# UTAH STATE UNIVERSITY'S CEREMONIAL MACE

The top of the mace depicts a flame of crystal tinted with Aggie blue and modeled after the “lamp of learning,” the classical symbol of knowledge and freedom. Imbedded within it is a brushed copper disk emblazoned with the University’s seal.

The copper bezel below this crystal has 13 sunstones set into it. These symbolize the 13 presidents who guided the institution through its first century.

The white oak shaft comes from wood that was originally part of the banisters of Old Main and rescued from the building after the fire of 1983.

The base consists of limestone provided by the Church of Jesus Christ of Latter-day Saints and taken from the same quarry that was used to build the Logan Temple.

Thus, the mace represents the essence of our land-grant institution: seated in the bedrock of our community, striving and growing ever higher, crowned by the light of learning.

## A BRIEF HISTORY OF MACES

Maces have long been part of academic heraldry, though their function was not always ceremonial. Originally weapons of war, maces are featured often in ancient Egyptian art where kings are shown ritually smiting their foes. This original function has not been entirely lost. Campus officials in the Middle Ages more than once kept students in line by employing their

university’s mace in a manner recalling its primitive function. Even in the modern age, it is not unknown for a university mace to be used in this way. For instance, during the commencement ceremonies at Cornell in 1973, when a professor of medieval studies who was carrying the university’s mace in a procession was confronted by protesters, he wielded his academic training and the mace in its original fashion.

But university maces today are, for the most part, treated as decorative emblems symbolizing the institution’s authority. Seen most often at commencement and other solemn occasions, they remind those in attendance of the deep traditions inherent in a student’s journey through university studies. Like the word for the ceremony itself, “commencement,”—which admonishes its participants to remember that this is a celebration of beginnings, not endings—the mace turns the eye forward to the life to come by recalling the rich academic heritage of higher learning and the promise of attainment that comes through education and self-betterment. Our mace, thus, combines elements of both the old and the new, traditional features like gems and stone enhanced with modern designs such as arcs of faceted crystal. Both an impressive work of art and a hallmark of the university’s history, this mace brings to light everything that is best about Utah State University.

# ACADEMIC HERALDRY

---

The history of academic heraldry reaches back into the early days of the university. A statute of 1321 required that all "Doctors, Licentiates and Bachelors" of the University of Coimbra wear gowns. In England, in the fourteenth century, the statutes of certain colleges forbade "excess in apparel" and prescribed the wearing of a long gown, necessary, no doubt, for warmth in the unheated buildings frequented by medieval scholars. Hoods were used to cover the head until replaced by the skull cap and later academic caps. Both Cambridge and Oxford have made academic dress a matter of university control down to the most minor detail; and in Oxford during the seventeenth century any tailor who changed the authorized design "even by a nail's breadth" was punished by the vice-chancellor of the university. When American colleges and universities decided to adopt some suitable system of academic apparel, it seemed best to agree on one that all might follow. Accordingly, there was held on May 16, 1895, at Columbia University, a conference of representatives of the boards of various interested institutions. From that meeting came a code of academic dress for the colleges and universities of the United States, which most institutions of higher learning have adopted.

## GOWNS

The academic gown for the bachelor's degree has pointed sleeves and is designed to be worn closed. The gown for the master's degree has an oblong sleeve, open at the wrist. The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is designed this way so that it can be worn open or closed. The gown for the doctoral degree has bell-shaped sleeves and may be worn open or closed.

## COLORS

For all academic purposes, including trimmings of doctoral gowns, edging of hoods and tassels of caps, the colors associated with the different academic disciplines are as follows:

Agriculture, *Maize*  
Arts, *Brown*  
Business, *Drab*  
Education and Human Services,  
*Light Blue*  
Engineering, *Orange*  
Humanities and Social Sciences,  
*White*  
Natural Resources, *Russet*  
Science, *Gold-Yellow*  
School of Graduate Studies, *Black*

The white ribbon with the Greek key on the robe of a graduate identifies an inductee into Phi Kappa Phi, the National Scholastic Society. Those wearing gray collars and a medallion are Mortar Board Senior Honor Society members. A gold braided cord draped over the cowl distinguishes a graduate of Honors.

## HOODS

Academic hoods are worn by recipients of advanced degrees. The master's degree hoods are three-and-one-half feet in length and are lined with the official color or colors of the college or university conferring the degree, which at Utah State University are navy blue and white, displayed in a heraldic chevron. The doctoral hood consists of a larger and longer assemblage of institutional color draped over the recipient's shoulders and falling well down the back. The binding or edging of the hoods is of velvet or velveteen, three inches wide for the master's degree and five inches wide for the doctoral degree.

## CAPS

Academic caps come in two forms: the traditional mortarboard (from Oxford) or square cap; and a soft cap that resembles an oversized beret (from Cambridge). The mortarboard used by Utah State University is worn with a tassel. Black tassels designate the graduate's major field of learning, and gold tassels indicate doctors and the governing officials of institutions.

