FURTHER EDUCATION AND WORK BASED LEARNING FOR YOUNG PEOPLE – LEARNER NUMBERS IN ENGLAND ON 1 NOVEMBER 2003

INTRODUCTION

1. This Statistical First Release (SFR) provides early year estimates of learner numbers in post-16 education and training funded by the Learning and Skills Council (LSC) in learning on 1 November 2003.
2. Early year estimates give some measure of participation at a particular point in time, but are not directly comparable with the full year figures published each December.
3. This SFR updates early year figures published on the 31st of March 2003, "Government Supported Further Education and Work Based Learning for Young People on 1 November 2002".
4. The first SFR to combine information on both Further Education (FE) and Work Based Learning (WBL) for young people in one SFR was issued in March 2003.
5. The source data for this SFR is the Individualised Learner Record (ILR) 2003/04.
6. For the first time, the SFR shows provisional figures for the number of learners studying towards full level 2 qualifications in FE.
7. The SFR does not show the number of non-LSC funded learners in incorporated FE colleges. This is consistent with the previous combined FE/WBL SFRs.
8. University for Industry (UFI) provision and Adult Community Learning (ACL) provision are not included in this SFR.
9. An SFR on pupil characteristics and class sizes in maintained schools including school sixth forms is due for publication by DfES in April.

KEY POINTS

Further Education

10. An estimated 2.15 million learners were in learning in LSC funded FE provision on 1 November 2003. This is a small decrease (1.1 %) on the 2002 figure of 2.18 million.
11. The number of 16-18 year olds in LSC funded FE provision has increased by 1.7 % between 1 November 2002 and 1 November 2003 from 585 thousand to 595 thousand. Growth in the number of 16 - 18 year olds in full-time education continues. On 1 November 2003 the number of full-time 16 - 18 year olds rose by 3% against the previous year from 491 to 506 thousand. Year-on-year changes in estimates for the number of 16-18 year olds in FE in full-time study based on early year data returns are indicative of full-year changes.
12. The number of adults (aged 19 and over) in FE on 1 November 2003 was 1.56 million. This marks a decrease of 2.1% against the previous year at snapshot. The number of full-time adults rose by 1.5% against the previous year. Historically, the data returned at this time of year has not been indicative of the actual whole year picture for adults in part-time study and this reflects the flexible demand led nature of the sector.
13. The increase of 10 thousand younger learners is almost exclusively accounted for by an increase in 16 – 18 year olds studying at level 1 and entry levels, up by 16.7%.
14. The number of 16-18 year olds studying at level 2 showed a marginal drop (1.3%) from 151 thousand in 2002 to 149 thousand in 2003. As seen in the table below, the number of 16-18 year olds at level 2 studying towards a full level two qualification has increased between 2002 and 2003 by 1.0%. The number of adults studying at level 2 dropped by 6% to 441 thousand from 469 thousand. The number of adults studying a full level two qualification rose by 2.3%.

Learners (in 000's) studying towards a full level 2* qualification in council-funded FE by age: 1 November 2002 and 2003

	01-Nov-02		01-Nov-03		
Age	level 2	of which full level 2	level 2	of which full level 2	% change in full level 2 from 2002 to 2003
Below 19	151.3	92.4	149.4	93.3	1.0%
19 plus	469.3	100.9	441.0	103.2	2.3%
All ages	620.6	193.3	590.4	196.5	1.7%

* These figures are provisional: Please refer to paragraph 9 under classification of data for more detail

15. The most popular areas of learning on 1 November 2003 were 'Information and Communications Technology' (15.3%) and 'Foundation Programmes' (10.6%). The highest year-on-year increase was in 'Construction', up by 10% and in 'English Languages and Communications', up by 12%. The biggest year-on-year drops are in 'Information and Communication Technology' (down by 48 thousand, a 13% drop) and 'Business Administration, Management and Professional' (down by 33 thousand, a 13% drop).

