Qualified

The following named members, having qualified before his Excellency, Governor Lane Dwinell, appeared during the session and took their seats as members of the House: Messrs. Denis F. Casey, Alfred A. Bergeron, John J. Kearns, George E. LaFond and Roger L. Philibert and Joseph Ecker of Manchester and George W. Angus of Claremont.

On motion of Mrs. Palmer of Plaistow business in order at 3:00 o'clock was made in order at the present time.

On motion of Mrs. Hayes of Portsmouth at 2:48 o'clock the House adjourned.

THURSDAY, JANUARY 3, 1957

The House met at 11:00 o'clock.

Prayer was offered by Dr. Michael M. Szenes, Rabbi of Concord.

Almighty God, our Heavenly Father, Thy wisdom and Thy loving care are revealed in the beauty and harmony of nature, in the mountains and hills, rivers, lakes and streams, in the fertile fields and productive cities and towns of our great State. They are also manifest in the lives of men and women who dedicate themselves to the service of the common good.

To Thee we pray, as the chosen leaders and servants of our State assemble to assume the task of leading our State on the path of righteousness. Bless them, and all of us, with the light of Thy presence. Fashion Thou our hearts, and bend our will to Thine, so that we never cease in our striving to keep our State and nation righteous and just. May we remain united in purpose, respecting each other's rights, consecrated to the cause of liberty, equality and justice for all.

Fervently we invoke Thy blessing upon those whom we elected to be our leaders in this noble striving. Give them, O Lord, wisdom, understanding and strength adequate to the great task. May they continue to cherish our sacred traditions of the freedom and independence of the individual, and his inalienable right to develop his creative abilities as a free agent created in Thine own image. Yet, may we never forget that we are our brothers' keepers, duty bound to extend a helping hand to those in need, obligated to teach the ignorant, protect the defenceless, cure the sick, and free those who are prevented by physical, mental, emotional or social handicaps from the full exercise of their creative powers.

O God, Father of all men, do Thou bind us ever more closely into a living brotherhood, so that our State may become an influence for good in the life of each of her citizens and throughout the nation and the world, hastening the day when life, liberty and the pursuit of happiness will be granted to all Thy children everywhere, and the great hope of Thy prophet will be fulfilled:

“The work of righteousness shall be peace,
and the effect of righteousness quietness and confidence
forever”

Chandler, Jr., and inform them officially of their election to the Honorable Council, reports that it has attended to its duties, and that the gentlemen named have accepted the office.

The report was accepted.

Invocation

Invocation was offered by the Reverend Cornelius Feisch of the First Congregational Church of Lebanon:

Our gracious Father, we ask that Thy blessing may rest upon those who are to witness these ceremonies today. Help all of us to understand that this is our way of indicating our participation in our government in a very real way.

As the Governor "Makes his Covenant" with and before the people, we pray that Thy help may be his support, and that he may have Thy strength all the way.

Help us to realize that he who takes the credit for every good must also accept the risks of being blamed for the mistakes of government. All of us have taken the risks that devolve upon us. Grant that we may know that loyalty does not stop in the actions of this hour.

If we are tempted to grow cynical and to think contemptuously of people, or of our leaders, even though they may be of contrary judgment, grant, we pray, that we must not become weary or irritated when the results seem shallow and when selfish people forget. Help us to cling to our changeless love, and we pray especially that Governor Dwinell may have the courage to keep patriotism from cheap sentimentalism and give him the strength to lift it upon the high level of human concern of our State.

We pray for our President, Dwight D. Eisenhower, and ask that our American concern for oneness may rest on our faith in Thee, through Jesus Christ our Lord. Amen.

The Governor-elect, attended by the Council-elect, then came in, and the Honorable Lane Dwinell, Governor-elect, then took and subscribed to the oath of allegiance before the President of the Senate and in the presence of both branches of the Legislature, whereupon the Honorable Eralsey C. Ferguson, President of the Senate, made proclamation as follows:

Lane Dwinell having been duly elected Governor of New Hampshire, accepted the office and taken the oaths prescribed by the Constitution, I do hereby declare and proclaim His Excellency, Lane Dwinell, Governor of the State of New Hampshire, to hold office during the period prescribed by the Constitution and the Laws of the State, and I present your Excellency with a copy of the Constitution of the State as a guide in the discharge of your official duties.

The Honorable Council, Charles H. Whittier, Roger Brasard, Frederic H. Fletcher and John P. H. Chandler, Jr., then took and subscribed to the oath of allegiance before His Excellency, Governor Lane Dwinell.

His Excellency, Governor Lane Dwinell, then read the following message:

INAUGURAL ADDRESS
OF HIS EXCELLENCY LANE DWINELL
GOVERNOR OF NEW HAMPSHIRE
To the General Court

January 3, 1957

Mr. Speaker, Mr. President, Members of the General Court:

Let me take a moment here to tell you how I feel about this inaugural ceremony, and what it means to me.

I have just subscribed for a second time to the same solemn oath taken by sixty-eight New Hampshire governors, beginning with John Langdon — whose energy, loyalty and self-sacrifice helped to launch not only the first ships of our national navy, but our ship of state, itself.

No man can renew that oath for a new term in office without a deep sense of honor and trust — and an ever deeper realization of the great responsibilities which it implies.

All of us, I believe, long for new opportunities to apply the experience we gain to problems which troubled us before.

This second term as governor is just such an opportunity — and a rare one. I shall endeavor to use it.

What we say and what we do, here in these historic chambers, as the 135th New Hampshire General Court meets during 1957, will be judged by our children and our grandchildren.

We are all too aware of many voices around us declaring that our times are full of change and peril. Let me remind you that two centuries ago New Hampshire was a sparsely settled province of the English Crown, menaced by hostile savages and a great European power. We became an American state because change and peril were challenges which our ancestors knew how to meet.

One hundred years ago, the United States was drifting straight towards disaster — the tragic civil conflict which convulsed the country four years later. But New Hampshire was already preparing to do her part: twelve volunteer militia companies were soon training for the battles to come; the navy yard at Portsmouth was working on hulls which later flew the Stars and Stripes under Farragut and Porter. The New Hampshire State Insurance Department, first in the nation, was pioneering a new form of public service. Our cities were be-

ginning to assume a whole array of functions and activities now considered essential to the community.

All these were signs of the times — evidence that change is inevitable, and that danger is a stimulant to those able and willing to face it boldly.

Today, we cannot tell — any more than our forefathers could — which aspect of change and which threat to our security is most to be feared. But we do know that history respects and remembers those who accept change, rise to each occasion, and act upon their convictions. We are elected to serve our fellow citizens. We must think about what is expected of us.

Why do we have a Legislature?

Each of us knows the answer, and that answer is emphasized by a glance at our New Hampshire constitution. The founders of our State created a government which would be guided by representatives of all the people, not just those from the cities, or just from the towns, or just from a few of each. Over a period of years, all our cities and all our towns, by majority vote, choose the men and women they wish to represent them in deliberating the policies and the programs of their state government.

This is a fundamentally wise decision. It means that the needs of the whole state, not just of a section of it, can be given thoughtful review.

I have a word I would use to describe the opposite of what should be this basic New Hampshire policy. That word is localism.

Just as extreme nationalism is the greatest threat to world peace — just as extreme sectionalism can undermine the strength of America — so extreme localism can be the undoing of New Hampshire.

We are not sufficiently aware that what benefits part of New Hampshire benefits all New Hampshire. Those in the southern section of our State must realize that in that mis-named wilderness to the north lies the heart of our recreational economy; yes, and even vital elements of our industrial economy. Those in the northern section must likewise realize the contribution made to the welfare of the State by those industrial sections in the south.

What are some of the manifestations of localism?

That there should never be a cooperative school if it is to be located in some other town than our own.

That a highway by-pass is desirable for every city but the one in which we live.

That the state should not even consider an interstate highway project if it does not go through our particular area.

That state spending to promote our industry, our recreation and our agriculture is undesirable because of the possibility that some other region may benefit more than our own.

In my presentation to you this noon of the matters I hope can be considered favorably in this legislative session, I have tried to be guided by the same measure — that your objective, and mine, must be the benefit of the majority of our citizens.

In reading the inaugural addresses of many previous governors, I find much emphasis on the need for legislative dispatch. We should not forget that the previous session of the General Court cost more than \$600,000.

You have made a good beginning — I congratulate you on the leaders you have chosen. From my own association with them, I have confidence in their abilities. While I would not intrude on legislative procedures, I know from personal experience in your ranks that some responsibility for the length of the session lies in the executive branch.

The real key to the length of your deliberations is found in the budget. I have already handed to your presiding officers, copies of 24 departmental budgets, which contain my final recommendations. They are available for the immediate use of your fiscal committees. My intention is to submit the complete executive budget before the end of this month.

State Finance

Consideration of the State's financial affairs will be your most important mission. Since I will discuss these problems more fully in my budget message, only a brief review is needed here.

We expect to have a general fund surplus of nearly three and a half million dollars on June 30, 1957. The major part of this surplus arises from the fact that revenues have been larger than we anticipated. But it is worth noting that actual expenditures in the last fiscal year were nearly \$600,000 less than the appropriations made by the legislature.

I am happy to report that, for the third consecutive year, no department of your state government exceeded its appropriations — and there should be no deficiency bills presented to you in this session.

The surplus to which I have just referred will greatly lessen our financial problem. But some additions to our revenues may be needed if the State is to provide adequate salaries for its employees, necessary funds for its institutions, and for its obligations in the field of education, including the University of New Hampshire.

The budget which I will shortly lay before you will be a balanced budget — in that I will offer specific recommendations for raising such revenues as are needed to meet the appropriations which you are asked to make.

I shall recommend only such additional revenues as are absolutely necessary to achieve this balance, because I adhere to the statement made on this occasion two years ago, and repeated many times since — that to impose taxes productive of more revenues than are actually needed is to open the flood-gates of governmental spending. This, I am confident the people of New Hampshire do not want.

A little “stinginess” can be a good thing. We know that the costs of government rise in an expanding economy. The real problem facing every lawmaker and every administrator is how to control the expansion of government, itself. The most effective way to do this is to avoid creating any excess of new revenues.

We are requiring our state departments to live within their means. Our own task is to provide adequate income for their legitimate functions, and to encourage continued good management.

Korean Bonus

Our last legislative session left some unfinished business which I know you are as anxious as I to complete. House Bill Number One will provide for all eligible New Hampshire veterans not yet compensated for their service in the Korean War.

I appreciate the cooperation shown by the leaders of our veterans' organizations and the forbearance of their members in not demanding a costly special session for this same purpose.

Education

The training of our youth is a responsibility which must be shared by all levels of government. New Hampshire is presently facing the problems of increased enrollments, the need for school buildings, and the shortage of teachers. Much has been done already, however, to alleviate these pressures. The school districts deserve credit for absorbing the major share of recent increases in school costs. Recognizing its responsibilities, the State appropriated \$2,400,000 for equalization aid for this biennium to assure an equal educational opportunity for every New Hampshire boy and girl, regardless of the wealth of the district in which they live. This was the largest appropriation of its type in the history of our State.

One of the most noteworthy accomplishments of the last General Court was the initiation of a school building assistance program. Under this new program the state shares 20% of the annual principal payments on bond issues for single districts and 40% for cooperative districts.

Expenditures for current operation of the public schools are increasing at a rate of \$1,500,000 annually. In addition, it is anticipated that \$14,000,000 of new construction will be undertaken in the next two years. To assist in meeting these obligations, I propose that you appropriate the full amount required for the equalization aid program, and that you make a firm commitment to continue our school building aid at the present rates of reimbursement. Such a program would increase by one-third the biennial appropriation, and would be a significant step in providing a firm basis for aid to education. It would fulfill three major needs:

1. Provide more substantial allowances to needy districts.
2. Assist all districts in sharing the expenditures for school building construction.
3. Provide incentives for the formation of cooperative school districts for more efficient and economical operation.

University of New Hampshire

Ninety years ago last July the General Court established a state college which was to grow through the years and later emerge as the University of New Hampshire, an institution in which the people of New Hampshire take great pride.

The General Court has a continuing responsibility to the young people of our State through the University. Unfortunately, quality in education of necessity is largely determined by dollars and cents. The retention of qualified faculty depends on the University's ability to meet the competitive salary market. Despite the sum appropriated for salary increases two years ago, the University continues to fall behind comparable institutions throughout the country in its compensation of staff. Valuable faculty members are leaving New Hampshire and it is becoming increasingly difficult to find competent replacements.

Without additional State support, the University cannot provide our youth with an educational opportunity equal to that enjoyed by young people elsewhere in the nation, nor can it provide the research and service which we have come to expect. However, I believe the charges by the University upon the students should be increased so as to share the added costs, and that scholarships should also be increased, in number and perhaps in amount, so that those students whose financial inability is clearly demonstrated, can receive the help they deserve.

I am well aware that these views are not in accord with the popular approach to higher education. We give a free public education through high school to everyone because it is available to everyone. But in essence we say that two-thirds of our elementary and secondary school graduates must go to work, to earn money, to pay taxes, to provide a heavily subsidized higher education for the more fortunate of their fellows. It is reported that many college graduates today obtain immediate salaries exceeding those of their former teachers. We must explore every means, through loans, through repayable scholarships, through alumni contributions, to assess more of the costs of higher education on its beneficiaries, and to lessen the burden on the general public.

Flood Control

Not often does New Hampshire lag behind the national Congress and its neighbor states in providing desirable protection for its people. We have lagged, however, in the implementation of effective flood control in the valley of the Merrimack River. In this valley are located not only the State's

three largest cities, but also some of our most productive farms and factories.

Memories are short. We forget the reason for the construction of our existing flood control dams. We forget the enormous damage to homes, shops, farms and industries in the floods up and down the Merrimack watershed in 1936, and again in 1938. We forget the disaster which in 1955 hit the three New England states to the south. One like it — or worse — could hit New Hampshire another year.

May I suggest this is a perfect example of localism. The threat of floods can be reduced, but only at the cost of hardship to those living, or owning property, on the sites where the new dams would be built. These people must be, and will be, compensated for their loss. But our primary concern must be our people downstream, whose entire livelihood could be destroyed. Ninety thousand citizens in New Hampshire would be directly affected by a Merrimack flood. One hundred fifty farms, far larger in area than those in the site of the proposed flood control project would be wiped out.

While our first obligation is to our own State, we must also recognize our obligation to the New England community. These other states have already shown their interest and cooperation by ratifying compacts for both the Connecticut and Merrimack rivers, by which they assume a major portion of the tax losses suffered by New Hampshire communities.

I strongly urge your approval of the Merrimack River Flood Control Compact, which includes authorization for the so-called Hopkinton-Everett Flood Control Project.

Mental Health

Mental illness is the most costly single human affliction, both in terms of human suffering and of dollars. More people are institutionalized in state hospitals than in all other public and private hospitals combined. Approximately one quarter of our general fund appropriations is for this purpose.

Trends within this great area of mental illness differ greatly. At our State Hospital the population had been rising for half a century by an average of 40 patients a year, reaching a total of over 2700. During the past two years, due to increasingly effective methods of treatment there has been a reversal of this long-time trend and a decline in population. This

would indicate a better hope for many more patients in the years ahead.

At the Laconia State School, however, a less happy circumstance confronts us. Not only has the population risen sharply in the past few years, but we are informed by those in authority that the character of the newer patients is changing also — that they are less educable, less subject to the possibility of later discharge. Whatever the reason, both paroles and discharges from this institution have declined in the past four years. In the light of this serious situation, I am sure that you will carefully consider the recommendations I will make for increased staff and additional facilities.

The care of those afflicted with alcoholism has been one of the more recently accepted responsibilities of state government. We are now at a time when we might very well review what our progress has been and how we should seek to direct our future efforts.

Another relatively new function of state government has been the child guidance clinics which will shortly move into new quarters. Acting under instructions from the 1955 Legislature, I will submit to you estimates of the cost of providing in-patient facilities for these clinics. What should these combined clinics be expected to do, within our somewhat limited resources?

It is quite apparent that we face increased responsibility for mental health, and I believe that we should have a well defined course of action before we appreciably expand either our physical facilities or operating expenditures. With this in mind, I have recently called together the joint Boards of Control, representing all the institutions, to advise me on these matters. They have confirmed my own belief that we need a survey by trained people in this entire field of mental health. I will ask that you provide the funds for this purpose.

State Employees

Too many New Hampshire people believe that too many state employees do nothing but draw large salaries for little work. This notion, which has become a part of our folklore, is far from the truth. The Legislature has repeatedly authorized surveys into departmental efficiency. We have had, and continue to have, austerity budgets, compelling careful use of

taxpayers' funds. We operate our state government without depending on either of the two major sources of revenues used by all but three other states. Yet our state budget is balanced. This is so, I believe, because we are reasonably economical and efficient in the management of work delegated by the Legislature.

The vast majority of our state employees do good work, but many of them are paid less than they could earn in private jobs. In some areas of state government there has been high turnover, because of relatively low salaries, and because there has been no general adjustment in four years. Because of certain advantages inherent in government service, state employees do not always need to be paid as much as those in highly competitive private enterprise. We cannot permit the margin to be too wide, however, between New Hampshire governmental pay scales and those in offices and industries nearby. Nor can we let the margin grow too wide, in certain key positions, between New Hampshire and other states. If we do, we lose our best qualified employees.

The State Personnel Commission has been preparing recommendations on how salary inequities can be met. An exhaustive review has been made of pay levels in other New England states, and in private industry.

I shall submit my recommendations for salary increases for both classified and unclassified personnel as a part of my budget message.

Personnel Survey

The 1955 Legislature instructed me to explore the possibilities of "achieving economy in personnel services." I was empowered to undertake a personnel survey; to employ staff for that purpose. If, as a result of this survey, I should believe any position was not necessary, I was given the authority to abolish it.

Your instructions were clear, and I have acted upon them. Thorough surveys into the personnel needs of every state agency have been concluded. Twenty-nine state positions have been abolished and the funds appropriated for them have been recovered. Others, as they become vacant, are being abolished. Still other positions have been reclassified downwards as vacancies occur, and a procedure has been established for con-

tinuing this process. Savings recommended by this survey can exceed a quarter of a million dollars annually.

Copies of the surveys will be transmitted to you, accompanied by my report on the progress to date.

As you can well imagine, these surveys were not made in an atmosphere of complete agreement with all concerned. Many department heads and board members have strongly opposed some of the recommendations. Some of these have since been convinced of the worth of the proposals. Others have not. With certain recommendations, I do not myself agree.

I want to stress, however, that the personnel survey has been extremely valuable. Repeated reference to proposals on specific positions has been made during all departmental budget hearings. I have been able to deny many requests for new positions on the basis of the evidence in the reports. I have been able to press for abolition of certain existing positions on the grounds of similar evidence.

You will find the same potential strength in these reports, and I trust that, in the long consideration of the budget requests facing your committees, the members will make full use of every detail.

Employees Retirement

I believe our state employees are better off because of the action taken last year to integrate our State Retirement plan into the federal social security system. For over 90 per cent of our state workers, as well as those employees of political subdivisions who participated, this change will result in greatly increased benefits at a much lower cost. In addition, some 4500 members have so far received nearly two million dollars as a return of excess contributions. The amount paid by the State will also be smaller, and even with the increased social security charges effective on January 1, the State will currently save approximately \$150,000 each year from its previous retirement cost.

The pay increase which I will recommend for state employees can be considered by you with confidence that we have reduced our costs wherever possible, both through the personnel survey and through the reduction in retirement contributions.

State Highway Program

In our small state we have 3,700 miles of state highways, and 8,500 miles of city and town roads and streets. By September of this year, we will have placed in useful operation eighty miles of toll expressways. Over the past six years, through an accelerated rehabilitation program, we have improved the road surface and increased the factor of safety on approximately one thousand miles of state highways. Another 420 miles of this system will be completely rebuilt or be under construction by June 30 next. Our exceptionally high standard of winter maintenance has achieved nationwide recognition.

While these accomplishments over the past few years are noteworthy and represent real gains in the modernization of our highways, we are aware of certain weaknesses in the program. New Hampshire, for its size and population, has an extensive mileage of state highways; it also has limited resources. In many sections of the State the modernization of our highways has not progressed at the pace we would like to see. To match federal funds and to provide new construction, maintenance of our roads was cut to a bare minimum. Many miles of roads in this category do not carry heavy traffic, therefore, they do not require rebuilding as modern highways. However, they urgently need more repairs than they are now receiving. The Highway budget for the next biennium will recognize this need and additional funds will be asked for this purpose.

In June of 1956 our national Congress passed legislation that created the greatest road building program the world has ever known. It will more than double our own highway budget for the next two years and place a tremendous burden on our Department of Public Works and Highways.

The problem of obtaining funds to carry out this program is not insurmountable. Our expressways and modern highways will bring new industry and increased numbers of recreational visitors to our State. This will produce more highway tax income. But although new construction will be largely financed by federal funds, it is doubtful that we can supply our share of state funds to match the large increase in federal money without further increase in our state revenues.

There are, of course, two ways to do this, by borrowing and by higher gasoline taxes and motor vehicle fees. While

some increase in borrowing may be warranted, I believe it would be prudent to keep the financing of our long range program on a pay-as-you-go basis. We must remember that every dollar saved in interest charges means another dollar that can be used for highway construction. We must recognize the need for financing wholly by state funds the very necessary maintenance program which I have already discussed, since such work is not eligible for federal aid.

Highway Safety

I come now to an extremely serious subject — one which troubles, and should trouble, us all. Too many people are being killed on our New Hampshire highways. Too many others are suffering painful and costly injuries, as well as severe property losses.

I cannot agree that the violent death of nearly forty thousand Americans, in motor vehicle accidents each year, is the inevitable price of what we call progress. Most of these deaths, and a majority of highway accidents, are avoidable.

We have an efficient Motor Vehicle Department, but in my judgment the hands of the Commissioner should be better upheld by legislation of your own making. He should be freer to act promptly and effectively against those who violate our traffic laws. He should have a stricter control over the granting of operators' licenses. He should have wider latitude to suspend licenses of operators convicted of speeding. He should be able to require periodic reexamination of license-holders, to see that they retain their qualifications, and be authorized to issue probationary driving licenses at his discretion.

It is time for us to get tougher. I will recommend appropriations for increased personnel in the safety division of the Motor Vehicle Department, and for an added number of State Police for traffic duty.

If necessary, I will order the use of blind radar checks, unmarked patrol cars and any other stringent measures that will discourage speeding, and driving to endanger human life.

Public Welfare

Two years ago I pointed out that one of our most acute problems was in connection with the medical welfare program. While the case loads of our Welfare Department had continued

to decline, the costs were rising sharply — reflecting an increase of approximately \$700,000 annually in the budget requests for that department. In what seemed a drastic recommendation at the time, I suggested substantial reductions in appropriations.

I am happy to report that adjustments made during the last two years insure that the total budget for the Welfare Department for the next biennium will be actually less than the previous two-year period. Firm agreements have been reached with the principal suppliers of service in the medical welfare program which will extend through the next budget period.

Business Administration

Management of your state government requires constant and effective supervision, in many details which do not attract public attention. Here are some examples of what this management has accomplished during the last two years:

A complete Manual of Procedure has been issued. For the first time, there is now a single, complete printed reference for use by all state departments in setting up means of handling cash, travel, purchasing, spending.

All departmental bank deposits have been examined. Revolving funds have been substantially reduced, and some \$81,000 has been transferred to the general funds. The New Hampshire Distributing Agency which handles surplus food and equipment has been re-organized, and is much more tightly operated.

Control of food use has now been expanded to include the two teachers colleges and the two technical institutes. Recoveries for board and care of persons in state institutions and other agencies have been extended and steadily increased. Institutional farms, formerly run at a substantial loss to the State, now are operated at annual profit.

Your state administration is far from perfect. Much remains to be done. Certain of our accounting procedures need to be modernized and consolidated, and this is presently being explored. The relationships between the Public Works Division and the departments, examined by a legislative committee in your last session, are steadily improving. Equipment inventories are being developed, so that certain property not needed in one location will become identified and put to use elsewhere.

Institutional and departmental land, is constantly being sought out, and disposed of, so as to return it to local tax rolls, and to bring cash into the state treasury. A total of \$200,000 may be realized from this one source.

The extension of the responsibilities of the office of Business Supervisor over all state agencies, has been most useful. I believe I can speak with reasonable authority when I say that the heads of departments which have worked with the Business Supervisor have found the contacts worthwhile; disturbing at times, but still worthwhile.

Planning and Development

More than 20 years ago, the legislature acted to create the New Hampshire Planning and Development Commission — combining the functions of the original New Hampshire Board of Publicity with those of the State Planning Board.

We know that in today's world, very little succeeds without publicity or advertising, and we have always known that government without planning is futile. We have seen in recent years how essential it is to promote industrial development — at every level, including state, region and community. We have learned that even in agricultural enterprise, the modern techniques of promotion and marketing are necessary if our farm families, our poultrymen, our dairy operators, are to share the prosperity which the rest of our economy enjoys.

The Planning and Development Commission, to my mind, has been treated as a kind of stepchild for most of its official life. The fact that New Hampshire is heavily dependent upon vacation-travel business has meant little to those who were forced to decide where appropriations could be whittled down.

The fact that New Hampshire has urgently needed new industry and new job opportunities for her young people is only now beginning to be recognized effectively.

The fact that planning and zoning have demonstrated their worth to many New Hampshire communities is still largely unknown to most people — including some legislators.

It is time we took these facts into account. I will recommend a greatly increased budget for the Planning and Development Commission. This increase will especially strengthen the industrial promotion program through additional personnel, and by enabling the industrial division to reach more prospects

who can be attracted to New Hampshire as future employers of our fellow-citizens. I most earnestly urge that it be given your approval.

The increased appropriation, as proposed, will also include funds for advertising and publicity aimed at what we used to call the tourist market — the millions of Americans who nowadays spend staggering sums on longer family vacation trips each year.

In recent years, although our estimated income from this business has grown steadily, our relative share of the spending has declined — because other states are more aggressively promoting their attractions. We are being outbidden; we are slipping behind. We must return to the attack and regain the lost ground.

As to funds allocated to the planning function, I should point out that federal assistance for the community planning program is generous and continuing. We have certain areas where rapid population gains make vigorous planning measures not only desirable but essential, if the problems of community growth are to have proper solutions.

All these proposed outlays are integral parts of an effort to stimulate, guide and control the expansion of our state-wide community, both economically and politically. Our ancestors laid out their towns with generous forethought; they created tree-shaded commons; they provided for later generations an ordered way of life.

In our own way, faced with far more rapid progress, we must follow their example.

This job of serving as Governor is a complicated chore. On the one hand are constant demands for holding the line against higher taxes. And virtually from the same people comes constant insistence for more and better services. When I assumed office two years ago, it was with a pledge to strive to instill more and better business methods into the conduct of our state affairs. I knew it would be a difficult effort, and time has proven that to be correct.

Over the past two years many have tried to persuade me to change in various ways and become more to their liking. One who resists the expediency of trying to please all people in all ways attracts the sneers and sarcasms of bigotry and malice. But this is all a part of being Governor. It also has been a part of the job of a Governor's wife, who has maintained her spirit

and understanding, at times in an atmosphere of undeserved censure.

I take comfort in believing that the record of my first term has proven that my conduct and policies have been beneficial for that majority of our citizens who rely upon state government to provide them with a share of the American way of life which they are, by law, and by humanitarian principles, entitled to enjoy.

Benediction was offered by the Most Reverend Bishop Matthew F. Brady of Manchester.

On motion of Senator DeLude of District No. 8 the convention rose.

January 3, 1957

THE HONORABLE W. DOUGLAS SCAMMAN
Speaker of the House of Representatives
State House
Concord, New Hampshire

DEAR SIR:

May I offer my sincere congratulations on your election to the Speakership of the House. I know that the position will be in capable hands.

I am also writing to clear up a few points in regard to parking privileges in the city that are usually extended to members of the General Court. We hope that by clarifying a few points, we can avoid some misunderstandings and make it possible for the members of the General Court to enjoy their stay in Concord during the 1957 sessions.

1. All duly elected members of the General Court may obtain legislative stickers to be attached to the lower right hand corner of their windshields. These stickers may be obtained from the Motor Vehicle Department. They will be honored on all vehicles that are properly parked in a metered or un-metered zone with the exception of North Main Street and in the twenty minutes zone in front of the Post Office.

They will be honored on all days when the Legislature is in session. Also, if a member is tagged on a day when the Court is not in session, the member may take his ticket to the Police Station and if he can show that he or she was on legislative or committee business, the officer in charge will excuse the offense.

2. Unfortunately, we can not authorize the issuing of legislative immunity to attaches, stenographers, clerks, reporters, photographers, etc., that are not elected members of the Court. It seems there was some misuse or issuing of legislative stickers to such persons during the 1955 session which caused us quite a bit of embarrassment.

However, we realize that there may be a few persons who are vital to the smooth operation of the General Court and it would be extremely difficult for them to perform their duties if they were subject to over-time parking regulations.

Therefore, we are keeping a few legislative stickers at the Police Station so that you may write us a letter setting forth

the reasons why such a person should have a sticker even though they are not actually a member of the Court. We will be glad to consider the case on its merits.

I sincerely hope that this arrangement will be satisfactory to all of us. If not, please feel free to call me at any time for a conference.

Respectfully yours,

WALTER H. CARLSON,
Chief of Police.

If we have grown to resist changes, because we are accustomed to things as they are, we pray that Thou wilt show us the things that must be changed.

We pray for *courage* — courage to do and say what we believe is right, whether or not it is the popular thing.

We pray for *sensitivity* — sensitivity to the needs, the feelings and the thoughts of others.

The report was accepted and the resolution of the committee adopted.

Mr. Green of Manchester, for the Committee on Judiciary, offered the following concurrent resolution:

Concurrent Resolution

Memorializing Congress relative to the Altar of the Nation located at the Cathedral of the Pines in Rindge, New Hampshire.

Whereas the Altar of the Nation located at the Cathedral of the Pines in Rindge, New Hampshire, which has been dedicated to the glory of God of all American war dead and which in fact has been recognized as an interdenominational shrine by Americans everywhere, and

Whereas the Congress of the United States has previously declared a national policy to preserve objects of national significance for the inspiration and benefit of the people of the United States, and

Whereas it is the sense of the General Court of the State of New Hampshire that steps be taken to recognize the national sentiment already expressed by dedicating this Memorial as a National Shrine,

Now Therefore Be It Resolved, That the General Court of the State of New Hampshire memorializes the Congress of the United States and the appropriate officials of the administration in Washington to take whatever steps may be necessary and proper to give this Shrine its national recognition upon the provision however that nothing herein shall be held or understood to deprive the State of New Hampshire of its jurisdiction in and over said site or the conveyance of title therein to the federal government.

Be It Further Resolved, That a copy of this resolution be sent by the Secretary of State to the Representatives and Senators of this State in Washington, to the Speaker of the House of Representatives and the President of the Senate of the Congress of the United States and to such other officials in the United States government as may request the same.

On a *viva voce* vote the concurrent resolution was adopted and sent to the Senate for concurrence.

Report of Winnepesaukee Scenic Toll Road Commission

To Members of the 1957 General Court:

This report is made in compliance with the provisions of House Joint Resolution No. 64 adopted by the 1955 Legislature, providing that a study group of five persons, comprised of three representatives and two senators, the representatives being appointed by the speaker of the House and the senators being appointed by the president of the Senate, to study the feasibility of a toll road in the Lake Winnepesaukee area. This study group shall serve without compensation and shall report its findings to the 1957 Legislature.

The speaker of the House appointed Miner of Meredith, Spollett of Hampstead, and Littlehale of Durham. The president of the Senate appointed Packard of Manchester and Washburn of Bartlett.

This committee met and elected the Hon. Norman Packard, Chairman, and the Hon. Ruth F. Miner, Clerk. A public hearing was called for to be held October 24, 1956, at 7:30 P. M. at the Forestry Building, Laconia, New Hampshire. Notices were sent to local and city newspapers approximately one week prior to the date of the hearing.

After notices were posted of the hearing, many members received telegrams and letters all in opposition to the proposed toll road. Senator Packard reporting seven (7) telegrams and three (3) letters. Senator Washburn reporting five (5) telegrams and three (3) letters. Representative Littlehale seven (7) telegrams and three (3) letters. Representative Ruth Miner reporting six (6) telegrams and thirteen (13) letters. There were no telegrams or letters received favoring the proposed toll road.

The public hearing was called to order by Chairman Norman Packard; additional members present were: Senator

Washburn, Representative Albert Littlehale, and Representative Ruth Miner. There were between 100 and 125 persons present. The room was so crowded that an accurate count could not be taken.

Fifteen of those attending spoke as follows:

- 8 in opposition as home, business and property owners.
- 4 in opposition representing groups of home owners, a taxpayers' association and yacht clubs.
- 1 not opposed or in favor, but to correct the mileage saved as 6 or 7 miles and not the 25 miles as previously reported.
- 1 not opposed or 100% in favor, but to be open minded for future development.
- 1 not opposed or in favor, but to request black top improvement of roads to increase land values.

Twenty-six registered after the hearing as being opposed. No one registered as being in favor of the toll road.

After all persons who wished to speak were heard, the hearing was closed at 9:30 P. M.

The Committee immediately held an executive session and determined that the evidence and testimony heard clearly indicated that there was much opposition to the proposed toll road. Therefore by unanimous vote, reports that the proposal of a Winnepesaukee Toll Road be recorded as unfavorable and recommends that no further action be taken at this time.

Respectfully submitted,

NORMAN A. PACKARD,
Chairman.

FRED H. WASHBURN,
Senator.

ALBERT D. LITTLEHALE,
Representative.

DORIS M. SPOLLETT,
Representative.

RUTH F. MINER,
Representative.

The report was accepted and ordered printed in the Journal.

Joint Convention

Guest Speaker

Professor Donald Bartlett of Dartmouth College addressed the Joint Convention to honor the one hundred and seventy-fifth anniversary of the birth of Daniel Webster as follows:

Tomorrow being the 175th anniversary of Daniel Webster's birth, it is well for the representatives of the people of his native state to pause in their business and do honor to his memory. But when New Hampshiremen seek to do honor to the memory of Webster, they honor themselves. They do so in three ways. As they make him one with themselves as sons of their state, they insist upon their kinship with a great man. As they name over the things that made him great, they appreciate not so much what their New Hampshire gave to him as they acknowledged the luster that his name gives to their state. And finally, wherein he was greatest, wherein we are proudest of him, in those things he most clearly had grown beyond the limits of his home. Our sense of kinship with him and the glory that his name adds to the state of his birth need no argument. We know these things. But we do well to take further note that it was in Salisbury that he learned how to outgrow his home, as it was in Salisbury that his father loyally and deliberately helped him so to do. It was at Exeter and at Dartmouth that were forged his weapons as a champion, and at Portsmouth that he learned how a champion wields those weapons better than his fellows; fellow lawyers who included Ladds, Bingham and Masons among a distinguished number at the New Hampshire bar.

Daniel Webster stands in the history of our country as a conservative — and so we may be sure he would wish to stand. But he was a conservative of that rarest breed, who do not anchor progress in the past but steer ever forward upon a sure star. His star was the Federal Constitution, that appeared in the heavens when Daniel was five years old. Those of his elders who had vision in the affairs of mankind recognized it, as he

did even as a boy, to be the pole star of American strength and freedom. As a child he fixed upon that star in sentiment just so as a man he held to it with his mind. As a statesman he did perhaps more than any man in his time to steer the nation by that same star. In this he was the hopeful conservative and in this he outgrew his origins, his home, his party, as every great man must.

During the War of 1812, he, like his party, was against the Madison government and its embargo that so damaged the New England shipping interests. But when many leaders of his party toyed in convention with the notion of seceding from the Union, Webster gave a stern warning and called a halt to the "sunshine soldiers and the summer patriots" of that day.

In 1818, when many of his associates were for usurping the charter of his beloved college, he came to her defense. He joined with the able lawyers already marshaled on her side, and by his championing made history in our federal courts and saved Dartmouth College in the responsible nurture of free minds.

Two years later, when others lost their bearings and the ship of state began to yaw off before the winds of sectionalism, he joined with the southerner, Henry Clay, in trimming the slatting sails by the Missouri Compromise, to bring the nation back upon her true course of destiny.