## ACADEMIC PROCESSION

The commencement procession originates at the University Quad and the line of march proceeds to the Dee Glen Smith Spectrum. The procession is composed of three divisions: (1) color guard, University President, Regents and the Board of Trustees, administrative officers and special guests; (2) the faculty; and (3) candidates for degrees. The procession stops at the tunnel entrance to the Spectrum, the first two divisions dividing so that the candidates for graduation pass between them and enter the hall first.

**THE LUND ACT** MARCH 8, 1888

In 1888, the Territory of Utah took advantage of the provisions of the Morrill Act that established the land-grant system of public colleges and universities. On March 8, 1888, the Utah Territorial Assembly passed, and territorial Governor Caleb West signed, the Lund Act that created the Agricultural College of Utah.

The Lund bill, named after Anthon H. Lund of the Utah Territorial Legislature, stated that “The leading objective of the Agricultural College of Utah shall be to teach such branches of learning as are related to agriculture and the mechanical arts, and such other scientific and classical studies as shall promote the liberal and practical education of the industrial classes in the several pursuits and professions of life.”

Utah State University is proud to celebrate 125 years of teaching and research excellence that started with a vision in 1888 to provide educational opportunities for the people of Utah. We are proud to extend that vision as Utah State University has grown to be a premier research institution that is nationally and internationally recognized.

# A MESSAGE FROM PRESIDENT STAN L. ALBRECHT

---

Congratulations, graduates, on the many things you have accomplished to reach this special occasion. Today, you both complete an important life journey and embark on another. For some, that will mean beginning a new career; for others it will mean continuing graduate or professional school training. I wish you great success in whatever comes next and trust that your experience at Utah State University has prepared you well for what is ahead.

Earlier this year we celebrated the university's 125th birthday. The birthday is a reminder of the many dreams made possible because of the foresight and vision of our Utah Territory leaders in 1888. Anthon H. Lund, of the Utah Territorial Legislature, introduced the bill to establish an agricultural college in Utah as provided for in the Morrill Act. After much debate and political wrangling, it was decided that the college should be built in Cache County. The Lund Act, authorizing formation of a land-grant college, was signed March 8, 1888, thus establishing the Agricultural College of Utah later to become Utah State University.

These commencement ceremonies are, for me, an affirmation of human potential, an affirmation of hope for communities everywhere. A world-class faculty has helped you learn the details of your chosen professions. But in addition to that critically important preparation for your life's work, we hope we have also instilled in you other ideals, as well. I hope we have fanned the fires of caring, of giving, of taking responsibility. I hope we have cultivated passion, adventure, and understanding. You are a different person today than you were four or more years ago when you first walked across the Quad in front of Old Main. We hope you see yourself as a better person as well.

President

## CHARLES D. DENSON

Internationally known businessman Charlie Denson is responsible for leading the strategy of the world's most distinctive, authentic and connected brand in sports. As president of Nike Brand, Mr. Denson is responsible for the company's major, global categories, including Action Sports, Basketball, Football (Soccer), Men's Training, Running, Sportswear and Women's Training, as well as the Jordan Brand and Nike Golf.

In a career that spans more than 30 years, Mr. Denson began with Nike in 1979 after graduating from Utah State University with a bachelor's degree in business administration in 1978. Starting as assistant store manager of "The Athletics Department" at Nike's first retail store in Portland, Oregon, Mr. Denson quickly moved up the ranks. He has held many positions over the years, including time as vice president of United States and European sales and as general manager of Nike USA. As an innovator in developing sales and distribution strategies, Mr. Denson has been the driving force for Nike's global growth as Nike has expanded into more than 190 countries, including China, India and Brazil.

Mr. Denson credits starting from the ground up, as well as his global experience, as a springboard for his success with Nike. His beginning with the company taught Mr. Denson the importance of creating and maintaining a strong connection with consumers but, he says, the turning point in his career came when he went to work in Amsterdam for Nike's European operations. The appointment taught him sensitivity to other cultures and philosophies which, he maintains, is paramount to his further success.

An avid Aggie fan, Mr. Denson was instrumental in Utah State's unveiling of its new athletic logo in the spring of 2012. The university worked in collaboration with Nike on a 15-month re-branding campaign that was made possible by the generosity of Mr. Denson and the long-standing association between Utah State Athletics and the Nike brand.

While attending Utah State University, Mr. Denson was a football letter winner for the Aggies. He enjoys golfing, running, tennis and skiing. He and his wife, Trina, have three children.

For his innovative and well-known business acumen, Utah State University is proud to bestow upon Charlie Denson the honorary degree, Doctor of Business.

## SAMUEL ALBA

Utah State University alum Samuel Alba has had a long and storied career in the law profession. After establishing himself in both the public and private sectors, Mr. Alba was appointed as a United States Magistrate Judge for the United States District Court for Utah.

During his time as Magistrate Judge, Mr. Alba was extremely well-respected and presided over a large and diverse roster of cases. He served as a Magistrate Judge for 20 years, five of which were spent serving as the Chief Magistrate Judge. Mr. Alba was the state of Utah's first Latino federal judge.

