HOUSE JOURNAL 1

Wednesday, 1Dec82

The House met at 1:00 p.m.

On the first Wednesday in December in the year of our Lord, One thousand nine hundred and eighty two, being the day designated by the Constitution for assembling of that body, the one hundred and forty-eighth General Court of the State of New Hampshire convened at the Capitol in the City of Concord. The representatives-elect were called to order by Carl A. Peterson, Assistant House Clerk for the preceding session.

Prayer was offered by Rev. Larry Turns, pastor of the First Congregational Church in Claremont.

Heavenly Father, we turn to You because You are Creator and Lord of the universe, and You love us. May we recognize and believe in your presence among us right now through Your Spirit. May we renew our trust in Your power and Your truth. You are able to meet the words of the people of New Hampshire. More specifically, cause us to believe in You to lead this body. May Your word of truth be heard and be a trusted guide and authority as decisions are made. Heal divisions where they occur. Keep the mission to serve all the people a clear motive in each person's heart. Pray we never be deceived into thinking that we can do anything good without You being at the center of it -- indeed the very power to do it. Father we turn to You and give You the leadership in this body. I pray this in the Spirit of Christ. Amen.

Rep.-elect David Lemire led the Pledge of Allegiance.

(Honorable Richard F. Upton in the Chair)

I wish to thank everyone here for the privilege of again serving during a contested election for the office of Speaker.

The setting is very familiar and it gives me great pleasure to revisit it from time to time.

I want to make just a few remarks. This past summer I had an occasion to visit with Andy Anderson, the Legislative Historian, who is not so well at the present time. I had just done a review of his book for the magazine Historical New Hampshire. In it I sent for some of my own philosophy about the Legislative process that I thought might be appropriate for here. This was a good book by the way and I gave it all the best.

The workings of a Legislative body are probably less appreciated by the general public than those of the other two branches of State Government, the Executive and the Judicial.

The Governor, as Chief Executive, is on the center of the stage, and he has access to the media and a fair amount of control over his own public image. The Judiciary conducts dignified and orderly proceedings and issues reasoned judgments which generally inspire respect, if not completely understood. On the other hand the Legislative body is composed of numerous individuals chosen from varied walks of life, very few of whom march to the beat of the same drummer. The picture which their proceedings presents to the public is one of frequent disagreement, a quality which is characteristic of Legislative bodies generally.

The Legislature is the law-making body, and it is an ancient aphorism that law is the product of the conflicting forces in society. So, if Legislative action was always swift and harmonious we could be justifiably suspicious that something was wrong.

For the Legislative process to function properly requires time, discussion, hearings, arguments, debates and amendments, and out of this process of contention and dispute, the majority most often forges a better end product. It may not look harmonious in so doing, especially to those who lack understanding of the rationale of the proceedings. Now you and I understand it, those who don't would never be satisfied, but those who do will appreciate deeply what you are doing here, and many at great sacrifice.

Rep. French moved that Mr. Upton's remarks be printed in the Journal.

Adopted.

Reps. Daniell, Spirou, Tucker and Warburton offered the following:

RESOLVED, that the following ground rules, as agreed to by the candidates for Speaker, be adopted for the election of House officers:

1. Access to the floor is limited to members-elect; nominees and a representative and such other officers and assistants as may be required by the Clerk and Sergeant-at-Arms.

2. Election of candidates is by secret ballot and requires a majority vote of those present and voting. Blanks shall not be considered a vote (Mason's Manual Sec. 516(a) Page 363). There is no elimination

of the low candidate after any ballot. All candidates remain in the running unless they withdraw of their own volition.

3. Balloting:

- a. Contested elections will be by secret ballot, booths to be available for those who desire. Ballots to be distributed to members only when all are seated. Except for the divisions in the process of voting, all members should remain seated. Tellers to deliver to the Clerk ballots for destruction.
- b. Shall continue until an officer is chosen. Recesses, if requested, shall be limited to ten minutes duration unless amended by the body.
- c. On each ballot the clerk will have printed, in alphabetical order, the name of each candidate with one blank line for write-in candidates.

4. Nominating and seconding speeches will be limited to 15 minutes total for all speeches. No other limitations will apply to these speeches. The order will be alphabetical.

All candidates agreed to provide the Clerk with the names of those members who will speak in their favor by noon of Wednesday.

The Acting Clerk read the resolution.
Adopted.

RECESS

149 members having voted for Rep. Spirou; 227 members having voted for Rep. Tucker and 20 members having voted for Rep. Warburton, the Chair declared Rep. Tucker duly elected Speaker of the House.

(Speaker in the Chair)

The Speaker appointed Rep. Spirou Minority Leader.

The Speaker addressed the House briefly.

To the member from Hillsborough and to the member from Plainfield who so eloquently spoke in the well of the House and put my name in nomination, my thanks to you, and my thanks to all members of this House for your support.

I'm proud to be in politics, and I'm proud of the good men and women who serve in this House and in this Legislature and in state government in New Hampshire. It indeed is an honor for me to receive your vote, but more of an honor to count you as my friends. In this House, our issues as in the past session, will be argued, as rightfully they should be, before our several committees where under thorough investigation, inquiry, debate and investigation, a consensus can be reached to formulate a majority. It is that process to which I dedicate myself and will work endlessly to see that this House, as a body, works to support that process.

I will do everything in my power to continue to preside over this wonderful House fairly and with an even hand. We will, all of us, show respect for all other members of this House. I want no member to approach the microphone to express his or her feelings with any sense of trepidation or reservation. No member shall ever be diminished, either as a person, or as a Representative, so long as I preside over this chamber. All voices will be heard, all rights shall be protected. But it also shall be my responsibility to ensure that the will of the majority should not be inhibited in serving the means of the people of the State of New Hampshire. I will work, and I pledge to work, in the interests of this House. I assure you that in doing so I am not going to be able to please everyone. All I can do is promise you that I will do my best, as I see it, for you as individual members of this House, and for the people of New Hampshire.

We have a hard session ahead of us. There are many, many difficult challenges that lie before us. I will not enumerate them at this time. I think most of us are familiar with the many challenges that we do face. But I have every confidence that this body will produce the results that are necessary for the good of our people in this democracy of New Hampshire.

I would like to again say thank you. I appreciate your support, and I'll try to do honor to that confidence that you have placed in me.

Thank you very much.

Wednesday, 5Jan83

The House assembled at 1:00 p.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by Rev. Patrick Irwin of St. Catherine's Church, Hudson.

Father, we do well to join all creation, in heaven and on earth, in praising You, our mighty God.

You made mankind to Your own image and set us over all creation.

Once you chose the people of Ancient Israel and gave them a destiny and, when You brought them out of bondage in Egypt to the freedom of the Promised Land they carried with them the promise that all people would be blessed and all people could be free.

It happened to our forbears, who came to this land as if out of the desert into a place of promise and hope.

It happens to us still, in our time, as You lead us through loss and suffering to a blessed vision of peace.

Help us, Father, to rise to the challenges that the future holds, to cherish the gifts that surround us, to hold sacred the people we represent and serve.

Be our inspiration and our strength as we begin anew in 1983 to do Your will and renew the face of the earth. Amen.

HOUSE
(Speaker presiding)

The Speaker addressed the House.

New Hampshire, as a state, and we here in this chamber, as citizens and as government leaders, have been through a very difficult time over the past several days. Yet even as we found ourselves mourning our loss and dealing with the emptiness we have felt, we have to take pride in the knowledge that we as a nation and we as a state indeed have been blessed by virtue of our forefathers having had the wisdom and skill to fashion a fabric of government and society that even the worst of times cannot destroy; a form of constitutional government that gives us a sense of security, a knowledge that we as a people will continue to function in an ordinary manner, even under extraordinary circumstances.

This last week has demonstrated clearly how our constitution, which is a living document, works best when it is implemented by strongly principled public servants of the highest calibre. We all owe a debt of gratitude to one seasoned legislator in particular who performed admirably. Senate President Vesta Roy accepted her duties as a new presiding officer and her unexpected role as Acting Governor with grace and ability. We thank her. Also deserving of our thanks are the staff of Governor Gallen as well as Governor-elect John Sununu and his staff who all worked together in harmony for the good of the state in these most difficult of times.

Today, as a part of that process of self-government guaranteed by our constitution and nurtured by a citizenry sensitive to the need for orderly government, we begin working together to go forward into the future, despite our loss.

Let us learn from this experience. Let us dedicate ourselves to that which is important. Let's work to set pettiness aside. Let's strive to eliminate personal acrimony. Let us address the issues and not personalize them. Let's have recognition that honest debate of our differences is healthy and is in the true spirit of our constitution. Negativism, vindictiveness and personal attack should not play a role in this process and are destructive.

We here in New Hampshire have good government, government of which we can be proud. It works well, it works on behalf of the people. It is free of corruption. Let's be positive about our state, its government and its institutions.

Let us now dedicate ourselves to address at the highest plane those issues that are important to the people of this state and are for the good of this state. There is no room in this chamber, nor is there room in this process, for those who cannot rise to this standard.

We shall through our committees, and on the floor of this house, give full and fair consideration to differing points of view. Indeed, we shall have strong differences of opinion. But through mutual respect and understanding we shall develop the compromises which ultimately provide the laws of democracy. Through the legislative process, we create those laws which enable us to meet our responsibility to our people, ride out times of difficulty, and provide for the future.

To be sure, let each of us pledge to make government work more efficiently and more effectively, but to do so without denigrating those who are currently giving the best that they have on behalf of the people of New Hampshire. Let us show a respect for those employed by the state, those charged with carrying out the public policy that this legislative body has established.

As the 1983 session begins, it is my hope that our attention will not be centered on the development of a state budget alone. While austerity will be the order of the day, not only in New Hampshire but throughout this country, we cannot allow that to be the end, in and of itself. With austerity there must at the same time be a

recognition of our responsibility. The general good and welfare of our people as called for in our constitution should be of paramount importance. There are worse sins in government than the raising of sufficient revenues to meet our moral obligations.

While we must strive to live within our means, it is important to remember that by virtue of the initiatives of the 1981 session there have been set in motion several recommendations which we must address. One of these was the creation of the revenue reform committee. This committee was charged by law to study the entire structure of the state's revenue resources and to make recommendations. It is now our responsibility during this session to give the report of that committee full and fair consideration and to see that the work is not prejudged. In order to fulfill the intent of the law, the House Ways and Means Committee must carefully examine the committee's work to insure that a balance is struck which incorporates the best ideas of all viewpoints.

We must understand that there is no dishonor in doing the right thing; and we must understand that the way to determine what is right is to allow a free dialogue on all sides of the revenue issue and every issue. What is dishonorable is to deny the people their right to a free and open discussion of all possible options to reach a balanced consensus. I am not suggesting to you where that balance is. I do not singly have the answer. I would suggest neither does anyone else, and that anyone who suggests that they have the ultimate answer should be held suspect. Rather, the answer lies in the collective judgment arrived at through our legislative process.

The 1981 Session also set in motion a substantial initiative in the area of restructuring our Executive Branch. A blueprint for future organizational structure has been brought forth by the Joint Legislative Committee on Executive Reorganization. To signify its importance, this legislation has been filed as House Bill 1, the Executive Reorganization Act of 1983.

The initial work on this was done jointly by the House and Senate. Much of the work was fashioned by the Executive Branch itself. It is an excellent example of recognizing a problem and working together to solve it. Because of the work done by both the past administration and the incoming one, this legislation has the earmark of success. I foresee an early and successful conclusion to this initial step of executive reorganization.

Adjuncts to executive reorganization are the positive recommendations from the Governor's Management Review and the Sunset Reports. We shall incorporate those recommendations, which are appropriate, into our reorganization effort.

While we hope to have early consideration of the budget and executive reorganization, there are also many other areas of concern to be addressed. Some of these will have an impact on the budget.

One of these involves Laconia State School and New Hampshire Hospital. Let us not jealously guard our preconceived notions

of how best to deal with this situation. Let us consider what is the highest goal. The State Institutions Committee will act on a study initiated in the 1981 session and completed by the Joint Fiscal Committee. This study details the benefits of combining both hospitals into one modern and energy-efficient facility which will better serve the needs of the patients. The quality of care can be further enhanced by a formal affiliation with Dartmouth Medical School. With this report we have an opportunity to take a bold step forward which will benefit the state fiscally, but more importantly, will ensure modern, updated care and treatment.

In the area of education, the 1981 session directed the House Education Committee to give close examination to our vocational-technical colleges to see if business, industry and our young people can better be served through a more autonomous structure.

Yet, this is only one area that the Education Committee must consider. We find ourselves today propelled into a society which is both complex and intricate. It has been recognized that the economic vitality of the New England Region, and New Hampshire in particular, are tied to high technology, the backbone of New Hampshire's economic base. We cannot ignore serving business and industry in this and other areas. Our educational system at all levels must be assisted to stay abreast of the demands of a technological society.

A recent study commissioned by the New England Board of Higher Education shows a critical shortage of elementary and secondary science and math teachers in New England. Our Legislative Science Academy has also independently identified this same problem in New Hampshire. I am asking the Education Committee to develop legislation which will insure that we provide the youth of this state with skilled teachers.

The 81 Session created by statute the Task Force on Low Level Radioactive Waste. That task force is working in conjunction with the other northeastern states to find a workable solution to the safe disposal of low level radioactive waste. We must address those recommendations in this session.

Another one of the problems facing this state is the area of law and justice, and in particular, juvenile justice. Once and for all, we must determine what our policy is regarding the Youth Development Center and where we plan to go.

Other concerns which must be addressed are alcohol and drug abuse, the root of most of our crimes and social problems, and drunken driving, a contributor to our clogged court system which ultimately denies our law-abiding citizens speedy redress of their civil grievances.

We cannot, as a state, simply keep adding judges to the bench and jail cells to our prison. A deeper, more thoughtful examination of this problem is required.

The problem of alcohol and drug abuse has had a severe impact on our court system, but it has also severely affected the entire area of health care cost. It is incumbent on the Health and Welfare Committee to be an

integral part of the thinking and discussions relating to alcohol and drug abuse. But this is only one area as it relates to health care. The Health and Welfare Committee must also provide leadership and initiative in finding new and creative ways to control the rapidly escalating costs of health care.

The cost of health care has led, and continues to lead by a large margin, the overall rate of inflation. We cannot wait for Washington to resolve this problem. We must tackle the problem to the best of our ability. I urge the Health and Welfare Committee to pursue the effective use of home health care as one element in a solution to the problem.

I see these as among some of the paramount concerns that we as a body must address this session. There will be, of course, a host of other issues, and we have the ability to deal with each issue in a constructive and reasoned manner.

I urge all standing committee members who discover that the real root of the problem before them rests at the Federal level, to act accordingly. Take that concern actively and aggressively to our congressional delegation. Secure their assistance in finding a solution to the problem. You will find that our congressional delegation not only is responsive but will work effectively to secure a satisfactory resolution. That, in and of itself, should be viewed as a key facet of the new federalism, a term, by the way, which I do not shy away from. It is high time we recognize that we have demonstrated that we can execute programs more effectively to the benefit of our citizens here in New Hampshire than can be done under the direction of a federal bureaucracy in Washington. I do not fear change in our relationship to the Federal Government, but it must be made clear to Washington that added state responsibilities must be accompanied by a turnback in funds.

We can do a better job for New Hampshire than Washington can. We have demonstrated that. I have more confidence in each of you in this chamber and those agencies across the river to know the needs of our citizens and provide the services to meet those needs.

Each of us is under our Constitution sworn to act in the best interests of the state, and that interest can best be served by tolerating and respecting the views of fellow members, members of government agencies, and members of the public.

As we address the issues before us, we must all ultimately abide by the will of the majority, set aside disappointments and move on.

To accomplish our tasks, I call upon you to open your minds to new ideas, accept new challenges and practice the art of compromise.

A Prayer for Peace was offered by Father Soterios Alexopoulos, Pastor of Saint Philip's Church, Nashua.

In the name of the Father and of the Son and of the Holy Spirit. Amen.

Let us pray to the Lord. Lord have mercy.

For the peace from above and for the salvation of our souls let us pray to the Lord for the peace of the whole world, for the stability of the Holy Churches of God and for the union of all mankind, let us pray to the Lord.

The above-mentioned two verses are a prayer of peace and each time a priest celebrates the Divine Liturgy he prays for peace.

Two weeks ago, we celebrated the birth of the prince of peace, our Lord, Jesus Christ. A week ago, we started the New Year and we greet one another that the year will be peaceful.

Therefore, we need peace. Peace brings prosperity, brings people together. This kind of peace we pray today that the Almighty God will grant Governor John Sununu, his family, the Councilors, those who are going to work with him and for him and the citizens of our state, of our nation, of the world.

Hear our petitions, O Lord, for peace in our households, in our institutions, in our state, in the country, in the whole world. We beseech You to sustain, protect, guide and inspire Governor John Sununu to continue whatsoever things are just, noble, right, pure, lovely and honorable.

The Lord said peace be with you all, go in peace. This peace we ask in the name of the Father and of the Son and of the Holy Spirit. Amen.

A Prayer for Thanksgiving was offered by Rabbi Richard Polirer of Temple Israel, Manchester.

So sang the Psalmist: "Praise the Lord for He is good; His love is everlasting."

Indeed, it is all important to come before Almighty God in praise for the goodness He brings to our lives. At this time, as the reins of leadership in this great State of New Hampshire pass to Governor John Sununu, let us pause in prayer of thanksgiving:

O God, You are the strength of my hands and the light of my life. All that I am and all that I may yet be, I owe to the creative power that You have implanted within me. Give me, therefore, a wise and constant spirit, a mind free from arrogance or vanity. Grant me humility, that I may be conscious of my own limitations, imperfections and weaknesses. Above all, fill me with an awareness of my debt to others for what I have achieved.

Even as I exult in the success of my labors, so too, may I glory to be kind in thought, gentle in word, and generous in deed, that others may have cause to rejoice in my accomplishments. May it be Your will, O God, to give me a grateful heart and a loving disposition, so that I may be Your messenger for blessing to all those whose lives I touch. Thus, would I give thanks for all the blessing that has come unto me. Amen.

Blessed art thou O Lord our God, King of the Universe, who has kept us in life, sustained us, and enabled us to reach this day. Amen.

The Governor delivered his inaugural address as follows:

Mr. Speaker, Madam President, Mr. Chief Justice, Honorable Members of the Senate and House, Distinguished Guests and my fellow Citizens of this magnificent Granite State:

Thank you for this high honor you have conferred upon me.

Nancy and I, and our family are profoundly grateful to all of you who have helped make this moment possible.

There is a tremendous mix of emotions involved in these proceedings; one feels humbled by the warmth of your welcome, but proud to accept the challenge contained in the solemn oath just taken;

Awed by the responsibility bestowed by the voters of this state, yet eager to begin service and to address the needs of our citizens;

Elated at the opportunity to serve as Governor of New Hampshire, while mindful of the sadness evoked by the tragic death of my predecessor Hugh Gallen.

As I stand before you now to accept that responsibility, to address those needs, to begin my service as Governor, I ask your prayers for the strength, wisdom, judgment, patience and good humor needed to successfully meet the challenges ahead and I ask that you and all the citizens of New Hampshire join Nancy and me in remembering Hugh Gallen in our prayers.

It is a distinct pleasure to welcome and congratulate the members of the 148th session of the New Hampshire General Court, especially those of you honored by election for the first time. I have many fond memories of my service in this Legislature. You should find it one of the richest, most rewarding experiences of your life.

These historic chambers remind us of the traditions of our state, its heritage of liberty and its quality of life, but today the state of New Hampshire faces challenges as great as any she has ever confronted.

Among all our needs are two that must be met directly - one is the product of the pressures of recent times; the other the product of changes which have occurred over many decades.

The first and foremost issue is the fiscal condition of our state. We come into office saddled with a significant deficit. State expenditures, fueled as much by the rhetoric of the times as by actual need, have grown beyond our current means.

The second issue, equally high in priority, has been with us for decades. The state needs to restructure our government and to establish an efficient management framework.

In a real sense the two problems of budget and reorganization are not independent. They cannot be solved in a single stroke, but they can be considered together, in context as part of a redirection, a revitalization of this state.

This revitalization must be more than shifting budget numbers and moving boxes on organization charts.

Our citizens want a strong economy, better jobs, holding the line on taxes, while making New Hampshire a vibrant, exciting place to live, to work, and to raise a family.

Our budget problems must be addressed with a very pragmatic appraisal of the real situation we face. We must return New Hampshire to solvency and a sound financial position. We must in this coming Legislative session produce a truly sound fiscal program for the state.

It is important to recognize that New Hampshire is not unique in facing budget problems at this time. States across the nation have similar problems. The challenge is to find a New Hampshire solution within the traditions of our own state.

I have made a pledge to veto a general sales or income tax. I look at the commitment not as a constraint but as a tool to forge a program we can be proud of.

New Hampshire's tradition in resisting a general sales tax or income tax is not an idle exercise. This tradition has served and will continue to serve as an attractant and a stimulus to quality economic growth. This growth creates jobs, and opportunities for our citizens. It is why historically our economy has been the envy of our sister states in the northeast.

Our challenge is to develop an operating budget, a capital budget, and a financial plan which meets New Hampshire's current needs and our long range aspirations, and does not jeopardize our economic advantages. With the help and active support of the dedicated members of the House and the Senate, it can be done, it will be done.

We will submit that budget, that capital program and that financial plan which addresses the valid needs of the State of New Hampshire. We will fund our priorities within the resources readily available.

Where appropriate the cost savings and management recommendations of recent studies will be implemented.

Our departments and agencies will be asked to improve their effectiveness and efficiency. Our cities and towns as recipients of state funds must also be asked to improve their effectiveness and efficiency. Where we can we will provide the legislative tools to assist them in their task. We will not impose any new unfunded mandates on our cities and towns. But proper response to the pressures of the times requires a strong, cooperative, coordinated effort at all levels.

Not only must we improve the reality of our fiscal situation, we must also improve how the rest of the nation perceives that fiscal situation. That perception by the investment community is vital to reestablish fiscal credibility and stimulate our economy.

We must commit ourselves to an improvement of the financial systems within state government. We must recommit ourselves to the process of effectively communicating with the business and financial communities. Our programs will move the state toward restoration of our fiscal reputation.

The problem of restructuring and reorganizing state government is a more subtle and elusive task.

In spite of the long term recognition of the need for reorganization, the basic division of governmental functions, the scope of their authority, and many of the activities within the framework of the State of New Hampshire have not been changed in several generations.

Fifty years ago, virtually to the day, on January 5, 1933, Governor John Winant declared in his inaugural address "We need a guide for disentangling and straightening the lines of government authority and responsibility, so that waste may be prevented and governmental functions executed more efficiently."

Half a century ago the Brookings Institute found "There are too many separate and independent state agencies, and too many boards and commissions."

Nearly two decades later Governor Sherman Adams addressed the need saying "The State has too many unrelated agencies."

A decade after that, Governor Wesley Powell echoed the call and pushed through the last successful reorganization noting "It is not drastic to suggest that heads of departments be made responsible in fact as well as in name."

Four years later, then Governor and now Supreme Court Chief Justice John King added, "The progress of streamlining state government should be carried further."

The refrain was continued by Governor Walter Peterson whose task force said "Modernization of government can and must precede all other actions and must occur very soon."

House Speaker John Tucker and Senate President Vesta Roy have in recent days recognized the underscored similar statements.

I have for over a year emphasized how critical that need is. Action is truly imperative, now. For 50 years the need to reorganize state government has been clearly recognized; working together we can accomplish it in 1983.

I have stressed the needs of a balanced budget and reorganization of state government.

But certainly we have additional goals for the next two years. Without making this address a litany of proposed legislation, may I list some of the more desirable objectives. They include:

A strengthened criminal justice system.
Improved access to tuition assistance for our college bound students.

Incentives to fill the growing need for teachers in mathematics and science.

Expansion of our vocational educational opportunities.

Implementation of more realistic, effective, efficient structure to our health and mental care delivery systems.

Effective promotion of our state recreation and tourism.

Movement toward restoration of our Bond rating.

And perhaps most important of all, the expansion of our jobs and employment opportunities. Make no mistake about it, the availability of good paying jobs is a

significant part of the quality of life. We must maintain our efforts and programs which will continue to attract quality businesses to New Hampshire. The future well being of our citizens depends on our ability to attract and expand high tech opportunities and employment in electronics, computer sciences and light manufacturing.

I hope we can constructively address this agenda of responsibilities in a spirit of partnership and a recognition that any success is truly a shared victory.

I have over this past year emphasized my belief that any challenge can be met by good, talented, dedicated, experienced people. To that end I will make every effort to seek assistance from every segment within our state. There are talents and capabilities already in state government, in business, in education and especially among our individual citizens. We welcome their help; we solicit their contributions of time and effort.

The ultimate test which will determine the eventual success or failure of our programs will be the response and support of our fellow citizens.

I am ready and anxious to cooperate with any and all who are prepared to join in developing true solutions to the problems at hand. All my efforts will be focused on meeting our obligations, and fulfilling the needs of our state.

On every issue there are certain to be many sides, each often with a valid perspective. Let us emphasize those facets which can unite us, rather than belabor the distinctions which divide us.

Only our conscience can truly measure our success, and the final judgment of history will probably come well after we are gone. Nevertheless, let us forge a partnership of citizens, our legislature and our executive offices to go forth and meet the challenge, knowing full well that individually and together we have promises to keep and miles to go before we sleep.

A Prayer for a successful administration was offered by Reverend Gary Clark of the First Baptist Church, Salem.

Our Father and Eternal God, we unite our hearts together in one grand crescendo of intercession for Your special blessing and administrative grace to rest on Your Servant, John Henry Sununu, as he assumes the awesome task of the chief executive officer of the State of New Hampshire.

We humbly ask that Your Holy Presence will pervade every aspect of his leadership in the affairs of state. Let his personal Christian faith strengthen him in every role of his office in order that he will lead with undaunted courage based on sound ethical convictions. Let the Holy Spirit fill his life with Your divine wisdom in making the decisions of state so he will be loyal to the highest values and preserve the sanctity of life as a God-given treasure.

Let righteousness and justice be the marks of his administration. Let him ever be sensitive to the cry of the injured and the plight of the needy. Give him sound fiscal judgment. Help him keep the charge of the Lord to walk in all Your ways and

keep all Your statutes that he may prosper in all that he does and wherever he goes.

Enable us citizens to uphold him in our daily prayers and encourage him with our loyal support.

Grant John and his family good health. Bestow the constant affirmation of Your divine love upon him through all the days of his service to the residents of New Hampshire as the Governor.

We pray through Jesus Christ, our Lord. Amen.

The Benediction was offered by Father Maurice Lavigne of Saint Matthews Church, Windham.

God our most merciful and most loving Father, You who are the seat of all authority and all wisdom, we pause for a moment at the end of our festivities to very humbly and very sincerely place Your servant, John Sununu, our new Governor before You.

We are mindful of the dignity of his office. We are mindful of the great responsibilities that You place upon him; we are also very aware of the fact that he is a man, and like any other man he is Your child and equal to all his brothers and sisters in Your sight. Because he is human, he is not an island, and he needs the prayers, the support and the cooperation of good people.

We ask that he be surrounded by people of good moral, ethical judgment. People who will work with him for good and not for evil.

People that will challenge him and will encourage him to be a good governor. We pray and we beg, that You will make him very simply a good man. Totally aware of his dependence upon You.

In the busy days that lie ahead of him, give him rest. In a special way fill him not just with knowledge, but with wisdom. Help him to be always aware of the needs of the little people. Allow him to hear the voices of the poor and the needy, the young and the aged, the homeless and the jobless. Make him a good man, a man who cares about the people of New Hampshire. A man who will put the needs of people, regardless of race, color or creed, ahead of personal ambition or political gain.

Above all give him a pure and a loving heart. Help him to always rely on You the source of all authority.

Help him day by day to blend the kingdom of Caesar with the kingdom of God. Help him to bring good things to the state of New Hampshire. Very simply, God be with you, Governor John Sununu. Amen.

HOUSE JOURNAL 4

Thursday, 27Jan83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

Dear Heavenly Father, You have given us time to listen to others speak their minds on the issues of the day. Teach us how to really listen, not only to hear what others say to us, but also to what they feel. Let us have compassion as well as understanding. Now we begin to voice and record our opinions. Please guide us that now we listen to our hearts, for we deal with people's lives; to listen to our consciences for we wish not to be self-centered; to listen to our sense of justice, for we not only wish to make laws, but also to seek pleasure in living by them. Let the work of this day fall under Your blessing. Amen.

Rep. Geraldine Watson led the Pledge of Allegiance.

REQUESTS CONCURRENCE

SCR 1, memorializing Harold K. Davison.

SUSPENSION OF RULES

Rep. Rounds moved that the Rules be so far suspended as to permit consideration at the present time of SCR 1, memorializing Harold K. Davison, without referral to committee, printing, public hearing, committee report and notice in the Calendar.
Adopted by the necessary two-thirds.

The Clerk read the resolution
Unanimously adopted by a rising vote of silent prayer.

Rep. Rounds moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

COMMITTEE REPORTS (Consent Calendar)

HB 14, relative to the setting of deer season. Ought to Pass.
This extends the Fish and Game Department's authority to set deer seasons for two more years. Vote 18-0.
Rep. John H. Stimmell for Fish and Game.

HB 55, to permit hunters in certain towns and a city to shoot wild deer with a muzzle-loading rifle. Ought to Pass.
This bill clears up the wording of the RSA in regard to muzzle-loading rifles. Vote 17-0. Rep. John H. Stimmell for Fish and Game.

HB 58, relative to hunting on the property of another. Inexpedient to Legislate.

The committee felt this was unnecessary. Vote 18-0. Rep. John H. Stimmell for Fish and Game.

The committee was satisfied with the Sunset Review. Vote 18-0. Rep. John H. Stimmell for Fish and Game.

HB 153-FN, relative to sunset review of the racing commission - thoroughbred racing. Inexpedient to Legislate.

The racing commission - thoroughbred racing has been replaced by the New Hampshire Pari-mutuel Commission. Vote 18-0. Rep. William A. Russell for Regulated Revenues.

The racing commission - racing laboratory has been replaced by the New Hampshire Pari-mutuel Commission. Vote 18-0. Rep. Richard E. Galway for Regulated Revenues.

HB 18, to provide for joint tenancy with rights of survivorship in connection with mobile homes. Inexpedient to Legislate.

The committee felt that since the title holder of a mobile home may already specify joint tenancy with rights of survivorship, the bill would not be of benefit. Concern was raised over presuming in favor of the spouse at the exclusion of other heirs. Vote 15-0. Rep. Stephen Sloan for Transportation.

HB 26-FN, allowing the use of certified rather than registered mail for blood alcohol test results. Ought to Pass.

The committee felt that this bill has merit since the protection offered by Certified Mail is basically the same as that of Registered Mail. The use of Certified Mail will allow departments to save money. Vote 12-3. Vote for the Consent Calendar 15-0. Rep. K. Michael Tavitian for Transportation.

SUSPENSION OF RULES

UNANIMOUS CONSENT

Rep Benton addressed the House by Unanimous Consent.

Thank you Mr. Speaker, and thank you my peers for permitting me to appear before you at this late hour by unanimous consent.

Somewhere over the past years I took upon myself the title of spokesman or mouthpiece for these great men here up on the wall. And somewhere in the past years I wrote a few lines about them.

In every session someone comes to me and says would you share these lines again so that the new members can know a little bit about the great men on the wall.

There is one phrase in here that I should explain. You would know the phrase if you were here before 1975, and that phrase is signing the boards.

You see, before 1975, we didn't have a convenient little green button to press to indicate our attendance. We signed the boards. Near the end of the daily session the Speaker would say, board monitors may now secure the boards. And at this signal, 20 of the most senior men would sprint to the rear of the hall where the Sergeant-at-Arms had a table. And on that table were 20 masonite boards about 12 by 18 inches, and each one had a paper posted thereon with 20 names and 20 seat numbers. The board monitors would secure the board for their particular section, and on the way back to his seat he would sign it to be sure that he was here for that day.

When the gavel went down for adjournment, that's when the pier six brawl began. Who would sign the board first. It was supposed to go from one end of the row to another, but it never did. People reached over other people's shoulders, women and children were trampled in the rush in the wonderful old quaint custom of signing the boards.

And now, "The Great Men on the Wall."

The Great Men on the Wall

From high on the wall they look down on the House
With eyes both stern and calm
Their lot is to see and ponder and judge
The merits of we who carry on.

They do not vote or sign the board
Nor inquire of the Chair
In silence they watch and listen to all
And they rate us good, poor or fair.

When we've departed the House and the hall is still
They relax and they chat till the dawn
Of the nurses and farmers, of bankers and lawyers
And teachers and veterans who talked at the mike, on and on.

Maybe they talk of Watergate, Pentagon papers, Wounded Knee and other stories galore
And maybe George speaks to Honest Abe,
"more truth is needed in the high places,
They don't make them like us any more."
And hopefully, as Daniel and Franklin reflect

On the old timers, the freshmen and the Reps and Dems who daily fill the hall
They'll judge us fairly on our deeds and say
"Live free or die is still with us
And the Granite State stands tall."

Spoke up John Hale
Senator from the days of yore
They've changed so much in manner, speech and dress
They question, they bicker, they argue up a storm
I admire them all, especially the lovely lady legislators
In their mini skirts and slacks, what forms!

While waiting to sign the board each day
I look up at them and feel so humble and small
I ask the good Lord for lots more wisdom, common sense and courage
So that tomorrow I can be just a little more
Like the great men on the wall.

Rep. Chase moved that Rep. Benton's remarks be printed in the Journal.
Adopted.

Rep. Rounds moved that the House stand in recess for the purpose of Introduction of Bills only.
Adopted.

COMMITTEE REPORTS (Consent Calendar)

Rep. Rounds moved that the Consent Calendar with the relevant committee amendments as printed in the day's House Record be adopted.

HB 29, to permit tenants in publicly owned or operated housing projects to keep companion pets, was removed at the request of Rep. James J. White.

HB 17, creating new voting districts in Epping and Raymond, was removed at the request of Rep. Blake.

Adopted.

HB 23, requiring non-smoking sections in restaurants. Inexpedient to Legislate. This bill was discussed by all persons and the unanimous opinion was that it was unreasonable, unenforceable and unnecessary. The restaurants have agreed to do all in their power to voluntarily separate smokers and non-smokers. Vote was unanimous. Rep. Emma B. Wheeler for Health and Welfare.

HB 20, prohibiting the destruction or altering of common boundary walls and fences. Inexpedient to Legislate. The Committee is studying this issue and the subject matter will be addressed in a future bill. Vote 20-0. Rep. Beverly Hollingworth for Judiciary.

HB 27, to expand the definition of disorderly conduct to include the conduct of persons who make noise in a private place which disturbs others in a private place. Inexpedient to Legislate.

The subject matter of this bill will be addressed in future legislation. Vote 20-0. Rep. Thomas U. Gage for Judiciary.

HB 54, to prohibit the sale of counterfeit drugs. Ought to Pass with Amendment.

This bill is intended to address the growing problem of look-alike drugs in New Hampshire. The state of New Hampshire has an interest in presenting the sale of these drugs because they contribute to the illegal drug culture. In addition, several deaths have occurred as a result of abuse of these drugs. Vote 20-1. Rep. Kendall W. Lane for Judiciary.

Amendment

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Affirmative Defense. Amend RSA 318-B by inserting after section 2-a the following new section:

318-B:2-b Counterfeit Drugs; Affirmative Defense. It is an affirmative defense to prosecution under RSA 318-B:2, 1-a that the actor is:

I. A physician who sells, dispenses, or prescribes a substance which he represents to be or contain a controlled drug, but which in fact neither is nor contains a controlled drug to a patient under his care for a bona fide therapeutic purpose; or

II. A pharmacist who sells or dispenses a substance which he represents to be or contain a controlled drug, but which in fact neither is nor contains a controlled drug to a person at the direction of and upon the written prescription of an attending physician, provided any written prescription is properly executed, dated, and signed by the person prescribing on the day when issued and bears the full name and

address of the patient for whom the drug is dispensed; or

III. A nurse or intern who, at the explicit direction of and under the supervision of an attending physician, administers a substance which he represents to be or contain a controlled drug, but which in fact neither is nor contains a controlled drug to a patient for a bona fide therapeutic purpose; or

IV. An emergency medical technician - paramedic who, upon receipt directly or by phone or by radio or by other communication medium of directions to do so from the supervising physician, administers a substance which he represents to be or to contain a controlled drug, but which in fact neither is nor contains a controlled drug to a patient for a bona fide therapeutic purpose.

HB 146-FN, relative to sunset review of the labor department - labor statistics. Inexpedient to Legislate.

The Committee accepts the Sunset Review of the Labor Statistics Unit in the Department of Labor, that the unit be terminated. It has not functioned for several years as federal funds established and funded the program and was discontinued on the federal level and no state need prevailed for state funds to be applied for such statistics. The Department of Employment Security does compile labor statistics. Vote 21-0. Rep. Patricia M. Skinner for Labor, Human Resources and Rehabilitation.

HB 12, relative to the submission to the voters of a question relating to a charter revision, adoption or amendment. Ought to Pass.

This bill eliminates the requirement that at least 30% of voters in preceding gubernatorial election vote on the question. This is unrealistic in a town election. Rep. John P. Lawrence for Municipal and County Government.

HB 13, relative to requesting a secret ballot at any town meeting. Inexpedient to Legislate.

This bill provides that a majority of those persons attending a town meeting shall concur with any written request by either 5 or 3 voters, requesting that a vote be taken by a secret "yes-no" ballot. Rep. Alf E. Jacobson for Municipal and County Government.

HB 21, authorizing the establishment of the Electric Light Department Trust in New Ipswich. Ought to Pass with Amendment. The voters of New Ipswich have twice voted to retain the proceeds from the sale of the electric light company for future use. This bill legalizes this action. Rep. John P. Lawrence for Municipal and County Government.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Trust Authorized. Notwithstanding RSA 31:19 or any other provision of law to the contrary, the town of New Ipswich is hereby granted the authority to hold in trust the money obtained from the sale of the Electric Light Department as authorized by the town meeting of March 7, 1971, and any interest obtained from investing such money. The town shall use the money contained in such trust and interest obtained from the investment of such money only for the purposes specified in Article 9 of the warrant of the town meeting of March 9, 1981, for the reduction of local taxes, or in any other article passed in a subsequent annual or special town meeting. The trust shall be administered in the manner provided under RSA 31 for the administration of town trusts.

HB 65, clarifying and amending the language of RSA 36:24-a. Ought to Pass with Amendment.

This bill acts to preclude the four-year exemption from interfering with growth management controls which may be instituted by a municipality. Vote 16-0. Rep. Richard A. Grodin for Municipal and County Government.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Applying Growth Management Ordinance to Approved Plat. Amend RSA 36:24-a (supp) as inserted by 1975, 142:1 as amended by striking out said section and inserting in place thereof the following:

36:24-a Four-year Exemption.

I. Every plat approved by the planning board and properly recorded in the registry of deeds shall be exempt from all subsequent changes in subdivision regulations and zoning ordinances relating to permissible use and lot size adopted by any city or town for a period of 4 years after the date of recording. This 4 year exemption shall not apply to subdivision regulations and zoning ordinances adopted pursuant to RSA 31:62-a and 31:62-b relating to growth management and to those regulations and ordinances which expressly protect public health standards such as water quality and sewage treatment requirements.

II. Once, however, substantial completion of the improvements as shown on the plat have occurred in compliance with the approved plat or with the terms of the planning board's approval, the rights of the owner or his successor in interest shall vest, the limitations of the 4 year exemption period in paragraph I shall not apply, and no subsequent changes in subdivision regulations or zoning ordinances relating to permissible use and lot size shall operate to affect such improvements, provided that:

(a) Active and substantial development or building shall have commenced on the site of the approved plat by the owner or his successor in interest in accordance with the approved plat within 12 months after the date of approval, or in

accordance with the terms of said approval, and where a bond to cover the costs of roads, drains or sewers is required in connection with such approval, such bond is posted with the city or town at the time of commencement of such development;

(b) Development remains in full compliance with the public health regulations and ordinances specified in this section; and

(c) At the time of approval and recording, the plat conforms to the subdivision regulations and zoning ordinances relating to permissible use and lot size then in effect at the site of the approved plat.

HB 66, relative to the ownership of land divided by a street. Inexpedient to Legislate.

The Committee feels that while there are problems in this area, this bill is not adequate. The upcoming recodification will undoubtedly address this problem. Vote 18-0. Rep. Eugene W. Clark for Municipal and County Government.

HB 64, relative to the training and certification of police officers. Ought to Pass.

Enactment of this bill will be a giant step in the Legislature's efforts to provide maximum security and protection to New Hampshire residents, and to the thousands of visitors to New Hampshire, and it will help to preclude the possibility of New Hampshire municipalities becoming defendants in high dollar lawsuits, which could be caused by the actions of inadequately trained police officers. Vote 13-0. Rep. Warren F. Ames for Public Protection and Veterans' Affairs.

HB 24, relative to the term "reconstruction" as used in maintenance of highways. Inexpedient to Legislate.

The Committee felt this bill was unnecessary at this time. Vote 18-0. Rep. Ralph L. Blake for Public Works.

HB 150-FN, relative to sunset review of the department of public works and highways - construction and reconstruction. Ought to Pass.

This phase of Public Works and Highways needs no modification. Vote 18-0. Rep. David T. Whittemore for Public Works.

HB 151-FN, relative to sunset review of the department of public works and highways - maintenance. Ought to Pass.

This phase of Public Works and Highways needs no modification. Vote 19-0. Rep. William J. Driscoll for Public Works.

HB 152-FN, relative to sunset review of the department of public works and highways - community assistance state funds. Ought to Pass.

The Committee feels that this phase of Public Works and Highways is functioning as intended and requires no change at this time. Vote 19-0. Rep. Francis X. Donovan for Public Works.

HB 19, allowing publications required to be deposited with the state library to be deposited at no cost to the state library. Ought to Pass.

If this bill is not passed the cost to the State Library could be \$75,000 per year. The Committee was unanimously in support of this bill. Vote 12-0. Rep. Mary E. Cotton for State Institutions.

HB 28, relative to distributing political campaign literature at polling places on election day. Inexpedient to Legislate.

This bill or one similar has been present at the last two sessions. The Committee feels it is up to the moderator to set rules regarding the safety of voters - RSA 31. Vote 7-0. Rep. Natalie S. Flanagan for Statutory Revision.

HB 40, requiring candidates to disclose party affiliation in political advertising for partisan political elections. Inexpedient to Legislate.

Bill could not be enforced and the Federal Elections Commission states that the states cannot require the placing of a party designation on political advertising for election for a federal office. This would cause a conflict. Vote 9-0. Rep. Natalie S. Flanagan for Statutory Revision.

HB 41, allowing absentee ballots to be processed any time after the polls open. Inexpedient to Legislate.

Committee feels 3:00 p.m. suits the majority of cities and towns so there is no need to change. Vote 8-0. Rep. Natalie S. Flanagan for Statutory Revision.

HB 44, making it a violation to be a passenger in a vehicle driven by a person driving under the influence of alcohol or drugs. Inexpedient to Legislate.

The Committee is very much in sympathy with the intent of the sponsors to curb drunken driving. It feels that the introduction of the bill has helped to increase awareness among many citizens of the drunken driving problem. There are, however, several aspects of the bill including possible infringement of individual rights that causes the Committee not to recommend passage. Vote 16-0. Rep. K. Michael Tavitian for Transportation.

I. Administration and Control
A. State office building

(1) Building and site work	\$ 10,577,625

HB 141-FN, relative to sunset review of the safety department - division of state police. Ought to Pass.

The Committee agreed with the primary conclusion of the Sunset Committee's report that "the Division is well managed and effective in providing police services." The Committee felt that most of the proposed changes could be achieved administratively. Vote 16-0. Rep. K. Michael Tavitian for Transportation.

COMMITTEE REPORTS
(Regular Calendar)

HB 43, relative to the license to carry a weapon. Inexpedient to Legislate. Police chiefs and officers, representatives of municipal government, Fish and Game Commission, Rod and Gun Clubs, instructors in Hunter Safety classes, trappers, marksmen and hunters testified in strong opposition to the bill. These persons were unanimous and outspoken in their belief that the existing statute, enacted in 1979, provided adequate guidelines and safeguards as to "who shall be licensed to carry concealed weapons." The proposed legislation, and the proposed amendment, is directed against those persons who are the best qualified to own, carry and use handguns. Vote 13-0. Rep. George T. Musler for Public Protection and Veterans' Affairs.

Resolution adopted.

HB 11, making an appropriation for capital improvements. Ought to Pass with Amendment.

The committee recommends passage of this bill as amended because of the importance of the projects concerned and the possibility of saving construction costs by early passage. Elimination of two sections from the original bill was very controversial. Vote 18-1. Rep. Lorine M. Walter for Public Works.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Appropriation. The sums hereinafter detailed are hereby appropriated for the projects specified to the department, agencies, and branches named:

Amend the bill by striking out sections 4 and 5 and inserting in place thereof the following:

4 Bonds Authorized. To provide funds for the total of the appropriations of state funds made in section 1 of this act, the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$17,502,625 and for said purposes may issue bonds and notes in the name and on behalf of the state of New Hampshire in accordance with the provisions of RSA 6-A; provided, however, that the bonds issued for the purpose of paragraph III, A of section 1 of this act shall have a maturity of 5 years from the date of issue.

5 Payments. The payment of principal and interest on bonds and notes issued for the projects in section 1 shall be made when due from the general funds of the state.

Rep. Daniell moved that the words, Inexpedient to Legislate, be substituted for the report of the Committee, Ought to Pass with Amendment, and spoke to his motion.

Rep. Spirou spoke in favor of the motion.

Rep. Bibbo spoke against the motion.

A roll call was requested. Sufficiently seconded.

HOUSE JOURNAL 6

Thursday, 10Feb83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

Almighty God, the source of all wealth, You have taught us through Your Son, Jesus that money often is the cause of separation between us and You and between us as sisters and brothers. You have instructed us not to covet and that a person's worth is not determined by the extent of his holdings. As we deal with the distribution of our State's money let us be keenly aware of Your teachings so that our money will be seen as a friend to do good rather than a tool to persuade. Let us be good stewards of our wealth rather than slaves of our possessions. Give to us the wisdom of Solomon in dividing the budget so that the limited amount we have may be spent with justice and equality and towards the upbuilding of the State. Amen.

Rep. David King led the Pledge of Allegiance.

COMMITTEE REPORTS (Consent Calendar)

HB 130-FN, relative to sunset review of the department of agriculture - office of commissioner. Ought to Pass.

Agriculture in New Hampshire generates about \$200 million to the state's economy yearly. It is a diverse industry - from large dairy farms to the Christmas wreath maker - all playing a significant part in the economic life of our communities in terms of employment and markets. The Department of Agriculture serves both the farmer and consumer and should be maintained. Vote was unanimous. Rep. Marilyn R. Campbell for Environment and Agriculture.

HB 131-FN, relative to sunset review of the department of agriculture - meat inspection. Ought to Pass.

Although the state has not carried on meat inspections, there is a need to keep the PAU. This will allow the state to use any federal funds should the federal government put the duties of inspections back to the state via block grants. Vote was unanimous. Rep. Marilyn R. Campbell for Environment and Agriculture.

HB 132-FN, relative to sunset review of the department of agriculture - bureau of weights and measures. Ought to Pass.

Both HB 132 and HB 133 work to protect the farmers as well as consumers. This activity should remain under the Department of Agriculture and not go to the Secretary of State. The Secretary of State licenses a "business" while the Bureau of Weights and Measures licenses individuals as weigh masters, and checks metering devices. Vote was unanimous. Rep. Marilyn R. Campbell for Environment and Agriculture.

HB 133-FN, relative to sunset review of the department of agriculture - bureau of markets. Ought to Pass.

This department assures the quality of farm products, certifies produce for sale outside the state and does so some promotion. Vote was unanimous. Rep. Marilyn R. Campbell for Environment and Agriculture.

HB 134-FN, relative to sunset review of the milk sanitation board. Ought to Pass.

The Sunset Committee recommends that the Milk Sanitation Board be recreated. It will allow milk to be marketed and assures the consumer a health product. Vote was unanimous. Rep. Marilyn R. Campbell for Environment and Agriculture.

HB 83-FN, crediting any damage monies obtained from damage to fish life, other aquatic life, wildlife or their habitat, to the fish and game fund. Ought to Pass. Monies recovered from damage to fish and aquatic life go to fish and game fund. Rep. Gerald R. Smith for Fish and Game.

HB 84, relative to the licensing for hunting and trapping wild birds and wild game. Ought to Pass.

Bill legalizes definition of game birds and animals. Rep. John H. Stimmell for Fish and Game.

HB 52, to eliminate the designation of dangerous sexual offender. Ought to Pass.

This bill removes the requirement that the court order an evaluation to determine if those convicted of sex crimes should be designated dangerous sexual offenders. Mental health treatment will still be provided for those who need it. The Superintendent of New Hampshire Hospital, the warden of the State Prison and spokesmen from the Psychiatric Society and the Nashua Rape and Assault Committee spoke in support of the bill. Vote 14-3. Rep. Donna P. Sytek for Judiciary.

HB 30, increasing the prize limitation for beano. Inexpedient to Legislate. There are other problems with the current beano law. Therefore, the whole issue will be resolved at one time. Vote 18-0. Rep. Lynn C. Horton for Regulated Revenues.

HB 31, establishing a penalty for a racing licensee's failure to submit certain required information on time. Ought to Pass with Amendment.

This bill establishes a penalty for a racing licensee's failure to submit required information on time and allows 60 days more time to submit the information. Vote 18-0. Rep. Robert P. Mason for Regulated Revenues.

Amendment

Amend RSA 284:32-a as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

284:32-a Annual Financial Statement Required. Every person, association or corporation conducting a race or race meet, except those conducted by agricultural fairs, shall annually submit to the commission on or before June 1 an annual financial report of the entity licensed to conduct the race or race meet. The report shall include, at a minimum, a balance sheet, an income statement, a statement of changes in retained earnings, a statement of changes in financial position and the applicable notes to those financial statements for the prior year's operations of the person, association, or corporation, audited by a public accountant or certified public accountant licensed to practice in the state of New Hampshire in accordance with RSA 309-A. Said audit and the auditor's report shall conform to generally accepted auditing standards as prescribed by the American Institute of Certified Public Accountants.

HB 59, granting the Lake Sunapee Protective Association the right to maintain a third lighthouse on Lake Sunapee. Ought to Pass with Amendment.

The Committee gives its strongest endorsement to the continuing interest and support that the Lake Sunapee Protective Association has given to restore and maintain these historic lighthouses. In the future, however, these types of projects should be the subject of contractual arrangements among interested parties and the appropriate state agencies. Vote 16-0. Rep. Howard C. Dickinson, Jr. for Resources, Recreation and Development.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Burkehaven Lighthouse. Amend 1981, 163:1 by striking out said section and inserting in place thereof the following:

163:1 Lighthouse Maintenance. The Lake Sunapee Protective Association is hereby granted the right, at no expense to the state, to repair and maintain the structures of the Herrick Cove, Loon Island and Burkehaven lighthouses on Lake Sunapee. The right shall not extend to the beacon lights. Exercise of this right shall be at the discretion of the Lake Sunapee Protective Association, and the association shall carry appropriate public liability insurance during the exercise of this right.

HB 62, to require the use of child passenger restraints in certain motor vehicles. Ought to Pass.

The Committee found little, if any reason, not to urge the adoption of this concept of promoting safety and protecting children riding in motor vehicles. Vote 15-0. Rep. Irvin H. Gordon for Transportation.

HB 163-FN, relative to sunset review of the board of taxation. Inexpedient to Legislate.

This is a housekeeping measure which has the full support of the Board of Taxation and the Committee. Rep. Roger C. Heath for Ways and Means.

THREE LEGISLATIVE DAY EXTENSION GRANTED

HB 45, to increase the penalty for refusal to take the chemical testing to determine alcoholic content of blood.

COMMITTEE REPORTS (Regular Calendar)

CACR 1, relating to membership in the House of Representatives. Providing that the number of members shall not exceed 200. Inexpedient to Legislate.

The resolution to reduce the size of the House is too drastic as there would be far too many people to represent; also, reducing the House would be the first step to a professional legislature. Vote 13-0. Rep. Virginia K. Lovejoy for Constitutional Revision.

Reps. Chase and Wells spoke to the committee report.

CACR 2, relating to the term of the governor. Providing that the term shall be 4 years. Majority: Ought to Pass. Minority: Inexpedient to Legislate.

MAJORITY: The majority opinion was based on the argument that the newly-elected Governor is required to spend full time preparing the new budget and working on legislative programs while the Legislature sits until July. This leaves eighteen months only to put his programs into effect and run again for office. Vote 7-6. Rep. William A. Fielding for Majority of Constitutional Revision.

MINORITY: The minority is of the opinion that 4 years is too long especially if the Governor does not please the voters. If the Governor is successful, the people will return him for a second term. There is no evidence that a 4-year term guarantees better leadership. (Reps. David J. Bouchard, Virginia K. Lovejoy, Roland D. Martineau, Roger E. Wallace, Rose C. Vachon, Maurice J. Levesque) for Minority of Constitutional Revision.

Rep. Bouchard moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass, and spoke to his motion.

Amendment

Amend Art. 42 as inserted by paragraph I of the resolution by striking out same and inserting in place thereof the following:

Art. 42. Election of Governor; Return of Votes; Electors; If No Choice, Legislature to Elect One of Two Highest Candidates; Qualifications for Governor. The governor shall be chosen every 4 years in the month of November, beginning in 1986. The votes for governor shall be received, sorted, counted, certified and returned, in the same manner as the votes for senators. The secretary of state shall present the results to the senate and house of representatives on the first Wednesday of January to be examined by them. In the case of an election by a plurality of votes throughout the state, the general court shall declare and publish the name of the winner. The qualifications of electors of the governor shall be the same as those for senators; and if no person shall have a plurality of votes, the senate and house of representatives shall, by joint ballot elect one of the 2 persons, having the highest number of votes, who shall be declared governor. No person shall be eligible to this office, unless, at the time of his election, he shall have been an inhabitant of this state for 7 years next preceding, and unless he shall be of the age of 30 years. No person shall be eligible for more than 2 consecutive terms as governor.

Hearing no objection the Chair advised the Clerk to dispense with the reading of the amendment.

Rep. Krasker explained the amendment and yielded to questions.

Rep. Rounds spoke in favor of the amendment.

Amendment adopted.

Question being shall CACR 2 pass as amended.

Reps. Spirou and Rounds spoke in favor of the committee report as amended.

There is no support from New Hampshire farmers or New Hampshire processors to lower its standards of milk. It would mean lowering the quality of milk to the consumer. RESOLVED, that the Honorable Senate be notified that the House of Representatives will be ready to meet the Senate in Joint Convention at 2:40 p.m. for the purpose of hearing the Governor's budget message.

Adopted.

Mr. Speaker, Madam President, Honorable members of the General Court: I come before you today to present the operating budget as required by the Laws of the state of New Hampshire.

The current fiscal problems of our state are matters of serious concern to every citizen from Coos to the sea. There are those who, for whatever reasons, have predicted continued economic disarray for the state. I reject that premise and believe sincerely the budget we present to you today will address those problems and constructively solve the financial crisis we together have faced over the past few years.

New Hampshire is not unique in its struggle to meet and to solve the adverse economic challenges which now beset most every state in the nation. Indeed, all but a handful of states will find themselves in difficult financial straits at the close of their current fiscal years. I shall not dwell on the specific reasons for these problems except to note they result from the combination of changes in the relationships between the federal government and the states, a soft national economy, and in our case, a lack of prudent consideration or timely management of our financial affairs. Clearly, it is in that context we must address our current budget needs.

The report of the Comptroller of the State of New Hampshire places in clear perspective New Hampshire's financial history over the past few years. That report makes clear New Hampshire, in 1979, closed the year with a \$33 million surplus. In 1980, that surplus was eroded to \$9 million; and in 1981, at the close of the biennium, that \$33 million surplus became a \$30 million deficit.

That report also shows that as of June 30, 1982, the first year of the current biennium, we had a deficit of \$33 million and projections indicated that if no action was taken it could have increased by \$10 or \$20 million more by the end of the biennium. The Comptroller, the Advisory Budget Control Committee and the Acting Governor, all acted prudently and courageously in enacting the 4% cutback to limit the increase in deficit. Even with that action, the projected deficit for June 30, 1983 is more than \$36 million.

