., Drexel University, 1961; M.Ed., University of New Hampshire, 1973.
- Seavey, John W.** (1980)
Professor of Health Management and Policy; A.B., Bates College, 1966; M.A., University of Arizona, 1968; M.P.H., Harvard University, 1979; Ph.D., University of Arizona, 1973.
- Sedo, Stanley A.** (1992)
Assistant Professor of Economics; B.A., University of Michigan at Ann Arbor, 1980; M.A., *ibid.*, 1987; Ph.D., *ibid.*, 1991.
- †Sedory, Daniel R.** (1988)
Assistant Professor of Kinesiology; B.S., University of Pittsburgh, 1982; M.S., University of Arizona, 1984.
- Seidel, Alice C.** (1976)
Associate Professor of Occupational Therapy; B.S., University of Wisconsin at Milwaukee, 1963; M.P.H., University of Michigan at Ann Arbor, 1971; Ed.D., Vanderbilt University, 1994.
- Seidel, Lee F.** (1977)
Professor of Health Management and Policy; A.B., Hobart College, 1967; M.P.A., Pennsylvania State University, 1972; Ph.D., *ibid.*, 1976.
- Seiler, David E.** (1972)
Professor of Music; B.M., University of Wisconsin at Madison, 1961; M.M., *ibid.*, 1965.
- Seitz, W. Rudolf** (1976)
Professor of Chemistry; A.B., Princeton University, 1965; Ph.D., Massachusetts Institute of Technology, 1970.
- Shea, Christine M.** (1994)
Assistant Professor of Operations Management; B.B.A., Wilfrid Laurier University, Waterloo, Ontario, 1980; M.B.A., *ibid.*, 1984; Ph.D., University of Western Ontario, Canada, 1994.
- Shepard, Harvey K.** (1969)
Professor of Physics; B.S., University of Illinois at Urbana-Champaign, 1960; M.S., California Institute of Technology, 1962; Ph.D., *ibid.*, 1966.
- Sherman, Sarah Way** (1984)
Associate Professor of English; B.A., Marlboro College, 1972; Ph.D., Brown University, 1983.
- Shetty, Sandhya** (1988)
Associate Professor of English; B.A., Nowrosjee Wadia College, Poona, India, 1977; M.A., University of Poona, India, 1979; M.A., University of Rochester, 1982; Ph.D., *ibid.*, 1987.
- Shippee-Rice, Raelene** (1979)
Associate Professor of Nursing; Diploma, Cook County Hospital School of Nursing, 1960; B.S.N., Carroll College, 1964; M.S., University of Rochester, 1979; Ph.D., Brandeis University, 1990.
- Shore, Barry** (1974)
Professor of Business Administration; B.S.E.E., Tufts University, 1960; M.B.A., University of Massachusetts at Amherst, 1963; Ph.D., University of Wisconsin at Madison, 1968.
- Shore, Carol** (1980)
Associate Professor of Art; B.F.A., Boston University, 1963; M.A., University of Chicago, 1965.
- Shore, Samuel D.** (1965)
Professor of Mathematics; B.S., Juniata College, 1959; M.A., Pennsylvania State University, 1961; Ph.D., *ibid.*, 1964.
- Short, Frederick T.** (1989)
Research Associate Professor of Natural Resources and Marine Science; B.A., Plymouth State College, 1972; M.S., University of Rhode Island, 1976; Ph.D., University of Alaska at Fairbanks, 1981.
- Short, Kevin M.** (1994)
Assistant Professor of Mathematics; B.A., University of Rochester, 1985; M.S., *ibid.*, 1985; Ph.D., Imperial College of Science & Technology, London, 1988.
- Shotter, John D.** (1991)
Professor of Communication; B.Sc., University of London, England, 1963; Ph.D., University of Nottingham, England, 1982.
- Siggelakis, Susan J.** (1988)
Associate Professor of Political Science; B.A., Rutgers University, 1979; M.A., Johns Hopkins University, 1983; Ph.D., *ibid.*, 1988.
- Silva, J. Donald** (1963)
Thompson School Professor of Communications; B.A., University of New Hampshire, 1957; M.A., *ibid.*, 1965.
- Simic, Charles D.** (1973)
Professor of English; B.A., New York University, 1967.
- Simos, Evangelos O.** (1977)
Professor of Economics; B.S., Athens Graduate School of Business and Economics, 1972; M.A., Northern Illinois University, 1974; Ph.D., *ibid.*, 1977.
- Simpson, Robert E.** (1963)
Professor of Physics; B.S., University of Rochester, 1955; A.M., Harvard University, 1956; Ph.D., *ibid.*, 1960.
- Sinha, Debajyoti** (1993)
Assistant Professor of Mathematics; B.S., Indian Statistical Institute, India, 1986; M.S., *ibid.*, 1988; M.A., University of Rochester, 1990.
- Sir, W. Niel** (1970)
Associate Professor of Music; B.A., University of Chicago, 1952; B.A., University of California at Berkeley, 1954; M.A., *ibid.*, 1962.
- Sitkoff, Harvard** (1976)
Professor of History; A.B., Queens College, 1961; M.A., Columbia University, 1962; Ph.D., *ibid.*, 1975.
- Sivaprasad, Kondagunta** (1969)
Professor of Electrical Engineering; B.E., University of Madras, India, 1956; M.S., Harvard University, 1958; Ph.D., *ibid.*, 1963.
- Skole, David L.** (1993)
Research Assistant Professor of Earth, Oceans and Space; A.B., Indiana University at Bloomington, 1978; M.S., *ibid.*, 1980; Ph.D., University of New Hampshire, 1992.
- Smith, David R.** (1979)
Associate Professor of Art History; A.B., Washington University, 1968; M.A., Columbia University, 1971; M.Phil., *ibid.*, 1978; Ph.D., *ibid.*, 1978.
- Smith, M. Daniel** (1967)
Associate Professor of Education; A.B., Dartmouth College, 1948; M.M., University of Michigan at Ann Arbor, 1950; M.Ed., Harvard University, 1958; Ed.D., *ibid.*, 1961.
- Smith, Mark R.** (1966)
Professor of English; B.A., Northwestern University, 1960.
- Smith, Ruth** (1984)
Associate Professor of Occupational Therapy; B.S., State University of New York at Buffalo, 1967; M.Ed., Fairfield University, 1980.
- †Smith, Samuel C.** (1961)
Professor of Animal and Nutritional Sciences and Biochemistry and Molecular Biology; B.S., Pennsylvania State University, 1955; M.S., *ibid.*, 1958; Ph.D., *ibid.*, 1962.
- Sohl, Jeffrey E.** (1983)
Associate Professor of Business Administration; B.E., Villanova University, 1972; M.B.A., University of Maryland, 1974; Ph.D., *ibid.*, 1983.

- †**Sower, Stacia A.** (1982)
Professor of Biochemistry and Molecular Biology; B.A., University of Utah, 1973; M.S., Oregon State University, 1978; Ph.D., *ibid.*, 1980.
- Sparr, T. M.** (1989)
Professor of Computer Science; B.S., Ohio Wesleyan University, 1963; M.S., Texas A & M University, 1969; Ph.D., *ibid.*, 1972.
- Sparrow, John E.** (1993)
UNHM Assistant Professor of Psychology; B.S., State University of New York College at Oswego, 1983; M.A., University of New Hampshire, 1986; Ph.D., *ibid.*, 1990.
- Spillane, Kathleen Wilson** (1986)
Associate Professor of Music; B.M., University of Arizona, 1976; M.M., *ibid.*, 1983; Ed.M., Columbia University, 1986; Ed.D., *ibid.*, 1987.
- Sprague, Linda G.** (1969)
Professor of Operations Management; S.B., Massachusetts Institute of Technology, 1961; M.B.A., Boston University, 1967; D.B.A., Harvard University, 1973.
- Stearney, Lynn M.** (1993)
Assistant Professor of Communication; B.A., Northern Illinois University, 1981; M.A., University of Maine at Orono, 1983; Ph.D., Pennsylvania State University, 1992.
- Stetson, Michael B.** (1990)
Assistant Professor of Civil Engineering; B.S., University of New Hampshire, 1968; M.S., University of Illinois at Urbana-Champaign, 1969; Ph.D., *ibid.*, 1971.
- Stevens, Douglas E.** (1995)
Instructor of Accounting; B.A., Spring Arbor College, 1981; M.S.M., Purdue University, 1989.
- †**Stewart, James A.** (1968)
Associate Dean for Research and Agricultural Experiment Station and Professor of Biochemistry; B.A., St. Anselm College, 1963; Ph.D., University of Connecticut, 1967.
- Stibler, Robert** (1978)
Associate Professor of Music; B.S., Susquehanna University, 1970; M.M., Catholic University of America, 1973; D.M.A., *ibid.*, 1979.
- Stine, William Wren** (1984)
Associate Professor of Psychology; B.S., Georgia Institute of Technology, 1977; M.S., *ibid.*, 1982; Ph.D., *ibid.*, 1983.
- Stine-Morrow, Elizabeth A.L.** (1991)
Assistant Professor of Psychology; B.A., Loyola University, 1978; M.S., Georgia Institute of Technology, 1981; Ph.D., *ibid.*, 1983.
- Stoddard, James E.** (1993)
Assistant Professor of Marketing; B.S., Massachusetts Maritime Academy, 1978; M.B.A., Virginia Polytechnic Institute and State University, 1987; Ph.D., *ibid.*, 1994.
- Stone, Joyce** (1987)
Assistant Professor of Medical Laboratory Science; B.A., Northeastern University, 1971.
- ‡**Stoykovich, Elisa F.** (1985)
Instructor of Spanish; B.A., Universidad de Barcelona, Spain, 1967; M.A., University of New Hampshire, 1972; M.A., *ibid.*, 1974.
- Straus, Murray A.** (1968)
Professor of Sociology; B.A., University of Wisconsin at Madison, 1948; M.S., *ibid.*, 1949; Ph.D., *ibid.*, 1956.
- Straussfogel, Debra L.** (1992)
Assistant Professor of Geography; B.S., Pennsylvania State University, 1979; M.S., *ibid.*, 1983; Ph.D., *ibid.*, 1987.
- Sullivan, Judith A.** (1990)
Professor of Nursing; B.S., Boston University, 1962; M.S., Case Western Reserve University, 1967; Ed.D., University of Rochester, 1972.
- Sullivan, Patricia A.** (1988)
Associate Professor of English; B.A., University of Utah, 1978; M.A., *ibid.*, 1981; Ph.D., Ohio State University, 1988.
- Sundberg, Donald C.** (1978)
Interim Vice President for Research and Public Service and Associate Professor of Chemical Engineering; B.S., Worcester Polytechnic Institute, 1965; M.S., University of Delaware, 1968; Ph.D., *ibid.*, 1970.
- Sussenberger, Barbara** (1978)
Associate Professor of Occupational Therapy; B.S., Tufts University, 1961; M.S., Boston University, 1975.
- ‡**Sweatt, Alison H.** (1986)
Assistant Professor of Nursing; B.S., University of New Hampshire, 1970; M.S., Boston College, 1977.
- Swift, M. Robinson** (1976)
Professor of Mechanical Engineering and Ocean Engineering; B.S., University of New Hampshire, 1971; Ph.D., *ibid.*, 1974.
- †**Tagliaferro, Anthony R.** (1978)
Associate Professor of Nutritional Sciences; B.S., Boston College, 1968; M.S., Lehigh University, 1972; Ph.D., Cornell University, 1978.
- Talbot, Robert W.** (1988)
Research Associate Professor of Earth Sciences and Earth, Oceans, and Space; B.S., Florida Institute of Technology, 1975; M.S., University of Wisconsin at Madison, 1977; Ph.D., *ibid.*, 1981.
- †**Taylor, James T.** (1977)
Associate Professor of Zoology; B.S., University of Tennessee, 1966; M.S., *ibid.*, 1968; Ph.D., Oregon State University, 1976.
- †**Taylor, Robert L., Jr.** (1984)
Associate Professor of Animal Science and Genetics; B.A., Carson-Newman College, 1975; M.S., Auburn University, 1978; Ph.D., Mississippi State University, 1981.
- Tebbetts, Diane R.** (1972)
Professor, Librarian; B.A., University of New Hampshire, 1965; M.S., Simmons College, 1972; M.A., Boston University, 1978; D.A., Simmons College, 1985.
- Thapar, Rakesh** (1995)
Research Assistant Professor of Computer Science; Ph.D., Boston University, 1987.
- Thompson, Allen R.** (1974)
Associate Professor of Economics and Business Administration; B.A., Austin College, 1966; Ph.D., University of Texas at Austin, 1973.
- ‡**Thomsen-Breig, Linda J.** (1995)
Instructor of Spanish; B.A., University of Connecticut, 1975; M.A., University of New Hampshire, 1988.
- Tierney, John R.** (1992)
Major, U.S. Army and Assistant Professor of Military Science; B.S., University of Rhode Island, 1983.
- †**Tillinghast, Edward K.** (1967)
Professor of Zoology; B.S., University of Rhode Island, 1955; M.S., *ibid.*, 1959; Ph.D., Duke University, 1966.
- †**Tisa, Louis S.** (1994)
Assistant Professor of Microbiology and Genetics; B.Sc.(Hon.), University of Windsor, Canada, 1976; M.Sc., *ibid.*, 1979; Ph.D., University of Wisconsin at Madison, 1987.
- Tischler, Herbert** (1965)
Professor of Geology; B.S., Wayne State University, 1950; M.A., University of California at Berkeley, 1955; Ph.D., University of Michigan at Ann Arbor, 1961.
- Tomellini, Sterling A.** (1985)
Associate Professor of Chemistry; B.S., University of Rhode Island, 1979; Ph.D., Rutgers, The State University of New Jersey, 1985.
- Tonn, Marietta M.** (1991)
Assistant Professor of Communication; B.S., Pittsburg State University, 1976; M.A., *ibid.*, 1982; Ph.D., University of Kansas, 1987.
- Tooch, David E.** (1985)
Thompson School Associate Professor of Applied Business Management; A.A.S., Thompson School of Applied Science, 1976; B.S.T., University of New Hampshire, 1978; M.B.A., Plymouth State College, 1981.
- Torbert, Roy B.** (1989)
Dean of the College of Engineering and Physical Sciences and Professor of Physics and Earth, Oceans and Space; B.A., Princeton University, 1971; Ph.D., University of California at Berkeley, 1979.
- ‡**Torregrosa, Monica V.** (1988)
Instructor of Spanish; B.A., Universidad de Concepcion, Chile, 1983; M.A., Drew University, 1986.
- Triplett, Timm A.** (1981)
Associate Professor of Philosophy; B.A., Antioch College, 1972; M.A., University of Massachusetts at Amherst, 1980; Ph.D., *ibid.*, 1982.
- Trout, B. Thomas** (1969)
Professor of Political Science; B.A., University of California at Los Angeles, 1961; M.A., Indiana University at Bloomington, 1968; Cert., *ibid.*, 1972; Ph.D., *ibid.*, 1972.
- Trubowitz, Rachel** (1986)
Associate Professor of English; B.A., Barnard College, 1976; M.A., Columbia University, 1977; M.Phil., *ibid.*, 1980; Ph.D., *ibid.*, 1985.
- †**Tsang, Paul C.** (1989)
Associate Professor of Animal Science; B.A., Cornell University, 1978; Ph.D., Boston University, 1986.
- Tucker, James** (1992)
Assistant Professor of Sociology; B.S., University of Virginia, 1981; M.A., *ibid.*, 1987; Ph.D., *ibid.*, 1992.
- Turner, Heather A.** (1991)
Assistant Professor of Sociology; B.A., University of Western Ontario, Canada, 1985; Ph.D., University of California at San Francisco, 1990.
- Tuttle, Steven D.** (1981)
Thompson School Associate Professor of Applied Business Management; A.A.S., Thompson School of Applied Science, 1976; B.S., University of New Hampshire, 1979; M.Ed., *ibid.*, 1984.
- Ulrich, Gael D.** (1970)
Professor of Chemical Engineering; B.S., University of Utah, 1959; M.S., *ibid.*, 1962; Sc.D., Massachusetts Institute of Technology, 1964.
- †**Urban, Willard E., Jr.** (1963)
Professor of Biometrics and Genetics; B.S., Virginia Polytechnic Institute and State University, 1958; M.S., Iowa State University, 1960; Ph.D., *ibid.*, 1963.
- Urquhart, Peter W.** (1989)
Associate Professor of Music; B.A., Princeton University, 1974; M.M., Westminster Choir College, 1978; M.A., Smith College, 1982; Ph.D., Harvard University, 1988.
- Ury, Ann D.** (1973)
Associate Professor of Occupational Therapy; B.S., University of New Hampshire, 1956; M.A., Brown University, 1968; C.A.G.S., Rhode Island College, 1973; M.S.W., University of Connecticut, 1985.
- Vagts, Peggy A.** (1978)
Associate Professor of Music; B.M., Morningside College, 1976; M.M., University of Wisconsin at Madison, 1978.
- Valenza, Daniel L.** (1959)
Professor of Art; A.A.S., School for American Craftsmen at Rochester Institute of Technology, 1956; B.F.A., *ibid.*, 1958; M.F.A., *ibid.*, 1966.

