INTRODUCTION

The American Institute of Certified Public Accountants is pleased to present this directory of colleges and universities that offer accounting programs. The schools are listed in alphabetical order by state. Each entry features the school's address, the name of the accounting program head (if known), and either the program head's phone number or the school's main number. In addition, the type of accounting program offered is listed after the school name. (A code key for the various types of accounting programs is listed below.)

This directory is actually a summarized version of the *1993–94 AICPA Directory of Accounting Education*. The *1993–94 Directory of Accounting Education* is a much more comprehensive reference guide, featuring detailed descriptions of the programs offered by each school, tuition and fees, lists of administrators and faculty, and other important data. The directory costs \$50. To obtain a copy, please refer to the order form insert in this document.

(Please note that the AICPA neither endorses nor recommends any one of these programs over another; individuals trying to determine the most appropriate program for their needs should contact a career advisor.)
