

Utilizing Optical Circuits in Hybrid Packet/Circuit Data-Center Networks. - DTU Orbit (09/11/2017)

Utilizing Optical Circuits in Hybrid Packet/Circuit Data-Center Networks.

General information

State: Published

Organisations: Department of Photonics Engineering, Networks Technology and Service Platforms, IBM Research Laboratory

Authors: Ben-Itzhak, Y. (Ekstern), Caba, C. M. (Intern), Soler, J. (Intern)

Number of pages: 1

Publication date: 2016

Event: Poster session presented at 9th ACM International Systems & Storage Conference., Haifa, Israel.

Main Research Area: Technical/natural sciences

Hybrid Data Center Networks, Optical Switches

Publication: Research - peer-review › Poster – Annual report year: 2016