- Van Osdol, Donovan H.** (1970)
Professor of Mathematics; A.B., Earlham College, 1964; A.M., University of Illinois at Urbana-Champaign, 1966; Ph.D., *ibid.*, 1969.
- Vasudevan, Palligarnai T.** (1988)
Associate Professor of Chemical Engineering; B.Tech., University of Madras, India, 1974; M.S., State University of New York at Buffalo, 1984; Ph.D., Clarkson University, 1988.
- Veal, Larry J.** (1982)
Associate Professor of Music; B.S., University of Illinois at Urbana-Champaign, 1974; M.M.Cello, *ibid.*, 1976.
- Venkatachalam, A. R.** (1992)
Assistant Professor of Management Information Systems; B.Eng., University of Madras, India, 1980; M.B.A., Indian Institute of Management, Calcutta, 1983; Ph.D., University of Alabama, 1990.
- Vestrand, W. T.** (1987)
Research Associate Professor of Physics and Earth, Oceans, and Space; B.S., University of Michigan at Ann Arbor, 1975; Ph.D., University of Maryland, 1980.
- †Vogel, Karla E.** (1986)
UNHM Assistant Professor of Computer Information Systems; B.A., Rivier College, 1972; M.B.A., *ibid.*, 1990.
- Von Damn, Karen L.** (1992)
Associate Professor of Geochemistry and Earth, Oceans, and Space; B.S., Yale University, 1977; Ph.D., Massachusetts Institute of Technology, 1984.
- Vorosmarly, Charles J.** (1992)
Research Assistant Professor of Earth Sciences and Earth, Oceans, and Space; B.S., Cornell University, 1977; M.S., University of New Hampshire, 1983; Ph.D., *ibid.*, 1991.
- Vroman, Neil B.** (1984)
Associate Dean of the School of Health and Human Services and Associate Professor of Kinesiology; B.S., Colgate University, 1975; Ph.D., Pennsylvania State University, 1982.
- Wake, Cameron P.** (1995)
Research Assistant Professor of Earth Sciences and Earth, Oceans, and Space; B.S., University of Ottawa, Canada, 1984; M.A., Wilfrid Laurier University, Waterloo, Ontario, 1987; Ph.D., University of New Hampshire, 1993.
- †Walker, Charles W.** (1976)
Professor of Zoology; B.A., Miami University, Ohio, 1969; M.S., Cornell University, 1973; Ph.D., *ibid.*, 1976.
- Wallace, William H.** (1957)
Professor of Geography; B.S., Beloit College, 1948; M.S., University of Wisconsin at Madison, 1950; Ph.D., *ibid.*, 1956.
- Walsh, Susan A.** (1990)
UNHM Assistant Professor of English; B.A., Kenyon College, 1979; M.A., Duke University, 1980; Ph.D., *ibid.*, 1988.
- Wang, Rosemary Y.** (1971)
Associate Professor of Nursing; Diploma, Good Samaritan School of Nursing, Cincinnati, 1957; B.S., College of Mount St. Joseph, 1959; M.S., Boston College, 1962; Ph.D., *ibid.*, 1982.
- Wansart, William L.** (1985)
Associate Professor of Education; B.S., State University of New York at Buffalo, 1972; M.A., University of Northern Colorado, 1975; Ed.D., *ibid.*, 1984.
- Ward, Judith D.** (1972)
Associate Professor of Occupational Therapy; B.S., University of New Hampshire, 1964; M.O.E., *ibid.*, 1976.
- Ward, Sally** (1980)
Professor of Sociology; B.A., University of Maryland, 1970; M.A., Brown University, 1974; Ph.D., *ibid.*, 1977.
- Warner, Rebecca M.** (1981)
Professor of Psychology; B.A., Carnegie Mellon University, 1973; Ph.D., Harvard University, 1978.
- Watson, Deborah** (1967)
Associate Professor, Librarian; B.A., University of New Hampshire, 1963; M.A., *ibid.*, 1967; M.S., Simmons College, 1972.
- †Watson, Winsor H., III** (1978)
Professor of Zoology; B.A., Wesleyan University, 1972; Ph.D., University of Massachusetts at Amherst, 1978.
- Watt, David W.** (1987)
Associate Professor of Mechanical Engineering; B.S.E., Princeton University, 1979; M.Eng., University of California at Berkeley, 1983; Ph.D., University of Michigan at Ann Arbor, 1987.
- Watters, David H.** (1978)
Professor of English; A.B., Dartmouth College, 1972; Ph.D., Brown University, 1979.
- Weathersby, Rita** (1978)
Associate Professor of Organizational Behavior; A.B., University of California at Berkeley, 1965; M.A.T., Harvard University, 1968; C.A.S., *ibid.*, 1974; Ed.D., *ibid.*, 1977.
- Webb, Dwight** (1967)
Associate Professor of Education; B.A., University of Redlands, 1955; M.A., *ibid.*, 1956; Ph.D., Stanford University, 1967.
- Weber, James H.** (1963)
Professor of Chemistry; B.S., Marquette University, 1959; Ph.D., Ohio State University, 1963.
- Webster, Penelope E.** (1987)
Associate Professor of Communication Disorders; B.S., Northeastern University, 1976; M.A., State University of New York College at Geneseo, 1978; Ed.D., Boston University, 1984.
- Weiland, Walter E.** (1964)
Associate Professor of Kinesiology; B.S., State University of New York College at Cortland, 1957; M.S., Pennsylvania State University, 1958; Ph.D., *ibid.*, 1964.
- Weiner, James L.** (1979)
Associate Professor of Computer Science; B.S., University of Massachusetts at Amherst, 1973; M.S., University of Wisconsin at Madison, 1975; Ph.D., University of California at Los Angeles, 1979.
- Weisman, Gary R.** (1977)
Professor of Chemistry; B.S., University of Kentucky, 1971; Ph.D., University of Wisconsin at Madison, 1976.
- *†Wells, Otho S.** (1966)
Professor of Plant Biology and Extension Horticulturist, Vegetables; B.S., North Carolina State University, 1961; M.S., Michigan State University, 1963; Ph.D., Rutgers, The State University of New Jersey, 1966.
- Westphal, Kenneth R.** (1988)
Associate Professor of Philosophy; B.A., University of Illinois at Urbana-Champaign, 1977; M.A., University of Wisconsin at Madison, 1981; Ph.D., *ibid.*, 1986.
- Weyrick, Richard R.** (1964)
Associate Professor of Forest Resources; B.S., University of Minnesota, 1953; M.F., *ibid.*, 1961; Ph.D., *ibid.*, 1968.
- Wheeler, Douglas L.** (1965)
Professor of History; A.B., Dartmouth College, 1959; A.M., Boston University, 1960; Ph.D., *ibid.*, 1963.
- White, Barbara A.** (1976)
Professor of Women's Studies; A.B., Cornell University, 1964; M.A., University of Wisconsin at Madison, 1965; Ph.D., *ibid.*, 1974.
- White, Susan O.** (1969)
Professor of Political Science; A.B., Bryn Mawr College, 1958; M.A., University of Minnesota, 1966; Ph.D., *ibid.*, 1970.
- Whittier, Duane H.** (1967)
Professor of Philosophy; B.A., University of New Hampshire, 1950; M.A., University of Illinois at Urbana-Champaign, 1952; Ph.D., *ibid.*, 1961.
- Wible, James R.** (1984)
Associate Professor of Economics; A.B., Wheaton College, 1973; Ph.D., Pennsylvania State University, 1980.
- Williams, Albert E.** (1994)
Assistant Professor of Recreation Management and Policy; B.S., Bridgewater State College, 1981; M.S., University of Oregon, 1982; Ph.D., *ibid.*, 1992.
- Williams, Daniel C.** (1970)
Associate Professor of Psychology; B.A., Northwestern University, 1966; Ph.D., University of California at Santa Barbara, 1970.
- Williams-Barnard, Carol L.** (1978)
Associate Professor of Nursing; A.S., Vermont College, 1970; B.S.N., Catholic University of America, 1972; M.S.N., *ibid.*, 1975; D.N.Sc., *ibid.*, 1979.
- Wilson, John A.** (1960)
Associate Professor of Mechanical Engineering; B.S., Tufts University, 1958; M.S., Northeastern University, 1960; Ph.D., *ibid.*, 1970.
- Wing, Barbara H.** (1970)
Associate Professor of Spanish; B.A., Middlebury College, 1955; M.A.T., Harvard University, 1956; M.A., Middlebury College, 1971; Ph.D., Ohio State University, 1980.
- Winslow, Deborah** (1978)
Associate Professor of Anthropology; B.A., Brandeis University, 1968; M.A., Stanford University, 1970; Ph.D., *ibid.*, 1982.
- Wirth, Clifford J.** (1981)
Associate Professor of Political Science; B.A., Muhlenberg College, 1969; M.P.A., San Diego State University, 1971; Ph.D., Southern Illinois University at Carbondale, 1976.
- Witt, Charlotte Elizabeth** (1987)
Associate Professor of Philosophy and the Humanities; B.A., Swarthmore College, 1975; M.A., Georgetown University, 1978; Ph.D., *ibid.*, 1980.
- Witzling, Mara R.** (1977)
Professor of Art History; B.A., Queens College, 1967; M.A., Cornell University, 1970; Ph.D., *ibid.*, 1978.
- Wong, Edward H.** (1978)
Professor of Chemistry; B.S., University of California at Berkeley, 1968; Ph.D., Harvard University, 1975.
- Wood, Craig H.** (1990)
Assistant Professor of Operations Management; A.B., Stanford University, 1972; M.B.A., University of Chicago, 1974; Ph.D., Ohio State University, 1991.
- Wood, Deanna** (1990)
Assistant Professor, Librarian; B.A., Reed College, 1969; M.A., University of Denver, 1972; M.P.A., University of New Hampshire, 1995.
- Woodruff, Alicia Quiroz** (1994)
Assistant Professor of Spanish; B.A., University of Arizona, 1967; M.A., *ibid.*, 1970; Ph.D., University of California at Davis, 1992.
- Woodward, William R.** (1975)
Associate Professor of Psychology and Adjunct Associate Professor of History; B.A., Harvard University, 1967; M.A., Princeton University, 1969; M.A., Yale University, 1973; Ph.D., *ibid.*, 1975.