Mr. Alba has extensive experience in handling both civil and criminal matters and began his career working with the Federal Public Defenders office in Arizona. He then went on to work with a personal injury and criminal defense firm and later joined the United States Attorney's Office as a first assistant and chief of the criminal section. Mr. Alba followed his time with the U.S. Attorney's office by returning to private practice where he focused on commercial litigation and white collar criminal defense cases in both state and federal courts. He was then appointed as a Magistrate Judge and after retiring from his appointment in June of 2012, Mr. Alba returned to private practice where he is currently a shareholder with Snow, Christensen and Martineau.

A product of an immigrant family that migrated from Mexico to find seasonal work in the United States, Mr. Alba's parents saw to it that he and his siblings were well educated. After settling in the West, Mr. Alba attended USU where, in 1969, he graduated with a bachelor's in political science. He then went on to earn a Juris Doctorate from Arizona State University's Law School in 1972.

Mr. Alba's prominence and success in the field of law garnered him many accolades over the years. In 2005, the Utah Minority Bar Association honored him as one of the first 50 minority lawyers in Utah and, in 2009, Mr. Alba was included in *Latinos in Utah*, a book recognizing the contributions made by Latinos in the state of Utah. Mr. Alba delivered a speech in 2010 on "The Changing Face of Law in Latin America" as part of USU's College of Humanities and Social Sciences Distinguished Alumni Speaker series. In 2013, Mr. Alba was named as one of Utah's Legal Elite in the area of Criminal Law by Utah Business Magazine.

For his drive, passion and determination Utah State University is proud to bestow upon Samuel Alba the honorary degree, Doctor of Humane Letters.

### ORRIN G. HATCH

Utah Senator Orrin Hatch is known for his service, hard work and perseverance. As the senate representative for the state of Utah, Senator Hatch is a leader in developing strong legislation that has impacted the lives of every American.

Now serving his seventh term, Senator Hatch is the most senior Republican in the United States Senate. He is dedicated to Utah and fights for the ideals that define the state and its people.

His years of experience in the Senate have allowed Senator Hatch to develop several key areas of legislation for Utah and for the United States government. Senator Hatch currently serves on several committees and is the ranking member of the Senate Committee on Finance. He is a member of the Judiciary Committee; the Senate Health, Education, Labor and Pensions Committee; and the Joint Committee on Taxation. He also has the honor of serving on the board of directors for the Holocaust Memorial Museum in Washington, D.C.

Throughout his long tenure in the Senate, Senator Hatch has also been a strong supporter of Utah State University. He has been an effective advocate for USU's research capabilities and has been a leader in assisting the university to significantly expand its robust research portfolio. He has helped open doors for new and exciting opportunities for USU and its students. Whether by his frequent visits to campus, or by employing USU interns in his Washington, D.C., and Utah offices, Senator Hatch has continually demonstrated his commitment and support for USU students.

Senator Hatch began his career as a lawyer after graduating from Brigham Young University with a bachelor's in history and from the University of Pittsburgh with a Juris Doctorate. He spent 14 years as a lawyer before being elected to the United States Senate in 1977.

Senator Hatch is married to Elaine Hansen Hatch of Newton, Utah. The couple are the proud parents of six children, 23 grandchildren and 10 great-grandchildren.

For his dedication to the state of Utah and for his service to the people of America, Utah State University is proud to bestow upon Orrin Hatch the honorary degree, Doctor of Humane Letters.

## HONORARY DEGREE

### MATHANA SANTIWAT

Mathana Santiwat knew she was good with arithmetic from an early age. Growing up in a traditional Thai household in Bangkok, Dr. Santiwat was formally educated at a private Catholic school for her early education and then moved on to a Thai preparatory school. Her western education, combined with her eastern upbringing, would benefit her successful career in accounting and academics.

Dr. Santiwat currently serves as Bangkok University's president and has enjoyed a productive career in higher education in Thailand. After graduating from Thammasat University with an undergraduate degree, Dr. Santiwat joined what was then known as Bangkok College. For three years she served as a lecturer's assistant, where she aided senior students in their advanced accounting class and was the advisor for student activities, while also working as a part-time Certified Public Accountant. It was during this time that her love for teaching and education became evident.

Deciding to further her education, Dr. Santiwat was given a scholarship from Bangkok College to attend Utah State University where she came in 1976 to earn a master's in accounting. Her education and experience allowed Dr. Santiwat to return to Bangkok College where she was appointed dean of the School of Accounting. After serving as dean for three years, Dr. Santiwat was offered another scholarship to pursue a doctoral degree at the University of Kansas where she studied higher education administration, with business administration as a minor.

On her return to Thailand in 1985, Dr. Santiwat resumed her position as dean of the School of Accounting at the newly named Bangkok University. It was a period of rapid growth for the university and Dr. Santiwat moved on to become the vice president for planning and development, a position she held for one year. She was then promoted to serve as vice president for academic affairs, a position she held for 19 years until she was appointed as Bangkok University's president in May of 2007. Throughout her career in higher education, Dr. Santiwat has travelled the world as a visiting lecturer. Using her prominent position, Dr. Santiwat helps

women in Thailand, and worldwide, who find themselves victims of violence. She has served on the board for Thai Women Watch and, in 2000, was among the Thailand delegates to attend the annual meeting of the Commission on the Status of Women at the United Nations in New York.

