

Primali Paranagamage

Selected Works

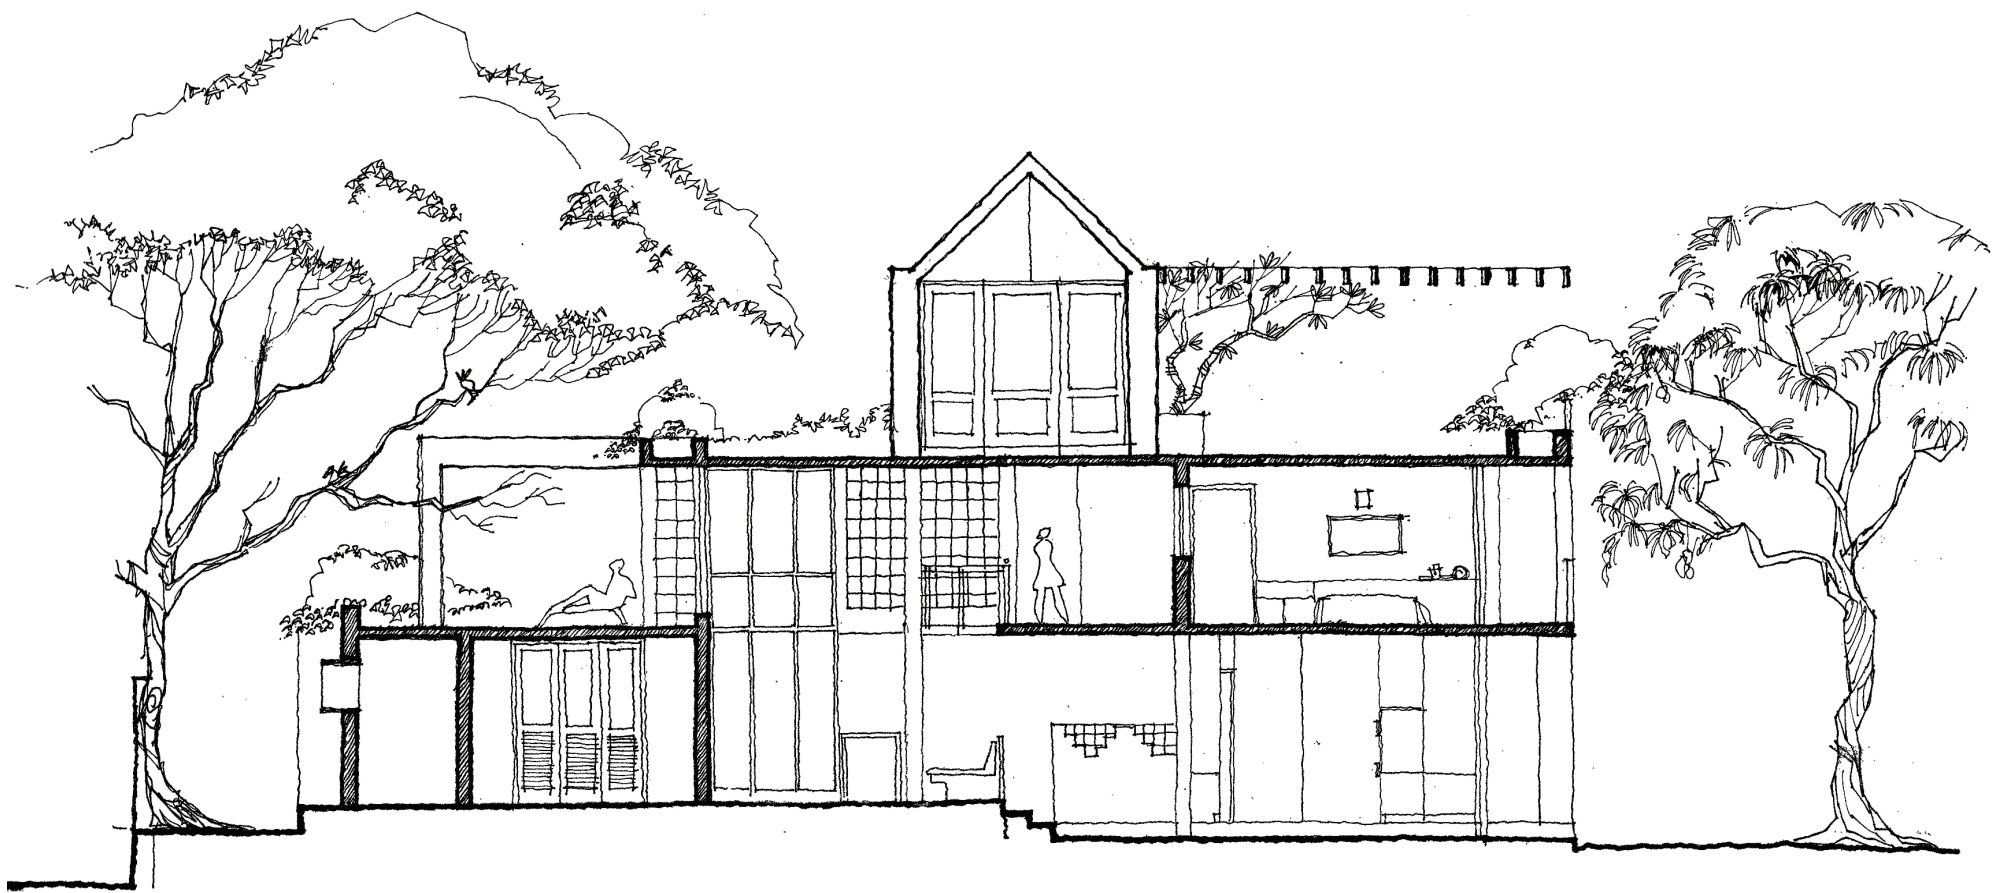

01- House for an Architect

This is on a tight urban site in the outskirts of Colombo. Outside is invited into both ground floor and upper floor levels enabling free air movement to keep the house cool. All doors, windows and columns are upcycled.

