

# HOW TO MAKE COMPOST

LEARN. GROW. EAT

## WHAT YOU NEED:

- Large bin with lid
- Fruit & vegetable scraps
- Grass, leaves or yard clippings
- Eggshells
- Coffee grounds
- Spray bottle with water
- Shovel

SOURCE: [WWW.EDUCATION.COM](http://WWW.EDUCATION.COM)

## WHAT YOU DO:

1. Start with a large, empty bin.
2. Using a small shovel, add first layer of fruit and vegetable scraps to the bin.
3. Add layer of grass, leaves or yard clippings over the fruit and vegetable scraps.
4. Add layer of eggshells.
5. Add another layer of grass, leaves or yard clippings over the eggshells.
6. Add layer of coffee grounds.
7. For the final layer, add grass, leaves or yard clippings.
8. Using spray bottle, spray top layer lightly with water.
9. Cover bin and store outside.
10. Stir compost every 2-3 days. Be sure to keep compost moist but not completely wet.