Dr. Santiwat lives in Bangkok, Thailand, and, in her spare time, enjoys reading, playing golf and outdoor physical activities.

For her successful career and influence in the world of higher education, Utah State University is proud to bestow upon Mathana Santiwat the honorary degree, Doctor of Business.

# D. WYNNE THORNE CAREER RESEARCH AWARD

## JOHN NEELY

Throughout his 29-year career at Utah State University, Professor of Art John Neely has contributed a body of physical work and knowledge that has made a significant impact on the world of ceramic art.

Professor Neely specializes in tableware, primarily drinking and pouring vessels, that have been described as having a strong, contemporary feel. He is known as a master of atmospheric firing, a category that includes a range of firing techniques. He is especially committed to the technology of ceramics and creating a wealth of technical information, which he has disseminated over the more than 30 years of his career as a ceramic artist.

His most significant contribution to the field of ceramics is indisputably his development of a "train-kiln," a name that suggests the form of a traditional steam locomotive. This new, wood-fired kiln is a modern design that achieves the aesthetic firing qualities of a traditional Japanese Anagama kiln, but it is easier to build, much easier to fire and much more environmentally friendly.

Professor Neely has a sustained record of producing and showing his work in the most important and well-recognized exhibition venues in the world. An active and long-standing member of the international community of ceramic artists, he is well represented in collections around the world, with work in more than 100 important collections. He has given workshops and lectures at 30 worldwide institutions.

More than 50 students have worked with Professor Neely at the graduate level and have been inspired by his unique approach to the ceramics process. Because of his reputation in the ceramics community, many more students apply each year to USU's MFA program than are admitted.

Professor Neely has published the results of his creative and scientific research in professional journals and workshops, as well as via the traditional venue of the gallery exhibition. His work has appeared in such publications as *Ceramics Technical*, *Ceramics Monthly*, *NCECA Journal*, *Purple Sands Magazine*, *Studio Potters* and *Ceramics: Art and Perception*.

Professor Neely earned his BFA from Alfred University in New York in 1975, followed by an MFA from Ohio University in 1982. He is well deserving of the 2013 D. Wynne Thorne Career Research Award.

## ELDON J. GARDNER TEACHING AWARD

---

### MARLENE ISRAELSEN

Marlene Israelsen is a clinical assistant professor in the Nutrition, Dietetics and Food Sciences Department in the College of Agriculture. She has established a reputation for innovation, enthusiasm and rigor in her teaching; and her students describe her as approachable, enthusiastic, fair, extremely organized and dedicated.

In her short, six-year, teaching career at USU, Dr. Israelsen has taught more than 4,200 students in 50 courses. She has also spent time serving as the academic advisor for all undergraduate students in the NDFS Department. She is known for using technology in the classroom and enjoys the challenge of delivering content in a variety of formats.

It is clear to all who work with Dr. Israelsen that she has given her heart to teaching

“Good educators do two things — teach and reach,” Dr. Israelsen said. “Those who TEACH empower students with knowledge, skills, resources and tools. But those who REACH inspire students with purpose, vision, direction and hope. Teachers must be competent and understand course content — but they must also learn how to make real-life connections if they want to make a difference.”

Dr. Israelsen does a remarkable job, not only in teaching, but particularly in reaching her students. Utah State University is fortunate to have such an energetic and dedicated student mentor in its community.

For her outstanding work and demonstrated success in the classroom, Professor Marlene Israelsen is the 2013 Eldon J. Gardner Teacher of the Year.

## E. G. PETERSON EXTENSION AWARD

---

### CHARLES W. GAY

The E.G. Peterson Extension Award honors the Utah State University Extension professional who, in keeping with the mission and goals of USU, provides outstanding service to the state of Utah. The 2013 recipient of the E.G. Peterson Extension Award is Dr. Charles (Chuck) Gay.

For 45 years, Dr. Gay has learned, served and worked with USU's Cooperative Extension in several important functions. He has viewed Extension from a variety of angles, with an eye on the past and a vision for the future.

Upon finishing graduate school, Dr. Gay became the first Extension Range Management Specialist in the history of New Mexico State University. Following that, Dr. Gay became involved in international Extension and then transitioned into administration.

Dr. Gay currently holds the title of Associate Vice President for University Extension at Utah State University and his leadership has improved the lives of individuals, families and entire communities. His role at USU is to develop partnerships across university departments and colleges, federal and state agencies and offices and non-governmental organizations. Dr. Gay has been hugely successful with this assignment, creating dialogues and programs with a wide variety of stakeholders. These efforts have led to many important initiatives at USU, such as the Rangeland Resource group and the emphasis on economic development in rural communities.

