Conference Foreword

The annual Security Congress, run by the Security Research Institute at Edith Cowan University, included the 3rd Australian eHealth Informatics and Security Conference.

The unique focus on e-health sees the Australian eHealth Informatics and Security Conference in its second year and drawing on interest from many sectors including security experts, clinicians, industry and academia. E-health informatics is a broad and diverse discipline and this year sees submissions in technical ehealth security, policy and governance frameworks for security, as well as ehealth standards, and mobile applications. The latter being a rapidly expanding area of interest and development.

All submitted papers were subject to a double blind peer review process. Eight papers were submitted from Australia and overseas, of which seven were accepted for final presentation and subsequent publication, reflecting the high quality of the submissions.

We wish to thank all the reviewers for kindly volunteering their time and expertise and support of this event. I would also like to thank the conference committee who have organised yet another successful congress. Events such as this are impossible without the tireless efforts of such people in reviewing and editing of the conference papers, helping with the planning, organisation and execution of the conferences.

To our sponsors and supports, thankyou for both the financial and moral support provided to the conference.

Associate Professor, Patricia A. H. Williams
Conference Chair

Congress Organising Committee

Congress Chair: Professor Craig Valli

Committee Members: Dr David Brooks
                     Mr Clinton Carpene
                     Mr Jeff Corkill
                     Mr Michael Coole
                     Mr David Cook
                     Mr Michael Crowley
                     Mr Peter Hannay
                     Dr Mike Johnstone
                     Mr Patryk Szewczyk
                     Mr Krishnun Sansurooah
                     Dr Zubair Baig
                     Associate Professor Andrew Woodward
                     Associate Professor Trish Williams
