# Correction to: Measuring the impact of the Affordable Care Act Medicaid expansion on access to primary care using an interrupted time series approach

Elizabeth A. Brown<sup>1\*</sup> , Brandi M. White<sup>2</sup>, Walter J. Jones<sup>3</sup>, Mulugeta Gebregziabher<sup>4</sup> and Kit N. Simpson<sup>3</sup>

**Correction to: Health Res Policy Sys (2021) 19:77**

<http://doi.org/10.1186/s12961-021-00730-0>

It was highlighted that the original article [1] contained some typesetting errors in Table 1. Namely on the row for "Medicaid \$ per enrollee," there is an incorrect value (5,1205,120). That value should be 5,120 and in the

Republican row there was an extra mention of value "34 (35.4)". This Correction article shows the correct table. The original article has been updated.

The original article can be found online at <https://doi.org/10.1186/s12961-021-00730-0>.