Time after time, his loyal vision separated him from his party, his state, his section and ultimately from all hope of attaining his ambition, the Presidency. He loved company and adored New England; most of all, perhaps, he cherished New Hampshire. Separation and misunderstanding cost him dearly. He fed upon applause and heard it turn to hisses. Yet in his weary old age he arose once more, defying second best, disdainful of mere conformity, even turning a deaf ear to anti-slavery clamor at his back in the awful choice of 1850 to hold the nation together in that fateful seventh of March in the United State Senate. Just as in his ringing reply to Hayne twenty years before and in the Plymouth Oration thirty years before, there spoke again the hopeful, conservative champion. It was not and it is not merely our New Hampshireman nor merely our fellow New Englander who puts glory into our hearts by thundering:

"Union and Liberty, now and forever, one and inseparable."

On motion of Senator Horner of District No. 3, the convention rose.

Joint Convention

Budget Message of Governor Lane Dwinell

Delivered to the General Court on January 24, 1957

ADDRESS OF GOVERNOR LANE DWINELL TRANSMITTING THE EXECUTIVE BUDGET TO THE GENERAL COURT, JANUARY 24, 1957

Mr. Speaker, Mr. President, Members of the General Court:

The management of public funds is both a serious responsibility and a test of character. Under our democratic system of government, the citizens are assured that many — rather than a few — must share each decision as to what taxes should be levied upon them, and how the revenues of government should be expended.

In the traditional New England town meeting, every citizen has his opportunity to support or oppose the outlays asked for local government. In our own state government this same tradition works to protect the best interests of every New Hampshire resident.

Those of you who are newcomers to the Senate and the House should take note that a biennial budget is neither quickly prepared nor lightly presented. The budget requests from the various branches of government were in my hands by last October 1. Since then, they have undergone lengthy and searching investigation. Hundreds of hours have been devoted to hearings and to conferences with the chief fiscal officers of the state, and the department heads and their advisers. Line by line, each request from each department has been reviewed.

Hereafter, my best judgment is subject to your own re-valuation. You have among the membership of your appropriations and finance committees, men and women well qualified to weigh each item of proposed expenditure. Finally, each of you will have a personal chance to voice your approval or disapproval. This is as it should be; under our state constitution, we have a collective obligation to the people of New Hampshire, to make sure that their money is wisely used for the public well-being.

Total recommended expenditures for the next two years amount to \$155,134,744 or \$77,567,372 a year. The major factor in the current increase, which amounts to \$27,000,000 a year over the rate of expenditure during the past biennium, is a greatly expanded highway construction program. Others include increased investments in our public schools, in the University of New Hampshire, and in our state employees.

The overall increase also reflects two other important influences. The first is that as our economic condition prospers, and our statewide income, living standards and living costs more nearly approach the national average, our expenses of government — like all other costs — also rise, and remind us painfully that few of the best things in life are free.

The second is that with the helpful surveys and studies made in various areas of our state government during the last two years, we can now confidently undertake to correct certain deficiencies in our services to the public, for which a real and justified demand exists.

The total net appropriations recommended from the general fund, including debt service, amount to \$19,500,000 for the fiscal year 1958, and \$19,900,000 for the fiscal year 1959.

These appropriations can be met from our existing sources of revenue at their present rates of assessment. The only legislation which will be asked of you, to provide these funds, is the re-enactment of the present five dollar head tax. I therefore recommend that we continue this tax for two more years. I also urge that this tax be re-enacted well before the April 1st assessment date, and that — as a proven source of revenue — it not be delayed for the consideration of any experiments in new and untried fields of taxation.

This means that the portion of our state budget dependent on general fund revenues is presently in balance. Many critics at one time or another have chided the administrators of your

state government, and the legislators as well, for their reluctance to propose and adopt sources of new revenues. It has been asserted that the state fails to render vital services because it lacks sufficient funds, that we have been, and will remain, unable to increase such vital services in the future.

Neither assertion is based on full knowledge of our current revenue picture, nor of the steadily improved controls exercised by the legislative and executive authority over public spending.

Increasing economies, year by year, make available to us the funds to support more and more necessary services. A key factor has been the requirement, established by Governor Gregg and enforced during my own term in office, that each state department live year by year within the appropriation voted it by the legislature. Every department has done this during the past biennium, many by substantial margins. Behind this achievement has been the steadfast seeking out of ways to save money — a search which our administrative records will prove has been highly effective.

Our existing general fund revenues are far more flexible, and far more responsive to general prosperity than most of us have realized. They have continually expanded with the statewide growth of business and income. We may expect them to continue to expand, with the economy of the country as a whole. As a state government, our task has been to give careful encouragement to the present sources of these revenues. We should continue this intelligent, deliberate encouragement in the future, in the belief that we may thus avoid for some time to come any recourse to new, broad base taxation.

It is now estimated that our general fund surplus on June 30 this year will amount to \$3,710,000. This compares to a surplus of \$2,636,164 two years ago, and simply means that our income for the two-year period will have exceeded our expenditures by more than \$1,000,000.

This favorable condition of our general fund, the best in nearly ten years, will enable us to meet the reasonable requirements of all our state departments and institutions. We can fully implement the present formulas for state aid to education, both as to equalization aid and school building assistance. We can increase the grant for the coming biennium to the University of New Hampshire by \$680,000. We can provide

nearly $2\frac{3}{4}$ million dollars from the general fund for adequate salary increases for both our classified and unclassified state employees. Based on presently anticipated revenues, even after these major increases in our expenditures we should have a surplus on June 30, 1959 of close to \$300,000.

All this is possible because, in addition to the savings effected by proper management of public affairs, our revenues themselves, with very little change in their rates of assessment, will have increased more than 50 percent since the biennium ending June 30, 1951.

I ask you to keep this in mind as I turn now to brief discussions of some of the more important individual budgets, where the size of the recommended appropriations justifies your especial attention.

State Institutions

I recommend an increase of \$696,899 over our current appropriations for our six state institutions, excluding the amount necessary for proposed salary increases. Of this sum, \$433,615 is for the state hospital, and \$205,930 for the Laconia State School. These increases for the institutions reflect some additions to personnel for the staffing of new facilities at the state hospital and the industrial school, and for an additional 23 employees at the Laconia school, of whom 14 are attendants.

I am assured by the personnel division, and by those having direct responsibility for the assignment of personnel at Laconia that sufficient staff is provided for complete 24 hour, seven day a week coverage of every child-caring ward, in every building at this institution. It is my considered judgment that the funds recommended for our institutions are adequate to provide both for the projected increase in patients or inmates, and for the operating costs of new physical facilities which will be in service during the budget period.

Public Welfare

The appropriations recommended for the Department of Public Welfare show a decrease of \$420,268 from the current biennium. This is the result of a declining caseload and of adjustments which have been made in the costs of the medical welfare program. I am sure it is just as gratifying to you as it is to me, to find a decline in the needs of this major state

agency, which spends more state and federal dollars than any other, excepting only the Highway Department.

This has been brought about, primarily, by the high level of our prosperity and employment conditions. We can also credit in part the increased social security coverage, the increased collections by our probation department, and the increased benefits for disabled persons under the federal social security act. It is also a tribute to our rehabilitation programs and to the tight controls effected by the administration of this department.

Probation

I am recommending an increase of appropriations for the Probation Department to provide for additional probation officers and clerical employees to assist them, as well as to open another district office. The growth of our population, and the unfortunate increase in juvenile delinquency, and, may I add, in adult delinquency, require that we act to lighten the heavy average caseload now carried by the present staff.

Although the Probation Department has developed substantial savings to the Welfare Department, and to the state as a whole, through its collections on court orders, the work cannot and should not be measured in terms of dollars and cents collected. The primary responsibility for probation should be found in the help it can give to the less fortunate of our citizens who come under its jurisdiction.

Education

As I have already said to you in my inaugural address, I believe that you should provide the full amount for equalization aid to education required by the existing formula. If my recommendation is adopted, it will be the first time in many years that a General Court has appropriated the full amount of funds required by existing law for state aid to education.

I also recommend that you vote the full amount required for the school building assistance program, begun by the 1955 Legislature. During the current biennium, total state aid for education in both of these categories amount to \$2,750,000. My recommendations would increase this by about one-third, to \$3,603,572.

Two years ago the General Court permitted the Board of Education to take up to \$50,000 annually from the equalization aid appropriation so as to continue the area vocational

schools. I believe that both the area vocational schools, which assist our high school students to learn skills which later can help them earn a living, and the equalization aid program, which directly helps our cities and towns, deserve state assistance.

I am therefore recommending the appropriation of \$50,000 each year for the area vocational schools. This will serve also to free that sum for distribution to needy school districts.

Planning and Development

My recommendations for the Planning and Development Commission show an increase of \$182,835 over the funds allocated in the previous budget. The largest additions here are \$126,000 for direct advertising and promotion, and \$31,000 for the industrial division.

I cannot urge upon you too strongly the desirability of these proposals. They will enable us to intensify our promotion and development of new industry, and thus help to create new or better jobs for New Hampshire people. They will enable us to advance our competitive position in the promotion of our recreational facilities, and of vacation travel into our state.

Let me repeat what I have said on previous occasions. We should not look to the budget of the Planning and Development Commission as the first to turn to in reducing expenditures. We live in an increasingly competitive society. There is no keener competition than that which exists among our sister states, in their struggles to lure from each other the industrial and recreational dollars which contribute so much to prosperity.

While I have suggested larger appropriations for advertising than we have previously spent in any two year period, I have not felt that I could include in this budget the cost of re-opening a New York office. If it should be your desire to provide for this, I would suggest that you grant discretion to the Planning and Development Commission to use some of the promotional funds in this manner, if in its judgment the money may be better spent in this way.

University of New Hampshire

The trustees of our state university requested of me additional funds for the biennium in the amount of \$1,360,000.

The major share of this increase is for more adequate salaries, principally for instructional personnel.

More funds are also required to support the expected increase in the student body, for the operation of authorized new physical plant, and for the much needed additional maintenance of existing facilities. I do not feel that we can add the entire amount of this requested increase to our reegular general fund budget. I am therefore requesting an additional appropriation of \$680,000 for the biennium, which will raise the state's total grant to the university to \$2,220,218 annually. The remaining funds required by the university could be obtained from increased tuition charges, so that those who benefit most directly by the services of the university would pay more for them.

State Police

I am recommending for the State Police Department an increase of seven additional state troopers for assignment to traffic duty. In my opinion this is the minimum increase required to supply the personnel needed to cope with our greater volume of motor vehicle traffic, and to aid in an intensified drive against violators of our motor vehicle laws.

Fatalities and severe personal injuries on our highways are an increasing problem. We can ill afford to relax our efforts for increased highway safety.

Motor Vehicle

My Budget recommendation for the Motor Vehicle Department also considers this need for increased highway safety. I ask your approval of increased personnel in the Safety Division. While we must require strict observance of our motor vehicle laws, and vigorous prosecution of violators, and while our efforts to reduce injury to life and property must be strongly pressed, I believe we also need to cut down the number of traffic accidents by a more basic educational program.

There is pending before you a bill which would increase revenues by authorizing the issuance of certain special license plates at an increased fee. I urge that you grant this proposal, so that a portion of the funds derived from it can be used to support our highway safety program.

Recreation

For some years the General Court has insisted that the Recreation Division of our Forestry and Recreation Commission be self-supporting. Up to now, to the great credit of those who manage the division with careful planning and prudent operation, this edict has been followed.

I do not believe, however, that we can fairly demand that the Recreation Division continue indefinitely to operate and maintain the 36 facilities under its jurisdiction, scattered throughout the entire state, from its own revenues alone. It faces too many unknowns.

Often, the weatherman thwarts the division's best-laid plans, and the carefully estimated revenues vanish into thin air. Few of us who have not operated a highly speculative, seasonal business, dependent alike upon the weather and the caprice of public tastes, can appreciate the problems and frustrations inherent in such an undertaking.

Furthermore, increased debt service and maintenance costs have added to the division's problems. These burdens must be shouldered regardless of the business done. The higher payrolls resulting from the proposed salary increases for state employees represent yet another burden — and a heavy one.

I therefore believe that at least the operating expenses of the Division's Concord office should be provided from the general fund. I am recommending an appropriation of \$50,000 a year for this purpose.

Personnel Survey

Within a few days I will submit to the legislature a progress report on the personnel survey which I was directed to make under Chapter 338, Laws of 1955. As I told you in my inaugural address recently, the benefits to the state from this survey have already been substantial.

The survey agency estimated that if all its recommendations were followed, our annual savings could reach approximately \$282,000. Of this amount, we have already realized an actual net saving of \$55,000 a year.

In addition, information furnished by the survey has proved invaluable to us in weighing requests for both continuations of existing positions and the creation of new positions. We have been able to deny requests for existing positions totaling about \$84,000 a year. Furthermore, requests have been re-

jected for new positions amounting to about \$218,000 a year. These savings on new positions were not even contemplated when the agency made its survey last year. The money not spent on these jobs can be well used for other purposes during the new biennium.

Employees Pay Increase

It seems to be agreed that the compensation of our state employees should be increased, both for classified and unclassified service. No general upward adjustment has been made since 1953. During the last four years, our state government has found it steadily more difficult, in competition with other states and with private industry, to obtain competent workers.

The Personnel Commission has now given me its recommendations, based on intensive study of this problem. They would provide for an average increase of just over 20 percent at a biennial cost, from all funds, of \$5,899,132.

Previous comparisons of our pay scale have normally been made with the states of Maine, Vermont and Rhode Island — which were considered most closely comparable to New Hampshire. In its latest study, the commission compared our salary scales with all five other New England states, and also with selected positions in private industry and business.

It is true that we compete with all other New England States in some personnel classifications. I do not believe it is necessary to adjust the entire range of our state salary levels to the six-state average. I have therefore directed the personnel commission to make a further study based solely on Maine, Vermont and Rhode Island. This new study shows that to adjust our pay scale fully at this three-state level would call for an average salary increase of 11 percent.

But if we were simply to set our pay levels at the average of these three states, we would not sufficiently improve our competitive position, nor would we be making allowances for further salary increases proposed to their own legislatures.

It is very difficult to reach a formula which would wholly meet this situation. On the best information available, I recommend for your consideration an average increase of 14½ percent for classified personnel, and a comparable increase for unclassified. The commission has urged that we adopt a sliding scale of pay increases for different labor grades, based on careful comparisons with similar jobs in other states and in

private employment. My recommendations to you are based on this method, and my reduction in the amount of pay increase proposed is reflected proportionately in each job classification.

I recommend an increase for the biennium of \$4,244,700, of which \$2,612,000 is to come from the general fund.

I earnestly caution you against adopting any flat rate, or flat percentage, of pay increase. To do so would be to ignore the changes which have been taking place in demand for certain skills and trades, especially in the professional fields. Previous flat, across-the-board increases have served to distort the original salary curve which was carefully prepared for the special session of the legislature in 1950.

Whatever increases you may approve, in my own respectful judgment, should embody efforts to correct, and not further to exaggerate, this troublesome distortion.

Fish and Game

My recommendations for the Fish and Game Department are well within the funds which the department will receive from its present revenue sources. This will mean no substantial change from the previous biennium. I am again recommending to you that this department conform to the practice of other state agencies and use state-owned vehicles for all travel in excess of 12,000 miles annually. The extension of this policy in other departments has resulted in very considerable savings during the last two years. I see no justifiable reason why the Fish and Game Department should not adhere to standard, thrifty procedures in this respect. It is conservatively estimated that \$15,000 annually can be saved, releasing this sum to assist in carrying out other necessary work for the department, the budget as submitted to you reflects this recommendation.

Highways

The gigantic federal highway program authorized by the last congress has received nationwide attention. I will not expand on the details of this program, except to say that it will treble our regular highway budget for the next two years. It will increase by more than one-half the combined construction effort of our regular highway program, plus our turnpike construction in the present biennium.

While a major part of this expansion will be financed 90% by the federal government, you should know also that

there has been a substantial increase in those regular federal funds which the state must match on an equal 50% basis. In addition, we must increase, and in my judgment greatly increase, our appropriations for maintenance of several thousand miles of existing state highways which we cannot reconstruct within the next few years. The funds for this increased maintenance must be provided entirely by the state. I am recommending an increase of \$2,000,000 a year, from approximately \$5,500,000 to \$7,500,000.

Because of the tremendous increase of highway needs, especially as the result of the new interstate federal program, and having in mind the necessity of finding sufficient revenue to match the new federal funds and at the same time meet the greatly expanded requirements of the state program, I have given thorough attention to the budget requests of the Highway Department. I have personally reviewed, and caused to be reviewed by others, each item of proposed expenditure. I have reviewed the estimates of income from existing sources of revenue with the Commissioner of Public Works and Highways, and with the Commissioner of Motor Vehicles. I have examined the unexpended balances of previous appropriations which might be available.

I have been able to reduce the anticipated deficiency in funds available for the work of the department from an estimated \$14,000,000 to \$8,837,060. I am confident that this sum represents the minimum additional requirement to carry out the expanded highway program. There are three ways to provide this money:

- borrow the entire amount
- raise taxes for the entire amount
- or by a combination of the two methods

I recommend the latter course, for two reasons. Available estimates indicate there will be a bulge in the amount of money needed for the next two years, because the thirteen-year interstate federal program will stabilize at a somewhat lower level after 1959. Past experience suggests that our revenues may increase more than we have previously anticipated.

Since we expect to initiate a quarter of the thirteen-year program within the next two years, I recommend to you an increase of one cent in the tax on gasoline, and an authorization of \$5,000,000 in additional highway bonds. To me this is the prudent course to follow. The most optimistic estimates of

our present five cent per gallon gasoline tax will not support the expanded construction and maintenance program. The sooner we begin the collection of this additional tax, the less we will have to borrow, the less interest we will have to pay, and the less will be the eventual cost to the motoring public. While the additional bonded indebtedness of \$5,000,000 will increase our total bond authorizations for highway purposes to \$22,510,000, it should be pointed out that only \$8,510,000 in bonds are now outstanding.

You will be told that these funds are unnecessary because there is a time lag between the appropriation of funds and the actual payments made on highway contracts. Since, by their very nature, these contracts run over a considerable period of time, I will agree that there is a time lag. I must remind you, however, that our Highway Department cannot enter into any contracts for which funds have not first been made available by the legislature. Do not let anyone tell you that the Highway Department has many millions of free cash on hand. The actual cash balance in the highway fund as of the close of business yesterday, January 23, 1957, was exactly \$734,931.13.

In listing three possible approaches to the financing of the highway program, I did omit a possible fourth alternative. This would be that we do not even seek the funds to fully carry out the program. Such a course would be unthinkable to me. I am equally sure it would be unacceptable to the people of our state. All of us want, and our people deserve, more new highways and a much higher standard of maintenance on existing highways. I am sure you will join with me in facing this problem squarely and courageously.

Franchise Tax on Gas and Electric Utilities

No discussion of the state's finances would be complete without reference to the present status of the franchise tax on gas and electric utilities enacted in 1931.

There is currently pending a suit against the state by the Public Service Company of New Hampshire, testing both the constitutionality and the equity of this franchise tax, which has been annually levied for more than 25 years. This case is now being referred to the Supreme Court for final decision. Taxes in the amount of \$1,358,221 have been paid to the state under protest, and have been included in our general fund revenues. My estimates for the next biennium forecast the

continuation of this tax at its current level of assessment. Until a decision is obtained from the court, no recommendation can be made with respect to this revenue source. If the state's position is upheld, no action will be necessary. If the court finds against the state, I will submit to you recommendations for the replacement of any revenues which may be lost.

Estimation of Revenues

One more reference to the state's revenues should be made. In previous budgets, there has been a tendency to be too conservative in estimating future income. In this budget, I have attempted to project a more realistic forecast of the revenues which can be expected in the next two years. I have assumed that a moderate expansion in the economy will continue and that prosperity will remain with us. I believe this approach will depict with more accuracy the fiscal situation when the next budget period ends on June 30, 1959.

Additional Spending Requests

During every session of the General Court, there are certain appropriations made which cannot be anticipated by the Governor in his executive budget. Many of these are small; many cannot be avoided. We will all recognize, I am sure that every such appropriation will reduce the estimated surplus. I urge that you exercise the greatest consideration before approving these extra requests. If they are kept within reason, there should be sufficient funds to cover them from the unexpended balances of this year's appropriations, which can be expected to lapse this next June 30. If we can keep them within bounds, they will not upset the balance now existing in the budget submitted to you.

Debt Service

Bonded debt results primarily from capital expenses. It is therefore more closely related to the capital budget, which I will submit to you during February. The requirements for both retirement and interest charges of our debt, however, are met by the operating budget. Debt service requirements from the general fund will amount to \$1,372,699 for fiscal 1958 and \$1,356,808 for fiscal 1959. These show no substantial increase over the amounts required in the present biennium, because recent legislatures have been prudent in their authorization of

bonds which were not on a self-liquidating basis. General fund bonds authorized, but not yet issued, total \$10,639,249. To a large extent they are for employees and teachers' retirement systems to be issued over a long period of time.

I am glad to point out that one of the principal effects of the integration of the Employees' Retirement System with Federal Social Security, authorized by your 1955 session, at my suggestion, is to reduce by several million dollars the amount of bonds which are to be issued.

Supplemental General Fund Budget

There are certain areas to which the state government may well owe more responsibility than it has been willing to admit. I refer particularly to the burden carried by the local property taxpayer. Property taxes throughout our state have risen steadily, due principally to the greatly increased costs of education.

There is no indication that this upward trend will stop, or even slow down. The ownership of property, by mills, by stores, by shops, by landlords, and by the average homeowner, can well become a disadvantage. One of the surest ways the state can relieve this situation is to increase further its own appropriations for education.

Another area for possible increase in state responsibility is that of higher education. We pride ourselves in our state university. We should consider raising the level of state support so that fully adequate higher education can be available to more of our sons and daughters.

It is my intention in the near future to discuss these needs more fully, in a supplemental budget proposal which will offer additional appropriations for three specific purposes:

1. To further increase school equalization aid
2. To further increase school building construction aid
3. To provide an additional grant to the University of New Hampshire.

In this supplemental budget I shall make recommendations to show how the necessary funds could be obtained without the imposition of any new broad base tax.

Conclusion

The recommendations contained in this budget message may be summarized as follows:

1. I have recommended a general fund budget which is balanced, with no changes in our present tax structure.

2. I have recommended a greatly increased budget for the Public Works and Highways Department, to be financed by an increase of one cent per gallon in the gasoline tax, and by the authorization of \$5,000,000 in additional bonds.

3. I have recommended no additional boards, or commissions, or departments, or functions of state government.

4. I have proposed a total increase of \$853,572 for state aid to education.

5. I have provided for a biennial increase of \$4,244,700 in salaries, of which \$2,612,000 is to come from the general fund.

In presenting this budget to you more than three weeks earlier than the date required by law, I hope that I have made a contribution to shortening the length of the 1957 session. Your own committees have also made most commendable progress on the budgets of individual departments which I was able to make available at the opening of the session. In my judgment this auspicious start will make it possible for you to speed your work without the risk of ill-considered action.

It has been traditional for a Governor to urge that no legislature provide for more appropriations than can be met with the revenues available. Such an admonition has become unnecessary. However much we may disagree on the details of appropriations or on the means of raising revenue, New Hampshire people and their representatives in Concord are irrevocably committed to a balanced budget and a solvent state government. This is the prudent and thrifty course. In this philosophy we cast aside partisan political considerations. We are dedicated to uphold the traditions of our great state, which as one of the thirteen original colonies, and the ninth state to ratify the federal constitution, has always taken pride in setting an example of fiscal responsibility in government.

On motion of Senator Caron, District No. 17, the Convention rose.

Resolutions

Mr. Walker of Concord offered the following resolution:

Resolved, that the Clerk be instructed to procure 1500 printed copies of the Governor's Budget Message.

On a *viva voce* vote the resolution was adopted.

Mr. Duke of Hanover offered the following resolution:

Whereas, while we admire the heroic attempt at freedom by the Hungarians and regret the most unfortunate results, we cannot forget nor overlook the earlier attempts at freedom from the Communist yoke on the part of the democratic peoples of Poland at Poznan in early summer and again in the spontaneous student and workers uprisings early last fall throughout Poland, and

Whereas, Cardinal Wyszynski, released from prison as a result of these early fall uprisings, has advised his people to be calm and moderate in order to avoid unnecessary bloodshed and damage to property, and also last week advised the people to vote, this past Sunday, for Wladyslaw Gomulka and his fellow Communists, and

Whereas, in order to win this election as first secretary Gomulka had to tell his people the day before the election, that to cross out Communist candidates' names from the ballot would be to "cross Poland from the map of European states," thereby acknowledging openly that the threat of Soviet armed attack is the only final guarantee of Communist power, and

Whereas, faced by the choice of probable Soviet military attack or rule by native Communists the only choice for the Polish people was the latter, as the better of two available alternatives, therefore be it

Resolved, that the members of the New Hampshire House of Representatives are not surprised by the published results of this election; that 90% voted in favor of the listed candi-

dates, and we are of the opinion that if it were a truly free election the result would be just the reverse, and we do not believe that this election reflects the accurate sentiments of the people of Poland, but we hope that the election will give to them somewhat better sovereignty and independence, better living conditions, and permit them to enjoy more of the fruits of their labors than they have had during the past ten years, and that the day will soon come when Poland will be really free and rejoin our family of Democratic countries, and be it further

Resolved, that the Secretary of State be instructed to transmit a copy of this resolution to each member of our Congressional Delegation in Washington and to the Clerk of the Foreign Relations Committee of the U. S. Senate.

The resolution was referred to the Committee on Judiciary.

Concurrent Resolution

Mr. Lacasse of Berlin offered the following concurrent resolution:

Whereas, the Division of Personnel for the State has promulgated rules governing annual leave for certain state employees, and

Whereas, these rules do not provide for additional annual leave for long service employees, and

Whereas, it is the desire of the General Court to recognize the long and faithful service of these employees, therefore be it

Resolved, by the House of Representatives, the Senate concurring

That this General Court hereby goes on record as favoring the granting of an additional one-quarter day per month for each classified state employee of ten years longevity, and in addition thereto, another one-quarter day per month for each five year period in excess of ten years longevity, and be it further

Resolved, that a copy of this resolution be transmitted to the Director of the Division of Personnel for the State of New Hampshire.

The concurrent resolution was referred to the Committee on Executive Departments and Administration.

On motion of Mr. Pickett of Keene the rules were suspended to allow business in order at 3:00 o'clock to be in order at the present time, that third readings of bills be by title only, and when the House adjourns today it be to meet next Tuesday at 11:00 o'clock.

We thank Thee for the opportunity to serve Thee as we gather together as members of this body. We thank Thee for entrusting us with this responsibility of government. Wilt Thou grant, O God, that we may understand our duty to Thee and to the people we represent. We pray in the name of Jesus Christ our Lord. Amen.

Reports of Special Committees

New Hampshire State Senate Districts

The committee considers that the present system of Senatorial representation clearly violates the provisions of the New Hampshire Constitution which require that the 24 districts are to be based on "taxes paid," in other words on adjusted valuations.

The system of districting was last adjusted in 1915 and now shows one district of over \$118,000,000 and another with less than \$30,000,000 in adjusted valuations. Moreover, very large or very small districts are not confined to any geographical area or type of district. Small and over-size units are often side by side.

It seems impossible that the General Court can deliberately avoid its duty to rectify the situation and your committee, instituted by Act of the 1955 Legislature, would be derelict in its duty if it did not report in favor of a revision.

* * * *

The specific plan reported is the result of much study and with full consideration of all of the interests involved.

Your committee wishes to state that the plan which follows will in no way change the balance of the two major political parties or favor one at the expense of the other in the vital matter of representation in the New Hampshire Senate. A study of the proposed plan and a detailed comparison with the existing system will make this perfectly clear.

It appears to your committee that the districting which is presented is as equitable as possible in view of the many factors involved. At the same time the precise adjustment of any specific apportionment plan should not serve as an excuse for the failure of the General Court to comply with the clear provisions of the New Hampshire Constitution.

* * * *

Your committee, designated by Governor Dwinell in accord with the Act of the 1955 Legislature, consisted of Senators Daniel, Smalley and English, and Representatives Kelley and Nathaniel Davis. The first meeting was on September 22, 1955, Senator English being unable to attend the opening meeting. Representative Kelley of Littleton was chosen as Chairman and Senator Daniel as Secretary.

A further meeting was held on December 13, 1955, Sena-

tor Smalley being unable to attend. Upon motion by Senator English, the Tax Commission was requested to obtain and present data on the valuations within the ward lines in the cities of Berlin, Concord, Manchester, Nashua, and Portsmouth, there being no break-down of the valuations in these cities other than by city lines.

Owing to the Constitutional Convention and the necessity of obtaining the necessary valuations from the Tax Commission, no meetings were held in the spring and summer of 1956.

On November 20, 1956 and on November 27, 1956, further meetings were held, the Tax Commission having furnished the necessary data on adjusted valuations and on valuations within the ward lines in the above mentioned cities.

Representative Plumer of Bristol was appointed by Governor Dwinell to take the place which had become vacant through the death of Representative Davis.

At the time of November meetings and again at the December meetings, a severe illness prevented the attendance of Senator Smalley and the committee was deprived of his valuable services and was forced to proceed without him.

Meetings were held on December 13 and on December 18, in which all possible arrangements and all suggested combinations received full consideration. As a result of these studies and deliberations, your committee recommends the following plan of Senate Districting. The figures given show the valuations at the present time and the valuations of the proposed Senate Districts.

Report of the Legislative Interim Committee To Study Tax Exemption

In accordance with Chapter 381, Laws of 1955, Speaker of the House, Charles Griffin, and President of the Senate, Raymond Perkins, appointed the following committee to investigate tax exemption in New Hampshire: Rep. Martha Frizzell, Rep. Fred Jones, Rep. T. Casey Moher, Senator Benjamin Adams and Senator Norman McMeekin.

According to the resolution the committee was to "study, investigate and examine into the matter of tax exempt property of every kind in the state, with particular reference to the existing laws governing and granting such exemptions; said committee to have full power and authority to require from the several departments, boards and commissions of the state government such information and assistance as may be available for the purposes of the committee" and to prepare a

“report of its findings and recommendations to the legislature of 1957.”

As a result of this study of tax exempt property laws within this state and the other New England states the committee is submitting a bill embodying the following changes in the laws of New Hampshire having to do with property tax exemption. In Chapter 72 RSA, Section 6 is simplified. Sections 23-27 are completely rewritten in more specific language. The provision limiting the amount of taxable property which any organization may hold tax exempt in any one town has been deleted, and the provision added that any organization requesting tax exemption shall list the property on which the exemption is requested.

This committee did not take into consideration the laws on tax exemption of veterans, since it felt that the legislature had already expressed itself definitely on this subject and the existing law was clear and apparently in agreement with the sentiment of the people.

Joint Convention

Prayer was offered by the Chaplain.

O God, our Father, we come to Thee in prayer because of our need of Thy help. Wilt Thou be merciful that we are torn as we are; that some of us now think and talk in terms of "*when* the next war comes, not *if* it comes." Wilt Thou

pity us that events in our world take away our hope and shatter our peace. We need to be reassured that peace is still possible.

We need to pray that our own eyes be opened. Deliver us from those who would pray "Thy kingdom come — but not yet; Thy will be done on earth — by other people."

Wilt Thou grant to us at this time the will to labor for peace even while our sword is prepared to resist the oppressor. Let not the evil we oppose turn us from our purpose to achieve unity and concord among the nations of the earth.

Help us to see, O God, that if Thy will is to be done on earth, *we* must do it. Through Jesus Christ our Lord. Amen.

Salute to the Flag

Mrs. Bucklin of Bridgewater led the convention in the salute to the flag.

Introduction of Guest Speaker

The Speaker introduced Brigadier-General Robert J. Fleming, New England Division Engineer, Army Corps of Engineers, who addressed the Joint Convention as follows:

I was delighted when I received the invitation to talk to this joint session of the New Hampshire Legislature, and I am even more delighted now that I am here. This gives me an opportunity of appearing before the most influential audience in New Hampshire and discussing a problem which I consider to be one of the most important facing this state and its neighbor, the Commonwealth of Massachusetts.

Responsibilities assigned by the Congress to the Army's Corps of Engineers puts us into partnership with local people throughout the United States in water resources development. We have been in such a partnership with the people of New Hampshire for many, many years. According to somewhat fragmentary records in my office, the first project authorized specifically by the Congress for New Hampshire was the improvement of the harbor at the Isle of Shoals, which was done about 1824. In the fairly recent past we built the Blackwater, MacDowell, and Franklin Falls flood control reservoirs in the Merrimack River Basin; we built the Surry Mountain reservoir, north of Keene in the Connecticut River Basin; and we are now constructing a second flood control reservoir at Keene on Otter Brook. We have just completed a small flood

control project in Farmington, New Hampshire, on the Cochecho River. In the navigation field, we started last year and have just about finished an improvement in Portsmouth Harbor which will remove some dangerous rock shoals and permit much safer navigation of cargo vessels into that port. An excellent example of the cooperation existing between the state and the federal government through your Army's Corps of Engineers is the beach erosion project at Hampton Beach. This improvement to the seacoast region of New Hampshire was studied jointly by the State and my office and was financed jointly by New Hampshire and the Federal Government. Our military fortification projects in New Hampshire started soon after the Revolution. Our most recent military project within the State, and one with which I am sure all of you are familiar, is the construction of the air base outside of Portsmouth.

There are many unsolved problems in water resources development: conservation use, and control of our water resources is becoming more and more important. This general statement is applicable within this State. We have many mutual problems. We are now actively studying, in cooperation with local authorities, flood problems throughout the State, at Lebanon and at Lake Winnepesaukee to mention two examples. This afternoon I am having a conference with Governor Dwinell and interested officials on the problem of domestic water supply for the seacoast region. I mention this very briefly to show that we have many, many common interests in this field. From now on, however, I will concentrate on one problem only. By this preoccupation with this one problem, I do not mean any disparagement towards the others, they are also important. But to me this one problem is of such great importance to the State and the neighboring Commonwealth of Massachusetts that it overshadows all others. The Army's Corps of Engineers are not the only people who are worried about this problem. It is not a new one, and many people in this State and in Massachusetts have been concerned about it for some time. By almost unanimous agreement with me the only dissenter, probably because the others involved thought I had more leisure than they did, I was selected as the spokesman to present this problem to the public. I want to emphasize, however, that my prominence in discussing it does not mean that concern about it is unique

to my organization. On the contrary, many, many people share that concern.

The problem can be simply stated. The Merrimack River is vulnerable to disastrous floods and its most dangerous tributary, the Contoocook, is now nowhere near adequately controlled. Here is a map of the Merrimack Basin. Three flood control reservoirs have been constructed in the basin — at Franklin Falls and at Blackwater, and the MacDowell reservoir at Peterboro. Of all tributaries, considered entirely from a flood damage potential standpoint, the Contoocook is by far the more dangerous. A fourth project at Hopkinton-Everett was planned long ago for the Contoocook; it has never been built and that is the basis of my statement that the most dangerous tributary, the Contoocook, is now nowhere near adequately controlled.