Although I strongly support the ABCC action, I am exercising my authority as Governor and will seek ABCC approval of my waiver request to postpone the actual reduction until the December payments for both the fiscal year and calendar year communities.

This will reduce the potential impact this act might have on communities who may already have spent money or have difficulty in making up this shortfall.

That \$36 million deficit is the starting point for our budget development.

A budget is more than a series of figures on a balance sheet. It is a statement of policy. That policy is a summary statement of the goals, the objectives, and the aspirations of the state and its citizens. The hard, cold economic

reality of the times demands we balance those goals, objectives and aspirations against the financial resources we have available. This budget is a balance between responding to our needs and wants, and our capacity to deliver legitimate governmental services within our ability to pay.

This budget funded what was essential, it eliminates what is not required, and delays or postpones what is not timely. It provides capping mechanisms to programs with tendencies to get out of control and installs review processes to evaluate effectiveness and efficiency.

Before we address the specific details of the budget, permit me to outline the course upon which we will embark to carry out the programs outlined herein—how the State of New Hampshire will manage its affairs.

Since my election as Governor, I have been working to develop ways to improve and enhance the management and effectiveness of state government. In this budget, with few exceptions, we have not attempted to address the needs for reorganization of state government. That task will follow. That need can be best addressed by separate legislation providing for a reorganization which develops a foundation for a new vigorous, effective management structure for the Executive Branch of the State of New Hampshire. I am committed to provide input to you, to work with you, and be a constructive partner in shaping that legislation.

This reorganization must be based on giving the Governor, as Chief Executive of the State of New Hampshire, the ability to appoint and remove at will the key managers of state government. That authority must include a coterminous tenure for the principal department heads of this state. At the very least, any legislation for reorganization must address that basic requirement.

In addition to the long-term strategy involved in reorganization, I have responded to the current situation by taking immediate actions to provide a constructive and affirmative leadership as manager of the Executive Branch. To accomplish this, I have assembled department heads from each of the six major areas of government. They have been acting and will continue to act as my principal advisory group for the management of state government.

Their first task was to assist me in the preparation of this budget. That group, acting as a Budget Advisory Committee, consisted of Commissioner Helms, Commissioner Price, Commissioner Clements, Commissioner Flynn, Commissioner Gilman, Commissioner Brunelle, Comptroller Cornelius, my acting Budget Director Terry Morton and myself. The Budget Advisory Committee participated in the development of the assumptions on which this budget was based and provided recommendations as we addressed the priorities. Further, they provided suggestions on how the budget might be best presented. I will continue to meet with them on a regular basis and together we will address the process of bringing effective management to the government of our state.

Our agenda includes a number of major tasks which are long overdue in our state. We will work to develop, as soon as possible, an effective management reporting system that can and will provide, on a timely basis, data on the actual activities within our state departments as they relate to personnel, to expenditures and to their performance in terms of goals and objectives.

We will address in the context of recent federal executive orders, and the work already underway within a number of our departments, a statewide effort to reduce paperwork requirements within our state government, and between our state government and the federal process.

In order to improve the long-term capacity of our state to plan and evaluate effective programs to serve our citizens' needs, I am in the final phases of restructuring and redesigning the Office of State Planning.

It is my intention to develop that office as a working arm for the Governor's Chief Financial Officer. Responding to the Financial Officer, that office will serve as the focal point for budget development and long-range state planning.

This would allow us to stop merely reacting to crises and provide thoughtful planning which we in state government ought to use as the basis for long-range solutions.

This restructured unit will provide us with assistance in developing the tighter management controls and the improved strategic planning which form the assumptions on which a budget is developed.

The importance of that relationship can be best understood by recognizing the development of this budget began months ago. In fact, the process will conclude only when your deliberations are done. Even with that, our budget decisions will be completed well in advance of federal decisions. Yet proper response at the state level requires we have some feeling for the changes that will occur at the federal level.

Participation and involvement of department heads and other members of the Executive Branch in the development of this budget has been very extensive. To assist them in that development, we have sought and received help from the private sector which provided us more than two dozen virtually full-time participants in this budget process. To each of them, especially Mr. Terry Morton, who led and coordinated this intensive effort, I extend, on behalf of the State of New Hampshire, my most sincere thanks. Individually and as a group, you have provided a most valuable, appreciated service to the state.

To place in perspective the needs of the state, I have sought out the opinions and thoughts of financial experts from around the country, as well as experts with experience in specific areas in which we seek to deliver services. There has also been significant involvement at all levels within departments including the people who, unheralded, but day after day, carry out the responsibilities of state government.

In this regard, I am pleased to report to you today, with few exceptions, I have found our state employee family to be responsive, capable and dedicated to its responsibilities on behalf of our people.

I am confident the assumptions on which this budget has been made will hold through the process. We intend, however, to utilize a more effective review process to keep well-informed not only on our revenues and expenditures, but on the changes in federal programs which might impact the situation in our state. It is our intention to monitor the process effectively and to respond to changes in a timely fashion. Not only will we be working with the Legislature to develop this budget, but we will work to make sure this budget is implemented as intended by the eventual legislation.

The budget I present to you today addresses the needs of the state, and specifically the needs of the citizens of our state as a whole. It finances the basic services needed by our citizens and provides a viable framework within which New Hampshire can fulfill its role in meeting those needs.

It is a realistic budget. It is a balanced budget. It is a fair budget. It is a constructive budget and it is a responsive budget.

It recognizes we must deliver these services in a time when we must accept the limitations of resources and a major responsibility we carry in developing this budget is to manage and utilize those resources in the most effective ways possible.

First of all, there are some facts and figures that generally characterize the budget.

The gross appropriations for 1984 are \$932 million and for 1985 are \$964 million. These compare with \$868 million for 1983.

The net general fund appropriations for 1984 are \$356 million and for 1985 are \$363 million. These compare with \$337 million for 1983. These figures represent a 5.8% increase the first year and a 1.8% increase the second year.

Although there are a few fee changes and some closing of loopholes, there are no new major taxes.

The existing level of taxation is retained, including a continuation of the 13.5% surtax on business profits and the 3¢ per gallon surcharge on gasoline.

Funding of aid to cities and towns has been maintained at amounts consistent or greater than amounts to which they would have been entitled under extensions of current law.

The funding level to the university system has been maintained in 1984 and increased by 3% in 1985.

In each year of the biennium, money has been made available to the state legislature and set aside to fund wage increases for state employees.

Funding of the Foundation Aid to Local Education, and to Catastrophic Aid Program to assist communities to finance special education, has been increased by a total of \$1 million.

State funding for the Alcohol and Drug Abuse Prevention Program has been increased to offset the reduction of federal funding.

This budget provides for an increase of AFDC grant levels of 9% over the biennium.

The budget increases funding for the community mental health residential programs by more than \$1.5 million per year.

The distributions to cities and towns have, for the most part, been released from dependence on levels of revenue sources and guaranteed to the cities and towns. If this budget package is accepted, I pledge to pay the amounts provided in the budget without reduction and without postponement. By unbundling aid from specific revenue sources, the communities and school districts will not have to make up any shortfalls in state revenues.

I am taking a number of specific steps in order to insure there are no more fiscal shocks like that which confronted me right after the election in terms of the public disclosure on the surprisingly large size of the 1982 deficit and the very significant 1983 revenue shortfall.

I am forming and will use a financial outlook committee comprised of the Comptroller, Treasurer, Commissioner of Revenue Administration and my Chief Financial Officer. This Committee will meet with me at least quarterly to keep me apprised of current estimates for revenue and expenditures. I plan to make public my projections at least semi-annually, or more frequently if warranted.

The work of this committee will mesh productively with the Strategic Planning Group reporting to the Governor's Office which will have the responsibility for considering the needs of state government beyond the two-year budget cycle.

This budget transfers the disbursement responsibility from the Treasurer to the Comptroller and provides funding for a new financial reporting system. I have given the Comptroller the goal of, by 1985, having the new system in place so the Comptroller can report on a more timely basis the actual financial results as compared to the budgeted or authorized amounts.

The budget provides funding for an Operations Analysis Group in the Comptroller's office to work year-round promoting more efficient use of government resources.

The budget provides funding of a Risk Management and Benefits unit for the purpose of safeguarding the State's assets and assisting in the containment of benefits and other insurance increases.

The changes in revenue reporting and collection recommended will not only increase revenue, but they will also increase the ability to predict in a more timely fashion the receipt of revenues.

The only major reorganization contained within this budget is the elimination of the concept and the Department of Centralized Data Processing. In this budget, responsibilities for data processing and data processing resources have been transferred to the specific departments. Funding has been provided to those departments to meet their needs.

To replace the coordination function provided by Centralized Data Processing, we have established a Department of Program Management reporting to the Governor. That office will permit us to coordinate activities while still recognizing modern technology and developments in both hardware and software may make it appropriate,

economical, and effective for individualized departments to deal with their responsibilities internally.

The budget makes provisions for a restructuring of the staffing within the state liquor stores to be more reflective of the most efficient distribution of personnel within that department. Without fail, all the experts we have consulted have informed us the ratio of full-time personnel to part-time personnel in that department is too high to appropriately meet the significant difference between peak and level loads in retail operation. It is our intention to give the Commissioners more authority and flexibility to address that need.

The Department of Health and Welfare represents over one-third of our general fund.

While this budget has been put together with consideration to the limits of resources we have available, it does, however, compassionately address the state's responsibilities to our less fortunate citizens. Thus, the Department of Health and Welfare has within this budget received a substantial and justifiable increase of general fund dollars.

Let me summarize for you some of these programs which we have augmented.

For example, a significant fraction of our population depends on the Aid for Dependent Children Program for their everyday existence. It supports the roof over their heads and the food on their tables. The level of payments under this program, however, has not been adjusted in five years.

Accordingly, I have included in my budget sufficient funds which will allow for an upward adjustment of the AFDC payments that will reflect the anticipated inflation rate over the next two years, and also allow the level of payments under those benefits to climb with inflation.

In the area of alcohol and drug abuse, cutbacks in federal funds were anticipated in the coming biennium which would have resulted in the elimination of a significant portion of the programs we currently have. That cutback would have seriously impacted our ability to serve those needs. Therefore, we have provided state funding to compensate for the loss of federal dollars so our commitment to the current level of alcohol and drug abuse services remains constant.

In the area of mental health and developmental services, state programs are undergoing major changes. There have been a number of committees which have reviewed our current and future needs. In the development of this budget, we have given consideration to the recommendations and reports of a variety of groups including your own legislative committee. This budget reflects some of those recommendations and is a constructive response to those needs.

There are a few points that should be stressed. I am still committed to the pledge I made to you during my campaign. New Hampshire urgently needs and will have new facilities to replace the antiquated and inefficient State Hospital and Laconia State School. Although there do remain some

questions as to the exact size and location of these new facilities, I will devote whatever time is necessary to work with you to resolve these questions in the coming months so we can move forward with firm plans during this biennium.

It is clear our system of care for the mentally disabled is in the process of being restructured. The system must provide a mechanism for delivering competent care in adequate financial amounts to meet these needs. Furthermore, under no circumstances must the state abdicate its fiscal responsibility by transferring it onto the shoulders of the cities and towns.

Within this budget you will find resources to support certain general hospital psychiatric services and a flexibility within the program to give the director responsibility to utilize funds where the needs exist. As areas of the state reduce their use of state facilities, they will receive funds from the institution to provide care and treatment at the local level.

While this change is underway and while we are meeting our responsibilities in this area, I want to stress that I retain a strong commitment for building and establishing accountability within this new system. As we spend additional dollars in these areas, we must be assured these dollars are being spent appropriately.

Since I have come into office, I have, with the assistance of experts, assessed and evaluated the effectiveness of the programs that have been established in response to the Laconia State School lawsuit and are being put into place within our mental health system. I will intensify that evaluation process to assure the programs we are establishing serve not only the individuals involved, but also are serving the taxpayers of the State of New Hampshire as well.

Let me assure you that although the State of New Hampshire will successfully and effectively respond to the orders of the court, we will do so in an efficient, responsible manner. The budget recommendations today include a constructive response to that commitment.

While addressing our changing responsibilities in mental health, this budget does continue to provide adequate funding for the New Hampshire Hospital and for the community mental health centers. In order to deliver maximum services while making efficient use of our resources, we have expanded the use of both cost reduction and revenue-maximizing strategies in this area. Furthermore, I assure you the effort of bringing efficiency and effectiveness to this process does not stop with the development of this budget. I and the leadership of the department and the division will continue to work on these issues throughout the biennium.

Within the Department of Health and Welfare, the Division of Public Health is the smallest component in a budgetary sense. However, they deal with a very significant number of our citizens on a day-to-day basis by providing services that range from nutrition, to licensing hospitals, to the regulation of nursing

homes, to the protection of our people from the hazards of waste disposal. The budget for that agency reflects the recognition of the importance of these responsibilities.

In the area of hazardous wastes, the Division of Public Health shares responsibility with the Water Supply and Pollution Control Agency. Their cooperative efforts are crucial to the State of New Hampshire. The need to address effectively the issue of hazardous wastes now is clear. Our responsibility to provide the technical assistance and financial resources to address our needs is self-evident.

In this budget, I am calling for a state commitment to our environment. In the area of hazardous wastes, this commitment consists of a \$1.5 million bond issue which will bring to New Hampshire almost \$15 million in matching funds for hazardous waste cleanup. Furthermore, it is my intention to reorganize the staff of the Governor's Office to provide a focal point for addressing the environmental needs of the State of New Hampshire. As we address the needs of reorganization, we will examine the question as to whether consolidation of responsibilities would allow the state to deal more effectively with these needs.

There is one additional area in the context of the Department of Health and Welfare which I wish to emphasize. In terms of allocation of resources, the State of New Hampshire can be proud of its historical commitment to assisting our elderly through programs of long-term health care. In fact, we are among the leaders, if not the leader, in the nation in terms of per capita contributions to this need.

However, I believe it is time we begin to address the use of more versatile, innovative ways of assisting our elderly with less emphasis on institutionalization and nursing homes and more in providing resources within communities and the family structure to meet this responsibility.

Thus, I have directed the Department to establish programs and pursue, if necessary, waivers from the federal government, which will allow us to provide community care alternatives for the frail elderly. And within a few days, I will publicly announce the formation of a task force to develop a comprehensive system for long-term care. The budget we have proposed is designed with the flexibility to meet a breadth of responsibilities in that area.

Throughout the development of this budget we have looked long and hard within the Department of Health and Welfare not only to reduce our costs but, where appropriate, to make more effective programs and delivery of services. It has been a very intense effort. We allocated a major portion of our budget development resources to this end. We received good cooperation and assistance from the department's division heads and the people within the programs. The budget we present for this department fairly and effectively addresses our priorities and needs in this area and provides solutions consistent with the commitment to good, effective government I have made.

However, the budget process is not an end in itself, and I assure you as we

proceed through the biennium, we will continue our effort. I have included within this budget resources to permit us to continue this intense effort to improve the operations within that department to maximize the delivery of services at minimum cost and, in fact where possible, to maximize the development of compensating revenue from alternative sources such as federal dollars. To this end, we have already begun a program, reporting directly to the Governor, to address some of these principal responsibilities.

Some of the specific projects included in this task include a review of the current organizations and operations of each division within the department and the design of the most effective and efficient organization, staff plan and work methods for the delivery of services. Also, the design and implementation of improved accountability and cost control systems for AFDC, food stamps, social services and mental health and developmental disabilities programs, development of a program for achieving immediate productivity improvements at New Hampshire Hospital and the Laconia State School; and a review of current financial and contract controls for the mental health and developmental disabilities program, including specified contract reviews as requested by the Governor's Office.

This continued review will assure the expenditures requested under this budget will truly respond to the needs of our people in the most effective and efficient manner.

While there has been an overall increase in expenditures of about \$17 to \$20 million over the biennium, there has been a great deal of give and take in the process. The budget as presented reflects an approximately 30 percent reduction from the original department request and an approximately 20 percent reduction from the maintenance budget. Furthermore, we have developed in the budget process a negotiated cap on departmental staffing to correspond to the staffing levels as of June 30, 1983.

There has been a restructuring of the program to permit expansion of federal funding for mental health programs to develop a reduction of general funding commitments through the use of a community waiver request. There is a commitment to a full-scale cost reduction program which has already been initiated and will be carried out through the biennium. There is a commitment to a full-scale review of the developmental services budget and program process. I believe this budget represents the best interests of both the recipients of services and the taxpayers of the state of New Hampshire.

The roads and highways of New Hampshire are principal areas of activity for state and local government.

The availability of additional funds through the Federal Gas Tax Program has received widespread publicity. In our budgeting process we have attempted to identify the principal priorities and needs of the State of New Hampshire to most effectively utilize these funds as they become available. The programs included in

this budget reflect that priority. However, we have also attempted to recognize changing patterns of needs within our cities and towns.

Under existing laws, cities and towns would receive a total of \$9.6 million for road and highway funding. My budget includes a \$10.7 million Highway Block Grant Aid Program for our communities plus a separate continuation of \$400,000 for the Class V maintenance to smaller communities. It consolidates the existing town road aid and highway subsidy programs into a single highway aid program. This block grant approach will allow our municipalities greater flexibility in the expenditure of these funds and will simplify the administration of these programs, and it represents an increase of more than \$1.5 million per year to the communities.

Thus, not only have we provided this increase in the total funding level, but we have done it in such a way to permit communities to address their specific needs most effectively.

The quality of life in this state, its character as a good place to live, raise a family and do business, is supported in part by the beauty and the abundant natural resources which New Hampshire possesses. In this budget we have supported the efforts of our resource agencies to maintain that quality of life within our state.

All of our resources, parks, forests, lakes and streams, feel the impact of growth and development, and the stewardship which the state has demonstrated in water and land management will be continued in a realistic and effective way under the budget allocations we have proposed for the water, land and park agencies.

We have also recognized an obligation to continue our commitment to jobs and business development within our state. Part of that commitment has been reflected in the targeting of programs of vacation travel promotion and industrial development support. Both of these important programs involve job creation. The commitment of general fund revenues, and local funding, toward the end of stimulating private contributions, have my full support and are intended to improve and advance the state's role in economic development.

This budget recognizes vacation travel is a key element in the state's overall economy in all respects. My support in this area is based upon shared responsibilities with the private sector and is designed to stimulate a cooperative working relationship between our state agencies and private business.

In the area of industrial development we have designed our programs within the budget to expand assistance to New Hampshire businesses so equity and debt financing may be more readily available for assisting businesses in a position to expand and for those new businesses which are in a position to locate in areas of persistent high unemployment. Our proposed budget in this critical state role of business development is sound and realistic.

We intend to coordinate the job development activities of the state to more effectively focus on the variations of needs

in different areas of the state as well as to address needs created by evolutions within the trades and the development of needs for newer job skills. The new federal job training act and the federal funds through that program will be coordinated to achieve the most effective economic development.

This budget supports funding of the vocational technical colleges and technical institutes so they may maintain their ability to provide needed training for New Hampshire youth and adults to develop the skills necessary to become employed by the private sector.

The budget supports continued maintenance of a strong high school regional vocational education program with support for tuition and transportation as well as development of regional facilities.

Funds are being provided to assure continued operation of the federal school lunch program which supports public school and other institution lunch programs. This budget reflects support for the continued operation of the Commission on the Arts and its effort to assist schools and communities throughout the state and of greater recognition of the importance of art in our society.

This budget supports continued emphasis on serving special needs and handicapped individuals so they may retain their full potential through vocational rehabilitation and special education programs.

I have noted elsewhere in this budget the superb cooperation received by department heads in the review of priorities and allocation of resources to develop this budget. I am sad to say the one area in which full cooperation was lacking was in the development of the budget for the University System of New Hampshire.

It was extremely difficult, if not impossible, on the basis of the information provided, to make a comparison of priorities between other departments of state government and the University.

However, I continue to support the concept of a strong quality program of university education in the state of New Hampshire. Thus, this budget has not reduced the 1984 funding to the University from the levels of 1983. Furthermore, it provides an increase in funding for the year 1985.

Although we clearly do have problems in communication, coordination and management review, I will continue to work with the Legislature to establish a productive relationship with the University. It is my hope the system will recognize it is in its long-term best interest to close the communications gap which has evolved over the past few years and accept a closer, more effective process of oversight and management review from both the Legislative and Executive Branches.

There are some specific considerations in the budget which deal with the revenue side.

The budget estimates the 1984 general fund revenue will be \$348.5 million, an increase of 9% over 1983, and the 1985 general fund revenue will be \$363.8 million, an increase of 4% over 1984.

The following changes are recommended in order to achieve these revenue amounts.

Extend the current business profits tax surcharge of 13.5% for two more years.

Speed up the collection of the business profits tax to coincide with recent changes in federal tax law so that 90% of the tax due is payable in the year due.

Eliminate the redundant tax credits for insurance companies and savings banks. Currently, such institutions are allowed a tax deduction and a tax credit which is essentially a double deduction.

Change the collection of rooms and meals taxes to monthly instead of quarterly.

Furthermore, the budget includes recommendations to assure an increase in the liquor Commission revenue in 1984 and 1985 over 1983 levels.

Thus the budget recommends a 5% decrease in the liquor discount available to retail outlets and an additional 5% reduction if the wine is picked up at the store rather than the warehouse.

The budget recommends an increase in the amount of advertising funds available to the Commission.

The budget expedites the use of current retail systems technology, such as price scanners at the checkout counters, to allow faster customer throughput in the stores.

The revenue estimates also assume a change in the wording of the telephone tax so amounts can be assessed consistent with actual past practice that was found not to be in accordance with the existing law and, which in 1983, resulted in a \$3.3 million decrease in revenue.

It should also be noted, although it makes no net impact, Board and Care revenues have been reduced approximately \$13 million over the biennium due to an accounting change. It has been the past practice to have the Department of Welfare provide for the state portion of reimbursable costs at the state institutions and show the payment of such costs as general fund revenue. We have discontinued this practice, thus reducing both revenues and appropriations in 1984-1985 as compared to prior periods. This change more accurately states true revenues and expenses.

This budget includes limited bonding to address some expenditures that otherwise would have been leased or financed by higher interest rate short-term debt.

Currently the liquor inventory of over \$20 million is financed by short-term debt. I am recommending we replace the short-term debt with five-year bonds and make the financing the obligation of the liquor commission rather than the general fund. This change will allow us to finance the inventory at a cheaper rate and will also allow us to reduce the debt obligation of the general fund.

The budget includes \$400,000 of bonded debt to allow the Fish and Game Department to purchase a computer and capital equipment.

The budget requested \$1.5 million in hazardous waste fund bonds. This amount will be used for the state match requirements in order to get \$15 million federal Super Fund cleanup dollars.

The budget presented to you today is a very comprehensive proposal. In fact, we already are aware of at least two areas where the budget as first printed must be revised slightly to reflect my budget requirements and decisions. Appropriate corrections will be provided as soon as possible.

It is going to require discipline to solve our current fiscal problems. It also requires a willingness and commitment to reassess the role of government and to consider whether every service or program offered is truly essential. It requires this examination not only at the state level, but at the county and local levels as well.

It is now incumbent upon each community to actively pursue a complementary review of their fiscal management policies to accomplish our mutual objectives.

My Democratic predecessor, in his last budget message, noted in part, "Too many people in our state and nation have come to assume that government is the answer to all problems and that Government's answer should always be simply to spend more....All programs, all interest must share in budget reductions if we are truly going to regain control of government spending...we cannot control taxation, we cannot control government spending if only one level of government is willing to adjust and live within its means."

We must address the needs of the state by cooperating at all levels of government, but in particular, I need your help, your support.

I do realize that, although I stand before you as a Republican governor, success of this economic program for progress requires the support of responsible Democrats as well as my fellow Republicans. I am aware there are those who for narrow, partisan, political considerations will feel obliged to criticize as a matter of course, or who as a matter of political expediency will deliver the expected demagogic denunciations.

However, I know there will also be a number of dedicated, hard-working legislators, Democrats and Republicans alike, who will respond constructively to develop a sound fiscal program. To that responsible majority I commit my cooperation and assistance. Together we can return the State of New Hampshire to fiscal integrity and financial respect.

Thank you very much.

HOUSE JOURNAL 7

Thursday, 17Feb83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

To You dear God, who are the author of the only perfect law, we turn for instruction and direction in the ways of our work. Increase our sense of humor when we are accused of working only one afternoon a week. Improve our sense of balance when we are told we seek self interests and have omitted others' interests. Enlarge our humbleness when we are tempted to act as gods fixing up all the ills of our society. Help us to turn our attention each day to Your laws and statutes that we might be enlightened and revived for our lawmaking. In the study of your perfect law, dear God, make us wise and give us joy and pleasure in living. Let the burden of our work be lifted because we work with Thee. In Jesus Name we pray. Amen.

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

Dear God, we thank You for bringing us to the beginning of another month. We thank You for Your continual reminders of Your love for us. Please forgive us as we have strayed from what we know to be the best in our lives and work. Please forgive us in that we have enjoyed our separation from You and not acknowledged our need for Your wisdom. Please now lead us in the paths of wisdom, justice, mercy and love as we attempt to make laws that explain Your Eternal Law. Amen.

HB 112-FN, relative to sunset review of the insurance department - administration. Ought to Pass With Amendment.

The bill continues the operation of the Insurance Department. The amendment makes some RSA numbering corrections and corrects changes that affected insurance companies due to Revision of General Corporate Laws which also affected insurance law. Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 References Amended. Amend the introductory paragraph of RSA 401:1 by striking out in line 3 the citation "chapter 294, RSA" and inserting in place thereof the following (RSA 293-A) and by striking out in line 5 the citation "chapter 292, RSA," and inserting in place thereof the following (RSA 292) so that said paragraph as amended shall read as follows:

Subject to the additional or varied requirements stated in this chapter, a corporation with capital stock may be formed, pursuant to the provisions of RSA 293-A, and a corporation to carry on business on the mutual plan may be formed pursuant to the provisions of RSA 292 for the purpose of conducting the following kinds of insurance business:

4 New Section. Amend RSA 401 by inserting after section 1 the following new section:

401:1-a Purposes; Miscellaneous Insurance.

I. Any corporation formed or authorized for the purpose of conducting one or more of the kinds of insurance found in RSA 401:1, or licensed or authorized pursuant to RSA 405, shall be permitted to conduct other kinds of insurance not enumerated in RSA 401:1 as the commissioner may permit by rule pursuant to paragraph II below.

II. If the commissioner determines that there exists a kind of insurance which is not enumerated in RSA 401:1 and such kind of insurance is properly the subject of insurance, and is in the public interest, the commissioner may by rule adopted under RSA 541-A permit corporations to conduct said kind or kinds of insurance as miscellaneous insurance. Corporations may conduct miscellaneous insurance in combination with one or more other kinds of insurance specified in RSA 401:1 as permitted by the commissioner. However, no corporation shall conduct a kind of miscellaneous insurance unless that kind of miscellaneous insurance has been specifically permitted by the commissioner.

5 New Procedure. Amend RSA 401:6 (supp) as amended by striking out said section and inserting in place thereof the following:

401:6 Certification of Agreement. The articles of agreement shall be submitted to the insurance commissioner, who shall examine same. The commissioner shall not approve the articles of agreement of a company until he is satisfied, by such examination as he may make and such evidence as he may require, that: (1) the incorporators are of good repute and intend in good faith to operate the company; (2) the company has capable management; (3) the company has a reasonable prospect for success in the kind or kinds of business which it proposes to transact; (4) the actuarial projections, policy forms, rates, dividends, commissions, and other expenses contemplated as well as reinsurance, market and taxes are sound and reasonable; and (5) the articles of agreement otherwise comply with the law. Upon satisfying himself that the foregoing requirements have been met, the commissioner shall so certify by an endorsement upon said articles of agreement, which shall then be recorded in accordance with the provisions of RSA 293-A:55 provided that copies of the original documents filed with the secretary of state shall also be filed with the insurance commissioner.

6 Reference Changed. Amend RSA 401:7 as amended by striking out in line 14 the citation "section 40 of chapter 294" and inserting in place thereof the following (RSA 293-A:59) so that said section as amended shall read as follows:

Any insurance company organized under the laws of the state, whether by special charter or under the general law, shall be entitled to amend its charter or articles of incorporation, so as to acquire the authority to do any or all kinds of insurance business which corporations organized under the provisions of this chapter are authorized to do, and may otherwise amend its charter or articles, in any manner not inconsistent with this chapter, by a majority vote of all its stock, or, if a mutual company, by a majority vote of those members present and voting, at a meeting called for that purpose. Any such company may, with approval of the commissioner, increase or reduce its capital stock and, subject to the limitations hereinafter provided, may change the par value of the shares of its capital stock at a meeting called for the purpose, by vote of its stockholders as provided by RSA 293-A:59. The par value of the shares of stock of any such company now outstanding or hereafter issued may be such an amount as the commissioner may approve.

7 Requirement Deleted. Amend RSA 401:8 by striking out in lines 3 and 4 the words "and to the attorney-general or assistant attorney-general for their" and inserting in place thereof the following (for) so that said section as amended shall read as follows:

If the commissioner finds that the name is available for use, he shall reserve the name for the exclusive use of the applicant for a period of 120 days.

II. The right to the exclusive use of a specified name, including trade names, so reserved may be transferred to any other person or corporation by filing, with the office of the insurance commissioner, a request for the transfer, executed by the applicant for whom the name was reserved, by specifying the name and address of the transferee and other information as required by the insurance commissioner and by paying a fee equal to the original application fee.

The thrust of this bill is to change the responsibility for a timber cutting operation from the timber-cutter to the landowner. HB 135-FN, relative to sunset review of administration and control - division of graphic services. Ought to Pass with Amendment.

The Committee recommends the Division of Graphic Services be recreated with amendments intended to provide greater service and flexibility. The amendment provides authority to the Director to approve agency ownership of graphic services' equipment and related personnel on an annual basis and, also, provides forms, management consulting and training to agency personnel. It also permits the Director to purchase equipment for resale, lease, or rental to state agencies. The purchases would be made through the Comptroller and charged upon an inventory account. Vote 21-0. Rep. John B. Hrabka for Executive Departments and Administration.

The inventory account shall be credited with issues out of inventory. Such purchases, rentals and leases shall be a charge upon an inventory account maintained in the office of the comptroller.

5 Effective Date. This act shall take effect upon its passage.

HB 25, relative to protests of changes in zoning regulations. Inexpedient to Legislate.

HB 86-FN, concerning taxation by the town of Derry of property within the East Derry fire precinct. Ought to Pass.

4 Temporary Incapacity. Amend RSA 41:45-c (supp) as inserted by 1969, 450:1 as

Said deputy shall possess the powers, perform the duties and be paid as the selectmen or town meeting shall decide.

5 Vacancy. Amend RSA 669:66 (supp) as inserted by 1979, 410:1 by striking out said section and inserting in place thereof the following:

HB 175, legalizing the town meeting of the town of Amherst held on January 5, 1983. Ought to Pass with Amendment.

This bill corrects a technical omission in the one article in a special town meeting held in Amherst on January 5, 1983. Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

Amend the bill by striking out all after section 1 and inserting in place thereof the following:

2 Funds Needed. The sum of \$130,000 shall be raised, and shall be included in the 1983 tax rate for the town of Amherst.

3 Effective Date. This act shall take effect upon its passage.

HB 181, to require a 2/3 vote in order to change a municipality's form of government. Inexpedient to Legislate. The present statutes provide sufficient safeguards that charter changes will not be made frivolously. After the election of a charter commission with the requirements of public hearings and protracted study a simple majority to adopt the recommendations is needed. Vote 18-0. Rep. John P. Lawrence for Municipal and County Government.

HB 182, designating certain members of a municipal budget committee as nonvoting members. Inexpedient to Legislate. Under this bill, members of the municipal budget committee who are designated by school boards, village district commissioners, or board of selectmen would be nonvoting members. The Committee believes this bill would seriously hamper the input of certain budget committee members and create an unwarranted distinction between members of the municipal budget committee. Vote 17-1. Rep. George S. Lamprey for Municipal and County Government.

HB 183, providing for mandatory removal from office for violation of the provisions of RSA 32:10. Inexpedient to Legislate. The Committee believes that mandating removal from office without taking into account extenuating or accidental circumstances is far too extreme an action. Vote 18-0. Rep. Alf E. Jacobson for Municipal and County Government.

HB 184, legalizing the 1982 annual town meeting of the town of Alton. Ought to Pass. The Committee felt this was a minor oversight of officials, and this action validates necessary procedure of the RSA for tax rate per Department of Revenue Administration. Vote 18-0. Rep. Paul A. Golden for Municipal and County Government.

HB 149-FN, relative to sunset review of the safety department - division of safety services. Ought to Pass. The Committee recognized that there were elements within the Division which, to achieve maximum efficiency of operations and better personnel utilization, could be merged into or relocated to other

activities. However, in view of the executive branch reorganization contemplated by HB 1, it was felt that no useful purpose would be served by effecting transfer of job spaces, personnel, funds, equipment, etc. at this time, but rather to let such actions be a part of the overall reorganization process. Vote 11-0. Rep. Warren F. Ames for Public Protection and Veterans Affairs.

HB 61, restricting motorized dredging for heavy metals. Inexpedient to Legislate. The Committee concluded that such restrictions was a redundant legal restraint since RSA 149:8-a presently provides adequate safeguards to the water quality of all streams of the state. Vote 18-0. Rep. Douglas R. Woodward for Resources, Recreation and Development.

HB 170, relative to the use of certain type motorboats by disabled persons on restricted bodies of water in state. Inexpedient to Legislate. The Committee believes it would be difficult to enforce the special permit process to allow persons who are physically handicapped to use electric motors on bodies of water which are now restricted to power boats. To drop all reference to handicapped persons changes the intent of the bill. Vote 16-1. Rep. Charles H. Dingle for Resources, Recreation and Development.

HB 169, relative to emergency vehicles. Inexpedient to Legislate. The Committee felt that the subject matter addressed in this bill is adequately covered in existing statutes. It recognizes that there may be minor problems in local areas, but that use of common sense will cover any problems that may arise. Vote 16-0. Rep. Irvin H. Gordon for Transportation.

COMMITTEE REPORTS
(Regular Calendar)

HB 36-FN, changing the daily fee and mileage paid to court witnesses. Ought to Pass with Amendment. This bill divides the witness fee remuneration into half days so that a witness who attends court only one-half day will receive \$15 and a full day witness, \$30. Mileage is increased from 17¢ to 20¢ per mile. Vote 10-8. Rep. Alf E. Jacobson for Municipal and County Government.

Rep. Mann moved that HB 36 be recommitted to the Committee on Municipal and County Government and spoke to his motion.
Adopted.

HB 90, relative to improvements to the central New Hampshire turnpike and making an appropriation therefor. Ought to Pass. This bill provides for the construction of a new exit off central New

Hampshire's turnpike for the Merrimack industrial area. Vote 14-0. Rep. Lorine M. Walter for Public Works.

Referred to Appropriations.

Reps. Rounds and Spirou offered the following.

We pray for the responsibility to do our assigned tasks well, the honesty to communicate our feelings and actions in the bills we write and a trust in our colleagues' good work. COMMITTEE REPORTS (Consent Calendar)

HB 81-FN, requiring review of the basis for apportionment of certain costs in cooperative school districts. Inexpedient to Legislate.

Since the intent of HB 81-FN can be accomplished by petition with signatures at the local level, the Committee felt the matter should be handled locally. Vote 15-0. Rep. Ellen-Ann Robinson for Education.

HB 122-FN, relative to sunset review of the higher education fund - U.N.H. continuing education. Ought to Pass with Amendment.

This bill renews the higher education fund for the University System School for Lifelong Learning and allows a most worthwhile program to continue. The amendment corrects an error in the name of this component of the university system. Vote 15-0. Rep. Jesse F. Davis for Education.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 Name Change. The PAU for "U.N.H. continuing education," which is renewed by section 1 of this act, is and shall hereafter be called the "school for lifelong learning."

4 Effective Date. This act shall take effect upon its passage.

HB 123-FN, relative to sunset review of the higher education fund - industrial and institutional development. Ought to Pass with Amendment.

The Education Committee agrees that the University of New Hampshire needs an industrial liaison organization to supplement the university's academic programs and to enable the university to serve the state's businesses, industries and government agencies. The amendment replaces the Center for Industrial and Institutional Development with a new unit, the University of New Hampshire Consulting Center. It defines the mission of the unit and its organizational relationship to the university. Vote 19-0. Rep. Betty Jo Taffe for Education.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 Name Change. The designation of PAU 060707 is hereby changed from the higher education fund - industrial and institutional development to the university of New Hampshire consulting center.

4 New Section. Amend RSA 187-A by inserting after section 10 the following new section:

187-A:10-a Consulting Center. The university of New Hampshire consulting center shall be an administrative unit of

the university of New Hampshire research office. The consulting center shall report to the director of the research office and, through the director, to the vice president for academic affairs. The purpose of the consulting center shall be:

I. To promote interaction between the faculty and students of the university of New Hampshire and members of the private sector, nonprofit organizations, and state and local governmental units.

II. To aid New Hampshire businesses, nonprofit organizations, and state and local governmental units by providing access to the facilities and expertise offered by the university of New Hampshire.

III. To address the needs of clients, who may be either public or private organizations, by forming project teams composed of faculty and students of the university of New Hampshire. The purpose of the project teams shall be to find solutions to client problems.

IV. To promote the transfer of technology from the university to New Hampshire businesses and industries.

5 Effective Date. This act shall take effect upon its passage.

HB 77, to require a hearing prior to issuance of certain orders relative to libels for divorce, annulment or a decree of nullity. Refer for Interim Study.

The Committee feels there is a need for further study on this bill. Vote 12-4. Rep. Maureen E. Raiche for Judiciary.

HB 78-FN, increasing the limits on summary administration of small estates. Ought to Pass with Amendment.

The Committee felt that some increase in the limits of summary administration should be enacted to save costs of administration, fees and expenses for the surviving spouse and heirs, but that the proposed limits were too high when compared against controls and accounting procedures for protecting the estate assets and distribution after payment of debts. Vote 16-0. Rep. Frank J. Sylvia for Judiciary.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

increasing the limits on summary administration of small estates.

The voluntary administrator shall, at the time of filing the affidavit, also file a list of heirs, a report of gifts and transfers under RSA 86:22 with the register of probate and with the department of revenue administration, and a true and perfect inventory of the estate of the deceased. The form of this affidavit and the rules governing proceedings under this section shall be prescribed in the manner provided by RSA 547:33.

II. Upon payment of a fee of \$5, the register of probate shall, if no other petition for administration of such estate is pending, issue an attested copy of the affidavit which shall specify the assets of the estate which the voluntary administrator may collect and which shall constitute sufficient legal authority to all persons owing any money, having custody of any property or acting as register or transfer agent of any evidence of interest, indebtedness, property or right belonging to the estate, as specifically set forth in the affidavit, and to persons purchasing or otherwise dealing with the estate, to make payment or transfer to the affiant with the same effect as if made to a duly appointed personal representative of the deceased person. Out of the assets which the voluntary administrator collects, he shall pay debts and expenses in accordance with RSA 554:19. If any balance remains he shall distribute it either according to the will or, if there is no will, in accordance with RSA 561:1. The voluntary administrator may not take any fee for his services.

III. The voluntary administrator is liable as an executor in his own wrong as provided in RSA 553:17 to all persons aggrieved by his administration, and, if letters testamentary or of administration are later granted, then to the rightful executor or administrator. If personal representative of the deceased person is appointed under any other section of RSA 553, or under any section of RSA 552, the powers of the voluntary administrator shall cease.

IV. If the voluntary administrator uncovers further assets of the estate of the deceased person not originally inventoried, and the additional assets when added to those originally inventoried do not exceed \$2,000, he may file an amended affidavit, and upon payment of an additional fee of \$5, the register of probate shall issue an

attested copy of the amended affidavit setting forth the additional assets. The amended affidavit shall have the same force and effect as the original affidavit filed by the voluntary administrator.

2 Small Estates Exceeding \$2,000.

Amend RSA 553:31-a as inserted by 1967, 428:2 as amended by striking out said section and inserting in place thereof the following:

553:31-a Administration of Small Estates Over \$2,000.

I. If the estate of a person deceased, whether testate or intestate, consists entirely of personal property of a gross value exceeding \$2,000 but not exceeding \$5,000, and the will has been allowed or no petition under any other section of RSA 553 or any section under RSA 552 has been filed, the right to administer shall be as set forth in RSA 553:2 upon such person filing, with the probate court in the county in which the deceased was domiciled at the time of his death, an affidavit stating that the affiant has undertaken to act as executor or voluntary administrator of the estate and shall administer the same according to law. The executor or voluntary administrator shall, at the time of filing the affidavit, also file a personal bond, a list of heirs, a report of gifts and transfers under RSA 86:22 with the register of probate and with the department of revenue administration, and a true and perfect inventory of the estate of the deceased, which shall be incorporated into the affidavit. The form of this affidavit and the rules governing proceedings under this section shall be prescribed in the manner provided by RSA 547:33.

II. Upon approval of the probate court and payment of a fee of \$5, the register of probate shall, if no other petition for administration is pending, issue an attested copy of the affidavit which shall constitute sufficient legal authority to all persons owing any money, having custody of any property or acting as register or transfer agent of any evidence of interest, indebtedness, property or rights belonging to the estate and to persons purchasing or otherwise dealing with the estate, to make payment or transfer to the affiant with the same effect as if made to a duly appointed representative of the deceased person. Out of the assets which the executor or voluntary administrator collects, he shall pay debts and expenses in accordance with RSA 554:19. If any balance remains, he shall distribute it either according to the will or, if there is no will, in accordance with RSA 561:1. The executor or voluntary administrator may not take any fee for his services.

III. A voluntary administrator is liable as an executor in his own wrong as provided in RSA 553:17 to all persons aggrieved by his administration, and, if letters testamentary or of administration are later granted, then to the rightful executor or administrator. If a personal representative of the deceased person is appointed under any other section of RSA 553, or under any section of RSA 552, the powers of the voluntary administrator shall cease. An executor or voluntary

administrator appointed under this section shall render a statement of his administration not later than 180 days from the date of his appointment.

4 Effective Date. This act shall take effect 60 days after its passage.

The individual project appropriations provided in section 1 of this act shall not be transferred or expended for any other purposes; provided that if there is a balance remaining after an individual project, which is fully funded by state funds, is completed, accepted, and final payment made, said balance or any part thereof may be transferred by governor and council to any other individual project or projects, which are also fully funded by state funds, within the same section and from the same funding source.

8 Reduction of Appropriations and Bonding Authority. If the net appropriation of state funds for any project provided for by section 1 of this act is determined on the basis of an estimate of anticipated federal, local or other funds, and if the amount of such funds actually received or available is less than said estimate, then the total authorized cost for such project and the net appropriation of state funds therefor shall be reduced by the same proportion as the proportion by which federal, local or other funds are reduced. The amount of bonding authorized by section 4 of this act shall be reduced by the amount that the appropriation of state funds is reduced pursuant to this section.

V. The appropriations made by the laws amended in paragraphs I-IV of this section are hereby extended until June 30, 1985, and shall not lapse until that time.

10 Comptroller to Consolidate Appropriations. The comptroller shall combine the following separate capital appropriations into a single appropriation account for the Phase I project at Lebanon airport:

1 New Chapter. Amend RSA by inserting after RSA 137-G the following new chapter:

CHAPTER 137-H
TERMINAL CARE DOCUMENT

STRAFFORD: Banks, Belhumeur, Bernard, Blouin, Bouchard, Chagnon, Chisholm, Couture, Demers, Albert Dionne, Fielding, Flynn, Hamel, Hennessey, Hussey, Joos, Musler, Pelley, Schreiber, Gerald L. Smith, Timm and Ralph Torr.

137-H:1 Purpose and Policy. The state of New Hampshire recognizes that a person as a matter of right, founded in the autonomy and sanctity of the person, may rationally make an election as to the extent of medical treatment he will receive in the event that his physical state reaches such a point of deterioration that he is in a terminal state and there is no reasonable expectation that life can be continued with dignity and without pain.

SULLIVAN: Brodeur, Carlson, Converse, D'Amante, Irwin, Paul Johnson and Susan Lawrence, and HB 11 was ordered to third reading.

Rep. Resch notified the Clerk that he wished to be recorded in favor of HB 11.

137-H:2 Definitions. The following definitions shall be applicable in the construction of this chapter:

HB 117-FN, relative to sunset review of the state board of education - postsecondary education administration and support. Inexpedient to Legislate.

I. "Attending physician" means the physician selected by, or assigned to the patient, who has primary responsibility for the treatment and care of the patient.

Since HB 53-FN removes the voc-tech system from the Department of Education and establishes a separate board of governors for the system, the Education Committee recommends that HB 117-FN be inexpedient to legislate. The Committee will move to table HB 117-FN until HB 53 becomes law, to ensure that the voc-tech system is not inadvertently sunsetted. Vote 15-0. Rep. Dennis R. Bolduc for Education.

11. "Extraordinary measures" means any medical procedure or intervention which utilizes mechanical or other artificial means to sustain, restore, or supplant a vital function which, in the judgment of the attending physician and a consulting physician, when applied to the patient, would serve only to artificially postpone the moment of death and where, in the judgment of the attending physician and the consulting physician, the patient is in a terminal state.

Rep. William Boucher explained the committee report.

Rep. Taffe moved that HB 117 be laid upon the table.

Adopted.

III. "Terminal care document" means a document which, when duly executed, contains the express direction that no extraordinary measures be taken when the person executing said document is in a terminal state, without hope of recovery from such state and is unable to actively participate in the decision-making process.

HB 73-FN, increasing the number of superior court associate justices. Ought to Pass.

IV. "Physician" means a medical doctor licensed to practice in the state of New Hampshire pursuant to RSA 329.

Recent statutory changes have resulted in an increased number of appeals to the Superior Court. The Committee agreed that three more judges (for a total of seventeen) are needed to deal with the larger caseload. Vote 20-1. Rep. Donna P. Sytek for Judiciary.

V. "Terminal state" means an incurable condition caused by injury, disease, or illness which, without the application of extraordinary measures, would, within the reasonable medical judgment of the attending physician and a consulting physician, produce death and where application of extraordinary measures would only postpone the moment of death.

Ordered to third reading.

HB 75, permitting persons to execute terminal care documents. Ought to Pass with Amendment.

137-H:3 Terminal Care Document. A person of sound mind who is 18 years of age or older may execute at any time a document commonly known as a terminal care document, directing that no extraordinary measures be used to prolong his life when he is in a terminal state. The document shall only be effective in the event that the person is incapable of participating in decisions about his care and may, but need not, be in form and substance substantially as follows:

This bill permits adults to make their own decision as to whether or not they want extraordinary measures to be taken to prolong their lives when two doctors agree that such action would only postpone death temporarily, rather than prevent it. Testimony in favor was received from representatives of medical organizations and religious groups. The Committee amendment includes the suggestions of the Roman Catholic Diocese of Manchester. Vote 21-1. Rep. Francis E. Robinson for Judiciary.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

circumstances set forth below, do hereby declare:

If at any time I should have an incurable injury, disease, or illness certified to be a terminal state by 2 physicians who have personally examined me, one of whom shall be my attending physician, and the physicians have determined that my death will occur whether or not extraordinary measures are utilized and where the application of extraordinary measures would serve only to artificially prolong the dying process, I direct that such measures be withheld or withdrawn, and that I be permitted to die naturally with only the administration of medication or the performance of any medical procedure deemed necessary to provide me with comfort care.

In the absence of my ability to give directions regarding the use of such extraordinary measures, it is my intention that this declaration shall be honored by my family and physicians as the final expression of my right to refuse medical or surgical treatment and accept the consequences from such refusal.

I understand the full import of this declaration and I am emotionally and mentally competent to make this declaration.

Copies of this request have been given to:

137-H:4 Execution and Witness. The document set forth in RSA 137-H:3 shall be executed by the person making the same in the presence of 2 or more subscribing witnesses, none of whom shall be the person's spouse, heir at law, attending physician or person acting under the direction or control of the attending

physician or any other person who has at the time of the witnessing thereof any claims against the estate of the person, and shall be acknowledged pursuant to the provisions of RSA 456 or RSA 456-A.

137-H:5 Notification; Medical Record. An attending physician who is requested to do so by the person executing the terminal care document shall make the document, or a copy of the document, a part of that person's permanent medical record.

137-H:6 Action by Physician. An attending physician and any other physician under his direction or control, having in his possession his patient's terminal care document, or having knowledge that such a duly executed document is part of the patient's record in the institution in which he is receiving care, shall be bound to follow as closely as possible the dictates of said document. However, if because of moral conflict with the spirit of the act, a physician finds it impossible to follow his patient's directions, he shall forthwith have a duty to so inform his patient.

137-H:7 Revocation.

1. A person who has validly executed a terminal care document consistent with the provisions of RSA 137-H:3 and RSA 137-H:4 may revoke the document in the following manner:

(a) By burning, tearing or obliterating the same or causing the same to be done or by some other person at his direction and in his presence;

(b) By oral revocation in the presence of the attending physician and 2 or more witnesses, none of whom shall be the person's spouse or heir at law; or

(c) By written revocation, to be signed and dated in the presence of 2 or more witnesses none of whom shall be the person's spouse or heir at law, expressing the intent to revoke.

II. Revocation shall become effective upon communication to the attending physician who shall record in the patient's medical record the time and date when he received notification.

137-H:8 Duty to Deliver. Any person having in his possession a duly executed terminal care document or a revocation thereof, if it becomes known to him that the person executing the same is in such circumstances that the terms of the terminal care document might become applicable, shall forthwith deliver the same to the physician attending the person executing said document or to the medical facility in which said person is a patient.

137-H:9 Immunity. An attending physician, other physician, nurse, health care professional or any other person acting for him or under his control, or hospital within which the person may be, shall be immune from any civil or criminal liability for any act or intentional failure to act if said act or intentional failure to act is done in good faith pursuant to the terminal care document and in accordance with the provisions of this chapter.

137-H:10 Suicide. The withholding or withdrawal of life-sustaining procedures or extraordinary measures from a patient who has executed a document consistent with the

purposes of RSA 137-H:3 shall at no time be construed as a suicide for any legal purpose.
137-H:11 Freedom from Influence.

I. No physician, health facility, or other health provider, and no health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital service plan, shall require any person to execute a terminal care document as a condition for being insured for, or receiving, health care services; nor can health care or services be refused except as is hereinbefore provided because a person is known to have executed a terminal care document.

11. The execution of a terminal care document pursuant to RSA 137-H:3 shall not affect in any manner the sale, procurement, or issuance of any policy of life insurance, nor shall it be deemed to modify the terms of an existing policy of life insurance. No policy of life insurance shall be legally impaired or invalidated in any manner by the withholding or withdrawal of life-sustaining procedures or extraordinary measures from an insured qualified patient, notwithstanding any term of the policy to the contrary.

137-H:12 Presumptions. This chapter shall not be construed to create a presumption that in the absence of a terminal care document, a person wants extraordinary measures to be taken or that a physician is prevented, with family consultation, from taking whatever measures are medically indicated.

137-H:13 Euthanasia. Nothing in this chapter shall be construed to condone, authorize or approve euthanasia or permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying as provided in this chapter.

137-H:14 Penalty. Any person who knowingly causes to be made, altered, forged or counterfeited, or procures, aids or counsels the making, altering, forging or counterfeiting of a terminal care document or revocation thereof, shall be guilty of a class B felony, notwithstanding any provisions in Title LXII.

2 Existing Directives. Terminal care documents which have been executed prior to the effective date of this act shall be deemed valid only if such documents comply with the provisions of RSA 137-H as inserted by section 1 of this act.

3 Effective Date. This act shall take effect 60 days after its passage.

The Woodside Petition. Ought to Pass.

The Committee recommends that the House of Representatives direct the Secretary of State to conduct a full recount of the ballots cast for William Woodside and Virginia Banks in Strafford County, District No. 1. The Committee recommends that the House direct that this recount be done without any ballot challenges, since there was adequate opportunity for such challenges during

the recounts. The Committee felt there were procedural infirmities in the recounts that were conducted. The Committee believes one fair and final recount is warranted to settle the previous different outcomes in this election. The House assembled at 1:00 p.m., and was called to order by the Speaker Pro Tem.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

While many triangular relationships give us fits, dear Heavenly Father, we have learned to draw strength from the division of our government into its branches of Legislative, Judicial and Executive. Help us keep in mind that the common roots of these three branches are in and draw deeply from the wells of Your wisdom and authority. Make us mindful that we work together, that we hold one another accountable and responsible to give our best. Being thus yoked together, may we provide leadership to create peaceful living conditions within our State. Amen.

JOINT CONVENTION
(Speaker Pro Tem presiding)

The Speaker Pro Tem introduced the Honorable John W. King, Chief Justice of the New Hampshire Supreme Court, who reported to the Convention on the state of the Judiciary.

Mr. Speaker, Madam President, His Excellency the Governor, and honorable members of the Senate and the House of Representatives:

On behalf of the judiciary of this state, I am pleased and appreciative that you have invited me as Chief Justice of the Supreme Court to speak to a joint session of the Legislature, on such statutory proposals as are deemed necessary to improve the administration of justice in New Hampshire.

This report serves a very important purpose. It affords the judicial branch of government a special and formal opportunity to thank a co-equal branch of government for their past support, and also acquaints you with our contemporary problems and plans to discharge our constitutional responsibilities to the people of New Hampshire, in providing a fair, just and efficient state judicial system.

I know that few statistics can raise or sustain any interest. Consequently, while I have examined pages of statistics, I shall refrain from boring you with them and just give you some statistical highlights.

Let us first look at what has happened to our courts in the last fifteen years. Starting with the District Court, the first full-time District Court was established in 1964. We now have eight District Courts, with eleven full-time judges. In 1967 some 65,000 cases were processed by the district and municipal courts. In 1982 over 283,000 cases were processed by those courts -- a fourfold increase:

In 1967 the Superior Court was composed of the Chief Justice and seven Associate Justices. That Court now consists of a Chief Justice and fourteen associate justices. In 1967 over 13,600 cases were processed by the Superior Court. By 1982 over 32,000 cases were processed by the Superior Court. In 1967 the Superior Court Clerk in each county also served as a master hearing cases. During 1974 to 1976 the majority of Clerks of Court were phased out as masters, and by 1982 there were nine marital masters and eight regular masters. The cost for masters for 1982 was \$376,000 -- a cost borne by all the counties.

Without the master system the Superior Court would be hopelessly bogged down, if not inundated, by civil lawsuits. A recent report of the National Center for State Courts indicates that 65,476 civil cases were filed in all courts in New Hampshire in 1981, an average of 70 cases per 1000 people. This makes us the tenth most litigious state in the nation on a per capita basis, including the District of Columbia. We are ahead of California and far ahead of New York which had only 45.1 civil cases filed per 1000 people.

Most of these civil cases will be handled by masters who are screened by the Bar Association and appointed by the Superior Court. Although they are qualified

and able, and acting in a judicial role as quasi-judges, they have never been nominated by the Governor nor confirmed by the Executive Council. The next day after hearing a civil case they are free to walk into the same courthouse, and practice law in the same court as private attorneys. We have proposed the addition of ten Superior Court Justices in House Bill 200 in order to eliminate the extensive use of masters. In addition, I would note that the constitutionality of the master system is presently under challenge in cases pending before the Supreme Court.

In 1967 the Supreme Court consisted of the Chief Justice and four Associate Justices, the same number the Supreme Court has presently and has had for a century or so. The Supreme Court in 1967 issued 106 opinions, compared to 1982 when 272 opinions were issued, almost three times as many. We now have five research law clerks, no staff attorney, and no private secretaries for any Supreme Court Justice. However, I would say that our small staff of office personnel and law clerks, who are both cooperative and diversified in their cross training, are equal to the best of their governmental or private business counterparts.

I know that the question of cost by now has arisen in your minds, as well as what federal aid or affirmative acts the courts can take to meet rising costs. I can tell you that there is no more LEAA or any other federal funds available for our state courts.

We have, however, tried to do our part. In December of 1981, the Supreme Court issued an administrative order establishing a uniform fee schedule for all courts. This order had the effect not only of creating entry fees in the Probate Court for the first time, but also of raising fees for all courts. As a result of this order total court fees rose from \$860,000 in 1981 to approximately \$1,560,000 in 1982, an 80% increase. In issuing that administrative order, the court attempted to both update the fees and to make them more reflective of the work involved. We are troubled, however, by the fact that we should not raise fees to the point that we effectively deny the law abiding poor or middle class access to their own courts. Many others, including the President of the Senate, Vesta M. Roy, have expressed the same concern.

