

INNOVATIVE ASTHMA MANAGEMENT BY COMMUNITY PHARMACISTS IN AUSTRALIA

Vicky Kritikos

B Pharm, M Pharm (Clinical)

**A thesis submitted in fulfilment of the requirements for the
degree of Doctor of Philosophy**

Faculty of Pharmacy

**The
University
of Sydney**

March 2007

***I wish to dedicate this thesis to my husband
Stavros
and my late brother
Michael***

DECLARATION

The research presented in this thesis was carried out under the supervision of Dr Sinthia Bosnic-Anticevich and Prof Carol Armour, within the Faculty of Pharmacy, University of Sydney. To the best of my knowledge, the work presented in this thesis is original, except as acknowledged in the text. Full acknowledgments have been made wherever the work of others has been used. This thesis has not been submitted in part or in whole for the award of a degree at any other University.

Vicky Kritikos
BPharm, MPharm (Clinical)

ACKNOWLEDGEMENTS

I am privileged to have been given the opportunity to do my PhD amongst researchers of the highest calibre in the Faculty of Pharmacy, University of Sydney. These people have been instrumental in supporting and assisting me throughout my PhD. I would like to thank the following people who have each had a special part to play in the completion of this thesis:

Dr Sinthia Bosnic-Anticevich and Prof Carol Armour. Thank you for your kindness, guidance, enthusiasm, patience and the unwavering support you have given me during the time taken to complete my degree. It is deeply appreciated and shall never be forgotten.

Dr Bandana Saini and Associate Prof Ines Krass. Thank you for your support and advice, and willingness to assist me in my hour of need on this incredible journey.

Dr Tim Chen and Prof Andrew McLachlan. Thank you for your support and the inspiration and encouragement you have given me throughout my research.

Prof Iqbal Ramzan. Thank you for your friendship and the support and assistance you have given me during my candidature.

Dr Smita Shah and the AIM project team. Thank you for your valuable time, enthusiastic input and collaboration during my research.

Associate Prof Ellen Sørensen and the Danish pharmacists. Thank you for your collaboration with Pharmacy Practice and the sharing of ideas during my research.

Fran Everingham and Hui Shen Chan. Thank you for your valuable contribution, assistance, and support during my research.

Erica Sainsbury and Dr Celina Seeto. Thank you for your sense of humour, support and encouragement. You are special people and I will always cherish you both.

Commonwealth Department of Health and Ageing. Thank you for the funding under the Asthma Innovative Management Program for the AIM project in Orange, NSW.

Dr Helen Watt. Thank you for the guidance and advice and the inspiration and encouragement you have given me over the years. You have been instrumental in preserving my sanity throughout my PhD.

Bek, Michelle, Alison, Geraldine, Cassie and Simon. Thank you for your friendship, help and support. You have been such fantastic role models and have inspired me throughout my journey. You have made me feel like one of your own.

Diana and Kee Chi. Thank you for your love and concern and for being there when I needed you most. This friendship will be treasured forever.

Glena, Tipaporn, Kristy and Pradnya. Thank you for being there and for sharing all the ups and downs during the final stages of my PhD.

The community pharmacists especially Frances Hulme, medical practitioners, high school staff, local media and the community in Orange, NSW. Thank you for your input and the overwhelming support during the AIM project.

The staff at the Thoracic Society of Australia and New Zealand. Thank you for the assistance and continual support throughout my research.

The pharmacists, respiratory physicians and participants in the studies. Thank you for your invaluable time, input and support with my research.

The community pharmacists, Gulian, Paul, Leah, Michael, Linda, Cheryl and Jodie, and Dr Raj. Thank you for your understanding, input and support during my PhD.

Judith Seguna and Harry Eric Abrook. Thank you for all the support, the love, the memories and the laughter. I will always cherish these forever.

All my close family members, Aunty Ester, Millie, Paul, Afroula, Angie, Mary and all my good friends. Thank you for your understanding, patience and encouragement.

My brother Tassie, my sister Maria and my beloved parents and brother Michael. Thank you for your encouragement and having such incredible faith in me. Without your encouragement and faith I would not have been able to complete this degree.

And finally, to my pillar of support, my dearly beloved and selfless husband Stavros. Thank you for *everything* – thank you for standing by me. I could not have completed this thesis without your love and understanding, patience and support.

Vicky

PREFACE

This thesis describes research carried out between 2002 and 2005, which was based on the latest international [Global Initiative for Asthma (GINA) Workshop Report, *Global Strategy of Asthma Management and Prevention*] and national asthma management guidelines [National Asthma Council (NAC) *Asthma Management Handbook 2002*] at the time. Revised international GINA guidelines (NHLBI/WHO 2006) and Australian asthma management guidelines (National Asthma Council 2006) were published in 2006 during the final preparation stages of this thesis.

CHAPTER 1: ASTHMA AND THE ROLE OF COMMUNITY PHARMACISTS IN ASTHMA MANAGEMENT: A REVIEW OF THE LITERATURE

1.1. INTRODUCTION	1
1.2. ASTHMA	1
1.3. FACTORS INFLUENCING THE DEVELOPMENT OF ASTHMA	2
1.3.1. Host factors	2
1.3.1.1. Genetic predisposition	2
1.3.1.2. Obesity	3
1.3.1.3. Gender	3
1.3.2. Environmental factors	3
1.3.2.1. Allergens	3
1.3.2.2. Infections	4
1.3.2.3. Occupational sensitisers	4
1.3.2.4. Tobacco smoke	4
1.3.2.5. Outdoor/indoor air pollution	5
1.3.2.6. Diet	5
1.4. CLASSIFICATION OF ASTHMA	5
1.4.1. Global classification of asthma	5
1.4.2. Australian classification of asthma	5
1.5. EPIDEMIOLOGY OF ASTHMA	6
1.5.1. Asthma prevalence	6
1.5.2. Asthma mortality	8
1.5.3. Impact of asthma	9
1.5.3.1. Impact of asthma on health care utilisation in Australia	10
1.5.3.2. Impact of asthma on quality of life in Australia	11
1.5.3.3. Economic impact of asthma	12

1.6.	ASTHMA MANAGEMENT IN AUSTRALIA	14
1.6.1.	A brief history	14
1.6.2.	The role of the National Asthma Council	15
1.6.3.	The role of the State Asthma Foundations and Asthma Australia	17
1.6.3.1.	The Asthma Foundations	17
1.6.3.2.	Asthma Australia	17
1.7.	ASTHMA MANAGEMENT GUIDELINES	17
1.7.1.	Global asthma management guidelines	17
1.7.2.	Australian asthma management guidelines	18
1.7.3.	Evidence-based review of the Australian Asthma Management Plan	22
1.8	CURRENT ISSUES IN ASTHMA MANAGEMENT	25
1.8.1.	Patient related issues	25
1.8.2.	Health care professional related issues	29
1.8.3.	Public health related issues	32
1.9.	ASTHMA EDUCATION	32
1.9.1.	Effective asthma education for adults	33
1.9.1.1.	Components of the asthma education program	33
1.9.1.2.	Factors associated with the delivery of the education	37
1.9.1.3.	Setting for the education	40
1.10.	EVALUATION OF THE EDUCATION	46
1.10.1.	The impact of education on asthma knowledge	46
1.11.	ASTHMA AND COMMUNITY PHARMACISTS	48
1.11.1.	Community pharmacy-based asthma care programs	49