The flood problem on the Merrimack River is not a remote and academic possibility but rather something which has occurred again, and again, and again. We have records of damaging floods on this river with monotonous regularity ever since the first Colonist arrived in New England. The worst of these floods in modern times occurred in 1936, with another in 1938. In the lobby I have some photographs of actual scenes in New Hampshire taken in those two floods. Many of you here today remember them and have vivid recollections of the tremendous damages and suffering. According to our records, the losses in the 1936 flood were about \$14,300,000 in New Hampshire and about \$21,700,000 in Massachusetts. Since that time the Merrimack Valley has been greatly developed. If the same flood were to recur today, we estimate that at 1957 prices the damages in the two states would be about \$153,000,000. We have done some flood control work since 1936. These existing works would reduce these damages about one half, but there would still be about \$20,000,000 damages in New Hampshire and about \$60,000,000 in Massachusetts. In addition to these property losses, several lives were lost in New Hampshire in 1936. With the recurrence of that flood the danger to life is purely conjectural, but the population of the basin has increased about 90,000 since 1936. I bring in these figures of the 1936 flood because it is familiar to this audience and because I wanted to illustrate the tremendous unsolved problem; those of us who are concerned about this problem are not

worrying about recurrence of the 1936 flood but rather about the probability of one which might make that flood look like a spring freshet. Within the last year and a half the people of the Merrimack Basin have had two warnings of far greater flood possibilities. The fact that neither of these threats actually materialized was entirely fortuitous; the Merrimack Basin was spared each time only by a quirk in the weather pattern. The first of these warnings was the Diane storm of August 1955. Since some people present may not have had an opportunity to see what happened, I have here a chart to show you what happened during the so-called Diane flood. The pattern of the storm was a big ellipse; its east and west axis was about 150 miles long and coincided roughly with the Massachusetts and Connecticut border. The north and south axis was about 60 to 75 miles and was roughly up and down the Connecticut River. The heaviest rainfall was 19 inches, the average was 12 to 14. Ordinarily, when records in any field of activity are broken, the previous one is shaded a trifle. Hurricane Diane was no trifling shader; some of the stream flows were four times anything previously recorded.

It is almost impossible to describe what happened in August. First the brooks, then the little streams, then the rivers roared down. As they came they grabbed up everything in their path, and eventually the towns downstream were bombarded by wrecked houses, whole lumber yards, gasoline tank trailers, and in a couple of cases by railroad boxcars. The destruction was almost complete. Highway bridges, railroad bridges, railroads and roads, water systems, sewage plants, homes, factories, and practically everything else within the water's reach were swept away. The Diane storm caused America's greatest property disaster.

Now engineers like to speculate what would happen IF, so we have moved, mentally of course, the Diane storm a little bit further in the direction it was going. This storm was moving in a general northeast direction when it decided to stop, swing a little bit to the south, and deluge Massachusetts and Connecticut. What made that storm stop where it did is a matter of the purest speculation; nobody knows and your guess is as good as mine. If it had not stopped, however, and had moved about 100 miles further in the direction it was going before it stopped, it would have been over New Hampshire, and the Merrimack Basin would have gone down the

drain. Here is a second map, shaded to show a very probable destruction had the storm not stopped where it did. In the Diane storm, there were two big peaks of rainfall. The first one was near the Massachusetts-Connecticut line just north of Torrington, Connecticut. On the transposed storm, this peak can be seen near Weare. Heavy rainfall would have occurred over the headwaters of the Piscataquog and Contoocook Rivers. The second peak of the Diane storm was west of Worcester, and on this transposed map, it shows over Bristol, New Hampshire, near Newfound Lake. This second peak had a maximum rainfall in excess of 17 inches and runoff was more than 12 inches in many locations. With the transposed storm, we can expect that more than 10 inches of runoff would be flowing down the Pemigewasset River to fill the Franklin Falls Reservoir. Similarly, 10 to 12 inches of runoff would have flowed down the Contoocook River. The Edward MacDowell flood control reservoir would have been filled with some spillway flow, the Blackwater flood control reservoir would have gone over the spillway, and with less than 3 inches of capacity at the Franklin Falls flood control reservoir its spillway too would have gone into action.

The Diane flood, transposed to New Hampshire, would have caused tremendous damages on the Merrimack. The low-lying areas in Concord, Nashua, Manchester, and the communities in Massachusetts would have been flooded. The velocities and surges of the water would have been tremendous. Last August in Connecticut much of the damage was done by floating debris and these tremendous velocities. I am inclined to doubt that structures in the Merrimack Basin would have fared any better than did those in Connecticut.

So much for the Diane storm, the first of the two warnings I talked about. The second warning came in the three tremendously heavy snowfalls late last March. In anticipating flood problems resulting from snow accumulations, we engineers are not particularly concerned with the amount of snow; we are very much concerned, however, with the water content of that snow. I have here a chart which shows water content in the snow as of March 9, 1936. As you can see, the water content was from 2 to 5 inches over the majority of the basin with greater quantities in the extreme upper end. The 1936 storm was caused by this water content plus two exceptional rain storms. The first of these rainstorms melted

the snow from the lower basin but in the upper basin, all the rain did was to add to the water content of the snow cover. The second rain occurred after the 20th, some of it ran off rather quickly, the rest of it went to melt the tremendous snowcover, and the Merrimack Basin went down the drain.

Here is a second map showing the water content which existed in the snow cover as of March 20 of last year. These figures on this chart were after the second of our three spring snowstorms but before the third. The potential flood conditions were much greater last spring than they were in 1936. Again engineers like to speculate what would happen IF; if that third storm had been a rain instead of a snowstorm, and if it had been followed, as in 1936, by a second rainstorm, the Merrimack Basin would have again gone down the drain. I am not trying to frighten you with idle rumors, these are actual facts. All we could do was hope, and I for one had my fingers crossed so hard that they hurt. Again the Merrimack was saved by a quirk in the weather pattern. Fortunately, we had ideal melting condition, and I might add much more fortunate than the time of the year would lead us to hope.

So much for the first part of my discussion, the problem of flood control on the Merrimack River. Now for some facts about solutions to flood control problems. I am not familiar with flood problems in other parts of the country; I am overly familiar, however, with the problems of New England, and some of the solutions so glibly and eloquently advanced by people far removed from New England or without a thorough knowledge of this problem are extremely dangerous, and that is phrasing it mildly. New England streams are vulnerable to flash floods of terrific intensity and there is no quick and easy solution. A hard fact of life is that floods in New England can be controlled only by the construction of flood control reservoirs of adequate capacity or by building concrete and earth dikes along the banks of the streams, or by a combination of these two methods. Concrete and earth dikes are good only where they are built and they are terrifically expensive. The flood control reservoir of adequate capacity has general benefits all the way down the stream. A combination of the two is usually the solution because control reservoirs can solve a large part of the problem all the way down the stream

and eliminate the need for the terrifically expensive walls except in critical locations.

There are many factors governing design and construction of flood control reservoirs, but I will simplify these down into three. These three are first, their location; second, their capacity; and third, the amount of the drainage basin controlled. First, their location: Obviously, they must be on the stream you are trying to control. One built in the next county doesn't have much value. Location is determined largely by the geography of the stream. Obviously, again, you shouldn't build them where they are going to flood out large residential developments or industrial facilities. Second, their capacity. In New England, long experience has shown us that we must get six to eight inches of runoff control from the drainage basin above the reservoir. Often we can't get this much. Third, area of basin controlled. The actual amount of the drainage basin to be controlled will vary from stream to stream according to a host of factors, but in general we should have control over from 20 to 30 percent of the drainage basin, and even more in exceptional circumstances.

So much for the engineering factors involved in flood control. I said a little while ago that the usual solution to a flood control program was the combination of control reservoirs and the protective walls and dikes. Obviously, there are any number of combinations of these two that would work. If you increase the capacity of the reservoirs, you can lower the height of the dikes; and conversely, if you decrease the capacity of the reservoirs, you must increase the height of the dikes. In determining the optimum balance between the two, we run up against some economic facts of life. The first of these is a fact of natural economics, and the second, for want of a better term, I will call legislative economics. I said earlier that the dikes were terrifically expensive and had a rather limited value, whereas the reservoir had benefits all the way down the stream. Without going into a great deal of discussion on the matter, I think you can see that it is possible to balance these factors back and forth and end up with the system which gives the greatest amount of protection at the least over-all cost. This is the natural economics. What I call the legislative economics comes in to the picture from precedents established by the Congress on the Federal flood control

program, and should be of concern to the local interests involved. Congress has decided in the past that the Federal government will finance 100 percent of the cost of flood control reservoirs of general benefit, but that in all projects involving the construction of flood walls and dikes of localized value, local interests must make a substantial contribution. As far as I know, there is no exception to this congressional requirement of substantial contributions from the people benefited by local projects. From this economic discussion, I would like to make two points about any system of flood protection involving both control reservoirs and local protective works; first, the natural economics of the problem indicate that the greater the part dikes and walls play in the system, the greater is the over-all cost; and second, the legislative economics dictate also that the greater the part the dikes and walls play, the greater will be the local contribution required.

A solution to the flood control problem in the Merrimack Basin will be the result of a joint effort by the Federal government, by the Commonwealth of Massachusetts, and by the State of New Hampshire. The Federal Government has been anxious to act on this problem for over a year. At the request of the six New England Governors, the President included in the budget last year the sum of \$600,000 to start the design on the authorized project in the Merrimack Basin. When this budget went to the Congress, I appeared before the committees of both Houses to testify on it. Congress has a rule that it will not appropriate funds for any flood control project which is not concurred in by the State in which located. I had to tell the committee that I could not possibly spend the money it wished to include in the appropriation bill because of the lack of this concurrence, which could only be given by the Legislature of New Hampshire. The Congress was very anxious to help on this New England flood situation. It eliminated, and I believe very reluctantly, the \$600,000 but did include \$50,000 in the hope that the project would be concurred in. We therefore have \$50,000 design money, but still cannot spend one cent of that money. The Commonwealth of Massachusetts has shown its desire to cooperate; Governor Herter suggested, and the General Court has passed, a proposed compact with the State of New Hampshire under which Massachusetts would pay New Hampshire for 70 percent of the tax losses occasioned

by the construction of control reservoirs in this State, including the tax losses on the three now built for which New Hampshire now picks up the entire tax loss bill. The 70%-30% split was based on the assumption that Hopkinton-Everett would be built. If it is not built, and assuming that a substitute system of smaller reservoirs could ever be authorized, then in fairness to Massachusetts the formula should be re-examined. I think in this event, Massachusetts' share would go down and the New Hampshire share would go up.

Now I would like to show you what the effect of Hopkinton-Everett would be. I have here a chart showing the normal flow line of the Merrimack through Nashua and what the flow line would have been had the Diane storm, as I discussed earlier, occurred over the Merrimack Basin. The uncontrolled level of that Diane storm is considerably over the highway bridge on U. S. 3 and the Nashua-Hudson Bridge. It is also about thirteen feet over the elevation of the present dike. We do have, however, the three reservoirs on the upstream tributaries on the Merrimack. My next chart shows the effect of these three existing reservoirs. The water level would still be over the highway bridge on U. S. 3, over the Nashua-Hudson Bridge, and about eight feet over the top of the dike. The next chart shows the effect of adding Hopkinton-Everett; that is the green line on the chart. As you can see, the addition of this flood control reservoir would bring the Diane flood down to under the two bridges and just about the elevation of the top of the existing dike. I have also shown on this chart the uncontrolled 1936 flood and the effect of the three reservoirs, plus Hopkinton-Everett, on reducing that one.

There is opposition to Hopkinton-Everett and that is probably the understatement of the month. I want to state briefly some of the statements advanced against it and then answer those statements. The first of these opposition statements can be paraphrased as "it can't happen here." This statement has been made to show that this project is not needed. My answer to that is that it has happened here and it can happen again. I will not guarantee that the Merrimack Valley will get another disastrous flood. I think very definitely, however, that a statement that it will NOT get another disastrous flood is in the category of "famous last words."

A second opposition statement can be paraphrased as follows: "Hopkinton-Everett will displace a large number of

people, destroy much valuable farm land and be a great blow to local economy." This statement tells only half the story.

It omits how many people will be benefited by flood control, how much unused land will become useful and the overall effect on the regional economy. These facts are:

1. About 50 commercial farms and 40 home use farms would be affected. These farms have a total of 2600 acres of which 1050 tillable, 750 pasture and 800 woodland. Woodland in the reservoir area including these farm wood lots, totals about 5500 acres. Except for the land at the very lowest elevations in one of the three reservoirs the land could remain in private ownership. The industries that would be removed total 6 (3 woodworking, 1 machine shop, 1 concrete block and 1 concrete burial vault.)

2. Downstream about 150 farms would be directly benefited and you are all familiar with the industry.

3. Within the reservoir area there now live about 500 people including about 200 summer residents. This is about 10 percent of the 1950 population of the four towns involved. Downstream the population directly benefited is about 90,000 and including all those indirectly affected, the total becomes 500,000.

4. The damages which would be prevented by this project if the 1936 flood were to recur next spring and the dam were complete and operating, would total \$40,000,000.

A third statement made in opposition to this project can be paraphrased as follows: "Hopkinton-Everett is too big." The total storage capacity involved in the Hopkinton-Everett project is roughly the same as that of the Franklin Falls Reservoir. Franklin Falls controls about 3" of runoff from a drainage area of 1,000 square miles. Hopkinton-Everett will control about 6 inches of runoff from a gross drainage area of 490 square miles. Considered from the standpoint of flood potential in the Lower Merrimack Basin, the Contoocook is more dangerous than the Pemigewasset. We have a perfect example of a flood control reservoir in the Surry Mountain Reservoir in New Hampshire, located by air about 32 miles from the site of Hopkinton-Everett. It controls a smaller drainage basin, but it has almost identical runoff capacity. In the 15 years since it was first placed in operation, we have operated it 45 times to control dangerous flood threats below it. On four of those occasions it has been filled to two-thirds

of its ultimate capacity. Frankly, I don't see how that reservoir could have been designed any smaller, and I don't see how Hopkinton-Everett could be designed any smaller.

Another opposition statement can be paraphrased: "A better solution would be to build a number of smaller reservoirs." In my opinion, this is wishful thinking. A system of small reservoirs to be equally as effective must control at least as much of the drainage area as would Hopkinton-Everett and they must control at least as much runoff as would Hopkinton-Everett. So when people talk about the system of smaller reservoirs, they should realize they are not talking about small ponds but of substantial structures. Let's just assume for the sake of discussion that Hopkinton-Everett was to be replaced by a system of 20 reservoirs. These would have to average about 7,000 acre feet each, and I think it would be impossible to find that number of sites which would control the same area of the drainage basin. Sure, they could be built way up on the headwaters of the tributaries, but then they would not control the drainage area. Another factor militating against a system of small reservoirs is the cold hard fact of economics. It may be unfortunate but it is nevertheless true that the cost of the reservoir per gallon of storage goes up as the capacity of the reservoir decreases.

Hopkinton-Everett is no new idea. The reservoir was first proposed in 1940 and the problem has been exhaustively studied many times since. All sorts of alternates to its construction have been considered. These studies have all shown that the alternates would cost more, would cause more dislocation of people and require more relocation of roads than would the Hopkinton-Everett project, and would have less benefits.

I have stated the problem; I have no intention of being an alarmist. I can only repeat that I think it is extremely serious. I have discussed factors, both engineering and economic, which influence the solution. In this I have tried to avoid either over or under emphasis. I have also tried to give you factual information about the Hopkinton-Everett project. Again, I hope I have been objective. If you have any questions, either on what I have said, or on points I have not covered, I will try to answer them.

On motion of Senator Holmes of District No. 12, the Convention rose.

 Forgive our feverish ways;
Reclothe us in our rightful mind,
In purer lives Thy service find,
 In deeper reverence, praise.

Take from our souls the strain and stress,
And let our ordered lives confess
 The beauty of Thy peace.”

O Lord our God, may we not be bowed down with burdens, crushed under committees, strained, breathless and hurried, panting through a never-ending program of appointments.

We know that if we are too busy to pray, then we are too busy. And may we not postpone until next week that deeper life of unshaken composure in Thy holy presence, where we sincerely know our true home is, for *this* week is much too full.

This we ask in Jesus' name. Amen.

Communication

January 31, 1957

The Honorable W. Douglas Scamman
Speaker of the New Hampshire House of Representatives
Concord, New Hampshire

DEAR MR. SPEAKER:

I am herewith submitting a copy of the Report on the Advisability of Integrating the Benefits of the New Hampshire Teachers' Retirement System with Federal Old Age and Survivors' Insurance Benefits as determined by the Special Study Committee acting upon authorization of the New Hampshire General Court of 1955.

May I at this time respectfully urge that, for the following reasons, this report be given your very early consideration:

1. You will note that the actuarial computations relate to July 1, 1957 as the proposed effective date of integration. Without attempting at this time to expound their thinking, the committee had valid and significant reasons for selecting this date.

2. A proposed act in support of the recommendation of this committee has already been drawn and the bill has been registered by title in the office of the Attorney General. The final draft of the bill will be available in the near future for your study and consideration. (A tentative form, as written prior to final review, is available now upon request.)

3. You are aware that federal law requires that, after the passage of such enabling legislation, before it can become effective, a referendum of the members must be taken not sooner than ninety days after due notice has been given.

4. Four thousand New Hampshire teachers, acting through their official policy-making body, the Assembly of Delegates of the New Hampshire Education Association, have

gone on record as favoring the recommendations of this committee and the passage of the supporting legislation.

5. The New Hampshire Education Association authorized the actuary to determine, at its expense, the effect of this proposal upon the members individually. Such information has been prepared and delivered to the teachers and a copy of the form of report is here enclosed.

I would summarize this information by stating that the Special Study Committee has caused legislation to be prepared which provides the methods of securing the benefits and advantages which are in accord with their findings and recommendations and which they deem are best adapted to the state and to the members of the system; that the teachers have been duly prepared and informed; that the teachers have acted in favor of the committee's recommendation; and that early action by the New Hampshire General Court will be necessary if a referendum is to be held prior to July 1, 1957.

As a representative of four thousand New Hampshire teachers, I feel a deep sense of appreciation and gratitude to the New Hampshire General Court of 1955 for authorizing the appointment of such a representative committee and for the appropriation of the funds that made this study possible.

Respectfully submitted,

IRENE W. HART

Chairman Special Study Committee
on Teachers' Retirement

The Speaker referred the above communication and report to the Committee on Education.

Almighty God, to whom we come with all our unanswered prayers and unfulfilled desires, give us of Thy spirit that we may learn of Thy love for us, and reclaim Thy promise for all who turn unto Thee.

Everloving God, who art never far from Thy children, we draw near to Thee that in fellowship with Thee we may receive Thy spirit. May the bonds of love and the ties of friendship be made stronger and sweeter through him who in his agony was not unmindful that we need one another's love.

O Thou strong tower, gird us with Thy power in the face of little temptations, that we may be true to Thee in the great struggles of life. We offer our prayer in the name of him who gave himself for us.

Everlasting Father, who lovest the world so much that Thou didst give Thine only begotten son; we thank Thee that all who believe in him never perish but have everlasting life. We praise Thee that thou hast not condemned the world, but hast brought us salvation through Jesus Christ our Lord.

Grant unto Thy servants here today strength and wisdom. This we pray in the name of the Lord, Jesus Christ. Amen.

Communication

February 6, 1957

The Honorable Douglas W. Scamman
Speaker of the House of Representatives
Representatives' Hall
State House
Concord, New Hampshire

DEAR MR. SPEAKER:

Section 3, Chapter 338, of the Laws of 1955, entitled "Economy in Personnel," authorized me to examine the "possibilities of achieving economy" in the use of personnel by state government.

As the result of this authorization, with the purpose of which I have wholeheartedly agreed, I engaged an experienced firm of analysts to review our entire personnel. This firm has submitted to me a summary report of its findings. This report I now refer to you with sufficient copies for the members of your two appropriating committees.

May I commend your 1955 session for the wisdom of its membership in thus proposing this examination. Government lacks the spur of the profit motive which drives private enterprise to sharpen its methods of doing business. Because of that lack, your state government has frequently engaged skilled professionals and interested New Hampshire citizens alike, to conduct that analysis.

I strongly believe it is in part because of this constantly repeated self-analysis of our governmental processes, to see that they remain thrifty, that New Hampshire compares so favorably with all other states in its modest tax structure.

All state departments were studied by the firm of analysts. The twenty initial reports were submitted both to me and to the individual departments. As might be expected, many of the recommendations to abolish positions, or to downgrade others, were opposed. Numerous conferences were therefore held, between the survey agency, the departments concerned, the Personnel Division, and my office, to see if the differences could be resolved.

Many differences were resolved, and action then taken to put the survey recommendations into effect. In many other instances, however, the proposals by the survey firm were not even then approved by the departments. In most such cases, I have adopted the proposals made and you will find the effect of this adoption in the budget detail being submitted to your committees. In still other instances, on the other hand, I found myself in agreement with the departments, and the survey suggestions were not adopted.

In government, more than is the case in business, we seek to avoid injury to incumbent employees. It is no fault of theirs that we may have decided their positions are not required by the State, or that their labor grades should be reduced. We have constantly sought, therefore, to delay action which will injure individuals insofar as possible. Such delay has for the most part been made possible by the normal course of turnover in state service. When positions to be abolished, or to be reclassified downward, become vacant, our practice has been simply not to fill them, or to fill them at the lower labor grade.

Not all the recommendations made would save money. Some new positions and some upward classifications were proposed. With some of these suggested I have agreed. With a few I have disagreed. Net savings which would result eventually from the recommendations for abolished and new positions, and from upward and downward reclassifications, were estimated by the survey firm to be \$282,460 annually. The summary report which I am submitting today shows in general the means by which these substantial economies would be attained.

An additional gain so far obtained from the personnel surveys has been our ability to use their factual information as an effective barrier against new position requests. The executive office now possesses practical knowledge of the needs for new positions which to a considerable degree it lacked previously.

The summary report differs in some respects from the twenty initial reports because of changes resulting from the intervening conferences. For that reason, and because of the considerable cost involved, we have not reproduced in quantity the twenty reports. However, a few typed copies of each interim report are available to you, and may be reproduced in such quantity and in such form as you desire.

My staff, the Personnel Division, the Business Supervisor, each of whom has reviewed all the reports, are available to assist you in understanding the individual recommendations in these reports.

I will sum up the action taken by me, to this date, on the recommendations, and the approximate savings or added cost involved:

Type of Action	Number Positions to which applied	Approximate Dollars		
		1957**	1958	1959
I. SAVINGS				
Positions abolished prior to budget consideration	26	\$71,539	\$73,489	\$75,439
New positions requested in budgets but denied	70	208,432	228,153
Existing positions in budgets, denied effective July 1	26	83,653	85,032
Positions reclassified downward, prior to budget action	15	5,433	4,212	3,359
Positions reclassified downward, in budget review	9	5,642	4,749
Totals		\$76,972	\$375,428	\$396,732

** The 1957 figures are the sums which would be saved, or expended, if on the basis of a full year.

Type of Action	Number to which Positions applied	Approximate Dollars		
		1957**	1958	1959
II. ADDED COST				
Positions added prior to budget consideration	5	\$14,330	\$15,426	\$16,097
Positions granted in budget* consideration	59	129,791	136,416
Positions reclassified upwards prior to budget action	37	7,642	10,051	11,445
Positions reclassified upwards in budget review	3	979	1,037
Totals		\$21,972	\$156,247	\$165,005

* After deducting estimated cost (\$36,321 and \$37,687) for next two years for salaries of 15 temporary employees already filling some of these positions.

Savings resulting from the personnel survey cannot be fully estimated until the actual recoveries by the salary adjustment fund are noted. These have been as follows:

First three quarters, fiscal 1955	\$27,784
First three quarters, fiscal 1956	181,121
First two quarters, fiscal 1957	135,000

At the rate of recovery in the first half of fiscal 1957, it would seem reasonable to assume a total for the first three quarters of \$200,000. The fourth quarter savings are returned directly in the form of lapses, and do not appear in the salary adjustment fund. The very considerable increase in 1956 and 1957 in my judgment resulted for the most part from the much greater control in the last two years, during the personnel survey, of expenditures for salaries.

I want to emphasize that the net savings shown in these tables do not indicate all which you should expect to occur eventually. As I mentioned, it is our intent to injure as few incumbent employees as possible. As far as we can, we will delay both abolition and downward reclassification until vacancies due to turnover will permit such action to take place. Savings to the State should continue to result for many months to come. It will be my constant effort to achieve them to the maximum.

There are possibilities for still other savings. Included in the summary report being submitted to your committees are fifteen proposals which apply to the structure of some state departmental functions.

Sincerely,

LANE DWINELL

Joint Convention

Prayer was offered by the Chaplain.

Our heavenly Father, we thank Thee that today our whole nation unites in paying tribute to one whom we all dearly love. We thank Thee for the memory of Abraham Lincoln: for his moral courage, his understanding heart, his high resolve in all things always to be in Thy service.

We pray that something of this spirit may be present among us now, enabling us to seek the common good rather than to submit to group pressures. And may we see as clearly as he did that only right makes right, that only as we are in Thy service can we hope that our affairs will prosper.

We pray in Jesus' name. Amen.

Salute to the Flag

Mrs. Davis of Concord led the Convention in the salute to the flag.

Introduction of Guest Speaker

The Speaker introduced Dr. J. Duane Squires of New London, New Hampshire, Head of the History Department at Colby Junior College who addressed the Joint Convention as follows:

Mr. Speaker, Mr. President, Your Excellency, Gentlemen of the Council, Members of the General Court, Ladies and Gentlemen:

One hundred and forty-eight years ago today Abraham Lincoln was born in Kentucky. Ninety-six years ago yesterday, on Monday, February 11, 1861, President Elect Lincoln and his family left their home in Springfield, Illinois, for Washington. As he faced the four years of heavy executive

responsibility, Lincoln was strengthened by the thought that he had served in legislative halls for ten years. Four times he had been elected to the Illinois State Legislature, and once to the national House of Representatives.

It is with deep appreciation for your invitation to be here this morning that I address myself to the subject, "Abraham Lincoln and New Hampshire." Millions of words have been written and spoken about this immortal man, whose portrait adorns the walls of this very chamber. While it would be idle for me to believe that I can say anything entirely new, a review of certain facts which are known about Lincoln and his relationships to our State may be of interest to you. As you all realize, Abraham Lincoln was the sixteenth President of the United States. Bearing that number in mind, let me list for you sixteen ways in which he had connections with New Hampshire men and women, or with the institutional life of our State. I am not making a complete list, for the time does not permit.

1. In 1847-48, when serving his only term in the national House of Representatives, Abraham Lincoln began a life-long friendship with Congressman Amos Tuck of Exeter, who started his service in Congress at the same time as the new member from Illinois.

2. In the summer of 1856, New Hampshire's delegation to the national Republican Convention in Illinois, headed by this same Amos Tuck, voted on the first ballot for Abraham Lincoln as its candidate for Vice President of the United States.

3. In the autumn of 1859, Abraham Lincoln, choosing from all the preparatory schools in the nation, sent his oldest son, Robert Todd Lincoln, to Phillips Exeter Academy at Exeter, New Hampshire, for a year of study before the young man entered Harvard.

4. In March, 1860, as our distinguished New Hampshire jurist, Elwin L. Page, has lucidly shown, Abraham Lincoln made eloquent speeches in Concord, Manchester, Dover, and Exeter, convincing thousands of people in this State that he was a logical choice for the Presidency.

5. In May, 1860, New Hampshire was the first State on the roll call of the Republican National Convention, meeting

in Chicago, to give Abraham Lincoln the majority vote of its delegates.

During the campaign which followed, Candidate Lincoln became deeply attached to such New Hampshire men as Edward H. Rollins, George G. Fogg, John P. Hale, William E. Chandler, and Nehemiah G. Ordway.

6. In the spring of 1861, President Abraham Lincoln showed his deep appreciation of the loyalty of a native son of New Hampshire, John A. Dix, — born in Boscawen — by naming him a Major General in the U. S. Army.

7. In 1861, President Lincoln authorized two innovations in the science of warfare, both having relationship with New Hampshire. In June of that year, he recognized another native son of this State, T. S. C. Lowe, — born in Randolph — by making him head of the first Aeronautical Corps in American military history. Likewise, in the autumn of 1861 the President instigated the construction of the original iron-clad ship in the annals of the U. S. Navy, the "Monitor." A portion of the turret of this first iron-clad was fabricated by the Amoskeag Machine Shop of Manchester.

8. On July 2, 1862, President Abraham Lincoln signed the Agricultural College Land Grant Act. Under its terms the New Hampshire College of Agriculture and Mechanic Arts — now the University of New Hampshire — was founded by this General Court four years later.

9. In July, 1862, President Abraham Lincoln signed a bill sponsored by Senator Henry Wilson, then of Massachusetts but a native-born son of Farmington, New Hampshire, by which the Congressional Medal of Honor was created as the nation's highest award for valor.

10. On February 25, 1863, President Abraham Lincoln signed the first of the laws under which our present system of national banks began. To this day, the word "National" in a bank's title here in New Hampshire, as elsewhere in the nation, is a lasting reminder of Abraham Lincoln's financial acumen.

11. In August, 1863, President Abraham Lincoln sent his wife and their eldest son to the White Mountains of New Hampshire, as a help in Mrs. Lincoln's convalescence from a recent accident. His telegrams to her while she was in our State have been preserved.

12. In October, 1863, President Abraham Lincoln, at the urging of Sarah Josepha Hale, a native daughter of Newport, New Hampshire, proclaimed the first in what is now the annual national observance of Thanksgiving in the closing days of each November.

13. In January, 1864, New Hampshire was the first State in which Lincoln's supporters officially endorsed him for renomination and re-election, thus setting a precedent which swept the North.

14. In December, 1864, President Abraham Lincoln named Salmon P. Chase, born in Cornish, New Hampshire, as Chief Justice of the United States. Chase thus became the first of only two New Hampshire-born men ever to attain this distinguished position.

15. One of the handful of close friends permitted to visit the bedside of the President as he lay dying in the early morning of April 15, 1865, was Edward H. Rollins of Concord, who later represented our State on the funeral train to Illinois.

16. The two greatest sculptors of Abraham Lincoln from his death to the present were artists who were both intimately associated with New Hampshire: Augustus St. Gaudens, adopted son of Cornish; and Daniel Chester French, native son of Exeter. Two great statues of Lincoln by St. Gaudens are among the art treasures of Chicago. The majestic figure by French is at the heart of the Lincoln Memorial in Washington.

Such, ladies and gentlemen, are sixteen ways in which Abraham Lincoln during his public life had contacts with people or institutions in the Granite State. As I indicated before, there were still other connections, but time does not permit their discussion today. Enough has been said, I believe, to show you that New Hampshire has every reason to be proud of its many associations with him who became the sixteenth President of the United States. But the memories of such associations can be more than a matter of pride to us today. They can also be an inspiration to every one of you as law-makers and as members of the executive branch of our State government.

The statue of Freedom surmounting the dome of the national Capitol was erected there during the presidency of Abraham Lincoln. On December 2, 1863, it was placed in

position on what was then the highest man-made elevation in the capital city. Most of you have seen it with your own eyes. There it still stands, symbolic of the spirit and aspirations of the American people. Recollections of Lincoln's connections with New Hampshire are likewise symbolic. They can and should remind us all in this generation that democracy will be great only when ennobled by constructive and imaginative leadership like that of Abraham Lincoln.

On motion of Senator Humphreys of District No. 24 the Convention rose.

Supplemental Budget Message of Governor Lane Dwinell Delivered to the General Court on February 14, 1957

Mr. Speaker, Mr. President, Members of the General Court:

Your indulgence in receiving a second message on state budgetary matters within the period of three weeks is deeply appreciated. However, I believe that the proposals which I wish to lay before you this morning are of sufficient importance for me to discuss them with you personally.

While there seems to be no recent precedent for a supplemental budget message, there is a statutory recognition of the possible need for such a message contained in Section 9 of Chapter 9 of the Revised Statutes Annotated. This law, which has been long on the statute books of our State, provides that "the Governor shall transmit to the legislature supplemental estimates for such appropriations as in his judgment may be necessary on account of laws enacted after the transmission of the budget, or as he deems otherwise in the public interest." It is further provided that such a message shall include the reasons for their omission from the regular budget. The two-fold reasons for this omission were as follows:

First: It seemed highly desirable to me that a well-rounded proposal for appropriations within the framework of existing revenues be submitted to the General Court at the earliest possible date, in a genuine effort to expedite the business of this session.

Second: It was necessary that careful consideration be given to every reasonable proposal for the raising of such additional revenues as will be needed to support the supplemental appropriations contained in this budget.

As I stated in my previous message, there are certain areas in which the state government owes much more responsibility than it has been willing to admit. I referred particularly to the burden carried by the local property taxpayer, increased in recent years to a large extent by the steadily mounting costs of public education. I referred also to the state's responsibility to higher education, which was met only in part by the increased appropriations I have already recommended for the state university.

I now recommend total additional appropriations of \$1,536,000 for the next biennium for three specific purposes:

1. To further increase school equalization aid in the amount of \$737,000.
2. To further increase school building construction aid in the amount of \$407,000.
3. To provide an additional grant to the University of New Hampshire in the amount of \$392,000,

School Equalization Aid

The increased appropriation for school equalization aid for

needy school districts would make possible a reduction in the requirement for "local effort" from 14 mills to 13 mills.

In simpler terms this means a reduction from 14 dollars to 13 dollars per thousand of assessed valuation required from the local district to become eligible for state aid.

I believe this is urgently necessary, for several reasons:

Although equalized property valuations are rising throughout the state as a whole, many of our smaller towns which qualify for this type of aid are experiencing the smallest rate of increase in property valuations.

At the same time, these hard-pressed communities must compete with other districts in hiring teachers, and must somehow meet constantly rising prices of all services and commodities used in their school systems.

Overall costs of operating our public schools, excluding capital outlays, are climbing at the rate of ten percent per year. This reflects both the higher cost of educating an individual pupil and the rapid rise in school enrollments. Therefore, if the state is to provide a constant share of school operating costs, the amount of this basic foundation aid must be increased.

We cannot escape the facts of this situation. For the current 1956 tax year, 51 percent of all local property taxes must go to our schools.

Even with this proposed increase of equalization aid, the state would meet only about one-half of one percent more of operating local school costs this year than was the case in 1956. To my mind, we are bound to make this minimum effort on behalf of the property taxpayers, as well as for the benefit of our boys and girls now in school.

School Building Construction Aid

The increased appropriation for school building construction aid would make it possible to raise the state's contribution from 20% to 30% in the case of single school districts, and from 40% to 50% in the case of cooperative school districts.

As you are well aware, the 1955 General Court inaugurated for the first time in the history of New Hampshire a program of state aid for school building construction. So far, under this new plan, 132 districts have received aid on a total of 207 projects. Over 12 million dollars was budgeted by school

districts for projects under construction during the current year, and it is estimated that 14 million dollars in additional construction will be undertaken during the next biennium. Since this form of state assistance, unlike the equalization aid program, is available to every town or every city regardless of size or need, it is one of the best and most helpful ways in which, on a broad basis, the state can give some relief to the local property taxpayer.

If you approve the recommendations contained in this supplemental budget they will provide, when added to the appropriations contained in the regular budget, a total amount of \$4,752,000 in state aid to education, of which \$3,485,000 would be in the form of equalization aid and \$1,267,000 in the form of building aid. This total amount of nearly \$5,000,000 represents an increase of \$2,000,000 over the state aid provided by the 1955 legislature.

University of New Hampshire

In my previous budget message I clearly pointed out that I would have further recommendations for the state university. Let me review this situation with you.

The Trustees requested of me additional funds for the biennium in the amount of \$1,360,000. After eliminating certain fixed charges for debt retirement which the University officials now agree will not be needed during the next two years, this request was reduced to \$1,230,000.

The amount of \$680,000 provided in the regular budget, plus the \$392,000 recommended at this time, would offer sufficient funds so that the University could carry on its projected program for the next biennium without impairment. These funds would be adequate to cover the proposed salary increases for both instructional and other personnel.

In my judgment certain reasonable savings could be made outside the area of salaries to make it unnecessary for any tuition increase. Even if no savings or reductions in services were effected, the resulting tuition increase would not exceed \$25 annually even when applied only to those students who do not now receive scholarship aid.

I might mention that the State Board of Education voluntarily suggested tuition increases at our two teachers colleges to absorb half the increase in compensation for instructional personnel. It should also be pointed out that both in per capita

expenditures for higher education and in the percentage of general fund appropriations for higher education, New Hampshire ranks well above every other New England State, and well above the national average.

Proposals for Additional Revenue

After very careful consideration of many various possibilities for additional revenue to provide for the appropriations requested herewith, I expressly recommend the following legislation:

1. I propose an increase from 6 to 6½ per cent in the state's tax on pari-mutuel betting to produce an additional \$400,000.

2. I propose an increase for 15 to 20 per cent in the tax on cigarettes and other tobacco products to produce an additional \$1,200,000.

