

Supplementary data from:

Adrenal venous sampling (AVS) in Primary Bilateral Macronodular Adrenocortical Hyperplasia (PBMAH): A study of 16 patients

German Rubinstein¹, Andrea Osswald¹, Leah Theresa Braun¹, Frederick Vogel¹, Matthias Kroiss^{1,2}, Stefan Pilz³, Sinan Deniz⁴, Laura Aigner^{4,5}, Thomas Knösel⁶, Jérôme Bertherat⁷, Lucas Bouys⁷, Roland Ladurner⁸, Anna Riester¹, Martin Bidlingmaier¹, Felix Beuschlein^{1,9}, Martin Reincke^{1\$}

The associated article has been submitted to the *The Journal of Clinical Endocrinology & Metabolism*.

Please cite the original article when using these data.

Table 1: Clinical, biochemical and radiological characteristics. Abbreviations: CS: Cushing's syndrome; MACS: Mild autonomous Cortisol secretion; F: Female; M: Male; LDDST: Low Dose Dexamethasone Suppression Test; UFC: 24h urinary free cortisol measurement; LNSLC: late-night salivary cortisol; ACTH: Adrenocorticotrophic hormone; WxDxH: Width x Depth x Height; Wt: Wildtype; NA: not available.

Table 2: Biochemical results from AVS. Lower limits of quantification: Cortisol 2 µg/dl, Aldosterone: 35 ng/ml, Metanephrite: 36 pg/ml, Normetanephrite: 48 pg/ml, DHEA-S 0.1µg/ml, Androstenedione 0.24 ng/ml. When the concentrations of the measured hormones were below the lower limit of detection of the assay, half of the lower limit of detection was used for calculation.

Abbreviations: SI: Selectivity index; LI: Lateralization index; L: Left; R: Right.

Table 3: Biochemical and genetic assays at the study sites Würzburg and Graz. Abbreviations: PFBHA: 0-(2,3,4,5,6-pentafluorobenzyl) hydroxylamine hydrochloride; MSTFA: methyltrimethylsilyltrifluoracetamide; PCR: polymerase chain reaction.

Table 1

Table 3

Assay	Würzburg, Germany	Graz, Austria
Cortisol in serum	Immuno 2000 XPi chemiluminescent immunometric assay (Siemens Healthcare Diagnostics Inc.)	ADVIA Centaur Cortisol-test on a CENTAUR XP (Siemens Healthcare Diagnostics Inc.)
ACTH	Immuno 2000 XPi chemiluminescent immunometric assay (Siemens Healthcare Diagnostics Inc.)	Immuno 2000 XPi chemiluminescent immunometric assay (Siemens Healthcare Diagnostics Inc.)
24h urinary free cortisol	Cortisol radioimmunoassay kit (Beckman Coulter)	LC-MS/MS on a HP5-MS column (derivatisation with PFBHA (0-(2,3,4,5,6-pentafluorobenzyl) hydroxylamine hydrochloride) and MSTFA (methyltrimethylsilyltrifluoracetamide))
Cortisol in saliva	Lumineszenz immunoassay (IBL International GmbH)	Enzyme-linked immunosorbent assay kit (Demeditec Diagnostics)

Aldosterone	Automated chemiluminescence immunoassay (CLIA, iSYS, Immuno Diagnostic Systems)	Chemiluminescence assay (IDS-iSYS Aldosterone assay; Immunodiagnostic Systems Ltd.)
Metanephrite	2-MET Plasma Fast track radioimmunoassay (Labor Diagnostika Nord)	MetCombi Plasma Enzyme-linked immunosorbent assay (DRG Instruments GmbH)
Normetanephrite	2-MET Plasma Fast track radioimmunoassay (Labor Diagnostika Nord)	MetCombi Plasma Enzyme-linked immunosorbent assay (DRG Instruments GmbH)
DHEA-S	Immulite 2000 XPi chemiluminescent immunometric assay (Siemens Healthcare Diagnostics Inc.)	Enzyme-linked immunosorbent assay (Labor Diagnostika Nord)
Androstendione	Immulite 2000 XPi chemiluminescent immunometric assay (Siemens Healthcare Diagnostics Inc.)	Enzyme-linked immunosorbent assay (Siemens Healthcare Diagnostics Products Ltd.)
ARMC5 mutation status		PCR for Sanger Sequencing
