

D4.3 System integration technologies for Hi-Micro production platform with in-line quality control - DTU Orbit (08/11/2017)

D4.3 System integration technologies for Hi-Micro production platform with in-line quality control: High Precision Micro Production Technologies Collaborative project -Small or medium-scale focused research project 1.10.2012 –30.9.2015

General information

State: Published

Organisations: Department of Mechanical Engineering, Manufacturing Engineering

Authors: Giannakas, N. (Intern), Tosello, G. (Intern)

Number of pages: 3

Publication date: 2015

Publication information

Publisher: Hi-Micro project

Original language: English

Main Research Area: Technical/natural sciences

Bibliographical note

FP7-2012-NMP-ICT-FoF, Grant No.:314055

Relations