Dr. Gay is a master presenter and an entertaining storyteller with insight that can only be gained from many years' experience. He is as comfortable in Washington, D.C., or at a cultural event, as he is on a horse. He cares deeply about people, their communities, the university and extension. One could say that he is a citizen of the world.

Dr. Gay is known on a first-name basis by hundreds of people, including all the Utah congressmen, the administration of federal and state agencies, agricultural commodity groups and natural resource activists. He has accomplished this wide recognition because of his savvy, ability to read people, forward thinking and amazing recall of facts and people. However, the most compelling reason that people know and recognize Dr. Gay is because he is such a wonderful person.

It is therefore fitting that Dr. Charles W. Gay, Jr. be recognized as the 2013 recipient of the E.G. Peterson Extension Award for Utah State University. The prestigious award is the highest honor given to extension personnel and, based on Dr. Gay's long career of exceptional service and leadership in USU Extension, he is certainly deserving of the recognition.

# INTERNATIONAL PROFESSOR OF THE YEAR

---

## DEEVON BAILEY

For more than 25 years, Dr. DeeVon Bailey has conducted international research in applied aspects of agricultural economics. Focus areas for his studies include traceability of meat contaminants, capital equipment investment decisions, livestock pricing, the pricing of milk and more. His work in these areas has impacted producer groups and public entities in North and South America, Asia, Africa and Europe.

Dr. Bailey has shown national-level leadership in international agriculture through his service as the chair of the International Development and Agriculture Coordinating Committee for the Association of Public and Land-Grant Universities. He has also served as an external reviewer for programs associated with the United States Department of Agriculture and the National Institute of Food and Agriculture.

Undergraduate and graduate students at Utah State University are beneficiaries of Dr. Bailey's passion for international research. In addition to supervising many student research projects, Dr. Bailey played a key role in the development of a joint graduate degree program with the Royal Agricultural College in Cirencester, England. More than 60 students have received degrees through this unique program that builds on the strengths of two strong agricultural institutions.

Dr. Bailey rallied interest in international research at USU while serving for almost four years as the Associate Vice President for International Research. He facilitated institutional relationships with universities and government organizations in countries from Mongolia to Mali and from Singapore to Syria. He is a widely recognized researcher whose work has been published in several academic and trade journals and he has received awards for his research both on and off campus.

# OUTSTANDING GRADUATE MENTOR AWARD

---

## MIMI RECKER

Over her 13-year career at Utah State University, Dr. Mimi Recker has taken a keen interest in helping graduate students make the transition from beginning their studies to becoming successful graduates who go on to productive careers.

In her years as a USU faculty member in the Instructional Technology and Learning Sciences Department, Dr. Recker has served as the advisor of 10 completed doctoral students and as a committee member of 10 more graduated doctoral students. She has advised 38 non-thesis master's students and has been proactive in promoting student scholarship and intellectual growth by co-authoring 12 journal articles, seven book chapters and 11 articles in refereed conference proceedings with her graduate students.

Dr. Recker's research focuses on helping educators and students reap the benefits of cyber-learning through access to high quality, interactive and free online learning resources. Through her work in these areas, Dr. Recker has received eight grants from the National Science Foundation since 2000. The grants have provided graduate assistantships for 13 graduate students and one post-doctoral fellow and resulted in several completed dissertations.

Under her mentorship, Dr. Recker's students have won "Outstanding Graduate Student" and "Outstanding Research Assistant" awards from the Instructional Technology and Learning Sciences Department and from the Emma Eccles Jones College of Education and Human Services. She has also funded student travel to national conferences and meetings to support students in presenting their research, networking and preparing for the job market. In 2000, Dr. Recker began a bi-weekly research group meeting for her graduate students and colleagues that provides a critical forum for discussion and peer mentoring. As a result of her efforts, Dr. Recker's students have been very successful in finding jobs in their chosen careers and have praised her support and dedication of their pursuits.

Dr. Recker received her bachelor's in computer mathematics from the University of Pennsylvania and worked as a software engineer in Silicon Valley for several years before earning her doctorate in education from the University of California, Berkeley. She came to USU as an associate professor in 1999, after holding positions at the Georgia Institute of Technology and Victoria University of Wellington in New Zealand. She currently serves as department head of Instructional Technology and Learning Sciences.

For her dedication to seeing her students achieve success, Dr. Mimi Recker is well deserving of the 2013 Graduate Mentor of the Year Award.

# TEACHING EXCELLENCE AWARDS

Through an extensive selection process involving both students and faculty in the various academic colleges, eight members of the faculty have been designated for special recognition for excellence in teaching representing the eight colleges of the University: Agriculture; Caine College of the Arts; Jon M. Huntsman School of Business; Emma Eccles Jones College Education and Human Services; Engineering; Humanities and Social Sciences; Natural Resources; and Science. From among the eight, The Eldon J. Gardner Teaching Award recipient is chosen; the seven remaining follow:

## Caine College of the Arts

### MIKE CHRISTIANSEN

Those who can, teach. Those who can't teach have to settle for something less. That is the mantra of Michael Christiansen, professor of guitar at Utah State University.