In considering various possible sources of additional revenue for these supplemental appropriations, it was apparent from the outset that there were two courses which could be followed: Either to seek new and untried forms of taxation, or consider reasonable increases in existing forms of taxation which have already proven their productivity and stability. It was equally obvious that the situation did not require the imposition of any massive new tax which would produce more revenue than the present situation demands.

While some of us may regret that the Constitution of New Hampshire does not allow the taxation of cigarettes at one rate and other tobacco products at a different rate, in my judgment the recommended increase in the rate of taxation for all tobacco products, including cigarettes, does not jeopardize our present competitive position with surrounding states. It offers a fair and equitable means of raising a good portion of the revenues necessary to support my proposals for increased expenditures in the field of education. It should be emphasized that there are proposals now pending in the legislatures of two bordering states for increases in the taxation of cigarettes by an amount at least equal to that which I now recommend to you. It should also be noted that in one of these states there is a proposal to initiate a tax on tobacco products other than cigarettes at a rate similar to our own.

May I emphatically state that the proposals contained in

this message, and in the legislation which will be introduced to implement these proposals, do not contemplate the earmarking of any special revenues for any specific appropriations. These proposed expenditures are vital to the welfare of our state, since they will not only increase the education advantages and opportunities of our youth of all ages, but will also relieve the mounting pressure of local property taxation. These recommendations for new revenues, while possibly unpopular to the degree that all taxes are unpopular, represent only a reasonable increase in already accepted forms of taxation. The consideration of these proposals should be with a view to the greatest good for the greatest number, for the welfare of our state as a whole, and should not be influenced by self interest or purely local implications.

In recent months I have been deeply impressed with the concern shown by people in all walks of life over the situation we now face, in our attempts to maintain high standards of public schooling and to provide higher educational opportunities for New Hampshire youth.

I share that concern. I believe that every member of this legislature shares it, and that in your deliberations on these supplementary budget proposals you will prove your right to the confidence placed in you by the people of our state.

On motion of Senator O'Brien of District No. 2 the Convention rose.

Communication

February 18, 1957

Hon. W. Douglas Scammon
Speaker of the House of Representatives
State House
Concord, N. H.

DEAR SIR:

The Governor and Council passed the following resolution at their meeting held February 14, 1957:

"RESOLUTION FOR GOVERNOR AND COUNCIL

Voted to submit to the General Court the plans as prepared by the Commission on Mental Health, for an in-patient mental hygiene clinic for children, without recommendation, these plans being estimated with the assistance of the Public Works Division to cost \$162,000 as a capital project, and the cost to operate these capital facilities, when constructed and in use, estimated by the Mental Health Commission at \$83,-338.94, in the first year."

We transmit herewith the plans as prepared by the Commission on Mental Health.

Very truly yours,

ROBERT L. STARK,
Deputy Secretary of State.

State of New Hampshire
Commission of Mental Health

Concord, N. H.
December 4, 1956

Governor Lane Dwinell and
Members of the Governor's Council
State House
Concord, New Hampshire

YOUR EXCELLENCY AND HONORABLE MEMBERS
OF THE COUNCIL:

In compliance with Chapter 328, Section 3, Laws of 1955, the Commission of Mental Health has prepared plans for an "In-Patient Mental Hygiene Clinic for Children" submitted herein.

You will recall that in the course of the last legislative session there was considerable divergence of opinion on the part of many groups interested in the welfare of children as to the type of service that an in-patient facility should provide. Study of these differing requirements has continued, and we have determined that the most children whose difficulties require an in-patient stay because of neuropsychiatric disease or reasonable suspicion of such disease, will benefit from intensive study and treatment over a short period, with follow-up supervision of a determined treatment regime to be carried on outside the unit and utilizing other facilities within the State that may be available for individual cases.

This program is medically oriented and will meet the recommendations of the Mental Health Committee of the State Society, as well as assisting with problems of the Industrial School, courts, and others. Definitive treatment will be possible with certain types of cases.

The unit is designated to provide flexibility in order to service children referred at any one time, with minimal regard to age or gender. Hence there are 15 beds in all, divided between single rooms and small dormitories, and between children's and adolescent's size. The staffing pattern anticipates about 10 patients in residence at any one time, with the expectation of short stays averaging perhaps four to six weeks.

Respectfully submitted,

JOHN R. McLANE, JR.,
Chairman.

The above letters and the plans referred to therein were referred by the Speaker to the Committee on Public Welfare and State Institutions.

O Lord, we need Thy power obtained through prayer, to solve problems, to decide issues and to do Thy will. But let us not imagine that this formal prayer can take the place of private prayer by each one present. May there rise now from every one here the silent prayer that seeks to know Thy will.

For Jesus' sake. Amen.

Honorable W. Douglas Scamman
Speaker of the House
House of Representatives
Concord, New Hampshire

DEAR REPRESENTATIVE SCAMMAN:

In accordance with Chapter 101 of the Revised Statutes Annotated, I am enclosing the third biennial report pertaining to the administration and operation of the Old Age and Survivors Insurance program for public employees in New Hampshire.

In the past, this report has been inserted in the Journal of the House of Representatives and may I solicit your cooperation in handling this submittal in the same manner.

Very truly yours,

JAMES J. BARRY,
Commissioner.

**Report to the 1957 Session of the General Court Concerning
the Administration of the Old Age and Survivors
Insurance Program for Public Employees
in New Hampshire.**

Growth of State-Local OASI Program

The past biennium was one of unprecedented growth for the state-local OASI program in New Hampshire due to the integration of the Employees Retirement System of New Hampshire with OASI after a favorable referendum held on December 21, 1955. All state employees are now covered by OASI as well as the employees of 140 of the political subdivisions which are members of the Employees Retirement System. The above figure includes all county employees.

The following comparison will illustrate the growth of the program in the past biennium:

FIGURE I

**Comparison of Membership and Contributions Into OASI
Program as of January 1, 1955 and January 1, 1957.**

	Jan. 1, 1955	Jan. 1, 1957
Number of Political Subdivisions	126	315
Quarterly Wages Subject to Contributions	\$890,714.88	\$7,391,724.47
Quarterly Wage Contributions	\$ 35,628.59	\$ 295,668.97
Number of Employees Reported	3,916	15,410
Number of State Employees Reported	0	6,310
Number of County Employees Reported	0	983

In 1955 there were 5 modifications to the federal-state agreement which resulted in 22 political subdivisions being newly covered by OASI while in 1956 all state employees and the employees of 169 more political subdivisions were covered as a result of 6 more modifications to the federal-state agreement.

An inspection of the above chart shows that your State Agency now receives quarterly wage reports from 2½ times as many political subdivisions reporting the wages of almost

4 times as many employees as it did on January 1, 1955. Your State Agency now forwards to the federal government well over one million dollars each year in wage contributions or over eight times as much as was forwarded in 1954.

Two school districts were deleted from the agreement during the last biennium because they were dissolved in order that cooperative school districts could be formed.

The Durham School District was deleted from the agreement but later was re-enrolled as part of the Oyster River Cooperative School District. The Colebrook Special School District was deleted from the agreement but was re-enrolled as part of the Colebrook School District.

Figure II illustrates the increase in the amount of wage contributions paid and the number of employees reported by quarters for all employees of the state and its participating political subdivisions.

Coverage of the Civilian Employees of the National Guard

In the report for the last biennium your State Agency described the problem of the civilian employees of the New Hampshire National Guard who were not considered state employees by the state nor as federal employees by the federal government. Consequently, they were covered by neither the Employees Retirement System nor by Civil Service Retirement.

The Department of Defense agreed to pay the employer's share of the Social Security tax on these employees if the state would permit them to be enrolled under the state-local OASI agreement. The 1955 Legislature passed Chapter 89 which specifically amended Chapter 101 of Revised Statutes Annotated, the state enabling act, to permit such coverage and subsequently Modification No. 18 to the state Social Security agreement was approved by the federal authorities resulting in OASI coverage for over 300 civilian employees of the N. H. National Guard.

Coverage of Professors and Administrators at University of New Hampshire Belonging to the Teachers Insurance and Annuity Association

When the employees of the University of New Hampshire were covered by OASI in 1951, a group of professors and administrators were not eligible because their positions were covered by the Teachers Insurance and Annuity Association. The 1954 Amendments to the Social Security Act made OASI coverage possible for members of existing retirement systems and the University petitioned Governor Gregg to authorize a referendum on OASI coverage for this group.

The plan provided that these employees were to retain their T.I.A.A. system without change and to have OASI coverage in addition.

Under a procedure established by Governor Gregg a referendum was conducted on January 4, 1955. Out of the 246 employees eligible to vote, 237 voted in favor of OASI and the entire group obtained OASI coverage by Modification No. 16 to the State Social Security agreement.

Coverage of State Employees

Early in 1955 the Legislature authorized an actuarial study by the R. P. Burroughs Company of Manchester, New

Hampshire on the integration of OASI with the Employees Retirement System of New Hampshire. The resultant plan which was given to the Legislature called for a reduction in the benefits and contribution rates of the Employees Retirement System with the addition of OASI coverage. The disability features of the Employees Retirement System were retained without alteration.

The Legislature accepted the Burroughs report and its features were made a part of Chapter 301 of the laws of 1955. It was also necessary to amend the state enabling act, Chapter 101 of R. S. A., in order for OASI coverage to be possible for state employees. These changes were included in Chapter 301 as well as a definite provision for optional exclusions from OASI coverage, which were recommended by your State Agency in its last biennial report. Chapter 301 became law on August 5, 1955 and all coverage groups approved after that date have services by emergency employees and by students for a college, school or university excluded. State officials elected by popular vote and state employees compensated on a fee basis were also excluded from coverage. Furthermore, all political subdivisions except those belonging to the Employees Retirement System could decide whether or not they wished to cover their elected officials and fee basis employees. The political subdivisions belonging to the Employees Retirement System had to cover these two classes of services.

A State Employees Referendum Committee was appointed by Governor Dwinell and the referendum was held on December 21, 1955. The absentee ballot method of voting was used. There were 3767 state employees eligible to vote and 2095 voted in favor of OASI and the resultant modification of the Employees Retirement System Modification No. 22 to the New Hampshire State Social Security agreement was approved by the federal authorities on June 30, 1956 but coverage was retroactive to January 1, 1955. As a result of this modification approximately 4300 permanent state employees and 2000 temporary state employees are now covered by OASI.

Coverage of Employees of Political Subdivisions Belonging to Employees Retirement System.

When the state employees voted in favor of OASI coverage, the Employees Retirement System was to be modified as of July 1, 1956, and it was necessary that referenda be

scheduled for the political subdivisions belonging to that retirement system to give them an opportunity to maintain their level of retirement benefits by voting for OASI coverage.

However, at that time the Employees Retirement System had 145 political subdivisions enrolled; 96 of these had active member employees eligible to vote in a referendum and 49 had no active member employees who could vote. Obtaining OASI coverage for this latter group of "inactive" political subdivisions posed a problem which was solved by grouping all inactive subdivisions with the county in which each is located for referendum purposes. Thus the vote of the eligible employees of each county would also cover the employees of these inactive political subdivisions. These inactive political subdivisions did not have the opportunity to withdraw from the Employees Retirement System and could not obtain OASI coverage on their own initiative by approving an article in the warrant at the annual meeting.

Governor Dwinell appointed a County and Municipal Referendum Committee and on January 20, 1956 the committee notified all employees of the active political subdivisions that referenda would be held on April 25, 1956 for all political subdivisions belonging to the Employees Retirement System on whether or not they wanted OASI coverage. Each political subdivision voted individually on this question with the inactive political subdivisions being grouped with the county in which each is located.

After the ballots were counted it was found that 92 political subdivisions voted in favor of OASI coverage and four voted against it, and as a result of this vote 140 political subdivisions were enrolled under OASI as follows: Eight cities, 10 counties, 16 towns, 4 precincts and districts, 64 school districts and 38 supervisory unions.

OASI coverage for these 140 political subdivisions was approved by the federal government on June 30, 1956 with coverage being retroactive to January 1, 1955. Approximately 3200 employees of the political subdivisions became covered by OASI as a result of these referenda, including about 1000 county employees.

One problem became evident in the course of conducting the referenda. Many policemen and firemen throughout the state were too old to be accepted as members of the N. H. Policemen's and Firemen's Retirement Systems when they be-

came municipal employees and so they were accepted as members of the Employees Retirement System with the other municipal employees. Since permanent policemen and firemen whose positions are covered by an existing retirement system are not eligible for OASI coverage regardless of age, these individuals were not eligible for OASI coverage even though the referenda conducted in their political subdivisions were affirmative. The state has guaranteed the members of the Employees Retirement System that no one's benefits will be reduced as a result of integration with OASI so a question exists as to whether the Employees Retirement System has been actually reduced for these policemen and firemen.

The State Agency is pointing out this problem with the hope that some action will be taken by the 1957 Legislature to remedy the situation. One solution would be for the N. H. Policemen's and Firemen's Retirement Systems to enroll these over-age policemen and firemen as members.

Administrative Problems

The rapid growth of the OASI program was not accompanied by any expansion in the staff delegated to administer the program. At the present time the following personnel are working on the program regularly besides the Commissioner of Public Welfare: (1) Supervisor of Recoveries and Social Security spends about one-half his working time on the program. The other half is spent working on the recovery aspects of the categorical assistance programs administered by the New Hampshire Department of Public Welfare. (2) One temporary clerk-stenographer II is assigned to the program on a full-time basis. (3) One Accountant I keeps the records on a part-time basis.

Your State Agency recommends that the position of the temporary clerk-stenographer II be made permanent. The cost of administering the program is paid by the state and those political subdivisions which are covered by OASI. This additional position is absolutely necessary to enable the state agency to comply with the numerous technical procedures.

The coverage of state and county employees and those of school supervisory unions resulted in many difficult coverage questions being referred to your State Agency for resolution. With the help of the Attorney-General's Department your State Agency resolved these problems and referred the an-

swers to all political subdivisions and state departments concerned.

Several Attorney-General opinions on retroactive coverage for temporary employees and on coverage of members of state boards and commissions were circulated to all state departments. Instructions for obtaining a Social Security account number were also distributed to all state departments.

Instructions detailing who should be covered were sent to all the political subdivisions belonging to the Employees Retirement System that voted in favor of OASI coverage and a special release was sent to each county answering the numerous coverage and reporting questions which were peculiar to county government.

Recommendations

(1) Proposed Amendments to Chapter 548 of Revised Statutes Annotated.

The Registers of Probate and their deputies are county officials but are paid a salary by the state. The Registers of Probate also receive income from fees, which are reported for Social Security purposes by the county. Their state salaries are reported by the State, which is contrary to Social Security regulations since they are county officials.

This situation might be remedied if the state paid the salary of each register and his deputy to the respective county treasurer for disbursement on the regular county payroll. The state should also turn over the necessary state's share of the OASI wage contributions payable on these salaries to the county so that this plan will not result in a higher OASI cost to the counties.

This procedure will allow each county to report the combined income (salary plus fees) for the register of probate each quarter up to the \$4200 maximum; there will not be dual reporting by the state and county for this position which now results in more than \$4200 being reported each year for all registers of probate. Until this practice is corrected, each register of probate in the state will pay OASI wage contributions on more than the \$4200 annual maximum.

(2) Amount Necessary for State's Share of OASI Wage Contributions for General Fund Departments.

Your State Agency estimates that the Legislature should appropriate \$330,000 for the next biennium to defray the em-

ployer's share of the Social Security contributions payable on employees of general fund departments. This estimate takes into account the increase in the OASI employer contribution rate from 2% to 2¼% effective January 1, 1957 and is based on the experience of the quarter ended September 30, 1956.

It should be expressly noted here that this estimate does not take into account any pay increase for state employees. In the event that state employees receive a pay increase, additional amounts for OASI employer wage contributions for general fund departments will be required since an employee's OASI wage contribution increases with his salary up to the \$4200 maximum.

(3) Amount Necessary for State's Share of Administering the State-Local OASI Program for Next Biennium, July 1, 1957 through June 30, 1959.

The cost of administering the state-local OASI program is borne by the participating political entities enrolled under the program on a percentage basis based on the amount of wage contributions which each is required to make to the State Agency.

For the last calendar year the rate has been reduced to .4% of the wage contributions payable during the year. Your State Agency bills the participating political entities every February for the preceding calendar year.

On the basis of the present membership of the state-local OASI program the estimated share of the administrative cost to be paid by the state is as follows for the next biennium:

July 1, 1957 — June 30, 1958 — \$3750

July 1, 1958 — June 30, 1959 — \$3750

The anticipated integration of the N. H. Teacher's Retirement System with OASI will reduce the above amounts by approximately \$1,000 per fiscal year.

Respectfully submitted,

JAMES J. BARRY, *Commissioner*
N. H. Department of Public Welfare.

Speaker of the House of Representatives
State House
Concord, New Hampshire

DEAR SIR:

Under the provisions of Chapter 368, Laws of 1955, the Council on Resources and Development was directed to undertake a study of the feasibility of multiple use of Lake Massabesic in the Auburn-Manchester Region. The Council has completed its duties under said chapter insofar as deemed possible and respectfully reports as follows:

- (1) On the advice of several competent engineering authorities, a full-scale comprehensive study of multiple use of Lake Massabesic and the surrounding land areas was not undertaken because of the insufficient (\$5,000) funds available.
- (2) In order to more definitely establish the cost of such a comprehensive study, a preliminary survey and investigation of probable cost was authorized by the Council in 1955. A copy of said preliminary survey is attached.
- (3) The results of the preliminary survey coupled with recent advices from a number of competent consultants indicate that a minimum appropriation of \$10,000 and more preferably an appropriation of \$15,000 would be required to complete the investigation outlined in Chapter 368, Laws of 1955.

Respectfully,

WILLIAM A. HEALY,

We are beginning to understand, our Father, that the things that are wrong with our world are the sum total of all the things that are wrong with us as individuals.

We pray, O Lord, that our democratic processes may be seen at their best in this time of testing. Let us all be guided not by emotion or ambition, but by calm conviction of what we know, deep in our hearts, is clearly right.

In the name of Christ our Lord. Amen.

Communication

STATE OF NEW HAMPSHIRE

Concord

Lane Dwinell
Governor

March 11, 1957

The Honorable W. Douglas Scamman
Speaker of the House of Representatives
State House
Concord, New Hampshire

DEAR MR. SPEAKER:

I am transmitting herewith my proposals for a capital budget for the biennium ending June 30, 1959. In addition to the draft legislation which would implement my proposals, I am including an explanatory statement together with detailed estimates and architects' drawings with respect to each individual proposal.

Sincerely yours,

LANE DWINELL.

**MESSAGE OF GOVERNOR LANE DWINELL
TRANSMITTING TO THE GENERAL COURT
PROPOSALS FOR A CAPITAL BUDGET****For the Biennium Ending June 30, 1959**

The preparation of a capital budget involves the responsibility of allocating available funds in a fair and equitable manner to all requesting departments and institutions. Many decisions have to be made, based on the available facts as to the need and justification of the individual project. These projects should fit into the complete overall need of not only the individual agency, but of the state as a whole. This I have endeavored to do by my allocation of projects most needed and the denial of other projects which in proper prospective can be deferred to another biennium.

The proposals in this capital budget total \$1,683,621 for amortization directly from the general fund. Of this amount, \$488,510 is for the Laconia State School and \$459,696 is for the State Hospital. An additional \$1,447,700 is proposed for self-liquidating projects for the Recreation Division and the Department of Education.

Consideration of any capital improvement program must be based not only on the initial cost but upon the annual operating expenses which will be incurred on a continuing basis. In my judgment, no capital program should be undertaken without a full realization of what the impact will be on future operating budgets. The most careful estimates which can be made at the present time indicate that the completion of facilities proposed in this budget will require annual operating costs of \$136,375, for the general fund projects and \$27,200 for the self-liquidating proposals, excluding debt service. The estimated amount required from the general fund for amortization and interest payments (on a 20-year basis at 3%) would average \$110,650 annually. An amount of \$95,200 per year is estimated as necessary for amortization of the self-amortizing projects.

The preparation and submission of this capital budget has been guided by the law pertaining thereto as passed in the 1955 legislature. This new law is quite different from any previous legislation covering this subject. It is believed that because of the law a more accurate capital budget is now being presented than heretofore. More is known about all projects, accurate costs are available for approved items and more detailed plans are available at this time than were ever available in the past for legislative study. I am pleased to present at this time, along with the budget, a book of accurate preliminary detailed plans and estimates covering both capital costs and also estimated costs of operation.

I have not undertaken this task unaided. Feeling the importance of the task required close scrutiny by others than myself, I requested reactivation of the Joint Boards of Control on October 22, 1956. This was accomplished and a report of their findings was submitted for my study and guidance. Reference to these conclusions is made in future paragraphs.

I feel it is important that you be aware of the various factors already enumerated as you consider the budget herewith transmitted. I also feel it is imperative that you know something of the thinking behind some of the allocations made to the various departments. It is for this reason that I turn now to brief discussion of the individual departments.

I. PROJECTS SUPPORTED BY GENERAL FUNDS

State Hospital

As in previous years, the capital budget needs of the Hospital fall into two broad categories; first, that of facilities for the direct use of patients, and, second, items concerned with the improvement of the physical plant. The most pressing and urgent need is to provide for infirmary care of the aged infirm and bedridden patient. This need is met by the renovation of existing bed space in the Walker Building to space suitable for the care of such patients.

It has been estimated that \$50,000 must be spent on the Hospital heating system in the next two to three years simply to keep it in operation. Even with such repairs the existing system is so over burdened that should one boiler become inoperative, the Hospital could not be maintained at normal temperatures during zero degree weather. Installation of one new boiler will correct this situation.

Of all items necessary to improvement of plant, the completion of sprinkler installation must receive first attention. I have recommended completion of sprinkler installation at the Hospital.

The Hospital administration is in agreement with the urgency of these three projects and has relinquished all other requests for the biennium in their favor.

Laconia State School

The most pressing need at Laconia is for additional bed space. Based on the judgment of the School authorities, this need appears to be for the older people at the institution. To alleviate this situation, I recommend the construction of a 112 bed geriatrics unit for the care of the older inmates, at an estimated cost of \$387,000. I further recognize the need for an improved dining area for the boys and girls in the Baker Building area. Other necessary improvements recommended are the re-wiring of five buildings; the partial paving of dirt roads on a scheduled program for completion over a period of years; improvement and addition to office space in the Blood Building; renovation and modernization of laundry facilities; and the installation of an out fall sewer.

Much attention has been given to the proposed facilities for the housing of defective delinquents. Based on the recom-

mentations of the Boards of Control, I feel it desirable to defer such a project until a survey of the entire mental health problem of the state can be completed. This survey was recommended by the Boards of Control and has my endorsement. Legislation is pending which would provide funds for such a study.

It should be noted that legislation enacted by your 1955 session provided a means of transferring defective delinquents from Laconia to another institution. There are bills now pending which would make it possible to further facilitate such transfers.

May I point out that during the period of nearly two years since the enactment of this law only thirteen transfers have been requested by the Trustees of the School, and of these twelve were actually made. At my direction the Division of Public Works and Highways has developed preliminary plans and estimates for buildings for defective delinquents to meet the requirements of the School authorities.

A building for 40 boys would cost \$293,000; a building for 20 girls \$200,000. I cannot justify an expenditure of \$493,000 in capital funds plus the additional operating costs which would be involved, at this time. Until I have received the recommendations of an impartial complete mental health survey as previously mentioned I have no basis for determining such things as (a) proper facility for the need, (b) proper location within the state of such facility, (c) size of facility, (d) impact on annual operating budget of such a facility. It is for these reasons that I feel it imperative that I follow the recommendations of the Boards of Control and maintain "status quo" as regards the defective delinquent situation at Laconia at least until such time as a mental health survey can be completed by an impartial competent organization. In the meantime, however, I have submitted to you accurate information on the cost of building these facilities, so that there would be no recurrence of the event of two years ago, when only \$100,000 was appropriated for a project costing several times that amount.

State Prison

Many needs of the Prison can be accomplished under the operating budget and were so requested at my suggestion.

The paramount need at the Prison appeared to be for new drying ovens in the plate shop of the Prison Industries. The existing ovens have been in use since 1932 and were at the time installed as used furniture drying ovens. The ovens are obsolete, inefficient and constitute a fire hazard because of their wooden construction. It is for these reasons that I recommend the installation of new ovens.

Old wooden cell block windows at the Prison are in poor condition and need replacing having been in use since 1878. Installation of new screen-type windows will improve security and reduce maintenance. I recommend one half of this project be accomplished this biennium.

Boiler repairs started during the last biennium were left unfinished due to lack of funds. I recommend only enough to complete the initial project. No further renovations are recommended at this time.

As at Laconia I have recommended a partial amount of resurfacing of roads as a start to a continuing program. Much discussion has evolved concerning renovation of a Prison farm barn. My recommendation is based on what an average New Hampshire farmer might do under similar circumstances.

Soldiers' Home

The installation of a storage tank for water for domestic use at this institution is a necessity. Breaks in the town water system endanger the Home's water supply. I have therefore recommended installation of such a tank as a necessity to the Home.

Sanatorium

The installation of fire doors, fire escapes and sprinkler systems for the Service and Administration buildings were requested. My recommendation is for sprinkler protection of the Service building only. This building is of wooden construction, contains a kitchen and houses employees and for this reason should be well protected against fire. The Administration building has no kitchen, and is of brick construction.

I have recommended needed and long-deferred repairs to the power plant and coal pocket. I do not recommend a requested conversion from coal to oil.

The need for a central dining and recreational room is recognized. However, I do not feel that the population trend

of the institution warrants further expansion of the physical plant. I have, therefore, recommended the renovation of existing space for a central dining and recreational area.

The approved installation of a dosage tank is based upon recommendations of the Health Department.

Industrial School

It is a statutory requirement that the Superintendent and Deputy Superintendent shall be provided full maintenance at state expense. Presently the only available space for a Deputy Superintendent is a small apartment not suitable for a man with children. It is for this reason that I recommend the construction of a new staff cottage at this institution.

Other projects requested and recommended are usual capital maintenance justified by the growth of this institution. The boiler conversion from coal to oil is approved to allow economical use of a standby coal boiler in conjunction with two existing oil installations.

Department of Administration and Control

This department is charged with responsibility for all capital improvements of the State House and Annex. Requested projects for a sprinkler system and a new floor and seats in Representatives' Hall are approved. Certain other projects are recommended as major betterments not possible of accomplishment with operating funds. Included in this category is the suggested conversion from manual to automatic operation of the elevators in the State House Annex, a project which will be actually self-liquidating through the saving of labor costs.

Planning and Development

At the New Hampshire Building at the Eastern States Exposition at Springfield, Mass. deferred maintenance has now become a major item and it is for this reason that I now recommend a thorough overhaul of this building.

Education

Keene Teachers' College — The request for a new classroom building at this institution is not recommended at this time. Use of existing facilities made available by new dormi-

tory construction has allowed for expansion of classroom space in old dormitories and has lessened the need at present for new classrooms.

The frozen food room requested will allow more efficient purchasing procedures by the School.

The electric line and transformers are needed to handle the additional load occasioned by the construction of the new vocational wing and other contemplated projects. Heating controls requested for two buildings are allowed as an economy measure.

Only part of the cost of the Bookstore is shown in the regular capital budget. Last June the college transferred \$12,000 of profits earned by the Bookstore since its inception in 1947 to the general funds of the state. I recommend that this amount now be made available to Keene in the form of a capital appropriation for construction of a combined bookstore and student cooperative. I further recommend that further appropriation as required be made as a self amortizing item to be repaid by the profits of the bookstore and rentals from the cooperative.

Plymouth Teachers' College — At Plymouth I recommend an appropriation for completion of a folding partition and music room in the new gymnasium; the complete utilization of Rounds Hall by renovation of unused space on the third floor to class rooms and offices; and in the interest of economy the installation of necessary heat controls and also the partial initiation of a lighting improvement program.

Technical Institutes — The major requests from these two institutions are for machinery needed for instructional purposes. Some machines which are less than \$5000 or of a temporary nature have been transferred to the operating budget. Construction work as a safety measure has been recommended as well as a small classroom project at the Portsmouth Institute.

State Library

The need for installation of book stacks in the basement is recognized. I recommend completion of one half the requested project in this biennium.

Other smaller projects requested by the Library were either denied or transferred to the operating budget.

Recreation Division

The requests of this division were submitted in two parts. This section of the budget deals with those projects that are not self-liquidating. My recommendations include rebuilding of Dams at Moose Brook, a well at Miller Park, improvement of Pillsbury Park and the rebuilding of Hampton Harbor Dock. The preservation of Wentworth Coolidge Mansion, the Daniel Webster Birthplace and the Franklin Pierce Homestead, all of which are considered historic sites, are certainly projects worthy of capital expenditure by our state.

Public Works

Previously charges made to using departments by Public Works for engineering and overhead services have been billed directly to the department concerned. Billing has not been done until completion of a project, thereby creating slow recoveries, confusion and occasionally a lack of funds in the departmental appropriations to cover Public Works charges. To alleviate this situation I have removed all such charges from the individual appropriations and have shown them as separate capital expense possible of direct transfer to the Public Works Operating Budget thereby eliminating not only confusion but bookkeeping processes involved in handling of funds from one state pocket to another. This should result in better understanding between the Division and the using departments and a more efficient overall program.

II. SELF LIQUIDATING PROJECTS.

In addition to the regular capital items, I make the following recommendations represented as capable of self amortizing.

Plymouth Teachers' College

According to projected enrollment figures present facilities will not be sufficient to accommodate student enrollment by 1960. The first step in expansion to meet this situation is the construction of a 150-man men's dormitory with apartments for 6 married couples. An estimate of annual income indicates a gross income of \$58,000 with operating expense of \$30,590. The net income is to be used toward liquidation of the bonds issued. I recommend this project on the information furnished by the School authorities.

Keene Teachers' College

This project was referred to in the regular capital budget as the bookstore and snack bar with a \$12,000 appropriation. Based on previous history (\$14,000 earned in 10 years) I feel justified in recommending the balance of \$15,000 as a self liquidating project.

Recreation Division

Projects contemplated by this division include an addition to the Valley station at Cannon; construction of a new lodge at Sunapee for "all year" use; installation of two new "T" bars, one at each of the two ski areas; construction of a facility on Peabody Slopes at Cannon involving utilization of an existing building, and the expansion of the Tent Camping facilities at several parks. The request for Tent Camping has been reduced by one-half as a project which should be accomplished over more than a two-year period. The development of the two recently acquired park sites on Lake Winnepesaukee is recommended by me for this biennium. The development of each site would be briefly as follows:

The Page property, the more easily developed, would be treated first. This would be primarily a day-use, waterfront park, featuring swimming and boating. In order to utilize the limited amount of land available, a meandering brook must be rechanneled, a jetty constructed, parking areas, utility buildings, landscaping and water and sewage provided.

The Kona Farm development envisions much larger multi-use state park. It includes extensive day-use, swimming, picnicking, boating facilities and a camping area of such size and attraction as to be a feature of this park and of the northeastern states. The projects on this forested area will necessitate a large amount of forest stand clean-up and improvement; construction of a $\frac{3}{4}$ -mile entrance road and extensive parking areas; the carving out from the timber a shore front of some 2500 feet to provide a beach. It would further include circulating campground roads and drives; and the clearing and grading of a minimum of 100 individual camp sites; a toilet building in the campground; toilet-dressing-shelter building for the beach and picnic areas; and sewage disposal systems for all units; and dock and marine.

Based on information supplied by the Division I recommend the above projects based on the assumption that bond

issues for mechanical structures will be of 15-year duration, those for buildings on a 20-year basis and issues for land improvements on a 25-year schedule of amortization.

Contrary to the regular capital budget procedure, all Public Works charges are included in the self amortizing project costs. This action assures recovery of such costs from the revenue of the departments concerned.

Report of Committee of Conference

The Committee of Conference, to whom was referred a Concurrent Resolution relating to a joint rule providing for an effective date of bills, reported the same with the following recommendations:

That the House recede from its position of non-concurrence, that the Senate recede from its position in adopting its amendment and that the House and Senate adopt the Rules of the 1955 session as the Rules of the 1957 session unless otherwise amended.

The eye of God looking before me, the ear of God listening for me,

The word of God speaking for me, the hand of God defending me,

The way of God stretching out before me, the shield of God protecting me, the hosts of God guarding me,

From the snares of demons, from the seduction of vice, from the wicked desires of my nature,

From every man who plots against me, near or far, alone or
with others.

Christ be with me, Christ be before me,

Christ be after me, Christ be within me,

Christ be beneath me, Christ be above me,

Christ be at my right hand,

Christ be at my left hand,

Christ be in the heart of every man who thinks of me, Christ
be in the mouth of every man who speaks of me,

Christ be in every eye that sees me,

Christ be in every ear that hears me.

In the name of the Father, and of the Son and of the Holy

Joint Convention

Prayer was offered by Guest Chaplain Rev. Albert D. Bolster of the First Baptist Church of Derry, N. H.

Our Eternal God and Heavenly Father, we come before Thee at the beginning of this legislative day.

Grant, we beseech Thee, Thy divine calmness and blessing upon the deliberations of this day. Give to those who have the responsibility for framing our laws Thy gracious wisdom. Help them to realize that wisdom belongeth unto Thee, and in the humble approach to Thyself, we receive right directions for our decisions. Give to all of us the repeated realization that we are finite and Thou art infinite.

We need to be led by Thee in framing new laws and interpreting old laws. Help each legislator to remember that he represents the people of his town as well as the state at large. We revel in our freedom, under God, but may we not use that freedom to excess, unmindful of others' rights and opinions.

Give moderation in our time, we beseech Thee, O God. Bless in their individual lives each law-maker as severally they continue on in this most sacred season of the Christian calendar. We ask all these requests, with the forgiveness of our sins, through Jesus Christ, our Lord. Amen.

Salute to the Flag

Miss Spollett of Hampstead led the Convention in the salute to the flag.

Wilt Thou remind them of the thousands of their fellow citizens — of the *people* — for whom they must legislate. Thou knowest the clamor of voices in their ears, forever trying to influence them. Amid all the pressures brought upon them, may they ever hear Thy still small voice and follow Thy guidance for the good of *all* the people, that Thy will may be done in this State, through these Thy servants. For Jesus' sake. Amen.

Joint Convention

Prayer was offered by Guest Chaplain, Reverend Albert B. Kettell of the East Congregational Church of Concord.

Gracious God, our Father, we recognize Thee as the source of all that makes our human lives worth while. We know that apart from Thee we can do nothing. Help us to realize too, that with Thee — with our lives open to the streams of love and light and power which Thou art continually sending toward us — we can accomplish great things for Thee and for our fellow men. Help us so to be receptive to Thee; and give to us not only of Thy light for our path, but also the courage to live by the light we already have, — to stand for the right as we understand it. So may Thy purposes for us all be brought nearer to fulfillment as we face the responsibilities which this day brings to us. Through Jesus Christ, our Lord. Amen.

(a) By adding at the end of line 56 of Section 2 and before Section 3 "Takes Effect" the following:

3. *Greyhound Racing*. Amend RSA by inserting after Chapter 285 the following new chapter:

Chapter 285-A

Greyhound Racing

285-A:1. *Limitation*. No part of this chapter shall be construed to apply to any racing whatever except greyhound races.

285-A:2. *Greyhound Racing Sinking Fund*. The state treasurer shall keep a separate account, to be known as the "Greyhound Racing Sinking Fund," to which shall be credited the tax on contributions to pari-mutuel pools, as provided for in this chapter, together with all fines, fees and forfeitures levied or obtained under the rules and regulations as established by the Commission. Said fund, after paying the expenses of collection thereof and all expenditures provided for herein, shall be allowed to accumulate, and no expenditures shall be made therefrom until and unless otherwise ordered and authorized by the General Court of 1959 or thereafter.

285-A:3. *Employees*. At least eighty-five per cent of the

persons employed by a person, association, or corporation conducting a greyhound racing plant under the provisions hereof shall have resided in this state for a period of not less than one year. The provisions of this section shall not apply to the construction of a greyhound racing plant or its equipment.