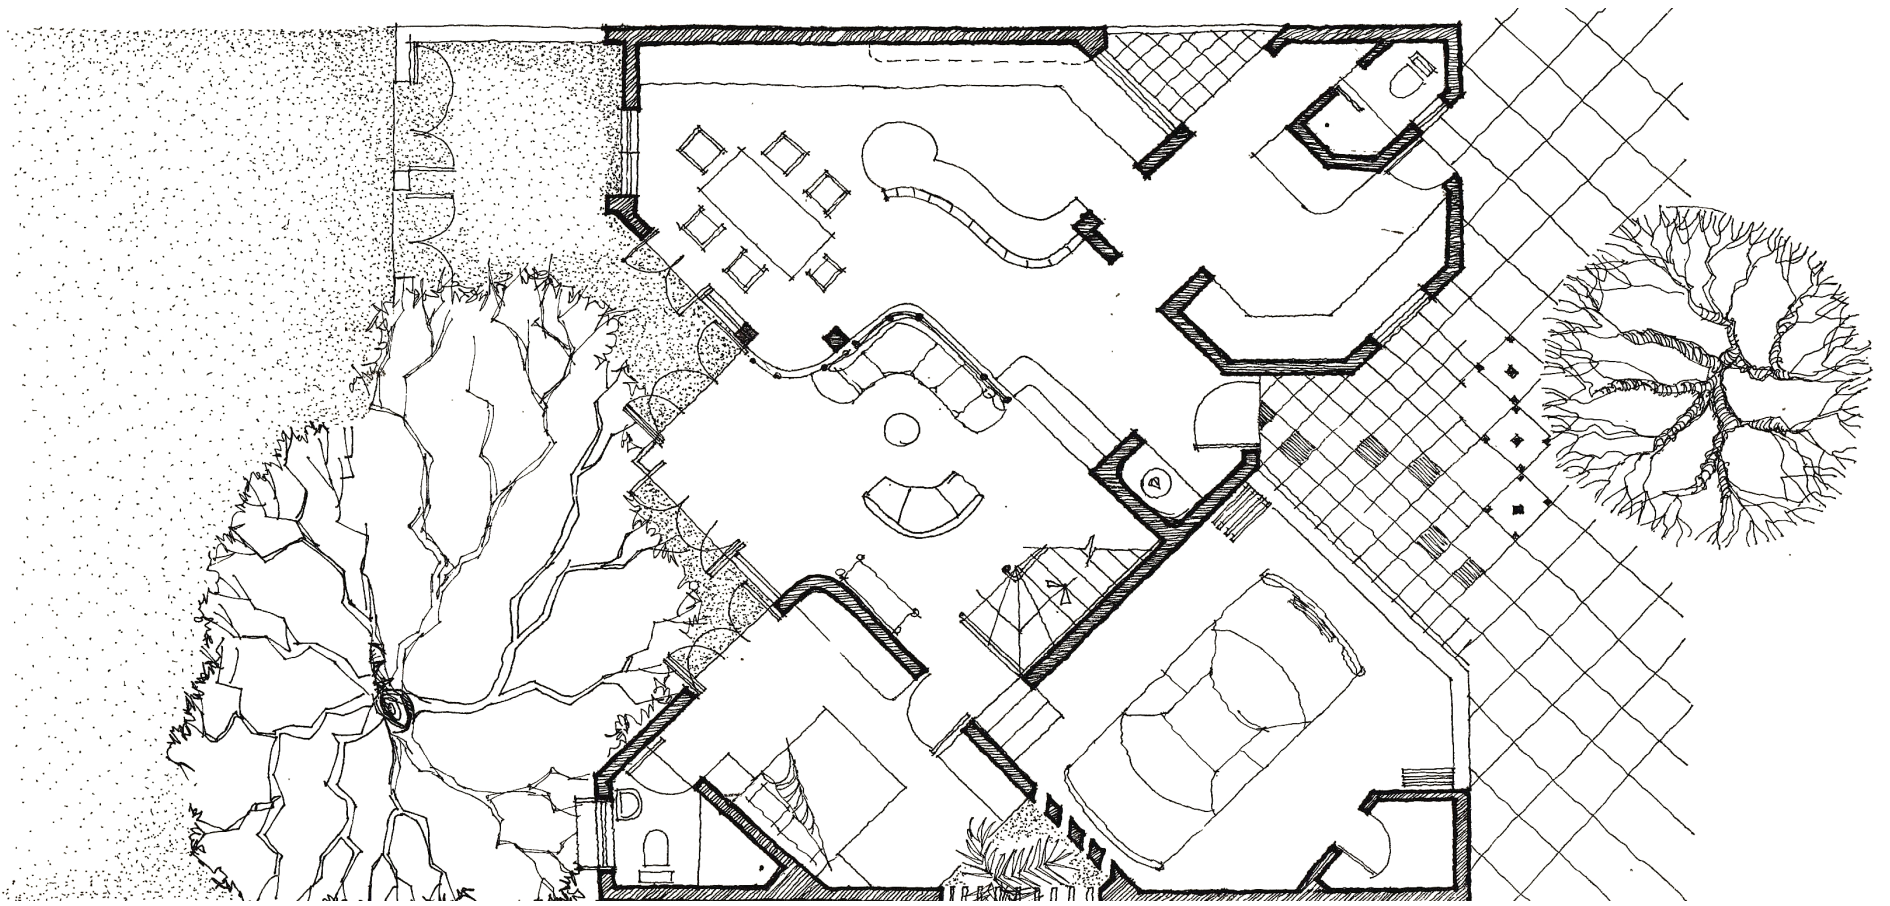

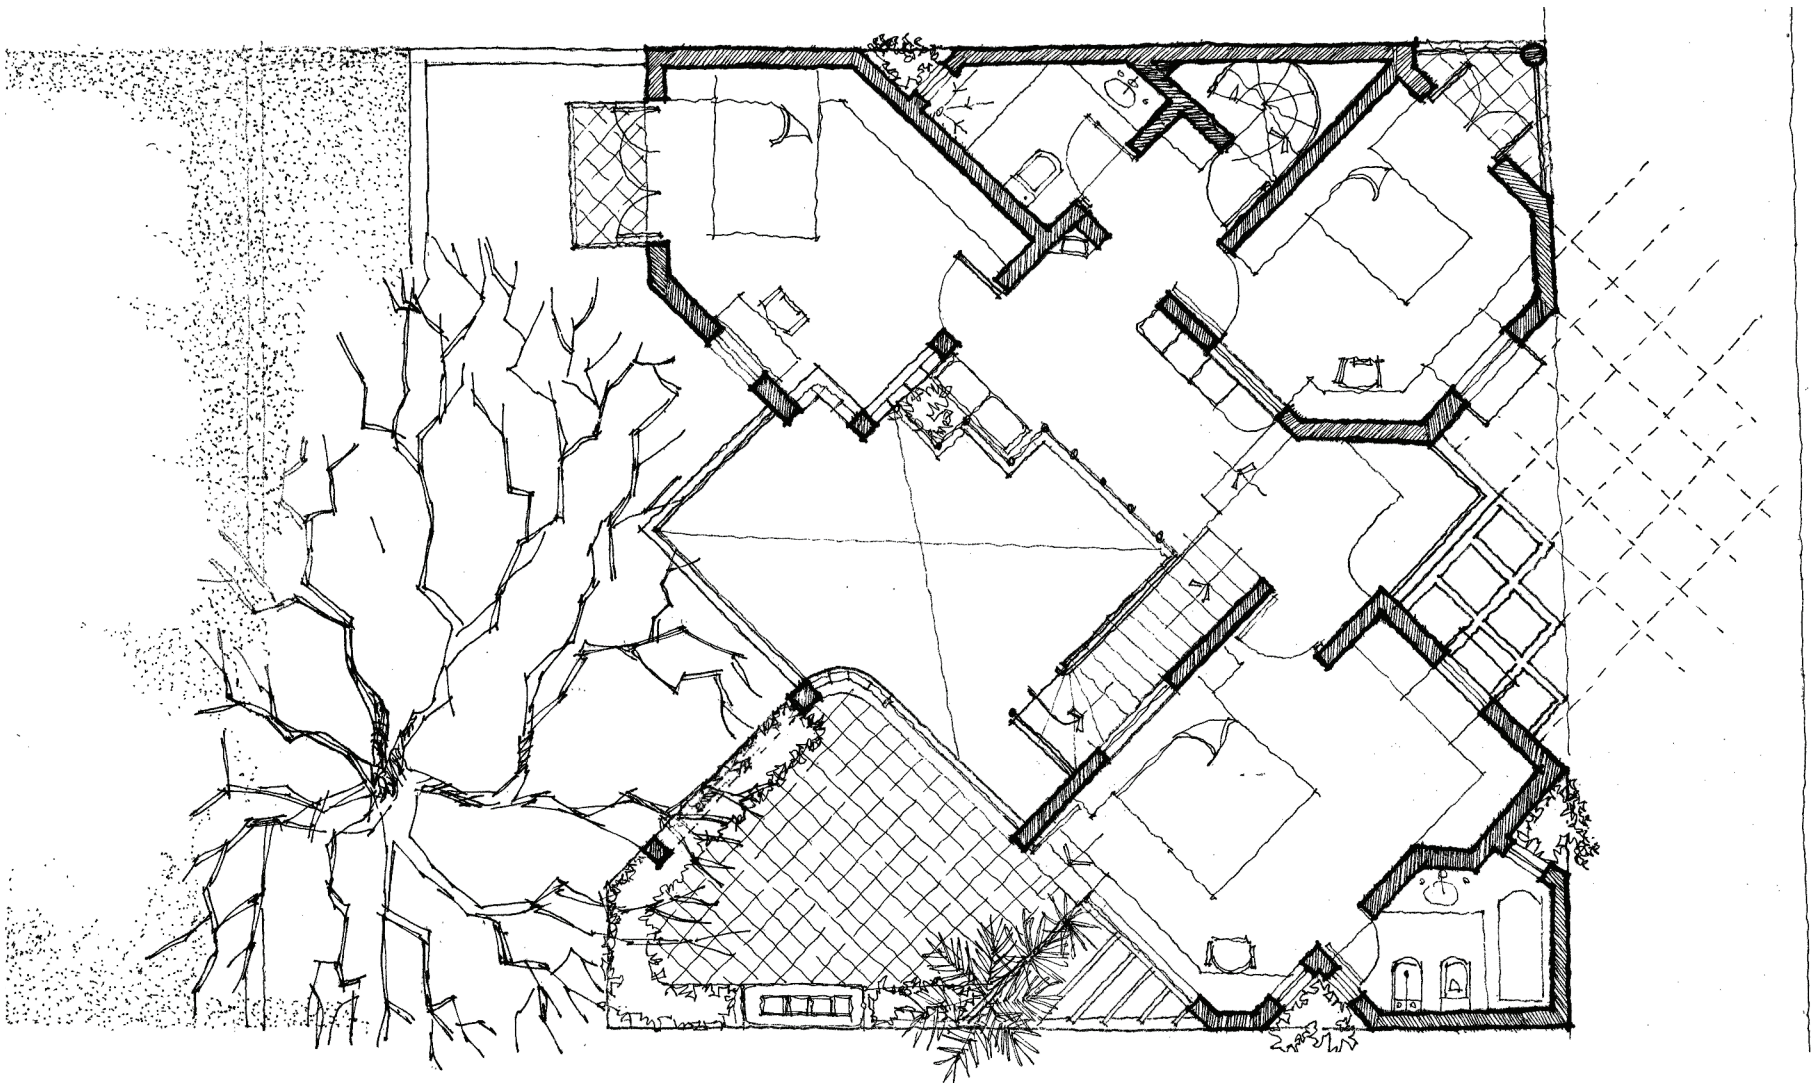

02- House for a Cricketer

This house is on a very tight square plot. The spaces were arranged diagonally to create pockets of light wells whilst responding to the canopy of the existing tree and the adjoining school play ground.