Wright, John J. (1970)

Professor of Physics; B.S., Worcester Polytechnic Institute, 1965; Ph.D., University of New Hampshire, 1969.

Wurdinger, Scott D. (1992)

Assistant Professor of Kinesiology; B.A., Luther College, 1984; M.S., Mankato State University, 1986; M.A., University of Wisconsin at Madison, 1988; Ph.D., Union Institute, 1992.

Yamamoto, Yutaka (1973)

Associate Professor of Philosophy; B.S., University of California at Berkeley, 1957; M.A., University of Michigan at Ann Arbor, 1967; Ph.D., *ibid.*, 1973.

Yeager, Jack A. (1981)

Professor of French; B.A., Colorado State University, 1968; M.A., University of Kentucky, 1969; Ph.D., University of Wisconsin at Madison, 1982.

Yost, Israel J. (1993)

Skills Application Teacher; B.A., Upsala College, 1968; M.S., University of New Hampshire, 1991.

***Young, Allen J.** (1991)

Assistant Professor of Animal Science and Lead Extension Dairy Specialist; B.S., Utah State University, 1979; M.S., *ibid.*, 1981; Ph.D., Oregon State University, 1987.

Yount, John A. (1962-64, 1965)

Professor of English; B.A., Vanderbilt University, 1960; M.F.A., University of Iowa, 1962.

Zabarsky, Melvin J. (1969)

Professor of Art; B.F.A., Boston University, 1958; M.F.A., University of Cincinnati, 1960.

Zang, Richard A. (1994)

UNHM Assistant Professor of Mathematics; B.T., State University of New York at Binghamton, 1978; M.A., *ibid.*, 1980; Ed.D., Rutgers, The State University of New Jersey, 1994.

†Zarin, Daniel J. (1995)

Assistant Professor of Forestry; B.A., Yale University, 1987; M.F.S., *ibid.*, 1990; Ph.D., University of Pennsylvania, 1993.

Zaso, Gus C. (1970)

Associate Professor of Tourism; A.B., Syracuse University, 1957; M.A., Central Michigan University, 1962; Re.D., Indiana University at Bloomington, 1965.

Zercher, Charles K. (1991)

Assistant Professor of Chemistry; B.A., Messiah College, 1981; M.S., State University of New York College at Buffalo, 1984; Ph.D., University of Notre Dame, 1989.

ZeZula, Jerilee A. (1979)

Thompson School Associate Professor of Applied Animal Science; B.S., Michigan State University, 1970; D.V.M., *ibid.*, 1971.

Zhu, Xiaofeng (1994)

Assistant Professor, Librarian; B.S. Sichuan University, China, 1982; M.S., Columbia University, 1984; Ph.D., Indiana University at Bloomington, 1994.

Zia, Lee L. (1985)

Associate Professor of Mathematics; B.S., University of North Carolina at Chapel Hill, 1978; M.S., University of Michigan at Ann Arbor, 1980; Ph.D., Brown University, 1985.

Zielinski, Gregory A. (1990)

Research Assistant Professor of Earth Sciences and Earth, Oceans, and Space; B.S., Pennsylvania State University, 1977; M.S., Idaho State University, 1980; Ph.D., University of Massachusetts at Amherst, 1987.

†Zsigray, Robert M. (1970)

Professor of Microbiology and Genetics; A.B., Miami University, Ohio, 1961; M.S., Georgetown University, 1967; Ph.D., *ibid.*, 1969.

Zunz, Sharyn J. (1993)

Assistant Professor of Social Work; B.A., University of Wisconsin at Madison, 1970; M.S.W., New York University, 1972; D.S.W., Fordham University, 1993.

Adjunct Faculty

Beekman, Gerard (1995)

Adjunct Assistant Professor of Animal Science; A.A., Nassau Community College, 1971; B.A., University of New Hampshire, 1973; D.V.M., Cornell University, 1977.

Bernstein, David T. (1989)

Adjunct Assistant Professor of Zoology; B.S., University of Rhode Island, 1970; M.S., University of New Hampshire, 1975; Ph.D., *ibid.*, 1979.

Boudette, Eugene L. (1985)

Adjunct Professor of Geology and New Hampshire State Geologist; B.S., University of New Hampshire, 1951; A.M., Dartmouth College, 1959; Ph.D., *ibid.*, 1969.

Boulanger, James H. (1984)

Head Cross Country and Track and Field Coach (Men's) and Adjunct Lecturer of Kinesiology; B.S., University of New Hampshire, 1975.

Bowes, M. William (1972)

Head Football Coach and Adjunct Lecturer of Kinesiology; B.S., Pennsylvania State University, 1965.

Brough, Deborah (1995)

Adjunct Assistant Professor of Medical Laboratory Science; B.S., University of Maine at Orono, 1976.

Brushett, Lynda (1992)

Adjunct Assistant Professor of Community Development; B.A., Lycoming College, 1969; M.A., American University, 1971.

Bub, Frank L. (1995)

Adjunct Assistant Professor of Earth Sciences; B.S., Lehigh University, 1968; M.S., U.S. Naval Postgraduate School, 1974; Ph.D., University of New Hampshire, 1993.

Bush, Larry (1994)

Adjunct Assistant Professor of Animal Science; B.S., University of New Hampshire, 1975; Ph.D., University of Michigan at Ann Arbor, 1981.

Cerny, James W. (1972)

Adjunct Associate Professor of Geography; B.A., University of New Hampshire, 1968; M.S., Pennsylvania State University, 1970; Ph.D., Clark University, 1976.

Cohen, Bert (1995)

Adjunct Associate Professor of Natural Resources; A.A., University of California at Los Angeles, 1957; B.A., *ibid.*, 1960; M.A., *ibid.*, 1961; M.F.A., *ibid.*, 1963.

Cotter, Paul F. (1987)

Adjunct Assistant Professor of Animal & Nutritional Sciences; A.B., Suffolk University, 1966; M.S., Northeastern University, 1968; Ph.D., University of New Hampshire, 1973.

Darlington, Sidney W. (1971)

Adjunct Professor of Electrical Engineering; B.S., Harvard University, 1928; B.S., Massachusetts Institute of Technology, 1929; Ph.D., Columbia University, 1940.

DeSeve, Richard J. (1995)

Adjunct Associate Professor of Natural Resources; B.A., University of Maryland, 1974; I.D., University of Baltimore, 1978.

Dionne, Michele (1992)

Adjunct Assistant Professor of Zoology; B.A., Bates College, 1976; M.S., University of North Carolina at Chapel Hill, 1981; Ph.D., Bates College, 1990.

Eagar, Christopher (1995)

Adjunct Professor of Natural Resources; B.S., University of Tennessee, 1969; M.S., *ibid.*, 1978; Ph.D., *ibid.*, 1985.

Federer, C. Anthony (1970)

Adjunct Professor of Micrometeorology; B.S., University of Massachusetts at Amherst, 1959; M.S., University of Wisconsin at Madison, 1962; Ph.D., *ibid.*, 1964.

France, Scott C. (1995)

Adjunct Assistant Professor of Zoology; B.S., Concordia University, 1986; Ph.D., University of California at San Diego, 1992.

Frick, George E. (1983)

Adjunct Professor of Resource Economics; B.S., University of Connecticut, 1943; M.S., *ibid.*, 1947.

Garrett, Peter W. (1995)

Adjunct Professor of Natural Resources; B.S., Michigan State University, 1957; M.S., University of Michigan at Ann Arbor, 1962; Ph.D., *ibid.*, 1969.

Gottwald, Sheryl (1993)

Adjunct Assistant Professor of Communication Disorders; B.S., Northeastern University, 1976; M.S., Pennsylvania State University, 1979; Ph.D., Temple University, 1990.

Gove, Jeffrey H. (1994)

Adjunct Assistant Professor of Forest Resources and Research Forester - USDA Forest Service; A.A.S., University of New Hampshire, 1975; B.S., *ibid.*, 1977; M.S., *ibid.*, 1980; M.A., Pennsylvania State University, 1992; Ph.D., *ibid.*, 1989.

Gow, Anthony Jack (1985)

Adjunct Professor of Glaciology; B.S., Victoria University of Wellington, New Zealand, 1954; M.S., *ibid.*, 1955; Ph.D., *ibid.*, 1973.

Grizzle, Raymond E. (1994)

Adjunct Assistant Professor of Zoology; B.S., Florida State University, 1972; M.S., University of Central Florida, 1981; Ph.D., Rutgers University, 1988.

Guare, Richard (1988)

Adjunct Assistant Professor of Communication Disorders; B.A., Manhattan College, 1969; M.Ed., University of New Hampshire, 1973; Ph.D., University of Virginia, 1982.

Haebler, Peter (1979)

UNHM Adjunct Assistant Professor of History and Associate Dean for Academic Affairs; B.A., University of Massachusetts at Amherst, 1963; M.A., *ibid.*, 1968; Ph.D., University of New Hampshire, 1976.

Hammond, Mark R. (1988)

Adjunct Assistant Professor of Communication Disorders; B.A., University of Maine at Orono, 1975; M.A., *ibid.*, 1977.

Hanrahan, Linda (1988)

Adjunct Associate Professor of Communication Disorders; B.A., California State University at Long Beach, 1972; M.A., *ibid.*, 1974; Ph.D., University of Oregon, 1980.

Hiltton, James (1991)

Adjunct Assistant Professor of Recreation Management and Policy; B.S., Springfield College, 1975.

Hines, Mark E. (1984)

Adjunct Associate Professor of Earth Sciences; B.S., Ohio State University, 1973; M.S., University of Connecticut, 1978; Ph.D., University of New Hampshire, 1981.

Hollinger, David Y. (1995)

Adjunct Associate Professor of Natural Resources; B.A., Dartmouth College, 1977; Ph.D., Stanford University, 1984.

Hornbeck, James W. (1979)

Adjunct Professor of Forest Hydrology; B.S., Pennsylvania State University, 1960; M.S., *ibid.*, 1962; Ph.D., SUNY College of Environmental Science and Forestry at Syracuse, 1973.

