

Correction to “Mercury and monomethylmercury in fluids from Sea Cliff submarine hydrothermal field, Gorda Ridge”

Carl H. Lamborg, Karen L. Von Damm, William F. Fitzgerald, Chad R. Hammerschmidt, and Robert Zierenberg

Received 10 November 2006; published 18 January 2007.

Citation: Lamborg, C. H., K. L. Von Damm, W. F. Fitzgerald, C. R. Hammerschmidt, and R. Zierenberg (2007), Correction to “Mercury and monomethylmercury in fluids from Sea Cliff submarine hydrothermal field, Gorda Ridge,” *Geophys. Res. Lett.*, 34, L02603, doi:10.1029/2006GL028747.

[1] In the paper “Mercury and monomethylmercury in fluids from Sea Cliff submarine hydrothermal field, Gorda Ridge” by C. Lamborg et al. (*Geophysical Research Letters*, 33, L17606, doi:10.1029/2006GL026321, 2006), two reference citations were omitted. The eighth sentence of the last paragraph should read as follows:

[2] It must be noted, however, that deep water datasets [e.g., *Fitzgerald et al.*, 1998; *Laurier et al.*, 2004; *Fitzgerald and Lamborg*, 2004; *Mason and Gill*, 2005] do not indicate

sufficient MMHg concentrations to supply the surface ocean at this rate.
