

## Calibration and Metrology for Micro/Nano Dimensional Quality Control. D3.5. - DTU Orbit (09/11/2017)

Calibration and Metrology for Micro/Nano Dimensional Quality Control. D3.5.: High Precision Micro Production Technologies - Collaborative project - Small or medium-scale focused research. 1.10.2012 – 30.9.2015

### General information

State: Published

Organisations: Department of Mechanical Engineering, Manufacturing Engineering, University of Bremen, DESMA TEC

Authors: Quagliotti, D. (Intern), Tosello, G. (Intern), Agour, M. (Ekstern), Flosky, C. (Ekstern), Meier, A. (Ekstern), Riemer, O. (Ekstern), Dormann, B. (Ekstern)

Number of pages: 36

Publication date: 2015

### Publication information

Publisher: Hi-Micro project

Original language: English

Main Research Area: Technical/natural sciences

### Bibliographical note

FP7-2012-NMP-ICT-FoF, Grant No.:314055

### Relations

Projects:

Calibration and Metrology for Micro/Nano Dimensional Quality Control. D3.5.

Publication: Research › Report – Annual report year: 2015