- Horne, Peter J.** (1984)
Dean and Director of Cooperative Extension Service and Adjunct Associate Professor of Adult Education: B.S., University of New Hampshire, 1958; M.Ed., *ibid.*, 1967; Ed.D., Boston University, 1980.
- Kantner, Bruce** (1995)
Adjunct Associate Professor of Natural Resources; B.A., Oberlin College, 1966; M.S., Antioch Graduate School, 1991.
- Kraus, John D., Jr.** (1980)
Colonel, U.S. Army Reserve (Retired), Director of Institutional Research and Adjunct Associate Professor of Military Science; B.A., Norwich University, 1964; Ed.S., University of Iowa, 1976; Ph.D., *ibid.*, 1978.
- Lane, Ronald W.** (1994)
Adjunct Associate Professor of Communication Disorders; M.S., University of Vermont, 1980; M.D., Dartmouth College, 1986.
- Langan, Richard** (1992)
Adjunct Assistant Professor of Zoology; B.A., University of New Hampshire, 1971; M.S., *ibid.*, 1980; Ph.D., *ibid.*, 1992.
- Latham, Paul W., II** (1994)
Adjunct Assistant Professor of Electrical Engineering; B.A., University of Minnesota, 1980; Ph.D., University of New Hampshire, 1992.
- Leak, William B.** (1967)
Adjunct Professor of Natural Resources; B.S., S.U.N.Y. College of Environmental Science and Forestry at Syracuse, 1953; M.F., *ibid.*, 1956.
- Levin, Robert E.** (1982)
Adjunct Professor of Electrical Engineering; B.S., Stanford University, 1953; M.S., *ibid.*, 1954; Engr., *ibid.*, 1957; Ph.D., *ibid.*, 1960.
- Lucas, Karen** (1989)
Adjunct Assistant Professor of Communication Disorders; B.A., Ohio University, 1968; M.A., University of Cincinnati, 1976; Ph.D., *ibid.*, 1978.
- Lull, Wendy W.** (1992)
Adjunct Associate Professor of Recreation Management and Policy; B.A., Oakland University, 1974; M.S., University of New Hampshire, 1979.
- McCoy, Thomas F.** (1994)
Adjunct Associate Professor of Electrical Engineering; B.A., Iona College, 1968; D.O., Kansas City College of Osteopathic Medicine, 1979.
- Miller, Steven J.** (1992)
Adjunct Assistant Professor of Recreation Management and Policy; B.S., Ohio State University, 1977; M.S., Yale University, 1986.
- Minocha, Rakesh** (1991)
Adjunct Assistant Professor of Plant Biology; B.Sc.(Hon.), Punjab University, India, 1975; M.S.(Hon.), *ibid.*, 1976; M.S., University of New Hampshire, 1978; Ph.D., *ibid.*, 1985.
- Moran, MaryJane** (1982)
Adjunct Instructor of Family Studies; B.S., University of Tennessee, 1974; M.S., *ibid.*, 1976.
- Murray, Frederick P.** (1966)
Adjunct Associate Professor of Communication Disorders; B.A., Stanford University, 1948; M.A., University of Southern California, 1950; Ph.D., University of Denver, 1966.
- Nicolosi, Robert J.** (1986)
Adjunct Professor of Animal & Nutritional Sciences; B.A., St. Anselm College, 1964; M.S., University of New Hampshire, 1967; Ph.D., *ibid.*, 1972.
- Noll, Walter, M.D.** (1987)
Adjunct Associate Professor of Medical Laboratory Science and Medical Director; B.S., Occidental College, 1965; M.D., Yale University, 1969.
- O'Toole, Dennis A.** (1993)
Adjunct Professor of History; B.A., Princeton University, 1963; M.A.T., Harvard University, 1965; Ph.D., Brown University, 1973.
- O'Day, John M.** (1994)
Adjunct Associate Professor of Communication Disorders; M.D., University of Maryland, 1992.
- Person, Mark A.** (1990)
Adjunct Assistant Professor of Hydrogeology; B.A., Franklin and Marshall College, 1980; M.S., New Mexico Institute of Mining and Technology, 1984; Ph.D., Johns Hopkins University, 1990.
- Pettigrew, Neal R.** (1981)
Adjunct Associate Professor of Earth Sciences; A.B., Dartmouth College, 1972; M.S., Louisiana State University, 1975; Ph.D., Massachusetts Institute of Technology, 1981.
- Pilgrim, Sidney A.L.** (1979)
Adjunct Professor of Soil Science; B.S., University of New Hampshire, 1955.
- Polito, Frank** (1992)
Adjunct Assistant Professor of Medical Laboratory Science; B.S., Quinipiac College, 1981.
- Polito, Jill** (1990)
Adjunct Assistant Professor of Medical Laboratory Science; B.S., Vermont College, 1974.
- Richards, Harry J.** (1979)
Associate Dean of the Graduate School and Adjunct Associate Professor of Education; B.A., State University of New York at Potsdam, 1968; M.S., State University of New York at Albany, 1969; Ph.D., Florida State University, 1978.
- Rogers, Eugene J.** (1991)
Adjunct Assistant Professor of Animal & Nutritional Sciences; B.S., Lowell State College, 1974; M.S., Northeastern University, 1979; Ph.D., *ibid.*, 1987.
- Rosel, Patricia E.** (1993)
Adjunct Assistant Professor of Zoology; B.A., Macalester College, 1985; Ph.D., University of California at San Diego, 1992.
- Rucinska, Barbara Dziurla** (1994)
Adjunct Assistant Professor of Electrical Engineering; M.S., Technical University of Gdansk, Poland, 1971; Ph.D., University of New Hampshire, 1991.
- Russell, Sylvia Weber** (1979)
Adjunct Associate Professor of Computer Science; B.A., Middlebury College, 1962; M.S., Stanford University, 1970; Ph.D., *ibid.*, 1975.
- Safford, Lawrence** (1995)
Adjunct Professor of Natural Resources; B.S., University of Maine at Orono, 1961; M.F., Yale University, 1962; Ph.D., University of Maine at Orono, 1968.
- Selikowitz, Stuart M.** (1987)
Adjunct Associate Professor of Electrical Engineering; B.A., Rutgers, The State University of New Jersey, 1958; M.D., State University of New York School of Medicine, 1962.
- Sendak, Paul Edwin** (1995)
Adjunct Professor of Natural Resources; B.S., Rutgers University, 1965; M.S., University of Massachusetts at Amherst, 1968; Ph.D., *ibid.*, 1972.
- Shortle, Walter C.** (1996)
Adjunct Professor of Plant Biology; B.S., University of New Hampshire, 1968; M.S., *ibid.*, 1970; Ph.D., North Carolina State University, 1974.
- Smith, Kevin T.** (1996)
Adjunct Professor of Plant Biology; B.S., Connecticut College, 1976.
- Soares, Lygia** (1992)
Adjunct Assistant Professor of Communication Disorders; B.S., University of Bombay, India, 1983; M.S., University of Oklahoma, 1987; Ph.D., *ibid.*, 1990.
- Stucchi, Arthur F.** (1994)
Adjunct Associate Professor of Animal and Nutritional Sciences; B.S., Franklin Pierce College, 1975; M.S., University of New Hampshire, 1981; Ph.D., *ibid.*, 1988.
- Sullivan, Janet R.** (1985)
Adjunct Assistant Professor of Plant Biology; B.S., University of Vermont, 1977; M.S., University of Connecticut, 1980; Ph.D., University of Oklahoma, 1984.
- Terry, Clark** (1988)
Adjunct Professor of Music; Ph.D., University of New Hampshire, 1978.
- Thewke, Siegfried E.** (1979)
Adjunct Assistant Professor of Entomology and State Entomologist; B.S., University of Georgia, 1964; M.S., University of Missouri at Columbia, 1967; Ph.D., *ibid.*, 1977.
- Ulrich, Laurel** (1985)
Adjunct Professor of History; B.A., University of Utah, 1960; M.A., Simmons College, 1971; Ph.D., University of New Hampshire, 1980.
- Urquhart, James H.** (1979)
Head Men's Lacrosse Coach and Adjunct Lecturer of Kinesiology; A.A.S., S.U.N.Y. Agricultural and Technical College at Farmingdale, 1972; B.S., University of Rhode Island, 1974; M.S., *ibid.*, 1978.
- Wicklow, Barry J.** (1989)
Adjunct Assistant Professor of Zoology; B.S., Central Connecticut State College, 1972; M.S., University of New Hampshire, 1975; Ph.D., *ibid.*, 1982.
- Wright, Vicki C.** (1986)
Adjunct Assistant Professor of Art and Art History; B.F.A., Ohio Wesleyan University, 1977; M.A., Arizona State University, 1986.
- Yamasaki, Mariko** (1995)
Adjunct Assistant Professor of Natural Resources; B.S., University of Michigan at Ann Arbor, 1974; M.S., *ibid.*, 1978.
- Zuaro, Deborah E.** (1992)
Adjunct Assistant Professor of Medical Laboratory Science; B.A., Trinity College, 1976; M.S., Norwich University, 1992.

Extension Faculty

- Adams, Nancy E.** (1980)
Extension Educator, Agricultural Resources, Rockingham County; B.S., University of New Hampshire, 1975; M.S., Michigan State University, 1977.
- Auger, Philip A.** (1977)
Associate Extension Educator, Forest Resources, Rockingham County; B.S.F., University of New Hampshire, 1974; M.S., *ibid.*, 1991.
- Barker, Heidi** (1995)
Associate Extension Educator, 4-H & Youth Development, Grafton County; B.S., University of Vermont, 1986; M.Ed., *ibid.*, 1994.
- Barker, Lawrence R.** (1986)
Associate Extension Educator, 4-H & Youth Development, Coos County; B.S., University of New Hampshire, 1981; M.B.A., Plymouth State College, 1986.
- Barnaby, Roland T.** (1988)
Associate Extension Educator, Sea Grant & Marine Resources, Rockingham County; B.Ed., Plymouth State College, 1963; M.Ed., University of New Hampshire, 1970.
- Barney, Sally W.** (1982)
Extension Educator and Extension Specialist, 4-H & Youth Development; B.S., University of New Hampshire, 1968; M.O.E., *ibid.*, 1987.
- Baxter, Charlene F.** (1988)
Associate Extension Educator, Family Development, Sullivan County; B.S., Cornell University, 1974; M.P.S., *ibid.*, 1981.