Let us now turn to our continuing pursuit of judicial excellence through continuing education. During the past two years, in addition to coordinating 13 in-state judicial education conferences, court personnel have participated in the courses offered by the National Judicial College, the Appellate Judges Seminar, the American Academy of Judicial Education and various ABA programs. The Supreme Court also provided staff to work with the New Hampshire Judges' Association to publish a 250-page New Hampshire District and Municipal Court Benchbook, a first in our state.

The members of your Supreme Court have involved themselves with the Court Accreditation Committee and are seeking much needed legislation indispensable to proper allocation of court facility escrow funds.

The Justices participated actively in the Friends of the Law library, an impressive group of non-paid talent interested in assisting our state librarian, Shirley G. Adamovich, in helping the law library become a viable law library enjoying the national reputation it once enjoyed but which is now seriously jeopardized by lack of funds.

Moving over for quick reference to automation in the courts, at present four courts in New Hampshire are using computers to improve the efficiency of court clerical operations. These courts are the Supreme Court, Belknap County Superior Court, Merrimack County Superior Court, and Nashua District Court. Additionally, efforts are being completed to computerize the state's largest court, the Hillsborough County Superior Court, and to install microprocessors to streamline accounting procedures in 15 district courts.

In considering the problems of the courts at all levels, we must acknowledge the suggestion and help of many groups. I appreciate the help of my fellow justices Maurice P. Bois, Charles G. Douglas, III, David A. Brock, and William F. Batchelder; Superior Court Chief Justice Richard P. Dunfee and his Associates, particularly Joseph A. DiClerico and William F. Cann; the Director of Administrative Services, Jeffrey W. Leiding; the Executive Director of the Administrative Committee of District and Municipal Courts, Craig E. Briggs; and the Coordinator of Judicial Education, Thomas T. Barry; the Judicial Council, your select committee on a unified court system; the New Hampshire Judges' Association, the members of our planning conference, especially Harry V. Spanos, Douglas S. Hatfield, Albert D. Leahy, Jr., Richard E. Galway, Jr., William A. Baker, John M. Safford, and many other individuals such as Speaker John B. Tucker; President of the Senate Vesta M. Roy; Chairman and Vice Chairman of the House Judiciary Committee Donna P. Sytek and Kendall W. Lane; Sen. Norman E. Champagne; the House Appropriations Committee; former President of the New Hampshire Bar David L. Nixon; and many others worthy of specific mention if time permitted. Further I would note that we outlined our legislative proposals to Governor Sununu and while we neither sought nor obtained commitments, we were greeted with graciousness, understanding and a knowledgeable perception of our problems and our goals.

Following a long-range planning conference conducted by the Supreme Court in December of 1982, plus the contributions of the above-named groups and individuals, several legislative proposals have been prepared to address the goals and meet the standards agreed upon at the conference. Included in the Legislative package, which is the first comprehensive and coordinated attempt by the Judiciary branch to effect legislative reform, are increases in District Court Civil Jurisdiction; elimination of *de novo* trials in violation and juvenile cases; increases in the maximum amount of fines for violations and misdemeanors; administrative processing of uncontested motor vehicle violations not involving personal injury; creation of a

judicial compensation commission to review and recommend changes in judicial salaries and in the methods of computing salaries; increasing the number of Superior Court Judges to facilitate the elimination of the "Master" system; and finally and of great importance, transfer of court financing from the current hybrid system of state, county, and local funding to state financing.

House Bill 200 is one of the most important bills on the Judiciary that has ever been introduced in the Legislature. It provides for a major restructuring of your judicial branch of government. Its ultimate purpose is to place the full responsibility of operating the courts on the state -- where it belongs -- instead of perpetuating the hodge podge system in existence today. We must remember that all courts are part of the judicial branch of state government.

House Bill 200 would reduce 80 different court budgets into one integrated budget. It provides uniform health care and retirement benefits for all judicial branch personnel and for the first time implements a uniform judicial personnel system.

The bill provides for a new plea-by-mail system for routine minor traffic offenses, not of course including DWI cases, with a uniform standard fine schedule. It thereby eliminates different fines in different courts for the same uncontested offense.

It will take ten new Superior Court Justices to phase out the present master system and stay current with rising caseloads. As I mentioned earlier, last year the masters cost the counties \$376,000. Like all financing bills, the task is not pleasant, but if the courts are to perform as courts and judges are to hear significant civil cases and perform all judicial functions, civil as well as criminal, then this number of justices is required.

House Bill 200 provides funding and makes the statutory changes to create a state-funded court system in a two-step process. On January 1, 1984, most court revenues would be transferred to the state, and the state would assume all costs for all court personnel. Later that year, on July 1, 1984, the state would assume all operating costs for the courts, except for court facilities, *i.e.*, buildings. Money to develop a facilities plan will be sought in the capital budget.

The burden on our counties and the local property taxpayer will decline from the 1982 level of \$5,300,000 to roughly half that figure by the end of Fiscal Year 1985. Initially, this will provide property tax relief of about 2.5 million dollars. It is hoped that by the next biennium local court expense, exclusive of facility costs, will be reduced to zero as complete state absorption occurs. In the meantime, the ten counties would be assessed based upon population in Fiscal Year 1985 an amount not to exceed \$2,750,000. It is estimated that \$12,000,000 in fines and fees will be collected in Fiscal Year 1985 by the courts statewide against total expenses of approximately \$18,000,000. After deducting the \$2,750,000 county assessment for Fiscal 1985, a shortfall of 3.3 million dollars would have to be made up by the state.

Assuming that no other funding source is available, we propose using highway funds to bridge the gap between fine and fee income on the one hand, and court expense on the other. This is currently done for that percentage of Superior Court time devoted to highway-related cases. At the District Court level 69% of all cases are highway related. The work of these courts is a necessary element in having our state continue to qualify for federal highway aid.

New Hampshire will receive increasing amounts of federal highway funds in the next few years. In fiscal 1983 the amount is an estimated \$41,000,000; in 1984, \$57,000,000 and in fiscal 1985 it is \$60,000,000. Also significant is the fact that President Ronald Reagan recently and commendably signed legislation to help curb drunken driving (DWI) by allocating \$125,000,000 to persuade the states to stiffen their DWI laws. This law will transfer money in the next two years from the Federal Highway Trust Fund to states that meet a rigid four-part plan for reducing alcohol-related traffic deaths.

I submit to you that the protection and improvement of a viable New Hampshire judicial system, before any emergency or crisis occurs, meets the same level of importance as our resolution to get the drunks off the road or of the necessity of providing adequate penal facilities for convicted felons. New Hampshire now spends less than half of one percent of its budget on the judicial branch of government. I read last week that the proposed judicial budget in Massachusetts amounts to 2.8% of its total revenue and the total appropriations for the courts in Maine about 1% of the state budget, an astonishing differential between our neighboring states.

And now as I say the important and almost unanimously abused two words, "in conclusion," I know that to balance the budget, to pay for the costs of progressively increasing demands for welfare and education and corrections, to meet emergencies and prepare for the future, and to allocate these priorities among the different areas of government, puts the utmost strain upon your legislative functions in providing for the resources and determining the priorities. With such awareness we nevertheless feel that the time has come when the Judiciary should present you with the scope of our problems and let you know what monumental issues we face with both inadequate staffing and an insufficient number of judges.

We cannot do it ourselves. We can provide the figures and outline the financing and planning beforehand, but we cannot meet the serious and awesome problems that the judicial branch of government will face in the next few years without your help.

I thank you for your kindness and your cordial attention. We look forward to working with you this session.

357-D:2 Repairs. If a new motor vehicle does not conform to all applicable express or implied warranties, and the consumer reports the nonconformity to the manufacturer or distributor, its agent or its authorized dealer during the term of such express or implied warranties or during the period of one year following the date or original delivery of the motor vehicle to a consumer, whichever is the earlier date, the manufacturer or distributor, its agent or its authorized dealer shall make such repairs as are necessary to conform the vehicle to such express or implied warranties, notwithstanding the fact that such repairs are made after the expiration of such term or such one-year period. Each authorized dealer shall notify the manufacturers or distributor on each occasion on which a consumer reports a non-conformity to such dealer pursuant to this section.

357-D:3 Refund or Replacement.

I. If the manufacturer or distributor, or its agents or authorized dealers are unable to conform the motor vehicle to any applicable express or implied warranty by repairing or correcting any defect or condition which substantially impairs the use and value of the motor vehicle to the consumer after a reasonable number of attempts, the manufacturer or distributor shall replace the motor vehicle with a new motor vehicle or accept return of the vehicle from the consumer and refund to the consumer the full purchase price including all collateral charges, less a reasonable allowance for the consumer's use of the vehicle. Refunds shall be made to the consumer, and to the lienholder if any, as their interests may appear. A reasonable allowance for use shall be that amount directly attributable to use by the consumer prior to his first report of the nonconformity to the manufacturer or distributor, agent or dealer and during any subsequent period when the vehicle is not out of service by reason of repair. In addition, the manufacturer or distributor shall pay to the consumer the legal fees and costs incurred if the consumer is successful in a suit to obtain payment or replacement.

II. It shall be presumed that a reasonable number of attempts have been undertaken to conform a motor vehicle to the applicable express or implied warranties if:

(a) the same nonconformity has been subject to repair 3 or more times by the manufacturer or distributor or its agents or authorized dealers within the express warranty term or during the period of one year following the date of original delivery of the motor vehicle to a consumer, whichever is the earlier date, but such nonconformity continues to exist; or

(b) the vehicle is out of service by reason of repair for a cumulative total of 30 or more business days during such term or during such period, whichever is the earlier date.

357-D:4 Informal Dispute Settlement Procedures. If a manufacturer or distributor has established an informal dispute settlement procedure which complies in all respects with the provisions of title 16 Code of Federal Regulations Part 703, as from time to time amended, the provisions of RSA 357-D:3 concerning refunds or replacement or recovery of legal fees and costs shall not apply to any consumer who has not first resorted to such procedure.

357-D:5 Affirmative Defenses. It shall be an affirmative defense to any claim under this chapter that:

I. An alleged nonconformity does not substantially impair such use and value; or

II. A nonconformity is the result of abuse, neglect or unauthorized modifications or alterations of a motor vehicle by a consumer.

357-D:6 Terms Extended When Repairs Unavailable. For the purposes of claims under this chapter, the term of an express warranty, the one-year period described in RSA 357-D:3, II(a) and the 30-day period described in RSA 357-D:3, II(b) shall be extended by any period of time during which repair services are not available to the consumer because of a war, invasion, strike or fire, flood or other natural disaster.

357-D:7 Limitations. Nothing in this chapter shall in any way limit the rights or remedies which are otherwise available to a consumer under RSA 407-A, other sections of title XXXVII or any other law or rule. The rights and remedies available under this chapter shall be in addition to those otherwise available to a consumer.

357-D:8 Actions. Nothing in this chapter shall be construed as imposing any liability on a dealer or creating a cause of action by a consumer against a dealer under RSA 357-D:3 or a cause of action by a manufacturer or distributor against a dealer under RSA 357-D:3. The consumer's or manufacturer's right of action for breach of contract or breach of warranty with regard to a dealer's repair obligation remains unaffected.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 178-FN, relative to utilities' eminent domain procedures. Ought to Pass with Amendment.

This bill provides for the option of a residential landowner to have a utility that proposes to take a portion of his land for the construction of above-ground transmission lines, substations or generating stations to offer to obtain the entire parcel provided the property is the landowner's residence. Vote 16-0. Rep. Edward J. Allgeyer for Commerce, Housing and Consumer Affairs.

Amendment

Amend RSA 371:5-a as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:
371:5-a Residential Owner Option.

I. When a private real property upon which the principal residence of the landowner is located is proposed to be acquired in part for the construction of an above ground generating site, substation or transmission line: the residential landowner shall have the option to require the utility to condemn and take in fee the entire tract of land impacted by the proposed partial taking including all buildings and improvements thereon if all landowners, excluding lien holders and mortgagees, of the private real property make such an election and provide the commission and the utility with written notice of their election within 30 days after receipt of the notice under RSA 371:4. The provisions of this section also apply to secondary residences of landowners owned for more than 5 years. If the utility acquires the entire tract of land with buildings and improvements thereon pursuant to this section or by agreement with the landowner, the entire acquisition shall be deemed to be an acquisition for a public purpose and for use in the utility's business.

II. If a landowner chooses to avail himself of the provisions of paragraph I, the utility seeking condemnation shall provide a perimeter survey of the entire tract to the landowner without cost if:

(a) Requested by the landowner at time of electing to avail himself of the provisions of paragraph I; and

(b) A perimeter survey of the premises does not already exist.

Amend the bill by striking out sections 3 and 4 and inserting in place thereof the following:

3 Purpose. The general court declares that it adopts the provisions of this act to provide residential owners of lands, buildings and improvements necessary to be taken in part for the public good hereunder the option to have the entire tract taken at its full and fair value.

4 Prospective Application Only. This act shall only apply to petitions for condemnation filed with the public utilities commission upon or after the effective date of this act.

5 Effective Date. This act shall take effect 60 days after its passage.

HB 71, relative to the treatment of horses. Ought to Pass with Amendment. This bill, as amended, clarifies several ambiguous parts of the present law (Chapter 575-B). Vote 18-0. Rep. Elmer L. Johnson for Environment and Agriculture.

Amendment

Amend RSA 575-C:1, 2, 3 and 4 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

575-C:1 Similar Animals. The term "horse" as used in this chapter shall include ponies, mules and burros.

575-C:2 Proper Care. No person shall overdrive, overwork or overload a horse in his care. No person shall buy, sell or exchange any horse that is to be used for riding, driving, draft or reproduction

purposes when the animal is unfit to perform these tasks. No person shall torture, beat, mutilate or abandon any horse, or aid in such abuse, or permit any horse in his care to be subject to abuse of any kind.

575-C:3 Proper Feeding. All horses shall receive roughage in proportion to their size, age, temperament and amount of work they are required to perform. Grain may also be required when roughage alone will not meet their daily nutritional requirements. All horses shall be fed on a regular schedule, and all food shall be clean and free from excessive moisture. All horses shall always have available a sufficient quantity of fresh water and of salt in either loose or block form.

575-C:4 Shelter Available. An adequately ventilated and dry barn or roofed windbreaker shall be provided and accessible to horses (November 1 through April 15). Animals kept in paddocks or pastures with roofed windbreaker shelter shall not be kept tied but shall be able to move around freely. Horses housed in barns or other enclosed stables shall have stalls of sufficient size so that the animal is able to lie down. Suitable exercise shall be made available.

HB 46, relative to the sealing and sale of skins. Expedient to Legislate.

The trappers of the state were not in complete agreement with the bill, as they preferred to have the muskrat, skunk and weasel remain in the category of not requiring an official tag or seal. Omitting these animals would change the intent of the bill. Vote 14-0. Rep. Mary Ann Lewis for Fish and Game.

HB 68, eliminating the protection for the common feral pigeons and increasing the protection of seals. Ought to Pass with Amendment.

This bill removes the feral pigeon from the protected bird category and removes it from the list of migratory birds. The bill also protects the taking of any species of seals. Vote 14-0. Rep. Laura C. Pantelakos for Fish and Game.

Amendment

Amend RSA 210:3-b as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

210:3-b Seal. It shall be unlawful for any person to take or to attempt to take at any time any species of seal, except a fisherman engaged in the taking of marine species shall be allowed to possess any species of seal for the purpose of liberating such seal, alive or dead, entangled in his fishing gear, providing that this liberation is performed as soon as possible. Notwithstanding any provision to the contrary, whoever violates this section shall be guilty of a violation.

HB 76-FN, establishing an account for the proceeds from the sale of fish food at fish hatchery vending machines. Ought to Pass.

This bill will allow monies collected in the fish food vending machines to stay in the hatchery fund. Revenue would be used to purchase additional fish food and supplies. The Committee supports this concept. Vote 16-0. Rep. Albert J. Dionne for Fish and Game.

HB 95, authorizing the executive director, department of fish and game to set the seasons, bag limits, methods of taking and reporting of certain wildlife. Inexpedient to Legislate.

The Committee feels there is no need to change the present laws that are in force, as they adequately cover the points made in the bill. Vote 14-2. Rep. John H. Stimmell for Fish and Game.

HB 191-FN, indemnifying school districts for certain litigation expenses incurred in connection with the removal of carcinogenic asbestos from the public schools. Inexpedient to Legislate.

The Committee recognizes the seriousness of the problem as asbestos in the schools, but feels this bill is not the proper way to cope with this situation. Vote 20-0. Rep. Carole M. Nevins for Health and Welfare.

HB 199-FN, relative to the office of ombudsman. Ought to Pass. This bill redefines "facility" to include boarding homes. It also authorizes the ombudsman to adopt rules relative to seeking information to support complaints. The bill allows the ombudsman to disclose files on written consent of complainant, patient, resident or client, or by court order. Vote 20-0. Rep. Carole M. Nevins for Health and Welfare.

HB 144-FN, relative to sunset review of the labor department - administration and support. Ought to Pass with Amendment. This measure renews the Administration and Support Division of the Labor Department. The amendment deals with the appointment of 3 alternate members to the Board of Conciliation and Arbitration representing employer, a labor organization and additional member who will serve when needed on this Board. Vote 16-0. Rep. John E. Webster, Jr. for Labor, Human Resources and Rehabilitation.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:
3 Alternate Appointments. Amend RSA 273:12 by striking out said section and inserting in place thereof the following:
273:12 Appointment. There shall be a state board of conciliation and arbitration consisting of 3 members and 3 alternates. The governor, with the advice and consent of the council, shall annually, in June, appoint one member and one alternate whose terms shall be 3 years from the following July 1. One member and one alternate of the board shall be employers, or shall be selected from an association representing

employers of labor; one member and one alternate shall be selected from labor organizations and shall not be employers of labor, and one member and one alternate shall be appointed upon the recommendation of the other 4 members and alternates, or, if they do not, at least 30 days prior to the expiration of a term, or within 30 days after the happening of a vacancy, agree upon a third member and a third alternate, they shall then be appointed by the governor without such recommendation.

4 Staggered Terms. The governor, with the advice and consent of the council, shall appoint the 3 alternates to the state board of conciliation and arbitration not later than July 1, 1983, for the terms of one, 2 and 3 years respectively. Thereafter, appointments shall be made as provided in RSA 273:12. The existing members of the board shall serve for the remainder of their respective terms as provided in RSA 273:12.

5 Effective Date. This act shall take effect upon its passage.

HB 164-FN, allocating the property taxes paid by small scale power facilities. Inexpedient to Legislate.

The subcommittee consensus was that savings realized by Boscawen to reduce school taxes would only be recovered by opposing factions by other means. Vote 14-0. Rep. Paul J. Hamel for Municipal and County Government.

HB 172, to legalize the 1982 town meeting of the town of New Durham. Inexpedient to Legislate.

The Committee is sympathetic with the intent of the people of New Durham. However, the multiplicity of procedural errors involved in the 1982 town meeting actions amending the zoning ordinance causes the Committee to believe that passing this bill would create more problems than it would correct. Vote 16-0. Rep. Richard A. Grodin for Municipal and County Government.

HB 203-FN, authorizing the town of Epping, with voter approval, to issue bonds to meet certain legal expenses and amending the establishment of authorized reserve funds. Ought to Pass with Amendment.

The Committee concurs that this bill is needed to permit bonding to cover extraordinary legal expenses and avoid an excessively high property tax. Vote 16-0. Rep. Roger C. King for Municipal and County Government.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:
1 Bonds Authorized. Notwithstanding the provisions of RSA 33 or any other law to the contrary, the town of Epping, with the approval of 60 percent of all the registered voters present and voting at an annual or special town meeting, is authorized to issue bonds in an amount not to exceed \$500,000, with a 10 year maturity date for the purpose of meeting extraordinary legal expenses in the case of Cloutier et al v. Town of Epping et al.

HB 51, providing a method of dividing a town into representative districts. Inexpedient to Legislate.

This bill imposes a question of "Is this legislation necessary?" Currently, our Constitution provides the mechanism whereby any town, ward or unincorporated area can request such division by referendum. Vote 8-0. Rep. James J. White for Statutory Revision.

HB 193, establishing the week of October 18 through 25 as earth care week. Ought to Pass with Amendment.

This bill designates the second week of October as Earth Care Week. Vote 9-0. Rep. Eleanor H. Stark for Statutory Revision.

Amendment

Amend the title of the bill by section 2 of the bill by striking out same and inserting in place thereof the following:

AN ACT

establishing the second week of October as earth care week.

Amend RSA 3-B as inserted by striking out same and inserting in place thereof the following:

CHAPTER 3-B
EARTH CARE WEEK

3-B:1 Earth Care Week Established. The second week of October is hereby designated earth care week, in honor of the late Governor Hugh J. Callen, during which time the citizens of New Hampshire are urged to make themselves aware of the many factors involved in the protection and preservation of the state of New Hampshire in particular and the planet earth in general.

3-B:2 Earth Flag. The governor shall cause the official earth flag to be flown at the state house during the second week of October each year, in honor of earth care week.

HB 211, requiring school buses to remain stopped at railroad crossings until an approaching train has passed and signals have stopped flashing. Ought to Pass.

This legislation makes more explicit the procedures of a school bus at a railroad crossing by requiring the school bus to remain stopped until the train has passed. Vote 13-0. Rep. Elmer H. York for Transportation.

HB 212-FN, relative to signs for handicapped parking. Ought to Pass. The Committee feels this bill will help insure the handicapped motorist reserved parking space by making signs more visible and making non-handicapped persons more aware of designated space. Vote 14-0. Rep. Robert A. Danderson for Transportation.

HB 215, relative to driving after suspension or revocation. Ought to Pass.

The Committee felt that no driver whose license or driving privilege has been suspended or revoked in this state should be driving in this state. This bill makes it clear that a driver who obtains a license in another state does not revive his right to drive in New Hampshire. Vote 14-0. Rep. Stephen Sloan for Transportation.

COMMITTEE REPORTS
(Regular Calendar)

HB 173, providing for a mandatory winter stay of dispossession for certain tenants who have defaulted on their rent. Ought to Pass with Amendment.

This bill gives tenants the right to stay during winter months if rent is paid weekly. Vote 10-6. Rep. Gerald Vecchione for Commerce, Housing and Consumer Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

providing for a mandatory winter stay of dispossession for certain residential tenants who have defaulted on their rent.

Amend RSA 540:13-e as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
540:13-e Mandatory Winter Stay Dependent on Payment of Rent.

I. Notwithstanding RSA 540:13-c or any other provision of law, no writ of possession which shall serve to dispossess a residential tenant shall issue during the months of December, January, February or March unless the date of such issuance is more than 30 days and less than 90 days from the date that judgment in favor of the plaintiff was rendered; provided, however, that the defendant shall pay to the landlord weekly in advance the weekly rent (or the proportional weekly part of the rent if payable less often than weekly), and, on default of any such advance weekly payment, a writ of possession shall issue forthwith, and the sheriff shall evict the tenant forthwith.

II. The mandatory stay mandated by paragraph I shall not apply to cases in which the court makes a specific finding that the issuance of a stay would constitute a substantial threat to the health or safety of other tenants in the building or other residents in the neighborhood, or that the tenant has willfully damaged the landlord's property.

III. Tender by the defendant of a rent voucher or a written commitment to pay the rent from a municipal, county or state welfare department or other social service agency shall be deemed the equivalent of cash payment for the purpose of compliance with paragraph I.

Amendment adopted.

Reps. Pressly, William Sullivan and Crory spoke in favor of the committee report.

Rep. Bangs spoke against the committee report.

Rep. Quimby spoke in favor of the committee report and yielded to questions.

Rep. William Roberts requested a roll call. Sufficiently seconded.

CACR 4, relating to size of the senate and term of office of senators. Providing that the senate shall consist of 48 members who shall hold office for 4 years. Majority: Ought to Pass with Amendment. Minority: Inexpedient to Legislate.

MAJORITY: The majority of the Committee feels it is necessary to balance the load of bills and ease the burden placed on the Senate by the necessary House deadlines. Amendment

Amend the title of the constitutional amendment-concurrent resolution by striking out same and inserting in place thereof the following:

relating to size of the senate.
Providing that the senate shall consist of 48 members.

Amend the constitutional amendment-concurrent resolution by striking out all after the resolving clause and inserting in place thereof the following:

I. Resolved, That article 25 of part second of the constitution be amended by striking out said article and inserting in place thereof the following:

(Art.) 25. (Senate, How Constituted; Tenure of Office.) The senate shall consist of 48 members.

II. Resolved, That article 26 of part second of the constitution be amended by striking out said article and inserting in place thereof the following:

(Art.) 26. (Senatorial Districts, How Constituted.) And that the state may be equally represented in the senate, the legislature shall divide the state into 24 districts, as nearly equal as may be in population, each consisting of contiguous towns, city wards and unincorporated places, without dividing any town, city ward, or unincorporated place.

Each district shall be represented by 2 senators. The legislature shall form the districts at its regular sessions following each decennial federal census.

III. Resolved, That article 27 of part second of the constitution be amended by striking out said article and inserting in place thereof the following:

(Art.) 27. (Election of Senators.) The freeholders and other inhabitants of each district, qualified as in this constitution is provided, shall biennially give in their votes for 2 senators from their respective districts, at some meeting holden in the month of November. If 2 candidates tie for the highest number of votes in a district, each shall be declared elected. In the absence of any tie, the candidate receiving the highest number of votes and the candidate receiving the next highest number of votes in a district shall each be declared elected.

IV. Resolved, That article 34 of part second of the constitution be amended by striking out said article and inserting in place thereof the following:

(Art.) 34. Ties and Vacancies in the Senate. In case there shall be more than 2 candidates receiving the highest number of votes for any district, the members of the house of representatives and such senators as shall be declared elected shall take the names of those who have tied for the highest number of votes, and out of them shall elect, by joint ballot, 2 senators for the district. If one candidate received the highest number of votes and more than one candidate received the next highest number of votes for any district, the candidate receiving the highest number of votes shall be declared elected, and the members of the house of representatives and such senators as shall be declared elected shall take the names of those who have tied for the next highest number of votes, and out of them shall elect, by joint ballot, the other one senator for the district. In this manner, all such vacancies shall be filled up, in every district of the state. In case any person elected to a senate seat in any district is found by the senate not to be qualified to be seated, a new election shall be held forthwith in said district. All vacancies in the senate arising by death, removal out of the state, or otherwise, except from failure to elect, shall be filled by a new election for the unexpired term of the previous incumbent by the people of the district upon the requisition of the governor and council, as soon as may be after such vacancies shall happen.

V. Resolved, That article 37 of part second of the constitution be amended by striking out said article and inserting in place thereof the following:

(Art.) 37. (Senate to Elect Their Own Officers; Quorum.) The senate shall appoint their president and other officers, and determine their own rules of proceedings: And not less than 25 members of the senate shall make a quorum for doing business; and when less than 32 senators shall be present, the assent of 20, at least, shall be necessary to render their acts and proceedings valid.

VI. Resolved, That the above amendment proposed to the constitution be submitted to the qualified voters of the state at the state general election to be held in November, 1984.

VII. Resolved, That the selectmen of all towns, cities, wards and places in the state are directed to insert in their warrants for the said 1984 election an article to the following effect: To decide whether the amendments of the constitution proposed by the 1983 session of the general court shall be approved.

VIII. Resolved, That the wording of the question put to the qualified voters shall be:

Are you in favor of amending the constitution by increasing the size of the senate to 48 members, providing for 2 senators to be elected from the present 24 senatorial districts?

IX. Resolved, That the secretary of state shall print the question to be submitted on a separate ballot or on the same ballot with other constitutional questions. The ballot containing the question shall include 2 squares next to the

question allowing the voter to vote "Yes" or "No." If no cross is made in either of the squares, the ballot shall not be counted on the question. The outside of the ballot shall be the same as the regular official ballot except that the words "Options Relating to Constitutional Amendments proposed by the 1983 General Court" shall be printed in bold type at the top of the ballot.

X. Resolved, That if the proposed amendment is approved by 2/3 of those voting on the amendment, it becomes effective when the governor proclaims its adoption.

Rep. Stewart moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass, and spoke to his motion.

Rep. Francis Robinson spoke against the motion.

Rep. Joseph Eaton spoke against the motion.

Mr. Speaker. I rise in favor of the committee report and in favor of a 48 member Senate. The House and Senate have joint authority to make laws. House Committees consider recommendations from the Governor, from budget teams and from other citizens. We hold public hearings. We have a competent research staff. On many bills our large House committees include members with practical experience. But when the House bills finally hit the 24 members of the Senate, they are spread too thin on 19 committees and they cannot recheck all the work of 200 representatives. Twenty-four people for 19 committees. In just 8 days of May in 1981, the Senate voted on 182 House bills. Most of them had reached the Senate late in April or in May. There was no time for detailed review of 182 bills by 24 overworked Senators. Very few people outside of the General Court realize how much painstaking, time-consuming committee work is required to process 1200 bills per session. We need a complete independent cost check by the Senate and if they can cut the budget a fraction of one percent it could save a million dollars. Now the size of the Senate is a Constitutional question to be answered by the voters. The House and Senate are equally involved in putting this question on the ballot because both bodies are fully responsible for better laws and a credible budget.

CACR 4 does not tell the Senate what to do. It just gives them more manpower to carry an increasing workload. CACR4 could help the House because the present small Senate has a 16-vote quorum which means that a 9 to 7 Senate vote can overturn a majority of our 400 members. Now, whenever the size of the Senate is discussed, we hear all about the expensive desks and the high salary for every additional member, but one penny added to every one hundred dollars of budget would pay the entire cost. We do want to save every nickel possible and each Senator's annual salary is 2,000 nickels, the same 2,000 nickels that we get.

Just for comparison, of our employees in the Executive Branch, whose salary per employee exceeds the total combined salaries of the 424 members of the General Court, the present members of the General Court will

get no benefits whatever from CACR 4 except the satisfaction of doing a better job for the state. I believe the voters will approve this Amendment if we put it on the ballot.

Rep. Harold Burns moved that Rep. Joseph Eaton's remarks be printed in the Journal.

Adopted.

Question being on the substitute motion, Inexpedient to Legislate.

Rep. Roger Wallace spoke in favor of the motion.

Motion lost.

Question being on the committee amendment.

Amendment adopted.

Question being on the report of the Majority, Ought to Pass with Amendment, a roll call was requested. Sufficiently seconded.

HB 53-FN, establishing the department of postsecondary vocational education. Ought to Pass with Amendment.

This bill establishes the Postsecondary Vocational Technical Education System as a semi-autonomous body with its own Board of Governors and Commissioner to insure timely recognition and response to the rapidly changing economy of the State of New Hampshire. It recognizes the pressure for technical support by the business, industry and health care fields. Testimony was overwhelmingly in support of the bill, with opposition only from the Commissioner of Education and five of the seven State Board of Education members. Two of the three state board members on the Vocational Education Subcommittee, however, do support the bill. Vote 16-0 (plus two absent members who wished to be recorded in favor of HB 53 as amended). Rep. Ralph W. Pearson for Education.

204-C:11 Area of Operation. The area of operation of the authority shall be the entire state; provided that, with the exception of data collection, the authority shall not operate with respect to any multi-family housing programs and the existing housing program under section 8 of the United States Housing Act of 1937, as amended, in any area in which a local authority of a municipality is operating,

without the consent by resolution of the local authority operating therein and the consent of the local governing body; and further provided that, in areas where there is no local authority operating, with the exception of data gathering, planning, single Family Programs and the Existing Housing Program under section 8 of the United States Housing Act of 1937, as amended, the authority shall not operate without the consent of the local governing body. The authority shall provide notice of its intent to operate any multi-family housing by sending a letter by registered mail to the board of selectmen or city council to request permission for such program. Any consents required by this section may limit the time and scope of activities to be conducted by the authority in the municipality. For the purposes of this chapter alone, the area of operation of a local authority shall mean the municipality for which it is created. HB 92-FN, increasing the amount of annual wages paid to an individual for which contributions must be made for unemployment compensation. Ought to Pass.

Presented by

Governor John H. Sununu

Thank you very much. Madam Senate President, Mr. Speaker, members of the House and Senate and assembled guests. By law I am required to submit by March 15th a presentation of a capital budget for the State of New Hampshire.

One of the principal problems this state has had over the years, in my opinion, has been a failure to constructively address its capital needs in the context of not being able to afford what it probably needs the most. We have begun to address that process in some of the legislation you have already examined and are in the process of examining. In the guise of a fast track budget we have begun to address some of the capital needs of the state, particularly a major project of improvement at the State Prison, which I feel very strongly about. What I present to you today is a completion of that capital budgeting process as a message from the Governor's office to you as the Legislature, the House and the Senate, in a request for your support and your assistance in meeting these capital needs of the State of New Hampshire.

I have recognized already that we do have the fast track component in place. What I present to you today consists primarily of high priority programs required for the repair and maintenance of capital facilities already in place. It contains a major component of investments in areas where we can, because of the high cost of energy, recoup significant funds in a rapid program of return of payment. And it includes funds in a couple of areas which I feel are innovative and yet constructive additions to the capital investment of the State of New Hampshire. I am not going to dwell on the details in the message. It is not a complex message. Let me underscore the fact, however, that what we have before

you today is a capital budget total request of \$11,656,175. That includes a component of \$9,539,675 from the general fund and a highway fund component of \$1,914,500, with a Fish and Game capital improvement component of \$202,000. The items I would like to highlight in this presentation include the following:

First of all, a very innovative program that we recommend for capital improvements within the Public Works and Highways Department. We have included a sum of \$1,250,000 for an automated state fuel purchase and fleet records management system. This would be a system, which when installed, would permit the State of New Hampshire to purchase fuel in bulk with significant savings, and would allow us, through the automated features, to keep records of purchasers, in terms of driver, and in terms of automobiles or vehicles used in the process. And the data base it would create would provide us with the records necessary to keep track and manage effectively the fleet of the State of New Hampshire. But in addition to that, the cost savings that would accrue to the state due to the bulk purchases are so significant that we have a payback period of approximately two years in that investment. That to me is the kind of capital investment that is constructive, innovative, and I think typical of what we ought to be looking at in the State of New Hampshire.

We have another project in here that is of significance. One million, three hundred thirty-two thousand dollars for the regional waste treatment facilities on the Winnepesaukee River Basin. This represents the completion of a many year program which I think is consistent with our commitment to protect the environment and protect the quality of our waters in the state of New Hampshire. And I have been assured that this is the completion and does represent the close of a very successful program within the state.

There are two other major items in here I choose to call your attention to. One is the component of \$750,000 for the design and land acquisition for a facility for psychiatric care to replace the facilities at the New Hampshire Hospital. There have been a significant number of reports and examinations of the needs of the state, there still are some questions in terms of the exact size of that facility, whether it ought to be in combination with other facilities, what location it should have, and other aspects that address the capacity of service to those that have needs of psychiatric care. We are pursuing aggressively the decision-making process involved in arriving at conclusions on that program. But, the sum of money that we have provided here I think is appropriate to initiate the design, to make the final selection of site and to begin in the planning process that will allow us within this biennium, and I hope soon, come back with a definition of exactly what we want to accomplish and an exact mechanism for accomplishing it. What we ask in this budget is your consideration of those funds that are necessary to keep the momentum underway.

There is one area under the Department of Resources and Economic Development that I wish to stress. That is a major expenditure for repairs of some of the facilities at our state parks. We have, through this winter, suffered in terms of weather, some difficult conditions. And yet the prudence of this legislature in previous governors in making capital investments for snowmaking and facilities at Sunapee and Cannon have allowed us to recoup a significant portion of that investment. I ask, when you consider investments of this nature, that you consider the capacity of maintaining our revenue-raising capacity as an important part of your consideration. And when you examine that aspect, I ask that you keep that in mind.

We have an over eleven million dollar program here for your consideration. In terms of some of the historical capital budgets, it may appear to be large. Yet I ask that you examine it in the light of the cost of inflation and in light of the real cost of the failure to act. To renovate in a timely manner is as prudent an investment as I can think of. If we fail to meet some of the repairs that we have addressed here, the increased costs due to inflation, due to continued deterioration, and due to continued misuse of facilities will, I think in the long run, be a disservice to the citizens and the taxpayers of the State of New Hampshire.

I wish to thank the members of my staff, members of the House and Senate committees who joined us in examining previous definitions of capital needs and current needs in the context of the fiscal conditions of the state. I assure you that the Governor's Office wishes to work with you as closely as possible. What we have presented to you today in terms of a capital budget is a framework of investment for the future and I ask that you consider it in that light. I thank you for your attention and I look forward to working with you in meeting the needs of the State of New Hampshire in the coming year. Thank you very much.

Sen. Stabile and Rep. Rounds moved that the Joint Convention arise.

Adopted.

COMMITTEE REPORTS (cont.)
(Regular Calendar)

HB 1-FN, relative to executive branch reorganization. Ought to Pass with Amendment.

It was the unanimous vote of the Committee (22-0, 1 absent) that HB 1 provides an essential, clear blueprint for reorganization of the executive branch of state government. HB 1 does not by itself reorganize any area of the executive branch. Instead, it establishes the framework into which future individual bills establishing consolidated departments will be

placed. The Committee emphasizes that the House will have ample opportunity to address current situations, like the existence of 227 commissioners and 260 unclassified employees, as it goes about shaping the reorganized departments of state government in this and future sessions. The Committee believes that passage of HB 1 is a necessary first step in order to reorganize the executive branch into a structure which all the state's citizens can use and understand. Rep. Kathleen W. Ward for Executive Departments and Administration.

I. On and after July 1, 1983, the governor shall appoint any commissioner he has authority to appoint under the provisions of RSA 21-G:8 and any law enacted by the general court relative to executive branch reorganization.

II. If a commissioner appointed in accordance with paragraph I of this section is a full time employee of the state at the time of appointment, the governor shall determine whether or not it is necessary to appoint an interim successor to fill the vacancy thereby created. Notwithstanding any other law, if the governor determines that it is necessary to fill this vacancy, he shall make an interim appointment to the vacant position, provided that the individual so appointed shall already be an employee of the agency in which the vacancy exists. The provisions of RSA 94:1-c, and any rule of the personnel department relative to an increase in compensation for classified personnel temporarily assigned to a position, for which the compensation exceeds that which the employee is receiving at the time of the temporary assignment, are hereby suspended for purposes of this act.

Commissioners shall not seek agency assistance for any purpose other than preparing implementation plans. All agency personnel shall cooperate fully with commissioners requesting their assistance.

IV.(a) During the preparation of the implementation plan, the joint committee on implementation of reorganization shall require commissioners to make interim reports, not more frequently than once every 3 months, in such form and detail as the committee shall determine. These interim reports shall include, but are not limited to, the following information:

(1) Changes proposed in the number of personnel, by position, from the manning levels in the agencies transferred or abolished, and an estimate of the financial impact;

(2) The organizational units proposed for the new departments and the staffing levels thereof; and

(3) Any other financial impact resulting from reorganization.

(b) Upon completion each implementation plan shall be submitted to the joint committee on implementation of reorganization. A copy of the plan shall also be furnished to the comptroller.

Amend the bill by striking out section 5 and inserting in place thereof the following:

5 Approvals and Transfers.

1. Implementation plans shall be approved or disapproved in accordance with RSA 17-L:5, VII.

II. Following approval of implementation plans by the joint committee on implementation of reorganization, the transfer or abolition of each agency transferred or abolished by the general court, and the organization of the department provided in the approved implementation plan, shall become effective on such date as shall be approved by the governor and by the joint committee on implementation of reorganization. The effective date, after the approval has been granted, shall be published in the rulemaking register provided for in RSA 541-A:3, 1(a)(2)(iii) at least 30 days prior to such date, together with a statement that the required parties have granted approval of the effective date.

III. Plans disapproved by the joint committee on implementation of reorganization prior to the date specified in paragraph IV of this section shall be returned to the commissioner for further refinement. The committee shall identify in writing those areas of the plan it finds objectionable or unacceptable.

IV. The effective dates of the approved implementation plans referred to in paragraph I of this section shall in no case be later than 14 months after the date of appointment of the commissioner of each department established in accordance with the provisions of RSA 21-G and any law

enacted by the general court relative to executive branch reorganization.

V. If any commissioner fails to submit an implementation plan which meets with the approval of the joint committee on implementation of reorganization prior to the date specified in paragraph IV of this section, the committee shall prepare the implementation plan for that department. This plan shall take effect not later than 4 months after the date specified in paragraph IV of this section, as determined by the joint committee on implementation of reorganization.

Amend the bill by striking out all after section 5 and inserting in place thereof the following:

Rep. Warburton explained his amendment.

Rep. Ward spoke against the amendment and yielded to questions.

Rep. Townsend spoke against the amendment.

Amendment lost.

Question being on the Committee report, Ought to Pass with Amendment.

Ordered to third reading.

Rep. Kalamanos notified the Clerk that he wished to be recorded in favor of HB 1.

HB 48, permitting the department of fish and game to expend funds received under the Pittman-Robertson Act on endangered species. Majority: Inexpedient to Legislate. Minority: Ought to Pass.

MAJORITY: The majority opinion is that Pittman-Robertson funds are monies derived from excise taxes on sporting firearms and ammunition which sportsmen purchase for hunting. In addition, the Fish and Game Department which is funded entirely by hunting and fishing license monies in New Hampshire would find its personnel involved in caring for non-game species at the expense of New Hampshire sportsmen. Vote 13-6. Rep. Doris J. Riley for the Majority of Fish and Game.

MINORITY: The minority is of the opinion that expenditure of excess

Pittman-Robertson funds on threatened and endangered wildlife in New Hampshire is in the best interests of the wildlife resources of the state. This funding source would be available for threatened and endangered species projects only when the state could not match its full allotment for the Fish and Game Department projects on game species. Enactment of this legislation would not therefore divert funds from game management efforts. Rep. Mary Ann Lewis for the Minority of Fish and Game.

Rep. Lewis moved that the report of the Minority, Ought to Pass, be substituted for the report of the Majority, Inexpedient to Legislate, and spoke to her motion.

Rep. Doris Riley spoke against the motion and yielded to questions.

Reps. Samuel Clark and Gerald R. Smith spoke in favor of the motion and yielded to questions.

Reps. Pantelakos, Drake, and Shepard spoke against the motion.

Reps. Quimby and Townsend spoke in favor of the motion.

Rep. Gerald R. Smith spoke in favor of the motion and yielded to questions.

Rep. Zeckhausen moved the previous question. Sufficiently seconded.

Adopted.

Question being on the substitute motion, Ought to Pass, Rep. Doris Riley requested a roll call. Sufficiently seconded.

Amendment

Amend RSA 212-A:15 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
212-A:15 Limitation on Certain Funds.

I. No funds used to carry out the provisions of this chapter shall be derived from license fees of hunters, fishermen, or trappers unless the species for which the funds are expended have been legally hunted, fished or trapped within the past 5 years. The Canada lynx (*Lynx canadensis*) and the pine marten (*Martes americana*) shall be exempted from this limitation of 5 years.

II. Federal funds from the Dingell-Johnson and Pittman-Robertson federal aid in fish and wildlife restoration programs may be used to carry out the provisions of this chapter only when the state is unable to provide matching funds for the entire New Hampshire allotment for use on species presently hunted, fished or trapped; and only if the state match for endangered species projects is not derived from taxes on the sale of equipment to hunters, trappers or fishermen or license fees of hunters, trappers or fishermen.

III. Any endangered species project for which Pittman-Robertson or Dingell-Johnson funding is considered must be approved by at least 9 of the fish and game commissioners in a recorded vote, and in writing by the executive director of the fish and game department.

IV. Prior to January 21 of each regular legislative session, the executive director of the fish and game department shall present to the house fish and game committee and the senate development, recreation and environment committee a report on the status of any such projects, to include the amount of funding and participation, source and nature of the match, project description, progress report, and certifications of approval required by paragraph III. The final control of and responsibility for any such project and cooperative agreement shall be placed with the executive director of the fish and game department.

Hearing no objection the Chair advised the Clerk to dispense with the reading of the amendment.

Rep. Smith explained his amendment and yielded to questions.

Amendment adopted.

Ordered to third reading.

HB 188-FN, to increase the personal needs allowance for recipients of medical assistance residing in nursing homes. Ought to Pass with Amendment.

Following considerable discussion and numerous votes, the Committee voted Ought to Pass with Amendment (12-8). The amendment changes the allowance increase from \$15 a month to \$5 a month, bringing the total to \$30 per month. Rep. Carole M. Nevins for Health and Welfare.

HB 176, to allow bowling centers to serve liquor and beverages to persons in certain spectator areas. Majority: Ought to Pass. Minority: Inexpedient to Legislate.

MAJORITY: The Majority of the Committee felt that the bill is consistent with established practices in other indoor/outdoor recreational activities. Vote 10-5. Rep. Gerard E. Powers, Jr. for the Majority of Regulated Revenues.

MINORITY: The minority feels that the current system of allowing bowlers to drink in the lounge after bowling is adequate. Many people prefer to bowl without having to sit with others who are drinking. Bowling is a family sport, and this bill will expose children to drinking adults. It will also increase the risk of accidents and injuries and increase the possibility of drunken driving. (Reps. Patti Blanchette, Howard Humphrey, Clyde Eaton, Marian Harrington, Gabrielle Gagnon for Minority of Regulated Revenues.)

Rep. Blanchette moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass, and spoke to her motion.

MAJORITY: The Committee majority felt that due to the complicated nature of the resolution time does not allow for a thorough enough investigation to provide for the usual recommendations allowed Committees in the New Hampshire House. MINORITY: The Committee minority voted Ought to Pass for the following reason: an overwhelming number of New Hampshire citizens support a mutually verifiable nuclear weapons freeze. Town meeting after town meeting, since last year, has approved resolutions similar to the one supported by the minority members of the Committee. The minority feels the members of the New Hampshire House have a moral obligation to respond to the sentiments of its citizens. The dangers inherent in the nuclear arms race will not wait for an interim committee study. (Reps. Chris Spirou, Mary

HB 202, establishing the ward lines for the city of Manchester and amending the Manchester city charter. Ought to Pass.

Last session, HB 2 was enacted into law which provided new ward lines based on the federal census. The United States Supreme Court rulings require representative districts to be evenly divided as much as possible in order to facilitate the one man - one vote doctrine. Within the City of Manchester two separate concepts emerged on how to redistrict. One became a plan acceptable to the Aldermanic Board, was placed on the ballot and the referendum was defeated by a 2 to 1 vote. This bill provides, once again, an opportunity by city-wide referendum vote to enact new (12) ward lines that clearly indicate all 40 representatives to the General Court have an equal, fair chance to serve the people. Vote 6-2. Rep. James J. White for Statutory Revision.

Rep. Flanagan offered an amendment.

Amendment

Amend the bill by striking out section 6 and inserting in place thereof the following: 6 Referendum. Sections 1 through 5 of this act shall not take effect unless adopted by majority vote at the city election to be held in the city of Manchester in November 1983, as hereinafter provided. The city clerk then in office shall cause to be placed on the ballot the following question: "Do you approve of an act entitled 'An Act establishing the ward lines for the city of Manchester and amending the Manchester city charter' passed at the 1983 session of the general court which would redivide the city into 12 wards of substantially equal population?" Said question shall be printed in the form prescribed by RSA 656:13. If a majority of those voting on the question vote in the affirmative, this act shall be declared to have been adopted effective January 1, 1984. The city clerk shall, within 10 days after said election, certify the result of the vote on the above question to the secretary of state.

Rep. Flanagan explained the amendment.

Rep. Arnold spoke in favor of the amendment.

Amendment adopted.

Ordered to third reading.

HB 219-FN, establishing the ward lines for the city of Portsmouth and amending the Portsmouth city charter. Ought to Pass.

This bill has been agreed upon by the City Committee, the Democratic Committee and the Republican Committee. The Committee on Statutory Revision agreed unanimously. Vote 9-0. Rep. Natalie S. Flanagan for Statutory Revision.

Rep. Flanagan offered an amendment.

Amendment

Amend the bill by striking out section 7 and inserting in place thereof the following:

7 Referendum. Sections 1, 2, 3, 4, 5 and 6 of this act shall not take effect unless adopted by majority vote at the city election to be held in the city of Portsmouth in November, 1983, as hereinafter provided. The city clerk then in office shall cause to be placed on the ballot the following question: "Do you approve the provisions of an act entitled 'An Act establishing the ward lines for the city of Portsmouth and amending the Portsmouth city charter' passed at the 1983 session of the General Court, which would redivide the city into 5 wards?" Said question shall be printed in the form prescribed by RSA 656:13. If the majority of those voting on the question vote in the affirmative, this act shall be declared to have been adopted effective January 1, 1984. The city clerk shall, within 10 days after said election, certify that result of the vote on the above question to the secretary of state.

Amend the bill by striking out section 9 and inserting in place thereof the following:

9 Effective Date.
I. Sections 1, 2, 3, 4, 5 and 6 of this act shall take effect as provided in section 7.

II. Sections 7 and 8 of this act shall take effect upon its passage.

Rep. Flanagan explained the amendment.
Rep. Krasker spoke in favor of the amendment.
Amendment adopted.
Ordered to third reading.

Rep. Rounds moved that the House adjourn.

HOUSE JOURNAL 12

Thursday, 17Mar83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

All praise to St. Patrick who brought to our mountains
the gift of God's faith the sweet light of His love.

All praise to the shepherd who showed us the fountains
That rise in the heart of the Savior above.

For hundreds of years, in smiles and in tears, our Saint has been with us, Our shield and our stay --
All else may have gone, St. Patrick alone, he has

Been to us light when earth's lights were all set.
For the glories of faith they can never decay
And the best of our glory is bright with us yet
In the faith and the feast of St. Patrick's Day!

The above was submitted by Rep. James J. White.

Lord God Almighty, we thank You for the Saints of every age who have brought us closer to You. Now let us be channels of Your love and concern for all our citizens. Amen.

Rep. Glenden Kelley led the Pledge of Allegiance.

The Speaker introduced members of the Keene State College Guitar Orchestra who gave a brief concert.

COMMITTEE REPORTS
(Consent Calendar)

HB 197-FN, establishing a committee to propose a recodification of the agriculture, horticulture and animal husbandry laws in title XL and other RSA titles and making an appropriation therefor. Ought to Pass with Amendment.

Laws pertaining to the Department of Agriculture are outdated and spread throughout the RSA. This will allow for a recodification and update. Vote 17-0. Rep. Roberta C. Pevear for Environment and Agriculture.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

establishing a committee to propose a recodification of the agriculture, horticulture and animal husbandry laws in title XL and other RSA titles.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Committee Established. The agriculture subcommittee of the house environment and agriculture committee, consisting of 6 members, and the commissioner of the department of agriculture or his designee shall constitute a committee to draft proposed legislation for recodification of the agriculture, horticulture and animal husbandry laws to be submitted to the next regular session of the legislature. All laws relating to agriculture, horticulture and animal husbandry shall be within the committee's jurisdiction wherever they appear in the RSA. The committee shall seek advice, guidance, expertise and recommendations from anyone, as the committee deems necessary. The committee shall have authority to request and shall receive assistance from all state agencies and departments in conducting its study. The office of legislative services shall provide technical and legal services to the committee to the extent possible. The legislative members of the committee shall be entitled to legislative mileage when performing duties in connection with the work of the committee. The committee shall have the proposed recodification in draft form by December 1984 and ready to submit for legislative action by the 1985 session of the general court.

2 Effective Date. This act shall take effect upon its passage.

HB 174, permitting the use of live bait when ice fishing on Lake Sunapee. Ought to Pass with Amendment.

This bill permits ice fishermen to use live bait when fishing on Lake Sunapee. The amendment corrects the RSA. Vote 11-4. Rep. Mary Ann Lewis for Fish and Game.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:
1 Live Bait: Ice Fishing on Lake Sunapee. Amend RSA 211 by inserting after section 6-c the following new section:
211:6-d Ice Fishing on Lake Sunapee.

Any person ice fishing on Lake Sunapee may use live bait.

Rep. Paul Johnson notified the Clerk that he wished to be recorded against HB 174.

HB 195, relative to ranch bred fox and trapping education. Inexpedient to Legislate.

The Committee felt that the Commissioners and the Director of the Fish and Game Department already take care of this matter, therefore the bill is unnecessary. Vote 14-1. Rep. Laura Pantelakos for Fish and Game.

HB 208, relative to generic drug substitutions. Ought to Pass with Amendment.

HB 259-FN, moving the town of Madbury from the Dover judicial district to the Durham judicial district for the purposes of district court jurisdiction. Ought to Pass.

This bill would transfer the town of Madbury from the jurisdiction of the Dover District Court to that of the Durham District Court. Police, school and other relationships between Madbury and Durham already are closer than those between Madbury and Dover. The Durham Court caseload is much smaller than that of the Dover Court. Vote 16-0. Rep. Francis E. Robinson for Judiciary.

HB 288-FN, establishing a Northumberland judicial district and a Northumberland district court. Inexpedient to Legislate.

The sponsor of this bill requested it be withdrawn. The town officials who originally requested this bill have

HB 279-FN, relative to the financing of regional planning commissions. Ought to Pass.

There was strong support for this bill from every part of the state at the hearing. Alf E. Jacobson for Municipal and County Government.

Referred to Appropriations.

HB 227, prohibiting the sale of certain single cans or single bottles of beer by off-sale permittees. Inexpedient to Legislate.

The Committee felt that the Liquor Commission could handle any situation that might arise under the intent of this bill. Vote 14-0. Rep. Robert N. Kelley for Regulated Revenues.

HB 238, relative to the Nashua area aquifer delineation study and making an appropriation therefor. Ought to Pass. The appropriation of \$20,000 the state is being asked to provide, will be used for the third and final year of the study and will be matched by similar contributions from local government as well as private industry. With incident after incident of contamination occurring, it is critical that we identify and protect our ground water resources. Vote 19-0. Reps. Patricia M. Lyons, Roland J. Lefebvre, Raymond N. Migneault for Resources, Recreation and Development.

Referred to Appropriations.

HB 280, relative to the wetlands board hearings on fill and dredge in wetlands. Inexpedient to Legislate.

This bill would place a rigid deadline upon the Wetlands Board which would restrict objective decision-making by the Board. Such restriction is inappropriate because it could work to the disadvantage of applicants for permits. Vote 20-0. Reps. Douglas R. Woodward, Charles H. Dingle for Resources, Recreation and Development.

HB 244-FN, to provide additional funds for the purchase of alcohol breath testing equipment and supplies. Ought to Pass with Amendment.

This bill, as amended, supports the expenditure of \$62,125 from the highway fund for the purchase of alcohol breath testing equipment and supplies as requested by the Department of Safety. 1 Appropriation. The sum of \$62,125 is hereby appropriated for the fiscal year ending June 30, 1983, to the department of safety for the purchase of alcohol breath testing equipment and supplies. The appropriation shall be a charge on the highway fund.

Referred to Appropriations.

COMMITTEE REPORTS (Regular Calendar)

HB 96-FN, relative to special plates for former prisoners of war. Ought to Pass with Amendment.

The amendment clarifies the fact that the recipient is still responsible for paying his own city or town auto tax. Vote 19-2. Rep. William F. Kidder for Appropriations.

Amendment

Amend RSA 261:87-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
261:87-a Plates for Former Prisoners of War.

I. The director shall design and issue, with approval of the commissioner, special number plates to be used on motor vehicles owned by former prisoners of war. The director shall make such plates and state registration available without charge to persons who were captured and incarcerated for 30 days or more while serving in a qualifying war or armed conflict as defined in RSA 72:28, IV, and who have not received dishonorable discharges. Such persons shall furnish the director satisfactory proof of these circumstances.

II. Notwithstanding the provisions of paragraph I, all persons receiving such special plates shall be required to pay any registration permit fees required to be paid to cities and towns under RSA 261:153 and RSA 261:154.

Amendment adopted.

Ordered to third reading.

MAJORITY: The committee feels that this pay raise is justified, but that funds must be found. Vote 18-4. Rep. William F. Kidder for Appropriations.

HB 231-FN, appropriating money to the department of agriculture. Inexpedient to Legislate.

This bill was introduced in order to re-appropriate funds which were originally appropriated by Chapter 42 of the 1981 Special Session and lapsed by the Comptroller before the funds could be expended. Attempts by the previous commissioner over the past several months to get these funds reinstated had failed. As a last resort this bill was introduced at the request of the department on February 17, 1983. The Department of Administration and Control subsequently reinstated the funds to the Department of Agriculture on February 18, 1983. The Department of Agriculture therefore has informed the committee that this bill is no longer necessary and wishes it to be withdrawn. Vote 22-0. Rep. William F. Kidder for Appropriations.

Resolution adopted.

