Performance Analysis of M-atmospheric FSO Links - DTU Orbit (09/11/2017)

Performance Analysis of M-atmospheric FSO Links

In this paper, a generalization of the Málaga atmospheric optical communications links treated as a finite number of Generalized-K distributed sub-channels is analyzed in terms
of the average bit error rate and outage probability.

General information

State: Published
Organisations: Department of Photonics Engineering, Metro-Access and Short Range Systems, University of Malaga
Authors: Lopez-Gonzalez, F. J. (Ekstern), Garrido-Balsellss, J. M. (Ekstern), Jurado-Navas, A. (Intern), Castillo-Vazquez, M. (Ekstern), Puerta-Notario, A. (Ekstern)
Number of pages: 3
Publication date: 2016

Host publication information

Title of host publication: Propagation Through and Characterization of Atmospheric and Oceanic Phenomena
Publisher: Optical Society of America
Article number: Tu4A.4
Main Research Area: Technical/natural sciences
Conference: Propagation Through and Characterization of Atmospheric and Oceanic Phenomena, Washington DC, United States, 27/06/2016 - 27/06/2016
Source: PublicationPreSubmission
Source-ID: 124375276
Publication: Research - peer-review › Conference abstract in proceedings – Annual report year: 2016