- Bennett, Karen P.** (1980)
Associate Extension Educator, Forest Resources, Merrimack County; B.S.F., University of New Hampshire, 1979; B.S., *ibid.*, 1992.
- Billingham, Carla C.** (1993)
Assistant Extension Educator, Family Development, Hillsborough County; B.A., Merrimack College, 1990; M.S., Springfield College, 1993.
- Black, Donald C.** (1971)
Extension Educator, Forest Resources, Strafford County; B.S., University of Massachusetts at Amherst, 1963; M.O.E., University of New Hampshire, 1989.
- Blass, Karen M.** (1990)
Assistant Extension Educator, Family Development, Rockingham County; B.A., Regis College, Massachusetts, 1976; M.Ed., University of New Hampshire, 1985.
- Bonneville, Richard A.** (1985)
Extension Educator and Extension Specialist, 4-H & Youth Development; B.S., Springfield College, 1964; M.Ed., *ibid.*, 1965.
- Booser-Blasco, Claudia R.** (1983)
Associate Extension Educator, Family Development, Rockingham County; B.S., University of Rhode Island, 1972; M.Ed., University of New Hampshire, 1988.
- Bressett, Lauren L.** (1976)
Assistant Extension Educator, 4-H & Youth Development, Cheshire County; B.S., Keene State College, 1975.
- Buob, Thomas E.** (1982)
Extension Educator, Agricultural Resources, Grafton County; B.S., Christian Brothers College, 1970; M.S., University of New Hampshire, 1979.
- Burnett-Kurie, Karen L.** (1992)
Associate Extension Educator and Extension Specialist, Environmental Education; B.S., University of New Hampshire, 1974; M.S.T., Antioch College, 1978.
- Burrows, Dorothy** (1983)
Extension Instructor, 4-H & Youth Development, Carroll County; B.A., University of Massachusetts at Amherst, 1970.
- Bush, Judith J.** (1979)
Extension Educator, Family Development, Merrimack County; B.S., Oregon State University, 1963; M.A., University of Connecticut, 1965.
- Buteau, Shirley O.** (1979)
Associate Extension Educator, Family Development, Coos County; B.S., University of Maine at Farmington, 1971.
- Cheever, Deborah J.** (1977)
Associate Extension Educator, 4-H & Youth Development, Merrimack County; B.S., Keene State College, 1977; M.O.E., University of New Hampshire, 1984.
- Clement, Bruce A.** (1985)
Extension Educator, Agricultural Resources, Cheshire County; B.S., University of New Hampshire, 1968; M.S., University of Connecticut, 1980.
- Conklin, V. Jean** (1984)
Associate Extension Educator and Regional Specialist, Dairy, Grafton County; B.S., University of New Hampshire, 1981; M.S., Virginia Polytechnic Institute and State University, 1983.
- Cross, Charlotte W.** (1981)
Associate Extension Educator and Extension Specialist, 4-H & Youth Development, B.S., University of Maine at Orono, 1970; M.S., Oregon State University, 1978.
- Dahlgren, Julia P.** (1993)
Assistant Extension Educator and Extension Specialist, Atlantic Salmon Restoration Program, B.A., Connecticut College, 1982; M.S., Antioch College, 1985.
- Dole, Sumner A., III** (1977)
Associate Extension Educator, Forest Resources, Belknap County; B.S., State University of New York, 1973; M.P.A., University of New Hampshire, 1987.
- Eaton, Alan T.** (1978)
Extension Educator and Extension Specialist, Entomology; B.S., University of Massachusetts at Amherst, 1972; M.S., Virginia Polytechnic Institute and State University, 1975; Ph.D., North Carolina State University, 1978.
- Elliott, Linda M.** (1983)
Associate Extension Educator, Family Development, Cheshire County; B.S., State University of New York College at Oneonta, 1969; M.S., *ibid.*, 1975.
- Garland, Lynn B.** (1969)
Extension Educator, 4-H & Youth Development, Rockingham County; B.S., University of Maryland, 1969; M.S., University of New Hampshire, 1979.
- Gregory, Paula J.** (1980)
Extension Educator and Extension Specialist, Youth and Families at Risk; B.Ed., Keene State College, 1971; M.O.E., *ibid.*, 1977.
- Haddad, Nada A.** (1987)
Assistant Extension Educator, Agricultural Resources, Rockingham County; B.S., American University of Beirut, 1979; M.S., *ibid.*, 1983.
- Hagen, Margaret Pratt** (1986)
Assistant Extension Educator, Agricultural Resources, Hillsborough County; B.A., Brown University, 1977; M.S., Colorado College, 1986.
- Hamilton, Ann M.** (1988)
Assistant Extension Educator, Family Development, Carroll County; B.S., University of Maine at Orono, 1985; M.S., *ibid.*, 1987.
- Hamilton, George W.** (1989)
Associate Extension Educator, Agriculture, Hillsborough County; B.S., Pennsylvania State University, 1976; M.S., *ibid.*, 1982.
- Hunter, Barbara J.** (1982)
Extension Educator, Family Development, Belknap County; B.A., Montclair State College, 1966; M.S., University of New Hampshire, 1975.
- Knight, Suzann E.** (1983)
Extension Educator and Extension Specialist, Family Resource Management; B.S., University of Massachusetts at Amherst, 1972; M.O.E., Keene State College, 1978.
- Long, Valerie A.** (1979)
Extension Educator and Extension Specialist, Food and Nutrition; B.S., Mount Saint Mary College, 1973; M.O.E., University of New Hampshire, 1981.
- Lord, William G.** (1973)
Extension Educator and Extension Specialist, Fruit; B.S., University of New Hampshire, 1970; M.S., University of Massachusetts at Amherst, 1972.
- Luppold, Deborah** (1986)
Extension Educator, Food and Nutrition, Merrimack County; B.S., University of Massachusetts at Amherst, 1975; M.S., Boston University, 1979.
- Luther, Robin A.** (1985)
Assistant Extension Educator, 4-H & Youth Development, Sullivan County; B.S., Rutgers, The State University of New Jersey, 1981; M.Ed., *ibid.*, 1985.
- Maes, Deborah B.** (1982)
Assistant Extension Educator, Family Development, Grafton County; B.S., Keene State College, 1975; M.Ed., Plymouth State College, 1987.
- Mawson, Julia Steed** (1977)
Associate Extension Educator, 4-H & Youth Development, Hillsborough County; B.S., Lowell Technological Institute, 1973; M.A.T., University of New Hampshire, 1978.
- Meeker, Bonnie Sharon** (1980)
Extension Educator and Extension Specialist, Marine Education, B.S., Oregon State University, 1957; M.E., University of New Hampshire, 1975.
- Mitchell, Frank S.** (1979)
Extension Educator and Extension Specialist, Water Resources; A.A.S., Thompson School of Applied Science, 1974; B.S., University of New Hampshire, 1976; M.S., *ibid.*, 1980.
- Mullen, Alice A.** (1987)
Associate Extension Educator, Family Development, Hillsborough County; B.S., University of New Hampshire, 1978; M.S., State University of New York, 1985.
- Nute, Jonathan W.** (1987)
Assistant Extension Educator, Forest Resources, Hillsborough County; B.A., University of New Hampshire, 1973; M.S., Yale University, 1985.
- Parr, Northam D.** (1982)
Associate Extension Educator, Forest Resources, Grafton County; B.S., University of New Hampshire, 1979; M.S., *ibid.*, 1986.
- Patmos, Raymond M., Jr.** (1972)
Extension Educator, Forest Resources, Cheshire County; B.S., University of New Hampshire, 1966; M.B.A., Plymouth State College, 1980.
- Plyler, Sally A.** (1995)
Assistant Extension Educator, 4-H & Youth Development, Belknap County; B.A., University of New Hampshire, 1988; M.Ed., Plymouth State College, 1995.
- Pohl, Peter W.** (1969)
Associate Extension Educator, Forest Resources, Carroll County; B.S., University of New Hampshire, 1966; M.S., *ibid.*, 1978.
- Porter, John C.** (1974)
Extension Educator and Extension Specialist, Dairy, Merrimack County; B.S., University of New Hampshire, 1971; M.S., Cornell University, 1973.
- Preble, Kelly S.** (1993)
Assistant Extension Educator, 4-H & Youth Development, Strafford County; B.S., University of Massachusetts at Amherst, 1987; M.Ed., Pennsylvania State University, 1989.
- Rees, Paul G.** (1993)
Assistant Extension Educator, Agricultural Resource, Sullivan County; A.A., Daytona Beach Community College, 1986; B.S., University of Florida, 1990; M.S., *ibid.*, 1993.
- Schloss, Jeffrey A.** (1989)
Assistant Extension Educator and Extension Specialist, Water Resources; B.S., Duke University, 1979; M.S., American University, 1985.
- Schroeder, Calvin E.** (1969)
Extension Educator, Agricultural Resources, Strafford County; A.A.S., Thompson School of Applied Science, 1963; B.S., University of New Hampshire, 1968; M.O.E., *ibid.*, 1980.
- Sciabarrasi, Michael R.** (1980)
Extension Educator and Extension Specialist, Agricultural Business Management, B.S., University of Massachusetts at Amherst, 1976; M.S., Virginia Polytechnic Institute and State University, 1978.
- Seavey, David C.** (1970)
Extension Educator, Agricultural Resources, Merrimack County; A.A.S., Thompson School of Applied Science, 1963; B.S., University of Rhode Island, 1966; M.S., University of New Hampshire, 1969.
- Smith, Sarah Shea** (1989)
Assistant Extension Educator and Extension Specialist, Forest Industry; B.S.I., University of New Hampshire, 1978; M.O.E., *ibid.*, 1989.
- Snyder, Ellen J.** (1993)
Assistant Extension Educator and Extension Specialist, Wildlife Management; B.S., University of Maine at Orono, 1982; M.S., Iowa State University, 1986.
- Sorensen, David C.** (1969)
Extension Educator, Agricultural Resources, Carroll County; B.S., University of Rhode Island, 1964; M.S., *ibid.*, 1967.

Stoddard, Samuel, III (1991)

Associate Extension Educator Forest Resources Coos County B.S. University of Maine at Orono 1968 M.S. Iowa State University 1976.

Swier, Stanley R. (1978)

Extension Educator and Extension Specialist Entomology B.S. Unica College of Syracuse University 1969 M.S. Northern Arizona University 1974 Ph.D. Ohio State University 1976

Temke, Mary Wagner (1984)

Extension Educator and Extension Specialist Human Development B.S. Pennsylvania State University 1966; M.Ed. ibid. 1967; Ph.D. University of North Carolina at Chapel Hill 1979.

Turaj, Steven J. (1988)

Associate Extension Educator Agricultural Resources Coos County B.S. University of Connecticut 1974 M.S. West Virginia University 1981

Turner, Penelope C. (1994)

Assistant Extension Educator 4-H & Youth Development Hillsborough County A.A.S. Westbrook College 1960; M.A. Cambridge College 1992.

Violette, Catherine A. (1986)

Extension Educator and Extension Specialist Food & Nutrition B.S. University of Maine at Orono 1974 B.S. ibid. 1975 M.S. ibid. 1977

Whittier, Patricia (1990)

Assistant Extension Educator Family Development Strafford County B.S. University of New Hampshire 1974 M.S. ibid. 1985

Williams, Charles H. (1969)

Associate Extension Educator and Extension Specialist Ornamentals B.S. Pennsylvania State University 1956; M.S. Michigan State University 1967; Ph.D. University of New Hampshire 1981.

Wilson, Margaret R. (1990)

Assistant Extension Educator Family Development Hillsborough County B.S. Arizona State University 1978 M.S. ibid. 1981.

Winslow, Ralph M., Jr. (1994)

Assistant Extension Educator Agricultural Resources & Community Development Belknap County B.S. University of Massachusetts at Amherst 1980; M.L.A. ibid. 1993.

Wojtusik, Robyn (1987)

Assistant Extension Educator 4-H & Youth Development Rockingham County B.S. University of Connecticut 1982; M.S. ibid. 1987

Wood, Stephen A. (1974)

Assistant Extension Educator Forest Resources Sullivan County B.S. University of Maine at Orono 1973.

Zweigbaum, William H. (1985)

Associate Extension Educator and Extension Specialist Agricultural Business Management B.A. Clark University 1977; M.S. Virginia Polytechnic Institute and State University 1982

Adams, Robert L.A.

Associate Professor Emeritus of Geography B.A. Williams College 1961 M.A. Clark University 1966 Ph.D. ibid. 1971 1967 to 1994

Allen, Fred E.

Professor Emeritus of Animal Science B.S. University of New Hampshire 1932 D.V.M. Ohio State University 1936 1940 to 1976.

Allmendinger, E. Eugene

Associate Professor Emeritus of Naval Architecture B.S. University of Michigan at Ann Arbor 1941; M.S. University of New Hampshire 1950; D.N.A. O.E. (Hon.) ibid. 1992 1955 to 1983

Alonzo, Roy S.

Thompson School Professor Emeritus of Food Service Management B.S. Boston University 1953; M.B.A. Western New England College 1961 Ed.D. Nova University 1978 1969 to 1996

Amell, Alexander R.

Professor Emeritus of Chemistry B.S. University of Massachusetts at Amherst 1947; Ph.D. University of Wisconsin at Madison 1950 1955 to 1988.

Amsden, Katherine

Associate Professor Emerita of Kinesiology A.B. Sweet Briar College 1953; M.S. Smith College 1956 Ph.D. University of Southern California 1967 1967 to 1992.

Anderson, Charlotte K.

Professor Emerita and Librarian B.A. University of Michigan at Ann Arbor 1935; A.B.L.S. ibid. 1936; A.M.L.S. ibid. 1951 1943 to 1980.

Annis, William H.

Professor Emeritus of Occupational Education B.S. University of Maine at Orono 1951; M.Agn.Ed. University of New Hampshire 1959; Ed.D. Cornell University 1961 1962 to 1995

Batchelder, Gerald M.

Thompson School Professor Emeritus of Civil Engineering B.S.C.E. University of New Hampshire 1951; M.S.C.E. Purdue University 1952 1953 to 1991.

Beasley, Wayne M.

Associate Professor Emeritus of Materials Science B.S. Harvard University 1946; S.M. Massachusetts Institute of Technology 1965 1957 to 1984.

Beckett, John A.

Forbes Professor Emeritus of Management B.S. University of Oregon 1939; M.B.A. Harvard University 1946; C.P.A. (1962 to 1981).

Beckwith, Marion C.

Professor Emerita of Kinesiology A.B. Oberlin College 1935; M.Ed. University of New Hampshire 1937 1935 to 1979

Blanchard, Fletcher A., Jr.

Professor Emeritus of Electrical Engineering and Associate Director of Engineering Design and Analysis Laboratory B.S. Union College 1948; M.S. Lehigh University 1950 1972 to 1987.

Blickle, Robert

Professor Emeritus of Entomology B.S. Ohio State University 1937; M.S. University of New Hampshire 1939; Ph.D. Ohio State University 1942 1939 to 1941 1946 to 1979.

Blood, Edward

Assistant Professor Emeritus of Kinesiology B.S. University of New Hampshire 1935 1936 to 1971.

Borror, Arthur C.

Professor Emeritus of Zoology B.S. Ohio State University 1956; M.S. ibid. 1958; Ph.D. Florida State University 1961 1961 to 1995.

Bowman, James S.

Professor Emeritus of Entomology and Extension Entomologist B.Sc. Ohio State University 1951; M.S. ibid. 1954; Ph.D. University of Wisconsin at Madison 1958 1971 to 1994.

Boynton, C. Hilton

Professor Emeritus of Dairy Science and Extension Dairyman Emeritus B.S. Iowa State University 1934; M.S. ibid. 1940; Ph.D. Rutgers The State University of New Jersey 1962 1945 to 1972.