Professor Christiansen serves as director of guitar studies in the Music Department in the Caine College of the Arts. And, without exception, the entire guitar program at USU was developed and built by Christiansen in 1977. Today, students can earn a bachelor's degree in guitar performance but also in guitar education — among the first such program in the nation and today still among only a handful. That is why Professor Christiansen's students are sought and, in this still difficult economic environment, extremely employable.

Throughout his career, Professor Christiansen has combined a passion for teaching and performing. He is a noted guitarist and has performed in solo situations and with entertainment and industry giants.

Since beginning his tenure at USU, Professor Christiansen has given more than 75,000 private lessons, taught workshops at many schools around the world and is a frequent clinician for guitarists and educators at various conferences throughout the United States. He averages more than 130 performances annually as a soloist, with the group Mirage and with the Lightwood Duo, a clarinet-guitar duo which has released six recordings. He has performed and recorded with many internationally known artists, including Jack Petersen, Glen Frey of the Eagles, Joe Diorio, Sid Jacobs, Jose Posadas, Johnny Hilland, Natalie Cole and the Mormon Tabernacle Choir.

His teaching excellence has garnered Professor Christiansen several awards over the years, most recently being named as the state of Utah's 2012 Carnegie Professor of the Year. In 1994, Professor Christiansen was selected as Professor of the Year at Utah State University and he received the American String Teachers Association Utah Chapter Outstanding Collegiate Educator of the Year Award in 2006.

Professor Christiansen is the author and/or co-author of 44 books and has authored two new books, *Guitar Fundamentals* (Books One and Two), that are being used in the guitar blended-learning curriculum produced by Cononus Music. He has also developed curriculum and lesson plans and appears on more than 300 instructional videos used with the Cononus program. An accomplished artist, Professor Christiansen has recorded 31 music CDs and has had articles published in several magazines, including *Acoustic Guitar*, *Fingerstyle* and *Soundboard*.

**Jon M. Huntsman School of Business**

**DANIEL HOLLAND**

Professor Daniel V. Holland is an assistant professor of entrepreneurship at Utah State University.

An educator who loves to teach, Professor Holland says he thoroughly enjoys his many and varied experiences with the students in the Huntsman School of Business. He focuses on teaching creativity and innovation and tries to apply such principles in his classes involving entrepreneurship, strategy and management.

In the Huntsman School of Business, Professor Holland's research focuses on entrepreneurial decision-making, ethics and pedagogy. He is a well-respected expert in the entrepreneurial subject and has been published in outlets such as *Entrepreneurship Theory and Practice*, *International Small Business Journal* and *Frontiers of Entrepreneurship Research*.

Before joining the Huntsman School of Business, Professor Holland worked for 12 years in a variety of engineering, marketing and management roles at such high-end firms as EDS, Novell, Iomega and Zero Manufacturing.

Professor Holland received his bachelor's in electrical engineering and an MBA from Brigham Young University. He later earned a doctorate in entrepreneurship from Indiana University.

Professor Holland is married to Carole Jensen Holland and they are the parents of five children. His interests include sports, traveling and trying to keep up with his kids.

**Emma Eccles Jones College of Education and Human Services**

**JULIE GAST**

Dr. Julie Gast is an associate professor of health education in the Department of Health, Physical Education and Recreation.

Dr. Gast's teaching philosophy is centered on applications of health education concepts and university-community collaborations. She involves herself and her students in several projects, including helping her students plan, implement and evaluate health education programs for migrant farm workers, LGBTQ university students, kindergarten through eighth-grade charter school students and USU student athletes, to name just a few.

Students under Dr. Gast's mentorship consistently attribute their stellar educational experience to her enthusiasm, knowledge, variety of teaching strategies, detailed feedback and, especially, her high expectations in her coursework. Those students lucky enough to take a class from Dr. Gast leave her classroom well prepared and enthusiastic about making their contributions in the ever-changing field of health education.

In the practical realm, Dr. Gast has conducted several research based school health prevention programs, including the Planned Approach to Health Schools program and Honor Your Health program, a disordered eating prevention program for Hispanic middle school girls in Cache Valley. An accomplished researcher, Dr. Gast has published extensively on health issues related to students, including active transport to school, disordered eating behaviors, effective teaching strategies in health education and gender and ethnicity differences in the perception and behavior of physical activity.

Dr. Gast has received many awards and accolades for her dedication to her profession. In the spring of 2013, she received the Catherine Summerhays Distinguished Service Award from the Health Education Association of Utah. The award is given to a person or program that has promoted the advancement of quality health education in the state of Utah. Dr. Gast has been the "Teacher of the Year" for the HPER

department three times and was twice selected as a teaching mentor for the USU Teaching Academy. She has served in leadership roles with the School Health Education and Services Section of the American Public Health Association — which focuses on the health needs of students kindergarten through college.

### College of Engineering

## ROBERT SPALL

Dr. Robert Spall is a mechanical and aerospace engineering professor who demonstrates a sincere passion for working with students.