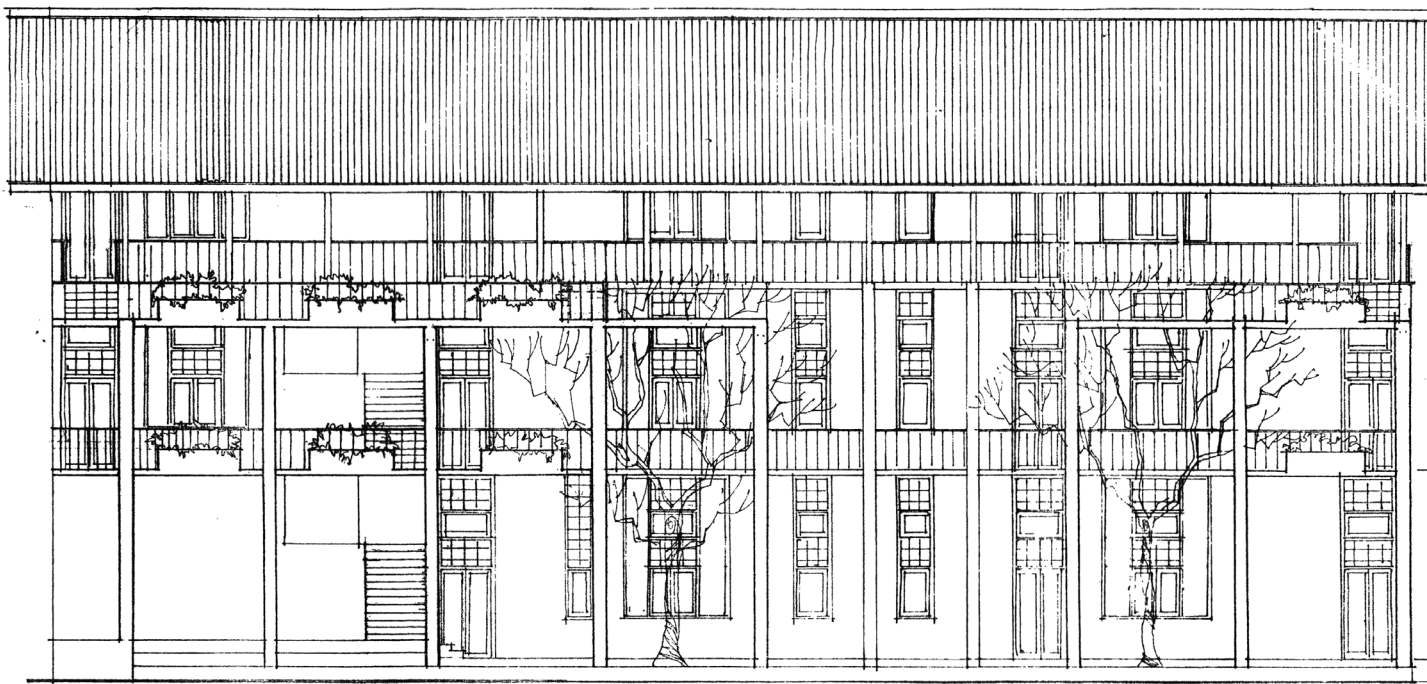

03-Tiny House in Moratuwa

04-Twin House in Colombo 4

05- Holy Family
Convent School
Colombo 4

Three storied extension to an existing
collection of school buildings in central
Colombo.

*06- Colombo
International School*

*Project Architect
Design Group Five
Chartered Architects and Engineers*

The architectural expression attempted to create the grandeur of British colonial architecture in a local idiom

07- Resettlement of Canal Bank dwellers in Colombo Sri Lanka

*Winner of the Sri Lanka Institute
of Architects' neighbourhood
design competition*

*The project questioned the architect's role
in resettling canal bank dwellers to a new
site in the city. It explored how livelihoods
could be fostered, create opportunity for
social and economic mobility, and how
housing could sustain the sub culture.*