HB 242-FN, making a supplemental appropriation to the office of the attorney general to settle the following cases:

Hudson v. DuBois, et al.; Montague v. Youth Development Center; Shepard v. Armstrong;
and Faucher, et al. v. Rothenberg, et al.
Ought to Pass.

The Committee feels the explanation of the Attorney General with regard to settlement of these cases was sufficient justification for the Committee's recommendation Ought to Pass. Vote 22-0. Rep. William F. Kidder for Appropriations.

Ordered to third reading.

CACR 6, relating to compensation of the legislature. Providing that compensation to all members of the general court for both regular and special sessions be increased. Majority: Inexpedient to Legislate. Minority: Ought to Pass.

MAJORITY: The majority of the Committee feels the present pay is a token for an essentially donated service to the State and potential candidates recognize the volunteer nature of the office when they decide to run. The proposed increase is not large enough to fully compensate members for their services or guarantee that large numbers of new people would be encouraged to run. Vote 7-3. Rep. David J. Bouchard for the Majority of Constitutional Revision.

MINORITY: Many capable members of the House cannot return to serve another term without pay. The minority believes representatives should be typical citizens. Membership should not be limited to those able to serve with practically no pay. Rep. William A. Fielding for the Minority of Constitutional Revision.

HB 89-FN, relative to resident taxes and the wildlife management collection program. Ought to Pass.

The Committee felt we should not be asking for voluntary contributions to a state agency on an official tax form, nor should tax collectors be obligated to collect contributions for the state. There is no way the tax collector could be made accountable for the contributions collected. Vote 10-4. Rep. Mary Ann Lewis for Fish and Game.

RECESS

(Speaker in the Chair)

Rep. Rounds moved that the House adjourn. Adopted.

HOUSE JOURNAL 13

Tuesday, 22Mar83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by Rev. Milton L. Smith, former House Chaplain.

Let us pray. Good afternoon, God. Thank You for the gift of this day and all of life.

Occasionally, God, our high hopes and dreams are realized here, and it makes us feel fulfilled and worthwhile. But more often than not, much of our labor and energy amounts to nothing, or at least it seems this way, with the passage of some bills and the defeat of others. Keep us from being discouraged. Give us grace in the face of seeming failure, to try and try again. Give us strength of purpose that we may do what we believe is right and just in Your sight. Let us be assured that we need not be ashamed of honest and determined effort. God, bless the concerned and dedicated women and men, the members of this great legislative body. Amen.

Rep. Schwaner led the Pledge of Allegiance.

Lawrence for Municipal and County Government.

Amendment

31:9-e Establishment and Discontinuance. A general reserve fund may be established or discontinued only by a majority vote of the legal voters present and voting at an annual town meeting. The warrant for a town meeting at which the establishment or discontinuance of such a fund is to be considered shall include an article distinctly stating the purpose for which the fund is to be established, or was established, as appropriate.

31:9-f Appropriations. There may be paid into any general reserve fund such amounts as may from time to time be raised and appropriated therefor.

31:9-g Investment. The moneys in each general reserve fund shall be kept in a separate account and not intermingled with any other funds of a town. Each general reserve fund shall be invested only by

deposit in some savings bank or in the savings department of a national bank or trust company, cooperative bank, building and loan association, or federal savings and loan association in this state, or in bonds, notes or other obligations of the United States government, or in bonds or notes of this state, and when so invested the trustee, trustees or town treasurer hereinafter named shall not be liable for the loss thereof. Any interest earned or capital gains realized on the moneys so invested shall accrue to and become a part of the fund. Deposits in banks shall be made in the name of the town which holds the same as reserve, and it shall appear upon the books thereof that the same is a general reserve fund.

31:9-h Trustees of Funds. Either the trustee or trustees of town trust funds provided for in RSA 31:22 and 23, or the town treasurer, whoever is designated by majority vote of those present and voting at the town's annual meeting, shall have custody of any general reserve fund of a town. Said trustee, trustees or town treasurer shall give bond in such amount and in such form as the commissioner of revenue administration shall prescribe, in a rule adopted under RSA 541-A and any such trustee or town treasurer who shall make any payment of income or principal from any such general reserve fund before the approval of his bond in writing by the commissioner of revenue administration shall be personally liable to the town for any loss resulting from such payment. Any such loss may be recovered for the town at the suit of any citizen. The expenses of said trustee, trustees or town treasurer and the expenses of their bonds shall be charged as incidental town charges.

31:9-i Expenditure. The trustee, trustees or town treasurer holding general reserve funds in trust, as provided for in RSA 31:9-h, shall hold the same until such time as the town shall, by majority vote of those present and voting at an annual or special town meeting, determine to use the funds for carrying out the objective designated by the town when said fund was originally created.

The accounts of the trustee, trustees or town treasurer holding general reserve funds shall be audited annually by the auditor of the town, and the securities shall be exhibited to him. The auditor shall then certify the facts found by the audit and the list of all securities held. The trustee, trustees or town treasurer holding said funds shall keep a record of all general reserve funds in a record book which shall be open to the inspection of all persons of their town.

HB 330, concerning the allocation of fees collected for dog and kennel licenses. Inexpedient to Legislate.

This bill requires that \$1.00 be divested from town dog license fees and paid over to the State for the use of the Fish and Game Department. The Committee feels that funding of a state agency should be by the Legislature rather than expecting the towns to draw on their already limited resources. Vote 17-0. Rep. John P. Lawrence for Municipal and County Government.

HB 319-FN, relative to the gasoline tax. Inexpedient to Legislate.

This bill would further jeopardize the Public Works and Highways funding and further no proper purpose. It should not be legislated, as the topic will be considered in other legislation. Vote 16-0. Rep. Ted A. Pelletier for Public Works.

HB 121-FN, relative to sunset review of the higher education fund - Merrimack Valley Branch. Ought to Pass with Amendment.

This unit of the university system deserves to continue for it performs a necessary and useful purpose for the residents of the Merrimack Valley. The amendment changes "Branch" to "College" to reflect the present status of the institution. It also requires the board of trustees to devise a plan stating the college's goals and a strategy for implementing those goals, including funding considerations. The trustees shall report the plan to the legislature by November 1, 1984, which would facilitate the introduction of legislation in the 1985 session if changes are needed in the present statute on Merrimack Valley College. Vote 16-0. Rep. Edmund M. Keefe for Education.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:

4 Board of Trustees; Development Plan. The board of trustees of the university system shall devise a plan which shall state the goals of the college and a strategy for implementing those goals. The plan shall include all funding considerations necessary for implementation and a timetable by which the goals will be met. The trustees shall present both an interim report on January 1, 1984, and a final report on November 1, 1984, to the appropriate standing committees of the general court and to the university system study committee.

HB 69, relative to the membership of the bulk power supply facility site evaluation committee. Ought to Pass with Amendment.

The amendment changes the make-up of the Site Evaluation Committee by deleting the Commissioner of Health and Welfare and the State Radiologist and adding the Director of Public Health and Welfare and the Commissioner of Public Works and Highways. It also clarifies the procedures and responsibilities of the Site Evaluation Committee and the Public Utilities Commission in the siting process. The timing of procedures is tightened. New sections add an additional basis for siting a facility under RSA 162-F:8, II (a) and allows the Site Evaluation Committee to suspend its actions and ask the Public Utilities Commission to make its findings before the Committee resumes its work. Representatives from the Public Utilities Commission, the Administrator of the Site Evaluation Committee, and Public Service Company of New Hampshire helped develop and support the amendment. Vote 18-0. Rep. Barbara B. Bowler for Environment and Agriculture.

Such public hearing shall be a joint hearing, with representatives of such other agencies as have jurisdiction over the subject matter and shall be deemed to satisfy all initial requirements for public hearings under statutes requiring permits relative to environmental impact. The hearing shall be for public information on the proposed facilities with the applicant presenting the information to the site evaluation committee and to the public. Only site evaluation committee members shall ask questions for

clarification regarding the proposed facility at the hearing.

5 Subsequent Hearings. Amend RSA 167-F:7 by inserting after paragraph I the following new paragraph:

Findings by the site evaluation committee to the commission shall be made after a vote of the site evaluation committee. A majority vote of the site evaluation committee shall be conclusive on all questions of siting, land use, air and water quality. The site evaluation committee, after having considered available alternatives and the environmental impact of the site or route, must find that the site and facility:

(a) Will not unduly interfere with the orderly development of the region with due consideration having been given to the views of municipal and regional planning commissions and municipal legislative bodies;

In the consideration of applications for certificates of site and facility, the site evaluation committee and the commission shall assure full public review and adequate consideration of all environmental values and other relevant factors bearing on whether the objectives of this chapter would be best served by the issuance of the certificate. The site evaluation committee and the commission may consult with interested regional agencies and agencies of border states in the issuance of such certificates.

10 Suspension of Deliberations. Amend RSA 162-F by inserting after section 8 the following new section:

162-F:8-a Temporary Suspension of Deliberations. If the site evaluation committee, at any time during its deliberations relative to an application for a certificate of site and facility, deems it to be in the public interest, the site evaluation committee may temporarily suspend its deliberations and request the commission to exercise its duties under this chapter. After deliberations have been so suspended, if the commission finds that the requirements of RSA 162-F:8, II have been met and so notifies the site evaluation committee, the site evaluation committee shall resume its deliberations under this chapter.

11 Expenses of Counsel for the Public; Energy Facility Evaluation Committee. Amend RSA 162-H:8, III (supp) as inserted by 1974, 39:3 as amended by striking out said paragraph and inserting in place thereof the following:

III. The committee may require such information from the applicant and state agencies and officials as it deems necessary to assist it in the conduct of hearings and in making any investigation or

The committee shall conduct such reasonable studies and investigations as it deems necessary or appropriate to carry out the purposes of this chapter and may employ consultants, legal counsel and other staff in furtherance of the duties imposed by this chapter, the cost of which shall be borne by the applicant in such amount as may be approved by the committee. The committee and counsel for the public, as provided for by RSA 162-H:11, are further authorized to assess the applicant for all travel and related expenses associated with the processing of an application under this chapter.

HB 157-FN, relative to sunset review of DRED - recreation services. Ought to Pass.

This bill continues the recreational planning program known as SCORP in the Office of State Planning under a contract with DRED. SCORP provides the basis for the distribution of New Hampshire's share from the Federal Land and Water Conservation Fund. The recommendation of the Sunset Report was to return the program to DRED. The Committee supports the recommendation of the Sunset Report regarding the functions appropriate to the Office of State Planning - essentially state policy development and coordination rather than administration of grants. The Committee did find that the SCORP program appeared to relate more closely to the narrower administrative function and therefore belonged in DRED. However, the Governor, who has articulated a strong commitment to state policy development as the function of a restructured Office of State Planning, has requested retaining SCORP in the Office of State Planning where - the Committee has been assured - the monies will be creatively utilized for the purpose of developing broad state recreational policies. The Committee has asked the Governor's Office of State Planning to demonstrate, in a report to the Committee by June 1, the manner in which the Office is achieving this purpose with SCORP. Pending this report, the Committee recommends leaving SCORP in the Office of State Planning and therefore, Ought to Pass on HB 157. Vote 20-1. Rep. Joan M. Schreiber for Resources, Recreation and Development.

Ordered to third reading.

HOUSE JOURNAL 14

Tuesday, 29Mar83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

O God Almighty, You who heard the cries of our ancestors in Egypt and delivered them out of slavery, hear our cries to be delivered from the bonds of today's problems.

Let us eat the bitter herbs to remind ourselves that all is not well and even in New Hampshire there are poor and hungry enslaved by drink, poverty or prejudice attitudes.

Let this Passover time be a time to celebrate our freedom, to practice our religion, and may no plague fall upon this House because its members know and exercise their responsibility to preserve our freedom to pray. Amen.

Rep. Brodeur led the Pledge of Allegiance.

CACR 8, relating to county attorneys. Providing that said attorneys be appointed by the county commissioners in each county. Inexpedient to Legislate.

The Committee feels taking the voting privilege from up to 10,000 people and giving it to 3 people is unwise and moves government even further from the people. It further felt the potential for political patronage would be increased. Vote 10-0. Rep. Joseph F. Duggan for Constitutional Revision.

Report adopted.

HB 127-FN, relative to sunset review of the higher education fund - U.N.H. system administration. Ought to Pass with Amendment.

The Committee feels that the University of New Hampshire, Plymouth and Keene State Colleges, Merrimack Valley College and the School for Lifelong Learning should continue to operate as a well-coordinated system of public higher education rather than as totally separate institutions. HB 127-FN continues the position of chancellor to facilitate coordination, provide educational leadership, and serve as chief spokesman for the university system. The amendment clarifies the relationship between the component institutions and the chancellor's office, stressing the need for maximum campus autonomy in order to serve the educational needs of the people of New Hampshire. It requires that budget transfers between PAUs be reported annually to the legislative Fiscal Committee, and makes minor changes in the University System Study Committee. The amendment also adds a section on legislative oversight. Vote 16-1. Rep. Betty Jo Taffe for Education.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 University System of New Hampshire.
Amend RSA 187-A:1 (supp) as inserted by 1981, 331:1 by striking out said section and inserting in place thereof the following:

187-A:1 The University System of New Hampshire. The university system of New Hampshire is established and made a body politic and corporate, the main purpose of which shall be to provide a well coordinated system of public higher education offering liberal undergraduate education encompassing the major branches of learning, emphasizing our cultural heritage, and cultivating the skills of reasoning and communication. The

university system shall provide for professional and technical 2-year, 4-year and graduate programs which serve the needs of the state and the nation; for research which contributes to the welfare of mankind, to the development of the faculty, and to the educational experience of students; and for its faculty and staff to bring educational resources and professional experience to the benefit of the state and its people. The university system of New Hampshire is authorized to grant and confer in the name of the university system of New Hampshire all such degrees, literary titles, honors and distinctions as other universities may of right do.

4 New Sections. Amend RSA 187-A by inserting after section 2 the following new sections:

187-A:2-a Governance. The university system shall be governed by a single board of trustees who shall be responsible for ensuring that its components, each having a unique character and educational mission, operate as a well coordinated system of public higher education.

187-A:2-b Legislative Oversight.

I. The general court finds that because of the importance of public higher education, elected officials should be aware of the activities and needs of the university system, exercising their responsibility for legislative oversight through (1) the consideration by the appropriate legislative committees of proposed legislation pertaining to the university system; (2) activities of the university system study committee established pursuant to RSA 187-A:26; (3) the sunset review process adopted pursuant to RSA 17-G; and (4) the consideration of reports filed by the university system pursuant to RSA 187-A:16 and 187-A:22.

II. The general court also recognizes the need to protect the institutions of the university system from inappropriate external influence which might threaten the academic freedom of faculty members or otherwise inhibit the pursuit of academic excellence. To this end, the general court has delegated broad authority to the board of trustees who shall be responsible for managing the university system in a manner which promotes academic excellence and serves the educational needs of the people of New Hampshire.

5 Membership. Amend RSA 187-A:13, IV (supp) as inserted by 1981, 331:1 by striking out said paragraph and inserting in place thereof the following:

IV. Four members elected by the alumni of the university of New Hampshire;

6 Authority. Amend RSA 187-A:16 (supp) as inserted by 1981, 331:1 by striking out said section and inserting in place thereof the following:

187-A:16 Authority of the Trustees.

The trustees shall have the management and control of all the property and affairs of the university system of New Hampshire, the university of New Hampshire (including the New Hampshire college of agriculture and the mechanic arts), and all its divisions and departments, the Keene state college, the Plymouth state college, the Merrimack Valley

college, and the university system school for lifelong learning. They shall not change the name of the Plymouth state college or of the Keene state college, nor shall they cease operating these colleges or the Merrimack Valley college without legislative authority. It is the intent of the general court that the trustees, when exercising their responsibilities under this chapter, recognize and foster the unique character and educational mission of each institution of the system. To this end, the institutions are to be permitted to operate with the highest measure of autonomy and self-governance, subject to the supervision of the board of trustees. In addition to this general authority, the trustees are authorized to:

I. Appoint and fix the compensation of a president of the university of New Hampshire, a president of Keene state college, a president of Plymouth state college, a dean of Merrimack Valley college and a dean of the university system school for lifelong learning, who shall be the chief academic and administrative officers of their respective institutions. The chief executive officer of each institution shall have the authority for and be responsible for the general administration and supervision of all aspects of the instructional, research and service programs of that institution.

II. Appoint and fix the compensation and duties of the administrative officers of each component institution of the university system.

III. Appoint and fix the compensation of a chancellor of the university system who shall serve as the chief executive officer of the university system, as the university system's primary liaison with the general court and other elements of state government, and as chief spokesman for the university system. The chancellor shall serve as chairman of the administrative board of the university system, leading and coordinating the efforts of the chief officers of the component institutions of the university system, and shall have such other duties as the board of trustees may determine.

IV. Establish an administrative board, comprised of the chief executive officers of each component institution together with the chancellor of the university system, which shall be the coordinating body for the university system. The board is responsible for recommending and implementing policies and procedures which assist the campus presidents in discharging their responsibilities in such a manner as to provide for maximum institutional initiative and responsibility within a unified university organization.

V. Appoint and fix the compensation and duties of such other university system administrators as are needed to provide a well coordinated system of public higher education. These system administrators shall provide assistance needed by the component institutions in order to fulfill their individual educational missions and shall provide

services which facilitate coordination in order to serve the educational needs of the people of New Hampshire.

VI. Appoint a faculty of instruction, prescribe their duties, and invest them with such powers for the immediate government and management of each institution as the trustees may deem conducive to the best interests of each institution and the university system.

VII. Accept legacies and other gifts to or for the benefit of the university or any of its divisions or departments.

VIII. Accept all moneys accruing to the institutions of the university system, all moneys appropriated by or received from the government of the United States or the state of New Hampshire, all dividends and interest accruing to these institutions, all gifts of securities and property, real and otherwise, all grants and matching funds from any source, and all monies from sales, tuition fees, admissions and guarantees and from bills receivable.

IX. Acquire water by purchase, development or otherwise and to construct reservoirs or water towers, erect pumping machinery, lay water mains and pipes, install gates, valves and hydrants.

X. Furnish and sell water in the town of Durham to manufacturers, private corporations and individuals for fire protection, manufacturing and domestic use, and collect payment or rentals for the same.

XI. Construct and maintain sewers, culverts, conduits and pipes, with all necessary inlets and appliances for surface, under surface and sewage drainage for the health, comfort and convenience of the inhabitants and the sanitary improvement of the town of Durham, and fix and regulate the price of connection therewith to corporations, firms and individuals.

XII. Enter into agreements and contract with other colleges and universities for the purpose of further education of any qualified New Hampshire student in fields of study not provided for in the curricula of the university system or any of its divisions or component institutions.

XIII. Contract with any city or town in this state for the maintenance of practice schools therein in connection with its teacher-trainees and to provide for the payment of such portion of the compensation of the supervising teachers employed in said practice schools as it may deem just and equitable.

XIV. Authorize the retention by Keene state college, Plymouth state college or the Merrimack Valley college of the income received and due from all sources, including bequests, trusts, student fees and tuition charges, rents, sales and any other income from whatever source derived, and to authorize the use thereof in such manner as the trustees may determine or as may be provided by law or by the conditions incident to the trusts, gifts and bequests involved.

XV. Transfer funds among the institutions of the university system, and their divisions and departments, when such

action shall appear necessary and in the best interests of the state and the institutions of the university system.

The university system shall report the amount and purpose of all transfers of funds from one program appropriation unit of the budget to a different program appropriation unit to the legislative fiscal committee of the general court by November 1 of each year. Copies of such reports shall be sent to the house education committee and the senate education committee.

XVI. Employ such other persons as may be necessary to carry out the purposes for which the university system and any of its divisions or component institutions have been created and to prescribe their duties.

XVII. By and with the consent of the governor and council, borrow on the credit of the university system in anticipation of income, for the purpose of forwarding its building program, not exceeding \$500,000 in any one fiscal year. All amounts so obtained in any fiscal year shall be repaid from the income of the next succeeding fiscal year.

XVIII. Establish a differential in the rate of tuition to be charged all in-state and out-of-state students based on the dual legislative policy of:

(a) Limiting the number of out-of-state students who may attend the university system; and

(b) Giving due weight to the fact that the support of the university system is substantially dependent upon legislative appropriations derived from revenue contributed by persons domiciled within the state of New Hampshire.

XIX. Adopt rules pursuant to RSA 541-A establishing criteria for determining whether students shall be classified as in-state students or out-of-state students for tuition purposes, and to delegate the administration of such rules to a subcommittee or agent. Any student in the university system who is aggrieved by a final determination of the board of trustees or of any subcommittee or agent of the board denying him in-state status for tuition purposes may appeal to the superior court in the county in which the particular division of the university involved is located. Such appeal shall be filed within 30 days after the final determination by the board of trustees. In the superior court, the burden of proof shall be on the appellant to show that the determination of the board of trustees is unreasonable or unlawful and all findings by the board or its properly designated subcommittee or agent shall be deemed to be prima facie lawful and reasonable. The determination of the board of trustees shall be set aside only if, on all the evidence, the court is satisfied that it is unlawful or unreasonable according to the policy as set forth in this section, and additional criteria as may be established and published, to the student bodies of the institutions constituting the university system by the board of trustees.

XX. Enter into agreements with appropriate agencies and institutions of higher education in other states and foreign countries providing for the reciprocal

exchange of students. Such agreement may include provisions for waiver or reduction of out-of-state tuition rates for designated categories of students and may include contractual payments to such out-of-state institutions within the availability of appropriations. The board shall have the power to make such agreements on a continuing basis with mutual credits and offsets which need not be balanced in any given year. One purpose to be accomplished thereby shall be to make available to in-state students of the university system educational facilities not available within the state of New Hampshire in exchange for acceptance by the university system of out-of-state students from jurisdictions where such facilities are made available for New Hampshire students.

XXI. Acquire fire, theft, casualty and vandalism insurance to cover donated property, real and personal, notwithstanding the provisions of RSA 9:27 to the contrary.

7 Report. Amend RSA 187-A:22 (supp) as inserted by 1981, 331:1 by striking out said section and inserting in place thereof the following:

187-A:22 Report. The trustees shall file with the governor and council, by November 1 of each year, a report of the operations, progress and financial condition of the university system and its constituent institutions. They shall include in the report an account of improvements made. One copy thereof shall be transmitted to each college endowed under the act of congress cited in RSA 187-A:5, I; one copy to the secretary of the interior; one copy to the legislative fiscal committee; one copy to the house education committee and one copy to the senate education committee.

8 Study Committee. Amend RSA 187-A:26 (supp) as inserted by 1981, 331:1 by striking out said section and inserting in place thereof the following:

187-A:26 University System Study Committee. A permanent study committee of 8 members is hereby established to examine the goals, purposes, organization and financing of the university system of New Hampshire and to evaluate and make recommendations on the university of New Hampshire, Keene state college, Plymouth state college and Merrimack Valley college, and the school for lifelong learning.

9 New Section; Membership. Amend RSA 187-A by inserting after section 26 the following new section:

187-A:26-a Membership. The committee shall be appointed as follows: 3 senators, including the chairman of the senate education committee and a member of the senate finance committee, by the president of the senate; 5 representatives, including the chairman and at least 2 other members of the house education committee and a member of the house appropriations committee, by the speaker of the house of representatives. The chair of the study committee shall rotate biennially between the chairman of the house education committee and the chairman of the senate education committee. A member shall only serve while he is a member of the general court. The members shall not be entitled to

any salary but are entitled to reimbursement for mileage and other expenses incurred in carrying out their duties. The committee may hire necessary consultants, professional or clerical personnel.

10 New Paragraph: Sunset Review. Amend RSA 187-A:27 by inserting after paragraph II the following new paragraph:

III. Whenever the university system is scheduled for sunset review according to RSA 17-G, the members of the university system study committee shall work in cooperation with the house and senate committees as they participate in the sunset process during the year preceding the legislative session in which the university system is scheduled for review.

The committee shall submit a report to the general court by January 15 of each odd-numbered year, except when the university system is scheduled for sunset review pursuant to RSA 17-G. Copies of the report shall be submitted to the governor and council, each member of the senate and the house of representatives, the board of trustees of the university system, and to any other individual or organization as the committee deems advisable.

HB 229-FN, relative to hunting and fishing guides and license fees pertaining thereto. Ought to Pass.

The Committee felt this was a fair increase in resident and nonresident guide license fees. Vote 8-4. Rep. Laura Pantelakos for Fish and Game.

Ordered to third reading.

HB 223-FN, relative to communicable disease laboratory support services and making an appropriation therefor. Ought to Pass.

This bill will allow the Division of Public Health to establish a much needed communicable disease laboratory to identify and prevent spreading of disease in the state. Vote 19-0. Rep. Emma B. Wheeler for Health and Welfare.

Referred to Appropriations.

HB 237, relative to employment termination. Ought to Pass.

This measure would require an employer to give written notice to an employee when he is terminated. Such is the established policy in many of the state's larger employers. It merely gives an employee the right if he so chooses to request in writing that he would desire a written statement to the cause of his termination. Vote 11-5. Rep. Avis B. Nichols for Labor, Human Resources and Rehabilitation.

Ordered to third reading.

HB 236, providing special registration plates for members of the national guard and judiciary. Ought to Pass with Amendment.

Testimony relative to the work done by the judiciary, the elected constitutional officers and the National Guard in a great variety of areas convinced a majority of the Committee that the request made in this bill is deserving and should be granted. Under provisions of the bill there will be no fiscal impact upon the state. Vote 12-4. Rep. Edward J. Crotty for Transportation.

Rep. Margaret Ramsay yielded to questions.

Ordered to third reading.

HB 210-FN, ensuring retirement benefits for police officers who become director or field representatives for the police standards and training council. Inexpedient to legislate.

The Committee's action is in accord with a previous legislative determination in 1981 (Chapter 536, Laws of 1981) which indicated field representatives for or a director of the Police Standards and Training Council is not appropriate for group II benefits, excluding those presently occupying the positions. Group II benefits are limited to hazardous duty positions. A police officer who is a group II member of the retirement system and who may become a field representative for or a director of the council would carry their accumulated benefits with them - nothing would prohibit an officer from returning to group II and carrying both groups' retirement benefits. Vote 19-1. Rep. William Gregorio for Executive Departments and Administration.

Rep. Daniel Eaton spoke to the Committee report.

Resolution adopted.

HB 314-FN, relative to vanity number plates for motor vehicles. Inexpedient to legislate.

Committee members reported having contacted many constituents who, if recognized as a fair sampling, would indicate strong public resistance to this bill. For this reason the increase in initial cost of vanity type plates at the risk of doing great damage to a heretofore smoothly functioning program cannot be overlooked. Vote 14-0. Rep. Paul E. Blouin for Transportation.

Rep. Rounds moved that HB 314 be made a Special Order for Thursday, April 7.

Rep. Tavitian spoke in favor of the motion.

Motion adopted.

RECESS

(Speaker in the Chair)

Rep. Rounds moved that the House adjourn.
Adopted.

HOUSE JOURNAL 15

Thursday, 31Mar83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

Help us, dear Father, to learn from history. Some use a towel and basin to wash their hands of all risk and responsibility. Others use a towel and basin to wash another's feet and to express their caring and responsibility.

When we are tempted to hide from the tasks given us, forgive us. When we dare to face the risks of involvement in providing for others give us courage and strength.

In this Holy Week may we learn from the past and side with the course of love, mercy, service and justice in our dealings with each other. Amen.

Rep. Stark led the Pledge of Allegiance.

COMMITTEE REPORTS (Consent Calendar)

HB 241-FN, making an appropriation to the department of education for the state revenue match requirement of the federal school lunch and child nutrition program. Ought to Pass.

This is a crucial bill. If it fails, \$12 million of federal funds will be lost and the "school lunch" program will disappear. Vote 18-0. Rep. Mary S. Nelson for Education.

Referred to Appropriations.

HB 250-FN, making an appropriation to the department of education, division of vocational technical education. Ought to Pass.

HB 250 makes a supplemental appropriation for fiscal year 1983 which enables the Department of Education to pay vocational education aid to local school districts. This aid will pay 100 percent of transportation costs and 75 percent of tuition costs for out of district students attending Regional Vocational Education Centers. There was no opposition at the hearing. Vote 18-0. Rep. Joanne A. O'Rourke for Education.

Referred to Appropriations.

HB 251-FN, relative to the state board of education and to salaries of assistant superintendents, teacher consultants and business administrators. Ought to Pass with Amendment.

This bill permits the State Board of Education to send a State Board member or the Board's designee to be a voting member of the State Library Commission.

The amendment eliminates the section pertaining to the State's share of the salaries of certain School Administration Unit personnel, since that item has not received funding for two years and is not funded in present budget proposals. Vote 18-0 Rep. Betty Jo Taffe for Education.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the state board of education.

Amend the bill by striking out sections 2 and 3 and inserting in place thereof the following:

2 Effective Date. This act shall take effect 60 days after its passage.

Referred to Appropriations.

HB 258-FN, encouraging the establishment of kindergartens in public schools and making an appropriation therefor. Inexpedient to Legislate.

Though the Committee as a whole approves of kindergarten education, it was pointed out that the whole sum of \$1,000,000 to be appropriated could be absorbed by Nashua alone. The school districts participating could receive funding for only one year. Thereafter, they would have to carry the full cost of the kindergarten program, or abandon it. The bill neither prohibits nor mandates school district voluntary programs. Vote 17-0. Rep. William A. Riley for Education.

HB 270-FN, making an appropriation to the department of education for the payment of debt service for school construction. Ought to Pass with Amendment.

HB 270 makes a supplemental appropriation of \$1,038,329.47 for FY '83 for the payment of debt service for school construction (i.e. building aid to school districts). The amendment adds two sections from HB 293 (which is recommended for interim study). These sections deal with the number of installments in which such payments are made to the districts. Vote 18-0. Rep. Betty Jo Taffe for Education.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

making an appropriation to the department of education for the payment of debt service for school construction and changing the number of installments in which foundation aid shall be paid.

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Bonds and Notes. Amend RSA 198:15-b, II (supp) as inserted by 1979, 208:1 as amended by striking out said paragraph and inserting in place thereof the following:

II. For the purposes of computing grants hereunder, the amount of the annual payment of principal shall be increased by an amount equal to the amount of capital reserve or the amount raised by taxation which was actually expended for the project at any time, divided by the number of years for which bonds or notes were issued to provide funds for such school building or school administrative unit facilities; provided, however, that funds transferred to capital reserve from trusts, bequests and gifts or money received from insurance policies shall not be eligible for computing grants hereunder. When bonds and notes are issued for a period of less than 5 years, the amount of aid for which the district is eligible shall be paid in no fewer than 5 equal installments.

3 Number of Installments. Amend RSA 198:15-b, III (supp) as inserted by 1979, 208:1 as amended by striking out in line 4 the number "10" and inserting in place thereof the following (5) so that said section as amended shall read as follows:

III. If the project was entirely financed by the use of amounts raised by taxation or by the use of capital reserve other than funds from trusts, bequests, gifts or received from insurance policies, the aid provided herein shall be paid in 5 equal installments.

4 Effective Date. This act shall take effect upon its passage.

Referred to Appropriations.

HB 344-FN, relative to school building aid for the Conway school district. Inexpedient to Legislate.

The Committee feels that under present statute, Conway has the means to accomplish what they want to accomplish with this bill. Vote 22-0. Rep. William P. Boucher for Education.

HB 333, relative to a lump sum death benefit for Lillian Palmer. Ought to Pass with Amendment.

The present benefits to the surviving spouse equal some \$9.03 per month. The Committee felt that a lump sum benefit of \$13,381 was more appropriate due to the fact that this benefit would have been awarded if her husband's death had occurred 3 days later. Payment for this lump sum benefit will be paid from the New Hampshire Retirement System assets and will have no fiscal impact on state, county or local revenues and expenditures. Vote 17-0. Rep. William Gregorio for Executive Departments and Administration.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Lump Sum Benefit Authorized.
Notwithstanding the circumstance that her husband, a member of the New Hampshire retirement system, died 3 days before 1981, 536:10 became effective, Lillian Palmer shall be entitled to elect to receive a lump sum death benefit and the amount of her husband's accumulated contributions in lieu of an allowance, as provided by RSA 100-A:9 as amended by 1981, 536:10. If Lillian Palmer elects to receive a lump sum benefit, the New Hampshire retirement system board of trustees is hereby directed to pay to her the difference between the lump sum amount specified in 100-A:9 as amended and the amount which she has already been paid.

Referred to Appropriations.

HB 233-FN, relative to the licenses for bait dealers. Ought to Pass with Amendment. The Committee felt this would bring these fees in line with other commercial fees. Vote 12-1. Rep. Laura Pantelakos for Fish and Game.

Amendment

Amend the bill by striking out section 3 and renumbering section 4 to read as 3

HB 253, abolishing a 5-trap license for taking lobster. Inexpedient to Legislate. The Committee felt that the 5-trap license should not be abolished because it only involves 157 people holding these licenses. Also, it would take away the rights of the small lobster fishermen. Vote 14-0. Rep. Laura Pantelakos for Fish and Game.

HB 254-FN, relative to a resident commercial salt water fishing license. Ought to Pass with Amendment. The Committee felt \$25.00 was a fair fee for resident commercial fishing license. Vote 15-0. Rep. Laura Pantelakos for Fish and Game.

Amendment

Amend the bill by striking out section 2 and inserting in place thereof the following:
2 Definition. Amend RSA 207:1 by inserting after paragraph IV the following new paragraph:

IV-a. Commercial Fisherman: Any person who holds a valid federal fisheries permit issued pursuant to 50 Code of Federal Regulations, section 651.4.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 306, relative to the taking of eastern coyotes and making an appropriation therefor. Inexpedient to Legislate. Although the Committee was sympathetic with the coyote problem, it felt that this was not the way to solve it. Vote 14-0. Rep. Laura Pantelakos for Fish and Game.

HB 347, relative to expenditures made by department of fish and game for search and rescue missions. Ought to Pass with Amendment.

The Committee felt very strongly that the Fish and Game Department should be reimbursed for expenses relating to search and rescue missions. Vote 14-0. Rep. Laura Pantelakos for Fish and Game.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to expenditures made by the department of fish and game for search and rescue missions and search and rescue related activities.

Amend RSA 206:42 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
206:42 Reimbursement. The state shall reimburse the fish and game fund for the expenses incurred by the department of fish and game in conducting search and rescue missions in the state and for all search and rescue related activities of the department.

Amend RSA 206:43 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
206:43 Statement of Expenses. The executive director with the approval of the commission, shall submit to the state treasurer a statement of the expenses incurred by the department in a search and rescue mission or a search and rescue related activity. The statement shall show in detail the amount and character of the services performed, the duration of the search and rescue mission, and the actual disbursements made by the executive director as a result of such efforts.

Referred to Appropriations.

HB 349, providing restitution to the state for illegal taking or possessing game animals, game birds and fur bearing animals. Ought to Pass with Amendment.

The Committee felt restitution should be made to the state for illegal taking or possessing game animals, game birds and fur bearing animals. Vote 14-0. Rep. Laura Pantelakos for Fish and Game.

Amendment

Amend RSA 207:55, I as inserted by section 1 of the bill by striking out said paragraph and inserting in place thereof the following:

1. In addition to the penalties provided for violating any of the provisions of RSA title LXII or title XVIII or any rule made under the authority thereof, any person convicted of the illegal taking or illegal possession of game animals, game birds, or fur bearing animals, resulting in the injury, death, or destruction of the same, may be sentenced to make restitution to the state for the value of each game animal, game bird, or fur bearing animal so taken or possessed as follows:

HB 137-FN, relative to sunset review of the department of health and welfare - division of welfare. Ought to Pass with Amendment.

HB 137, as amended, continues the Division of Welfare for six years under the Sunset Act. The bill represents only part of the Committee's action relative to the Division which resulted from Sunset Review conducted jointly with the Senate Health and Welfare Committee. The Committee intends to follow up with further recommendations in the form of a resolution and continue its review through the Joint Oversight Committee on Health and Welfare in the interim. Vote 14-1. Rep. Joanne C. Head for Health and Welfare.

HB 332, permitting municipal court justices to hear district court cases when the district court justice is disqualified or unable to hear the case. Inexpedient to Legislate.

There are current statutes providing for hearings' officers when a justice must disqualify himself or herself, and this change would reverse the trend toward requiring such persons to be members of the bar. Vote 14-1. Rep. Frank J. Sylvia for Judiciary.

SB 16, increasing the jurisdictional amount of the small claims court. Refer for Interim Study.

The increase in jurisdictional limits for small claims is meritorious and deserving of consideration, but it poses a possible conflict in the existing laws relative to appeals and would cause confusion among those who would normally utilize this procedure. It would also be used as a delaying tactic and would further crowd court dockets, which make further study and refinement the better approach for coordination with other statutes and constitutional provisions. Vote 14-0. Rep. Frank J. Sylvia for Judiciary.

HB 398-FN, relative to the definition of public employee and supervisor. Inexpedient to Legislate.

This measure is already covered in the national Labor Relations Act and also by law established by court cases as to duties of supervisory personnel. Vote 14-0. Rep. Merino Romoli for Labor, Human Resources and Rehabilitation.

HB 399-FN, relative to responsibility for damages resulting from discrimination promoted or caused by the collective bargaining process. Inexpedient to Legislate.

The Public Employee Labor Relations Board testified that the bill "appears to add a very unnecessary item to the statutes. The subject has already been covered by the federal and state courts. The Board does not want the authority. It is a duplication of the present situation." Vote 14-0. Rep. Merino Romoli for Labor, Human Resources and Rehabilitation.

HB 221-FN, relative to boat permit fees. Inexpedient to Legislate.

It seems that the small amount of income generated by this bill would not warrant the nuisance factor and expense involved in collection. Boat fees as set by 1981 Legislature seem adequate at this time. Vote 18-0. Rep. Frank E. McIntire for Municipal and County Government.

HB 326, to provide for the option of appointment of town clerks. Inexpedient to Legislate.

The Committee feels that the integrity of the town records is best preserved by continuing the procedure of electing town clerks. Vote 15-1. Rep. John P. Lawrence for Municipal and County Government.

HB 338-FN, relative to fees collected by the registers of deeds in Carroll and Coos counties. Ought to Pass.

This legislation provides the same methods for the compensation of the register of deeds in Carroll and Coos counties as is done in the other 8 counties. Vote 16-0. Rep. David M. Perry for Municipal and County Government.

HB 342-FN, relative to increasing the maximum locally imposed fine for violation of a local bylaw. Ought to Pass.

This bill raises the maximum fine for violation of a bylaw on town ordinance from \$100 to \$1,000 for each offense. The Committee feels that this is needed as a deterrent for violators to flaunt the ordinances. Vote 19-0. Rep. John P. Lawrence for Municipal and County Government.

HB 365, making the killing of a guard dog a class B felony. Inexpedient to Legislate.

This bill would make the wilfull killing of a guard dog a Class B felony. In view of the lack of standards and definition of what constitutes a guard dog, the Committee feels that passage of this bill would only encourage some very

undesirable practices and would further no useful purpose. Vote 14-0. Rep. Richard A. Grodin for Municipal and County Government.

HB 383-FN, prohibiting tax exemptions for the legally blind who hold driver's licenses. Ought to Pass.
The Committee felt this legislation would rectify a loophole in certain tax exemption laws. Vote 18-0. Rep. Paul J. Hamel for Municipal and County Government.

SB 10-FN, revising the park boundary line of Hilton State Park. Ought to Pass. The transfer of land provided for in this bill makes it expedient to legislate. No acquisition of land at state expense is involved since the necessary addition is now state-owned. Vote 14-0. Rep. Ted A. Pelletier for Public Works.

HB 274-FN, relative to beano and a beano tax. Inexpedient to Legislate.
The Subcommittee of Regulated Revenues on beano is working to extract the best of what is in each of the numerous beano bills to be put into a final bill which will actually be a complete rewrite of the current Beano Laws. Sponsors were the only people appearing in favor of this bill. Double roomful of people appearing against. Vote 18-0. Rep. Lynn C. Horton for Regulated Revenues.

HB 308-FN, increasing the discount allowed on the price of liquor sold to on-sale permittees by the liquor commission. Ought to Pass with Amendment. The Committee feels that the 10 percent discount given to off-premise licensees who pick up case-lots at the warehouse offsets shipping and handling costs which the Liquor Commission would have if the licensee were to pick it up at the local liquor stores. Vote 19-0. Rep. James D. Phelps for Regulated Revenues.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the discount allowed on the price of liquor sold to on-sale permittees by the liquor commission.

Amend RSA 176:10-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

Rep. Powers abstained from voting under Rule 16.

HB 357, relative to the acquisition of a dam in disrepair by a town or village district and proceedings before the water resources board. Ought to Pass.

This bill simplifies the procedure by which a village district may acquire a dam within its jurisdiction which needs repair. Vote 18-0. Rep. Leander W. Burdick for Resources, Recreation and Development.

HB 159-FN, relative to sunset review of centralized data processing - data processing operation. Ought to Pass with Amendment.

The Committee feels that a restructuring of the agency is highly desirable, but this change should only occur after the executive branch reorganization establishes a new organizational framework. Therefore, the Committee recommends an extension of only two years. Vote 9-0. Rep. John E. Burns for Science and Technology.

Amendment

Amend the bill by striking out section one and inserting in place thereof the following:

HB 160-FN, relative to sunset review of centralized data processing - planning and support. Inexpedient to Legislate.

This will permit the removal of a PAU which has not been operative for several years. Vote 9-0. Rep. John E. Burns for Science and Technology.

HB 161-FN, relative to sunset review of centralized data processing - systems development. Ought to Pass with Amendment.

The Committee feels that a restructuring of the agency is highly desirable, but this change should only occur after executive branch reorganization establishes a new organizational framework. Therefore, the Committee recommends an extension of only two years. Vote 10-0. Rep. John E. Burns for Science and Technology.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Purpose and Policy. It shall be the policy of the state that an independent and impartial operation of public office is a public trust and that the realization of personal financial gain through public office other than compensation provided by law is a violation of that trust. The citizens of the state have a right to be assured that the financial interests of public officials and public employees present neither a conflict nor the appearance of a conflict with the public trust. In order to strengthen that assurance, this act establishes a committee to study ethics in government.

(a) Two members of the house of representatives, one from each party, appointed by the speaker of the house;

(b) Two members of the senate, one from each party, appointed by the president of the senate; and

(c) One person appointed by the governor.

II. The legislative members of the committee shall receive legislative mileage. A non-legislative member of the committee shall receive state employee mileage. All members of the committee shall be reimbursed for their reasonable expenses incurred in performing the provisions of this act. Any sums expended under this section shall be a joint legislative expense.

3 Study and Report.

I. The committee shall perform a study on ethics in government which shall include, but shall not be limited to, the following issues involving public officials and public employees:

(a) Conflicts of interest in decision making, financial or otherwise;

(b) Receipt and making of gifts;

(c) Use of confidential information;

(d) Representation of persons in transactions involving the state;

(e) Contracts with the state; and

(f) The establishment of a state ethics commission.

III. The house committee research staff shall make its services available for purposes of the study and report when requested to do so by the committee.

IV. All agencies of the state and the governor's council shall provide such information for the study and report as requested by the committee.

1 Private School Bus Owners Entitled to Gas Tax Refund. Amend RSA 260:47 as inserted by 1981, 146:1 by striking out said section and inserting in place thereof the following:

260:47 Refunds.

I. Any person who shall use any motor fuel, with respect to which the road toll has been paid, in any way other than in motor vehicles for the purpose of generating power for the propulsion thereof upon a way, or the state of New Hampshire or its agencies, or any city, town, county, school district or village district which purchases motor fuel from a retail dealer and which uses such motor fuel in its own vehicle, shall be entitled to a refund to the extent of the amount of said toll so paid with respect to such motor fuel; provided, however, that no person, except an organized club for snow traveling vehicles, shall be entitled to a refund for an amount less than \$10. For the purposes of this section, a school district shall be deemed to be using motor fuel in its own vehicles if it qualifies as an owner of the vehicle under RSA 259:72. The right to receive any refund under this section shall not be assignable and any assignment thereof shall be void. Provided, however, members of an organized club for snow traveling vehicles may assign

individual rights to a refund under this section to their respective clubs for the expansion and maintenance of club trails. With the exception of refunds made to snow traveling vehicle clubs, and refunds made to school districts as hereinafter provided for fuel consumed by private school buses when used exclusively to transport pupils to and from public schools or public school activities by virtue of a contract with a municipality, municipal board, or school board authorities, no payment of any refund shall be made to any person other than the original person entitled to it and using or selling motor fuel as set forth in this paragraph.

II. Any public school district which employs the owner of a private school bus or school bus line while being used exclusively to transport pupils to and from public schools or public school activities by virtue of a contract with the municipality, municipal board, or school board authorities shall be entitled to a refund to the extent of the amount of road toll paid with respect to motor fuel consumed by such private school bus or school bus line while being used exclusively to transport pupils to and from public schools or public school activities by virtue of a contract with the municipality, municipal board, or school board authorities; provided, however, that no school district shall be entitled to a refund for an amount less than \$10 and no payment of any refund shall be made to any person other than the public school district entitled to it and using motor fuel as set forth in this paragraph.

III. Any person who shall be entitled to a refund of the road toll with respect to any motor fuel under the provisions of this subdivision shall be reimbursed to the extent of the amount of the road toll paid on such motor fuel in the following manner and subject to the following conditions:

(a) All applications for refunds shall be made under penalties of perjury and shall be filed with the department no later than the deadline for filing with the federal government for refund of the federal excise taxes on fuel. This filing deadline may be waived by the commissioner for just cause for agencies of political subdivisions within the state. Such waiver shall not be granted to any such agency more often than once in 3 years.

(b) Such application shall be in such form as the department shall prescribe and shall contain such information as shall give the director a full and complete basis for determining the validity of the claim.

(c) Such application shall be accompanied by an invoice showing such purchase, together with evidence of payment of the invoice satisfactory to the director.

IV. When the above conditions have been fully complied with and the director is satisfied, after investigation, that the claim is valid, he shall determine the amount of the refund due on such application, and shall certify such amount and the name of the person entitled to the

refund to the state treasurer. The person entitled to a refund of the road toll paid by the owner of a private school bus or school bus line shall be the public school district contracting with the owner of the private bus or line, and such public school district shall receive the refund moneys from the state treasurer as additional revenue to pay for the expenditures enumerated in RSA 198:2. The state treasurer shall thereupon make such certified refund from said road tolls.

2 Refund on Tax Paid on Diesel Fuel.
Amend RSA 260 by inserting after section 52 the following new section:

260:52-a Refunds to School Districts.

1. A public school district shall be entitled to a refund of any tolls paid by the owner of a private school bus or school bus line when it is being used exclusively to transport pupils to and from public schools or public school activities by virtue of a contract with a municipality, municipal board, or school board authorities to the extent of the amount of said tolls so paid with respect to such fuel other than motor fuel which was used exclusively in the transportation of pupils to and from said public schools or public school activities by virtue of the contract with the municipality, municipal board, or school board authorities; provided, however, that no school district shall be entitled to a refund for an amount less than \$10 and no payment of any refund shall be made to any person other than the public school district entitled to it; and further provided that the entitlement to a refund shall not include a refund on any penalties or interest paid by the user. The application for a refund filed by the school district shall be accompanied by such documentary evidence as the director may require.

II. All applications for refunds shall be made under penalties of perjury no later than 2 years after the report as required by RSA 260:52, XI was filed by the user for the period claimed. The filing deadline may be waived by the commissioner for just cause. Such waiver shall not be granted to any such school district more than once in 3 years.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 269-FN, increasing the license fee for billiard tables, pool tables and bowling alleys. Inexpedient to Legislate.

The Committee in unanimous vote determined that the current licensing fees for each billiard table, pool table and bowling alley were fair and proper, and that a fee increase was not warranted by the costs of regulation and would be extraordinarily burdensome on the industry. Vote 18-0. Rep. Robert L. Jones for Ways and Means.

In order to alleviate the critical shortage of mathematics and science teachers in the state, HB 217 sets up a program of forgivable loans to students who agree to teach these subjects in New Hampshire public schools. Students who fail to complete the certification program or who fail to teach shall be required to repay the loan with interest. The bill appropriates \$100,000 for the next biennium. Vote 14-3. Rep. Betty Jo Taffe for Education.

Amendment

Amend the bill by striking out section 2 and inserting in place thereof the following:
2 New Subdivision. Amend RSA 188-D by inserting after section 18 the following new subdivision:

Mathematics and Science Teacher Loans
188-D:19 Forgivable Loan Program.

I. The postsecondary education commission shall administer a program of forgivable loans to be applied to the cost of college education for students enrolled in approved teacher education programs leading to certification as teachers of mathematics, physics, chemistry, biology, geology, earth science, mathematics-physical science, computer science, natural science, general science, or any combination of such subjects, in which it is determined that there is a shortage of teachers in the state.

II. Financial assistance shall be provided to qualified students who are domiciled in New Hampshire and have been domiciled in New Hampshire for at least one year prior to filing for aid under this subdivision and who are students at institutions with programs approved by the state board of education which lead to teacher certification in the included subjects. Such students may include:

- (a) Teachers attempting to change their area of certification;
- (b) Former teachers attempting to become recertified;
- (c) Other college graduates seeking teacher certification;
- (d) College undergraduates; and
- (e) Students in 5-year education programs.

If sufficient funds are not available for all loans requested by qualified persons, loan recipients in good standing from the previous year shall have priority over new applicants. New applicants shall receive loans from available funds with priority given to those applicants who require the least amount of time to complete certification requirements and become active teachers.

188-D:20 Eligibility. The commission shall authorize loans on the basis of the financial need and academic qualifications of the student and on the basis of the needs of the state for a teacher of an included subject. The recipient shall maintain the

equivalent of at least a 2.5 grade point average on a 4 point scale at the institution of higher education which he attends and make normal progress toward receiving certification in one of the included subjects determined to have a teacher shortage in order to remain in the loan program.

188-D:21 Note. A student receiving a loan shall sign a note to the state comptroller for the amount of the loan. Each note shall be enforceable in an action for debt. If the student signing the note is a minor, the note shall be endorsed by a responsible adult. In addition, it shall not be a defense to an action for debt that the recipient was a minor when the note was executed. A minor and responsible adult signing a note together shall each individually be responsible for repayment if repayment is required. Each student shall be required to agree in writing to teach the subject in which he becomes certified at a public middle school, junior high school or senior high school in New Hampshire for a number of years as specified in RSA 188-D:26 as a condition of the student's receipt and the eventual forgiveness of the loan.

188-D:22 School Choice. No person to whom a loan is made shall be restricted to the choice of postsecondary institution, approved as to program as provided in RSA 188-D:19, either inside or outside of the state. However, a student may use his loan in another state only if that other state permits a student from that other state to use a similar loan from his state in New Hampshire. No student may use his loan out-of-state unless given specific permission to do so by the postsecondary education commission.

188-D:23 Amount of Loan. The postsecondary education commission shall determine the exact amount of the loan to be given to each student. Each loan shall be for one academic year in a specified amount determined by the parameters of the program as set forth in the rules adopted relative to the program.

188-D:24 Revolving Fund. Notwithstanding RSA 6:12 or any other provision of law to the contrary, any repayments made to the state relative to this program shall be credited to the loan fund for use in making new loans. The monies in said fund shall be nonlapsing and shall be used only for the purposes of this program. Any monies appropriated for the loan fund, any contributions made to it and all repayments made shall be held by the state treasury in a separate account.

188-D:25 Continuation of Program. The loan program established by this subdivision shall continue to be funded until such time as the state board of education shall certify to the postsecondary education commission and to the general court that there is no longer a critical need for teachers of any subjects listed in RSA 188-D:19.

188-D:26 Commitment. As a part of the note the student signs upon receipt of his loan, there shall be included a section specifying that, in return for the loan, the student agrees upon his certification as a

qualified teacher to teach the subjects which qualified him for his loan in New Hampshire as provided in RSA 188-D:21 for a term of years to be determined by reference to the repayment schedule to be adopted as a rule by the postsecondary education commission based upon the amount of the loan. A loan recipient shall be forgiven up to the amount of \$2000 for each academic year the recipient spends teaching. The recipient shall teach for a full academic year to be forgiven any amount.

188-D:27 Repayment: Forgiveness.

I. All recipients of loans shall sign agreements detailing how the amount of the loan is to be repaid.

II. Upon certification as a teacher of one of the subjects listed in RSA 188-D:19, a loan recipient who actually teaches the subject in which he became certified, or any other subject in which a shortage exists, on a regular basis for at least half the school day at a public middle school, junior high school or senior high school in New Hampshire shall have his loan partially or totally forgiven according to the repayment schedule adopted by the postsecondary education commission. As long as a loan recipient continues teaching as required by the agreements he signed, he shall be required to make no repayment and the remaining unpaid portion of his loan shall not accrue interest.

III. A loan recipient who fails to teach as agreed shall immediately begin repayment of the loan according to the repayment schedule adopted by the postsecondary education commission. The amount of interest to be paid for the entire period of the loan and the amount of time to be allowed for repayment shall be as indicated in the note the recipient signed before receipt of the loan. The commission shall annually determine the interest amount to be indicated on notes to be signed each year and adopt such rate by rule.

IV. A loan recipient who fails to complete an appropriate program of studies or who fails to make normal progress toward receiving certification shall immediately become liable for the repayment of all his outstanding loans except as provided in paragraphs V and VI. Such repayment shall include interest for the entire period of the loan at a rate to be determined at the time the loan is granted.

V. A loan recipient who ceases to pursue a program of studies leading to certification in a qualifying subject but who continues as a full time student making normal progress toward a degree may petition the postsecondary education commission to delay the required repayment of the loan until completion of his degree program. If the delay is granted, upon completion of his degree, he shall begin repayment of the loan with interest for the entire period of the loan, as indicated in the repayment schedule as determined by the postsecondary education commission.

VI. The comptroller may, in case of hardship, death or other extenuating circumstances, with the approval of the fiscal committee of the general court provided for in RSA 14:30-a, extend or

forgive such individual accounts as may be brought to his attention.

VII. The comptroller is authorized to enforce the collection of accounts that are due under this subdivision. The postsecondary education commission, the attorney general, the state treasurer and any other executive agency shall aid the comptroller in its collections as the comptroller requests.

188-D:28 Rulemaking.

I. The postsecondary education commission shall adopt rules, pursuant to RSA 541-A, relative to:

(a) Determining the domicile of a student in a manner consistent with the criteria of the university system of New Hampshire for determining whether students shall be classified as in-state students for tuition purposes.

(b) Determining the financial need of a student.

(c) Determining the academic qualifications of a student.

(d) Determining the range of the loan amounts granted each year.

(e) Determining which subjects have a teacher shortage and will, therefore, be eligible for inclusion in the program.

(f) Determining the granting of permission for a recipient to use his loan at an out-of-state postsecondary institution.

(g) Determining what constitutes normal progress toward receiving certification.

(h) Determining the number of years of teaching to be required of a recipient.

(i) Determining the repayment schedule in case of failure of a recipient to meet the obligation to teach.

(j) Determining a procedure for granting delays in repayment under 188-D:27, V.

(k) Determining the interest rate to be used in notes.

(l) Application forms for applying for grants or loans or both.

(m) Determining the time-frame for applications.

(n) Such other items as may be necessary for the proper administration of this subdivision.

II. The comptroller shall adopt a rule, pursuant to RSA 541-A, relative to the contents of the note to be signed by a recipient of a loan.

III. The state board of education shall adopt a rule, pursuant to RSA 541-A, relative to approving programs for teacher education.

Amendment adopted.

Referred to Appropriations.

HB 260-FN, increasing the amount of catastrophic state aid to school districts for special education. Inexpedient to Legislate.

This bill took money from the basic special education aid to the school districts and redistributed the funds to catastrophic aid. The Committee felt

this would encourage districts to tuition special education students out of the district which will increase special education costs overall. Vote 17-1. Rep. Ellen-Ann Robinson for Education.

Resolution adopted.

HB 268-FN, relative to the licensing of kindergartens. Inexpedient to Legislate. It would be difficult to collect fees from private kindergartens. Vote 13-5. Rep. Cecelia L. Winn for Education.

Resolution adopted.

HB 275-FN, concerning state aid for special education. Ought to Pass. The Committee strongly feels that this bill is a positive step in the direction of taking some financial burden off the local communities for state and federally mandated special education costs. Vote 18-0. Rep. Dennis R. Bolduc for Education.

Referred to Appropriations.

HB 291-FN, establishing a special education revolving loan fund and making an appropriation therefor. Majority: Ought to Pass with Amendment. Minority: Inexpedient to Legislate.