285-A:4. *Member of General Court.* No person, association, or corporation conducting a greyhound racing plant under the provisions hereof, nor the commission, shall employ at said greyhound racing plant, during the time in which the general court is in session, any person who is a member of said general court.

285-A:5. *Enforcement of Chapter.* It shall be the duty of the attorney-general with the aid of the solicitors of the several counties to enforce the provisions of this chapter upon notification from the commission of any violations thereof.

Racing Commission

285-A:6. *Established.* There shall be a state greyhound racing commission consisting of three members appointed by the governor with the advice and consent of the council. Not more than two members shall belong to the same political party. Each shall hold office for a term of three years and until his successor has been appointed and qualified. Any vacancy shall be filled for the unexpired term. One member shall be appointed as chairman and one as secretary. No member shall have any pecuniary interest in any racing or in the sale of pari-mutuel pools licensed hereunder.

285-A:7. *Office.* The commission shall have an office in Concord and during the time in which greyhound racing is conducted in the state may maintain branch offices elsewhere.

285-A:8. *Assistants.* The commission is authorized to employ such assistants and employees as it may deem necessary to provide adequate policing and to carry out the purposes hereof at such compensation on a per diem basis as the commission may prescribe, subject to the regulations of the state personnel commission. The commission shall specify the duties to be performed by its assistants and employees and it shall have authority, for cause, to terminate the em-

ployment of any member of its personnel, subject to the regulations of the state personnel commission. It shall be unlawful, however, for the commission to appoint to any position under its jurisdiction any state, county, city, or town official or employee, except police officers, whose total annual salary or compensation from said state, county, city, or town exceeds one thousand dollars.

285-A:9. *Compensation.* Each member of the commission shall receive a salary of two thousand dollars a year and his reasonable expenses, including transportation, incurred in the performance of his duties, to be audited and allowed by the governor and council.

285-A:10. *Disbursements.* The compensation of the commissioners, expenses of the commissioners, compensation of assistants and other necessary expenses of the commission, including suitable furniture, equipment, supplies, and office expense, shall be charged to and paid out of the funds received under the provisions hereof.

285-A:11. *Report of the Commission.* The commission shall make an annual report to the governor on or before the first day of February in each year, including therein an account of its actions, receipts derived under the provisions hereof, the practical effects of the application of this chapter, and any recommendation for legislation which the commission deems advisable.

285-A:12. *Rules and Regulations.* Said commission shall make rules and regulations for the holding, conducting and operating of all greyhound races for public exhibition and for the operation of greyhound race tracks on which any such races are held. No person, association or corporation shall conduct, hold or operate any greyhound races for public exhibition, at which pari-mutuel pools are sold, without a license from the commission. No such greyhound racing shall be permitted on Sunday.

285-A:13. *Supervision and Hearings.* The commission shall have the power to conduct hearings at which all matters pertaining to the administration of the affairs of the commission and all activities conducted under its jurisdiction may be investigated and determined and, under the hand of its

chairman, to issue subpoenas for the attendance of witnesses at such hearings. Any member of the commission may administer oaths and affirmations and may examine witnesses. Disobedience of such subpoenas or false swearing before the commission shall be attended with the same penalties as if such disobedience or false swearing occurred in an action in the superior court. The commission shall have the power and authority to regulate, supervise and check the making of pari-mutuel pools and the distributions therefrom. It shall have the further power and authority to investigate as to the direct and indirect ownership and control of any licensee, and any expense incurred by the commission in so doing shall be at the expense of such licensee or of the applicant for a license. Any party aggrieved by any final decision entered in proceedings before the commission may, within ten days after such decision is entered, appeal to the superior court in the same manner as parties aggrieved by a decision of a municipal court.

285-A:14. *Breeding of Greyhounds.* The commission shall encourage and promote the improvement of the breed of greyhounds in New Hampshire. It may accept donations of thoroughbred, standardbred, or other well-bred greyhounds by licensees or others to the state for this purpose. It may cooperate with and aid the officials of the University of New Hampshire in furthering this program.

(f) A statement of the assets and liabilities of the person, association, or corporation making such application.

(g) Such other information as the commission may require.

285-A:16. *Issuance of Licenses.* If the commission is satisfied that all the provisions hereof and the rules and regulations prescribed have been and will be complied with by the applicant, it may issue a license which shall expire on the thirty-first day of December. The license shall set forth the name of the licensee, the place where the greyhound races or race meets are to be held, and the time and number of days during which greyhound racing may be conducted by said licensee. Any license issued shall not be transferable nor assignable. Said commission shall have power to revoke any license for good cause upon reasonable notice and hearing. The commission may at any time for cause require the removal of any employee or official employed by any licensee hereunder. The license of any corporation shall automatically cease upon the change in ownership, legal or equitable, of fifty per cent or more of the voting stock of the corporation and the corporation shall not hold a greyhound race or meet for public exhibition without a new license.

285-A:17. *Bond of Licensee.* Every person, association, or corporation licensed under the provisions of the preceding sections hereof, shall, before said license is issued, give a bond to the state in such reasonable sum not exceeding fifty thousand dollars, as may be fixed by the commission, with a surety or sureties to be approved by the commission, conditioned to faithfully make the payments prescribed hereby and to keep its books and records and make reports as herein provided and to conduct its racing in conformity with this chapter and with the rules and regulations prescribed by the commission.

285-A:18. *Definitions.* Terms used in this chapter

shall, unless the context otherwise requires, be construed as follows:

(a) "Racing meeting" shall include every meeting within the state where greyhounds are raced and where any form of betting or wagering on the speed or ability of greyhounds shall be permitted, but shall not include any meeting where no such betting or wagering is permitted, even though greyhounds or their owners, are awarded certificates, ribbons, premiums, purses, prizes, or a portion of gate receipts for speed or ability shown.

285-A:19. *Rules of Racing.* Said commission shall have the power to make and adopt rules of racing, including regulations providing for the licensing, supervising, disciplining, suspending, fining and barring from greyhound racing on any greyhound tracks under the jurisdiction of the commission, of greyhounds, owners, breeders, authorized agents, sub-agents, nominators, trainers, and any other persons, organizations, associations or corporations, the activities of whom affect the conduct and operation of greyhound races at greyhound race tracks under the jurisdiction of the commission. At such greyhound tracks no persons shall enter a greyhound or participate in any greyhound race or meet as an owner, agent, nominator or trainer, within the state without having first procured from the commission a license so to act, and paying such fees as the commission may determine to be reasonable and proper therefor. Such licenses may be revoked by the commission at any time for cause.

285-A:20. *Stewards.* There shall be at least three stewards to supervise each greyhound race or meet, conducted under the provisions of this chapter, at which pari-mutuel pools are sold. One of such stewards shall be the official steward of the state racing commission, and the remaining stewards shall be appointed by the person, association or corporation conducting the race or meet, subject to the approval of the commission. Said stewards shall exercise such powers and perform such duties at each race as may be prescribed by the rules and regulations of the commission.

Pari Mutuel Pools, and Distribution of Tax Thereon

285-A:22. *Pari-Mutuel Pools.* Within the enclosure of any greyhound race track where is held a greyhound race or race meet licensed and conducted under this chapter, but not elsewhere, the sale of pari mutuel pools by the licensee under such regulations as may be prescribed by said commission is hereby permitted and authorized during the calendar years 1957 to 1966 inclusive. Commissions on such pools shall be uniform throughout the state at the rate of fifteen per cent of each dollar wagered, plus the odd cents of all redistribution to be based upon each dollar wagered exceeding a sum equal to the next lower multiple of ten, known as "breakage," one-half of which breakage shall be retained by the licensee and the balance shall be paid to the state treasurer for the use of the state in accordance with the provisions of section 2. Said maximum shall include the tax percentages hereinafter prescribed. For the purpose of the exception set forth in this section, an "agricultural fair" shall be deemed to be such an association as does provide for any pay premiums of five thousand dollars, or more, annually as is determined by the commissioner of agriculture in accordance with section 25 of this chapter.

285-A:23. *Tax.* Each person, association or corporation licensed to conduct a greyhound race or race meet under this chapter shall pay to the state treasurer a sum equal to the following percentages of the daily total contributions to all pari-mutuel pools conducted or made at any greyhound race or race meet for each day licensed hereunder. Three and one-half per cent of so much of the total amount deposited by

patrons so wagering at such meet as does not exceed seventy-five thousand dollars; five per cent of so much thereof as exceeds seventy-five thousand dollars but does not exceed one hundred ten thousand dollars; six per cent of so much thereof as exceeds one hundred ten thousand dollars but does not exceed one hundred forty thousand dollars; seven per cent of so much thereof as exceeds one hundred forty thousand dollars but does not exceed two hundred fifty thousand dollars; eight and one-quarter per cent of so much thereof as exceeds two hundred fifty thousand dollars but does not exceed three hundred seventy-five thousand dollars; eight and three-quarters per cent of so much thereof as exceeds three hundred seventy-five thousand dollars. Of the amounts so paid to the state treasurer, a sum equal to ninety-five per cent of said total contributions shall be distributed in accordance with the provisions of section 2 of this chapter, and a sum equal to five per cent of said total contributions shall be expended for the promotion of agriculture in the state under the direction of the commissioner of agriculture.

Each person, association or corporation licensed to conduct a greyhound race or race meet under this chapter shall also pay to the city or town treasurer in which the racing plant is located the sum of three hundred dollars for each day of racing, provided said person, association, or corporation has a license to conduct races or race meets for more than eight days during the year for which the license is issued. If said person, association, or corporation has a license to conduct races or race meets for eight days or less, the said per diem fee shall be determined by the commission.

285-A:24. *Payment.* Payments under the preceding section shall be made not later than seven days after each race and shall be accompanied by a report under oath showing the total of all said contributions to pari-mutuel pools covered by such report and such other information as the commission may require.

285-A:25. *Distribution to Agricultural Fairs.* The portion of the tax on pari mutuel pools to be distributed for the promotion of agriculture, as provided in section 23 hereof, shall be distributed by the commissioner of agriculture in accordance with the following plan as to all agricultural fairs

holding yearly exhibitions in the state and paying premiums of five hundred dollars or more annually. Each year a payment of one hundred dollars shall be paid to all such agricultural fairs. The balance of said fund shall be distributed pro rata to said fairs based on the amount of competitive or educational agricultural premiums paid in the preceding calendar year by said fair. In determining the premiums paid the commissioner shall take into consideration the premiums paid for contests, exhibits or displays of domestic livestock, household products, farm crops, and those made by 4-H clubs or other similar groups.

285-A:26. *Reports as to Basis of Distribution.* The commissioner of agriculture shall make such reasonable rules and regulations relative to the reports of premiums as he may deem necessary to enable him to determine the pro rata distributions to be made of the sums hereinbefore provided.

285-A:27. *Audit by Tax Commission of Accounts of Agricultural Fairs.* The tax commission shall annually at the cost and expense of each such fair audit all accounts of fairs receiving money under the provisions of this chapter, and the report of each such audit, when completed, shall be submitted to the president, treasurer and clerk of each fair so audited.

285-A:28. *Report of Audit.* A report of each audit shall be made to the commissioner of agriculture by the tax commission and shall be available to the public.

285-A:29. *Records for Purpose of Audit.* Each such fair shall use the calendar year as its fiscal year and shall keep such books, records and reports of its fiscal officers and follow such reasonable accounting methods as may be, from time to time, prescribed by the tax commission which is hereby authorized to require the production of all such books, records, vouchers and other papers and documents as will enable it to make a full, accurate and complete audit. All such records shall be preserved for three years following the date of said audit.

285-A:30. *Failure to Keep Records.* The failure to keep such books, records and papers and follow such approved methods shall be considered sufficient cause for the commissioner of agriculture to withhold the distribution of funds provided for hereunder to the fair or fairs otherwise entitled

thereto until such books, records and papers are made available for audit and such audit made. Any funds remaining in the hands of the commissioner of agriculture which are not distributed because of continued failure to comply with the provisions of section 29 hereof, shall be distributed after a period of one year, to the fairs which complied with the provisions of said section for the year in question.

285-A:31. *Unclaimed Ticket Money.* On or before the first Monday in December of each year, every person, association, or corporation conducting a greyhound race or race meet hereunder, shall pay to the state treasurer all monies collected during the year for pari-mutuel pool tickets which have not been redeemed. The books or records which clearly show the tickets entitled to reimbursement in any given race shall be forwarded to the commission. Said monies shall be retained by the state treasurer and he shall pay the amount due on any ticket to the holder thereof upon an order from the commission. After the expiration of three years, any or all such monies still in the custody of the state treasurer shall become a part of the Greyhound Racing Sinking Fund as provided in section 2.

285-A:32. *Records of Receipts.* Every person, association or corporation conducting a greyhound race or race meet hereunder shall so keep its books and records as to clearly show the total number of admissions and the total amount of money contributed to every pari-mutuel pool on each race separately and the amount of money received daily from admission fees, and within sixty days after the conclusion of every race meeting shall submit to the commission a complete audit of its accounts, certified by a public accountant qualified to practice in the state and approved by the commission.

285-A:33. *Minors.* No minors, whether attending a race or employed in any manner on or about a race track, shall be permitted to participate in any pari-mutuel pool or be admitted to any pari-mutuel enclosure.

285-A:34. *Effect on Other Laws.* Sections 1 to 4 of chapter 338, RSA, shall not apply to pari-mutuel pools provided for herein.

False Entries; Names of Greyhounds

285-A:35. *False Entry.* No person shall knowingly enter or cause to be entered for competition, or knowingly compete with, any greyhound under any other than its true name, or out of its proper class, for any purse, prize, premium, stake or sweepstakes offered to the winner of a contest of speed.

285-A:36. *Name.* The name of any greyhound, for the purpose of entry for competition or performance in any contest of speed, shall be the name under which said greyhound has publicly performed, and shall not be changed, except as provided by the code of printed rules of the society or association under which the contest is advertised to be conducted.

285-A:37. *Penalty.* Any person violating any provision of sections 35 or 36 shall be imprisoned not more than three years, or fined not less than one hundred nor more than one thousand dollars.

Tampering with Greyhounds

285-A:38. *Malicious Interference with Greyhounds.* Any person who wilfully or maliciously attempts to or does interfere with, tamper with, injure, or destroy by the use of narcotics, drugs, stimulants, or appliances of any kind any greyhound used for the purpose of racing, whether such greyhound be the property of such person or another, or who wilfully or maliciously causes, instigates, counsels, or in any way aids or abets any such interference, tampering, injury, or destruction shall, upon conviction, be fined not more than five thousand dollars or imprisoned for not more than three years or both, in the discretion of the court, and the owner of any greyhound engaged in racing within this state that is found to have been stimulated or doped, or any entry of which such greyhound is a part, shall be denied any part of the purse offered for such race, and the purse shall be distributed as in the case of a disqualification.

285-A:39. *Approval of Location.* No license for a racing meeting shall be granted by the commission for greyhound racing in any city or town in the state unless the location of the race track where such meeting is to be held or races conducted has been once approved by the mayor and aldermen of said city or the selectmen of said town.

Constitutionality

285-A:40. *Constitutionality.* If any provision of this chapter, or the application thereof to any person, association, corporation or circumstances, is held invalid, the remainder of the chapter and the application of such provisions to other persons, associations, corporations or circumstances shall not be affected thereby.

(b) By changing Section 3 of House Bill No. 50 to Section 4 "Takes Effect" so that same shall read:

4. *Takes Effect.* Notwithstanding any other provision of law, this act shall take effect upon its passage.

The Clerk began to read the amendment.

Point of Order

The Chair recognized Mr. Pillsbury of Manchester who requested that the Chair rule on the germaneness of the amendment offered by Mr. Angus of Claremont.

Speaker's Ruling

The Speaker ruled that the amendment offered by Mr. Angus of Claremont was not germane to House Bill No. 50, now under consideration, stating that House Bill No. 50 deals solely with the percentage of take and division thereof of pari-mutuel betting pools at horse races while the proposed amendment legalizes an entirely different form of pari-mutuel betting.

The question now being, Shall House Bill No. 50 be read a third time?

On a *viva voce* vote the bill was ordered to a third reading.

Mr. Pickett of Keene moved that the rules be so far suspended as to permit House Bill No. 50 to be put on third reading and final passage at the present time by title only.

On a *viva voce* vote the motion prevailed.

Third Reading

House Bill No. 50, An Act relating to pari-mutuel pools was read a third time and passed, and sent to the Senate for concurrence.

Mr. Kearns of Manchester moved that the House reconsider its vote whereby it passed House Bill No. 50, An Act relating to pari-mutuel pools.

On a *viva voce* vote the motion to reconsider did not prevail.

Resolved, That the Clerk of the House transmit to Mr. Simonds a copy of these resolutions.

On a *viva voce* vote the resolution was unanimously adopted.

On motion of Mr. Pickett of Keene the rules were so far suspended as to permit business in order at 3:00 o'clock this afternoon to be in order at the present time, that third reading of bills be by title only, and when the House adjourns today it be to meet tomorrow at 11:00 o'clock.

Third Reading

The following bill was read a third time, passed, and sent to the Senate for concurrence.

House Bill No. 330, An Act relative to balloting for town manager.

Our Heavenly Father, we invoke Thy blessing upon this assembly gathered here for the purpose of guiding the affairs of our State in matters that influence the way of life for all citizens who dwell within its borders.

Endow these men and women with a true sense of their responsibilities and grant them a vision of the great things which can be accomplished when they seek the guidance of Thy wisdom and the blessings of Thy Spirit — for when we have faith in Thee, we have confidence in ourselves; when we rely upon the source of Thy power, we have a strength that can move mountains; and when we seek to do Thy will, we accomplish far more than the goals toward which our own poor powers of human endeavor dare aspire after.

Help us all to prove ourselves worthy servants of Thine.
Amen.

Lord Jesus, who didst fill three short years with the revelation of all eternity, wilt Thou help us to make every minute count, delivering us from wasting time and teaching us how

to use it wisely and well. But let us remember, O Lord, that Thou wast never in a hurry. We pray this morning that Thou wilt slow us down, for we know that we live too fast. If we are to burn ourselves out, may it be in causes worth dying for. With all of eternity before us, wilt Thou slow us down that we may take time to think, time to pray and time to find out Thy will. Then give us the sense and the courage to do it, for the good of our people. Through Jesus Christ our Lord. Amen.

Salute to the Flag

Mrs. Dawson of Milton led the Convention in the salute to the flag.

Parliamentary Inquiry

Mr. Healey of Manchester, Ward 6, asked the Speaker for a ruling on whether or not the pending motion to take up reconsideration of House Bill No. 299, An Act relative to benefits under policemen's retirement system, at the present time was in order.

Speaker's Ruling

Under Rule 30 of the House any member voting with the majority may move to reconsider any vote passed by the House providing the motion is made or notice of intention to do so is given on the day such vote is passed, or during the first half hour of the next succeeding legislative day. A motion

to reconsider offered within the time prescribed by Rule 30 takes precedence over a notice of future reconsideration.

Any member serving notice of reconsideration shall have exclusive control of said motion after the expiration of this time, provided however, that upon proper motion made by any member voting with the majority and an affirmative vote of the House, the motion shall then be in possession of the House. If such were not the case, a single member could, in effect, kill a bill simply by serving notice of his intention to move for reconsideration and then failing to execute his intention. In all cases, as in the present case, where the vote sought to be considered is a *viva voce* vote or a division vote, all members of the House are presumed to have voted with the majority. For the reasons cited above, the Chair rules that the motion offered by the member from Moultonborough is in order.

The question being on the motion to take up reconsideration at the present time.

Mr. Healey of Manchester spoke against the motion.

Special Order

Concurrent Resolution

Whereas, through federal grant in aid programs the federal government by extravagant and unnecessary spending is forcing New Hampshire also to spend extravagantly to match and thus obtain back part of its own money, and

Whereas, New Hampshire citizens pay income taxes which go to Washington and are returned in part to New Hampshire under federal grant in aid programs in amounts reduced by bureaucratic overhead, creating the false impression that the state is getting something for nothing, and

Whereas, in returning funds to New Hampshire the federal government ties strings to the use of these funds which interfere with local government, complicates the enactment of state legislation and forces the state to spend in fields it believes unwarranted, and

Whereas, it is common knowledge that local projects financed in part by federal funds usually cost excessively because of unnecessary federal requirements, and

Whereas, the New Hampshire Legislature feels that its citizens know better than the federal government how to spend the citizens' money and that local governments are more capable and efficient than the federal government in managing local programs, now, therefore be it

Resolved by the members of the New Hampshire Legislature in the 1957 session assembled:

1. That the federal government refrain from enacting new grant aid programs and re-examine all such existing programs and end or reduce their costs wherever possible.

2. That copies of this resolution be transmitted to the President of the United States, Vice President of the United States as President of the Senate of the United States, to the

Speaker of the House of Representatives of the United States, and to each member from New Hampshire in the Senate of the United States and in the House of Representatives of the United States.

3. That copies of this resolution be transmitted to the presiding officers of the Legislature of the other forty-seven states for their information and consideration by the Clerks of the Senate and House of Representatives of the State of New Hampshire.

The foregoing message and concurrent resolution were referred to the Committee on Executive Departments and Administration.

Mr. McMeekin of Haverhill, on behalf of the Rules Committee, offered the following resolution:

Whereas Quill magazine, published by Sigma Delta Chi, a professional journalistic fraternity, has reported a survey showing that New Hampshire leads the nation in having the best reported Legislature, and

Whereas this is appreciated as a tribute to our New Hampshire democracy, which we cherish, be it resolved that an editorial on the subject in the Concord Daily Monitor be reprinted in our Journal, for the record, as follows:

Coverage of the Legislature

The magazine Quill, published by Sigma Delta Chi, a professional journalistic fraternity, currently carries a new story on news coverage of legislatures in which New Hampshire is the state which leads all the rest.

The article is done by Paul Simon, a newspaper publisher and legislator in Illinois, who got his state by state appraisal of newspaper coverage from a sample balloting of members of the several legislatures picked at random on a non-partisan basis.

Simon set the figure 5 as excellent in making up a rating table for comparison of the states, and New Hampshire achieved a mark of 4.71 to tie for first place with Utah. The other states ranged down to Delaware, where the coverage got a rating of only 1.33.

The comment on New Hampshire in Simon's article reads: "In New Hampshire all (members of the legislature) checked honest reporting except one solon who checked both categories. Committee coverage did not rate high, only one calling it good

and one checking both 'seldom' and 'good.' There were complaints about a lack of radio and TV coverage. A Senator was very critical of weekly newspapers, an opinion voiced in many states."

Simon warns that his ratings must be used with considerable caution. In many cases, he says, the lack of hostility may indicate that newspapers are not doing what they should. However, he adds, from the comments which accompanied almost half of the questionnaires returned, it seems clear there are real deficiencies in some states.

Legislative coverage in New Hampshire by newspapers is handled by the principal dailies with one full time reporter on the job, plus aid from other reporters and from press association reporters when the legislative calendar gets crowded. The biggest problem is coverage of hearings, of which there may be many going on simultaneously, with so large a legislature with so many committees, and so many bills and resolutions to be heard.

To those members of the New Hampshire legislature who responded to Simon's questionnaire, the regular legislative reporters of New Hampshire newspapers appear to be fairly popular. They also appear to be considered individually honest, though one solon indicated somebody in the press corps was not considered honest.

The state by state survey disclosed an amazing number of states where legislative committees do not customarily hold open hearings. There was no such complaint in New Hampshire. Of course legislative coverage cannot be good where the committees always meet in executive session.

For the nation, too, legislators feel that reporters mostly would not accept a bribe, and that they are more honest than the members of the legislature, according to Simon.

Where the legislators feel that legislative news is "slanted" they most often place the blame upon the publisher and not upon the reporter.

The Quill article should make Leon Anderson of the Monitor and Frank O'Neil of the Union-Leader feel pretty good. They are the principal constant reporters of legislative doings. Anderson, in addition to his news stories, writes much of legislative affairs in his daily column, "The State Is My Beat," and O'Neil also writes a column, though not on an every day basis, besides writing news stories.

In their columns, as distinct from news stories, these two express personal opinions, yet members of the New Hampshire legislature do not condemn them for this, even though the members may not be in agreement with such opinions.

It is possible to cover the New Hampshire legislature even more fully than is done, but the public interest in such fuller coverage is questionable. The more important committee hearings are covered, and all legislative news is to some extent condensed rather than being verbatim. On the whole, as the Simon survey concluded, the legislature here is covered reasonably well.

On a *viva voce* vote the resolution was adopted.

On motion of Mr. Pickett of Keene the rules were so far suspended as to permit business in order at 3:00 o'clock this afternoon to be in order at the present time; that third reading of bills be by title only and when the House adjourns today it be to meet tomorrow morning at 11:00 o'clock.

Communication

April 18, 1957

The Honorable W. Douglas Scamman
Speaker of the House of Representatives
State House
Concord, New Hampshire

DEAR MR. SPEAKER:

As Commander-in-Chief of the New Hampshire National Guard and on behalf of Brig. General McSwiney and the officers and men of the National Guard, I am pleased to extend to you and to all of the members of the House of Representatives, an

invitation to visit the State Military Reservation in Concord on Wednesday, May 15.

You will recall that it has been traditional for the General Court to make some observance of Armed Forces Day and it seems appropriate in connection with this observance this year to invite the members of the General Court to view a display of equipment, to tour the Reservation, and to participate as guests of the National Guard in an "Army Mess" luncheon.

The luncheon will be served from 12 to 2, and members of the General Court will be welcome to visit the Reservation at any time during those hours, or later in the afternoon if it is impossible for any members to attend the luncheon.

It would be helpful in making the arrangements if General McSwiney could have some indication of the approximate number to expect not later than May 10.

Sincerely,

LANE DWINELL

We have gathered before Thee, O God, hindered indeed by our many and grievous ways. But we have gathered together to discuss and transact public business in Your Name and in the name of our great State of New Hampshire.

Come unto us, O God and be with us; vouchsafe to enter our hearts and minds; teach us what we are to do and whither we are to tend; show us what we must accomplish, in order that with Thy help, we may be able to please Thee in all things. Dispel the darkness from our intellects that we may see Thy wonderful purpose working in all things. Be Thou alone the Author and finisher of all our deliberations.

Suffer us not to disturb the order of Justice; let not ignorance draw us into devious paths, nor partiality sway our minds. Neither allow human respect pervert our judgments, but unite us to Thee by Thy Grace so that we may ever seek the Truth in all our undertakings.

In Thy Hands, O Almighty God, rests the authority of all rulers and lawgivers and the rights of all peoples; be pleased then to assist those having the responsibility enacting our laws, so that under Thy guidance and protection their hearts and minds will conform to your Holy Will so that all living under the laws may enjoy lasting peace and prosperity.

Amen.

OPINION OF THE SUPREME COURT JUSTICES

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following answers to the questions contained in your resolution filed April 3, 1957 with reference to House Bill 187, entitled "An Act to redistrict the state into senatorial districts."

The first two questions relate to the interpretation of Article 26, Part II of the Constitution of New Hampshire which provides as follows: "[Art. 26]. And that the state may be equally represented in the senate, the legislature shall, from time to time divide the state into twenty-four districts, as nearly equal as may be without dividing towns and unincorporated places; and in making this division, they shall govern themselves by the proportion of direct taxes paid by the said districts, and timely make known to the inhabitants of the state the limits of each district."

The first question seeks the "proper interpretation" to be given to Article 26 in making the division contemplated. The second question is directed specifically to "what taxes are to be considered and included as 'direct taxes'" in so doing.

The phrase "direct taxes" was incorporated in Article 26 of the Constitution by amendment in 1792 (10 N. H. State

Papers 145); and it is reasonably plain that by "direct taxes" was meant the taxes which the General Court was then authorized to levy by what is now Article 6, Part II of the Constitution, namely: taxes "on polls and estates." 9 N. H. State Papers 904.

Prior to the amendment of 1792, Article 26 quoted above, was in substantially the same form as now, except that the words "public taxes" appeared where the words "direct taxes" are now used (9 N. H. State Papers 896, 904), and the number of districts was required to be "never more than ten, nor less than five." See RSA: Const. Pt. II, *Art. 26*, note.

Amendments of Article 26 were twice submitted to the people by the Constitutional Convention of 1791. The first would have changed the number of districts to "thirteen," to be established according to the proportion of "public taxes" paid by the districts. See 10 N. H. State Papers 116, amendment No. 12. This proposal failed of ratification by the people, and a second amendment was substituted which would fix the number of districts at twelve and for the first time used the language "direct taxes paid." *Ibid.*, 145, 153. This amendment was ratified in 1792. The Journal of the Convention does not disclose what prompted the change, since it was made in committee. See *Ibid.*, p. 143. We are therefore left to a consideration of other sources to determine the significance of the change.

Both before and after the adoption of the amendment of 1792 rates and assessments for purposes of taxation were fixed from time to time by legislative act (5 Laws of N. H. 603 (1791); 6 Laws of N. H. 171 (1793)), providing the manner in which "public taxes" should be assessed on "polls and rateable estates." See Robinson: History of Taxation in New Hampshire, pp. 86, 87; 5 Laws of N. H. 429. Also from time to time, the Legislature determined the "proportion to every thousand pounds of the public taxes which every town [should] annually pay." 5 Laws of N. H. 420 (1789); 6 Laws of N. H. 165 (1794). The latter acts were used to apportion the public taxes required to support the expenditures of state and counties. See 5 Laws of N. H. 500 (1790). At least as early as 1803, one of the acts establishing rates and assessments was entitled "An Act to Establish the Rates at which Polls and Rateable Estates Shall be Valued in Making and Assess-

ing *Direct Taxes*," although the body of the acts continued to refer to "public taxes." 7 Laws of N. H. 187 (1803). (Italics supplied.)

Use of the word "direct" in the amendment of Article 26 may have been thought desirable because of the distinction made in the then recently adopted Constitution of the United States, between "direct taxes" on the one hand, and "duties, imposts, and excises" on the other. The Constitution of the United States had been ratified by New Hampshire on June 21, 1788, and declared in effect in 1789.

Article 1, section 2, clause 3 of the Constitution of the United States provided that "Representatives and direct taxes shall be apportioned among the several States . . ."; and by Article 1, section 9, clause 4 it was provided: "No capitation, or other direct tax shall be laid, unless in Proportion to the Census or Enumeration herein before directed to be taken." Duties, imposts and excises on the other hand were required to be uniform throughout the United States. Const., *Art. 1, s. 8, cl 1*. In *Veazie Bank v. Fenno*, 8 Wall. (U. S.) 533 (1869), the United States Supreme Court was called upon to consider what were "direct taxes" as the term was used in the Constitution of the United States; and it was there said that "the words direct taxes comprehended only capitation taxes, and taxes on land, and perhaps taxes on personal property, by general valuation and assessment of the various descriptions possessed within the several States." *Ibid.*, 546. See also, Cooley's Const'l Limitations (7th ed.) 708-710.

Hence it is apparent that "direct taxes," at least in the sense in which the words were used in the Constitution of the United States, were the taxes which Part II of the Second Constitution of New Hampshire (1784), under the head of "The General Court" directed to be assessed "on polls and estates in the manner that has heretofore been practised" for the raising of the "public charges of government." 9 N. H. State Papers 904. *Cf.* Const. Pt. II, *Art. 6*. It will be remembered that taxation "upon . . . other classes of property, including franchises and property when passing by will or inheritance," was not permitted by this article until it was amended in 1903. *Conner v. State*, 82 N. H. 126.

We conclude, in answer to your second question, that "direct taxes" as used in Article 26, Part II of the Constitu-

tion means taxes upon polls and estates. In answer to your first question, we think it is evident that the establishment of senatorial districts in accordance with a proper interpretation of Article 26 requires that the districts be so established that the "direct taxes paid" by the towns and unincorporated places in any district shall be in the same proportion as those paid by the towns and unincorporated places of any other district; or as nearly so as is practicable, having regard to the prohibition against the division of towns and places.

Your third question raises the issue of whether there is any constitutional violation in a redistricting based upon "equalized valuation figures supplied by the state tax commission and as provided under the provisions of RSA 76:1," (requiring a legislative apportionment of public taxes according to equalized valuation). We are of the opinion that no constitutional violation would result from the use of such a method.

Article 26 directs that in establishing senatorial districts the Legislature shall "govern themselves by the proportion of direct taxes paid by the said districts." Direct taxes as we have defined them furnished the means of raising the public charges of government as early as the Revolutionary years. See Upton: Revolutionary New Hampshire, pp. 133, 138. The state tax, also known as the "direct state tax" has for most of our history been a source of funds by which the obligations of the state have been met. The tax was divided among the towns of the state in the proportions established by the apportionment acts previously mentioned. And although a state tax has not been levied since 1938 (see RSA 76:3; Laws 1937, c. 189, because of the provisions of the tobacco tax law adopted in 1939 (Laws 1939, c. 180, s. 1, now RSA 78:20), apportionment statutes continues to be enacted (Laws 1955, c. 330) to determine among other matters the apportionment of county taxes. RSA 29:11.

Present-day apportionment statutes are based upon equalized valuations as determined by the Tax Commission (RSA 71:11 V); and the "direct taxes paid" Art. 26, *supra* by the cities and towns within the senatorial districts are therefore necessarily in the proportion of their equalized valuations as determined by the Tax Commission.

The House Journal for January 30, 1957, referred to in your question indicates that valuations for the twenty-four senatorial districts as now constituted differ by as much as \$91,000; while under the redistricting proposed by House Bill 187, the maximum variation in equalized valuations will not exceed \$9,700 in round figures. The differentials which would result from the proposed redistricting are explainable by the necessity of avoiding the division of towns or places, and appear to present no constitutional objection. As previously stated, the third question is answered in the negative.

Your fourth and final question is whether House Bill 187 "violate[s] in any respect the Constitution of New Hampshire." In view of the generality of this question we do not deem it within our province to speculate upon whether other constitutional issues might be raised. See *Opinion of the Justices*, 99 N. H. 525, 528; *Opinion of the Justices*, 84 N. H. 559, 564. However, the bill presents no constitutional defects upon its face.

The amendment being material, House Bill No. 123, An Act relative to the computation of tax on legacies and successions, where property is held jointly, was laid upon the table for printing of the amendment and will be taken up under the regular order of business on Thursday, May 2.

Taken from the Table Under Rule 48

House Bill No. 152, An Act in relation to the profession of nursing, was taken from the table.

The question being on the amendment as printed on pages 7, 8, 9, 10 and 11 of the Journal for Wednesday, April 24.

Mr. Willey of Campton moved that further consideration of House Bill No. 152 and pending amendment be indefinitely postponed.

(Discussion ensued)

(Mr. Lamprey of Moultonborough in the Chair)

Mr. Sawyer of Brookfield spoke against the motion.

Mr. King of Manchester spoke in favor of the motion.

At 12:33 o'clock the Chair declared a 45 minute recess.

Recess

After Recess

The House reconvened at 1:20 o'clock.

The question being on the motion that further consideration of House Bill No. 152 and pending amendment be indefinitely postponed.

Mrs. Gordon of Jaffrey spoke against the motion.

Miss Loizeaux of Plymouth and Mr. Eastman of Kensington spoke in favor of the motion.

(Speaker in the Chair)

Mr. Pickett of Keene moved that House Bill No. 152, with pending amendment, be recommitted to the Special Committee consisting of the Committees on Public Health and Education.

(Discussion ensued)

Mr. Pickett of Keene spoke in favor of the motion.

Mr. Pillsbury of Manchester spoke against the motion.

Personal Privilege

The Chair recognized Mr. Pickett of Keene on a point of personal privilege.

Messrs. Chivers of Plainfield, Vaughan of Newport, Comi of Concord, Sanborn of Hampton Falls, Craig of Manchester, Willey of Campton and Mrs. Dondero of Portsmouth spoke against the motion to recommit.

The question being on the motion to recommit.

On a *viva voce* vote the motion did not prevail.

The question being on the motion that House Bill No. 152, with pending amendment, be indefinitely postponed.

Mr. Willey of Campton demanded a division.

A division being had, 262 members having voted in the affirmative and 44 members having voted in the negative, the motion to indefinitely postpone prevailed.