Boynton, Jason E.

Associate Professor Emeritus of Education B.Ed. Plymouth Teachers College 1949; M.Ed. University of New Hampshire 1952 1966 to 1983

Bratton, Karl H.

Professor Emeritus of Music B.M. University of Kansas 1931 M.A. Teachers College Columbia University 1945 1945 to 1971

Breeding, Charles H.J.

Thompson School Professor Emeritus of Applied Soil Science B.S. University of New Hampshire 1949; M.S. ibid. 1966 1963 to 1980

Bruns, Paul E.

Professor Emeritus of Forest Resources A.B. New York University 1937; M.F. Yale University 1940; Ph.D. University of Washington 1956 1958 to 1980.

Buckley, Walter

Professor Emeritus of Sociology B.A. Brown University 1952; Ph.D. University of Wisconsin at Milwaukee 1958 1971 to 1989.

Bullock, Wilbur L.

Professor Emeritus of Zoology B.S. Queens College 1942; M.S. University of Illinois at Urbana-Champaign 1947; Ph.D. ibid. 1948 1948 to 1987.

Byers, Gordon L.

Professor Emeritus of Soil and Water Science B.S. MacDonald College 1948; M.S.A. Ontario Agricultural College Canada 1950 1956 to 1986.

Casas, R. Alberto

Professor Emeritus of Spanish and the Humanities Ben L. Universidad de Barcelona Spain 1936; A.M. Columbia University 1947; Ph.D. ibid. 1954 1952 to 1987

Chapman, Donald H.

Professor Emeritus of Geology B.A. University of Michigan at Ann Arbor 1927; M.A. ibid. 1928; Ph.D. ibid. 1931 1931 to 1974.

Chesbro, William R.

Professor Emeritus of Microbiology B.S. Illinois Institute of Technology 1951; M.S. ibid. 1955; Ph.D. ibid. 1959 1959 to 1994.

Clifford, Virginia W.

Extension Educator Emerita of 4-H & Youth Development Belknap County B.S. University of New Hampshire 1956; M.S. ibid. 1958 1978 to 1995.

Colby, Perley D.

Associate Extension Educator Emeritus of Agriculture Hillsborough County B.S. University of New Hampshire 1952 1953 to 1988.

Collins, Walter M.

Professor Emeritus of Animal Science B.S. University of Connecticut 1940; M.S. ibid. 1949; Ph.D. Iowa State University 1960 1951 to 1983.

Corbett, Alan C.

Veterinarian and Associate Professor Emeritus of Animal Science B.S. University of Maine at Orono 1936; M.S. ibid. 1937; D.V.M. Michigan State University 1940 1940 to 1978.

Crocker, Robert A.

Professor Emeritus of Environmental History & Conservation A.B. Adelphi University 1958; M.S. University of Miami Fla. 1960; Ph.D. Emory University 1966 1966 to 1994.

Daggett, Albert F.

Professor Emeritus of Chemistry B.S. University of New Hampshire 1928; M.S. ibid. 1930; Ph.D. Columbia University 1934 1928 to 1931 1935 to 1976).

Faculty Emeriti**Abbott, Helen D.**

Associate Professor Emerita and Librarian A.B. Wheaton College 1929; S.B. in L.S. Simmons College 1930; A.M. Middlebury College 1939 1943 to 1972.

Abeles, Sigmund

Professor Emeritus of the Arts A.B. University of South Carolina 1955; M.F.A. Columbia University 1957 1970 to 1987

Adamovich, Frank W.

Associate Professor Emeritus Librarian B.S. Fitchburg State College 1961; M.S. Simmons College 1968 1968 to 1994.

Damon, John F.

Extension Educator Emeritus of Cooperative Extension; B.S., University of New Hampshire, 1961; M.S., North Carolina State University, 1973; (1961 to 1990)

Danko, Thomas

Associate Extension Educator Emeritus and Extension Specialist, Poultry Management; B.S., University of Massachusetts at Amherst, 1952; M.S., University of New Hampshire, 1965; (1957 to 1987).

Dauphinais, Edward J.

Associate Professor Emeritus and Technology Branch Librarian; B.A., University of Hartford, 1956; M.S.E.S., Simmons College, 1960; (1968 to 1988).

Davis, Myra L.

Associate Professor Emerita of Secretarial Studies; B.S., Central Missouri State University, 1939; M.A., Iowa State University, 1945; (1945 to 1987).

Deichert, Lillian C.

Associate Professor Emerita and Loan Librarian; A.B., Hunter College, 1933; M.L.S., Pratt Institute, 1960; (1964 to 1975).

Dishman, Robert B.

Professor Emeritus of Political Science; A.B., University of Missouri at Columbia, 1939; A.M., *ibid.*, 1940; Ph.D., Princeton University, 1948; (1951 to 1987)

Dodds, John A.

Thompson School Associate Professor Emeritus of Applied Animal Science; B.S., University of Vermont, 1936; M.Agri.Ed., University of New Hampshire, 1960; (1953 to 1979).

Dodge, Arthur G., Jr.

Extension Educator Emeritus and Extension Program Leader Forestry; A.A., Boston University, 1950; B.S., University of Massachusetts at Amherst, 1953; M.S.E., Harvard University, 1960; (1960 to 1988)

Downs, Richard E.

Professor Emeritus of Anthropology; S.B., Harvard University, 1942; Cert. of Ethn., University of Paris, France, 1949; Ph.D., University of Leiden, Netherlands, 1956; (1962 to 1991).

Draves, David D.

Associate Professor Emeritus of Education; B.A., University of Wisconsin at Madison, 1948; M.A., *ibid.*, 1949; Ph.D., *ibid.*, 1957; (1964 to 1990)

Durgin, Owen B.

Professor Emeritus of Resource Economics, B.S.Ed., Gorham State Teachers College, 1946; M.A., University of New Hampshire, 1951; (1951 to 1992).

Edwards, John C.

Professor Emeritus of Theatre and Dance; B.S., Northwestern University, 1950; M.A., *ibid.*, 1952; Ph.D., *ibid.*, 1963; (1961 to 1995)

Edwards, Ruth S.

Associate Professor Emerita of Music; B.M., Northwestern University, 1949; M.M., *ibid.*, 1950; (1966 to 1995)

Emery, Harvard B.

Professor Emeritus of Mechanical Engineering, Certificate in M.E., Lowell Technological Institute, 1938; (1954 to 1979).

Engalichev, Nicolas

Professor Emeritus of Forest Resources and Extension Economist and Specialist, Forest Product Marketing and Utilization; B.S., SUNY College of Environmental Science and Forestry at Syracuse, 1957; M.S., *ibid.*, 1960; (1963 to 1995)

Erickson, Raymond L.

Dean Emeritus of the Graduate School and Professor Emeritus of Psychology, B.A., State University of New York at Buffalo, 1951; M.A., University of California at Los Angeles, 1954; Ph.D., *ibid.*, 1962; (1962 to 1992)

Fabrizio, Richard F.

Extension Educator Emeritus of 4-H & Youth Development, Grafton County; B.V.A., University of Massachusetts at Amherst, 1959; (1965 to 1995).

Ferguson, John R., Jr.

Extension Educator Emeritus of Forest Resources, Hillsborough County, B.S., University of New Hampshire, 1960; (1965 to 1995).

Fisher, G. Thomas

Associate Professor Emeritus of Entomology; B.S., Iowa State University, 1950; M.S., Rutgers, The State University of New Jersey, 1952; Ph.D., *ibid.*, 1954; M.Div., Andover Newton Theological School, 1985; (1969 to 1991).

Fogg, Marguerite F.

Associate Professor Emerita of Nursing; Diploma, Margaret Pillsbury Hospital School, 1940; B.S., Boston College, 1957; M.S., *ibid.*, 1960; (1967 to 1983)

Ford, Joseph P.

Assistant Professor Emeritus of Political Science; B.A., University of New Hampshire, 1956; M.P.A., Harvard University, 1957; (1962 to 1991).

Foret, John E.

Associate Professor Emeritus of Zoology; A.B., University of New Hampshire, 1962; M.S., *ibid.*, 1963; A.M., Princeton University, 1965; Ph.D., *ibid.*, 1966; (1967 to 1995)

Frost, Albert D.

Professor Emeritus of Electrical Engineering; B.S., Tufts University, 1945; A.M., Harvard University, 1947; Sc.D., Massachusetts Institute of Technology, 1952; (1957 to 1995).

George, Ernest A.

Extension Educator Emeritus and Area Extension Agent, Dairy/Agriculture Business Management; Cheshire, Hillsborough, Rockingham and Strafford Counties; B.S., University of New Hampshire, 1951; (1951 to 1984).

Gerhard, Glen C.

Professor Emeritus of Electrical Engineering; B.E.E., Syracuse University, 1956; M.Sc., Ohio State University, 1958; Ph.D., *ibid.*, 1963; (1967 to 1991).

Gilman, Francis E.

Associate Extension Educator Emeritus of Cooperative Extension; B.S., University of Maine at Orono, 1958; (1969 to 1990).

Gilmore, Robert C.

Professor Emeritus of History; A.B., University of Vermont, 1944; M.A., McGill University, 1947; M.A., Yale University, 1951; Ph.D., *ibid.*, 1954; (1952 to 1991).

Granger, Ralph H.

Assistant Director Emeritus, Thompson School of Applied Science and Thompson School Associate Professor Emeritus of Applied Business Management; B.S., University of Massachusetts at Amherst, 1935; M.S., *ibid.*, 1939; (1946 to 1976).

Grant, Clarence L.

Professor Emeritus of Chemistry; B.S., University of New Hampshire, 1951; M.S., *ibid.*, 1956; Ph.D., Rutgers, The State University of New Jersey, 1960; (1952 to 1989)

Graves, Donald H.

Professor Emeritus of Education, B.A., Bates College, 1952; M.Ed., Bridgewater State College, 1959; Ed.D., State University of New York at Buffalo, 1973; (1973 to 1992)

Green, Donald M.

Professor Emeritus of Biochemistry and Molecular Biology and Genetics, A.B., Oberlin College, 1954; Ph.D., University of Rochester, 1958; (1967 to 1993)

Haendler, Helmut R.

Professor Emeritus of Chemistry, B.S.Ch.E., Northeastern University, 1935; Ph.D., University of Washington, 1940; (1945 to 1975)

Hagstrom, Earl C.

Associate Professor Emeritus of Psychology; B.S., Tufts University, 1952; Sc.M., Brown University, 1954; Ph.D., *ibid.*, 1957; (1965 to 1994).

Haley, Russell

Professor Emeritus of Marketing; A.B., College of Wooster, 1946; M.B.A., Columbia University, 1948; Ph.D., Union Graduate School, 1974; (1975 to 1987).

Hall, Francis R.

Professor Emeritus of Hydrogeology; B.S., Stanford University, 1949; M.A., University of California at Los Angeles, 1953; Ph.D., Stanford University, 1961; (1964 to 1990).

Haich, John W.

Professor Emeritus of the Arts; Diploma, Massachusetts College of Art, 1941; B.F.A., Yale University School of Fine Arts, 1948; M.F.A., *ibid.*, 1949; (1949 to 1985).

Heckel, Maynard C.

Director Emeritus of Cooperative Extension Service and Professor Emeritus of Adult Education; B.S., Rutgers, The State University of New Jersey, 1949; M.S., Cornell University, 1956; Ed.D., *ibid.*, 1961; (1971 to 1987).

Heidgerd, Lloyd H.

Associate Professor Emeritus and Biology Branch Librarian; A.B., Oberlin College, 1941; M.A., Teachers College, Columbia University, 1948; Ed.D., University of Illinois at Urbana-Champaign, 1958; A.M.I.S., University of Michigan at Ann Arbor, 1969; (1969 to 1985).

Heilbronner, Hans

Professor Emeritus of History; A.B., University of Michigan at Ann Arbor, 1949; A.M., *ibid.*, 1950; Ph.D., *ibid.*, 1954; (1954 to 1991).

Herbst, Edward J.

Professor Emeritus of Biochemistry; B.S., University of Wisconsin, 1942; M.S., *ibid.*, 1944; Ph.D., *ibid.*, 1949; (1962 to 1988).

Hill, John L.

Professor Emeritus of Natural Resources; B.S.F., Colorado State University, 1942; M.S.F., Yale University, 1947; D.F., *ibid.*, 1954; (1964 to 1988).

Hochgraf, Frederick G.

Associate Professor Emeritus of Materials Science; B.Met.F., Rensselaer Polytechnic Institute, 1954; M.S., Cornell University, 1958; (1958 to 1987).

Hocker, Harold W., Jr.

Professor Emeritus of Forest Resources; B.S.F., Pennsylvania State University, 1949; M.F., North Carolina State University, 1952; D.F., Duke University, 1955; (1955 to 1990).

