In Eq. (10c) a typographical error involving a missing equality symbol occurred. The correct expression is as follows:

$$\Phi_{nm}(y) = \left[e^{-i\sqrt{\zeta_m^2 - \kappa_{nm}^2}\, y} + R_{Lm} e^{i\sqrt{\zeta_m^2 - \kappa_{nm}^2}\,(y+D)} \right]$$
$$\text{for} \quad -D/2 \leq y \leq D/2. \tag{10c}$$

In addition there is an error with Eq. (13), and this equation should read

$$\Gamma_m(x,y) = -\pi \frac{\Psi_m(x_S, y_S, z_S)}{\rho(z_S)} \zeta_m \sum_n \frac{\Phi_{nm}(y_S)}{\kappa_{nm} w_{nm}} e^{i\kappa_{nm}(L - x_S)}$$
$$\times \int_{-\infty}^{\infty} \Phi_{nm}(\eta) \frac{x - L}{\sqrt{(x-L)^2 + (y-\eta)^2}}$$
$$\times H_1^{(1)}(\zeta_m \sqrt{(x-L)^2 + (y-\eta)^2}) d\eta. \tag{13}$$

These two errors have been corrected in the electronic copy stored in the ASA Digital Library.