MAJORITY: HB 291 establishes a revolving loan fund to assist nonprofit corporations, including local school districts, with start-up costs for special education programs for severely impaired students with high cost and/or low incidence handicapping conditions. Loans would be awarded on the basis of demonstrated need, cost-effectiveness and fiscal responsibility of the proposed programs. These programs would help fill the gap that now forces New Hampshire school districts to send 220 educationally handicapped students to high-cost out-of-state facilities. The amendment provides funds for the appropriation by bonding. Vote 14-8. Rep. Betty Jo Taffe for the Majority of Education.

MINORITY: Given the current economic constraints, the minority feels that any monies available to address the issue of special education programs for severely impaired students with high cost or low incidence, or both, handicapping conditions should be provided to currently operating facilities rather than as start-up funds for new programs and/or facilities, and that if such funds were available, they should come from the general fund. Reps. Rita M. Brack, William A. Riley, Mable C. Cutting, Dennis R. Bolduc, E. Jane Walker, Margaret A. Case, Howard F. Mason, Robert W. Moore for the Minority of Education.

HB 283 provides staff positions for Manchester Voc-Tech College and Stratham Voc-Tech College to enable them to utilize facilities awarded in the capital budget during previous sessions, but for which operating expenses were never provided. Manchester is appropriated \$718,509 for fiscal year 1984 and 1985. Stratham is appropriated \$224,420 for fiscal year 1984 and 1985. There was no opposition at the hearing. Vote 14-4. Rep. Joanne A. HB 292-FN, relative to a cooperative agreement to serve handicapped children, and making an appropriation therefor. Ought to Pass with Amendment.

HB 292, as amended, provides services to profoundly mentally retarded multiply handicapped and severely mentally retarded severely multiply handicapped children, both at the Laconia State School and in the community, through a state joint plan developed by the Department of Education and the Department of Health and Welfare. It establishes a legislative oversight committee to review and approve the state joint plan and oversee the implementation of the plan. Since the funding provisions of HB 27 (1982 Special Session) for 3-21 year-olds at the Laconia State School expire June 30, 1983, HB 292, as amended, is needed to ensure the continuation of a state role in providing services for severely developmentally impaired children. The bill appropriates \$2,066,000 to the Department of Health and Welfare and \$2,934,000 to the Department of Education for the biennium. Vote 22-0. Rep. Betty Jo Taffe for Education.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Paragraph. Amend RSA 186-C:13 by inserting after paragraph II the following new paragraph:

III. When state funding is specifically provided, pursuant to RSA 186-C:21. Provided, however, if such funding does not cover the entire cost of special education or special education and educationally related services, school district liability for the balance of the costs shall be as determined by the other provisions of this section.

2 Additional Appropriations. Amend RSA 186-C:18, IV (supp) as inserted by 1981, 352:2 by striking out said paragraph and inserting in place thereof the following:

IV. The state shall appropriate \$300,000 for each fiscal year to assist special education programs that are statewide in their scope and that meet the standards for such programs established by the state board of education. These funds shall be administered and distributed by the state board of education.

3 Cooperative Agreement. Amend RSA 186-C:19 (supp) as inserted by 1982, 39:2 by striking out said section and inserting in place thereof the following:

186-C:19 Educationally Handicapped Children in State Institutions.

I. For an educationally handicapped child in a state institution, the school district responsible for selecting and funding the child's special education or special education and educationally related services shall be as follows:

a) If such child is in the legal custody of the parent, the school district in which the parent resides shall be the responsible school district;

b) If such child is not in the legal custody of the parent, or if the parent resides outside the state, the school

district in which the child most recently resided other than in a state institution, home for children, or health care facility as defined in RSA 193:27, shall be the liable school district;

c) For the purposes of this chapter, children at the Laconia state school and training center and at the New Hampshire hospital between the ages of 18 and 21 are deemed to be in the legal custody of their parent if they were in such legal custody upon reaching age 18.

II. Nothing in paragraph I shall diminish the responsibility of the liable school district as defined in paragraph I to develop and implement an individualized education plan or to fulfill its obligations under other sections of this chapter for an educationally handicapped child in a state institution, regardless of whether such child was initially placed by a school district, the parent, or some other agent.

III. "State institution" as used in this section means the New Hampshire hospital and the Laconia state school and training center. If a special education program at a state institution is the least restrictive placement and offers appropriate services for an educationally handicapped child, such institution shall be utilized by a local school district for such child, subject to the approval of said institution.

4 Developmentally Impaired Children. Amend RSA 186-C by inserting after section 20 the following new section:

186-C:21 Services to Certain Developmentally Impaired Children.

To the extent possible, these services shall allow children to attend educational programs in the community and remain with their families or reside in alternative living arrangements in the community.

II. Within the funds appropriated and in accordance with the cooperative agreement between the department of education and the department of health and welfare pursuant to RSA 186-C:7 relative to developmentally impaired children, services shall be provided to profoundly mentally retarded multiply handicapped children and to severely mentally retarded severely multiply handicapped children.

III. The department of education and the department of health and welfare shall develop a state joint plan for the delivery of services within 90 days after the passage of this act as follows:

(b) Within the state joint plan, the department of health and welfare shall provide for case management,

IV. A legislative oversight committee shall be established, composed of the chairmen of the house and senate education committees, the house health and welfare committee, the senate public institutions/health and welfare committee, the house appropriations committee and the senate finance committee, or their designees. V. Subject to the approval of the legislative oversight committee and within the funds appropriated for this section, the department of education and the department of health and welfare are authorized to establish such positions or contracts for, or both establish positions and contract for, such services as may be necessary to develop and implement the state joint plan.

7 Effective Date. This act shall take effect 60 days after its passage.

Amendment adopted.
Referred to Appropriations.

HB 293-FN, relative to foundation aid and school building aid to school districts. Refer for Interim Study. The Committee strongly feels that it should take some time to look at the inequities of the foundation aid formula and want to use this bill to accomplish this. Vote 18-0. Rep. Dennis R. Bolduc for Education.

Referred for Interim Study.

HB 298-FN, requiring the state board of education to develop and implement a comprehensive educational program on alcohol and drug abuse in public schools. Ought to Pass.

This bill is "preventive medicine." It provides for a mandated program of education in grades 1 through 12 on alcohol and drug abuse in all public schools in the State. The appropriation will cover the entire cost of the program, so that it will be cost-free to the school districts. Vote 11-8. Rep. William A. Riley for Education.

Referred to Appropriations.

HB 304-FN, relative to a registered nurse program offering an associate degree at the New Hampshire vocational technical college in Berlin and making an appropriation therefor. Refer for Interim Study.

On the three motions, Inexpedient, Ought to Pass, and Interim Study the votes were, respectively, 10-10; yea 6 - nay 14; yea 15 - nay 5. Thus, the Committee felt that there was merit in the bill, but that there were serious conflicts in the testimony which indicates a need to send the bill for interim study. Vote 15-5. Rep. William A. Riley for Education.

Rep. William Boucher moved that HB 304 be recommitted to the Committee on Education, and spoke to his motion. Adopted.

HB 287-FN, relative to dental benefits for retirees of the New Hampshire retirement system and making an appropriation therefor. Refer for Interim Study.

This bill would require funding from the general fund. There is no provision in the Retirement System Fund for this benefit. The Committee felt additional benefits for retirees being proposed this session should be looked at as a whole. Vote 15-3. Rep. Graham Chynoweth for Executive Departments and Administration.

Referred for Interim Study.
Rep. Rogers abstained from voting under Rule 16.

HB 313, requiring that the cost of medical and health insurance coverage for certain retirees be provided by the state retirement system and making an appropriation therefor. Refer for Interim Study.

This bill, as HB 287, would require funding from the general fund. There is no provision in the Retirement System Fund for this benefit. The Committee felt additional benefits for retirees being proposed this session should be considered as a whole. Vote 17-1. Rep. Kenneth W. Malcolm for Executive Departments and Administration.

Referred for Interim Study.

Rep. Rogers abstained from voting under Rule 16.

HB 366-FN, establishing a joint administrative rules committee. Ought to Pass with Amendment.

The Committee believes unanimously that a Joint Administrative Rules Committee is needed to ensure agency compliance with statutory authority and Legislative intent. As State government has grown, so have the powers of state agencies. They have been given authority to write rules to implement complex programs. One result is that the number and breadth of regulations have grown dramatically. 41 states have now enacted some formal means of reviewing agency regulations as HB 366 intends to do. Testimony favorable to the bill pointed out that this Committee offers recourse to the people who may feel that they did not get a fair shake by the agency.

The amendments (1) change makeup of Committee - more evenly divided along party lines; (2) would have all rules readapted every 6 years instead of two as at present, and (3) clear away misinterpretations of the definition of "hearing" under RSA 541-A. Vote 18-0. Rep. Kathleen W. Ward for Executive Departments and Administration.

Amendment

Amend RSA 541-A:3-c, I as inserted by section 5 of the bill by striking out same and inserting in place thereof the following:

The agency shall file one copy of the proposal with the director of legislative services. At the same time, the agency shall provide the chairman of the committee on administrative rules established under RSA 541-A:11 with a copy of the final proposal.

(b) If the committee objects to the rule, it shall notify the agency promptly in writing of its objections and the basis therefor, and it shall also recommend that the agency amend or withdraw the proposal. The committee may object if a proposed rule is:

- (1) beyond the authority of the agency;
- (2) contrary to the intent of the legislature;
- (3) determined not to be in the public interest; or
- (4) deemed by the committee to have a substantial economic impact not recognized in the fiscal impact statement.

Amend RSA 541-A:11, 1 as inserted by section 8 of the bill by striking out same and inserting in place thereof the following:

The committee shall elect a chairman and a vice-chairman from among its members.

Amend the bill by striking out section 9 and inserting in place thereof the following:

15 Parole. Amend RSA by inserting after chapter 651 the following new chapter:

CHAPTER 651-A
PAROLE OF PRISONERS

651-A:1 Purpose of Parole. It is the intent of the legislature that the state parole system provide a means of rehabilitating offenders without continued incarceration and a means by which prisoners can be aided in the transition from prison to society. It is also the intent of the legislature that the policies, procedures and actions of the state parole board and the department of probation and parole relative to the administration of this system, demonstrate recognition of the need

to protect the public from criminal acts by parolees.

651-A:2 Definitions. As used in this chapter:

I. "Parole" means a conditional release from the state prison which allows a prisoner to serve the remainder of his term outside the prison, contingent upon compliance with the terms and conditions of parole as established by the parole board.

II. "Board" means the state board of parole.

III. "Commissioner" means the commissioner of probation and parole.

IV. "Department" means the department of probation and parole.

651-A:3 Board of Parole; Establishment; Procedures.

I. There shall be a state board of parole with 5 members. The members of the board shall be appointed by the governor with the consent of the council for staggered terms of 5 years or until their successors are appointed. No member shall serve more than 2 consecutive terms. A vacancy on the board shall be filled for the unexpired term. The governor shall designate one member as chairman, and the chairman shall designate one other member to serve as chairman in his absence. Board members shall be paid \$100 a day while engaged in parole hearings or administrative meetings.

II. The board shall hold at least 24 hearings each year and shall hold more hearings as necessary. Each parole hearing shall be held by a hearing panel consisting of 3 members of the board. The board shall establish operating procedures which provide for rotation of board members among hearing panels.

651-A:4 Duties; Board of Parole. The board of parole shall:

I. Be responsible for paroling prisoners from the state prison, subject to the applicable provisions of this chapter;

II. Have legal custody of all persons released on parole until they receive their discharge or are recommitted to the prison;

III. Adopt rules, pursuant to 541-A, relative to:

- (a) The parole process, including the conduct of parole hearings;
- (b) Criteria used to evaluate prospective parolees;
- (c) Conditions for the conduct of parolees; and
- (d) Procedures for revocation of parole.

651-A:5 Executive Assistant. The board may appoint an executive assistant who shall be an unclassified employee and shall serve at its pleasure. The salary of the executive assistant shall be that established in RSA 94.

651-A:6 Terms of Release.

I. A prisoner may be released on parole upon the expiration of the minimum term of his sentence, minus any credits received pursuant to RSA 651:55-c, plus the disciplinary period added to such minimum under RSA 651:2, II-e, any part of which is not reduced for good conduct as provided in RSA 651-A:22, provided that there shall appear to the state board of parole, after

having given the notice required in RSA 651-A:11, to be a reasonable probability that he will remain at liberty without violating the law and will conduct himself as a good citizen. Any prisoner so released shall be given a permit by the board to be at liberty from prison during the unexpired portion of the maximum term of his sentence.

II. When a person is subject to multiple concurrent or consecutive sentences of imprisonment, as provided in RSA 651:3, III, the provisions of this section shall be computed from the longest of said sentences.

III. The release of prisoners sentenced to the state prison in accordance with sentencing provisions of law in effect prior to the effective date of this title shall be governed by the law in effect immediately prior to said effective date. However, except for prisoners serving sentences pursuant to conviction of murder in violation of RSA 585:1, murder which is psycho-sexual in nature as defined in RSA 607:41-d, and manslaughter in the first degree in violation of RSA 585:8, and for the purpose of determining eligibility for release on parole only, the minimum term of a prisoner who has been sentenced in accordance with sentencing provisions in effect prior to the effective date of this title shall be deemed to be either the longest minimum sentence which could have been imposed for a class A felony under RSA 651:2, II, or his actual minimum sentence, whichever is shorter.

651-A:7 Eligibility for Release; Life Sentences. A prisoner serving a sentence of life imprisonment, except one convicted of murder in the first degree or one convicted of murder which was psycho-sexual in nature and committed prior to April 15, 1974, may be given a life permit at any time after having served 18 years. Eighteen years shall be deemed the minimum term of his sentence for the purposes of this section, minus any credits received pursuant to RSA 651-A:23, plus the disciplinary period added to such minimum under RSA 651:2, II-e, any part of which is not reduced for good conduct as provided in RSA 651-A:22, provided that there shall appear to said board to be a reasonable probability that he will remain at liberty without violating the law and will conduct himself as a good citizen. The provisions of this section shall not apply to a prisoner serving a life sentence when the court, pursuant to RSA 630:1-b, II, has specified a minimum term other than that prescribed in this section.

651-A:8 Eligibility for Parole; Persons Convicted of Psycho-sexual Murder. A prisoner serving a sentence of life imprisonment who has been convicted of murder which was psycho-sexual in nature and committed prior to April 15, 1974, shall not be eligible for parole until he shall have served 40 years minus any credits earned under the provisions of RSA 651-A:22 and RSA 651-A:23 and until the board shall recommend to the superior court that said prisoner should be released on parole. The superior court shall have a hearing on the recommendation of the board at which all interested parties, including the attorney general, may appear and present evidence.

If it shall appear to the superior court after said hearing that there is a reasonable probability that the prisoner will remain at liberty without violating the law and will conduct himself as a good citizen, the court may order him released on parole with such conditions as it may deem just.

651-A:9 Psycho-sexual Murder Certified. Whenever any person is convicted of murder, committed prior to April 15, 1974, the presiding justice shall certify, at the time of sentencing, whether or not such murder was psycho-sexual in nature.

651-A:10 Psycho-sexual Murder Defined. For the purposes of RSA 651-A:7, 8 and 9, the phrase "murder which is psycho-sexual in nature" means murder in which there is evidence that the offender has committed sexual assault or abuse or attempted sexual assault or abuse of the victim before or after death.

651-A:11 Notice of Hearings.

I. At least 15 and not more than 30 days prior to any parole hearing, the state board of parole shall twice publish, in a newspaper of general circulation within the county where the offense occurred, a notice stating the intention of the person to seek parole. Said notice shall contain:

- (a) The name of the applicant;
- (b) The date of the alleged offense;
- (c) The date of the conviction;
- (d) The crime of which the person was convicted;
- (e) The sentence imposed in the case;
- (f) The amount of time served; and
- (g) The date and location of the parole hearing.

II. At least 15 and not more than 30 days prior to any parole hearing, the state board of parole shall send by first class mail to the commissioner of safety and to each county sheriff, chief of police, and county attorney of the place where the offense occurred, where the person resided prior to conviction, or where the person intends to reside after release, a copy of the information described in paragraph I.

III. The state board of parole shall conduct no parole hearing without first having met the notice requirements of this section.

651-A:12 Reduction of Maximum Sentence While on Parole. Any person who is on parole from the state prison on a permit under the provisions of this chapter may be granted a reduction of maximum term of his sentence equal to 1/3 of the period of time during which the parolee is at liberty on said permit, provided that said parolee is not recommitted to the state prison and has not been cited as a parole violator, pursuant to the provisions of this chapter. The parolee may be granted a discharge at the expiration of his maximum sentence less deductions provided for in this chapter.

651-A:13 Suspension of Supervision. In the case of a paroled prisoner who has entered the armed service of the United States, the board may suspend all parole

supervision of said person during the period he so serves and is subject to military law. Upon the termination of such service by honorable discharge the board may, in its discretion, give the prisoner a final discharge.

651-A:14 Early Discharge for Good Conduct. Whenever the board finds that the parolee is no longer in need of supervision because of his good conduct it may issue him a certificate of discharge.

651-A:15 Complaint for Violation of Parole. When it appears to the department that a prisoner on parole has violated the conditions of his parole, violated the law, or associated with criminal companions, the department shall notify any member of the board and request that the member issue a warrant for the arrest of the parolee. If the member agrees that a violation may have occurred he may issue a warrant. The commissioner, any probation-parole officer, or any officer authorized to make arrest may then arrest the parolee and return him to the state prison.

651-A:16 Report Required.

I. The department may report any parolee who violates the conditions of his parole to the parole board. However, the department shall, within 30 days of official knowledge of such an occurrence, submit a report on any parolee who:

- (a) Is arrested for any felony or misdemeanor offense;
- (b) Is convicted of any felony, misdemeanor or other offense; provided, however, that the department need only report traffic offenses deemed to be serious traffic offenses under RSA 265;
- (c) Absconds from supervision for a period of 30 days or more; or
- (d) Commits 3 or more parole violations of any type within a 12 month period.

II. This report shall include information on the circumstances of the alleged violation as well as a recommendation as to whether parole should be revoked.

651-A:17 Parole Revocation. Any parolee arrested under RSA 651-A:15 shall be entitled to a hearing before the board within 30 days. The parolee shall have the right to appear and be heard at this hearing. If the board, after a hearing, finds that the parolee has violated the conditions of his parole, violated the law, or associated with criminal companions and in their judgment should be returned to prison, the board shall revoke his parole. A prisoner whose parole is revoked shall be recommitted to the state prison.

651-A:18 Revocation Required.

I. The board may revoke the parole of any parolee who:

- (a) Violates the conditions of his parole;
- (b) Violates the law; or
- (c) Associates with criminal companions.

II. The board shall revoke the parole of any parolee who:

- (a) Is convicted of a felony; or
- (b) Absconds from parole supervision for a period of 60 days or more.

III. Prisoners whose parole is revoked under this section shall not be eligible for parole for a period of at least 6 months.

651-A:19 Effect of Recommitment. A prisoner who is recommitted may, at any time before the expiration of his maximum sentence, except as provided in RSA 651-A:18, be paroled again. If not paroled, a prisoner who is recommitted shall serve the remainder of his maximum sentence minus any credits to which he may thereafter become entitled under RSA 651-A:22 and 23 and less the period of time the prisoner was at liberty in satisfactory compliance with the terms and conditions of his parole. The time between the return of the parolee to prison after his arrest and revocation of parole shall be considered as time served as a portion of the maximum sentence.

651-A:20 Parole Records. The board of parole or its designee shall have access to all parole records of the department. The board shall review the records of the department for each parolee in its custody at least once every 36 months.

651-A:21 Final Discharge.

1. Upon the expiration of the term of his maximum sentence as herein provided, a paroled prisoner shall be entitled to receive a final discharge, provided that at the time of such expiration no proceedings are pending for his recommitment. Such proceedings shall be deemed to be pending when a warrant has been issued under RSA 651-A:15.

II. For each parolee affected by this section, the board shall determine the amount of time the parolee was at liberty while in noncompliance with the terms and conditions of parole, as specified in RSA 651-A:19. The board may recommit the parolee to the state prison for a period not to exceed the amount of time so determined.

651-A:22 Credits for Good Conduct.

1. The warden of the state prison shall, on a monthly basis, review the conduct of each prisoner subject to parole to determine whether the prisoner shall receive credit for good conduct as provided in this section.

II. The warden shall by rule determine the standards for the earning of credit for good conduct. Such rules shall not be subject to the provisions of RSA 541-A.

III. If, as a result of the review provided in paragraph I, the warden determines that a prisoner has exhibited good conduct, he may reduce the additional disciplinary period provided in RSA 651:2, II-e and the maximum sentence of such prisoner by up to 12-1/2 days for each month during which the prisoner has exhibited such good conduct.

IV. Credits may be granted subject to the provisions of this section provided that:

(a) Any prisoner who escapes from the state prison or from custody of any person charged with his custodial safekeeping, or from the limits of his minimum custody or community corrections boundaries or agreements will automatically suffer the loss of all accrued good conduct credits. This loss is in addition to and

not in lieu of any other administrative or judicial punishment later imposed for the escape.

(b) Any serious act of misconduct or insubordination, or persistent refusal to conform to prison regulations during his confinement shall subject the prisoner to the loss of all or any portion of such credits, at the discretion of the warden.

(c) The warden at his discretion may restore all or part of the good conduct credits lost under subparagraphs (a) or (b) should the prisoner later demonstrate exemplary behavior.

(d) Provided further, that upon a prisoner's release on parole any such credits earned prior to his release shall not thereafter be lost.

V. Any good conduct credit earned against a maximum sentence by a prisoner before August 22, 1979, except for loss in the manner provided by this section, shall be unaffected by enactment of this section.

651-A:23 Credit for Confinement Prior to Sentencing. Any prisoner who is confined to the state prison, any house of correction, any jail or any other place shall be granted credit against both the maximum and minimum terms of his sentence equal to the number of days during which the prisoner was confined in jail awaiting and during trial prior to the imposition of sentence and not under any sentence of confinement. The clerk of the court sentencing a prisoner shall record in the mittimus the number of days of such confinement, and the credit provided for herein shall be calculated on the basis of such information.

651-A:24 Administrative Attachment. The parole board shall be administratively attached to the department of probation and parole. The department shall provide budgeting, recordkeeping, and related clerical assistance to the board as agreed upon pursuant to RSA 504-A:4, II(e)(3). The commissioner shall have no administrative authority over the board, its executive assistant or its duties.

651-A:25 Execution of Compact Authorized. The governor of this state is hereby authorized and directed to execute a compact on behalf of the state of New Hampshire with any of the United States legally joining therein in the form substantially as follows:

A Compact entered into by and among the contracting states, signatories hereto, with the consent of the Congress of the United States of America, granted by an act entitled "An Act Granting the Consent of Congress to any two or more States to enter into Agreements or Compacts for Cooperative Effort and Mutual Assistance in the Prevention of Crime and for other purposes."

The contracting states solemnly agree:

I. That it shall be competent for the duly constituted judicial and administrative authorities of a state party to this compact, herein called "sending state," to permit any person convicted of an offense within such state and placed on probation or released on parole to reside in any other state party to this compact,

herein called "receiving state," while on probation or parole, if (a) Such person is in fact a resident of or has his family residing within the receiving state and can obtain employment there; (b) Though not a resident of the receiving state and not having his family residing there, the receiving state consents to such person being sent there. Before granting such permission, opportunity shall be granted to the receiving state to investigate the home and prospective employment of such person. A resident of the receiving state, within the meaning of this section, is one who has been an actual inhabitant of such state continuously for more than one year prior to his coming to the sending state and has not resided within the sending state more than 6 continuous months immediately preceding the commission of the offense for which he has been convicted.

II. That each receiving state will assume the duties of visitation of and supervision over probationers or parolees of any sending state and in the exercise of those duties will be governed by the same standards that prevail for its own probationers and parolees.

III. That duly accredited officers of a sending state may at all times enter a receiving state and there apprehend and retake any person on probation or parole. For that purpose no formalities will be required other than establishing the authority of the officer and the identity of the person to be retaken. All legal requirements to obtain extradition of fugitives from justice are hereby expressly waived on the part of states party hereto, as to such persons. The decision of the sending state to retake a person on probation or parole shall be conclusive upon and not reviewable within the receiving state; provided, however, that if at the time when a state seeks to retake a probationer or parolee there should be pending against him within the receiving state any criminal charge, or he should be suspected of having committed within such state a criminal offense, he shall not be retaken without the consent of the receiving state until discharge from prosecution or from imprisonment for such offense.

IV. That the duly accredited officers of the sending state will be permitted to transport prisoners being retaken through any and all states parties to this compact, without interference.

V. That the governor of each state may designate an officer who, acting jointly with like officers of other contracting states, if and when appointed, shall promulgate such rules and regulations as may be deemed necessary to more effectively carry out the terms of this compact.

VI. That this compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form of execution to be in accordance with the laws of the executing state.

VII. That this compact shall continue in force and remain binding upon each executing state until renounced by it.

The duties and obligations hereunder of a renouncing state shall continue as to parolees or probationers residing therein at the time of withdrawal until retaken or finally discharged by the sending state. Renunciation of this compact shall be by the same authority which executed it, by sending 6 months' notice in writing of its intention to withdraw from the compact to the other states party hereto.

VIII. It is hereby declared that the word "state" as used in this subdivision means any one of the several states and Alaska, Hawaii, the Commonwealth of Puerto Rico, the Virgin Islands, and the District of Columbia. It is hereby recognized and further declared that pursuant to the consent and authorization contained in Section 111 (b) of title 4 of the United States Code as added by Public Law 970-84th Congress, Chapter 941-2d Session, this state shall be a party to said Interstate Compact for the Supervision of Parolees and Probationers with any additional jurisdiction legally joining therein when such jurisdiction shall have enacted said compact, in accordance with the terms thereof.

16 Repeal. RSA 651:37 through RSA 651:56, relative to parole, are hereby repealed.

17 Transition; Parole Board. The incumbent members of the state parole board as of the effective date of this act shall become members of the board of parole and shall complete their existing terms. The governor shall appoint additional members as needed. To provide for staggered terms one new member shall be appointed for a 3-year term and the remaining new members shall be appointed to 5-year terms. The governor shall determine which initial appointments shall be for less than full terms and shall designate the chairman of the new board.

18 Unclassified Salaries. Amend RSA 94:1-a, I (supp) as inserted by 1975, 505:28 as amended by inserting in proper alphabetical order in group J the following (Executive assistant, state board of parole).

19 Transition; Commissioner. On the effective date of this act, the incumbent director of probation shall become the first commissioner of probation and parole and shall serve in that office until July 1, 1985. At that time, or earlier if the position becomes vacant, the governor, with the consent of the council, shall appoint a commissioner for a 4-year term.

20 Positions Terminated. Amend RSA 94:1-a, I (supp) as inserted by 1975, 505:28 as amended by striking out in group K "Parole officer" and by striking out in group M "Director of probation".

21 Sunset Termination Date. The department of probation and parole, established by section 1 of this act, and the board of parole established by section 15 of this act, shall terminate July 1, 1989, pursuant to RSA 17-G. PAU's are hereby established for the department of probation and parole, and for the board of parole.

22 Effective Date.

Rep. Thomas Gage notified the Clerk that he wished to be recorded against Section 19 of HB 142.

HB 375-FN, establishing the special study commission on comparable worth in state employment. Ought to Pass.

This bill establishes a special study commission on comparable worth in state employment, which will assess comparable worth and recommend corrective action. Vote 12-2. Rep. Larry Converse for Labor, Human Resources and Rehabilitation.

Ordered to third reading.

HB 91, relative to the reconstruction of Camp Sargent road and making an appropriation therefor. Ought to Pass with Amendment.

The Committee felt that if the Town of Merrimack were willing to contribute half the cost to improve Camp Sargent Road the bill ought to pass - 50 percent by the State and 50 percent by the Town of Merrimack. The state contribution will be \$1,075,000. Vote 19-0. Rep. Darrell A. Wagner for Public Works.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Appropriation. The sum of \$1,075,000 is hereby appropriated to the department of public works and highways representing the state's 50 percent share of the cost for the reconstruction of Camp Sargent road between its junction with Continental boulevard and New Hampshire Route 101-A near the Merrimack-Nashua town line. This appropriation is for the biennium ending June 30, 1985; provided, however, the appropriation shall be non-lapsing if the town of Merrimack provides the town's 50 percent share of the cost for this project. This shall be a charge against the highway fund.

2 Effective Date. This act shall take effect 60 days after its passage.

Amendment adopted.

Referred to Appropriations.

HB 158-FN, relative to sunset review of centralized data processing - administration and support. Ought to Pass with Amendment. The Committee feels that a restructuring of the agency is highly desirable, but this change should occur only after executive branch reorganization establishes a new organizational framework. Therefore, the Committee recommends an extension of only two years. Vote 7-3. Rep. John E. Burns for Science and Technology.

Amendment

Amend section 1 of the bill by striking out same and inserting in place thereof the following:

1 Sunset; Centralized Data Processing - Administration and Support Renewed. Centralized data processing - administration and support, PAU 010501, is hereby renewed to comply with RSA 17-C. Notwithstanding the provisions of RSA 17-C:8, III the agency or program shall terminate on July 1, 1985.

Amendment adopted.

Ordered to third reading.

HB 360, relative to the elimination of the 70 m.p.h. absolute speed limit. Inexpedient to Legislate.

The existing statute 265:62, II, allows the Commissioner of Public Works and Highways to recommend, and a determination by the Governor and

Council that it is in the public interest to conserve motor fuels or to conform with other national goals, may establish temporary prima facie speed limits when appropriate signs giving notice of speed limits are erected. Since the prima facie speed in RSA 265:60, II, (d) is 55 mph and the appropriate signs are in place, the requested changes in HB 360 were not considered necessary. Vote 11-2. Rep. K. Michael Tavitian for Transportation.

Resolution adopted.

HB 295-FN, creating the transmission authority state of New Hampshire. Inexpedient to Legislate.

The Committee believes that although HB 295 was well intended, there was no clear need demonstrated for the establishment of a transmission authority. It should also be noted that the New England Power Pool opposed this piece of legislation as a duplicative effort on the part of the Legislature which would add an unneeded level of bureaucracy. Vote 17-0. Rep. V. Michael Hutchings for Executive Departments and Administration.

Rep. Guay moved that the words, Refer for Interim Study, be substituted for the Committee report, Inexpedient to Legislate, and spoke to his motion.

Rep. Newman spoke in favor of the committee report.

Resolution adopted.

HB 301-FN, establishing a political campaign financing fund. Inexpedient to Legislate.

Rep. Jacobson moved that the words Refer for Interim Study be substituted for the Committee report, Inexpedient to Legislate, and spoke to his motion.

Reps. Flanagan, Fields and Rounds spoke against the motion.

Reps. Spirou and Daniell spoke in favor of the motion.

Motion lost.

Resolution adopted.

HB 248-FN, relative to taxing electricity. Inexpedient to Legislate. This bill would add to the already high New England cost of electricity and create a climate unfavorable for business and industry. It would also burden those people who can least afford additional energy costs. Vote 18-0. Rep. Susan Lawrence for Ways and Means.

Rep. Easton moved that the words Ought to Pass be substituted for the Committee report, Inexpedient to Legislate, spoke to his motion and yielded to questions.

PERSONAL PRIVILEGE

Rep. Greene addressed the House under personal privilege.

Thank you, Mr. Speaker. Members of the House, I rise under personal privilege to express my outrage and annoyance at the attack upon my committee and myself by the President of the Retail Grocers' Association, who referred to the Environment and Agriculture Committee members as narrow-minded and the committee as loaded with channel-visioned people who pretend to be environmentalists, but are only concerned with the item they know about, returning beer and soda containers, empty, I hope.

In addition, a completely uncalled for attack was made on Commissioner Price of Revenue Administration who had made it quite clear in his testimony that he was speaking neither for nor against the bill, but was just providing information which he had been requested to.

I consider that my committee is a hardworking, fair and conscientious group of legislators which in no way deserves to be the target of any such uncalled-for abuse as Mr. Dixon delivered. I want it understood I deeply resent this. I am not particularly concerned that in the burst of invective my

name was misspelled, or that I was personally called biased. I am quite certain I can leave the House to judge for themselves whether this was a justified complaint. I do however repeat that I deeply resent, the I feel uncalled for blanket attack on the Environment and Agriculture Committee, especially since it included the six members who were in support of Mr. Dixon's legislation and the two who were absent.

Rep. Rounds moved that Rep. Greene's remarks be printed in the House Journal.

Adopted.

UNANIMOUS CONSENT

HOUSE JOURNAL 16

Tuesday, 5Apr83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

Dear Heavenly Father, we confess that our attention is often somewhere else. For some of us today it's at the "old ball park," for others it's on our business, for others, our mind is on family matters, and for some, our mind has raced ahead to decisions coming later today or even tomorrow.

Bring us together dear Lord, mind and body, so that our prayers and our pledges to start each session help us remember our beginnings, our dreams, our values both as persons and as a Nation and a State.

We pray for strength for this day's work and that it may be found acceptable in Your sight. Amen.

Rep. Paul Johnson led the Pledge of Allegiance.

Referred to Appropriations.

SB 13, relative to increasing the fee for a pheasant stamp; changing the season for taking pheasants; and repealing the limitation on stocking pheasants. Ought to Pass with Amendment.

This bill increases the fee for a pheasant stamp. It changes the season for taking pheasants from October 1 to December 31, and repeals RSA 212:20a relative to the stocking of pheasants at certain land elevation. Vote 17-1. Rep. Laura Pantelakos for Fish and Game.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

increasing the fee for a pheasant stamp and setting the season for taking pheasant.

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Season for Taking Pheasants. Amend RSA 209:2 as amended by striking out said section and inserting in place thereof the following:

209:2 Pheasants. Pheasants may be taken from October 1 to December 31 inclusive. A person shall not take more than 2 pheasants in one day, one of which may be female. A person shall not take more than 10 pheasants in any one calendar open season or have in his possession at one time more than 2 days' bag limit of pheasants.

3 Repeal. RSA 212:20-a, relative to stocking of pheasants at certain land elevations, is hereby repealed.

4 Effective Date. This act shall take effect upon its passage.

HB 278-FN, relative to the federal estate tax marital deduction. Inexpedient to Legislate.

The problem this bill was intended to solve is being solved in another non-legislative way. The Committee members agreed that no legislation is required at this time. Vote 13-0. Rep. Francis E. Robinson for Judiciary.

HB 411, relative to the public employee labor relations board. Ought to Pass.

This measure would establish a budget submission date inclusion for a city or school administrative unit which has a separate budget submission date applied to it by the city. Probationary employees will determine number of employees in unit and will not change the voting right for determination of a unit. Vote 16-1. Rep. Roland E. Belhumeur for Labor, Human Resources and Rehabilitation.

HB 441, relative to processing of certain complaints against public employers charged with breach of a collective bargaining agreement. Inexpedient to Legislate.

HB 441 is an unnecessary bill. The Public Employee Labor Relations Board consistently, under the current law, returns breach of contract cases back to the parties for arbitration. It would take jurisdiction from the Board and tie the hands of the Board for something it is already doing, and with no cases presented as evidence that they have not adhered to the statute. Vote 17-0. Rep. Avis B. Nichols for Labor, Human Resources and Rehabilitation.

HB 36-FN, changing the daily fee and mileage paid to court witnesses. Ought to Pass with Amendment.

The amendment eliminates the change in witness fees, but changes jurors' fees from \$30 a day to \$15 one-half day and \$30 for full day. The estimated savings for counties is circa \$300,000. Vote 16-1. Rep. Alf E. Jacobson for Municipal and County Government.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to jurors' fees.

Amend the bill by striking out section 1 and inserting in place thereof the following:
1 Jurors' Fees. Amend RSA 500-A:15 (supp) as inserted by 1971, 456:10 as amended by striking out said section and inserting in place thereof the following:
500-A:15 Compensation of Jurors.

I. Grand and petit jurors' fees and mileage shall be paid by the county. The jurors' fees shall be \$15 for each half day's attendance before a superior court; for each mile's travel to and from the place where the juror serves, mileage shall be paid at the rate of \$.20 per mile, mileage to be allowed for each day's attendance when the juror is required to leave the town or city in which he resides.

II. For the purposes of this section "attendance for a half day" means attendance either at the forenoon session or at the afternoon session.

III. The clerk of the court attended shall determine whether a juror has attended for a half day. Said clerk may count travel time to reach the place where the juror serves in determining attendance of the juror, if the juror is required to travel more than 50 miles one way by the most direct route to reach the court.

HB 190-FN, to provide for payment of ambulance service in unincorporated areas. Ought to Pass.

The bill provides a vehicle for ambulance service in unincorporated places and provides a method of

compensation for such services. Vote 19-0. Rep. David M. Perry for Municipal and County Government.

HB 246-FN, relative to the acquisition and rehabilitation of civil patrol aircraft and making an appropriation therefor. Ought to Pass.

The Civil Air Patrol, a volunteer organization, provides valuable services to the State of New Hampshire, particularly in the area of search and rescue of missing or injured persons, spotting of forest fires, and search for downed aircraft. This appropriation will help to replace four obsolete and worn-out aircraft with an equal number of rehabilitated light planes, at a very reasonable cost. Vote 9-0. Rep. John W. Flanders for Public Protection and Veterans Affairs.

Referred to Appropriations.

HB 407-FN, to update certain sections of the motor vehicle road toll laws. Ought to Pass.

This bill, requested by the Department of Safety, clarifies legislation regarding vehicles powered by alternate energy and adjusts certain penalties involving violation of the road toll laws. It has no fiscal impact on state or local revenues. Vote 16-0. Rep. Roger E. Wallace for Transportation.

COMMITTEE REPORTS (Regular Calendar)

HB 500, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 1984 and June 30, 1985. Majority: Ought to Pass with Amendment. (Amendment printed in House Record Supplement No. 47.) Minority: Inexpedient to Legislate.

MAJORITY: Rep. William F. Kidder for the Majority of Appropriations.
MINORITY: A minority of the House Appropriations Committee believes the State's proposed budget is deficient in three major areas. These are first, the revenue projections; second, the spending commitments; and third, the budget footnotes.

There is reason to believe that the Governor's revenue forecasts are overly optimistic. Examples include overestimates in the business profits tax, interest and dividends tax, motor vehicle fees and even the new proposed sailboat fee.

A one-year jump of over \$20 million on BTP receipts would be difficult to achieve in even the best of economic times. This revenue forecast is a departure from our traditionally conservative projections.

On the spending side, the proposed budget falls short in many areas, including support for the State's University System, aid to cities and towns, funding for a negotiated State employee pay raise, vocational education and general assistance payments under AFDC.

The problem with budget footnotes is that they are vehicles of substantial policy changes which, unlike other legislative initiatives, do not get debated on their own merits alone. There are some 20 footnotes that deal with serious policy questions. These should be debated in the proper forum, standing House committees, and not tacked on to the State's operating budget.

In conclusion, a minority feels that the accelerated budget process was irresponsible because it didn't allow for in-depth analysis and evaluation of the State's most important legislative document. Rep. Peter E. Ramsey for the Minority of Appropriations.

Amendment to HB 500

Amend section 1 of the bill by inserting after 1.07 the following:

1.08 Budget Footnotes; General.

A. Centralized Data Processing.

I. Notwithstanding any other provision of law, the department of centralized data processing shall, prior to performing data processing services for any department, board, commission, institution or other agency enter into a written agreement specifying in detail the services to be performed and the cost to the agency. Said agreement shall be binding on the department of centralized data processing and the other agency. Any change or modification in the services to be performed shall likewise be agreed to in writing and shall specify the change and the adjustment to the cost. Any dispute relative to such agreements shall be resolved by the attorney general. The provisions of this paragraph shall apply to operations and systems development services only. The provisions of this paragraph shall not permit any state department, board, commission, institution or other agency to contract for data processing services without the approval of the data processing commission.

II. Notwithstanding any other provision of law, the department of centralized data processing is hereby authorized to make expenditures in excess of the amounts appropriated by section 1 of this act to the extent that other agency income received by the department including but not limited to income from governmental and political subdivisions exceeds the anticipated other agency income in section 1 of this act.

Amendment to HB 500

III. This appropriation shall not be transferred or expended for any other purpose and any expenditures shall have the prior approval of the director of centralized data processing. Before the final closing of accounts by the comptroller he shall record all outstanding liabilities due to and from each state department for the purpose of establishing a final user assessment or rebate which shall also include all planning and support charges. Such computed assessment shall be recorded and collected within 30 days of the billing date or shall be carried as an accounts receivable. Any uncollectible accounts receivable shall be reported to the legislature by the director of accounts for appropriate adjustment no later than January 15, 1985.

Amend the bill by striking out all after section 1 and inserting in place thereof the following:

2 Legislative Intent; Line Item Budget. It is hereby declared to be the intent of the general court that the so-called line item budget control, including also the provisions of the salary adjustment and benefit adjustment accounts as was in effect prior to July 1, 1981, be and is hereby reinstated. (Source. GB 2; HA 2)

3 Budget Format. Amend RSA 9:8-a (supp) as inserted by 1973, 3/6:76 as amended by striking out said section and inserting in place thereof the following:

9:8-a Program Appropriation Unit Format. All budgets provided for by this subdivision shall be in program appropriation unit format as first employed by the 1973 general court. For expository purposes, the budget may be presented as a summarized 3 class line document consisting of personnel services, operating expenses, and other expenses; provided, however, that the final budget as passed and the warrants issued by the

Amendment to HB 500

comptroller shall be classified into the following classes as appropriate: personnel services, current expense, equipment, other personnel services, benefits, travel in-state, travel out-of-state, and other expenditures. (Source. GB 2; HA 3)

4 General Fund and Total Appropriation Limits. The amount included in PAU's 06, 04 (extension work in counties), 06, 05 (New Hampshire network), and 06, 07 (higher education fund) under estimated source of funds from general fund shall be the total appropriation from general funds for such PAU's that may be expended for the purpose of section 1 of this act. Any funds received by any of said agencies from any other source than general funds in excess of the estimate of funds from other than general funds are hereby appropriated for the use of the agency and may be expended by it whether or not this will result in an appropriation and expenditure by the agency in excess of the total appropriation therefor. (Source. GB 3; HA 4)

5 Suspension of Millage Formula. For the fiscal years ending June 30, 1984, and 1985, the millage formula provided by RSA 187-A:7 is hereby suspended; and the sums hereby appropriated shall be the total appropriations for the university of New Hampshire, Plymouth state college, Keene state college and Merrimack Valley college and shall be in lieu of the requirements for appropriation under RSA 187-A:7. Amendment to HB 500

January for the fiscal year in which the tuition is to be charged. (Source, GB 4; HA 5)

6 Fish and Game Department.

I. Any funds in excess of the estimated federal grants shall be available for such further expenditures as the governor and council shall approve. In the event appropriated state funds for any class of expenditure which is to be used to qualify for any federal funds is not so used and thereby the amount of federal funds available is decreased, said state appropriation for such classes shall be reduced in proportion to the amount the federal funds have been decreased; and the total appropriation shall be reduced by the sum of the decrease in federal funds and the appropriate reduction in the state appropriation.

II. The comptroller, in a form acceptable to him, shall require the executive director of the fish and game department to prepare a listing of all claims against available federal funds allocated to the fish and game department as of June 30, 1983, to be submitted to the comptroller no later than July 10, 1983. All claims listed shall be reviewed by the department of administration and control and compared to the records maintained at the fish and game department to insure that all direct and applicable indirect federal participating expenditures through June 30, 1983, have been included. All federal project records shall be completely up to date at all times and billings for federal reimbursements shall be made on a timely basis. I. It is hereby declared to be the intent of the general court that the appropriations made by section 1 of this act shall be sufficient to meet the requirements of each department, institution, commission or other agency for motor vehicles of a gross vehicle weight of 3 tons or less or replacements thereof. In the event, however, that any department, institution, board, commission, or other agency, after consultation with the director of purchase and property and the fiscal committee, finds that the cost of repair to any such motor vehicle is prohibitive and that it would cause an extreme hardship for said department, institution, board, commission, or other agency to operate without such motor vehicle, the chief executive of said department, institution, board, commission, or other agency shall request the governor with the approval of the council for authority to expend the sums needed for a replacement vehicle. For the

Amendment to HB 500

The sums appropriated shall not be transferred or expended for any other purpose. The governor is authorized to draw his warrants for said sums, which shall be a charge against the general fund.

II. In addition to the sums appropriated for said purpose in paragraph I, for the biennium ending June 30, 1985, the governor is authorized to draw his warrants for any authorized replacement requested by a highway fund agency, which shall be a charge against the highway fund. There is hereby appropriated for said purpose for the biennium ending June 30, 1985, to the department of safety and to the department of public works and highways, \$250,000 for each year of the biennium. The governor is authorized to draw his warrants for authorized replacement vehicles within the limitations of this paragraph requested by a highway fund agency, which shall be a charge against the highway fund. III. For the fiscal years ending June 30, 1984, and June 30, 1985, the governor is authorized to draw his warrants for any authorized replacement requested by a special fund agency, which shall be a charge against the appropriate fund.

Refer for Interim Study.

The Committee previously sent HB 293 to
Interim Study as that bill deals with
foundation aid. HB 318 changes the
formula for funding foundation aid. The
Committee felt HB 318 should also be
sent for Interim Study. Vote 18-0.

SB 9, relative to the penalty for

This bill changes the penalty for an

violation. Vote 17-0. Rep. Laura
Pantelakos for Fish and Game.

Amendment

Amend RSA 466:36 as inserted by section
1 of the bill by striking out same and
inserting in place thereof the following:

466:36 Killing Dogs. Any conservation
officer, state police officer, dog
constable, or any New Hampshire certified
police officer may kill any dog found in the

owner or owners of any dog or dogs caught in
the act of maiming or in close pursuit of

Rep. Webster spoke against the amendment.

Rep. French spoke in favor of the
amendment.

Amendment adopted.

Ordered to third reading.

HB 285-FN, relative to the inheritance
tax. Inexpedient to Legislate.

Although House Bill 285-FN would raise a
large amount of money, it appeared to
the Committee that taxing direct
descendants at a base of \$50,000 would
affect middle and low income descendants
most heavily. Those with little cash
would be forced to sell or mortgage
their homesteads to satisfy the New
Hampshire tax. Estates of less than
\$250,000 are exempt from the federal
estate and legacy tax. By 1987, the
federal exemption will be \$600,000.
Vote 18-0. Rep. Marjorie Y. Peters for
Ways and Means.

Rep. Daniell moved that the words, Ought
to Pass, be substituted for the Committee
report, Inexpedient to Legislate, and spoke
to his motion.

Rep. Sara Townsend addressed the House under personal privilege.

Mr. Speaker. I would just like to say that although at times this afternoon it probably appeared as though we were playing some sort of game with no votes on amendment after amendment. I would like to have the record show that I for one, and I am sure for most of you who voted in the affirmative, did so knowing full well that we were voting for the best that we could give the state budget at this time. I would like the record to show that. It might be unpopular. I know my folks back home may need some explanations. I am ready to give them to them and I urge you to be ready to do the same. Thank you.

(Consent Calendar)

HB 359, transferring administration of old age and survivors insurance from the division of welfare to the state treasurer. Ought to Pass with Amendment.

COMMITTEE REPORTS (Regular Calendar)

HB 85, requiring certain hunters to wear hunter orange. Majority: Ought to Pass. Minority: Inexpedient to Legislate.

MAJORITY: The majority of the Committee feel this bill is a good safety measure. Thirty-two states and six provinces already enforce this law. Vote 10-9. Rep. Marshall French for the Majority of Fish and Game.

MINORITY: The minority feels this bill will pit deer hunter against deer hunter and give younger hunters the idea that if "it's not orange shoot it." Also, this bill does not address the man working in the woods, archery hunter, muzzle loader hunter, the hiker, the child or anyone walking or biking on country roads and paths, or children playing in the woods. The Fish and Game Department's own records, of recent history of hunting accidents, do not warrant this bill. (Reps. Gerald R. Smith, George H. Hawkins, Herbert R. Drake, Milton A. Cate, Robert D. Hussey, Robert J. Brodeur, Clayton H. Crane, William W. Moore and Colon Chappell for the Minority of Fish and Game.)

Rep. George Hawkins moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass, and spoke to his motion.

Reps. Doris Riley, Pantelakos and Theriault spoke against the motion.

Reps. Drake, Hussey, Gerald R. Smith and Susan Lawrence spoke in favor of the motion and yielded to questions.

Reps. French and Rounds spoke against the motion and yielded to questions.

Rep. Russell moved the previous question. Sufficiently seconded. Adopted. A roll call was requested. Sufficiently seconded.

The Speaker called for the Special Order.

HB 314, relative to vanity number plates for motor vehicles. Inexpedient to Legislate. Committee members reported having contacted many constituents who, if recognized as a fair sampling, would indicate strong public resistance to this bill. For this reason the increase in initial cost of vanity type plates, at the risk of doing great damage to a heretofore smoothly functioning program, cannot be overlooked. Vote 14-0. Rep. Paul E. Blouin for Transportation.

Resolution adopted.

HB 336, to permit local authorities to lower speed limits in thickly settled areas. Ought to Pass with Amendment. This bill defines a thickly settled area and allows local authorities to set a speed limit in this area to not less than 25 miles per hour after proper engineering studies are made. Vote 13-3. Rep. Edward J. Crotty for Transportation.

Amendment

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Alteration of Speed Limit in Thickly Settled Areas. Amend RSA 265:63, I(c) as inserted by 1981, 146:1 by striking out said subparagraph and inserting in place thereof the following:

(c) Decreases the limit outside an urban district but not to less than 30 miles per hour; or

(d) Decreases the limit in a thickly settled area, as defined in RSA 259:107-a, but not to less than 25 miles per hour.

Amendment adopted.
Ordered to third reading.

SUSPENSION OF RULES

Reps. Scamman and Hickey moved that the Rules be so far suspended as to permit consideration at the present time of HR 32, requesting an opinion of the justices on HB

316, without referral to committee, printing, public hearing, committee report and notice in the Calendar.

Reps. Scamman, Rounds and Chambers spoke in favor of the motion.

Adopted by the necessary two-thirds.

HOUSE RESOLUTION NO. 32

requesting an opinion of the justices on HB 316.

WHEREAS, HB 316 would establish an alternate tax on business organizations which are currently subject to a tax on their net incomes under the business profits tax, RSA 77-A, and

WHEREAS, HB 316 establishes a class of property, "alternate business profits," intended to be distinct from "taxable business profits," or net profits, which are currently subject to taxation under RSA 77-A, and

WHEREAS, "alternate business profits," as defined in HB 316 means gross business income of the business organization, reduced by an adjustment, an apportionment factor and certain limited deductions, all as defined in the bill and in a proposed amendment, and

WHEREAS, HB 316 would impose a tax at a uniform rate of one percent on "alternate business profits," to be paid in the event the resulting tax, less allowable credits, exceeds the tax that would be payable by a business organization on its "taxable (net) business profits", and

WHEREAS, the stated purpose of the bill is to spread the burden of taxation more equally among all business organizations, now therefore, be it

RESOLVED by the House of Representatives:

That the Justices of the Supreme Court be respectfully requested to give their opinion upon the following questions:

1. Would establishment of "alternate business profits" as a class of property, as proposed and defined in HB 316, exceed a reasonable exercise of the General Court's power to classify property for purposes of taxation, under Part II, Article 6 of the New Hampshire Constitution?

2. Would enactment of HB 316 which provides for taxation of "alternative business profits," which is determined with no specific compensation deductions as an alternative to taxation of the business profits under RSA 77-A which allows a "reasonable compensation deduction," have the effect of impermissibly classifying taxpayers under Part I, Article 12 and Part II, Article 5 of the New Hampshire Constitution and as discussed by this Court in Opinion of the Justices, 106 N.H. 202 (1965)?

3. If the answer to questions 1 and 2 are in the negative, would imposition of a tax on "alternate business profits" at the uniform rate set forth in HB 316 offend the requirements for equality and proportionality mandated by Part I, Article 12 and Part II, Article 5 of the New Hampshire Constitution?

4. If the answers to questions 1, 2 and 3 are in the negative, would the

requirements of Part I, Article 12 and Part II, Article 5 of the New Hampshire Constitution be offended by the requirement of HB 316 that the tax on "alternate business profits" be paid if, after allowable credits, it would exceed the tax that would be payable by the business organization on "taxable (net) business profits" under RSA 77-A?

That the clerk of the House transmit 7 copies of this resolution to the Justices of the Supreme Court along with an equal number of copies of HB 316 and the proposed amendment to HB 316.

Rep. Scamman spoke in favor of HR 32.
Ordered to third reading.

Rep. Rounds moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourn today it be to meet Tuesday, April 19, at 1:00 p.m.

HOUSE JOURNAL 18

Tuesday, 19 Apr 83

The House assembled at 1:00 p.m., and was called to order by the Speaker.

Prayer was offered by the House Chaplain, Rev. David W. Bell.

O Lord, we need Your help now more than ever as we feel pressure beginning to build around us. Deliver us from the stand of gritting our teeth and clenching our fists to shout "I will, I will." Rather let us relax, submit to Your will. The "I will" spells not obedience which is the power that we need to do the work that we are called to do.

Let us remember the Master who said, "My father is at work and I do His work." Let us acquire this attitude of working along with God, and others, to solve problems and prevent disasters and hurts.

Give us this day the relaxing spirit that will allow us to fully be present to the problems of today. Open to Your guidance, let us live this day in joy. Amen.

COMMITTEE REPORTS (Consent Calendar)

HB 289, requiring banks to cash government-issued checks for elderly and handicapped persons without charge. Inexpedient to Legislate.

This bill puts an unfair burden on the banks. It would make a teller who refused to cash a government check or a check made out to a handicapped person subject to a misdemeanor charge. The objective of this bill is worthwhile, but the Committee thought there were other ways to accomplish this. Vote 16-0. Rep. Tom Longworth for Commerce, Housing and Consumer Affairs.

HB 305, relative to regulation of rates for property and casualty insurance. Refer for Interim Study.

The concept of this bill has been noted favorably by the Sunset Committee. The Insurance Department is favorable, but with a different plan called "NET" Rating. This concept should be acted on carefully since it is a complete departure from the present insurance laws. The Committee felt an extensive, serious review should be given this legislation. Vote 19-0. Rep. William L. Roberts for Commerce, Housing and Consumer Affairs.

HB 335, relative to the eminent domain powers of housing authorities. Refer for Interim Study.

Passage of this bill at this time could prove to be a hardship to the Housing Authority of the State and be detrimental to a basic intent of the Committee which is to encourage the development of housing. Vote 20-0. Rep. Peter F. Wells for Commerce, Housing and Consumer Affairs.

HB 355, relative to the advertising and selling of cordwood and firewood. Inexpedient to Legislate.

The Committee feels that there is no way a truckload of logs in assorted sizes and lengths can be sold in cord units. RSA 359-A:35 covers transactions in wood in other manner than a cord. The market in wood by truckloads is not adaptable to delivery tickets or sales invoices, other than a receipt for money received. Vote 16-0. Rep. C. Dana Christy for Commerce, Housing and Consumer Affairs.

HB 376, relative to obtaining a commercial kennel license. Ought to Pass with Amendment.

This bill simply defines a "commercial kennel" and places it in RSA 466 "Group Licenses." The definition should be of help to Town Clerks in the issuing of licenses. Vote 14-0. Rep. C. Dana Christy for Commerce, Housing and Consumer Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

defining a commercial kennel.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Definition of Commercial Kennel. Amend RSA 466:4 by inserting after paragraph II the following new paragraph:

III. Fees for dogs licensed in a commercial kennel shall be based on the numbers of dogs licensed, as in RSA 466:6 for group licenses. For purposes of this paragraph, "commercial kennel" means the

establishment or domicile of any person who sells dogs at wholesale or retail; and, if retail, who sells or transfers 10 or more litters per year, or sells or transfers 50 or more puppies per year; or who derives 40 percent or more of his gross annual income from the sale or transfer of dogs.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 379, to require dealers to display sticker prices on trucks. Ought to Pass with Amendment.

Because of the increasing use of light trucks as personal and family vehicles, the Committee felt that the stickers required to be affixed to the windows of new private passenger automobiles, offered for sale, should also be affixed to the windows of new light trucks.
Vote 18-0. Rep. B. P. Smith for Commerce, Housing and Consumer Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

to require sticker prices on trucks.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Chapter. Amend RSA by inserting after chapter 357-C the following new chapter:

IV. "Truck dealer" means any person who:

(a) Is in the business of selling, offering to sell, soliciting or advertising the sale of new trucks, either as his primary business or incidental thereto; and

(b) Holds a valid sales and service agreement, franchise or contract, granted by the manufacturer or distributor for the sale of its new trucks.