Although Dr. Spall's normal teaching load includes 100-student classes, he has a remarkable ability to know each student by name and how they are performing. His influence on students is independent of class standing and he shows equal concern for each and every student.

"Dr. Spall is an excellent professor," commented one student. "He is tough and hard, but prepares us well."

From the front stage in the classroom to behind the scenes mentoring students, Dr. Spall has made a long-term and positive influence in the Mechanical and Aerospace Engineering Department.

"Dr. Spall has an amazing and total understanding of anything he talks about in class," said another student. "His straightforward answers are incredibly refreshing and he is willing to take the time to help with any questions outside of the classroom."

As a professor, Dr. Spall maintains a healthy research agenda that emphasizes computational fluid dynamics. Many of his peer reviewed publications are co-authored with his students, both undergraduate and graduate. He has integrated student learning projects into his research and he has been the principle investigator for several National Science Foundation grants that have provided summer research experiences for numerous students.

"Beyond learning the fundamentals taught in a specific course, I believe what's most important for graduates is that their college experience teaches them to develop strong problem-solving and life-long learning skills and to think critically," Dr. Spall said. "Given the rapid pace in which technologies are advancing, these skills are particularly important for engineering graduates."

A former student of Dr. Spall's said there are very few individuals who truly changed the course of his career. Dr. Robert Spall is one of those individuals.

## College of Humanities and Social Sciences

### PATRICIA M. GANTT

Patricia M. Gantt is a professor of English and an associate dean in the College of Humanities and Social Sciences.

A truly gifted teacher who has made a lasting impact on Utah State University, Professor Gantt really does feel that students come first. The combination of her way with words, her passion for what she does and her true consideration for those around her is truly inspiring. Her love is working with students and she delights in all of their achievements.

Professor Gantt specializes in diversity literature, especially writers of color and women writers. She teaches courses in English education, multicultural American literature and the American South. She co-directed the Women and Gender Studies Program from 2002-05 and she continues to teach for the program. Professor Gantt's memoirs, often based on her 47 years of teaching, appear from time to time on Utah Public Radio.

Students call Professor Gantt "a model for teachers" and say "she makes you believe in yourself" and that she "always has time to help and inspire those with whom she comes

in contact."

Since coming to USU in 1999 Professor Gantt has twice been named Mortar Board "Top Prof." She received the President's Diversity Award in 2002 and was named the English Department's Teacher of the Year for 2006-07. She was invited to present the "Last Lecture" by the USU Honors program in 2007.

Professor Gantt received her doctorate with Honors from the University of North Carolina at Chapel Hill, where she specialized in American literature and in folklore.

## S.J. & Jessie E. Quinney College of Natural Resources

### DAVID KOONS

Dr. David Koons joined the Department of Wildland Resources in the S.J. & Jessie E. Quinney College of Natural Resources in 2007, and has since been an inspirational educator for both graduate and undergraduate students. Students in his classes consistently praise his hands-on teaching style and ability to explain quantitative concepts in understandable ways that address their career interests.

"I know that most of my students do not want to be mathematical biologists, but mathematics and statistics fundamentally help us understand and manage the natural resources so many of us value," Dr. Koons said. "I teach students the fundamental quantitative concepts they'll need in their careers and a few tricks for applying these concepts successfully."

Students consistently rate Dr. Koons's teaching and his classes with high marks, even though his series in population ecology is among the most quantitative and difficult. His excellence as a teacher and researcher garnered Dr. Koons the honor of being named the 2012-13 Quinney College of Natural Resources Researcher of the Year Award.

Those studying under Dr. Koons note that his experience and passion for wildlife research shines through in the classroom as he applies concepts to real-world problems and makes the learning experience more enjoyable. Dr. Koons is an example that excellent teaching and research go hand-in-hand at Utah State University.

## College of Science

### FRANK MESSINA

As a professor in USU's Department of Biology who teaches both introductory and advanced 'capstone' courses, Frank Messina jokes he gets to see "the biology majors both coming and going."

"It's rewarding to watch these students grow in understanding," said Dr. Messina, who joined USU's faculty in 1986. "I've been extremely fortunate to have bright, enthusiastic students."

The personable New England native makes a point of getting to know his students, which is no small task; Messina teaches the department's intensive, two-semester Introductory Biology sequence to roughly 700 freshmen, as well as the required Evolutionary Biology course to more than 70 biology majors.

"No other faculty member sees virtually all of our majors at both of these critical junctures in their undergraduate training, and it is a testament to Dr. Messina's formidable teaching skills that (his students) respond with overwhelmingly positive comments and evaluations," said Alan Savitzky, biology department head.

Many of Dr. Messina's students comment on his passion for biology and unflinching sense of humor.

"Dr. Messina showed me it is possible to laugh and have fun while learning a very difficult subject," wrote one student. Others praise his relaxed, unthreatening classroom atmosphere and his patience in explaining complicated topics. Dr. Messina, they say, encourages students to ask questions and urges them to hone their communications skills.

In addition to a formidable teaching load, Messina maintains an active research program on the evolution and ecology of herbivorous insects, notably seed-eating beetles.