Parliamentary Inquiry

Mr. Pickett of Keene stated that from today's testimony it was his understanding that House Bill No. 130, An Act to clarify the relationship between the board of nursing education and nurse registration and the state department of educa-

tion and to provide for the acceptance of federal aid for practical nurse training, contains the same subject matter as House Bill No. 152 which the House just voted to indefinitely postpone. Mr. Pickett of Keene then asked the Chair for a ruling as to whether, under the Rules, House Bill No. 130 may now be acted upon by the House.

Speaker's Ruling

The Chair stated that the rulings of previous Speakers indicate that there has been confused thinking as to the parliamentary effect of indefinite postponement. The Chair stated further that if the body of House Bill No. 130 is substantially different from the body of House Bill No. 152, House Bill No. 130 would not be affected by a vote to indefinitely postpone House Bill No. 152. The Chair is of the opinion that if a bill pending has a title, subject matter and body that has not been reported to the House it cannot be killed by indefinite postponement of another bill which has been reported to the House. If there are three or four pending bills on the same subject, different in body, they cannot be killed by a motion to indefinitely postpone one of them. It is the understanding of the Chair that House Bill No. 130 differs from House Bill No. 152 and therefore believes that House action on House Bill No. 130 is in order. An amendment to House Bill No. 130 in body the same as the amendment introduced for House Bill No. 152, which was indefinitely postponed, would not be in order.

Reconsideration

Mr. Pillsbury of Manchester moved that the House reconsider its action whereby it voted to indefinitely postpone House Bill No. 152, An Act in relation to the profession of nursing.

Mr. Pickett of Keene spoke in favor of the motion.

On a *viva voce* vote the motion to reconsider did not prevail.

ported the same with the recommendation that the bill ought to pass.

The report was accepted and the bill ordered to a third reading.

Mr. Galloway of Walpole, for the Committee on Executive Departments and Administration, to whom was referred House Bill No. 263, An Act relative to converting the so-called Winant House into a residence for the governor, having considered the same, reported the same with the following amendment, and the recommendation that the bill as amended ought to pass:

Amend section 2 of the bill by striking out the word "twelve" in the first line and inserting in place thereof the word, twenty, so that said section as amended shall read as follows: 2. *Appropriation.* The sum of twenty thousand dollars is hereby appropriated for the fiscal year ending June 30, 1958 to be expended under the direction of the governor for the purpose of furnishing and decorating the interior of said building.

The report was accepted.

Mrs. Palmer of Plaistow moved that the words, "inexpedient to legislate" be substituted for the words, "ought to pass with amendment" in the committees' report.

(Discussion ensued)

The Mesdames Palmer of Plaistow and Hayward of Hanover and Messrs. Kearns of Manchester, Pillsbury of Manchester and Metcalf of Tilton spoke in favor of the motion.

Mr. Lamprey of Moultonborough and Miss Collyer of Lisbon spoke against the motion.

Personal Privilege

The Chair recognized Mr. Pickett of Keene on a point of personal privilege.

The question being on the motion to substitute.

Miss Collyer of Lisbon demanded a division.

A division being had, the results were so manifestly in the affirmative, that the motion to substitute prevailed.

The question now being on the resolution of the committee that House Bill No. 263 is inexpedient to legislate.

On a *viva voce* vote the resolution of the committee was adopted.

Notice of Reconsideration

Miss Collyer of Lisbon served notice that today, or some subsequent day, she will move that the House reconsider its action whereby it voted inexpedient to legislate, House Bill No. 263, An Act relative to converting the so-called Winant house into a residence for the governor.

Reconsideration

Mr. Kearns of Manchester moved that the House reconsider its action whereby it voted inexpedient to legislate, House Bill No. 263, An Act relative to converting the so-called Winant house into a residence for the governor.

Mr. Abbott of Hudson demanded a roll call.

Mr. Abbott subsequently withdrew his demand for a roll call and demanded a division.

Joint Convention

Prayer was offered by the Chaplain.

O God, our heavenly Father, it is good that it is not custom that brings us again into this sacred moment of prayer, but our deep sense of need. We cannot live without Thy blessing. Life is too hard for us and duty is too large. We get discouraged, and we come to Thee asking Thee for strength. Help us always to be of good cheer. Give us grace to encourage others; may we never discourage them. Let us not go about with sadness or fear among men, but rather may we be a benediction to every one we meet, always making life easier for those who come within our influence. Help us to be as Christ to others, that they may see something of His love in our lives and learn to love Him in us. We beseech Thee to hear us and to receive our prayer. Amen.

Salute to the Flag

Mr. Walsh of Manchester led the Convention in the salute to the flag.

Mr. Terry of Westmoreland spoke against the amendment to the amendment.

(Discussion ensued)

Mr. Street of Sharon spoke against the motion.

Mr. Lamprey of Moultonborough moved that House Joint Resolution No. 39 be committed to the Committee on Appropriations.

Parliamentary Inquiry

Mr. McMeekin of Haverhill asked whether or not it was necessary to vacate the order whereby House Joint Resolution No. 39 was referred to the Committee on Transportation before a motion to commit to the Committee on Appropriations would be in order.

Speaker's Ruling

The Speaker ruled that the motion to commit to the Committee on Appropriations was in order because the reports from the Committee on Transportation had been read and accepted by the House, thus discharging the Committee on Transportation and placing the joint resolution in the possession of the House.

The question being on the motion to commit.

(Discussion ensued)

Messrs. Lamprey of Moultonborough, Armstrong of Littleton, McMeekin of Haverhill and Mrs. Palmer of Plaistow spoke in favor of the motion.

The question being on the motion to commit.

On a *viva voce* vote the motion prevailed.

Mrs. Davis of Concord demanded the Yeas and Nays.

Mrs. Davis subsequently withdrew her demand for the Yeas and Nays and requested a division.

A division being had, 201 members having voted in the affirmative and 13 members having voted in the negative, the motion prevailed and House Joint Resolution No. 39 was committed to the Committee on Appropriations.

Point of Order

Mrs. Davis of Concord raised a question as to quorum.

Speaker's Ruling

The Speaker ruled that the vote on the motion to commit was a valid vote. The Speaker stated that a majority of the membership of the House constitutes a quorum. In all cases, as in the instant case, where the number of members present is more than one-half, but less than two-thirds of the total membership, a two-thirds vote of those present and voting is required. The affirmative vote on the motion to commit was manifestly greater than the requisite two-thirds.

Thou knowest our needs, our motives, our hopes and our fears. Wilt Thou put Thine arms around us to give us strength, and speak to us to give us wisdom greater than our own. May we remember that Thou art concerned about what is said and done here, and at the end of the day may each one of us have a clear conscience before Thee. We pray for Thy sake. Amen.

Speaker's Ruling

The rules clearly state that a motion to postpone to a time certain is debatable, both as to time and subject matter. The Chair will further state that so far as yesterday's Journal reveals, no ruling was made on this subject. It is the opinion of the Chair that under the conditions as they existed at that time he would have ruled that no motion to postpone to a certain day was in order.

Parliamentary Inquiry

Mr. McMeekin of Haverhill further inquired whether or not the debatable motion to postpone further consideration of House Bill No. 358 until 11:02 o'clock today, affected the parliamentary situation resulting from the previous question having been ordered on the motion to indefinitely postpone.

Speaker's Ruling

The motion offered and voted yesterday to make further consideration of House Bill No. 358 a Special Order for 11:02

o'clock today was valid. Irrespective of how the Chair would have ruled, had he been in the Chair at the time, the vote taken and the rulings of the Chair yesterday were not seasonably challenged and accordingly the House is bound by its vote of that time.

The question being on the motion that further consideration of House Bill No. 358 be indefinitely postponed.

A division being had, as requested by Mr. Tiffany of Concord, 189 members having voted in the affirmative and 111 members having voted in the negative, the motion to indefinitely postpone prevailed.

On a *viva voce* vote the amendment was adopted and the bill ordered to a third reading.

Committee Report

Mr. Tenney of Chester, for the Joint Committees on Public Health and Agriculture, to whom was referred House Bill No. 343, An Act relative to milk control in the state, having considered the same, reported the same with the following resolution:

Resolved, that it is inexpedient to legislate.

The report was accepted.

Miss Spollett of Hampstead moved that further consideration of House Bill No. 343 be made a special order for Tuesday, May 21 at 11:01 o'clock.

On a *viva voce* vote the motion prevailed.

Resolutions

Messrs. Deans of Milford and Bloomfield of Claremont offered the following resolution:

Whereas, the New Hampshire National Guard invited the Legislature to attend the luncheon and inspect their exhibition of equipment at the military arsenal on Wednesday, May 15, which invitation was accepted, therefore be it

Resolved, that we, the members of the House of Representatives wish to thank General McSwiney, The Adjutant General and the New Hampshire National Guard for their kind invitation and to state that the luncheon and exhibition was greatly appreciated by the members, and be it further

Resolved, that the Clerk of the House transmit to General McSwiney a copy of these resolutions.

On a *viva voce* vote the resolution was adopted.

Mr. Craig of Manchester offered the following resolution:

Whereas, the State of New Hampshire, at considerable expense, has caused to be erected the Underwood Memorial Bridge in Hampton, and

Whereas, this bridge was completed in 1949 and in the normal course of events would be free of major repairs for several decades, and

Whereas, for some unknown reason this bridge has suddenly become totally unfit for use, and

Whereas, the House of Representatives may be requested to provide funds for the repair of this bridge, now therefore be it

Resolved, that the Commissioner of the Department of Public Works and Highways be requested to conduct an inquiry concerning the cause of the damage to the bridge and that the result of his inquiry be submitted to the Attorney-General in order that he may determine whether the cost of repairs should be borne by parties other than the State of New Hampshire, be it further

Resolved, that the report of the Commissioner and Attorney-General be made available to the members of this House, and be it further

Resolved, that a copy of this resolution be transmitted to the Commissioner of Public Works and Highways and to the Attorney-General.

Mr. Eaton of Stoddard offered the following resolution:

Resolved, that the rules of the House be amended by adding after Rule 47 the following new sub-section:

47-a. When a majority of any committee votes a bill inexpedient to legislate, the chairman of the committee shall announce the same in the Journal and after said bill has been reported inexpedient it shall remain in committee unless and until a majority of the members of the House sign a petition ordering the bill out.

The foregoing resolution was laid on the table, to be taken up in the regular order of business on Wednesday, May 22.

Reconsideration

Mr. Pillsbury of Manchester moved that the House reconsider its vote whereby it indefinitely postponed further consideration of House Bill No. 140, An Act providing for the registration of plumbers.

Mr. Sawyer of Brookfield spoke in favor of the motion.

On a *viva voce* vote the motion to reconsider did not prevail.

Mr. Martel of Manchester, Ward 3, requested a division.

A division being had, 15 members having voted in the affirmative and 195 members having voted in the negative, the motion to reconsider did not prevail.

On motion of Mr. Pickett of Keene the rules were so far suspended as to permit business in order at 3:00 o'clock this afternoon to be in order at the present time; that third reading of bills be by title only and third reading of resolutions by caption only; and when the House adjourns today it be to meet next Tuesday morning at 11:00 o'clock.

Third Readings

The following House bills and House joint resolutions were severally read a third time, passed and sent to the Senate for concurrence:

House Bill No. 415, An Act relative to the exclusion of cost of sewage treatment works and sewerage systems from net indebtedness under the municipal finance act and increasing the state guarantee of municipal bonds issued for the construction of said projects.

House Bill No. 360, An Act relative to appropriations for capital improvements or the issuance of bonds in the city of Laconia.

House Joint Resolution No. 52, Joint Resolution in favor of Willard M. Cady.

House Joint Resolution No. 54, Joint Resolution in favor of Roland E. Jenkins.

House Joint Resolution No. 55, Joint Resolution in favor of Harvey V. Harrison.

Senate Bill No. 41, An Act relative to trustees of the Laconia State School, was read a third time.

The question being, Shall the bill pass?

Mr. Karagianis of Laconia requested a division.

Mr. Pillsbury of Manchester spoke in favor of the bill.

A division being had, 103 members voted in the affirmative, and 91 members voted in the negative.

The Chair called for a quorum count by the tellers.

The quorum count revealed that there were 210 members present.

Speaker's Ruling

Although the quorum count reveals that a majority of the members of the House are present, 103 members having voted in the affirmative and 91 members having voted in the negative, two-thirds of the members present did not assent to the passage of Senate Bill No. 41. Accordingly, further consideration of this bill falls into the category of unfinished business to be taken up on Tuesday, May 21 at which time the question before the House will be, Shall the bill pass? At that time the bill will be fully debatable on its merits.

On motion of Mrs. Dondero of Portsmouth the House adjourned at 3:07 o'clock.

TUESDAY, MAY 21, 1957

The House met at 11:00 o'clock.

Joint Convention

Prayer was offered by the Chaplain.

O God our Father, Thou Who alone knowest what lies before us this day, we are in special need of Thy help when we are honestly perplexed and are not sure what to do. In our choices, let us not ask: "Will it work?" but rather, "Is it right?" Wilt Thou forgive us, that we are so anxious in all we say and do, to have the approval of men, that we forget that it is *Thy* approval that brings us peace of mind and clear conscience, Make us aware of the record *Thou* art writing — the record that one day will be read by the Judge of all the universe. Lord Jesus, we know of no better way to begin the work of another week than by rededicating our lives to Thee, praying for Thy grace and Thy help to *do* better and to *be* better. Through Jesus Christ. Amen.

Salute to the Flag

Mr. Terrill of Keene led the Convention in the salute to the flag.

(The foregoing motion was offered by Mr. Martel in the French language in honor of the Marquis de Lafayette, the bi-centenary of whose birth is being celebrated this year).

On a *viva voce* vote the motion prevailed.

Mr. Martel of Manchester, Ward 3, also addressed the House as follows:

This year, from May through September, Americans from all parts of this country, together with the citizens of France, are celebrating the bi-centenary of the birth of he who has been called the soldier of two countries.

Marie-Paul-Joseph-Roch-Yves Gilbert Motier de Lafayette was born on September 6, 1757 in the Chateau of Chavagnac, in the Auvergne section of France. A prominent soldier and legislator, he signaled himself in defense of liberty and constitutional government on two continents.

By the death of both his parents, at an early age he became sole master of the family fortune. At the age of 16, he married Mlle de Noaille, daughter of the Duc D'ayen, then only 14, who was later to prove herself a model of virtue, courage and conjugal affection. By this alliance with one of the most influential and wealthy families of France and by the worth of his personal character, he stood seemingly alone, as having already attained, on the verge of manhood, the highest rewards of a long life of effort. At a time when the splendor of the French court would have enticed anyone of his age, he turned to interest himself in a cause which many had already despaired of. He was but eighteen years old when he decided to espouse the cause of American Freedom. When his designs became known, many in his entourage tried to dissuade him. To the American commissioners in France he said: "Hitherto, I have done no more than wish success to your cause; I now go to serve it. The more it has fallen in public opinion, the greater will be the effect of my departure. Since you cannot procure a vessel, I will purchase and fit out one at my own expense; and I will also undertake to transmit any despatches you may desire to the Congress."

After mounting innumerable difficulties and hazards, he departed, and finally landed in Charleston, S. C. early in 1777, and soon after joined the American Army. Seemingly neglected for a time after his arrival in this country, he wrote a brief note to Congress as wit:—"After the sacrifices I have made, I have a right to exact two favors;—one is to serve at my own expense—the other is, to serve as a volunteer." On July 31, 1777, Congress resolved that "the service of the Marquis de Lafayette be accepted and that he be invested with the rank and commission of Major General in the Army of the United States." Immediately, he went into action. At Brandywine, on September 11, 1777, he sealed with his blood the affection he had displayed heretofore for our cause. He participated in the major engagements of the Revolutionary War and in several of them acted a conspicuous part. In between trips to his native France, to secure the help of His Most Christian Majesty's Government in our behalf, he borrowed money on one occasion to clothe our soldiers in order to bolster their spirits and prevent the many desertions from the army which on certain occasions meant the difference between victory and defeat. His gallantry gained him repeated testimonials from Congress of the estimation which they put upon his services, and what he valued still more highly, the entire confidence and ardent friendship of George Washington. He succeeded in obtaining a treaty of alliance with his native country and finally obtained the French fleet and armies to disembark on our shores and forever insure the birth and full life of the first democratic institution in the new world. Who does not remember D'Estaing, DeGrasse and Rochambeau?

His mission in this country completed, he returned to help his own native land.

His sincerity of purpose, his affection for us, should always be remembered, as a reflection of the alliance and friendship that endures between France and the United States.

His work in behalf of constitutional government in France during the trying period of the Revolution, the Directory and the Empire, has become part of history.

In 1824 he visited our shores for the last time. He took a prominent part in the laying of the cornerstone of the Bunker Hill Monument. A famous American, native son of New Hampshire, Daniel Webster said on that occasion:—"Fortunate,

fortunate man! Heaven saw fit to ordain that the electric spark of liberty should be conducted through you, from the new world to the old; and we, who are now here to perform this duty of patriotism, have all of us long ago received it in charge from our fathers to cherish your name and virtues." During that trip, he also visited many places in our state, and on June 22, 1825 took part in ceremonies on the very ground we trod today.

It is fitting and proper, that we, as fellow legislators, remember him and his services to our country, on the second centenary of his birth. May his memory remain evermore present in our minds, as we thank the Almighty God for sending him to us to help guide our destinies, for otherwise, history might well have recorded a different chapter on our score.

(Speaker in Chair)

MONDAY, MAY 27, 1957

Almighty God, the Father of all mankind, whose Spirit is in the hearts of Thy children, speak to us today, and direct us in the way we should go. Reveal unto us our whole duty, and may that duty stand before us as a challenge. Since our fellow citizens in the different towns and cities from whence we have come have entrusted us with responsibility, and "seeing that we are compassed about with so great a cloud of witnesses, let us lay aside every weight, and the sin that doth so easily beset us," and prove by our words and actions that we are faithful to trust placed upon us. Our God, we beseech Thee to so manifest Thyself in our decisions that we may never swerve

from the path of loyalty and what we sincerely believe to be the best interest of our State. We ask it in the Name of Christ. Amen.

At Thine Altar, O God, we remember the heroism of men and fortitude of women in our times of trial — those who endured with valor, those who suffered with patience, and those who gave all, even the sweet blood of youth, for a better day.

God of mercy, let us not by carelessness or indifference be guilty of the worst of all sacrileges — the waste of sacrifice.

God of justice, make us just in mind and spirit, that the kingdoms of the world may become the kingdom of justice.

We pray not for a peace of ease, but for the peace of righteousness and goodwill, and the moral love that fulfills itself in fellowship. Comfort Thou Thy people and guide our groping humanity out of chaos into brotherhood. Enlighten our darkness; let ignorance, oppression and envy cease, and heaven and earth be joined in praise of the Prince of Peace. Amen.

—Joseph Fort Newton.

TUESDAY, JUNE 4, 1957

The House met at 11:00 o'clock.

Joint Convention

Prayer was offered by the Chaplain.

Dear Father, we pray that Thou wilt look tenderly on the things we will try to do today. Show us where our ignorance, or our complacency, or our selfishness or our pride stand in the way of doing the best we are capable of, and forgive us. We know that this world is filled with discordant notes, but help us, Father, so to unite our efforts that we may all join in one harmonious symphony for meeting the needs of the people of our State. Grant us strength and courage and faith and humility sufficient for the tasks assigned to us. For Jesus' sake. Amen.

Prayer was offered by the Chaplain.

O Father, whose voice I hear in the winds and whose breath gives life to all the world, hear me. I am a man before

you, one of your many children. I am small and weak. I need your strength and wisdom. Let me walk in beauty and make my eyes ever behold the red and purple sunsets. Make my hands respect the things you have made, my ears sharp to hear your voice. Make me wise so that I may know the things you have taught my people — the lessons you have hidden in every leaf and rock. I seek strength, Father, not to be superior to my brothers, but to be able to fight my worst enemy, myself. Make me ever ready to come to you with clean hands and straight eye, so that, when life fades as the fading sunset, my spirit may come to you without shame. Amen.

—Tom Whitecloud, Chippewa.

Concurrent Resolution Relating to Litterbugs.

Whereas, the citizens of the state of New Hampshire take great pride in the grandeur which nature has bestowed upon their state, and

Whereas, the citizens of the other 47 states and our good neighbors from Canada annually visit our state to enjoy these natural wonders, and

Whereas, a small minority of our citizens and tourists disfigure these natural beauties with trash and litter, especially along our roadsides, and

Whereas, the crews of the highway departments of the towns, cities, and state annually spend thousands of dollars removing this litter and,

Whereas, the various garden clubs and other civic and fraternal organizations devote much time and effort to beautifying our roadsides and improving picnic facilities and

Whereas, records show that those who litter public places are subject to a fine not to exceed \$25.00, and

Whereas, there have been many arrests but few convictions and only upon the rarest of instances does anyone pay the maximum fine,

Therefore Be It Resolved by the Senate and House of Representatives in General Court Convened:

That the General Court hereby memorializes the courts of our state and the law enforcement officers of our state to enforce the laws currently in the statutes and to impose the fines already established by law. Only stricter application of the law by our courts will encourage the litterbug to abandon his disfiguring work. The efforts of thousands of our citizens to improve the beauty of our roadsides are now laid to waste in a few thoughtless minutes by trash tossers and garbage heavers. The citizens of our state annually pay thousands of dollars in taxes to be spent removing the debris left by thoughtless fellow citizens. By the erection of hundreds of signs along the roadside, all have been made aware of the existence of an anti-litter law and the fine they may expect to pay.

Joint Convention

Prayer was offered by the Chaplain.

Our Father, as a new day comes to bring a new opportunity, help us to use it better than we used yesterday. While yet there is time, we would remember the special temptations which have overcome us before. We have been so intent on

our own way that we have turned others aside from their ways; we have been too pre-occupied to be understanding or kind. We pray, O God, that we may be made more thoughtful and considerate, so that when this day ends, there may be less for which we need to be forgiven and more for which we may be glad, because we will have tried to let Thy goodness express itself through our obedient minds and hearts and wills. Amen.

Salute to the Flag

Mr. O'Shan of Laconia led the Convention in the salute to the flag.

Teach us, O God, the disciplines of patience, for we find that to wait is often harder than to work. May we be willing to stop our feverish activities and listen to Thee. Thou knowest whether we have done Thy will or our own will. Guide us, our Father, always to seek Thy will for us, to strive for Thine approval rather than the approval of men. And forgive us for thinking of prayer as a formality or a waste of time. May we come to see that without prayer our labors are a waste of effort. In Jesus' name, we pray. Amen.

Salute to the Flag

Mr. Pryor of Ashland led the Convention in the salute to the flag.

WALLACE A. FORD

The Committee to Save the Constitution

Hon. John W. King, Chairman and Treasurer

Hon. William Craig, Assistant Treasurer

Hon. A. Frank O'Neil, Historian

Hon. Edward Walsh, Secretary-at-Large

GENTLEMEN :

We, the undersigned, wish to thank the members of the committee most sincerely for your generous gesture, in relieving us of the financial burden, imposed upon us by the Manchester Police Department, thru the arrest and fine for jay walking on one of the Manchester's thorough fares — the main drag — This helping hand so spontaneous, with such utter disregard for the value of money, will stand as a beacon and will live in our memories — until time is no more. Of course, we have been given a police record inscribed and deposited in the archives of the Manchester Police Department. So now gentlemen, we must be termed criminals instead of statesmen. We trust the committee will pardon this lengthy screed, but we simply had to tell you that we are extremely grateful.

Most Sincerely,

JOHN F. KELLEY,

Representative, Ward 4.

THOMAS F. NOLAN,

Representative, Ward 4.

Joint Convention

Prayer was offered by the Chaplain.

O Spirit of God, descend upon our hearts and take out all that separates us from Thee and from each other. We know that we cannot live with Thee unless we can live at peace and in harmony with each other. We know that Thy Spirit can dwell only where there is a spirit of unity.

Just as we seek unity and harmony in the world, help us, O God, to achieve it in this place. If we, Thy servants, who pray together, who speak the same language, who share the same basic ideals, cannot work as a team, what hope is there that the leaders of nations, with different languages, who do not pray together, whose ideals are different, can achieve agreement?

And so now, when we are sometimes tempted to lose our patience, we pray that we may express our own ideas and listen to the ideas of others — all in a spirit of humility, knowing that the true secret of harmony will be found only as we open our hearts and minds to Thee, through Jesus Christ our Lord. Amen.

Senator English of District No. 11 led the Convention in the salute to the flag.

Concurrent Resolution

Concerning the Status of Forces Treaties

Whereas the members of our armed forces serving abroad in more than fifty countries, their civilian components and the dependents of each, are now subject in varying and confusing respects to the criminal jurisdiction of those countries by reason of the NATO Status of Forces Treaty, the Administrative Agreement with Japan, and Executive Agreements with other nations, and

Whereas these agreements in some instances penalize our servicemen for foreign service by depriving them of many of the rights granted by our Constitution, which they are sworn to defend, and

Whereas it is difficult for a serviceman accused of transgression in a foreign country to receive a fair and impartial trial because of the varying and confusing systems of jurisprudence which make it difficult and sometimes impossible for him to receive the protection of all of the rights and guarantees our Constitution, and further because of the prejudice and animosity sometimes existing against our men, and

Whereas legislation has been introduced in both the Senate and the House of Representatives of the United States to direct the President to seek a modification of all such agreements, now therefore be it

Resolved, by the Senate and House of Representatives in General Court convened that we are deeply and gravely concerned by the possible deprivation of the basic constitutional rights of our servicemen by virtue of present arrangement and we urge the Congress of the United States to study this problem carefully and enact the legislation either now pending, or to be presented, to safeguard and secure the constitutional rights of our servicemen and their dependents while serving the United States in foreign countries, now therefore be it further

WEDNESDAY, JUNE 19, 1957

The House met at 11:00 o'clock.

Joint Convention

Prayer was offered by Guest Chaplain, Rev. George Donnelly, pastor of the Church of the Immaculate Conception, Penacook, N.H.

In the name of the Father, and of the Son and of the Holy Ghost. Amen.

Let us think of God first for He alone is our last end. Let us work, not merely for personal gain and utter selfishness, but with the sense of obligation to our country and our neighbor; with no malice in our hearts toward any man or any group of men; and with the knowledge deep down in our souls that the years pass quickly; that what we do for God, our country, and our neighbor never dies; that soon, in any event, time for us will be no more, but will become eternity with the record at least of what we have tried best to do. And now, when all is summed up, what does it really mean but the great commandment which Christ gave to His followers: Love thy God above all things; love thy neighbor as thyself.

As citizens of this country always bear in mind and fully exemplify that all men are created equal, endowed by their Creator with certain rights, among them life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. Our laws must be respected by all men irrespective of their positions in life, be they white or black, educated or uneducated, rich or poor. Obedience to the laws should be the motto of every citizen. If a certain law is objectionable to a citizen, he has the right to labor for the change of that law in the Legislature of our State or the Congress of our Nation, but so long as the law remains on our government books it must be observed.

Love each other — banish prejudice, hatred from your hearts. Live a clean, honest and charitable life. After all, it is the only thing that counts in the end. Throughout your lives, strive to do things that are big and worthwhile, especially for the poor, the unfortunate, the sick and the unprivileged. Love most sincerely, Catholics, Protestants, Jews, believers and non-believers, always hoping that as the world progresses in

knowledge, all prejudice will gradually disappear, that the cobwebs of hatred and distrust will be swept from our minds and hearts.

May Almighty God support us all the day long, until the shades lengthen, and the evening comes, and the busy world is hushed, and the fever of life is over, and our work is done. Then in His mercy may He give us a safe lodging, a holy rest, and peace at the last.

May the Lord bless us and keep us.

May He make His face to shine upon us and have mercy on us.

May He turn His countenance to us and give us peace.

May the blessing of Almighty God, Father, Son and Holy Ghost descend upon us and remain with us forever. Amen.

In the name of the Father and of the Son, and of the Holy Ghost. Amen.

Senate Bill No. 140, An Act relative to suits affecting air navigation facilities.

Senate Joint Resolution No. 6, Joint Resolution in favor of Charles F. Macey.

Senate Bill Read and Referred

The following Senate bill and Senate joint resolution were read a first and second time, laid upon the table and referred as follows:

Senate Joint Resolution No. 6, Joint Resolution in favor of Charles F. Macey. To the Committee on Claims.

Senate Bill No. 140, An Act relative to suits affecting air navigation facilities. To the Delegation from the city of Berlin.

Concurrent Resolution

Whereas, it is of utmost importance to the welfare of this nation that the youth of this state be given recognition for their outstanding achievements and be encouraged to prepare themselves for their responsibilities and obligations as citizens of this great nation; and

Whereas, the legislatures of several states have adopted resolutions designating October 31 of each year as Youth Honor Day, which is appropriately observed in honor of the youth of this nation; and

Whereas, the Youth Honor Day program has been of tremendous benefit to the youth of America by providing them with the opportunity to assume the responsibility of governing the conduct of the members of their own group; and

Whereas, the adoption of the Youth Honor Day program would prove very beneficial not only to the youth but also to all the people of this State; therefore, be it

Resolved, by the Senate of the State of New Hampshire, the House concurring, that the Governor be respectfully re-

quested to issue a proclamation designating October 31 of each year as Youth Honor Day; that the people of this State be urged to actively participate in the observance of this day; and that a suitable copy of this resolution be forwarded to the Governor, the Honorable Lane Dwinell.

On motion of Mr. Pickett of Keene the House voted to concur in the adoption of the foregoing concurrent resolution.

The Senate message further announced that the Senate had voted to concur with the House of Representatives in the passage of the following entitled bills, sent up from the House of Representatives:

House Bill No. 390, An Act relative to appointment of a chief of police.

House Bill No. 398, An Act relative to members of interstate commissions, and retirement benefits therefor.

The Senate message further announced that the Senate had voted to concur with the House of Representatives in its amendments to the following Senate bill:

Senate Bill No. 60, An Act to determine the responsibility for the intentional or negligent contribution to the delinquency of a minor.

The Senate message further announced that the Senate concurs with the House of Representatives in the passage of the following entitled Concurrent Resolution, with amendments, in the passage of which amendments the Senate asks the concurrence of the House of Representatives:

Concurrent Resolution

Relating to Litterbugs

Whereas, the citizens of the state of New Hampshire take great pride in the grandeur which nature has bestowed upon their state, and

Whereas, the citizens of the other 47 states and our good neighbors from Canada annually visit our state to enjoy these natural wonders, and

Whereas, a small minority of our citizens and tourists disfigure these natural beauties with trash and litter, especially along our roadsides, and

Whereas, the crews of the highway departments of the

towns, cities, and state annually spend thousands of dollars removing this litter, and

Whereas, the various garden clubs and other civic and fraternal organizations devote much time and effort to beautifying our roadsides and improving picnic facilities, and

Whereas, records show that those who litter public places are subject to a fine not to exceed \$25.00, and

Whereas, there have been many arrests but few convictions and only upon the rarest of instances does anyone pay the maximum fine,

Therefore Be It Resolved by the Senate and House of Representatives in General Court convened:

That the General Court hereby memorializes the law enforcement officers of our state to enforce the laws currently in the statutes. Only stricter enforcing the law will encourage the litterbug to abandon his disfiguring work. The efforts of thousands of our citizens to improve the beauty of our roadsides are now laid to waste in a few thoughtless minutes by trash tossers and garbage heavers. The citizens of our state annually pay thousands of dollars in taxes to be spent removing the debris left by thoughtless fellow citizens. By the erection of hundreds of signs along the roadside, all have been made aware of the existence of an anti-litter law and the fine they may expect to pay.

On motion of Mr. Moore of Bradford the House voted to concur in the amendments sent down from the Honorable Senate.

Committee Reports

Mr. Eastman of Weare, for the Committee on Executive Departments and Administration, to whom was referred Senate Bill No. 165, An Act relating to purchase of liability insurance under a fleet policy, having considered the same, reported the same with the following amendment, and the recommendation that the bill as amended ought to pass.

Amend section 1 of said bill by striking out said section and inserting in place thereof the following:

1. *Duties of Director of Purchase and Property.* Amend paragraph IX of RSA 8:19 by striking out said paragraph and inserting in place thereof the following: IX. After consulta-

tion with, and approval by, the board of approval as established by RSA 93:2, purchase liability insurance under a fleet policy covering the operation of state owned vehicles, and such other insurance and surety bonds as any state department, agency or official may now or hereafter be legally authorized, or required to furnish; provided that approval shall not be granted for any such insurance or surety bonds unless the same have been negotiated for, are procured from and the premium therefor is to be paid to an independent commissioned resident agent of an insurance company registered and licensed to do business in this state;

The report was accepted, the amendment adopted and the bill ordered to a third reading.

Messrs. Plumer of Bristol, Eldredge of Exeter, Pillsbury of Manchester, Jones of Lebanon, Pickett of Keene and Mrs. Brungot of Berlin spoke against the resolution.

On a *viva voce* vote the resolution was not adopted.

Mr. Mott of Newington offered the following concurrent resolution:

Concurrent Resolution

relative to a marine biological laboratory for the University of New Hampshire at Newington.

Whereas, the Department of Zoology at the University of New Hampshire has a dedicated interest in and qualified personnel for marine biological research and instruction; and

Whereas, the Department's personnel might pursue this objective more advantageously with a proper marine location; and

Whereas, there is a need for properly trained specialists in marine biology; and

Whereas, no other state university north of Cape Cod is located near the Atlantic Coastal waters; and

Whereas, the State of New Hampshire by Executive Order on September 28, 1951 assigned to the University a site of 3.6 acres near the eastern terminus of the Sullivan Bridge in the Town of Newington on the Piscataqua River at the entrance to the Great Bay Area intended and ideally suited for a marine biological laboratory; and

Whereas, the development of the site by the University would enhance the appearance of state-owned property adjacent to the Spaulding Turnpike, now therefore be it

Resolved by the House of Representatives, the Senate concurring:

That the President of the University of New Hampshire be instructed to cause his staff to make a study of the feasibility, plans for operation, staffing, costs, and other data necessary to an appraisal of this subject and submit his report to the legislature no later than January 15, 1959, citing this resolution as his directive.

The foregoing concurrent resolution was referred to the Committee on Education.

On motion of Mr. Pickett of Keene the rules of the House were so far suspended as to permit the business in order at 3:00 o'clock this afternoon to be in order at the present time, that third reading of bills be by title only and when the House adjourns today it be to meet tomorrow morning at 11:00 o'clock.

We pray this morning for our Governor, our Senate President, our Speaker and all other leaders, that they may have good judgment and wisdom beyond their own and clear understanding for the problems of this difficult hour. We pray for all the members of the Senate and House, that they may have the courage and the resolute purpose to discharge their responsibilities faithfully. We pray for all who are moulding public opinion in our time, for all who write what other people read, that they may hold aloft the lamp of truth for all to see and live by. And we pray, our Father, that Thy will be done here today. May Thy program be carried out, above party and personality, for the good of the people of this State. Through Jesus Christ our Lord. Amen.

Mr. Winston of Manchester was granted leave of absence for the day on account of important business.

Opinion of the Justices of the Supreme Court

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following answers to the questions contained in your resolution filed June 5, 1957.

The first question relates to the method of computing time under Part 2, Article 19 of the Constitution amended in 1948, the pertinent part of which provides as follows:

“[Art.] 19th. [Power of Adjournment Limited.] The house of representatives shall have power to adjourn themselves, but no longer than five days at a time.” At the outset it may be noted that Sundays and holidays are to be included

in computing the five-day period. The resolution in the 1948 Constitutional Convention which proposed to change the period from two to five days specially provided that it was to be "exclusive of Sundays and holidays" but as finally adopted by the convention and the people, the quoted phrase was deleted. *Journal of Constitutional Convention, 1948, pp. 28, 29, 141—142, 272; N. H. Manual for the General Court, 1949, pp. 90, 620, 622.* This is a plain indication that Sundays and holidays were to be counted as any other calendar day in determining the five-day adjournment period. Furthermore, Part Second, Art. 44, specifically excepts Sundays in allowing the Governor five days to exercise his veto which indicates that every calendar day is to be counted unless specific provision is made to the contrary.