V. "Manufacturer" means any person who manufactures or assembles new trucks or any partnership, firm, association, joint venture, corporation or trust, which is controlled by the manufacturer.

VI. "Distributor" means any person who sells or distributes new trucks to truck dealers.

357-D:2 Label Required. Every manufacturer or distributor of new trucks shall, before the delivery of any new truck to any truckdealer, securely affix a label to the window on the driver's side of such truck and shall clearly, distinctly and legibly endorse on such label correct entries disclosing the following information concerning such truck:

I. The make, model, and serial or identification number or numbers;

II. The final assembly point;

III. The name and the location of the place of business of the dealer to whom it is to be delivered;

IV. The name of the city or town at which it is to be delivered to such dealer;

V. The method of transportation used in making delivery of such truck if it is driven or towed from final assembly point to place of delivery;

VI. The retail price of such truck suggested by the manufacturer;

VII. The retail delivered price suggested by the manufacturer for each accessory or item of optional equipment, physically attached to such truck at the time of its delivery to such dealer, which is not included within the price of such truck as stated pursuant to paragraph VI;

VIII. The amount charged, if any, to such dealer for the transportation of such truck to the location at which it is delivered to such dealer; and

IX. The total of the amounts specified pursuant to paragraphs VI, VII, and VIII.

357-D:3 Confirmation by Dealer Required. Every truck dealer shall, before offering or displaying any new truck for sale, confirm that the label required by RSA 357-D:2 has been securely affixed to the window on the driver's side of such truck by the manufacturer or distributor and that the label clearly, distinctly and legibly discloses the required information. If a truck dealer finds that such a label is not affixed to a new truck, such dealer shall affix a label which meets the requirements of RSA 357-D:2. If a label is affixed but is incomplete or contains incorrect, unclear, indistinct or illegible information, such dealer shall correct the deficiencies of the label or remove the label and replace it with a label which meets the requirements of RSA 357-D:2.

357-D:4 Penalties.

I. Any manufacturer or distributor who willfully fails to affix to any new truck the label required by RSA 357-D:2 shall be guilty of a misdemeanor and shall be fined not more than \$1000. Such failure with respect to each truck shall constitute a separate offense.

II. Any manufacturer or dealer who willfully fails to endorse clearly, distinctly and legibly any label as required by RSA 357-D:2 or who makes a false endorsement of any such label shall be guilty of a misdemeanor and shall be fined not more than \$1000. Such failure or false

endorsement with respect to each truck shall constitute a separate offense.

III. Any truck dealer who willfully fails to confirm that the label required by RSA 357-D:2 has been affixed to any new truck and that such label clearly, distinctly and legibly discloses the information required by RSA 357-D:2 or who willfully fails to take any corrective action required under RSA 357-D:3 shall be guilty of a misdemeanor and shall be fined not more than \$1000. Such failure with respect to each truck shall constitute a separate offense.

IV. HB 442-FN, exempting credit union depositors from the interest and dividends tax. Ought to Pass.

The law as it now stands requires credit union members to pay taxes to the State of New Hampshire on the interest and dividends received from their savings accounts. Persons with accounts in other financial institutions and banks are not required to pay New Hampshire taxes on interest earned. This bill puts depositors in credit unions on parity with depositors in other savings institutions. Testimony at the hearing was overwhelmingly in favor; the impact on revenue is minimal. Vote 14-0. Rep. C. Dana Christy for Commerce, Housing and Consumer Affairs.

HB 508-FN, to exempt seasonal tourist attractions from certain public utility commission requirements. Ought to Pass with Amendment.

HB 514-FN, providing for the unlimited duration of rules adopted by the bank commissioner under RSA 394-A. Ought to Pass.

The rules adopted under 394-A are initiated only after a federal power has been granted to federal banks and three state chartered banks petition for similar powers. To insure the orderly conduct of banking for customers and the bank directors the Committee voted 20-0 to adopt this legislation which will allow the rules to remain effective indefinitely, unless they are amended or repealed in the same manner as initiated. Rep. Elizabeth L. Crory for Commerce, Housing and Consumer Affairs.

HB 573, relative to the exclusion or modification of warranties for consumer goods or services. Ought to Pass with Amendment.

HB 573 as amended clears language in Implied Warranties. (a) The goods are being sold on an "as is" or "with all faults" basis;

(b) The entire risk as to quality and performance of the goods is with the buyer; and

(c) If the goods prove defective after purchase, the buyer, not the manufacturer, distributor or retailer, shall assume the entire cost of all necessary servicing or repair.

If a consumer sale is made by means of a mail order catalog, the catalog may contain the required writing in lieu of the requirement of notification prior to the sale. The requirement that the writing be signed by the buyer shall not apply to such sales by means of a mail order catalog.

(5) Remedies for breach of warranty may be limited in accordance with the provisions of this article on liquidation or limitation of damages and on contractual modification or limitation of remedy (sections 2-718 and 2-719).

II. If a public utility submits a rate schedule which incorporates a newly completed generating facility into the rate base and the capital investment for the new facility exceeds 50 percent of the total capital investment of the public utility, the commission may suspend the schedule as provided in paragraph I, except that such suspension shall not exceed 18 months. The bond and sureties, if any, shall secure the repayment to the customers of the public utility the difference, if any, between the amounts collected under said schedule of rates and the schedule of rates determined by the commission to be just and reasonable.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 600, requiring purchasers of valuable, secondhand household items to hold them for 10 days before resale. Inexpedient to Legislate.

HB 628, increasing certain insurance coverage required for operating an aircraft. Ought to Pass with Amendment.

The Committee unanimously supported the Aeronautics Commission's request and felt that such aircraft "for hire" insurance coverage should provide for no less than \$100,000 for injury or death of any one person per accident and a minimum of \$300,000 for each accident. SB 23, relative to investments under the public employees deferred compensation plan. Inexpedient to Legislate.

This bill is similar to one introduced in the last term of the Legislature which was voted "inexpedient to legislate." Four members of the State's Deferred Compensation Plan; the State Treasurer, a senior representative of the State Comptroller; a representative of the Attorney General's Office; and a state employee appointed by the Governor, all testified that the plan was working well. The Insurance Commissioner originally favored the bill, but no longer supports it. The Committee concluded that the current method of handling the plan is both efficient and equitable, and that opening it up to many agents would unnecessarily complicate it and make it difficult to administer, and would not assure its integrity. Vote 13-0. Rep. B. P. Smith for Commerce, Housing and Consumer Affairs.

SB 39, exempting the Mount Washington Cog Railway from public utility commission jurisdiction over water companies. Ought to Pass.

This bill exempts the Cog Railway from the Public Utilities Commission regulations as they pertain to water company utilities. The Cog Railway sells water to only one customer - the State of New Hampshire re the Sherman

This bill will expand the current practical nursing program at the Berlin Voc-Tech College to an Associate Degree Nursing Program, thus filling the crying need for R.N.'s in the North Country with local personnel, who find it extremely difficult to attend the Concord Technical Institute because of the distance to travel, family commitments, and a 5-week residential requirement at the Concord Technical Institute. Vote 19-0. Rep. William A. Riley for Education.

This bill changes the wording to 3 or more consecutive years of service. It also clarifies the issue of leaves of absence in that 3-year period. Vote 19-0. Rep. Ellen-Ann Robinson for Education.

Any such teacher who has taught for 3 or more consecutive years in the same school district and who has been so notified may request in writing within 5 days of receipt of said notice a hearing before the school board and may, in said request, ask for reasons for failure to be renominated or reelected. For the purposes of the 3 year period mentioned above, any leave of absence granted to a teacher shall not be considered to be an interruption in consecutive teaching service, nor shall it be considered as time served. HB 536, relative to the protection of pupil's rights. Inexpedient to legislate.

The Committee feels current federal law, under the Hatch Amendment, local school board practices, and State Board policy address these concerns. Vote 19-0. Rep. Margaret A. Case for Education.

SB 26, relative to the membership of the postsecondary education commission. Ought to Pass.

This is simply a housekeeping bill. Dartmouth College was always considered a member of the Postsecondary Education Commission. Vote 15-0. Rep. Howard F. Mason for Education.

HB 171-FN, relative to current use assessment. Inexpedient to Legislate. This bill is so complicated it would be extremely difficult to administer. Furthermore, the problem is really not a current use problem. Vote 16-0. Rep. Frank J. Kozacka for Environment and Agriculture.

Further, the Committee proposes an amendment to the existing law (RSA 224:38) so as not to preclude aerial surveillance and other available means to augment the fire tower detection system. HB 452-FN, making certain changes in the current use laws. Inexpedient to Legislate. Current use values are based on class, type, grade, location, and productivity of land. Arbitrarily changing values at this time and increasing penalties will cause widespread confusion and create problems regarding lands already being taxed in accordance with the law as it now stands. HB 451 further addresses problems which prompted introduction of this bill. Vote 14-0. Rep. Harry E. Flanders for Environment and Agriculture.

HB 455-FN, relative to current use assessment of certain land owned by the town located in another town. Inexpedient to Legislate.

HB 494-FN, exempting the Conway incinerator from the air pollution standards of the air resources agency. Inexpedient to Legislate.

In fairness to Conway and other towns and cities in New Hampshire, the Legislature should not grant additional time for a fruitless venture. The only other pit incinerators which were in use have both been shut down. The Committee concurs with the Air Resources Commission and the Solid Waste Bureau that Conway's efforts and money would be best directed towards finding a workable solution. Vote 16-0. Rep. Barbara B. Bowler for Environment and Agriculture.

HB 495-FN, relative to the land use change tax. Inexpedient to Legislate. This procedure would effectively negate the incentives for any landowner to put land into current use assessment. Vote 17-0. Rep. Marilyn R. Campbell for Environment and Agriculture.

Rep. Eleanor M. Anderson for Environment and Agriculture.

HB 542, relative to spraying on power lines. Inexpedient to Legislate. Legal written arrangements may be made with the Public Utilities Commission now. Vote 16-0. Rep. Eleanor H. Whittemore for Environment and Agriculture.

HB 716-FN, to increase the size of the current use advisory board. Inexpedient to Legislate.

The subject matter in this bill is addressed by other legislation the committee is to consider. Vote 18-0. Rep. Kathleen W. Ward for Executive Departments and Administration.

HB 395-FN, permitting the naming of contingent beneficiaries for retirement benefits under the state retirement system. Ought to Pass.

The Committee agreed that this legislation is primarily housekeeping in that the naming of a contingent beneficiary or beneficiaries would aid in the distribution of a lump sum payment in the event of a member's death. Vote 10-0. Rep. William Gregorio for Executive Departments and Administration.

HB 415-FN, relative to the New Hampshire port authority. Inexpedient to Legislate. The Committee believes that testimony overwhelmingly endorsed the present control of those facilities by the Department of Resources and Economic Development. In addition, the staff of the Port Authority is not adequate to assume the functions outlined in the legislation. Vote 20-0. Rep. V. Michael Hutchings for Executive Departments and Administration.

HB 476-FN, relative to the retirement allowance for early retirees. Ought to Pass. The Committee agreed HB 476-FN corrects a drafting error concerning benefit eligibility for retirees who elect to retire at age 60. Vote 20-0. Rep. Janet Pelley for Executive Departments and Administration.

Minutes of all such meetings, including names of members, persons appearing before the bodies or agencies, and a brief description of the subject matter discussed and final decisions shall be promptly recorded and open to public inspection within 144 hours of the public meeting, except as provided in 91-A:6 of this chapter, and shall be treated as permanent records of any body or agency, or any subordinate body thereof, without exception. Except in an emergency or when there is a meeting of a legislative committee, a notice of the time and place of each such meeting, including an executive session, shall be posted in 2 appropriate places or shall be printed in a newspaper of general circulation in the city or town at least 24 hours, excluding Sundays and legal holidays, prior to such meetings. An emergency shall mean a situation where immediate undelayed action is deemed to be imperative by the chairman or presiding officer of the body or agency who shall employ whatever means are available to inform the public that a meeting is to be held. The minutes of the meeting shall clearly spell out the need for the emergency meeting. When a meeting of a legislative committee is held, publication made pursuant to the rules of the house of representatives shall be sufficient notice. If the charter of any city or guidelines or rules of order of any body or agency described in RSA 91-A:1-a requires a broader public access to official meetings and records than herein described, such charter provisions or guidelines or rules of order shall take precedence over the requirements of this chapter.

2 Public Inspection of Records. Amend RSA 91-A:4 as inserted by 1967, 251:1 by striking out said section and inserting in place thereof the following:

91-A:4 Minutes and Records Available for Public Inspection.

I. Every citizen during the regular or business hours of all such bodies or agencies, and on the regular business premises of such bodies or agencies, has the

right to inspect all public records, including minutes of meetings of the bodies or agencies, and to make memoranda, abstracts, photographic or photostatic copies of the records or minutes so inspected, except as otherwise prohibited by statute or RSA 91-A:5.

11. After the completion of a meeting of such bodies or agencies, every citizen, during the regular or business hours of all such bodies or agencies, and on the regular business premises of such bodies or agencies, has the right to inspect all notes, materials, tapes or other sources used for compiling the minutes of such meetings, and to make memoranda, abstracts, photographic or photostatic copies, or tape record such notes, materials, tapes or sources inspected, except as otherwise prohibited by statute or RSA 91-A:5.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 483-FN, relative to the escrow account for court facility improvements. Inexpedient to Legislate.

It was the unanimous feeling of the Committee that as long as the local communities are required to pay the cost of court facilities', the money held in the court facilities escrow account should be used for improvements only in the court where it was collected. Vote 12-0. Rep. Donna P. Sytek for Judiciary.

HB 486-FN, requiring persons who serve liquor to obtain server permits. Inexpedient to Legislate.

The Committee felt that this bill would impose a hardship on New Hampshire's bartenders and waitpeople. Furthermore, it is open to abuse as the permits of individual servers might be revoked rather than the licenses of establishments. Vote 12-0. Rep. Thomas U. Gage for Judiciary.

HB 489-FN, to provide for 2 additional superior court associate justices and 2 additional assistant attorneys general. Inexpedient to Legislate.

The Committee felt it would be inappropriate to mandate the responsibilities of certain Assistant Attorneys General. The matter of Associate Justices has been covered. Vote 12-0. Rep. Thomas U. Gage for Judiciary.

HB 519, prohibiting the possession of weapons by convicted felons. Inexpedient to Legislate.

The Committee felt whereas present New Hampshire law prohibits possession of weapons by felons convicted of a felony against the person or property of another or a drug felony, that expansion of that statute was unnecessary. Federal law prohibits possession of firearms by all felons. Vote 11-1. Rep. Doris J. Riley for Judiciary.

HB 527, relative to district court payments and relative to records relating to assigned counsel for indigent defendants. Inexpedient to Legislate.

The subject matter in HB 527 has already been addressed by the Committee in other legislation. Vote 12-0. Rep. Daniel A. Eaton for Judiciary.

HB 681-FN, relative to the time of payment of certain wages. Ought to Pass. This bill plugs a gap in existing law by adding severance pay, personal days, holiday pay, sick pay and payment of employee expenses, when such benefits are a matter of employment practice or policy, to the definition of wages under RSA 275 for the purpose of determining time of payment or accrual. It will allow the Commissioner of Labor to hold hearings on these issues. At present, the only recourse is the courts. Vote 13-0. Rep. Roland E. Belhumeur for Labor, Human Resources and Rehabilitation.

HB 343, relative to enforcing water purity laws. Ought to Pass with Amendment. The language of the amendment, which deals with investigations by a local health officer, parallels present provisions in RSA 149:13 dealing with similar investigations by the Water Supply and Pollution Control Commission or its agents. Vote 15-1. Rep. Richard A. Grodin for Municipal and County Government.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Investigations Authorized. Amend RSA 147 by inserting after section 14 the following new section:

147:14-a Investigation and Inspection. Any authorized member or agent of the division of public health services, department of health and welfare, may enter any land for the purpose of collecting information that may be necessary to investigate or inspect drainage systems pursuant to RSA 147:14 or private sewage systems pursuant to RSA 147:17-a. No owner shall refuse to admit any such member or agent.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 346, relative to permanent applications for tax exemptions. Ought to Pass with Amendment.

The Committee believes this bill provides uniformity and fairness to individuals who are eligible for permanent tax exemptions. Since the annual property inventory form is voluntary, the Committee believes that the lack of uniformity may be unfair to those individuals who neglect or forget to check off the proper box on the inventory form. Currently, a town may wilfully or arbitrarily drop a person's right to an exemption because of an individual's oversight. The amendment drops the requirement of checking off inventory blanks relative to those items that have been approved as a permanent

exemption. Vote 16-0. Rep. George S. Lamprey for Municipal and County Government.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Exception. Amend RSA 72:33 (supp) as amended by striking out said section and inserting in place thereof the following:

72:33 Application for Exemption. No person shall be entitled to the exemptions provided by RSA 72:28, 29-a, 30, 31, 32, 35, 36-a, 37, 37-a, 39, 43-b, 43-f, 62, 66 and 70 unless he shall have filed with the selectmen or assessors, on or before April 15 of some year, a permanent application therefor signed under penalty of perjury, on a form approved and provided by the commissioner of revenue administration showing that the applicant is duly qualified and is the true and lawful owner of the property on which the exemption is claimed. Any person who changes his residence after filing such a permanent application shall file an amended permanent application on or before the April 15 immediately following his change of residence. The filing of the permanent application shall be sufficient for said persons to receive these exemptions on an annual basis so long as the applicant does not change his residence. If any person, otherwise qualified to receive an exemption, shall satisfy the selectmen or assessors that he was prevented by accident, mistake or misfortune from filing a permanent application or amended permanent application on or before April 15 of the year in which he desires the exemption to begin, said officials may receive said application at a later date and grant an exemption thereunder for that year; but no such application shall be received or exemption granted after the local tax rate has been approved for that year.

2 Inventory Blank. Amend RSA 74:4 (supp) as amended by striking out said section and inserting in place thereof the following:

74:4 Taxpayer Inventory Blank.

I. The taxpayer inventory blank shall be designed to obtain the necessary information in a manner which is convenient for the person completing it. The printing on it shall be at least 10 point type.

II. The blank shall require the person or corporation to be taxed to provide the required information under penalty of perjury. The blank shall require the taxpayer to sign in one place for all information submitted, including any application for eligibility for exemptions.

III. The blank shall require the following information:

(a) A description of all real estate taxable to the person or corporation;

(b) Other information needed by the assessing officials to assess all the taxable property of the person or corporation at its true value;

(c) A census of all persons occupying the premises as of April 1, by name and age.

IV. The blank shall include the following statement:

"You may be entitled to the following tax relief: Elderly or Disabled Tax Lien, or an Abatement. For additional information, contact your selectmen or assessor."

V. The blank shall require owners of land classified as open space to indicate whether any changes in the use of the land have been made.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 389, relative to preservation of prime farmland. Inexpedient to Legislate. The Committee understands the intent of the bill, but HB 389 raises far more questions than it would solve. In addition, this subject matter can better be addressed in Senate Bill 3. Vote 18-0. Rep. Roger C. King for Municipal and County Government.

HB 397-FN, increasing the per diem charge for impounded dogs. Ought to Pass with Amendment.

The amendment changes the fee paid by an owner of a dog in custody of a city, town or a humane society from \$3 to \$5. The Committee could not agree with the original bill which increased the fee to \$10. Vote 16-0. Rep. George S. Lamprey for Municipal and County Government.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Warrants; Proceedings. Amend RSA 466:14 (supp) as amended by striking out said section and inserting in place thereof the following:

466:14 Warrants; Proceedings. The mayor of each city and the selectmen of each town shall annually, within 10 days from June 1, issue a warrant to one or more police officers or constables, directing them to proceed forthwith either to collect the fees due and pay them over to their respective town or city clerk, or any unlicensed dog may be seized and held in a town or city holding facility for a period of 7 days after which time full title to said dog shall pass to said facility, unless the owner of said dog has, before the expiration of said period, caused said dog to be licensed and shall pay said facility the sum of \$5 per day for each day said dog has been kept and maintained by said shelter, plus any necessary veterinary fees incurred by said facility for the benefit of said dog.

2 Unregistered Dogs in Humane Societies. Amend RSA 466:18-a (supp) as inserted by 1955, 84:1 as amended by striking out said section and inserting in place thereof the following:

466:18-a Title to Unregistered Dogs in Humane Societies. Whenever an incorporated society for the prevention of cruelty to animals shall keep and maintain for 7 consecutive days an unlicensed dog whose owner is unknown, full title to said

unlicensed dog shall pass to said society at the end of said 7 day period, unless the owner of said dog shall, before the expiration of said period, cause said dog to be licensed and shall pay said society the sum of \$5 per day for each day said dog has been kept and maintained by said society, plus any necessary veterinary fees incurred by said society for the benefit of said dog.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 457-FN, relative to distributing evenly the tax exemption for totally disabled veterans. Ought to Pass with Amendment.

The Committee unanimously decided that this bill would correct inequities of taxation relative to the Veterans' exemption. Vote 12-0. Rep. Paul A. Golden for Municipal and County Government.

Amendment

Amend RSA 72:35, 1 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

I. Any person who has been honorably discharged from the military service of the United States and who has a total and permanent service connected disability, or who is a double amputee or paraplegic because of a service connected injury, or the surviving spouse of such a person if such surviving spouse has not remarried shall receive a yearly exemption in the amount of \$700 of property taxes on his residential property.

HB 461, providing for the filling of vacancies of elected planning board members by the selectmen. Inexpedient to Legislate. The Committee feels that any amendments to the Planning Board statutes would be better handled by amending Senate Bill 3 which deals with the Recodification of Planning and Zoning Laws. Vote 17-0. Rep. David M. Perry for Municipal and County Government.

HB 475, requiring inclusion in town warrants of a separate article relative to wage increases for town employees. Inexpedient to Legislate.

The preponderance of the testimony was in opposition to this bill. The Committee feels that if municipalities wish to include such information on the warrant or in town reports, they may do so, but the state should not require it. Vote 15-0. Rep. Richard A. Grodin for Municipal and County Government.

HB 507-FN, relative to the collection of taxes. Ought to Pass.

This bill updates various fees in connection with the tax sale. It also lengthens the period for notification of registry of deeds and mortgages. This statute has not been changed for some time. Vote 18-0. Rep. John P. Lawrence for Municipal and County Government.

HB 532-FN, relative to the property tax exemption for charitable organizations. Inexpedient to Legislate.

The Committee feels this legislation fails to address the issue in the correct perspective, and relates to many avenues previously covered in previous legislation. Vote 16-0. Rep. Paul A. Golden for Municipal and County Government.

HB 583, requiring municipalities to have planning boards. Inexpedient to Legislate.

The Committee feels that each municipality should make its own decision as to whether or not it prefers to have a planning or zoning board or both, and not have it mandatory by the state. Vote 15-0. Rep. JoAnn T. Morse for Municipal and County Government.

HB 610-FN, establishing a property tax exemption for persons with children attending non-public schools. Inexpedient to Legislate.

Bills having similar purposes, but different approaches have been before the Legislature before and have been defeated. Were this bill to pass, the result would be a significant erosion of the local tax base. Vote 13-3. Rep. Richard A. Grodin for Municipal and County Government.

HB 649-FN, relative to redemption after a tax sale. Inexpedient to Legislate.

The Committee felt that although this bill does have some merit it is not really necessary and will create much extra work for the tax collector. Vote 12-4. Rep. Everett R. Roney for Municipal and County Government.

SB 33, relative to the method of filling vacancies on the Portsmouth school board. Ought to Pass.

This bill calls for a local referendum on the question of filling a vacancy on the Portsmouth school board by the person receiving the next highest number of votes at the last school board election. Vote 15-0. Rep. Eugene W. Clark for Municipal and County Government.

HB 466, relative to the laws affecting the state militia and state employees who are members of the armed forces. Ought to Pass with Amendment.

This bill is primarily a "housekeeping" measure, to effect changes in military terminology, update statutes and provide the Governor, in his capacity as Commander-in-Chief of the New Hampshire National Guard, with the authority to award decorations to other than military personnel, for outstanding support of the National Guard. Vote 9-0. Rep. Warren F. Ames for Public Protection and Veterans Affairs.

Amendment

Amend the bill by striking out section 9 and inserting in place thereof the following:

9 Medals and Decorations. Amend RSA 110-B:69 (supp) as inserted by 1981, 434:1 by striking out said section and inserting in place thereof the following

110-B:69 Medals and Decorations. The governor shall have authority to prescribe by regulation state decorations, medals, ribbons, badges or other awards for honorable service in the national guard or for meritorious support of the national guard.

10 Effective Date. This act shall take effect 60 days after its passage.

HB 622, relative to disorderly conduct. Ought to Pass.

This bill has been very carefully constructed, with due consideration to the constitutional rights of persons. The bill expands on "noises in public and private places," defines a "lawful order" and gives guidelines as to what is considered a "public place." Vote 10-0. Rep. George T. Musler for Public Protection and Veterans Affairs.

HB 727-FN, relative to fees for criminal record checks and for private detectives and security guard services. Ought to Pass.

The bill generally updates the fee structure for private detective agencies; permits the State Police to be reimbursed for the costs in making criminal checks and fingerprint searches, and grants licenses to private detective agencies for 2 years, instead of the present 1 year license. Vote 9-0. Rep. Glenden J. Kelley for Public Protection and Veterans Affairs.

HB 403-FN, relative to construction of a highway by-pass around the town of Conway. Ought to Pass.

HB 413, reclassifying certain highways in the town of Conway. Ought to Pass.

This is a mutual accommodation between the town of Conway and the State Highway Department that allows each party to better maintain their area of responsibility. Vote 17-0. Rep. Charles M. Nute for Public Works.

HB 436-FN, establishing a highway block grant aid program. Ought to Pass with Amendment.

This bill, as amended, clarifies certain questions as to the municipal receipts of certain funds. It should be supported by all since it also provides flexibility in spending of highway monies while retaining the original purpose of the funding. Vote 14-0. Rep. Ted A. Pelletier for Public Works.

Amendment

Amend RSA 231:158, III as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

III. Designation of a road as scenic shall not affect the eligibility of the town to receive construction, maintenance or reconstruction aid pursuant to the provisions of RSA 235 for such road.

Payments shall be made as follows: 30 percent in July; 30 percent in October; 20 percent in January; and 20 percent in April. These funds shall be used only for highway construction, reconstruction or maintenance purposes. Whenever any city, town or unincorporated place is unable to utilize the full amount of this apportionment for highway construction, reconstruction or maintenance purposes in any given municipal fiscal year, the unused balance may be carried over to the following municipal fiscal year and expended for highway construction, reconstruction or maintenance purposes.

9 Effective Date. This act shall take effect July 1, 1983.

HB 437-FN, establishing a 90 day limit for filing claims for liens against funds held by the state on highway contracts. Ought to Pass.

A 90-day limit to file liens against funds held by the State on highway contracts would help small subcontractors and help the State Public Works and Highways to finalize and close their books sooner on projects. Vote 17-0. Rep. Maurice J. Levesque for Public Works.

HB 438-FN, relative to the use of the annual population estimates of the office of state planning in establishment of the compact sections in cities and towns with a population of 7,500 or more. Ought to Pass.

every 10 years. This bill will provide many advantages for the state which is experiencing a population boom. Vote 17-0. Rep. James V. Bibbo for Public Works.

HB 261-FN, relative to alcohol and drug abuse. Ought to Pass with Amendment. The majority of the Committee believes in the intent of and need for additional funding for alcohol and drug abuse programs. The Committee does not believe in the concept of "dedicated revenues" but does recommend the reinstatement of \$100,000 to bring their total budget in line with the amount they had prior to federal reductions. The Governor's budget reinstated all but \$100,000 that was lost to federal cutting. Vote 16-1. Rep. James D. Phelps for Regulated Revenues.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

2 Effective Date. This act shall take effect July 1, 1983.

Referred to Appropriations.

HB 404, relative to the serving of liquor and beverages in view of a public way. Inexpedient to Legislate.

Current Liquor Commission rules allow liquor and beverages to be served on porches and patios as long as they are not in view of the public way. This satisfied the desires of the sponsor. Vote 20-0. Rep. James D. Phelps for Regulated Revenues.

HB 540, requiring certain licenses and permittees to install breathalyzers. Refer for Interim Study.

The Committee felt that while the bill has some excellent features it needs more study and/or might possibly be combined with a similar bill now in Judiciary. Vote 18-0. Rep. Raymond F. Hennessey for Regulated Revenues.

HB 569, to permit waivers to certain students to serve alcoholic beverages as an incidental function of their vocational training. Inexpedient to Legislate.

HB 775, permitting greyhound kennels at off-track locations. Inexpedient to Legislate.

The Committee voted 19-1 for Inexpedient to Legislate. After considerable testimony in opposition to HB 775 the Committee felt it was not a good bill. The New Hampshire Pari-Mutuel Commission opposed the bill because of various reasons including safety, health, and veterinary inspections of greyhound dogs. Rep. Robert R. Blaisdell for Regulated Revenues.

HB 776, giving dogs from greyhound racing kennels in the state preference at dog races. Inexpedient to Legislate.

The sponsor, in open Committee session, withdrew the bill from further consideration. In accordance with the desire expressed, the Committee voted "inexpedient to legislate." Vote 20-0. Rep. Robert N. Kelley for Regulated Revenues.

HB 232-FN, authorizing the transfer of boat registration fees previously collected to the dam maintenance fund. Ought to Pass. The Committee felt that since these funds were originally designated specifically for the dam maintenance fund and inadvertently overlooked during legislative action in the previous biennium, these funds should be restored to the dam maintenance fund. Vote 15-0. Rep. Paul G. Meader for Resources, Recreation and Development.

Referred to Appropriations.

HB 294-FN, establishing a groundwater protection program and making an appropriation therefor. Ought to Pass with Amendment.

Testimony on this bill supported the concept and objectives but raised questions about the specifics of the language and method used. The Committee amendment addresses these concerns and the Committee strongly endorses this amended bill as a major step toward a more comprehensive approach to the state's responsibility for water resources protection. The amended bill provides a long-needed sound statutory

basis for this state responsibility.
Vote 19-0. Rep. Douglas R. Woodward for
Resources, Recreation and Development.

HB 367-FN, establishing a legislative dam management review committee. Ought to Pass with Amendment.

This bill addressed a significant aspect of the State's long-discussed but equally long-neglected water resource management policy. It represents a step in the right direction. The plan shall be kept on file with the local civil defense coordinator and other local officials as deemed appropriate by the water resources board.

HB 392-FN, relative to dams owned by the department of fish and game. Ought to Pass. The Committee believes that the revenue resulting from the leasing of dams owned by the Department of Fish and Game for hydroelectric generation, although placed in the dam maintenance fund, should be expended exclusively on those dams owned by the Department of Fish and Game. Vote 14-0. Rep. Charles H. Dingle for Resources, Recreation and Development.

HB 408-FN, relative to hydro funds. Ought to Pass. This bill gives the Water Resources Board authority to receive gifts and grants to the credit of the dam maintenance fund and to transfer surplus revenues held by the board derived from management of the board's properties to that fund. Vote 14-0. Rep. Douglas R. Woodward for Resources, Recreation and Development.

HB 427-FN, establishing civil penalties for violation of laws affecting dams and flowage. Ought to Pass. This bill insures compliance with Water Resources Board orders to repair dams by establishing a fine in addition to the Board's present recourse through the Attorney General's Office. This should provide a more timely response to orders correcting dangerous conditions at high hazard dams. Vote 14-0. Rep. Mary Ann N. Blanchard for Resources, Recreation and Development.

This bill authorizes the Water Resources Board to make the necessary repairs on state-owned dams in a timely manner with funds from the dam maintenance funds. Vote 14-0. Rep. Charles H. Woodward for Resources, Recreation and Development.

HB 434-FN, providing a shoreline assessment for the dam maintenance fund. Inexpedient to Legislate.

Amendment

This bill would impose unfair tax on the towns with shoreline property. Small towns with large amounts of shoreline property would be disproportionately taxed by the State for waterfront property which are a benefit enjoyed by all residents and visitors to the State. Vote 14-1. Rep. Virginia M. Banks for Resources, Recreation and Development.

HB 465-FN, relative to proceedings before the water resources board. Ought to Pass.

This bill establishes an application fee accompanying a permit for the construction or reconstruction of a dam. The Committee, after thoroughly reviewing costs related to expenses of publication, mailing, posting of notices and hearing proceedings, determined that this was a reasonable minimum cost. Vote 15-0. Rep. MaryAnn N. Blanchard for Resources, Recreation and Development.

HB 625-FN, relative to increasing license fees for the transport of petroleum products into the state. Ought to Pass.

This bill increases the license fee for the transport of petroleum products into the state from \$0.15 to \$0.25 per barrel of oil transferred during the license period. Vote 14-5. Rep. Mary Ann Lewis for Resources, Recreation and Development.

Each appointed member of the board shall serve staggered 3 year terms. Of the initial appointees, 1/3 shall serve a term of one year, 1/3 shall serve a term of 2 years, and 1/3 shall serve a term of 3 years. If the total number of appointees is not divisible by 3, the initial appointments shall be made so as to ensure staggered 3-year terms. Each member so appointed shall hold office until his successor shall be appointed and qualified.

Referred to Appropriations.

HB 469-FN, relative to the attendance of the attorney general or his designee at involuntary commitment proceedings. Ought to Pass.

This bill allows increased flexibility for the Attorney General in relation to attendance at involuntary commitment proceedings. The Attorney General would be able to attend only those hearings where his/her presence is required. Vote 12-0. Rep. Shirley Girouard for State Institutions.

HB 370, permitting a person to be the candidate for only one party. Ought to Pass. This bill was sponsored by both Republican and Democratic State Chairmen - Republican Representative Donna Sytek and Democrat Senator Richard Boyer, who both feel that this is necessary and will be beneficial to both parties. Vote 8-2. Rep. Rita C. McAvoy for Statutory Revision.

HB 396, permitting voters in towns with a population of 700 or more persons to petition to keep the polls open until 8:00 p.m. Ought to Pass.

Under present law the voters in a town with 700 or more residents may petition the selectmen to extend the time for keeping the polls open to 7:00 p.m. This bill changes the 7:00 p.m. extension to 8:00 p.m. Vote 9-0. Rep. Eleanor H. Stark for Statutory Revision.

HB 480, relative to the adoption of a New England truckers compact. Ought to Pass. This is enabling legislation. Passage of this bill will make it possible for the Governor to make New Hampshire part of a compact with other New England states for a uniform highway user license schedule. This move could eliminate many potential problems. Vote 12-0. Rep. Irvin H. Gordon for Transportation.

HB 481-FN, enabling the state to enter the regional fuel tax agreement. Ought to Pass.

Like HB 480 this legislation is of an enabling nature. It allows the Commissioner of the Department of Safety to enter into the regional fuel tax agreement with other states which will allow member states to collect taxes and perform audits on behalf of each other. It should increase efficiency and save expense. Vote 12-0. Rep. Irvin H. Gordon for Transportation.

HB 518-FN, to prohibit leaving unattended children in motor vehicles. Inexpedient to Legislate.

This bill is unnecessary as there is already an RSA covering unattended motor vehicles, RSA 265:72 in the state. Vote 12-0. Rep. Moise H. Mercier for Transportation.

HB 534-FN, relative to the penalty for violation of the odometer disclosure law. Ought to Pass.

HB 592, requiring proof of financial responsibility before a driver's license may be issued and increasing the minimum required coverage. Inexpedient to Legislate.

This bill would prohibit the issuance of a driver's license to any person unless such person furnishes responsibility, in effect, setting up a system of compulsory insurance for drivers. Testimony indicated insurance rates may go up thirty percent if this bill is passed. Vote 13-0. Rep. Edward J. Crotty for Transportation.

HB 627, relative to registering civil aircraft. Ought to Pass with Amendment.

This bill makes enforcement of the collection of fees easier by a requirement that the registration certificate applies to owning an aircraft, not the operation of an aircraft. Vote 12-0. Rep. Henry N. Roy for Transportation.

Amendment

Amend the bill by striking out section 3 and inserting in place thereof the following:
3 New Paragraph. Amend RSA 422:34 by inserting after paragraph I the following new paragraph:

HB 629, relative to habitual offenders. Refer for Interim Study.

This bill authorizes the Director of the Division of Motor Vehicles to determine who is an habitual offender where currently the courts make that determination. Too many unanswered questions were raised to pass this bill. However, testimony pointed out enough merit to warrant interim study. Vote 13-0. Rep. Elmer H. York for Transportation.

HB 665, updating and amending the uniform laws on interstate and intrastate fresh pursuit. Inexpedient to Legislate.

This bill would allow out-of-state police officers to pursue motorists into New Hampshire for any offense, including minor violations; our neighboring states do not permit pursuit into their states by our police. Vote 13-0. Rep. Roger R. Stork for Transportation.

HB 683-FN, relative to disorderly and reckless operation of motor vehicles. Inexpedient to Legislate.

This bill is unnecessary as disorderly driving (RSA 644:2) and reckless driving (RSA 265:79) are already provided for in the statutes. Vote 13-0. Rep. Stephen Sloan for Transportation.

HB 686-FN, requiring suspension of the driver's license of any resident who fails to appear or pay a fine in connection with a violation of the motor vehicle laws. Inexpedient to Legislate.

This Committee opted to address the subject matter of this bill in Senate Bill 143-FN which is broader in concept as to the subject matter of suspension of a driver's license. Vote 12-0. Rep. George N. Katsakiores for Transportation.

HB 730-FN, providing for a joint legislative committee to oversee the sale of Skyhaven airport. Inexpedient to Legislate.

Although the Committee has reservations about the state owning and operating an airport it is also concerned with the purchase time restraint stipulated within this bill. It is very doubtful whether a single municipality or even three municipalities could raise procurement money by September 1, 1983 to purchase Skyhaven Airport; especially since most municipal budgets have been adopted for 1983. The state is presently focusing on acquiring 30 acres for expansion of this particular airport. Vote 12-0. Rep. Robert L. Whiting for Transportation.

COMMITTEE REPORTS (Regular Calendar)

HJR 2-FN, providing for reimbursement of Kimball Chase Co., Inc. for professional services rendered. Inexpedient to Legislate. The Committee felt this was not the proper vehicle for recouping payment which was authorized in a federal court. Vote 18-1. Rep. William F. Kidder for Appropriations.

Report adopted.

HB 265, limiting the grounds for eviction of tenants from certain rental units. Ought to Pass with Amendment.

The Committee emphasizes that the bill is a balanced one. It provides tenants' protection from arbitrarily losing their home and provides for a more meaningful district court hearing. At the same time the bill streamlines the eviction process by shortening the notice period for landlords with problem tenants and eliminates the lengthy delay caused by the Superior Court appeal. Vote 14-6. Rep. Barbara B. Pressly for Commerce, Housing and Consumer Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

I. The lessor or owner of nonrestricted property may terminate any tenancy by giving to the tenant or occupant a notice in writing to quit the premises in accordance with RSA 540:3 and 5.

II. The lessor or owner of restricted property may terminate any tenancy by giving to the tenant or occupant a notice in writing to quit the premises in accordance with RSA 540:3 and 5, but only for one of the following reasons:

(a) Nonpayment of rent, utility charges or any other lawful charge contained in a lease or rental agreement, upon demand.

(c) Failure of a tenant whose lease has expired to execute an extension or renewal of said lease when so requested by the landlord.

(d) Damage to the premises by the tenant, members of his household or guests, beyond reasonable wear and tear; provided, that the tenant is first given written notice of the damage and a reasonable opportunity to pay for the repair of said damage.

(e) Conduct by the tenant, whether intentional or negligent, which threatens the health or safety of the landlord or other tenants.

(f) Repeated conduct by the tenant, members of his household or guests which creates a nuisance or substantially interferes with the comfort or peace and quiet of other residents of the building.

(h) Use of the premises by the tenant, members of his household or guests for illegal purposes.

(i) Failure or refusal by the tenant to allow the landlord access to the rental unit at a reasonable time after reasonable notice for the purpose of making necessary repairs or improvements, or for the purpose of inspection as permitted or required by a lease, rental agreement or by law, or for the purpose of showing the rental unit to a potential lessee, purchaser or mortgagee. Except where emergency repairs are necessary, a tenant may refuse a landlord's request for access at a particular time for substantial personal reasons, as long as said tenant provides a reasonable range of alternative times at which the landlord may have access to the rental unit.

(j) Intent on the part of the landlord to recover possession of the rental unit for use and occupancy by his wife or ex-wife, children, parents, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, grandchild, grandparent, or by himself.

(k) Condemnation of the premises by a state or municipal agency for public health reasons or for building or housing code violation, or an intent to change the use of the premises to a nonrental or nonresidential use.

(1) The need to vacate the premises in order to safely remedy code violations or make other necessary repairs; provided, however, that, prior to bringing the possessory action, the landlord shall make a written representation to the tenant that the tenant shall be given the first opportunity to reoccupy the premises when the repairs have been completed.

3 Notice to Quit. Amend RSA 540:3 (supp) as amended by striking out said section and inserting in place thereof the following:

540:3 Notice to Quit.

I. For tenancies in nonrestricted property, 30 days notice shall be sufficient in all cases; provided, however, that 7 days notice shall be sufficient if the reason for termination is:

(a) Neglect or refusal to pay rent due and in arrears, upon demand.

(b) Damage to the premises by the tenant, members of his household or guests, beyond reasonable wear and tear; provided, that the tenant is first given written notice of the damage and a reasonable opportunity to pay for the repair of said damage.

(c) Holding over by a lessee after the expiration of a written lease, when the lease specifies a date certain for expiration.

(d) Refusal to surrender the premises by a mortgagor in possession or by anyone claiming under him after the foreclosure of the mortgage.

(e) Conduct by the tenant, whether intentional or neglectful, which substantially threatens the health or safety of the landlord or other tenants.

(f) Use of the premises by the tenant, members of his household or guests for illegal purposes.

(g) Violation of a material condition of a written lease, in which case the notice to quit shall be deemed an entry for condition broken.

II. A tenancy in restricted property may not be terminated except upon giving notice in writing to the tenant under RSA 540:5 to quit from the premises within a period of not less than 30 days; provided, however, that 7 days' notice shall be sufficient if the reason for termination is based on RSA 540:2, II(a), (d), (e), (f) or (h).

III. In the case of a notice to quit to a tenant of restricted property or of a notice to quit of less than 30 days for nonrestricted property, said notice shall state with specificity the reasons for the eviction.

4 Payment After Notice. Amend RSA 540:9 by striking out said section and inserting in place thereof the following:

540:9 Payment After Notice. No tenancy shall be terminated for nonpayment of rent, utility charges or any other lawful charge contained in an oral rental agreement or lease if the tenant, before the expiration of the notice, pays or tenders all arrearages plus \$15 as liquidated damages.

5 Defenses to Violations of Fitness. Amend RSA 540:13-d, I(a) (supp) as inserted by 1979, 305:5 by striking out said subparagraph and inserting in place thereof the following:

(a) The tenant proves by clear and convincing evidence that, while not in arrears in rent, he provided notice of the violation to the person to whom he customarily pays rent; and

6 Continuance. Amend RSA 540:13-d, II (supp) as inserted by 1979, 305:5 by striking out said paragraph and inserting in place thereof the following:

II. If a defendant raises a defense provided in paragraph I of this section, the court may order the action continued for a reasonable time not to exceed one month to enable the plaintiff to remedy the violation. At the time such continuance is ordered, the court shall require the person claiming a defense under this section to pay into court any rent withheld or becoming due thereafter as it becomes due. Upon a finding by the court that the violation has been remedied within the continuance period, the court shall dismiss the possessory action and apportion the rent paid into court by paying to the plaintiff the fair rental value of the premises while in the substantially defective condition and by awarding the remainder of said funds to the defendant as damages for plaintiff's breach of his warranty of habitability. If the violation has not been remedied within such period, the court shall enter judgment for the defendant and refund to the defendant all money deposited.

7 Right to Discovery. Amend RSA 540 by inserting after section 16 the following new section:

540:16-a Right to Discovery.

I. Except as provided in paragraph III of this section, any tenant who within 3 days of the return day files a motion for discovery shall be granted one week to serve interrogatories on the plaintiff or schedule depositions and no hearing on the action shall be scheduled until such discovery has been completed; provided, however, that the defendant shall continue to pay rent as it comes due under the terms of the lease or rental agreement or usual practice, or a hearing shall be scheduled at the request of the plaintiff.

II. Written interrogatories and depositions shall be subject to the rules of the district court, except that all depositions shall be taken and transcribed within 30 days of the return day unless the court orders otherwise for good cause.

III. The right to discovery set forth in this section shall not apply if the tenant is being evicted under RSA 540:2,

11(a), (d), or (e), or if the tenant resides in nonrestricted property.

8 Appeal to Supreme Court. Amend RSA 540:20 as amended by striking out said section and inserting in place thereof the following:

540:20 Appeal.

I. Within 30 days after judgment by a district or municipal court, an aggrieved party may appeal to the supreme court, provided that within 3 working days after the rendition of judgment the appealing party files a notice of appeal in the court in which the judgment was rendered.

II. If the defendant is the appealing party, while the appeal is pending he shall pay to the plaintiff or into court, as the court directs, each rental payment as it becomes due after the notice of appeal is filed in the district or municipal court.

In any case in which the duty to pay rent or a portion thereof is in dispute, the defendant shall be required to pay such portion of the rent becoming due after the appeal is filed in court, as the court may direct. These amounts shall be held by the court in escrow until a final decision is rendered. After the final decision has been rendered, the escrowed rent money and any accrued interest on the money shall be apportioned between plaintiff and defendant on the basis of a finding of rent actually due during the pendency of the appeal. For the purpose of this section, "rent" shall mean the amount of money called for by the lease or rental agreement at the time the action for possession was instituted. If the defendant fails to make a rental payment when due under this section, a writ of possession shall issue to the plaintiff upon the filing with the court of a sworn affidavit of nonpayment.

9 Damages on Appeal. Amend RSA 540:23 by striking out said section and inserting in place thereof the following:

540:23 Plaintiff's Damages. If a defendant files a plea of title as provided by RSA 540:17 or appeals to the supreme court and judgment is in favor of the plaintiff, the court shall cause the plaintiff's damages, exemplary or otherwise, to be assessed, including a just compensation for the use and detention of the property or for any injury to the property or for both. The damages shall be assessed by the superior court jury trying the issue, if title was at issue, or by the supreme court, if on appeal.

10 Lease Provisions. Amend RSA 540 by inserting after section 27 the following new sections:

540:28 Lease Provisions. No lease or rental agreement, oral or written, shall contain any provision by which a tenant waives any of his rights under this chapter, and any such waiver shall be null and void.

540:29 Conflict of Laws. Any provisions of RSA 205-A relating to tenancies in mobile home parks or any provision of federal law relating to rental units owned, operated or subsidized by the federal government which are inconsistent with or contrary to the provisions of this chapter shall supersede the provisions of this chapter. Where not inconsistent, the

provisions of RSA 205-A or federal law shall apply in conjunction with the provisions of this chapter.

11 Jurisdictional Reference Deleted. Amend RSA 491:7 (supp) as amended by striking out in lines 11 through 13 the words "of appeals from district courts in actions against tenants where final judgment has been there rendered;" so that said section as amended shall read as follows:

491:7 Jurisdiction. The superior court shall take cognizance of civil actions and pleas, real, personal and mixed, according to the course of the common law, except such actions as are required to be brought in the district courts under RSA 502-A; of writs of mandamus and quo warranto and of proceedings in relation thereto; of support for children of unwed parents cases; of petition and appeals relating to highways and property taken therefor and for other public use; of factual issues certified by probate courts to the superior court for jury trial, of appeals from commissioners of insolvent estates; of actions commenced in a district court wherein the title to real estate is brought in question, or which for other reasons are transferable to the superior court; of suits in equity; of petitions of divorce, nullity of marriage, alimony, custody of children and allowance to wife from husband's property for support of herself and children; of petitions for new trials; of petitions for partition and for the redemption and foreclosure of mortgages; of all other proceedings and matters to be entered in, or heard at, said court by special provisions of law, and of all other proceedings and matters cognizable therein for which other special provision is not made.

13 Effective Date. This act shall take effect 60 days after its passage.

Amendment adopted.

Ordered to third reading.

HB 271-FN, establishing the office of utility consumer advocate. Inexpedient to Legislate.

The Committee as a whole felt that this legislation would re-create problems that the Committee had attempted to resolve in the last session. A proposed amendment that would clarify the position and independence of the consumer advocate and provide additional staff was discussed within the Committee

but did not gain support of a majority of the Committee. Vote 12-5. Rep. Harold V. Lynde for Commerce, Housing and Consumer Affairs.

Resolution adopted.

CACR 13, relating to county officers. Providing that said officers be elected or appointed as determined by law. Inexpedient to Legislate.

The Committee feels people should not be deprived of the right to elect their county officers. The potential for an appointment process as provided in this CACR is unwise and would open the door to political patronage. Vote 8-0. Rep. David J. Bouchard for Constitutional Revision.

Report adopted.

HB 218, relative to high school students as non-voting members of school boards.

Majority: Ought to Pass with Amendment.

Minority: Inexpedient to Legislate.

MAJORITY: The majority of the Committee feels that this bill promotes the idea of students becoming more involved in the political process of New Hampshire. This bill does not mandate school boards to appoint a student member to the school board, but expresses support for this practice. The amendment cleans up the bill and clears up some opposition to the original bill. Rep. Dennis R. Bolduc for the Majority of Education.

MINORITY: The minority endorses the philosophy of encouraging students to be actively involved in public affairs. However, it opposes this bill for the following reasons: (a) present statutes allow for student participation if the school board so desires. This is now done in some districts. (b) this bill mandates the provisions local school boards must follow should they wish to add students to their boards. (Reps. John Resch, Ellen-Ann Robinson, Edmund M. Keefe, William A. Riley, Howard F. Mason, Charles J. Quinn, Anna S. Van Loan, Mable Cutting, J. Arthur Tufts for the Minority of Education.)

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to high school students as nonvoting members of school boards.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Findings and Purpose. This act is intended to further the goal of public education to foster in students an understanding of the rights and responsibilities of citizenship. Citizenship in a democratic society is only

meaningful when there is effective participation by individuals in its political, economic, and social institutions. In order to encourage that participation, this act establishes an optional program, at the discretion of the school board, to select a student from a high school within the district on a rotating basis to serve as a nonvoting member of the school board. The student member will represent to the school board the interests of all public high school students within the district and will keep all public high school students informed of the business of the board. It is expected that student representation will lead to greater mutual understanding and respect among students, school boards, and the general public.

2 School Board Vote. Amend RSA 189 by inserting after section 1-b the following new section:

189:1-c Student Member. In addition to the school board members authorized in RSA 671:4, the members of the school board may choose, by a simple majority to add one nonvoting student member from a high school within its district to the board. If the members of the school board vote to add the nonvoting student member, the powers and duties of the student shall be as described in RSA 194:23-f. Representation in districts having more than one public high school shall rotate on an annual basis, the order to be determined by the board.

3 Students as Nonvoting Member of School Boards. Amend RSA 194 by inserting after section 23-e the following new section:

194:23-f High School Student as School Board Member. The provisions of this section shall apply only to high schools located in a school district in which the school board has voted to have a nonvoting student member pursuant to RSA 189:1-c.

I. In addition to the school board members authorized in RSA 671:4, a high school shall select in accordance with the directives of paragraph II one student from among its members to be a nonvoting member of the school board for the district in which the high school is located. The student member shall have all the rights of a regular school board member regarding school board business except the right to vote.

II. The student board member shall be chosen by a simple majority vote of the high school student body. The student government of the high school shall establish procedures for the nomination and election of candidates. The student government shall also establish a procedure for any public high school student in the school district to petition the student board member to present proposals and opinions to the school board.

III. The student board member shall serve for a term of one year, the school board shall decide the date at which the term shall begin. Any student who will graduate during the term's duration is not eligible to be a candidate and is not eligible to vote. The student government of the high school shall establish a procedure for filling any vacancy that may occur in

this position. The student board member shall serve without pay.

IV. The duties of the student school board member shall include:

- (a) Attending all school board meetings except as specified in paragraph V;
- (b) Representing all public high school students within the district;
- (c) Presenting to the school board specific proposals and opinions from students as directed in paragraph II; and, when appropriate, placing proposals on the school board agenda in accordance with the board procedures;
- (d) Serving as a liaison between students and the principal, other faculty, student government advisors, and appropriate outside agencies;
- (e) Keeping public high school students informed of the business of the school board.

V. The student school board member shall be excluded from discussions and procedures of the school board involving subjects which are confidential under RSA 91-A.

4 Effective Date. This act shall take effect 60 days after its passage.

Rep. Keefe moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass with Amendment, and spoke to his motion.

Reps. Winn and William Boucher spoke against the motion.

Rep. Quinn spoke in favor of the motion. Rep. William Boucher yielded to questions.

Rep. Russell moved the previous question. Sufficiently seconded. Adopted.

A roll call was requested. Sufficiently seconded.

amendment.

Amendment adopted.

Ordered to third reading.

HB 559, prohibiting experiments on live
animals in school grades kindergarten
through 12. Inexpedient to Legislate.

At present there is no concrete evidence
of live experimentation on animals in
New Hampshire. The Committee feels the
legislation is not necessary. Vote
15-4. Rep. Mary S. Nelson for Education.

Resolution adopted.

HB 451, relative to current use. Ought
to Pass with Amendment.

The quantity of legislation proposing
changes in the Current Use statute in
this session demonstrates enough concern
to justify interim study by the
Committee. The amendment widens the
scope of the study so that attention can
be given to all the problems
identified. Vote 17-0. Rep. Elmer L.
Johnson for Environment and Agriculture.

Amendment

Amend the bill by striking out section 1
and inserting in place thereof the following:
1 Study Committee Established. There
is hereby established a study committee
consisting of the members of the environment
and agriculture committee of the general
court to review the present method of
current use assessment as established in RSA
79-A. The chairman of the environment and
agriculture committee shall schedule the
first meeting for this purpose within 30
days of the effective date of this act. The
committee shall present a report to the

development. Ought to Pass with Amendment.

position, but rather changes the title

of an existing position to make it more
compatible with the actual duties
performed, while also maintaining the
same salary level. Vote 12-8. Rep.
Dean Dexter for Executive Departments
and Administration.

Amendment

Amend the bill by striking out sections
1 and 2 and inserting in place thereof the
following:

1 Position Established. Amend RSA
12-A:4-c (supp) as inserted by 1977, 600:82
by striking out said section and inserting
in place thereof the following:

12-A:4-c Assistant to the Commissioner:
Position Established. The commissioner of
the department of resources and economic
development shall appoint an assistant who
shall be qualified by education and
experience. The assistant to the
commissioner shall be an unclassified
employee and serve at the pleasure of the
commissioner. The salary of the assistant
to the commissioner shall be as provided in
RSA 94:1-a.

2 Salary. Amend RSA 94:1-a, I (supp)
as inserted by 1975, 505:28 as amended by
striking out in Group J the line "Travel
research analyst" and inserting in place
thereof the following (Assistant to the
commissioner of the department of resources
and economic development).

Amendment adopted.

Ordered to third reading.

HB 354, relative to increasing the legal
length for taking lobster. Majority: Ought
to Pass with Amendment. Minority:
Inexpedient to Legislate.

MAJORITY: The Committee felt that there
was strong support in testimony at the
public hearing held on March 16 and in
letters of communication received since
the public hearing. The amendment
changes the effective date to April 1,
1984. Vote 9-3. Rep. Marshall French
for the Majority of Fish and Game.

MINORITY: This bill affects only 353
people who hold lobster licenses and
could cause them anywhere from 8 percent
to 20 percent loss of income for a
period of 1 1/2 years. It would have a
terrible effect on the small lobster
fisherman. It will also reflect on the
consumer as it would take lobster off
the New Hampshire working man's table.
(Rep. Laura Pantelakos for the Minority
of Fish and Game.)

Amendment

Amend the bill by striking out section 2
and inserting in place thereof the following:

2 Effective Date. This act shall take
effect April 1, 1984.

Rep. Pantelakos moved that the report of
the Minority, Inexpedient to Legislate, be
substituted for the report of the Majority,
Ought to Pass with Amendment, and spoke to
her motion.

Reps. Drake and Blanchard spoke against
the motion.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

establishing migratory waterfowl stamp and a waterfowl conservation account.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 State Migratory Waterfowl Stamp.

