General Instructions:
This is a voluntary, anonymous survey. Although we do not want to know who you are, we do want to compare your answers now with your answers later. Therefore, we need a number that only you will recognize, but that when you use it – we will be able to match your initial answers with your subsequent answers. **Therefore, we want you to create your own identification number**.

Personal Identification Number Instructions:
You will do this by filling in the answers to the following questions in the spaces provided below. Please print your answers clearly.

1. In the first space, write the abbreviation for the month of the year in which you were born (e.g. Jan, Feb, Mar, Apr, May, etc.).
2. In the next spaces, indicate your height: < 5' 7" or 5' 7" or taller.
3. In the next space fill in the name of your favorite pet.
4. Then circle the *sex* (**F or M**) and fill in the *last name* of your favorite undergraduate teacher.

< 5' 7"

> = 5' 7"   F   M

_____   _____   _____   _____
Month Born In   Height   Favorite Pet's Name   UG teacher's sex & last name

Instructions:
We want to know how confident you are, in your ability to perform specific social work tasks. After you consider each task, please rate your confidence in your ability to perform that task successfully, by **circling** the number from 0 to 100 that best describes your level of confidence. What we mean here by *successfully*, is that *you would be able to perform the specific task* in a manner that a social work supervisor would consider excellent. The phrases above the numbers [*0 = Can not do at all; 50 = Moderately certain can do; and 100 = Certain can do*] are only guides. You can use these numbers or any of the numbers in between to describe your level of confidence. **We want to know *how confident* you are that you could successfully perform these tasks today.**

How confident are you that you can successfully	Cannot do at all				Moderately certain can do						Certain can do