The statutory provision for reckoning time (RSA 21:35) originally enacted in 1842 (*Revised Statutes, c. 1, s. 25*) is not controlling. "The constitution was *before* this statute, and was and is *above* it, and paramount to it in authority, and cannot certainly be changed in its letter or form by the provisions of any statute." *Soldiers Voting Bill, 45 N. H. 607, 613.* The history of Article 19th and the practice and custom under it provide adequate guidance for a proper construction of the article. It has been the general practice to compute the period of adjournment of two days before 1948 and five days after the amendment by excluding the day of adjournment and the day of the next session so that period of adjournment was respectively two or five clear calendar days at a time. See *Soldiers Voting Bill, supra, 608.* Thus formerly when the period of adjournment was limited to "two days at a time," it was customary to hold a skeleton session on Saturday and adjourn to Tuesday which made the adjournment period consist of two clear calendar days. Accordingly, it is our opinion that the phrase "five days at a time" as used in Art. 19th means five clear calendar days which is consistent with popular understanding and practice under this article.

As we understand the second inquiry it is whether both the Senate and the House of Representatives constituting the General Court "as a whole" have the power to adjourn for a period of more than five days at a time. The answer is no. The limitation on the Senate is similar to the five day limitation in the period of adjournment for the House. Part Second,

Art. 36, provides in part: “[Art.] 36 [Adjournments Limited Except in Impeachment Cases.]

The Senate shall have power to adjourn themselves, provided such adjournment do not exceed five days at a time.” *Arts.* 19 and 36 provide that neither the Senate nor the House of Representatives may adjourn for more than five days at a time, and nowhere is there any provision that acting together as the General Court, they have greater power except as provided in *Arts.* 43 and 50. These provisions were summarized and construed in 1911 in *Opinion of the Justices*, 76 N. H. 601, 608: Under “the constitution neither house can adjourn itself for more than [five] days at a time; that the power of adjourning the legislature is vested in the governor, who, with the advice of the council, upon request of both houses may adjourn the general court to such time as they agree upon, or, in case of disagreement between the two houses, may adjourn it for such time as he may determine the public good may require, not exceeding in the latter case ninety days at any one time.”

While Part 2, *Art.* 3, provides that the Senate and House shall assemble biennially in January “and at such other times as they may judge necessary,” this is likewise limited by the powers of the Governor and Council under *Art.* 50. *Opinion of Justices*, 93 N. H. 474; RSA 16:1, 6. In view of the construction of the constitutional provisions relating to adjournment in *Opinion of Justices*, 76 N. H. 601, *supra*, the General Court acting by itself cannot adjourn for more than five days at a time.

Mr. McMeekin of Haverhill offered the following amendment to the amendment.

Amend said amendment by adding the following sections:

4. *Statement of Purpose.* In order that no classified state employees shall be required to work more than forty hours in any one week, nor to work a split shift, a special committee is hereby established to develop plans to accomplish this purpose within the limits of available funds, as follows:

5. *Committee Established.* The special committee shall consist of three members to be appointed by the Speaker of the House of Representatives and two members appointed by the President of the Senate. Said committee shall examine all positions in the classified service of the state where the work week is in excess of forty hours and where split shifts are involved and develop plans whereby said work week may be reduced and estimate the cost of such reduction. Said committee shall work with the personnel commission and any other state officials whom the governor may designate to assist it in its work.

6. *Recommendations.* Said committee shall make recommendations to the personnel commission and to the governor and council for changes in the personnel rules to accomplish the purposes set forth in section 4 hereof. If funds are not available to put into effect the full recommendations of the committee the committee may recommend an interim plan which would reduce the work week to something more than forty hours. The governor and council are authorized to take such action as is necessary to carry out the recommendations

of the committee and are further authorized to transfer funds provided in section 8 hereof.

7. *Personnel Commission.* The personnel commission is hereby authorized and instructed to take into consideration in classifying positions in the classified service the availability of personnel capable of filling the requirements of any position.

8. *Salary Adjustment Fund.* Notwithstanding any other provisions of law the balance of any funds in the salary adjustment fund as of June 30, 1958, may, upon approval by the governor and council, be transferred for use during the fiscal year ending June 30, 1959, to any state department or institution for the purpose of the employment of additional personnel to effect the purposes of this act to reduce the work week.

Further amend said bill by renumbering section 4 to read section 9.

On a *viva voce* vote it appeared that the affirmative prevailed.

Mr. Willey of Campton requested a division.

A division being had, 238 members having voted in the affirmative and 68 members having voted in the negative, the motion to indefinitely postpone prevailed.

Introduction of a Bill

Parliamentary Inquiry

Mr. McMeekin of Haverhill inquired whether or not the House could refer a bill to the Legislative Council without the concurrence of the Honorable Senate in view of the fact that RSA 17:4 which defines the duties of the Legislative Council refers to the "General Court."

Speaker's Ruling

The Chair is of the opinion that reference of a bill to the Legislative Council by either branch of the Legislature, acting independently, constitutes a reference by the "General Court."

Accordingly, the concurrence of the Honorable Senate is not required.

The question being on the motion to reconsider offered by Mrs. Miner of Meredith.

A division being had, 149 members having voted in the affirmative and 175 members having voted in the negative, the motion to reconsider did not prevail.

Communication

The Chair announced receipt of the following communication:

State of New Hampshire
Office of
LEGISLATIVE BUDGET ASSISTANT

June 24, 1957

Honorable W. Douglas Scamman
Speaker, House of Representatives
State House
Concord, New Hampshire.

DEAR MR. SPEAKER:

In the Journal of the House of Representatives under date of June 18, 1957 appeared the following resolution offered by Mr. Pickett of Keene:

Whereas, the present fiscal year comes to a close as of June 30, 1957, and

Whereas, the estimates of incomes and expenditures were conceived some eight months ago, therefore be it

Resolved, that the Legislative Budget Assistant confer

with the Department of Public Health, the State Hospital, the Education Department and the Department of Welfare to inquire if they can, at this time, show any changes in income and expenditure.”

In compliance with that resolution the departments named have been contacted.

The business manager of the Department of Health estimates unexpended balances of state appropriations for the current fiscal year ending June 30, 1957 at \$3,100.00. In 1956 this department lapsed \$35,137.15.

At the State Hospital the business administrator II, anticipates appropriation lapses for the current fiscal year of \$81,590.61. In 1956 this department lapsed \$36,391.00.

In the State Department of Education, the principal accountant shows “Total Estimated balance \$50,116.24” at the close of the current fiscal year. In 1956 this department lapsed \$94,360.99.

From the foregoing statements it appears, with regard to the three departments cited, that there has been no substantial net change collectively in the income and expenditure estimates made some eight months ago.

In the Department of Public Welfare unexpended state funds do not lapse at the close of the fiscal year to unappropriated surplus. (RSA 167:20) Funds once paid into the public welfare fund remain in that fund. The appropriation made for this department for the first year of each biennium, however, is reduced by an estimated amount of unexpended state funds at the close of the preceding fiscal year on June 30th. This procedure was followed with regard to the appropriation made for Public Welfare in House Bill 416. The estimated balance of unexpended state funds at June 30, 1957 was \$118,546.94 and this amount was applied as a reduction against the total appropriation for public welfare. The Department of Public Welfare was contacted to determine whether this balance of \$118,546.94 should be revised. The following communication was received from the Commissioner.

Date June 19, 1957
at (Office) Public Welfare

From: James J. Barry, Commissioner
Subject: Balances June 30, 1957
To: Mr. Remick H. Lughton
Legislative Budget Assistant

This will confirm our conference on this date relative to the resolution introduced by the Honorable Laurence M. Pickett of Keene and printed in the Journal for Tuesday, June 18, 1957.

Following your conference I spent approximately four hours with my accountants analyzing our records and we will encounter a problem in maintaining balances to the extent of \$118,546, which was the Comptroller's estimate of our unexpended appropriation on June 30, 1957.

You will undoubtedly recall the vigorous protest that I presented to the Governor and his Budget Committee relative to the above balance at the time of the budget hearing on our requests for the coming biennium and explained how this balance would be affected by our medical care program.

For official record purposes the balance estimated for this department at the end of the previous biennium, June 30, 1955, was \$94,000 and our actual balance was \$84,520.09, or \$9,000 short. The actual balance, according to our books, for the first fiscal year of this biennium was \$29,831.47.

Again, may I indicate that with the transfers in process to take care of existing obligations, funds encumbered for medical care already rendered our beneficiaries and program adjustments approved by the Board of Public Welfare, it is impossible to estimate any additional balance over and above the current estimate.

JJB/mm

After receiving this information from the Commissioner of Public Welfare a Statement of Balances, State Funds Only, came to my attention which showed "Est. Bal. 6/30/57" to be \$432,184.56.

I again contacted the Commissioner and received the following communication from him:

Date June 21, 1957

At (Office) Welfare

From: James J. Barry, Commissioner

Subject: Estimated Balances June 30, 1957

To: Mr. Remick H. Loughton
Legislative Budget Assistant

This will confirm our conversation yesterday and also supplement my correspondence of June 19, 1957 regarding the above subject.

You have in your possession a statement based upon experiences from July 1, 1956 up to May 31, 1957, showing estimated balances of June 30, 1957 as of May 31, 1957 of \$432,000.00.

The following has happened since the preparation of the statement of estimated balances for May 31, 1957:

	\$432,000.00	
Transfer with the approval of the Comptroller old age assistance medical pool, \$60,000.00	60,000.00	
	<u>60,000.00</u>	\$372,000.00
	\$372,000.00	
Transfer approved by Governor and Council on May 31, 1957 to personal services, \$8,814.93	8,814.93	
	<u>8,814.93</u>	\$363,185.07
	\$363,185.07	
Further request pending for transfer to take care of class evaluations approved by the Personnel Commission, \$4,380.00	4,380.00	
	<u>4,380.00</u>	\$358,805.07
	\$358,805.07	
The Board has approved a request for the transfer of an additional \$121,000.00 to medical pool accounts to meet the department's obligation to suppliers of medical care through June 30, 1957 ..	121,000.00	
	<u>121,000.00</u>	\$237,805.07

Based on experience in the first eleven months of fiscal 1956-57 compared with first eleven months of fiscal 1955-56, the Board is of the opinion that it will require \$180,000.00 more state money to pay for medical care

for each year of the next biennium and this money has not been provided for in the budget.

\$237,805.07

On May 3, 1957, the Board authorized the Commissioner to negotiate a revised fee schedule with the dentists, which has been accepted by the dentists and which will increase the cost of dental care by \$20,000.00 a year in each year of the biennium.

20,000.00

\$217,805.07

On June 14, 1957 "the Board considered an increase of 4.5% in basic food allowances for recipients and an increase of \$4.00 per month to recipients eating in restaurants. The Board approved the increase for persons eating in restaurants but deferred action on general increase for basic food allowances until it had definite figures for balances at the end of fiscal 1956-57."

\$217,805.07

Funds necessary for increase in restaurant allowances, \$10,800.00

\$207,005.07

Funds necessary for increase in food allowances, \$119,811.42

The above analysis indicates a possible balance June 30, 1957

\$87,193.65

Comptroller's estimate of balances in the Governor's Budget

118,946.94

Deficit \$31,753.29

It should be understood that the figures used in this report are those submitted to this office by the four departments named in the resolution.

Very truly yours,

REMICK H. LAIGHTON,
Legislative Budget Assistant.

Our Father, God, who listens to the inward heart of every man and enters with love into the affairs of men; at this time we look and listen for Thee in the midst of great

concerns and heavy demands. Assure us that Thou art present and that in this presence Thou art speaking to us.

We ask to be forgiven for the times we have spoken and acted without regarding Thee. Break the barriers which block our vision, — hindering our striving, and open to us the ways of Thy purposes. Fix in our hearts the truth of steadfast love, and make us alert unto honest action. Help us to strive in humility, and keep us aware that we are Thy creatures put here to do Thy will. Through Jesus Christ our Lord. Amen.

The House met at 11:00 o'clock.

Joint Convention

Prayer was offered by Guest Chaplain Rev. Bruce Berry, pastor of the Chichester Methodist Church, who will serve as our Chaplain for the rest of the week.

Our Heavenly Father :

During this week which contains a holiday so important to us as Americans help us to remember the great sacrifices of those who founded our nation. Help us to remember that our freedom was bought by men and women whose high ideals led them to disdain personal comforts; by men and women who gladly gave their lives for a just cause.

May we today serve our country as unselfishly as they. May we never close our eyes to injustice or yield to expediency in the face of great need.

Thou, God, Who art the same yesterday, today, and forever and Who didst guide the patriots of long ago, guide us in our actions today, that in doing Thy will we may serve our fellowman as well.

In Jesus' name. Amen.

Salute to the Flag

Mr. Bloomfield of Claremont led the Convention in the salute to the flag.

By Committee on Rules (Mr. Davis of Conway), House Bill No. 445, An Act legalizing a certain budget meeting of the Carroll County Convention and budget meetings held pursuant thereto. To the Carroll County Delegation.

The question being on the motion.

Mr. Davis of Conway explained the bill and spoke in favor of the motion.

On a *viva voce* vote the motion prevailed.

House Bill No. 445 was read a third time, passed and sent to the Senate for concurrence.

Opinion of the Justices of the Supreme Court

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following opinion with respect to the constitutionality of Senate Bill No. 117 entitled "An Act relative to cemetery trust funds."

Towns are authorized by statute to hold in trust "gifts, legacies and devises made to them for the care of cemeteries and burial lots when the terms of the gift legacy or devise do not impose any liability upon the town beyond the amount of the gift, legacy or devise and the income thereof." RSA 31:20. Towns may likewise receive funds from cemetery associations or individuals for the care of cemeteries or lots, "and the income thereof shall be expended by the town in accordance with the terms of the trust or contract under which the funds were received." RSA 31:21.

Senate Bill No. 117 would amend *s. 20, supra*, by adding to the section a provision that "the income accumulation of a particular burial lot trust fund . . . may be used for the general care of the cemetery where said lot is located" subject to three qualifications: (1) that the terms of the trust do not otherwise provide; (2) that it can be reasonably anticipated that the income accumulation of the fund will not be required for the care of the particular lot in the foreseeable future; and (3) that if the income of a fund so used shall at any time become insufficient for the care of the particular lot, the town shall appropriate the funds necessary to maintain the lot. Since the bill provides no procedure for establishing whether the first two conditions are met with respect to a particular trust, it appears to be intended that diversion of the surplus income shall be made at the discretion of the trustees charged by statute with administration of such trusts. RSA 31:22-38.

The law is well established that trusts for the perpetual care of cemeteries and cemetery lots are valid charitable

trusts. *In re Byrne Estate*, 98 N. H. 300; *Webster v. Sughrow*, 69 N. H. 380; *Tuttle's Petition*, 80 N. H. 36. See anno. 47 A.L.R. (2d) 596, 615. Equally well established is the proposition that the administration of charitable trusts falls within the jurisdiction of courts of equity, which have unquestioned authority in appropriate circumstances to permit departure from the literal terms of such a trust by exercise of the power of *cy pres*. *Drury v. Sleeper*, 84 N. H. 98. The courts will exercise this power, however, only when the purpose for which the fund was established cannot be carried out, and diversion of the income to some other purpose can be found to fall within the general intent of the donor expressed in the instrument establishing the trust. *Pittsfield Academy v. Attorney General*, 95 N. H. 51; *Petition of Rochester Trust Co.*, 94 N. H. 207; *Boscawen v. Attorney General*, 93 N. H. 444, 445, and cases cited. If the trust instrument discloses no general charitable intent, as distinguished from the particular purpose for which the gift was made, the trust will fail, and its assets will be held by the trustee subject to a resulting trust in favor of the donor or his estate. See *Clark v. Campbell*, 82 N. H. 281, 288; *First Universalist Society of Bath v. Swett*, 148 Me. 142; IV *Scott on Trusts* (2d. ed.) ss. 413, 432.

The power of courts of equity to administer charitable trusts *cy pres* is so firmly established and so frequently resorted to, that the authority of the Legislature with respect to the disposition of charitable trust funds has not been much mooted. Prior to the establishment of American jurisprudence, the English Crown was endowed with prerogative power with respect to the disposition of funds left for charity in cases where the particular use intended was not specified, or if specified was illegal. Authorities in the field of trusts have expressed the view that the prerogative power of the Crown has no place in our jurisprudence. IV *Scott on Trusts* (2d ed.) ss. 339,1, 399.5. In the Restatement of the Law, *Trusts*, s. 399 *comment e*, it is said: "The prerogative power does not exist in the United States; it cannot be exercised even by the legislature, although the legislature can enact general rules as to the extent and the exercise of the judicial power of the court to apply *cy pres* property which is given for charitable purposes."

We are aware of no instance in which the exercise of prerogative power by the courts has been thought necessary or

proper in New Hampshire. In *French v. Lawrence*, 76 N. H. 234, a will before the court designated the particular object which the testator desired to promote, and his purpose was legal. Hence it was found unnecessary to consider whether the the court had jurisdiction of causes involving bequests for unspecified charitable purposes, or seeking diversion of funds from an illegal purpose to one which would be legal. See also, *Haynes C. Carr*, 70 N. H. 463, 465, 481.

The authority of the Legislature in such matters has been said to be limited to the enactment of "general rules as to the extent and the exercise of the judicial power of the court" (Restatement of the Law of Trusts, *supra*); and the legislative power to "control the administration of charitable trusts already created" is considered to be "limited by provisions of the federal and state constitutions." IV Scott on Trusts, *supra*, s. 399.5. Consistently with these principles, the Supreme Judicial Court of Massachusetts when called upon for an advisory opinion concerning a series of legislative bills relating to transfer or disposition of assets of certain charitable trusts, advised the Senate of that Commonwealth that while the Legislature might "enact general laws respecting the regulation of charitable trusts," such trusts "held upon trusts expressed in writing or necessarily implied from the nature of the transaction, constitute obligations which ought to be enforced and held sacred under the Constitution." The court continued: "It is not within the power of the Legislature to terminate a charitable trust, to change its administration upon grounds of expediency, or to seek to control its disposition under the doctrine of *cy pres*. Determination of the uses to which shall be devoted trusts no longer susceptible of execution according to their foundation is a well recognized branch of chancery jurisdiction . . . respecting which there is constant resort to the judicial courts for decision." *Opinion of the Justices to the Senate*, 237 Mass. 613, 617, 618. See also, *Bridgeport Public Library & Reading Room v. Burroughs*, 85 Conn. 310; IV Scott on Trusts, *supra*, s. 367.3.

In *Boscawen v. Attorney General*, 93 N. H. 444, *supra*, the town invoked the *cy pres* powers of the court, seeking authority to expend for the general care of a cemetery in that town the surplus income of a fund held in trust for the care of a particular lot in the cemetery. After reviewing the cir-

cumstances of the fund, and the purpose of the testatrix in establishing the trust, the court held that exercise of the power of *cy pres* would not be appropriate.

Senate Bill No. 117, if enacted into law, would permit use of the trust estate involved in *Boscawen v. Attorney General, supra*, for the purposes for which the court there concluded, under established legal principles, that it might not lawfully be used. In effect the bill would be an exercise of what amounts to a legislative power of *cy pres* with respect to all cemetery trusts having surplus income, without regard to established principles of law relating to the use of such funds, or the terms of the trusts so long as they did not expressly forbid the use.

We are of the opinion that this may not constitutionally be done by the Legislature. Such a course would seem to be an invasion of established equitable powers of the courts, and hence in violation of the Constitution, Part I, *Art. 37th*. In essence the bill proposes to "abolish the judicial function with respect to a subject essentially judicial in its nature . . . and substitutes for that judicial function a legislative determination" *Worcester County National Bank, Petitioner*, 263 Mass. 444. This the Constitution does not permit. *Art. 37th, supra; Opinion of the Court*, 4 N. H. 565, 572-573. See note, 101 U. Pa. L. Rev. 1087. See also, *Greenville v. Mason*, 53 N. H. 515, 518.

We therefore conclude that Senate Bill No. 117, if enacted into law, would be unconstitutional. So far as the purposes of the bill may be otherwise accomplished, this must be done through the courts by the application of established principles of law to the circumstances of particular trusts, as was sought to be done in *Boscawen v. Attorney General, supra*.

Whatever are the constitutional infirmities of the pending bill relating to cemetery trusts, I wish to add the observation that the Legislative representing a sovereign state may have more residual power over charitable grants, gifts and trusts — even though strictly it may not be a prerogative

power of *cy pres* — than the broad language of the advisory opinion of my colleagues indicates. *Opinion of the Justices*, 81 N. H. 573, 577-584; IV Scott, Trusts, s. 381, p. 2742 (1956); Anno. 40 A.L.R. (2d) 556, 561; *Trustees of Newcastle Common v. Gordy*, (Del.) 93 A. (2d) 509; *Church of Jesus Christ of L. D. S. v. United States*, 136 U. S. 1. Since that problem can be more advantageously considered and decided in a specific case rather than in an advisory opinion, it is preferable to make a final decision in a case which presents the problem concretely.

Taken from the Table Under Rule 48

Senate Bill No. 123, An Act prohibiting the trapping of beaver in Coos county for a limited period, was taken from the table.

Speaker's Ruling on Point of Order

The member from Campton, Mr. Willey, on Wednesday last raised the point of order whether or not the House, under the rules, could consider the amendment proposed by the Committee on Fish and Game, having previously voted to indefinitely postpone House Bill No. 266, An Act prohibiting open season for taking beaver in counties of Grafton, Carroll and Coos, on April 11, 1957 and having subsequently voted not to reconsider its action. The Chair has examined carefully the bills in question and the proposed amendment to Senate Bill No. 123 before making his ruling. In a previous discussion from the Chair, the Chair stated informally that his ruling on indefinite postponement would be based upon a substantial differ-

ence in the body of the bill under consideration as opposed to the body of the bill that had been indefinitely postponed. Applying that test, the Chair would base his decision on the point of order by determining whether the enactment of Senate Bill No. 123 into law would make the statutes substantially different on the subject than an enactment of House Bill No. 266. House Bill No. 266 would have outlawed the trapping of beaver in the three counties named while the proposed amendment seeks to outlaw it in the county of Coos and in a few towns in the Connecticut Valley in Grafton County. The Chair is of the opinion that this is a substantially different condition than would have prevailed under House Bill No. 266.

The Chair recalls also that there was some discussion of the amendment that would have limited House Bill No. 266 to Coos and the towns named in Grafton County under the proposed amendment to Senate Bill No. 123. The Chair searched to see if such an amendment was pending at the time House Bill No. 266 was indefinitely postponed and finds that it was not. The Chair, therefore, would rule that consideration of the proposed amendment by the Fish and Game Committee is in order and that action may be taken upon it this morning under the rules of the House.

The question being on the amendment to Senate Bill No. 123 as printed on pages 7 and 8 of the Journal for Wednesday, June 26.

(Discussion ensued)

Messrs. Kelley of Littleton and McMeekin of Haverhill spoke in favor of the amendment.

On a *viva voce* vote the amendment was adopted and the bill ordered to a third reading.

Taken from the Table

Mr. Green of Manchester moved that Senate Bill No. 117. An Act relative to cemetery trust funds, be taken from the table.

On a *viva voce* vote the motion prevailed.

Mr. Green of Manchester moved that further consideration of Senate Bill No. 117 be indefinitely postponed.

On a *viva voce* vote the motion prevailed.

Rules Suspended

Mr. King of Manchester moved that the rules of the House be so far suspended as to permit a public hearing tonight on Senate Bill No. 159, An Act establishing a new ward for the city of Manchester, not previously advertised in the Journal.

On a *viva voce* vote the motion to suspend the rules prevailed.

Whereas, a question has been raised concerning its constitutionality, therefore be it

Our Heavenly Father:

We thank Thee today for the freedoms which are ours in this great nation. As they were expressed by the late President Franklin Roosevelt we enjoy to a great degree freedom of speech and expression, freedom of worship, freedom from want, and freedom from fear. Grant that we may not hold them selfishly, but may we so work that everyone in this world may have these freedoms.

But, our Father, Thou hast given to every one of us the freedom to choose right from wrong. We can choose honesty in spite of great pressure. Help each of us to make our decisions as we are urged by our consciences enlightened by Thy Spirit.

Through Jesus Christ, our Lord. Amen.

We know, Lord, as Thou dost know, that men are capable of great injustices. History and current events as well record the multitude of instances of man's inhumanity to man.

But we seek to be just in all that we do. We remember the words of the prophet Micah: "What doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?" Help us to obey these inspired words today.

We pray in the Master's name. Amen.

Our Father, God, Thou who art the mighty actor in the affairs of history, yet never far from the hearts of anyone of us; refresh us with Thy Holy Spirit that we may see that our feet inhabit holy ground, and that our words and thoughts can not be hidden from Thy scrutiny. May Thy presence be so real to us that we will be more diligent in study, more pure in motivation, more sensitive to what is needful this day, and more zealous to do Thy will rather than our own. May our concern for program be grounded always in our concern for persons; and may our concern for persons be founded upon the rock of love and forgiveness. These prayers we speak that we may prepare ourselves to hear Thy voice and to find the courage to discharge our responsibilities in the faith of Jesus Christ our Lord, in whose name we pray. Amen.

Salute to the Flag

Opinions of the Justices of the Supreme Court

The Clerk announced receipt of the following opinions:

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following opinion with respect to the constitutionality of House Bill No. 402, entitled, "An Act relative to exemptions from the stock-in-trade tax." House Bill No. 402 would exclude from the category of taxable stock-in-trade: "personal

property in transit through this state as manufactured goods, wares, seed, feed, fertilizer, tools, supplies and merchandise which is consigned to a warehouse within the state from outside the state for storage or assembly in transit to a final destination outside the state, whether such destination is specified before or after the transportation thereof begins, shall not be taxed as stock-in-trade provided that said property in transit shall not remain in the state for more than nine months."

Over one hundred years ago Chief Justice Parker speaking for this Court said, "There is no doubt that the Legislature may provide, by general laws, for the exemption of certain classes of property from taxation, as well as exempt it, in fact, by omitting it in the description of property required to be taxed." *Brewster v. Hough & a.*, 10 N. H. 138, 142. See *Canaan v. District*, 74 N. H. 517; *Opinion of the Justices*, 76 N. H. 609.

The problem of the Legislature in selecting the proper subjects for taxation is a difficult one (*Opinion of the Justices*, 82 N. H. 561, 570, 575) since such selection produces an unequal distribution of the tax burden. But this inequality does not defeat that power since it is the result of every classification. *Id.* "In the selective process of classifying certain property for taxation and exempting other property the Legislature has a wide discretion which will be sustained 'provided just reason exists for the selection made.'" *Opinion of the Justices*, 95 N. H. 548, 550.

Just reason for excluding the personal property described by the bill from the classification of taxable stock-in-trade may be thought to exist because the excluded property includes goods in interstate commerce and goods temporarily warehoused within the state for not more than nine months which are types of property frequently classified in other states as nontaxable. See *Opinion of the Justices*, 95 N. H. 548, 551; *Opinion of the Justices*, 97 N. H. 533, 536.

In our opinion House Bill No. 402 does not conflict with our Constitution.

STEPHEN WHEELER

July 9, 1957.

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following reply to your request for advice upon the question of whether the proposed amendment to RSA 39:2 as contained in Senate Bill No. 149 appears to be in conflict with the Constitution.

The specific issue upon which advice is sought, as we understand it, can be stated as follows: If RSA 39:2 were amended as proposed, when an article in a town warrant called for the appropriation of a specific sum of money for a specific purpose and the voters acting thereunder voted to raise and appropriate a larger sum than that called for in the article would the statute permitting such action violate the constitutional rights of taxpayers? The question assumes that in those towns where the Municipal Budget Law (RSA ch. 32) is in force the total amount appropriated at the meeting would not exceed the limitations therein provided. RSA 32:8, 9.

The answer to this inquiry is in the negative, that is, a town could be authorized to so vote without violating the Constitution or the constitutional rights of any taxpayer.

Towns have only such powers as are granted to them by the State. *Leavitt v. North Hampton*, 98 N. H. 193, 197. They are bound by the limits imposed upon them by the Legislature from whom they derive their powers. *Moulton v. Beals*, 98 N. H. 461, 466; *State v. Goffstown*, 100 N. H. 131, 133.

RSA 31:4 provides that "Towns may at any legal meeting grant and vote such sums of money as they judge necessary for the following purposes." We are assuming in our answer that the object of the proposed appropriation is one that is duly authorized and that other applicable statutory provisions have been complied with.

RSA 39:2 provides that "The subject matter of all business to be acted upon at the town meeting shall be distinctly stated in the warrant, and nothing done at any meeting . . . shall be valid unless the subject thereof is so stated." It has long been the law of this state that the purpose of this requirement "is to inform the inhabitants of the business upon which they are called to act in the meeting, — 'to bring before the town substantially and intelligently the subject with which it has to deal.'" *Sawyer v. Railroad*, 62 N. H. 135, 158; *Tucker v. Aiken*, 7 N. H. 113, 125, 126. If the proposed bill were enacted the amendment itself would inform interested

persons that the meeting might lawfully appropriate a sum larger than that specified by the warrant. It is our opinion that it may be provided by statute that the specific sum of money called for by the warrant can be increased by the vote of the town without violating the Constitution or the constitutional rights of taxpayers.

God, Our Father, may Thy commandments be written upon our minds and hearts as laws of life. Lift us above petty interests and limited vision. Amid burdening responsibilities and mundane pressures prevent us from tabling Thy love to another day. Keep us from disqualifying the desires of the most insignificant citizen in the making of our decisions. With Thy Guidance we would not be more concerned to win favor or retain power than to maintain principles. Work through us, O God, that we may not play politics with Thee. May we enlarge our abilities, foresight, and unselfish devotion to Thy interests and to the affairs of this state. With the spirit of Jesus Christ within us we pray. Amen.

Come into our hearts and be with us; persuade us what we are to do; teach us what we must accomplish; be Thou above, the author and the end of all and judgments. Suffer us not to betray our trust, nor to disturb the order of justice, Thou who loves equity above all things. Let not ignorance draw us into devious paths, nor partiality sway our minds. Neither, let respect of riches or of persons affect our discretion.

But unite us to Thee by the gift of Thy grace, that we may never forsake the truth. May our words and counsels be in no wise at variance with Thee in this life, that in the life to come we may attain to everlasting rewards for works well done; we ask this of Thee, who alone, with God the Father and His Son, does possess a glorious name. Amen.

We thank Thee that Thou hast placed within us a vision of Thy truth and justice, and that Thou hast filled our lives with steadfast love. In our concern for one another and for our brothers throughout this state, make us faithful to the best that we know. Make us aware of the whims and fancies of our own hearts that we may turn from them to the things of more lasting worth. Give us courage to stand with firm conviction and yet with humility to know that we cannot stand at all unless Thou art our rock. Give us ears to hear and eyes to see that we may know Thy will this day and then go on to act and vote and live in the love of Jesus Christ our Lord, through whom we pray. Amen.

We come before Thee, not just because Thou art a God of Power and Might, but because Thou knowest and understandest humankind and art interested in all our ways.

Thou too, art a God of Wisdom and thus we ask that Thou wilt bestow upon these men and women who have come from the various parts of our fine state — the wisdom and interpretation of Thy Divine Will that they may so legislate that we shall all come under the sway of Thy Great Intelligence.

Endue them with the knowledge of Thy Presence that they shall not be given to confusion, but rather, that they may prove themselves, — men and women who needeth not to be ashamed, rightly dividing Thy Truth.

Joint Convention

Prayer was offered by the Acting Chaplain.

Our Father, upon whom we have called and to whom we have tried to listen, we repeat again from our hearts the same

deep desires for Thy strength and understanding. Though we speak of Thy love and search for Thy guidance, our lives grow dull and weary. Amid the demands of family, work and civic responsibilities our minds are tired; and even at prayer our spirits grow weak. O Lord, our God, break through the overcast of our lives and renew Thy growing spirit within us. Make vital again the enthusiasm and dedication which has placed us in this hall. Give us the confidence that other things will take their proper place when our work here is completed with honest devotion. We speak this prayer that we may be sure of Thy faithfulness to us and that we in turn may act with courage and justice for the well being of Thy people and the establishment of Thy kingdom, in the spirit of Jesus Christ Thy son. Amen.

Salute to the Flag

Mr. Cheney of Newton led the Convention in the salute to the flag.

Give us we pray a sensitivity to the deeper meaning of the problems we discuss so that the long range effectiveness of our actions may be true and upbuilding. Fill us with Thy Holy Spirit that we may respond freely and honestly to our fellow workers, that love may abound even in the midst of disagreement, that truth may stand fast even if our own desires must be laid aside. We pray for those who lead us and we pray for one another that in our work there may be harmony and decisiveness. Opinion of the Justices of the Supreme Court

To the House of Representatives:

The undersigned Justices of the Supreme Court submit the following reply to your request for an opinion as to whether any of the provisions of section 8 of Senate Bill No. 140, as amended, are unconstitutional.

Senate Bill No. 140, as amended and passed by the Senate, is entitled "An Act establishing the Berlin Airport Authority," and provides for the incorporation of the Authority as a body politic (s. 1) for the purpose of acquiring, maintaining and operating the Berlin Municipal Airport as well as auxiliary landing places and facilities in Coos County, S. 7. Journal of the Senate, June 18, 1957, pp. 785-789, 795-796. The bill is modeled after statutes establishing the Dover, Somersworth and Rochester Airport Authority and the Laconia Airport Authority. Laws 1945, c. 281; 1941, c. 272. Certain provisions of section 8 of the bill are substantially the same as provisions appearing in the earlier acts: "The establishment, ownership, operation and maintenance of said airport and all auxiliary facilities are declared to be for public purposes as an aid to national and state defense and for the convenience of the public, and the authority shall be regarded as performing a governmental function in carrying out the provisions of this act." Journal of the Senate, *supra*, pp. 786-787. See Laws 1945, c. 281, s. 5; 1941, c. 272, s. 8.

Section 8 of the bill also contains the following provisions which do not appear in the earlier acts: "The authority, the county of Coos, the city of Berlin and the town of Milan shall enjoy immunity from all tort liability in connection with said facilities and activities and the said immunity shall not be affected or lost by reason of the receipt of profit, fees, revenue, income, rentals or any particular or specific return whatsoever." Your inquiry relates particularly to whether the provisions last quoted would be unconstitutional if enacted into law.

The law is well settled in New Hampshire, apart from legislative enactments, that municipal corporations are im-

mune from liability for torts arising out of negligence in the performance of government functions. *Shea v. Portsmouth*, 98 N. H. 22; *Reynolds v. Nashua*, 93 N. H. 28. See *Kardulas v. Dover*, 99 N. H. 359, 360. Cf. *Resnick v. Manchester*, 99 N. H. 436; *Mitchel v. Dover*, 98 N. H. 285. The same immunity extends to counties. *Cushman v. Grafton*, 97 N. H. 32. The State itself enjoys a broader immunity against any suit to which it has not consented. *Moore v. Dailey*, 97 N. H. 278. As an agency of the State, the Authority which the bill would create would enjoy the sovereign immunity of the State, except as that immunity is waived by statute. *St. Regis Co. v. Board*, 92 N. H. 164. See *Eastern Grain Co. v. Currier*, 98 N. H. 495. While the bill would permit the Authority to sue and be sued (s. 9(a)) immunity from liability for torts would be preserved by section 8.

In the provisions of section 8 we see no violation of the Constitution. The receipt by a body politic of fees or compensation in connection with its activities does not conclusively establish that the activities are commercial and not governmental. "[An] enterprise does not become a private one merely because . . . financial benefit is incidentally derived . . ." *Fournier v. Berlin*, 92 N. H. 142, 144. See *Reynolds v. Nashua*, *supra*; *Cushman v. Grafton*, *supra*. Legislation such as Senate Bill No. 140 expressly providing that specified activities shall be regarded as the performance of a governmental function will be given effect if not patently contrary to fact. *Velishka v. Nashua*, 99 N. H. 161, 165.

The provision of air navigation facilities for public use has been held to serve a public purpose; and airports even if privately operated may be exempted from tax if available for public use. *Opinion of the Justices*, 95 N. H. 548. Similarly the establishment of air navigation facilities has been declared by general legislation to be a "public governmental function." RSA 422:17. See *Opinion of the Justices*, 94 N. H. 513, 514-515.