Work based Learning

16. The number of people in Work Based Learning on 1 November 2003 was 290 thousand. This is an increase of 3% on the previous year. The number of 16 –18 year olds rose to 150.7 thousand, up by 2.2%.
17. The number in learning on modern apprenticeships (MAs) in 2003 was 238 thousand. This is 3.5% more than in 2002 (230 thousand). The downward trend continues in NVQ Learning, in line with DfES policy, as more people move to frameworks. This was down by one third to 27 thousand. An additional contributing factor to this is the national roll out of Entry to Employment (E2E) that replaces life skills, preparatory learning and NVQ learning below level 2. E2E is a government initiative intended to attract harder to reach young people into learning.
18. The most popular area of learning in WBL was 'Engineering Technology and Manufacturing' (24.3% of learners), with 'Construction' and 'Retail Customer Service & Transportation' being the second most popular areas of learning (11.7% and 11.6% respectively).
19. The figures on WBL starts (table 5) in the SFR are under review and an updated table inclusive of the November 2003 figures will be published as soon as it is made available. The figures shown here at present are the same as those published in the December 2003 SFR (Reference ILR.SFR02).

Figure 1 Data source: Table 1 ILR/SFR03 Below 19 learner numbers

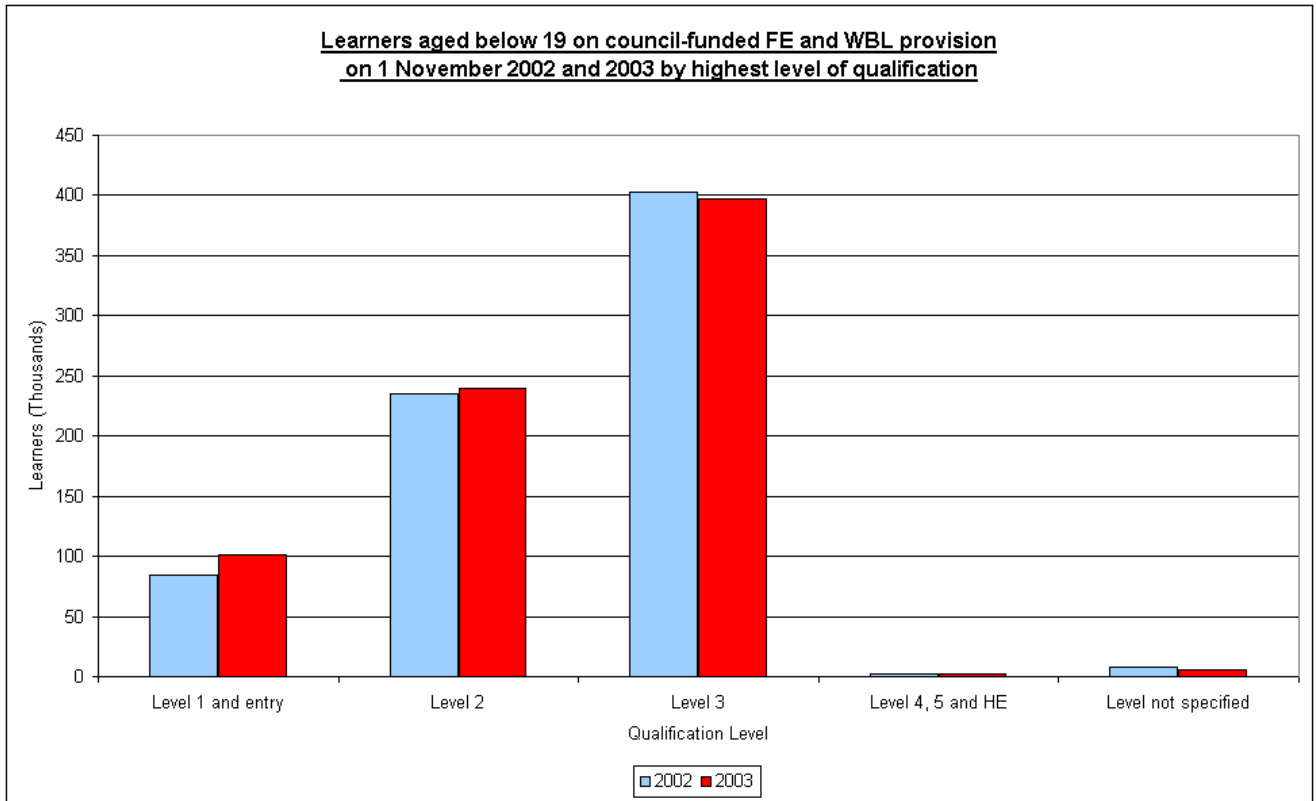

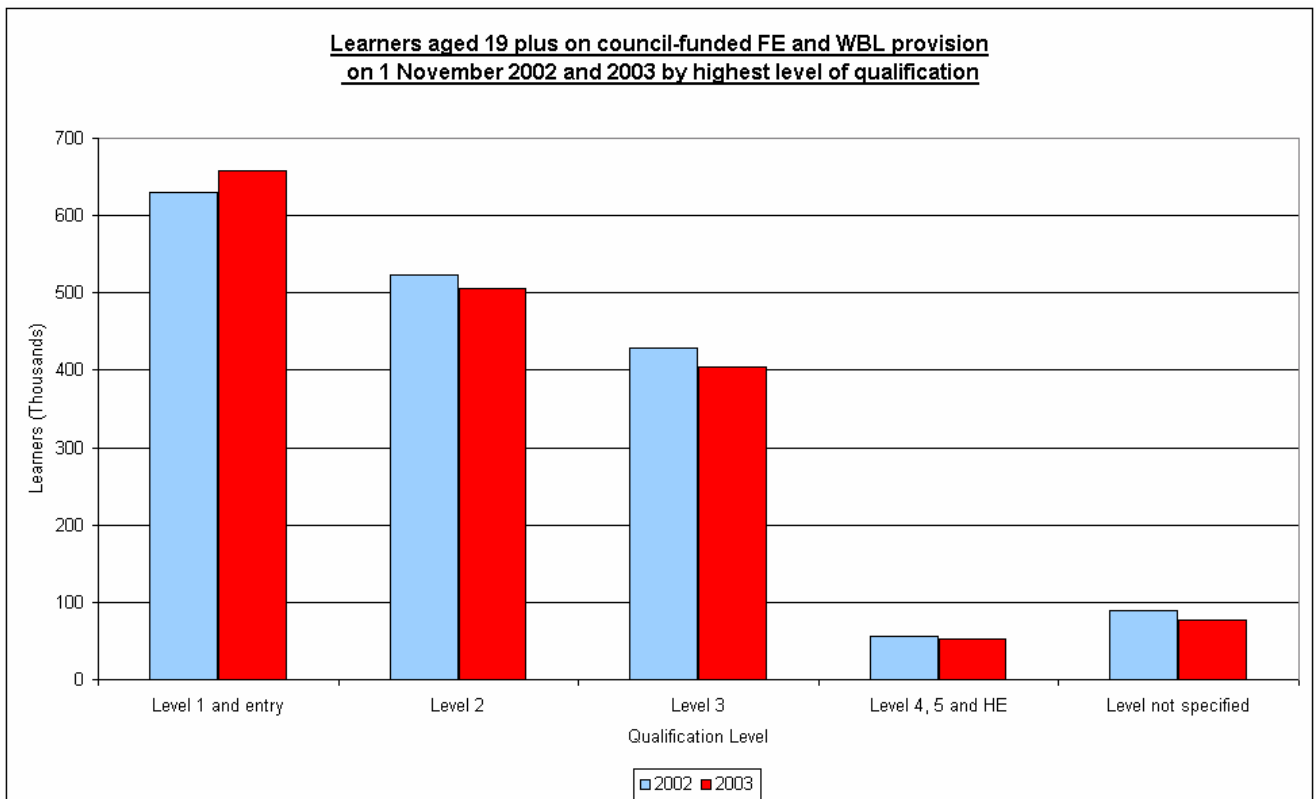

Figure 2 Data source: Table 1 ILR/SFR03 19 plus learner numbers

TABLES

Further Education and Work Based Learning

The tables are based on ISR and ILR data for 2001/02 2002/03

