Fraser Economic Commentary – The complete catalogue of reviews, outlooks and articles: 1975-2015

George Macgregor and Isobel Sheppard, University of Strathclyde

To coincide with the 40th anniversary of the Fraser of Allander Institute and the Fraser of Allander Economic Commentary, the University of Strathclyde Andersonian Library has completed the necessary work to create a fully annotated and accessible digital archive of entire Fraser of Allander Economic Commentary, 1975 - 2015. The archive is the single most complete, publically accessible archive of detailed analyses and commentary on Scotland's economy and economic development from 1975 to the present. The archive includes all economic forecasts, Scottish, UK and international outlooks plus all articles published by the Fraser Economic Quarterly (1975 - 2007) and the Fraser of Allander Economic Commentary (2008 onwards).

The archive is available at **Strathprints** (<http://strathprints.strath.ac.uk/>), the digital repository of research publications of the University of Strathclyde. Articles can be searched using the [Strathprints search interface](#). All articles are also discoverable by searching your favourite Web search engine. If required, greater specificity in searching Strathprints from your favourite search engine can be achieved by using the following syntax:

```
Scottish financial sector site:strathprints.strath.ac.uk
```

Where `Scottish financial sector` is the search query and `site:strathprints.strath.ac.uk` specifies which Web domain is to be searched by the search engine (i.e. strathprints.strath.ac.uk).

Browsing is often preferable when perusing an archive for possible items of interest and a list of all articles published under the [Quarterly Economic Commentary](#) and [Fraser of Allander Economic Commentary](#) is therefore also available from Strathprints.

The following is a catalogue of the entire archive covering the period from Vol. 1 No 1 (1975) to Vol. 39 No. 2 (2015) (in reverse order from Vol. 39, No. 1). Each substantive part of the Commentary, including all international, UK and Scottish outlooks and analyses plus all published articles are included in the catalogue. The catalogue provides the item / article title, its author/s and the Commentary volume and number.

As of June 2015, the entire digital archive of the Fraser Economic Commentary became available via Strathprints. Please note all items and articles have full abstracts plus keywords to better enable them to be located by researchers.

Title	Author	Year	Issue	Vol
The Barnett formula under the Smith Reforms	Cuthbert, Jim	2015	39	1
Scotland's labour market: 'job polarisation' and inclusive growth	Rogers, Gayle; Richmond, Kenny	2015	39	1