We therefore see no reason to question the validity of section 8 of Senate Bill No. 140, which relates solely to operation of public airfields by an agency of the State which is entitled to enjoy the State's immunity from liability for torts. The extent to which that immunity should be preserved or waived is purely a legislative question. See RSA 491:8; *Wise-*

man v. State, 98 N. H. 393; "Leviathan Bound — Sovereign Immunity in a Modern World," 43 Va. L. Rev. 529, 544-546.

Our answer to your inquiry is in the negative: the provisions in question, if enacted into law, in our opinion would not be unconstitutional.

Speak to our minds that we may know the worth of Thy gifts given for the well-being of all men. Fill us with Thy Spirit that our wayward feet may be turned toward Thee for pardon and rededication. Tear off the calloused skin of our selfish plans that we may be sensitive to the truth of Thy purpose. Wash off the bitter words of our wagging tongues that we may speak with purity the

motives of our work. In the Spirit of Jesus Christ we seek to know and to follow in the way of justice and peace that through the strength of our life together in this place we may be instruments of love in the wider community of this land. Thy will be done, O Lord. Amen.

Communication

July 23, 1957

Governor Lane Dwinell,
State House,
Concord, New Hampshire.
DEAR GOVERNOR DWINELL:

I came away from our lengthy conference this morning with this impression relating to the subject matter covered

in House Bill No. 402, which was referred to the Legislative Council by vote of the House this morning: You will request that a special subcommittee be appointed for the express purpose of studying and reporting its findings on the entire problem broached by the introduction and referral of this bill, namely:

1. That the subcommittee be empowered and directed to devote its entire attention to state policy and problems of industrial taxation.

2. That said subcommittee will study the ramifications of the present stock-in-trade tax, its administration, and elements of House Bill No. 402.

3. That the subcommittee will be empowered to seek expert and informed advisors in its effort to seek out a good and valid approach to the problem of industrial taxation.

4. That it shall decide upon, and publicize, a position and creative solution to this special field of taxation.

With this understanding I have agreed to withhold any effort on my part or to anyone associated with me to take this matter up on the floor of the House.

Sincerely,

E. HAROLD YOUNG

State of New Hampshire
Concord

Lane Dwinell, Governor

July 24, 1957

The Honorable E. Harold Young
House of Representatives
Concord, N. H.

DEAR HAROLD:

This acknowledges your letter of July 23 with respect to our recent conference regarding House Bill 402.

I believe that the subject matter covered by this bill, which has been referred to the Legislative Council is of vital importance to our State because of the major dependence which we have upon industry.

While we have had many studies of our overall tax structure in the past, we have never had a concentrated review of those taxes which bear most directly upon industry, particu-

larly the stock-in-trade tax. It would seem to me very appropriate that a study of industrial taxation and the stock-in-trade tax in particular be made prior to the next session of the Legislature.

I trust that the Legislative Council will see fit to follow the suggestions made in your letter and my office stands ready to cooperate to the fullest degree.

Sincerely yours,

LANE DWINELL

The Chair recognized Mrs. Brungot of Berlin who read the following excerpt from the last issue of "Your Senator Reports" by United States Senator Norris Cotton:

"Today I attended a Requiem High Mass for Herve J. L'Heureux. Thirty years ago he and I were classmates at law school here in Washington and had jobs in the Senate under the patronage of the late George H. Moses. Together we used to bone up on 'Cooley on Torts' and 'Williston on Contracts' in Senator Moses' office or in the corridor where Herve ran an elevator. Many a morning we ate together at the 'Experimental Kitchen' (which tested foods for the Army) in a temporary World War I structure on Constitution Avenue where you could get a hearty breakfast for 19 cents. In the years since, Herve has had a distinguished career in the Foreign Service — Clerk, Foreign Service Officer, Vice Consul, Consul, Consul General, and Head of the Visa Office of the State Department. When death came, his nomination by the President to the rank of Career Minister was pending. As a member of the Senate, I was able to help get his appointment confirmed posthumously. As a Career Minister and a veteran, he was buried in Arlington Cemetery with the same honors accorded a three-star General. As I said goodbye to Herve, I thought of how far we had both been able to come since we first met in Washington — a Franco-American lad from Manchester

and a green farm boy from the hills of Warren. Again I say, the United States of America is 'a pretty good place to live.'"

Mrs. Brungot of Berlin moved that when the House adjourns today it be in honor of the memory of Herve J. L'Heureux.

On a unanimous *viva voce* vote the motion prevailed.

Prayer was offered by Acting Chaplain, Rev. Tom Tucker.

Almighty God, our Father, Who knows the secrets of every heart and Who is acquainted with the thoughts and activities of each person here. We are thankful that even when we ignore Thee, Thou art yet the faithful Lord. Forgive us for the things we do which are not based on faith. Grant us pardon, we pray, for our negligence and indifference in the processes of democratic rule. Confront us with Thy presence that we may grow into mature manhood. Make us discontent to let things happen, merely because we are afraid to stand with courage in the face of difficulties. Afflict us into participation, that we dare not come here merely to occupy a seat. Make us attentive and to apply our hearts unto wisdom, that in loving Thee we may show concern for our neighbor, and be steadfast in the way of justice and peace through Jesus Christ, our Lord. Amen.

O Merciful Father, we turn to Thee at the start of another week here, praying that Thou wilt draw nigh unto us and guide us in our undertaking. For many weeks now this great court has worked for the upbuilding of the community of this State. Be real in their heart, O Lord, that these here gathered may know thy love and comprehend thy purpose. Give them strength to be faithful representatives of the people: zealous for the truth as it comes from Thee; vigorous in action that the people may benefit; steadfast in faithfulness that Thou art yet the Lord working through them. O Lord prevent it that at this late date these minds grow dull and these feet become restless. Give them an urgency in their work, yet even more make them wise and careful, that the consequences of every action may add to the harmony, justice, and confidence of this community, through Jesus Christ, our Lord. Amen.

Salute to the Flag

Communications

DEAR DOUG:

Would you please thank the people of the House for the resolution sent me during my great bereavement. It will always be a cherished possession.

Sincerely,

LUCIE WESTON.

DEAR MR. SPEAKER:

You were so kind to take time to send words of comfort to me. I only wish in some way I could comfort you, for we do indeed share a loss.

Joe gave his life, as Father Grill said at St. Mary's, principally because he exhausted himself physically for love of his fellow being." This is so very true that I, as his wife — having known this for a long, long time — never thought before that anyone else would understand.

When Joe came home to Appleton, the heart and soul of this country was standing along the roadside on the 30 mile drive from Green Bay. It was all of that that made Joe and all of that to which he dedicated his life. It was the reason for his sacrifice of personal comfort, the reason for his courage to withstand being alone at times.

I cannot help but feel, however, that his sacrifice of personal comfort, his aloneness at times — along with that of

many unknown and unheralded men — will have been for nought unless we see the purpose of the immense drive that was his. Knowing Joe as I do, I know he would be impatient with the thought that we simply mourn his passing or praise his life. God had purpose in both of these. The battle Joe fought so fearlessly and with such insight is not over. It will only end, as Joe so often said, with victory or death for our civilization.

Joe once said in answer to the question: "What can I do to help?" — Look to your schools, search behind the printed word, give purpose to and demand a contract from the men you send to man the watchtowers in Washington. If everyone of Joe's friends took that suggestion to heart, I would then know God's purpose had been done.

May I add an afterthought I know Joe would share. That is, never underestimate your power as a citizen. When Joe walked into his first open clash with the wrecking crew of our nation, he had in his mind — and this he has written — the "thought of those real people who are the heart and soul of America; thoughts of the young people in my office, toiling night and day . . . thoughts of the many young men, friends of mine, who went to their death in the Pacific for what they thought was a better world — those thoughts convinced me that this fight I had to win."

Perhaps now a few more will stop to think that a man with the intellect and the courage, the drive and the honesty, a man such as Joe — with his love for life — could not have spent all that without reason. Perhaps a few more will search their minds and step with decision to the side of right.

With sincere personal regards,

JEAN McCARTHY.

The Chair ruled that such could be shown in the records in the absence of objection from the members.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1. *Sweepstakes.* Amend RSA 284 by inserting after section 21 the following new section: 284:21-a. *Authorization.* Within the enclosure of any race track where is held a race or race meet licensed and conducted under this chapter, but not elsewhere, the commission is hereby authorized and directed to conduct two sweepstake races in each calendar year, and in connection therewith and only within said enclosure, the commission is authorized and directed to sell tickets on said sweepstakes races.

I. The commission shall make rules and regulations for the holding and conducting of such sweepstakes races and the sales of tickets thereon not inconsistent with this section; shall be empowered to rent or lease space within said enclosure where it conducts sweepstakes races; shall be empowered to employ such technical assistants and employees to carry out the provisions of this section and to fix the compensation thereof as may be necessary; shall establish and fix the money or prizes to be awarded horses which place in said sweepstakes races; shall establish the price for which tickets upon said sweepstakes races shall be sold; shall establish the method whereby tickets sold upon said sweepstakes races shall be determined to be winning tickets; and shall establish the money or prizes to be awarded holders of winning tickets.

II. Notwithstanding any other provisions of this chapter, the proceeds derived from the sale of such tickets after payment of all prizes or moneys and the payment of all expenses of the commission incurred in connection with the conduct of said races and the sale of said tickets thereon shall be covered into the general funds of the state.

III. There is hereby appropriated for the purposes of carrying out the provisions of this section the sum of ten thousand dollars which sum shall be a charge upon the racing fund as established by section 2 of this chapter.

IV. The resale of tickets upon said sweepstakes races shall be prohibited and shall be unlawful.

V. Transportation of said tickets in interstate com-

merce by any person other than the original purchaser thereof shall be unlawful.

2. *Effect on Other Laws.* Amend RSA 284:34 by inserting after the word "pools" the words, or to the sale of sweepstakes tickets, so that said section as amended shall read as follows: 284:34. *Effect on Other Laws.* Sections 1 to 4 of chapter 338, RSA shall not apply to parimutuel pools or to the sale of sweepstakes tickets provided for herein.

3. *Takes Effect.* Notwithstanding any other provisions of law this act shall take effect upon its passage.

Speaker's Ruling

The Chair rules that the amendment offered by the member from Keene, Mr. Pickett, is not in order for the following reasons:

1. Because the House has already disposed of the subject matter of this amendment by virtue of its vote whereby it adopted the resolution of the Committee on Ways and Means that House Bill No. 322, An Act relating to the conduct of sweepstake races and the sale of tickets thereon, is inexpedient to legislate. Consideration of this amendment, without a suspension of the rules, would in the opinion of the Chair constitute a violation of Rule 30 which requires that a motion for reconsideration or notice of reconsideration be given on the same day the vote was passed or within the first one-half hour of the next legislative day.

2. Because the subject matter of the amendment is not germane to the subject matter of the bill under consideration, namely, Senate Bill No. 137, An Act exempting totally disabled persons from the payment of poll and head taxes.

Mr. Pickett of Keene challenged the ruling of the Chair.
Seconded by Mr. Sheridan of Berlin.

The question being, Is the Speaker's ruling correct?

(Discussion ensued)

The Chair waived his privilege of speaking first on the question.

At the request of Mr. McMeekin of Haverhill, the Chair explained the legislative history of House Bill No. 322, An Act relating to the conduct of sweepstake races and the sale of tickets thereon.

Messrs. Pickett of Keene and Duke of Hanover spoke against the Speaker's ruling.

Messrs. Davis of Conway, Pillsbury of Manchester, Soucy of Manchester, Ward 1, Green of Manchester, Lamprey of Moultonborough, Townsend of Lebanon, McMeekin of Haverhill, Crane of Washington, Deans of Miford and Rollins of Alton spoke in favor of the Speaker's ruling.

Mr. Duke of Hanover spoke a second time against the Speaker's ruling.

Mr. Pillsbury of Manchester spoke a second time in favor of the Speaker's ruling.

Mr. Davis of Conway spoke a second time in favor of the Speaker's ruling.

Mr. Pickett of Keene spoke a second time against the Speaker's ruling.

The Chair spoke in defense of his ruling.

Mr. Pickett of Keene withdrew his motion to challenge the Speaker's ruling.

Mr. Pickett of Keene moved that Senate Bill No. 137 be committed to the Committee on Ways and Means.

The question being on the motion.

On a *viva voce* vote the negative prevailed.

Mr. Betley of Manchester requested a division.

A division being had, 77 members having voted in the affirmative and 191 members having voted in the negative, the motion to recommit did not prevail.

Mr. Soucy of Manchester, Ward 1, moved that further consideration of Senate Bill No. 137 be indefinitely postponed.

On a *viva voce* vote the motion prevailed.

Reconsideration

Mr. McMeekin of Haverhill moved that the House reconsider its vote whereby it indefinitely postponed further consideration of Senate Bill No. 137, An Act exempting totally disabled persons from the payment of poll and head taxes.

On a *viva voce* vote the motion to reconsider did not prevail.

If the form of policy authorized by paragraph 8 hereof does not contain an arbitration clause approved by the insurance commissioner, the insured may have the liability of the insurer

determined by a trial of the issues by the Superior Court Justice, so that said section as amended shall read as follows:

Nothing contained in paragraph 8 hereof shall be so construed as to deprive an insured person in litigating his claim against an uninsured person from a right of trial by jury. If the form of policy authorized by paragraph 8 hereof does not contain an arbitration clause approved by the insurance commissioner, the insured may have the liability of the insurer determined by a trial of the issues by the Superior Court Justice.

Amend section 8 of said bill by striking out the same and inserting in place thereof the following:

notifies the insurance company in writing that, in his opinion, the form of the policy does not comply with the laws of the state. Notification of his approval or disapproval shall be given in writing within said period. No such policy shall be issued or delivered in this state with respect to a motor vehicle, trailer or semi-trailer registered in this state unless coverage is provided therein or supplemental thereto in amounts or limits prescribed for bodily injury or death for a liability policy under this chapter, under provisions approved by the insurance commissioner, for the protection of persons insured thereunder who are legally entitled to recover damages from owners or operators of uninsured motor vehicles, trailers, or semi-trailers and hit-and-run motor vehicles, trailers or semi-trailers because of bodily injury, sickness or disease, including death resulting therefrom. The insurance commissioner shall approve a form of policy which contains the name and address of the insured, a description of the motor vehicles and trailers or semi-trailers covered, with the premium charges therefor, the policy period, the limits of liability as between the insured and the insurance company, and an agreement that insurance is provided in accordance with and subject to the provisions of this chapter. The policy may provide that the insured, or any other person covered by the policy shall reimburse the insurance carrier for payment made on account of any loss or damage claim or suit involving a breach of the terms, provisions or conditions of the policy; and further, if the policy shall provide for limits in excess of the limits specified in this chapter, the insurance carrier may plead against any plaintiff, with respect to the amount of such excess limits of liability, any defenses which it may be entitled to plead against the insured, and any such policy may further provide for the prorating of the insurance thereunder with other applicable valid and collectible insurance.

9. *Required Provisions.* Amend the first paragraph of RSA 268:16 by inserting after the word "policy" in the first line the words, except as to coverage providing protection against uninsured motor vehicles, trailers and semi-trailers required by section 15 of this chapter, so that said paragraph as amended shall read as follows: A motor vehicle liability

Prayer was offered by Guest Chaplain, Rev. John P. Mathis, Associate Minister of the South Congregational Church of Concord.

O Thou Who hast brought proud men to their knees, and hast raised up the humble to great wisdom and courage, we earnestly seek Thy presence here this day.

We ask that Thou would grant us the courage to see our task in the light of truth:

If we bring with us a hardened point of view, help us to stand outside it for a moment, and see that point of view as others see it; that we may understand both them and ourselves.

If we bring with us an elevated idea of our position in this body, then help us to see that, in truth, our role is the role of humble servants, with a duty to accomplish our very best for those whom we represent.

If we bring with us an idea that this is a hallowed place, or a place of greatness; then bring to us the wisdom to see that it is only so hallowed and great as the works that are accomplished here.

We know, O God, that we are human, and given to many faults; Therefore, we pray for the cleansing of our hearts by Thy Spirit, as we go about our work. Amen.

Salute to the Flag

Mr. McMeekin of Haverhill led the Convention in the salute to the flag.

Survey of State Institutions

One of the functions of the State Institutions and Public Welfare Committee has been to make field trips to each and all of the state operated institutions with the purpose of evaluating the programs in operation at each location. The composition of this committee, in terms of personnel, has formulated an excellent cross section of experience and training. The diversity of this group has tended, in the estimation of the writer, to give the legislative body a committee which has been unusually functional and objective in its analyses and recommendations concerning our state institutions.

The genuine interest of committee members is clearly

illustrated by the fact that, of the twenty meetings held for the group, the average attendance was seventeen, out of a possible total of twenty-one.

It should further be stated that any success or credit which is due the committee must, to a considerable degree, be directed to its able and energetic chairman, Mr. J. Edward Bouvier.

Laconia State School

FEBRUARY 20, 1957:

After considerable planning by our chairman, the Laconia State School was chosen as the first institution to be visited and on the above-stated date the trip was made.

We arrived in Laconia about noontime and were greeted at the school by Superintendent Hungerford and his assistant. After a brief tour of inspection our group was served lunch in the dining hall. A more concentrated and detailed tour continued after lunch at which time all members of the committee were given an excellent opportunity to observe the routines followed by the attendants in charge of the various buildings.

Some current trends of the school were very pleasing to note. One was impressed with the girls who served us our lunch. Their correct and courteous manner and understanding of proper procedure exhibited during the course of the meal proved, beyond doubt, that they had received very adequate instruction and, even more significant, were able to follow through with the instructions. It would appear that, for girls of this type, rehabilitation was not only possible but probable.

Another encouraging trend was in evidence as we visited the new dormitory for boys. Here was exhibited planning and foresight by Superintendent Hungerford in making the surroundings and physical facilities as warm and homelike for the youth as one might conclude could be possible in institution living.

One could not help but note the need for a larger personnel to adequately care for the number of inmates. In the final analysis, it is feasible to state that Superintendent Hungerford has utilized to the fullest extent the facilities which are at his disposal in this institution.

State Hospital

FEBRUARY 27, 1957:

It is safe to say that relatively few of our citizens can realistically comprehend the size and scope or are aware of the facilities which are available at the state hospital for treating both the mentally and physically ill.

The committee was made aware of the above after a very interesting and intensive tour of each and all units of the hospital. For example, the X-ray, physio-therapy and laboratory equipment represent the most modern and up-to-date treatment facilities that would be considered essential in a hospital of this type.

A most comprehensive and detailed history of the state hospital was given us by Dr. Earl K. Holt, able superintendent. His definition of this institution, "a city within a city," is well-taken as one critically observes and analyses the tremendously diversified number of activities in operation at the numerous locations of the hospital span.

It is strongly felt by this committee that the needs of this institution should be adequately provided for in the future years of its existence because of the invaluable work being carried on for the citizens of this state.

State Prison

MARCH 27, 1957:

On the above date, the committee journeyed to the State Prison where we were met by Warden Parker Hancock. Mr. Hancock personally conducted us through the many departments and explained clearly and concisely the type of work being done by the inmates. He was most helpful in stating the rules and regulations which necessarily govern prison life.

Besides the manufacture of tile, all number plates for automobiles and boats in New Hampshire are stamped and enameled. Wordworking is carried out extensively and the products are used in the various state institutions. There is a large library which is used extensively. Hobby-craft work is done during the evenings by those who desire in the cells. Extra woodworking is done on free time under supervision.

The farm activities are numerous. This particular phase of the institution reflects great credit on its supervisors and those who work in this particular industry.

This prison is classified the maximum security type being rated as one of the finest in the nation. The person directly responsible for this high rating is the warden.

Soldiers' Home

APRIL 10, 1957:

The committee spent an entire afternoon at the Soldiers' Home in Tilton. Commandant Wendall Crowell gave us a great deal of time in answer to questions in connection with routines and regulations governing the residents of the institution. Procedures relating to leaves of absence were explained in detail. These leaves are liberal and frequent as long as regulations are honored.

Members of the committee visited the various buildings which included the dining Hall, infirmary and recreation room. Some of the residents were busy working at productive hobbies along the lines of art or woven articles. These articles are sold for personal gain by the soldiers.

On the whole, the residents seemed contented but, as is typical in most institutions, time apparently passes rather slowly.

It is felt that the discontinuance of the farming program is an unfortunate circumstance. This condition was necessitated due to lack of interest and physical inability of many of the residents.

It was noted that the ratio of actual number of residents to the actual capacity was rather unbalanced. (There are facilities at present for twice as many residents.)

The buildings and grounds are in excellent condition.

In conclusion, it should be stated that the commandant is doing a creditable piece of work in this difficult assignment.

Industrial School

APRIL 17, 1957:

The committee trip to the Industrial School was one which gave much enlightenment on the problems associated with the admitting to and the release from this institution. These problems are directly associated with the courts of the state whose power is invested to commit boys and girls to this school who are judged to be delinquent.

During the course of our visit, Superintendent East explained the use of each building. We were privileged to observe actual classes in session in the school building. The entire physical plant is one which is attractive and functional in terms of providing an environment which is so badly needed for the quality of boy or girl sent to this institution.

Excellent farm facilities provide meaningful tasks for boys. Girls do the major part of the work in the institution's laundry.

It was the feeling of the committee that an environment conducive to rehabilitation exists at the Industrial School. Mr. East reported that the physical needs of the institution have been provided well but there is a rather urgent need for a resident psychiatrist who could spend the required amount of time in counseling those residents with serious personality disorders.

In conclusion, conditions appear to be healthy from all points of view at this institution.

Glenclyff Sanatorium

JUNE 12, 1957:

The visit to this sanatorium was particularly interesting and stimulating to the members of this committee. The very beautiful setting is, in itself, conducive to good, healthful living. The building units are very strategically planned in that they are all connected by tunnel to expedite the work necessary under any adverse conditions. The ability of this institution to develop its own electrical power is not only unique but a most decided advantage in terms of the over-all operation of the plant. The waters of a nearby brook have been impounded to keep the turbines in continuous action. Every precaution has been taken whereby any unusual form of catastrophe could not interfere with the proper functioning of the hospital.

A guided tour of the facilities was made with Dr. Kasheta and his business manager. The cheerful attitude of the patients was very much in evidence and signified the fine rapport which, undoubtedly exists, between the staff members and those confined to the institution.

It is an encouraging sign that, even with the closing of Pembroke, Glenclyff is not filled to capacity.

It is felt that this institution is operating at maximum efficiency due to the fine cooperation which exists between the corps of nurses and the medical staff.

Plymouth Teachers' College

JUNE 12, 1957:

The committee visit to Plymouth Teachers' College could not be arranged during the regular school year. This fact brings to light the limitation placed on the committee to adequately evaluate the space shortage of classrooms.

Dr. Hyde conducted a tour of the various campus buildings. The newly constructed auditorium is a magnificent structure and one that the community as well as the college may be proud of. It was noted with interest that much renovation was taking place at Livermore Hall with the gradual conversion of this building into classrooms. This conversion includes the third story which is very difficult to reach because of its outmoded architecture and far too many stairs.

It would appear that the space now used for parking by the townspeople should be a permanent part of the college grounds leading to the auditorium.

This institution deserves much consideration in terms of its future needs in order that it may fulfill its important objective of training teachers for the state.

Dr. Hyde should be commended for his ability to utilize plant space to the maximum point.

Child Guidance Clinic

JUNE 19, 1957:

The committee was within easy access to the newly constructed building which accommodates the offices and therapy rooms of the New Hampshire Child Guidance Clinic.

Dr. Philbrook, Director of the Clinic, gave us a tour of the physical plant and then answered questions in a group panel.

Dr. Philbrook pointed out the difficulty of attracting specialists in the field of mental hygiene to come to New Hampshire for the meagre salaries her department is able to offer. She stated that she has lost many staff members to other states which were able to offer much more lucrative and attractive salary schedules. She feels that the need for this type of service is increasing steadily but the facilities which are

available in New Hampshire become progressively lessened. There is apparently a great need for more public understanding in terms of getting a clearer picture of what we mean by mental health.

Dr. Philbrook stressed the importance of the preventative phase of mental illnesses. In short, if cases can be analyzed and treated when early symptoms are noted, particularly with returning the individual to adequate functioning in terms of personality development.

We, as a committee, stress the importance of this department concerned with the mental health and welfare of children of the state.

University of New Hampshire

JULY 3, 1957:

Our visit to the University of New Hampshire brought out the point most vividly that we have here in this state an old but fast growing institution of higher learning. This university is one which is recognized for its high calibre of instruction and well prepared graduates.

It is significant to note that the university is growing by leaps and bounds. The engineering department, in particular, is expanding to meet the ever increasing demands of industry for more and better equipped engineers. Plans have been designed and accepted for a massive new dormitory for men. The shortage of space for class-room use was apparent at this institution of learning. Expansion is the key word as one attempts to evaluate just what is taking place at Durham.

It is highly important that the needs of this institution be weighed and evaluated in terms of providing the type of higher education which the citizens of New Hampshire rightly should expect and require for the youth of the state.

In this area of mass education, in order to provide facilities for the increasing number of students who seek college educations, this state must expect to provide for an ever expanding building program at Durham. If this cannot be accomplished, many worthy boys and girls will not be able to gain entrance for university training. In short, lack of physical facilities will necessarily curtail enrollment.

Keene Teachers' College

JULY, 1957:

This trip provided the committee with an opportunity to visit Keene Teachers' College during the progress of the summer school session.

Dr. Young conducted a tour of the facilities. The new dormitory for men is a well built and modern structure which has a capacity of 150. Much renovation has taken place in the vocational building and it is anticipated that work will soon start on the new addition to this building. Plans were discussed for the new classroom building which the legislature has provided during this session.

This institution, in order to train teachers in the numbers necessary for the schools of New Hampshire, must continue to expand its physical facilities.

It must be noted that there is a definite need for more instructors to adequately provide for the large number of students. The student-teacher ratio, at present, makes instruction a difficult task.

If the committee could make one recommendation for this institution, it would be to provide an underground tunnel from the campus to the library in order to make passing across the busy Main Street safe and less nerve wracking.

In conclusion, we must be cognizant of the needs of both Keene and Plymouth in terms of training our future teachers for New Hampshire.

This report has been prepared as a part of the work assignment by the writer as requested by the chairman of this committee, J. Edward Bouvier.

Signed:

ROY L. TERRILL,

Representative from Keene, Ward 1.

Afternoon Session

Mrs. Martin of Littleton, for the committee appointed to wait upon His Excellency, the Governor, and inform him that the legislature has completed its duties, reports that they have attended to their duties.

The report was accepted, and His Excellency Lane Dwinell, then came in and delivered the following message:

Governor's Message to Prorogue the General Court

The contrast between the beginning and the ending of a General Court is more than a contrast between winter and summer. It is the contrast between eager people and tired people. More importantly, it is the contrast between fond hopes and solid accomplishments. What is said in an inaugural address or a budget message means little if it cannot be translated into definitive action. It is deeply satisfying to summarize briefly this afternoon the actions of the 134th general court in terms of success rather than of failure.

In the discharge of your duties and responsibilities as the people's elected representatives under our democratic form

of government, you have considered thoughtfully and diligently some 739 bills and resolves, covering a multitude of subjects and principles. Of these bills, you have enacted 438 into law, which have to a great extent fulfilled the promises made by you and by me, individually or collectively to the people of New Hampshire.

As governor, I wish to offer you my heartiest congratulations on the work you have accomplished.

On two previous occasions during this session, I have had the pleasure of appearing before you for the purpose of offering assistance by the executive department, in effecting certain specific betterments and improvements for residents of our state. In the main, you have attained these goals. A broad analysis of your legislative achievements discloses that you have appropriated for the coming biennium thirty-eight million dollars from the general funds for the operation of our state government, this having been accomplished without the imposition of any new forms of taxation. In addition, you have seen fit and proper to appropriate nearly eighty-eight million dollars to meet the greatly expanded activities of the department of public works and highways, thereby assuring to the users of our roads a continued improvement in our highway system through the state.

My budget recommendations early in the session were most carefully screened and thoroughly prepared. It is pleasing to note that during the six months while you applied yourselves to the major task of reviewing a total general fund budget of \$38,000,000, you have increased the recommendations made by me in an amount of only \$375,000, or less than one per cent. It is personally gratifying that out of a total number of approximately 2,000 separate appropriations or line items, you have seen fit to make no changes whatsoever in more than 85 per cent of my recommendations.

With the increase in population in New Hampshire, as well as throughout the nation, you have squarely met one of the most pressing of our problems in the field of education by enacting legislation to provide for expansion of facilities at all levels of our educational system. At the local level, you have provided an increase in funds to aid the needy school districts, and, for the first time in many years, have met the full requirements of the equalization formula. You have placed

the school construction aid program on a permanent basis with a substantial increase in funds. To meet the demand for more teachers you have wisely expanded the facilities at the Keene and the Plymouth Teachers' colleges by approving the construction of additional classroom, dormitory and other facilities.

Establishment of a scholarship fund at the two technical institutes, plus appropriations of both capital and operating funds will assure a continuing supply of excellently-trained technical young men for our New Hampshire industries.

In the field of higher education you have appropriated in excess of ten million dollars to the University of New Hampshire, of which five and one-half million dollars is for the construction of class-rooms and dormitories. In order that the teaching profession may be more attractive to those individuals who devote their lives to the education and welfare of our people, you have provided a more remunerative and better-balanced retirement plan, by integrating the Teachers' retirement system with the federal social security program.

While I can report to you that only this morning the commissioner of education told me that in his judgment this general court has done more for public education than any other in the history of the state, I cannot feel, even so, that we did as much as we should. Our inability to increase and properly finance the state's aid for needy school districts represents, if not a major failure, at least the most important piece of business which you have left unfinished. Adoption of our suggestions for increasing state aid for education would have served the two-fold purpose of further improving the quality of our public schools and giving added relief to the local property taxpayers.

In a period of prosperity, with the ever rising cost of living, you have properly recognized the compensatory value of loyal employees of the state by granting a salary increase of five million, seven hundred eighty-eight thousand dollars for the biennium, not including pay raises that you also provided for employees of the probate, superior and supreme court.

In the field of public health, welfare and institutions, you have conscientiously given substantial consideration to the children of our state, in order to keep New Hampshire in its enviable position of having one of the lowest rates of juvenile

delinquency in the nation. By restricting the sale of dangerous weapons and by more vigorous control of narcotics: by protecting minors in adoption proceedings and by encouraging the use of foster homes for neglected and delinquent children, in preference to institutional supervision, and by a more direct controlling of the home of the delinquent parent, you have committed New Hampshire to a betterment of its already fine delinquency record.

The capital appropriations made for our state institutions, as well as those increases in personnel granted to the state hospital and Laconia state school, assure a high level of custodial care and provide adequately for projected estimates of population at these institutions.

May I, also, at this point, commend you for your acceptance of my recommendation for a complete mental health survey of our state facilities. This is a progressive, forward step, vital and necessary to assure proper future developments based on the best advice obtainable.

The military program within the state, as well as the rights of veterans, have been reviewed, expanded and improved. Continuing the building program for the construction of state armories, you have appropriated three hundred eighty thousand dollars, representing the state's share in the construction of new armories at Concord, Nashua, Wolfeboro, Keene, and have completely revised the antiquated provisions of our old militia law, in order to properly reflect modern organizational structure in keeping with modern methods of combat and defense. Those veterans entitled to payment of the Korean bonus have been properly recognized for their services in prior wars, by your appropriation of one million one hundred fifty thousand dollars, and legislation has been enacted to afford them further protection in time of adversity by liberalizing the mortgage provisions relative to their homes.

Labor has long been the backbone and bulwark of our economy and you have enacted legislation that continues to recognize its important place in our business structure. You have done this by raising the minimum wage law, by increased protection of the unemployed and by increasing the maximum weekly benefits under the workmen's compensation law.

For many years, both the federal and state governments have by legislative direction endeavored to make possible the

reduction of working hours of those who labor in government service, as well as in private industry. However, in our state institutions and in certain other departments of government, many employees have had a basic work week in excess of 40 hours. It has been of constant concern to me that in a progressive, enlightened, American society, the sovereign state of New Hampshire has tolerated a double standard of working hours within its own family. In the recent salary increase for all state employees, you have very wisely incorporated a provision effective July 1, 1958 leading to the elimination of this inequitable situation.

Your recognition of the industrial development of our state is certainly worthy of further commendation. Such actions include the increased appropriation to the industrial division of the planning and development commission and the increased borrowing power of the industrial park authority from one to two million dollars. The creation, with funds to operate, of an economic survey group to study the varied and complex economics problems of our communities is further good indication of your concern for the industrial development of New Hampshire.

New Hampshire has long enjoyed the reputation of pioneering in various fields of legislation in the best interests of its citizens. You have maintained this enviable position by extending to the people of New Hampshire added protection against irresponsible motorists. You have given protection against personal injury to our insured motorists by enlarging the standard policy of insurance to extend to bodily injuries suffered as a result of wrongful acts of irresponsible motorists. This can properly be termed a "New Hampshire Plan" because it is to the combined credit of the New Hampshire insurance industry and the members of this General Court that a law has been enacted, in what has been for decades one of the most difficult and controversial matters of legislation. To me this was one of the most noteworthy accomplishments of the session.

Equally of importance in protecting the New Hampshire motorist is the strengthening of the financial responsibility phase of our motor vehicle law which will preclude the careless and negligent operator from obtaining a driver's license

and from operating upon the public highways of the state of New Hampshire without the required financial responsibility.

In the field of recreation you have also been a pioneer in the creation of a regulatory body to assure to the people of New Hampshire, as well as our visitors, that our uphill tramways and ski devices will meet higher standards of construction and operation. Passengers thereon can be assured hereafter that the technological developments within this area of transportation are in the best interests of their own security and well being. I am sure that our sister states engaging in this type of recreation will enact similar legislation in the years to come for the protection of the residents and visitors.

It is also appropriate to commend you for your foresight in improving the skiing facilities at both Cannon Mountain and Sunapee, not only by the addition of new lifts but also by the expansion and enlargement of other facilities.

It was apparent from the very outset that your record would be one of marked achievement when, early in the session you concluded an effort which has been twenty years in the making. By an overwhelmingly large vote, you enacted into law the Merrimack River Flood Control Compact, which joined the State of New Hampshire and the Commonwealth of Massachusetts in a mutual agreement to stem the flood waters of the Merrimack river and its tributaries.

With this legislative record which I have briefly outlined, you can return to your homes with the assurance that the people of New Hampshire will recognize the value of the service you have given your state.

As I come to the formal act of proroguing this session of the General Court, I can foresee as of now only one circumstance which might make it necessary for you to reconvene in a special session. There is pending in the state's highest court, a case concerning the utility franchise tax, which has been a source of general fund revenue for more than 25 years. Only the final decision of the court can advise us to what extent, if any, the state's current financial position may be impaired. You have my assurance that should such an impairment occur, I will submit recommendations for the replacement of revenues from the same general sources they are now obtained.

Having executed all acts and resolves of this General

Court which have been presented to me, and having been informed by a joint committee of your bodies that you have completed the session and are ready to adjourn, I do, by the authority vested in me as Governor, hereby declare the General Court of New Hampshire adjourned until the last Wednesday in December, in the year of our Lord one thousand nine hundred and fifty-eight.

Mr. Pickett of Keene sang "When You Come to the End of a Perfect Day."

Mrs. Currier of Rochester offered the following Benediction:

Almighty God, Creator of all things; into Thy holy keeping we commit ourselves this day as our endeavors and our work of this session is finished. Bless, and strengthen all that has been ably done; pardon whatever has been left undone or done amiss, and grant that as we return to our accustomed tasks, we may learn wisdom from the past, and find the comfort of Thy leading in the future. And now may the Lord bless us and keep us. May the Lord make his face to shine upon us, and be gracious unto us, may the Lord lift up His countenance upon us and give us peace, now and always. Amen.

By virtue of the proclamation of His Excellency, the Governor, the Chair declared the House of Representatives adjourned at 10:48 o'clock until the last Wednesday of December, 1958.

GEORGE T. RAY, Jr.,
Clerk.