Holder, Mary

Associate Professor Emerita of Home Economics; B.S., Mount Allison University, 1940; M.S., Michigan State University, 1949; (1967 to 1980).

Houston, Robert E., Jr.

Professor Emeritus of Physics; B.S., Michigan State University, 1949; M.S., *ibid.*, 1951; Ph.D., Pennsylvania State University, 1957; (1957 to 1989).

Howe, Gerald W.

Extension Specialist Emeritus and Extension Specialist, Community and Family Development; B.S., University of Massachusetts at Amherst, 1970; M.S., *ibid.*, 1977; M.S.L., Vermont Law School, 1983; (1972 to 1995).

Hraba, John B.

Director Emeritus of System Planning and Professor Emeritus of Electrical Engineering; B.S., University of New Hampshire, 1948; M.Eng., Yale University, 1949; Ph.D., University of Illinois at Urbana-Champaign, 1955; (1949 to 1981).

Hubbard, Colin D.

Professor Emeritus of Chemistry; B.Sc., University of Sheffield, England, 1961; Ph.D., *ibid.*, 1964; (1967 to 1995)

Hudon, Louis J.

Professor Emeritus of French; A.B., Bowdoin College, 1938; M.A., Yale University, 1942; Ph.D., *ibid.*, 1943; (1961 to 1983).

Ikawa, Miyoshi

Professor Emeritus of Biochemistry and Adjunct Professor of Zoology; B.S., California Institute of Technology, 1941; M.S., University of Wisconsin at Madison, 1944; Ph.D., *ibid.*, 1948; (1963 to 1986).

Irwin, Manley R.

Professor Emeritus of Economics and Business Administration; A.B., Michigan State University, 1950; M.A., University of Michigan at Ann Arbor, 1954; Ph.D., Michigan State University, 1963; (1963 to 1990).

James, Marion E.

Professor Emerita of History; A.B., University of New Hampshire, 1940; A.M., Harvard University, 1949; Ph.D., *ibid.*, 1955; (1955 to 1986).

Jellison, Charles A., Jr.

Professor Emeritus of History; A.B., Stanford University, 1947; M.A., *ibid.*, 1948; Ph.D., University of Virginia, 1956; (1956 to 1989).

Johnson, Richard E.

Professor Emeritus of Mathematics; B.A., Inter-mountain Union College, 1934; M.A., University of Washington, 1938; Ph.D., University of Wisconsin at Madison, 1941; (1966 to 1978).

Jones, Galen E.

Professor Emeritus of Microbiology; B.A., Dartmouth College, 1950; M.A., Williams College, 1952; Ph.D., Rutgers, The State University of New Jersey, 1956; (1966 to 1991).

Jones, Paul R.

Professor Emeritus of Chemistry; A.B., Albion College, 1952; Ph.D., University of Illinois at Urbana-Champaign, 1956; (1956 to 1995).

Kapoor, Jagdish C.

Associate Professor Emeritus, Librarian; B.A., Punjab University, India, 1946; M.A., *ibid.*, 1954; M.A., University of New Hampshire, 1969; M.S., Simmons College, 1974; (1974 to 1990).

Keener, Harry A.

Dean Emeritus of the College of Life Sciences and Agriculture, Director Emeritus of the Agricultural Experiment Station and Professor Emeritus of Animal Science; B.S., Pennsylvania State University, 1936; M.S., West Virginia University, 1938; Ph.D., Pennsylvania State University, 1941; (1941 to 1978).

Kennedy, Robert C.

Thompson School Professor Emeritus of Applied Plant Science; B.V.A., University of Massachusetts at Amherst, 1940; M.S., University of New Hampshire, 1961; (1941 to 1980).

Kiang, Yun-Tzu

Professor Emeritus of Plant Biology and Genetics; B.S., Taiwan Normal University, 1957; M.A., Ohio State University, 1962; Ph.D., University of California at Berkeley, 1970; (1970 to 1994).

Kimball, Robert O.

Associate Professor Emeritus of Mathematics; B.S., University of New Hampshire, 1941; M.A., *ibid.*, 1952; (1946 to 1986).

Kimball, Roland B.

Professor Emeritus of Education; B.S., University of New Hampshire, 1942; M.Ed., *ibid.*, 1949; Ed.D., Harvard University, 1958; (1963 to 1990).

Klotz, Louis H.

Associate Professor Emeritus of Civil Engineering; B.S.C.E., Pennsylvania State University, 1951; M.S.C.E., New York University, 1956; Ph.D., Rutgers, The State University of New Jersey, 1967; (1965 to 1986).

Knowles, Stanley W.

Extension Educator Emeritus of Cooperative Extension and Extension Specialist, Forestry; B.S., University of New Hampshire, 1959; M.S., *ibid.*, 1970; (1962 to 1990).

Knox, Harry B.

Associate Extension Educator Emeritus and County Extension Agent, 4-H, Rockingham County; B.S., University of New Hampshire, 1950; (1954 to 1986).

Korbel, John J.

Professor Emeritus of Economics and Administration; S.B., Harvard University, 1939; M.B.A., Harvard Graduate School of Business Administration, 1941; Ph.D., Harvard University, 1959; (1966 to 1986).

Laurent, John L.

Professor Emeritus of the Arts; B.F.A., Syracuse University, 1948; M.A.T., Indiana University at Bloomington, 1954; (1954 to 1985).

Lavoie, Marcel E.

Associate Professor Emeritus of Zoology; B.A., St. Anselm College, 1940; M.S., University of New Hampshire, 1952; Ph.D., Syracuse University, 1956; (1950 to 1952, 1955 to 1984).

Leahy, John A., Jr.

Thompson School Assistant Professor Emeritus of Horticultural Technology; B.S., University of New Hampshire, 1947; M.S., *ibid.*, 1971; (1966 to 1991).

Leighton, Charles H.

Professor Emeritus of Spanish and the Humanities; A.B., Harvard University, 1951; A.M., *ibid.*, 1953; Ph.D., *ibid.*, 1961; (1956 to 1994).

Leighton, Roger S.

Associate Extension Educator Emeritus and Program Leader Forestry Emeritus and CFM Supervisor Emeritus; B.S., University of New Hampshire, 1941; (1952 to 1979).

Linden, Allen B.

Associate Professor Emeritus of History; B.A., Wayne State University, 1957; M.A., Columbia University, 1960; Ph.D., *ibid.*, 1969; (1963 to 1995).

Lockwood, John A.

Professor Emeritus of Physics; A.B., Dartmouth College, 1941; M.S., Lafayette College, 1943; Ph.D., Yale University, 1948; (1948 to 1989).

Loneragan, Judith E.

Extension Specialist Emerita and Extension Specialist, Volunteer Leadership; B.S., Tufts University, 1958; M.O.E., University of New Hampshire, 1979; (1973 to 1995).

Long, David F.

Professor Emeritus of History; A.B., Dartmouth College, 1939; A.M., Columbia University, 1948; Ph.D., *ibid.*, 1950; (1948 to 1992).

Melvin, Donald W.

Associate Dean Emeritus of the College of Engineering and Physical Sciences and Associate Professor Emeritus of Electrical Engineering; B.S., University of New Hampshire, 1955; M.E., Yale University, 1957; Ph.D., Syracuse University, 1971; (1957 to 1995).

Menge, Carleton P.

Professor Emeritus of Education; B.S., Springfield College, 1939; M.A., University of Chicago, 1940; Ph.D., *ibid.*, 1948; (1948 to 1990).

Merritt, Richard D.

Associate Professor Emeritus of the Arts; Certificate, Rochester Institute of Technology, 1948; (1948 to 1986).

Metcalf, Theodore G.

Professor Emeritus of Microbiology; B.S., Massachusetts College of Pharmacy, 1940; Ph.D., University of Kansas, 1950; (1956 to 1981).

Miller, Edmund G.

Professor Emeritus of English; A.B., Dartmouth College, 1943; M.A., Columbia University, 1947; Ph.D., *ibid.*, 1955; (1951 to 1987).

Mills, B. Joyce

Assistant Professor Emerita of Kinesiology; B.S., Georgia State College for Women, 1949; M.S., University of Tennessee, 1958; (1967 to 1992).

Moore, Asher

Professor Emeritus of Philosophy; A.B., Wesleyan University, 1940; M.A., Harvard University, 1942; Ph.D., *ibid.*, 1948; (1962 to 1987).

Mott, Basil J.F.

Dean Emeritus of School of Health Studies and Professor Emeritus of Health Management and Policy; A.B., Amherst College, 1949; M.P.A., Harvard University, 1953; Ph.D., *ibid.*, 1967; (1973 to 1989).

Mower, Lyman

Professor Emeritus of Physics; B.S., University of California at Berkeley, 1949; Ph.D., Massachusetts Institute of Technology, 1953; (1957 to 1990).

Mulhern, John E., Jr.

Professor Emeritus of Physics; B.S., Oklahoma State University, 1948; M.A., Boston University, 1949; Ph.D., *ibid.*, 1954; (1954 to 1993).

Munroe, M. Evans

Professor Emeritus of Mathematics; B.A., University of Texas at Austin, 1940; Sc.M., Brown University, 1941; Ph.D., *ibid.*, 1945; (1959 to 1982).

Murdoch, Joseph B.

Professor Emeritus of Electrical Engineering and Adjunct Professor of Electrical Engineering Technology; B.S., Case Western Reserve University, 1950; M.S., University of New Hampshire, 1955; Ph.D., Case Western Reserve University, 1962; (1952 to 1994).

Murray, Donald M.

Professor Emeritus of English; B.A., University of New Hampshire, 1948; (1963 to 1987).

Nevin, John A.

Professor Emeritus of Psychology; B.E., Yale University, 1954; M.A., Columbia University, 1961; Ph.D., *ibid.*, 1963; (1972 to 1995).

Nicoloff, Philip L.

Professor Emeritus of English; B.A., University of California at Los Angeles, 1949; M.A., Columbia University, 1952; Ph.D., *ibid.*, 1959; (1954 to 1995).

Nielson, Alfred Melville

Associate Professor Emeritus of Sociology; B.S., Bowling Green State University, 1942; M.A., Ohio State University, 1947; Ph.D., *ibid.*, 1955; (1950 to 1986).

O'Donnell, Dorothy C.

Associate Professor Emerita of Home Economics and Extension Specialist Emerita, Interior Design; B.S., Cornell University, 1946; M.S., University of Wisconsin at Madison, 1952; M.S., *ibid.*, 1955; (1961 to 1980).

Olson, David P.

Professor Emeritus of Wildlife Management; B.S., University of Minnesota, 1954; M.S., University of Maine at Orono, 1958; Ph.D., University of Minnesota, 1964; (1964 to 1995).

Peirce, Lincoln C.

Professor Emeritus of Plant Biology and Genetics; B.S., Cornell University, 1952; Ph.D., University of Minnesota, 1958; (1964 to 1992).

Petroski, Joseph J.

Associate Professor Emeritus of Education; B.S., University of New Hampshire, 1947; M.Ed., *ibid.*, 1952; Ed.D., Harvard University, 1960; (1966 to 1978).

Pew, Richard

Associate Professor Emeritus of Hotel Administration; B.S., Cornell University, 1933; (1963 to 1974).

Pilar, Frank L.

Professor Emeritus of Chemistry, B.S. University of Nebraska at Lincoln, 1951; M.S., *ibid.*, 1957; Ph.D., University of Cincinnati, 1957 (1957 to 1992).

Plowman, Faye T.

Extension Educator Emerita and Extension Specialist, Housing, B.S., Michigan State University, 1971; M.A., *ibid.*, 1972 (1983 to 1991).

Poll, Solomon

Professor Emeritus of Sociology, B.S., Temple University, 1955; M.A., University of Pennsylvania, 1957; Ph.D., *ibid.*, 1960 (1964 to 1985).

Pratt, Leighton C.

Assistant Extension Educator Emeritus and County Extension Agent, Agriculture and County Coordinator, Cows County, B.S., University of Vermont, 1951; M.S., University of Rhode Island, 1953 (1969 to 1988).

Pritchard, Hugh C.

Professor Emeritus and Reference Librarian, B.A., University of Washington, 1939; M.A., University of North Carolina at Chapel Hill, 1942; M.S., Columbia University, 1950 (1954 to 1985).

Rand, M. Elizabeth

Associate Professor Emerita of Home Economics, A.B., Wheaton College, 1931; M.Ed., Boston University, 1946 (1948 to 1973).

Reed, Robert C.

Associate Professor Emeritus and Collection Development Librarian, B.A., Hartwick College, 1953; A.M.L.S., University of Michigan at Ann Arbor, 1960 (1961 to 1982).

Rich, Avery E.