"My research allows us to collect lots of data quickly and is especially amenable to undergraduate research," Dr. Messina says. "Not counting undergraduate lab technicians, I've mentored 37 undergraduate researchers."

One of those researchers, Jake Jones, the College of Science's 2009 valedictorian, is completing medical school at the University of Utah.

"With Dr. Messina, I published three research papers in peer reviewed journals," Mr. Jones said. "My undergrad research experiences taught me the patience and persistence required to advance scientific knowledge and helped me develop critical thinking and problem-solving skills."

Along with teaching and mentoring aspiring scientists, Dr. Messina is a calm and stalwart advocate of scientific literacy. Frequently encountering skepticism and occasional hostility toward evolution, he spends countless hours in discussion with students struggling to reconcile scientific findings with personal beliefs.

"I have worked hard to appreciate the range and source of student misunderstandings about evolution and welcome questions," he said. "Though I'm respectful of different viewpoints, I remain unflinching in presenting exactly what we know about the history of life and how we know it. To do otherwise would be a serious disservice to our students."

## DEPARTMENT OF ECONOMICS AND FINANCE

The unique approach to teaching and learning by the Utah State University Department of Economics and Finance is based on the reality that in today's society most people will encounter significant change in their personal and professional lives.

The Department of Economics and Finance focuses on "pragmatic teaching" that provides students with different ways of thinking as well as analytical tools to help them cope in an ever-changing environment. Add to that an emphasis on current events and real-world examples of changes that impact business and society and the department has a recipe for success that has been repeatedly experienced by students.

Students studying economics and finance at Utah State have outstanding opportunities to learn about the diversity of global societies to help prepare for engagement on the world stage. The department sets high expectations for its award-winning faculty with regard to teaching. Rigorous programs of peer mentoring and self-assessment help faculty in the Department of Economics and Finance continually improve their teaching and the quality of instruction delivered to students. Thus, students learn more and are better prepared for careers and life in general.

Therefore, in recognition of the outstanding achievements in education and instruction and for its exemplary devotion to student success, Utah State University presents the 2013 Department Teaching Excellence Award to the Department of Economics and Finance.

# ALUMNI ASSOCIATION LETTER

---

Dear Utah State University Graduate:

Congratulations on your graduation from Utah State University! The attainment of your degree is a significant accomplishment that represents many hours, days and years of hard work and sacrifice.

The formal awarding of degrees takes place in a ceremony called "Commencement," which means "beginning." Why do we call the end of your formal schooling the "beginning"? I think it is because the educational process is, and should be, a lifelong proposition.

This also marks the beginning of a new phase in your life – the beginning of a new career, the opportunity to apply what you have learned, or perhaps the beginning of an advanced degree. All of which are new beginnings.

I would ask that this day be the beginning, as well, of your lifelong connection to Utah State University. Let it be the commencement of a commitment to a lifetime of continued association with USU.

The mission of the Utah State University Alumni Association is "to enhance the Utah State University experience through lifelong engagement." I invite you to take full advantage of the services and benefits the Alumni Association has to offer. Last year we initiated two exciting new programs that will be available to help you in the coming years. We have started a new Alumni Career Service which will be of benefit to you not only as you look for that first job but through the coming years as well. Our other exciting program is the Aggie Alumni Network. This network is a group of alumni representatives throughout the country who are willing to share their knowledge and expertise not only about their careers but about the companies for which they work, the communities in which they live and their personal experiences as an Aggie since graduation. This is just one example of Aggies helping Aggies.

To hear more about these and other Alumni programs, it is important we have current contact information for you. Please visit our website at [www.usu.edu/alumni](http://www.usu.edu/alumni) and update your information now and each time it changes. We want to hear from you too. Let us know what you think about our new programs. Please give us a call at 1-800-297-ALUM, or stop by the David B. Haight Alumni Center.

For those of you who had the opportunity to hear Eric Greitens' commencement address last year emphasizing the importance of serving a cause greater than yourself, I hope like me you were inspired to become a more engaged alumnus. We all have much to offer to the USU community in terms of our time, talents and financial resources. Please continue your involvement with Utah State University and find simple ways in which to "give back" to your alma mater. Your support will ensure that we can continue to live by the motto of "Stand Up. Get Involved. You're an Aggie."

Good luck and much success.

Proud to be an Aggie,

Jody K Burnett  
Utah State University Alumni Association President

# ALMA MATER HYMN UTAH STATE UNIVERSITY

Theodore M. Burton

(And) cross the quad at ev-en-tide as shad-ows soft-ly fall, the through the years as time rolls on, and stu-dent friend-ships grow, we'll

tow-er of 'Old Main' ap-pears, and peace rests o-ver to all. The ne'er for-get the joys we had, those days we used to know. Thy

light-ed "A" up-on the hill stands out a-against the blue. Oh, Al-ma Mat-er, mem'-ries ev-er will be new, thy friends be ev-er true.

U-tah State, my heart sings out to you. And heart sings out to you. Oh,

Al-ma Mat-er U-tah State, my heart sings out to you.