Table 1. WBL and FE - Learners (in 000's) on council-funded FE Provision and WBL provision on 1 November for 2001, 2002 and 2003 analysed by highest qualification level and by age group

Table 2. WBL and FE – Learners (in 000's) on council-funded FE provision and WBL provision on 1 November for 2002 and 2003 analysed by areas of learning and by gender

Table 3. WBL and FE - Learners (in 000's) on council-funded FE and WBL provision on 1 November for 2002 and 2003 by ethnicity and gender

Table 4. WBL – Learners (in 000's) on WBL provision on 1 November for 1999/00 to 2003/04 by academic period and programme strand

Table 5. WBL – Starts (in 000's) on WBL provision from 1999/00 to 2002/03 by academic period and programme strand

Table 6. FE - Learners (in 000's) on council-funded FE provision on 1 November for each academic year 2001, 2002 and 2003 by institution type, mode of attendance, and age

Table 7. FE – Learners (in 000's) on council-funded FE provision on 1 November for each academic year 2001, 2002 and 2003 by age, highest level of qualification and qualification type

FUTURE STATISTICAL FIRST RELEASES

20. The LSC is planning to publish three Statistical First Releases each year.

- Early information on learner numbers, derived from the ILR return, relating to learners enrolled on 1 November, published in March.
- Whole-year information on learner numbers derived from the ILR return relating to the end of the relevant academic year, published in December.
- Outcomes derived from the ISR/ILR return relating to 31 December following the end of the relevant academic year for FE and most recently available data for WBL, published in July.