Associate Dean Emeritus of the College of Life Sciences and Agriculture and Professor Emeritus of Plant Pathology, B.S., University of Maine at Orono, 1927; M.S., *ibid.*, 1929; Ph.D., Washington State University, 1953 (1941 to 1943, 1950 to 1982).

Richardson, John C.

Professor Emeritus of English, A.B., Dartmouth College, 1941; M.A., Columbia University, 1942; Ph.D., Boston University, 1954 (1946 to 1989).

Ringrose, Richard C.

Professor Emeritus of Animal Science, B.S., Cornell University, 1932; Ph.D., *ibid.*, 1936 (1942 to 1975).

Roberts, Betty Holroyd

Professor Emerita of Social Work, B.A., West Virginia University, 1957; M.S.W., *ibid.*, 1970; Ph.D., Brandeis University, 1975 (1974 to 1991).

Rosen, Sam

Professor Emeritus of Economics, B.A., University of Wisconsin at Madison, 1942; M.A., Harvard University, 1947; Ph.D., *ibid.*, 1952 (1957 to 1985).

Ross, Shepley L.

Professor Emeritus of Mathematics, A.B., Boston University, 1947; A.M., *ibid.*, 1950; Ph.D., *ibid.*, 1971 (1972 to 1992).

Rothwell, Kenneth J.

Professor Emeritus of International Economics, B.A., University of Western Australia, 1949; M.A., *ibid.*, 1954; Ph.D., Harvard University, 1961 (1963 to 1986).

Routley, Douglas G.

Professor Emeritus of Plant Pathology, B.S.A., University of British Columbia, 1952; M.S., Pennsylvania State University, 1953; Ph.D., *ibid.*, 1957 (1977 to 1991).

Rupp, Nancy C.

Assistant Professor Emerita of Kinesiology, B.S., Sonoma State University, 1953; M.A., University of Iowa, 1977 (1977 to 1991).

Samuels, Frederick

Professor Emeritus of Sociology, B.S., City College of New York, 1950; M.A., University of Hawaii, 1963; Ph.D., University of Massachusetts at Amherst, 1966 (1966 to 1993).

Sandler, Melvin

Associate Professor Emeritus of Hotel Administration, B.S., Georgetown University, 1941; M.A., Northwestern University, 1947; C.P.A., 1971 to 1992.

Sawyer, Albert K.

Professor Emeritus of Chemistry, A.B., Colby College, 1949; M.S., University of Maine at Orono, 1947 (1949 to 1985).

Sawyer, Philip J.

Professor Emeritus of Zoology and Adjunct Professor of Zoology, B.S., University of New Hampshire, 1949; M.S., *ibid.*, 1948; Ph.D., University of Michigan at Ann Arbor, 1956 (1952 to 1983).

Schlobohm, Starr F.

Associate Professor Emeritus of Marketing, B.A., Ohio Wesleyan University, 1950; M.B.A., Harvard University, 1952; M.Phil., Graduate School of Business Administration, New York University, 1978; Ph.D., *ibid.*, 1981 (1975 to 1992).

Schneer, Cecil J.

Professor Emeritus of Geology and the History of Science, A.B., Harvard University, 1943; A.M., *ibid.*, 1949; Ph.D., Cornell University, 1954 (1954 to 1988).

Schreiber, Richard W.

Professor Emeritus of Botany, B.S., University of New Hampshire, 1951; M.S., *ibid.*, 1952; Ph.D., University of Wisconsin at Madison, 1955 (1957 to 1984).

Sherman, James L.

Associate Professor Emeritus of German, B.A., Wayne State University, 1959; M.A., Middlebury College, 1961; M.A., University of Michigan at Ann Arbor, 1965; Ph.D., *ibid.*, 1969 (1967 to 1995).

Silverman, Robert J.

Professor Emeritus of Mathematics, S.B., University of Chicago, 1947; S.M., *ibid.*, 1948; Ph.D., University of Illinois at Urbana-Champaign, 1952 (1962 to 1987).

Skoglund, Winthrop C.

Professor Emeritus of Animal Science, B.S., University of New Hampshire, 1938; M.S., Pennsylvania State University, 1947; Ph.D., *ibid.*, 1955 (1957 to 1981).

Smith, Gerald L.

Associate Professor Emeritus of Animal Science and Extension Animal Scientist, B.S., University of New Hampshire, 1948; M.S., Pennsylvania State University, 1951 (1948 to 1980).

Sproul, Otis J.

Dean Emeritus of the College of Engineering and Physical Sciences and Professor Emeritus of Civil Engineering, B.S., University of Maine at Orono, 1952; M.S., *ibid.*, 1957; Sc.D., Washington University, 1961 (1962 to 1995).

Stewart, Glenn W.

Associate Professor Emeritus of Geology and Stratigraphy, Geologist, B.S., University of New Hampshire, 1935; M.S., Syracuse University, 1937; M.A., Harvard University, 1939 (1978 to 1979, 1941 to 1979).

Stocking, Marion I.

Associate Extension Educator Emerita and County Extension Agent, Home Economics, Carrington County, B.S., Sumner College, 1949; M.A., University of Connecticut, 1971 (1974 to 1988).

Stone-McAdams, Deborah E.

Associate Professor Emerita of Education, B.Ed., Plymouth Teachers College, 1960; M.Ed., Boston University, 1951; Ed.D., *ibid.*, 1971 (1962 to 1990).

Strout, Richard G.

Professor Emeritus of Animal Sciences, B.S., University of Maine at Orono, 1957; M.S., University of New Hampshire, 1954; Ph.D., *ibid.*, 1961 (1954 to 1990).

Swan, Emery F.

Professor Emeritus of Zoology, S.B., Bates College, 1938; Ph.D., University of California at Berkeley, 1942 (1952 to 1978).

Sweet, Paul C.

Coach of Track and Cross Country and Professor Emeritus of Kinesiology, B.S., University of Illinois at Urbana-Champaign, 1923; M.S., University of Southern California, 1941 (1924 to 1970).

Szymujko, Joseph A.

Assistant Extension Educator Emeritus of Forestry, Sullivan County, B.S., University of New Hampshire, 1954 (1958 to 1989).

Taft, Charles K.

Professor Emeritus of Mechanical Engineering, B.A., Amherst College, 1951; B.S., Massachusetts Institute of Technology, 1953; M.S., Case Western Reserve University, 1956; Ph.D., *ibid.*, 1960 (1967 to 1991).

Tovey, Barbara S.

Associate Professor Emerita of Philosophy and the Humanities, B.A., Swarthmore College, 1945; Ph.D., University of Massachusetts at Amherst, 1975 (1978 to 1994).

Valentine, Russell L.

Professor Emeritus of Mechanical Engineering, Certificate in Machine Design, Wentworth Institute, 1942; B.S., Michigan State University, 1951; M.S.M.E., Purdue University, 1954 (1957 to 1991).

Verrette, Paul F.

Associate Professor Emeritus of Music, B.A., University of New Hampshire, 1952; M.A., Boston University, 1971 (1962 to 1995).

Vreeland, Robert P.

Associate Professor Emeritus of Civil Engineering, B.S., Yale University, 1932; M.S., Columbia University, 1933; M.E., Yale University, 1941 (1966 to 1977).

Wallace, Oliver P., Sr.

Professor Emeritus of Forest Resources, B.S., University of New Hampshire, 1937; B.S.F., University of Michigan at Ann Arbor, 1938; M.F., *ibid.*, 1947; Ph.D., *ibid.*, 1954 (1958 to 1982).

Wang, Tung-Ming

Professor Emeritus of Civil Engineering, B.S., National Chiao-Tung University, China, 1945; M.S., University of Missouri at Columbia, 1954; Ph.D., Northwestern University, 1960 (1961 to 1992).

Warren, Richard G.

Professor Emeritus of Poultry Science and Extension Poultryman Emeritus, B.S., Cornell University, 1934; M.S., *ibid.*, 1935 (1937 to 1970).

Wear, Robert E.

Associate Professor Emeritus of Kinesiology, B.A., Oberlin College, 1941; M.A., University of Michigan at Ann Arbor, 1946; Ph.D., *ibid.*, 1950 (1964 to 1984).

Webster, Robert G.

Professor Emeritus of English, B.A., University of New Hampshire, 1926; M.A., *ibid.*, 1927 (1927 to 1971).

Weeks, Silas B.

Associate Professor Emeritus of Resource Economics and Extension Community Resource Development Specialist Emeritus, B.S., Cornell University, 1927 (1955 to 1991).

Wheeler, Charles M., Jr.

Professor Emeritus of Chemistry, B.S., West Virginia University, 1947; M.S., *ibid.*, 1949; Ph.D., *ibid.*, 1971 (1950 to 1983).

Wicks, John D.

Professor Emeritus of Music; A.B., Harvard University, 1944; A.M., *ibid.*, 1947; Ph.D., *ibid.*, 1959; (1956 to 1989).

Willits, Robin D.

Professor Emeritus of Administration and Organization; A.B., Middlebury College, 1949; B.S., Massachusetts Institute of Technology, 1948; Ph.D., *ibid.*, 1965; (1965 to 1990).

Winn, Alden L.

Professor Emeritus of Electrical and Computer Engineering; B.S., University of New Hampshire, 1937; S.M., Massachusetts Institute of Technology, 1948; (1948 to 1983).

Wood, Dorothy

Associate Extension Educator Emerita of Home Economics, Hillsboro County; B.S., Boston University, 1949; (1971 to 1989).

Wright, Paul A.

Professor Emeritus of Zoology; S.B., Bates College, 1941; A.M., Harvard University, 1942; Ph.D., *ibid.*, 1944; (1958 to 1983).

Wurzburg, Frederic W.

Associate Professor Emeritus of Political Science; B.S., Columbia University, 1956; Ph.D., *ibid.*, 1961; (1963 to 1979).

ENROLLMENT STATISTICS—FALL SEMESTER

UNH-Durham	1992-1993		1993-1994		1994-1995		1995-1996	
	(Men/Women—Total)							
Freshman	1134/ 1401	— 2535	1114/ 1498	— 2612	1077/ 1518	— 2595	971/ 1495	— 2466

The University of New Hampshire is a public institution with a long-standing commitment to equal opportunity for all. It does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, age, veteran's status, or disability, in admission or access to, or treatment or employment in, its programs or activities. Inquiries regarding discrimination should be directed to Elizabeth Lewis, special assistant to the president for affirmative action, diversity, and equity, 305 Thompson Hall, 105 Main Street, phone (603) 862-2930, fax (603) 862-3060, or to the regional director, Office for Civil Rights, U.S. Department of Education, J. W. McCormack Post Office and Court House Building, Room 222, Boston, MA 02109-4557.

The University of New Hampshire has adopted a grievance procedure to provide for the resolution of complaints under this policy. A copy of the grievance procedure may be obtained at the Affirmative Action Office, Room 305, Thompson Hall.

The university is in compliance with federal guaranteed student loan regulations and will supply information about the employment of its graduates who have majored in specialized degree programs that normally lead to specific employment fields. This information may be obtained upon request from the university's Career Services, which is available to all students. The university does not guarantee employment to its graduates, but their chances for employment are enhanced if they have begun career planning early in their undergraduate days.

The university provides information pertaining to the Family Educational Rights and Privacy Act of 1974 (the "Buckley Amendment") in the annual student handbook. Information also is available from the Office of the Vice President for Student Affairs and the Office of the Provost and Vice President for Academic Affairs. The annual student publication *Student Rights, Rules, and Re-*

sponsibilities, also contains university regulations and policies regarding student conduct.

Course descriptions and program descriptions may vary from the actual content or requirements because of advancements in the discipline or the active nature of academic planning and decision making. Accordingly, the university reserves the right to make whatever changes are deemed necessary in schedules, course content, requirements, academic programs (including their termination), calendar, tuition and fees, services, or any other aspect of the university's operations, giving whatever notice thereof is reasonable under the circumstances. Therefore, the provisions of this catalog are not an irrevocable contract between the students and the university. The university is also not responsible for failure to provide or for delay in providing expected services and/or facilities when such failure arises from causes beyond the reasonable control of the university.

For information about undergraduate admission to the university, students should contact the Director of Admissions, (603) 862-1360.

Volume LXXXVIII, Number 2, April, 1996. The *Bulletin of the University of New Hampshire* (ISSN 8750-9040) is published six times per year, three times in April, once in August, once in September, and once in December, by the Office of University Publications, Schofield House, UNH, 8 Garrison Avenue, Durham, NH 03824-3556. Second class postage paid at Durham, NH 03824. Postmaster, send address changes to *Bulletin of the University of New Hampshire*, Schofield House, UNH, 8 Garrison Avenue, Durham, NH 03824-3556.

For information about courses and academic records, students and former students should contact Kathryn P. Forbes, Director of Records and Registration (603) 862-1505.