Amend RSA 214 by inserting after section 1-c the following new section:

214:1-d State Migratory Waterfowl Stamp Required.

I. No person shall at any time hunt, shoot, pursue, kill or take migratory waterfowl without first procuring, in addition to the applicable hunting license required by RSA 214 and the federal duck stamp required by RSA 209:6 a stamp to do so under RSA 214:9, XII, for the same period. The stamp must be permanently affixed to the back of the hunting license and signed across the face in a permanent manner with the applicant's signature. A person under the age of 16 years may hunt, shoot, pursue, kill or take migratory waterfowl without such a stamp, provided that, while so doing, he is accompanied by an adult who has procured such a stamp. For the purpose of this section, migratory waterfowl shall mean ducks, mergansers, coots, geese and brant.

II. The state treasurer shall establish a separate non-lapsing account within the fish and game fund, to be known as the waterfowl conservation account, to which shall be credited all fees collected by the fish and game department from the sale and issuance of state migratory waterfowl stamps, all donations received under paragraph III, and all proceeds derived from the art created for the stamp under paragraph IV. The money in the account, from whatever source, shall be used exclusively in the state of New Hampshire for the following purposes and are hereby appropriated for said purposes:

(a) the development, management, preservation, conservation, restoration, acquisition, and maintenance of migratory waterfowl habitat, including the development of state wetlands and shores and designated waterfowl management marshes for maximum migratory waterfowl production, access to such areas, and acquisition of necessary barriers;

(b) the protection, conservation, and propagation of migratory waterfowl; and

(c) the payment of necessary related administrative costs in an amount not to exceed 10 percent of the annual deposits into said account.

III. The state treasurer is hereby authorized to accept donations into the waterfowl conservation account from sources other than the proceeds from the sale of the state migratory waterfowl stamps.

IV. The executive director, with the approval of the commission, shall adopt rules, pursuant to RSA 541-A, relative to the form, design and manner of issuance of the state migratory waterfowl stamp, and may, with the approval of the commission, provide for the reproduction, sale, licensing and other disposal of art created for the stamp, provided that all money received by the fish and game department derived from the art shall be added to the waterfowl conservation account. The art for the stamp may be selected through an art contest which shall be regulated by the executive director with the approval of the commission.

V. The funds in the waterfowl conservation account shall be expended for the purposes stated in paragraph II(a)-(c) as determined by the executive director with the approval of the commission. Before the executive director and the commission approve any expenditure of funds from the account, the fish and game department shall analyze the proposed project and provide the executive director and the commission with recommendations as to the project's usefulness and feasibility.

VI. The executive director and the commission shall submit to the general court at each regular session a report summarizing the receipts and disbursements from the waterfowl conservation account and the public benefits derived from the disbursements from it. This report shall also be available to the public after its submission to the general court.

VII. Any person who violates any provision of this section or RSA 214:9, XII, or any rule adopted under this section, shall be guilty of a violation, and shall be guilty of a separate offense for each migratory waterfowl bird taken.

2 Fees. Amend RSA 214:9 by inserting after paragraph XI the following new paragraph:

XII. If the applicant wishes to hunt migratory waterfowl, \$4.00, and the agent shall thereupon issue a state migratory waterfowl stamp which shall entitle the licensee to hunt, shoot, kill and take migratory waterfowl during such time and in such manner and numbers as may be allowed under RSA 209:6. The agent shall be entitled to retain a fee of \$.50 for each migratory waterfowl stamp sold and all migratory waterfowl stamps sold at the department headquarters or any subagency thereof shall charge the same fee which shall be credited to the general fish and game fund.

3 Effective Date. This act shall take effect upon its passage.

Amendment adopted.
Referred to Appropriations.

HB 624, relative to informed consent.
Majority: Inexpedient to Legislate.
Minority: Ought to Pass with Amendment.

MAJORITY: The relationship between doctor and patient is very tenuous and the trust in the doctor that a patient has can be so easily put off by a bill of this sort. Some things the patient wants to know and what he needs to know should be left to the doctor-patient relationship. It is so very delicate and can be shaken by a bill of this sort. There are some things that legislation cannot interfere with. Vote 10-6. Rep. Mary J. Sullivan for the Majority of Health and Welfare.

MINORITY: The minority of the Committee believes that this bill benefits both the physician and his patient. It obviously gives the patient an opportunity for an intelligent decision as to unbending procedures. (Reps. Eugene S. Daniell, Jr., Marion L. Copenhaver, Joseph M. MacDonald, Mary Jane Wallner, Louise P. Roberts, Romeo W. Jean for the Minority of Health and Welfare.)

Rep. Daniell moved that the report of the Minority, Ought to Pass with Amendment, be substituted for the report of the Majority, Inexpedient to Legislate, and spoke to his motion.

Reps. Head and Mary Sullivan spoke against the motion.

Reps. Girouard, Hollingworth and Copenhaver spoke in favor of the motion.

Reps. Sochalski and Knight spoke against the motion and yielded to questions.

Rep. Russell moved the previous question. Sufficiently seconded. Adopted.

Rep. Daniell requested a roll call. Sufficiently seconded.

HB 200-FN, creating a state funded unified court system and making an appropriation therefor. Ought to Pass with Amendment.

This bill, as amended, changes the current hybrid system of financing our state courts. Under HB 200 the state will gradually assume personnel and operating costs of all district, municipal, and superior courts. The amendment requires the Court Accreditation Commission to determine the cost of acquiring court facilities and to develop a plan for state takeover of these costs as well. To alleviate the backlog that currently exists and to sharply reduce the use of masters or non-judges who hear civil cases, the bill provides for a phase-in of ten superior court justices over the next three years. Additionally the bill calls for establishment of a uniform fee schedule for uncontested motor vehicle violations. Vote 16-2. Rep. Donna P. Sytek for Judiciary.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Purpose. This bill is the culmination of the efforts of the supreme court and the legislature's select commission to study a unified court system created by 1979, 488. It follows the recommendations of the New Hampshire Bar Association, the special committee to study revenue reform at all levels of government established by 1981, 386, the New Hampshire Municipal Association, and the New Hampshire Association of Counties as well as numerous other groups seeking a state funded unified court system.

5 Expenditures; General. The appropriation made for the purposes mentioned in sections 1 and 3 and the sums available for those projects shall be expended by the trustees, commissions, commissioner, or department head of the institutions and departments referred to herein, provided that all contracts and projects and plans and specifications therefor shall be awarded in accordance with the provisions of RSA 228.

6 Expenditures; University of New Hampshire.

I. The appropriations made for the purposes mentioned in section 2 and the sums available for these projects shall be expended by the trustees of the university of New Hampshire. All contracts for the construction of all or any part of said building or facilities shall be let only after competitive sealed bids have been received and only after an advertisement calling for such bids has been published at least once in each of 2 successive calendar weeks in a newspaper of general circulation in New Hampshire or in a trade journal known to be circulated among the contractors from whom bids will be sought with the state of New Hampshire or elsewhere in the area. The first publication of such advertisement shall be not less than 30 days prior to the date the bids will be received. All conditions considered, wherever possible, it is recommended that the services of New Hampshire architectural and construction firms be considered within the discretion of the trustees.

II. The appropriations made in section 2 are available for all costs incidental to the completion of the projects enumerated including the costs of the services of architects, engineers, and other consultants of such kind and capacity as the university board of trustees may, in its discretion, wish to employ on such terms and conditions as the board determines. These moneys shall be spent under the direction of the university board of trustees.

III. If, in the judgment of the trustees of the university, just cause exists indicating the lowest bid should be rejected, then the contract may be awarded to the next lowest bidder, or if the next lowest bid should be rejected, the contract may be awarded to the third lowest bidder.

IV. The board of trustees of the university has the right to reject any and all bids and, if the lowest bid is in excess of the appropriation, the board has the right to negotiate with the low bidder or with the 3 lowest bidders for a contract for the construction upon terms considered most advantageous to the university. If only one bid is received, the board of trustees may negotiate a contract for the construction on terms considered most advantageous to the university and to the state. Any authorization contained in this act which is at variance with the requirements of applicable federal law and regulations shall be controlled by the terms of the federal law and regulations.

7 Land Acquisition. Any land acquired under the appropriations made in sections 1, 3, and 4, except such land, if any, as may

be acquired under the appropriation for the water resources board, shall be purchased by the commissioner of public works and highways with the approval of governor and council.

8 Bonds Authorized. To provide funds for the total of the appropriations of state funds made in sections 1, 2, 3, and 4 of this act, the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$17,091,675 and for said purposes may issue bonds and notes in the name and on behalf of the state of New Hampshire in accordance with the provisions of RSA 6-A; provided, however, that the bonds issued for the purpose of funding all priority maintenance projects have a maturity of 5 years from date of issue.

9 Payments. The payment of principal and interest on bonds and notes issued for the projects in sections 1 and 2 shall be made when due from the general funds of the state; provided, however, that the payment of principal and interest on bonds issued for projects in section 3 shall be made from the highway fund and section 4 from the fish and game fund.

10 Liquidation. The state treasurer is authorized to deduct from the fund accruing to the university under RSA 187-A:7, or appropriation in lieu thereof, for each fiscal year such sums as may be necessary to meet interest and principal payments in accordance with the terms and conditions of the bonds or notes issued for the purposes of section 2.

11 Powers of Governor and Council. The governor and council are hereby authorized and empowered:

I. To cooperate with and enter into such agreements with the federal government or any agency thereof, as they may deem advisable, to secure federal funds for the purposes hereof.

II. To accept any federal funds which are, or become available for any project under sections 1, 3 and 4 beyond the estimated amounts. The net appropriation of state funds for any project for which such additional federal funds are accepted shall be reduced by the amount of such additional funds, and the amount of bonding authorized by section 8 shall be reduced by the same amount.

12 Transfers. The individual project appropriations, as provided in sections 1, 3 and 4 shall not be transferred or expended for any other purposes, provided that any anticipated balance remaining in an individual project, which is fully funded by state funds, may be transferred by governor and council to any other individual project or projects, which are also fully funded by state funds, within the same section provided prior approval of the capital budget overview committee is obtained.

13 Reduction of Appropriations and Bonding Authority. If the net appropriation of state funds for any project provided for by sections 1, 3, and 4 is determined on the basis of an estimate of anticipated federal, local, or other funds, and if the amount of such funds actually received or available is less than said estimate, then the total

authorized cost for such project and the net appropriation of state funds therefor shall be reduced by the same proportion as the proportion by which federal, local, or other funds are reduced. The amount of bonding authorized by section 8 shall be reduced by the amount that the appropriation of state funds is reduced pursuant to this section.

14 New Section. Amend RSA 228 by inserting after section 24 the following new section:

228:24-a Motor Fuel Inventory Fund. There is hereby established a motor fuel inventory fund not to exceed \$1,000,000 which sum is hereby appropriated and shall be a charge against the highway fund. The commissioner of public works and highways may purchase, through the division of purchase and property, such amounts of motor fuels as may be necessary for the operation of an automated state fleet fuel distribution and records management system. The commissioner is further authorized to sell motor fuel from the motor fuel inventory to all departments and institutions of the state, political subdivisions of the state, and agencies of the federal government. He is authorized to assess a fair and equitable charge with respect to the sale of motor fuel sufficient to defray all administrative, transportation, storage, amortization and other costs incurred by the department in administering this account sufficient to fully reimburse the inventory fund.

 Referred to Appropriations.

HB 440, relative to extending interstate 393 to route 106 and completing the upgrading of route 106. Inexpedient to Legislate.

This project is on Public Works and Highways plan with federal funds appropriated. Vote 19-0. Rep. Darrell A. Wagner for Public Works.

Resolution adopted.

HB 312-FN, requiring the public utilities commission to have an independent risk analysis study and a separate economic impact study conducted for the Seabrook nuclear power plant. Majority: Inexpedient to Legislate. Minority: Ought to Pass with Amendment.

MAJORITY: The Committee heard clear evidence that the request for "worse consequence" analysis is being covered by the probahlistic risk assessment currently in process by the independent contractor Pickard, Lowe and Garrick. Consequently, the intent of the sponsors is met and therefore unnecessary. Vote 6-5. Rep. John E. Burns for the Majority of Science and Technology.

MINORITY: Half of the voting members of the Committee on Science and Technology having voted in opposition to Inexpedient, believe this legislation, as amended, would be in the best interest of the people of New Hampshire. This legislation would require the Public Utilities Commission to include a worse case scenario of an accident at Seabrook, at no appreciable cost or delay to rate payers. Its results should help to alleviate doubts about the safety of Seabrook I and II by having the public on the oversight committee. (Reps. Beverly Hollingworth, Paul Keenan, David Meader, Roger Easton, Leonard Smith for the Minority of Science and Technology.)

Rep. Palumbo moved that the words, Ought to Pass, be substituted for the report of the Majority, Inexpedient to Legislate, and spoke to his motion.

Rep. M. Arnold Wight spoke in favor of the motion and yielded to questions.
Motion adopted.

Rep. Palumbo offered an amendment.

Amenendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

requiring a consequence analysis study for the Seabrook nuclear power plant.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Consequence Analysis Study Required. The general court requires a "worst case" consequence analysis study to be prepared as a part of the risk analysis study being conducted by the Public Service Company of New Hampshire based on the nuclear plant designed and constructed specifically for the Seabrook site. As used in this act, "worst case" consequences are those which result from a core melt accident in which all installed safety equipment fails and the reactor containment structure is breached directly to the atmosphere.

2 Oversight Committee. There shall be an oversight committee to monitor the work of the Public Service Company's consultants doing the risk and consequence analysis study to assure that the study is completed in a thorough and timely manner and to provide assistance to the Public Service Company. The 10 member committee shall be appointed as follows: one member representing the general interests of the public appointed by the governor; one member of the public utilities commission designated by the chairman; one member from the New Hampshire civil defense agency designated by the head of that agency; the director of the division of public health services; 2 state representatives appointed by the speaker of the house; one state senator appointed by the senate president; 2 persons who shall reside in the 17 community emergency planning zone designated in the Evacuation Plan appointed by the governor and council; and one representative of Public Service Company of New Hampshire. Members shall serve without compensation and shall receive no mileage expenses. The committee shall disband after the study is completed.

3 Effective Date. This act shall take effect upon its passage.

Hearing no objection, the Chair advised the Clerk to dispense with the reading of the amendment.

Rep. Palumbo explained his amendment.

Reps. Hollingworth and Rounds spoke in favor of the amendment.

Amendment adopted.

Ordered to third reading.

HB 560-FN, relative to the restructuring of the state mental health system, and making an appropriation therefor.

Majority: Ought to Pass with Amendment.

Minority: Inexpedient to Legislate.

MAJORITY: This bill provides a vehicle for the restructuring of the state mental health service system. The Committee felt that this was the first step toward implementing recommendations of prior comprehensive mental health studies conducted within the state. The Committee recommended that future legislation relating to policy and planning be referred to the appropriate House committee and that ample opportunity be given for public hearings on proposed plans. Vote 17-2. Rep. Audrey Carragher for the Majority of State Institutions.

MINORITY: The minority feels that the intent of this bill circumvents the purpose of the Committee to set policy and create changes to the Division of Mental Health as suggested by the Nardi and Wheelock reports. While not disagreeing with the need for real action at last, relative to the New Hampshire Hospital and Laconia State School, the minority believes that the plan of action should be developed by the standing committee rather than another special committee. (Reps. Dana J. Robie, Gary S. Dionne for the Minority of State Institutions.)

Amenendment

Amend paragraph I of section 2 of the bill by striking out same and inserting in place thereof the following:

I. There is hereby established a committee consisting of the governor, the speaker of the house, the president of the senate, the minority leader of the house and the minority leader of the senate, or their designees. Subject to the requirements of paragraph II, the committee shall:

(a) Strengthen community support mental health programs and general hospital based mental health programs.

(b) Provide for the establishment of a new specialized central facility to provide the following services:

(1) Diagnosis and evaluation for the developmentally impaired;

(2) Diagnosis and evaluation for the mentally ill;

(3) Long-term hospitalization when indicated; and

(4) Secure treatment for mentally ill persons who pose a substantial threat of harm to self or others in a less restrictive setting.

Amend subparagraph I(b)(4) of section 2 of the bill by striking out same and inserting in place thereof the following:

(4) Secure treatment for mentally ill persons who, in a less restrictive setting, would pose a substantial threat of harm to self or others.

Amend the bill by striking out section 5 and inserting in place thereof the following:

5 Staff Plans. The division of mental health and developmental services shall develop a plan to provide for staff at New Hampshire hospital and Laconia state school and training center whose positions shall be deleted as a result of the reduction in patient and resident populations. Said plan shall be developed in accordance with applicable federal and state statutes after consultation with the State Employees Association and the personnel department and shall consider, among other options, redeployment within the state system, redeployment to other components of the private mental health and developmental services system, retraining, and early retirement. The division shall present this plan to the committee established in section 2 of this act within 30 days after request by the committee, provided that such plan shall in no event be presented to the committee later than January 1, 1984.

Amendment adopted.

Referred to Appropriations.

HB 446-FN, relative to licensing and registration of certain vehicles.

Inexpedient to Legislate.

Changing the category of agricultural vehicles to limited purpose vehicles would allow more vehicles on the roads which do not have to meet the more stringent motor vehicle inspection standards. The Fiscal Note does not take into account a potential loss of revenue due to reregistration of vehicles to the lesser cost limited purpose vehicles. Vote 11-3. Rep. Robert A. Danderson for Transportation.

Resolution adopted.

HB 568, establishing an advisory committee on long-term care. Ought to Pass with Amendment.

This bill will establish an ongoing Committee on Long-Term Care that will continue legislative planning and coordination of this critical field after the Governor's temporary committee terminates on June 30, 1983. Vote 14-1. Rep. Samuel D. Clark for Health and Welfare.

Amendment

Amend the bill by striking out section 2 and inserting in place thereof the following:
2 Committee Established.

Amend subparagraph I(c) of section 2 of the bill by striking out same and inserting in place thereof the following:

(c) Two persons who represent home health agencies, one of whom shall be a registered nurse, appointed by the governor;

Rep. Butler explained her amendment.

Reps. Head and Townsend spoke in favor of the amendment.

Amendment adopted.

Ordered to third reading.

HB 444-FN, changing the form of the elderly exemption to a standard deduction from the tax bill and repealing all other elderly exemptions. Ought to Pass.

This bill gives a flat rate exemption for elderly property owners while they own their home and gives towns and cities a chance to regain money lost through these exemptions by a tax lien to be collected when property is no longer owned by an elderly person. Vote 15-0. Rep. Frank E. McIntire for Municipal and County Government.

Rep. Mann yielded to questions.
Rep. Lynde offered an amendment.

COMMITTEE REPORTS
(Consent Calendar)

HB 409-FN, directing the New Hampshire industrial development authority to sell the industrial park in Derry and Londonderry. Inexpedient to Legislate.

The Committee felt it should not tell the Industrial Authority what rules it should enact. The Board of Directors has done a good job to date and should continue to make its own decisions. The Committee did not wish to compromise the tax free bonding status of the Authority. Vote 12-0. Rep. Gerald Vecchione for Commerce, Housing and Consumer Affairs.

HB 422, prohibiting discrimination by landlords against persons with children. Ought to Pass with Amendment.

This bill clarifies existing law prohibiting discrimination by landlords against persons with children. In addition, it also clarifies exclusions granted under the law. Vote 12-0. Rep. William J. Sullivan for Commerce, Housing and Consumer Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

clarifying existing law prohibiting discrimination by landlords against persons with children.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Prohibition. Amend RSA 354-A:8, V (supp) as inserted by 1965, 297:1 as amended by striking out said paragraph and inserting in place thereof the following:

V. For any person, being the owner, lessee, sublessee, assignee, managing agent or other person having the right to rent or lease a dwelling or commercial structure or being in the business of selling or renting dwellings or commercial structures:

(a) To refuse to sell or rent after the receipt of a bona fide offer, or to refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny, a dwelling or commercial structure to any person because of age, sex, race, color, marital status, physical or mental handicap, religion, national origin or the fact that such person has dependent children;

(b) To discriminate against any person in the terms, conditions, or privilege of sale or rental of a dwelling or commercial structure, or in the provision of services or facilities in connection

therewith, because of age, sex, race, color, marital status, physical or mental handicap, religion, national origin or the fact that such person has dependent children;

(c) To make, print or publish, or cause to be made, printed or published any notice, statement or advertisement, with respect to the sale or rental of a dwelling or commercial structure that indicates any preference, limitation, or discrimination based on age, sex, race, color, marital status, physical or mental handicap, religion, national origin, or the fact that a person has dependent children, or an intention to make any such preference, limitation or discrimination;

(d) To represent to any person because of age, sex, race, color, marital status, physical or mental handicap, religion, national origin or the fact that such person has dependent children that any dwelling or commercial structure is not available for inspection, sale, or rental when such dwelling is in fact so available.

2 Number of Occupants; Federal Law. Amend RSA 354-A:8 by inserting after paragraph V-c the following new paragraphs:

V-d. Nothing in this section shall be construed to prohibit a person, being the owner, lessee, sublessee, assignee, managing agent or other person having the right to rent or lease a dwelling or commercial structure or being in the business of selling or renting dwellings or commercial structures from setting a limit on the total number of occupants for a single rental unit.

V-e. No person shall be liable for violating this section based on action required by state or federal law or rules or regulations adopted thereunder.

3 Effective Date. This act shall take effect upon its passage.

HB 472, providing for a lien on certain property of a tenant. Inexpedient to Legislate.

There is no law currently that requires the landlord to put personal property into storage. This legislation would encourage the using of storage facilities and would be costly to both landlord and tenant. A better solution is for landlord and tenant to get together and work the problem out. Vote 12-0. Rep. Tom Longworth for Commerce, Housing and Consumer Affairs.

HB 739, relative to the cancellation and refusal to renew insurance policies. Ought to Pass.

The Committee felt that the policy changes the industry had suggested were reasonable and would impose no unreasonable burden on policyholders. Vote 12-0. Rep. B. P. Smith for Commerce, Housing and Consumer Affairs.

HB 794, requiring a discount on liability insurance for persons 21 years of age or older who have completed a driver improvement course. Inexpedient to Legislate.

This bill would mandate insurance companies to give a discount to all drivers passing a course in driving.

This would increase costs to those not taking the course. Vote 12-0. Rep. Edward J. Allgeyer for Commerce, Housing and Consumer Affairs.

The treasurer of the state of New Hampshire is hereby authorized to make available to the state board of education for purposes of constructing regional vocational education centers an amount not to exceed \$52,300,000. HBI 2001, relating to compensation for easements and right-of-way. Inexpedient to Legislate.

The Committee feels the constitutionality of the bill of intent is questionable and it was felt that adequate legal process is already in existence. Vote 11-1. Rep. Harold W. Burns for Commerce, Housing and Consumer Affairs.

HB 345, relative to the duty of school boards to provide education. Ought to Pass with Amendment.

This bill changes the obligation of the school board to provide education to all elementary and secondary pupils residing in the district. Formerly, the obligation was to provide an elementary and secondary education to all pupils under 21 years of age. This bill changes the obligation to a duty to provide education until the pupil reaches the age of 21 or receives a high school diploma, whichever is first. The Committee felt this was reasonable because the responsibility for further education ends for most students on their graduation from high school. This change was requested by the Department of Education. Vote 15-0. Rep. Charles J. Quinn for Education.

Amendment

Amend RSA 189:1-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

HB 754, relative to the offices of commissioner and deputy commissioner of safety. Inexpedient to Legislate.

Dean for Health and Welfare.

The Committee felt that a hospital should be in a position to treat patients. The Committee understood the difficulty in determining competency to give informed consent by extremely incapacitated patients and understanding that a district court will review the

need for hospitalization, then authorization for treatment for a limited time is indicated. Vote 20-0. Rep. Evelyn S. Dean for Health and Welfare.

Amendment

Amend RSA 135:21-c as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:
135:21-c Emergency Treatment;

HB 474, authorizing the mayor of Concord, with the consent of the city council, to appoint commissioners to the Concord housing authority. Ought to Pass.

HB 501, relative to funds deposited by treasurers of municipalities, counties and school districts. Inexpedient to Legislate.

The Committee could find no widespread dissatisfaction with the present laws addressing the handling of municipal funds by the banking industry. Vote 16-0. Rep. David M. Perry for Municipal and County Government.

HB 509, relative to tax liens. Inexpedient to Legislate.

This bill would put a lot of extra work on the tax collectors' bookkeeping accounts and not accomplish much that is not already covered by statute. Vote 16-0. Rep. Frank E. McIntire for Municipal and County Government.

HB 537-FN, relative to property tax assessments. Ought to Pass. This bill restricts the number of appeals from a tax assessment which are available on each parcel of property to one appeal each time the property is reassessed. Vote 14-0. Rep. Eugene W. Clark for Municipal and County Government.

HB 561, prohibiting municipalities by zoning ordinance from regulating the antenna or structure supporting the antenna of a federally licensed radio amateur. Inexpedient to Legislate.

While the Committee is quite sympathetic to the interests of radio amateurs, it feels that an outright prohibition of the power of communities to regulate amateur radio antennas through zoning ordinances is not the way to go. The Committee feels the matter should be addressed in SB 3, perhaps as a special exception. Vote 14-0. Rep. Richard A. Grodin for Municipal and County Government.

HB 563, providing that tax arrears shall appear on property tax bills. Inexpedient to Legislate.

This bill sets up a procedure which would seriously delay the mailing of tax bills. It also imposes a considerable clerical load at a time when tax bills are mailed. Vote 14-0. Rep. Ezra B. Mann for Municipal and County Government.

HB 570-FN, authorizing county conventions to set minimum and maximum pay scales for certain county officials. Inexpedient to Legislate.

HB 578, creating a joint legislative committee to study the feasibility of merging all unincorporated places with abutting towns. Ought to Pass.

The Committee feels there is good cause to establish a study committee to study the status of unincorporated places to determine if they should be incorporated with adjacent towns. Vote 15-0. Rep. David M. Perry for Municipal and County Government.

HB 653-FN, relative to property tax exemptions for senior citizens. Inexpedient to Legislate.

This bill standardizes the exemption for any person over 65 years of age. It creates liens for all real properties so exempted. Lawrence Cronin for Municipal and County Government.

HB 704-FN, relative to public hearings on change of size of board of selectmen. Ought to Pass.

Current law requires a public hearing on a petition to increase size of the Board of Selectmen, but does not require hearing on petition to decrease the size of the Board of Selectmen and sets the time for hearing thus making the system more uniform. Vote 16-0. Rep. Roger C. King for Municipal and County Government.

HB 705-FN, providing optional allowances for the beneficiary of a deceased retirement system member. Ought to Pass.

This bill was requested by the New Hampshire Retirement System to correct an apparent discrepancy of the system. This change supports a recent decision of the New Hampshire Supreme Court. Vote 16-0. Rep. Everett R. Reney for Municipal and County Government.

HB 708-FN, relative to parking in the city of Concord. Inexpedient to Legislate. The Committee felt that this bill was not appropriate. No additional parking would be added by this legislation. The bill would change the jurisdiction from the City to the State with a substantial loss of revenue to the City of Concord. Vote 16-0. Rep. David M. Perry for Municipal and County Government.

HB 709, requiring municipalities to allow cluster zoning. Inexpedient to Legislate.

Planned unit development and cluster housing offer attractive possibilities, but not necessarily for every town and city. Present legislation, which encourages innovative zoning, is an approach far superior to any state-level mandate. Vote 16-0. Rep. Richard A. Grodin for Municipal and County Government.

HB 710, prohibiting municipalities from imposing certain restrictions on subdivision developments. Inexpedient to Legislate.

The municipality shall decide by majority vote of its governing body whether or not to set its own tax rate and, if it decides to set its own rate, what that rate shall be. If the governing body votes to set the municipality's tax rate, the commissioner shall establish the tax rates for the school district, county, village district, and any other unit other than the municipality which is represented on the tax billing. If the commissioner has reason to believe that illegal appropriations or financial irregularities exist in a municipality which has exercised this option, he shall so alert the

municipality's auditor and the chief elected official of the municipality, who shall take appropriate action.

HB 648-FN, relative to smoke detectors in rental units. Ought to Pass with Amendment.

The bill, as amended, provides guidance as to the smoke detector requirements in rental units, which has not been clearly articulated in previous legislation. As rental units are so prominent in the tourism industry, this legislation will serve to give maximum protection from fire, smoke, etc., to visitors in New Hampshire. Vote 11-1. Rep. Robert H. Carlson for Public Protection and Veterans Affairs.

Amendment

Amend RSA 153:10-a, II-a as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

II-a. Every rental unit as defined in RSA 153:1, IX-a shall be equipped with at least one automatic fire warning system. An automatic fire warning system shall be located in each hallway or area which is adjacent to a sleeping area.

HB 682, requiring certification by the state fire marshal of certain firefighting units. Ought to Pass with Amendment.

The Committee determined that cities desiring to contract with private firefighting units would be aided by the knowledge of the State Fire Marshal, who would provide the assurance that the firefighting unit had the requisite personnel skills, technical equipment and experience to perform in a satisfactory manner. Vote 10-1. Rep. John J. Wallace for Public Protection and Veterans Affairs.

Amendment

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Effect on Current Contracts. Any valid contract entered into by a city and an uncertified private firefighting unit prior to the effective date of this act shall not be affected by the provisions of this act. For any contracts entered into after the effective date of this act, the provisions of this act shall be applicable.

Amend the bill by striking out section one and renumbering sections 2 - 5 to read as 1, 2, 3 and 4 respectively.

HB 713, to prohibit the possession of short-barrel shotguns, silencers, and teflon-coated, armor-piercing and exploding bullets. Ought to Pass with Amendment.

The Committee determined, after lengthy and detailed discussions, that it would be easier and more efficient to ban certain type cartridges by placing heavy penalties on those who use the cartridges in the commission of a misdemeanor or a felony, rather than by trying to regulate and control the sale and possession of the cartridges. Vote 12-0. Rep. John W. Flanders for Public Protection and Veterans Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the felonious use of teflon-coated, armor-piercing and exploding bullets.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Felonious Use of Certain Bullets and Cartridges. Amend RSA 159 by inserting after section 17 the following new section: 159:18 Felonious Use of Teflon-coated, Armor-piercing and Exploding Bullets and Cartridges.

I. A person is guilty of a class B felony if he uses or attempts to use any teflon-coated or armor-piercing bullet or cartridge, or any bullet or cartridge which contains any explosive substance in the projectile and is designed to explode upon impact, in the course of committing any misdemeanor or felony.

II. Neither the whole nor any part of a sentence of imprisonment imposed for a violation of this section shall be served concurrently with any other term of imprisonment.

HB 772, relative to the use and possession of body armor. Ought to Pass with Amendment.

There are literally dozens and dozens of categories of persons, other than peace officers, who have a legitimate reason for the use of protectant body armor. To require each such person to secure a permit to purchase, own and wear the armor would require a licensing system, similar to that for permits to carry concealed weapons. The Committee felt that the best way to control the use of body armor would be to inflict heavy penalties on those who may wear the armor during the commission of a misdemeanor or a felony. Vote 12-0. Rep. John W. Flanders for Public Protection and Veterans Affairs.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the felonious use of body armor.

Amend section 1 of the bill by striking out same and inserting in place thereof the following:

1 Use of Body Armor in Commission of Crime Prohibited. Amend RSA by inserting after chapter 650-A the following new chapter:

CHAPTER 650-B FELONIOUS USE OF BODY ARMOR

650-B:1 Definition. In this chapter, "body armor" means any device designed to be worn on the body which is bullet resistant and is designed and intended to provide ballistic and trauma protection.

650-B:2 Felonious Use of Body Armor.

I. A person is guilty of a class B felony if he commits or attempts to commit any misdemeanor or felony while using or wearing body armor.

II. Neither the whole nor any part of a sentence of imprisonment imposed for a violation of this section shall be served concurrently with any other term of imprisonment.

HB 470-FN, to reclassify certain highways in the towns of Jefferson and Center Harbor from class II to class V highways. Ought to Pass.

The reclassifying of these two sections of road has no fiscal impact on the towns or state. The Committee voted 16-0 in favor of this bill and it is mutually advantageous to the towns and the state. Rep. David T. Whittemore for Public Works.

HB 504, relative to the final environmental impact statement and the preliminary engineering studies of the corridor for the north quadrant of Nashua-Hudson circumferential highway project. Ought to Pass.

This legislation provides the necessary vehicle to realize not only the Hudson circumferential route, but also makes possible the improvements to 101 and 101-A that are now and have been overdue for a period of over 20 years. Vote 16-0. Rep. Darrell A. Wagner for Public Works.

HB 505-FN, providing for the replacement of the state-owned bridge on the Gray Rocks road in the town of Belmont and making an appropriation therefor. Inexpedient to Legislate.

The state of New Hampshire should not be expected to assume liabilities that more properly should be addressed by local authority. The Committee feels that the problem would be properly solved by a road serving a very few permanent and seasonal residents. Vote 13-2. Rep. Ted A. Pelletier for Public Works.

HB 582, eliminating eminent domain sections of the highway laws that conflict with RSA 498-A and amending RSA 498-A the eminent domain procedures act. Ought to Pass with Amendment.

Since this bill clarifies the statutes and eliminates contradiction and ambiguous interpretation, it should pass. Vote 16-0. Rep. Ted A. Pelletier for Public Works.

Amendment

Amend RSA 498-A:26, II(d) as inserted by section 6 of the bill by striking out same and inserting in place thereof the following:

(d) The value of the property before and after the taking, if different, and the amount of damages;

HB 597, relative to coordination of permits and approvals issued by the department of public works and highways and municipal planning boards. Inexpedient to Legislate.

The legislation being sought on this bill provides nothing constructive since the Commissioner of Public Works and Highways already enjoys the prerogative being requested. Vote 14-1. Rep. Ted A. Pelletier for Public Works.

HB 620, giving the state the right of first refusal on rail properties offered for sale within the state. Ought to Pass with Amendment.

This bill provides several prerogatives for the state to exercise without committing the state to fiscal responsibility unless it chooses to accept such responsibility. It places New Hampshire in a rather unique and desirable position to protect its assets. Vote 16-0. Rep. Ted A. Pelletier for Public Works.

Amendment

Amend RSA 228:60-b as inserted by section one of the bill by striking out same and inserting in place thereof the following: 228:60-b Purchase Price for Rail Properties. All rail properties within the state offered for sale by any railway corporation after the effective date of this section shall be offered for sale to the state of New Hampshire in the first instance. The state of New Hampshire, acting through the commissioner with the approval of governor and council, shall have a right to match any verifiable bona fide offer made for such rail properties within the limits of funds available in the special fund established under RSA 228:68. If the amount of the offer is unsatisfactory to the state, the commissioner may proceed to condemn such properties under RSA 228:59.

HB 687-FN, requiring any person filing a suit which delays the construction of a state highway or energy facility to post a bond. Refer for Interim Study.

This bill while having too many redeeming values to deny passage should, however, be refined and researched more

intensively to address all questions it raises. Vote 16-0. Rep. Ted A. Pelletier for Public Works.

HB 840-FN, relative to railroad right-of-way preservation. Ought to Pass. This bill provides a means for preserving a valuable state asset. Vote 16-0. Rep. Mildred S. Ingram for Public Works.

SB 15-FN, relative to a special appropriation for resurfacing and betterments on the state highway system. Ought to Pass.

This bill appropriates \$4,000,000 to the Department of Public Works and Highways to be used for resurfacing 250 miles of state highways and small reconstruction and hazard elimination projects. Bonds are authorized to be issued for this funding. This work is also covered in the operating budget as passed by the House and should not be duplicated for funding reasons. Vote 15-0. Rep. Charles M. Nute for Public Works.

To Appropriations.

HB 528, permitting members of the general court to work at dog or horse race tracks. Inexpedient to Legislate.

The Committee felt that the present law was working well and the sponsor of the bill agreed. Vote 17-0. Rep. William A. Russell for Regulated Revenues.

HB 531-FN, relative to liquor and wine distribution. Ought to Pass with Amendment. The Committee and the Liquor Commission agree that this legislation will speed the delivery of wine to the licensee. It also gives the Liquor Commission authority to adjust the bonding of wholesalers. The amendment prohibits the importation of liquor or wine into this state for resale purposes by anyone other than persons holding a New Hampshire Liquor Commission issued importer's license and establishes a \$500 fee for such license. Vote 17-0. Rep. Robert R. Blaisdell for Regulated Revenues.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to liquor and wine.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Importers. Amend RSA 178 by inserting after section 1 the following new section:

178:1-a Importers. No person shall import into this state for resale liquor as defined by RSA 175:1 or wine as defined by RSA 178-A:1 unless such person holds an importer's license issued pursuant to the provisions of this chapter. The commission

may issue an importer's license to an applicant who possesses a suitable warehouse for product storage and maintains adequate business records readily available for inspection by the commission. Liquor and wine imported into the state pursuant to the provisions of this chapter shall be sold only to the commission, consistent with applicable statutes, or to out-of-state entities. The fee for the importer's license shall be \$500 a year.

2 Domestic Wine. Amend RSA 178-B:1, I (supp) as inserted by 1981, 572:1 by inserting in line 8 after the word "state." the following (The percentage blend of New Hampshire wine shall be approved by the commission.) so that said paragraph as amended shall read as follows:

I. "Domestic wine" means any wine containing over 6 percent alcohol by volume and not over 24 percent alcohol by volume which is manufactured or bottled in this state from grapes or other fruits grown in this state, or brought into the state in their natural state for the purpose of fermentation and blending with wine produced from New Hampshire grapes or fruits, or wine which is brought into this state by a manufacturer to be blended with wine produced from New Hampshire grapes or fruits by a winery located in this state. The percentage blend of New Hampshire wine shall be approved by the commission.

3 Bond Required. Amend RSA 181:19 (supp) as amended by striking out in lines 4 and 5 the following (but not exceeding \$100,000,) so that said section as amended shall read as follows:

181:19 Bond Required. Each wholesaler or manufacturer holding a permit under the provisions hereof shall annually give to the state of New Hampshire a bond with sureties satisfactory to the commission in such penal sum as may be determined by the commission, conditioned upon the payment of the fees required under the provisions of this subdivision. The amounts due under said bond shall be recoverable in an action of debt to be brought by the attorney general upon complaint of said commission. The commission may waive the giving of such bond if satisfactory reports and payments are made at times which precede the statutory requirements.

4 Effective Date. This act shall take effect 60 days after its passage.

HB 323-FN, relative to the Summer Brook fish hatchery in the town of Ossipee. Ought to Pass with Amendment.

This bill prohibits the state from making any disposition of the Summer Brook rearing station in the town of Ossipee, without the state executing a conservation easement in perpetuity to protect the sand, gravel, loam and water which are present on this site. Vote 17-2. Rep. Mary Ann Lewis for Resources, Recreation and Development.

Amendment

Amend section 1 of the bill by striking out same and inserting in place thereof the following:

1 Declaration of Purpose.

I. Whereas, the property comprising the Summer Brook rearing station contains a unique ecological system; and

II. Whereas, its unique stand of timber includes the largest red pine tree in New Hampshire recognized by the society for protection of New Hampshire forests as the state champion; and

III. Whereas, this land is adjacent to the Pine river and protects one of the largest ground water resources in New England;

Now, therefore, the general court hereby finds that:

The general welfare and economic interest of the state require the protection of this natural resource from inappropriate or wanton use.

Amend 1982, 42:219, II as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

II. The Summer Brook rearing station, as described in paragraph I, shall not be disposed of by the executive director without the state executing a conservation easement to the society for the protection of New Hampshire forests in perpetuity to protect the sand, gravel, loam and water which may be present on this 161 acre tract of land. If the society for the protection of New Hampshire forests is unable or unwilling to serve as conservator, this easement shall revert to the Carroll county conservation district established pursuant to RSA 430-B. This easement shall be made an expressed covenant of any deed, lease or other document made on behalf of the state in disposition of said property.

HB 339-FN, to allow the town of Ossipee to lease the Summer Brook Rearing Station for town purposes. Ought to Pass with Amendment.

This bill provides the opportunity for the Town of Ossipee to repurchase the Summer Brook Rearing Station as well as the Fish and Game Department to continue to operate it if they so desire. Vote 17-1. Rep. Howard C. Dickinson, Jr. for Resources, Recreation and Development.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

providing the town of Ossipee the first option on purchasing the Summer Brook rearing station.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Statement of Purpose.

Whereas, the state took the Summer Brook rearing station property from the town of Ossipee by eminent domain proceedings; and

Whereas, the executive director of the fish and game department wishes to sell the property to generate revenue; and

Whereas, the property contains unusual geological features and a unique stand of timber in which the largest red pine in New Hampshire has been discovered; and

Whereas, the water supply rising from the base of the esker is of such quality and quantity as to be capable of supplying the town of Ossipee with fresh water in addition to servicing a rearing station more than twice the size of the existing operation; now, therefore,

The general court hereby recognizes:

That the town of Ossipee should be given the opportunity to repurchase the property in order to preserve the outstanding natural resources of the site and to insure the continuation of the rearing station operation which may prove useful to the state of New Hampshire in the future.

2 Town of Ossipee; Option to Buy Summer Brook Rearing Station. The town of Ossipee shall have the first option to purchase at the current appraised value the Summer Brook rearing station, Ossipee-161 acres more or less from the department of fish and game which was made available for sale by 1982, 42:219. The sale shall be subject to a conservation easement granted to the society for the protection of New Hampshire forests to protect the gravel and water on the site.

3 Town of Ossipee; Conditions of Transfer of Control of Summer Brook Rearing Station. If the town of Ossipee exercises this option, or obtains control of the property by other means, the property shall be placed under the administration of the Ossipee Conservation Commission. The transfer of control to the town of Ossipee shall be subject to the condition that the state may lease the rearing station facilities from the town after the expiration of any existing lease made by the town. If the state desires to exercise this option, notice of same shall be given to the town of Ossipee at least 12 months prior to the expiration of any existing lease.

4 Effective Date. This act shall take effect upon its passage.

HB 420, relative to the change in the use of structures built for residential or commercial use. Ought to Pass with Amendment.

This bill provides a method of dealing with the problem created when a change of use of an existing dwelling creates an overload on the existing septic system which could cause water pollution. Vote 15-2. Rep. Richardson Blair for Resources, Recreation and Development.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the change in the use of buildings built for residential or commercial use.

Amend the bill by striking out all after section 1 and inserting in place thereof the following:

2 New Subdivision. Amend RSA 147 by inserting after section 17 the following new subdivision heading:

Private Sewage Systems

3 Inadequacy of Private Sewage Systems. Amend RSA 147:17-a and RSA 147:17-b as inserted by 1971, 310:2 by striking out said sections and inserting in place thereof the following:

147:17-a Faulty or Inadequate Private Sewage Systems.

I. (a) If any private sewage system is in such disrepair as to constitute a source of danger to the health of the public, the health officer or building inspector shall give written notice to and order the owner to put the same in a proper sanitary condition within a reasonable time.

(b) If any private sewage system is deemed inadequate due to expansion, extension or intensification of use as to constitute a source of danger to the health of the public, the health officer or building inspector shall give written notice to and order the owner to put the same in a proper sanitary condition within a reasonable time.

II. If the person ordered to put the system in proper sanitary condition fails to correct the problem, the municipal health officer or building inspector shall request the selectmen or mayor and council to put the system in proper sanitary condition if sufficient funds have been appropriated for this purpose pursuant to RSA 31:4, XLVI.

147:17-b Installments for Repair Cost. All expenses to the town or city for repairs made pursuant to the provisions of RSA 147:17-a, II shall constitute an assessment against the owner and shall create a lien upon the lands on account of which such repairs are made. The governing board shall have all the powers in making, assessing, and enforcing such lien as are provided in the applicable provisions of RSA 231:111, 112 and 113.

4 Disposal Permits. Amend RSA 147 by inserting after section 17-b the following new sections:

147:17-c Definition. As used in RSA 147:17-c through 147:17-i, "individual sewage disposal system" means any private sewage disposal or treatment system, other than a municipally owned and operated system, which receives either sewage or other wastes, or both. Such systems shall include septic tank leach field systems; privies or dry pit toilets; incinerator-type toilets, whether gas-operated, electric, fossil-fueled or any combination thereof; cesspools, and holding tank systems.

147:17-d Permit.

I. The health officer of a municipality shall, pursuant to his powers under RSA 147:1 or a building inspector of a municipality shall pursuant to his powers under RSA 156 and subject to the approval of the local governing body, adopt regulations requiring a person to obtain a permit as provided in paragraph II before taking any action which will increase the load on a private sewage disposal system.

II. Prior to expanding, extending, or intensifying the use of an existing residential or commercial building which would increase the load on an individual or private sewage disposal system, the owner

shall obtain a permit from a health officer or building inspector. Application for such permit shall include:

- (a) Evidence that the existing sewage disposal system meets the standards of the water supply and pollution control commission for the intended use or the town's minimum standards for use or occupancy prescribed under RSA 48-A:11, whichever is more stringent; or
- (b) The design and bond for a new system which meets the standards of the water supply and pollution control commission for the intended use or the town's minimum standards for use or occupancy, whichever is more stringent; or
- (c) Evidence that the residential or commercial building unit's sewage disposal system is connected to a sanitary sewer system.

III. Municipalities shall designate a health officer or building inspector to inspect and investigate sewage disposal systems, to approve or disapprove permits, and to enforce repair of the system. The health officer or building inspector shall set standards which are no less stringent than water supply and pollution control commission standards determining the adequacy of sewage disposal systems to be approved by the governing body of the municipality.

147:17-e Increased Load on Sewage Disposal System.

I. Municipal officials shall determine when substantial expansion, extension or intensification of use has taken place so as to cause an increased load on the sewage disposal system. In making a determination, the designated official may consider, but is not limited to:

- (a) Whether the residential or commercial building is occupied for more than 120 days per year;
- (b) Any modifications made to make the residential or commercial building habitable year-round;
- (c) Significant additions to the residential or commercial building;
- (d) The filing of residency by the owner in the town where the residential or commercial building is located;
- (e) Placement of the children of the owner of the residential or commercial building in local schools; and
- (f) Any other evidence which the official deems significant.

II. Municipalities may survey and inventory the use of residential or commercial buildings and the carrying capacity of the land. The municipality shall use information from the city or town conservation commission pursuant to RSA 36-A:2, the planning board master plan as provided under RSA 36:13, and any other suitable source of information in order to determine whether substantial expansion, extension, or intensification of the use of a residential or commercial building has resulted in an increased load on the sewage disposal system.

147:17-f Appeals. Any person aggrieved by any decision of the municipality concerning a sewage disposal permit may appeal the decision to the board of

adjustment, the board of selectmen, or board of appeals as the municipality shall specify. The designated board may grant a conditional permit for not more than one year if the sewage disposal system is shown to be adequate under the circumstances. Municipalities may adopt the appeal procedures prescribed in RSA 36:26 or RSA 36:31, 36:32, and 36:33.

147:17-g Permit Fee. The governing body of the municipality shall set reasonable fees for sewage disposal permits. Such fees shall be collected and deposited in the contingency fund established pursuant to RSA 31:4, XLVI and expended by the municipal public health officer or building inspector to implement the purposes of this subdivision.

147:17-h Inspection. Pursuant to RSA 147:1, the health officer or the building inspector pursuant to RSA 156 subject to approval of the city or town shall make regulations for the inspection of sewage disposal systems. Such systems may be inspected without cause every 5 years or, pursuant to RSA 147:3, when the health officer or building inspector knows or has reason to suspect that any nuisance or other thing injurious to the public health exists.

147:17-i Penalty. After receiving written notice to repair a faulty or inadequate disposal system, any person neglecting or refusing to comply with provisions of RSA 147:17-c through 147:17-h shall be guilty of a violation for each day that he fails to obtain a permit.

147:17-j Incorporation in Building Code. Municipalities which adopt a building code under RSA 156-A shall incorporate the provisions of this subdivision in the powers of a building inspector.

5 New Subdivision. Amend RSA 147 by inserting after section 17-j the following new subdivision heading:

Miscellaneous Sanitation Provisions

6 Appropriations for Faulty or Inadequate Sewage Systems. Amend RSA 31:4, XLVI (supp) as inserted by 1971, 310:1 by striking out said paragraph and inserting in place thereof the following:

XLVI. FAULTY OR INADEQUATE SEWAGE SYSTEMS. To provide a contingency fund to meet the cost of repairing faulty or inadequate private sewage disposal systems, to be expended by the municipal public health officer or building inspector. A detailed report of all expenditures made by him from the fund shall be published in the municipal report.

7 Effective Date. This act shall take effect 60 days after its passage.

HB 539, limiting the use of power boats on Clark pond in the town of Canaan. Refer for Interim Study.

The Committee feels that the issue of limiting the horsepower of boats on public water bodies needs further study. Not only will the specific problems on Clark Pond be addressed, but criteria will be developed to deal with similar problems in the future. Vote 17-2. Rep. Howard C. Dickinson, Jr. for Resources, Recreation and Development.

HB 549-FN, transferring ownership of certain state-owned dams to the water resources board. Refer for Interim Study.

This bill would have conveyed essentially all state-owned dams to the Water Resources Board for the maintenance, repair and restoration. While the purpose of the bill was an acceptable concept, it is now clear that there are still some important problems to be resolved; thus the Committee feels that further study is needed. Vote 17-0. Rep. Douglas R. Woodward for Resources, Recreation and Development.

HB 692-FN, requiring the water supply and pollution control commission to charge such amounts for certain inspections to enable such functions to be self supporting. Inexpedient to Legislate. While the Committee finds the concept of user fees valid under certain circumstances where the real costs can be clearly identified, the problem addressed in the bill has been solved by HB 500. Vote 16-1. Rep. Howard C. Dickinson, Jr. for Resources, Recreation and Development.

HJR 3, to authorize a more comprehensive program to conserve the water resources of the state. Ought to Pass with Amendment. This Resolution recognizes the fact that the water resources of the state are vital to the welfare of its people and provides that the matter must receive more resolute action by the General Court. The report of the Water Supply Policy Commission dated February, 1981, is accepted as an important step in the continuing process of conserving this most precious resource. Vote 18-0. Rep. Douglas R. Woodward for Resources, Recreation and Development.

Amendment

Amend the resolution by striking out all after the title and inserting in place thereof the following:

Whereas, the surface waters and ground waters of the state are integrated and comprise a public resource to be conserved, protected, allocated and otherwise managed for the public good; and

Whereas, the proper utilization of the public waters of this state requires a full knowledge of their occurrence and quality; and

Whereas, the protection of these water resources requires increased diligence by both public and private organizations; and

Whereas, it has been demonstrated that certain sections of the state are facing increasing difficulty and expense in finding adequate sources of water of suitable quality for water supplies; and

Whereas, the New Hampshire water supply policy commission, responding to the general court's directive of 1979, has identified important unresolved issues in the area of the water supply programs of the state; and

Whereas, the issues identified are now of increasing urgency; and

Whereas, the recommendations of this commission deserve further consideration; now, therefore, be it

Resolved by the Senate and House of Representatives in General Court convened; That the general court recognizes the need for more comprehensive and resolute action by the state to conserve the water resources of the state; and hereby supports the development of a comprehensive New Hampshire state water resources management program, and urges that particular attention should be given in developing this program to the report dated February 1, 1981 of the New Hampshire water policy commission, its recommendations regarding ground water information, law and protection and the need identified to determine priority water uses and a water resources allocation plan.

Be it further resolved that continuing oversight by the general court is needed in developing water policy and management guidelines and that the house resources, recreation and development committee and the senate development, recreation and environment committee are hereby encouraged and authorized to work during the interim session to develop appropriate recommendations on these matters and that all appropriate state agencies are directed to render assistance to those committees in their efforts.

HB 734-FN, to require reporting of certain nuclear accidents to state and local authorities. Ought to Pass with Amendment. The Committee determined that while it was appropriate for the licensee of a nuclear reactor to report significant events to the proper authority the bill confused and circumvented the communications network currently in place. The amendment puts the licensee in compliance with the Nuclear Regulatory Commission requirements. Vote 10-0. Rep. John E. Burns for Science and Technology.

Amendment

Amend RSA 125:65-a, I as inserted by section one of the bill by striking out same and inserting in place thereof the following:

I. Each licensee of a nuclear powered reactor shall comply with the reporting requirements for significant events contained in the regulations of the Nuclear Regulatory Commission.

HB 742, relative to solar and wind energy and alternative energy sources. Ought to Pass with Amendment.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to solar energy and alternative energy sources.

Amend the bill by striking out all after section 3 and inserting in place thereof the following:

4 Solar Warranties; New Chapter. Amend RSA by inserting after chapter 358-G the following new chapter:

CHAPTER 358-H
SOLAR EQUIPMENT WARRANTIES

358-H:1 Definition of Solar Energy Equipment. In this chapter "solar energy equipment" means all controls, tanks, pumps, heat exchangers, collectors and all other equipment necessary for the collection, transfer and storage of solar energy, as determined by the secretary of state. Passive solar energy systems or those systems using natural means to collect, store and transfer solar energy shall not be included under this chapter.

358-H:2 Rulemaking; Express Warranty.

I. The secretary of state after consulting with the consumer protection division in the office of the attorney general shall adopt rules, pursuant to RSA 541-A, relative to an express warranty for the sale and installation of solar energy equipment in this state.

II. Provisions for required express warranties shall, at a minimum, include the following:

(a) A 5 year manufacturer's express warranty against defects in materials or manufacture of solar collectors;

(b) A one year warranty against failure of a system based on solar energy, when the failure is the result of improper installation; and

(c) Those implied warranties established under RSA 382-A:2-314 and RSA 382-A:2-315.

358-H:3 Penalty. Any person who does not provide a purchaser of solar energy equipment with a minimum warranty as required in rules adopted by the secretary of state shall be guilty of a misdemeanor.

5 Solar Easements Authorized. Amend RSA 477 by inserting after section 48 the following new subdivision:

Solar Skyspace Easements

477:49 Definitions. As used in this subdivision:

II. "Solar energy collector" means part or all of a device or structure used to transform solar energy into thermal, chemical, or electrical energy and any space or structural components of a building specifically designed to retain heat derived from solar energy.

III. "Solar skyspace" means the space between a solar energy collector and the sun which must remain unobstructed in

order to permit sufficient solar energy to the collector for thermally efficient operation.

IV. "Solar skyspace easement" means a limitation, whether or not stated in the form of a restrictive easement, covenant, or condition, in any deed or other instrument executed by or on behalf of the landowner described in the deed or instrument creating and preserving a right to unobstructed access to solar energy.

477:50 Creation of a Solar Skyspace Easement.

I. A solar skyspace easement may be acquired and transferred and shall be recorded in the same manner as any other conveyance of an interest in real property. The easement shall run with the land benefited and burdened and shall terminate upon the conditions stated in the instrument creating the easement or upon court decree based upon abandonment or changed conditions or as provided in RSA 477:26.

II. An instrument creating a solar skyspace easement shall include, but not be limited to:

(a) A description of the vertical and horizontal angles, expressed in degrees and measured from the site of the solar energy system, at which the solar skyspace easement extends over the real property subject to the solar skyspace easement, or any other description which defines the 3 dimensional space, or the place and times of day in which an obstruction to solar energy is prohibited or limited;

(b) Terms or conditions under which the easement is granted or shall be terminated;

6 Effective Date. This act shall take effect 60 days after its passage.

HR 30, expressing the sense of the general court that the Price-Anderson Act, as amended, must be further amended, as soon as possible, to provide offsite financial protection to the general public, and to the counties, cities, towns, and other civil divisions of government, including state governments, in accordance with the latest Nuclear Regulatory Commission estimates of the financial consequences of nuclear power reactor accidents, and that the Price-Anderson Act must under no circumstances be repealed, or allowed to expire, but be renewed as amended before its expiration date. Ought to Pass with Amendment.

The Committee determined that while it was essential that the people of New Hampshire be protected from the financial consequences of a nuclear accident, some of the claims made in paragraph 3 were not substantiated by fact and therefore the paragraph was removed. Vote 11-0. Rep. John E. Burns for Science and Technology.

Amendment

Amend the resolution by striking out the fifth and sixth paragraphs after the title.

HB 405, relative to the form of ballots for state general elections. Ought to Pass with Amendment.

It was the unanimous vote of the Committee to create consistency in the form of general election ballots. Vote 9-0. Rep. Holly Abrams for Statutory Revision.