Published Statistical First Releases are currently available on the LSC website at:

<http://www.lsc.gov.uk/National/Documents/SubjectListing/SectorData/StatisticalFirstReleases/default.htm>

SUPPORTING DATA

21. Additional tables of data on FE and WBL numbers for 2003/04 will be provided on the LSC website.

A NATIONAL STATISTICS PUBLICATION

22. National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.
23. For general enquiries about National Statistics contact: The National Statistics Public Enquiry Service on 020 7533 5888, minicom: 01633 812399, E-mail:info@statistics.gov.uk, Fax: 01633 652747, Letters: room DG/18, 1 Drummond Gate, LONDON SW1V 2QQ. You can also find National Statistics on the internet - go to www.statistics.gov.uk.

NOTES TO EDITORS

1. On 1 April 2001 the LSC inherited responsibility in relation to funding FE provision in colleges and external institutions from the Further Education Funding Council (FEFC). The LSC also took responsibility for post-16 provision in Work Based Learning and statistics in this area are also reported in this SFR.
2. Work Based Learning for young people is a major programme of government-supported training, comprising Advanced Modern Apprenticeships (AMA), Foundation Modern Apprenticeships (FMA), NVQ Learning and Entry to Employment (E2E).

Source of Data

3. The latest data source for this SFR is the Individualised Learner Record (ILR) 2003/04 (Reference W6 for WBL and F01 for FE). The data source for the updated 2002/03 FE data is F04 and for the 2002/03 WBL data W12c.
4. The FE data for 1 November 2003 have been derived from the ILR for 368 colleges and 121 External Institutions where validated and credible data were available. These data have been grossed up by the ratio of students in all institutions to those in the 489 institutions. This ratio has been calculated and applied separately for each college type, for students in each mode of attendance, and on each level of programme. An undercounting factor of 1.05 has been applied to the data and that is based on an analysis of the level of under-recording in 2002/03.

Classification of Data

Further Education

5. Data from Dance and Drama Institutions and Specialist Designated Institutions are excluded from this SFR.
6. The distribution of FE learners by Areas of Learning (table 2) takes into account all the aims followed by the learner population.
7. The level assigned to a learner in tables 1 & 7 corresponds to the highest-level qualification undertaken by that learner. The qualification type assigned to the learner in table 7 is that of the learner's highest qualification aim with the most guided learning hours.
8. FE Students classified for statistical purposes as full-time are defined as those enrolled on programmes of at least 450 guided learning hours per year, or for at least 150 guided learning hours per term or more than 16 guided learning hours per week for shorter courses. Full-time students who enrol on a programme of at least 450 guided learning hours per year are classified as full-time full-year. This includes those students who withdraw from the programme during the year and actually attend for less than 450 guided learning hours. Also counted as full-time full-year are students who enrol on programmes of less than 450 guided learning hours but stay longer than expected and actually attend for more than 450 guided learning hours. Full-time students who are not classified as full-time full-year are classified as other full-time. All other students are classified as part-time.
9. Learners studying towards a full level 2 are defined as those studying an NVQ level 2 or equivalent qualifications or 5 or more GCSEs in one academic year. The list of qualifications equivalent to an NVQ level 2 used here is provisional, hence the figures are also provisional.

Work Based Learning

10. The in-learning volume for WBL (tables 1 to 4 inclusive) is a measure of total learning activity on 1 November 2003. It includes all learners actively engaged in WBL on that date.

General Notes

11. In the tables, numbers may not add up exactly to totals because of differential rounding. Numbers are shown in thousands and the symbol '-' represents fewer than 50 learners.

Table 1. WBL and FE - Learners (in 000's) on council-funded FE Provision and WBL provision on 1 November for 2001, 2002 and 2003 analysed by highest qualification level and by age group