Amendment

Amend the bill by striking out all after section 6 and inserting in place thereof the following:

7 Amending Straight Party Ticket. Amend RSA 659:18 (supp) as inserted by 1979, 436:1 by striking out said section and inserting in place thereof the following:

659:18 Straight Ticket Voting in State General Elections. The secretary of state shall provide on the general election ballot a space, on the top of the ballot and to the right of the column listing the candidates by office, which permits a voter in a state general election to vote a straight party ticket. There shall be printed in the space provided in large, plain letters the name of the political parties by which the candidates in the office column were nominated. Above the party designations on this part of the ballot shall be printed a circle not less than 3/4 of an inch in diameter and, below such circle, shall be the following words printed in plain letters: "To vote for all candidates of this party make a cross (X) within this circle". The voter may then vote a straight party ticket by making a cross (X) in the circle above the appropriate party designation. If he desires to vote for a candidate whose name is not printed in the column which lists the candidates by office, he shall erase or cancel the name of the candidate in such column for whom he refuses to vote and may vote for the candidate of

his choice by making a cross (X) in the square beside the name of such candidate or by writing in the name of the person for whom he desires to vote in the blank for write-in votes, as provided in RSA 656:12.

8 Counting Straight Party Votes. Amend RSA 659:66 (supp) as inserted by 1979, 436:1 by striking out said section and inserting in place thereof the following

659:66 Counting Straight Party Vote.

If, in accordance with RSA 659:18, a ballot is marked to indicate a straight party vote, but the name of a candidate for an office in the column listing the candidates by office is erased or cancelled and a cross is in the square beside the name of another candidate for that office in the column, or the name of a person is written in in the write-in blank in the right-hand column corresponding to the office, then the vote so marked in the square or so written in the write-in blank shall be counted and a vote shall not be counted for the candidate whose name is erased or cancelled.

9 Amending General Election Ballot When Counting Votes for Candidates Nominated by More than One Party. Amend RSA 659:68, I (supp) as inserted by 1979, 436:1 by striking out said paragraph and inserting in place thereof the following:

1. If a candidate is nominated by more than one party and his name appears on the state general election ballot more than once, and if the number of candidates for an office voted for on an individual ballot in question does not exceed the number of officers elected, then the ballot shall be counted as follows:

(a) If the candidate has votes under more than one party label for the same office, then one vote shall be counted for the candidate and credited to the party of which the candidate is a member.

(b) If the candidate has a write-in vote and a vote under the party label of the party of which he is a member, then one vote shall be counted for the candidate and credited to the party of which he is a member.

(c) If the candidate has a write-in vote and a vote under the party label of which he is not a member, then one vote shall be counted for the candidate and credited to the party under the party label of which the vote was cast.

10 Repeal. The following are hereby repealed:

I. RSA 656:9, relative to party designation;

II. RSA 656:10, relative to straight ticket party circle;

III. RSA 656:11, relative to party emblems.

11 Effective Date. This act shall take effect 60 days after its passage.

HB 545, relative to party committees. Ought to Pass.

HB 552, making ballots defective for having distinguishing marks. Inexpedient to Legislate.

The Committee felt this bill was unnecessary. Vote 11-0. Rep. George S. Lemire for Statutory Revision.

HB 556, relative to prohibitions that take effect after a declaration of candidacy or a declaration of intent. Ought to Pass. New Hampshire is a two party system. This bill prohibits a candidate who loses a party race to file otherwise. Vote 10-0. Rep. Robert E. Barber, Jr. for Statutory Revision.

HB 557, relative to recount procedures. Ought to Pass with Amendment.

This bill shortens the length of time a candidate may file for a recount and changes the method of notifying the candidate. Vote 10-0. Rep. George E. Lemire for Statutory Revision.

Amendment

Amend the bill by striking out section one and inserting in place thereof the following:

1 Declaration of Purpose. The general court hereby declares that in order to make recounts for state general elections as fair and as equitable as possible, it shall be the policy of this state to give the candidates involved in a recount the proper notice which is sufficient to advise them of the date when a recount will occur and the place at which it will be held.

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Change in Notice for Recount. Amend RSA 660:4 (supp) as inserted by 1979, 436:1 by striking out said section and inserting in place thereof the following:

This bill makes New Hampshire voting laws on overseas voting like federal regulations. Vote 10-0. Rep. Virginia K. Lovejoy for Statutory Revision.

Amendment

Amend RSA 657:22 as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

657:22 Cutoff. In any state election, a town or city clerk shall not accept any completed armed services or federal overseas citizens absentee ballots delivered to him by any means after 5:00 p.m. on election day. All other absentee ballots shall not be accepted after 5:00 p.m. on the day immediately prior to election day. Ballots received after such times shall be retained by the clerk unopened until the time set for the destruction of other state election ballots as provided in RSA 659:100 at which time the envelopes shall likewise be destroyed, unopened and unexamined.

HB 564, requiring runoff elections in primaries when no one candidate for the office of governor, councilor, United States senator, or United States representative receives a majority of the vote. Inexpedient to Legislate.

Cost factors to require a second primary election is projected in excess of \$300,000. The Committee felt this excessive and unnecessary. Vote 10-0. Rep. Joseph F. Duggan for Statutory Revision.

The Committee felt that there is a mechanism to cover the situation. Vote 11-0. Rep. Debora A. Ahern for Statutory Revision.

HB 589, requiring declarations of candidacy for candidates for the office of president and vice-president. Ought to Pass. The Committee feels this will reduce the harassment voters received in previous presidential elections. Vote 9-1. Rep. Holly Abrams for Statutory Revision.

HB 623, permitting voting as an independent in a state primary election. Inexpedient to Legislate.

The Committee decided the present two party system affords opportunity to everyone to participate and avoids independents from voting in a weak candidate of a particular party. Vote 10-1. Rep. Joseph F. Duggan for Statutory Revision.

HB 697-FN, relative to emergency interim successors under the emergency interim succession act. Ought to Pass.

This bill was requested by the Secretary of State as a cost saving measure. Vote 10-0. Rep. Geraldine S. Bangs for Statutory Revision.

HB 701, eliminating the requirement that the secretary of state send copies of RSA 665 relative to political expenditures and

contributions to candidates in primary and general elections. Inexpedient to Legislate.

Since these laws currently are mailed out with the required notification which goes to all candidates this bill would not be cost saving. Vote 10-0. Rep. Eleanor H. Stark for Statutory Revision.

HB 736, relative to absentee voting for school district elections. Ought to Pass with Amendment.

This bill makes it easier for the school district clerk to perform his job and make it easier for voters to register. Vote 10-0. Rep. Walter K. Robinson for Statutory Revision.

Amendment

Amend the bill by striking out section one and inserting in place thereof the following:

1 Absentee Ballots; Town and School District Elections. Amend RSA 671:21 (supp) as inserted by 1979, 321:1 by striking out said section and inserting in place thereof the following:

671:21 Absentee Voting.

III. Each town clerk shall make facilities in his office available for the school district clerk to perform his school district functions in connection with absentee voting. District No. 21	Concord	Wards A through H	5

2 Delegates to State Party Conventions from Concord. Amend RSA 662:6, VII (supp) as inserted by 1979, 436:1 as amended by striking out the delegates for Concord and inserting in place thereof the following:

Concord	Ward A	2
Concord	Ward B	2
Concord	Ward C	2
Concord	Ward D	2
Concord	Ward E	2
Concord	Ward F	2
Concord	Ward G	2
Concord	Ward H	2

3 Official Map. An official map showing the boundaries of the wards of the city of Concord shall be filed in the office of the Concord city clerk and in the office of the secretary of state.

4 Application. The changes in state representative district lines for the city of Concord established by this act shall not affect constituencies or terms of office of representatives presently in office. The representative districts established by this act shall be in effect for the purpose of electing representatives to the general court at the 1984 state general election. If there shall be a vacancy in a representative district in Concord for any reason prior to the 1984 state general election, the vacancy shall be filled by and from the same representative district that existed for the 1982 state general election. No provision of this act shall affect in any manner any of the proceedings of the membership of the house of representatives of the general court that assembled for a biennial session in January, 1983.

5 Effective Date. This act shall take effect upon its passage.

HB 777, relative to voter registration. Refer for Interim Study.

The Committee feels there should be an in-depth study and report of this bill. Vote 9-1. Rep. Virginia K. Lovejoy for Statutory Revision.

HB 581, to amend the reckless driving statute. Inexpedient to Legislate. This bill would eliminate the provisions in the reckless driving statute which makes a person convicted of reckless

driving from which the death of another person occurs guilty of a class B felony. This offense is punishable in RSA 630 as manslaughter. The Committee felt both provisions should be available for use for law enforcement. Vote 16-0. Rep. Edward J. Crotty for Transportation.

HB 720-FN, relative to adopting the federal numbering system for all watercraft 15 feet and over in length and imposing a water use permit fee. Refer for Interim Study.

This is a very lengthy bill with some merit, but there are ramifications which could not be sorted out in the limited time allotted to the Committee. Vote 15-0. Rep. Roger R. Stork for Transportation.

HB 748-FN, increasing boat registration fees, providing for the registration of sail boats; transferring the unrefunded gas tax for marine use to safety services and providing a restricted fund for boating safety enforcement. Refer for Interim Study.

This bill increases the fees on some watercraft and sets up a special account for the promotion of the safety of navigation. It would affect the revenues in the general fund and in municipalities. Uncertainties of the effect is such that it needs further study before passage and could be incorporated with HB 720-FN, Vote 15-1. Rep. Roger Stewart for Transportation.

HB 482-FN, increasing certain fees charged by the department of safety. Inexpedient to Legislate.

The Committee felt this bill contains many sections already covered in the Governor's budget and which are also being addressed by other bills still in committee. Vote 17-0. Rep. Susan J. Lawrence for Ways and Means.

RECESS

AFTER RECESS

The Speaker introduced Rick Shaw of the Shaw Brothers, who entertained the House with his song "New Hampshire Naturally."

NEW HAMPSHIRE NATURALLY
by Rick Shaw

There's a place I know
Where the purple lilacs grow,
And the sparkling rivers rush down to the sea;
Where snow-capped mountains rise
High into the clear blue sky,
And the seasons come and go so naturally.

Oh, New Hampshire,
New Hampshire is where I want to be;
Oh, New Hampshire,
I love New Hampshire, naturally.

Oh, I love her in the spring
When the birds begin to sing,
In the winter and the good ol' summertime;
But I think it's in the fall
That I love her most of all,
New Hampshire's always somewhere in my mind.

Oh, New Hampshire,
New Hampshire is where I want to be;
Oh, New Hampshire,
I love New Hampshire, naturally.

As I sail upon a breeze
feel the earth beneath my skis,
Paddle down a stream or cast a fly;
Wander through a village square,
Breathe the cool, clear mountain air.
I know how it feels to be New Hampshire high.

Oh, New Hampshire,
New Hampshire is where I want to be;
Oh, New Hampshire,
I love New Hampshire, naturally.

Reps. Rounds and Spirou moved that Rick Shaw's song be printed in the House Journal. Adopted.

COMMITTEE REPORTS (cont.)
(Regular Calendar)

HB 567, relative to service station dealers. Ought to Pass with Amendment. The amendment is the deletion of two sections of the bill. One deletion of prohibitions that would restrain trade; the other deletion of a filing requirement that would actually mean nothing. The remainder of the bill is

the same as passed by this Committee and the House at the last session. It was caught in the changeover and was sent to interim study by the Senate due to time constraints. Vote 8-5. Rep. Lawrence J. Guay for Commerce, Housing and Consumer Affairs.

Amendment

Amend the new subdivision of RSA 339-C as inserted by section 2 of the bill by striking out sections 339-C:22 and 339-C:23 and by renumbering the original section 339-C:24 to read as 339-C:22.

Amendment adopted.
Ordered to third reading.

HB 818, relative to group legal insurance. Ought to Pass. This bill allows any insurance company, properly licensed in New Hampshire by the Insurance Commissioner, to transact legal services insurance for either individuals or groups. The Department of Insurance has stated that there is no problem with this bill. Vote 8-3. Rep. C. Dana Christy for Commerce, Housing and Consumer Affairs.

Ordered to third reading.

HB 691-FN, providing for the calling of a constitutional convention and making an appropriation therefor. Ought to Pass with Amendment.

This bill provides the appropriation for the 1984 Constitutional Convention which has been mandated by vote of the people. The amendment increases the original funding figure to a more realistic one. Vote 11-0. Rep. Russell C. Chase for Constitutional Revision.

Amendment

Amend the bill by striking out section 4 and inserting in place thereof the following:
4 Appropriation. The sum of \$400,000 is hereby appropriated for paying the expenses of the convention provided for in this act. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

Amendment adopted.
Referred to Appropriations.

CACR 12, relating to personal income tax. Providing that all proceeds, less the cost of collection and administration, shall be distributed to municipalities, school districts and counties. Inexpedient to Legislate.

The Committee feels the Constitution is not the proper place for what is essentially tax law. The proposal would appear to be trying to make the idea of a broad base tax more acceptable. Vote 10-0. Rep. Russell Chase for Constitutional Revision.

Report adopted.

CACR 14, relating to personal income tax. Providing that all proceeds in excess of the cost of collection and administration be distributed to towns and cities. Inexpedient to Legislate.

The Committee feels CACR 14 is tax legislation and belongs in the statutes. It also appears to be trying to make the idea of a broad based tax more acceptable. Vote 7-2. Rep. Russell C. Chase for Constitutional Revision.

Report adopted.

CACR 16, relating to succession to the office of governor. Providing that there shall be a lieutenant governor, who shall become governor when the office of governor becomes permanently vacant, and who shall act as governor when that office is temporarily vacant, and providing that every other designated successor to the office of governor shall, in turn, become governor if the offices of governor and lieutenant governor are both permanently vacant or act as governor when the offices of governor and lieutenant governor are temporarily vacant. Inexpedient to Legislate.

The Constitution already provides an orderly line of succession and such ceremonial duties that the governor cannot attend can easily be covered by members of the council or the legislative leadership. The Committee feels the addition of a new political office at this time is an unnecessary cost at a time when frugality should be of prime consideration. Vote 10-0. Rep. Eleanor H. Stark for Constitutional Revision.

Report adopted.

CACR 17, relating to application of state lottery revenues. Providing that all state lottery revenues shall be distributed to the school districts of the state and used exclusively for educational purposes. Inexpedient to Legislate.

CACR 17 is clearly tax legislation and belongs in the statutes, not the Constitution, which should be made up of broad principles and as free of specifics as possible. Vote 10-0. Rep. Joseph F. Duggan for Constitutional Revision.

Report adopted.

CACR 19, relating to compensation of the general court. Providing that said compensation, other than reimbursement for mileage, be eliminated. Inexpedient to Legislate.

The effect of this proposal would be to allow the legislature to set its own salary which the Committee does not support. To remove the token \$200 payment and keep in the mileage provision which can be subject to controversy will not resolve any misconceptions the public may have about how much members of the General Court are paid. Vote 10-0. Rep. Joseph F. Duggan for Constitutional Revision.

Rep. Lefebvre moved that the words, Refer for Interim Study, be substituted for the Committee report, Inexpedient to Legislate, spoke to his motion and yielded to questions.

Reps. Duggan and Joseph Eaton spoke against the motion.

Rep. Townsend moved the previous question. Sufficiently seconded. Adopted. Motion lost.

Report adopted.

Rep. Newman notified the Clerk that he wished to be recorded in favor of the motion, Refer for Interim Study.

HB 406-FN, relative to the age limits for special education. Refer for Interim Study.

The majority of the Committee feels that there are several ramifications, legal and otherwise, that require in-depth study. Vote 12-3. Rep. Rita M. Brack for Education.

Referred for Interim Study.

HB 800-FN, relative to tuition benefits for math, science, and industrial arts majors. Ought to Pass with Amendment. This bill authorizes the University System Trustees to enter into educational contracts, which may forgive tuition if the student becomes certified to teach and upon graduation does teach in the elementary or secondary system of the state. The subject matter must be in the field of Math, Science, Industrial Arts or Vocational Education. Vote 9-4. Rep. Joanne A. O'Rourke for Education.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT
relative to tuition benefits for math, science, industrial arts, and vocational education majors.

Amend RSA 187-A:20-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

187-A:20-a Tuitions Waived for Teaching Service. The trustees of the university system may at their discretion enter into

contracts on behalf of the university system with any student who is planning to receive teacher certification in math, science, the industrial arts, or vocational education for the purpose of granting free tuition to that student in exchange for the student's agreement to teach the appropriate subject at a public or private school located in the state when he is certified. The contract shall require the student to repay the amount of the tuition waived plus interest if he does not teach as agreed.

Amend RSA 187-A:16, XIV-a as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

XIV-a. To enter into contracts with students for the purpose of exchanging a waiver of tuition for teaching service at a New Hampshire public or private school, pursuant to RSA 187-A:20-a, and to adopt rules, pursuant to RSA 541-A, relative to the terms and conditions of said contracts;

Amendment adopted.

Ordered to third reading.

HB 827, providing military recruiters access to schools and to directory information. Ought to Pass.

This bill simply states that whatever opportunities are offered to other groups shall be offered to the military. Vote 10-5. Rep. Howard F. Mason for Education.

Ordered to third reading.

HB 320-FN, creating a comprehensive recycling, solid waste disposal and litter control act. Majority: Inexpedient to Legislate. Minority: Ought to Pass.

MAJORITY: The Committee vote was 14-6 with 3 absentees, one of whom had requested he be recorded with the majority. The Committee did not find that the bill provided any incentive towards recycling and might in fact even encourage littering.

Revenues are produced by a value-added sales tax which is unfairly levied on many products that never become a litter problem. In addition, it is perfectly possible for a company filing a business profits tax report to be required to pay a tax, even though it makes no profit or may even have a loss.

There is no appropriation for either Revenue Administration or the State Department of Education, both of which would require money.

A nine member council is set up to assist the Chief of the Solid Waste Bureau in implementing the legislation. This is a possible complication since the Bureau already has one Advisory Board. Rep. Elizabeth A. Greene for the Majority of Environment.

MINORITY: The minority requests the House to adopt this minority report of ought to pass for the purpose of keeping this bill in the possession of the House. This bill would raise 2 million in revenue each year. \$500,000 would be for roadside pickup at the rate of \$50

per mile each year, every year for each town and city. This bill would provide over 1 million each year for grants to towns and cities for solid waste management, recycling programs, education and enforcement. This is the only bill in the House regarding roadside litter control and solid waste management.

By adopting this report, it will go to the Appropriations Committee and all of us will have an opportunity to see if the Senate is going to take action on any other similar bills. Give yourself more time to look at all of the options. Reps. Elmer L. Johnson, Ellen M. Cressy, Joseph B. Bowes, Irene J. Shepard, Harold E. Chisholm and Harry E. Flanders for the Minority of Environment and Agriculture.

Rep. Elmer Johnson moved that the report of the Minority, Ought to Pass, be substituted for the report of the Majority, Inexpedient to Legislate, and spoke to his motion.

Reps. Bowler and Greene spoke against the motion.

Rep. Kozacka spoke against the motion and yielded to questions.

Rep. Stork spoke in favor of the motion.

Rep. William Roberts spoke in favor of the motion and yielded to questions.

Rep. Townsend moved the previous question. Sufficiently seconded. Adopted.

Rep. Greene requested a roll call. Sufficiently seconded.

HB 393, relative to the minimum wage for youths. Majority: Ought to Pass.
Minority: Inexpedient to Legislate.

MAJORITY: This measure would allow payment of the minimum wage of \$3.35 per hour to ages 16 through 19. The 75% of minimum wage or \$2.51 per hour would apply to under 16 years of age. The existing exemptions in the law would still pertain. It is felt that minimum wage is fair and just for this age group who need such as an aid to college funds or to help their families. Vote 10-9. Rep. Wilfred Burkush for the Majority of Labor, Human Resources and Rehabilitation.

MINORITY: The minority feels that enactment of this bill would deny to teenagers summer and part-time jobs which will both keep them occupied and give them wages. The present law is adequate allowing for 75% of current

minimum wage and does not prevent youths from being paid more in proportion to their efforts, responsibilities and work experience. (Reps. John E. Webster, Avis B. Nichols, Jean H. Duffett, John W. Flanders, Calvin Warburton, William W. Moore, J. Arthur Tufts, Rita C. McAvoy for the Minority of Labor, Human Resources and Rehabilitation).

Rep. Tufts moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority. Ought to Pass, and spoke to his motion.

HB 673-FN, amending the workmen's compensation law relative to scheduled

permanent impairment awards. Inexpedient to Legislate.

The problem this bill addresses is taken care of in an agreed bill of the Workmen's Compensation Council. Vote 12-1. Rep. J. Arthur Tufts for Labor, Human Resources and Rehabilitation.

Resolution adopted.

HB 414, to remove prohibitions against companion animals in housing for the elderly. Ought to Pass with Amendment.

The amendment eliminates most of the objections raised at the hearing. The Committee feels the bill has a worthy objective of providing for pet companionship in those projects where the majority of tenants so desire. Vote 12-4. Rep. Richard A. Grodin for Municipal and County Government.

Amendment

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Subdivision. Amend RSA 167-A by inserting after section 29 the following new subdivision:

Companion Animals
167-A:30 Definitions. In this subdivision:

I. "Animals" shall mean common domesticated household animals limited to: dogs, cats, caged birds, and aquarium fish.

II. "Housing for the elderly" shall mean public housing facilities financed by either the state or federal government to provide living accommodations for persons 60 years of age or older but shall not include nursing homes or high-rise apartment buildings.

167-A:31 Authority. Any housing for the elderly shall permit the tenants of each housing project upon petition of 10 percent of all the tenants to determine by a simple majority vote of those voting whether or not to allow the tenants in their building to have companion animals provided that a 6 month period lapses between votes and that a subsequent vote will not affect animals already on the premises which were permitted by a previous vote. If the vote permits tenants to maintain companion animals on the premises, the tenants shall adopt with input from building management rules relative to reasonable limitations and restrictions to be imposed for maintaining a companion animal that are not covered by RSA 167-A:33. Any complaints regarding a tenant's companion animal shall be handled in the same manner as any other tenant complaint and pursuant to the provisions of RSA 466:31.

167-A:32 Damage Deposit. If companion animals are permitted, tenants desiring to have them as pets shall put up, with the management of the building, a damage deposit which shall be a sum of money not to exceed 1-1/2 times the amount of a month's rent paid by the tenant.

167-A:33 Owner's Responsibility. The tenant owner of a companion animal shall have the following responsibilities:

I. To provide the management with a signed agreement with some person, or other legal entity, other than another tenant, that such person or legal entity shall act as a temporary or permanent caretaker for the companion animal if the owner cannot care for it, whether for a short period of time or permanently.

II. To provide the management with a veterinarian certificate stating that the animal is in good health.

III. To be totally responsible for the care and cleanliness of the companion animal both within the owner's building, on the building grounds, or on adjacent property.

IV. To be limited to no more than 2 companion animals per tenant, with the exception of aquarium fish.

V. To abide by any local ordinances that may affect the custody of certain companion animals.

2 Effective Date. This act shall take effect 60 days after its passage.

HB 698-FN, relative to fireworks.
Inexpedited to Legislate.

The Committee felt that the existing fireworks statutes gave an adequate degree of protection in the handling and shipment of fireworks, and that additional statutes were not needed at this time. Vote 9-3. Rep. Jon H. Perkins for Public Protection and Veterans Affairs.

Resolution adopted.

HB 757, establishing a state fire code.
Ought to Pass with Amendment.

This legislation directs the State Fire Marshal to prepare a "state fire code" of broad applicability, for the protection of people from fire and fire hazards. The code may incorporate provisions of recognized codes as rules; the code will not supercede any local codes or regulations, which are not less restrictive than the code. The State fire code will be especially valuable to those communities which do not have their own codes and regulations. Vote 9-3. Rep. John J. Wallace for Public Protection and Veterans Affairs.

Amendment

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Rules. Amend RSA 153:5 (supp) as amended by striking out said section and inserting in place thereof the following:

153:5 Rules. The state fire marshal shall adopt rules to be known as the state fire code, pursuant to RSA 541-A, to further the purposes of this chapter and such applicable fire safety and building laws, as he shall deem necessary for the protection from fire and fire hazards for people in the state and for the general welfare of property and people within the state. The rules may include, but not be limited to, the keeping, storage, use, manufacture,

sale, handling, transportation or disposal of highly flammable materials and rubbish, and of flammable fluids and compounds and flammable tablets and may include standards for the materials and construction of receptacles and buildings to be used for any of these purposes. The fire marshal may adopt provisions of the national fire protection association code or other recognized codes as rules, in whole or in part. The rules shall apply to the construction and remodeling of buildings and structures for the containment of flammable liquids and to the new installation and replacement of equipment used in connection with flammable liquids. The rules shall apply to existing buildings, structures or equipment. The fire marshal may exempt a building, structure or equipment from such rules if he finds that such exemption does not constitute a hazard to the public welfare and safety. A reasonable time, as determined by the state fire marshal, shall be allowed to make necessary alterations. Nothing in this section shall be construed to prevent municipalities from adopting bylaws or ordinances relative to a subject area of rules adopted by the fire marshal in accordance with this section if such bylaws or ordinances are no less restrictive than those adopted by the fire marshal.

It also provides for the Commission to establish a schedule of fees to be assessed for services rendered under this chapter. Vote 7-1. Rep. M. Arnold Wight, Jr. for Science and Technology.

Amendment

Amend RSA 155-D:4, VII as inserted by section 5 of the bill by striking out same and inserting in place thereof the following:

Such moneys shall be in addition to any funds appropriated to the commission by the general court for administering this chapter.

HB 725-FN, relative to limited electrical energy producers. Majority: Ought to Pass with Amendment. Minority: Refer for Interim Study.

MAJORITY: The bill, as amended, maintains the 5 megawatts limit in definition of "limited producer" or "limited electrical energy producer," sets a limit of 20 megawatts for a "small power production facility" and, at the option of the owner permits such facility to be exempt from property taxation if the owner enters into an agreement to make a payment in lieu of such taxes. It also permits the Public Utilities Commission to set long-term contract pricing. It also permits a limited electrical energy producer to elect the status of a public utility. Vote 6-3. Rep. M. Arnold Wight, Jr., for the Majority of Science and Technology.

MINORITY: The Minority feels that the Limited Electrical Energy Producers Act (LEEPA) of 1981 did not intend to establish the practice of setting long-term rates and contracts as this bill will allow. This drastic change in the intent of current legislation needs a more detailed analysis of the complex issues involved to insure that the consumer is best served. (Reps. Vincent J. Palumbo, Philip Labombarde, Benjamin Newell for the Minority of Science and Technology.)

Amendment

Amend RSA 362-A:1-a, III as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

III. "Limited producer" or "limited electrical energy producer" means a qualifying small power producer or a qualifying cogenerator, with a total capacity of not more than 5 megawatts.

Amend RSA 362-A:1-a, X as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

X. "Small power production facility" means a facility which produces electric energy solely by the use, as a primary energy source, of biomass, waste, renewable resources, or any combination thereof and which has a power production capacity which, together with any other facilities located at the same site, as determined by the commission, is not greater than 20 megawatts.

Amend the bill by striking out all after section 1 and inserting in place thereof the following:

2 Exemption. Amend RSA 362-A:2 (supp) as inserted by 1978, 32:1 by striking out said section and inserting in place thereof the following:

362-A:2 Exemption of Limited Electrical Energy Producers. Limited electrical energy producers shall be exempt from all rules and statutes relative to electric utility rates or relative to the financial or organizational regulation of electric utilities. A limited electrical energy producer may elect to adopt the status of a public utility in accordance with the laws of the state.

3 Public Utility Purchases. Amend RSA 362-A:3 (supp) as inserted by 1978, 32:1 as amended by striking out said section and inserting in place thereof the following:

362-A:3 Purchase of Output of Limited Electrical Energy Producers by Public Utilities. The entire output of electric energy of such limited electrical energy producers, if offered for sale to the electric utility, shall be purchased by the electric public utility which serves the franchise area in which the installations of such producers are located.

4 Electric Rates; Disputes. Amend RSA 362-A:4 and 362-A:5 (supp) as inserted by 1978, 32:1 by striking out said sections and inserting in place thereof the following:

362-A:4 Payment by Public Utilities for Purchase of Output of Limited Electrical Energy Producers. Public utilities purchasing electrical energy in accordance with the provisions of this chapter shall pay prices per kilowatt hour to be set from time to time by the commission. The commission shall set rates to be in effect for a period of not less than one year. Such purchases shall be based on the purchasing utility's costs calculated for such period. The commission may set long term rates which shall, at the option of the limited producer, be based on the purchasing utility's costs either calculated for the term of delivery or calculated for a specified term at the time the limited producer agrees to be obligated to deliver for the specified term. Nothing in this section shall limit the authority of any electric utility or any limited producer to agree to a rate for any purchase which differs from the rate or terms or conditions which would otherwise be required by the commission.

362-A:5 Settlement of Disputes. Any dispute arising under the provisions of this chapter may be referred by any party to the commission for adjudication.

5 Optional Tax Exemption. Amend RSA 362-A:6 (supp) as inserted by 1981, 545:5 by striking out said section and inserting in place thereof the following:

362-A:6 Tax Exemption of Small Scale Power Facilities.

I. As used in this section, "small scale power facility" means any real or personal property used in the production of electric power by a qualifying small power production facility which uses water as a primary energy source, including the land, all rights, easements, and other interests thereto (excluding transmission lines from such facilities), and all dams, buildings, structures and other improvements situated thereon which are necessary or incidental to the production of power at the facility.

II. Any small scale power facility which begins commercial operation after August 29, 1981, may, at the option of the owner of such facility, be exempt from property taxation. If the owner of such facility elects to be exempt from taxation under this section, he shall enter into an agreement with the city or town in which the facility is located to make a payment in lieu of taxes. The payment shall be at least 2-1/2 percent, but not more than 5 percent, of the gross revenues of the facility in the preceding calendar year. Should the owner of a small scale power facility and the city or town fail to agree on the percentage of gross revenues to be paid in lieu of taxes, the commission shall determine the percentage of gross revenue payable by the owner in lieu of property taxes. An exemption under this section shall be allowed for a period of 20 years.

6 Effective Date. This act shall take effect 60 days after its passage.

HB 439, relative to taking of property by eminent domain by a public utility for power lines. Inexpedient to Legislate.

HB 460, amending the truck weight and size laws to conform to federal requirements. Ought to Pass with Amendment.

Passage of this bill is necessary in order to bring state statutes regarding truck weights and sizes into conformity with the Federal Surface Transportation Act of 1982. Physical changes in equipment are not of great magnitude, but tend to make units more stable by controlling weight distribution of loads. The bill also permits operation of double trailers on interstate and defense highway systems and on a limited number of other highways for purposes of off-loading cargoes. Vote 13-0. Rep. Irvin H. Gordon for Transportation.

Amendment

Amend RSA 259:100-a as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

259:100-a Single Unit Vehicle. "Single unit vehicle" shall mean a truck consisting of cab, chassis and body capable of carrying a load and not primarily designed for drawing other vehicles.

Amend RSA 259:115-a as inserted by section 6 of the bill by striking out same and inserting in place thereof the following:

apart, and which tridem unit measures less than 12 feet overall between the centers of extreme axles, extending across the full width of the vehicles; except that for vehicles being driven on the interstate and defense highway system with a gross weight in excess of 73,280 pounds, a tridem shall measure not less than 40 inches nor more than 96 inches between the parallel vertical planes.

Amend RSA 265:108 as inserted by section 9 of the bill by striking out same and inserting in place thereof the following:

265:108 Certain Towing Prohibited. Except for duly registered wrecking vehicles, no vehicle, truck-tractor, or tractor may tow on any way more than one motor vehicle, truck-tractor, tractor, trailer or semi-trailer, except when used exclusively for agricultural purposes, and except that commercial motor vehicle combinations consisting of a truck-tractor, semi-trailer and not more than one full trailer may be driven on any interstate and defense highway and on sections of the turnpike system and sections of the federal-aid primary system as designated by the commissioner of the department of public works and highways, and on such access routes to terminals, facilities for food, fuel, repairs and rest as the commissioner of the department of public works and highways shall designate. Access routes for truck-tractor, semi-trailer, full trailer combinations to and from the interstate system, designated turnpike system and designated federal aid primary system roadways from and to terminal facility sites and facilities for food, fuel, repairs and rest may be designated by application in writing to the commissioner of the department of public works and highways by the facility operator or owner. Access to points of loading and unloading for household goods carriers may be granted on an individual basis by application to the department of public works and highways. Said approval, based on reasonably safe highway and driving conditions, may be granted for class I and class II highways and, with concurrence of local officials, for class IV and class V highways.

Amend RSA 266:11-a as inserted by section 11 of the bill by striking out same and inserting in place thereof the following:

266:11-a Length Exceptions. Notwithstanding the provisions of RSA 266:11, it shall be lawful to drive on the ways of this state a vehicle or a combination of vehicles that exceed the length limits in RSA 266:11 if such vehicle or combination is transporting poles, logs, timbers or metal in a case in which the load is not readily divisible and such overhang does not interfere with steering the vehicle.

Amend RSA 266:12 as inserted by section 12 of the bill by striking out same and inserting in place thereof the following:

266:12 Width. The driving on ways of this state of any vehicle whose width including load exceeds the limitations of this section is hereby prohibited:

I. A vehicle in excess of 96 inches in width or, in the case of a bus or in the case of a vehicle being operated on

any way with lanes at least 12 feet wide, in excess of 102 inches in width.

II. A passenger type vehicle that is carrying a load which extends over the sides of the vehicle beyond the line of the fenders on the left side or extends more than 6 inches beyond the line of the fenders on the right side of the vehicle.

Amend the bill by striking out all after section 14 and inserting in place thereof the following:

15 Maximum Weights. Amend RSA 266:18 as inserted by 1981, 146:1 by striking out said section and inserting in place thereof the following:

266:18 Weight. The driving on ways of this state of any vehicle or combination of vehicles exceeding the limitations of this section is hereby prohibited; provided, however, that any police officer may allow on any way other than the interstate and defense highway system a tolerance of 5 percent above said limitations.

I. Maximum tire and axle gross weights allowable:

(a) 600 pounds per inch of width of tire.

(b) When being driven with a gross weight in excess of 73,280 pounds on the interstate and defense highway system:

(1) 20,000 pounds per axle on axles more than 8 feet apart;

(2) 17,000 pounds per axle on axles not more than 8 feet apart.

(c) When being driven on the interstate and defense highway system with a gross weight not in excess of 73,280 pounds, or on any other way:

(1) 22,400 pounds per axle on 3-axle single unit vehicles and on all other vehicles with axles 10 feet or more apart, including combination vehicles.

(2) 18,000 pounds per axle on axles of vehicles less than 10 feet apart, except 3-axle single unit vehicles.

(d) Two axles less than 40 inches apart shall be considered as a single axle unit.

II. Maximum allowable vehicle gross weights:

(a) For 2-axle vehicles, 33,400 pounds.

(b) For single unit 3-axle vehicles driven on any way other than the interstate and defense highway system, 55,000 pounds.

(c) For single unit 3-axle vehicles driven on the interstate and defense highway system, 47,500 pounds, or a gross weight not in excess of that produced by application of the weight formula as defined in subparagraph (i), whichever is greater.

(d) For single unit 4-axle vehicles being driven on any way other than the interstate and defense highway system, 60,000 pounds. Such vehicles shall have drive on 2 rear axles and the tridem may contain not more than one retractable axle and, if not factory installed and load equalizing, must provide a system of load equalization by hydraulic, pneumatic or mechanical means, and be equipped with brakes.

(e) For single unit 4-axle vehicles being driven on the interstate and

defense highway system, 47,500 pounds, or a gross weight not in excess of that produced by application of the weight formula as defined in subparagraph (i), whichever is the greater. Such vehicles shall have drive on 2 rear axles and the tridem may contain not more than one retractable axle and, if not factory installed and load equalizing, must provide a system of load equalization by hydraulic, pneumatic or mechanical means, and be equipped with brakes.

(f) For a combination of truck-tractor and semi-trailer equipped with 3 axles, the gross weight shall not exceed those set forth in the following table:

Distance Between Extreme Axles in Feet	Maximum Gross Weight In Pounds
28	60,500
29	61,500
30	62,000
31	62,500
32	63,500
33	64,000
34	64,500
35	65,500
36	66,000
37	66,500
38	67,500
39	68,000

Distance Between Extreme Axles in Feet	Maximum Gross Weight In Pounds
25	54,500
26	55,500
27	56,000
28	57,000
29	57,500
30	58,500
31	59,000
32	60,000

Further provided that the maximum tire and axle gross weights as provided in paragraph I shall apply and the maximum load in pounds carried on any group of 2 or more consecutive axles shall not exceed that produced by application of the weight formula as defined in subparagraph (i).

(g) For a combination of truck-tractor and semi-trailer equipped with 4 axles, the gross weight shall not exceed that set forth in the following table:

Further provided that the maximum tire and axle gross weights as provided in paragraph I shall apply and the maximum load in pounds carried on any group of 2 or more consecutive axles shall not exceed that produced by application of the weight formula as defined in subparagraph (i).

(h) For a combination of truck-tractor and single semi-trailer with 5 or 6 axles with gross weight not in excess of 73,280 pounds, the weight on any single axle shall not exceed 22,400 pounds and the weight on any tandem axle shall not exceed 36,000 pounds.

(i) For a combination of truck-tractor and single semi-trailer equipped with 5 or 6 axles with a gross weight in excess of 73,280 pounds or a combination of truck-tractor and more than one trailing unit being

driven upon any way of this state, the total gross weight shall not exceed 80,000 pounds including all law enforcement tolerances, and the overall gross weight on a group of 2 or more consecutive axles shall not exceed that produced by application of the following formula, known as the weight formula:

$$W = 500 + \frac{LN}{N - 1} + 12 N + 36$$

(In which W equals overall gross weight on any group of 2 or more consecutive axles to the nearest 500 pounds; L equals the distance measured to the nearest foot between the extreme of any group of 2 or more consecutive axles; and N equals the number of axles in the group under consideration.) Except that 2 consecutive sets of tandem axles may carry a gross load of 34,000 pounds each provided the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more and provided that such gross weight shall not exceed 80,000 pounds, including all law enforcement tolerances.

The formula $W = 500 + \frac{LN}{N - 1} + 12 N + 36$

when expressed in tabular form results in maximum allowable load in pounds carried on any group of 2 or more consecutive axles as follows:

*Distance in feet between the extremes of any group of 2 or more consecutive axles.

The permissible loads are computed to the nearest 500 pounds. The modification consists of limiting the maximum load on any single axle to 20,000 pounds.

(j) The following loaded vehicles shall not be driven over H15-44 bridges:

(1) A combination vehicle equipped with 5 axles in the configuration of 3-axle truck-tractor and 2-axle semi-trailer with wheelbase less than 38 feet or 2-axle truck-tractor with 1-axle semi-trailer and 2-axle full trailer with wheelbase less than 45 feet.

(2) A loaded single unit vehicle with full trailer equipped with 6 axles with wheel base less than 45 feet.

(3) Vehicles with 7, 8, or 9 axles.

(k) Coupled vehicles consisting of a truck together with a

trailer attached to the truck by a pintle hook or similar coupling device with adequate brake away protection as provided in RSA 266:63 may be driven provided the total combined gross weight of the vehicles does not exceed 80,000 pounds and provided that each unit of the coupled vehicles shall be limited to the maximum permissible axle weights and gross weights of the individual units and further provided that when being driven on the interstate and defense highway system the weight of 2 or more consecutive axles of the coupled vehicle shall not be in excess of that produced by application of the weight formula as defined in subparagraph (i) and shall be limited to a total combined gross weight not in excess of 80,000 pounds, a single axle limit of 20,000 pounds and a tandem axle limit of 34,000 pounds.

III. A vehicle or combination of vehicles equipped with any solid rubber tires shall not have weights more than 80 percent of those permitted in this section; provided that no vehicle equipped with solid

rubber tires which has at any point less than one inch of rubber above the top or beyond the flange or rim shall not be driven upon any way.

IV. Motor vehicles or vehicles drawn by motor vehicles when equipped with metal or other hard tires shall not have weights more than 40 percent of those permitted by this section. V. The provisions of this section shall not apply to vehicles used exclusively in the surfacing of ways of the state of New Hampshire, or subdivisions thereof; provided that the commodities of tar, asphalt, or the combination thereof shall not exceed 2,000 gallons on any 2-axle vehicle, or 4,000 gallons on any 3-axle vehicle.

VI. A vehicle or combination of vehicles shall not be driven or moved over any bridge or other structure on any way if the weight of such vehicle, or combination of vehicles and load, is greater than the capacity of the structure as shown by a sign on the right side of or overhead on the structure.

VII. It shall be the duty of the commissioner of public works and highways to cause signs to be erected at both ends on the right side of or overhead on all bridges or other structures under his jurisdiction stating the capacity in tons of 2,000 pounds which the bridge or other structure will safely carry. For all other bridges or other structures it shall be the duty of the authority having jurisdiction to place similar signs.

The signing message for posting of weight limits for bridges and structures shall read as follows:

WEIGHT
LIMIT
X
TONS

If the authority determines that a bridge or other structure may safely carry loads greater than this limit by vehicles with 3 or more axles, the signs shall read as follows:

GROSS WEIGHT LIMIT
X TONS OR
YZ OF LEGAL LOADS

"X" is the numerical value that equals the posted maximum legal gross weight limit for a 2-axle vehicle. "YZ" is the numerical value expressed as a percentage of the maximum legal gross weight limit of any single axle or tandem axle, and the combined gross weight limit of any 3-axle truck or any combination as noted in this section. Where no special permit loads are allowed the signing message for posting shall read as follows:

NO PERMIT LOAD
LEGAL LOADS MAXIMUM

Upon bridges or other structures of sufficient strength to carry safely the legal loads permissible by this section, no such signs shall be required.

VIII. A determination of the gross weight of vehicles under the tables as set

forth in this section shall, in cases in which the distance between extreme axles is not in exact number of feet, be governed by the following: if the distance is 6 inches or less in excess of the number of feet stated in the table, the gross weight shall be deemed to be the number of feet stated in the table; if the distance is more than 6 inches in excess of the number of feet in the table, the gross weight shall be deemed to be the next higher number of feet.

16 Powers of Commissioner. Amend RSA 266 by inserting after section 18 the following new section:

266:18-a Assembly or Disassembly of Double Trailers. The commissioner of public works and highways, by rule adopted pursuant to RSA 541-A, shall have the authority to prohibit and to approve suitable locations for the assembly and disassembly of truck-tractor, semi-trailer, full trailer combinations, and these rules shall have the force of law. No truck-tractor, semi-trailer, full trailer combination shall be assembled or disassembled on the roadway or shoulder of any way, nor within a state or municipally owned right of way, nor at state operated rest areas, weigh stations or car pool parking lots, nor at any other location prohibited by the commissioner of public works and highways. Any person who shall violate the provisions of this section shall be guilty of a misdemeanor.

17 Repeal. RSA 266:19, relative to weight exception for combination vehicle and semi-trailer, is hereby repealed.

18 Converter Dollies on Full Trailers. Amend RSA 266:63 as inserted by 1981, 146:1 by striking out said section and inserting in place thereof the following:

266:63 Trailer Breakaway Safety Chains. Every trailer or semi-trailer including farm and agricultural vehicles shall have, in addition to the tow-bar or coupling device, a safety chain or cable to prevent breakaway from the towing vehicle. Each chain or cable shall have an ultimate strength at least equal to the gross weight of the trailer and load being towed. Chains or cables shall be connected to the towed and towing vehicle to prevent the tow-bar from dropping to the ground in the event the tow-bar fails. This provision shall not apply to truck-tractor and semi-trailer units equipped with fifth wheel mechanisms, nor to full trailers being driven as part of a truck-tractor, semi-trailer, full trailer unit when the full trailer is attached to the semi-trailer by means of a converter dolly or fifth wheel mechanism.

19 Effective Date. This act shall take effect upon its passage.

Amendment adopted.
Ordered to third reading.

SUSPENSION OF RULES

Reps. Rounds and Chambers moved that the Rules be so far suspended as to permit consideration at the present time of HR 34, requesting an opinion of the Justices on HB 674-FN, without referral to committee, printing, public hearing, committee report and notice in the Calendar.

Rep. Scamman spoke in favor of the motion.

Adopted by the necessary two-thirds.

HOUSE RESOLUTION NO. 34

requesting an opinion of the Justices on HB 674.

WHEREAS, HB 674-FN would repeal the business profits tax, RSA 77-A, and would replace it with uniform business tax on business organizations previously subject to tax under RSA 77-A, and

WHEREAS, HB 674-FN establishes a distinct class of property defined as the business organization's "tax base" with respect to which the uniform business tax is imposed, and

WHEREAS, "tax base," as defined in HB 674-FN, means taxable income of the business organization reduced by an apportionment factor and increased or decreased, as the case may be, by certain adjustments, all as defined in the bill, and

WHEREAS, HB 674-FN would impose a tax at a uniform rate of one percent on "tax base," and

WHEREAS, "tax base" as defined in HB 674-FN, includes compensation and benefits paid, less a \$25,000 blanket deduction, and

WHEREAS, under HB 674-FN corporations, proprietorships and partnerships will be required to pay the uniform business tax on amounts over \$25,000 while an individual employed by a corporation, proprietorship or partnership will pay no tax under HB 674-FN, and

WHEREAS, the stated purpose of the bill is to spread the burden of taxation more equally among all business organizations, now therefore, be it

RESOLVED, by the House of Representatives, that the Justices of the Supreme Court be respectfully requested to give their opinion upon the following questions:

1. Would establishment of "tax base" as a class of property, as proposed and defined in HB 674-FN, exceed a reasonable exercise of the General Court's power to classify property for purposes of taxation, under Part II, Article 6 of the New Hampshire Constitution?

2. Would enactment of HB 674-FN, which imposes a uniform business tax on a business organization's tax base, which is determined by allowing a deduction of \$25,000 with no specific compensation deductions, have the effect of impermissible classifying taxpayers under Part I, Article 12 and Part II, Article 5 of the New Hampshire Constitution and as discussed by this Court in Opinion of the Justices, 106 N.H. 202 (1965)?

3. If the answers to questions 1 and 2 are in the negative, would imposition of a tax on "tax base" at the uniform rate set forth in HB 674-FN offend the requirements for equality and proportionality mandated by Part I, Article 12 and Part II, Article 5 of the New Hampshire Constitution?

That the clerk of the House transmit 7 copies of this resolution to the Justices of

the Supreme Court along with an equal number of copies of HB 674-FN.

Hearing no objection, the Chair advised the Clerk to dispense with the reading of the resolution.

Rep. Scamman explained the resolution. Adopted.

COMMITTEE REPORTS (Consent Calendar)

HB 424-FN, relative to classifying mobile homes as real property. Inexpedient to Legislate.

The Committee felt that the provisions of this bill had merit but also recognized that there was a vehicle for this resolution in HB 63. The Committee agreed with the intent of HB 424 that mobile homes be classified as real property and sold by real estate brokers in the same manner as proposed. Vote 13-0. Rep. Tom Longworth for Commerce, Housing and Consumer Affairs.

HB 473, relative to gasoline credit account charges. Ought to Pass.

This bill makes void any agreement between a supplier and a dealer who have a franchise agreement with each other and requires the dealer to pay any fee, charge or discount to the supplier for honoring a credit card which the supplier issued. The bill also prohibits any agreement which requires the dealer to submit to the supplier, evidence of the indebtedness of the card holder, in exchange for payment on credit to the seller's account. SALES AGREEMENTS

361-D:1 Definitions. In this chapter:

I. "Goods" means all goods, including mobile homes as defined in RSA 259:56, which are used or bought primarily for personal, family or household purposes. Goods shall include goods which are to become fixtures or which are to become incorporated into a structure. Goods shall also include gift certificates. Goods shall not include money or choses in action.

II. "Installment buyer" or "buyer" means a person who buys or agrees to buy goods or who obtains services or agrees to have services furnished or rendered or who obtains merchandise certificates under a retail installment sale agreement, or revolving credit agreement, or any legal successor in interest to such person, notwithstanding that he may have entered into one or more extension, refinancing or consolidation agreements.

III. "Installment seller" or "seller" means a person who sells or agrees to sell goods or services or both, or merchandise certificates, pursuant to a retail installment sale agreement, or revolving credit agreement.

IV. "Merchandise certificate" or "coupon" means a writing issued by a seller, not redeemable in cash and usable in its face amount in lieu of cash in exchange for goods or services supplied by the seller. The issuance of the merchandise certificate or coupon shall be deemed to be a transaction giving rise to indebtedness of a buyer to the seller of goods, services or insurance for a part or all of the purchase price thereof upon issuance.

V. "Retail installment sale agreement" means an agreement, other than a revolving credit agreement or agreement reflecting a sale made pursuant thereto, signed by the buyer in this state, involving a finance charge and providing for the sale of goods or the rendering of services or both, or for the issuance of merchandise certificates, for a specified amount which the buyer undertakes to pay in more than one payment subsequent to the making of the agreement, or not involving a finance charge and providing for the sale of goods or the rendering of services or both, or for the issuance of merchandise certificates, for a specific amount which the buyer undertakes to pay in 5 or more installments subsequent to the making of the agreement. A retail installment sales agreement shall not include an agreement signed by a nonresident buyer in this state if such buyer has agreed that the law of his state shall apply. "Retail installment sale agreement" shall also include any contract in the form of a bailment or lease if the bailee or lessee contracts to pay as compensation for use a sum substantially equivalent to or in excess of the value of goods involved; and it is agreed that the bailee or lessee will become, or for no other or for a nominal consideration has the option to become, the owner of the goods upon full compliance with his obligations under the contract. A retail installment sale agreement shall not include an agreement which provides:

- (a) For the payment of the total sale price in no more than 3 monthly installments; and
- (b) A finance charge not in excess of \$1; and
- (c) No collateral security for the seller.

VI. "Revolving credit agreement" means an agreement, other than a retail installment sale agreement, signed by the buyer in this state pursuant to which the buyer may purchase at retail, goods or services or merchandise certificates on credit from time to time and under the terms of which a finance charge is to be computed in relation to the buyer's balance from time to time. A revolving credit agreement shall not include an agreement signed by a nonresident buyer in this state if the buyer has agreed that the law of his state shall apply.

361-D:2 Payment in Full Before Maturity; Refund Credit.

I. Notwithstanding the provisions of any retail installment sale agreement to the contrary, a buyer may pay the amount due in full at any time before the maturity on the final installment thereof and, if he does so, shall receive and be entitled to receive a refund credit thereon and, if the retail installment sale agreement included an amount for insurance, a further refund credit thereon for such anticipation, whether or not the maturity of the scheduled payment of the agreement was accelerated by the holder by reason of a buyer's default.

II. Except as provided in paragraph III, such refund credit shall be computed on a method which is at least as favorable to the buyer as the so-called

actuarial method. If the prepayment is made other than on an installment due date, it shall be deemed to have been made on the first installment due date if the prepayment is before that date; and, in any other case, it shall be deemed to have been made on the next preceding or next succeeding installment due date, whichever is nearer to the date of prepayment. If a contract has been extended and is prepaid in full during an extension period, the buyer shall receive, in addition, the refund of that portion of the extension charge applicable to any unexpired months of the extension period.

III. If the amount of credit for anticipation of payment is less than \$1, no refund need be made.

IV. On contracts payable in substantially equal successive monthly installments commencing 2 or more months after the date of the contract, the computational period for refund shall commence with the date of the contract; or, if the goods are delivered or services performed 10 days or more after the date of the contract, the computational period shall commence with the date of delivery or performance of the services.

361-D:3 Penalties.

I. Any installment seller who shall willfully and intentionally violate any provisions of this chapter shall be guilty of a misdemeanor.

2 Effective Date. This act shall take effect January 1, 1984, at 12:01 a.m.

HB 812-FN, authorizing towns and cities to enact rent review legislation. Inexpedient to Legislate.

The Committee felt that rent control would discourage landlords from building more rental units. Thus the shortage of housing would be increased. Vote 13-1. Rep. Harold W. Burns for Commerce, Housing and Consumer Affairs.

HB 815, relative to the flexibility of rules governing small businesses. Ought to Pass.

This bill requires each agency to consider the impact on small business when they propose any rule. Vote 13-0. Rep. Harold W. Burns for Commerce, Housing and Consumer Affairs.

HB 832-FN, establishing a community development finance authority. Ought to Pass.

HB 842, relative to a residential consumers utility board. Inexpedient to Legislate.

The Committee felt this would set up a consumers' utility board by voluntary joining and paying dues. It felt such a board would represent only its own members and not the general public. The bill would give legislative sanction to this group over all other consumer groups. The first motion was to send to interim study which lost 10-3. Vote 12-1. Rep. William L. Roberts for Commerce, Housing and Consumer Affairs.

HB 512, relative to clarification of certain terms regarding school children. Ought to Pass with Amendment.

HB 512 clarifies certain terms regarding the residence of children for purposes of school district liability. It eliminates the present requirement that the State Board of Education hear special education appeals, which is no longer permitted under federal regulations. The amendment also requires that copies of the special education report of the Department of Education be conveyed to the House and Senate Education Committees. Vote 16-0. Rep. Betty Jo Taffe for Education.

Amendment

Amend RSA 193:27, IV as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

IV. "Sending district" means the school district in which a child most recently resided other than in a home for children, health care facility, or state institution, if such child is not in the legal custody of a parent or if the parent resides outside the state; if the child is retained in the legal custody of a parent residing within the state, "sending district" means the school district in which the parent resides. Notwithstanding the previous sentence, a school district in which a child resided on a temporary basis without parental intent to remain permanently or indefinitely shall not be considered a sending district for purposes of RSA 193:29; the term "sending district" shall not include living arrangements made under a court order of a temporary or interlocutory nature.

6 Effective Date. This act shall take effect 60 days after its passage.

HB 525-FN, relative to the liability for the placement of children. Inexpedient to Legislate.

HB 525 would require the court to order the person chargeable by law for a child's support to reimburse the town for expenses of a court-ordered disposition, as may be reasonable and just. The Committee feels this should be left to the discretion of the court, as the law presently provides. Vote 17-0. Rep. Betty Jo Taffe for Education.

HB 658, relative to special education for certain minors and children. Ought to Pass with Amendment.

HB 658 as amended authorizes the court under juvenile proceedings to join the legally liable school district to direct the district to determine if the child is educationally handicapped under RSA 186-C. It provides that no school district shall pay for educational programs except as provided by RSA 186-C. The bill is needed to provide coordination between the schools and the courts. It does not require the school districts to do anything not already required under RSA 186-C. Vote 16-1. Rep. Betty Jo Taffe for Education.

HB 615, permitting benefit payment deductions for group carriers other than Blue Cross. Ought to Pass with Amendment.

The Committee believes that payment deductions for group medical insurance should not be limited to a single carrier as it now is. In addition, employers who fail to enroll an employee within the prescribed registration restraint shall be required to pay the actuarial fee for enrollment. Vote 17-0. Rep. Kenneth W. Malcolm for Executive Departments and Administration.

Amendment

VI. If a member of this system or a predecessor system ceases to be a member and withdraws his accumulated contributions, and later again becomes a member and wishes to receive prior service credit for the previous time served as a member, or if a member wished to receive credit for the period which he was employed in a temporary capacity previous to becoming a member, he may petition the board of trustees to obtain an actuary's statement indicating the costs, providing he agrees to pay for the statement; and upon payment of the amount determined by the actuary and with approval of the board, he shall receive credit for his previous service, or the period served in a temporary capacity. In the case of an employer which through its own fault and not the fault of the employee, failed to enroll an eligible employee, at the time such employee became eligible, in this retirement system or a predecessor system as required by this section, the employer and not the employee shall pay the cost of the actuary's statement obtained under this paragraph, regardless of whether the employee is actually credited for his prior service. Any member who wishes to receive credit for service in a temporary capacity prior to becoming a member shall pay both the member annuity savings fund share plus accumulated earnings thereon and the state annuity accumulation fund share plus accumulated earnings thereon before receiving credit for such temporary service.

3 Effective Date. This act shall take effect July 1, 1983.

This special account shall be used only to fund or partially fund additional benefits for members of the retirement system.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Appointment of Guardian. Amend RSA 464-A:9 by inserting after paragraph III the following new paragraph:

III-a. HB 651-FN, relative to repayment of counsel expenses by indigent defendants. Ought to Pass.

This bill repeals a footnote in last year's budget that requires that an indigent defendant work off the costs of his legal defense at \$25 a day, and

makes the mandatory repayment provisions of current law discretionary. There was testimony indicating that the costs of collecting this money exceeded the amount collected. Vote 14-0. Rep. Donna P. Sytek for Judiciary.

HB 666-FN, relative to district court financing by district court districts. Inexpedient to Legislate.
